CASE NO.
2024-00129

NOTICE

Comes now East Kentucky Power Cooperative, Inc., (“EKPC” or the Company”) by and through the undersigned counsel and hereby gives notice to the Commission of a change regarding the 96 MW Solar Facility in Marion County, Kentucky (“Northern Bobwhite Facility”). EKPC’s Application in this proceeding sought approval to assume lease agreements for multiple parcels of land for the Northern Bobwhite Facility. Since the Commission’s Final Order approving the Certificate of Public Convenience and Necessity and approving the assumption of the lease agreements, one property owner has decided to sell their property to EKPC for the Northern Bobwhite Facility. The parcel owned by the Mattingly’s has now been purchased by EKPC and the lease agreement has been voided.

EKPC does not believe that this constitutes a material change, but EKPC wanted to give the Commission a courtesy notice of the change. The purchase of the property does not result in an increase in the cost of the project that was approved by the Commission. The purchase price was taken out of the contingency funds that were included in the estimate provided to the Commission. When possible, EKPC prefers to own the land where its construction will be occurring, as was the case for the Bluegrass Plains Facility that was also approved in this proceeding.

This the 22nd day of June, 2026.

Respectfully Submitted,

L. Allyson Honaker
Heather S. Temple
