CUSTOMER NOTICE OF RATE ADJUSTMENT

Notice is hereby given that, in a May 30, 2025 Application, Kentucky Utilities Company is seeking approval by the Public Service Commission of an adjustment of electric rates and charges proposed to become effective on and after July 1, 2025.

KU CURRENT AND PROPOSED ELECTRIC RATES

Residential Service - Rate RS

Rate:

	Current	Proposed
Basic Service Charge per Day:	$0.53	$0.64
Plus an Energy Charge per kWh:		
Infrastructure	$0.06880	$0.08034
Variable	$0.03653	$0.03863
Total	$0.10533	$0.11897

Residential Time-of-Day Energy Service - Rate RTOD-Energy

Availability:

Current

Available as an option to Customers otherwise served under Rate RS.

1. Service under this rate schedule is limited to a maximum of five hundred (500) Customers taking service on Rates RTOD-Energy and RTOD-Demand combined that are eligible for Rate RS. Company will accept Customers on a first-come-first-served basis.
2. This service is also available to Customers on Rate GS (where the Rate GS service is used in conjunction with a Rate RS service to provide service to a detached garage and energy usage is no more than 300 kWh per month) who demonstrate power delivered to such detached garage is consumed, in part, for the powering of low emission vehicles licensed for operation on public streets or highways. Such vehicles include:
a) battery electric vehicles or plug-in hybrid electric vehicles recharged through a charging outlet at Customer's premises,
b) natural gas vehicles refueled through an electric-powered refueling appliance at Customer's premises.
3. A Customer electing to take service under this rate schedule who subsequently elects to take service under Rate RS may not be allowed to return to this optional rate for twelve (12) months from the date of exiting this rate schedule.

Proposed

This optional rate is available to Customers who qualify for service under Rate RS and have an electric AMI meter.

1. Service under this rate schedule is limited to a maximum of five hundred (500) Customers taking service on Rates RTOD-Energy and RTOD-Demand combined that are eligible for Rate RS. Company will accept Customers on a first-come-first-served basis.
2. This service is also available to Customers eligible for Standard Rate GS (where the Rate GS service is used in conjunction with a Rate RS service to provide service to a detached garage and energy usage is no more than 300 kWh per month) who demonstrate power delivered to such detached garage is consumed, in part, for the powering of low emission vehicles licensed for operation on public streets or highways. Such vehicles include:
a) battery electric vehicles or plug-in hybrid electric vehicles recharged through a charging outlet at Customer's premises,
b) natural gas vehicles refueled through an electric-powered refueling appliance at Customer's premises.

3. A Customer electing to take service under this rate schedule who subsequently elects to take service under Rate RS may not be allowed to return to this optional rate for twelve (12) months from the date of exiting this rate schedule.

Rate:

	Current	**Proposed**
Basic Service Charge per Day:	$ 0.53	$0.64
Plus an Energy Charge per kWh:		
Off-Peak Hours		
Off-Peak Hours (Infrastructure):	$ 0.03560	$0.04152
Off-Peak Hours (Variable):	$ 0.03653	$0.03863
Off-Peak Hours (Total):	$ 0.07213	$0.08015
On-Peak Hours		
On-Peak Hours (Infrastructure):	$ 0.18813	$0.21942
On-Peak Hours (Variable):	$ 0.03653	$0.03863
On-Peak Hours (Total):	$ 0.22466	$0.25805

Residential Time-of-Day Demand Service - Rate RTOD-Demand

Availability:

Current

Available as an option to Customers otherwise served under Rate RS.

1. Service under this rate schedule is limited to a maximum of five hundred (500) Customers taking service on Rates RTOD-Energy and RTOD-Demand combined that are eligible for Rate RS. Company will accept Customers on a first-come-first-served basis.
2. This service is also available to Customers on Rate GS (where the Rate GS service is used in conjunction with a Rate RS service to provide service to a detached garage and energy usage is no more than 300 kWh per month) who demonstrate power delivered to such detached garage is consumed, in part, for the powering of low emission vehicles licensed for operation on public streets or highways. Such vehicles include:
a) battery electric vehicles or plug-in hybrid electric vehicles recharged through a charging outlet at Customer's premises,
b) natural gas vehicles refueled through an electric-powered refueling appliance at Customer's premises.
3. A Customer electing to take service under this rate schedule who subsequently elects to take service under Rate RS may not be allowed to return to this optional rate for twelve (12) months from the date of exiting this rate schedule.

Proposed

This optional rate is available to Customers who qualify for service under Rate RS and have an electric AMI meter.

1. Service under this rate schedule is limited to a maximum of five hundred (500) Customers taking service on Rates RTOD-Energy and RTOD-Demand combined that are eligible for Rate RS. Company will accept Customers on a first-come-first-served basis.
2. This service is also available as an option to Customers eligible for Standard Rate GS (where the Rate GS service is used in conjunction with a Rate RS service to provide service to a detached garage and energy usage is no more than 300 kWh per month) who demonstrate power delivered to such detached garage is consumed, in part, for the powering of low emission vehicles licensed for operation on public streets or highways. Such vehicles include:
a) battery electric vehicles or plug-in hybrid electric vehicles recharged through a charging outlet at Customer's premises,

3. A Customer electing to take service under this rate schedule who subsequently elects to take service under Rate RS may not be allowed to return to this optional rate for twelve (12) months from the date of exiting this rate schedule.

Rate:

	Current	Proposed
Basic Service Charge per Day:	$ 0.53	$0.64
Plus an Energy Charge per kWh (Infrastructure):	$ 0.01600	$0.01866
Plus an Energy Charge per kWh (Variable):	$ 0.03653	$0.03863
Plus an Energy Charge per kWh (Total):	$ 0.05253	$0.05729
Plus a Demand Charge per kW:		
Base Hours	$ 3.92	$4.57
Peak Hours	$ 10.13	$11.81

Volunteer Fire Department Service - Rate VFD

Availability:

Current

Available for single-phase delivery, in accordance with the provisions of KRS 278.172, to any volunteer fire department qualifying for aid under KRS 95A.262. Service under this rate schedule is at the option of Customer with Customer determining whether service will be provided under this schedule or any other schedule applicable to this load.

Proposed

Available for single-phase delivery, in accordance with the provisions of KRS 278.172, to any volunteer fire department qualifying for aid under KRS 95A.262. Service under this rate schedule is at the option of Customer.

Rate:

	Current	Proposed
Basic Service Charge per Day:	$0.53	$0.64
Plus an Energy Charge per kWh:		
Infrastructure	$ 0.06880	$0.08034
Variable	$ 0.03653	$0.03863
Total	$ 0.10533	$0.11897

General Service – Rate GS

Grandfathering Status:

The Company proposes to remove grandfathered status from grandfathered customers that meet the availability requirements of rate schedule GS on the date new rates go into effect.

Rate:

Single-Phase	Current	Proposed
Basic Service Charge per Day:	$ 1.35	$1.54
Plus an Energy Charge per kWh		
Infrastructure	$ 0.09176	$0.10079
Variable	$ 0.03706	$0.03878
Total	$ 0.12882	$0.13957
Three-Phase	**Current**	**Proposed**
Basic Service Charge per Day:	$2.15	$2.45
Plus an Energy Charge per kWh		

Infrastructure	$ 0.09176	$0.10079
Variable	$ 0.03706	$0.03878
Total	$ 0.12882	$0.13957

General Time-of-Day Energy Service – Rate GTOD-Energy

Availability:

Current

Available to GS Customers participating in the Demand-Side Management ("DSM") program titled Non-Residential Advanced Metering Systems Incentive on Sheet No. 86.6.

A Customer electing to take service under this rate schedule who subsequently elects to take service under the standard rate GS will not be allowed to return to this rate for 12 months from the date of exiting this rate schedule.

Proposed

Service under this optional rate schedule is limited to a maximum of five-hundred (500) Customers taking service on Rates GTOD-Demand and GTOD-Energy combined that are eligible for Rate GS and have an electric AMI meter. Company will accept Customers on a first-come-first-served basis.

A Customer electing to take service under this rate schedule who subsequently elects to take service under the standard rate GS will not be allowed to return to this rate for 12 months from the date of exiting this rate schedule.

Rate:

	Current	**Proposed**

Total	$0.10446	$0.11613

Power Service – Rate PS

Grandfathering Status:

The Company proposes to remove grandfathered status from grandfathered customers that meet the availability requirements of rate schedule PS on the date new rates go into effect.

Rate:

Current

	Secondary	Primary
Basic Service Charge per day:	$2.96	$7.89
Plus an Energy Charge per kWh:	$0.03701	$0.03667
Plus a Demand Charge per kW:		
Summer Rate:		
(Five Billing Periods of May through September)	$26.50	$26.47
Winter Rate:		
(All other months)	$23.86	$23.88

Where the monthly billing demand is the greater of:

a. the maximum measured load in the current billing period but not less than 50 kW for secondary service or 25 kW for primary service, or

b. a minimum of 50% of the highest measured load in the preceding eleven (11) monthly billing periods, or

c. if applicable, a minimum of 60% of the contract capacity based on the maximum expected load on the

system or on facilities specified by Customer.

Proposed

	Secondary	Primary
Basic Service Charge per day:	$3.40	$7.89
Energy Charge per kWh:	$0.03877	$0.03782
Maximum Load Charge per kVA:	Secondary	Primary
Peak Demand Period:	$12.22	$12.31
Intermediate Demand Period:	$9.84	$9.94
Base Demand Period:	$4.23	$3.32

Where:
the monthly billing demand for the Peak and Intermediate Demand Periods is the greater of:
1. the maximum measured load in the current billing period, or
2. a minimum of 50% of the highest measured load in the preceding eleven (11) monthly billing periods, and
the monthly billing demand for the Base Demand Period is the greater of:
1. the maximum measured load in the current billing period but not less than 50 kVA for secondary service or 25 kVA for primary service, or
2. the highest measured load in the preceding eleven (11) monthly billing periods, or
3. the contract capacity based on the maximum load expected on the system or on facilities specified by Customer

Determination of Maximum Load:

Current

The load will be measured and will be the average kW demand delivered to the Customer during the 15-minute period of maximum use during the month.

Company reserves the right to place a kVA meter and base the billing demand on the measured kVA. The charge will be computed based on the measured kVA times ninety (90) percent of the applicable kW charge.

In lieu of placing a kVA meter, Company may adjust the measured maximum load for billing purposes when the power factor is less than ninety (90) percent in accordance with the following formula: (based on power factor measured at the time of maximum load).

$$\text{Adjusted Maximum kW Load for Billing Purposes} = \frac{\text{Maximum kW Load Measured X 90\%}}{\text{Power Factor (in percent).}}$$

Proposed

The load will be measured and will be the average kVA demand delivered to the Customer during the 15-minute period of maximum use during the month.

New - Rating Periods:

The rating periods applicable to the Maximum Load charges are established in Eastern Standard Time year-round by season for weekdays and weekends throughout Company's service area, and shall be as follows:

Summer peak months of May through September

	Base	Intermediate	Peak
Weekdays	All Hours	10 AM - 10 PM	1 PM - 7 PM
Weekends	All Hours		

All other months of October through April

	Base	Intermediate	Peak
Weekdays	All Hours	6 AM - 10 PM	6 AM - 12 PM
Weekends	All Hours		

If a legal holiday falls on a weekday, it will be considered a weekday.

Term of Contract:

Current

Contracts under this rate may be required for an initial term of one (1) year, remaining in effect from month to month thereafter until terminated by notice of either party to the other.

Proposed

For new service initiated on or after January 1, 2026, contracts under this rate will be required for an initial term of one (1) year, remaining in effect from month to month thereafter until terminated by notice of either party to the other.

Time-of-Day Secondary Service Rate TODS

Availability:

Current

Available for secondary service to Customers whose twelve (12) month-average monthly minimum loads exceed 250 kVA, and whose twelve (12) month-average monthly maximum loads do not exceed 5,000 kVA.

Proposed

Available for secondary service to Customers whose twelve (12) month-average monthly maximum loads exceed 250 kVA, and whose twelve (12) month-average monthly maximum loads do not exceed 5,000 kVA.

Rate:

	Current	Proposed
Basic Service Charge per Day	$7.32	$7.32
Plus an Energy Charge per kWh	$0.03372	$0.03868
Plus a Maximum Load Charge per kVA per month		
Peak Demand Period	$8.69	$9.48
Intermediate Demand Period	$7.07	$7.71
Base Demand Period	$3.25	$3.55

Time-of-Day Primary Service Rate TODP

Availability:

Current

Available for primary service to Customers whose twelve (12) month-average monthly minimum demands exceed 250 kVA, and whose new or additional load receives any required approval of Company's transmission operator.

Proposed

Available for primary service to Customers whose twelve (12) month-average monthly maximum demands exceed 250 kVA, and whose new or additional load receives any required approval of Company's transmission operator.

Rate:

	Current	Proposed
Basic Service Charge per Day	$ 10.77	$13.35
Plus an Energy Charge per kWh	$ 0.03026	$0.03771

Plus a Maximum Load Charge per kVA per month		
Peak Demand Period	$ 9.60	$9.81
Intermediate Demand Period	$ 7.78	$7.94
Base Demand Period	$ 2.79	$2.86

Retail Transmission Service - Rate RTS

Availability:

Current

Available for transmission service to any Customer: (1) who has a twelve (12) month-average monthly minimum demand exceeding 250 kVA; and (2) whose new or additional load receives any required approval of Company's transmission operator.

Proposed

Available for transmission service to any Customer: (1) who has a twelve (12) month-average monthly maximum demand exceeding 250 kVA; (2) whose new or additional load receives any required approval of Company's transmission operator; and (3) who is not eligible for Rate EHLF.

Rate:

	Current	Proposed
Basic Service Charge per Day	$49.28	$74.04
Plus an Energy Charge per kWh	$0.02966	$0.03692
Plus a Maximum Load Charge per kVA per month		
Peak Demand Period	$9.31	$9.30
Intermediate Demand Period	$7.55	$7.54
Base Demand Period	$2.16	$2.16

New - Extremely High Load Factor Service – Rate EHLF

Applicable:

In all territory served.

Availability:

Available for Customers: 1) with a contract capacity greater than 100 MVA, and 2) an expected average monthly load factor above 85%.

The terms and conditions of service under this schedule shall apply upon a request for service by an eligible Customer but service to Customers under this schedule will not commence until the Company has sufficient capacity to meet the contractual load requirements.

Customer's initial contract term, load ramp, load ramp period, contract capacity, and other terms of service will be prescribed in the Electric Service Agreement executed between Company and Customer.

Rate:

Basic Service Charge per day: $74.04

Energy Charge per kWh: $0.03692

Maximum Load Charge per kVA: $19.00

Where:

the monthly billing demand for the Maximum Load Charge is the greater of:

1. the maximum measured load in the current billing period, or

2. the highest measured load in the preceding eleven (11) monthly billing periods, or
3. 80% of the contract capacity based on the maximum load expected on the system or on facilities specified by Customer.

Adjustment Clauses:
The bill amount computed at the charges specified above shall be increased or decreased in accordance with the following:

Demand-Side Management Cost Recovery Mechanism	Sheet No. 86
Fuel Adjustment Clause	Sheet No. 85
Off-System Sales Adjustment Clause	Sheet No. 88
Environmental Cost Recovery Surcharge	Sheet No. 87
Retired Asset Recovery	Sheet No. 89
Renewable Power Purchase Agreement Adjustment Clause	Sheet No. 90
Franchise Fee	Sheet No. 91
School Tax	Sheet No. 92

Determination of Maximum Load:
The load will be measured and will be the average kVA demand delivered to Customer during the 15-minute period of maximum use each month.

Due Date of Bill:
Customer's payment will be due within sixteen (16) business days (no less than twenty-two (22) calendar days) from the date of the bill.

Late Payment Charge:
If full payment is not received by the due date of the bill, a 1% late payment charge will be assessed on the current month’s charges.

Term of Contract:
Contracts under this rate schedule shall be made for an Initial Contract Term of not less than fifteen (15) years.

Monthly billing will begin 30 days after the stated start date provided by the customer within the Electric Service Agreement whether or not electricity is being provided at that time.

Either party shall give at least 60 months advance written notice to the other party of its intention to discontinue service under the terms of this rate schedule. Such notice shall not reduce the Initial Contract Term except as provided for in the Exit Fee provision.

Changes to Contract Capacity:
Customer must provide Company 60 months advance written notice of a reduction of contract capacity after the first five (5) years of the Initial Contract Term, and such reduction of capacity will be subject to payment of a Capacity Reduction Fee and 60 months. The Capacity Reduction Fee shall be due and payable to the Company upon the effective date of the capacity reduction. The Capacity Reduction Fee shall be calculated as the nominal value of the remaining minimum non-fuel revenue change from the original contract capacity over the remaining term.

Termination of Contract:
If Customer provides the required 60 months advance notice of termination prior to expiration of the Initial

Contract term, Customer will be subject to payment of an Exit Fee. The Exit Fee shall be due and payable to the Company upon the effective date of the contract termination. The Exit Fee shall be calculated as the nominal value of the remaining minimum non-fuel revenue over the remaining term.

Collateral Requirements:
Customer or its guarantor shall provide collateral in the form of cash or Letter of Credit equal to 24 months of the minimum billed amounts at the largest contract capacity value. If Customer or its guarantor has an S&P Credit Rating of at least A and a Moody's Credit Rating of at least A2 with cash and cash equivalents on its audited balance sheet of at least 10 times the collateral requirement, Customer or its guarantor shall provide cash or a Letter of Credit equal to 12 months of the annual minimum billed amounts at the largest contract capacity value. The collateral requirement is due at the signing of the Electric Service Agreement. If Company becomes aware of an adverse change to Customer's or its guarantor's creditworthiness, Customer or its guarantor shall provide Company the increased collateral requirement due within three business days after written notice.

"Credit Rating" is Customer's or its guarantor's senior unsecured long-term debt rating (not supported by third-party credit enhancements) assigned by S&P and Moody's, or, if unavailable, Customer's or its guarantor's issuer credit rating assigned by S&P and Moody's.

"Letter of Credit" is an irrevocable, non-transferable, standby letter of credit issued by a Qualified Institution other than Customer or its guarantor or any affiliate of Customer or its guarantor in form and content reasonably acceptable to Company. All costs related to any Letter of Credit shall be borne by Customer.

"Qualified Institution" shall mean a major U.S. commercial bank or foreign bank with a U.S. branch office having an asset base of at least $10 billion, with such bank having a credit rating of at least "A-" by S&P and "A3" by Moody's.

Terms and Conditions:
Service will be furnished under Company's Terms and Conditions applicable hereto.

Fluctuating Load Service Rate FLS

Rate:

Conversion Fee

Current

Customer will be required to pay either a one-time conversion fee or a monthly conversion fee for 60 months if Customer requests to change current functioning non-LED fixture to an LED fixture. This conversion fee represents the remaining book value of the current working non-LED fixture.

One-Time Conversion Fee	$197.16
Monthly Conversion Fee:	$3.29 per month for 60 months

Proposed

Customer must choose to pay either a one-time conversion fee or a monthly conversion fee for 60 months if Customer requests to change current functioning non-LED fixture to an LED fixture.

One-Time Conversion Fee	$197.16
Monthly Conversion Fee:	$3.29 per month for 60 months

Term of Contract

Current

For a fixed term of not less than five (5) years and for such time thereafter until terminated by either party giving thirty (30) days prior written notice to the other when additional facilities are required, when the installation includes new underground-fed lights, when the installation includes three (3) or more overhead-fed lights, or when Customer requests conversion to LED. Cancellation by Customer prior to the initial five (5) year term will require Customer to pay to Company a lump sum equal to the monthly charge times the number of months remaining on the original five (5) year term.

Proposed

For a fixed term of not less than five (5) years and for such time thereafter until terminated by either party giving thirty (30) days prior written notice to the other when additional facilities are required, when the installation includes new underground-fed lights, when the installation includes three (3) or more overhead-fed lights, or when Customer requests conversion to LED. Cancellation by Customer prior to the initial five (5) year term will require Customer to pay to Company a lump sum equal to the monthly charge times the number of months remaining on the original five (5) year term.

Service will be provided under written contract, signed by Customer prior to service commencing, when additional facilities are required, when the installation includes new underground-fed lights, when the installation includes three (3) or more overhead-fed lights, or when Customer requests conversion to LED.

Terms and Conditions:

Current

6. If Customer requests the removal of an existing Restricted Lighting Service (RLS) lighting system, Customer may be be required to pay Conversion Fee if Customer requests installation of LED replacement within five (5) years of the removal.

Proposed

6. If Customer requests the removal of an existing Restricted Lighting Service (RLS) lighting system,

Customer will be required to pay Conversion Fee if Customer requests installation of LED replacement within five (5) years of the removal.

Lighting Energy Service - Rate LE

Rate:

	Current	**Proposed**
Energy Charge per kWh:	$0.07854	$0.08743

Traffic Energy Service – Rate TE

Availability:

Current

Available to municipalities, county governments, divisions of the state or Federal governments or any other governmental agency for service on a 24-hour all-day every-day basis, where the governmental agency owns and maintains all equipment on its side of the point of delivery of the energy supplied hereunder. In the application of this rate each point of delivery will be considered as a separate Customer.

This service is limited to devices including, but not limited to, signals, cameras, or other traffic lights, electronic communication devices, emergency sirens, and gunshot triangulation devices.

Proposed

Available to municipalities, county governments, divisions of the state or Federal governments or any other governmental agency for service on a 24 hour all day every day basis, where the governmental agency owns

and maintains all equipment on its side of the point of delivery of the energy supplied hereunder. In the application of this rate each point of delivery will be considered as a separate Customer.

This service is available for devices including, but not limited to, vehicle and pedestrian signals and traffic lights, sirens, cameras, sensors, electronic communication devices, and gunshot triangulation devices.

Rate:

	Current	**Proposed**
Basic Service Charge per Day:	$0.13 per delivery point	$0.14 per delivery point
Energy Charge per kWh:	$0.09524	$0.10622

Conditions of Service

Current

3. Loads not operated on an all day every day basis will be served under the appropriate rate.

Proposed

3. Customer shall reimburse Company for all installation and removal costs.

Pole and Structure Attachment Charges, Terms and Conditions – Rate PSA

Attachment Charges:

Current	**Proposed**	
$7.25	Removed	per year for each wireline pole attachment
New	$10.13	per year for each two-user wireline pole attachment
New	$10.46	per year for each three-user wireline pole attachment
$0.81	$1.22	per year for each linear foot of duct.
$36.25	$51.46	per year for each Wireless Facility located on the top of a Company pole.

Electric Vehicle Supply Equipment – Rate EVSE

Availability

Current

Available to Customers to be served or currently being served under Rates GS (with energy usage of 500 kWh or higher per month), GTOD-Energy, GTOD-Demand, AES, PS, TODS, TODP, RTS, and FLS, for the purpose of charging electric vehicles.

Proposed

Available to Customers to be served or currently being served under Rates GS (with energy usage of 500 kWh or higher per month), GTOD-Energy, GTOD-Demand, AES, PS, TODS, TODP, RTS, EHLF, and FLS, for the purpose of charging electric vehicles.

Rate:

	Current	**Proposed**
Monthly Charging Unit Fee:		
Networked Charger (Option A):		
Single Charger	$132.09	$191.81
Dual Charger	$193.62	$330.34
Networked Charger (Option B):		
Single Charger	New	$161.21
Dual Charger	New	$254.60
Non-Networked Charger:		
Single Charger:	$80.14	$85.01

New – Charging Station Descriptions

Networked Charger (Option A): Networked charging station with dashboard and availability capabilities. Suitable for all use cases, particularly public installation, and high-traffic locations. For installations that require access control, remote monitoring, usage data collection, automatic cord retraction, and dual logo branding.

Networked Charger (Option B): Networked charging station with dashboard and availability capabilities. Suitable for all use cases, particularly public installation, and high-traffic locations. For installations that require access control, remote monitoring, and usage data collection.

Non-Networked Charger: Basic non-networked EV charging station. Suitable for less public use cases, and particularly good for workplaces, fleets, and low-traffic retail.

Energy Consumption:

Current

Determination of energy applies to the non-metered charging station. The applicable fuel clause charge or credit will be based on an annual 5,004 kilowatt-hours.

Proposed

Determination of energy applies to the non-metered charging station. The applicable fuel clause charge or credit will be based on an annual 8,203 kilowatt-hours.

Terms and Conditions:

Current

7. Temporary suspension of charging station is not permitted. Upon permanent discontinuance of service, charging station and other supporting facilities solely associated with providing service under this tariff, except underground facilities and pedestals, will be removed.

Proposed

7. Temporary suspension of charging station is only permitted if Company and Customer mutually agree to the temporary suspension. Upon permanent discontinuance of service, charging station and other supporting facilities solely associated with providing service under this tariff, except underground facilities and pedestals, will be removed.

New – Electric Vehicle Charging Service (EVC)

The Electric Vehicle Charging Service – Level 2 (EVC-L2) and Electric Vehicle Charging Service – FAST (EVC-FAST) rate schedules were combined into one single rate schedule, Electric Vehicle Charging Service (EVC).

Availability:

Available to operators of licensed electric vehicles (EV). EV Customer is defined as the party who owns/operates a licensed electric vehicle, connects that vehicle for the purpose of receiving vehicle charging service to a Company-owned charging station providing service under this schedule, and willingly accepts Company's fee structure for the vehicle charging service. EVC-L2 is offered under the conditions set out hereinafter for the purpose of charging EVs via street parking, parking lots, and other outdoor areas for stations rated at AC Level 2 speeds. EVC-FAST is offered under the conditions set out hereinafter for the purpose of charging EVs via street parking, parking lots, and other outdoor areas using chargers with an output of 50 kW or greater. EV Customers' charging systems must meet applicable charging standards. Service under this rate schedule is limited to a maximum of ten stations. Company will accept Customers on a first-come-first-served basis.

Company assumes no liability or responsibility for any potential automotive-related incidents that occur

at Company-owned public charging locations. EV Customer accepts all restrictions related to the temporary parking space.

Rate:

	Current	**Proposed**
EVC-L2 Fee for Use:	New	$0.25 per kWh
EVC-FAST Fee for Use:	$0.25 per kWh	$0.25 per kWh

Adjustment Clauses:

The bill amount computed at the charges specified above includes the following:

Fuel Adjustment Clause	Sheet No. 85
Off-System Sales Adjustment Clause	Sheet No. 88
Environmental Cost Recovery Surcharge	Sheet No. 87
Retired Asset Recovery	Sheet No. 89
Renewable Power Purchase Agreement Adjustment Clause	Sheet No. 90

The bill amount specified above will be increased or decreased in accordance with the following:

Franchise Fee	Sheet No. 91
School Tax	Sheet No. 92

Terms and Conditions

1. Service shall be furnished under the following Terms and Conditions and excludes Company's Terms and Conditions set out in this Tariff Book.

2. EV Customer is required to pay by means of credit card or Charging Station Supplier account.

a. Credit Card must be chip enabled (if card is not chip enabled, Customer must call the Charging Station Supplier at toll-free number provided at station), or

b. EV Customer is required to open a Charging Station Supplier account and accepts all terms and conditions of Charging Station Supplier.

3. Company will exercise reasonable care and diligence in an endeavor to supply service continuously and without interruption but does not guarantee continuous service. Also, Company shall not be liable for any loss, injury, or damage resulting from interruption, reduction, delay, or failure of electric service except where Company's willful misconduct is the sole and proximate cause of said loss, injury or damage.

4. Company is merely a supplier of electricity delivered to the point of connection of Company's charging station facilities, and shall not be liable for and shall be protected and held harmless for any injury or damage to persons or property of EV Customer or of third persons resulting from the presence, use or abuse of electricity or resulting from defects in or accidents to any of EV Customer's wiring, equipment, or vehicle, or resulting from any cause whatsoever except where Company's negligence or willful misconduct is the sole and proximate cause of said injury or damage.

5. In no event shall Company have any liability to EV Customer, the owner of a vehicle receiving charging service, or any other party affected by the electrical service to EV Customer for any consequential, indirect, incidental, special, or punitive damages, and such limitation of liability shall apply regardless of claim or theory. In addition, to the extent that Company acts within its rights as set forth herein and/or any applicable law or regulation, Company shall have no liability of any kind to EV Customer, the owner of a vehicle receiving charging service, or any other party. In the event that EV Customer's use of Company's service causes damage to Company's property or injuries to persons, EV Customer shall be responsible for such damage or injury and shall indemnify, defend, and hold Company harmless from any and all suits, claims, losses, and expenses associated therewith.

6. By connecting a vehicle to the Charging Station, the EV Customer represents that the EV Customer is authorized to operate that vehicle and to connect it to the Charging Station for the purpose of receiving vehicle charging service.

7. All service and maintenance will be performed only during regular scheduled working hours of Company.

In addition, Terms and Conditions #3 and #4 above changed from the language in EVC-L2 and EVC-FAST below:

3. Company will exercise reasonable care and diligence in an endeavor to supply service continuously and without interruption but does not guarantee continuous service and shall not be liable for any loss or damage resulting from interruption, reduction, delay, or failure of electric service not caused by the willful negligence of Company, or resulting from any cause or circumstance beyond the reasonable control of Company.

4. Company is merely a supplier of electricity delivered to the point of connection of Company's and charging station facilities, and shall not be liable for and shall be protected and held harmless for any injury or damage to persons or property of EV Customer or of third persons resulting from the presence, use or abuse of electricity or resulting from defects in or accidents to any of EV Customer's wiring, equipment, or vehicle, or resulting from any cause whatsoever other than the negligence of Company.

Outdoor Sports Lighting Service (OSL)

Rate OSL moved from a pilot rate to a standard rate.

Availability:

Current

Available as an optional pilot program for secondary and primary service used by a Customer for lighting specifically designed for outdoor fields which are normally used for organized competitive sports. Service under this rate schedule is limited to a maximum of twenty Customers. Company will accept Customers on a first-come-first-served basis.

Proposed

Available as an optional program for secondary and primary service used by a Customer for lighting specifically designed for outdoor fields which are normally used for organized competitive sports. Service under this rate schedule is limited to a maximum of twenty Customers. Company will accept Customers on a first-come-first-served basis.

Rate:

Secondary	**Current**	**Proposed**
Basic Service Charge per day	$2.96	$3.40
Plus and Energy Charge per kWh of:	$0.03372	$0.03877
Plus a Maximum Load Charge per kW of:		
Peak Demand Period	$21.55	$20.84
Base Demand Period	$2.93	$2.83
Primary	**Current**	**Proposed**
Basic Service Charge per day	$7.89	$7.89
Plus and Energy Charge per kWh of:	$0.03026	$0.03782
Plus a Maximum Load Charge per kW of:		
Peak Demand Period	$17.16	$16.60
Base Demand Period	$2.51	$2.43

Change to Adjustment Clauses Section of Rates RS, RTOD-Energy, RTOD-Demand, VFD, GS, GTOD-Energy, GTOD-Demand, AES, PS, TODS, TODP, RTS, FLS, LS, RLS, LE, TE, EVSE, and OSL

The Company proposes to add Retired Asset Recovery (Sheet No. 89) and the proposed Renewable Power Purchase Agreement Adjustment Clause (Sheet No. 90) to the Adjustment Clauses section of Rates RS, RTOD-Energy, RTOD-Demand, VFD, GS, GTOD-Energy, GTOD-Demand, AES, PS, TODS, TODP, RTS, FLS, LS, RLS, LE, TE, EVSE, and OSL. The Company further proposes to renumber: Franchise Fee, currently Sheet No. 90, to be Sheet No. 91; School Tax, currently Sheet No. 91, to be Sheet No. 92; and Home Energy Assistance Program, currently Sheet No. 92, to be Sheet No. 93.

Current Rate	$21.00
Proposed Rate	$24.00

Unauthorized Connection Charge:

Current

When Company determines that Customer has tampered with a meter, reconnected service without authorization from Company that previously had been disconnected by Company, or connected service without authorization from Company, then the following charges shall be assessed for each instance of such tampering or unauthorized reconnection or connection of service:

1. A charge of $45.00 for tampering or an unauthorized connection or reconnection that does not require the replacement of the meter;
2. A charge of $66.00 for tampering or an unauthorized connection or reconnection that requires the replacement of a single-phase standard meter;
3. A charge of $87.00 for tampering or an unauthorized connection or reconnection that requires the replacement of a single-phase Automatic Meter Reading (AMR) meter;
4. A charge of $149.00 for tampering or an unauthorized connection or reconnection that requires the replacement of a single-phase Advanced Metering Infrastructure (AMI) meter; or
5. A charge of $154.00 for tampering or an unauthorized connection or reconnection that requires the replacement of a three-phase meter.

Proposed

When Company determines that Customer has tampered with a meter, reconnected service without authorization from Company that previously had been disconnected by Company, or connected service without authorization from Company, then the following charges shall be assessed for each instance of such tampering or unauthorized reconnection or connection of service:

1. A charge of $57.00 for tampering or an unauthorized connection or reconnection that does not require the replacement of the meter;
2. A charge of $78.00 for tampering or an unauthorized connection or reconnection that requires the replacement of a single-phase standard meter;
3. A charge of $99.00 for tampering or an unauthorized connection or reconnection that requires the replacement of a single-phase Automatic Meter Reading (AMR) meter;
4. A charge of $151.00 for tampering or an unauthorized connection or reconnection that requires the replacement of a single-phase Advanced Metering Infrastructure (AMI) meter; or
5. A charge of $167.00 for tampering or an unauthorized connection or reconnection that requires the replacement of a three-phase meter.
6. A charge of $256.00 for tampering or an unauthorized connection or reconnection that requires the replacement of a three-phase AMI meter.

AMI Opt-Out Charges

Current

Customer may opt out of having an AMI meter by contacting Company to request a non-AMI meter. If Company has a non-AMI meter available, Company will honor Customer's opt-out request and assess the following charges:

1. A one-time opt-out set-up fee of $39.00 per service delivery point. During Company's AMI project deployment phase, if Customer requests a non-AMI meter prior to an AMI meter being installed at Customer's premise, Company will not charge the one-time set-up fee.
2. A monthly opt-out charge of $15.00 per service delivery point.

If Customer chooses to opt out any meter on a single premise, Customer must opt out all Company meters on that premise. Company has sole discretion to determine the alternative metering to be used for opted-out meters.

Proposed

Customer may opt out of having an AMI meter by contacting Company to request a non-AMI meter. If Company has a non-AMI meter available, Company will honor Customer's opt-out request and assess the following charges:

1. A one-time opt-out set-up fee of $74.00 per service delivery point. During Company's AMI project deployment phase, if Customer requests a non-AMI meter prior to an AMI meter being installed at Customer's premise, Company will not charge the one-time set-up fee.
2. A monthly opt-out charge of $24.00 per service delivery point.

If Customer chooses to opt out any meter on a single premise, Customer must opt out all Company meters on that premise. Company has sole discretion to determine the alternative metering to be used for opted-out meters.

Company will treat Customer's refusal to make suitable provision for Company's AMI meter as Customer's choice to opt out of having an AMI meter. Such refusal includes without limitation Customer's refusal to make safe and stable a customer-owned pole to which Company's existing meter is attached.

Curtailable Service Rider-1 – CSR-1

Curtailable Billing Demand:

Current

For a Customer electing Option A, Curtailable Billing Demand shall be the difference between (a) Customer's measured maximum demand during the billing period for any billing interval during the following time

periods: (i) for the summer peak months of May through September, from 10 A.M. to 10 P.M., (EST) and (ii) for the months October continuously through April, from 6 A.M. to 10 P.M., (EST) and (b) the firm contract demand.

For a Customer electing Option B, Curtailable Billing Demand shall be Customer Designated Curtailable Load, as described above.

Proposed

For a Customer electing Option A, Curtailable Billing Demand shall be the difference between (a) Customer's measured maximum demand during the billing period for any billing interval during the following time periods: (i) for the summer peak months of May through September, weekdays from 10 AM to 10 PM (EST) and (ii) for the months October through April, weekdays from 6 AM to 10 PM (EST) and (b) the firm contract demand.

For a Customer electing Option B, Curtailable Billing Demand shall be Customer Designated Curtailable Load, as described above.

Curtailable Service Rider-2 – CSR-2

Curtailable Billing Demand:

Current

For a Customer electing Option A, Curtailable Billing Demand shall be the difference between (a) Customer's measured maximum demand during the billing period for any billing interval during the following time periods: (i) for the summer peak months of May through September, from 10 A.M. to 10 P.M., (EST) and (ii) for the months October continuously through April, from 6 A.M. to 10 P.M., (EST) and (b) the firm contract demand.

For a Customer electing Option B, Curtailable Billing Demand shall be the Customer Designated Curtailable Load, as described above.

Proposed

For a Customer electing Option A, Curtailable Billing Demand shall be the difference between (a) Customer's measured maximum demand during the billing period for any billing interval during the following time periods: (i) for the summer peak months of May through September, weekdays from 10 AM to 10 PM (EST) and (ii) for the months October through April, weekdays from 6 A.M. to 10 PM (EST) and (b) the firm contract demand.

For a Customer electing Option B, Curtailable Billing Demand shall be the Customer Designated Curtailable Load, as described above.

This rate and the terms and conditions set out herein are available for and applicable to Company's purchases of energy or energy and capacity from the owner of a "qualifying facility" as defined in 807 KAR 5:054 Section 1(8) (such owner being hereafter called "Seller") with a nameplate capacity of 100 kW or less .

Company will permit Seller's generating facilities to operate in parallel with Company's system under conditions set out below under Parallel Operation.

Company will purchase such energy or energy and capacity from Seller at the rates, set out below and under the terms and conditions stated herein.

Seller may choose to (a) enter into a power purchase agreement ("PPA") with Company for sales of energy or energy and capacity from Seller or (b) sell energy to Company on an as-available basis.

Proposed

This rate and the terms and conditions set out herein are available for and applicable to Company's purchases

of energy or energy and capacity from the owner of a "qualifying facility" as defined in 807 KAR 5:054 Section 1(8) (such owner being hereafter called "Seller") with a nameplate capacity of 100 kW or less .

Company will permit Seller's generating facilities to operate in parallel with Company's system under conditions set out below under Parallel Operation.

Company will purchase such energy or energy and capacity from Seller at the rates set out below and under the terms and conditions stated herein.

Seller may choose either (a) to enter into a power purchase agreement ("PPA") with Company for sales of energy and capacity from Seller or (b) to sell only energy to Company on an as-available basis. Seller may enter into a PPA with Company only if Seller simultaneously sells the entire output of Seller's qualifying facility to Company while purchasing all of Seller's own requirements from Company.

Term of Contract:

Current

If Seller desires Company to purchase energy and capacity from Seller, Seller must enter into a either a 2-year PPA or a 7-year PPA with Company for such purchases. Regarding energy purchases under a 7-year PPA, the PPA will specify whether Seller desires to receive (a) the applicable fixed 7-year level energy rate or (b) the applicable as-available energy rate in effect at the time of each purchase.

Proposed

If Seller desires Company to purchase energy and capacity from Seller, Seller must enter into a either a 2-year PPA or a 7-year PPA with Company for such purchases. Rates offered under all PPAs will be based at Seller's option on either applicable Rider SQF rates at the time of delivery or applicable Rider SQF rates at the time the PPA is executed.

Net Metering Service-2 – Rider NMS-2

Availability:

Current

Available to any Customer-generator who owns and operates a generating facility located on Customer's premises that generates electricity using solar, wind, biomass or biogas, or hydro energy in parallel with Company's electric distribution system to provide all or part of Customer's electrical requirements, and whose eligible generating facility first attains in service status on or after September 24, 2021. The generation facility shall be limited to a maximum rated capacity of 45 kilowatts.

Each Customer-generator taking service under NMS-2 and a standard rate schedule with a two-part rate structure will be allowed to take service under a two-part rate structure for 25 years from the date on which the Customer-generator began taking service under NMS-2.

Proposed

Available to any Customer-generator who owns and operates a generating facility located on Customer's premises that generates electricity using solar, wind, biomass or biogas, or hydro energy in parallel with Company's electric distribution system to provide all or part of Customer's electrical requirements, and whose eligible generating facility first attains in service status on or after September 24, 2021. Intermittent Loads – Rider IL

Intermittent Loads (Rider IL) has been moved to Terms and Conditions – Customer Responsibilities.

Current

AVAILABILITY

This schedule applies to all loads having a detrimental effect upon the electric service rendered to other Customers of Company or upon Company's facilities.

Where Customer's use of service is intermittent, subject to violent or extraordinary fluctuations, or produces unacceptable levels of harmonic current, in each case as determined by Company, in its reasonable discretion, Company reserves the right to require Customer to furnish, at Customer's own expense, suitable equipment (as approved by Company in its reasonable discretion) to meter and limit such intermittence, fluctuation, or harmonics to the extent reasonably requested by Company. Without limiting the foregoing, Company may require such equipment if, at any time, the megavars, harmonics, and other desirable electrical characteristics produced by Customer exceed the limits set forth in the IEEE standards for such characteristics. In addition, if Customer's use of Company's service under this schedule causes such undesirable electrical characteristics in an amount exceeding those IEEE standards, such use shall be deemed to cause a dangerous condition which could subject any person to imminent harm or result in substantial damage to the property of Company or others, and Company shall therefore terminate service to Customer in accordance with 807 KAR 5:006, Section 15(1)(b). Such a termination of service shall not be considered a cancellation of the service agreement or relieve Customer of any minimum billing or other
guarantees. Company shall be held harmless for any damages or economic loss resulting from such termination of service. If requested by Company, Customer shall provide all available information to Company that aids Company in enforcing its service standards. If Company at any time has a reasonable basis for believing that Customer's proposed or existing use of the service provided will not comply with the service standards for interference, fluctuations, or harmonics, Company may engage such experts and/or consultants as Company shall determine are appropriate to advise Company in ensuring that such interference, fluctuations, or harmonics are within acceptable standards. Should such experts and/or consultants determine Customer's use of service is unacceptable, Company's use of such experts and/or consultants will be at Customer's expense.

RATE

1. A contribution in aid of construction or an excess facilities charge shall be required for all special or added facilities, if any, necessary to serve such loads, as provided under the Excess Facilities Rider.
2. Plus the charges provided for under the rate schedule applicable, including any Basic Service Charge if applicable, Energy Charge, Maximum Load Charge (if load charge rate is used), Fuel Adjustment Clause and the Minimum Charge under such rate adjusted in accordance with (a) or (b) herein.

Proposed

Where Customer's use of service is intermittent, subject to violent or extraordinary fluctuations, or produces unacceptable levels of harmonic current, in each case as determined by Company, in its reasonable discretion, Company reserves the right to require Customer to furnish, at Customer's own expense, suitable equipment (as approved by Company in its reasonable discretion) to meter and limit such intermittence, fluctuation, or

harmonics to the extent reasonably requested by Company. Without limiting the foregoing, Company may require such equipment if, at any time, the megavars, harmonics, and other desirable electrical characteristics produced by Customer exceed the limits set forth in the IEEE standards for such characteristics. In addition, if Customer's use of Company's service under this schedule causes such undesirable electrical characteristics in an amount exceeding those IEEE standards, such use shall be deemed to cause a dangerous condition which could subject any person to imminent harm or result in substantial damage to the property of Company or others, and Company shall therefore terminate service to Customer in accordance with 807 KAR 5:006, Section 15(1)(b). Such a termination of service shall not be considered a cancellation of the service agreement or relieve Customer of any minimum billing or other guarantees. Company shall be held harmless for any damages or economic loss resulting from such termination of service. If requested by Company, Customer shall provide all available information to Company that aids Company in enforcing its service standards. If Company at any time has a reasonable basis for believing that Customer's proposed or existing use of the service provided will not comply with the service standards for interference, fluctuations, or harmonics, Company may engage such experts and/or consultants as Company shall determine are appropriate to advise Company in ensuring that such interference, fluctuations, or harmonics are within acceptable standards. Should such experts and/or consultants determine Customer's use of service is unacceptable, Company's use of such experts and/or consultants will be at Customer's expense.

Solar Share Program Rider – Rider SSP

Availability:

Current

This optional, voluntary service is available to Customers taking service under Rates RS, RTOD-Energy, RTOD-Demand, VFD, GS, GTOD-Energy, GTOD-Demand, AES, PS, TODS, and TODP. The terms and conditions set out herein are available for and applicable to participation in Company's Solar Share Program.

Rate:

	Current	**Proposed**
	Per quarter-kW	**Per quarter-kW**
Solar Capacity Charge	**Subscribed**	**Subscribed**
One-Time Solar Capacity Charge	$799.00	$799.00
Monthly Solar Capacity Charge	$5.55	$5.55

One-Time Solar Capacity Charge

Current

A customer subscribing to capacity by paying the One-Time Solar Capacity Charge will receive Solar Energy Credit values subject to the terms and conditions of this Rider for a period of 25 years beginning with and including the first full billing period immediately following the customer's payment in full of the Capacity Charge.

The One-Time Solar Capacity Charge is only available for subscription on Solar Share Facilities that have not begun construction. Any one-time solar capacity subscription that becomes unsubscribed will be made available for subscription under the Monthly Solar Capacity Charge.

Proposed
A customer subscribing to capacity by paying the One-Time Solar Capacity Charge will receive Solar Energy Credit values subject to the terms and conditions of this Rider for a period of 25 years beginning with and including the first full billing period immediately following the customer's payment in full of the Capacity Charge.

Program Description:
Current
The Solar Share Program is an optional, voluntary program that allows customers to subscribe to capacity in the Solar Share Facilities. Each Solar Share Facility will have an approximate direct-current (DC) capacity of 500 kW and will be available for subscription in nominal 250 W (quarter-kW) DC increments. Each subscribing customer ("Subscriber") may subscribe capacity up to an aggregate amount of 500 kW DC, though no Subscriber may subscribe more than 250 kW DC in any single Solar Share Facility.

There are two mutually exclusive options for subscribing to each increment of capacity.

Option 1: Capacity Subscribed by Paying Only the One-Time Solar Capacity Charge

For capacity subscribed by paying the One-Time Solar Capacity Charge, the One-Time Solar Capacity Charge will be included on the Subscriber's bill for the first billing period in which the subscribed capacity achieves commercial operation.

A customer choosing to pay the One-Time Solar Capacity Charge may transfer subscribed capacity between the customer's own accounts or may assign subscribed capacity to another customer. Once assigned, the assigning customer forfeits all rights to the assigned capacity.

A customer who ceases taking service from Company will have 60 calendar days to assign subscribed capacity to another customer within Company's service area. Any capacity such a customer does not assign within 60 days of ceasing to take service will be forfeited and made available to other customers under Option 2: Capacity Subscribed by Paying Only the Monthly Solar Capacity Charge.

Option 2: Capacity Subscribed by Paying Only the Monthly Solar Capacity Charge

For capacity subscribed by paying the Monthly Solar Capacity Charge, the Solar Capacity Charge will be included on the Subscriber's bill beginning with the bill for the first billing period in which the subscribed capacity achieves commercial operation.

Monthly subscriptions of less than 50 kW DC will not require a contract; however, a customer may not reduce or cancel a monthly subscription earlier than 12 months from the date of the customer's most recent change to the customer's monthly subscription level. Therefore, a customer subscribing monthly less than 50 kW has a 12-month commitment from the date of the customer's initial monthly subscription or initial solar facility commercial operation, whichever is later, and may have a longer commitment if the customer subsequently increases monthly subscribed capacity (which a customer may do at any time) or if the customer chooses to decrease but not cancel the monthly subscription after the initial 12 months. Monthly subscriptions of 50 kW DC or more require a 5-year contract with Company.
Proposed
The Solar Share Program is an optional, voluntary program that allows customers to subscribe to capacity in the Solar Share Facilities. Each Solar Share Facility will have an approximate direct-current (DC) capacity of 500 kW and will be available for subscription in nominal 250 W (quarter-kW) DC increments.

There are two mutually exclusive options for subscribing to each increment of capacity.

Option 1: Capacity Subscribed by Paying Only the One-Time Solar Capacity Charge

For capacity subscribed by paying the One-Time Solar Capacity Charge, the One-Time Solar Capacity Charge will be included on the Subscriber's bill for the first billing period in which the subscribed capacity becomes available.

A customer choosing to pay the One-Time Solar Capacity Charge may transfer subscribed capacity between the customer's own accounts or may assign subscribed capacity to another customer. Once assigned, the assigning customer forfeits all rights to the assigned capacity.

A customer who ceases taking service from Company will have 30 calendar days to assign subscribed capacity to another customer within Company's service area. Any capacity such a customer does not assign within 30 days of ceasing to take service will be forfeited and made available to other customers.

Option 2: Capacity Subscribed by Paying Only the Monthly Solar Capacity Charge

For capacity subscribed by paying the Monthly Solar Capacity Charge, the Solar Capacity Charge will be included on the Subscriber's bill beginning with the bill for the first billing period in which the subscribed capacity becomes available.

Monthly subscriptions of less than 50 kW DC will not require a contract; however, a customer may not reduce or cancel a monthly subscription earlier than 12 months from the date of the customer's most recent change to the customer's monthly subscription level. Therefore, a customer subscribing monthly less than 50 kW has a 12-month commitment from the date of the customer's initial monthly subscription Customer may have a longer commitment if the customer subsequently increases monthly subscribed capacity (which a customer may do at any time) or if the customer chooses to decrease but not cancel the monthly subscription after the initial 12 months. Monthly subscriptions of 50 kW DC or more require a 5-year contract with Company.

Terms and Conditions:

Current

2. Customer may subscribe as much solar capacity as desired up to an aggregate amount of 500 kW DC (nominal). No customer may subscribe more than 250 kW DC (nominal) in any single Solar Share Facility.

13. Subscriptions made by paying the One-Time Solar Capacity Charge may be transferred between a Subscriber's accounts no more than once per billing period (Solar Energy Credit values do not transfer between accounts or customers). A subscription transfer between a Subscriber's accounts takes effect in the billing period following the billing period in which the Subscriber requests the transfer. A Subscriber may transfer a subscription at any time prior to or including 60 calendar days after the Subscriber terminated service on the account to which the subscription attached. If the Subscriber whose account has been terminated does not transfer the subscription within 60 calendar days, the Subscriber forfeits the subscription.

14. Capacity subscribed by paying the One-Time Solar Capacity Charge may be assigned between customers, but only within the same Company service territory, at any time prior to or including 60 calendar days after the assigning Subscriber terminated service on the account to which the subscription attached. Once assigned, the assigning customer loses all rights regarding future credits and the ability to subsequently assign the capacity; those rights become the rights of the assignee upon assignment. For all purposes other than the Solar Energy Credit, all capacity assignments become effective immediately upon assignment. For the purpose of the Solar Energy Credit, the assignor will receive Solar Energy Credits for

the entire billing period in which the assignment occurs; the assignee will receive Solar Energy Credits beginning in the first billing period following the assignment.

Proposed

2. Removed

12. Subscriptions made by paying the One-Time Solar Capacity Charge may be transferred between a Subscriber's accounts no more than once per billing period (Solar Energy Credit values do not transfer between accounts or customers). A subscription transfer between a Subscriber's accounts takes effect in the billing period following the billing period in which the Subscriber requests the transfer. A Subscriber may transfer a subscription at any time prior to or including 30 calendar days after the Subscriber terminated service on the account to which the subscription attached. If the Subscriber whose account has been terminated does not transfer the subscription within 30 calendar days, the Subscriber forfeits the subscription.

13. Capacity subscribed by paying the One-Time Solar Capacity Charge may be assigned between customers, but only within the same Company service territory, at any time prior to or including 30 calendar days after the assigning Subscriber terminated service on the account to which the subscription attached. Once assigned, the assigning customer loses all rights regarding future credits and the ability to subsequently assign the capacity; those rights become the rights of the assignee upon assignment. For all purposes other than the Solar Energy Credit, all capacity assignments become effective immediately upon assignment. For the purpose of the Solar Energy Credit, the assignor will receive Solar Energy Credits for the entire billing period in which the assignment occurs; the assignee will receive Solar Energy Credits beginning in the first billing period following the assignment.

Electric Vehicle Supply Equipment – Rider EVSE-R

Availability:

Current

Available as a rider to Customers to be served or currently being served under Rates GS (with energy usage of 500 kWh or higher per month), GTOD-Energy, GTOD-Demand, AES, PS, TODS, TODP, RTS, and FLS, for the purpose of charging electrical vehicles, whereby Customer installs and owns facilities on its side of the point of delivery of the energy supplied hereunder necessary to serve Company-provided charging station.

Charging station under this rider is offered under the conditions set out hereinafter for electric vehicle supply equipment such as, but not limited to, the charging of electric vehicles via street parking, parking lots, and other outdoor areas. Company will furnish, own, and maintain the charging cord. The customer will own and maintain duct systems and associated equipment needed to serve the charger.

Company may coordinate charging station installation with Company's current charging station supplier and Customer. Customer shall be responsible for the charging equipment installation costs.

Service will be provided under written contract, signed by Customer prior to service commencing.

Proposed

Available as a rider to Customers to be served or currently being served under Rates GS (with energy usage of 500 kWh or higher per month), GTOD-Energy, GTOD-Demand, AES, PS, TODS, TODP, RTS, EHLF, and FLS, for the purpose of charging electrical vehicles, whereby Customer installs and owns facilities on its side of the point of delivery of the energy supplied hereunder necessary to serve Company-provided charging station.

Charging station under this rider is offered under the conditions set out hereinafter for electric vehicle supply equipment such as, but not limited to, the charging of electric vehicles via street parking, parking lots, and other outdoor areas. Company will furnish, own, and maintain the charging cord. The customer will own and maintain duct systems and associated equipment needed to serve the charger.

Company may coordinate charging station installation with Company's current charging station contractor and Customer. Customer shall be responsible for the charging equipment installation costs.

Service will be provided under written contract, signed by Customer prior to service commencing.

Monthly Charging Unit Fee	**Current**	**Proposed**
Networked Charger (Option A):		
Single Charger	$121.79	$144.03
Dual Charger	$173.02	$234.79
Networked Charger (Option B):		
Single Charger	New	$113.44
Dual Charger	New	$159.05
Non-Networked Charger:		
Single Charger	$30.58	$37.24

NEW - Charging Stations Descriptions:
Networked Charger (Option A): Networked charging station with dashboard and availability capabilities. Suitable for all use cases, particularly public installation, and high-traffic locations. For installations that require access control, remote monitoring, usage data collection, automatic cord retraction, and dual logo branding.

Networked Charger (Option B): Networked charging station with dashboard and availability capabilities. Suitable for all use cases, particularly public installation, and high-traffic locations. For installations that require access control, remote monitoring, and usage data collection.

Non-Networked Charger: Basic non-networked EV charging station. Suitable for less public use cases, and particularly good for workplaces, fleets, and low-traffic retail.

Terms and Conditions:
Current
7. Temporary suspension of charging station is not permitted. Upon permanent discontinuance of service, charging station and other supporting facilities solely associated with providing service under this tariff, except underground facilities and pedestals, will be removed.
Proposed
7.Temporary suspension of charging station is only permitted if Company and Customer mutually agree to the temporary suspension. Upon permanent discontinuance of service, charging station and other supporting facilities solely associated with providing service under this tariff, except underground facilities and pedestals, will be removed.

Demand-Side Management Cost Recovery Mechanism (DSM)

Availability of Service:
Current:
This schedule is mandatory to the Company's Standard Rate Schedules RS, RTOD -Energy, RTOD-Demand, VFD, GS, GTOD-Energy, GTOD-Demand, AES, PS, TODS, TODP, RTS, FLS, and OSL. Descriptions of available Demand-Side Management and Energy Efficiency ("DSM-EE") programs begin on Sheet No. 86.4.
Proposed:
This schedule is mandatory to the Company's Standard Rate Schedules RS, RTOD -Energy, RTOD-Demand, VFD, GS, GTOD-Energy, GTOD-Demand, AES, PS, TODS, TODP, RTS, EHLF, FLS, and OSL. Descriptions of available Demand-Side Management and Energy Efficiency ("DSMEE") programs begin on

Industrial Opt-Out:
Current:
An industrial customer may elect not to participate in any DSM-EE programs hereunder, and therefore shall not be assessed a charge pursuant to this mechanism, with respect to any of the customer's energy-intensive meters (i.e., a meter served under Rate RTS, FLS, or TODP) if the customer has implemented with respect to the load served by each such meter cost-effective energy-efficiency measures not subsidized by other rate classes. Nonresidential customers will be considered "industrial" for the purposes of Adjustment Clause DSM if they are engaged in activities primarily using electricity in a process or processes involving either the extraction of raw materials from the earth or a change of raw or unfinished materials into another form or product. To opt out, an industrial customer must complete and return to Company the Demand-Side Management and Energy Efficiency Industrial Opt-Out Notification Form (available at the Company's website at http://www.lge-ku.com). The full terms and conditions of opting out and any subsequent opting in are contained in the Demand-Side Management and Energy Efficiency Industrial Opt-Out Notification Form. Only those industrial customer meters that are energy intensive (i.e., served under Rate RTS, FLS, or TODP) may be exempted from charges under Adjustment Clause DSM; an industrial customer's other accounts will be subject to Adjustment Clause DSM.

An industrial customer desiring to opt back into charges under this mechanism for one or more opted-out meters must complete and return to Company the Demand-Side Management and Energy Efficiency Industrial Opt-In Notification Form (available at the Company's website at http://www.lge-ku.com). The full terms and conditions of opting in are contained in the Demand-Side Management and Energy Efficiency Industrial Opt-In Notification Form.
Proposed:
An industrial customer may elect not to participate in any DSM-EE programs hereunder, and therefore shall not be assessed a charge pursuant to this mechanism, with respect to any of the customer's energy-intensive meters (i.e., a meter served under Rate EHLF, RTS, FLS, or TODP) if the customer has implemented with respect to the load served by each such meter cost-effective energy-efficiency measures not subsidized by other rate classes. Nonresidential customers will be considered "industrial" for the purposes of Adjustment Clause DSM if they are engaged in activities primarily using electricity in a process or processes involving either the extraction of raw materials from the earth or a change of raw or unfinished materials into another form or product. Rate (DRLS):
Current
DRLS = DSM REVENUE FROM LOST SALES
Revenues from lost sales due to DSM-EE programs implemented on and after the effective date of this tariff

will be recovered as follows:

1) For each upcoming twelve-month period, the estimated reduction in customer usage (in kWh) as determined for the approved programs shall be multiplied by the non-variable revenue requirement per kWh for purposes of determining the lost revenue to be recovered hereunder from each customer class. The non-variable revenue requirement for the RS, RTOD-Energy, VFD, GS GTOD-Energy, and AES customer classes is defined as the weighted average price per kWh of expected billings under the energy charges contained in the RS, RTOD-Energy, VFD, GS, GTOD-Energy, and AES rate schedules in the upcoming twelve-month period after deducting the variable costs included in such energy charges. The non-variable revenue requirement for each of the customer classes that are billed under demand and energy rates (rate schedules RTOD-Demand, GTOD-Demand, PS, TODS, TODP, RTS, FLS, and OSL) is defined as the weighted average price per kWh represented by the composite of the expected billings under the respective demand and energy charges in the upcoming twelve-month period, after deducting the variable costs included in the energy charges.

Rate (DSMI):

Current

DSMI = DSM INCENTIVE

For all Energy Efficiency Programs, the DSMI shall be computed by multiplying the net resource savings expected from the approved programs that are to be installed during the upcoming twelve-month period times fifteen (15) percent, not to exceed five (5) percent of program expenditures. Net resource savings are defined as program benefits less utility program costs and participant costs where program benefits will be calculated on the basis of the present value of Company's avoided costs over the expected life of the program, and will include both capacity and energy savings.

The DSMI amount related to programs for Rates RS, RTOD-Energy, RTOD-Demand, Rate VFD, GS, GTOD-Energy, GTOD-Demand, AES, PS, TODS, TODP, RTS, FLS, and OSL shall be divided by the expected kilowatt-hour sales for the upcoming twelve-month period to determine the DSMI for such rate class. DSMI amounts will be assigned for recovery purposes to the rate classes whose programs created the incentive.

Residential Online Audit:
Current
This program will not begin until January 1, 2025.

This program is a web-based, self-guided assessment of a customer's home and includes information about the home's space and water heating, appliance and plug load, and other energy end uses. The audit pulls customer-specific interval data from the Company's AMI to provide an accurate picture of the customer's disaggregated energy use. After completing the online audit, customers receive feedback on their energy-use behavior, energy-saving tips, and recommendations and are mailed a kit with energy efficiency measures for self-installation. The kit will include a low-flow bathroom faucet aerator, a low-flow kitchen faucet aerator, a low-flow showerhead, water heater pipe insulation, weatherstripping, caulking, spray foam, and an advanced power strip. In addition, customers who complete the audit gain access to prescriptive rebates for deeper energy efficiency retrofits. Rebate examples include: heat pump water heaters ($300), central air conditioner ($300), ductless heat pump ($400), air source heat pump ($400), and 95% AFUE furnace ($250).

Small Business Audit and Direct Install:

Current

This program provides free energy audits to small businesses and allows for direct installation of high-efficiency equipment. A third-party contractor will provide a complimentary energy audit of the customer's facility. The Company will provide free direct installation of energy-saving products that may include nonresidential LED bulbs and fixtures, faucet aerators, low-flow showerheads, and pre-rinse spray valves.

Proposed

This program provides free energy audits, energy education, and installation of energy conservation measures to small businesses.

Non-Residential Demand Response:

Current

This program may employ (as needed) interfaces to customer equipment to help reduce the demand for electricity during peak times. The program communicates with the interfaces to cycle equipment. This program has an approved flexible incentive structure. The Company will notify customers in advance of peak demand events. The incentive rate is up to $75 per kW curtailed. The incentive amount that a participant receives will continue to be calculated based on the actual demand reduction achieved by the participant over the entire year's events.

Qualifying Rate Schedules: AES, PS, TODS, TODP, RTS, and FLS customers with at least a 200 kW demand and a minimum load reduction capability of at least 50 kW. Curtailable Service Rider (CSR) customers are not eligible for participation in this program.

Proposed

This program may employ (as needed) interfaces to customer equipment to help reduce the demand for electricity during peak times. The program communicates with the interfaces to cycle equipment. This program has an approved flexible incentive structure. The Company will notify customers in advance of peak demand events. The incentive rate is up to $75 per kW-year curtailed. The incentive amount that a participant receives will continue to be calculated based on the actual demand reduction achieved by the participant over the entire contract year's events.

Qualifying Rate Schedules: GS customers with twelve (12) month-average maximum monthly loads exceeding 50 kW who were receiving service under P.S.C. No. 13, Fourth Revision of Original Sheet No. 10 as of February 6, 2009, and chose to continue being served under Rate GS, AES, PS, TODS, TODP, RTS, EHLF, and FLS customers with at least a 200 kW demand and a minimum load reduction capability of at least 50 kW. Curtailable Service Rider (CSR) customers are not eligible for participation in this program.

Environmental Cost Recovery Surcharge

Availability of Service:

Current

This schedule is mandatory to all rate schedules listed in Section 1 of the General Index except Rate PSA and Special Charges, all Pilot Programs listed in Section 3 of the General Index, and the FAC (including OSS) and DSM Adjustment Clauses. Rate schedules subject to this adjustment clause are divided into Group 1 or Group 2 as follows:

Group 1: Rates RS; RTOD-Energy; RTOD-Demand; VFD; AES; LS; RLS; LE; and TE.
Group 2: Rates GS; GTOD-Energy; GTOD-Demand; PS; TODS; TODP; RTS; FLS; EVSE; EVC-L2; EVC-FAST; and OSL.

Proposed

This schedule is mandatory to Standard Rate Schedules listed in Section 1 of the General Index except Rate PSA and Special Charges, all Pilot Programs listed in Section 3 of the General Index, and Adjustment Clauses (Fuel Adjustment Clause (including Off-System Sales Adjustment Clause), Demand-Side Management Cost Recovery Mechanism, Retired Asset Recovery, and Renewable Power Purchase Agreement Adjustment Clause). Rate schedules subject to the ECR adjustment clause are divided into Group 1 or Group 2 as follows:

Group 1: Rates RS; RTOD-Energy; RTOD-Demand; VFD; AES; LS; RLS; LE; and TE.
Group 2: Rates GS; GTOD-Energy; GTOD-Demand; PS; TODS; TODP; RTS; EHLF; FLS; EVSE; EVC-L2; EVC-FAST; and OSL.

Definitions:

Current

1. For all Plans, E(m) = [(RB/12) (ROR + (ROR – DR) (TR / (1 – TR))] + OE – BAS + BR
a. RB is the Total Environmental Compliance Rate Base.
b. ROR is the Rate of Return on Environmental Compliance Rate Base, designated as the overall rate of return [cost of short-term debt, long-term debt, preferred stock, and common equity].
c. DR is the Debt Rate [cost of short-term debt and long-term debt].
d. TR is the Composite Federal and State Income Tax Rate.
e. OE is the Operating Expenses. OE includes operation and maintenance expense recovery authorized by the Kentucky Public Service Commission in all approved ECR Plan proceedings.
f. BAS is the total proceeds from by-product and allowance sales.
g. BR is the operation and maintenance expenses, and/or revenues if applicable, associated with Beneficial Reuse.
h. Plans are the environmental surcharge compliance plans submitted to and approved by the Kentucky Public Service Commission pursuant to KRS 278.183.

Proposed

1. For all Plans, E(m) = [(RB/12) (ROR + (ROR – DR) (TR / (1 – TR))] + OE – AS + BR
a. RB is the Total Environmental Compliance Rate Base.
b. ROR is the Rate of Return on Environmental Compliance Rate Base, designated as the overall rate of return (cost of short-term debt, long-term debt, preferred stock, and common equity) as approved by the Kentucky Public Service Commission pursuant to KRS 278.183.
c. DR is the Debt Rate (cost of short-term debt and long-term debt).
d. TR is the Composite Federal and State Income Tax Rate.
e. OE is the Operating Expenses. OE includes operation and maintenance expense recovery authorized by the Kentucky Public Service Commission in all approved ECR Plan proceedings.
f. AS is the total proceeds from allowance sales.
g. BR is the operation and maintenance expenses and/or revenues, as applicable, associated with Beneficial Reuse.
h. Plans are the environmental surcharge compliance plans submitted to and approved by the Kentucky Public Service Commission pursuant to KRS 278.183.

Other

The Company proposes to apply the approved return on equity in this proceeding to Adjustment Clause ECR beginning with the January 2026 expense month.

Retired Asset Recovery Adjustment Clause - RAR

Current

AVAILABILITY OF SERVICE

This schedule is mandatory to all rate schedules listed in Section 1 of the General Index except Rate PSA and Special Charges and all Pilot Programs listed in Section 3 of the General Index. Rate schedules subject

to this adjustment clause are divided into Group 1 or Group 2 as follows:

Group 1: Rates RS; RTOD-Energy; RTOD-Demand; VFD; AES; LS; RLS; LE; and TE.

Group 2: Rates GS; GTOD-Energy; GTOD-Demand; PS; TODS; TODP; RTS; FLS; EVSE; EVC-L2; EVC-FAST; and OSL.

RATE

The monthly billing amount under each of the schedules to which this rider is applicable, shall be increased or decreased by a percentage factor calculated in accordance with the following formula.

Group RAR Billing Factor = Group E(m) / Group R(m)

As set forth below, Group E(m) is the sum of Jurisdictional E(m) of each approved retirement-related regulatory asset revenue requirement for the current expense month allocated to each of Group 1 and Group 2. Group R(m) for Group 1 is the twelve (12) month average revenue for the current expense month and for Group 2 it is the twelve (12) month average non-fuel revenue for the current expense month.

DEFINITIONS

1. Retirement Assets are the regulatory assets and associated ADIT created after the date of the Commission's Final Order in Case No. 2020-00349 for the Retirement Costs of generating assets retired and other site-related assets that will not continue in use.
2. Retirement Costs include the net book value, materials and supplies that cannot be used economically at other plants owned by Company, and removal costs and salvage credits, net of related accumulated deferred income tax ("ADIT"). Related ADIT shall include the tax benefits from tax losses.
3. For each Retirement Asset, E(m) is the monthly levelized expense required to amortize the Retirement Asset over a 10-year amortization period beginning with the month in which the Retirement Asset is created. E(m) includes a weighted average cost of capital component using the most recently approved base rate return on equity and adjusted for the Company's composite federal and state income tax rate.
4. Total E(m) (sum of each approved Retirement Asset revenue requirement) is multiplied by the Jurisdictional Allocation Factor. Jurisdictional E(m) is adjusted for any (Over)/Under collection or prior period adjustment and by the subtraction of the Revenue Collected through Base Rates for the Current Expense month to arrive at Adjusted Net Jurisdictional E(m). Adjusted Net Jurisdictional E(m) is allocated to Group 1 and Group 2 on the basis of Revenue as a Percentage of Total Revenue for the twelve (12) months ending with the Current Month to arrive at Group 1 E(m) and Group 2 E(m).
5. The Group 1 R(m) is the average of total Group 1 monthly base revenue for the twelve (12) months ending with the current expense month. Base revenue includes customer, energy, and lighting charges for each rate schedule included in Group 1 to which this rider is applicable and automatic adjustment clause revenues for the Fuel Adjustment Clause, Environmental Cost Recovery Surcharge, Off-System Sales Adjustment Clause, and the Demand-Side Management Cost Recovery Mechanism as applicable for each rate schedule in Group 1.
6. The Group 2 R(m) is the average of total Group 2 monthly base non-fuel revenue for the twelve (12) months ending with the current expense month. Base non-fuel revenue includes customer, non-fuel energy, and demand charges for each rate schedule included in Group 2 to which this rider is applicable and automatic adjustment clause revenues for the Demand-Side Management Cost Recovery Mechanism as applicable for each rate schedule in Group 2. Non-fuel energy is equal to the tariff energy rate for each rate schedule included in Group 2 less the base fuel factor as defined on Sheet No. 85.1, Paragraph 6.
7. Current expense month (m) shall be the second month preceding the month in which the Retired Asset Recovery Rider is billed.

Proposed

AVAILABILITY OF SERVICE

This schedule is mandatory to all rate schedules listed in Section 1 of the General Index except Rate PSA and Special Charges and all Pilot Programs listed in Section 3 of the General Index. Rate schedules subject to this adjustment clause are divided into Group 1 or Group 2 as follows:

Group 1: Rates RS; RTOD-Energy; RTOD-Demand; VFD; AES; LS; RLS; LE; and TE.

Group 2: Rates GS; GTOD-Energy; GTOD-Demand; PS; TODS; TODP; RTS; EHLF; FLS; EVSE; EVC-L2; EVC-FAST; and OSL.

RATE

The monthly billing amount under each of the schedules to which this adjustment clause is applicable shall be increased or decreased by a percentage factor calculated in accordance with the following formula.

Group RAR Billing Factor = Group E(m) / Group R(m)

As set forth below, Group E(m) is Adjusted E(m) for the current expense month allocated to each of Group 1 and Group 2. Group R(m) for Group 1 is the twelve (12) month average revenue for the current expense month and for Group 2 it is the twelve (12) month average non-fuel revenue for the current expense month.

DEFINITIONS

1.For a retired generating unit and its other site-related assets that will not continue in use, Retirement Costs are the unrecovered amounts of net book value, materials and supplies that cannot be used economically at other plants owned by Company, and costs of removal (i.e., decommissioning and demolition costs net of salvage credits).

2.A Retired Asset is a retired generating unit's Retirement Costs net of related accumulated deferred income tax ("ADIT"). Related ADIT shall include the tax benefits from tax losses.

3.E(m) is (a) the sum of the monthly levelized expense required to amortize each retired generating unit's Retirement Costs over a 10-year amortization period beginning with the month after the month in which the related generating unit retires less (b) the sum of the depreciation expense and return component embedded in base rates for each retired generating unit. E(m) includes a weighted average cost of capital component applied to the Retired Asset using the most recently approved base rate return on equity and adjusted for the Company's composite federal and state income tax rate.

4.E(m) is adjusted for any (Over)/Under collection or prior period adjustment to arrive at Adjusted E(m). Adjusted E(m) is allocated to Group 1 and Group 2 on the basis of Revenue as a Percentage of Total Revenue for the twelve (12) months ending with the Current Month to arrive at Group 1 E(m) and Group 2 E(m).

5.The Group 1 R(m) is the average of total Group 1 monthly base revenue for the twelve (12) months ending with the current expense month. Base revenue includes customer, energy, and lighting charges for each rate schedule included in Group 1 to which this adjustment clause is applicable and automatic adjustment clause revenues for the Fuel Adjustment Clause, Environmental Cost Recovery Surcharge, Off-System Sales Adjustment Clause, and the Demand-Side Management Cost Recovery Mechanism as applicable for each rate schedule in Group 1.

6.The Group 2 R(m) is the average of total Group 2 monthly base non-fuel revenue for the twelve (12)

months ending with the current expense month. Base non-fuel revenue includes customer, non-fuel energy, and demand charges for each rate schedule included in Group 2 to which this rider is applicable and automatic adjustment clause revenues for the Environmental Cost Recovery Surcharge and the Demand-Side Management Cost Recovery Mechanism as applicable for each rate schedule in Group 2. Non-fuel energy is equal to the tariff energy rate for each rate schedule included in Group 2 less the base fuel factor as defined on Sheet No. 85.1, Paragraph 6.

7.Current expense month (m) shall be the second month preceding the month in which the Retired Asset Recovery Adjustment Clause is billed.

Other

The Company proposes to apply the approved return on equity in this proceeding to the Retired Asset Recovery Adjustment Clause beginning with the January 2026 expense month.

New – Renewable Power Purchase Agreement Adjustment Clause - RPPA

Applicable:

In all territory served.

Availability:

Mandatory to all electric rate schedules.

Rate:

The monthly RPPA Adjustment Factor per kWh delivered under each of the schedules to which this mechanism is applicable shall be calculated in accordance with the following formula:

RPPA Adjustment Factor = (RPPA(m) - REC(m) + BA(m)) / S(m)

Where, in the current period (m) as defined in 807 KAR 5:056:

• "RPPA" is the cost of all renewable power purchase agreements approved by the Commission for cost recovery through Adjustment Clause RPPA ("Approved RPPAs");

• "REC" is (a) all revenue from sales of environmental attributes, including renewable energy certificates, resulting from Approved RPPAs, minus (b) all costs of such sales, including without limitation all costs of making such environmental attributes saleable (e.g., certification and recordation costs);

• "BA" is the balancing adjustment to account for the over- or under-collection of revenues in the billing period due to differences between the kWh sales (S) for the current period (m) and the billing period; and

• "S" is the kWh sales.

The RPPA Adjustment Factor will be applied as set out below.

1.The monthly amount computed under each of the rate schedules to which the RPPA is applicable shall be increased or decreased by the RPPA Adjustment Factor.

2.Current expense month (m) shall be the second month preceding the month in which the RPPA Adjustment Factor is billed.

3.The RPPA Adjustment Factor shall be filed with the Commission ten days before it is scheduled to go into effect, along with all the necessary supporting data to justify the amount of the adjustments, which shall include data and information as may be required by the Commission.

Terms and Conditions – Customer Responsibilities

Application for Service:

The Company proposes to add "electronic mail address" to the items it may require of any party applying for service.

Liability:

Current

Customer assumes all responsibility for the electric service upon Customer's premises at and from the point of delivery of electricity and for the wires and equipment used in connection therewith, and will protect and save Company harmless from all claims for injury or damage to persons or property occurring on Customer's premises or at and from the point of delivery of electricity, occasioned by such electricity or said wires and equipment, except where said injury or damage will be shown to have been occasioned solely by the negligence of Company.

Proposed

Customer assumes all responsibility for the electric service upon Customer's premises at and from the point of delivery of electricity and for the wires and equipment used in connection therewith, and will protect and save Company harmless from all claims for injury or damage to persons or property occurring on Customer's premises or at and from the point of delivery of electricity, occasioned by such electricity or said wires and equipment, except where Company's gross negligence or willful misconduct is the sole and proximate cause of said injury or damage.

Permits, Easement, and Rights of Way:

Current

Customer shall obtain or cause to be obtained all permits, easements, or certificates, except street permits, necessary to give Company or its agents access to Customer's premises and equipment and to enable its service to be connected therewith. In case Customer is not the owner of the premises or of intervening property between the premises and Company's distribution lines, Customer shall obtain from the property owner or owners the necessary consent to the installation and maintenance in said premises and in or about such intervening property of all such wiring or other Customer-owned electrical equipment as may be necessary or convenient for the supply of electric service to Customer. Provided, however, to the extent permits, easements, or certificates are necessary for the installation and maintenance of Company-owned facilities, Company shall obtain the aforementioned consent.

The construction of electric facilities to provide service to a number of Customers in a manner consistent with good engineering practice and the least public inconvenience sometimes requires that certain wires, guys, poles, or other appurtenances on a Customer's premises be used to supply service to neighboring Customers. Accordingly, each customer taking Company's electric service shall grant to Company such rights on or across his or her premises as may be necessary to furnish service to neighboring premises, such rights to be exercised by Company in a reasonable manner and with due regard for the convenience of Customer.

Company shall make or cause to be made application for any necessary street permits, and shall not be required to supply service under Customer's application until a reasonable time after such permits are granted.

Proposed

Regarding any and all Customer-owned property, Customer shall grant at no cost to Company or its agent

all easements, rights of way, or other consents necessary to allow Company to serve Customer's premises and equipment. Company shall obtain all other permits (including without limitation any necessary street permits), easements, rights of way, or certificates necessary to install and maintain Company-owned facilities. Company shall not be required to supply service under Customer's application until a reasonable time after all required permits (including without limitation any necessary street permits), easements, rights of way, or certificates are granted or otherwise obtained.

The construction of electric facilities to provide service to a number of Customers in a manner consistent with good engineering practice and the least public inconvenience sometimes requires that certain wires, guys, poles, or other appurtenances on a Customer's premises be used to supply service to neighboring Customers as well as Customer. Accordingly, insofar as such facilities also serve Customer, Customer shall grant to Company such rights on or across his or her premises as may be necessary to furnish service to neighboring premises, such rights to be exercised by Company in a reasonable manner and with due regard for the convenience of Customer.

Terms and Conditions – Company Responsibilities

New – Incidental or Occasional Utility-Related Services:

Upon Customer's request, Company may perform incidental or occasional utility-related services not addressed by other tariff provisions. If Company agrees to perform such Customer-requested services, Company will bill Customer for reimbursement of Company's costs, including without limitation costs of materials and labor required to perform such services.

COMPANY NOT LIABLE FOR INTERRUPTIONS

Current

Company will exercise reasonable care and diligence in an endeavor to supply service continuously and without interruption but does not guarantee continuous service and shall not be liable for any loss or damage resulting from interruption, reduction, delay, or failure of electric service not caused by the willful negligence of Company, or resulting from any cause or circumstance beyond the reasonable control of Company.

Proposed

Company will exercise reasonable care and diligence in an endeavor to supply service continuously and without interruption but does not guarantee continuous service. Company shall not be liable for any loss, injury, or damage resulting from interruption, reduction, delay, or failure of electric service except where Company's willful misconduct is the sole and proximate cause of said loss, injury, or damage.

COMPANY NOT LIABLE FOR DAMAGE ON CUSTOMER'S PREMISES

Current

Company is merely a supplier of electricity delivered to the point of connection of Company's and Customer's facilities, and shall not be liable for and shall be protected and held harmless for any injury or damage to persons or property of Customer or of third persons resulting from the presence, use or abuse of electricity on Customer's premises or resulting from defects in or accidents to any of Customer's wiring, equipment, apparatus, or appliances, or resulting from any cause whatsoever other than the negligence of Company.

Proposed

Company is merely a supplier of electricity delivered to the point of connection of Company's and Customer's facilities, and shall not be liable for and shall be protected and held harmless for any injury or damage to persons or property of Customer or of third persons resulting from the presence, use or abuse of electricity on Customer's premises or resulting from defects in or accidents to any of Customer's wiring, equipment, apparatus, or appliances, or resulting from any cause whatsoever except where Company's gross negligence or willful misconduct is the sole and proximate cause of said injury or damage.

Terms and Conditions – Billing

Meter Readings and Bills

New Language Added

All Customers for whom Company has an email address on file will receive paperless bills by default. Customers may opt out of paperless billing by contacting Company to request paper bills by mail.

Terms and Conditions – Deposits

Current

GENERAL

1. Company may require a cash deposit or other guaranty from Customers to secure payment of bills in accordance with 807 KAR 5:006, Section 8 except for Customers qualifying for service reconnection pursuant to 807 KAR 5:006, Section 16, Winter Hardship Reconnection.
2. Deposits may be required from all Customers not meeting satisfactory credit and payment criteria. Satisfactory credit for Customers will be determined by utilizing independent credit sources (primarily utilized with new Customers having no prior history with Company), as well as historic and ongoing payment and credit history with Company.

a. Examples of independent credit scoring resources include credit scoring services, public record financial information, financial scoring and modeling services, and information provided by independent credit/financial watch services.

b. Satisfactory payment criteria with Company may be established by paying all bills rendered, having no disconnections for nonpayment, having no late notices, having no defaulted credit arrangements, having no returned payments, having no meter diversion or theft of service

3. Company may offer residential or general service customers the option of paying all or a portion of their deposits in installments over a period not to exceed the first six (6) normal billing periods. Service may be refused or discontinued for failure to pay and/or maintain the requested deposit.
4. Interest on deposits will be calculated at the rate prescribed by law, from the date of deposit, and will be paid annually either by refund or credit to Customer's bills. If interest is paid or credited to Customer's bill prior to twelve (12) months from the date of deposit, the payment or credit will be on a prorated basis. Upon termination of service, the deposit, any principal amounts, and interest earned and owing will be credited to the final bill, with any remainder refunded to Customer.

RESIDENTIAL

1. Residential Customers are those Customers served under Residential Service Rate RS - Sheet No. 5, Residential Time-of-Day Energy Service Rate RTOD-Energy – Sheet No. 6, and Residential Time-of-Day Demand Service Rate RTOD-Demand – Sheet No. 7.
2. The deposit for a residential Customer is in the amount of $160.00, which is calculated in accordance with 807 KAR5:006, Section 8(1)(d)(2). For combination gas and electric Customers, the total deposit will be $260.00.
3. Company shall retain Customer’s deposit for a period not to exceed twelve (12) months, provided Customer has met satisfactory payment and credit criteria.
4. If a deposit is held longer than eighteen (18) months, the deposit will be recalculated, at Customer’s request, and based on Customer’s actual usage. If the deposit on account differs from the recalculated amount by more than $10.00, Company may collect any underpayment and shall refund any overpayment by check or credit to Customer's bill. No refund will be made if Customer's bill is delinquent at the time of the recalculation.
5. If Customer fails to maintain a satisfactory payment or credit record, or otherwise becomes a new or greater credit risk, as determined by Company in its sole discretion, Company may require a new or additional deposit from Customer.

GENERAL SERVICE

1. General service Customers are those Customers served under General Service Rate GS, Sheet No. 10, General Time-of-Day Energy Service Rate GTOD-Energy Sheet No. 11, and General Time-of-Day Demand Service Rate GTOD-Demand Sheet No. 12.
2. The deposit for a general service customer is in the amount of $240.00, which is calculated in accordance with 807 KAR5:006, Section 8(1)(d)(2).The deposit for a General Service Customer may be waived when the General Service delivery is to a detached building used in conjunction with a Residential Service and the General Service energy usage is no more than 300 kWh per month.
3. Company shall retain Customer's deposit as long as Customer remains on service.
4. For a deposit held longer than eighteen (18) months, the deposit will be recalculated, at Customer's request, and based on Customer's actual usage. If the deposit on account differs from the recalculated amount by more than ten percent (10%), Company may collect any underpayment and shall refund any overpayment by check or credit to Customer's bill. No refund will be made if Customer's bill is delinquent at the time of the recalculation.
5. If Customer fails to maintain a satisfactory payment or credit record, or otherwise becomes a new or greater credit risk, as determined by Company in its sole discretion, Company may require a new or additional deposit from Customer.

OTHER SERVICE

1. The deposit for all other Customers, those not classified herein as residential or general service, shall not exceed 2/12 of Customer's actual or estimated annual bill where bills are rendered monthly in accordance with 807 KAR5:006, Section 8(1)(d)(1).
2. For Customers not meeting the parameters of GENERAL SERVICE ¶ 2, above, Company may retain Customer's deposit as long as Customer remains on service.
3. For a deposit held longer than eighteen (18) months, the deposit will be recalculated, at Customer's request, and based on Customer's actual usage. If the deposit on account differs from the recalculated amount by more than ten percent (10%), Company may collect any underpayment and shall refund any overpayment by check or credit to Customer's bill. No refund will be made if Customer's bill is delinquent at the time of the recalculation.
4. If Customer fails to maintain a satisfactory payment or credit record, or otherwise becomes a new or greater credit risk, as determined by Company in its sole discretion, Company may require a new or additional deposit from Customer

Proposed

GENERAL

1. To the extend set forth herein, Company will require a cash deposit or other guaranty from Customers to secure payment of bills in accordance with 807 KAR 5:006, Section 8 except for Customers qualifying for service reconnection pursuant to 807 KAR 5:006, Section 16, Winter Hardship Reconnection.
2. Deposits will be required from all Customers not meeting satisfactory credit and payment criteria. Satisfactory credit for Customers will be determined by utilizing independent credit sources (primarily utilized with new Customers having no prior history with Company), as well as historic and ongoing payment and credit history with Company.

a. Examples of independent credit scoring resources include credit scoring services, public record financial information, financial scoring and modeling services, and information provided by independent credit or financial watch services.

b. Satisfactory payment criteria with Company will be established by timely paying all bills rendered, having no disconnections for nonpayment, having no late notices, having no defaulted credit arrangements, having no returned payments, having no meter diversion or theft of service, and having no history of fraud or attempted gaming of Company's payment or deposit requirements to obtain

service.

3. To the extent set forth herein, Company will allow residential and general service Customers to pay any required deposit(s) in equal installments over the first six normal billing periods. Service may be refused or discontinued for failure to pay and/or maintain the requested deposit.

4. Interest on deposits will be calculated at the rate prescribed by law, from the date of deposit, and will be paid annually either by refund or credit to Customer's bills. If interest is paid or credited to Customer's bill prior to 12 months from the date of deposit, the payment or credit will be on a prorated basis. Upon termination of service, the deposit, any principal amounts, and interest earned and owing will be credited to the final bill, with any remainder refunded to Customer.

5. Any deposit, surety bond, letter of credit, or other form of security currently held by or later provided to Company by Customer to secure payment of Customer's bills for a particular account with Company shall also secure any and all other obligations owing to Company by Customer. Should Customer fail to timely pay or perform any obligation owing by it to Company on any one or more of its accounts, Company may apply any security held by it for Customer, regardless of the account for which it was given, to satisfy Customer's outstanding obligations.

6. For Customer's account to be in "good standing," Customer must not have:

a. Received a disconnection notice, late payment notice, or budget reminder letter from Company;

b. Defaulted on a payment installment plan arranged with Company;

c. Issued a payment to Company that was returned for insufficient funds or any other reason; or

d. Engaged in an unauthorized reconnection of service or diversion of service.

RESIDENTIAL

1. Residential Customers are those Customers served under Residential Service Rate RS - Sheet No. 5, Residential Time-of-Day Energy Service Rate RTOD-Energy – Sheet No. 6, and Residential Time-of-Day Demand Service Rate RTOD-Demand – Sheet No. 7.

2. 2. The deposit amount for a residential Customer is $160.00, which is calculated in accordance with 807 KAR 5:006, Section 8(1)(d)(2).

3. The criteria Company uses to determine whether to require a deposit from a residential Customer are below.

a. For a Customer not currently taking any service from Company

i. Company will run a credit check with Customer's permission and if results indicates a deposit should be charged, Customer will be required to pay a deposit.

ii. If Customer refuses to allow Company to run a credit check or does not provide information needed to run a credit check, Company will require Customer to pay a deposit.

iii. If a residential Customer adds a General Service meter for a detached structure such as a barn or garage and if Company anticipates the new structure will consume less than 300 kWh per month, Company will not require a deposit for the General Service meter. If Company anticipates the new structure will consume 300 kWh or more per month, Company will require a deposit for the General Service meter in accordance with the General Service deposit provisions below.

b. For a Customer currently taking any service from Company for which the Company is holding a deposit and Customer is requesting service for another premise:

i. Company will require a deposit for the new service if in the last 12 months Customer has had any account(s) not in good standing.

ii. If Customer disputes Company's deposit requirement for the new service based on Customer's payment history, Company will, with Customer's permission and provision of any required information, run a credit check. If the results indicate a deposit is not needed, Company will not require Customer to pay a deposit for the new service.

c. If Customer seeks to transfer existing service to another premise:

i. If Company is not currently holding a deposit for Customer for Customer's existing active service, Company will not require a deposit from Customer for the new service at Customer's new premise.

ii. If Company is currently holding a deposit for Customer for Customer's existing service, Company will not require a new or additional deposit from Customer for the new service at Customer's new premise, and Customer's move will not affect the date Company will review the deposit for release thereof. Also, if Customer is making deposit installment payments for service at Customer's current premise, the same installment payments made and interest thereon will transfer to Customer's service at Customer's new premise, and Customer's deposit payment installment plan will also transfer to Customer's service at Customer's new premise.

d. If Company is not currently holding a deposit for Customer and if Customer's service is disconnected for non-payment and is subsequently reconnected, Company will require a full deposit from Customer to resume service. Consistent with 807 KAR 5:006 Section 16, this requirement does not apply to winter hardship reconnections.

e. If Customer is financially responsible for the service of another Customer and the financially responsible Customer is taking over the other Customer's existing service:

i. If the existing Customer's account is in good standing and the financially responsible Customer taking over the existing service has no past-due balance(s) on any account(s) with Company, Company will not require a deposit from the financially responsible Customer to take over the existing service.

ii. If the existing Customer's account is not in good standing, Company will run a credit check on the financially responsible Customer (with the Customer's permission).

1. If Company runs a credit check on Customer and the results indicate a deposit is not needed, Company will not require Customer to pay a deposit.

2. If Customer refuses to allow Company to run a credit check or does not provide information needed to run a credit check, Company will require Customer to pay a deposit.

3. If Company runs a credit check on Customer and the results indicate a deposit is needed, Company will require Customer to pay a deposit.

f. If Customer is deceased, Company will not require a new deposit of the Customer assuming responsibility for the service on behalf of the deceased Customer.

4. Company shall retain Customer's deposit for a period not to exceed 12 months, if Customer has met satisfactory payment and credit criteria.

5. If a deposit is held longer than eighteen (18) months, the deposit will be recalculated at Customer's request and based on Customer's actual usage. If the deposit on account differs from the recalculated amount by more than $10.00, Company may collect any underpayment and shall refund any overpayment by check or credit to Customer's bill. No refund will be made if Customer's bill is delinquent at the time of the recalculation.

6. If Customer fails to maintain a satisfactory payment or credit record, or otherwise becomes a new or greater credit risk, as determined by Company in its sole discretion, Company may require a new or additional deposit from Customer.

GENERAL SERVICE

1. General Service Customers are those Customers served under General Service Rate GS, Sheet No. 10, General Time-of-Day Energy Service Rate GTOD-Energy Sheet No. 11, and General Time-of-Day Demand Service Rate GTOD-Demand Sheet No. 12.

2. The deposit amount for a General Service Customer is $240.00, which is calculated in accordance with 807 KAR5:006, Section 8(1)(d)(2).

3. The criteria Company uses to determine whether to require a deposit from a General Service Customer are below.

a. Company will require a deposit from all new General Service Customers with one exception: Company will waive the deposit for a General Service Customer if the service is for a detached building used in conjunction with a Residential Service and the General Service energy usage is no more than 300 kWh per month.

b. If Customer currently takes any service from Company and requests service for another premise,

Company will require a deposit for the new service if in the last 36 months Customer has had any account(s) not in good standing.

c. If Customer seeks to transfer existing service to another premise:

i. If Company is not currently holding a deposit for Customer for Customer's existing active service, Company will not require a deposit from Customer for the new service at Customer's new premise.

ii. If Company is currently holding a deposit for Customer for Customer's existing service, Company will not require a new or additional deposit from Customer for the new service at Customer's new premise, and Customer's move will not affect the date Company will review the deposit for release thereof. Also, if Customer is making deposit installment payments for service at Customer's current premise, the same installment payments made and interest thereon will transfer to Customer's service at Customer's new premise, and Customer's deposit payment installment plan will also transfer to Customer's service at Customer's new premise.

iii. If Customer moves to a new premise at which Customer will take more services from Company (i.e., both electric and gas service) than Customer currently takes from Company at Customer's existing premise (i.e., electric or gas service only), Company will not require an additional deposit for the additional service.

iv. If Customer moves to a new premise at which Customer will take fewer services from Company (i.e., electric or gas service only) than Customer currently takes from Company at Customer's existing premise (i.e., both electric and gas service), Company will apply to Customer's final bill at Customer's existing premise any existing deposit and accumulated interest in excess of the deposit required for the service Customer will take at Customer's new premise.

d. If Customer's service is disconnected for non-payment and is subsequently reconnected, Company will require a full deposit from Customer to resume service.

e. If Customer is financially responsible for the service of another Customer and the financially responsible Customer is taking over the other Customer's existing service, Company will require the financially responsible Customer to pay a deposit.

4. Company shall retain Customer's deposit as long as Customer remains on service.

5. For a deposit held longer than 18 months, the deposit will be recalculated at Customer's request and based on Customer's actual usage. If the deposit on account differs from the recalculated amount by more than 10%, Company may collect any underpayment and shall refund any overpayment by check or credit to Customer's bill. No refund will be made if Customer's bill is delinquent at the time of the recalculation.

6. If Customer fails to maintain a satisfactory payment or credit record, or otherwise becomes a new or greater credit risk, as determined by Company in its sole discretion, Company may require a new or additional deposit from Customer.

OTHER SERVICE

1. For all other Customers, the deposit shall be 2/12 of Customer's actual or estimated annual bill where bills are rendered monthly in accordance with 807 KAR5:006, Section 8(1)(d)(1).

2. The criteria Company uses to determine whether to require a deposit from such a Customer are below.

a. Company will require a deposit from all new Customers.

b. Company will require a deposit for any new service with a contract demand of at least 250 kW.

c. For a Customer currently taking any service from Company and requesting another service under Rate PS, Company will require a deposit for the new service if in the last 36 months Customer has had any account not in good standing.

d. If Customer seeks to transfer existing service to another premise:

i. If Company is not currently holding a deposit for Customer's existing service, Company will not require a deposit from Customer.

ii. If Company is currently holding a deposit for Customer's existing service, Company will not

require a new or additional deposit from Customer, and Customer's move will not affect the date Company will review the deposit for release. Also, if Customer is making deposit installment payments for service at Customer's current premise, the same installment payments made and interest thereon will transfer to Customer's service at Customer's new premise, and Customer's deposit payment installment plan will also transfer to Customer's service at Customer's new premise.

iii. If Customer moves to a new premise at which Customer will take more services from Company (i.e., both electric and gas service) than Customer currently takes from Company at Customer's existing premise (i.e., electric or gas service only), Company will not require an additional deposit for the additional service.

iv. If Customer moves to a new premise at which Customer will take fewer services from Company (i.e., electric or gas service only) than Customer currently takes from Company at Customer's existing premise (i.e., both electric and gas service), Company will apply to Customer's final bill at Customer's existing premise any existing deposit and accumulated interest in excess of the deposit required for the service Customer will take at Customer's new premise.

e. If Customer's service is disconnected for non-payment and is subsequently reconnected, Company will require a full deposit from Customer to resume service.

f. If Customer is financially responsible for the service of another Customer and the financially responsible Customer is taking over the other Customer's existing service, Company will require the financially responsible Customer to pay a deposit.

3. Company shall retain Customer's deposit as long as Customer remains on service.

4. For a deposit held longer than 18 months, the deposit will be recalculated, at Customer's request, and based on Customer's actual usage. If the deposit on account differs from the recalculated amount by more than 10%, Company may collect any underpayment and shall refund any overpayment by check or credit to Customer's bill. No refund will be made if Customer's bill is delinquent at the time of the recalculation.

5. If Customer fails to maintain a satisfactory payment or credit record, or otherwise becomes a new or greater credit risk, as determined by Company in its sole discretion, Company may require a new or additional deposit from Customer.

New - Terms and Conditions – Pre-Pay Program

AVAILABILITY

Available to all residential customers not on net metering service, RTOD-E, RTOD-D, GS, GTOD-E, or GTOD-D. Customers must:

- Have email and text capability on file with the Company
- Have an AMI meter
- Not possess a past due balance greater than $250
- Not have a medical alert, disconnection moratorium, or special rider and cannot participate in budget billing, flex pay, or auto pay programs

TERMS AND CONDITIONS

1. All customers participating in the Pre-Pay Program will be subject to the applicable rates, rules, and regulations of their associated standard rate schedule.

2. Any customer choosing to enroll in the Pre-Pay Program shall sign a Pre-Pay Program Service Agreement. The Agreement shall remain in effect until the customer notifies the Company of their intention to cancel the Agreement.

3. Customers enrolling in the program will require a minimum starting account balance of $30. The current security deposit on file with the Company qualifies.

4. All non-energy charges (Franchise Fee, HEA, etc.) will be pro-rated daily across a customer's monthly billing cycle.

5. A Pre-Pay Program customer will be disconnected without a disconnection notice if the balance

becomes negative.

6. If disconnected, customers will be required to have an account balance of $30 before they will be reconnected.

7. If a request for disconnection of a Pre-Pay Program account is made, any remaining balance will be transferred to other active accounts, or if not applicable, or refunded.

8. Program participants may not possess a past due balance greater than $250. If a customer has a past due balance, 30% of each payment will be applied towards the past due balance.

9. Program participants will receive an electronic monthly bill by email and text.

10. Customers will receive low-funds notifications at pre-determined triggers. Customers may also add their own triggers as well.

11. Customers may use all existing payment channels to add funds to their account.

12. Customers that choose to leave the prepay program for the standard residential program will need to provide a security deposit as required in the applicable standard rate schedule.

13. Customers that choose to leave the Pre-Pay Program for service under another tariff will not be allowed to return to the program for twelve (12) months.

14. Program participants will not be eligible for Hardship Waivers or Medical Letters.

15. Low-income agencies will be able to provide financial assistance to prepay customers.

16. If the AMI meter stops communicating, LKE will take steps necessary to secure a daily reading such as adding additional equipment. Until the readings are secured, the daily process is suspended as well. However, when the reading is secured, the billing process will resume and be deducted from the credit balance.

Terms and Conditions – Discontinuance of Service

Current

3. When Customer or Applicant refuses or neglects to provide reasonable access and/or easements to and on Customer's or Applicant's premises for the purposes of installation, operation, meter reading, maintenance, or removal of Company's property. Customer shall be given fifteen (15) days written notice (either mailed or otherwise delivered, including, but not limited to, electronic mail), of Company's intention to discontinue or refuse service.

8. For non payment of bills. Company shall have the right to discontinue service for non payment of bills after Customer has been given at least ten days written notice separate from Customer's original bill. Cut off may be effected not less than twenty-seven (27) days after the mailing date of original bills unless, prior to discontinuance, a residential Customer presents to Company a written certificate, signed by a physician, registered nurse, or public health officer, that such discontinuance will aggravate an existing illness or infirmity on the affected premises, in which case discontinuance may be effected not less than thirty (30) days from the original date of discontinuance. Company shall notify Customer, in writing, (either mailed or otherwise delivered, including, but not limited to, electronic mail), of state and federal programs which may be available to aid in payment of bills and the office to contact for such possible assistance.

Proposed

3. When Customer or Applicant refuses or neglects to provide reasonable access or easements to and on Customer's or Applicant's premises for the purposes of installation, operation, meter reading, maintenance, or removal of Company's property. Customer shall be given ten (10) days written notice (either mailed or otherwise delivered, including, but not limited to, electronic mail), of Company's intention to discontinue or refuse service.

8. For non payment of bills. Company shall have the right to discontinue service for non payment of bills after Customer has been given at least ten days written notice separate from Customer's original bill. Cut off may be effected not less than twenty-seven (27) days after the mailing (with "mailing" to include all other reasonable forms of delivering written communications, including without limitation electronic mailing) date of original bills unless, prior to discontinuance, a residential Customer presents

to Company a written certificate, signed by a physician, registered nurse, or public health officer, that such discontinuance will aggravate an existing illness or infirmity on the affected premises, in which case discontinuance may be effected not less than thirty (30) days from the original date of discontinuance. Company shall notify Customer, in writing (either mailed or otherwise delivered, including, but not limited to, electronic mail), of state and federal programs which may be available to aid in payment of bills and the office to contact for such possible assistance.

Terms and Conditions – Line Extension Plan

4b. Normal Line Extensions

Current

Where Non-Residential Customer requires poly-phase distribution service or transformer capacity in excess of 25 kVA and Company provides such facilities, Company shall provide at its own expense the requested line extension, but only to the extent that the cost of the requested extension does not exceed the lesser of (i) the cost of a comparable overhead extension (if an underground extension is requested) or (ii) five (5) times Customer's estimated annual net revenue, where "net revenue" is defined as Customer's total revenue less base fuel, Fuel Adjustment Clause, Off-System Sales, Demand Side Management, franchise fees, and school taxes. Company may require Non-Residential Customer to pay in advance a non-refundable amount for the additional cost above the five (5) times net revenue calculation to Company in providing facilities above that required in NORMAL LINE EXTENSIONS ¶ a. above. Customer must commit to a minimum contract term of five (5) years.

Proposed

Where Non-Residential Customer requires poly-phase distribution service or transformer capacity in excess of 25 kVA and Company provides such facilities, Company shall provide at its own expense the requested line extension, but only to the extent that the cost of the requested extension does not exceed the lesser of (i) the cost of a comparable overhead extension (if an underground extension is requested) or (ii) five (5) times Customer's estimated annual net revenue, where "net revenue" is defined as Customer's total revenue less base fuel, Fuel Adjustment Clause, Off-System Sales, Environmental Cost Recovery Surcharge, Demand Side Management, Retired Asset Recovery, Renewable Power Purchase Agreement Adjustment Clause, franchise fees, and school taxes. Company may require Non-Residential Customer to pay in advance a non-refundable amount for the additional cost above the five (5) times net revenue calculation to Company in providing facilities above that required in NORMAL LINE EXTENSIONS ¶ a. above. Customer must commit to a minimum contract term of five (5) years.

5e. Other Line Extensions

Current

Where Non-Residential Customer requires poly-phase distribution service or transformer capacity in excess of 25 kVA and Company provides such facilities, Company shall provide at its own expense the requested line extension, but only to the extent that the cost of the requested extension does not exceed the lesser of (i) the cost of a comparable overhead extension (if an underground extension is requested) or (ii) five (5) times Customer's estimated annual net revenue, where "net revenue" is defined as Customer's total revenue less base fuel, Fuel Adjustment Clause, Demand Side Management, franchise fees, and school taxes. Company may require Non-Residential Customer to pay in advance a non-refundable amount for the additional cost above the five (5) times net revenue calculation to Company in providing facilities above that required in NORMAL LINE EXTENSIONS ¶ a. above.

Proposed

Where Non-Residential Customer requires poly-phase distribution service or transformer capacity in excess of 25 kVA and Company provides such facilities, Company shall provide at its own expense the requested line extension, but only to the extent that the cost of the requested extension does not exceed the lesser of (i) the cost of a comparable overhead extension (if an underground extension is

requested) or (ii) five (5) times Customer's estimated annual net revenue, where "net revenue" is defined as Customer's total revenue less base fuel, Fuel Adjustment Clause, Off-System Sales, Environmental Cost Recovery Surcharge, Demand Side Management, Retired Asset Recovery, Renewable Power Purchase Agreement Adjustment Clause, franchise fees, and school taxes. Company may require Non-Residential Customer to pay in advance a non-refundable amount for the additional cost above the five (5) times net revenue calculation to Company in providing facilities above that required in NORMAL LINE EXTENSIONS ¶ a. above.

New - Terms and Conditions – Rules for Transmission-Level Retail Electric Service Studies and Related Implementation Costs

REQUESTS TO STUDY TRANSMISSION-LEVEL RETAIL ELECTRIC SERVICE

For the purposes of this section of Company's Terms and Conditions, "transmission-level retail electric service" means any proposed retail electric service requiring Company to submit a Transmission Service Request to Company's Independent Transmission Organization.

Upon request, Company will cause to be studied the requirements and costs to provide transmission-level retail electric service to new or existing facilities according to the terms and conditions set forth herein (such study is the "Service Study"; the service studied is the "Studied Service"). Company will provide the resulting cost estimates to the party requesting the Service Study ("Requester"). Company will process such requests as it deems most likely to result in the orderly and economical processing thereof, not necessarily in the order received.

Requester will reimburse Company for all Service Study-related costs, including without limitation the costs of studies required to be conducted by third parties, including those conducted by Company's Independent Transmission Organization.

RESPONSIBILITY FOR IMPLEMENTATION COSTS

If Requester is not a Customer, Company will require Requester, one or more other responsible parties, or both (collectively "Responsible Parties") to enter into all contracts or other agreements Company deems necessary to ensure recovery of all implementation costs. If Requester is a Customer, Company will require Responsible Parties to enter into all contracts or other agreements Company deems necessary to ensure recovery of all implementation costs in excess of $10 million.

Such contracts or other agreements will include without limitation requirements for Responsible Parties to provide adequate collateral, credit assurance, or other security satisfactory to Company in its sole discretion to ensure recovery of the costs described or contemplated herein.

Terms and Conditions – Net Metering Service Interconnection Guidelines

Current

NET METERING SERVICE INTERCONNECTION GUIDELINES

General – Customer shall operate the generating facility in parallel with Company's system under the following conditions and any other conditions required by Company where unusual circumstances arise not covered herein:

1. Customer to own, operate, and maintain all generating facilities on their premises. Such facilities shall include, but not be limited to, necessary control equipment to synchronize frequency, voltage, etc., between Customer's and Company's system as well as adequate protective equipment

between the two systems. Customer's voltage at the point of interconnection will be the same as Company's system voltage.

2. Customer will be responsible for operating all generating facilities owned by Customer, except as specified hereinafter. Customer will maintain its system in synchronization with Company's system.

3. Customer will be responsible for any damage done to Company's equipment due to failure of Customer's control, safety, or other equipment.

4. Customer agrees to inform Company of any changes it wishes to make to its generating or associated facilities that differ from those initially installed and described to Company in writing and obtain prior approval from Company.

5. Company will have the right to inspect and approve Customer's facilities described herein, and to conduct any tests necessary to determine that such facilities are installed and operating properly; however, Company will have no obligation to inspect, witness tests, or in any manner be responsible for Customer's facilities or operation thereof.

6. Customer assumes all responsibility for the electric service on Customer's premises at and from the point of delivery of electricity from Company and for the wires and equipment used in connection therewith, and will protect and save Company harmless from all claims for injury or damage to persons or property occurring on Customer's premises or at and from the point of delivery of electricity from Company, occasioned by such electricity or said wires and equipment, except where said injury or damage will be shown to have been occasioned solely by the negligence or willful misconduct of Company.

Level 1 – A Level 1 installation is defined as an inverter-based generator certified as meeting the requirements of Underwriters Laboratories Standard 1741 and meeting the following conditions:

1.The aggregated net metering generation on a radial distribution circuit will not exceed 15% of the line section's most recent one hour peak load. A line section is the smallest part of the primary distribution system the generating facility could remain connected to after operation of any sectionalizing devices.

2.The aggregated net metering generation on a shared singled-phase secondary will not exceed 20 kVA or the nameplate rating of the service transformer.

3.A single-phase net metering generator interconnected on the center tap neutral of a 240 volt service shall not create an imbalance between the two sides of the 240 volt service of more than 20% of the nameplate rating of the service transformer.

A net metering generator interconnected to Company's three-phase, three-wire primary distribution lines, shall appear as a phase-to-phase connection to Company's primary distribution line.

5.A net metering generator interconnected to Company's three-phase, four-wire primary distribution lines, shall appear as an effectively grounded source to Company's primary distribution line.

6.A net metering generator will not be connected to an area or spot network.

7.There are no identified violations of the applicable provisions of IEEE 1547, "Standard for Interconnecting Distributed Resources with Electric Power Systems".

8.Company will not be required to construct any facilities on its own system to accommodate the net metering generator.

Customer desiring a Level 1 interconnection shall submit a "LEVEL 1 - Application for Interconnection and Net Metering." Company shall notify Customer within 20 business days as to whether the request is approved or, if denied, the reason(s) for denial. If additional information is required, Company will notify Customer, and the time between notification and submission of the information shall not be counted towards the 20 business days. Approval is contingent upon an initial inspection and witness test at the discretion of Company.

Level 2 – A Level 2 installation is defined as generator that is not inverter-based; that uses equipment not certified as meeting the requirements of Underwriters Laboratories Standard 1741; or that does not

meet one or more of the conditions required of a Level 1 net metering generator. A Level 2 Application will be approved if the generating facility meets Company's technical interconnection requirements. Those requirements are available on line at www.lge-ku.com and upon request.

Customer desiring a Level 2 interconnection shall submit a "LEVEL 2 - Application for Interconnection and Net Metering." Company shall notify Customer within 30 business days as to whether the request is approved or, if denied, the reason(s) for denial. If additional information is required, Company will notify Customer, and the time between notification and submission of the information shall not be counted towards the 30 business days. Approval is contingent upon an initial inspection and witness test at the discretion of Company.

Customer submitting a "Level 2 - Application for Interconnection and Net Metering" will provide a non-refundable inspection and processing fee of $100, and in the event that Company determines an impact study to be necessary, shall be responsible for any reasonable costs of up to $1,000 of documented costs for the initial impact study.

Additional studies requested by Customer shall be at Customer's expense.

CONDITIONS OF INTERCONNECTION

Customer may operate his net metering generator in parallel with Company's system when complying with the following conditions:

1.Customer shall install, operate, and maintain, at Customer's sole cost and expense, any control, protective, or other equipment on Customer's system required by Company's technical interconnection requirements based on IEEE 1547, NEC, accredited testing laboratories, and the manufacturer's suggested practices for safe, efficient and reliable operation of the net metering generating facility in parallel with Company's system. Customer bears full responsibility for the installation, maintenance and safe operation of the net metering generating facility. Upon reasonable request from Company, Customer shall demonstrate compliance.

2.Customer shall represent and warrant compliance of the net metering generator with:

a. any applicable safety and power standards established by IEEE and accredited testing laboratories;

b.NEC, as may be revised from time-to-time;

c. Company's rules and regulations and Terms and Conditions, as may be revised by time-to-time by the Kentucky Public Service Commission;

d.the rules and regulations of the Kentucky Public Service Commission, as may be revised by time-to-time by the Kentucky Public Service Commission:

e. all other local, state, and federal codes and laws, as may be in effect from time-to-time.

3.Any changes or additions to Company's system required to accommodate the net metering generator shall be Customer's financial responsibility and Company shall be reimbursed for such changes or additions prior to construction.

4.Customer shall operate the net metering generator in such a manner as not to cause undue fluctuations in voltage, intermittent load characteristics or otherwise interfere with the operation of Company's electric system. Customer shall so operate the generating facility in such a manner that no adverse impacts will be produced thereby to the service quality rendered by Company to any of its other Customers or to any electric system interconnected with Company's electric system.

5.Customer shall be responsible for protecting, at Customer's sole cost and expense, the net metering generating facility from any condition or disturbance on Company's electric system, including, but not limited to, voltage sags or swells, system faults, outages, loss of a single phase of supply, equipment failures, and lightning or switching surges, except that Company shall be responsible for repair of damage caused to the net metering generator resulting solely from the negligence or willful misconduct on the part of Company.

6.Following the initial testing and inspection of the generating facility and upon reasonable advance notice to Customer, Company shall have access at reasonable times to the generating facility to perform reasonable on-site inspections to verify that the installation, maintenance and operation of the net metering generator comply with the requirements of this rider.
Where required by Company, Customer shall furnish and install on Customer's side of the point of interconnection a safety disconnect switch which shall be capable of fully disconnecting Customer's net metering generator from Company's electric service under the full rated conditions of Customer's net metering generator. The external disconnect switch (EDS) shall be located adjacent to Company's meters or the location of the EDS shall be noted by placing a sticker on the meter, and shall be of the visible break type in a metal enclosure which can be secured by a padlock. If the EDS is not located directly adjacent to the meter, Customer shall be responsible for ensuring the location of the EDS is properly and legibly identified for so long as the net metering generator is operational.

The disconnect switch shall be accessible to Company personnel at all times. Company may waive the requirement for an external disconnect switch for a net metering generator at its sole discretion, and on a case by case basis.
8.Company shall have the right and authority at Company's sole discretion to isolate the generating facility or require Customer to discontinue operation of the net metering generator if Company believes that:
a.continued interconnection and parallel operation of the net metering generator with Company's electric system creates or contributes (or may create or contribute) to a system emergency on either Company's or Customer's electric system;
b.the net metering generator is not in compliance with the requirements of this rider and the non-compliance adversely affects the safety, reliability or power quality of Company's electric system; or
c.the net metering generator interferes with the operation of Company's electric system.
In non-emergency situations, Company shall give Customer notice of noncompliance including a description of the specific noncompliance condition and allow Customer a reasonable time to cure the noncompliance prior to isolating the Generating Facilities. In emergency situations, where Company is unable to immediately isolate or cause Customer to isolate only the net metering generator, Company may isolate Customer's entire facility.
9.Customer agrees that, without the prior written permission from Company, no changes shall be made to the generating facility as initially approved. Increases in net metering generator capacity will require a new "Application for Interconnection and Net Metering" which will be evaluated on the same basis as any other new application. Repair and replacement of existing generating facility components with like components that meet UL 1741 certification requirements for Level 1 facilities and not resulting in increases in net metering generator capacity is allowed without approval.
Customer shall protect, indemnify and hold harmless Company and its directors, officers, employees, agents, representatives and contractors against and from all loss, claims, actions or suits, including costs and attorneys' fees, for or on account of any injury or death of persons or damage to property caused by Customer or Customer's employees, agents, representatives and contractors in tampering with, repairing, maintaining or operating Customer's net metering generator or any related equipment or any facilities owned by Company, except where such injury, death or damage was caused or contributed to by the fault or negligence of Company or its employees, agents, representatives or contractors. The liability of Company to Customer for injury to person and property shall be governed by the tariff(s) for the class of service under which Customer is taking service.
11. Customer shall maintain general liability insurance coverage (through a standard homeowner's, commercial or other policy) for generating facilities. Customer shall upon request provide Company with proof of such insurance at the time that application is made for net metering.
12. By entering into an Interconnection Agreement, or by inspection, if any, or by non-rejection, or by approval, or in any other way, Company does not give any warranty, express or implied, as to the

adequacy, safety, compliance with applicable codes or requirements, or as to any other characteristics, of the generating facility equipment, controls, and protective relays and equipment.

13. Customer's generating facility is transferable to other persons or service locations only after notification to Company has been made and verification that the installation is in compliance with this tariff. Upon written notification that an approved generating facility is being transferred to another person, Customer, or location, Company will verify that the installation is in compliance with this tariff and provide written notification to the Customer(s) within 20 business days. If the installation is no longer in compliance with this tariff, Company will notify Customer in writing and list what must be done to place the facility in compliance.

14. Customer shall retain any and all Renewable Energy Credits (RECs) generated by Customer's generating facilities.

TERMS AND CONDITIONS

Except as provided herein, service will be furnished under Company's Terms and Conditions applicable hereto.

Proposed

GENERAL

Net metering service shall be measured using a single meter or, as determined by Company, additional meters and shall be measured in accordance with standard metering practices by metering equipment capable of registering power flow in both directions for each time period defined by the applicable rate schedule. This net metering equipment shall be provided without any additional cost to Customer. This provision does not relieve Customer's responsibility to pay metering costs embedded in Company's Commission-approved base rates. Additional meters, requested by Customer, will be provided at Customer's expense.

Customer shall operate the generating facility in parallel with Company's system under the following conditions and any other conditions required by Company where unusual circumstances arise not covered herein:

1.Customer to own, operate, and maintain all generating facilities on their premises for the primary purpose of supplying all or part of the customer's own electricity requirements. Such facilities shall include, but not be limited to, necessary control equipment to synchronize frequency, voltage, etc., between Customer's and Company's system as well as adequate protective equipment between the two systems. Customer's voltage at the point of interconnection will be the same as Company's system voltage.

2.Customer will be responsible for ensuring an anti-islanding safety feature is in place as required by applicable codes and standards.

3.Customer will ensure that all generating facilities comply with the Company's Interconnection Requirements for Customer-Sited Distributed Generation. Those requirements are available on line at www.lge-ku.com and upon request.

4.Customer shall allow data communications between the Customer's distributed generation equipment and the Company's control systems or other assets, where required by the Company for planning, coordination, reliability, or power quality purposes.

5.Customer will be responsible for operating all generating facilities owned by Customer, except as specified hereinafter. Customer will maintain its system in synchronization with Company's system.

6. Customer will be responsible for any damage done to Company's equipment due to failure of Customer's control, safety, or other equipment.

7.Customer agrees to inform Company of any changes it wishes to make to its generating or associated facilities that differ from those initially installed and described to Company in writing and obtain prior approval from Company.

8.Company will have the right to inspect and approve Customer's facilities described herein, and to conduct any tests necessary to determine that such facilities are installed and operating properly; however, Company will have no obligation to inspect, witness tests, or in any manner be responsible for Customer's facilities or operation thereof.
9.Customer assumes all responsibility for the electric service on Customer's premises at and from the point of delivery of electricity from Company and for the wires and equipment used in connection therewith, and will protect and save Company harmless from all claims for injury or damage to persons or property occurring on Customer's premises or at and from the point of delivery of electricity from Company, occasioned by such electricity or said wires and equipment, except where said injury or damage will be shown to have been occasioned solely by the negligence or willful misconduct of Company.

Customer recognizes that Company may or may not have adequate facilities to serve customer's total load at the time of any partial or full failure of customer's self-generation. Company will work with the customer to serve their load requirements which may be at additional cost to the customer.

Level 1 – A Level 1 installation is defined as an inverter-based generator certified as meeting the requirements of Institute of Electrical and Electronics Engineers (IEEE) Standard 1547, Underwriters Laboratories Standard 1741, and meeting the following conditions:
1.The aggregated net metering generation on a radial distribution circuit will not exceed 15% of the line section's most recent one hour peak load. A line section is the smallest part of the primary distribution system the generating facility could remain connected to after operation of any sectionalizing devices.
2.The aggregated net metering generation on a shared singled-phase secondary will not exceed 20 kVA or the nameplate rating of the service transformer.
3.A single-phase net metering generator interconnected on the center tap neutral of a 240 volt service shall not create an imbalance between the two sides of the 240 volt service of more than 20% of the nameplate rating of the service transformer.
4.A net metering generator interconnected to Company's three-phase, three-wire primary distribution lines, shall appear as a phase-to-phase connection to Company's primary distribution line.
5.A net metering generator interconnected to Company's three-phase, four-wire primary distribution lines, shall appear as an effectively grounded source to Company's primary distribution line.
6.A net metering generator will not be connected to an area or spot network.
7.There are no identified violations of the applicable provisions of UL 1741 or IEEE 1547, "Standard for Interconnecting Distributed Resources with Electric Power Systems".
8.Company will not be required to construct or upgrade any facilities on its own system to accommodate the net metering generator.

Customer desiring a Level 1 interconnection shall submit a "LEVEL 1 - Application for Interconnection and Net Metering." Company shall notify Customer within 20 business days as to whether the request is approved or, if denied, the reason(s) for denial. If additional information is required, Company will notify Customer, and the time between notification and submission of the information shall not be counted towards the 20 business days. Approval is contingent upon an initial inspection and witness test at the discretion of Company. Following Company approval of an application, any deviations in the installation from the submitted plan must be re-submitted to the Company for approval. This includes, but is not limited to: modifications in generation capacity, equipment selection, installation methods, and installation of additional equipment. Any modification in generation capacity related to existing customers taking service under NMS-1 will cause their service to be transitioned to NMS-2. Customer submitting a "Level 1 - Application for Interconnection and Net Metering" will provide a non-refundable inspection and processing fee of $100, and in the event that Company determines an impact

study to be necessary, shall be responsible for any reasonable costs of up to $1,000 of documented costs for the initial impact study.

Level 2 – A Level 2 installation is defined as generator that does not meet one or more of the conditions required of a Level 1 net metering generator; that is not inverter-based; or that uses equipment not certified as meeting the requirements of IEEE 1547 and UL 1741.

Customer desiring a Level 2 interconnection shall submit a "LEVEL 2 - Application for Interconnection and Net Metering." Company shall notify Customer within 30 business days as to whether the request is approved or, if denied, the reason(s) for denial. If additional information is required, Company will notify Customer, and the time between notification and submission of the information shall not be counted towards the 30 business days. Approval is contingent upon an initial inspection and witness test at the discretion of Company. Following Company approval of an application, any deviations in the installation from the submitted plan must be re-submitted to the Company for approval. This includes, but is not limited to: modifications in generation capacity, equipment selection, installation methods, and installation of additional equipment.

Customer submitting a "Level 2 - Application for Interconnection and Net Metering" will provide a non-refundable inspection and processing fee of $100, and in the event that Company determines an impact study to be necessary, shall be responsible for any reasonable costs of up to $1,000 of documented costs for the initial impact study.

Additional studies requested by Customer shall be at Customer's expense.

CONDITIONS OF INTERCONNECTION

Customer may operate his net metering generator in parallel with Company's system when complying with the following conditions:

1.Customer shall install, operate, and maintain, at Customer's sole cost and expense, any control, protective, or other equipment on Customer's system required by Company's Interconnection Requirements for Customer-Sited Distributed Generation, applicable codes and standards, accredited testing laboratories, and the manufacturer's suggested practices for safe, efficient and reliable operation of the net metering generating facility in parallel with Company's system. Customer bears full responsibility for the design installation, troubleshooting, maintenance and safe operation of the net metering generating facility. The customers acknowledge and agrees that any concerns relating to the generation system's performance, including but not limited to energy output, equipment malfunctions, or compliance with applicable codes and standards, shall be addressed solely by the customer and their installer. The utility shall be held harmless from any claims, damages, or liabilities arising from the operation or failure of the customer's generation system, including any impact on the customer's energy production or financial return on investment. The customer may request a meter calibration test at their expense. Upon reasonable request from Company, Customer shall demonstrate compliance.

2.Customer shall represent and warrant compliance of the net metering generator with:

a.any applicable safety and power standards established by IEEE, UL and accredited testing laboratories;

b.NFPA 70, National Electric Code (NEC), as may be revised from time-to-time;

c. Company's Interconnection Requirements for Customer-Sited Distributed Generation;

d.Company's rules and regulations and Terms and Conditions, as may be revised by time-to-time by the Kentucky Public Service Commission;

e.the rules and regulations of the Kentucky Public Service Commission, as may be revised by time-to-time by the Kentucky Public Service Commission:

f. all other local, state, and federal codes and laws, as may be in effect from time-to-time.

3.Any changes or additions to Company's system required to accommodate the net metering generator shall be Customer's financial responsibility and Company shall be reimbursed for such changes or additions prior to construction.
4.Customer shall operate the net metering generator in such a manner as not to cause undue fluctuations in voltage, intermittent load characteristics or otherwise interfere with the operation of Company's electric system. Customer shall so operate the generating facility in such a manner that no adverse impacts will be produced thereby to the service quality rendered by Company to any of its other Customers or to any electric system interconnected with Company's electric system.
5.Customer shall be responsible for protecting, at Customer's sole cost and expense, the net metering generating facility from any condition or disturbance on Company's electric system, including, but not limited to, voltage sags or swells, system faults, outages, loss of a single phase of supply, equipment failures, and lightning or switching surges, except that Company shall be responsible for repair of damage caused to the net metering generator resulting solely from the negligence or willful misconduct on the part of Company.

Following the initial testing and inspection of the generating facility and upon reasonable advance notice to Customer, Company shall have access at reasonable times to the generating facility to perform reasonable on-site inspections to verify that the installation, maintenance and operation of the net metering generator comply with the requirements of this rider.
7.Where required by Company, Customer shall furnish and install on Customer's side of the point of interconnection a safety disconnect switch which shall be capable of fully disconnecting Customer's net metering generator from Company's electric service under the full rated conditions of Customer's net metering generator. The external disconnect switch (EDS) shall be located adjacent to Company's meters or the location of the EDS shall be noted by placing a sticker on the meter and shall be of the visible break type in a metal enclosure which can be secured by a padlock. If the EDS is not located directly adjacent to the meter, Customer shall be responsible for ensuring the location of the EDS is properly and legibly identified for so long as the net metering generator is operational.

The disconnect switch shall be accessible to Company personnel at all times. Certain installations meeting a list of requirements specified in the Company's Interconnection Requirements for Customer-Sited Distributed Generation may be exempt from the EDS requirement. Company may waive the requirement for an external disconnect switch for a net metering generator at its sole discretion, and on a case by case basis.
8.Company shall have the right and authority at Company's sole discretion to isolate the generating facility or require Customer to discontinue operation of the net metering generator if Company believes that:
a.continued interconnection and parallel operation of the net metering generator with Company's electric system creates or contributes (or may create or contribute) to a system emergency on either Company's or Customer's electric system;
b.the net metering generator is not in compliance with the requirements of this rider and the non-compliance adversely affects the safety, reliability or power quality of Company's electric system; or
c.the net metering generator interferes with the operation of Company's electric system.
In non-emergency situations, Company shall give Customer notice of noncompliance including a description of the specific noncompliance condition and allow Customer a reasonable time to cure the noncompliance prior to isolating the Generating Facilities. In emergency situations, where Company is unable to immediately isolate or cause Customer to isolate only the net metering generator, Company may isolate Customer's entire facility.
9. Customer agrees that, without the prior written permission from Company, no changes shall be made to the generating facility as initially approved. Increases in net metering generator capacity will require a new "Application for Interconnection and Net Metering" which will be evaluated on the same basis as

any other new application. Repair and replacement of existing generating facility components with like components that meet all applicable codes and standards certification requirements, including but not limited to IEEE 1547 and UL 1741, for Level 1 facilities and not resulting in increases in net metering generator capacity is allowed without approval.

10. Customer shall protect, indemnify and hold harmless Company and its directors, officers, employees, agents, representatives and contractors against and from all loss, claims, actions or suits, including costs and attorneys' fees, for or on account of any injury or death of persons or damage to property caused by Customer or Customer's employees, agents, representatives and contractors in tampering with, repairing, maintaining or operating Customer's net metering generator or any related equipment or any facilities owned by Company, except where such injury, death or damage was caused or contributed to by the fault or negligence of Company or its employees, agents, representatives or contractors. The liability of Company to Customer for injury to person and property shall be governed by the tariff(s) for the class of service under which Customer is taking service.

11. Customer shall maintain general liability insurance coverage (through a standard homeowner's, commercial or other policy) for generating facilities. Customer shall upon request provide Company with proof of such insurance at the time that application is made for net metering.

12. By entering into an Interconnection Agreement, or by inspection, if any, or by non-rejection, or by approval, or in any other way, Company does not give any warranty, express or implied, as to the adequacy, safety, compliance with applicable codes or requirements, or as to any other characteristics, of Customer's generating facility equipment, controls, and protective relays and equipment.

13. Customer's generating facility is transferable to other persons or service locations only after notification to Company has been made and verification that the installation is in compliance with this tariff. Upon written notification that an approved generating facility is being transferred to another person, Customer, or location, Company will verify that the installation is in compliance with this tariff and provide written notification to the Customer(s) within 20 business days. If the installation is no longer in compliance with this tariff, Company will notify Customer in writing and list what must be done to place the facility in compliance.

14. Customer shall retain any and all Renewable Energy Certificates (RECs) generated by Customer's generating facilities.

TERMS AND CONDITIONS

Except as provided herein, service will be furnished under Company's Terms and Conditions applicable hereto.

Net Metering Applications moved to Companies' Net Metering website (https://lge-ku.com/residential/net-metering)

Kentucky Utilities Company also proposes to change the text of the following electric tariff rate schedules and provisions: Residential Service Rate RS, Residential Time-of-Day Energy Service Rate RTOD-Energy, Residential Time-of-Day Demand Service Rate RTOD-Demand, Volunteer Fire Department Service Rate VFD, General Service Rate GS, General Time-of-Day Energy Service GTOD-Energy, General Time-of-Day Demand Service GTOD-Demand, All-Electric School Service Rate AES, Power Service Rate PS, Time-of-Day Secondary Service Rate TODS, Time-of-Day Primary Service Rate TODP, Retail Transmission Service Rate RTS, Fluctuating Load Service Rate FLS, Lighting Service Rate LS, Restricted Lighting Service Rate RLS, Lighting Energy Rate LE, Traffic Energy Service Rate TE, Pole and Structure Attachment Charges PSA, Electric Vehicle Supply Equipment Rate EVSE, Electric Vehicle Charging Service EVC, Outdoor Sports Lighting OSL, Special Charges, Curtailable Service Rider-1 CSR-1, Curtailable Service Rider-2 CSR-2, Small Capacity Cogeneration and Small Power Production Qualifying Facilities (SQF), Large Capacity Cogeneration and Large Power Production Qualifying Facilities (LQF), Net Metering Service-1 (NMS-1), Net Metering Service-2 (NMS-2), Excess Facilities (EF), Green Tariff Rider GT, Economic Development Rider EDR, Solar Share Program Rider SSP, Fuel Adjustment Clause FAC, Environmental Cost Recovery Mechanism ECR, Electric Vehicle Supply Equipment Rider EVSE-R, Demand-Side Management Cost Recovery Mechanism DSM, Retired Asset Recovery RAR, and the Terms and Conditions.

KU proposes to add one new electric rate schedule, Extremely High Load Factor Service ("EHLF"), one new electric adjustment clause, Renewable Power Purchase Agreement Adjustment Clause ("RPPA"), one new customer program, Pre-Pay Program, and one new tariff for Terms and Conditions ("Rules for Transmission-Level Retail Electric Studies and Related Implementation Costs.

KU's proposed rates reflect a proposed annual increase in electric revenues of approximately 11.5%.

The estimated amount of the annual change and the average monthly bill to which the proposed electric rates will apply for each electric customer class are as follows:

Electric Rate Class	**Average Usage (kWh)**	**Annual $ Increase**	**Annual % Increase**	**Monthly Bill $ Increase**	**Monthly Bill % Increase**
Residential	1,085	99,997,335	13.55	18.15	13.55
Volunteer Fire Department	1,085	*	13.55	18.15	13.55
Residential Time-of-Day - Energy	1,243	23,438	13.03	18.39	13.02
Residential Time-of-Day - Demand	987	395	14.86	32.40	14.86
General Service	1,657	25,335,181	9.21	24.41	9.22
General Time-of-Day - Energy	No Customers currently are served under this Rate Schedule				
General Time-of-Day - Demand	19,507	2,400	8.22	198.49	8.22
All Electric School	25,620	1,449,553	10.91	314.15	10.91
Power Service	30,651	17,655,788	9.15	349.93	9.15
Time-of-Day Secondary	189,538	17,929,669	10.87	1,846.64	10.87
Time-of-Day Primary	1,242,574	33,834,832	11.15	10,609.74	11.15
Retail Transmission	7,387,224	13,634,683	11.00	54,105.89	11.00
Extremely High Load Factor	New Rate Schedule				

Fluctuating Load Service	44,229,667	2,528,016	6.90	210,667.98	6.90
Outdoor Lights	51	3,624,095	11.37	1.67	11.40
Lighting Energy	2,473	42,734	11.14	21.99	11.14
Traffic Energy	146	26,391	10.58	1.91	10.60
Outdoor Sports Lighting	4,627	(37)	(0.04)	(0.52)	(0.04)
Rider – CSR	N/A	0	0.00	0.00	0.00

* Volunteer Fire Department Annual $ Increase Included in Residential.

A detailed notice of all proposed revisions and a complete copy of the proposed tariffs containing the proposed text changes, terms and conditions and rates may be obtained by submitting a written request by e-mail to myaccount@lge-ku.com or by mail to Kentucky Utilities Company, ATTN: Rates Department, 2701 Eastpoint Parkway, Louisville, Kentucky, 40223, or by visiting KU's website at https://lge-ku.com/ku-2025-rate-case.

A person may examine KU's application at KU's office at One Quality Street, Lexington, Kentucky, 40507, and at KU's website at https://lge-ku.com/ku-2025-rate-case. A person may also examine this application at the Public Service Commission's offices located at 211 Sower Boulevard, Frankfort, Kentucky, Monday through Friday, 8:00 a.m. to 4:30 p.m. or may view and download the application through the Commission's Web site at http://psc.ky.gov.

Comments regarding the application may be submitted to the Public Service Commission by mail to Public Service Commission, Post Office Box 615, Frankfort, Kentucky 40602, or by email to psc.info@ky.gov. All comments should reference Case No. 2025-00113.

The rates contained in this notice are the rates proposed by KU, but the Public Service Commission may order rates to be charged that differ from the proposed rates contained in this notice. A person may submit a timely written request for intervention to the Public Service Commission, Post Office Box 615, Frankfort, Kentucky 40602 establishing the grounds for the request including the status and interest of the party. If the commission does not receive a written request for intervention within thirty (30) days of initial publication or mailing of this notice, the Commission may take final action on the application.
