

# Kentucky officials investigating deaths that may be connected to winter storm

Kentucky officials are investigating three deaths that may be related to the weekend's severe snow and ice.

In a Monday morning press conference, Gov. Andy Beshear said at least one fatality may be a result of running a generator indoors. That afternoon, he confirmed the death of a 72-year-old woman from Whitley County because of hypothermia.

"Check on your neighbors, just make sure they're OK," the governor said. "What a good time to live out the parable of The Good Samaritan. All it takes is a phone call or knocking on their door, just see if they're all right."

Beshear also emphasized that Kentuckians should use caution when shoveling snow, as the activity can increase risk of heart attacks. Last year, six Kentuckians died while shoveling snow.

Over the weekend, Kentucky was blanketed with snow and ice, making roads hazardous and causing power outages. Beshear said the state was down to 47,123 power outages from 73,590 at the height of the storm Sunday.

For the week ahead, Kentucky is forecasted to have extremely cold temperatures. Beshear said that wind chills as low as negative 20 degrees statewide are expected.

"Tomorrow morning is

going to be the worst. It is going to be dangerously cold," the governor said. "Tomorrow morning being outside for just 10 to 30 minutes could result in hypothermia or frostbite, so we need everyone to take precautions."

The Kentucky General Assembly had canceled its meetings Monday because of the weather. All eight of Kentucky's public universities canceled classes or moved to online instruction options.

Beshear said in his briefing that while all Kentucky counties had "major impacts," Barren, Pulaski, Allen and Monroe counties were among the hardest hit by the storm.

A few hundred Kentuckians are being sheltered, the governor added, and that number is being updated as more people are transported to assistance. About 150 people were evacuated from London hotels without power. Some guests were also evacuated from Barren River State Park.
