Case No. 2025-00313

1. Refer to the Informal Conference presentation material (PDF): "Semi-Annual Update – 2nd Meeting – October 14, 2026." Refer to slide 9 of the presentation, "Pipeline Remains Strong." For the "Data Center" column, separately state (in a manner consistent with the presentation for the "Customer Expansions" and "New Economic Development" columns) the number of TSRs and corresponding total MW or GW associated with the "Prospect" classification and the number of TSRs and corresponding total MW or GW associated with the "Imminent" classification.

2. Refer to slide 11 of the presentation, "Economic Development & Data Center Updates." The slide comments upon the Governor's August 6, 2026 executive order [Executive Order 2026-494].

a. Does the classification of Data Center projects described on slide 9 incorporate the requirements of Executive Order 2026-494? If yes, how? If no, why not?

b. Using the scoring or ranking criteria for Data Center projects in place before August 6, 2026 and the scoring and ranking criteria in place on and after August 6, 2026, indicate, by number of projects and total MW or GW (by classification), the differences between the Prospect and Imminent status scores or ranks for the TSRs before and after Executive Order 2026-494.

c. For the six (6) Data Center projects identified as having reimbursement agreements, state the number of projects that have submitted an energy plan to the Energy and Environment Cabinet (as described by I.A. of Executive Order 2026-494).

d. In the scoring and ranking criteria in use since August 6, 2026, can a project be classified as “Imminent” prior to or in the absence of the submission of an energy plan to the Energy and Environment Cabinet? If yes, explain why.
