| District                         |                              |  |
|                                  |                              |  |
|                                  |                              |  |
|                                  |                              |  |
| 1.b. A copy of the supplier's no | tice of the changed rate sho | wing the effective date of the increase    |
| is attached as Exhibit D         |                              |  |
|                                  |                              |  |
| 2. Twelve-month period upon      | which the purchased water a  | adjustment is based. (This twelve-         |
| month period must end within 9   |                              |  |
| May 2024                         |                              | April 2025                                 |
| From                             | through                      |  |
| (month and year)                 |                              | (month and year)                           |
| 3. Statement of water purcha     | ses. Where water is nurc     | hased from more than one supplier,         |
| 1                                | Putt                         | and the supplier,                          |

purchases from each supplier must be shown separately. If water is purchased through a declining block rate schedule, purchases for each month must be shown. Attach an additional

sheet if necessary.

| Supplier(s)   | Gallons Purchased during 12 month period |  |  |
|---|--|--|--|
| City Of Falmouth  | 107,070,688                              |  |  |
| Bracken Co. Water District  | 1,020,390                                |  |  |
|   |  |  |  |
| TOTAL PURCHASES   | 108,091,078                              |  |  |
| 4. Total gallons sold for the 12 month period   | 95,031,972                               |  |  |
| 5. Increased water cost   | \$71,737.00                              |  |  |
| The increased water cost is the cost difference between purchases at base (current rate) and purchases at new rate. The calculation and all supporting documents used to determine the change in purchased water costs sufficient to determine the accuracy of the calculation is attached as Exhibit A |  |  |  |
|   |  |  |  |
| 6. Purchased water adjustment factor  | 0.76                                     |  |  |
| The purchased water adjustment factor is obtained by dividing the increased cost of water by the total gallons sold.  |  |  |  |
| Note: The purchased water adjustment factor is added to each thousand gallons sold. If the minimum usage is 2,000 gallons then the purchased water adjustment factor would be added to the minimum bill twice.  |  |  |  |
| 7. A schedule listing the current and proposed rates is attached as Exhibit B   |  |  |  |
| 7. 11 senedule listing the current and proposed rates is attached as Exhibit B  |  |  |  |
| 8. A copy of the resolution or other document of the utility's governing body authorizing the proposed rates is attached as Exhibit C   |  |  |  |
| 9. Proposed effective date  | JUNE 13 <sup>TH</sup> 2025               |  |  |
