Re: In the matter of the Electronic Application of STMO Bn, LLC (Starfire) for a Certificate of Construction for an Approximately 210 Megawatt Merchant Electric Solar Generating Facility in Knott, Breathitt, and Perry Counties, Kentucky Pursuant to KRS 278.700 and 807 KAR 5:110, Case No. 2024-00255.

Dear Ms. Bridwell,

On behalf of the Applicant, STMO Bn, LLC (“Starfire”), this letter serves as the status report required by the Kentucky State Board on Electric Generation and Transmission Siting (“Siting Board” or “Board”) as required per Mitigation Measure No. 5 contained in Appendix A to the Board’s Order dated August 1, 2025, in the above-captioned matter (the “Construction Certificate”).

To date, Starfire has not commenced construction of the Project, and is continuing its due diligence efforts and design work for the Project in preparation for soliciting bids in a formal RFP process. This is an ongoing process and no formal RFP has been issued at this time.

On June 30, 2026, Starfire filed a Notice of Intent with the Board to construct phase two of the project under case number 2026-00180. It will be a 200 MW merchant electric generating facility and nonregulated transmission line. The Applicant intends to build and operate both phases of the project as a unified 410 MW solar facility.

Please don’t hesitate to contact me if you have any questions.

Sincerely,

Pierce T. Stevenson
