---

The Kentucky Broadband and Cable Association (“KBCA”) respectfully submits this opposition to Louisville Gas and Electric Company’s (“LG&E’s”), and Kentucky Utilities Company’s (“KU’s”) motion to strike KBCA’s Statement on Hearing.

On April 17, 2026, KBCA filed a Statement on Hearing in accordance with the Commission’s December 2, 2025, Scheduling Order to confirm it does not believe a hearing is necessary in this matter, and to summarize its remaining objections to the tariffs filed by LG&E, KU, and the Rural Electric Cooperative Corporations (“RECCs”). KBCA’s intention in filing its Statement on Hearing was not, as LG&E and KU suggest, to “have the last word,” but rather to inform the Commission that following the limited submissions by the parties, certain of KBCA’s objections had been resolved, Statement on Hearing at 3-4, while others remain pending, *id.* at 5-8. KBCA intended this information to assist the Commission in recalling the procedural posture of the case and narrowing the scope of its review to the live disputes between the parties, given that all parties appear to believe no hearing is necessary. KBCA did not present any evidence with its Statement on Hearing, or present any new objections.

Contrary to LG&E and KU's assertions, nothing in the Commission's Scheduling Order prohibits KBCA from submitting a Statement on Hearing that summarizes the remaining issues for hearing. Indeed, LG&E and KU have done just that in prior motions to submit cases for decision on the record in response to scheduling orders like the one at issue here, including characterizing the arguments of other parties and the remaining issues<sup>1</sup>, and summarizing the procedural posture of the case<sup>2</sup>. Notably, the RECCs did not move to strike KBCA's identical Statement on Hearing in Case No. 2025-00392.<sup>3</sup> As a result, LG&E and KU's motion has little practical effect on this proceeding. For all the foregoing reasons, the Commission should deny their motion.
