A Sustainable Energy Investment Platform

Candela has partnered with Naturgy Energy Group, a global energy company based in Spain with over 175 years of experience, a roughly \$27 billion market capitalization and 18 million customers in over 20 countries

Naturgy and Candela share a commitment to the sustainable development and expansion of the supply of environmentally-friendly, economically competitive and safe energy. Combining Candela's expertise and flexible solution model with Naturgy's scale, experience, and global network, allows us to offer greater possibilities to our clients, partners, and investors around the world.

Naturgy is expected to own and operate the project long-term and will provide balance sheet financing.

Selected Active Development Portfolio

As a leading team of solar project developers, we deploy cutting-edge solutions and technologies for the benefit of project owners, power purchasers and landowners.

Introduction

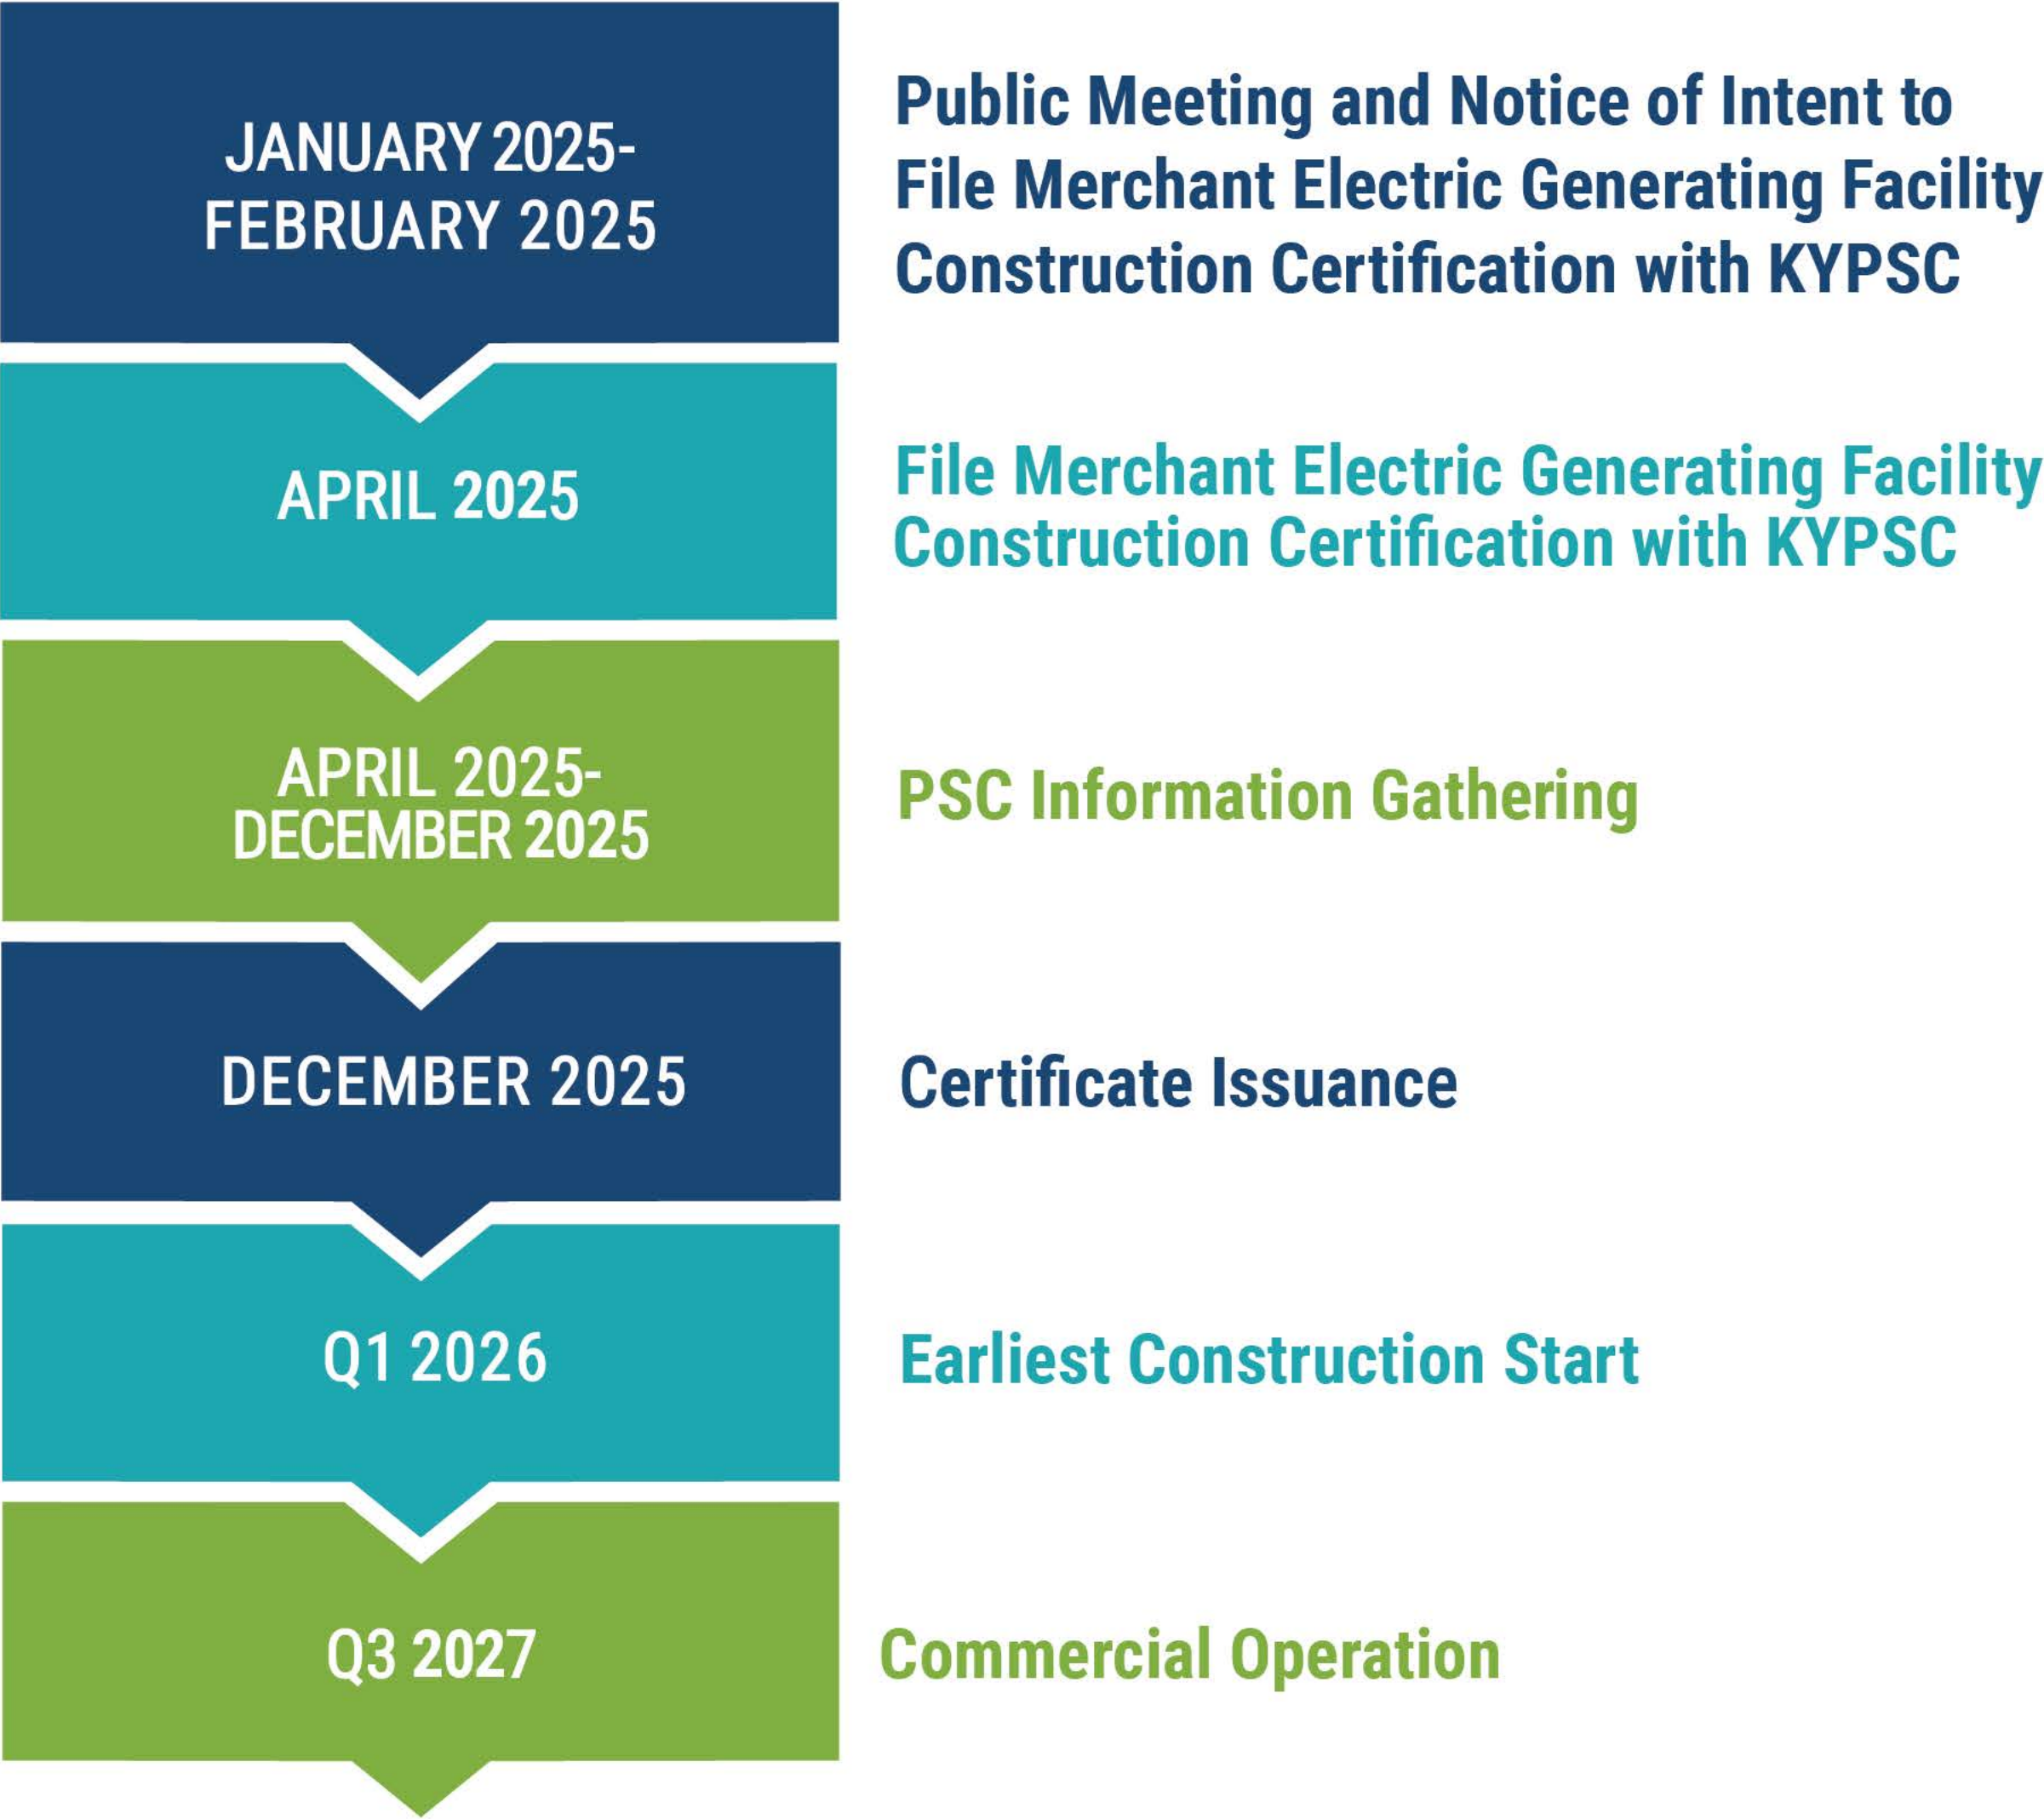

Candela Renewables, established in summer 2018, is the most accomplished team of utility-scale solar power plant developers in North America

Members of the team have previously created over **4 GW** of contracted projects, now in operation. Candela is currently developing a **7 GW portfolio of solar projects** together with **4.6 GW of energy storage** projects, spanning 9 states in the U.S.

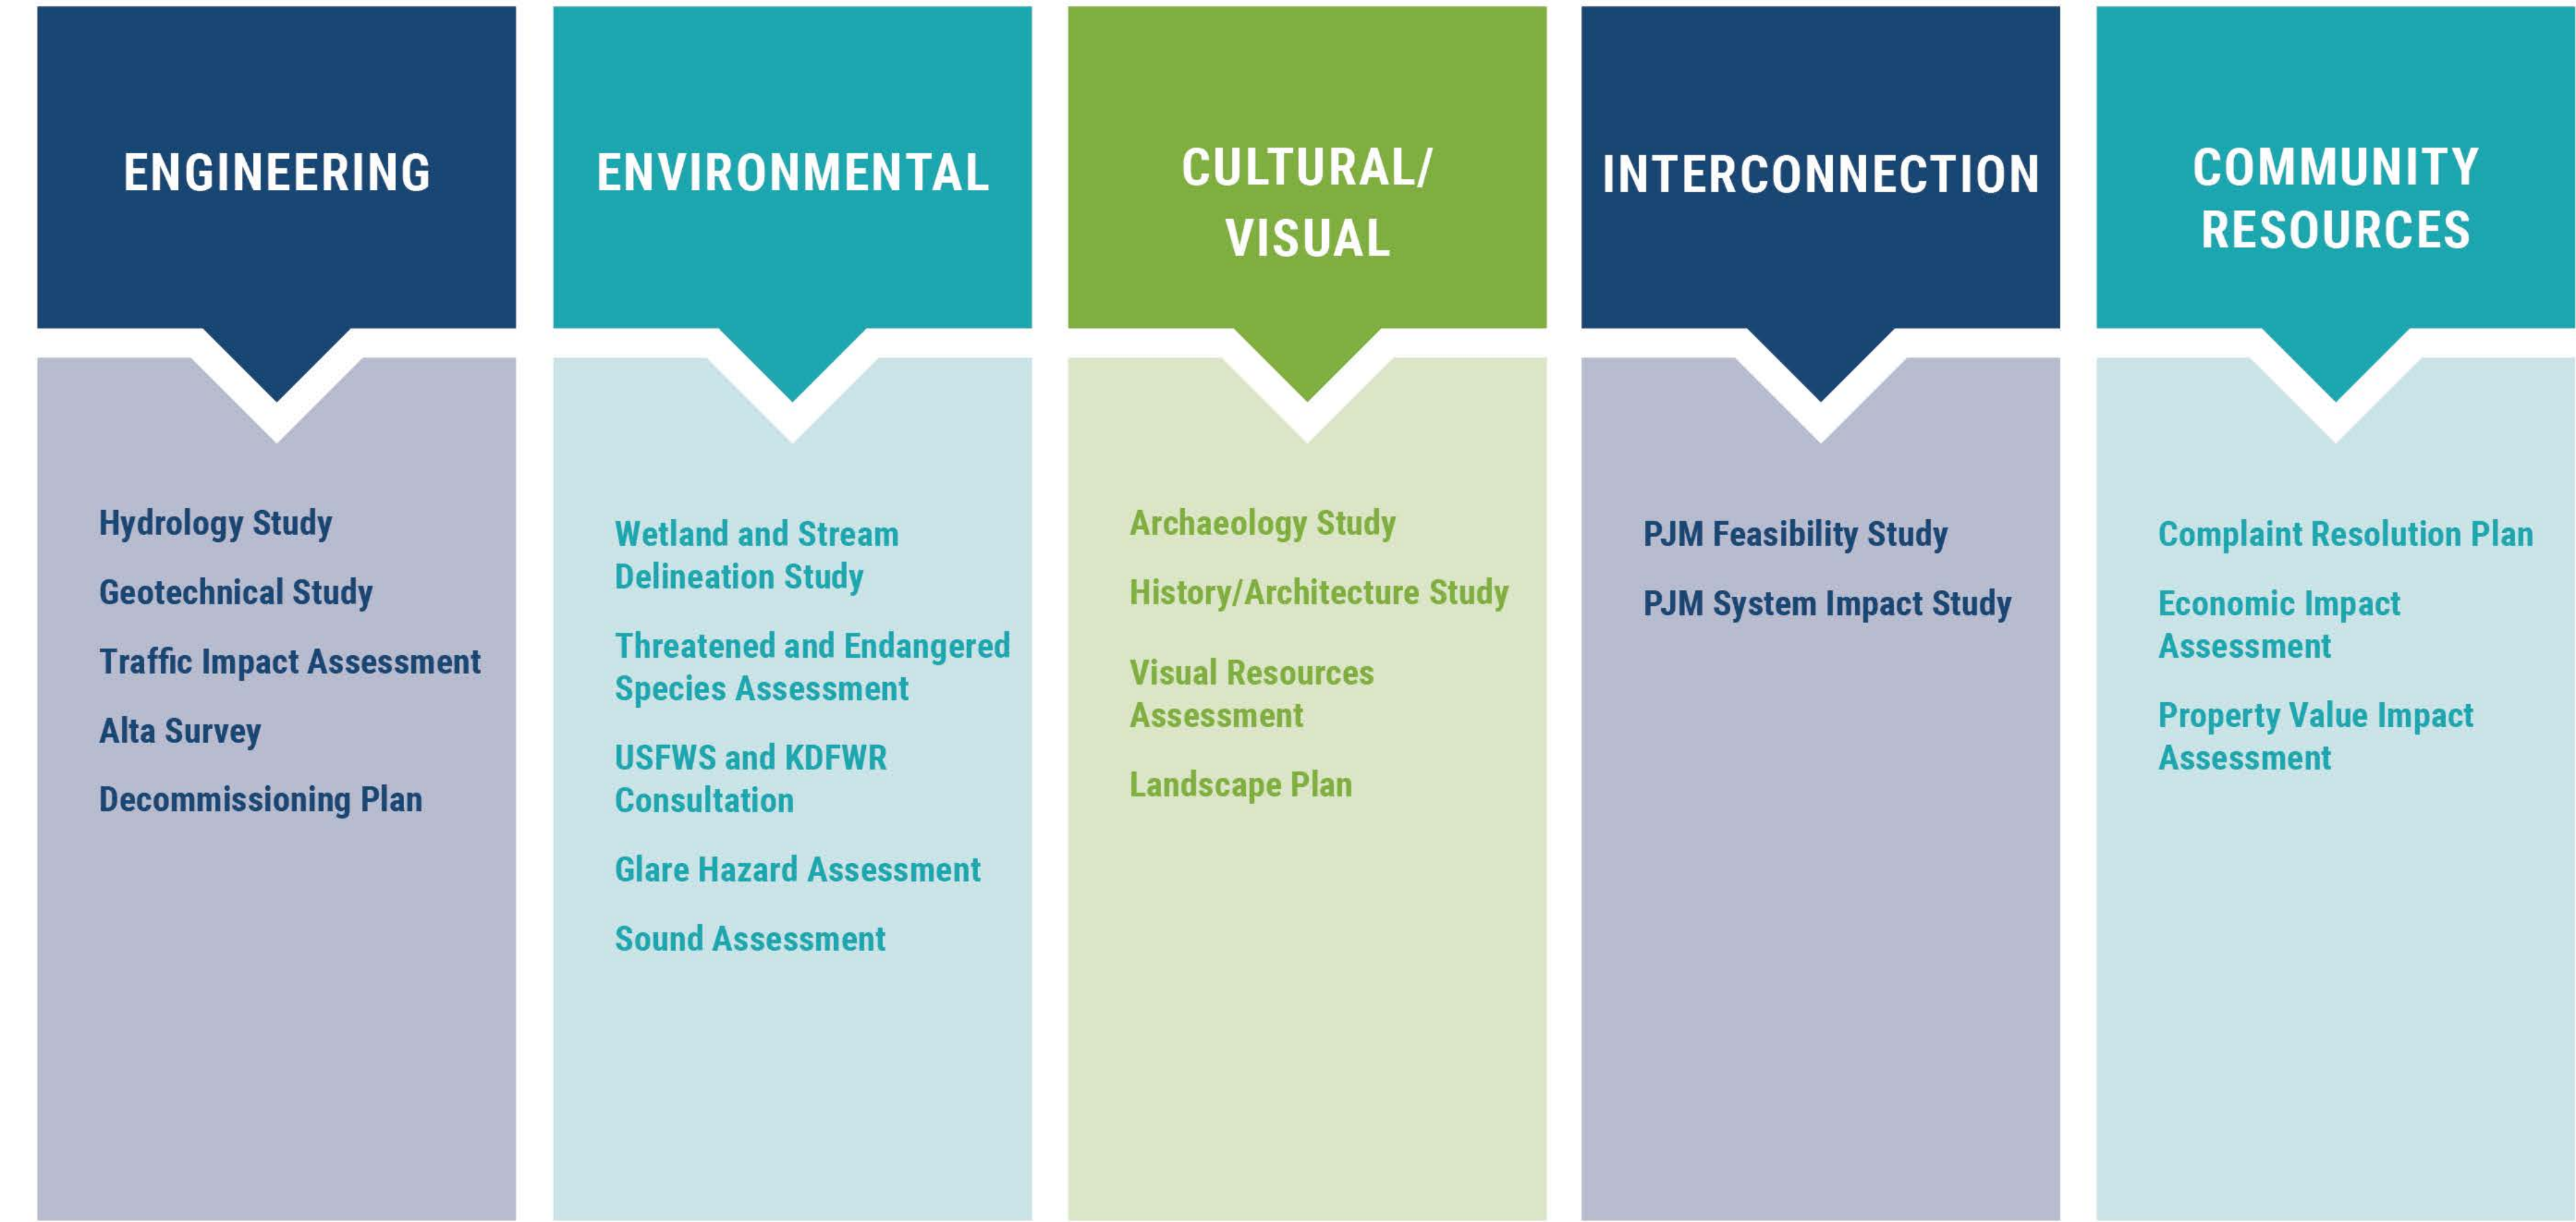

We are technology agnostic, flexible in our approach and well capitalized through our partnership with Naturgy Energy Group.

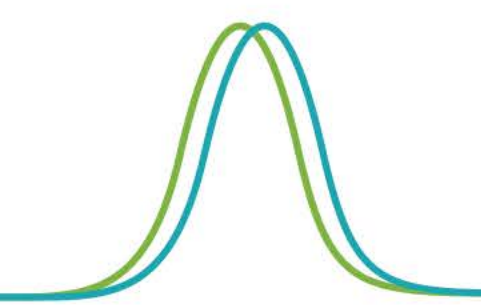

Anticipated Project Permitting & Construction Schedule

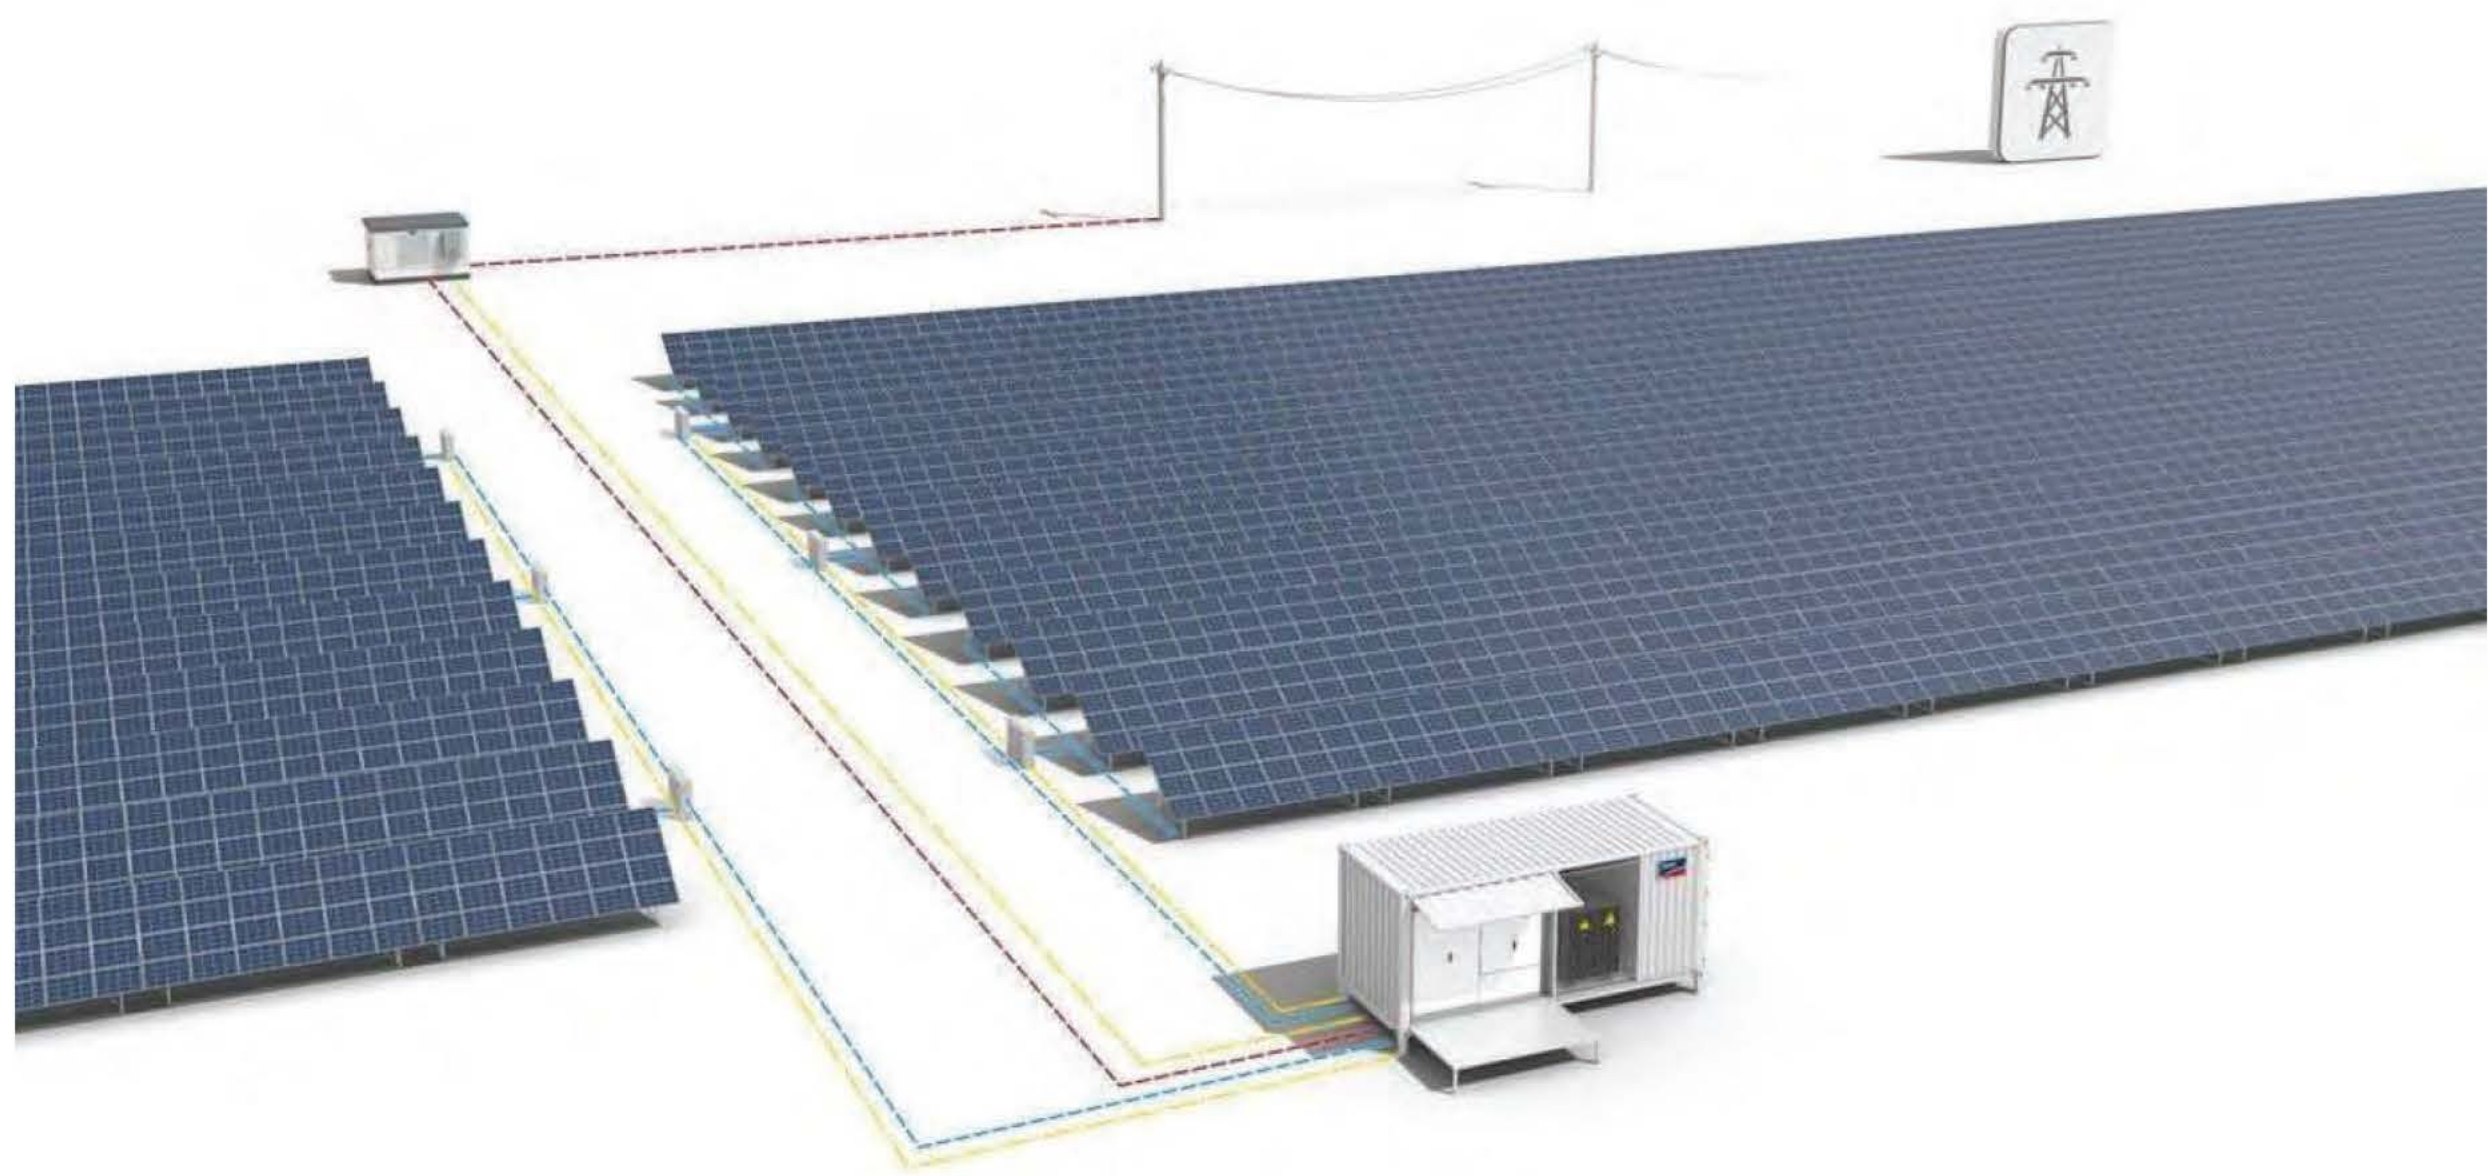

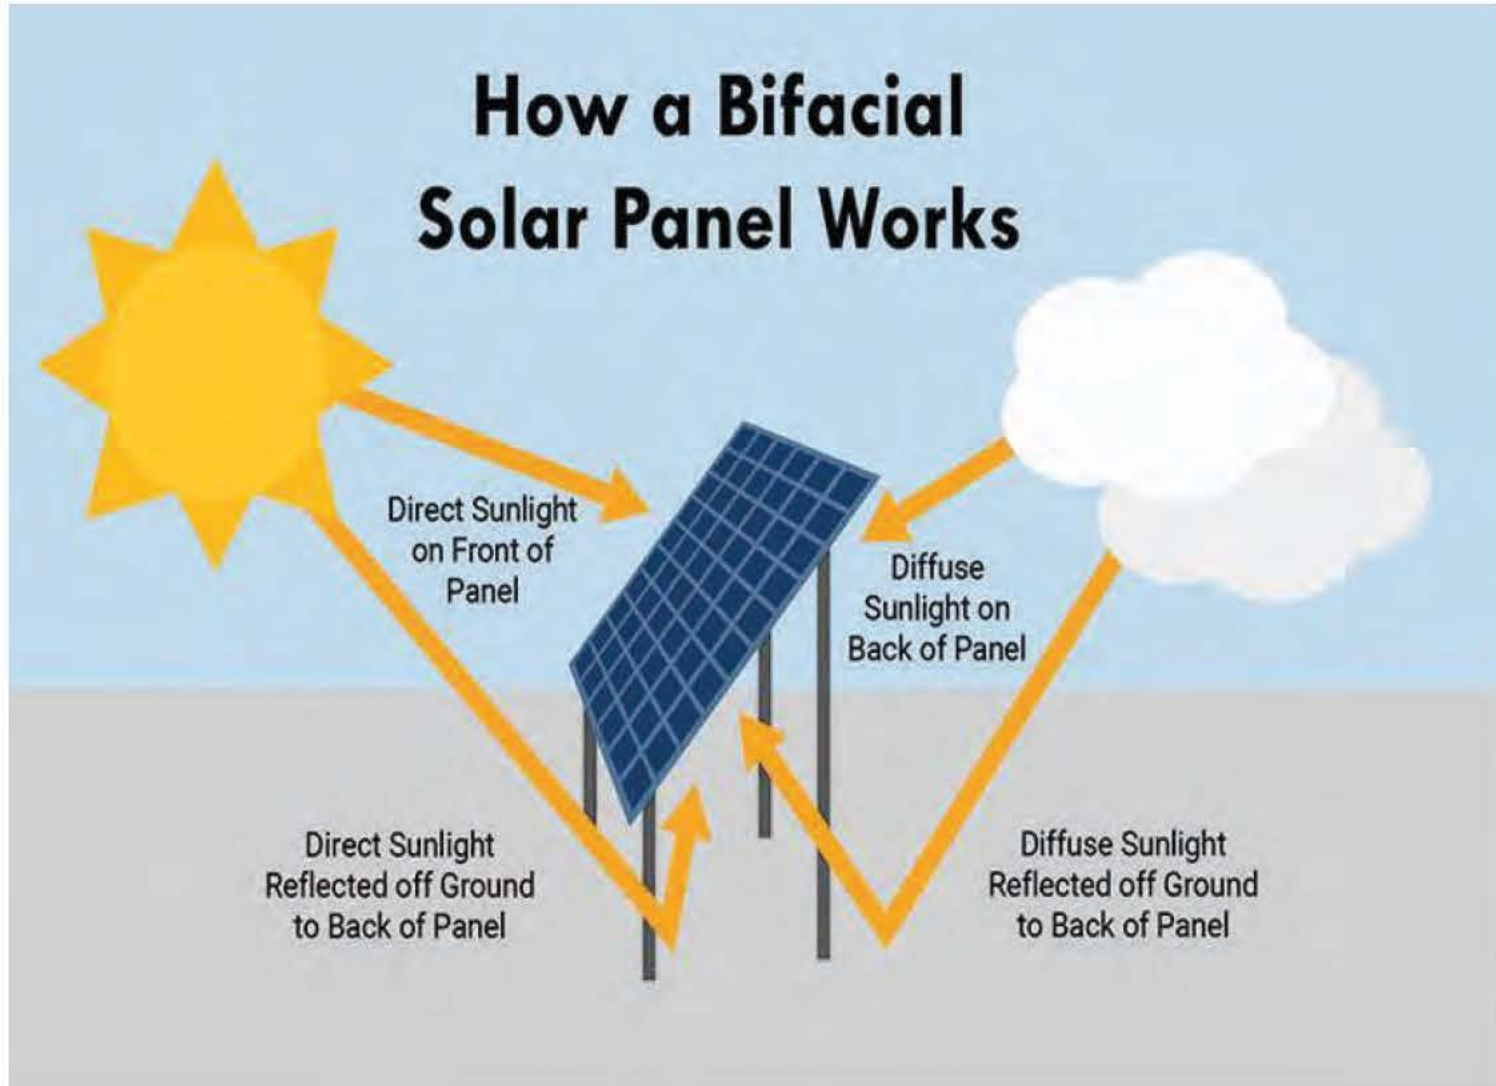

Project Studies & Plans

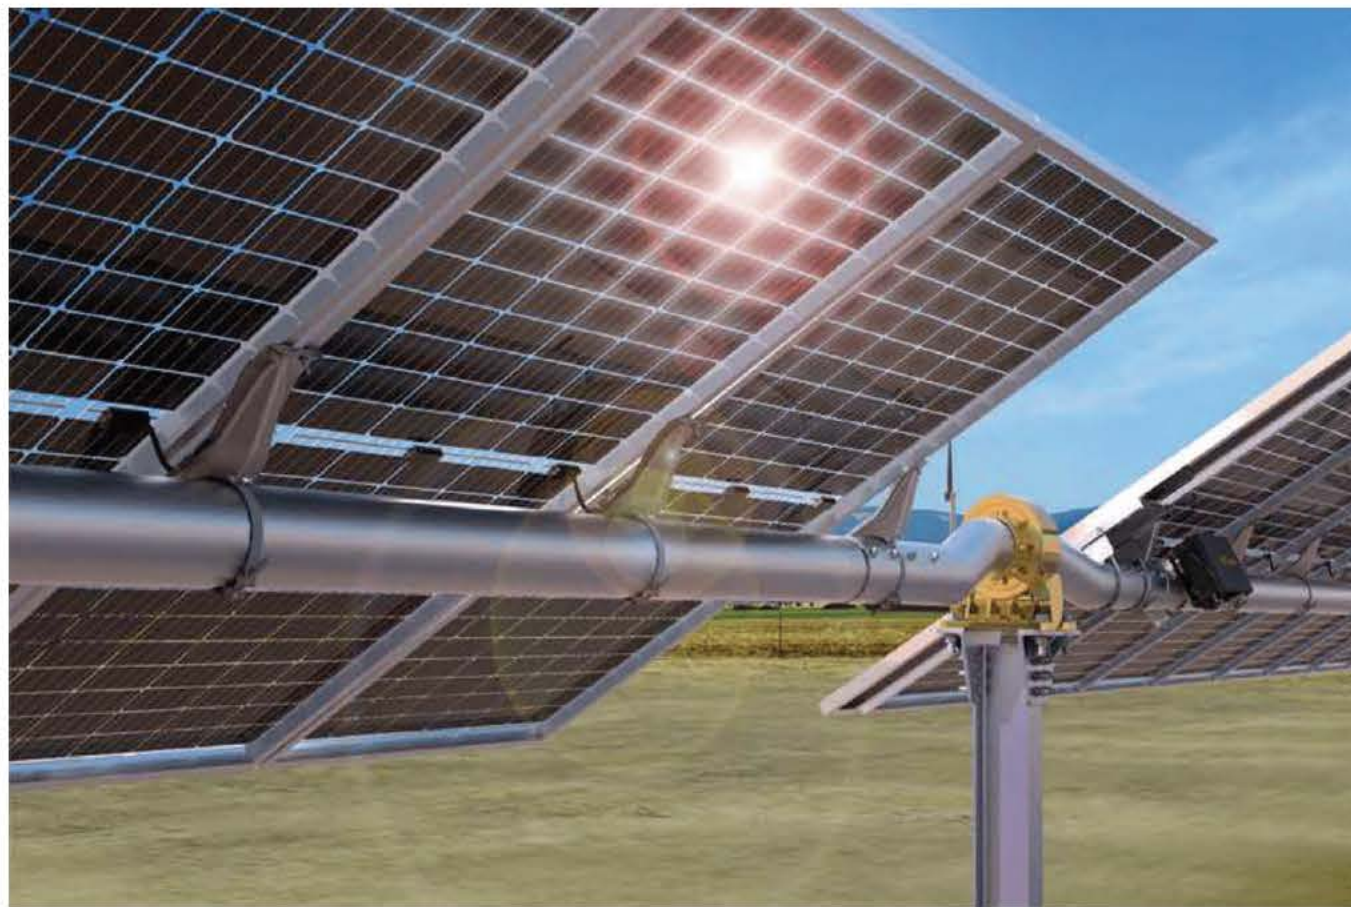

Photovoltaic Solar Farm

Modules

Fixed-Tilt/Tracker

Central Inverter

Project Substation

Bi-facial technology improves efficiency

Battery Energy Storage System

Technology

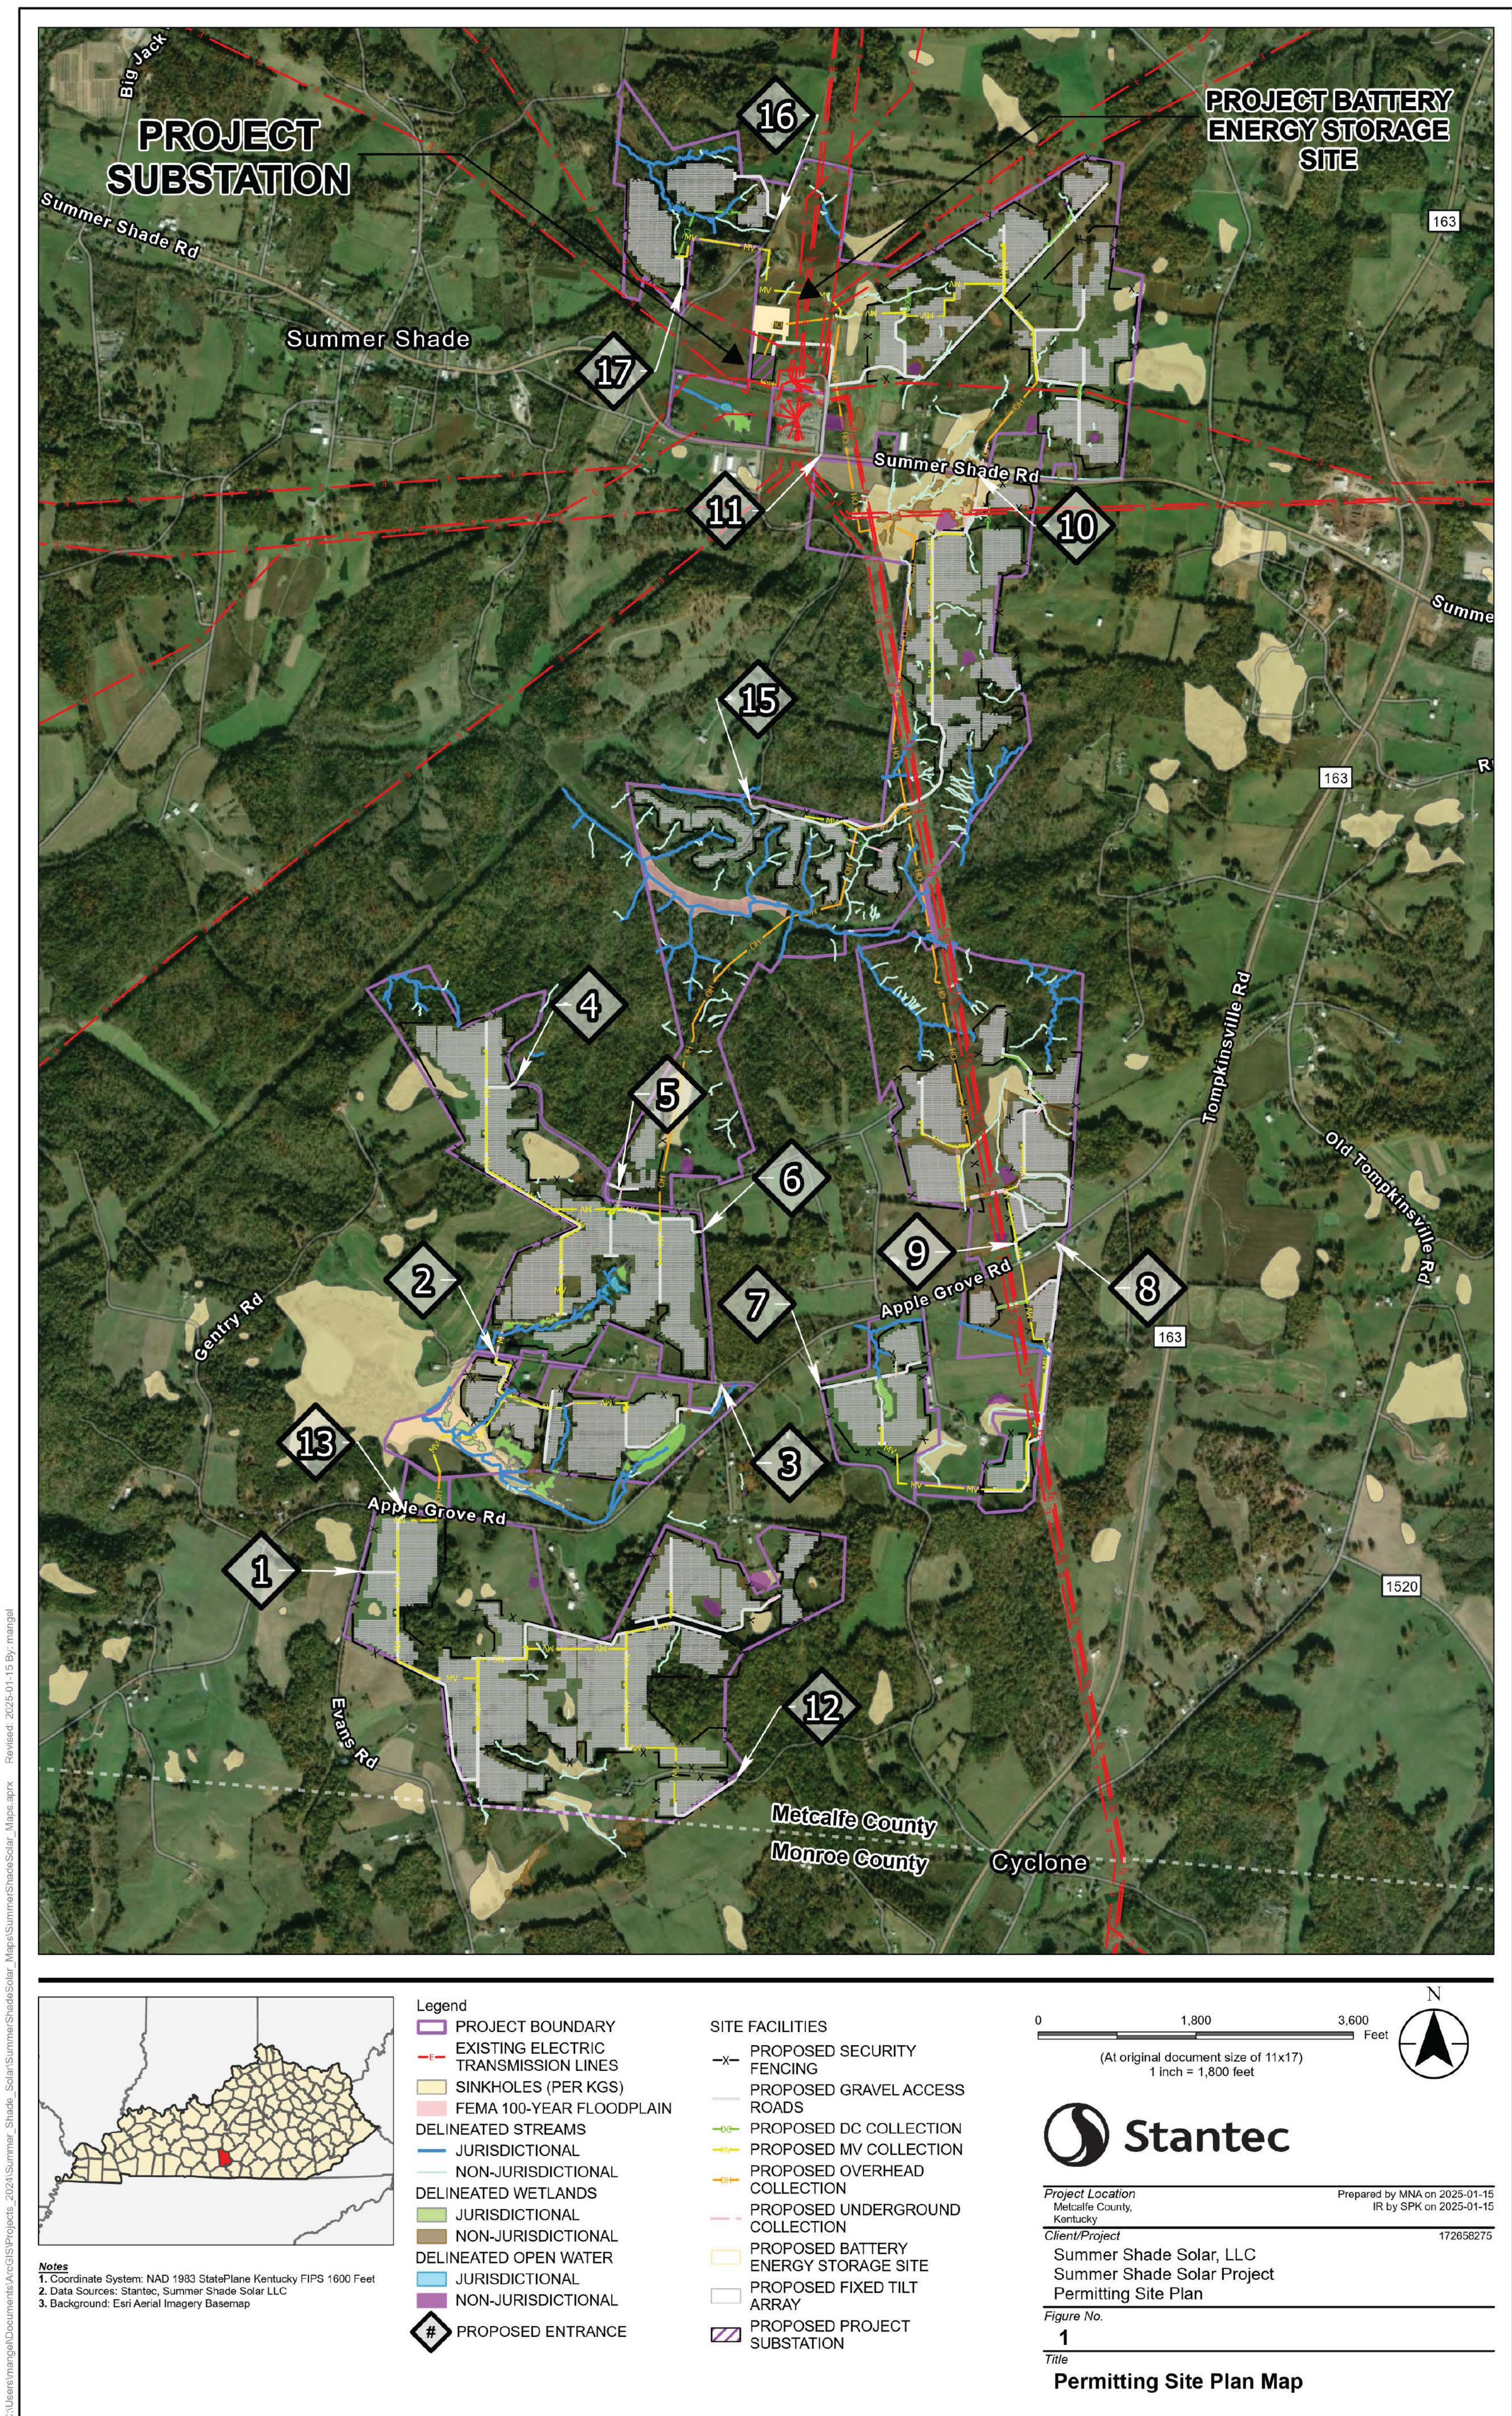

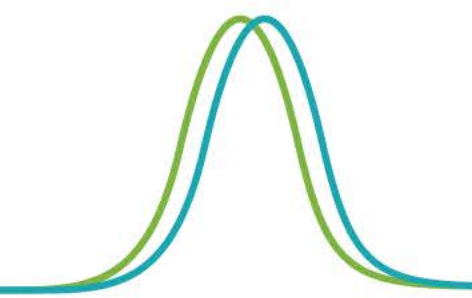

Fixed tilt modules laid out in rows running north-south, mounted at a fixed angle of 25 degrees to maximize photovoltaic absorption.

Construction

A 106 MW solar farm is typically constructed over a period of 9 to 12 months, with an average of 276 construction jobs at a time. Activities include site prep and installation of components. Special attention will be paid to sinkholes, dust control, and sensitive species.

Property Tax Benefits

Compared to current land use, Summer Shade Solar is expected to generate over 13 times as much revenue for Metcalfe County during the first year of the project's life.

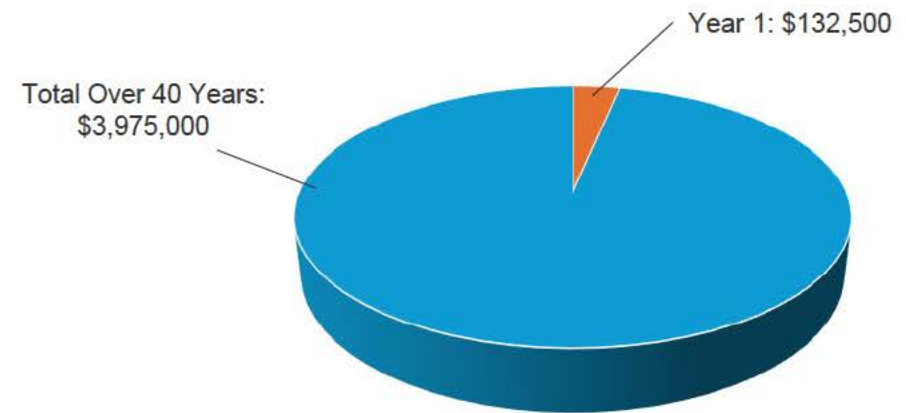

Property Tax Revenue Generated by Current Land Use

1. ~\$10,000 of tax revenue generated annually by properties involved in project.

Revenue Generated by Summer Shade Solar Project IRB/Pilot Program

1. The proposed IRB/PILOT program is expected to generate \$132,500 in first year of project and \$3.975 million over life of project.
2. Solar projects do not impose significant new financial obligations on counties, so most new revenue will be available for use.

PUBLIC NOTICE

Summer Shade Solar, LLC, is proposing to construct and operate an approximately 106 MW photovoltaic solar energy electric generating and battery storage project and related transmission line (the "Project") in Metcalfe County, Kentucky. The Project will be located to the west of State Highway 163 (KY-163) and near Summer Shade Road and Apple Grove Road. A public meeting to inform the community about the project and answer questions about the project will take place on January 29, 2025, from 5:30 to 7:30 p.m. Central Standard Time in the Fiscal Court meeting room in the Metcalfe County Government Building at 201 N Main St. in Edmonton, KY 42129. The proposed photovoltaic solar energy project will consist of solar photovoltaic panels and the associated racking systems, electric equipment, project substation and transformer, utility switching station, battery storage system, and underground and overhead electrical connection lines. The power generated by the Project will be linked to the electric transmission grid via the 161 kilovolt (kV) Summer Shade Substation owned by East Kentucky Power Cooperative. Anyone with questions about the Project can request information by emailing Aubree Muse at aubree.muse@candelarenewables.com or calling her at (270) 681-5058.

Continued from page seven

the Commonwealth, but also understands the issues that impact our more urban and suburban areas. I look forward to seeing the direction it takes," said Speaker Osborne. "This committee has a critical duty, as local governments impact the daily lives of Kentuckians across the commonwealth more than any other level of our democratic institutions.

Whether the issues be small or large, I know that this committee's leadership as well as its members will be dedicated to their work."

According to the National Conference of State Legislatures, a committee chair "serves as the parliamentary head of a committee. The chair sets the committee's agenda, determining when—or in many states, whether—bills will be considered."

In addition to leading the committee, Neighbors will also serve as a member of the Health Services; Licensing, Occupations, and Administrative Regulations; and Transportation committees.

The 2025 Regular Session will convene

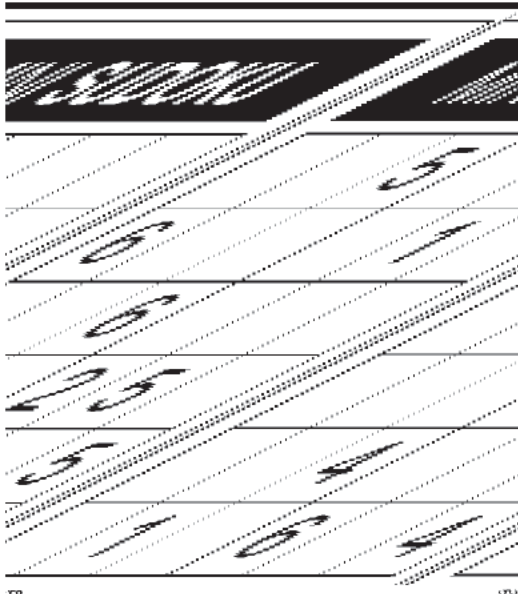

on Tuesday, January 7 and legislators will meet for 30 legislative

days before adjourning by March 29.

Kentuckians can keep up to date with legislative activity by

visiting legislature.ky.gov or following @KYHouseGOP on

Facebook, Twitter, and most major social media outlets.

Place a number in the empty boxes in such a way that each row across, each column down and each small 9-box square contains all of the numbers from one to nine.

January 14, 2025

Dear Sir or Ma'am,

Summer Shade Solar, LLC, is proposing to construct and operate an approximately 106 MW photovoltaic solar energy electric generating and battery storage project and related transmission line (the "Project") in Metcalfe County, Kentucky. The Project will be located to the west of State Highway 163 (KY-163) and near Summer Shade Road and Apple Grove Road.

Summer Shade Solar, LLC, is affiliated with Candela Renewables, LLC, an energy company dedicated to the development of solar and battery storage projects. Our team has created more than 4 gigawatts of operating projects across the country, and has over 25 years of experience at every stage of development.

Our projects not only provide clean energy, but also support economic development, adding value to the communities we support. This could be through capital investments, significant new tax revenues, and active partnerships with local schools and other community groups.

As part of our efforts in getting to know the community, you are invited to a community meeting. The public meeting will be on **Wednesday, January 29, 2025, from 5:30 p.m. to 7:30 p.m. CST at the Fiscal Court meeting room in the Metcalfe County Government Building at 201 N Main St. in Edmonton, KY 42129.** It is an open house format, so you may come whenever you're available!

We would love to see you at our community meeting as it will serve as a great opportunity to learn about the project and ask any questions you may have. During this meeting, you will have the opportunity to talk with our development team and see the current status of the project.

If you can't attend but would still like to learn about the project, please take a look at the project website at <https://summershadesolar.com/> or contact me at the email/number below.

We look forward to meeting you on Wednesday, January 29, 2025, at the public meeting, if we haven't already!

Our projects not only provide clean energy, but also support economic development, adding value to the communities we support. This could be through capital investments, significant new tax revenues, and active partnerships with local schools and other community groups.

As part of our efforts in getting to know the community, you are invited to a community meeting. The public meeting will be on **Wednesday, January 29, 2025, from 5:30 p.m. to 7:30 p.m. CST at the Fiscal Court meeting room in the Metcalfe County Government Building at 201 N Main St. in Edmonton, KY 42129.** It is an open house format, so you may come whenever you're available!

We would love to see you at our community meeting as it will serve as a great opportunity to learn about the project and ask any questions you may have. During this meeting, you will have the opportunity to talk with our development team and see the current status of the project.

If you can't attend but would still like to learn about the project, please take a look at the project website at <https://summershadesolar.com/> or contact me at the email/number below.

We look forward to meeting you on Wednesday, January 29, 2025, at the public meeting, if we haven't already!

Dear Sir or Ma'am,

Summer Shade Solar, LLC, is proposing to construct and operate an approximately 106 MW photovoltaic solar energy electric generating and battery storage project and related transmission line (the "Project") in Metcalfe County, Kentucky. The Project will be located to the west of State Highway 163 (KY-163) and near Summer Shade Road and Apple Grove Road.

Summer Shade Solar, LLC, is affiliated with Candela Renewables, LLC, an energy company dedicated to the development of solar and battery storage projects. Our team has created more than 4 gigawatts of operating projects across the country, and has over 25 years of experience at every stage of development.

Our projects not only provide clean energy, but also support economic development, adding value to the communities we support. This could be through capital investments, significant new tax revenues, and active partnerships with local schools and other community groups.

As part of our efforts in getting to know the community, you are invited to a community meeting. The public meeting will be on **Wednesday, January 29, 2025, from 5:30 p.m. to 7:30 p.m. CST at the Fiscal Court meeting room in the Metcalfe County Government Building at 201 N Main St. in Edmonton, KY 42129.** It is an open house format, so you may come whenever you're available!

The Project will be located to the west of State Highway 163 (KY-163) and near Summer Shade Road and Apple Grove Road.

Summer Shade Solar, LLC, is affiliated with Candela Renewables, LLC, an energy company dedicated to the development of solar and battery storage projects. Our team has created more than 4 gigawatts of operating projects across the country, and has over 25 years of experience at every stage of development.

Our projects not only provide clean energy, but also support economic development, adding value to the communities we support. This could be through capital investments, significant new tax revenues, and active partnerships with local schools and other community groups.

As part of our efforts in getting to know the community, you are invited to a community meeting. The public meeting will be on **Wednesday, January 29, 2025, from 5:30 p.m. to 7:30 p.m. CST at the Fiscal Court meeting room in the Metcalfe County Government Building at 201 N Main St. in Edmonton, KY 42129.** It is an open house format, so you may come whenever you're available!

We would love to see you at our community meeting as it will serve as a great opportunity to learn about the project and ask any questions you may have. During this meeting, you will have the opportunity to talk with our development team and see the current status of the project.

If you can't attend but would still like to learn about the project, please take a look at the project website at <https://summershadesolar.com/> or contact me at the email/number below.

We look forward to meeting you on Wednesday, January 29, 2025, at the public meeting, if we haven't already!

Dear Sir or Ma'am,

Summer Shade Solar, LLC, is proposing to construct and operate an approximately 106 MW photovoltaic solar energy electric generating and battery storage project and related transmission line (the "Project") in Metcalfe County, Kentucky. The Project will be located to the west of State Highway 163 (KY-163) and near Summer Shade Road and Apple Grove Road.

Summer Shade Solar, LLC, is affiliated with Candela Renewables, LLC, an energy company dedicated to the development of solar and battery storage projects. Our team has created more than 4 gigawatts of operating projects across the country, and has over 25 years of experience at every stage of development.

Our projects not only provide clean energy, but also support economic development, adding value to the communities we support. This could be through capital investments, significant new tax revenues, and active partnerships with local schools and other community groups.

As part of our efforts in getting to know the community, you are invited to a community meeting. The public meeting will be on **Wednesday, January 29, 2025, from 5:30 p.m. to 7:30 p.m. CST at the Fiscal Court meeting room in the Metcalfe County Government Building at 201 N Main St. in Edmonton, KY 42129.** It is an open house format, so you may come whenever you're available!

We would love to see you at our community meeting as it will serve as a great opportunity to learn about the project and ask any questions you may have. During this meeting, you will have the opportunity to talk with our development team and see the current status of the project.

If you can't attend but would still like to learn about the project, please take a look at the project website at <https://summershadesolar.com/> or contact me at the email/number below.

We look forward to meeting you on Wednesday, January 29, 2025, at the public meeting, if we haven't already!

KENNETH HOPE
125 SHERFEY RD
SUMMER SHADE, KY 42166

January 14, 2025

Dear Sir or Ma'am,

Summer Shade Solar, LLC, is proposing to construct and operate an approximately 106 MW photovoltaic solar energy electric generating and battery storage project and related transmission line (the "Project") in Metcalfe County, Kentucky. The Project will be located to the west of State Highway 163 (KY-163) and near Summer Shade Road and Apple Grove Road.

Summer Shade Solar, LLC, is affiliated with Candela Renewables, LLC, an energy company dedicated to the development of solar and battery storage projects. Our team has created more than 4 gigawatts of operating projects across the country, and has over 25 years of experience at every stage of development.

Our projects not only provide clean energy, but also support economic development, adding value to the communities we support. This could be through capital investments, significant new tax revenues, and active partnerships with local schools and other community groups.

As part of our efforts in getting to know the community, you are invited to a community meeting. The public meeting will be on **Wednesday, January 29, 2025, from 5:30 p.m. to 7:30 p.m. CST at the Fiscal Court meeting room in the Metcalfe County Government Building at 201 N Main St. in Edmonton, KY 42129.** It is an open house format, so you may come whenever you're available!

We would love to see you at our community meeting as it will serve as a great opportunity to learn about the project and ask any questions you may have. During this meeting, you will have the opportunity to talk with our development team and see the current status of the project.

If you can't attend but would still like to learn about the project, please take a look at the project website at <https://summershadesolar.com/> or contact me at the email/number below.

We look forward to meeting you on Wednesday, January 29, 2025, at the public meeting, if we haven't already!

January 14, 2025

Dear Sir or Ma'am,

Summer Shade Solar, LLC, is proposing to construct and operate an approximately 106 MW photovoltaic solar energy electric generating and battery storage project and related transmission line (the "Project") in Metcalfe County, Kentucky. The Project will be located to the west of State Highway 163 (KY-163) and near Summer Shade Road and Apple Grove Road.

Summer Shade Solar, LLC, is affiliated with Candela Renewables, LLC, an energy company dedicated to the development of solar and battery storage projects. Our team has created more than 4 gigawatts of operating projects across the country, and has over 25 years of experience at every stage of development.

Our projects not only provide clean energy, but also support economic development, adding value to the communities we support. This could be through capital investments, significant new tax revenues, and active partnerships with local schools and other community groups.

As part of our efforts in getting to know the community, you are invited to a community meeting. The public meeting will be on **Wednesday, January 29, 2025, from 5:30 p.m. to 7:30 p.m. CST at the Fiscal Court meeting room in the Metcalfe County Government Building at 201 N Main St. in Edmonton, KY 42129.** It is an open house format, so you may come whenever you're available!

We would love to see you at our community meeting as it will serve as a great opportunity to learn about the project and ask any questions you may have. During this meeting, you will have the opportunity to talk with our development team and see the current status of the project.

If you can't attend but would still like to learn about the project, please take a look at the project website at <https://summershadesolar.com/> or contact me at the email/number below.

We look forward to meeting you on Wednesday, January 29, 2025, at the public meeting, if we haven't already!

Our projects not only provide clean energy, but also support economic development, adding value to the communities we support. This could be through capital investments, significant new tax revenues, and active partnerships with local schools and other community groups.

As part of our efforts in getting to know the community, you are invited to a community meeting. The public meeting will be on **Wednesday, January 29, 2025, from 5:30 p.m. to 7:30 p.m. CST at the Fiscal Court meeting room in the Metcalfe County Government Building at 201 N Main St. in Edmonton, KY 42129.** It is an open house format, so you may come whenever you're available!

We would love to see you at our community meeting as it will serve as a great opportunity to learn about the project and ask any questions you may have. During this meeting, you will have the opportunity to talk with our development team and see the current status of the project.

If you can't attend but would still like to learn about the project, please take a look at the project website at <https://summershadesolar.com/> or contact me at the email/number below.

We look forward to meeting you on Wednesday, January 29, 2025, at the public meeting, if we haven't already!

Dear Sir or Ma'am,

Summer Shade Solar, LLC, is proposing to construct and operate an approximately 106 MW photovoltaic solar energy electric generating and battery storage project and related transmission line (the "Project") in Metcalfe County, Kentucky. The Project will be located to the west of State Highway 163 (KY-163) and near Summer Shade Road and Apple Grove Road.

Summer Shade Solar, LLC, is affiliated with Candela Renewables, LLC, an energy company dedicated to the development of solar and battery storage projects. Our team has created more than 4 gigawatts of operating projects across the country, and has over 25 years of experience at every stage of development.

Our projects not only provide clean energy, but also support economic development, adding value to the communities we support. This could be through capital investments, significant new tax revenues, and active partnerships with local schools and other community groups.

As part of our efforts in getting to know the community, you are invited to a community meeting.
