ABANDONMENT PURSUANT TO	)
KRS 278.020(6) AND KRS 278.021	)

#### JOINT MOTION TO PLACE CASE IN ABEYANCE

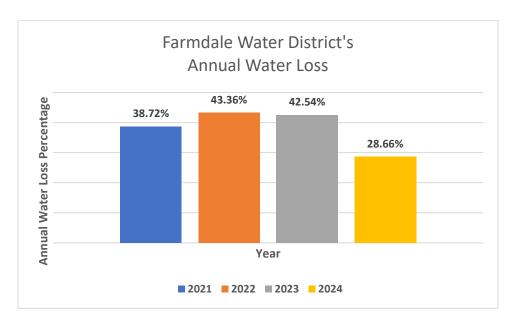

Farmdale Water District ("Farmdale District" or the "District") and the Electric and Water Plant Board of the City of Frankfort, Kentucky ("FPB"), collectively the "Parties," by and through the undersigned counsel submit their Joint Motion to Place This Case in Abeyance and respectfully request that the Commission rule on this Motion by **April 15, 2025**.

In support of their Motion, the Parties state the following:

1. In its September 4, 2024 Order initiating this proceeding, the Commission noted that many of the violations of Commission Orders, KRS Chapter

74, and administrative regulations previously committed by the District had already been corrected.<sup>1</sup>

- 2. The Commission cited Farmdale District's 2023 annual water loss of 42.54 percent and Farmdale District's "inability to develop a water loss plan or manage its finances in a way that would allow its water loss to be promptly mitigated. . ."<sup>2</sup> as reasons for the Commission to consider merger with another utility to ensure that Farmdale District's customers are receiving reasonable water rates and service.
- 3. Farmdale District's annual water loss for 2024 was 28.66 percent. This is a significant reduction from recent years as depicted in the chart below.

<sup>&</sup>lt;sup>1</sup> Order at 3, (Ky. PSC Sep. 4, 2024).

 $<sup>^{2}</sup>$  Id.

Attached to this Joint Motion as **Attachment 1** are Farmdale District's monthly water loss reports for 2024 as well as the 2024 Annual Water Loss Report.

- 4. Farmdale District filed an updated Qualified Infrastructure Improvement Plan and a seven-year capital spending plan into the record of this proceeding and into the record of its Surcharge Monitoring proceeding, Case No. 2020-00217, on December 27, 2024.
- 5. On January 24, 2025, Farmdale District received Commission approval to use \$266,451.42 of its Surcharge Funds to purchase 1,000 new customer meters and transceivers, and to cover the cost of materials needed to complete the Benson Creek Project. Both the Benson Creek Project and customer meter replacement are important components of Farmdale District's plan to reduce water loss.
- 6. Farmdale District has received delivery of its new meters and has begun meter replacement. The District anticipates its water loss will decrease as the meters are replaced.
- 7. Farmdale District has engaged the services of Kentucky Rural Water Association to prepare an Alternative Rate Filing by the Commission imposed deadline of August 31, 2025.
- 8. Farmdale District has taken the Commission's grave concern regarding the District's ability to provide reasonable and adequate water service very seriously.

  To this end, it has actively explored its options regarding merger or acquisition by

another utility and other operational arrangements. Farmdale District has met with representatives of Kentucky American Water and has availed itself of training in the benefits of joint operation agreements.

- 9. Realizing that Farmdale District often has need of technical assistance but believing that merger was not the answer to the problem, the Board of Commissioners at Farmdale District approached FPB to assess its willingness and ability to provide such assistance.
- 10. Farmdale District and FPB have agreed to a five-year arrangement wherein the two water systems will utilize economies of scale to operate in a more cost-effective manner, and FPB will provide Farmdale District with assistance in meter installation, meter reading, meter testing, developing capital improvement plans and project profiles, as well as loan and grant applications. The two systems executed an Assistance Agreement setting forth these provisions in December 2024. A copy of the Assistance Agreement and a copy of the Mutual Aid Agreement that sets forth the Parties intention of aiding one another in emergencies were filed into the record of this proceeding on December 17, 2024.
- 11. The Parties have each filed verified written testimony explaining how the Assistance and Mutual Aid Agreements will benefit Farmdale District and articulating their commitment to the success of the arrangement.

- 12. The Assistance Agreement arrangement between the Parties has the support of Franklin County Fiscal Court 1<sup>st</sup> District Magistrate, Ms. Sherry Sebastian. Farmdale District lies within Magistrate Sebastian's district. Magistrate Sebastian is also a Farmdale District customer. In her February 6, 2025 public comment, Magistrate Sebastian noted the cooperative relationship between the Parties and stated that the relationship was based on professionalism and trust. She stated that a decision by the Commission to force a merger between Farmdale District and another water district while the Assistance Agreement is in place and working well may be inadvisable and not beneficial to the customers of the District.
- 13. As articulated in the verified written direct testimony of Sharmista Dutta, P.E., Scottie Wooldridge, Jonathan Dailey, and Eddie Harrod filed into the record of this proceeding, Farmdale District and FPB are operating under the terms of the Assistance Agreement. Ms. Dutta is attending Farmdale District's Board meetings and has assisted Farmdale in developing a seven-year capital spending plan. FPB provided Farmdale District with the transceivers to be used with its meters at less cost than Farmdale District would have otherwise been able to purchase the transceivers. The Parties maintain that the Assistance Agreement is working well.
- 14. The Parties respectfully request that the Commission place this case in abeyance for a period of at least one year and re-evaluate the need to further

investigate the possibility of merging Farmdale District with a proximate utility at the end of the period of abeyance, should the Commission deem it necessary at that time.

15. The Parties understand that the Commission may desire routine progress reports and are willing to comply with such a request.

WHEREFORE, on the basis of the forgoing, The Parties jointly and respectfully move the Commission to place this case in abeyance for a period of at least one year and that the Commission rule on this Motion by **April 15, 2025**.

Respectfully submitted,
