RE: Case No. 2025-00347
Northeast Woodford County Water District
Response to the Staff Comments Contained
in the March 9, 2026 Staff Report

Dear Ms. Bridwell:

Northeast Woodford County Water District (Northeast Woodford District) submits the following responses to the Commission Staff comments contained in the Staff Report dated March 9, 2026:

1. Northeast Woodford District confirms that the customers that receive service through its one-Inch meters are currently being billed at the same rates as the 3/4-Inch x 5/8-Inch meters. Northeast Woodford District requests that the Commission expand the rate block for its 3/4-Inch x 5/8-Inch to include the 1-Inch meters.

2. Several of the meters classified as providing service to horse farms are providing residential service. Northeast Woodford District does not see any benefit in establishing a separate classification for its horse farm customers. Therefore, it requests that the Commission not amend its rate design to separately classify the horse farms customers as commercial.

If the Commission needs any additional information from Northeast Woodford District to expedite implementation of the new rates, please contact our office.

John Davis
Chairman
