RE: Case No. 2024-00199
Webster County Water District
Alternative Rate Filing Adjustment – Remediation of Deficiencies in Application

Dear Ms. Bridwell:

Enclosed for filing in the referenced case is Webster County Water District's remediated application for an adjustment to its water rates. The original ARF Application was filed on July 10, 2024, but was rejected due to deficiencies identified in your letter dated July 11, 2024.

Since that time, Ariel Baker, the original consultant working on behalf of the District, was not able to continue this work and Bob Miller became responsible for resolving those deficiencies and submitting this remediated application.

This application is being filed pursuant to 807 KAR 5:076 and uses calendar year 2023 as the test year with appropriate adjustments to normalize revenues and expenses. The Attorney General's Office of Rate Intervention has also been provided a copy of this application by electronic mail.

My electronic mail address is wcwater@bellsouth.net.

Sincerely,

A handwritten signature in black ink, appearing to read "T. Baldwin". The signature is written in a cursive style with a large initial "T" and a stylized "Baldwin".

Trevor Baldwin, Superintendent
Webster County Water District
