Required Approvals and Relief)**

Case No. 2024-00243

DIRECT TESTIMONY OF LANE KOLLEN

1 **Q. Please state your name and business address.**

2 A. My name is Lane Kollen. My business address is J. Kennedy and Associates, Inc.
3 ("Kennedy and Associates"), 570 Colonial Park Drive, Suite 305, Roswell, Georgia
4 30075.

5 **Q. What is your occupation and by whom are you employed?**

6 A. I am a utility rate and planning consultant holding the position of President and
7 Principal with the firm of J. Kennedy and Associates, Inc.

8 **Q. Describe your education and professional experience.**

9 A. I earned a Bachelor of Business Administration ("BBA") degree in accounting and
10 a Master of Business Administration ("MBA") degree from the University of
11 Toledo. I also earned a Master of Arts ("MA") degree in theology from Luther
12 Rice University. I am a Certified Public Accountant ("CPA"), with a practice

J. Kennedy and Associates, Inc.

1 license, Certified Management Accountant (“CMA”), and Chartered Global
2 Management Accountant (“CGMA”). I am a member of numerous professional
3 organizations.

4 I have been an active participant in the utility industry for more than forty
5 years, initially as an employee of The Toledo Edison Company from 1976 to 1983
6 and thereafter as a consultant in the industry since 1983. I have testified as an
7 expert witness on planning, ratemaking, accounting, finance, and tax issues in
8 proceedings before regulatory commissions and courts at the federal and state levels
9 on hundreds of occasions.

10 I have testified before the Kentucky Public Service Commission on dozens
11 of occasions, including Kentucky Power Company (“Kentucky Power” or
12 “Company”) base rate proceedings, Case Nos. 2023-00159, 2020-00174, 2017-
13 00179, 2014-00396, 2009-00459, and 2005-00341; Mitchell acquisition
14 proceeding, Case No. 2012-00578; allocation of fuel costs to off-system sales
15 proceeding, Case No. 2014-00255; ecoPower biomass purchased power agreement
16 (“PPA”) proceeding, Case No. 2013-00144; Big Sandy 2 environmental retrofit
17 proceeding, Case No. 2011-00401; wind power PPA proceeding, Case No. 2009-
18 00545; various Environmental Surcharge (“ES”) and Fuel Adjustment Clause
19 (“FAC”) proceedings; numerous Louisville Gas and Electric Company (“LG&E”),
20 Kentucky Utilities Company (“KU”), and Duke Energy Kentucky, Inc. base rate,
21 ES, and FAC proceedings; and numerous other proceedings involving Big Rivers

1 Electric Corporation, East Kentucky Power Cooperative, Inc., Jackson Purchase
2 Energy Corporation, as well as various gas and water utilities.¹

3 **Q. On whose behalf are you testifying in this proceeding?**

4 A. I am testifying on behalf of the Office of the Attorney General of the Commonwealth
5 of Kentucky (“AG”) and the Industrial Utility Customers, Inc. (“KIUC”), a group of
6 large customers taking electric service on the Kentucky Power system. The AG and
7 KIUC have been active participants in all significant Kentucky Power rate case and
8 certification proceedings for many years.

9 **Q. What is the purpose of your testimony?**

10 A. The purpose of my testimony is to address and make recommendations regarding
11 the Company’s request for approval of the terms and conditions and authorization
12 to enter into the proposed Bright Mountain Renewable Energy Purchase Agreement
13 (“REPA”), related ratemaking recovery, and authority to defer certain expenses for
14 future ratemaking recovery.

15 My testimony should be considered in conjunction with the testimony of
16 AG and KIUC Witness Leah Wellborn, who addresses the economics of the Bright
17 Mountain REPA, including estimated losses on the sale of the sale of the purchased
18 energy into the PJM energy markets, and the estimated value of the renewable
19 energy certificates (“RECs”).

20 **Q. Summarize your conclusions and recommendations.**

¹ I provide a more detailed description of my qualifications, professional affiliations, and a list of each of my expert testimonies filed by date, utility, docket, and subject matter as my Exhibit LK-1.

1 A. I recommend the Commission reject the requested approval of the terms and
2 conditions and authorization to enter into the Bright Mountain REPA. It is not in
3 the public interest. It is the wrong resource at the wrong time. It is a high-cost non-
4 dispatchable energy contract with no environmental attributes; the environmental
5 attributes in the form of renewable energy certificates (“RECs”) will be sold to third
6 parties or to the Company’s own customers on a voluntary or negotiated basis.

7 It will provide no meaningful capacity or capacity value. It will provide a
8 mere 4.8 mW of accredited capacity to meet the Company’s Fixed Resource
9 Requirement (“FRR”) plan capacity requirements.² It is not dispatchable capacity.
10 It does not address or resolve the potential loss of the Company’s Mitchell capacity
11 after 2028.

12 It does not meet a need for additional energy. It will provide no net energy
13 value, according to estimates developed by AEP. It is a high-cost energy contract
14 that will simply substitute for other lower cost market purchases available to meet
15 the Company’s energy requirements. It is uneconomic. The purchases are sold into
16 the PJM energy markets at a loss. The sale of the RECs will not be sufficient to
17 offset the losses on the energy sales, and, most likely, the actual sale proceeds will
18 be much less than the forecasts developed by AEP.³

² The 4.8 mW accredited capacity for the PJM planning year 2027/2028 is cited in the Application at 3. AEP forecasts the accredited capacity will decline over the 15-year term of the contract in its calculations of the capacity value provided by the resource. Refer to the response to Staff 1-7.

³ *Id.*

1 It will result in excessive and unreasonable rates to customers. It will
2 burden the Company and its customers with a financial obligation that harms
3 customers through excessive and unreasonable rates in each year during the 15-year
4 term of the contract. As noted by Witness Wellborn, the harm imposed on
5 customers likely will be much greater than forecast by AEP and the Company.

6 I also recommend the Commission reject the Company's request to defer
7 costs incurred to issue the requests for proposal ("RFPs"), evaluate the offers,
8 negotiate the REPA, and to obtain regulatory approval of the REPA.

9 **Q. Describe generally the proposed Bright Mountain REPA.**

10 A. The REPA is a contract between the Company and Bright Mountain Solar, LLC,
11 the developer, whereby the Company is required to purchase all energy produced
12 by the Bright Mountain solar facility at a fixed price per kWh over the 15-year term
13 of the contract. In exchange for the energy purchased at the fixed price per kWh,
14 the Company acquires the capacity, energy, and certain other attributes of the
15 resource, including the ability to sell or use the RECs resulting from operation of
16 the resource. The tax attributes, primarily the production tax credits, are retained
17 by the Bright Mountain Solar, LLC.

18 **Q. Does the Bright Mountain REPA provide needed capacity and energy?**

19 A. No. It does not provide incremental capacity or energy. It simply substitutes for
20 and displaces other capacity and energy purchases, all else equal. It displaces other
21 capacity purchases at essentially the same price. It will displace only 4.8 mW of

1 capacity value for PJM planning reserve purposes, although it has a “total
2 nameplate capacity of 80 mW.⁴ It displaces other energy purchases at a higher
3 price.

4 **Q. Will the Bright Mountain REPA energy be dispatched on an economic basis?**

5 A. No. The Bright Mountain REPA requires the Company to purchase the entirety of
6 the output of the facility, which means the Company must take and then sell the
7 energy into the PJM real-time and day-ahead energy markets.

8 **Q. Does AEP estimate that the energy purchased will be sold into the PJM energy
9 markets at a loss?**

10 A. Yes. In the first year alone, AEP estimates the Company will pay Bright Mountain,
11 LLC \$12.553 million for the energy produced and then sell that energy into the PJM
12 energy markets for only \$4.585 million, a loss of \$7.968 million, or 73.5%.⁵

13 On a net present value basis over the 15-year term of the contract, AEP
14 estimates the Company will pay Bright Mountain, LLC \$101.806 million for the
15 energy produced and then sell that energy into the PJM markets for only \$42.570
16 million, a loss of \$59.236 million, or 58.2%.⁶

17 Further, as noted by Witness Wellborn, the Company failed to consider a
18 range of energy prices or to differentiate the energy prices on an hourly basis,
19 instead using only AEP’s fundamental forecast of on-peak energy prices to quantify

⁴ Public Exhibit ZMY-4 at 8 of 124.

⁵ Public Attachment 1 to response to Staff 1-7.

⁶ *Id.*

1 the energy value. AEP's methodology inherently overstates AEP's estimates of
2 energy revenues and understates AEP's estimates of the losses in each year of the
3 15-year contract and on a net present value basis.

4 **Q. Will the proceeds from the sale and/or use of the RECs be sufficient to**
5 **overcome the losses on the Company's purchase of the REPA output and sale**
6 **of the energy into the PJM markets?**

7 A. No. AEP's own estimates of the proceeds from the sale and/or use of the RECs are
8 insufficient to overcome the losses on the Company's purchases and sales of the
9 energy. Even worse, Witness Wellborn concludes that AEP's estimates of the REC
10 sales proceeds are unknown and uncertain at this time, but appear to be overly
11 optimistic. Witness Wellborn notes that the purchase and sale of RECs presently
12 are the result of bilateral agreements, not the result of liquid and transparent
13 transactions on auction trading platforms.

14 **Q. Is the Bright Mountain REPA economic and will it result in just and**
15 **reasonable rates?**

16 A. No. It is not economic. That is a fact acknowledged by AEP and the Company.
17 Stripped of the environmental attributes through sale of the RECs, it is nothing
18 more than a high-cost energy purchase that will impose unnecessary and
19 unreasonable costs on customers. The actual harm to customers may be much
20 greater than forecast by AEP and the Company due to the uncertainty of the energy

1 market prices and the uncertainty over the future REC values, if any, particularly in
2 the latter years of the contract term.

3 **Q. In its Application and witness testimonies, the Company asserts that the Bright**
4 **Mountain REPA is the “least cost” reasonable offer received from bidders in**
5 **response to AEP’s RFPs.⁷ Is that true?**

6 A. No. The Company received numerous offers for existing operating [REDACTED]
7 thermal resources that it simply excluded from the shortlist for consideration or
8 negotiation, ostensibly because of environmental concerns. Many of the thermal
9 resource offers scored [REDACTED] than the REPA, thus [REDACTED]
10 the Company’s claims that the REPA is the “least cost” reasonable offer.⁸ The
11 Company would have assumed no environmental liability under the terms and
12 conditions set forth in the RFP issued for thermal resources.

13 **Q. Does the Bright Mountain REPA provide needed capacity in response to the**
14 **potential loss of the Mitchell capacity in 2028, as asserted in the Application?**

⁷ Application at 7, 8; Direct Testimony of Nicole Coon at 4; and Direct Testimony of Wolfram at 13. Neither the Application nor any of the Company witness testimonies address the thermal resource offers or the exclusion of the lower cost existing thermal resource offers. The only reference to the exclusion of the thermal resources is found in Public Exhibit ZMY-16, in which the Charles River Associates Report states in part: “No thermal resources were shortlisted due to the volatile regulatory environment related to carbon emissions.”

⁸ Public Exhibit ZMY-2 at 20 wherein the Charles Rivers Associates Report states: “A single PPA proposal has been selected to proceed to final negotiations at this time. This proposal received high evaluation scores given their respective ratings in the economic and non-price criteria, indicating that the selected project has low development risk and is competitively priced. Other proposals ranking higher than the selected proposal withdrew from the RFP or constituted thermal proposals, which are still being evaluated due to changes in the regulatory environment.”

1 A. No. The Bright Mountain REPA provides only a minimal amount of accredited
2 capacity at 4.8 mW compared to the Company's owned Mitchell capacity at
3 approximately 780 mW.

4 **Q. Describe generally the Company's proposed ratemaking for the costs and**
5 **revenues related to the proposed Bright Mountain REPA.**

6 A. The Company proposes to recover the costs incurred pursuant to the REPA through
7 Tariff P.P.A. (purchased power adjustment) and proposes to credit the "non-energy"
8 benefits through Tariff P.P.A., including the proceeds from REC sales to third
9 parties. The Company proposes to reflect the revenues from the sale of the REPA
10 energy in the PJM energy markets or the value of the savings due to avoided PJM
11 market energy purchased power expense in Tariff F.A.C. (fuel clause adjustment).⁹
12 The harm or benefit to customers must consider both tariffs on a net basis. As noted
13 previously, AEP's analysis indicates there will be a net harm in the form of
14 increased rates to customers each year of the 15-year term of the contract and on a
15 net present value basis over the term of the contract.

16 The Company did not specifically address how the avoided capacity costs
17 would be flowed through to customers in the ratemaking process. Nor did the
18 Company specifically address how or where it would credit the value of RECs used
19 to fulfill the Company's obligations under Tariff R.P.O. in the ratemaking process.

⁹ Direct Testimony of Nicole Coon at 4-5.

1 **Q. If the Commission approves the Bright Mountain REPA, how should it address**
2 **the benefits to customers for the avoided capacity costs?**

3 A. The Commission should direct the Company to reflect the avoided capacity costs
4 as credits in Tariff P.P.A.

5 **Q. If the Commission approves the Bright Mountain REPA, how should it address**
6 **the benefits to customers for the value of RECs used to fulfill the Company's**
7 **obligations under Tariff R.P.O.?**

8 A. The Commission should direct the Company to reflect the value of RECs used by
9 and charged to the Company's customers under Option A and Option B of Tariff
10 R.P.O. as credits in Tariff P.P.A. The Company will receive Tariff R.P.O. revenues
11 for providing these RECs to its customers. These revenues should be used to reduce
12 the costs recovered through Tariff P.P.A.

13 **Q. Describe the Company's request for authority to defer costs incurred for the**
14 **RFP process and approval of the REPA.**

15 A. The Company requests authority to defer the development costs associated with the
16 implementation and execution of the 2023 RFPs, development of a shortlist of
17 projects, and negotiation and execution of the REPA, and regulatory approval of
18 the REPA, including the costs of internal resource support and outside services.¹⁰

19 **Q. Should the Commission authorize the Company to defer the costs of internal**
20 **resource support?**

¹⁰ Application at 10.

1 A. No. The costs of internal resource support are already included in the base revenue
2 requirement and are not eligible for deferral and a second recovery in a future base
3 rate case proceeding.

4 **Q. Should the Commission authorize the Company to defer the costs of outside**
5 **services?**

6 A. No. The costs of outside services already are included in the base revenue
7 requirement. The Company has offered no evidence that its total outside services
8 expense, including the cost of the outside services for this specific RFP process,
9 evaluation, and regulatory approval, exceeds the amount for such outside services
10 already included in the base revenue requirement.

11 In addition, the Company is not entitled to deferral and future recovery of
12 such costs incurred in the normal course of business. Further, the amount of the
13 expense is not of such magnitude that it merits an exception to the normal
14 ratemaking process whereby costs are eligible for deferral only if they are material,
15 volatile, and could not reasonably have been foreseen and incorporated in the base
16 revenue requirement, which is not the case here.

17 **Q. Does that complete your testimony?**

18 A. Yes.

Mr. Kollen has more than forty years of utility industry experience in the financial, rate, tax, and planning areas. He specializes in revenue requirements analyses, taxes, evaluation of rate and financial impacts of traditional and nontraditional ratemaking, utility mergers/acquisition and diversification. Mr. Kollen has expertise in proprietary and nonproprietary software systems used by utilities for budgeting, rate case support and strategic and financial planning.

RESUME OF LANE KOLLEN, PRESIDENT

EXPERIENCE

**1986 to
Present:**

J. Kennedy and Associates, Inc.: Vice President and Principal. Responsible for utility stranded cost analysis, revenue requirements analysis, cash flow projections and solvency, financial and cash effects of traditional and nontraditional ratemaking, and research, speaking and writing on the effects of tax law changes. Testimony before Connecticut, Florida, Georgia, Indiana, Louisiana, Kentucky, Maine, Maryland, Minnesota, New York, North Carolina, Ohio, Pennsylvania, Tennessee, Texas, West Virginia and Wisconsin state regulatory commissions and the Federal Energy Regulatory Commission.

**1983 to
1986:**

Energy Management Associates: Lead Consultant.
Consulting in the areas of strategic and financial planning, traditional and nontraditional ratemaking, rate case support and testimony, diversification and generation expansion planning. Directed consulting and software development projects utilizing PROSCREEN II and ACUMEN proprietary software products. Utilized ACUMEN detailed corporate simulation system, PROSCREEN II strategic planning system and other custom developed software to support utility rate case filings including test year revenue requirements, rate base, operating income and pro-forma adjustments. Also utilized these software products for revenue simulation, budget preparation and cost-of-service analyses.

**1976 to
1983:**

The Toledo Edison Company: Planning Supervisor.
Responsible for financial planning activities including generation expansion planning, capital and expense budgeting, evaluation of tax law changes, rate case strategy and support and computerized financial modeling using proprietary and nonproprietary software products. Directed the modeling and evaluation of planning alternatives including:

Rate phase-ins.
Construction project cancellations and write-offs.
Construction project delays.
Capacity swaps.
Financing alternatives.
Competitive pricing for off-system sales.
Sale/leasebacks.
