

CITY OF LIVINGSTON / LIVINGSTON MUNICIPAL WATER WORKS  
BEFORE THE PUBLIC SERVICE COMMISSION

In the matter of:

CASE NO. 2025-00364

ELECTRONIC APPLICATION OF THE CITY OF  
LIVINGSTON AND KENTUCKY-AMERICAN  
WATER COMPANY FOR THE TRANSFER OF  
CONTROL AND ASSETS

I, Samantha Smoker – City Clerk, attest that all information in this document is true to the best of my knowledge. Each answer is numbered in correspondence with the appropriate question in the original request for information.

Reference:

Pg. 1	Acknowledgment
Pg. 2 – 6	Response
Pg. 7 – 15	Exhibits

*Samantha Smoker.* City Clerk

December 08, 2025

1. A list of violations for the year 2025 will be attached to this document. The City of Livingston has resolved many of the violations and will be submitting an updated Corrective Action Plan is due by January 1, 2026. A copy of this document will be submitted upon completion.
2. The City of Livingston is requesting that by Friday, December 12<sup>th</sup>, 2025 to submit all communications between Kentucky-American Water Company and the EEC or DOW regarding the Joint Application in this matter be submitted to comply with 807 KAR 5:001, Section 4(10). This request is being made on the basis of limited resources and dated technology available to the representative compiling responses.`
3. The City of Livingston has not filed any other agency regarding the proposed merger, aside from the Kentucky Public Service Commission.
4. A proposed sale of the water system is in the best interest of the public because it strengthens long-term sustainability, improves operational capacity, and ensures more responsible use of public funds. By transferring ownership to an entity with greater resources and technical capacity, the system will be better positioned to maintain reliable service, safeguard water quality, and invest in modern, resilient technologies that support the community's future needs.

The sale also directly benefits staffing needs. The purchasing utility is equipped with a larger, more specialized workforce that can deliver broader

expertise and more consistent operational support. This ensures that maintenance, customer service, and emergency response functions are handled by a well-resourced team with access to advanced training and technology, ultimately reducing service disruptions and improving day-to-day performance.

Financially, the sale allows public funds to be used more efficiently and responsibly. Rather than continuing to invest solely in costly infrastructure upgrades and regulatory compliance, the community can rely on the purchasing utility's greater financial capacity and long-term capital planning. The proceeds from the sale can be redirected toward other public priorities, while customers benefit from a system supported by stronger fiscal stability and reduced financial strain on local budgets.

Overall, the sale positions the community for a more sustainable, efficient, and financially secure future—while ensuring reliable access to safe, high-quality water for generations to come.

5. The current condition of Livingston Municipal Water Works is operable, yet overall poor. The lines have not been replaced since 1990-1992. On Mt. Holly Road and Highway 25 main line has undergone significant repairs within the last year. In 2024, approximately seven of the system's valves were replaced due to system failure. Currently, the altitude valve is inoperable on the water tank, and the system would benefit from new meters.

A. In 2024, water loss was 19% for the entire year. For January to August of 2025, the water loss is currently 39%. Yearly reports for 2024 and 2025 are attached.

B. Over the past twelve months, there has been a degradation of service and reliability. In May of 2024, the City of Livingston lost water for multiple days to the entire population of LMWW for several days. This was due to a system valve failure. At the same time, the most recent water operator resigned. There was another incident where the main water line busted, causing a loss of water, but I do not recall the date. In the fall of 2025, the residents of the City of Livingston lost water due to multiple line breaks. Overall, the age of the system and lack of a certified operator have caused severe deficiencies in the operation of Livingston Municipal Water Works.

6. It is unknown to me how many customer deposits Livingston Municipal Water Works currently holds, if any. The majority of accounts do not have a record of a deposit. However, should the deposits prior to 2023 be owed, the Commission will vote on whether that should be returned to customers or transferred to Kentucky American Water prior to the closing of the sale of the system.

7. Livingston Municipal Water Works currently has debt owed to the following:

- USDA - \$66,130 (01/23/1992 - \$280,000)
- Woods Creek Water District - \$39,029.75 (ongoing)
- Woods Creek Water District - \$19,232.05 (06/07/2024)

8. The lead service line inventory was completed with customers who would cooperate, and the spreadsheets are attached to this document.
9.
  - A. There are zero full-time employees of Livingston Municipal Water Works and two part-time employees of Livingston Municipal Water Works.
  - B. Post-transaction, employment will be terminated for both employees of Livingston Municipal Water Works as dissolution of the company occurs.
10. The City of Livingston owns the land and a 128,000-gallon water storage tank. A copy of the deed is attached.
11. This section refers to all revenue generated before the closing of the sale of the Livingston Municipal Water Works System.
  - A. The Commission of the City of Livingston will vote on the matter of how to handle outstanding water bills by holding the debt, liens on property, or selling to a third party for debt collection.
  - B. The City of Livingston will not expect Kentucky American to disconnect water service for customers who fail to pay pre-closing debts owed to Livingston. However, on behalf of Livingston Waste Water Treatment Plant, the City of Livingston does expect to work out a resolution for the disconnection of services for non-payment of sewer bills post-transaction.
12. The following is in reference to the Cleaner Water Grant.
  - A. The \$153,014
  - B. \$43,850

C. A partial amount (\$43,850) has been spent on cleaning and restoring the water storage tank. However, since the advertisement, the City of Livingston has not received any bids for replacing the altitude valve. Due to grant terms, the remaining funds will be returned to KIA or the county and will not be transferred or kept by the City of Livingston.

13. In reference to the Agreement, Section 6.10:

A. Due to the withholding of Municipal Road Aid by the DLG, the City of Livingston does not currently have any road paving projects scheduled for the next five years. In 2023, there were multiple city roads repaved and water lines replaced on McClure Street, School Street, Hill Street, and Short Street.

B. This is not applicable.

NO TAX

THIS QUIT-CLAIM DEED made and entered into this the 10<sup>th</sup> day of August, 2007, by and between Jason Mahaffey, single, of P.O. Box 254, Livingston, Kentucky 40445, party of the first part and Grantor herein, and City of Livingston, by J. C. Griffin, Mayor, of P.O. Box 654, Livingston, Kentucky 40445, party of the second part and Grantee herein.

WITNESSETH: That for and in consideration of the parties herein establishing an agreed boundary line between real property of both parties, the receipt of which is hereby acknowledged, Grantor does now and by these presents release, remise and quitclaim unto Grantee, City of Livingston, by J. C. Griffin, Mayor, their successors and assigns forever, all of his interest in and to the following described real property located in Rockcastle County, Kentucky, same being more particularly bounded and described as follows:

Beginning at a stake at the existing Water Tank Road and the corner of Ernest Sturgill and George Pridemore; thence in a northerly direction a distance of approximately 80 feet to an iron pin; thence going on in a northeasterly direction a distance of approximately 80 feet to an iron pin at the David and Jason Mahaffey property line; thence along the David and Jason Mahaffey property line in a southerly direction a distance of approximately 500 feet to an iron pin at the George Pridemore property line; thence in a westerly direction a distance of 175 feet to the point of beginning at an iron pin at the Water Tank Road.

Grantor obtained his interest in and to the above described portion of real property by deed dated MAY 5, 2001, executed by Ray Mahaffey <sup>64 HX</sup> same being of record in the Rockcastle County Court Clerk's Office in Deed Book 184 Pages 315-317.

The Grantee, by this instrument, agrees this to be the real property line between the parties and makes no claim to adjoining real property of Grantor.

TO HAVE AND TO HOLD the same, with all the appurtenances thereto belonging to Grantee, City of Livingston, by J. C. Griffin, Mayor, their successors and assigns forever.

The parties hereto state that the consideration stated in this deed, same being the parties herein establishing an agreed boundary line between real property of both parties, is the true consideration for the property herein conveyed. The estimated consideration of said real property is \$7,000.00. We further certify our understanding that falsification of the stated consideration or sale price of the property is a Class D felony, subject to one to five years imprisonment and fines up to \$10,000.00. The Grantee joins in this deed for the sole purpose of certifying the consideration pursuant to KRS Chapter 382.

IN TESTIMONY WHEREOF, witness the signatures of the parties hereto this the day and year first above written.

Jason Mahaffey  
Jason Mahaffey, single, Grantor

J. C. Griffin  
City of Livingston, by J. C. Griffin, Mayor,  
Grantee

STATE OF KENTUCKY
