Re: Case No. 2025-00060

Dear Ms. Bridwell:

Graves County Water District has received the Commission Staff's Second Request for Information and is working diligently to comply with the request by the stated deadline of July 2, 2025. However, numerous employees of the Mayfield Electric and Water Systems are scheduled to be out of the office on vacation this week and next week making it virtually impossible for Graves District to compile the information in time to completely fulfill the requirements of the request. We anticipate that we will likely be able to provide complete and accurate responses to all of Commission Staff's questions within 2 weeks of the scheduled due date of July 2, 2025 or by July 16, 2025.

May we be permitted an extension until July 16, 2025 to submit the Responses to Commission Staff's Second Request for Information?

Please do not hesitate to contact me if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Brent Shultz".

R. Brent Shultz
