RE: **Case No. 2023-00461**
Investigation of Pole Attachments

Dear Ms. Bridwell:

Kentucky Broadband and Cable Association (“KBCA”), by and through counsel, hereby submits its Update regarding the status of Charter Communications pole attachments with the Kentucky Electric Cooperatives (“KEC”). McClean Engineering confirmed with Charter Communications that the data is accurate. KBCA acknowledges some differences in the data submitted by KEC on June 16, 2025, and KBCA’s data in this filing. For example, KBCA coordinates data with McClean Engineering, which has no or limited interaction with Salt River and Shelby Energy. There are also smaller differences with the number of poles identified in in the two data filings.

The undersigned counsel certifies that the document filed electronically is a true, accurate and complete representation of the original document and has been transmitted to the Commission. No party to this case has been excused from participation by electronic means.

Please contact me if you have any questions.

Sincerely,
STURGILL, TURNER, BARKER & MOLONEY, PLLC
