Madisonville, KY 42431

Dear Donna and Sharon:

Thank you for meeting today with Stan Conn and me to discuss KYMEA's plans to construct the electric generating facility across AC Slaton Road from your property. We appreciate the opportunity to provide more details about the construction and operation of the facility and to respond to your questions.

Construction and operation of this type of facility can create additional noise or other impacts, but we recognize that it can be challenging to fully understand the impact of certain activities until they actually occur. With that in mind, we are committed to working with you in the future within reason to address future concerns you may have. With this commitment, you have indicated that you support the project, and that you do not believe mitigation measures are needed at this time. To the extent that you have concerns in the future, please contact me so that we can discuss appropriate and effective methods for satisfying your concerns.

Sincerely,

Michelle Hixon

Robert and Tonya Cunningham  
518 Oak Street  
Madisonville, KY 42431

Dear Robert and Tonya:

Thank you for meeting today with Stan Conn and me to discuss KYMEA's plans to construct the electric generating facility to the east of the City's Wastewater Treatment Plant. We appreciate the opportunity to provide more details about the construction and operation of the facility and to respond to your questions.

The hunting cabin on your property is over 1,500 feet from the planned facility, and we do not believe that the construction and operation of the facility will have any negative impact on your property. But we recognize that it can be challenging to fully understand the impact of certain activities until they actually occur. With that in mind, we are committed to working with you in the future within reason to address future concerns you may have. With this commitment, you have indicated that you support the project, and that you do not believe mitigation measures are needed at this time. To the extent that you have concerns in the future, please contact me so that we can discuss appropriate and effective methods for satisfying your concerns.

Sincerely,

Michelle Hixon
