

**Summary of feedback
Liberty Station project
As of 2/12/2025**

| Name | Where do you live? (County) | Comments |
|---|-----------------------------|--|
| Lee Burton | Casey Co. | Happy to see the plant coming in |
| TVA | Casey Co. | Interested in long term/construction work for sons. |
| Bonnie & Kenn King | Casey Co. | By clemots property/by switchyard. Back up live on Reynolds Creek Rd. List of questions on voltage, noise and light. |
| Sheriff Jerry Coffman | Casey Co. | Safety concerns regarding gas, fuel storage and containment |
| Superintendent Barry Lee | Casey Co. | Questions regarding opportunity to funnel employees to plant. Barry is the Superintendent of Casey County Schools. |
| Jerry King | Casey Co. | Jerry is on the Casey Co. Industrial Board. Has some buildings. |
| Unidentified | | Impacts to local water; light pollution; stack height. |
| Stuart C. (could not decipher last name) | Casey Co. | Curious about noise modeling. |
| Emily Marvel??? If not Emily, then an East Casey Water representative | Casey Co. | Emily is with East Casey Water. She asked whether her water utility will face any issues being at the end of the line. |
| Bart Woodrum - Magistrate | Casey Co. | Asked what will happen to Carr-Sassrun Road |
| Scott Cochran | | Lives northwest of the site on 49 and has an auto sales business. |
| Bob Forbes | Casey Co. | Lives 0.75 miles from the plant and bought the property several years ago. Moved from Georgia and wanted a quiet place with no light pollution. Also concerned about sound, emissions and the potential for wildfires. |
| Kevin Atwood | Casey Co. | Wants a list of similar facilities near the Casey County site. Concerned with the community being ready for this new plant. |
| Fire Chief Erine Richards and Lt. Brandon Long | Casey Co. | Questions about tech suppression systems, gas lines, chemicals on site and designated area for helicopter landings. |
| Emily Marvel | Casey Co. | I am a property owner located very close to the site for the Liberty Rice Facility. I do not want to see this come into the neighborhood. We live in a rural area that is very peaceful and serene, and this plant would drastically alter the neighborhood. |
