The Project will be on approximately 402 acres of private land. Our solar projects not only provide clean energy, but also support economic development, adding value to the communities we support. This could be through capital investments, new tax revenues, and active partnerships with local schools.

We would love to see you at our meeting as it will serve as a great opportunity to learn about the project and ask any questions you may have. During this meeting, you will have the opportunity to talk with our team who are working on this project.

If you can't attend but would still like to learn about the project, please send questions to Ben Stockdale at stockdale@birchcreekdev.com or call him at 828-817-4876. We look forward to meeting you on April 2nd at the public meeting, if we haven't already!
