

Payment Terms

Unless other payment terms are arranged, final payment for the proposal is due at the beginning of the training visit. Ampstun Corporation also requires a twenty-five percent down payment and one of the following with the acceptance of this proposal - a valid purchase order, or a letter of intent stating the proposal has been accepted and payment will be made in full when the system is installed.

On-Site Training and Support

It is advised to have your computer-networking expert(s) available as needed during the first day of the Ampstun Corporation Representative's initial on-site training; which helps to ensure that any issues related to computers, networking, modem, or printing problems can be resolved quickly and efficiently. If for any reason this cannot be accommodated, it may have a negative impact on the amount of training time that is actually available to your staff during the time allotted for the on site visit.

The on-site training-conversion visit is designed to address three equally important tasks, 1) training, 2) data refinement and, 3) account balancing. In most cases these functions are carried out simultaneously throughout the on-site visit. There will always be the need for both data refinement and account balancing activities during the on-site visit.

A preliminary, tentative, planning only date for the on-site visit will be established at the time that the proposal is prepared. When there is data conversion included in the proposal the final confirmed date for the on-site visit will not be established until after the customer has signed for the acceptance of the first data conversion.

The total number of on-site days for this service is indicated in the On-Site Training and Support Services pricing section of this proposal. If additional days of conversion support and training might be desirable, these additional days can be added to the proposal before acceptance. Additional support days can also be requested during the software conversion visit. These days are charged at a rate of \$875.00 per day plus travel time and travel expenses. Lodging, meals and transportation costs for installation and training services are included in the proposal. The on-site time quoted in this proposal is our best estimate of what will be required and should not be considered a guarantee.

In some cases the travel expense dollars included in the proposal includes an amount for airplane tickets. To get a lower fare, and to save you money, we usually purchase the ticket well in advance of the planned trip. If it becomes necessary to change the dates of travel you agree to pay the additional charges associated with the change of tickets and plans.
