NOW, THEREFORE, for and in consideration of the promises and conditions set forth herein, the Parties hereby stipulate and agree as follows:

ARTICLE I. MERCER COUNTY SOLAR FACILITY

1.1. In Case No. 2022-00402, the Utilities seek, among other things, a Certificate of Public Convenience and Necessity for the construction of an up to 120 MW ac solar photovoltaic facility (“Mercer County Solar Facility”) to be located on certain property¹ consisting of 858 acres in Mercer County, Kentucky which KU exclusively owns, without any encumbrances liens or other legal instruments or otherwise which might affect a clean title to the property. One of Mercer’s positions in Case No. 2022-00402 is that the property proposed to be used for that solar facility is better suited for Mercer’s or Mercer County’s development of an industrial park. Parties agree that the Purchase Agreement attached as Exhibit 1 will facilitate economic development in and for Mercer County and the Commonwealth of Kentucky by creating the opportunity for a unique industrial park in Mercer County adjacent to the Mercer County Solar Facility. The County is appreciative of the cooperativeness being shown by Utilities in allowing for the development of the 858 acre site and looks forward to working with Utilities in the event that it is successful in its application and acquires the contiguous property. The County recognizes the importance of renewable energy and withdraws its opposition to the proposed Mercer County Solar Facility. If approved, the Mercer County Solar Facility shall be maintained with appropriate plantings and ground maintenance consistent with the that provide a reasonable perimeter screening to reduce the effects to the viewscape of Mercer County Solar Facility from occupied residences. Utilities may satisfy the screening requirements by incorporating one or a combination of the following:

- (1) Where practical, any existing natural tree growth and landforms along the applicable boundary of the site shall be preserved and may create a sufficient buffer.

¹ The property proposed to be used is more specifically described in the Purchase Agreement attached hereto as Exhibit 1.

- (2) A vegetative buffer which shall incorporate a double row of evergreens a minimum of 8' in height at planting with a minimum height of 15' at full growth planted no more than 20ft from exterior of security fence. Trees are to be replaced upon dying within 30 days.
- (3) In lieu of vegetative buffers, an opaque fence may be used, provided, that the fencing material or veneer is, or has the appearance, of wood, stone, or other natural materials and is constructed so that it is at least eight (8) feet high when measured at grade.

ARTICLE II. THE PURCHASE AGREEMENT

2.1 In an effort to resolve their differences in Case No. 2022-00402, the Parties have, in good faith, negotiated the Purchase Agreement attached as Exhibit 1. Subject to all of the terms, conditions, and covenants set forth in the Purchase Agreement, the Purchase Agreement provides for the following: (1) KU will sell to Mercer nearly all of the approximately 858 acres that was planned to be used for the Mercer County Solar Facility so that Mercer can use it for the development of an industrial park; (2) KU's obligation to sell that property to Mercer is contingent upon KU's successful acquisition of approximately 1007 acres of land located nearby in Mercer County which the Utilities will then use for development of the Mercer County Solar Facility in Case No. 2022-00402; (3) the obligations under the Purchase Agreement are contingent on the Commission's issuance of a CPCN for the Mercer County Solar Facility and approval of the sale of the property under KRS 278.218, and the Siting Board's issuance of a Site Compatibility Certificate for the Mercer County Solar Facility pursuant to KRS 278.216, with each such approval acceptable to Utilities.

ARTICLE III. REQUEST FOR APPROVAL TO SELL LAND UNDER KRS 278.218(1)(a)

3.1. KRS 278.218(a) requires Commission approval for the transfer of ownership of a utility asset having an original book value of one million dollars (\$1,000,000) or more if the asset to be transferred is for a reason other than obsolescence. The Parties hereby request Commission approval of the transfer of land described in the Purchase Agreement from the Utilities to Mercer in compliance with KRS 278.218(a).

ARTICLE IV. MISCELLANEOUS PROVISIONS

4.1. The Parties agree that the foregoing Stipulation represents a fair, just, and reasonable resolution of the issues addressed herein between them and request that the Commission approve the Stipulation. The Parties further agree no other intervenor in Case No. 2022-00402 is a party to this Stipulation and that the terms of this Stipulation apply only to the Utilities and Mercer.

4.2. Following the execution of this Stipulation, the Parties shall cause the Stipulation to be filed with the Commission on or about August 15, 2023, together with a request to the Commission for consideration and approval of this Stipulation.

4.3. This Stipulation is subject to the acceptance of, and approval by, the Commission. The Parties agree to act in good faith and to use their best efforts to recommend to the Commission that this Stipulation be accepted and approved. The Parties commit to notify each other of any perceived violation of this provision so the Party may have an opportunity to cure any perceived violation, and they commit to work in good faith to address and remedy promptly any such perceived violation. In all events, counsel for the Utilities and Mercer will represent to the Commission that the Stipulation is a fair, just, and reasonable means of resolving all issues in these

proceedings that are the subject of this Stipulation and will clearly and definitively ask the Commission to accept and approve the Stipulation as such.

4.4. If the Commission issues an order adopting this Stipulation in its entirety and without additional conditions, each of the Utilities and Mercer agree that it shall file neither an application for rehearing with the Commission, nor an appeal to the Franklin Circuit Court with respect to such order.

4.5. If the Commission does not accept and approve this Stipulation in its entirety, then any adversely affected Party may withdraw from the Stipulation within the statutory periods provided for rehearing and appeal of the Commission's order by (1) giving notice of withdrawal to all other Parties and (2) timely filing for rehearing or appeal. If any Party timely seeks rehearing of or appeals the Commission's order, all Parties will continue to have the right to withdraw until the conclusion of all rehearings and appeals. Upon the latter of (1) the expiration of the statutory periods provided for rehearing and appeal of the Commission's order and (2) the conclusion of all rehearings and appeals, all Parties that have not withdrawn will continue to be bound by the terms of the Stipulation as modified by the Commission's order.

4.6. This Stipulation has no effect on and does not apply to rehearing or appeal rights the Utilities or Mercer may have with respect to any intervenor in Case No. 2022-00402 except for Mercer. Further, this Stipulation does not apply to matters outside the scope of this Stipulation, including, but not limited to, matters relating to facilities proposed in Case No. 2022-00402 other than the Mercer County Solar Facility, the retirement of coal-fired generating facilities, or demand-side management programs.

4.7. If the Stipulation is voided or vacated for any reason after the Commission has approved the Stipulation, none of the Parties will be bound by the Stipulation.

4.8. The Stipulation shall in no way be deemed to affect or diminish the jurisdiction of the Commission of jurisdiction under Chapter 278 of the Kentucky Revised Statutes.

4.9. The Stipulation shall inure to the benefit of and be binding upon the Parties hereto and their successors and assigns.

4.10. The Stipulation constitutes the complete agreement and understanding among the Parties, and any and all oral statements, representations, or agreements made prior hereto or contemporaneously herewith shall be null and void and shall be deemed to have been merged into the Stipulation.

4.11. The Parties agree that, for the purpose of the Stipulation only, the terms are based upon the independent analysis of the Parties to reflect a fair, just, and reasonable resolution of the issues herein and are the product of compromise and negotiation.

4.12. The Parties agree that neither the Stipulation nor any of its terms shall be admissible in any court or commission except insofar as such court or commission is addressing litigation arising out of the implementation of the terms herein, the approval of this Stipulation, or a Party's compliance with this Stipulation. This Stipulation shall not have any precedential value in this or any other jurisdiction.

4.13. The signatories hereto warrant that they have appropriately informed, advised, and consulted their respective Parties in regard to the contents and significance of this Stipulation and based upon the foregoing are authorized to execute this Stipulation on behalf of their respective Parties.

4.14. The Parties agree that this Stipulation is a product of negotiation among all Parties hereto, and no provision of this Stipulation shall be strictly construed in favor of or against any Party. Notwithstanding anything contained in the Stipulation, the Parties recognize and agree that

the effects, if any, of any future events upon the operating income of the Utilities are unknown and this Stipulation shall be implemented as written.

4.15. The Parties agree that this Stipulation may be executed in multiple counterparts.

Lexington Street, Harrodsburg, Kentucky and 208 S Main Street, Harrodsburg, Kentucky (the “**Buyers**”).

WHEREAS, Seller is the owner in fee simple of that certain real property comprising approximately 858 acres located near U.S. Highway 127 in Harrodsburg, Mercer County, Kentucky; and

NOW, THEREFORE, in consideration of the mutual representations, benefits and covenants contained herein, and other good and valuable consideration, the receipt and sufficiency of which are acknowledged, Seller and Buyers covenant and agree as follows:

1. Property; Purchase and Sale.

A. The Property. The real property to be sold by Seller comprises approximately 858 acres located near U.S. Highway 127 in Harrodsburg, Mercer County, Kentucky, together with any and all improvements now existing or hereafter located thereon and all rights, privileges and appurtenances belonging thereto, excepting (a) an approximately five (5) acre parcel, and associated access and transmission-line easements, as set forth in Section 1(D) below, and (b) the facilities, and associated easement, related to Seller’s electric transmission and distribution facilities as set forth in Section 1(E) below, and which real property is identified as the “Southern Land” on the rendering attached hereto as Exhibit ‘A’, and as more particularly described on Exhibit ‘B’, both attached hereto and subject to change as set forth herein and to be further shown on the Minor Subdivision Plat defined in Section 1(C) below (the “Property”).

B. Purchase and Sale. Seller agrees to sell, convey and transfer the Property to Buyers (or Buyers’ designee), and Buyers agree to buy the Property from Seller, pursuant to the terms, conditions and covenants contained herein.

C. Contingencies to Seller’s Performance.

(i) Seller’s obligation to sell the Property to Buyers is subject to and contingent upon Seller’s successful acquisition of approximately 1007 acres located in Mercer County, Kentucky (collectively, the “Northern Land”), from Ceres Farms LLC (“Ceres”), and Mercer County Solar Project, LLC (“MC Solar”), located generally north and adjacent to the Property. MC Solar owns a 459 acres parcel, and Ceres holds one option to purchase an additional 406 acres and a second option to purchase an additional 142 acres, with both options

having been assigned to MC Solar. Seller is currently under contract with MC Solar pursuant to a Real Estate Purchase, Sale and Assignment Agreement dated June 8, 2023, to purchase the Northern Property. (Seller proposes to build up to a 120 MW ac solar photovoltaic facility on the Northern Land).

(ii) Seller's obligation to sell the Property to Buyers are further subject to and contingent upon the Kentucky Public Service Commission ("KPSC") granting Seller in KPSC Case No. 2022-00402 (a) a certificate of public convenience and necessity to construct up to a 120 MW ac solar photovoltaic facility on the Northern Land, (b) the Generation and Transmission Siting Board's issuance of an Site Compatibility Certificate for the Mercer County Solar Facility pursuant to KRS 278.216, and (c) approval, if necessary, to sell the Property to Buyers pursuant to KRS 278.218. In consideration of this Agreement, Buyers agree to sign and file the Stipulation and Recommendation executed by the Parties on August 14, 2023.

The Buyers agrees to support the approval of the Minor Plat by the Mercer County Joint Planning and Zoning Commission.

(iv) In the event, that the contingencies set forth in subparagraphs C(i),(ii) and (iii) are satisfied, Sellers agree that they will sell to Buyers the approximately 100 acres of the Northern Land containing the railroad. The approximate location of this 100 acres is shown on Exhibit D to this Agreement. The parties understand that the acquisition of this parcel by Buyers is essential to Buyers' future development plans. The sale of this portion of the Northern land will be included in the final survey and sales price as set forth in section 1A.

D. Property Exception and Associated Easements. Within forty-five (45) days after the Effective Date (the "Seller's Survey Period"), Seller shall obtain and internally approve a survey identifying an approximately five (5) acre parcel (the "Substation Parcel"), an associated access easement connecting the Substation Parcel to a public road (the "Substation Access Easement"), and an associated transmission-line easement connecting the Substation Parcel to Seller's adjacent property or existing electric-transmission facilities located on the Property (the "New Transmission Line Easement"). Seller shall provide Buyers with a copy of said survey by no later than five (5) days after the expiration of the Seller's Survey Period. Upon conveyance of the Property to Buyers, Buyers shall, at closing (defined below) convey to Seller the New Transmission Line Easement for the future construction, operation, and maintenance of electric lines in accordance with the Easement Agreement attached hereto as Exhibit C. The Substation Parcel and the easements described herein shall be further identified and shown on the Minor Plat. Seller is responsible for all costs associated with the Existing Transmission Line, including the costs of the Minor Plat application and approval, surveys, legal descriptions, and recording.

2. Purchase Price. The purchase price for the Property is \$20,820.00 per acre. The actual acreage of the Property shall be determined by the Survey to be obtained by Buyers in accordance with Section 7(A)(iv) below.
