COMPLAINT RESOLUTION PROGRAM ANNUAL STATUS UPDATE

The Kentucky Municipal Energy Agency (“KYMEA”), by counsel, hereby submits annual status update associated with its Complaint Resolution Program required by Mitigation Measure 37 of the Siting Board’s Order dated April 2, 2025.

To date, KYMEA is aware of two complaints from nearby property owners related to the Energy Center I project.

The first complaint was received on September 22, 2025, from the property owner located near the corner of Bean Cemetery Road and A.C. Slaton Road in Madisonville, Kentucky. The property owner expressed concern that work had occurred near her property without prior notification, that trucks had been left on the property over the weekend, and that lawn damage had resulted from the work. KYMEA confirmed that the work was performed by a subcontractor at KYMEA’s direction within the KU right-of-way. KYMEA acknowledged the notification concern and agreed to fix any areas left unresolved by the contractor. The issue was resolved to the

complainant's satisfaction, and KYMEA has maintained a strong relationship with the property owner and remains in close contact regarding project activities near their property.

The second complaint was made verbally on April 1, 2026, by a nearby property owner regarding minor yard damage associated with heavy-haul traffic traveling to the Energy Center I project site. KYMEA reviewed the concern and coordinated repairs to the property owners' satisfaction on April 9, 2026, as documented in the photo below.

No additional complaints have been received as of this submission.

Respectfully submitted,

/s/ Rebecca Price
