POWELL'S VALLEY WATER DISTRICT
CASE NO. 2023-00387 SUPPLEMENTAL RESPONSE TO
COMMISSION STAFF'S THIRD REQUEST FOR INFORMATION

2. Refer to Powell's Valley District's response to Staff's First Request, Item 25. Powell's Valley stated that it will provide its findings in a supplemental response but has not provided it yet. Explain and provide support for such a large adjustment to the adjusted test year revenues from water sales. If Powell's Valley District is still reviewing the system billing information, then provide an estimated date by when that information will be submitted to the Commission.

Response: Powell's Valley Water District (District) discovered discrepancies in the information relied on to develop the test year billing analysis provided in its application. These discrepancies have a significant impact on the rate study. Due to the resulting impact and timing of this discovery the District requests the Commission Staff consider calculating the determination of Revenue Requirement using the operating ratio method in their Staff Report. See the attached files, Test Year Billing Analysis.pdf and revised Rate Study workpapers containing the updated test year billing analysis, titled PVWD Rate Study Revised BA.xlsx.
