**RE: Electronic Joint Application of Kentucky Utilities Company and Louisville Gas and Electric Company for Certificates of Public Convenience and Necessity and Site Compatibility Certificates  
Case No. 2025-00045**

Dear Ms. Bridwell:

On February 28, 2025, Kentucky Utilities Company ("KU") and Louisville Gas and Electric Company ("LG&E") (collectively "the Companies") filed a Joint Application with testimony and exhibits seeking approval for Certificates of Public Convenience and Necessity ("CPCN") for the construction of two approximately 645 MW net summer rating natural gas combined cycle combustion turbine ("NGCC") facilities, one at KU's E.W. Brown Generating Station in Mercer County, Kentucky ("Brown 12") and the other at LG&E's Mill Creek Generating Station in Jefferson County, Kentucky ("Mill Creek 6"), including on-site natural gas and electric transmission construction associated with those facilities.

The Companies have realized that Exhibit TAJ-1 of the Tim A. Jones testimony inadvertently did not include Appendix A and B. The Companies are filing the appendices of Exhibit TAJ-1.

In accordance with 807 KAR 5:001, Section 8 and the Commission's Order of July 22, 2021 in Case No. 2020-00085, I certify that the electronic filing has been transmitted to the Commission on March X, 2025 and that there are currently no parties in this proceeding that the Commission has excused from participation by electronic means.

Should you have any questions regarding the enclosed, please contact me at your convenience.

Sincerely,

A handwritten signature in blue ink that reads "Rick E. Lovekamp".
