Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-001

REQUEST:

Refer to the Application generally.

a. Provide an organizational chart of Duke Kentucky. Designate what city each position is located in within Kentucky, and whether any position is vacant. If a position is based outside of Kentucky provide the city and state where it is located.

b. Provide an organizational chart of Duke Energy Ohio, Inc. ("Duke Ohio"), which wholly owns Duke Kentucky. Designate what city each position is located in within Ohio, what the allocation factor to Duke Kentucky is for each position, and whether any position is vacant. If a position is based outside of Ohio provide the city and state where it is located. If for any reason the allocation factor is not provided then explain in detail how Duke Ohio's costs are allocated to Duke Kentucky.

c. Provide an organizational chart of Cinergy, which wholly owns Duke Ohio. Designate what city and state each position is located in, what the allocation factor to Duke Kentucky is for each position, and whether any position is vacant. If for any reason the allocation factor is not provided then explain in detail how Cinergy's costs are allocated to Duke Kentucky.

d. Provide an organizational chart of Duke Energy Corporation ("Duke Energy"), which wholly owns Cinergy. Designate what city and state each position is located in, what the allocation factor to Duke Kentucky is for each position, and whether

any position is vacant. If for any reason the allocation factor is not provided then explain in detail how Duke Energy's costs are allocated to Duke Kentucky.

e. Provide an organizational chart of Duke Energy Business Services LLC ("DEBS"), which provides administrative and other services to Duke Kentucky and other affiliated companies. Designate what city and state each position is located in, what the allocation factor to Duke Kentucky is for each position, and whether any position is vacant. If for any reason the allocation factor is not provided then explain in detail how DEBS' costs are allocated to Duke Kentucky.

f. Provide an organizational chart that demonstrates a simplistic demonstration of all the parent companies/holding companies/affiliated companies that are associated with Duke Kentucky.

g. Provide a map of Duke Kentucky's natural gas service area.

h. Provide a map of Duke Energy's natural gas service area.

RESPONSE:

a. Objection. This request is overbroad, unduly burdensome and seeks information that is irrelevant, beyond the scope of this proceeding as it seeks information not related to Duke Energy Kentucky's application, and otherwise not likely to lead to the discovery of any relevant and admissible evidence. Moreover, this request is further objectionable insofar as it seeks information that does not exist in the format requested. Without waiving said objection, and to the extent discoverable, organizational charts are not organized by work location or HR company, but by department. A current report of all employees paid by Duke Energy Kentucky

payroll company is provided as AG-DR-01-001 Attachment 1. The Company is not able to include vacant positions on this report.

b. Objection. This request is overly broad, unduly burdensome and seeks information that is irrelevant, beyond the scope of this proceeding as it seeks information not related to Duke Energy Kentucky's application, and otherwise not likely to lead to the discovery of any relevant and admissible evidence. Moreover, this request is further objectionable insofar as it seeks information that does not exist in the format requested. Without waiving said objection, and to the extent discoverable, Without waiving said objection, and to the extent discoverable, organizational charts are not organized by work location or HR company but by department. A current report of all employees paid by Duke Energy Ohio payroll company is provided as AG-DR-01-001 Attachment 2. The work city for virtual employees is noted as "Virtual Employee." The Company is not able to include vacant positions on this report, nor can we provide the allocation factor to Duke Energy Kentucky for each position as labor allocations are based on the accounting an employee charges each pay period on their timesheet. Please see the Direct Testimony of Rebekah E. Buck for an explanation of the process Duke Ohio employees follow to allocate their time and expenses to Duke Energy Kentucky.

c. Objection. This request is overbroad, unduly burdensome and seeks information that is irrelevant, beyond the scope of this proceeding as it seeks information not related to Duke Energy Kentucky's application, and otherwise not likely to lead to the discovery of any relevant and admissible evidence. Moreover, this request is further objectionable insofar as it seeks information that does not exist in the format

requested. Without waiving said objection, and to the extent discoverable Cinergy does not have employees; therefore, no organizational chart can be provided.

d. Objection. This request is overbroad, unduly burdensome and seeks information that is irrelevant, beyond the scope of this proceeding as it seeks information not related to Duke Energy Kentucky's application, and otherwise not likely to lead to the discovery of any relevant and admissible evidence. Moreover, this request is further objectionable insofar as it seeks information that does not exist in the format requested. Without waiving said objection, and to the extent discoverable, Duke Energy Corporation does not have employees; therefore, no organizational chart can be provided.

e. Objection. This request is overbroad, unduly burdensome and seeks information that is irrelevant, beyond the scope of this proceeding as it seeks information not related to Duke Energy Kentucky's application, and otherwise not likely to lead to the discovery of any relevant and admissible evidence. Moreover, this request is further objectionable insofar as it seeks information that does not exist in the format requested. Without waiving said objection, and to the extent discoverable Organizational charts are not organized by work location or HR company but by department. A current report of all employees paid by Duke Energy Business Services payroll company is provided as AG-DR-01-001 Attachment 3. The work city for virtual employees is noted as "Virtual Employee." We are not able to include vacant positions on this report, nor can we provide the allocation factor to Duke Energy Kentucky for each position as labor allocations are based on the accounting an employee charges each pay period on their timesheet. Please see the

Direct Testimony of Rebekah E. Buck for an explanation of the process DEBS employees follow to allocate their time and expenses to Duke Energy Kentucky.

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-002

REQUEST:

Refer to the Application generally. Provide the following information for Duke Kentucky executive staff employees, as well as all executive staff employees whose costs are allocated to Duke Kentucky, and separate each response by company/utility.

a. Provide the position, title, and salary for each executive staff employee for the years 2020 – 2025.

b. Provide the average raise that the executive staff employees received, or will receive, for the years 2020 – 2025. Ensure to explain whether the annual raise is directly connected to a performance review.

c. Provide the average bonus that each executive staff employee received, or will receive, for the years 2020 - 2025.

d. Provide all awards given to the executive staff employees for the years 2020 – 2025.

e. Provide all vehicle allowances given to the executive staff employees for the years 2020 – 2025.

f. Provide all incentive compensation given to the executive staff employees for the years 2020 – 2025.

g. Provide the average raise, if any, which will be given to executive staff employees for 2026.

h. Provide a detailed explanation of the insurance benefits provided to the Company's executive staff employees, including but not limited to health, dental, vision, life

insurance, etc. Ensure to include all premiums paid by the Company's executive staff employees, premiums paid by the Company or parent company on the executive staff employees' behalf, as well as all copays, deductibles, and maximum out of pocket amounts.

i. Provide a detailed explanation of the retirement benefits provided to the Company's executive staff employees, including but not limited to, whether there is a defined benefit plan, 401(k) matching, etc.

j. Explain whether any of the executive staff employees are members of a union.

RESPONSE:

No executive employees are paid by Duke Energy Kentucky. The Company does not track employee labor costs that are allocated from one company/utility to another. Some employees' labor is part of an allocation pool based on the accounting an employee charges each pay period on their timesheet.

However, for Duke Energy executive salary increases, please see STAFF-DR-01-038 Confidential Attachment 1 included as part of the response to STAFF-DR-01-038. For executive bonus and incentive compensation, see the confidential response to STAFF-DR-01-039.

PERSON RESPONSIBLE: Shannon A. Caldwell

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

CONFIDENTIAL AG-DR-01-003
(As to Attachment 1 only)

REQUEST:

Refer to the Application generally. Provide the following information for Duke Kentucky salaried employees, as well as all salaried employees whose costs are allocated to Duke Kentucky, and separate each response by company/utility.

a. Provide the position, title, and salary for each salaried employee for the years 2020 – 2025.

b. Provide the average raise that the salaried employees received, or will receive, for the years 2020 – 2025. Ensure to explain whether the annual raise is directly connected to a performance review.

c. Provide the average bonus that each salaried employee received, or will receive, for the years 2020 - 2025.

d. Provide all awards given to the salaried employees for the years 2020 – 2025.

e. Provide all vehicle allowances given to the salaried employees for the years 2020 – 2025.

f. Provide all incentive compensation given to the salaried employees for the years 2020 – 2025.

g. Provide the average raise, if any, which will be given to salaried employees for 2026.

h. Provide a detailed explanation of the insurance benefits provided to the Company's salaried employees, including but not limited to health, dental, vision, life insurance, etc. Ensure to include all premiums paid by the Company's salaried employees, premiums paid by the Company or parent company on the salaried employees' behalf, as well as all copays, deductibles, and maximum out of pocket amounts.

i. Provide a detailed explanation of the retirement benefits provided to the Company's salaried employees, including but not limited to, whether there is a defined benefit plan, 401(k) matching, etc.

j. Explain whether any of the salaried employees are members of a union.

RESPONSE:

CONFIDENTIAL PROPRIETARY TRADE SECRET (As to Attachment 1 only)

The responses below for parts (a), (c), (d), (f) and (j) are for employees paid by Duke Energy Kentucky payroll company only. The Company does not track employees whose labor costs are allocated from one company/utility to another. Some employees' labor is part of an allocation pool based on the accounting an employee charges each pay period on their timesheet.

Employee time and associated accounting is tracked in a product called Workforce, that the Company has branded as MyTime. There are several integrations that allow this system to interact with the Finance system and work management applications to validate the accounting entered with employee time. Error messages are received in MyTime if hours worked are entered without accounting.

MyTime allows employees to establish default accounting that is attached to all hours worked unless otherwise allocated by the employee. Default accounting is periodically reviewed for accuracy and is generally applicable for business groups where employee responsibilities remain consistent across the period. MyTime also allows for day-to-day manual entries or daily time imports from work management systems. This is generally applicable for business groups where employee responsibilities vary across the period, for example, hourly employees and employees who report time by project. Exempt (salaried) employees submit their timesheets each pay period, which serves as their attestation that the timesheet is correct. Non-exempt (hourly) employee timesheets are approved by a manager or designee each pay period.

Both default labor accounting or manual labor accounting can result in a direct charge to a single company jurisdiction or an allocation to multiple jurisdictions. The direct testimony of Rebekah E. Buck discusses the service agreements that include how labor costs are allocated from one affiliate to another.

a. Please see AG-DR-01-003(a) Confidential Attachment 1 for the position title and annual salary for each salaried employee paid by Duke Energy Kentucky payroll company (excludes electric operations) as of December of 2020 – June 2025.

b. For non-union employees, market data is reviewed and used to determine annual wage increase recommendations. Employees' individual increases may vary relative to the budget to allow for differences in individual performance rating, performance relative to peers, the position of salary within the salary range, and the size of the merit budget. The average merit received by non-union employees for 2020 – 2025 are reflected in the table on the following page.

Year	Average Merit Received
2020	3.0%
2021	2.0%
2022	3.5%
2023	3.5%
2024	3.0%
2025	4.0%

c. Please see AG-DR-01-003 Attachment 2 for the average bonus paid to Duke Energy Kentucky salaried employees (excludes electric operations) for the time period requested. This amount does not include bonuses paid to employees whose labor costs are allocated to Duke Energy Kentucky.

d. No awards were provided to Duke Energy Kentucky salaried employees.

e. Duke Energy does not provide vehicle allowances.

f. Please see AG-DR-01-003 Attachment 2 for the total short-term incentive (STI) compensation paid to Duke Energy Kentucky salaried employees (excludes electric operations) for the time period requested. This amount includes actual STI paid to employees paid by Duke Energy Kentucky and does not include any STI paid to employees whose labor costs are allocated to Duke Energy Kentucky. No Duke Energy Kentucky employees were paid long-term incentive compensation.

g. Please see Claire C. Hudson's direct testimony beginning on page 8 under "Describe How Operation and Maintenance Expenses are Included in the Forecast", where Ms. Hudson explains that the forecasted test period assumes labor increases for exempt and non-exempt non-union employees of 3.5 percent, which includes merit increases of 3.0 percent and an allowance for promotions of 0.5 percent.

h. Please see Shannon A. Caldwell's direct testimony beginning on page 30 under "Please Describe Duke Energy's Employee Benefit Programs" and "What Portion

of the Health and Insurance Costs of Benefits Do Employees Pay?" beginning on page 33. See STAFF-DR-01-041 for employee and employer premiums for medical, dental, and vision plans. See STAFF-DR-01-043 for employee and employer premiums for life insurance plans. See STAFF-DR-01-042 for the self-insured Summary Plan Descriptions for group medical plans.

i. As described in Shannon A. Caldwell's direct testimony, the Duke Energy 401(k) plan (Retirement Savings Plan, or RSP) is now our standard retirement plan that applies to all union and non-union new hires. Duke Energy has taken significant steps to both control costs and reduce the risk associated with its retirement plans by eliminating the pension benefit for all new hires, including union new hires, and moving all non-union pension eligible employees and the majority of union pension eligible employees to a cash balance design.

Retirement Savings Plan (RSP) – The RSP is a Duke Energy-sponsored 401(k) plan, and all salaried employees are generally eligible to participate. Generally, the company matches 100% of employee pre-tax and Roth contributions up to 6% of eligible pay, subject to IRS limits.

Generally, legacy Duke Energy employees hired or rehired after December 31, 2013, are not eligible for coverage under a pension plan. For these employees, the company provides an employer retirement contribution to the RSP equal to 4% of eligible pay, in addition to any company matching contribution. The employer retirement contribution is subject to a three-year vesting schedule.

Qualified Pension – The plan provides a retirement benefit funded solely by the Company with the funding actuarially determined. Benefits are provided primarily

through a cash balance formula with employees receiving a monthly pay credit equal to 4 - 7% of eligible pay plus 4% of eligible pay that exceeds the Social Security Wage Base, and annual interest credits of 4% of the account balance. Certain employees are covered under a legacy A+B pension formula consisting of a Traditional final average pay benefit plus a cash balance benefit.

Legacy Duke Energy non-union employees hired or rehired after December 31, 2013, are generally not eligible for coverage under a pension plan. The pension plans were closed to the remaining participating union groups between 2014 and 2018. The employees who do not participate in the qualified pension earn retirement benefits in the company's RSP/401(k) plan in the form of a fixed 4% employer contribution to the RSP/401(k).

j. The union employees are not salaried employees.

PERSON RESPONSIBLE: Shannon A. Caldwell

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

CONFIDENTIAL AG-DR-01-004
(As to Attachment 1 only)

REQUEST:

Refer to the Application generally. Provide the following information for Duke Kentucky non-salaried employees, as well as for all non-salaried employees whose costs are allocated to Duke Kentucky, and separate each response by company/utility.

a. Provide the position, title, and wages for each non-salaried employee for the years 2020 – 2025.

b. Provide the average raise that the non-salaried employees received, or will receive, for the years 2020 – 2025. Ensure to explain whether the annual raise is directly connected to a performance review.

c. Provide the average bonus that the non-salaried employees received, or will receive, for the years 2020 – 2025.

d. Provide all awards given to the non-salaried employees for the years 2020 – 2025.

e. Provide all vehicle allowances given to the non-salaried employees for the years 2020 – 2025.

f. Provide all incentive compensation given to the non-salaried employees for the years 2020 – 2025.

g. Provide the average raise, if any, which will be given to non-salaried employees for 2026.

h. Provide a detailed explanation of the insurance benefits provided to the Company's non-salaried employees, including but not limited to health, dental, vision, life insurance, etc. Ensure to include all premiums paid by the Company's non-salaried employees, premiums paid by the Company or parent company on the non-salaried employees' behalf, as well as all copays, deductibles, and maximum out of pocket amounts.

i. Provide a detailed explanation of the retirement benefits provided to the Company's non-salaried employees, including but not limited to, whether there is a defined benefit plan, 401(k) matching, etc.

j. Explain whether any of the non-salaried employees are members of a union.

RESPONSE:

CONFIDENTIAL PROPRIETARY TRADE SECRET (As to Attachment 1 only)

The responses below for parts (a), (c), (d), (f) and (j) are for employees paid by Duke Energy Kentucky payroll company only. The Company does not track employees whose labor costs are allocated from one company/utility to another. Some employees' labor is part of an allocation pool based on the accounting and employee charges each pay period on their timesheet.

Employee time and associated accounting is tracked in a product called Workforce, that the Company has branded as MyTime. There are several integrations that allow this system to interact with the Finance system and work management applications to validate the accounting entered with employee time. Error messages are received in MyTime if hours worked are entered without accounting.

MyTime allows employees to establish default accounting that is attached to all hours worked unless otherwise allocated by the employee. Default accounting is periodically reviewed for accuracy and is generally applicable for business groups where employee responsibilities remain consistent across the period. MyTime also allows for day-to-day manual entries or daily time imports from work management systems. This is generally applicable for business groups where employee responsibilities vary across the period, for example, hourly employees and employees who report time by project.
Exempt (salaried) employees submit their timesheets each pay period, which serves as their attestation that the timesheet is correct. Non-exempt (hourly) employee timesheets are approved by a manager or designee each pay period.

Both default labor accounting or manual labor accounting can result in a direct charge to a single company jurisdiction or an allocation to multiple jurisdictions. The direct testimony of Rebekah E. Buck discusses the service agreements that include how labor costs are allocated from one affiliate to another.

a. See AG-DR-01-004(a) CONF Attachment 1 for the position title and hourly rate for each non-salaried employee paid by Duke Energy Kentucky payroll company (excludes electric operations) as of December 31 of 2020 – June 2025.
b. For non-salaried non-union employees, see the response to AG-DR-01-003(b). For non-salaried union employees, the annual general wage increases are based on the current labor contracts in effect. The most recent labor documents were provided in the testimony of Shannon A. Caldwell as Attachments SAC-2(a) and (b). See STAFF-DR-01-037 for union general wage increases through the end of the current labor contracts.

c. Please see AG-DR-01-004 Attachment 2 for the average bonus paid to Duke Energy Kentucky non-salaried employees (excludes electric operations) for the time period requested. This amount does not include bonuses paid to employees whose labor costs are allocated to Duke Energy Kentucky.

d. Please see AG-DR-01-004 Attachment 2 for the total amount of awards given to Duke Energy Kentucky non-salaried employees (excludes electric operations) for the time period requested. This amount does not include awards paid to employees whose labor costs are allocated to Duke Energy Kentucky.

e. Duke Energy does not provide vehicle allowances.

f. Please see AG-DR-01-004 Attachment 2 for the total short-term incentive (STI) compensation paid to Duke Energy Kentucky non-salaried employees (excludes electric operations) for the time period requested. This amount includes actual STI paid to employees paid by Duke Energy Kentucky and does not include any STI paid to employees whose labor costs are allocated to Duke Energy Kentucky. No Duke Energy Kentucky employees were paid long-term incentive compensation.

g. See the response to part (b) and the response to AG-DR-01-003(g). Also, please see Claire C. Hudson's testimony under "Describe How Operation and Maintenance Expenses are Included in the Forecast" starting on page 8, where Ms. Hudson explains that the forecasted test period assumes union labor cost increases were assumed to be between 2.5 percent and 3.6 percent, depending on the agreements.

h. See the response to AG-DR-01-003(h).

i. See the response to AG-DR-01-003(i).

j. The union employees are non-salaried employees.

Date Received: July 3, 2025

AG-DR-01-007

REQUEST:

Refer to the Application generally. Explain whether there is any corporate jet expense included in the pending revenue requirement, either incurred by Duke Kentucky or allocated to the Company. If so, provide the monetary amount that is included, and indicate whether the amount is incurred directly by Duke Kentucky or allocated to the Company. For each allocated expense, identify the name of the company that is allocating the expense to Duke Kentucky.

RESPONSE:

The revenue requirement includes $54,044 of expenses related to corporate jet and helicopter expenses allocated from Duke Energy Business Services.

PERSON RESPONSIBLE: Jefferson "Jay" P. Brown

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-008

REQUEST:

Refer to the Application generally.

a. In 2017, Duke Kentucky was granted a Certificate of Public Convenience and Necessity ("CPCN") to replace and upgrade its electric and gas metering infrastructure to a digital Advanced Metering Infrastructure ("AMI") for its electric and combination customers, and an Automated Meter Reading ("AMR") Infrastructure for its gas-only customers, known collectively as the AMI Project,[1] which was completed in December 2018.

   i. Provide an overview of the types of meters (e.g., manual read meters, AMR, AMI, etc.), currently being utilized by Duke Kentucky's natural gas customers. Include in the response the approximate percentage of each type of meter that Duke Kentucky currently has in its natural gas system.

   ii. Provide the projected remaining lives of the AMI meters that were installed by Duke Kentucky beginning in 2017.

   iii. Explain whether any cost savings associated with the AMI project have been included in the pending case. If so, identify the cost savings along with a description of each. If not, explain in detail why not.

[1] Case No. 2016-00152, *Application of Duke Energy Kentucky, Inc. for (1) A Certificate of Public Convenience and Necessity Authorizing the Construction of an Advanced Metering Infrastructure; 2) Request for Accounting Treatment, and; 3) All Other Necessary Waivers, Approvals, and Relief* (Ky. PSC May 25, 2017).

RESPONSE:

a.

i. 78.3% - AMI

20.9% - AMR

0.8% - manual read.

ii. The composite remaining life, as proposed in the current Duke Energy Kentucky Gas Depreciation Study, of the gas AMI meters is 13.1 years.

iii. In its AMI CPCN Case No. 2016-00152, the Company provided semi-annual reports of actual costs incurred for the AMI deployment as compared to the projected cost benefit analysis. Actual deployment costs were lower than anticipated due to discounted material costs, lower labor costs and lower overhead costs. The reports also provided various non-financial metrics of benefits achieved during deployment such as the number of meters installed, number of meter reading routes, and meter failure rates. The last report in that case was filed on July 23, 2020, as the AMI deployment was completed in December 2018. The Company no longer tracks benefits related to the AMI deployment.

Cost savings associated with the AMI project included in this pending case are based on actual savings that have been achieved in the reduction of actual expenses. These actual savings from reduced meter reading expenses were also included in Case No. 2021-00190.

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-009

REQUEST:

Refer to the Application, page 2, paragraph 2, in which Duke Kentucky states that it provides natural gas service to the Kentucky counties of Boone, Bracken, Campbell, Gallatin, Grant, Kenton, and Pendleton counties.

a. Based upon the most recent United States Census information, the poverty rates for Duke Kentucky's natural gas service area are as follows:

Boone County – 7.4%

Bracken County – 14.3%

Campbell County – 10.3%

Gallatin County – 13.1%

Grant County – 13.0%,

Kenton County – 10.6%, and

Pendleton County – 13.2%.[2]

Confirm that Duke Kentucky is aware of the above poverty rate percentages of its natural gas customers who live in the aforementioned counties.

RESPONSE:

Objection. This request is unreasonable, overbroad, and irrelevant. Moreover, this request is further objectionable insofar as it is harassing in nature as it seeks the Company to verify

[2] https://www.census.gov/quickfacts/fact/table/kentoncountykentucky,grantcountykentucky,gallatincountykentucky,campbellcountykentucky,brackencountykentucky,boonecountykentucky/IPE120223; https://www.census.gov/quickfacts/fact/table/pendletoncountykentucky/PST045224.

its awareness of data that the Company does not maintain, create, and has no control over its maintenance or knowledge as to its truthfulness. Without waiving said objection, and in the spirit of discovery, Duke Energy Kentucky is aware the United States Census Bureau maintains data including, but not limited to, poverty levels by county and confirms the Attorney General has accurately recited the July 1, 2024 estimated data as contained in the hyperlink footnote cited by the Attorney General in its question.

REQUEST:

Refer to the Application, page 5, paragraph 10. Duke Kentucky states that it is proposing clarifying language changes to several tariffs and service regulations, including but not limited to, its natural gas "soft close" process for seasonal shut-offs, charges for over- and under- deliveries on Operational Flow Order days, recognition of Rate IT in the Curtailment Plan for Management of Available Gas supplies. Explain all of the proposed language changes to each of the items previously listed.

RESPONSE:

- For seasonal soft close information, see STAFF-DR-02-005.
- For changes to charges stemming from non-compliance with Operational Flow Orders, see STAFF-DR-02-006.
- For Curtailment Plan for Management of Available Gas Supplies, see the Direct Testimony of Bruce L. Sailers on page 15 lines 4 through 11. Also, for additional information, see STAFF-DR-02-002 and STAFF-DR-02-003.

PERSON RESPONSIBLE: Bruce L. Sailers

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-014

REQUEST:

Refer to the Application, page 5, paragraph 11. Duke Kentucky asserts that the primary reason for the requested rate increase, terms, conditions, and tariffs, is that the Company's earned rate of return on rate base obtained from its current natural gas operations is 4.46%, which makes it extremely difficult for the Company to continue providing safe, reasonable, adequate, and reliable service to its customers and is insufficient to afford Duke Kentucky a reasonable opportunity to earn a fair return on its investment property that is used to provide such service while attracting necessary capital at reasonable rates.

a. Confirm that Duke Kentucky was provided a rate increase for natural gas service of $9,170,880 on December 28, 2021, in Case No. 2021-00190.[3] If not confirmed, explain in detail why not.

b. Confirm that Duke Kentucky was provided a rate increase for natural gas service of $7,364,073 on March 27, 2019, in Case No. 2018-00261.[4] If not confirmed, explain in detail why not.

c. Confirm that the pending rate increase will represent the third natural gas rate increase on Duke Kentucky's customers in the past approximately six years. If not confirmed, explain why not.

---

[3] Case No. 2021-00190, *Electronic Application of Duke Energy Kentucky, Inc. for 1) An Adjustment of the Natural Gas Rates; 2) Approval of New Tariff; and 3) All Other Required Approvals, Waivers, and Relief* (Ky. PSC Dec. 28, 2021), Order at 16.

[4] Case No. 2018-0000261, *Electronic Application of Duke Energy Kentucky, Inc. for Authority to 1) Adjust Natural Gas Rates; 2) Approval of a Decoupling Mechanism 3) Approval of New Tariffs 4) and for All Other Required Approvals, Waivers, and Relief* (Ky. PSC Mar. 27, 2019), Order at 9.

d. For Duke Kentucky's electric and natural gas combined customers, confirm that the pending natural gas rate increase will represent the seventh rate increase in the past approximately seven years on Duke Kentucky's combination customers (four electric rate increases and three natural gas rate increases, including the pending rate increase requests).[5] If not confirmed, explain why not.

RESPONSE:

Objection. This request seeks information that is publicly available and accessible to the Attorney General and thus is interpreted as intending to harass. Without waiving said objection, and to the extent discoverable:

a. Confirmed.

b. Confirmed.

c. Confirmed.

d. Confirmed.

PSC Apr. 13, 2018) (In the April 13, 2018 Final Order, Duke Kentucky was granted an $8,428,645 increase, which was increased by an additional $388,626 in the October 2, 2018 Rehearing Order.)

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-015

REQUEST:

Refer to the Application, page 14, paragraph 32. Duke Kentucky asserts that it will use the rate of return approved by the Commission in the pending case to calculate the return on rate base associated with capital pipeline replacement projects in future Pipeline Modernization Mechanism ("Rider PMM") filings.

a. Confirm that the Commission has a long-standing policy of reducing the allowed return on equity ("ROE") on capital tracker investments such as the Rider PMM. If not confirmed, explain in detail why not.

b. Confirm that the Commission provided a lower ROE to Duke Kentucky's Earnings Sharing Mechanism ("ESM") in Case No. 2022-00372, and stated that, "[t]he Commission continues to view capital riders, such as the ESM, as providing lower risk to the utility due to the automatic cost recovery and true-up components in the ESM and Duke Kentucky's gas pipeline replacement program. As such, the Commission finds that a 10-basis point reduction in the ROE component of the ESM from 9.75 percent to 9.65 percent is fair, just, and reasonable."[6] If not confirmed, explain in detail why not.

[6] Case No. 2022-00372, *Electronic Application of Duke Energy Kentucky, Inc. for 91) An Adjustment of Electric Rates; 92) Approval of new Tariffs; (3) Approval of Accounting Practices to Establish Regulatory Assets and Liabilities; and (4) All Other Required Approvals and Relief* (Ky. PSC Oct. 12, 2023), Order at 41 – 42.

RESPONSE:

a. Objection. This request is vague, ambiguous, seeks a legal opinion and otherwise requests information that is publicly available and accessible to the Attorney General. The Commission's Orders speak for themselves. As such, the Company interprets this request as intending to harass. Without waiving said objection, and to the extent discoverable, the Company can confirm that Rider PMM received a lower ROE than what was approved for base rates in Case No. 2021-00190. The Company is not aware of when or if the Commission has implemented a long-standing policy related to capital riders.

b. Confirmed.

PERSON RESPONSIBLE: As to objection, Legal
As to response, Jefferson "Jay" P. Brown

REQUEST:

Refer to the Spiller Testimony, page 5, in which Ms. Spiller asserts that Duke Kentucky's headquarters are located in Cincinnati, Ohio. Explain whether Duke Kentucky has any utility office in Kentucky open for a customer to pay bills, obtain customer service, etc. If not, explain all ways that Duke Kentucky provides customers to pay bills, obtain customer service, etc.

RESPONSE:

Refer to the Direct Testimony of Amy B. Spiller, pages 5 and 12-15, for details on the Company's Kentucky natural gas operations, office locations, and customer billing and payment options. The Direct Testimony of Lindsay Philemon, pages 15-17, outlines payment center choices, including new free pay stations at Kroger stores in Duke Energy Kentucky's service area.

PERSON RESPONSIBLE: Lindsay B. Philemon

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-018

REQUEST:

Refer to the Spiller Testimony, page 13, and the Direct Testimony of Lindsay B. Philemon ("Philemon Testimony"), pages 11 – 12.

a. Explain whether Duke Kentucky's customers voluntarily contribute to or are required to contribute through customer rates to the following: Share the Light (formerly WinterCare), the Home Energy Assistance ("HEA"), the Neighborhood Energy Saver Program ("NES"), the Payment Plus Program, the Weatherization Program, and the People Working Cooperatively ("PWC").

b. Provide the monetary amount that customers are required to contribute each month/year to Share the Light, HEA, NES, the Payment Plus Program, the Weatherization Program, and the PWC, if any.

c. Provide the monetary amount that Duke Kentucky's shareholders contribute each month/year to Share the Light, HEA, NES, the Payment Plus Program, the Weatherization Program, and the PWC, if any.

d. Provide the account balances for Share the Light, HEA, NES, the Payment Plus Program, the Weatherization Program, and the PWC, for each month of 2024 and 2025.

RESPONSE:

a. Duke Energy Kentucky customers can voluntarily contribute to the Company's Share the Light Fund. The HEA Program is available to eligible customers and is

funded through a Commission-approved monthly charge on all Kentucky residential customer bills. The NES, Payment Plus, and Weatherization Programs are also regulated programs available to eligible customers and the costs to operate these programs are recovered through Rider Demand Side Management (Rider DSMR).

Please note, People Working Cooperatively is a nonprofit organization the Company partners with to administer its Weatherization program.

b. Duke Energy Kentucky customers are not required to contribute to the Share the Light Fund. A Home Energy Assistance Program (HEA) charge of $0.30 is applied monthly to residential customer bills as stated in the Commission-approved Demand Side Management Rate, Sheet No. 62. A $0.002481 per kilowatt-hour charge funds the NES, Payment Plus, and Weatherization Programs for residential electric customers, and a $0.001249 per hundred cubic feet charge funds the Payment Plus and Weatherization Programs for residential natural gas customers.

c. The Company's shareholders contribute $50,000 annually to the Duke Energy Kentucky Share the Light Fund, as well as $50,000 annually to the Duke Energy Kentucky HEA program. Refer to the response to AG-DR-01-018 part (b) above, as to how the costs to operate the NES, Payment Plus, and Weatherization Programs are recovered.

d. The account balances for the Duke Energy Kentucky combined electric and natural gas Share the Light Fund for each month in 2024 and 2025 are detailed below:

Year	Month	Balance
2024	January	$13,861.82
2024	February	$3,674.08
2024	March	$2,427.24

2024	April	$3,414.71
2024	May	$3,281.48
2024	June	$4,507.84
2024	July	$7,703.62
2024	August	$11,111.84
2024	September	$3,047.69
2024	October	$3,772.96
2024	November	$5,005.49
2024	December	$9,349.35
2025	January	$32,188.89
2025	February	$23,989.25
2025	March	$4,142.24
2025	April	*
2025	May	*
2025	June	*
*information not yet available.		

The account balances for the Duke Energy Kentucky combined electric and natural gas Home Energy Assistance program for each month in 2024 and 2025 are detailed below:

Year	**Month**	**Balance**
2024	January	$381,699.28
2024	February	$338,199.03
2024	March	$258,986.77
2024	April	$241,990.60
2024	May	$313,586.27
2024	June	$389,091.58
2024	July	$353,229.88
2024	August	$336,946.08
2024	September	$325,233.08
2024	October	$424,147.18
2024	November	$500,290.68

2024	December	$576,471.38
2025	January	$545,917.03
2025	February	$441,846.85
2025	March	$312,858.12
2025	April	$221,669.27
2025	May	$229,259.75
2025	June	$305,876.35

PERSON RESPONSIBLE: Lindsay B. Philemon

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-019

REQUEST:

Refer to the Spiller Testimony, pages 15 – 16.

a. Ms. Spiller states that Duke Kentucky conducts Customer Experience Monitor surveys, and initially scored +5.3 in February 2018 and improved the score to +47 in December 2024. Provide the scoring range, and what each score indicates, for the Duke Kentucky's Customer Experience Monitor survey.

b. Provide a copy of the J.D. Power Customer Satisfaction Study for 2024 and 2025, if Duke Energy and/or Duke Kentucky's natural gas service is part of the study.

RESPONSE:

a. Scores range from a minimum of -100 to a maximum of +100 (a 200-point range).

- The CX Monitor questionnaire's overall sentiment score is measured on a '0-10' scale.
  - Customers providing a score of '9' or '10' are considered 'Promoters'
  - Customers providing a score of '7' or '8' are considered 'Passives'
  - Customers providing a score of '0-6' are considered 'Detractors'
- The overall sentiment score is a 'Net Score,' calculated by subtracting the share of 'Detractors' from the share of 'Promoters.'
  - Scores below zero indicate more Detractors than Promoters – or poor customer sentiment

- Scores above zero indicate more Promoters than Detractors – or good to strong customer sentiment

- Duke Energy Kentucky's December 2024 score of +47 was calculated using this methodology, given that 60% of respondents were 'Promoters' and 13% were 'Detractors'. (i.e., 60 MINUS 13 = +47).

b. J.D. Power published a press release summarizing the results of their proprietary 2024 Gas Utility Residential Customer Satisfaction Study in December 2024. Please refer to AG-DR-01-019 Attachment for a copy of these results, noting that the press release contains a high-level summary of findings, survey mechanics, and final ranking results.

PERSON RESPONSIBLE: Lindsay B. Philemon

J.D. POWER

Press Release

Gas Utility Residential Satisfaction Lowest since 2015, J.D. Power Finds

Billing and Payment and Customer Care Decline the Most in Satisfaction

TROY, Mich.: 4 Dec. 2024 — Gas utility customer satisfaction with billing and payment and customer care significantly drop, according to the J.D. Power 2024 Gas Utility Residential Customer Satisfaction Study,℠ released today. Declines on these factors contributed to a significant decline in the industry's overall satisfaction score, down 11 points to 729 (on a 1,000-point scale), the lowest score since 2015. Specifically, satisfaction with billing and payments drops to 773, down 22 points from 2023 and satisfaction with customer care drops to 774, a reduction of 26 points from 2023.

"Satisfaction with billing and payment and customer care have been on steady declines for a few years, even as more customers use digital channels," said **Chris Oberle, managing director of utilities intelligence at J.D. Power**. "As we continue to dive further into a digital world, gas utility companies need to be innovative with their digital channels to ensure they meet or exceed the expectations of customers, especially their websites and mobile apps as these yield the highest satisfaction when used."

Study Rankings

The following utilities rank highest in residential customer satisfaction in their respective segment:

- East Large Segment: **PSE&G**
- East Midsize Segment: **Elizabethtown Gas** (for a 10th consecutive year)
- Midwest Large Segment: **MidAmerican Energy** (for a second consecutive year)
- Midwest Midsize Segment: **Atmos Energy** (for a third consecutive year)
- South Large Segment: **Piedmont Natural Gas** (for a third consecutive year)
- South Midsize Segment: **Columbia Gas of Virginia**
- West Large Segment: **Southwest Gas** (for a fifth consecutive year)
- West Midsize Segment: **Intermountain Gas Company** (for a second consecutive year)

The 2024 Gas Utility Residential Customer Satisfaction Study is based on responses from 63,363 online interviews conducted from January through October 2024 among residential customers of the 86 largest gas utility brands across the United States, which represent more than 125,000 residential customers.

For more information about the Gas Utility Residential Customer Satisfaction Study, visit https://www.jdpower.com/business/resource/us-gas-utility-residential-customer-satisfaction-study.

See the online press release at http://www.jdpower.com/pr-id/2024160.

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-020

REQUEST:

Refer to the Spiller Testimony, pages 17 – 18. Ms. Spiller states that Duke Kentucky additionally uses Fastrack to measure customer satisfaction with recent interactions with the Company.

a. Provide the detractors' suggestions on how to improve start/transfer natural gas service.

b. Provide the detractors' suggestions on how to improve gas trouble/leaks.

RESPONSE:

Duke Energy Kentucky's Fastrack scores indicate that, overall, customer satisfaction with these experiences is relatively high, with a minimal volume of detractors. Feedback from detractors for these experiences is therefore limited but includes the following:

a. Start/Transfer Natural Gas Service

- One customer would have preferred notification from the service technician once on site to connect the natural gas service.
- One customer had difficulty providing evidence of a valid social security number which resulted in a delay in connecting his/her service.

b. Gas Trouble/Leaks

- One customer would have preferred specific details of what was found or not found by the technician investigating a suspected natural gas leak.

- Some customers would have preferred a technician arrive on site to investigate a suspected natural gas leak in an expedited timeframe.

PERSON RESPONSIBLE: Lindsay B. Philemon

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-021

REQUEST:

Refer to the Spiller Testimony, page 18.

a. Provide a breakdown of the $153 million investment in additional natural gas infrastructure by project that Duke Kentucky has made since the last rate case, and provide start and end dates for each project.

b. Explain in detail whether a CPCN was obtained for any of the aforementioned $153 million investment projects. If so, provide the correlating case number(s). If not, explain why not.

RESPONSE:

a. Please see AG-DR-01-021 Attachment for plant additions, excluding unitization and ARO from March 2021, the month following the last actual month in Case No. 2021-00190 base period, through February 2025, last actual month in Case No. 2025-00125.

b. Objection. This request seeks information that is publicly available for inspection on the Commission's docket and thus is easily accessible to the Attorney General. As such, this request is asking the Company to engage in unnecessary busy work and is thus intended to harass. Without waiving said objection, and to the extent discoverable, the Company is not obligated to file CPCNs for projects that are ordinary extensions of the existing system in the usual course of business. Since the Company's last natural gas rate case, the Company has sought CPCN approval of

the first four phases of its AM07 pipeline replacement project through CPCN Case Nos.: 2022-00084, 2023-00210, 2024-00189, and 2025-00057.

PERSON RESPONSIBLE: As to objections, Legal
As to response, Sharif S. Mitchell – a.
Sarah E. Lawler – b.

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-022

REQUEST:

Refer to the Spiller Testimony, page 19. Ms. Spiller asserts that the AM07 natural gas pipeline is the primary artery that transports natural gas from upstream suppliers to Duke Kentucky's natural gas system, and that the existing pipeline extends approximately sixteen miles to the Ohio River. Ms. Spillers further asserts that Duke Kentucky received approval in the last rate case to implement the Rider PMM to recover the costs of replacing the AM07 through several phases. These costs are not included in rate base but recovered through the Rider PMM separately.

a. Identify what year Duke Kentucky began replacing the AM07 pipeline and what year it is estimated to be completed.
b. Provide the total monetary amount that has been spent on the AM07 pipeline project for each year since the beginning to the present date.
c. Provide the estimated total monetary amount for the entire AM07 pipeline project from the beginning to the end.
d. Provide the estimated total monetary amount that Duke Kentucky advised the Commission the AM07 pipeline project would cost in the last rate case. Provide a citation to where the information can be found in the prior rate case.

RESPONSE:

a. Initial design work and engineering for the first phase of the AM07 project began in 2021 with the first sections of AM07 replacement occurring in 2023. The final

sections are scheduled for replacement in 2027.

b. 2021 - $0.9M, 2022 - $4.8M, 2023 - $47.2M, 2024 - $54.8M, 2025 YTD - $33.8M.

c. Total project estimate - $212.9M.

d. Objection. This request is harassing in nature and requires the Company to engage in unnecessary busy work insofar as it seeks information that is both publicly available, previously provided to the Kentucky Attorney General, and is equally accessible to the Attorney General. Without waving said objection and to the extent discoverable, as the Attorney General is aware, the Company's Application in Case No. 2021-00190 proposed a different mechanism than Rider PMM, one that would allow for governmentally mandated replacements, including those to comply with PHMSA directives. The AM07 project was one example. As explained in the Company's direct testimony, no AM07 capital costs were included in the 2021-00190 test year because the replacements were scheduled to go into service after the forecasted test year. As part of the Settlement of Case No. 2021-00190, the parties agreed, and the Commission approved that the rider would be renamed to the PMM and that the AM07 would be included in the rider. The Company included the estimated costs of the AM07 phased replacements in STAFF-DR-02-011(b) Attachment, available at: https://psc.ky.gov/Case/ViewCaseFilings/2021-00190

PERSON RESPONSIBLE: As to objection, Legal
As to response, Adam Long

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-023

REQUEST:

Refer to the Direct Testimony of Rebekah E. Buck ("Buck Testimony"), page 3. Ms. Buck asserts that, "[c]harges can originate either on Duke Energy Kentucky's books for its own operations or can originate from its parent company, Duke Energy Ohio, and/or other affiliate companies pursuant to several Commission-approved affiliate service agreements."

a. Provide a list of all entities that direct charge or allocate costs to Duke Kentucky, and include the total amount of costs that are direct charged and/or allocated to the Company in the test year.

b. Identify the job title(s) of those who are responsible to review the allocated costs to Duke Kentucky, and whether any allocated costs have been rejected for any reason in the past five years. Provide specific examples of all rejected allocated costs in the past five years.

c. Identify all of the non-utility companies that are affiliates of Duke Kentucky.

d. Identify all of the non-utility companies that are affiliates of and provide services to Duke Kentucky.

RESPONSE:

a. The entities that charge or allocate costs to Duke Energy Kentucky and the associated costs in the test year are as follows:

Duke Energy Ohio	1,279,135
Duke Energy Business Services	12,577,356
Duke Energy Carolinas	1,929,961
Duke Energy Florida	9,149
Duke Energy Indiana	60,363
Duke Energy Progress	42,360
Piedmont Natural Gas	2,588,304
Grand Total	$ 18,486,628

Duke Energy Business Services (DEBS) falls under the Service Company to Utility service agreement. The other entities fall under the Operating Company (utility to utility) service agreement.

b. Please see the Direct Testimony of Rebekah E. Buck, page 17, where the allocated cost process is described. Also, per the Duke Energy Kentucky Cost Allocation Manual (CAM), page 32, filed in this case, the approval for cost allocation ratios is described. On a periodic basis, but no less than annually, DEBS conducts a cost study, applying the applicable data to the allocation ratios as described in Appendix A to the DEBS Service Agreement. From these cost studies, DEBS updates the allocation percentages of each allocable operating unit (OU) to reflect the current underlying foundation of the allocation ratios. For example, annually, the OU based on the number of employees, which is primarily utilized by the human resources function within DEBS, is updated to reflect the number of employees of each of DEBS' affiliate companies. Given the volume of charges, no one individual can review all the allocated costs. Areas for the respective functions of the business

review their budget costs and the monthly review process exists to identify anomalies. While the business functions have asked questions about allocated costs, no allocated costs have ever been rejected.

c. Please see Appendix N of the Duke Energy Kentucky CAM filed in this proceeding.

d. Please see STAFF-DR-01-010 Attachment.

PERSON RESPONSIBLE: Rebekah E. Buck

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-024

REQUEST:

Refer to the Direct Testimony of Shannon A. Caldwell ("Caldwell Testimony"), page 4. Ms. Caldwell states that Duke Energy has 276,213 employees, and Duke Kentucky has 140 employees, comprising of 9 exempt employees and 131 non-exempt employees. Further, Ms. Caldwell states that DEBS has 6,719 employees, comprised of 5,134 exempt employees and 1,585 non-exempt employees. Explain all the differences and similarities between the exempt and non-exempt employee designations, and designate whether only non-exempt employees are union members.

RESPONSE:

In the Direct Testimony filed by Ms. Caldwell for this case (Case No. 2025-00125), the Company states that Duke Energy has a total of 26,258 employees.

In response to the question, exempt, or salaried employees, are generally administrative, executive, professional, or computer-related employees such as executive leadership, department directors and managers, engineers, cyber security analysts, and accountants. Non-exempt, or hourly employees, are eligible for overtime pay under the Fair Labor Standards Act (FLSA) and include employees such as mechanics, gas operators, meter readers, and call center associates. All union employees are non-exempt employees.

PERSON RESPONSIBLE: Shannon A. Caldwell

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-025

REQUEST:

Refer to the Caldwell Testimony generally.

a. Provide a copy of all formal wage and benefit studies conducted by or on behalf of Duke Kentucky.

b. Provide copies of all formal wage and benefit studies conducted by or on behalf of Duke Kentucky that compare wage and benefit information to the local wage and benefit information for the geographic area in which Duke Kentucky operates, and not only to other utilities, per prior Commission precedent.[7] If not conducted, explain why not.

RESPONSE:

a. While Duke Energy does not conduct actual surveys or studies, we participate in and utilize a variety of salary and benefit surveys and ad hoc analyses conducted by third parties on an annual basis. Please refer to the Direct Testimony of Shannon A. Caldwell as Attachment SAC-1 contains a list of surveys utilized in 2024. The documents are voluminous in nature and are considered to be proprietary by the vendor and subject to licensing agreements. As a result, to the extent permitted by these vendors, the Company will make available for the Attorney General's review,

[7] Case No. 2020-00160, *Electronic Application of Water Service Corporation of Kentucky for a General Adjustment in Existing Rates* (Ky. PSC Dec. 8, 2020) Order at 10.

any of the surveys at a time that is convenient to the Attorney General at the Company's Frankfort office.

b. The Company does not possess studies specific to the compensation and benefits of Kentucky employees. See STAFF-DR-01-046 for information about Duke Energy's compensation and benefits benchmarking strategy.

PERSON RESPONSIBLE: Shannon A. Caldwell

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-026

REQUEST:

Refer to the Caldwell Testimony, pages 8 – 12.

a. Confirm that Ms. Caldwell is aware of the extensive precedent, in which the Commission has, "consistently disallowed recovery of the cost of employee incentive compensation plans that are tied to financial measures because such plans benefit shareholders while ratepayers receive little benefit."[8]

b. Provide the monetary amount that is associated with both short-term incentive compensation (including the Union Employee Incentive Plan ("UEIP"), and long-term incentive compensation tied to financial measures that Duke Kentucky included in the revenue requirement, if any.

RESPONSE:

a. Even though the Company does not agree, based on prior precedent and as noted in the Direct Testimony of Shannon A. Caldwell under "What Incentive Pay Expense Does Duke Energy Kentucky Propose to Recover in this Proceeding" beginning on page 25, Duke Energy Kentucky has removed incentive pay expense tied to financial measures from the revenue requirement.

[8] Case No. 2018-00358, *Electronic Application of Kentucky-American Water Company for an Adjustment of Rates* (Ky. PSC June 27, 2019), Order at 43; Case No. 2023-00191, *Electronic Application of Kentucky-American Water Company for an Adjustment of Rates, a Certificate of Public Convenience and Necessity for Installation of Advanced Metering Infrastructure, Approval of Regulatory and Accounting Treatments, and Tariff Revisions* (Ky. PSC May 3, 2024), Order at 17.

PUBLIC AG-DR-01-027
(As to Subpart (j) only)

REQUEST:

Refer to the Caldwell Testimony generally.

a. Confirm that according to the most recent data from the Bureau of Labor Statistics, the average share of premiums paid by the employer for single coverage in private industry is 80%.[9]

b. Provide the average percentage share of premiums paid by Duke Kentucky for single coverage employee health insurance. In the response, ensure to provide a breakdown of the contribution percentage share rates for different sets of employees (i.e. union versus nonunion, exempt versus nonexempt, and the like).

c. Confirm that according to the most recent data from the Bureau of Labor Statistics, the average share of premiums paid by the employer for family coverage in private industry is 68%.[10]

d. Provide the average percentage share of premiums paid by Duke Kentucky for family coverage employee health insurance. In the response, ensure to provide a breakdown of the contribution percentage share rates for different sets of employees (i.e. union versus nonunion, exempt versus nonexempt, and the like).

e. Explain whether Duke Kentucky made any adjustments to Health Benefits Expense based on health insurance benefit contributions in excess of the Bureau of Labor

[9] https://www.bls.gov/news.release/ebs2.t03.htm, Table 3.
[10] https://www.bls.gov/news.release/ebs2.t04.htm, Table 4.

Statistics' average for single and family coverage. If not, explain why not and update the adjusted test year expense based on the most recent report available. Provide all supporting calculations and documents.

f. Explain in detail whether Duke Kentucky provides health savings account contributions for its employees, and if so, provide the monetary amount regarding the same. Ensure to discuss the specific details as to whether employees are also required to contribute to the health savings accounts.

g. Provide the contribution amounts to dental insurance costs that are paid by Duke Kentucky and the employees.

h. Provide the contribution amounts to vision insurance costs that are paid by Duke Kentucky and the employees.

i. Provide the contribution amounts to term life insurance that are paid by Duke Kentucky and the employees.

j. Provide the contribution amounts to disability insurance that are paid by Duke Kentucky and the employees.

k. Provide the contribution amounts to insurance costs that are paid by Duke Kentucky and the retirees.

RESPONSE:

CONFIDENTIAL PROPRIETARY TRADE SECRET

a. Objection. This request is unreasonable, overbroad, and irrelevant. Moreover, this request is further objectionable insofar as it is harassing in nature as it seeks the Company to verify its awareness of data that the Company does not maintain, create, and has no control over its maintenance or knowledge as to its truthfulness.

Without waiving said objection, and in the spirit of discovery, Duke Energy does not use Bureau of Labor Statistics (BLS) data as a benchmark for benefit plans. As discussed on page 32 of Shannon A. Caldwell's testimony under "How Does Duke Energy Determine that the Employee Benefit Programs that it Offers are Reasonable and Necessary," Duke Energy benchmarks its programs against other large employers from both the utility industry and general industry so that it is positioned to attract and retain qualified employees needed to support customers. Duke Energy leverages its consultants, vendor partners, and nationally recognized surveys to evaluate the competitiveness of its benefits and costs. Examples of surveys include Willis Towers Watson's Financial Benchmarks Survey, Best Practices in Health Care Survey, Emerging Trends in Healthcare Survey, and Benefits Data Source.

b. The average percentage share of premiums paid by Duke Energy Kentucky for single coverage employee health insurance for all employees is 74%.

c. Please see response to part (a) above.

d. The average percentage share of premiums paid by Duke Energy Kentucky for family coverage employee health insurance for all employees is 70%.

e. Please see response to part (a) above. Duke Energy Kentucky did not make any adjustments to Health Benefits Expense based on health insurance benefit contributions in excess of the BLS average for single and family coverage. Duke Energy does not use BLS data as a benchmark for our benefit plans; please refer to the response in part a above.

Additionally, the most recent BLS data that this question references was reported in March 2024, while our responses to parts b and d reflect 2025 data. Duke Energy Kentucky's 2024 data would be a more appropriate comparison to the BLS data referenced. Duke Energy Kentucky's average percentage share of premiums paid for single coverage and family coverage was 72% and 68% respectively, which is less than or equal to the 2024 BLS data for single and family coverage in private industry, respectively.

f. To encourage enrollment to the HDHP medical options, Duke Energy provides a "seed" contribution in January of each year for employees electing individual or family coverage. The seed contribution is $850 per year for individual coverage and $1,700 per year for family coverage for most employees. Employees can also make payroll contributions to their HSA, but do not have to elect to make a payroll contribution to receive the seed contribution.

g. See response to STAFF-DR-01-041.

h. See response to STAFF-DR-01-041.

i. See response to STAFF-DR-01-043.

j. See confidential table below for Long-Term Disability rates:

[redacted]

k. For active employees, see response to STAFF-DR-01-041. For retirees, see confidential response to STAFF-DR-01-044.

PERSON RESPONSIBLE: As to objections, Legal

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-028

REQUEST:

Refer to the Application generally.

a. Provide the union labor and non-union labor cost increases that were assumed and included in the pending case.

b. Provide a discussion as to the status of any negotiations of the union labor agreements as well as the union labor cost increases. Consider this an ongoing request.

c. Provide a copy of the most updated union labor contract.

d. Explain whether Duke Kentucky awards the same cost increase to non-union employees that the union employees receive. If not, explain how Duke Kentucky negotiates with the union versus non-union employees on wage/benefit increases.

e. Explain what employees are eligible to join a union at Duke Kentucky.

RESPONSE:

a. For the test period January 2026-December 2026, an increase of 3.5% was assumed for all labor (union and non union).

b. Currently, there are no union negotiations taking place between Duke Energy Kentucky and the Utility Workers Union of America Local 600 or USW Local 12049 & 5541-06. The most recent labor documents were provided in the Direct Testimony of Shannon A. Caldwell. Attachment SAC-2(a) is the labor document currently in effect between Duke Energy Kentucky and the Utility Workers Union

of America Local 600 effective April 1, 2023, through March 31, 2027. Attachment SAC-2(b) is the labor document currently in effect between Duke Energy Kentucky and USW Local 12049 & 5541-06 effective May 15, 2021, through May 14, 2026. See confidential response to STAFF-DR-01-037 for union annual wage increases.

c. The most recent labor agreements were provided in the Direct Testimony of Shannon A. Caldwell. Attachment SAC-2(a) is the labor document currently in effect between Duke Energy Kentucky and the Utility Workers Union of America Local 600 effective April 1, 2023, through March 31, 2027. Attachment SAC-2(b) is the labor document currently in effect between Duke Energy Kentucky and USW Local 12049 & 5541-06 effective May 15, 2021, through May 14, 2026.

d. No, the same annual wage increase is not awarded to non-union and union employees. For non-union employees, market data is reviewed and used to determine annual wage increase recommendations. Employees' individual increases may vary relative to the budget to allow for differences in individual performance rating, performance relative to peers, the position of salary within the salary range, and the size of the merit budget.

For union employees, annual wage increases are just one component of union negotiations. These are negotiated in the larger context of work-related topics, such as benefits, work rules and overtime. These general increases are expressed as percentages of current base pay rates and are consistent with market trends. Duke Energy bases its positions in these negotiations on survey projections for market increases and also utilize survey market data to ensure pay is competitive to the market.

e. Employees who hold positions represented by a specific union labor agreement are eligible to join the applicable union.

PERSON RESPONSIBLE: Shannon A. Caldwell
Claire C. Hudson

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-029

REQUEST:

Refer to the Direct Testimony of Thomas Heath, Jr. ("Heath Testimony"), pages 5 – 6. Mr. Heath states that the Company is proposing a capital structure of 52.649% equity and 47.351% debt in the pending case. However, equity capital is a more expensive form of capital than debt capital. Thus, explain why Duke Kentucky is proposing a higher percentage of equity than debt if the equity portion represents a higher cost to the customers.

RESPONSE:

The proposed capital structure represents the average of the 13-month forecast period. The Company manages to a balanced capital structure over the long-run and targets an overall capital structure that supports the current credit rating, while minimizing its overall cost of capital. Duke Energy Kentucky's current senior unsecured credit rating of Baa1/BBB+ provides access to the capital markets on reasonable terms and keeps debt financing costs low which provides a benefit to customer rates. A lower equity percentage reduces cash flow, negatively impacting the company's credit metrics that are needed to maintain the current credit profile of the utility.

PERSON RESPONSIBLE: Thomas J. Heath, Jr.

Duke Energy Kentucky
Case No. 2025-00125
AG's First Request for Information
Date Received: July 3, 2025

AG-DR-01-030

REQUEST:

Refer to the Heath Testimony, page 15. Mr. Heath states that the credit rating agencies believe that Duke Kentucky's reliance on coal-fired generation is a constraint and causes it to be poorly positioned for the carbon transition, and considers this a credit challenge.

a. Explain whether Duke Kentucky is aware of KRS 41.470 – 41.480,[11] regarding divestment of holdings in financial companies participating in energy company boycotts.

b. Explain whether Duke Kentucky knows whether the credit rating agencies cited by Mr. Heath are aware of KRS 41.470 – 41.480, regarding divestment of holdings in financial companies participating in energy company boycotts.

RESPONSE:

a. Objection. Irrelevant. Without waiving said objection, and to the extent discoverable, yes, Duke Energy Kentucky is aware of KRS 41.470 – 41.480. This statue applies to the Commonwealth of Kentucky and not Duke Energy Kentucky. KRS 41.480 says that no government entity can enter into a contract with a company unless it verifies that the company does not engage in energy company boycotts.

b. Objection. Calls for speculation. Without waiving said objection, and to the extent discoverable, Duke Energy Kentucky does not know if the rating agencies are

[11] https://apps.legislature.ky.gov/law/statutes/chapter.aspx?id=37222.

aware of KRS 41.470 – 41.480. That said, credit rating agencies consider the regulatory and legislative environment for the states in which utilities operate as part of their rating methodology framework, which includes evaluating legislation impacting the utility. For example, a utility operating in a stable, reliable and highly predictable regulatory environment typically receives a higher score for this sub-factor than a utility operating in a less developed regulatory environment or one characterized by a high level of political intervention.

PERSON RESPONSIBLE: As to objections, Legal

REQUEST:

Refer to the Application generally.

a. Provide a copy of Duke Kentucky's Natural Gas Vegetation Management Program.

b. Explain whether any Duke Kentucky employees work on vegetation management, or if it is handled exclusively by contractors.

c. Explain whether Duke Kentucky issues request for proposals ("RFPs") in order to obtain the most cost-effective contract price for vegetation management. If not, explain why not.

d. Provide the names of all contract firms that Duke Kentucky works with on its vegetation management.

e. Identify the vegetation management cycle that Duke Kentucky has for its natural gas operations. For example, is it on a five-year vegetation management cycle, etc.

f. Provide the number of miles that Duke Kentucky has actually completed vegetation management upon for the natural gas operations for the years 2020 – 2025.

g. Provide the monetary amount associated with the vegetation management plan for Duke Kentucky's natural gas operations for each of the years 2020 – 2025.

RESPONSE:

a. Please see AG-DR-01-031 Attachment.

b. Duke Energy Kentucky right of way maintenance/vegetation management is exclusively handled by contractors.

c. Duke Energy Kentucky utilizes a request for proposal (RFP) process to select the contractor to perform right of way maintenance/vegetation management.

d. Smith Excavating LLC.

e. Right of ways are mowed annually.

f. Approximately 200 miles of Duke Energy Kentucky right of way are mowed annually.

g. The average costs per year between 2020-2025 to perform Duke Energy Kentucky right of way mowing is $180K/year.

1. Purpose

To comply with Federal and State regulations, the Duke Energy Natural Gas Business Unit (NGBU) has established this procedure to facilitate regulatory compliance and support safe, reliable operations.

This procedure implements an enterprise-wide transmission and distribution pipeline right-of-way (ROW) maintenance as needed that effectively integrates and facilitates:

- DOT compliance efforts
- Damage prevention
- Ongoing system integrity maintenance, safety, and reliability.

---

2. Governing Code and References

- 49 CFR 192.705 Transmission lines: Patrolling
- 49 CFR 192.706 Transmission lines: Leakage surveys
- 49 CFR 192.707 Line markers for mains and transmission lines
- 49 CFR 192.709 Transmission lines: Record keeping
- 49 CFR 192.721 Distribution systems: Patrolling
- 49 CFR 192.723 Distribution systems: Leakage surveys and procedures
- FOC-ST-2030 *Clearing, Grading, Site Preparation and Cleanup*
- FOM-PR-1000 *Leak Management Procedure*
- FOM-PR-1070 *Leak Survey and Atmospheric Corrosion Inspection*

---

3. State Specific Requirements

- N/A

---

4. Environmental Information

Refer to Environmental Health and Safety Handbook or contact your Region's Environmental Field Support

---

5. Who

Land Services is responsible for determining locations of easements and ROW for pipelines facilities and is also responsible for determining if encroachments have occurred in NGBU easements and if actions to have structures or vegetation removed are appropriate.

Gas Operations and **Technical Field Operations (TFO)** perform the following vegetation maintenance duties within the NGBU:

- Gas Operations is responsible for patrolling and maintaining the Transmission and Distribution Right of Ways.
- Resource Center Management personnel may assist the Manager of Fabrication with scheduling of Distribution vegetation maintenance activities.
- TFO is responsible for scheduling and providing vegetation maintenance at all Measurement and Regulation Facilities.

---

6. Task Summary

Pipeline ROW maintenance activities involve:

- Scheduling routes
- Obtaining access to pipeline ROW
- Evaluating condition of existing pipeline markers
    - Make note of any that are unreadable, damaged or missing.
    - Replace markers as necessary.
- Reporting indications of leakage
- Reporting encroachments, washouts, etc.
- Evaluating vegetation growth and canopy conditions to ensure:
    - Sight line maintenance
    - Aerial visibility (NC/SC/TN)
    - Effective surveillance
- Other factors affecting safe operation of pipeline
- Reporting and documentation

Use methods such as tree removal, mowing, and weeding to manage vegetation along pipeline ROW.

---

7. Safety Requirements

At Duke Energy, Health and Safety is a Core Company Value. Employees are responsible for maintaining the highest regard for safety while planning and conducting work. Employees are also responsible for ensuring a safe work environment exists for themselves, their coworkers and their surrounding community.

Pre-job briefings shall be done prior to beginning any work.

Icon Key:

NOTE: *This icon raises awareness to important non-safety related information.*

This icon references Duke Energy's "Keys to Life" safety information to note significant or life-threatening hazards and related precautions to be taken. A link to the Keys to Life Gas Operations document is provided here*. Additional links may exist in the document.*

CAUTION: *This icon identifies possible safety hazards and/or serves as a reminder to take necessary precautions.*

---

8. Tools, Materials, and Equipment

- Mechanical mowers
- Shears
- Power trimmers
- All-terrain vehicles (ATV)

---

9. Procedures/Process

9.1. Effectiveness

9.1.1. To ensure the procedure's effectiveness, the NGBU will perform and/or manage the following tasks:

- ROW vegetation maintenance
- Assess, review, and address ROW reclamation as needed.
- Maintain facility access roads, company owned gates and entrances.
- Install pipeline warning signs or markers within line of sight distances.
- Patrol transmission and distribution pipelines via:
  - Walking
  - Driving
  - Aerial surveillance (NC/SC/TN)

- Review, monitor, and/or remediate encroachment activity as required.
- Survey, document, and repair leaks in accordance with:
    - FOM-PR-1000 Leak Management Procedure
    - FOM-PR-1070 Leak Survey and Atmospheric Corrosion Inspection

9.1.2. When off-road terrain is unknown (i.e., not previously disturbed area/land), obstructed (i.e., heavy vegetation coverage restricts visibility of the underlying surface), or the soil condition is potentially unstable, a terrain hazard assessment (refer to **Appendix I**) shall be conducted by the contractor or employee performing the task.

9.1.2.1. Contractors shall submit and review Terrain Hazard Assessments with their NGBU contact/sponsor for review and acceptance.

9.2. Requirements

9.2.1. Determine frequency of patrols by:

- Size of line
- Operating pressures
- Class location
- High Consequence Area (HCA)
- Terrain
- Weather
- Other relevant factors that could potentially impact safety and system operations.

9.2.2. Assess, document and schedule tree and brush removal located near pipelines to protect pipeline and appurtenances from root damage and/or damage from falling trees.

9.2.3. Such conditions may be discovered during:

- Patrols
- Aerial surveillance (NC/SC/TN)
- Facility locates
- Leakage surveys
- Facility inspections
- Surveying
- New construction installations
- Normal operations

9.2.4. Report all abnormal operating conditions (AOCs) such as:

- Foreign unauthorized encroachments
- Soil erosion
- Exposed pipelines
- Flooding
- Evidence of fire
- Vegetation overgrowth

- Heavy canopy
- Leaks
- Damaged or deteriorated pipeline coating
- Atmospheric corrosion
- Dents or gouges in pipeline
- Security risks
- Insufficient or obscured pipeline identification markers

9.3. Vegetation Management Restrictions

9.3.1. Use only EPA approved herbicides that are non-residual (Roundup™) or aquatic blends immediately adjacent to watercourses.

- Do not contaminate water when cleaning equipment or disposing of equipment wash-waters.
- Environmental Protection Agency (EPA) laws and local state rules governing pesticide applications shall apply.

9.3.2. Ensure proper amounts of herbicides are used. Refer to product label for instructions.

9.3.3. Obtain proper permits per local and state jurisdictions to apply herbicides. Refer to **Appendix G** for further requirements on when permits are required.

9.3.4. Document amount of herbicide used when significant areas are sprayed. Refer to **Appendix G** for further requirements on when documentation is required.

9.3.5. Ensure vegetation management programs conform to any restrictions set forth in land or easement agreements.

9.3.6. For NC/SC/TN: restrict vegetation management programs to ROW easements or fee simple purchases unless landowner signs consent form. Refer to **Appendix E**.

9.3.7. Limit vehicular travel on ROW during planting and harvesting seasons or when ground is excessively wet.

9.3.8. Use of EPA-approved Restricted Use Pesticides (RUPs) is RESERVED AND REQUIRES EH&S APPROVAL AT THIS TIME.

9.4. Requirements for Maintaining Pipeline ROW

9.4.1. Prior to conducting maintenance activity assess easement information.

9.4.2. Techniques for controlling unwanted vegetation are (in order of preference):

- Hand-weeding
- Mechanical mowing, trimming or removal
- Annual or semi-annual application of approved herbicides in accordance with stipulations on use.

9.4.3. Generally, mowing and weed removal should be performed each calendar year across ROW width including:

- Ditch banks

- Fences
- Wetlands (as conditions allow)
- Road crossings
- Railroad crossings
- Aboveground appurtenances

9.4.4. Do not bury vegetation debris in ROW

NOTE: *Mowing and weed removal may need to be performed for certain vegetation types more than once a year to allow accessibility for patrols, leak surveys, etc. as deemed necessary.*

9.4.5. Take care to protect crops in agricultural areas, and schedule activities in dormant or non-planted months.

9.4.6. Properly locate pipeline while mowing and side trimming.

9.4.7. Inspect ROW for potential aboveground hazards such as:

- Regulator stations
