| 14                  | Kentucky Public Service Commission (the "Commission"), pursuant to 807 KAR  |  |  |  |  |  |  |

Nucor's private usage information.

7. KRS 61.878(1)(a) protects "[p]ublic records containing information of a personal nature where the public disclosure thereof would constitute a clearly unwarranted invasion of personal privacy."

unwarranted invasion of personal privacy." 5 6 8. The Confidential Information in the Direct Testimony of Talina R. Mathews reveals the power usage and billing information of an individual large 7 8 industrial retail customer on the Big Rivers system, Nucor Corporation ("Nucor"). 9 Because this customer is not a party to this proceeding, publicly revealing such 10 information would constitute a clearly unwarranted invasion of personal privacy. 11 Moreover, the Commission granted confidential treatment to Nucor's power usage 12 data and billing information for an indefinite period in the three prior cases 13 reviewing Big Rivers' MRSM credit, Case No. 2021-00061; Case No. 2022-00028; and Case No. 2023-00038.3 As such, Big Rivers requests confidential treatment 14 15 for the customer-specific usage data and billing information in order to protect

|---|----|---|
| 2 |    | treatment under KRS $61.878(1)(c)(1)$                         |

3 9. Under the Kentucky Open Records Act, the Commission is entitled to withhold from public disclosure "records confidentially disclosed to an agency 4 or required by an agency to be disclosed to it, generally recognized as confidential 5 6 or proprietary, which if openly disclosed would permit an unfair commercial 7 advantage to competitors of the entity that disclosed the records." KRS 8 61.878(1)(c)(1). Public disclosure of the Confidential Information would permit 9 such a result as discussed fully below. 10 10. The Confidential Information is also entitled to confidential 11 protection based upon KRS 61.878(1)(c)(1), which protects "records confidentially 12 disclosed to an agency or required by an agency to be disclosed to it, generally 13 recognized as confidential or proprietary, which if openly disclosed would permit 14 an unfair commercial advantage to competitors of the entity that disclosed the records." See 807 KAR 5:001 Section 13(3)(a)(1). In support for this ground of 15 16 granting confidential protection, Subsection I infra describes how Big Rivers 17 operates in competitive environments; Subsection II infra explains that the 18 Confidential Information is generally recognized as confidential or proprietary; 19 and Subsection III infra demonstrates that public disclosure of the Confidential 20 Information would permit an unfair commercial advantage to Big Rivers' 21competitors. As such, the Commission should grant confidential treatment to the

Confidential Information.

## SECTION I

| 2 | Big Rivers Faces Actual C | <u>competition</u> |
|---|---------------------------|--------------------|
|   |                           |                    |

| 3  | 11. Big Rivers must successfully compete in the wholesale power market                |
|----|---|
| 4  | in order to sell excess energy to meet its members' needs, including competition      |
| 5  | in: term bilateral energy markets, day-ahead and real-time energy and ancillary       |
| 6  | services markets, the annual capacity market, and forward bilateral long-term         |
| 7  | wholesale agreements with utilities and industrial customers. Big Rivers' ability     |
| 8  | to successfully compete in these wholesale power markets is dependent upon an         |
| 9  | effective combination of a) obtaining the maximum price for the power it sells and    |
| 10 | the best contract terms, and b) keeping its cost of production as low as possible.    |
| 11 | Fundamentally, if Big Rivers' cost of producing a kilowatt hour or its business       |
| 12 | risk increases, its ability to sell that kilowatt hour in competition with other      |
| 13 | utilities is adversely affected.  |
| 14 | 12. Big Rivers also competes for reasonably-priced credit in the credit               |
| 15 | markets, and its ability to compete is directly impacted by the financial results it  |
| 16 | obtains and the business risks it assumes. Any event that adversely affects Big       |
| 17 | Rivers' financial results or increases its business risks may adversely affect the    |
| 18 | price it pays for credit. A competitor armed with Big Rivers' proprietary and         |
| 19 | confidential information will be able to increase Big Rivers' costs or decrease Big   |
| 20 | Rivers' revenues, which could in turn affect Big Rivers' apparent                     |
| 21 | creditworthiness. Impediments to Big Rivers' obtaining the best contract terms        |
| 22 | could likewise affect its apparent creditworthiness. A utility the size of Big Rivers |

- 2 cash and borrowing requirements for both anticipated and unanticipated needs.
- 3 Big Rivers expects to be in the credit markets on a regular basis in the future, and
- 4 it is imperative that Big Rivers improve and maintain its credit profile.
- 5 13. Accordingly, Big Rivers faces competition in the wholesale power and
- 6 capital markets, and the Confidential Information should be afforded confidential
- 7 treatment to prevent the imposition of an unfair competitive advantage to those
- 8 competitors.

13

## 9 <u>SECTION II</u>

## 10 <u>The Confidential Information is Generally Recognized as</u> 11 <u>Confidential or Proprietary</u>

12 14. The Confidential Information for which Big Rivers seeks confidential

treatment under KRS 61.878 is generally recognized as confidential or

- 14 proprietary under Kentucky law.
- 15. As noted above, the Confidential Information contained in the Direct
- 16 Testimony of Dr. Mathews includes power usage data and billing information of
- an individual large industrial retail customer on the Big Rivers system. Big
- 18 Rivers and Nucor operate in competitive markets and the public disclosure of
- 19 such information could cause both an economic disadvantage in negotiating
- 20 future transactions, as their competitors and potential counterparties would have
- 21 insight into their power needs or the prices at which they are willing to buy or sell
- 22 power.

| 1  | 16. Information such as this which bears upon a company's detailed                |
|----|---|
| 2  | inner workings is generally recognized as confidential or proprietary. See, e.g., |
| 3  | Hoy v. Kentucky Indus. Revitalization Authority, 907 S.W.2d 766, 768 (Ky. 1995)   |
| 4  | ("It does not take a degree in finance to recognize that such information         |
| 5  | concerning the inner workings of a corporation is 'generally recognized as        |
| 6  | confidential or proprietary"); Marina Management Services, Inc. v.                |
| 7  | Commonwealth, Cabinet for Tourism, 906 S.W.2d 318, 319 (Ky. 1995) ("These are     |
| 8  | records of privately owned marina operators, disclosure of which would unfairly   |
| 9  | advantage competing operators. The most obvious disadvantage may be the           |
| 10 | ability to ascertain the economic status of the entities without the hurdles      |
| 11 | systematically associated with acquisition of such information about privately    |
| 12 | owned organizations").  |
| 13 | 17. As noted above, the Confidential Information also includes                    |
| 14 | information related to confidential decommissioning bids to Big Rivers and its    |
| 15 | analysis of those bids, contained in Exhibits Berry-2(a) and Berry-2(b).          |
| 16 | 18. The Commission has often found that information similar to the                |
|    |   |

Confidential Information contained in Exhibits Berry-2(a) and Berry-2(b), relating to competitive bidding is generally recognized as confidential and proprietary. See, In the Matter of: Electronic Application of Big Rivers Electronic for Annual Review of its MRSM Charge for Calendar Year 2022, P.S.C. Case No. 2023-00038, Order (Sept. 19, 2023) (granting confidential treatment of substantially similar bidding information for an indefinite period); See, e.g., In the

| 3        | 19. The Confidential Information is not publicly available, is not   |
| 4        | disseminated within Big Rivers except to those employees and professionals with  |
| 5        | a legitimate business need to know and act upon the information, and is not  |

| 11<br>12 | <u>Disclosure of the Confidential Information Would Permit an Unfair</u><br><u>Commercial Advantage to Big Rivers' Competitors</u> |
| 13       | 21. Public disclosure of the Confidential Information will adversely   |
| 14       | affect Big Rivers in several respects.   |
| 15       | 22. Disclosure of the Confidential Information would afford Big Rivers'  |
| 16       | competitors an unfair commercial advantage. As discussed above, Big Rivers   |
| 17       | faces actual competition in the power markets and in the credit markets. It is   |

<sup>&</sup>lt;sup>4</sup> In P.S.C. Case No. 2003-00054, the Commission additionally implicitly accepted ULH&P's argument that the bidding contractors would not want their bid information publicly disclosed, and that disclosure would reduce the contractor pool available to ULH&P, which would drive up ULH&P's costs, hurting its ability to compete with other gas suppliers. In the Matter of Application of the Union Light, Heat and Power Company for Confidential Treatment, P.S.C. Case No. 2003-00054, Order (Aug. 4, 2003). Similarly, in Hoy v. Kentucky Indus. Revitalization Authority, the Kentucky Supreme Court found that without protection for confidential information provided to a public agency, "companies would be reluctant to apply for investment tax credits for fear the confidentiality of financial information would be compromised." Hoy v. Kentucky Indus. Revitalization Authority, 907 S.W.2d 766, 769 (Ky. 1995).

- 2 future transactions and thus competitive injury if the Confidential Information
- 3 were publicly disclosed, and the information should therefore be subject to
- 4 confidential treatment.
- 5 23. The Confidential Information contained in Exhibits Berry-2(a) and
- 6 Berry-2(b). could be used to manipulate the bidding process, leading to higher
- 7 costs for future Big Rivers construction or decommissioning projects. Also,
- 8 disclosure of the Confidential Information could discourage contractors from
- 9 offering bids to Big Rivers, reducing its contractor pool for future construction and
- decommissioning projects. In P.S.C. Case No. 2003-00054, the Commission
- implicitly accepted the Union Light, Heat, and Power Company's argument that
- the bidding contractors would not want their bid information publicly disclosed,
- and that disclosure would reduce the contractor pool available to ULH&P, which
- would drive up ULH&P's costs, hurting its ability to compete with other gas
- suppliers. In the Matter of Application of the Union Light, Heat and Power
- 16 Company for Confidential Treatment, Order, P.S.C. Case No. 2003-00054 (August
- 17 4, 2003).
- 18 24. Similarly, if confidential treatment of the Nucor's confidential power
- 19 usage data and billing information is denied, potential counterparties on future
- 20 special contracts or future economic development prospects would know that their
- 21 confidential information would be publicly disclosed. Because many companies
- 22 would be reluctant to have such information disclosed, public disclosure of the

| 1  | Confidential Information would likely reduce the pool of counterparties willing to                         |
|----|--|
| 2  | negotiate with Big Rivers, reducing Big Rivers' ability to sell power and impairing                        |
| 3  | its ability to compete in the wholesale power and credit markets. In $\mathit{Hoy}\ v.\ \mathit{Kentucky}$ |
| 4  | Indus. Revitalization Authority, the Kentucky Supreme Court found that without                             |
| 5  | protection for confidential information provided to a public agency, "companies                            |
| 6  | would be reluctant to apply for investment tax credits for fear the confidentiality of                     |
| 7  | financial information would be compromised. Hoy v. Kentucky Indus.   |
| 8  | Revitalization Authority, 907 S.W.2d 766, 769 (Ky. 1995).  |
| 9  | 25. Given the nature of the Confidential Information, it could be used to                                  |
| 10 | manipulate the bidding or contract negotiating process, leading to higher costs                            |
| 11 | and/or lower revenues for Big Rivers, thereby impairing its ability to compete in                          |
| 12 | the wholesale power markets. Furthermore, any competitive pressure that                                    |
| 13 | adversely affects Big Rivers' revenue and/or margins could make Big Rivers                                 |
| 14 | appear less creditworthy and impair its ability to compete in the credit markets.                          |
| 15 | 26. Accordingly, the public disclosure of the Confidential Information                                     |
| 16 | would provide Big Rivers' competitors with an unfair commercial advantage.                                 |
| 17 | C. Time Period   |
| 18 | 27. Big Rivers requests that the Confidential Information remain   |
| 19 | confidential indefinitely for the above discussed reasons. <u>807 KAR 5:001 Section</u>                    |

13(2)(a)(2).

| 1        | D. Conclusion   |
|----------|---|
| 2        | 28. Based on the foregoing, the Confidential Information is entitled to           |
| 3        | confidential protection. If the Commission disagrees, then the Commission         |
| 4        | should hold an evidentiary hearing to protect to Big Rivers' due process rights   |
| 5        | and to supply the Commission with a complete record to enable it to reach a       |
| 6        | decision with regard to this matter. See Util. Reg. Comm'n v. Ky. Water Serv. Co. |
