RE: Case No. 2023-00401  
Peaks Mill Water District  
Correction of Customer Notice

Dear Ms. Bridwell:

Enclosed for filing in the referenced case is a corrected Customer Notice.

Peaks Mill Water District identified an error in second sentence in the first paragraph on the second page of the Customer Notice:

“The monthly water bill for a customer with a 1” meter using an average of 22,000 gallons per month will increase from \$189.94 to \$213.38 for an increase of \$23.44 or 12.34%.

That sentence has been corrected to read:

“The monthly water bill for a customer with a 1” meter using an average of 22,000 gallons per month will increase from \$189.94 to \$249.05 for an increase of \$59.11 or 31.12%.”

This corrected customer notice will be used in the remaining newspaper advertisement. Also, this corrected customer notice will be mailed directly to the customers with a 1” or larger meter.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Robert K. Miller
