

correctly calculated quarterly reports, avoid the need for additional Commission proceedings to review and correct future GCR Rate filings, and avoid the Commission expending valuable resources needlessly. Valley Gas made its motion after Commission Staff rejected its informal approaches for assistance and had advised Valley Gas to request a conference.

3. As of this date the Commission has neither acted upon Valley Gas's motion for a conference nor has it issued a final decision in Case No. 2023-00385.

4. Having received no guidance regarding the correct methodology to use in the preparation of its quarterly GCR Rate filings, Valley Gas on May 30, 2024, filed with the Commission its quarterly GCR Rate filing using the methodology that it has previously used.

5. On June 28, 2024, the Commission established Case No. 2024-00175 to investigate Valley Gas's most recent GCR Rate quarterly filing for the same reasons for which Case No. 2023-00385 was initiated.

6. Valley Gas respectfully submits that a conference between Commission Staff and Valley Gas to discuss the methodology that Valley Gas should employed to calculate its GCR Rate in future GCR filings will likely result in the submission of properly calculated quarterly reports, avoid need for additional Commission proceedings to review and correct future GCR Rate filings, and reduce the expenditure of valuable resources.

WHEREFORE, Valley Gas requests that the Commission schedule a videoconference in these matters for the purpose of discussing the methodology that Valley Gas should employ to calculate its Gas Cost Recovery Rate.

Dated: July 15, 2024

Respectfully submitted,

W. Duncan Crosby III
