Duke Energy Kentucky
Case No. 2024-00354
AG's First Set of Data Requests
Date Received: January 8, 2025

AG-DR-01-001

REQUEST:

Refer to the Application generally.

a. Provide an organizational chart of Duke Kentucky. Designate what city each position is located in within Kentucky, and whether any position is vacant. If a position is based outside of Kentucky provide the city and state where it is located.

b. Provide an organizational chart of Duke Energy Ohio, Inc. ("Duke Ohio"), which wholly owns Duke Kentucky. Designate what city each position is located in within Ohio, what the allocation factor to Duke Kentucky is for each position, and whether any position is vacant. If a position is based outside of Ohio provide the city and state where it is located. If for any reason the allocation factor is not provided then explain in detail how Duke Ohio's costs are allocated to Duke Kentucky.

c. Provide an organizational chart of Cinergy, which wholly owns Duke Ohio. Designate what city and state each position is located in, what the allocation factor to Duke Kentucky is for each position, and whether any position is vacant. If for any reason the allocation factor is not provided then explain in detail how Cinergy's costs are allocated to Duke Kentucky.

d. Provide an organizational chart of Duke Energy Corporation ("Duke Energy"), which wholly owns Cinergy. Designate what city and state each position is located in, what the allocation factor to Duke Kentucky is for each position, and whether

any position is vacant. If for any reason the allocation factor is not provided then explain in detail how Duke Energy's costs are allocated to Duke Kentucky.

e. Provide an organizational chart of Duke Energy Business Services LLC ("DEBS"), which provides administrative and other services to Duke Kentucky and other affiliated companies. Designate what city and state each position is located in, what the allocation factor to Duke Kentucky is for each position, and whether any position is vacant. If for any reason the allocation factor is not provided then explain in detail how DEBS' costs are allocated to Duke Kentucky.

f. Provide an organizational chart that demonstrates all of the parent companies/holding companies/affiliated companies that are associated with Duke Kentucky.

RESPONSE:

a. Organizational charts are not organized by work location or HR company, but by department. A current report of all employees paid by Duke Energy Kentucky payroll company is provided as AG-DR-01-001 Attachment 1. We are not able to include vacant positions on this report.

b. Objection. This request is overly broad, unduly burdensome and seeks information that is irrelevant, beyond the scope of this proceeding as it seeks information not related to Duke Energy Kentucky's application, and otherwise not likely to lead to the discovery of any relevant and admissible evidence. Without waiving said objection, and to the extent discoverable, organizational charts are not organized by work location or HR company but by department. A current report of all employees paid by Duke Energy Ohio payroll company is provided as AG-DR-01-

001 Attachment 2. The work city for virtual employees is noted as "Virtual Employee." We are not able to include vacant positions on this report, nor can we provide the allocation factor to Duke Energy Kentucky for each position as labor allocations are based on the accounting an employee charges each pay period on their timesheet. Please see the direct testimony of Rebekah E. Buck for an explanation of the process Duke Ohio employees follow to allocate their time and expenses to Duke Energy Kentucky.

c. Objection. This request is overly broad, unduly burdensome and seeks information that is irrelevant, beyond the scope of this proceeding as it seeks information not related to Duke Energy Kentucky's application, and otherwise not likely to lead to the discovery of any relevant and admissible evidence. Cinergy does not have employees; therefore, no organizational chart can be provided.

d. Objection. This request is overly broad, unduly burdensome and seeks information that is irrelevant, beyond the scope of this proceeding as it seeks information not related to Duke Energy Kentucky's application, and otherwise not likely to lead to the discovery of any relevant and admissible evidence. Duke Energy Corporation does not have employees; therefore, no organizational chart can be provided.

e. Objection. This request is overly broad, unduly burdensome and seeks information that is irrelevant, beyond the scope of this proceeding as it seeks information not related to Duke Energy Kentucky's application, and otherwise not likely to lead to the discovery of any relevant and admissible evidence. Organizational charts are not organized by work location or HR company but by department. A current report of all employees paid by Duke Energy Business Services payroll company is

provided as AG-DR-01-001 Attachment 3. The work city for virtual employees is noted as "Virtual Employee." We are not able to include vacant positions on this report, nor can we provide the allocation factor to Duke Energy Kentucky for each position as labor allocations are based on the accounting an employee charges each pay period on their timesheet. Please see the direct testimony of Rebekah E. Buck for an explanation of the process DEBS employees follow to allocate their time and expenses to Duke Energy Kentucky.

f. Please see AG-DR-01-001 Attachments 2 and 3.

PERSON RESPONSIBLE: As to objections, Legal
As to response, Shannon A. Caldwell

AG-DR-01-002

REQUEST:

Refer to the Application generally. Provide the following information for Duke Kentucky executive staff employees, as well as all executive staff employees whose costs are allocated to Duke Kentucky, and separate each response by company/utility.

a. Provide the position, title, and salary for each executive staff employee for the years 2020 – 2025.

b. Provide the average raise that the executive staff employees received, or will receive, for the years 2020 – 2025. Ensure to explain whether the annual raise is directly connected to a performance review.

c. Provide the average bonus that each executive staff employee received, or will receive, for the years 2020 - 2025.

d. Provide all awards given to the executive staff employees for the years 2020 – 2025.

e. Provide all vehicle allowances given to the executive staff employees for the years 2020 – 2025.

f. Provide all incentive compensation given to the executive staff employees for the years 2020 – 2025.

g. Provide the average raise, if any, which will be given to executive staff employees for 2025.

h. Provide a detailed explanation of the insurance benefits provided to the Company's executive staff employees, including but not limited to health, dental, vision, life

insurance, etc. Ensure to include all premiums paid by the Company's executive staff employees, premiums paid by the Company or parent company on the executive staff employees' behalf, as well as all copays, deductibles, and maximum out of pocket amounts.

i. Provide a detailed explanation of the retirement benefits provided to the Company's executive staff employees, including but not limited to, whether there is a defined benefit plan, 401(k) matching, etc.

j. Explain whether any of the executive staff employees are members of a union.

RESPONSE:

No executive employees are paid by Duke Energy Kentucky. We do not track employees whose labor costs are allocated from one company/utility to another. Some employees' labor is part of an allocation pool based on the accounting an employee charges each pay period on their timesheet.

For Duke Energy executive salary increases, please see STAFF-DR-01-040 Confidential Attachment 1 included as part of the response to STAFF-DR-01-040. For executive bonus and incentive compensation, please see the confidential response to STAFF-DR-01-041.

PERSON RESPONSIBLE: Shannon A. Caldwell

Duke Energy Kentucky
Case No. 2024-00354
AG's First Set of Data Requests
Date Received: January 8, 2025

CONFIDENTIAL AG-DR-01-003
(As to Attachment only)

REQUEST:

Refer to the Application generally. Provide the following information for Duke Kentucky salaried employees, as well as all salaried employees whose costs are allocated to Duke Kentucky, and separate each response by company/utility.

a. Provide the position, title, and salary for each salaried employee for the years 2020 – 2025.

b. Provide the average raise that the salaried employees received, or will receive, for the years 2020 – 2025. Ensure to explain whether the annual raise is directly connected to a performance review.

c. Provide the average bonus that each salaried employee received, or will receive, for the years 2020 - 2025.

d. Provide all awards given to the salaried employees for the years 2020 – 2025.

e. Provide all vehicle allowances given to the salaried employees for the years 2020 – 2025.

f. Provide all incentive compensation given to the salaried employees for the years 2020 – 2025.

g. Provide the average raise, if any, which will be given to salaried employees for 2025.

h. Provide a detailed explanation of the insurance benefits provided to the Company's salaried employees, including but not limited to health, dental, vision, life insurance, etc. Ensure to include all premiums paid by the Company's salaried employees, premiums paid by the Company or parent company on the salaried employees' behalf, as well as all copays, deductibles, and maximum out of pocket amounts.

i. Provide a detailed explanation of the retirement benefits provided to the Company's salaried employees, including but not limited to, whether there is a defined benefit plan, 401(k) matching, etc.

j. Explain whether any of the salaried employees are members of a union.

RESPONSE:

CONFIDENTIAL PROPRIETARY TRADE SECRET (As to Attachment only)

The responses below for parts (a), (c), (d), (f) and (j) are for employees paid by Duke Energy Kentucky payroll company only. We do not track employees whose labor costs are allocated from one company/utility to another. Some employees' labor is part of an allocation pool based on the accounting an employee charges each pay period on their timesheet.

a. Please see AG-DR-01-003(a) Confidential Attachment for the position title and annual salary for each salaried employee paid by Duke Energy Kentucky payroll company (excludes gas operations) as of December of 2020 – 2024.

b. For non-union employees, market data is reviewed and used to determine annual wage increase recommendations. Employees' individual increases may vary relative to the budget to allow for differences in individual performance rating,

performance relative to peers, the position of salary within the salary range, and the size of the merit budget. The annual merit budgets for non-union employees for 2020 – 2025 are reflected in the table below.

Year	Merit Budget
2020	3.0%
2021	2.0%
2022	3.5%
2023	3.5%
2024	3.0%
2025	3.0%

c. The average bonus paid to payroll company Duke Energy Kentucky electric salaried employees for 2020 – 2025 is $1,146. This amount includes bonuses paid to employees paid by Duke Energy Kentucky and does not include bonuses paid to employees whose labor costs are allocated to Duke Energy Kentucky.

d. The total amount of awards paid to payroll company Duke Energy Kentucky electric salaried employees for 2020 – 2025 is $149. This amount includes awards paid to employees paid by Duke Energy Kentucky and does not include any awards paid to employees whose labor costs are allocated to Duke Energy Kentucky.

e. Duke Energy does not provide vehicle allowances.

f. The total amount of short-term incentive (STI) compensation paid to payroll company Duke Energy Kentucky electric salaried employees for 2020 – 2024 is $171,458. This amount includes actual STI paid to employees paid by Duke Energy Kentucky and does not include any STI paid to employees whose labor costs are allocated to Duke Energy Kentucky. 2025 short-term incentive will be paid based on achievement to performance goals, which will be calculated in January –

February 2026 and paid in March 2026. No Duke Energy Kentucky employees were paid long-term incentive compensation.

g. Please see Grady "Tripp" S. Carpenter's direct testimony beginning on page 9 under "Describe How O&M Expenses are Included in the Forecast", where Mr. Carpenter explains that the forecasted test period assumes labor increases for exempt and non-exempt non-union employees of 3.5 percent, which includes merit increases of 3.0 percent and an allowance for promotions of 0.5 percent.

h. Please see Shannon A. Caldwell's direct testimony beginning on page 31 under "Please Describe Duke Energy's Employee Benefit Programs" and "What Portion of the Health and Insurance Costs of Benefits Do Employees Pay?" beginning on page 34.

See STAFF-DR-01-043 for employee and employer premiums for medical, dental, and vision plans.

See STAFF-DR-01-045 for employee and employer premiums for life insurance plans.

See STAFF-DR-01-044 for the self-insured Summary Plan Descriptions for group medical plans.

i. As described in Shannon A. Caldwell's direct testimony, the Duke Energy 401(k) plan (Retirement Savings Plan, or RSP) is now our standard retirement plan that applies to all union and non-union new hires. Duke Energy has taken significant steps to both control costs and reduce the risk associated with its retirement plans by eliminating the pension benefit for all new hires, including union new hires, and

moving all non-union pension eligible employees and the majority of union pension eligible employees to a cash balance design.

Retirement Savings Plan (RSP) – The RSP is a Duke Energy-sponsored 401(k) plan, and all employees are generally eligible to participate. Generally, the company matches 100% of employee pre-tax and Roth contributions up to 6% of eligible pay, subject to IRS limits.

Generally, legacy Duke Energy employees hired or rehired after December 31, 2013, are not eligible for coverage under a pension plan. For these employees, the company provides an employer retirement contribution to the RSP equal to 4% of eligible pay, in addition to any company matching contribution. The employer retirement contribution is subject to a three-year vesting schedule.

Qualified Pension – The plan provides a retirement benefit funded solely by the Company with the funding actuarially determined. Benefits are provided primarily through a cash balance formula with employees receiving a monthly pay credit equal to 4 - 7% of eligible pay plus 4% of eligible pay that exceeds the Social Security Wage Base, and annual interest credits of 4% of the account balance. Certain employees are covered under a legacy A+B pension formula consisting of a Traditional final average pay benefit plus a cash balance benefit.

Legacy Duke Energy non-union employees hired or rehired after December 31, 2013, are generally not eligible for coverage under a pension plan. The pension plans were closed to the remaining participating union groups between 2014 and 2018. The employees who do not participate in the qualified pension earn

retirement benefits in the company's 401(k) plan in the form of a fixed 4% employer contribution to the 401(k).

j. The union employees are not salaried employees.

PERSON RESPONSIBLE: Shannon A. Caldwell

FILED UNDER SEAL

Duke Energy Kentucky
Case No. 2024-00354
AG's First Set of Data Requests
Date Received: January 8, 2025

CONFIDENTIAL AG-DR-01-004
(As to Attachment only)

REQUEST:

Refer to the Application generally. Provide the following information for Duke Kentucky non-salaried employees, as well as for all non-salaried employees whose costs are allocated to Duke Kentucky, and separate each response by company/utility.

a. Provide the position, title, and wages for each non-salaried employee for the years 2020 – 2025.

b. Provide the average raise that the non-salaried employees received, or will receive, for the years 2020 – 2025. Ensure to explain whether the annual raise is directly connected to a performance review.

c. Provide the average bonus that the non-salaried employees received, or will receive, for the years 2020 – 2025.

d. Provide all awards given to the non-salaried employees for the years 2020 – 2025.

e. Provide all vehicle allowances given to the non-salaried employees for the years 2020 – 2025.

f. Provide all incentive compensation given to the non-salaried employees for the years 2020 – 2025.

g. Provide the average raise, if any, which will be given to non-salaried employees for 2025.

h. Provide a detailed explanation of the insurance benefits provided to the Company's non-salaried employees, including but not limited to health, dental, vision, life insurance, etc. Ensure to include all premiums paid by the Company's non-salaried employees, premiums paid by the Company or parent company on the non-salaried employees' behalf, as well as all copays, deductibles, and maximum out of pocket amounts.

i. Provide a detailed explanation of the retirement benefits provided to the Company's non-salaried employees, including but not limited to, whether there is a defined benefit plan, 401(k) matching, etc.

j. Explain whether any of the non-salaried employees are members of a union.

RESPONSE:

CONFIDENTIAL PROPRIETARY TRADE SECRET (As to Attachment only)

The responses below for parts (a), (c), (d), (f) and (j) are for employees paid by Duke Energy Kentucky payroll company only. We do not track employees whose labor costs are allocated from one company/utility to another. Some employees' labor is part of an allocation pool based on the accounting an employee charges each pay period on their timesheet.

a. Please see AG-DR-01-004(a) Confidential Attachment for the position title and hourly rate for each non-salaried employee paid by Duke Energy Kentucky payroll company (excludes gas operations) as of December 31 of 2020 – 2024.

b. For non-salaried non-union employees, see the response to AG-DR-01-003(b).

For non-salaried union employees, the annual general wage increases are based on the current labor contracts in effect. The most recent labor documents

were provided in the testimony of Shannon A. Caldwell as Attachments SAC-2(a) and (b). See STAFF-DR-01-039 for union general wage increases through the end of the current labor contracts.

c. The average bonus paid to payroll company Duke Energy Kentucky electric non-salaried employees for 2020 – 2025 is $455. This amount includes bonuses paid to employees paid by Duke Energy Kentucky does not include any bonuses paid to employees whose labor costs are allocated to Duke Energy Kentucky.

d. The total amount of awards paid to payroll company Duke Energy Kentucky electric non-salaried employees for 2020 – 2025 is $1,170. This amount includes awards paid to employees paid by Duke Energy Kentucky and does not include any awards paid to employees whose labor costs are allocated to Duke Energy Kentucky.

e. Duke Energy does not provide vehicle allowances.

f. The total amount of short-term incentive (STI) compensation paid to payroll company Duke Energy Kentucky electric non-salaried employees for 2020 – 2024 is $1,966,399. This amount includes actual STI paid employees paid by Duke Energy Kentucky and does not include any STI paid to employees whose labor costs are allocated to Duke Energy Kentucky. 2025 short-term incentive will be paid based on achievement to performance goals, which will be calculated in January – February 2026 and paid in March 2026. No Duke Energy Kentucky employees were paid long-term incentive compensation.

g. See the response to part (b) and the response to AG-DR-01-003(g). Also, please see Grady "Tripp" S. Carpenter's direct testimony beginning on page 9 under

"Describe How O&M Expenses are Included in the Forecast", where Mr. Carpenter explains that the forecasted test period assumes union labor cost increases were assumed to be between 2.5 percent and 3.6 percent, depending on the agreements.

h. See the response to AG-DR-01-003(h).

i. See the response to AG-DR-01-003(i).

j. The union employees are non-salaried employees.

Duke Energy Kentucky
Case No. 2024-00354
AG's First Set of Data Requests
Date Received: January 8, 2025

AG-DR-01-005

REQUEST:

Refer to the Application generally. Explain whether any vacant position costs are included in the proposed revenue requirement. If so, provide the job title, salary/wage/benefit amounts, necessity of the position, date the job was created and vacated, explanation as to why the position is currently vacant, and an estimated date as to when the position will be filled.

RESPONSE:

The Company does not budget number of employees or number of vacant positions.

PERSON RESPONSIBLE: Grady "Tripp" S. Carpenter

AG-DR-01-006

REQUEST:

Refer to the Application generally.

a. In 2017, Duke Kentucky was granted a Certificate of Public Convenience and Necessity ("CPCN") to replace and upgrade its electric and gas metering infrastructure to a digital Advanced Metering Infrastructure ("AMI") for its electric and combination customers, and an Automated Meter Reading ("AMR") Infrastructure for its gas-only customers, known collectively as the ("AMI Project"),[1] which was completed in December 2018.

   i. Provide an overview of the types of meters (e.g., manual read meters, AMR, AMI, etc.), currently being utilized by Duke Kentucky's electric customers. Include in the response the approximate percentage of each type of meter that Duke Kentucky currently has in its electric system.

   ii. Provide the projected remaining lives of the AMI meters that were installed by Duke Kentucky beginning in 2017.

   iii. Explain whether any cost savings associated with the AMI project have been included in the pending case. If so, identify the cost savings along with a description of each. If not, explain in detail why not.

[1] Case No. 2016-00152, *Application of Duke Energy Kentucky, Inc. for (1) A Certificate of Public Convenience and Necessity Authorizing the Construction of an Advanced Metering Infrastructure; 2) Request for Accounting Treatment, and; 3) All Other Necessary Waivers, Approvals, and Relief* (Ky. PSC May 25, 2017).

RESPONSE:

i. Duke Energy Kentucky attempts to read all meters monthly for billing. Most of the meters installed in Kentucky are read daily via AMI (99.60% of electric meters) or AMR technology (0.04% of electric meters). There are two types of AMI electric meters installed – mesh and direct connect. Mesh meters communicate to a grid router which then transmits the data via a cellular network. Direct connect meters transmit their data directly via the cellular network. AMI gas meters have a module installed on the meter which communicates to a nearby electric "mesh" meter. The remaining meters in Kentucky are read by a meter reader in the field either by drive-by technology or by manually walking up to the meter to obtain the read. The Company also has approximately 562 non-AMI in-service meters. These meters are inaccessible, and reads have been attempted numerous times.

ii. The composite remaining life, as proposed in the current Duke Energy Kentucky Electric Depreciation Study, of the electric AMI meters is 10.9 years.

iii. In its AMI CPCN Case No. 2016-00152, the Company provided semi-annual reports of actual costs incurred for the AMI deployment as compared against the projected cost benefit analysis. Actual deployment costs were lower than anticipated due to discounted material costs, lower labor costs and lower overhead costs. The reports also provided various non-financial metrics of benefits achieved during deployment such as the number of

meters installed, number of meter reading routes, meter failure rates, and remote non-pay disconnections. The last report in that case was filed on July 23, 2020 as the AMI deployment was completed in December 2018. The Company no longer tracks benefits related to the AMI deployment.

Cost savings associated with the AMI project included in this pending case are based on actual savings that have been achieved in the reduction of actual expenses. Examples of these reductions include reduced meter reading costs, work order costs and costs for non-pay service disconnections as these activities are now handled remotely; reduced infrastructure costs (i.e. - meter lab) due to lower stock levels; and lower usage costs due to better meter accuracy from the current AMI meters versus the previous installed meters.

PERSON RESPONSIBLE: Marc W. Arnold – i., iii.
Shariff S. Mitchell – ii.

Duke Energy Kentucky
Case No. 2024-00354
AG's First Set of Data Requests
Date Received: January 8, 2025

AG-DR-01-007

REQUEST:

Refer to the Application, page 5, paragraph 9. Duke Kentucky asserts that it is requesting a rate increase of approximately $70 million dollars in the pending case. Confirm that Duke Kentucky is specifically requesting a $70,008,476 rate increase as asserted in the Direct Testimony of Lisa Steinkuhl ("Steinkuhl Testimony"). If not, provide the Company's exact rate increase request in the pending case.

RESPONSE:

Confirmed. The rate increase being requested is $70,008,476.

PERSON RESPONSIBLE: Lisa D. Steinkuhl

Duke Energy Kentucky
Case No. 2024-00354
AG's First Set of Data Requests
Date Received: January 8, 2025

AG-DR-01-008

REQUEST:

Refer to the Application, page 6, paragraph 11. Duke Kentucky states that it is requesting an increase in rates because its existing rates for electric service is projected to have an earned rate of return on rate base of 3.886%, which is allegedly inadequate to enable the Company to continue providing safe, reasonable, and reliable service to its customers and insufficient to afford Duke Kentucky a reasonable opportunity to earn a fair return on its investment property.

a. Confirm that Duke Kentucky was provided a rate increase for electric service of $47.498 million on October 12, 2023, which was increased to $47.671 million on July 1, 2024, in Case No. 2022-00372.[1] If not confirmed, explain in detail why not.

b. Based upon the final rate increase granted in the July 1, 2024, Rehearing Order in Case No. 2022-00372, provide the monthly dollar amount and percentage increase for the residential customer using the average amount of electricity, as well as the total bill for the average residential customer before the rate increase and after the rate increase.

c. Confirm that Duke Kentucky was provided a rate increase for electric service of $24,123,933 on April 27, 2020, which was increased by an additional $4.382

[1] Case No. 2022-00372, *Electronic Application of Duke Energy Kentucky, Inc. for 1) An Adjustment of the Electric Rates; 2) Approval of New Tariffs; 3) Approval of Accounting Practices to Establish Regulatory Assets and Liabilities; and 4) All Other Required Approvals and Relief* (Ky. PSC Oct. 12, 2023), Rehearing Order, Appendix B. (In the October 12, 2023, Final Order Duke Kentucky was granted a $47.498 million increase, which was increased in the July 1, 2024, Rehearing Order to a $47.671 million increase.)

million on October 16, 2020, in Case No. 2019-00271.[2] If not confirmed, explain in detail why not.

d. Confirm that Duke Kentucky was provided a rate increase for electric service of $8,428,645 on April 13, 2018, which was increased by an additional $388,626 on October 2, 2018, in Case No. 2017-00321.[3] If not confirmed, explain in detail why not.

RESPONSE:

a. Objection. This request is irrelevant and harassing in nature as it seeks information that is publicly available and accessible to the Attorney General. Without waiving said objection and to the extent admissible, the Commission's Orders speak for themselves.

b. From Case No. 2022-00372, the average residential customer consumes 921 kWh each month. Using the current rates in Schedule M from Case No. 2022-00372 including riders and the final approved rates in the rehearing order for Rate RS, the following table is calculated.

Rate RS bill for the average Rate RS customer prior to the Case No. 2022-00372 increase:	$108.83
Rate RS bill for the average Rate RS customer after the Case No. 2022-00372 increase:	$124.31
Bill Increase:	$15.48
Percentage Increase:	14.2%

[2] Case No. 2019-00271, *Electronic Application of Duke Energy Kentucky, Inc. for 1) An Adjustment of the Electric Rates; 2) Approval of New Tariffs; 3) Approval of Accounting Practices to Establish Regulatory Assets and Liabilities; and 4) All Other Required Approvals and Relief* (Ky. PSC Apr. 27, 2020) (In the April 27, 2020 Final Order, Duke Kentucky was granted a $24,123,933 increase, which was increased by an additional $4.382 million in the October 16, 2020 Rehearing Order.)

[3] Case No. 2017-00321, *Electronic Application of Duke Energy Kentucky, Inc. for: 1) An Adjustment of the Electric Rates; 2) Approval of an Environmental Compliance Plan and Surcharge Mechanism; 3) Approval of New Tariffs; 4) Approval of Accounting Practices to Establish Regulatory Assets and Liabilities; and 5) All Other Required Approvals and Relief* (Ky. PSC Apr. 13, 2018) (In the April 13, 2018 Final Order, Duke Kentucky was granted an $8,428,645 increase, which was increased by an additional $388,626 in the October 2, 2018 Rehearing Order.)

c. Objection. This request is irrelevant and harassing in nature as it seeks information that is publicly available and accessible to the Attorney General. Without waiving said objection and to the extent admissible, the Commission's Orders speak for themselves.

d. Objection. This request is irrelevant and harassing in nature as it seeks information that is publicly available and accessible to the Attorney General. Without waiving said objection and to the extent admissible, the Commission's Orders speak for themselves.

PERSON RESPONSIBLE: As to objections, Legal
As to response, Bruce L. Sailers

Duke Energy Kentucky
Case No. 2024-00354
AG's First Set of Data Requests
Date Received: January 8, 2025

AG-DR-01-009

REQUEST:

Refer to the Application, paragraph 2, in which Duke Kentucky states that it provides electric service to the Kentucky counties of Boone, Campbell, Grant, Kenton, and Pendleton Counties.

a. Based upon the most recent United States Census information, the poverty rates for Duke Kentucky's electric service area are as follows:

Pendleton County – 13.2%,

Grant County – 13.0%,

Kenton County – 10.6%,

Campbell County – 10.3%, and

Boone County – 7.4%.[1]

Confirm that Duke Kentucky is aware of the above poverty rate percentages of its electric customers who live in the aforementioned counties.

RESPONSE:

Objection. This request is unreasonable, overbroad, and irrelevant. Moreover, this request is further objectionable insofar as it is harassing in nature as it seeks the Company to verify its awareness of data that the Company does not maintain, create, and has no control over its maintenance or knowledge as to its truthfulness. Without waiving said objection, and in

[1] https://www.census.gov/quickfacts/fact/table/boonecountykentucky,campbellcountykentucky,kentoncountykentucky,grantcountykentucky,pendletoncountykentucky/PST045224.

the spirit of discovery, Duke Energy Kentucky is aware the United States Census Bureau maintains data including but not limited to poverty levels by county and confirms the Attorney General has accurately recited the July 1, 2024, estimated data as contained in the hyperlink footnote cited by the Attorney General in its question.

PERSON RESPONSIBLE: As to objections, Legal
As to response, Amy B. Spiller

Duke Energy Kentucky
Case No. 2024-00354
AG's First Set of Data Requests
Date Received: January 8, 2025

AG-DR-01-010

REQUEST:

Refer to the Direct Testimony of Amy B. Spiller ("Spiller Testimony") at 4, in which Ms. Spiller states that Duke Kentucky provides electric service to approximately 155,000 customers.

a. Provide the total number of customers that Duke Kentucky provided electric service to for the years 2020 – 2025.

b. Explain in detail if Duke Kentucky is forecasting an increase in electric customers in the forecasted test period, and if so, provide the exact increase and all documentation regarding the same.

c. Ms. Spiller states that Duke Kentucky provides natural gas service to approximately 105,000 customers in Bracken (gas only), Boone, Campbell, Gallatin (gas only), Grant, Kenton, and Pendleton counties. Provide the number of customers that Duke Kentucky provides both electric and natural gas service to in the Kentucky service territory.

RESPONSE:

a. Please see the table below for the total number of customers Duke Energy Kentucky provided electric service for the years 2020-2025.

2020-2025 Customer Count by Class

Year	Residential	Commercial	Industrial	OPA	SL	Total
2020	131,533	12,442	352	734	297	145,358
2021	132,455	12,692	344	681	405	146,578
2022	134,464	12,643	333	904	525	148,869
2023	136,693	12,734	312	873	512	151,124
2024	139,405	13,035	294	848	492	154,073
*2025	140,321	12,270	329	866	535	154,321

**Forecasted Customer Count*

b. Duke Energy Kentucky is forecasting an increase in electric customers in the forecasted test period. Please see the table below for the details of the increase.

Test Year Customer Count vs. 2024 Customer Count by Class

	Residential	Commercial	Industrial	OPA	SL	Total
Test year Average Customer Count	140,812	12,208	329	868	536	154,754
Test Year minus 2024	1,406	(826)	35	20	45	681

c. As of December 2024, there are 81,732 customers with both electric and natural gas service.

PERSON RESPONSIBLE: Ibrar A. Khera

Duke Energy Kentucky
Case No. 2024-00354
AG's First Set of Data Requests
Date Received: January 8, 2025

AG-DR-01-011

REQUEST:

Refer to the Spiller Testimony at 4, in which Ms. Spiller asserts that Duke Kentucky's headquarters are located in Cincinnati, Ohio.

a. Explain whether Duke Kentucky has any utility office in Kentucky open for a customer to pay bills, obtain customer service, etc. If not, explain all ways that Duke Kentucky provides customers to pay bills, obtain customer service, etc.

b. Provide an update as to Duke Ohio's fine from the Public Utilities Commission of Ohio for making over 100,000 billing mistakes with its new Customer Connect software.[1] Additionally, confirm that Duke Kentucky customers will not have to pay for any portion of the fine assessed against Duke Ohio.

c. Provide a detailed account as to whether Duke Kentucky has made similar billing mistakes in Kentucky, as previously mentioned in (b), with its new Customer Connect software. If so, provide the total number of billing mistakes as well as how the Company resolved the mistakes.

RESPONSE:

a. Please see Direct Testimony of Amy B. Spiller, pages 4-5, for a description of the Company's local electric operations, including Kentucky operation offices, and pages 14-19 for customer bill management and payment options. See also Direct Testimony of Jacob Colley for a description of payment center options within Duke

[1] *See* https://www.wvxu.org/show/cincinnati-edition/2024-09-04/duke-energy-mistakes-billing-software.

Energy Kentucky's service area where customers can pay their utility bill, including the addition of free pay stations at Kroger grocery stores throughout the Company's service territory.

b. Objection. This request is irrelevant and seeks information that is not related to the Company's Application in this proceeding and is not likely to lead to the discovery of any admissible or relevant evidence. Answering further, the status of the Ohio proceeding is a matter of public record and thus equally accessible to the Attorney General. Without waiving said objection, to the extent discoverable, and in the spirit of discovery, on January 10, 2010, in Case No. 24-0297-GE-UNC, all parties to the Ohio proceeding caused to be filed a unanimous stipulation, that if approved, would resolve the issues in that proceeding. Duke Energy Kentucky customers will not be financially responsible for the commitments of Duke Energy Ohio as articulated in the Ohio stipulation.

c. Objection. This request is vague and confusing as written given that it is susceptible to differing interpretations. Answering further, the regulatory construct in Ohio as it relates, among other things, to customer choice and rules for the state's PIPP program differs from that of Kentucky, which necessarily mandates dissimilarities with customer billing. Without waiving said objection and to the extent discoverable, the Company places great emphasis on ensuring billing accuracy within its current policies and procedures as highlighted in the combined gas and electric bill accuracy percentage table below.

Year	Bill Accuracy (Gas and Electric Combined)
2022 (04/2022 – 12/2022)	98.86%
2023	98.84%
2024	99.39%

There are various scenarios in which a bill correction may be necessary. Some examples are detailed below:

- **Corrections to customer move in or move out dates** – reversals are required due to reasons such as the customer providing a wrong move-in or move-out date or an incorrect premises address was provided.
- **Estimated Bill** – At times, a meter reading or interval data may be unavailable. This can be caused by meter communication issues, unavailable meter access or blank meter display. Once actual data is obtained, the invoices containing the estimated reads may need to be reversed and the actual data obtained from the meter is used to rebill the customer.
- **Adjustment of Previous or Current Bill** – This can occur for various reasons including meter tampering or a customer temporarily billed on an incorrect rate.
- **Inaccurate Meter Configuration** – This can occur when there is an error in the meter set up such as an incorrect meter multiplier.
- **Incorrect Account Set Up** – This can occur by incorrect data supplied by the customer or by human performance when entered by the employee.

PERSON RESPONSIBLE: As to objections, Legal
As to response, Amy B. Spiller – a., b.
Jacob Colley – c.

Duke Energy Kentucky
Case No. 2024-00354
AG's First Set of Data Requests
Date Received: January 8, 2025

AG-DR-01-012

REQUEST:

Refer to the Spiller Testimony at 13 – 14, and the Direct Testimony of Jacob Colley ("Colley Testimony") at 11 – 13.

a. Explain whether Duke Kentucky's customers voluntarily contribute to Share the Light (formerly WinterCare), the Home Energy Assistance ("HEA"), the Neighborhood Energy Saver Program ("NES"), the Payment Plus Program, and Weatherization Program, or if the customers are required to contribute through customer rates.

b. Provide the monetary amount that customers are required to contribute each month/year to Share the Light, HEA, NES, the Payment Plus Program, and the Weatherization Program, if any.

c. Provide the monetary amount that Duke Kentucky's shareholders contribute each month/year to Share the Light, HEA, NES, the Payment Plus Program, and the Weatherization Program, if any.

d. Provide the account balances for Share the Light, HEA, NES, the Payment Plus Program, and the Weatherization Program, for each month of 2024.

RESPONSE:

a. Duke Energy Kentucky customers can voluntarily contribute to the Company's Share the Light Fund. Duke Energy Kentucky customers cannot voluntarily

contribute to the HEA, NES, Payment Plus, or Weatherization Programs but do contribute to these programs through their Commission-approved rates.

b. Customers are not required to contribute to the Share the Light Fund.

A Home Energy Assistance Program (HEA) charge of $0.30 is applied monthly to residential customer bills per the May 4, 2020 Commission Order in Case No. 2019-00366.

The NES, Payment Plus, and Weatherization Programs are part of Rider Demand Side Management (Rider DSM) and the customer is billed monthly per the Commission Orders in those proceedings.

c. The Company's shareholders contribute $50,000 annually to the Share the Light Fund, as well as $50,000 annually to the HEA program. The Company's shareholders do not contribute to the NES, Payment Plus, or Weatherization Programs.

d. The account balances for the Share the Light Fund for each month in 2024 is detailed below.

Month	**Balance**
January	$13,861.82
February	$3,674.08
March	$2,427.24
April	$3,414.71
May	$3,281.48
June	$4,507.84
July	$7,703.62
August	$11,111.84
September	$3,047.69
October	$3,772.96
November	$5,005.49
December	$5,005.49

The account balances for the Home Energy Assistance program for each month in 2024 is detailed below.

Month	**Balance**
January	$381,699.28
February	$338,199.03
March	$258,986.77
April	$241,990.60
May	$313,586.27
June	$389,091.58
July	$353,229.88
August	$336,946.08
September	$325,233.08
October	$424,147.18
November	$500,290.68
December	$576,471.38

The NES, Payment Plus, and Weatherization Programs are not operated in a manner that allows for reporting of monthly account balances. Rather, budgets are established for NES, the Payment Plus Program, and the Weatherization Program and approved by the Public Service Commission within the annual cost recovery filing for demand side management that is filed annually on November 1st.

PERSON RESPONSIBLE: Jacob S. Colley

Case No. 2024-00354
AG's First Set of Data Requests
Date Received: January 8, 2025

AG-DR-01-013

REQUEST:

Refer to the Spiller Testimony at 16. Ms. Spiller states that Duke Kentucky conducts Customer Experience Monitor surveys, and initially scored +15.5 in January 2018 and improved the score to +43 in June 2024. Provide the scoring range, and what each score indicates, for the Duke Kentucky's Customer Experience Monitor survey.

RESPONSE:

- Scores range from a minimum of -100 to a maximum of +100 (a 200-point range).
- The CX Monitor questionnaire's overall sentiment score is measured on a '0-10' scale.
    - Customers providing a score of '9' or '10' are considered 'Promoters'.
    - Customers providing a score of '7' or '8' are considered 'Passives'.
    - Customers providing a score of '0-6' are considered 'Detractors'.
- The overall sentiment score is a 'Net Score', calculated by subtracting the share of 'Detractors' from the share of 'Promoters'.
    - Scores below zero indicate more Detractors than Promoters – or poor customer sentiment.
    - Scores above zero indicate more Promoters than Detractors – or good to strong customer sentiment.

- Duke Energy Kentucky's December 2024 score of +43 was calculated using this methodology, given that 59.7% of respondents were 'Promoters' and 16.7% were 'Detractors'. (i.e., 59.7 MINUS 16.7 = +43).

PERSON RESPONSIBLE: Jacob S. Colley

Duke Energy Kentucky

REQUEST:

Refer to the Spiller Testimony at 18 – 19. Ms. Spiller states that Duke Kentucky additionally uses Fastrack to measure customer satisfaction with recent interactions with the Company.

a. Provide the detractors' suggestions on how to improve start/transfer electric service.

b. Provide the detractors' suggestions on how to improve outage/restoration.

c. Provide the detractors' suggestions on how to improve outdoor lighting repair.

RESPONSE:

While Duke Energy Kentucky's customer satisfaction scores indicate that, overall, customer satisfaction with these experiences is relatively high, customers shared feedback on pain points they experienced.

a. For the start/transfer service process:

    i. Some customers struggle with the deposit requirement.

    ii. Some customers would like for the start service online experience to be available even though certain special circumstances require speaking with the Company's call center specialists, e.g., additional validation of identify required.

b. For the outage/restoration experience:

i. Some customers believe they are registered for outage alerts but do not receive them.

ii. Some customers would like completely accurate estimated restoration times.

c. For outdoor lighting repair:

i. Some customers note that initial repair services are not always successful and may require submitting a repeat work order.

PERSON RESPONSIBLE: Jacob S. Colley

AG-DR-01-016

REQUEST:

Refer to the Spiller Testimony at 20.

a. Provide a breakdown of the $250 million investment in additional electric infrastructure by project that Duke Kentucky has made since the last rate case, and provide start and end dates for each project.

b. Explain in detail whether a CPCN was obtained for any of the aforementioned $250 million investment projects. If so, provide the correlating case number(s). If not, explain why not.

RESPONSE:

a. See AG-DR-01-016 Attachment for Plant Additions, excluding unitization and ARO from September 2022, the month following the last actual month in Case No. 2022-00372 base period, through August 2024, last actual month in Case No. 2024-00354.

b. Objection. This request seeks information that is publicly available for inspection on the Commission's docket and thus is easily accessible to the Attorney General. As such, this request is asking the Company to engage in busywork and is thus intended to harass. Without waiving said objection, and to the extent discoverable, yes, the Company did file CPCNs since its last electric rate case for a project that necessitated a CPCN. Please see Case Nos. 2023-00239 and 2024-00158. The Company is not obligated to file a CPCN for

ordinary extensions of the existing system in the usual course of business or for service connections to electric consuming facilities located within its certified territory.
