Regulatory And Accounting Treatments, And 3) All)	
Other Required Approvals And Relief)	

MOTION FOR CONFIDENTIAL TREATMENT

Kentucky Power Company (“Kentucky Power” or the “Company”) moves the Public Service Commission of Kentucky (“Commission”) pursuant to 807 KAR 5:001, Section 13(2), and KRS 61.878(1) for an Order granting confidential treatment to the following:

1. the identified portion of Exhibit NMC-R5 to the Rebuttal Testimony of Company Witness Coon (“Exhibit NMC-R5”);
2. the identified portion of Exhibit NMC-R6 to the Rebuttal Testimony of Company Witness Coon (“Exhibit NMC-R6”);
3. the identified portion of Exhibit NMC-R7 to the Rebuttal Testimony of Company Witness Coon (“Exhibit NMC-R7”); and
4. the entirety of Exhibit JDS-R1 to the Rebuttal Testimony of Company Witness Snodgrass (“Exhibit JDS-R1”).

Specifically, Kentucky Power seeks confidential treatment of information relating to:

1. the future operations and forecasted revenues of Kentucky Power’s generation fleet (Exhibit NMC-R5, Exhibit NMC-R6, and Exhibit NMC-R7; collectively, the “Forecast Information”); and
2. Information regarding the forecasted capital budget for the Mitchell Plant (Exhibit JDS-R1).

Pursuant to 807 KAR 5:001, Section 13, Kentucky Power is filing under seal those attachments containing confidential information.

I. MOTION FOR CONFIDENTIAL TREATMENT

A. The Request and the Statutory Standard.

Kentucky Power does not object to filing the identified information for which it is seeking confidential treatment, but it requests that the identified information be excluded from the public record and public disclosure.

KRS 61.878(1) excludes from the Open Records Act:

(c) (1) Upon and after July 15, 1992, records confidentially disclosed to an agency or required to be disclosed to it, generally recognized as confidential or proprietary, which if openly disclosed would permit an unfair commercial advantage to competitors of the entity that disclosed the records.

The identified documents satisfy the requirements for confidential treatment under KRS 61.878(1)(c)(1).

1. **The Forecast Information**

The Forecast Information includes specific information relating to potential derates of Mitchell Unit 2 resulting from the various options and the expected operation and revenue generation from the various options. This kind of unit-specific operational and planning data is confidential. The rise of competitive markets such as PJM has placed a premium on generating unit data, including but not limited to, outage rates, scheduled outages, heat rates, energy output, fuel costs, and the timing of planned capital expenditures. This data could be used by competitors in the PJM energy market to enhance their market offers in such a way that it could displace the Company's generation.

The detail of the information provides highly sensitive data about the unique operation, costs, and performance of the Company's generating units. If disclosed publicly, the Company's competitors would be able to use this information to gain a competitive advantage over the Company in its daily participation in the PJM energy and ancillary service markets, as well as

other electricity market activities. The Company's unit-specific data is not generally known or readily ascertainable by other parties through normal or proper means. No reasonable amount of legitimate independent research could enable other parties to determine it. Kentucky Power derives independent economic value from the subject information not being generally known to, and not being readily ascertainable by other persons who can obtain economic value from its disclosure or use. Accordingly, Kentucky Power would be placed at a competitive disadvantage vis-à-vis other electric utilities buying and selling in the wholesale market if required to disclose the information publicly.

For the reasons stated herein, the Forecast Information should be kept confidential for a period of ten years. After such time, there will no longer be any competitive advantage to be gained from the information.

2. Exhibit JDS-R1

Exhibit JDS-R1 includes the 10-year forecasted capital budget for the Mitchell Plant from which capital project cost data and timing could be determined. The disclosure of the identified information in the Exhibit JDS-R1 would unfairly prejudice Kentucky Power and its customers, by permitting an unfair commercial advantage to Kentucky Power's competitors and suppliers. Public disclosure of such project cost data and operating information could prove damaging to the Company in both current and future competitive marketplaces, and would place Kentucky Power at a significant disadvantage in the marketplace. If Kentucky Power's costs and operating projections are publicly known, competitors and suppliers can formulate competitive bidding strategies that will hamper the Company's ability to compete against them, cause Kentucky Power's units to operate/sell less, and ultimately cost more to operate, thereby resulting in higher costs for the Company's customers. Moreover, disclosure of the budgeted costs for capital projects

would create a “price floor” for contractors and equipment suppliers bidding in response to requests for proposals to implement a capital project. This could make the capital project more expensive to the detriment of Kentucky Power’s customers.

For the reasons stated herein, Exhibit JDS-R1 should be kept confidential for a period of ten years. After such time, there will no longer be any competitive advantage to be gained from the information.

B. The Identified Information is Generally Recognized as Confidential and Proprietary and Public Disclosure of it Will Result in an Unfair Commercial Advantage for Kentucky Power’s Competitors.

The identified information in the Forecast Information and Exhibit JDS-R1 is highly confidential. Dissemination of the information for which confidential treatment is being requested is restricted by Kentucky Power, its parent, AEP, and its affiliates (including American Electric Power Service Corporation). Kentucky Power, AEP, and its affiliates (and third-party vendors where applicable) take all reasonable measures to prevent its disclosure to the public as well as persons within Kentucky Power and third-party vendors who do not have a need for the information. The information is not disclosed to persons outside Kentucky Power, AEP, or its affiliates. Within those organizations, the information is available only on a confidential need-to-know basis that does not extend beyond those employees with a legitimate business need to know and to act upon the identified information.

C. The Identified Information is Required to be Disclosed to an Agency.

The identified information in the Forecast Information and Exhibit JDS-R1 is required to be submitted pursuant to the Commission’s order in this case. The Commission is a “public agency” as that term is defined in KRS 61.870(1). Any filing should be subject to a confidentiality order and any party requesting such information should be required to enter into an appropriate confidentiality agreement.

WHEREFORE, Kentucky Power Company respectfully requests the Commission to enter an Order:

1. According confidential status to and withholding from public inspection for a period of ten years, the Forecast Information;
2. According confidential status to and withholding from public inspection for a period of ten years, Exhibit JDS-R1; and
3. Granting Kentucky Power all further relief to which it may be entitled.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "K. Gish, Jr.", enclosed within a large, loopy blue oval.
