Weirs Creek Solar, LLC
Case No. 2024-00099
Siting Board Staff's First Request for Information

Request 66: Explain whether Weirs Creek Solar intends to hire as many local workers for the construction and operations phases of the project as possible, all other qualifications for the positions being equal. If confirmed, explain how Weirs Creek Solar will ensure this occurs.

Response 66:
Weirs Creek's desire would be to hire as many local workers as possible for the construction and operations phases for the project, however the Weirs Creek does not directly control the hiring process and can only recommend to the hiring authority the multiple advantages of hiring locally.

Weirs Creek Solar, LLC
Case No. 2024-00099
Siting Board Staff's First Request for Information

Request 67: Explain whether Weirs Creek Solar has developed a plan to protect endangered bats in the project area during tree clearing.

Response 67:

See the Response to Item 7 and the Response to Item 59.

Weirs Creek Solar, LLC
Case No. 2024-00099
Siting Board Staff's First Request for Information

Request 68: Explain what impact farm dumps will have on the project.

Response 68:

See the Response to Item 34.

Weirs Creek Solar, LLC
Case No. 2024-00099
Siting Board Staff's First Request for Information

Request 69: Provide any information concerning historical or archaeological research done for the project. If none have been done, explain why.

Response 69:

ECT obtained the desktop cultural files (IE. archaeological sites, cemeteries, Kentucky Heritage Council Historic Coded Resources, etc.) for the Project Area and 2-kilometer buffer in June 2023 and completed a desktop report. ECT, on behalf of the Applicant, conducted a Phase I archaeological survey for the Project in March 2024 and completed a corresponding report in May 2024. The desktop and field-identified cultural sites were included in the constraints mapping for the Project with a 100-foot setback to avoid impacts.
