QUESTION No. 1
Page 1 of 1

Reference: Testimony of Lane Kollen (filed September 9, 2025) at page 93, lines 1-3 and at page 92, lines 15-18. Please explain whether the effect of new generation capacity that will likely provide additional energy for off-system sales and increased OSS margins is exclusive to generation capacity constructed by the Companies or whether a similar effect would be equally likely to occur as a result of new generating capacity constructed, owned, and operated by other entities.

RESPONSE:

If there is a PPA between the Companies and the other entities that own the new generating capacity, there would be a similar effect; otherwise, there would be no similar effect.
