RE: Surcharge Report for 09/25  
Original Case No: 2022-00366  
Surcharge Reporting Case No: 2023-00351

Dear Ms. Bridwell,

Per the Public Service Commission's Order in Case No. 2022-00366 regarding the assessment of a surcharge of \$1.72 on each customer bill over forty-eight (48) months for the purpose of water loss reduction, the Commission required certain information from Mountain Water District to be submitted on a monthly basis in order for the Commission to ensure compliance by the District with the intent and purpose of the surcharge expenditures.

The District began billing the surcharge in mid-January, 2024. Please see the e-filed spreadsheet detailing this information for the month of September, 2025 uploaded to Case No. 2023-00351.

The District's Water Loss Report has been uploaded to the case as well. September's water loss percentage is still up, due to our continued recovery from the February flooding event. We have purchased the vehicles and equipment for the new day time leak detection crew members and have continued to utilize funds for labor for the two (2) daytime leak detection employees that were added to our staff. The flooding in February caused havoc in our system and we had to turn valves around to purchase more from Pikeville, while we continue to leak detect and repair leaks all over the system while keeping customers in water service. I fully expect to see water loss numbers decline over the next few months.

Please contact me with any questions or concerns you may have with regard to this filing for the surcharge requirements by phone at (606) 631-6165 or via email at [tolson@mtwater.org](mailto:tolson@mtwater.org).

Sincerely,

Tammy Olson  
General Manager  
Mountain Water District
