COMMONWEALTH OF KENTUCKY

BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

Electronic APPLICATION OF KENTUCKY-AMERICAN WATER COMPANY FOR AN ADJUSTMENT OF RATES, APPROVAL OF SYSTEM IMPROVEMENT PROGRAM, AND TARIFF CHANGES	)))))	Case No. 2026-00094

Georgetown Municipal Water and Sewer Service Response to Kentucky-American Water Company's Post-Hearing Data Requests

Georgetown Municipal Water and Sewer Service ("GMWSS") herewith submits its Response to the Kentucky American Water Company's post-hearing Data Requests to the intervening parties #01 and #02, which are addressed to GMWSS. The pages of a document attached in response to DR #02 have been stamped with identifiers "substitute KAW 01-0010" & "substitute KAW 01-0011".

Respectfully submitted,

/s/ Katherine K. Yunker

ATTORNEYS FOR GMWSS

Request

1. Please state whether you are in favor of or oppose KAWC's proposal to change how KAWC should determine an appropriate charge for public fire service as described at pages 33-37 of KAWC witness Charles Rea's Direct Testimony. If you are in favor of the change, please explain why. If you are opposed to the change, please explain why.

Objection

This request is simply KAWC's attempt to impose an earlier deadline on the intervening parties to brief the issues arising from its proposal to reduce the per-hydrant monthly rate for public fire service, by "eliminat[ing] the allocation of A&G costs and upstream costs from the cost allocation process for public fire service" (Charles Rea Direct p.34), with the consequence that other customers will be required to (relatively) subsidize each governmental authorities decisions about the number of publicly-accessible fire hydrants to maintain in its locality. Georgetown Municipal will take a position or provide policy or legal arguments about KAWC's proposed reduction to per-hydrant monthly charges — or not — in its post-hearing brief due in this matter on or before Monday, November 9, 2026.

Request

2. Please provide legible versions of the text messages from GMWSS to KAWC requesting water service at the Champion Way metering point Mr. Azevedo agreed to provide during the October 14, 2026, hearing in this matter.

Response

Attached as substitute KAW 01-0010 to 01-0011 please find more-legible copies of the early February 2026 text message communications between GMWSS and KAWC requesting water service at the Champion Way metering point. These attachments substitute for the copies provided as part of the 9/10/26 GMWSS response to 1 KAW 06.

Hey Wes it's Jonathan Walters with Georgetown water. You think it's possible to get our interconnect meter with you all installed before this Wednesday morning by 8am? We have to shut down our plant for some repairs and will need to buy some water from you all.

Wes Felts

Do you know how long you'll be needing it?

Adam Terry

3 weeks is the estimate

Wes Felts

Okay, I'll make sure it gets installed tomorrow. We will need to figure out a way to keep it insulated. Would you like my guys to contact you when they head that way tomorrow?

Scooter

Ye
al
a heated building. It was talked
about at one time about putting

Scooter

Yeah that's the only bad thing about it not being inside a pit or a heated building. It was talked about at one time about putting it in the ground but it kind of fell thru The cracks.

Yes have your guys contact us. We will just make sure we keep water flowing thru it do it doesn't freeze. We can try wrapping it with insulation also to help prevent it from freezing. Do you have any suggestions on keeping it warm?
