During the fourth quarter of 2025, the MPWMD filed an application with the SWRCB seeking to modify the 2009 Order and the 2016 Order to rescind a condition included therein that prohibits (i) new service connections and (ii) increased water use at existing service connections resulting from a change in zoning or use, throughout Cal Am's Monterey service territory. The MPWMD's stated rationale for seeking to rescind this condition is a lack of threatened violation for the foreseeable future given a sufficient water supply to serve demand, and the current prohibitions restrict local housing construction needed to meet state affordable housing mandates. On December 19, 2025, Cal Am filed a response, requesting that the SWRCB deny the application or hold it in abeyance to permit Cal Am to meet with appropriate stakeholders and to develop a proposal for relief from the prohibitions.

Following issuance by the California Coastal Commission (the "Coastal Commission") in November 2022, of a coastal development permit, as described below, Cal Am continues to work constructively with all appropriate agencies to obtain the remaining required permits for the Water Supply Project. However, there can be no assurance that the Water Supply Project in its current configuration will be completed on a timely basis, if ever. For the year ended December 31, 2025, Cal Am has complied with the diversion limitations contained in the 2016 Order. Continued compliance with the diversion limitations in 2026 and future years may be impacted by a number of factors, including without limitation potential recurrence of drought conditions in California and the reduction or exhaustion of water supply reserves, and will require successful development of alternate water supply sources sufficient to meet customer demand. The 2009 Order and the 2016 Order remain in effect until Cal Am certifies to the SWRCB, and the SWRCB concurs, that Cal Am has obtained a permanent supply of water to substitute for past unauthorized Carmel River diversions. While the Company cannot currently predict the likelihood or result of any adverse outcome associated with these matters, further attempts to comply with the 2009 Order and the 2016 Order in the future may result in material additional costs and obligations to Cal Am, including fines and penalties against Cal Am in the event of noncompliance with the 2009 Order and the 2016 Order.

Monterey Peninsula Water Supply Project

CPUC Final Approval of Water Supply Project

Cal Am's ability to move forward on the Water Supply Project is and has been subject to extensive administrative review by the CPUC and other government agencies, obtaining necessary permits, and intervention from other parties. In 2016, the CPUC unanimously approved a final decision to authorize Cal Am to enter into a water purchase agreement for the GWR Project and to construct a pipeline and pump station facilities and recover up to $50 million in associated incurred costs plus AFUDC, subject to meeting certain criteria.

In 2018, the CPUC unanimously approved another final decision finding that the Water Supply Project meets the CPUC's requirements for a CPCN and an additional procedural phase was not necessary to consider alternative projects. The CPUC's 2018 decision concludes that the Water Supply Project is the best project to address estimated future water demands in Monterey, and, in addition to the cost recovery approved in its 2016 decision, adopts Cal Am's cost estimates for the Water Supply Project, which amounted to an aggregate of $279 million plus AFUDC at a rate representative of Cal Am's actual financing costs. The 2018 final decision specifies the procedures for recovery of all of Cal Am's prudently incurred costs associated with the Water Supply Project upon its completion, subject to the frameworks included in the final decision related to cost caps, O&M costs, financing, ratemaking and contingency matters. The reasonableness of the Water Supply Project costs will be reviewed by the CPUC when Cal Am seeks cost recovery for the Water Supply Project. Cal Am is also required to implement mitigation measures to avoid, minimize or offset significant environmental impacts from the construction and operation of the Water Supply Project and comply with a mitigation monitoring and reporting program, a reimbursement agreement for CPUC costs associated with that program, and reporting requirements on plant operations following placement of the Water Supply Project in service. Cal Am has incurred $324 million in aggregate costs as of December 31, 2025, related to the Water Supply Project, which includes $107 million in AFUDC.

In September 2021, Cal Am, Monterey One Water and the MPWMD reached an agreement on Cal Am's purchase of additional water from an expansion to the GWR Project. On December 5, 2022, the CPUC issued a final decision that authorized Cal Am to enter into the amended water purchase agreement, and specifically to increase pumping capacity and reliability of groundwater extraction from the Seaside Groundwater Basin. The final decision sets the cost cap for the proposed facilities at approximately $62 million. Cal Am may seek recovery of amounts above the cost cap in a subsequent rate filing or general rate case. Additionally, the final decision authorizes AFUDC at Cal Am's actual weighted average cost of debt for most of the facilities.

On December 30, 2022, Cal Am filed with the CPUC an application for rehearing of the CPUC's December 5, 2022 final decision, and in March 2023, the CPUC issued a decision denying Cal Am's application for rehearing but adopting its proposed AFUDC for already incurred and future costs. The decision also provided Cal Am the opportunity to serve supplemental testimony to increase its cost cap for certain of the Water Supply Project's extraction wells. On May 21, 2025, the CPUC issued a decision authorizing an increase to the cost cap of $11 million for the specified extraction wells.

The amended water purchase agreement and a memorandum of understanding to negotiate certain milestones related to the expansion of the GWR Project have been signed by the relevant parties. Further hearings were scheduled in a Phase 2 to this CPUC proceeding to focus on updated supply and demand estimates for the Water Supply Project. On August 14, 2025, the CPUC approved a final decision, which was updated on October 9, 2025, finding that, as to the supply and demand estimates for the Water Supply Project, projected demand will outstrip supply by approximately 2,500 acre-feet per year as of 2050. On September 17, 2025, the City of Marina (the "City"), the Marina Coast Water District ("MCWD") and the MPWMD filed applications for rehearing of the final decision. On September 22, 2025, these parties also filed a motion to stay the final decision. The CPUC has not yet ruled on these motions.

While Cal Am believes that its expenditures to date have been prudent and necessary to comply with the 2009 Order and the 2016 Order, as well as relevant final decisions of the CPUC related thereto, Cal Am cannot currently predict its ability to recover all of its costs and expenses associated with the Water Supply Project and there can be no assurance that Cal Am will be able to recover all of such costs and expenses in accordance with the CPUC's prior decisions. See Note 16—Commitments and Contingencies in the Notes to the Consolidated Financial Statements for further discussion. Subject to the impacts, outcomes or resolution of applicable litigation and other proceedings, construction of the desalination plant for the Water Supply Project is expected to begin in 2026, and the desalination plant is currently anticipated to be in service by the end of 2029.

Coastal Development Permit Application

In 2018, Cal Am submitted a coastal development permit application (the "Marina Application") to the City for those project components of the Water Supply Project located within the City's coastal zone. Members of the City's Planning Commission, as well as City councilpersons, have publicly expressed opposition to the Water Supply Project. In May 2019, the City issued a notice of final local action based upon the denial by the Planning Commission of the Marina Application. Thereafter, Cal Am appealed this decision to the Coastal Commission, as permitted under the City's code and the California Coastal Act. At the same time, Cal Am submitted an application (the "Original Jurisdiction Application") to the Coastal Commission for a coastal development permit for those project components located within the Coastal Commission's original jurisdiction. After Coastal Commission staff issued reports recommending denial of the Original Jurisdiction Application, noting potential impacts on environmentally sensitive habitat areas and wetlands and possible disproportionate impacts to communities of concern, in September 2020, Cal Am withdrew the Original Jurisdiction Application in order to address the staff's environmental justice concerns. In November 2020, Cal Am refiled the Original Jurisdiction Application.

In October 2022, Cal Am announced a phasing plan for the proposed desalination plant component of the Water Supply Project. The desalination plant and slant wells originally approved by the CPUC would produce up to 6.4 million gallons of desalinated water per day. Under the phased approach, the facilities would initially be constructed to produce up to 4.8 million gallons per day of desalinated water, enough to meet anticipated demand through about 2030, and would limit the number of slant wells initially constructed. As demand increases in the future, desalination facilities would be expanded to meet the additional demand. The phased approach seeks to meet near-term demand by allowing for additional supply as it becomes needed, while also providing an opportunity for regional future public participation and was developed by Cal Am based on feedback received from the community.

In November 2022, the Coastal Commission approved the Marina Application and the Original Jurisdiction Application with respect to the phased development of the proposed desalination plant, subject to compliance with a number of conditions, all of which Cal Am expects to satisfy. Cal Am continues to seek the remaining permits necessary to construct the Water Supply Project.

In December 2022, the City, MCWD, MCWD's groundwater sustainability agency ("GSA"), and the MPWMD jointly filed a petition for writ of mandate in Monterey County Superior Court against the Coastal Commission, alleging that the Coastal Commission violated the California Coastal Act and the California Environmental Quality Act in issuing a coastal development permit to Cal Am for construction of slant wells for the Water Supply Project. Cal Am is named as a real party in interest. In April 2024, the court granted defendants' motion for judgment on the pleadings and dismissed one of MCWD's causes of action in its petition. After trial and subsequent proceedings ending in the first quarter of 2025, on May 12, 2025, the court entered its final decision denying the petition in full. On July 24, 2025, a notice of appeal was filed. This matter remains pending.

Proposed Zoning Changes at CEMEX, Inc. Site for Slant Wells

In August 2018, the City circulated a public review draft of proposed amendments to its local coastal program and zoning ordinance, and placed the matter for consideration on the Planning Commission's agenda for its September 2018 meeting. The proposed amendments would change zoning at a site owned by CEMEX, Inc. ("CEMEX") to open space and restrict future uses, including with respect to Cal Am's planned use of the site for the slant wells for the Water Supply Project. Any change to the City's local coastal program must ultimately be approved by the Coastal Commission. Cal Am, CEMEX and the Coastal Commission each submitted letters opposing the proposed amendments. At its November 2018 meeting, the Planning Commission adopted a resolution recommending that the Marina City Council consider approving the amendments.

In December 2018, the Marina City Council considered the proposed amendments. Cal Am, CEMEX and the Coastal Commission again submitted letters opposing the proposed changes, but the City Council unanimously adopted a resolution amending its local coastal plan and a draft amendment to its zoning ordinance. Changes to the ordinance require a second reading before becoming final, which occurred at the City's December 2018 meeting. The changes to the local coastal plan would need to be submitted to the Coastal Commission for approval; however, the Coastal Commission's November 2022 approval of Cal Am's coastal development permit application has rendered moot the impact of these proposed local coastal program and zoning changes on the issuance of the coastal development permit.

Test Slant Well Permitting

A preliminary step to building the Water Supply Project desalination plant is the construction and operation of a test slant well to confirm the suitability of the property on which intake wells will be located to draw water from under Monterey Bay. In November 2014, the Coastal Commission approved coastal development permits for the test slant well, enabling Cal Am to construct and operate the test slant well. Effective February 28, 2018, test slant well pumping ceased, except for minimal maintenance pumping activities, in accordance with Cal Am's coastal development permits. Because Cal Am may use the test slant well as one of the slant wells for the Water Supply Project, Cal Am sought and obtained from the Coastal Commission permit amendments to allow the test slant well to remain in place and be maintained until February 28, 2027. A required lease obtained from the California State Lands Commission, as amended, expires on December 16, 2027.

Water Supply Project Land Acquisition and Slant Well Site Use

In July 2017, the Coastal Commission adopted a consent agreement and cease and desist order requiring sand mining operations on the property owned by CEMEX on which intake wells for the Water Supply Project will be located, to cease by the end of 2020 and the property to be sold to either a non-profit or governmental entity. The consent agreement strictly limits future use of the property but preserves Cal Am's existing property rights and allows uses consistent with existing easements and other rights of record. A permanent easement granted by CEMEX to Cal Am was recorded in June 2018 to allow Cal Am access to the property and to construct, operate and maintain the Water Supply Project intake wells. In November 2019, the City notified CEMEX that, based on this permanent easement and Cal Am's proposed use of the site for the intake wells, CEMEX has breached or will soon breach a prior 1996 annexation agreement (to which Cal Am was not a party). The City states that it intends to seek declaratory relief from CEMEX and Cal Am ordering that Cal Am's extraction is limited to 500 acre-feet per year of groundwater, that Cal Am cannot export extracted water out of the basin, and that the permanent easement granted by CEMEX to Cal Am is void. CEMEX has denied the City's claims and requested indemnification from Cal Am under the terms of the permanent easement. Cal Am and CEMEX believe that there is no valid limitation under the annexation agreement on Cal Am's right to pump brackish groundwater and seawater at the site for desalination and use by Cal Am's customers.

In May 2020, the City filed a lawsuit in Monterey County Superior Court, naming Cal Am and CEMEX as defendants, and Monterey County Water Resources Agency ("MCWRA") and MCWD as real parties in interest. The lawsuit, as amended, alleges a claim for breach of contract against CEMEX and seeks declaratory relief to void the permanent easement and prohibiting extraction of water by Cal Am's slant wells at the CEMEX site in excess of 500 acre-feet per year and the export of such water outside the groundwater basin. In November 2020, Cal Am, CEMEX and MCWRA filed demurrers, which were overruled by the court at a hearing held in February 2021.

In August 2020, MCWD filed a cross-complaint in the May 2020 lawsuit against Cal Am, CEMEX and MCWRA, alleging claims for specific performance of certain provisions of the 1996 annexation agreement related to the property owned by CEMEX on which intake wells for the Water Supply Project will be located, as well as claims of water rights, nuisance and unreasonable water use, and seeking additional declaratory relief. Following various rulings on demurrers filed by Cal Am, CEMEX and MCWRA, in February 2021, the court sustained, without leave to amend, the demurrer to MCWD's nuisance claim and overruled the remainder of the demurrers. In October 2021, the court granted a motion filed by Cal Am related to MCWD's cross-complaint, which motion requested a referral of certain issues related to MCWD's water rights and unreasonable use claims to the SWRCB for its expert advisory opinion. The SWRCB held hearings in 2022 and 2023, on the referred issues before its administrative hearing officer. On June 25, 2025, the SWRCB administrative hearing officer transmitted a final report of an advisory opinion to the SWRCB's board for approval, as well as to the parties and the Monterey County Superior Court. The final report analyzes potential impacts to the groundwater basin and groundwater users based on predictive modeling presented by the parties' experts, and concludes, among other things, that the slant well pumping is not expected to materially impact MCWD's water rights, or its ability to draw water from its wells. The report also finds that although some harm to the groundwater basin may occur in the form of increased seawater intrusion and lowering of groundwater levels, any such harm should be balanced against the benefits of the project, and could be avoided or remedied by a physical solution. Trial commenced on November 12, 2025, and is expected to continue into the first quarter of 2026.

Regional Water Quality Control Board Approval of NPDES Permit Amendment

A requirement of the desalination plant that is a key component of the Water Supply Project is the discharge of brine through Monterey One Water's outfall. As a condition to Cal Am's coastal development permit, an amendment of a NPDES permit must be obtained by Monterey One Water as the outfall owner from the Regional Water Quality Control Board (the "RWQCB"). The RWQCB must also determine that the proposed brine discharge complies with the desalination facility requirements under the California Ocean Plan. Working in cooperation with Monterey One Water staff and consultants, Cal Am prepared an application for submission to the RWQCB, which application and submission were approved by Monterey One Water's board in September 2024. Following submission of the application to amend the relevant NPDES permit to the RWQCB, Cal Am's and Monterey One Water's consultants developed a less environmentally impactful alternative that reduces the number of outfall modifications required to accommodate brine discharge. The alternatives analysis was approved by Monterey One Water's board on June 30, 2025, and was submitted to the RWQCB on July 1, 2025.

Cal Am's Action for Damages Following Termination of Regional Desalination Project ("RDP")

In 2010, the CPUC had approved the RDP, which was a precursor to the current Water Supply Project and called for the construction of a desalination facility in the City of Marina. The RDP was to be implemented through a Water Purchase Agreement and ancillary agreements (collectively, the "Agreements") among MCWD, Cal Am and MCWRA. In 2011, due to a conflict of interest concerning a former member of MCWRA's Board of Directors, MCWRA stated that the Agreements were void, and, as a result, Cal Am terminated the Agreements. In ensuing litigation filed by Cal Am in 2012 to resolve the termination of the RDP, the court in 2015 entered a final judgment agreeing with Cal Am's position that four of the five Agreements are void, and one, the credit line agreement, is not void. As a result of this litigation, Cal Am was permitted to institute further proceedings, discussed below, to determine the amount of damages that may be awarded to Cal Am as a result of the failure of the RDP.

In 2015, Cal Am and MCWRA filed a complaint in San Francisco County Superior Court against MCWD and RMC Water and Environment, a private engineering consulting firm ("RMC"), seeking to recover compensatory, consequential and incidental damages associated with the failure of the RDP, as well as punitive and treble damages, statutory penalties and attorneys' fees. In 2019, MCWD was granted a motion for summary judgment related to the tort claims in the complaint. A settlement as to the non-tort claims was finalized and entered into in March 2020, in which MCWD and RMC paid Cal Am an aggregate of $5.2 million to resolve Cal Am's contract claims against MCWD and all claims against RMC relating to the RDP. Under this agreement, Cal Am's and MCWRA's right to appeal the dismissal of their tort claims against MCWD were expressly reserved.

In July 2020, Cal Am appealed the grant of summary judgment on MCWD's tort claims, and in December 2022, the trial court's decision was reversed on appeal with instructions to vacate its prior orders granting MCWD's motions for summary judgment and to enter new orders denying the motions. In February 2023, MCWD filed a petition for review of the appellate decision with the California Supreme Court, which was denied in March 2023. In June 2024, MCWD filed a motion for judgment on the pleadings. In December 2024, the court granted MCWD's motion without leave to amend, dismissing all of Cal Am's remaining claims. On February 27, 2025, Cal Am and MCWRA each filed a Notice of Appeal of the trial court's decision. This matter remains pending.

Proposed Acquisition of Monterey System Assets — Potential Condemnation

Local Agency Formation Commission Litigation

In November 2018, voters in Monterey, California passed "Measure J," which decided that the MPWMD should conduct a feasibility study concerning the potential purchase of Cal Am's Monterey system assets, and, if feasible, to proceed with a purchase of those assets without an additional public vote. This service territory represents approximately 40,000 customers. In 2019, the MPWMD issued a preliminary valuation and cost of service analysis report, finding in part that (i) an estimate of the Monterey system assets' total value plus adjustments would be approximately $513 million, (ii) the cost of service modeling results indicate significant annual reductions in revenue requirements and projected monthly water bills, and (iii) the acquisition of the Monterey system assets by the MPWMD would be economically feasible. In 2020, the MPWMD certified a final environmental impact report, analyzing the environmental impacts of the MPWMD's project to (i) acquire the Monterey system assets through the power of eminent domain, if necessary, and (ii) expand its geographic boundaries to include all parts of this system.

In February 2021, the MPWMD filed an application with the Local Agency Formation Commission of Monterey County ("LAFCO") seeking approval to become a retail water provider and annex approximately 58 parcels of land into the MPWMD's boundaries. In June 2021, LAFCO's commissioners voted to require a third-party independent financial study as to the feasibility of an acquisition by the MPWMD of the Monterey system assets. In December 2021, LAFCO's commissioners denied the MPWMD's application to become a retail water provider, determining that the MPWMD does not have the authority to proceed with a condemnation of the Monterey system assets. In April 2022, the MPWMD filed a lawsuit against LAFCO challenging its decision to deny the MPWMD's application seeking approval to become a retail water provider. In June 2022, the court granted, with conditions, a motion by Cal Am to intervene in the MPWMD's lawsuit against LAFCO. In December 2022, the court sustained in part, and denied in part, demurrers that had been filed by LAFCO seeking to dismiss the MPWMD's lawsuit.

In December 2023, the Monterey County Superior Court issued a writ of mandate directing LAFCO to vacate and set aside its original denial of the MPWMD's application to serve as a retail water provider (in conjunction with its effort to acquire the Monterey system assets) and, if requested, to re-hear the application in compliance with all applicable law. The court held that LAFCO incorrectly applied two statutory standards and noted a lack of sufficient evidence to support certain of LAFCO's factual findings. As a result, the LAFCO denial has been nullified and LAFCO will be required to hold another hearing on the MPWMD's application. In February 2024, each of Cal Am and LAFCO filed a notice of appeal with the California Court of Appeal regarding the Monterey County Superior Court's decision to issue the writ of mandate, and the MPDMD filed a notice of cross-appeal. This matter remains pending.

MPWMD Condemnation Action

Separate from the proceedings related to the MPWMD's application with LAFCO, the MPWMD notified Cal Am in October 2022 of a decision to appraise the Monterey system assets and requested access to a number of Cal Am's properties and documents to assist the MPWMD with such an appraisal. Cal Am responded shortly thereafter, denying the request for access, and stating that the MPWMD does not have the right to appraise Cal Am's system without LAFCO approval to become a retail water provider. In April 2023, Cal Am rejected an offer by the MPWMD to purchase the Monterey system assets for $448.8 million. Over the written and oral objections of Cal Am, at a hearing held in October 2023, the MPWMD adopted a resolution of necessity to authorize it to file an eminent domain lawsuit with respect to the Monterey system assets.

In December 2023, the MPWMD filed a lawsuit against Cal Am in Monterey County Superior Court seeking to condemn the Monterey system assets. In February 2024, Cal Am filed a motion requesting the Monterey County Superior Court dismiss the MPWMD's eminent domain lawsuit seeking to condemn Cal Am's Monterey system assets. Cal Am's motion asserted that the MPWMD lacks legal authorization from both the California legislature and LAFCO to become a retail water provider and the lawsuit improperly seeks to effect a taking of property outside the boundaries of the MPWMD's territory. In November 2024, the court issued a ruling denying Cal Am's motion to dismiss, and Cal Am filed its answer to the complaint in December 2024. On August 20, 2025, Cal Am filed a motion for summary judgment as to the MPWMD's condemnation action, alleging that without LAFCO approval, the MPWMD does not have legal authority to pursue eminent domain. On the same date, the MPWMD filed a motion for summary adjudication of the same issue, arguing that LAFCO approval is not required to proceed with its condemnation action. By orders dated December 29, 2025, the court denied both motions. This lawsuit remains pending.

While the Company cannot currently predict the outcome of this lawsuit, the Company believes that, given existing legal authorities and its other defenses, Cal Am should be able to defend itself successfully against the MPWMD's eminent domain lawsuit.

Dunbar, West Virginia Class Action Litigation

On the evening of June 23, 2015, a 36-inch pre-stressed concrete transmission water main, installed in the early 1970s, failed. The water main is part of the West Relay pumping station located in the City of Dunbar, West Virginia and owned by West Virginia-American Water Company, the Company's West Virginia subsidiary ("WVAWC"). Water service was fully restored by July 1, 2015, to all customers affected by this event.

On June 2, 2017, a complaint captioned *Jeffries, et al. v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of residents and business owners who lost water service or pressure as a result of the Dunbar main break. The complaint alleged breach of contract by WVAWC for failure to supply water, violation of West Virginia law regarding the sufficiency of WVAWC's facilities and negligence by WVAWC in the design, maintenance and operation of the water system. In July 2020, the Circuit Court entered an order granting the *Jeffries* plaintiffs' motion for certification of a class regarding certain liability issues but denying certification of a class to determine a punitive damages multiplier.

Trial in this matter had been scheduled, but before trial commenced, the parties notified the Circuit Court that an agreement in principle to settle this litigation was reached. On May 2, 2025, the parties jointly filed with the Circuit Court a proposed class action settlement agreement (the "Dunbar Settlement") with respect to the certified liability claims. On September 12, 2025, the Circuit Court issued an order granting final approval of the Dunbar Settlement. Under the terms of the approved Dunbar Settlement, WVAWC has not admitted, and will not admit, any fault or liability for any of the allegations made by the *Jeffries* plaintiffs. The maximum pre-tax amount of the Dunbar Settlement is approximately $18 million, of which the final amount of the Company's and WVAWC's contributions to the Dunbar Settlement is approximately $5 million (which have been funded through existing sources of liquidity), and the remainder has been contributed by certain of the Company's general liability insurance carriers. The Company previously recorded in the fourth quarter of 2024 a charge to earnings, net of insurance receivables, of $5 million ($4 million after-tax), with respect to the Dunbar Settlement. The actual total amount to be paid to claimants through the Dunbar Settlement will depend upon the claims approved through the claims process, but the Company does not currently anticipate that its maximum liability for the settlement will materially exceed $5 million. The deadline for claims submissions was August 25, 2025, and the settlement administrator is evaluating claim submissions to identify compensable claims.

Chattanooga, Tennessee Class Action Litigation

On September 12, 2019, Tennessee-American Water Company, the Company's Tennessee subsidiary ("TAWC"), experienced a leak in a 36-inch water transmission main, which caused service fluctuations or interruptions to TAWC customers and the issuance of a boil water notice. TAWC repaired the main by early morning on September 14, 2019, and restored full water service by the afternoon of September 15, 2019, with the boil water notice lifted for all customers on September 16, 2019.

On September 17, 2019, a complaint captioned *Bruce, et al. v. American Water Works Company, Inc., et al.* was filed in the Circuit Court of Hamilton County, Tennessee against TAWC, the Company and Service Company (collectively, the "Tennessee-American Water Defendants"), on behalf of a proposed class of individuals or entities who lost water service or suffered monetary losses as a result of the Chattanooga incident (the "Tennessee Plaintiffs"). The complaint alleged breach of contract and negligence against the Tennessee-American Water Defendants, as well as an equitable remedy of piercing the corporate veil. In the complaint as originally filed, the Tennessee Plaintiffs were seeking an award of unspecified alleged damages for wage losses, business and economic losses, out-of-pocket expenses, loss of use and enjoyment of property and annoyance and inconvenience, as well as punitive damages, attorneys' fees and pre- and post-judgment interest. In September 2020, the court dismissed all of the Tennessee Plaintiffs' claims in their complaint, except for the breach of contract claims against TAWC.

In January 2023, after hearing oral argument, the court issued an oral ruling denying the Tennessee Plaintiffs' motion for class certification. In February 2023, the Tennessee Plaintiffs sought reconsideration of the ruling by the court, and any final ruling is appealable to the Tennessee Court of Appeals, as allowed under Tennessee law. In September 2023, the court upheld its prior ruling but gave the Tennessee Plaintiffs the option to file an amended class definition. In October 2023, the Tennessee Plaintiffs filed an amended class definition seeking certification of a business customer-only class. On June 14, 2024, the court issued its written order denying the Tennessee Plaintiffs' amended class and incorporating its denial of certification of the original residential class. On June 21, 2024, the Tennessee Plaintiffs appealed both of the court's orders denying class certification. On December 4, 2025, the Court of Appeals of Tennessee denied the Tennessee Plaintiffs' appeal, and on January 30, 2026, the Tennessee Plaintiffs filed an appeal with the Supreme Court of Tennessee. This matter remains pending.

The Company and TAWC believe that TAWC has valid, meritorious defenses to the claims raised in this class action complaint, and TAWC will continue to vigorously defend itself against these allegations.

Mountaineer Gas Company Main Break

During the afternoon of November 10, 2023, WVAWC was informed that an 8-inch ductile iron water main owned by WVAWC, located on the West Side of Charleston, West Virginia and originally installed in approximately 1989, experienced a leak. In the early morning hours of November 11, 2023, WVAWC crews successfully completed a repair to the water main. A precautionary boil water advisory was issued the same day to approximately 300 WVAWC customers and ultimately lifted on November 12, 2023.

On November 10, 2023, a break was reported in a low-pressure natural gas main located near the affected WVAWC water main, and an inflow of water into the natural gas main and associated delivery pipelines occurred. The natural gas main and pipelines are owned by Mountaineer Gas Company, a regulated natural gas distribution company serving over 220,000 customers in West Virginia ("Mountaineer Gas"). The resulting inflow of water into the natural gas main and related pipelines resulted in a loss of natural gas service to approximately 1,500 Mountaineer Gas customers, as well as water entering customer service lines and certain natural gas appliances owned or used by some of the affected Mountaineer Gas customers. Mountaineer Gas reported that restoration of natural gas service to all affected gas mains occurred on November 24, 2023. The timing, order and causation of both the WVAWC water main break and Mountaineer Gas's main break are currently unknown and under investigation.

To date, a total of four pending lawsuits have been filed against Mountaineer Gas and WVAWC purportedly on behalf of customers in Charleston, West Virginia related to these incidents. On November 14, 2023, a complaint captioned *Ruffin et al. v. Mountaineer Gas Company and West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of Mountaineer Gas residential and business customers and other households and businesses supplied with natural gas in Kanawha County, which lost natural gas service on November 10, 2023, as a result of these events. The complaint alleges, among other things, breach of contract by Mountaineer Gas, trespass by WVAWC, nuisance by WVAWC, violation of statutory obligations by Mountaineer Gas and WVAWC, and negligence by Mountaineer Gas and WVAWC. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for loss of use of natural gas, annoyance, inconvenience and lost profits, as well as punitive damages.

On November 15, 2023, a complaint captioned *Toliver et al. v. West Virginia-American Water Company and Mountaineer Gas Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of all natural persons or entities who are citizens of the State of West Virginia and who are customers of WVAWC and/or Mountaineer Gas in the affected areas. The complaint alleges against Mountaineer Gas and WVAWC, among other things, negligence, nuisance, trespass and strict liability, as well as breach of contract against Mountaineer Gas. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for property damage, loss of use and enjoyment of property, annoyance and inconvenience and business losses, as well as punitive damages.

On November 16, 2023, a complaint captioned *Dodson et al. v. West Virginia American Water and Mountaineer Gas Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of all West Virginia citizens living between Pennsylvania Avenue south of Washington Street, and Iowa Street, who are customers of Mountaineer Gas. The complaint alleges against Mountaineer Gas and WVAWC, among other things, negligence, nuisance, trespass, statutory code violations and unfair or deceptive business practices. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for property loss and damage, loss of use and enjoyment of property, mental and emotional distress, and aggravation and inconvenience, as well as punitive damages.

On January 4, 2024, a fourth complaint, captioned *Thomas v. West Virginia-American Water Company and Mountaineer Gas Company*, was filed in West Virginia Circuit Court in Kanawha County asserting similar allegations as those included in the *Ruffin*, *Toliver* and *Dodson* lawsuits, with the addition of counts alleging unjust enrichment and violations of the West Virginia Human Rights Act and the West Virginia Consumer Credit and Protection Act.

On November 17, 2023, the *Ruffin* plaintiff filed a motion to consolidate the class action lawsuits before a single judge in Kanawha County Circuit Court. On June 14, 2024, the judge in the *Ruffin* case partially granted the motion by transferring all of the four class action lawsuits to her court but deferring as premature consolidation of the cases.

On December 5, 2023, a complaint captioned *Mountaineer Gas Company v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County seeking damages under theories of trespass, negligence and implied indemnity. The damages being sought related to the incident include, among other things, repair and response costs incurred by Mountaineer Gas and attorneys' fees and expenses incurred by Mountaineer Gas. On March 6, 2024, the motion to transfer this complaint to the West Virginia Business Court was granted and trial and resolution judges were assigned. The Business Court has set a trial date of August 10, 2026 for this matter.

On December 20, 2023, Mountaineer Gas filed answers to each of the first three class action lawsuits, which included cross-claims against WVAWC alleging that Mountaineer Gas is without fault for the claims and damages alleged in the lawsuits and WVAWC should be required to indemnify Mountaineer Gas for any damages and for attorneys' fees and expenses incurred by Mountaineer Gas in the lawsuits. WVAWC has filed a partial motion to dismiss certain claims in the *Ruffin, Toliver, Dodson* and *Thomas* lawsuits and a motion to dismiss the cross-claims asserted against WVAWC therein by Mountaineer Gas. Mountaineer Gas subsequently voluntarily dismissed its cross-claims. On November 14, 2025, the Plaintiffs in the *Ruffin* and *Toliver* lawsuits jointly filed a motion for class certification. On December 22, 2025, the Kanawha County Circuit Court entered a joint order setting a schedule for class certification with a hearing on the motion to be held on March 17, 2026. The Court also ordered mediation and continued the previously set February 2, 2026 trial date.

On December 6, 2023, WVAWC initiated a process whereby Mountaineer Gas customers could file claims with WVAWC and seek payment from WVAWC of up to $2,000 in damages per affected household for the inconvenience arising from a loss of use of their appliances and documented out-of-pocket expenses as a result of the natural gas outage. In light of the diminishing number of new claims that had been filed, the claims process was concluded on March 8, 2024. As of December 31, 2024, a total of 594 Mountaineer Gas customers completed this claims process and each of those customers has been paid by WVAWC an average of approximately $1,500. In return, these customers were required to execute a partial release of liability in favor of WVAWC.

On November 16, 2023, the Public Service Commission of West Virginia (the "WVPSC") issued an order initiating a general investigation into both the water main break and natural gas outages occurring in this incident to determine the cause or causes thereof, as well as breaks and outages generally throughout the systems of WVAWC and Mountaineer Gas and the utility practices of both utilities. Following a series of disagreements among the parties regarding the scope of discovery, the WVPSC closed the general investigation into both utilities and ordered a separate general investigation for each utility. The WVPSC focused the two general investigations away from the cause of the events and instead on the maintenance practices of each utility during and after the main breaks. On January 29, 2024, the Consumer Advocate Division of the WVPSC filed a motion to intervene in the WVAWC general investigation.

On April 24, 2024, the staff issued a final joint memorandum in the Mountaineer Gas general investigation stating its view that Mountaineer Gas responded appropriately, reasonably and according to Mountaineer Gas's written procedures. The staff is making no recommendations for improvements to Mountaineer Gas and is recommending that the Mountaineer Gas general investigation be closed. On July 24, 2024, the staff issued a final joint memorandum in the WVAWC general investigation finding no indication of systematic failure by WVAWC and concluding WVAWC's maintenance and operating procedures were adequate to ensure safe and reliable service, subject to the implementation by WVAWC of three recommended operational improvements. Both general investigations remain pending.

The Company and WVAWC believe that the causes of action and other claims asserted against WVAWC in the class action complaints and the lawsuit filed by Mountaineer Gas are without merit and that WVAWC has valid, meritorious defenses to such claims. WVAWC continues to defend itself vigorously in these litigation proceedings. Given the current stage of these proceedings and the general investigation, the Company and WVAWC are currently unable to predict the outcome of any of the proceedings described above.

PFAS Multi-District Litigation

Several of the Company's utility subsidiaries are parties to a multi-district litigation (the "MDL") lawsuit, which commenced on December 7, 2018, in U.S. District Court for the District of South Carolina, against manufacturers of certain PFAS for damages, contribution and reimbursement of costs incurred and continuing to be incurred to address the presence of such PFAS in public water supply systems owned and operated by these utility subsidiaries and throughout their service areas. Settlements with several defendants in the MDL proceeding have received final approval by the MDL court.

As of December 31, 2025, the Company has received settlement payments from defendants 3M Company and DuPont de Nemours, Inc. totaling $159 million, net of legal fees and administrative costs and exclusive of interest. The Company intends to seek regulatory approval from its respective PUCs to apply the net proceeds for the benefit of customers, where permissible. Regulatory approvals have been obtained with respect to seven of the Company's utility subsidiaries that are parties to the MDL, and two regulatory applications have been denied. Most of the funds received by the Company are being held in a law firm escrow account and are awaiting distribution to the Company's utility subsidiaries that are parties to the MDL after approval or denial is received from the applicable PUCs. As of December 31, 2025, approximately $47 million of the escrowed funds, including escrow interest, has been transferred from the law firm escrow account for distribution to utility subsidiaries that have received approval. The Company anticipates that, during 2026, it may receive one or more additional settlement payments from the defendants in the MDL.

During 2025, the Company was made aware of a number of substantially similar personal injury short-form complaints that had been filed in the MDL naming, in addition to various other water providers and manufacturers, certain Company utility subsidiaries as defendants. The Company believes that the claims that had been asserted are without merit and the relevant utility subsidiaries have valid, meritorious defenses to the claims. In October 2025, all MDL personal injury complaints that the Company had been made aware of were dismissed by the plaintiffs without prejudice.

General

Periodically, the Company is involved in other proceedings or litigation arising in the ordinary course of business. Other than those proceedings described in this Item 3—Legal Proceedings, the Company does not believe that the ultimate resolution of these matters will materially affect its financial position or results of operations. However, litigation and other proceedings are subject to many uncertainties, and the outcome of individual matters is not predictable with assurance. It is possible that some litigation and other proceedings could be decided unfavorably to the Company, and that any such unfavorable decisions could have a material adverse effect on its business, financial condition, results of operations and cash flows.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Since April 23, 2008, the Company's common stock has traded on the New York Stock Exchange ("NYSE") under the symbol "AWK." As of February 9, 2026, there were 195,208,666 shares of common stock outstanding held by approximately 1,773 record holders. Holders of the Company's common stock are entitled to receive dividends when they are declared by its Board of Directors. See Note 9—Shareholders' Equity in the Notes to Consolidated Financial Statements for additional information regarding the Company's dividends.

In February 2015, the Board of Directors authorized an anti-dilutive stock repurchase program to mitigate the dilutive effect of shares issued through the Company's dividend reinvestment, employee stock purchase and executive compensation activities. The program allows the Company to purchase up to 10 million shares of its outstanding common stock over an unrestricted period of time in the open market or through privately negotiated transactions. The program is conducted in accordance with Rule 10b-18 of the Exchange Act, and, to facilitate these repurchases, the Company enters into Rule 10b5-1 stock repurchase plans with a third-party broker, which allow the Company to repurchase shares of its common stock at times when it otherwise might be prevented from doing so under insider trading laws or because of self-imposed trading blackout periods. Subject to applicable regulations, the Company may elect to amend or cancel the program or the stock repurchase parameters at its discretion to manage dilution.

From April 1, 2015, the date repurchases under the anti-dilutive stock repurchase program commenced, through December 31, 2025, the Company repurchased an aggregate of 4,860,000 shares of its common stock under the program, leaving an aggregate of 5,140,000 shares available for repurchase under this program. There were no repurchases of common stock in 2025.

ITEM 6. [RESERVED]

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read together with the Consolidated Financial Statements and the Notes thereto included elsewhere in this Annual Report on Form 10-K. This discussion contains forward-looking statements that are based on management's current expectations, estimates and projections about the Company's business, operations and financial performance. The cautionary statements made in this Annual Report on Form 10-K should be read as applying to all related forward-looking statements whenever they appear in this Annual Report on Form 10-K. The Company's actual results may differ materially from those currently anticipated and expressed in such forward-looking statements as a result of a number of factors, including those that are discussed under "Forward-Looking Statements," Item 1A—Risk Factors and elsewhere in this Annual Report on Form 10-K. The Company has a disclosure committee consisting of members of senior management and other key employees involved in the preparation of the Company's SEC reports. The disclosure committee is actively involved in the review and discussion of the Company's SEC filings. For a discussion and analysis of the Company's financial statements for fiscal 2024 compared to fiscal 2023, please refer to Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2024, filed with the SEC on February 19, 2025.

Overview

American Water is the largest and most geographically diverse, publicly-traded water and wastewater utility company in the United States, as measured by both operating revenues and population served. The Company employs approximately 7,000 professionals who provide drinking water, wastewater and other related services to approximately 14 million people in 24 states. The Company's primary business involves the ownership of utilities that provide water and wastewater services to residential, commercial, industrial, public authority, fire service and sale for resale customers, collectively presented as the "Regulated Businesses." The Company's utilities operate in 14 states in the United States, with 3.6 million active customers with services provided by its water and wastewater networks. Services provided by the Company's utilities are subject to regulation by PUCs. The Company also operates other businesses not subject to economic regulation by state PUCs that provide water and wastewater services to the U.S. government on military installations, as well as municipalities, collectively presented throughout this Annual Report on Form 10-K within "Other." See Item 1—Business for additional information.

Financial Results

The following table provides the Company's diluted earnings per share (GAAP) and adjusted diluted earnings per share (a non-GAAP measure):

	For the Years Ended December 31,		
	2025	2024	2023
Diluted earnings per share (GAAP):			
Net income attributable to shareholders	$ 5.69	$ 5.39	$ 4.90
Non-GAAP adjustments:			
Estimated impact of favorable weather	—	(0.16)	(0.17)
Income tax impact	—	0.04	0.04
Net non-GAAP adjustment	—	(0.12)	(0.13)
Incremental interest income from amended HOS seller note	(0.13)	(0.12)	—
Income tax impact	0.03	0.03	—
Net non-GAAP adjustment	(0.10)	(0.09)	—
Transaction costs associated with the pending merger with Essential	0.07	—	—
Income tax impact	(0.02)	—	—
Net non-GAAP adjustment	0.05	—	—
Total net adjustments	(0.05)	(0.21)	(0.13)
Adjusted diluted earnings per share (non-GAAP)	$ 5.64	$ 5.18	$ 4.77

For the year ended December 31, 2025, diluted earnings per share (GAAP) was $5.69, an increase of $0.30 per diluted share compared to the prior year, which includes the net adjustments presented in the table above and discussed in greater detail in the "Adjustments to GAAP" section below. Excluding the net adjustments presented in the table above, adjusted diluted earnings per share (non-GAAP) was $5.64 for the year ended December 31, 2025, an increase of $0.46 per diluted share compared to the prior year. These results were driven primarily by the implementation of new rates in the Regulated Businesses from capital and acquisition investments. Results also reflect increased production and employee-related costs, increased depreciation and higher financing costs used to fund the current capital investment plan.

For the year ended December 31, 2024, diluted earnings per share (GAAP) was $5.39, an increase of $0.49 per diluted share compared to the prior year, which includes the net adjustments presented in the table above and discussed in greater detail in the "Adjustments to GAAP" section below. Excluding the net adjustments presented in the table above, adjusted diluted earnings per share (non-GAAP) was $5.18 for the year ended December 31, 2024, an increase of $0.41 per diluted share compared to the prior year. These results were driven primarily by the implementation of new rates in the Regulated Businesses from capital and acquisition investments. Results also reflect increased production and employee-related costs, increased depreciation and higher financing costs used to fund the current capital investment plan.

Adjustments to GAAP

Adjusted diluted earnings per share represents a non-GAAP financial measure and, as shown in the table above, is calculated as GAAP diluted earnings per share, excluding the impact of one or more of the following events: (i) estimated impact of weather; (ii) incremental interest income from the February 2, 2024 amendment to the HOS secured seller promissory note, which increased the aggregate principal amount from $720 million to $795 million and increased the interest rate from 7.00% per year to 10.00% per year; and (iii) transaction costs incurred during 2025 associated with the proposed merger with Essential. The most directly comparable GAAP measure for adjusted diluted earnings per share is the reported diluted earnings per share (GAAP) and is reconciled in the table above.

The Company believes that this non-GAAP measure provides investors with useful information by excluding certain matters that may not be indicative of its ongoing operating results (or, in the case of weather, that is outside the Company's operational control and is subject to significant period-to-period variability), and that providing this non-GAAP measure will allow investors to better understand the businesses' operating performance and facilitate a meaningful year-to-year comparison of the Company's results of operations and without the estimated impact of weather. Although management uses this non-GAAP financial measure internally to evaluate its results of operations, the Company does not intend results reflected by this non-GAAP measure to represent results as defined by GAAP, and the reader should not consider them as indicators of performance. This non-GAAP financial measure is derived from the Company's consolidated financial information but is not presented in the financial statements prepared in accordance with GAAP. This measure should be considered in addition to, and not as a substitute for, measures of financial performance prepared in accordance with GAAP. In addition, this non-GAAP financial measure as defined and used above, may not be comparable to similarly titled non-GAAP measures used by other companies, and, accordingly, may have significant limitations on its use.

Growth Through Capital Investment in Infrastructure and Regulated Acquisitions

The Company continues to grow its businesses, with the substantial majority of its growth to be achieved in the Regulated Businesses through (i) continued capital investment in the Company's infrastructure to provide safe, clean, reliable and affordable water and wastewater services to its customers, (ii) regulated acquisitions to expand the Company's services to new customers and (iii) organic growth in existing systems. In 2025, the Company invested $3.2 billion, in the Regulated Businesses, as discussed below:

- $3.2 billion capital investment in the Regulated Businesses, for infrastructure improvements and replacements; and
- $83 million to fund acquisitions in the Regulated Businesses, which added approximately 20,900 customers during 2025. This includes the Company's acquisitions effective May 28, 2025, and October 27, 2025, of all the outstanding capital stock of Audubon Water Company and Appalachian Utilities Inc., respectively, for aggregate consideration of $11 million, in the form of shares of parent company common stock.
- Approximately 18,900 new customers were added through organic growth in existing systems.

The Company expects to invest between $19 billion to $20 billion over the next five years, and between $46 billion to $48 billion over the next 10 years, including $3.7 billion in 2026. The Company's expected future investments include:

- capital investment for infrastructure improvements and replacements in the Regulated Businesses of between $17 billion to $17.5 billion over the next five years, and between $42 billion to $43 billion over the next 10 years; and
- growth from acquisitions in the Regulated Businesses to expand the Company's water and wastewater customer base of between $2 billion to $2.5 billion over the next five years, and between $4 billion to $5 billion over the next 10 years.

The Company estimates the expected capital investment for infrastructure improvements in its Regulated Businesses over the next ten years will be allocated to the following purposes: infrastructure renewal 70%; resiliency 10%; water quality, including capital expenditures related to PFAS 8%; operational efficiency, technology and innovation 5%; system expansion 4%; other 3%.

Excluding the Essential Merger Agreement, as of December 31, 2025, the Company had entered into 20 agreements with a total aggregate purchase price of $582 million for pending acquisitions in the Regulated Businesses to add approximately 104,300 additional customers.

Agreement and Plan of Merger with Essential

On October 26, 2025, parent company entered into the Essential Merger Agreement to combine the two companies in a stock-for-stock transaction. The Essential Merger Agreement provides that, upon the completion of the proposed merger, Essential's shareholders will receive 0.305 shares of parent company common stock in exchange for each share of Essential common stock eligible for exchange in the merger. Upon completion of the proposed merger, Essential will be a wholly owned subsidiary of parent company, which will retain its existing name and remain headquartered in Camden, New Jersey. The Company will continue to maintain substantial operations in Pennsylvania, including Essential's offices in Bryn Mawr and Pittsburgh, Pennsylvania.

Completion of the proposed merger is subject to certain customary conditions, including, among others, the receipt of required approvals from all applicable PUCs on such terms and conditions that would not, individually or in the aggregate, result in a Burdensome Effect (as defined in the Essential Merger Agreement), and the expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976. There can be no guarantee that all of the closing conditions and approvals will be satisfied, and the failure to complete the proposed merger on a timely basis or at all may adversely affect the Company's financial condition and results of operations. The Company currently estimates that the closing of the proposed merger will occur by the end of the first quarter of 2027. For the year ended December 31, 2025, $13 million of merger-related costs were included in Operation and maintenance expense in the Consolidated Statements of Operations. Including the costs incurred for the year ended December 31, 2025, the Company estimates a total of $150 million of merger-related costs will be incurred by the Company and by Essential prior to the closing of the proposed merger.

Purchase and Sale Agreement with Nexus Regulated Utilities, LLC

On May 19, 2025, the Company entered into a Purchase and Sale Agreement (the "Purchase Agreement") with Nexus Regulated Utilities, LLC ("Seller"), a subsidiary of Nexus Water Group, Inc., a privately-held water and wastewater utility. Seller directly owns all of the issued and outstanding equity interests in specified entities (collectively, the "Acquired Entities") that own regulated water and wastewater system assets located in Illinois, Indiana, Kentucky, Maryland, New Jersey, Pennsylvania, Tennessee and Virginia. Under the terms of the Purchase Agreement, the Company has agreed to acquire from Seller all of Seller's equity interests in each of the Acquired Entities on a cash-free and debt-free basis. The aggregate purchase price to be paid by the Company will be approximately $315 million in cash, subject to adjustment at closing based on the calculations and criteria provided in the Purchase Agreement. Aggregate rate base that would be acquired at closing is estimated to be approximately $200 million, subject to final determination by the respective PUCs. Based on current connection counts, the Company would add nearly 47,000 customer connections in total to its Regulated Businesses in the eight states above. The Company intends to fund the payment of the final purchase price through its cash flow from operations and its existing sources of liquidity. Closing is subject to certain customary and other conditions, including, among others, the receipt of all required regulatory approvals. The Company currently anticipates that the closing will occur by or before August 2026.

Other Matters

PFAS Multi-District Litigation

Several of the Company's utility subsidiaries are parties to an MDL lawsuit, which commenced on December 7, 2018, in U.S. District Court for the District of South Carolina, against manufacturers of certain PFAS for damages, contribution and reimbursement of costs incurred and continuing to be incurred to address the presence of such PFAS in public water supply systems owned and operated by these utility subsidiaries and throughout their service areas. Settlements with several defendants in the MDL proceeding have received final approval by the MDL court.

As of December 31, 2025, the Company has received settlement payments from defendants 3M Company and DuPont de Nemours, Inc. totaling $159 million, net of legal fees and administrative costs and exclusive of interest. The Company intends to seek regulatory approval from its respective PUCs to apply the net proceeds for the benefit of customers, where permissible. Regulatory approvals have been obtained with respect to seven of the Company's utility subsidiaries that are parties to the MDL, and two regulatory applications have been denied. Most of the funds received by the Company are being held in a law firm escrow account and are awaiting distribution to the Company's utility subsidiaries that are parties to the MDL after approval or denial is received from the applicable PUCs. As of December 31, 2025, the funds held in a law firm escrow account totaled $114 million and have been recorded on the Company's Consolidated Balance Sheet within other current assets. A corresponding amount has been recorded as a regulatory liability. As of December 31, 2025, approximately $47 million of the escrowed funds, including escrow interest, has been transferred from the law firm escrow account for distribution to utility subsidiaries that have received approval. The Company anticipates that, during 2026, it may receive one or more additional settlement payments from the defendants in the MDL.

The Company has also become aware of a number of substantially similar personal injury short-form complaints that had been filed in the MDL naming, in addition to various other water providers and manufacturers, certain Company utility subsidiaries as defendants. The Company believes that the claims asserted are without merit and the relevant utility subsidiaries have valid, meritorious defenses to the claims. In October 2025, all MDL personal injury complaints that the Company had been made aware of were dismissed by the plaintiffs without prejudice.

Environmental, Health and Safety, and Water Quality Regulation

On April 10, 2024, the EPA announced a final NPDWR for six PFAS including PFOA, PFOS, PFNA, HFPO-DA, PFHxS, and PFBS. The NPDWR for PFAS establishes MCLs, for PFAS in drinking water. Utilities will be required to complete their initial monitoring for PFAS by 2027, followed by ongoing compliance monitoring. Although the EPA has indicated their intent to extend the compliance deadline to 2031, under the current rule, utilities will be required to comply with the new MCLs by April 2029, implementing solutions to reduce PFAS levels where needed. Beginning in April 2029, utilities that exceed any of the PFAS MCLs will be required to provide notification to the public of the violation.

The Company currently estimates an investment of approximately $2 billion of capital expenditures to install additional treatment facilities in order to comply with the NPDWR for PFAS as proposed. Additionally, the Company estimates that it will incur annual operating expenses of up to approximately $50 million related to testing and treatment, with the majority of the operating expenses beginning near the April 2029 compliance deadline. The actual level of capital investment and expenses may differ from these estimates and will be dependent upon market dynamics upon implementation of solutions to comply with the NPDWR for PFAS.

On October 30, 2024, the EPA published the LCRI with a "Compliance Date" of November 1, 2027. The LCRI focus includes requirements related to (i) replacing all lead and certain galvanized service lines under a utilities control by October 30, 2037, 10 years from the Compliance Date; (ii) identifying the materials of all service lines of unknown material; (iii) improving tap sampling; (iv) lowering the lead action level; and (v) strengthening protections to reduce exposure. The Company estimates an investment of approximately $1.5 billion of capital expenditures between 2026 and 2030 related to complying with the LCRI. The Company will continue to invest thereafter in order to fully comply with the LCRI by 2037.

Regulatory Matters

General Rate Cases

The table below summarizes the annualized incremental revenues, assuming a constant sales volume and customer count, resulting from general rate case authorizations that became effective during 2025. The amounts include reductions for the amortization of the excess accumulated deferred income taxes ("EADIT") that are generally offset in income tax expense.

(In millions)	Effective Date	Amount
General rate cases by state:		
Kentucky	December 16, 2025	$ 18
Hawaii	August 1, 2025	1
Iowa	August 1, 2025 (a)	13
Missouri	May 28, 2025	63
Indiana, Step Increase	May 14, 2025	17
Virginia	February 24, 2025 (b)	15
Tennessee	January 21, 2025	1
Illinois	January 1, 2025	105
California, Step Increase	January 1, 2025	17
Total general rate case authorizations		$ 250

(a) Interim rates of $5 million were effective May 11, 2024. The Iowa Utilities Commission issued its final order on May 21, 2025.

(b) Interim rates were effective May 1, 2024, and the difference between interim and final approved rates were subject to refund. The Virginia State Corporation Commission issued its final order on February 24, 2025.

The table below summarizes the annualized incremental revenues, assuming a constant sales volume and customer count, resulting from general rate case authorizations that became effective on or after January 1, 2026. The amounts include reductions for the amortization of EADIT that are generally offset in income tax expense.

(In millions)	Effective Date	Amount
General rate cases by state:		
California, Attrition Increase	January 1, 2026	$ 14
Total general rate case authorizations		$ 14

On December 16, 2025, the Kentucky Public Service Commission issued a final order approving the adjustment of base rates requested in a general rate case originally filed on May 16, 2025, by the Company's Kentucky subsidiary. The final order approved an $18 million annualized increase in water system revenues, excluding infrastructure surcharges of $10 million, based on an authorized return on equity of 9.70%, authorized rate base of $667 million and a capital structure with a common equity component of 52.26% and a non-equity component of 47.74%. The final order also terminated the Kentucky subsidiary's Qualified Infrastructure Program ("QIP") rider and included the costs and investments of the QIP in approved base rates. The requested annualized revenue increase was driven primarily by approximately $212 million of capital investments completed and planned by the Kentucky subsidiary from February 2025 through December 2026. The new rates were effective as of December 16, 2025.

On July 24, 2025, the Hawaii Public Utilities Commission issued a final order adopting the settlement agreement filed by the Company's Hawaii subsidiary on April 25, 2025, with respect to its general rate case filed on August 2, 2024. The final order approves an annualized increase of approximately $1 million in wastewater revenue, which is based on a return on equity of 9.75% and a capital structure with an equity component of 52.11% and a debt component of 47.89%. New rates were effective August 1, 2025.

On May 21, 2025, the Iowa Utilities Commission issued a final order approving the adjustment of base rates requested in a general rate case originally filed on May 1, 2024, by the Company's Iowa subsidiary. The general rate case order approved a $13 million annualized increase in water and wastewater system revenues, excluding infrastructure surcharges of $1 million, based on an authorized return on equity of 9.60%, authorized rate base of $262 million, and a capital structure with a common equity component of 52.57% and a long-term debt component of 47.43%. The requested annualized revenue increase was driven primarily by over $157 million of capital investments made and expected to be made by the Iowa subsidiary through March 2026. Interim rates of $5 million were effective May 11, 2024, with the remaining increase in annualized water and wastewater system revenues of $8 million effective on August 1, 2025.

On May 14, 2025, the Company's Indiana subsidiary's third step increase of $17 million in annualized water and wastewater system revenues became effective. The Indiana subsidiary filed the general rate case on March 31, 2023, and on February 14, 2024, the Indiana Utility Regulatory Commission (the "IURC") issued an order that approved a $65 million annualized increase in water and wastewater system revenues, excluding previously recovered infrastructure surcharges. The annualized revenue increase included three step increases, with $25 million of the increase included in rates in February 2024, $23 million in May 2024, and $17 million in May 2025.

On May 7, 2025, the Missouri Public Service Commission (the "MoPSC") issued an order approving without modification the stipulation and agreement (the "Stipulation") with respect to a general rate case filed on July 1, 2024, by the Company's Missouri subsidiary. The Stipulation was entered into on March 17, 2025, with parties including the staff of the MoPSC and the Office of the Public Counsel. The general rate case order approves a $63 million annualized increase in water and wastewater revenues, excluding $63 million in infrastructure surcharges. The requested annualized revenue increase was driven primarily by $1.1 billion of capital investments completed by the Missouri subsidiary from January 2023 through May 2025. For purposes of the general rate case, the Missouri subsidiary's view of its rate base is $3.2 billion, and its view as to its return on equity and common equity ratio (each of which has been determined based on the order but was not disclosed therein) is 9.75% and 50.00%, respectively. The new rates were effective May 28, 2025.

On February 24, 2025, the Virginia State Corporation Commission (the "SCC") issued an order approving the September 19, 2024 joint "black box" settlement of the general rate case filed by the Company's Virginia subsidiary. The general rate case order approves the stipulated $15 million annualized increase in water and wastewater revenues. Interim water and wastewater rates became effective May 1, 2024, with the difference between interim and final approved rates subject to refund. The requested annualized revenue increase was driven primarily by more than $110 million of incremental capital investments made between May 2023 and April 2025. For purposes of the general rate case, the Virginia subsidiary's view of its rate base is $369 million. The general rate case order also approved, solely for purposes of the Virginia subsidiary's future filings requiring a stated cost of capital and/or capital structure (including its annual information and water and wastewater infrastructure surcharge filings), a return on equity of 9.70% and a capital structure consisting of an equity component of 45.67% and a debt and other component of 54.33%, which also represents the Virginia subsidiary's view of its return on equity and capital structure in this general rate case.

On January 21, 2025, the Tennessee Public Utility Commission (the "TPUC") approved a motion authorizing an adjustment of water base rates requested in a rate case filed on May 1, 2024, by the Company's Tennessee subsidiary. The TPUC approved an increase of $1 million in annualized revenues, excluding previously recovered infrastructure surcharges of $18 million, based on an authorized return on equity of 9.70%, authorized rate base of approximately $300 million, a common equity ratio of 44.19% and a debt ratio of 55.81%. This adjustment took effect on January 21, 2025, and is driven primarily by approximately $173 million in capital investments completed and planned by the Tennessee subsidiary through December 2025.

On January 14, 2025, the CPUC granted the Company's California subsidiary's request for a one-year extension of its cost of capital filing to May 1, 2026, to set its authorized cost of capital beginning January 1, 2027, and maintain its current authorized cost of capital through 2026. On November 10, 2025, the California subsidiary submitted a request to further delay by one-year its cost of capital filing and maintain the authorized cost of capital through 2027. On November 18, 2025, the CPUC granted the request for a one-year extension of the cost of capital filing to May 1, 2027, to set its authorized cost of capital beginning January 1, 2028.

On December 5, 2024, the Illinois Commerce Commission (the "ICC") issued a final order approving the adjustment of base rates requested in a rate case originally filed on January 25, 2024, by the Company's Illinois subsidiary. The general rate case order approved an increase of $105 million in annualized water and wastewater system revenues, excluding previously recovered infrastructure surcharges of $5 million, based on an authorized return on equity of 9.84%, authorized rate base of $2.2 billion, and a capital structure with an equity component of 49.00% and a debt component of 51.00%. The increase was effective January 1, 2025, and is driven primarily by approximately $557 million in capital investments completed and planned by the Illinois subsidiary from January 2024 through December 2025.

On December 5, 2024, the CPUC approved a final decision adopting the terms of a partial settlement agreement filed on November 17, 2023, in the Company's California subsidiary's general rate case originally filed on July 1, 2022. Incorporating the then currently effective return on equity of 10.20%, the decision provides incremental annualized water and wastewater revenues of $21 million in the 2024 test year, and an estimated $16 million in the 2025 escalation year and $16 million in the 2026 attrition year. The 2024 rates were implemented retroactively to January 1, 2024. In addition, the CPUC denied the California subsidiary's proposed Water Resources Sustainability Plan decoupling mechanism but approved continuation of its currently effective Annual Consumption Adjustment Mechanism. On December 12, 2024, the California subsidiary filed an application for rehearing of the CPUC's denial of the proposed Water Resources Sustainability Plan decoupling mechanism, and on May 23, 2025, the CPUC issued its decision denying the application for rehearing. On September 19, 2025, the California subsidiary filed a petition to modify the CPUC order received on December 5, 2024, for its general rate case originally filed on July 1, 2022. The request seeks clarification from the CPUC on the method used to calculate the Conservation Adjustment for Rate Tier Designs ("CART"), specifically for the California subsidiary's Monterey service area. The CART is a ratemaking mechanism that allows the Company to recover, in subsequent periods, a portion of the impact on operating revenues as a result of implementing customer rates structured to promote conservation usage. On October 20, 2025, the California Public Advocate submitted a response opposing the California subsidiary's request and stating the request should instead be addressed in the California subsidiary's pending base rate case. On October 30, 2025, the California subsidiary filed a reply to the California Public Advocate's response which underscored the need for clarity on the CART calculation. The California subsidiary expects resolution of the petition to modify later in 2026.

Pending General Rate Case Filings

On January 27, 2026, the Company's Illinois subsidiary filed a request with the ICC to adjust its water and wastewater rates. The filing seeks a two-step rate increase in aggregate annualized incremental revenue, based on a proposed return on equity of 10.75%, of (i) approximately $119 million effective January 1, 2027, based on a future test year through December 31, 2027 and a capital structure with an equity component of 52.42% and a debt component of 47.58%, and (ii) approximately $15 million effective January 1, 2028, based on a future test year to include end-of-period rate base and a capital structure with an equity component of 52.74% and a debt component of 47.26%, in each case, exclusive of infrastructure surcharges. The request is driven primarily by approximately $577 million in capital investments made and to be made by the Illinois subsidiary from January 2026 through December 2027. The request must be approved by the ICC.

On January 16, 2026, the Company's New Jersey subsidiary filed a request with the New Jersey Board of Public Utilities (the "NJBPU") to adjust its water and wastewater rates. The request seeks aggregate annualized incremental revenues of approximately $146 million and is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 55.18% and a debt component of 44.82%. The requested annualized incremental revenue is driven primarily by more than $1.4 billion of capital investments completed and planned by the New Jersey subsidiary through December 2026. The filing is subject to the approval of the NJBPU.

On November 14, 2025, the Company's Pennsylvania subsidiary filed a request with the Pennsylvania Public Utility Commission (the "PaPUC") to adjust its water and wastewater rates. The request seeks aggregate annualized incremental revenue of approximately $169 million, excluding projected infrastructure surcharges of approximately $19 million. The request is based on a proposed return on equity of 10.95% and a capital structure with an equity component of 55.33%. The requested annualized incremental revenue is driven primarily by an estimated $1.2 billion of capital investments completed or planned to be completed from June 2025 through mid-2027. The rate request is subject to approval by the PaPUC, and new rates would be expected to take effect in August 2026.

On November 3, 2025, the Company's Virginia subsidiary filed a request with the SCC to adjust its water and wastewater rates. The request seeks aggregate annualized incremental revenues of approximately $22 million and is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 51.79%. The requested annualized incremental revenue is driven primarily by more than $115 million of capital investments completed and planned by the Virginia subsidiary from May 2025 through April 2027. The filing is subject to the approval of the SCC. Interim rates will be effective May 2, 2026, with the difference between interim and final approved rates subject to refund to customers.

On August 1, 2025, the Company's Maryland subsidiary filed a general rate case requesting approximately $3 million in annualized incremental revenues, which is based on a proposed return on equity of 10.64% and a capital structure with an equity component of 52.32%. The requested annualized incremental revenue is driven primarily by approximately $22 million of capital investments completed by the Maryland subsidiary from February 2019 through April 2025. The filing must be approved by the Public Service Commission of Maryland, and if approved, it is anticipated that new rates would take effect in March 2026.

On July 1, 2025, the Company's California subsidiary filed an application with the CPUC to set new water and wastewater rates in each of its service areas for 2027 through 2029. On October 13, 2025, the California subsidiary filed its 100 day update for the same proceeding and updated the request to $62 million compared to authorized 2025 revenue, and a total increase in revenue over the 2027 to 2029 period of $110 million. Subsequent to the filing of the update, the California subsidiary adjusted its authorized rates effective January 1, 2026, which revised its net increase proposed for the test year 2027 to $51 million above 2026 expected revenues. The requested annualized incremental revenue is driven primarily by approximately $750 million of capital investments completed and planned by the California subsidiary through 2025 to 2028. If approved by the CPUC, the new rates would take effect on January 1, 2027. The application also requests approval of a Fixed Cost Recovery Account, which is intended to be a full decoupling mechanism that would allow the California subsidiary to recover authorized fixed costs, regardless of sales volume, while also providing incentives, via progressive conservation-oriented rate design, for customers to use water more efficiently.

On May 5, 2025, the Company's West Virginia subsidiary filed a general rate case requesting approximately $48 million in aggregate annualized incremental revenues, excluding infrastructure surcharges of $13 million, which would include two step increases, with $33 million to be included in rates in March 2026, and $15 million to be included in rates in March 2027. The request is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 50.80% and 50.97%, respectively, for each of the two steps. The requested annualized incremental revenue is driven primarily by more than $300 million of capital investments completed and planned by the West Virginia subsidiary from March 2024 through February 2027. The request is subject to approval by the Public Service Commission of West Virginia, and the general rate case is expected to be completed by the end of February 2026.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective during 2025:

(In millions)	Effective Date	Amount
Infrastructure surcharges by state:		
New Jersey	November 29, 2025	$ 26
Pennsylvania	October 1, 2025	5
New Jersey	May 30, 2025	15
Missouri	February 7, 2025	17
Kentucky	January 1, 2025	2
West Virginia	January 1, 2025	4
Total infrastructure surcharge authorizations		$ 69

Presented in the table below are annualized incremental revenues, assuming a constant sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective on or after January 1, 2026:

(In millions)	Effective Date	Amount
Infrastructure surcharge filings by state:		
Pennsylvania	January 1, 2026	$ 11
Illinois	January 1, 2026	5
Total infrastructure surcharge filings		$ 16

Pending Infrastructure Surcharge Filings

On January 20, 2026, the Company's Indiana subsidiary filed an infrastructure surcharge proceeding requesting $15 million in additional annualized revenues.

On September 3, 2025, the Company's Missouri subsidiary filed an infrastructure surcharge proceeding requesting $13 million in additional annualized revenues.

On June 30, 2025, the Company's West Virginia subsidiary filed an infrastructure surcharge proceeding requesting $3 million in additional annualized revenues.

Other Regulatory Matters

The PaPUC, as part of its July 22, 2024 approval of the general rate case filed by the Company's Pennsylvania subsidiary on November 8, 2023, initiated an investigation into certain reported water service and water quality issues in the Pennsylvania subsidiary's Northeastern service territory, which reports had been provided during public input hearings convened in the general rate case. The PaPUC concluded the investigation and issued a Root Cause Analysis Report on August 5, 2025, which found no systemic issues affecting the Pennsylvania subsidiary's water service in the Northeastern service territory and expressed satisfaction with the Pennsylvania subsidiary's efforts to manage water service matters. The PaPUC committed to continued monitoring of the Pennsylvania subsidiary's service over the next three years.

Consolidated Results of Operations

Presented in the table below are the Company's consolidated results of operations:

	For the Years Ended December 31,		
(In millions)	**2025**	**2024**	**2023**
Operating revenues	$ 5,140	$ 4,684	$ 4,234
Operating expenses:			
Operation and maintenance	2,019	1,858	1,720
Depreciation and amortization	894	788	704
General taxes	348	320	307
Other	—	—	(1)
Total operating expenses, net	3,261	2,966	2,730
Operating income	1,879	1,718	1,504
Other income (expense):			
Interest expense	(615)	(523)	(460)
Interest Income	90	94	73
Non-operating benefit costs, net	16	28	32
Other, net	52	42	47
Total other income (expense)	(457)	(359)	(308)
Income before income taxes	1,422	1,359	1,196
Provision for income taxes	311	308	252
Net income attributable to common shareholders	$ 1,111	$ 1,051	$ 944

Segment Results of Operations

The Company's operating segments are comprised of its businesses which generate revenue, incur expense and have separate financial information which is regularly used by the chief operating decision maker to make operating decisions, assess performance and allocate resources. The Company operates its business primarily through one reportable segment, the Regulated Businesses segment. Other primarily includes MSG, which does not meet the criteria of a reportable segment in accordance with GAAP. Other also includes corporate costs that are not allocated to the Company's Regulated Businesses, interest income related to the secured seller promissory note from the sale of HOS, income from assets not associated with the Regulated Businesses, eliminations of inter-segment transactions and fair value adjustments related to acquisitions that have not been allocated to the Regulated Businesses segment. This presentation is consistent with how management assesses the results of these businesses. For a discussion and analysis of the Company's financial statements for fiscal 2024 compared to fiscal 2023, please refer to Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2024, filed with the SEC on February 19, 2025.

Regulated Businesses Segment

Presented in the table below is financial information for the Regulated Businesses:

	For the Years Ended December 31,		
(In millions)	**2025**	**2024**	**2023**
Operating revenues	$ 4,723	$ 4,296	$ 3,920
Operation and maintenance	1,642	1,517	1,441
Depreciation and amortization	883	772	693
General taxes	325	301	288
Other operating (income) expense	—	—	(1)
Other income (expense)	(415)	(339)	(269)
Provision for income taxes	321	302	259
Net income attributable to common shareholders	$ 1,137	$ 1,065	$ 971

Operating Revenues

Presented in the tables below is information regarding the main components of the Regulated Businesses' operating revenues:

	For the Years Ended December 31,		
(In millions)	**2025**	**2024**	**2023**
Water services:			
Residential	$ 2,557	$ 2,349	$ 2,143
Commercial	981	885	798
Fire service	189	164	158
Industrial	195	184	167
Public and other	311	291	274
Total water services	4,233	3,873	3,540
Wastewater services:			
Residential	287	245	228
Commercial	86	70	62
Industrial	10	12	8
Public and other	39	36	29
Total wastewater services	422	363	327
Other (a)	68	60	53
Total operating revenues	$ 4,723	$ 4,296	$ 3,920

(a) Includes other operating revenues consisting primarily of alternative revenue programs, miscellaneous utility charges, fees and rents.

	For the Years Ended December 31,		
(Gallons in millions)	**2025**	**2024**	**2023**
Billed water services volumes:			
Residential	161,270	163,583	160,921
Commercial	80,864	80,385	78,404
Industrial	36,703	37,217	36,404
Fire service, public and other	54,405	54,700	54,236
Total billed water services volumes	333,242	335,885	329,965

In 2025, as compared to 2024, operating revenues increased $427 million, primarily due to a $406 million increase from authorized rate increases, including infrastructure surcharges, principally to recover infrastructure investment in various states. In addition, operating revenues increased $49 million from water and wastewater acquisitions, as well as organic growth in existing systems. These increases were partially offset by an estimated $36 million decrease in 2025, due to warmer, drier weather compared to normal in 2024.

Operation and Maintenance

Presented in the table below is information regarding the main components of the Regulated Businesses' operating and maintenance expense:

	For the Years Ended December 31,		
(In millions)	**2025**	**2024**	**2023**
Employee-related costs	$ 582	$ 543	$ 513
Production costs	483	458	438
Operating supplies and services	306	274	255
Maintenance materials and supplies	104	97	102
Customer billing and accounting	92	72	65
Other	75	73	68
Total operation and maintenance expense	$ 1,642	$ 1,517	$ 1,441

Employee-Related Costs

	For the Years Ended December 31,		
(In millions)	**2025**	**2024**	**2023**
Salaries and wages	$ 468	$ 434	$ 413
Group insurance	73	69	60
Pensions	5	7	9
Other benefits	36	33	31
Total employee-related costs	$ 582	$ 543	$ 513

In 2025, as compared to 2024, employee-related costs increased $39 million primarily due to an increase in salaries and wages due to higher employee headcount to support growth of the business and merit increases, which was partially offset by higher capitalized labor and overhead rates.

Production Costs

	For the Years Ended December 31,		
(In millions)	**2025**	**2024**	**2023**
Purchased water	$ 189	$ 180	$ 161
Purchased power	130	112	108
Chemicals	106	107	105
Waste disposal	58	59	64
Total production costs	$ 483	$ 458	$ 438

In 2025, as compared to 2024, production costs increased $25 million primarily from higher purchased power costs and higher purchased water costs and usage.

Operating Supplies and Services

In 2025, as compared to 2024, operating supplies and services increased $32 million primarily from higher technology related costs, higher contracted services and increased maintenance and service costs on buildings.

Customer Billing and Accounting

In 2025, as compared to 2024, customer billing and accounting increased $20 million primarily due to an increase in customer uncollectible expense.

Depreciation and Amortization

In 2025, as compared to 2024, depreciation and amortization increased $111 million primarily due to additional utility plant placed in service from capital infrastructure investments and higher depreciation rates from recent rate case orders.

General Taxes

In 2025, as compared to 2024, general taxes increased $24 million primarily due to New Jersey Gross Receipts Tax, incremental property taxes and higher capital stock taxes.

Other Income (Expense)

In 2025, as compared to 2024, other expenses increased $76 million primarily due to higher interest expense from the issuance of incremental long-term debt. Other expenses also increased due to higher net periodic pension costs. These increases were partially offset by an increase in AFUDC in 2025.

Provision for Income Taxes

In 2025, as compared to 2024, the Regulated Businesses' provision for income taxes increased $19 million. The Regulated Businesses' effective income tax rate was 22.0% and 22.1% for the years ended December 31, 2025 and 2024, respectively.

Other

Presented in the table below is information for Other:

	For the Years Ended December 31,		
(In millions)	**2025**	**2024**	**2023**
Operating revenues	$ 417	$ 388	$ 314
Operation and maintenance	377	341	279
Depreciation and amortization	11	16	11
General taxes	23	19	19
Interest expense	(141)	(107)	(96)
Interest income	85	77	45
Other income	14	10	12
Provision for (benefit from) income taxes	(10)	6	(7)
Net loss attributable to common shareholders	$ (26)	$ (14)	$ (27)

Operating Revenues

In 2025, as compared to 2024, operating revenues increased $29 million from an increase in capital projects to provide water and wastewater services to military installations and municipal customers.

Operation and Maintenance

Presented in the table below is information regarding the main components of Other's operating and maintenance expense:

	For the Years Ended December 31,		
(In millions)	**2025**	**2024**	**2023**
Operating supplies and services	$ 234	$ 195	$ 150
Maintenance materials and supplies	22	27	29
Employee-related costs	105	101	85
Production costs	11	10	9
Other	5	8	6
Total operation and maintenance expense	$ 377	$ 341	$ 279

Operating Supplies and Services

In 2025, as compared to 2024, operating supplies and services increased $39 million primarily due to increased costs associated with projects to provide water and wastewater services to military installations and municipal customers and $13 million of merger-related costs from the Essential Merger Agreement.

Interest Expense

In 2025, as compared to 2024, interest expense increased $34 million primarily due to higher average commercial paper borrowings.

Tax Matters

On July 4, 2025, the One Big Beautiful Bill Act (the "OBBB") was signed into law. The OBBB includes several corporate tax-related provisions. Key changes include the permanent extension of certain provisions from the Tax Cuts and Jobs Act of 2017, such as 100% bonus depreciation and Section 163(j) interest limitation exception for regulated utilities, as well as the immediate expensing of domestic research and development costs, and the introduction of a new charitable contribution floor for corporations. The OBBB has not had a material impact on the Company's Consolidated Financial Statements. The Company will continue to monitor the implementation and any related guidance.

Legislative Updates

During 2025, the Company's regulatory jurisdictions enacted the following legislation that has been approved and/or is effective as of February 18, 2026:

- California passed Senate Bill 219, which amends the Climate Corporate Data Accountability Act and the Climate-Related Financial Risk Act, to allow the California Air Resources Board until July 1, 2025, to issue implementing regulations, including reporting requirements for Scope 3 emissions. Legislation was signed by the Governor on September 27, 2024, and became effective January 1, 2025.
- Virginia passed Senate Bill 850, which would permit a water or wastewater utility to petition the SCC for the approval of an eligible infrastructure replacement and enhancement plan and accompanying recovery mechanism that allows for recovery of eligible infrastructure costs outside of a base rate case. Legislation was signed by the Governor on March 24, 2025, and became effective on July 1, 2025.
- Indiana passed Senate Bill 426, which changes the timing of recovery to allow for deferred depreciation from in-service date and post in-service carrying costs and authorizes the IURC to approve mechanisms to allow utilities to invest in and earn on acquired utility assets. The language also provides critical protections from lawsuits when utilities are meeting applicable water quality standards. Legislation was signed by the Governor on April 3, 2025, and became effective on July 1, 2025.
- Missouri passed Senate Bill 4, which provides that beginning July 1, 2026, water, sewer, and gas utilities may request the use of a future test year in a general rate case. This statute provides that at the end of the future test year, utilities must reconcile rate base and certain expenses, including annualized depreciation expense, income tax expense, payroll expense, employee benefits except for pensions and other post-retirement benefits, and rate case expenses, within 45 days to the MoPSC. Legislation was signed by the Governor on April 9, 2025, and became effective on August 28, 2025.

Liquidity and Capital Resources

The Company uses its capital resources, including cash, primarily to (i) fund operating and capital requirements, (ii) pay interest and meet debt maturities, (iii) pay dividends, (iv) fund acquisitions, (v) fund pension and postretirement benefit obligations, and (vi) to pay federal income taxes. The Company invests a significant amount of cash on regulated capital projects where it expects to earn a long-term return on investment. Additionally, the Company operates in rate regulated environments in which the amount of new investment recovery may be limited, and where such recovery generally takes place over an extended period of time, and certain capital recovery is also subject to regulatory lag. See Item 1—Business—Regulated Businesses—Regulation and Rate Making for additional information. The Company expects to fund future maturities of long-term debt through a combination of external debt and, to the extent available, cash flows from operations. Since the Company expects its capital investments over the next few years to be greater than its cash flows from operating activities, the Company currently plans to fund the excess of its capital investments over its cash flows from operating activities for the next five years through a combination of long-term debt and equity issuances, in addition to the remaining proceeds from the sale of HOS, all of which were received as of February 13, 2026. See Note 5—Mergers, Acquisitions and Divestitures—Secured Seller Promissory Note from the Sale of Homeowner Services Group, in the Notes to Consolidated Financial Statements for additional information. If necessary, the Company may delay certain capital investments or other funding requirements or pursue financing from other sources to preserve liquidity. In this event, the Company believes it can rely upon cash flows from operations to meet its obligations and fund its minimum required capital investments for an extended period of time.

The Company regularly evaluates and monitors its cash requirements for capital investments, acquisitions, operations, commitments, debt maturities, interest and dividends. The Company's business is capital intensive, with a majority of this capital funded by cash flows from operations. The Company also obtains funds from external sources, primarily in the debt markets and through short-term commercial paper borrowings, and may also access the equity capital markets as needed or desired to support capital funding requirements. In order to meet short-term liquidity needs, AWCC issues commercial paper that is supported by its revolving credit facility. The Company's access to external financing on reasonable terms may depend on, as appropriate, any or all of the following: current business conditions, including that of the utility and water utility industry in general; conditions in the debt or equity capital markets; the Company's credit ratings; and conditions in the national and international economic and geopolitical arenas. Disruptions in the credit markets may discourage lenders from extending the terms of such commitments or agreeing to new commitments. Market disruptions may also limit the Company's ability to issue debt and equity securities in the capital markets.

If these unfavorable business, market, financial and other conditions deteriorate to the extent that the Company is no longer able to access the commercial paper and/or capital markets on reasonable terms, AWCC has access to an unsecured revolving credit facility. The Company's revolving credit facility provides $2.75 billion in aggregate total commitments from a diversified group of financial institutions. AWCC's revolving credit facility is used principally to support its commercial paper program, to provide additional liquidity support, and to provide a sub-limit for the issuance of up to $150 million in letters of credit. The maximum aggregate principal amount of short-term borrowings authorized for issuance under AWCC's commercial paper program is $2.60 billion. The termination date of the credit agreement with respect to AWCC's revolving credit facility is October 26, 2029. Subject to satisfying certain conditions, the credit agreement permits AWCC to increase the maximum commitment by up to an aggregate of $500 million. As of December 31, 2025, AWCC had no outstanding borrowings and $84 million of outstanding letters of credit under its revolving credit facility, with $1.1 billion available to fulfill its short-term liquidity needs and to issue letters of credit.

The Company believes that its ability to access the debt and equity capital markets, the revolving credit facility and cash flows from operations will generate sufficient cash to fund the Company's short-term requirements. The Company believes it has sufficient liquidity and the ability to manage its expenditures, should there be a disruption of the capital and credit markets. However, there can be no assurance that the lenders will be able to meet existing commitments to AWCC under the revolving credit facility, or that AWCC will be able to access the commercial paper or loan markets in the future on acceptable terms or at all.

Cash Flows from Operating Activities

Cash flows from operating activities primarily result from the sale of water and wastewater services and, due to the seasonality of demand, are generally greater during the warmer months. The Company's future cash flows from operating activities will be affected by, among other things: customers' ability to pay for service in a timely manner, economic utility regulation, inflation, compliance with environmental, health and safety standards, production costs, maintenance costs, customer growth, declining customer usage of water, employee-related costs, including pension funding, weather and seasonality, taxes and overall economic conditions. The Company's current liabilities may exceed current assets mainly from debt maturities due within one year and the use of short-term debt as a funding source, primarily to meet scheduled maturities of long-term debt, fund acquisitions and construction projects, as well as cash needs, which can fluctuate significantly due to the seasonality of the business and other factors. The Company addresses cash timing differences primarily through its short-term liquidity funding mechanisms.

Presented in the table below is a summary of the major items affecting the Company's cash flows from operating activities:

(In millions)	For the Years Ended December 31, 2025	2024	2023
Net income	$ 1,111	$ 1,051	$ 944
Add (less):			
Depreciation and amortization	894	788	704
Deferred income taxes and amortization of investment tax credits	135	156	208
Other non-cash activities (a)	19	62	(9)
Changes in assets and liabilities (b)	(51)	40	76
Pension and non-pension postretirement benefit contributions	(49)	(52)	(49)
Net cash provided by operating activities	$ 2,059	$ 2,045	$ 1,874

(a) Includes provision for losses on accounts receivable, pension and non-pension postretirement benefits and other non-cash, net.

(b) Changes in assets and liabilities include changes to receivables and unbilled revenues, income tax receivable, accounts payable and accrued liabilities, accrued taxes and other assets and liabilities, net.

In 2025, cash flows provided by operating activities increased $14 million, primarily due to an increase in net income and depreciation, partially offset by the payment of CAMT liability, utilization of income tax receivables in the prior year and higher customer receivables and unbilled revenues in the current period.

The Company expects to make pension contributions to the plan trusts of $44 million in 2026. Actual amounts contributed could change materially from this estimate as a result of changes in assumptions and actual investment returns, among other factors.

Cash Flows from Investing Activities

Presented in the table below is a summary of the major items affecting the Company's cash flows from investing activities:

(In millions)	For the Years Ended December 31, 2025	2024	2023
Capital expenditures	$ (3,126)	$ (2,856)	$ (2,575)
Acquisitions, net of cash acquired	(71)	(417)	(81)
Removal costs from property, plant and equipment retirements, net	(175)	(152)	(159)
Purchases of available-for-sale fixed-income securities	(46)	(135)	—
Proceeds from sales and maturities of available-for-sale fixed-income securities	109	181	—
Net cash used in investing activities	$ (3,309)	$ (3,379)	$ (2,815)

In 2025, cash flows used in investing activities decreased $70 million primarily as a result of decreased payments for acquisitions, partially offset by increased payments for capital expenditures in 2025. The Company continues to invest across all infrastructure categories, mainly replacement and renewal of transmission and distribution and services, meter and fire hydrants infrastructure in the Company's Regulated Businesses, as discussed below.

The Company's infrastructure investment plan consists of both infrastructure renewal programs, where the Company replaces mains, services, meters, hydrants and valves, as needed, and major capital investment projects, where the Company constructs new water and wastewater treatment and delivery facilities to meet new customer growth, and meet new or updated environmental and water quality regulations. The Company's projected capital expenditures and other investments are subject to periodic review and revision to reflect changes in economic conditions and other factors.

Presented in the table below is a summary of the Company's capital expenditures by category:

(In millions)	For the Years Ended December 31, 2025	2024	2023
Transmission and distribution	$ 1,023	$ 882	$ 922
Treatment and pumping	438	305	322
Services, meter and fire hydrants	833	805	652
General structure and equipment	416	425	333
Sources of supply	121	163	88
Wastewater	295	276	258
Total capital expenditures	$ 3,126	$ 2,856	$ 2,575

In 2025, the Company's capital expenditures increased $270 million due to an increase across most infrastructure categories.

The Company also grows its business through acquisitions of water and wastewater systems. These acquisitions are generally located in geographic proximity to the Company's existing Regulated Businesses and support continued geographical diversification and growth of its operations. Generally, acquisitions are funded initially with short-term debt, and later refinanced with long-term financing. During 2025, the Company paid $71 million to fund acquisitions, including deposits for pending acquisitions. The Company closed on 18 acquisitions of various regulated water and wastewater systems during 2025, which added approximately 20,900 water and wastewater customers.

As previously noted, over the next five years the Company expects to invest between $19 billion to $20 billion, with $17 billion to $17.5 billion for infrastructure improvements in the Regulated Businesses, and the Company expects to invest between $46 billion to $48 billion over the next 10 years. In 2026, the Company expects to invest $3.7 billion, consisting of infrastructure improvements and acquisitions in the Regulated Businesses.

Cash Flows from Financing Activities

Presented in the table below is a summary of the major items affecting the Company's cash flows from financing activities:

(In millions)	For the Years Ended December 31, 2025	2024	2023
Proceeds from long-term debt, net of discount	$ 1,781	$ 1,437	$ 1,264
Repayments of long-term debt	(664)	(475)	(282)
Net proceeds from common stock financing	—	—	1,688
Net short-term borrowings (repayments) with maturities less than three months	709	700	(996)
Debt issuance costs	(17)	(14)	(16)
Dividends paid	(633)	(585)	(532)
Other financing activities, net (a)	73	47	62
Net cash provided by financing activities	$ 1,249	$ 1,110	$ 1,188

(a) Includes proceeds from issuances of common stock under various employee stock plans and the Company's dividend reinvestment and direct stock purchase plan, net of taxes paid, and advances and contributions in aid of construction, net of refunds.

In 2025, cash flows provided by financing activities increased $139 million, primarily due to higher issuances of long-term debt and higher short-term commercial paper borrowings in the current year. These increases were partially offset by higher repayments of long-term debt and dividend payments in the current year.

The Company's financing activities are primarily focused on funding regulated infrastructure expenditures, regulated acquisitions and payment of dividends. These activities included the issuance of long-term and short-term debt, primarily through AWCC and equity issuances from parent company. Based on the needs of the Regulated Businesses and the Company, AWCC may borrow funds or issue its debt in the capital markets and then, through intercompany loans, provide those borrowings to the Regulated Businesses and parent company. The Regulated Businesses and parent company are obligated to pay their portion of the respective principal and interest to AWCC, in the amount necessary to enable AWCC to meet its debt service obligations. Parent company's borrowings are not a source of capital for the Regulated Businesses, therefore, parent company is not able to recover the interest charges on its debt through regulated water and wastewater rates. As of December 31, 2025, AWCC has made long-term fixed rate loans and short-term loans to the Regulated Businesses amounting to $10.7 billion. Additionally, as of December 31, 2025, AWCC has made long-term fixed rate loans and short-term loans to parent company amounting to $4.0 billion.

In August 2025, the Company entered into separate forward sale agreements (the "Forward Sale Agreements") with several forward purchasers relating to an aggregate of 8,098,592 shares of the Company's common stock at an initial forward price of $139.657 per share, which is equal to the price to public per share less an underwriting discount. Each Forward Sale Agreement will be physically settled unless the Company elects to settle such Forward Sale Agreement in cash or to net share settle such Forward Sale Agreement (which the Company has the right to do, subject to certain conditions, other than in the limited circumstances set forth in the Forward Sale Agreements). The Forward Sale Agreements provide for settlement on a settlement date or dates to be specified at the Company's discretion on or prior to December 31, 2026. To the extent the Forward Sale Agreements are physically settled, the Company will issue common stock to the forward purchasers and receive cash proceeds based on the applicable forward sale price on the settlement date as defined in the Forward Sale Agreements.

As of December 31, 2025, the Company did not receive any proceeds from the sale of its common stock connected to the Forward Sale Agreements. The Company estimates that it will receive total net proceeds of approximately $1,131 million, before deducting estimated offering expenses, subject to the price adjustment and other provisions of the Forward Sale Agreements, in the event of full physical settlement of all of the Forward Sale Agreements. The Company intends to use any net cash proceeds that it may receive upon a settlement of the Forward Sale Agreements for general corporate purposes. The Forward Sale Agreements will be classified as equity transactions because they are indexed to the Company's common stock and physical settlement is within the Company's control.

On August 8, 2025, AWCC completed the sale of $900 million aggregate principal amount of its 5.700% Senior Notes due 2055. At the closing of this offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $887 million. AWCC used the net proceeds of the offering (i) to lend funds to American Water and the Regulated Businesses; (ii) to repay commercial paper obligations of AWCC; and (iii) for general corporate purposes.

On February 27, 2025, AWCC completed the sale of $800 million aggregate principal amount of its 5.250% Senior Notes due 2035. At the closing of this offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $792 million. AWCC used the net proceeds of the offering (i) to lend funds to American Water and the Regulated Businesses; (ii) to repay at maturity AWCC's 3.400% Senior Notes due 2025; (iii) to repay commercial paper obligations of AWCC; and (iv) for general corporate purposes.

On June 29, 2023, AWCC issued $1,035 million aggregate principal amount of the Notes. AWCC received net proceeds of approximately $1,022 million, after deduction of underwriting discounts and commissions but before deduction of offering expenses payable by AWCC. See Note 11—Long-Term Debt in the Notes to Consolidated Financial Statements for additional information.

One of the principal market risks to which the Company is exposed is changes in interest rates. In order to manage the exposure, the Company follows risk management policies and procedures, including the use of derivative contracts such as treasury lock agreements. The Company also reduces exposure to interest rates by managing commercial paper and debt maturities. The Company (through AWCC) does not enter into derivative contracts for speculative purposes and does not use leveraged instruments. The derivative contracts entered into are for periods consistent with the related underlying exposures. The Company is exposed to the risk that counterparties to derivative contracts will fail to meet their contractual obligations. The Company minimizes the counterparty credit risk on these transactions by dealing only with leading, creditworthy financial institutions, having long-term credit ratings of "A-" or better.

As of December 31, 2025, the Company had entered into six treasury lock agreements, with a term of 10 years or 30 years and an aggregate notional amount totaling $200 million, to reduce interest rate exposure on expected future debt issuances. These treasury lock agreements terminate in June 2026 and September 2026 and have an average fixed interest rate of 4.47%. In February 2026, the Company entered into four treasury lock agreements, with a term of 10 years or 30 years and an aggregate notional amount totaling $150 million, to reduce interest rate exposure on expected future debt issuances. These treasury lock agreements terminate in June 2026 and September 2026 and have an average fixed interest rate of 4.62%. The Company designated these treasury lock agreements as cash flow hedges, with their fair value recorded in accumulated other comprehensive gain or loss.

In May 2025 and August 2025, the Company terminated a total of 11 treasury lock agreements, designated as cash flow hedges, with a term of 30 years and an aggregate notional amount totaling $450 million, realizing a pre-tax net gain of $13 million, recorded in accumulated other comprehensive income. The gain will be amortized through Interest expense over a 30-year period, in accordance with the tenor of the notes issued on August 8, 2025.

In February 2025, the Company terminated 10 treasury lock agreements designated as cash flow hedges, with a term of 10 years and an aggregate notional amount totaling $500 million, realizing a pre-tax net gain of $3 million recorded in accumulated other comprehensive income. The gain will be amortized through Interest expense over a 10-year period, in accordance with the tenor of the notes issued on February 27, 2025.

No ineffectiveness was recognized on hedging instruments for the years ended December 31, 2025, 2024 or 2023.

In February 2024, parent company and AWCC filed with the SEC a universal shelf registration statement that enables the Company to meet its capital needs through the offer and sale to the public from time to time of an unlimited amount of various types of securities, including American Water common stock, preferred stock, and other equity and hybrid securities, and AWCC debt securities, all subject to market conditions and demand, general economic conditions, and as applicable, rating status. The shelf registration statement will expire in February 2027. During 2025 and 2024, $1.7 billion and $1.4 billion, respectively, of debt securities were issued under this registration statement. During 2025, under this registration statement, parent company entered into the Forward Sale Agreements with an aggregate of 8,098,592 shares of its common stock at an initial forward price of $139.657 per share for an estimated aggregate net proceeds of approximately $1,131 million. During 2023, under a predecessor registration statement, parent company issued 12,650,000 shares of its common stock for aggregate net proceeds of approximately $1,688 million.

Presented in the table below are the issuances of long-term debt in 2025:

Company	Type	Rate	Weighted Average Rate	Maturity	Amount (in millions)
AWCC (a)	Senior notes—fixed rate	5.25%	5.25%	2035	$ 800
AWCC (a)	Senior notes—fixed rate	5.70%	5.70%	2055	900
Other American Water subsidiaries	Private activity bonds and government funded debt—fixed rate	0.00%-3.71%	2.30%	2028-2057	89
Total issuances					$ 1,789

(a) This indebtedness is considered "debt" for purposes of a support agreement between parent company and AWCC, which serves as a functional equivalent of a full and unconditional guarantee by parent company of AWCC's payment obligations under such indebtedness. See "—Issuer and Guarantor of Senior Notes" below.

Presented in the table below are the retirements and redemptions of long-term debt in 2025 through sinking fund provisions, optional redemption, payment at maturity or settlement:

Company	Type	Rate	Weighted Average Rate	Maturity	Amount (in millions)
AWCC	Senior notes—fixed rate	3.40%	3.40%	2025	$ 525
Other American Water subsidiaries	Private activity bonds and government funded debt—fixed rate	0.00%-5.00%	0.37%	2025-2061	145
Other American Water subsidiaries	Mortgage bonds—fixed rate	8.15%-8.58%	8.23%	2025	21
Total retirements and redemptions					$ 691

From time to time and as market conditions warrant, the Company may engage in long-term debt retirements through make-whole redemptions, tender offers, open market repurchases or other viable alternatives.

Issuer and Guarantor of Senior Notes

Outstanding unsecured senior notes issued by AWCC (other than the Notes) have been issued under two indentures, each by and between AWCC and Computershare Trust Company, N.A., as successor to Wells Fargo Bank, National Association, as trustee, providing for the rights and obligations of the parties thereto and the holders of the notes issued thereunder. The Notes were issued under an indenture, by and among AWCC, parent company and U.S. Bank Trust Company, National Association, as trustee, providing for the rights and obligations of the parties thereto and the holders of the Notes. The senior notes and the Notes have been issued with the benefit of a support agreement, as amended, between parent company and AWCC, which serves as the functional equivalent of a full and unconditional guarantee by parent company of AWCC's payment obligations under such indebtedness. No other subsidiary of parent company provides guarantees for any of such indebtedness. If AWCC is unable to make timely payment of any interest, principal or premium, if any, on such senior notes or the Notes, parent company will provide to AWCC, at its request or the request of any holder thereof, funds to make such payment in full. If AWCC fails or refuses to take timely action to enforce certain rights under the support agreement or if AWCC defaults in the timely payment of any amounts owed to any such holder, when due, the support agreement provides that such holder may proceed directly against parent company to enforce such rights or to obtain payment of the defaulted amounts owed to that holder.

As a wholly owned finance subsidiary of parent company, AWCC has no significant assets other than obligations of parent company and certain of its subsidiaries in its Regulated Businesses segment to repay certain intercompany loans made to them by AWCC. AWCC's ability to make payments of amounts owed to holders of the senior notes and the Notes will be dependent upon AWCC's receipt of sufficient payments of amounts owed pursuant to the terms of such intercompany loans and from its ability to issue indebtedness or otherwise obtain loans in the future, the proceeds of which would be used to fund the repayment of the senior notes and the Notes.

Because parent company is a holding company and substantially all of its operations are conducted through its subsidiaries other than AWCC, parent company's ability to fulfill its obligations under the support agreement will be dependent upon its receipt of sufficient cash dividends or distributions from its operating subsidiaries. See Note 9—Shareholders' Equity—Dividends and Distributions, in the Notes to the Consolidated Financial Statements for a summary of the limitations on parent company and its subsidiaries to pay dividends or make distributions. Furthermore, parent company's operating subsidiaries are separate and distinct legal entities and, other than AWCC, have no obligation to make any payments on the senior notes or the Notes or to make available or provide any funds for such payment, other than through their repayment obligations under intercompany loans, if any, with AWCC. Based on the foregoing, parent company's obligations under the support agreement will be effectively subordinated to all indebtedness and other liabilities, including trade payables, lease commitments and moneys borrowed or other indebtedness incurred or issued by parent company's subsidiaries other than AWCC.

Credit Facilities and Short-Term Debt

Interest rates on advances under the AWCC revolving credit facility are based on a credit spread to the Secured Overnight Financing Rate ("SOFR") rate (or applicable market replacement rate) or base rate, each determined in accordance with Moody's Ratings and S&P Global Ratings' then applicable credit rating on AWCC's senior unsecured, non-credit enhanced debt. The facility is used principally to support AWCC's commercial paper program, to provide additional liquidity support and to provide a sub-limit of up to $150 million for letters of credit. Indebtedness under the facility and AWCC's commercial paper are considered "debt" for purposes of a support agreement between parent company and AWCC, which serves as a functional equivalent of a full and unconditional guarantee by parent company of AWCC's payment obligations thereunder.

Presented in the tables below are the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each, as of December 31:

	2025		
(In millions)	**Commercial Paper Limit**	**Letters of Credit**	**Total (a)**
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(1,590)	(84)	(1,674)
Remaining availability as of December 31, 2025	$ 1,010	$ 66	$ 1,076

(a) Total remaining availability of $1.1 billion as of December 31, 2025, was accessible through revolver draws.

(In millions)	2024 Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(880)	(82)	(962)
Remaining availability as of December 31, 2024	$ 1,720	$ 68	$ 1,788

(a) Total remaining availability of $1.8 billion as of December 31, 2024, was accessible through revolver draws.

Presented in the table below is the Company's total available liquidity as of December 31, 2025 and 2024:

(In millions)	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of December 31, 2025	$ 98	$ 1,076	$ 1,174
Available liquidity as of December 31, 2024	$ 96	$ 1,788	$ 1,884

The weighted average interest rate on AWCC's outstanding short-term borrowings was approximately 3.89% and 4.65%, for the years ended December 31, 2025 and 2024, respectively.

Capital Structure

Presented in the table below is the percentage of the Company's capitalization represented by the components of its capital structure as of December 31:

	2025	2024	2023
Total common shareholders' equity	40.6 %	42.4 %	44.2 %
Long-term debt and redeemable preferred stock at redemption value	47.9 %	51.4 %	52.9 %
Short-term debt and current portion of long-term debt	11.5 %	6.2 %	2.9 %
Total	100 %	100 %	100 %

The change in the capital structure mix in 2025 was mainly attributable to the increase in short-term commercial paper borrowings and the increase in long-term debt.

Debt Covenants

The Company's debt agreements contain financial and non-financial covenants. To the extent that the Company is not in compliance with these covenants, an event of default may occur under one or more debt agreements and the Company, or its subsidiaries, may be restricted in its ability to pay dividends, issue new debt or access the revolving credit facility. The long-term debt indentures contain a number of covenants that, among other things, prohibit or restrict the Company from issuing debt secured by the Company's assets, subject to certain exceptions. Failure to comply with any of these covenants could accelerate repayment obligations.

Covenants in certain long-term notes and the revolving credit facility require the Company to maintain a ratio of consolidated debt to consolidated capitalization (as defined in the relevant documents) of not more than 0.70 to 1.00. On December 31, 2025, the Company's ratio was 0.59 to 1.00 and therefore the Company was in compliance with the covenants.

Security Ratings

Presented in the table below are long-term and short-term credit ratings and rating outlooks as of February 18, 2026, as issued by Moody's Ratings on January 29, 2026, and S&P Global Ratings on June 6, 2025:

Securities	Moody's Ratings	S&P Global Ratings
Rating outlook	Stable	Stable
Senior unsecured debt	Baa1	A
Commercial paper	P-2	A-1

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency, and each rating should be evaluated independently of any other rating. Security ratings are highly dependent upon the ability to generate cash flows in an amount sufficient to service debt and meet investment plans. The Company can provide no assurances that its ability to generate cash flows is sufficient to maintain its existing ratings. The Company does not have any material borrowings that are subject to default or prepayment as a result of the downgrading of these security ratings, although such a downgrading could increase fees and interest charges under its credit facility.

As part of its normal course of business, the Company routinely enters into contracts for the purchase and sale of water, power and other fuel, chemicals and other services. These contracts either contain express provisions or otherwise permit the Company and its counterparties to demand adequate assurance of future performance when there are reasonable grounds for doing so. In accordance with the contracts and applicable contract law, if the Company is downgraded by a credit rating agency, especially if such downgrade is to a level below investment grade, it is possible that a counterparty would attempt to rely on such a downgrade as a basis for making a demand for adequate assurance of future performance, which could include a demand that the Company must provide collateral to secure its obligations. The Company does not expect to post any collateral which will have a material adverse impact on the Company's results of operations, financial position or cash flows.

Access to the capital markets, including the commercial paper market, and respective financing costs in those markets, may be directly affected by the Company's securities ratings. The Company primarily accesses the debt capital markets, including the commercial paper market, through AWCC. However, the Company has also issued debt through its regulated subsidiaries, primarily in the form of mortgage bonds and tax-exempt securities or borrowings under state revolving funds, to lower the overall cost of debt.

Dividends and Regulatory Restrictions

For discussion of the Company's dividends, dividend restrictions and dividend policy, see Note 9—Shareholders' Equity in the Notes to Consolidated Financial Statements for additional information.

Insurance Coverage

The Company carries various property, casualty, cyber and financial insurance policies with limits, deductibles and exclusions that it believes are consistent with industry standards. However, insurance coverage may not be adequate or available to cover unanticipated losses or claims. Additionally, annual policy renewals can be impacted by claims experience or adverse insurance market trends which in turn can impact coverage terms and conditions on a going-forward basis. The Company is self-insured to the extent that losses are within the policy deductible or exceed the amount of insurance maintained. Such losses could have a material adverse effect on the Company's short-term and long-term financial condition and its results of operations and cash flows.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with GAAP requires that management apply accounting policies and develop estimates, assumptions and judgments that could affect the Company's financial condition, results of operations and cash flows. Actual results could differ from these estimates, assumptions and judgments. Management believes that the areas described below require significant judgment in the application of accounting policy or in making estimates and assumptions in matters that are inherently uncertain and that may change in subsequent periods. Accordingly, changes in the estimates, assumptions and judgments applied to these accounting policies could have a significant impact on the Company's financial condition, results of operations and cash flows, as reflected in the Company's Consolidated Financial Statements. Management has reviewed the critical accounting polices described below with the Company's Audit, Finance and Risk Committee, including the estimates, assumptions and judgments used in their application. Additional discussion regarding these critical accounting policies and their application can be found in Note 2—Significant Accounting Policies in the Notes to Consolidated Financial Statements.

Regulation and Regulatory Accounting

The Company's regulated utilities are subject to regulation by PUCs and, as such, the Company follows the authoritative accounting principles required for rate regulated utilities, which requires the Company to reflect the effects of rate regulation in its Consolidated Financial Statements. Use of this authoritative guidance is applicable to utility operations that meet the following criteria: (i) third-party regulation of rates; (ii) cost-based rates; and (iii) a reasonable assumption that rates will be set to recover the estimated costs of providing service, plus a return on net investment, or rate base. As of December 31, 2025, the Company concluded that the operations of its utilities met the criteria.

Application of this authoritative guidance has a further effect on the Company's financial statements as it pertains to allowable costs used in the ratemaking process. The Company makes significant assumptions and estimates to quantify amounts recorded as regulatory assets and liabilities. Such judgments include, but are not limited to, assets and liabilities related to regulated acquisitions, pension and postretirement benefits, depreciation rates and taxes. Due to timing and other differences in the collection of revenues, these authoritative accounting principles allow a cost that would otherwise be charged as an expense by a non-regulated entity, to be deferred as a regulatory asset if it is probable that such cost is recoverable through future rates. Conversely, the principles require the creation of a regulatory liability for amounts collected in rates to recover costs expected to be incurred in the future, or amounts collected in excess of costs incurred and are refundable to customers.

For each regulatory jurisdiction where the Company conducts business, the Company assesses, at the end of each reporting period, whether the regulatory assets continue to meet the criteria for probable future recovery and regulatory liabilities continue to meet the criteria for probable future settlement. This assessment includes consideration of factors such as changes in regulatory environments, recent rate orders (including recent rate orders on recovery of a specific or similar incurred cost to other regulated entities in the same jurisdiction) and the status of any pending or potential legislation. If subsequent events indicate that the regulatory assets or liabilities no longer meet the criteria for probable future recovery or probable future settlement, the Company's Consolidated Statements of Operations and financial position could be materially affected. In addition, if the Company concludes in a future period that a separable portion of the business no longer meets the criteria, the Company is required to eliminate the financial statement effects of regulation for that part of the business, which would include the elimination of any or all regulatory assets and liabilities that had been recorded in the Consolidated Financial Statements. Failure to meet the criteria of this authoritative guidance could materially impact the Company's Consolidated Financial Statements.

As of December 31, 2025 and 2024, the Company's regulatory asset balance was $1.2 billion, and its regulatory liability balance was $1.4 billion. See Note 3—Regulatory Matters in the Notes to Consolidated Financial Statements for further information regarding the Company's significant regulatory assets and liabilities.

Accounting for Income Taxes

Significant management judgment is required in determining the provision for income taxes, primarily due to the uncertainty related to tax positions taken, as well as deferred tax assets and liabilities, valuation allowances and the utilization of net operating loss carryforwards.

In accordance with applicable authoritative guidance, the Company accounts for uncertain income tax positions using a benefit recognition model with a two-step approach, including a more-likely-than-not recognition threshold and a measurement approach based on the largest amount of tax benefit that is greater than 50% likely of being realized upon ultimate settlement. If it is not more-likely-than-not that the benefit of the tax position will be sustained on its technical merits, no benefit is recorded. Uncertain tax positions that relate only to timing of when an item is included on a tax return are considered to have met the recognition threshold. Management evaluates each position based solely on the technical merits and facts and circumstances of the position, assuming the position will be examined by a taxing authority having full knowledge of all relevant information. Significant judgment is required to determine whether the recognition threshold has been met and, if so, the appropriate amount of unrecognized tax benefit to be recorded in the Consolidated Financial Statements.

The Company evaluates the probability of realizing deferred tax assets quarterly by reviewing a forecast of future taxable income and its intent and ability to implement tax planning strategies, if necessary, to realize deferred tax assets. The Company also assesses its ability to utilize tax attributes, including those in the form of carryforwards, for which the benefits have already been reflected in the financial statements. The Company records valuation allowances for deferred tax assets when it concludes that it is more-likely-than-not such benefit will not be realized in future periods.

Under GAAP, specifically Accounting Standards Codification ("ASC 740"), *Income Taxes*, the tax effects of changes in tax laws must be recognized in the period in which the law is enacted. ASC 740 also requires deferred tax assets and liabilities to be measured at the enacted tax rate expected to apply when temporary differences are to be realized or settled. For the Company's regulated entities, the change in deferred taxes are recorded as either an offset to a regulatory asset or a regulatory liability and may be subject to refund to customers. For the Company's unregulated operations, the change in deferred taxes are recorded as a non-cash re-measurement adjustment to earnings.

Actual income taxes could vary from estimated amounts due to the future impacts of various items, including changes in income tax laws, the Company's forecasted financial condition and results of operations, failure to successfully implement tax planning strategies and recovery of taxes through the regulatory process for the Regulated Businesses, as well as results of audits and examinations of filed tax returns by taxing authorities. The resulting tax balances as of December 31, 2025 and 2024, are appropriately accounted for in accordance with the applicable authoritative guidance; however, the ultimate outcome of tax matters could result in favorable or unfavorable adjustments to the Consolidated Financial Statements and such adjustments could be material. See Note 14—Income Taxes in the Notes to Consolidated Financial Statements for additional information regarding income taxes.

Accounting for Pension and Postretirement Benefits

The Company maintains noncontributory defined benefit pension plans covering eligible employees of its regulated utility and shared services operations. The Company also maintains other postretirement benefit plans providing medical and life insurance to eligible retirees. See Note 2—Significant Accounting Policies and Note 15—Employee Benefits in the Notes to Consolidated Financial Statements for additional information regarding the description of and accounting for the defined benefit pension plans and postretirement benefit plans.

The Company's pension and postretirement benefit costs are developed from actuarial valuations. Inherent in these valuations are key assumptions provided by the Company to its actuaries, including the discount rate and expected long-term rate of return on plan assets. Material changes in the Company's pension and postretirement benefit costs may occur in the future due to changes in these assumptions as well as fluctuations in plan assets. The assumptions are selected to represent the average expected experience over time and may differ in any one year from actual experience due to changes in capital markets and the overall economy. These differences will impact the amount of pension and other postretirement benefit expense that the Company recognizes. The primary assumptions are:

- Discount Rate—The discount rate is used in calculating the present value of benefits, which are based on projections of benefit payments to be made in the future. The objective in selecting the discount rate is to measure the single amount that, if invested at the measurement date in a portfolio of high-quality debt instruments, would provide the necessary future cash flows to pay the accumulated benefits when due.
- Expected Return on Plan Assets ("EROA")—Management projects the future return on plan assets considering prior performance, but primarily based upon the plans' mix of assets and expectations for the long-term returns on those asset classes. These projected returns reduce the net benefit costs the Company records currently.
- Rate of Compensation Increase—Management projects employees' pay increases, which are used to project employees' pension benefits at retirement.
- Health Care Cost Trend Rate—Management projects the expected increases in the cost of health care.
- Mortality— Management adopted the Society of Actuaries Pri-2012 base mortality table, the most recent table developed from private pension plan experience, which provides rates of mortality in 2012 and adopted the MP-2021 mortality improvement scale to gradually adjust future mortality rates downward due to increased longevity in each year after 2012.

The discount rate assumption, which is determined for the pension and postretirement benefit plans independently, is subject to change each year, consistent with changes in applicable high-quality, long-term corporate bond indices. The Company uses an approach that approximates the process of settlement of obligations tailored to the plans' expected cash flows by matching the plans' cash flows to the coupons and expected maturity values of individually selected bonds. For each plan, the discount rate was developed as the level equivalent rate that would yield the same present value as using spot rates aligned with the projected benefit payments. The weighted-average discount rate assumption for determining pension benefit obligations was 5.54%, 5.70% and 5.18% at December 31, 2025, 2024 and 2023, respectively. The weighted-average discount rate assumption for determining other postretirement benefit obligations was 5.46%, 5.69% and 5.22% at December 31, 2025, 2024 and 2023, respectively.

In selecting an EROA, the Company considered tax implications, past performance and economic forecasts for the types of investments held by the plans. The weighted-average EROA assumption used in calculating pension cost was 6.63% for 2025, 6.73% for 2024 and 6.79% for 2023. The weighted-average EROA assumption used in calculating other postretirement benefit costs was 5.00% for 2025, 5.00% for 2024 and 5.00% for 2023.

Presented in the table below are the allocations of the pension plan assets by asset category:

Asset Category	2026 Target Allocation	Percentage of Plan Assets as of December 31, 2025	2024
Equity securities	38 %	45 %	44 %
Fixed income	62 %	55 %	56 %
Total	100 %	100 %	100 %

Presented in the table below are the allocations of the other postretirement benefit plan assets by asset category:

Asset Category	2026 Target Allocation (a)	Percentage of Plan Assets as of December 31, 2025	2024
Equity securities	27 %	35 %	34 %
Fixed income	73 %	65 %	66 %
Total	100 %	100 %	100 %

(a) Refer to Note 15—Employee Benefits in the Notes to Consolidated Financial Statements for additional details on the allocations of assets and the trusts which fund the other postretirement benefit plans

The investments of the pension and postretirement welfare plan trusts are invested in a number of separately managed accounts, commingled funds and limited partnerships including equities, fixed income securities, guaranteed annuity contracts with insurance companies, real estate funds and real estate investment trusts. The trustee for the Company's defined benefit pension and postretirement welfare plans uses an independent valuation firm to calculate the fair value of plan assets.

In selecting a rate of compensation increase, the Company considers past experience in light of movements in inflation rates. The Company's rate of compensation increase was 3.45% for 2025 and 3.51% for both 2024 and 2023.

In selecting health care cost trend rates, the Company considers past performance and forecasts of increases in health care costs. As of January 1, 2025, the Company's health care cost trend rate assumption used to calculate the periodic benefit cost was 6.50% in 2025 gradually declining to 5.00% in 2031 and thereafter. As of December 31, 2025, the Company projects that medical inflation will be 7.00% in 2026 gradually declining to 5.00% in 2032 and thereafter.

The Company will use a weighted-average discount rate and EROA of 5.54% and 6.63%, respectively, for estimating its 2026 pension costs. Additionally, the Company will use a weighted-average discount rate and EROA of 5.46% and 5.00%, respectively, for estimating its 2026 other postretirement benefit costs. A decrease in the discount rate or the EROA would increase the Company's pension expense. The Company's 2025 pension and postretirement total net benefit cost was $1 million and the 2024 pension and postretirement total net benefit credit was $3 million. The Company expects to make pension contributions to the plan trusts of $44 million in 2026; however, the actual amounts contributed could change materially from this estimate. The assumptions are reviewed annually and at any interim re-measurement of the plan obligations. The impact of assumption changes is reflected in the recorded pension and postretirement benefit amounts as they occur, or over a period of time if allowed under applicable accounting standards.

Revenue Recognition

Revenue from the Company's Regulated Businesses is generated primarily from water and wastewater services delivered to customers. These contracts contain a single performance obligation, the delivery of water and/or wastewater services, as the promise to transfer the individual good or service is not separately identifiable from other promises within the contracts and, therefore, is not distinct. Revenues are recognized over time, as services are provided. There are generally no significant financing components or variable consideration. Revenues include amounts billed to customers on a cycle basis, and unbilled amounts calculated based on estimated usage from the date of the meter reading associated with the latest customer bill, to the end of the accounting period. The amounts that the Company has a right to invoice are determined by each customer's actual usage, an indicator that the invoice amount corresponds directly to the value transferred to the customer.

Increases or decreases in the volumes delivered to customers and rate mix due to changes in usage patterns in customer classes in the period could be significant to the calculation of unbilled revenue. In addition, changes in the timing of meter reading schedules and the number and type of customers scheduled for each meter reading date would also have an effect on the unbilled revenue calculation. Unbilled revenue for the Company's regulated utilities as of December 31, 2025 and 2024 was $249 million and $219 million, respectively.

The Company also recognizes revenues for certain ratemaking mechanisms that meet the criteria for alternative revenue program accounting. These mechanisms, which include the Company's revenue stability mechanisms, qualify as alternative revenue programs if they have been authorized for rate recovery, are objectively determinable and probable of recovery, and are expected to be collected within 24 months following the end of the period in which they were recognized.

The Company also has long-term, fixed fee contracts to operate and maintain water and wastewater systems for the U.S. government on military installations and facilities owned by municipal customers. Billing and revenue recognition for the fixed fee revenues occurs ratably over the term of the contract, as customers simultaneously receive and consume the benefits provided by the Company. Additionally, these contracts allow the Company to make capital improvements to underlying infrastructure, which are initiated through separate modifications or amendments to the original contract, whereby stand-alone, fixed pricing is separately stated for each improvement. The Company has determined that these capital improvements are separate performance obligations, with revenue recognized over time based on performance completed at the end of each reporting period. Losses on contracts are recognized during the period in which the losses first become probable and estimable. Revenues recognized during the period in excess of billings on construction contracts are recorded as unbilled revenues or other long-term assets, with billings in excess of revenues recorded as other current or long-term liabilities until the recognition criteria are met. Changes in contract performance and related estimated contract profitability may result in revisions to costs and revenues and are recognized in the period in which revisions are determined. Unbilled revenue within Other as of December 31, 2025 and 2024, was $184 million and $96 million, respectively.

Accounting for Contingencies

The Company records loss contingencies when management determines that the outcome of future events is probable of occurring and when the amount of the loss or a range of losses can be reasonably estimated. The determination of a loss contingency is based on management's judgment and estimates about the likely outcome of the matter, which may include an analysis of different scenarios. Liabilities are recorded or adjusted when events or circumstances cause these judgments or estimates to change. In assessing whether a loss is reasonably possible, management considers many factors, which include, but are not limited to: the nature of the litigation, claim or assessment, review of applicable law, opinions or views of legal counsel and other advisors, and the experience gained from similar cases or situations. The Company provides disclosures for material contingencies when management deems there is a reasonable possibility that a loss or an additional loss may be incurred. The Company provides estimates of reasonably possible losses when such estimates may be reasonably determined, either as a single amount or within a reasonable range.

Actual amounts realized upon settlement or other resolution of loss contingencies may be different than amounts recorded and disclosed and could have a significant impact on the liabilities, revenue and expenses recorded on the Consolidated Financial Statements. See Note 16—Commitments and Contingencies in the Notes to Consolidated Financial Statements for additional information regarding contingencies.

Recent Accounting Standards

See Note 2—Significant Accounting Policies in the Notes to Consolidated Financial Statements for a description of recent accounting standards.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk associated with changes in commodity prices, equity prices and interest rates. The Company is exposed to risks from changes in interest rates as a result of its issuance of variable and fixed rate debt and commercial paper. The Company manages its interest rate exposure by limiting its variable rate exposure and by monitoring the effects of market changes in interest rates. The Company also has the ability to enter into financial derivative instruments, which could include instruments such as, but not limited to, interest rate swaps, forward starting swaps and U.S. Treasury lock agreements to manage and mitigate interest rate risk exposure. As of December 31, 2025, a hypothetical 1% increase in average interest rates applied to the Company's short-term borrowing balances throughout 2025 would result in an increased annual interest expense of approximately $12 million.

As of December 31, 2025, the Company had entered into six treasury lock agreements, with a term of 10 years or 30 years and an aggregate notional amount totaling $200 million, to reduce interest rate exposure on expected future debt issuances. These treasury lock agreements terminate in June 2026 and September 2026 and have an average fixed rate of 4.47%. When entering into treasury locks, the Company is subject to market risk with respect to changes in the underlying benchmark interest rate that impacts the fair value of the treasury locks. The Company manages market risk by matching the terms of the treasury locks with the critical terms of the expected debt issuance. The fair value of the treasury locks at December 31, 2025, was in a gain position of $2 million. A hypothetical 1% adverse change in interest rates would result in a decrease in the fair value of the treasury locks to a loss position of approximately $21 million at December 31, 2025.

The Company's risks associated with price increases for chemicals, electricity and other commodities are reduced through contractual arrangements and the expected ability to recover price increases through rates, in the next general rate case proceeding or other regulatory mechanism, as authorized by each regulatory jurisdiction. Non-performance by these commodity suppliers could have a material adverse impact on the Company's results of operations, financial position and cash flows.

The market price of the Company's common stock may experience fluctuations, which may be unrelated to its operating performance. In particular, the Company's stock price may be affected by general market movements as well as developments specifically related to the water and wastewater industry. These could include, among other things, interest rate movements, quarterly variations or changes in financial estimates by securities analysts and governmental or regulatory actions. This volatility may make it difficult for the Company to access the capital markets in the future through additional offerings of its common stock or other equity securities, regardless of its financial performance, and such difficulty may preclude the Company from being able to take advantage of certain business opportunities or meet business obligations.

The Company is exposed to credit risk through its water, wastewater and related services. The Company's Regulated Businesses serve residential, commercial, industrial and other customers, while the businesses within Other engage in business activities with government entities and other customers. The Company's primary credit risk is exposure to customer default on contractual obligations and the associated loss that may be incurred due to the non-payment of customer accounts receivable balances. The Company's credit risk is managed through established credit and collection policies which are in compliance with applicable regulatory requirements and involve monitoring of customer exposure and the use of credit risk mitigation measures such as letters of credit or prepayment arrangements. The Company's credit portfolio is diversified with no significant customer or industry concentrations. In addition, the Regulated Businesses are generally able to recover all prudently incurred costs including uncollectible customer accounts receivable expenses and collection costs through rates.

The Company's retirement trust assets are exposed to the market prices of debt and equity securities. Changes to the retirement trust asset values can impact the Company's pension and other benefits expense, funded status and future minimum funding requirements. Changes in interest rates can impact retirement liabilities. The Company aims to reduce risk through asset diversification and by investing in long duration fixed-income securities that have a duration similar to that of its pension liabilities, seeking to hedge some of the interest rate sensitivity of its liabilities. That way, if interest rates fall and liabilities increase, the Company expects that the fixed-income assets in its retirement trust will also increase in value. The Company also expects its risk to be reduced through its ability to recover pension and other benefit costs through rates.

The Company is also exposed to a potential national economic recession or deterioration in local economic conditions in the markets in which it operates. The credit quality of the Company's customer accounts receivable is dependent on the economy and the ability of its customers to manage through unfavorable economic cycles and other market changes. In addition, there can be no assurances that regulators will grant sufficient rate authorizations. Therefore, the Company's ability to fully recover operating expense, recover its investment and provide an appropriate return on invested capital made in the Regulated Businesses may be adversely impacted.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of
American Water Works Company, Inc.

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of American Water Works Company, Inc. and its subsidiaries (the "Company") as of December 31, 2025 and 2024, and the related consolidated statements of operations, of comprehensive income, of changes in shareholders' equity and of cash flows for each of the three years in the period ended December 31, 2025, including the related notes (collectively referred to as the "consolidated financial statements"). We also have audited the Company's internal control over financial reporting as of December 31, 2025, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2025 and 2024**,** and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2025 in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2025, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the COSO.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on the Company's consolidated financial statements and on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that (i) relates to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Accounting for the Effects of Rate Regulation

As described in Notes 2 and 3 to the consolidated financial statements, the Company's consolidated regulatory assets and liabilities balances were $1,154 million and $1,440 million, respectively, as of December 31, 2025. The Company's regulated utilities are subject to regulation by multiple state utility commissions and the Company follows authoritative accounting principles required for rate regulated utilities, which requires the effects of rate regulation to be reflected in the Company's consolidated financial statements. As disclosed by management, for each regulatory jurisdiction where the Company conducts business, the Company assesses, at the end of each reporting period, whether the regulatory assets continue to meet the criteria for probable future recovery and regulatory liabilities continue to meet the criteria for probable future settlement. This assessment includes consideration of factors such as changes in regulatory environments, recent rate orders (including recent rate orders on recovery of a specific or similar incurred cost to other regulated entities in the same jurisdiction) and the status of any pending or potential legislation.

The principal considerations for our determination that performing procedures relating to accounting for the effects of rate regulation is a critical audit matter are the significant judgment by management in accounting for regulatory assets and liabilities relative to whether regulatory assets continue to meet the criteria for probable future recovery and regulatory liabilities continue to meet the criteria for probable future settlement as a result of changes in regulatory environments, recent rate orders, and the status of any pending or potential legislation. This in turn led to a high degree of auditor judgment, subjectivity, and effort in performing audit procedures and evaluating audit evidence obtained relating to management's judgments.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to the Company's regulatory accounting process, including controls over management's assessment and consideration of factors related to the probability of future recovery or settlement. These procedures also included, among others, evaluating the reasonableness of management's judgments regarding the probability of recovery and settlement based on the Company's correspondence with regulators, status of regulatory proceedings, past practices, and other relevant information; evaluating the related accounting and disclosure implications; and evaluating regulatory asset and liability balances based on provisions and formulas outlined in rate orders and other correspondence with the Company's regulators.

American Water Works Company, Inc. and Subsidiary Companies
Notes to Consolidated Financial Statements
(Unless otherwise noted, in millions, except per share data)

Note 1: Organization and Operation

American Water Works Company, Inc. (the "Company" or "American Water") is a holding company for subsidiaries that provide water and wastewater services throughout the United States. References to "parent company" mean American Water Works Company, Inc., without its subsidiaries. The Company's primary business involves the ownership of regulated utilities that provide water and wastewater services in 14 states in the United States, collectively referred to as the "Regulated Businesses." The Company also operates other businesses that provide water and wastewater services to the U.S. government on military installations, as well as municipalities. These other businesses do not meet the criteria of a reportable segment in accordance with generally accepted accounting principles in the United States ("GAAP"), and are collectively presented throughout this Annual Report on Form 10-K within "Other." See Note 20—Segment Information for additional information.

Note 2: Significant Accounting Policies

Regulation

The Company's regulated utilities are subject to regulation by multiple state utility commissions or other entities engaged in utility regulation, collectively referred to as Public Utility Commissions ("PUCs"). As such, the Company follows authoritative accounting principles required for rate regulated utilities, which requires the effects of rate regulation to be reflected in the Company's Consolidated Financial Statements. PUCs generally authorize revenue at levels intended to recover the estimated costs of providing service, plus a return on net investments, or rate base. Regulators may also approve accounting treatments, long-term financing programs and cost of capital, operation and maintenance ("O&M") expenses, capital expenditures, taxes, affiliated transactions and relationships, reorganizations, mergers, acquisitions and dispositions, along with imposing certain penalties or granting certain incentives. Due to timing and other differences in the collection of a regulated utility's revenues, these authoritative accounting principles allow a cost that would otherwise be charged as an expense by a non-regulated entity, to be deferred as a regulatory asset if it is probable that such cost is recoverable through future rates. Conversely, these principles also require the creation of a regulatory liability for amounts collected in rates to recover costs expected to be incurred in the future, or amounts collected in excess of costs incurred and are refundable to customers. See Note 3—Regulatory Matters for additional information.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires that management make estimates, assumptions and judgments that could affect the Company's financial condition, results of operations and cash flows. Actual results could differ from these estimates, assumptions and judgments. The Company considers its critical accounting estimates to include (i) the application of regulatory accounting principles and the related determination and estimation of regulatory assets and liabilities, (ii) revenue recognition and the estimates used in the calculation of unbilled revenue, (iii) accounting for income taxes, (iv) benefit plan assumptions and (v) the estimates and judgments used in determining loss contingencies. The Company's critical accounting estimates that are particularly sensitive to change in the near term are amounts reported for regulatory assets and liabilities, income taxes, benefit plan assumptions and contingency-related obligations.

Principles of Consolidation

The accompanying Consolidated Financial Statements include the accounts of American Water and all of its subsidiaries in which a controlling interest is maintained after the elimination of intercompany balances and transactions.

Property, Plant and Equipment

Property, plant and equipment consists primarily of utility plant utilized by the Company's regulated utilities. Additions to utility plant and replacement of retirement units of utility plant are capitalized and include costs such as materials, direct labor, payroll taxes and benefits, indirect items such as engineering and supervision, transportation and an allowance for funds used during construction ("AFUDC"). Costs for repair, maintenance and minor replacements are charged to O&M expense as incurred.

The cost of utility plant is depreciated using the straight-line average remaining life, group method. The Company's regulated utilities record depreciation in conformity with amounts approved by PUCs, after regulatory review of the information the Company submits to support its estimates of the assets' remaining useful lives.

Nonutility property consists primarily of buildings and equipment utilized by the Military Services Group ("MSG") and for internal operations. This property is stated at cost, net of accumulated depreciation, which is calculated using the straight-line method over the useful lives of the assets.

When units of property, plant and equipment are replaced, retired or abandoned, the carrying value is credited against the asset and charged to accumulated depreciation. To the extent the Company recovers cost of removal or other retirement costs through rates after the retirement costs are incurred, a regulatory asset is recorded. In some cases, the Company recovers retirement costs through rates during the life of the associated asset and before the costs are incurred. These amounts result in a regulatory liability being reported based on the amounts previously recovered through customer rates, until the costs to retire those assets are incurred.

The costs incurred to acquire and internally develop computer software for internal use are capitalized as a unit of property. The carrying value of these costs, net of amortization, amounted to $435 million and $398 million as of December 31, 2025 and 2024, respectively.

Cash and Cash Equivalents, and Restricted Funds

Substantially all cash is invested in interest-bearing accounts. All highly liquid investments with a maturity of three months or less when purchased are considered to be cash equivalents.

Restricted funds consist primarily of proceeds from financings for the construction and capital improvement of facilities, and deposits for future services under O&M projects, primarily performed by MSG. Proceeds are held in escrow or interest-bearing accounts until the designated expenditures are incurred. Restricted funds are classified on the Consolidated Balance Sheets as either current or long-term based upon the intended use of the funds.

Presented in the table below is a reconciliation of the cash and cash equivalents and restricted funds amounts as presented on the Consolidated Balance Sheets to the sum of such amounts presented on the Consolidated Statements of Cash Flows for the years ended December 31:

	2025	2024
Cash and cash equivalents	$ 98	$ 96
Restricted funds	21	29
Restricted funds included in other long-term assets	20	15
Cash and cash equivalents and restricted funds as presented on the Consolidated Statements of Cash Flows	$ 139	$ 140

Accounts Receivable and Unbilled Revenues

Accounts receivable include regulated utility customer accounts receivable, which represent amounts billed to water and wastewater customers generally on a monthly basis. Credit is extended based on the guidelines of the applicable PUCs and collateral is generally not required. Also included are the trade accounts receivable of other businesses, primarily MSG, and nonutility customer receivables of the Regulated Businesses. Unbilled revenues are accrued when service has been provided but has not been billed to customers and when costs exceed billings on certain construction contracts.

Allowance for Uncollectible Accounts

Allowances for uncollectible accounts are maintained for estimated probable losses resulting from the Company's inability to collect receivables from customers. Accounts that are outstanding longer than the payment terms are considered past due. A number of factors are considered in determining the allowance for uncollectible accounts, including the length of time receivables are past due, previous loss history, current economic and societal conditions and reasonable and supportable forecasts that affect the collectability of receivables from customers. The Company generally writes off accounts when they become uncollectible or are over a certain number of days outstanding. See Note 7—Allowance for Uncollectible Accounts for additional information.

Materials and Supplies

Materials and supplies are stated at the lower of cost or net realizable value. Cost is determined using the average cost method.

Seller Promissory Note

The Company's secured seller promissory note was accounted for under Accounting Standards Codification ("ASC") Topic 310, *Receivables*, and classified as held for investment and accounted for at amortized cost at the present value of consideration received for the sale of its Homeowner Services Group ("HOS") business. Interest income from the secured seller promissory note was accrued based on the principal amount outstanding and earned over the contractual life of the loan.

Leases

The Company has operating and finance leases involving real property, including facilities, utility assets, vehicles, and equipment. The Company determines if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use ("ROU") assets, accrued liabilities and operating lease liabilities on the Consolidated Balance Sheets. Finance leases are included in property, plant and equipment, accrued liabilities and other long-term liabilities on the Consolidated Balance Sheets. The Company has made an accounting policy election not to include operating leases with a lease term of twelve months or less.

ROU assets represent the right to use an underlying asset for the lease term and the lease liabilities represent the obligation to make lease payments arising from the lease. ROU assets and lease liabilities are generally recognized at the commencement date based on the present value of discounted lease payments over the lease term. As most of the Company's leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available at the commencement date in determining the present value of discounted lease payments. The implicit rate is used when readily determinable. ROU assets also include any upfront lease payments and excludes lease incentives. The Company's lease terms may include options to extend or terminate the lease when it is reasonably certain that the option will be exercised. Lease expense is recognized on a straight-line basis over the lease term.

The Company has lease agreements with lease components (e.g., fixed payments including rent, real estate taxes and insurance costs) and non-lease components (e.g., common-area maintenance costs), which are generally accounted for separately; however, the Company accounts for the lease and non-lease components as a single lease component for certain leases. Certain lease agreements include variable rental payments adjusted periodically for inflation. Additionally, the Company applies a portfolio approach to effectively account for the ROU assets and lease liabilities. The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Goodwill

Goodwill represents the excess of the purchase price paid over the estimated fair value of the assets acquired and liabilities assumed in the acquisition of a business. Goodwill is not amortized and must be allocated at the reporting unit level, which is defined as an operating segment or one level below, and tested for impairment at least annually, or more frequently if an event occurs or circumstances change that would more likely than not, reduce the fair value of a reporting unit below its carrying value.

The Company's goodwill is primarily associated with the acquisition of American Water by an affiliate of the Company's previous owner in 2003 and has been allocated to reporting units based on the fair values at the date of the acquisitions. For purposes of testing goodwill for impairment, the reporting units in the Regulated Businesses segment are aggregated into a single reporting unit. The goodwill of Other is attributable to the MSG reporting unit.

The Company's annual impairment testing is performed as of November 30 of each year. The Company assesses qualitative factors to determine whether quantitative testing is necessary. If it is determined, based upon qualitative factors, that the estimated fair value of a reporting unit is, more likely than not, greater than its carrying value, no further testing is required. If the Company bypasses the qualitative assessment or performs the qualitative assessment and determines that the estimated fair value of a reporting unit, is more likely than not, less than its carrying value, a quantitative, fair value-based assessment is performed. This quantitative testing compares the estimated fair value of the reporting unit to its respective net carrying value, including goodwill, on the measurement date. An impairment loss will be recognized in the amount equal to the excess of the reporting unit's carrying value compared to its estimated fair value, limited to the total amount of goodwill allocated to that reporting unit.

Application of goodwill impairment testing requires management judgment, including the identification of reporting units and determining the fair value of reporting units. Management estimates fair value using a discounted cash flow analysis. Significant assumptions used in these fair value estimations include, but are not limited to, forecasts of future operating results, discount rate and growth rate.

The Company believes the assumptions and other considerations used to value goodwill to be appropriate, however, if actual experience differs from the assumptions and considerations used in its analysis, the resulting change could have a material adverse impact on the Consolidated Financial Statements. See Note 8 —Goodwill for additional information.

Impairment of Long-Lived Assets

Long-lived assets, other than goodwill, primarily include property, plant and equipment. The Company evaluates long-lived assets for impairment when circumstances indicate the carrying value of those assets may not be recoverable. The Company determines if long-lived assets are potentially impaired by comparing the undiscounted expected future cash flows to the carrying value when indicators of impairment exist. When the undiscounted cash flow analysis indicates a long-lived asset may not be recoverable, the amount of the impairment loss is determined by measuring the excess of the carrying amount of the long-lived asset or asset group over its fair value.

The long-lived assets of the Company's regulated utilities are grouped on a separate entity basis for impairment testing, as they are integrated state-wide operations that do not have the option to curtail service and generally have uniform utility tariffs. A regulatory asset is charged to earnings if and when future recovery in rates of that asset is no longer probable.

The Company believes the assumptions and other considerations used to value long-lived assets to be appropriate, however, if actual experience differs from the assumptions and considerations used in its estimates, the resulting change could have a material adverse impact on the Consolidated Financial Statements.

Advances for Construction and Contributions in Aid of Construction

Regulated utility subsidiaries may receive advances for construction and contributions in aid of construction from customers, home builders and real estate developers to fund construction necessary to extend service to new areas.

Advances are refundable for limited periods of time as new customers begin to receive service or other contractual obligations are fulfilled. Included in other current liabilities as of December 31, 2025 and 2024, on the Consolidated Balance Sheets are estimated refunds of $25 million and $21 million, respectively. These amounts represent expected refunds during the next 12-month period.

Advances that are no longer refundable are reclassified to contributions in aid of construction. Contributions in aid of construction are permanent collections of plant assets or cash for a particular construction project. For ratemaking purposes, the amount of such contributions generally serves as a rate base reduction since the contributions represent non-investor supplied funds.

Generally, the Company depreciates utility plant funded by contributions and amortizes its contributions in aid of construction balance as a reduction to depreciation expense, producing a result which is functionally equivalent to reducing the original cost of the utility plant for the contributions. In accordance with applicable regulatory guidelines, some of the Company's utility subsidiaries do not amortize contributions in aid of construction, and any contribution received remains on the balance sheet indefinitely. Amortization of contributions in aid of construction was $50 million, $46 million and $40 million for the years ended December 31, 2025, 2024 and 2023, respectively.

Revenue Recognition

Under ASC Topic 606, *Revenue From Contracts With Customers,* and all related amendments (collectively, "ASC 606"), a performance obligation is a promise within a contract to transfer a distinct good or service, or a series of distinct goods and services, to a customer. Revenue is recognized when performance obligations are satisfied and the customer obtains control of promised goods or services. The amount of revenue recognized reflects the consideration to which the Company expects to be entitled to receive in exchange for goods or services. Under ASC 606, a contract's transaction price is allocated to each distinct performance obligation. To determine revenue recognition for arrangements that the Company determines are within the scope of ASC 606, the Company performs the following five steps: (i) identifies the contracts with a customer; (ii) identifies the performance obligations within the contract, including whether any performance obligations are distinct and capable of being distinct in the context of the contract; (iii) determines the transaction price; (iv) allocates the transaction price to the performance obligations in the contract; and (v) recognizes revenue when, or as, the Company satisfies each performance obligation.

The Company's revenues from contracts with customers are discussed below. Customer payments for contracts are generally due within 30 days of billing and none of the contracts with customers have payment terms that exceed one year; therefore, the Company elected to apply the significant financing component practical expedient and no amount of consideration has been allocated as a financing component.

Regulated Businesses Revenue

Revenue from the Company's Regulated Businesses is generated primarily from water and wastewater services delivered to customers. These contracts contain a single performance obligation, the delivery of water and/or wastewater services, as the promise to transfer the individual good or service is not separately identifiable from other promises within the contracts and, therefore, is not distinct. Revenues are recognized over time, as services are provided. There are generally no significant financing components or variable consideration. Revenues include amounts billed to customers on a cycle basis and unbilled amounts calculated based on estimated usage from the date of the meter reading associated with the latest customer bill, to the end of the accounting period. The amounts that the Company has a right to invoice are determined by each customer's actual usage, an indicator that the invoice amount corresponds directly to the value transferred to the customer.

The Company recognizes revenues for certain ratemaking mechanisms that meet the criteria for alternative revenue program accounting. These mechanisms, which include the Company's revenue stability mechanisms, qualify as alternative revenue programs if they have been authorized for rate recovery, are objectively determinable and probable of recovery and are expected to be collected within 24 months following the end of the period in which they were recognized. For mechanisms that meet these criteria, the Company adjusts revenue and records an offsetting regulatory asset or liability once the condition or event allowing additional billing or refund has occurred. See Note 4—Revenue Recognition for disaggregated revenue information.

Other Revenue

The Company has long-term, fixed fee contracts to operate and maintain water and wastewater systems for the U.S. government on military installations and facilities owned by municipal customers. Billing and revenue recognition for the fixed fee revenues occurs ratably over the term of the contract, as customers simultaneously receive and consume the benefits provided by the Company. Additionally, these contracts allow the Company to make capital improvements to underlying infrastructure, which are initiated through separate modifications or amendments to the original contract, whereby stand-alone, fixed pricing is separately stated for each improvement. The Company has determined that these capital improvements are separate performance obligations, with revenue recognized over time based on performance completed at the end of each reporting period. Losses on contracts are recognized during the period in which the losses first become probable and estimable. Revenues recognized during the period in excess of billings on construction contracts are recorded as unbilled revenues or other long-term assets, with billings in excess of revenues recorded as other current or long-term liabilities until the revenue recognition criteria are met. Changes in contract performance and related estimated contract profitability may result in revisions to costs and revenues and are recognized in the period in which revisions are determined. See Note 4—Revenue Recognition for additional information.

Income Taxes

The Company and its subsidiaries participate in a consolidated federal income tax return for U.S. tax purposes. Members of the consolidated group are charged with the amount of federal income tax expense determined as if they filed separate returns.

Certain income and expense items are accounted for in different time periods for financial reporting than for income tax reporting purposes. The Company provides deferred income taxes on the difference between the tax basis of assets and liabilities and the amounts at which they are carried in the financial statements. These deferred income taxes are based on the enacted tax rates expected to be in effect when these temporary differences are projected to reverse. In addition, the regulated utility subsidiaries recognize regulatory assets and liabilities for the effect on revenues expected to be realized as the tax effects of temporary differences, previously flowed through to customers, reverse.

Investment tax credits have been deferred by the regulated utility subsidiaries and are being amortized to income over the average estimated service lives of the related assets.

The Company recognizes accrued interest and penalties related to tax positions as a component of income tax expense and accounts for sales tax collected from customers and remitted to taxing authorities on a net basis. See Note 14—Income Taxes for additional information.

Allowance for Funds Used During Construction

AFUDC is a non-cash credit to income with a corresponding charge to utility plant that represents the cost of borrowed funds or a return on equity funds devoted to plant under construction. The regulated utility subsidiaries record AFUDC to the extent permitted by the PUCs. The portion of AFUDC attributable to borrowed funds is shown as a reduction of interest expense in the Consolidated Statements of Operations. Any portion of AFUDC attributable to equity funds would be included in Other, net in the Consolidated Statements of Operations. Presented in the table below is AFUDC for the years ended December 31:

	2025	2024	2023
Allowance for other funds used during construction	$ 42	$ 38	$ 41
Allowance for borrowed funds used during construction	26	21	24

Derivative Financial Instruments

The Company uses derivative financial instruments primarily for purposes of hedging exposures to fluctuations in interest rates. These derivative contracts are entered into for periods consistent with the related underlying exposures and do not constitute positions independent of those exposures. The Company does not enter into derivative contracts for speculative purposes and does not use leveraged instruments.

All derivatives are recognized on the balance sheet at fair value. On the date the derivative contract is entered into, the Company designates the derivative as a hedge of a forecasted transaction or of the variability of cash flows to be received or paid related to a recognized asset or liability (cash-flow hedge).

The gains and losses on the effective portion of cash-flow hedges are recorded in other comprehensive income, until earnings are affected by the variability of cash flows. Any ineffective portion of designated cash-flow hedges is recognized in current-period earnings.

Cash flows from derivative contracts are included in net cash provided by operating activities on the Consolidated Statements of Cash Flows. See Note 11—Long-Term Debt for additional information.

Pension and Other Postretirement Benefits

The Company maintains defined benefit pension plans and other postretirement benefit plans for eligible employees and retirees. The plan obligation and costs of providing benefits under these plans are annually measured as of December 31. The measurement involves various factors, assumptions and accounting elections. The impact of assumption changes or experience different from that assumed on pension and other postretirement benefit obligations is recognized over time rather than immediately recognized in the Consolidated Statements of Operations and the Consolidated Statements of Comprehensive Income. Cumulative gains and losses that are in excess of 10% of the greater of either the projected benefit obligation or the fair value of plan assets are amortized over the expected average remaining future service period of the current active membership for the plans, with the exception of the American Water Pension Plan for Certain Inactive Participants, which is amortized over the average remaining life expectancy of the inactive participants. See Note 15—Employee Benefits for additional information.

The Company's policy is to recognize curtailments when the total expected future service of plan participants is reduced by greater than 10% due to an event that results in terminations and/or retirements.

New Accounting Standards

Presented in the table below are new accounting standards that were adopted by the Company in 2025:

Standard	Description	Date of Adoption	Application	Effect on the Consolidated Financial Statements
Income Taxes	The guidance in this standard requires disclosure of a tax rate reconciliation table, in both percentages and reporting currency amounts, which includes additional categories of information about federal, state, and foreign income taxes and provides further details about reconciling items in certain categories that meet a quantitative threshold. The guidance also requires an annual disclosure of income taxes paid, net of refunds, disaggregated by federal, state, and foreign taxes paid, and further disaggregated by jurisdiction based on a quantitative threshold. The standard includes other disclosure requirements and eliminates certain existing disclosure requirements.	January 1, 2025	Retrospective	The Company adopted the standard as of December 31, 2025, including a recast of 2024 and 2023 information, by including additional required disclosures within the Notes to the Consolidated Financial Statements. See Note 14—Income Taxes for further details.

Presented in the table below are recently issued accounting standards that have not yet been adopted by the Company as of December 31, 2025, recently issued accounting standards not presented below were determined to be not applicable, or not material, to the Company:

Standard	Description	Date of Adoption	Application	Effect on the Consolidated Financial Statements
Income Statement Disaggregation	The guidance in this standard enhances disclosures related to income statement expenses to further disaggregate expenses in the footnotes to the financial statements. The standard requires disaggregation of any relevant expense caption presented on the face of the income statement that contains the following expense categories: purchases of inventory, employee compensation, depreciation, intangible asset amortization, and depletion. Further, the standard requires disclosure of the total amount and the entity's definition of selling expenses.	Annual periods beginning after December 15, 2026 and interim periods within fiscal years beginning after December 15, 2027	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.
Induced Conversions of Convertible Debt Instruments	The guidance in this standard clarifies the requirements for determining whether to account for certain settlements of convertible debt instruments as induced conversions or extinguishments. The guidance requires an entity to account for a settlement as an induced conversion if the inducement offer includes the issuance of all of the consideration issuable under the conversion privileges provided in the terms of the existing convertible debt instrument.	Annual periods beginning after December 15, 2025 and interim reporting periods within those annual reporting periods	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.
Accounting for Internal-Use Software	The guidance in this standard removes all reference to prescriptive and sequential software development stages, requiring an entity to start capitalizing software costs when the following criteria are both met: (i) management has authorized and committed to funding the software project and (ii) it is probable that the project will be completed and the software will be used to perform the function intended. Further, the standard requires disclosure for all capitalized internal-use software costs and removes the requirement for intangibles disclosures for capitalized internal-use software.	Annual periods beginning after December 15, 2027 and interim reporting periods within those annual reporting periods	Prospective, with a modified transition or retrospective application also permitted	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.
Accounting for Government Grants Received by Business Entities	Introduces authoritative GAAP guidance for accounting and disclosure of government grants received by business entities, addressing the previous lack of specific guidance and reducing diversity in practice. The standard requires grants to be recognized when compliance with conditions is probable and receipt is likely, and allows presentation either as deferred income or as a reduction of related costs.	Annual periods beginning after December 15, 2028 and interim reporting periods within those annual reporting periods	Modified prospective, modified retrospective, or retrospective applications are permitted	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.

Reclassifications

Certain reclassifications have been made to prior periods in the Consolidated Financial Statements and Notes to conform to the current presentation.

Note 3: Regulatory Matters

General Rate Cases

The table below summarizes the annualized incremental revenues, assuming a constant sales volume and customer count, resulting from general rate case authorizations that became effective during 2025. The amounts include reductions for the amortization of the excess accumulated deferred income taxes ("EADIT") that are generally offset in income tax expense.

	Effective Date	Amount
General rate cases by state:		
Kentucky	December 16, 2025	$ 18
Hawaii	August 1, 2025	1
Iowa	August 1, 2025 (a)	13
Missouri	May 28, 2025	63
Indiana, Step Increase	May 14, 2025	17
Virginia	February 24, 2025 (b)	15
Tennessee	January 21, 2025	1
Illinois	January 1, 2025	105
California, Step Increase	January 1, 2025	17
Total general rate case authorizations		$ 250

(a) Interim rates of $5 million were effective May 11, 2024. The Iowa Utilities Commission issued its final order on May 21, 2025.

(b) Interim rates were effective May 1, 2024, and the difference between interim and final approved rates were subject to refund. The Virginia State Corporation Commission issued its final order on February 24, 2025.

The table below summarizes the annualized incremental revenues, assuming a constant sales volume and customer count, resulting from general rate case authorizations that became effective on or after January 1, 2026. The amounts include reductions for the amortization of EADIT that are generally offset in income tax expense.

	Effective Date	Amount
General rate cases by state:		
California, Attrition Increase	January 1, 2026	$ 14
Total general rate case authorizations		$ 14

On December 16, 2025, the Kentucky Public Service Commission issued a final order approving the adjustment of base rates requested in a general rate case originally filed on May 16, 2025, by the Company's Kentucky subsidiary. The final order approved an $18 million annualized increase in water system revenues, excluding infrastructure surcharges of $10 million, based on an authorized return on equity of 9.70%, authorized rate base of $667 million and a capital structure with a common equity component of 52.26% and a non-equity component of 47.74%. The final order also terminated the Kentucky subsidiary's Qualified Infrastructure Program ("QIP") rider and included the costs and investments of the QIP in approved base rates. The requested annualized revenue increase was driven primarily by approximately $212 million of capital investments completed and planned by the Kentucky subsidiary from February 2025 through December 2026. The new rates were effective as of December 16, 2025.

On July 24, 2025, the Hawaii Public Utilities Commission issued a final order adopting the settlement agreement filed by the Company's Hawaii subsidiary on April 25, 2025, with respect to its general rate case filed on August 2, 2024. The final order approves an annualized increase of approximately $1 million in wastewater revenue, which is based on a return on equity of 9.75% and a capital structure with an equity component of 52.11% and a debt component of 47.89%. New rates were effective August 1, 2025.

On May 21, 2025, the Iowa Utilities Commission issued a final order approving the adjustment of base rates requested in a general rate case originally filed on May 1, 2024, by the Company's Iowa subsidiary. The general rate case order approved a $13 million annualized increase in water and wastewater system revenues, excluding infrastructure surcharges of $1 million, based on an authorized return on equity of 9.60%, authorized rate base of $262 million, and a capital structure with a common equity component of 52.57% and a long-term debt component of 47.43%. The requested annualized revenue increase was driven primarily by over $157 million of capital investments made and expected to be made by the Iowa subsidiary through March 2026. Interim rates of $5 million were effective May 11, 2024, with the remaining increase in annualized water and wastewater system revenues of $8 million effective on August 1, 2025.

On May 14, 2025, the Company's Indiana subsidiary's third step increase of $17 million in annualized water and wastewater system revenues became effective. The Indiana subsidiary filed the general rate case on March 31, 2023, and on February 14, 2024, the Indiana Utility Regulatory Commission issued an order that approved a $65 million annualized increase in water and wastewater system revenues, excluding previously recovered infrastructure surcharges. The annualized revenue increase included three step increases, with $25 million of the increase included in rates in February 2024, $23 million in May 2024, and $17 million in May 2025.

On May 7, 2025, the Missouri Public Service Commission (the "MoPSC") issued an order approving without modification the stipulation and agreement (the "Stipulation") with respect to a general rate case filed on July 1, 2024, by the Company's Missouri subsidiary. The Stipulation was entered into on March 17, 2025, with parties including the staff of the MoPSC and the Office of the Public Counsel. The general rate case order approves a $63 million annualized increase in water and wastewater revenues, excluding $63 million in infrastructure surcharges. The requested annualized revenue increase was driven primarily by $1.1 billion of capital investments completed by the Missouri subsidiary from January 2023 through May 2025. For purposes of the general rate case, the Missouri subsidiary's view of its rate base is $3.2 billion, and its view as to its return on equity and common equity ratio (each of which has been determined based on the order but was not disclosed therein) is 9.75% and 50.00%, respectively. The new rates were effective May 28, 2025.

On February 24, 2025, the Virginia State Corporation Commission (the "SCC") issued an order approving the September 19, 2024 joint "black box" settlement of the general rate case filed by the Company's Virginia subsidiary. The general rate case order approves the stipulated $15 million annualized increase in water and wastewater revenues. Interim water and wastewater rates became effective May 1, 2024, with the difference between interim and final approved rates subject to refund. The requested annualized revenue increase was driven primarily by more than $110 million of incremental capital investments made between May 2023 and April 2025. For purposes of the general rate case, the Virginia subsidiary's view of its rate base is $369 million. The general rate case order also approved, solely for purposes of the Virginia subsidiary's future filings requiring a stated cost of capital and/or capital structure (including its annual information and water and wastewater infrastructure surcharge filings), a return on equity of 9.70% and a capital structure consisting of an equity component of 45.67% and a debt and other component of 54.33%, which also represents the Virginia subsidiary's view of its return on equity and capital structure in this general rate case.

On January 21, 2025, the Tennessee Public Utility Commission (the "TPUC") approved a motion authorizing an adjustment of water base rates requested in a rate case filed on May 1, 2024, by the Company's Tennessee subsidiary. The TPUC approved an increase of $1 million in annualized revenues, excluding previously recovered infrastructure surcharges of $18 million, based on an authorized return on equity of 9.70%, authorized rate base of approximately $300 million, a common equity ratio of 44.19% and a debt ratio of 55.81%. This adjustment took effect on January 21, 2025, and is driven primarily by approximately $173 million in capital investments completed and planned by the Tennessee subsidiary through December 2025.

On January 14, 2025, the California Public Utilities Commission (the "CPUC") granted the Company's California subsidiary's request for a one-year extension of its cost of capital filing to May 1, 2026, to set its authorized cost of capital beginning January 1, 2027, and maintain its current authorized cost of capital through 2026. On November 10, 2025, the California subsidiary submitted a request to further delay by one-year its cost of capital filing and maintain the authorized cost of capital through 2027. On November 18, 2025, the CPUC granted the request for a one-year extension of the cost of capital filing to May 1, 2027, to set its authorized cost of capital beginning January 1, 2028.

On December 5, 2024, the Illinois Commerce Commission (the "ICC") issued a final order approving the adjustment of base rates requested in a rate case originally filed on January 25, 2024, by the Company's Illinois subsidiary. The general rate case order approved an increase of $105 million in annualized water and wastewater system revenues, excluding previously recovered infrastructure surcharges of $5 million, based on an authorized return on equity of 9.84%, authorized rate base of $2.2 billion, and a capital structure with an equity component of 49.00% and a debt component of 51.00%. The increase was effective January 1, 2025, and is driven primarily by approximately $557 million in capital investments completed and planned by the Illinois subsidiary from January 2024 through December 2025.

On December 5, 2024, the CPUC approved a final decision adopting the terms of a partial settlement agreement filed on November 17, 2023, in the Company's California subsidiary's general rate case originally filed on July 1, 2022. Incorporating the then currently effective return on equity of 10.20%, the decision provides incremental annualized water and wastewater revenues of $21 million in the 2024 test year, and an estimated $16 million in the 2025 escalation year and $16 million in the 2026 attrition year. The 2024 rates were implemented retroactively to January 1, 2024. In addition, the CPUC denied the California subsidiary's proposed Water Resources Sustainability Plan decoupling mechanism but approved continuation of its currently effective Annual Consumption Adjustment Mechanism. On December 12, 2024, the California subsidiary filed an application for rehearing of the CPUC's denial of the proposed Water Resources Sustainability Plan decoupling mechanism, and on May 23, 2025, the CPUC issued its decision denying the application for rehearing. On September 19, 2025, the California subsidiary filed a petition to modify the CPUC order received on December 5, 2024, for its general rate case originally filed on July 1, 2022. The request seeks clarification from the CPUC on the method used to calculate the Conservation Adjustment for Rate Tier Designs ("CART"), specifically for the California subsidiary's Monterey service area. The CART is a ratemaking mechanism that allows the Company to recover, in subsequent periods, a portion of the impact on operating revenues as a result of implementing customer rates structured to promote conservation usage. On October 20, 2025, the California Public Advocate submitted a response opposing the California subsidiary's request and stating the request should instead be addressed in the California subsidiary's pending base rate case. On October 30, 2025, the California subsidiary filed a reply to the California Public Advocate's response which underscored the need for clarity on the CART calculation. The California subsidiary expects resolution of the petition to modify later in 2026.

Pending General Rate Case Filings

On January 27, 2026, the Company's Illinois subsidiary filed a request with the ICC to adjust its water and wastewater rates. The filing seeks a two-step rate increase in aggregate annualized incremental revenue, based on a proposed return on equity of 10.75%, of (i) approximately $119 million effective January 1, 2027, based on a future test year through December 31, 2027 and a capital structure with an equity component of 52.42% and a debt component of 47.58%, and (ii) approximately $15 million effective January 1, 2028, based on a future test year to include end-of-period rate base and a capital structure with an equity component of 52.74% and a debt component of 47.26%, in each case, exclusive of infrastructure surcharges. The request is driven primarily by approximately $577 million in capital investments made and to be made by the Illinois subsidiary from January 2026 through December 2027. The request must be approved by the ICC.

On January 16, 2026, the Company's New Jersey subsidiary filed a request with the New Jersey Board of Public Utilities (the "NJBPU") to adjust its water and wastewater rates. The request seeks aggregate annualized incremental revenues of approximately $146 million and is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 55.18% and a debt component of 44.82%. The requested annualized incremental revenue is driven primarily by more than $1.4 billion of capital investments completed and planned by the New Jersey subsidiary through December 2026. The filing is subject to the approval of the NJBPU.

On November 14, 2025, the Company's Pennsylvania subsidiary filed a request with the Pennsylvania Public Utility Commission (the "PaPUC") to adjust its water and wastewater rates. The request seeks aggregate annualized incremental revenue of approximately $169 million, excluding projected infrastructure surcharges of approximately $19 million. The request is based on a proposed return on equity of 10.95% and a capital structure with an equity component of 55.33%. The requested annualized incremental revenue is driven primarily by an estimated $1.2 billion of capital investments completed or planned to be completed from June 2025 through mid-2027. The rate request is subject to approval by the PaPUC, and new rates would be expected to take effect in August 2026.

On November 3, 2025, the Company's Virginia subsidiary filed a request with the SCC to adjust its water and wastewater rates. The request seeks aggregate annualized incremental revenues of approximately $22 million and is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 51.79%. The requested annualized incremental revenue is driven primarily by more than $115 million of capital investments completed and planned by the Virginia subsidiary from May 2025 through April 2027. The filing is subject to the approval of the SCC. Interim rates will be effective May 2, 2026, with the difference between interim and final approved rates subject to refund to customers.

On August 1, 2025, the Company's Maryland subsidiary filed a general rate case requesting approximately $3 million in annualized incremental revenues, which is based on a proposed return on equity of 10.64% and a capital structure with an equity component of 52.32%. The requested annualized incremental revenue is driven primarily by approximately $22 million of capital investments completed by the Maryland subsidiary from February 2019 through April 2025. The filing must be approved by the Public Service Commission of Maryland, and if approved, it is anticipated that new rates would take effect in March 2026.

On July 1, 2025, the Company's California subsidiary filed an application with the CPUC to set new water and wastewater rates in each of its service areas for 2027 through 2029. On October 13, 2025, the California subsidiary filed its 100 day update for the same proceeding and updated the request to $62 million compared to authorized 2025 revenue, and a total increase in revenue over the 2027 to 2029 period of $110 million. Subsequent to the filing of the update, the California subsidiary adjusted its authorized rates effective January 1, 2026, which revised its net increase proposed for the test year 2027 to $51 million above 2026 expected revenues. The requested annualized incremental revenue is driven primarily by approximately $750 million of capital investments completed and planned by the California subsidiary through 2025 to 2028. If approved by the CPUC, the new rates would take effect on January 1, 2027. The application also requests approval of a Fixed Cost Recovery Account, which is intended to be a full decoupling mechanism that would allow the California subsidiary to recover authorized fixed costs, regardless of sales volume, while also providing incentives, via progressive conservation-oriented rate design, for customers to use water more efficiently.

On May 5, 2025, the Company's West Virginia subsidiary filed a general rate case requesting approximately $48 million in aggregate annualized incremental revenues, excluding infrastructure surcharges of $13 million, which would include two step increases, with $33 million to be included in rates in March 2026, and $15 million to be included in rates in March 2027. The request is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 50.80% and 50.97%, respectively, for each of the two steps. The requested annualized incremental revenue is driven primarily by more than $300 million of capital investments completed and planned by the West Virginia subsidiary from March 2024 through February 2027. The request is subject to approval by the Public Service Commission of West Virginia, and the general rate case is expected to be completed by the end of February 2026.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective during 2025:

	Effective Date	Amount
Infrastructure surcharges by state:		
New Jersey	November 29, 2025	$ 26
Pennsylvania	October 1, 2025	5
New Jersey	May 30, 2025	15
Missouri	February 7, 2025	17
Kentucky	January 1, 2025	2
West Virginia	January 1, 2025	4
Total infrastructure surcharge authorizations		$ 69

Presented in the table below are annualized incremental revenues, assuming a constant sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective on or after January 1, 2026:

	Effective Date	Amount
Infrastructure surcharge filings by state:		
Pennsylvania	January 1, 2026	$ 11
Illinois	January 1, 2026	5
Total infrastructure surcharge filings		$ 16

Pending Infrastructure Surcharge Filings

On January 20, 2026, the Company's Indiana subsidiary filed an infrastructure surcharge proceeding requesting $15 million in additional annualized revenues.

On September 3, 2025, the Company's Missouri subsidiary filed an infrastructure surcharge proceeding requesting $13 million in additional annualized revenues.

On June 30, 2025, the Company's West Virginia subsidiary filed an infrastructure surcharge proceeding requesting $3 million in additional annualized revenues.

Other Regulatory Matters

The PaPUC, as part of its July 22, 2024 approval of the general rate case filed by the Company's Pennsylvania subsidiary on November 8, 2023, initiated an investigation into certain reported water service and water quality issues in the Pennsylvania subsidiary's Northeastern service territory, which reports had been provided during public input hearings convened in the general rate case. The PaPUC concluded the investigation and issued a Root Cause Analysis Report on August 5, 2025, which found no systemic issues affecting the Pennsylvania subsidiary's water service in the Northeastern service territory and expressed satisfaction with the Pennsylvania subsidiary's efforts to manage water service matters. The PaPUC committed to continued monitoring of the Pennsylvania subsidiary's service over the next three years.

Regulatory Assets

Regulatory assets represent costs that are probable of recovery from customers in future rates. Approximately 50% of the Company's total regulatory asset balance at December 31, 2025, earns a return. Presented in the table below is the composition of regulatory assets as of December 31:

	2025	2024
Removal costs recoverable through rates	$ 323	$ 356
Deferred pension expense	276	318
Customer lead line replacements	80	86
Unamortized debt expense	84	84
Regulatory balancing accounts	65	71
Programmed maintenance expense	60	57
Purchase premium recoverable through rates	49	50
Other	195	128
Total (non-current) regulatory assets	1,132	1,150
Current regulatory assets (a)	22	19
Total regulatory assets	$ 1,154	$ 1,169

(a) Current regulatory assets are included in other current assets on the Consolidated Balance Sheets.

Removal costs recoverable through rates represent costs incurred for removal of property, plant and equipment or other retirement costs.

The Company's deferred pension expense includes a portion of the underfunded status that is probable of recovery through rates in future periods of $261 million and $304 million as of December 31, 2025 and 2024, respectively. The remaining portion is the pension expense in excess of authorized amounts which is deferred by certain subsidiaries and probable of recovery in future service rates.

Customer lead line replacements are the costs incurred to replace customer owned lead service lines. Costs are recovered through a customer's surcharge or through base rates, depending on the jurisdiction.

Unamortized debt expense is amortized over the lives of the respective issues. Call premiums on the redemption of long-term debt, as well as unamortized debt issuance costs, are deferred and amortized to the extent they will be recovered through future service rates.

Regulatory balancing accounts accumulate differences between revenues recognized and authorized revenue requirements until they are collected from customers or are refunded. Regulatory balancing accounts include low income programs, purchased power and water accounts, dam removal costs and other cost balancing mechanisms.

Programmed maintenance expense are costs incurred to inspect or paint water tanks and are amortized on a straight line basis over a period determined by each state regulator.

Purchase premiums recoverable through rates are being recovered over periods up to 40 years.

Other regulatory assets include depreciation related costs, property tax stabilization, employee-related costs, business services project expenses, coastal water project costs, service enhancement costs, rate case expenditures and environmental remediation costs among others. These costs are deferred because the amounts are being recovered in rates or are probable of recovery through rates in future periods.

Regulatory Liabilities

Regulatory liabilities generally represent amounts that are probable of being credited or refunded to customers through the rate making process. Also, if costs expected to be incurred in the future are currently being recovered through rates, the Company records those expected future costs as regulatory liabilities. Presented in the table below is the composition of regulatory liabilities as of December 31:

	2025	2024
Income taxes recovered through rates	$ 959	$ 1,016
Removal costs recovered through rates	248	245
PFAS Multi-district litigation settlements	91	—
Postretirement benefit liability	43	71
Other	75	84
Total (non-current) regulatory liabilities	1,416	1,416
Current regulatory liabilities (a)	24	—
Total regulatory liabilities	$ 1,440	$ 1,416

(a) Current regulatory liabilities, which as of December 31, 2025, primarily consisted of PFAS Multi-district litigation settlements, are included in other current liabilities on the Consolidated Balance Sheets.

Income taxes recovered through rates relate to deferred taxes that will be refunded to the Company's customers. The enactment of the Tax Cuts and Jobs Act of 2017 required a re-measurement of the Company's deferred income taxes. The portion of this re-measurement related to the Regulated Businesses was substantially offset by a regulatory liability as EADIT which will be used to benefit its regulated customers in future rates. All of the Company's regulated subsidiaries are amortizing EADIT and crediting customers.

Removal costs recovered through rates are estimated costs to retire assets at the end of their expected useful lives that are recovered through customer rates over the lives of the associated assets.

PFAS Multi-district litigation settlements represent payments from litigation related to certain per- and polyfluoroalkyl substances (collectively, "PFAS") the Company has received that the Company intends to pass back to customers, subject to regulatory approval from the PUCs. See Note 16—Commitments and Contingencies for additional information.

Postretirement benefit liability includes a portion of the over-funded status that is probable of refund through rates in future periods. The remaining portion represents prior service credits resulting from announced plan amendments which changed benefits for certain union and non-union plan participants.

Other regulatory liabilities include the pension and other postretirement benefit balancing accounts, legal settlement proceeds, deferred gains, refunds to customers related to tax overpayments, and various regulatory balancing accounts.

Note 4: Revenue Recognition

Disaggregated Revenues

Presented in the table below are operating revenues disaggregated for the year ended December 31, 2025:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	$ 2,557	$ —	$ 2,557
Commercial	981	—	981
Fire service	189	—	189
Industrial	195	—	195
Public and other	311	—	311
Total water services	4,233	—	4,233
Wastewater services:			
Residential	287	—	287
Commercial	86	—	86
Industrial	10	—	10
Public and other	39	—	39
Total wastewater services	422	—	422

Total Regulated Businesses	3,902	18	3,920
Other	315	(1)	314
Total operating revenues	$ 4,217	$ 17	$ 4,234

(a) Includes revenues associated with alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of ASC 606, and accounted for under other existing GAAP.

Contract Balances

Contract assets and contract liabilities are the result of timing differences between revenue recognition, billings and cash collections. In MSG, certain contracts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals or upon achievement of contractual milestones. Contract assets are recorded when billing occurs subsequent to revenue recognition and are reclassified to accounts receivable when billed and the right to consideration becomes unconditional. Contract liabilities are recorded when the Company receives advances from customers prior to satisfying contractual performance obligations, particularly for construction contracts, and are recognized as revenue when the associated performance obligations are satisfied.

Contract assets of $171 million, $84 million and $95 million are included in unbilled revenues on the Consolidated Balance Sheets as of December 31, 2025, 2024 and 2023, respectively. Also, contract assets of $5 million and $39 million are included in other long-term assets on the Consolidated Balance Sheets as of December 31, 2025 and 2024, respectively, and there were no contract assets in other long-term assets on the Consolidated Balance Sheets as of December 31, 2023. There were $175 million of contract assets added during 2025, and $122 million of contract assets were transferred to accounts receivable during 2025. There were $114 million of contract assets added during 2024, and $86 million of contract assets were transferred to accounts receivable during 2024.

Contract liabilities of $19 million, $40 million and $63 million are included in other current liabilities on the Consolidated Balance Sheets as of December 31, 2025, 2024 and 2023, respectively. Also, contract liabilities of $19 million and $14 million are included in other long-term liabilities on the Consolidated Balance Sheets as of December 31, 2025 and 2024, respectively, and there were no contract liabilities in other long-term liabilities on the Consolidated Balance Sheets as of December 31, 2023. There were $88 million of contract liabilities added during 2025, and $104 million of contract liabilities were recognized as revenue during 2025. There were $83 million of contract liabilities added during 2024, and $92 million of contract liabilities were recognized as revenue during 2024.

Remaining Performance Obligations

Remaining performance obligations ("RPOs") represent revenues the Company expects to recognize in the future from contracts that are in progress. The Company enters into agreements for the provision of services to water and wastewater facilities for the U.S. military, municipalities and other customers. As of December 31, 2025, the Company's O&M and capital improvement contracts have RPOs. Contracts with the U.S. government for work on military installations expire between 2051 and 2073 and have RPOs of $7.4 billion as of December 31, 2025, as measured by estimated remaining contract revenue. Such contracts are subject to customary termination provisions held by the U.S. government, prior to the agreed-upon contract expiration. Contracts with municipalities and commercial customers expire between 2031 and 2038 and have RPOs of $508 million as of December 31, 2025, as measured by estimated remaining contract revenue.

Note 5: Mergers, Acquisitions and Divestitures

Agreement and Plan of Merger with Essential Utilities, Inc.

On October 26, 2025, parent company entered into an Agreement and Plan of Merger (the "Essential Merger Agreement") with Essential Utilities, Inc. ("Essential") to combine the two companies in a stock-for-stock transaction. The Essential Merger Agreement provides that, upon the completion of the proposed merger, Essential's shareholders will receive 0.305 shares of parent company common stock in exchange for each share of Essential common stock eligible for exchange in the merger. Upon completion of the proposed merger, Essential will be a wholly owned subsidiary of parent company, and parent company will retain its existing name and remain headquartered in Camden, New Jersey. The Company will continue to maintain substantial operations in Pennsylvania, including Essential's offices in Bryn Mawr, Pennsylvania, and Pittsburgh, Pennsylvania.

Completion of the proposed merger is subject to certain customary conditions, including, among others, the receipt of required approvals from all applicable public utility commissions on such terms and conditions that would not, individually or in the aggregate, result in a Burdensome Effect (as defined in the Essential Merger Agreement), and the expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976. There can be no guarantee that all of the closing conditions and approvals will be satisfied, and the failure to complete the proposed merger on a timely basis or at all may adversely affect the Company's financial condition and results of operations. The Company currently estimates that the closing of the proposed merger will occur by the end of the first quarter of 2027. For the year ended December 31, 2025, $13 million of merger related costs were included in Operation and maintenance expense in the Consolidated Statements of Operations.

Acquisitions - Regulated Businesses

During 2025, the Company closed on 18 acquisitions of various regulated water and wastewater systems for a total aggregate purchase price of $83 million, of which $81 million was funded in 2025, and which acquisitions added approximately 20,900 water and wastewater customers. This includes the Company's acquisition of the Audubon Water Company effective May 28, 2025, for a total consideration of $7 million, in the form of 48,381 shares of parent company common stock, net of an indemnity escrow claim, and the Company's acquisition of Appalachian Utilities Inc. effective October 27, 2025, for a total consideration of $4 million, in the form of 25,159 shares of parent company common stock. Assets acquired from all 2025 acquisitions, principally utility plant, totaled $107 million and liabilities assumed totaled $36 million, including assumed debt of $12 million. The Company recorded goodwill of $12 million associated with six of its acquisitions, which is reported in the Company's Regulated Businesses segment. Eight of these acquisitions were accounted for as business combinations. The preliminary purchase price allocations related to acquisitions accounted for as business combinations will be finalized once the valuation of assets acquired has been completed, no later than one year after their respective acquisition date.

During 2024, the Company closed on 13 acquisitions of various regulated water and wastewater systems for a total aggregate purchase price of $417 million, of which $415 million was funded in 2024, adding approximately 69,500 water and wastewater customers. Assets acquired from all 2024 acquisitions, principally utility plant, totaled $426 million and liabilities assumed totaled $10 million. The Company also recorded goodwill of $1 million. Seven of these acquisitions were accounted for as business combinations.

The pro forma impact of the Company's business combinations was not material to the Consolidated Statements of Operations for the years ended December 31, 2025, 2024 and 2023.

Secured Seller Promissory Note from the Sale of Homeowner Services Group

On December 9, 2021, the Company sold all of the equity interests in subsidiaries that comprised HOS to a wholly owned subsidiary (the "Buyer") of funds advised by Apax Partners LLP, a global private equity advisory firm, for total consideration of approximately $1.275 billion. The consideration at closing was comprised of $480 million in cash, a secured seller note payable in cash and issued by the Buyer in the principal amount of $720 million, with an interest rate of 7.00% per year, and a contingent cash payment of $75 million payable upon satisfaction of certain conditions on or before December 31, 2023.

On February 2, 2024, this note was amended to increase the principal amount from $720 million to $795 million, in full satisfaction of the $75 million contingent cash payment payable under the HOS sale agreement. In addition, the interest rate payable on the secured seller note increased from 7.00% per year to 10.00% per year until maturity. As of December 31, 2025, this note was included as a current asset on the Consolidated Balance Sheets. The Company recognized $80 million, $77 million, and $50 million of interest income during the years ended December 31, 2025, 2024 and 2023, respectively, from this note. On February 13, 2026, the Company received payment of all amounts payable under the secured seller promissory note in full satisfaction of the Buyer's obligations thereunder.

Note 6: Property, Plant and Equipment

Presented in the table below are the major classes of property, plant and equipment by category as of December 31:

	2025	2024	Range of Remaining Useful Lives	Weighted Average Useful Life
Utility plant:				
Land and other non-depreciable assets	$ 317	$ 302		
Sources of supply	1,252	1,124	20 to 114 years	45 years
Treatment and pumping	5,093	4,786	2 to 119 years	40 years
Transmission and distribution	15,807	14,745	15 to 128 years	65 years
Services, meters and fire hydrants	7,046	6,356	2 to 109 years	28 years
General structures and equipment	3,116	2,813	2 to 109 years	16 years
Waste collection	2,124	1,986	5 to 145 years	52 years
Waste treatment, pumping and disposal	1,530	1,425	4 to 165 years	32 years
Construction work in progress	1,548	1,359		
Other plant	19	22	1 to 54 years	18 years
Total utility plant	37,852	34,918		
Nonutility property	103	141	3 to 50 years	16 years
Total property, plant and equipment	$ 37,955	$ 35,059		

Property, plant and equipment depreciation expense amounted to $776 million, $690 million and $617 million for the years ended December 31, 2025, 2024 and 2023, respectively, and was included in Depreciation and amortization expense in the Consolidated Statements of Operations. The provision for depreciation expressed as a percentage of the aggregate average depreciable asset balances was 2.82%, 2.73% and 2.68% for the years ended December 31, 2025, 2024 and 2023, respectively. Additionally, the Company had capital expenditures acquired on account but unpaid of $350 million and $347 million included in accrued liabilities on the Consolidated Balance Sheets as of December 31, 2025 and 2024, respectively.

In connection with the Company's capital investment in its corporate headquarters in Camden, New Jersey, the New Jersey Economic Development Authority ("NJEDA") determined that the Company was qualified to receive $161 million in tax credits over a 10-year period commencing in 2019.

The Company is required to meet various annual requirements, including the maintenance of qualified full-time positions at the qualified business facility, in order to monetize one-tenth of the tax credits annually and is subject to a claw-back period if the Company does not meet certain NJEDA requirements of the tax credit program in years 11 through 15.

In October 2025, the NJEDA issued to the Company the utilization certificate for the 2023 tax credits in the amount of $15 million. In December and January 2024, the NJEDA issued to the Company the utilization certificates for the 2022 and 2021 tax credits in the amount of $15 million and $16 million, respectively. For the years ended December 31, 2025, 2024 and 2023, the Company recorded losses of $1 million, $2 million and $1 million, respectively, to Other income (expense) in the Consolidated Statements of Operations from the sale of tax credits to an external party. As of December 31, 2025, the Company had current assets of $15 million included in Other and $64 million of long-term assets included in Other on the Consolidated Balance Sheets for the 2024 through 2028 tax credits. As of December 31, 2024, the Company had no current assets and $90 million of long-term assets included in Other on the Consolidated Balance Sheets for the 2023 through 2028 tax credits. The Company has made the necessary annual filing for the year ended December 31, 2024, and expects to make the 2025 filing in April 2026, prior to the required filing deadline. The submitted filing is under review by the NJEDA and it is expected that the Company will receive final NJEDA approval and monetize the 2024 tax credits in 2026.

Note 7: Allowance for Uncollectible Accounts

Presented in the table below are the changes in the allowances for uncollectible accounts for the years ended December 31:

	2025	2024	2023
Balance as of January 1	$ (53)	$ (51)	$ (60)
Amounts charged to expense	(48)	(31)	(24)
Amounts written off	43	29	33
Balance as of December 31	$ (58)	$ (53)	$ (51)

Note 8: Goodwill

Goodwill

Presented in the table below are the changes in the carrying value of goodwill for the years ended December 31, 2025 and 2024:

	Regulated Businesses		Other		Consolidated		
	Cost	Accumulated Impairment	Cost	Accumulated Impairment	Cost	Accumulated Impairment	Total Net
Balance as of January 1, 2024	$ 3,470	$ (2,332)	$ 113	$ (108)	$ 3,583	$ (2,440)	$ 1,143
Goodwill from acquisitions	1	—	—	—	1	—	1
Balance as of December 31, 2024	$ 3,471	$ (2,332)	$ 113	$ (108)	$ 3,584	$ (2,440)	$ 1,144
Goodwill from acquisitions	12	—	—	—	12	—	12
Balance as of December 31, 2025	$ 3,483	$ (2,332)	$ 113	$ (108)	$ 3,596	$ (2,440)	$ 1,156

The Company completed its annual impairment testing of goodwill as of November 30, 2025, which included qualitative assessments of its Regulated Businesses and MSG reporting units. Based on these assessments, the Company determined that there were no factors present that would indicate that the fair value of these reporting units was less than their respective carrying values as of November 30, 2025.

In 2025, the Company acquired goodwill of $12 million associated with six of its acquisitions in the Regulated Businesses segment. In 2024, the Company acquired goodwill of $1 million associated with one of its acquisitions in the Regulated Businesses segment.

Note 9: Shareholders' Equity

Equity Forward Sale Agreements

In August 2025, the Company entered into separate forward sale agreements (the "Forward Sale Agreements") with several forward purchasers relating to an aggregate of 8,098,592 shares of the Company's common stock at an initial forward price of $139.657 per share, which is equal to the price to public per share less an underwriting discount. Each Forward Sale Agreement will be physically settled unless the Company elects to settle such Forward Sale Agreement in cash or to net share settle such Forward Sale Agreement (which the Company has the right to do, subject to certain conditions, other than in the limited circumstances set forth in the Forward Sale Agreements). The Forward Sale Agreements provide for settlement on a settlement date or dates to be specified at the Company's discretion on or prior to December 31, 2026. To the extent the Forward Sale Agreements are physically settled, the Company will issue common stock to the forward purchasers and receive cash proceeds based on the applicable forward sale price on the settlement date as defined in the Forward Sale Agreements.

As of December 31, 2025, the Company did not receive any proceeds from the sale of its common stock connected to the Forward Sale Agreements. The Company estimates that it will receive total net proceeds of approximately $1,131 million, before deducting estimated offering expenses, subject to the price adjustment and other provisions of the Forward Sale Agreements, in the event of full physical settlement of all of the Forward Sale Agreements. The Company intends to use any net cash proceeds that it may receive upon a settlement of the Forward Sale Agreements for general corporate purposes. The Forward Sale Agreements will be classified as equity transactions because they are indexed to the Company's common stock and physical settlement is within the Company's control.

Dividend Reinvestment and Direct Stock Purchase Plan

Under the Company's dividend reinvestment and direct stock purchase plan (the "DRIP"), shareholders may reinvest cash common stock dividends and purchase additional shares of Company common stock, up to certain limits, through the plan administrator without paying brokerage commissions. Shares purchased by participants through the DRIP may be newly issued shares, treasury shares, or at the Company's election, shares purchased by the plan administrator in the open market or in privately negotiated transactions. Purchases generally will be made and credited to DRIP accounts once each week. As of December 31, 2025, there were approximately 4.1 million shares available for future issuance under the DRIP.

Anti-dilutive Stock Repurchase Program

In February 2015, the Company's Board of Directors authorized an anti-dilutive stock repurchase program, which allows the Company to purchase up to 10 million shares of its outstanding common stock from time to time over an unrestricted period of time. The Company did not repurchase shares of common stock during the years ended December 31, 2025, 2024 or 2023. As of December 31, 2025, there were 5.1 million shares of common stock available for purchase under the program.

Accumulated Other Comprehensive Loss

Presented in the table below are the changes in accumulated other comprehensive loss by component, net of tax, for the years ended December 31, 2025, 2024 and 2023:

	Defined Benefit Plans					
	Employee Benefit Plan Funded Status	Amortization of Prior Service Cost	Amortization of Actuarial Loss	Gain (Loss) on Cash Flow Hedge	Gain (Loss) on Fixed-Income Securities	Accumulated Other Comprehensive Income (Loss)
Beginning balance as of January 1, 2023	$ (93)	$ 1	$ 70	$ (1)	$ —	$ (23)
Other comprehensive (loss) income before reclassification	(3)	—	—	(8)	4	(7)
Amounts reclassified from accumulated other comprehensive income	—	—	4	—	—	4
Net other comprehensive (loss) income	(3)	—	4	(8)	4	(3)
Ending balance as of December 31, 2023	$ (96)	$ 1	$ 74	$ (9)	$ 4	$ (26)
Other comprehensive income (loss) before reclassification	1	—	—	39	(2)	38
Net other comprehensive income (loss)	1	—	—	39	(2)	38
Ending balance as of December 31, 2024	$ (95)	$ 1	$ 74	$ 30	$ 2	$ 12
Other comprehensive (loss) income before reclassification	—	—	—	(4)	1	(3)
Amounts reclassified from accumulated other comprehensive income (loss)	—	—	1	—	(4)	(3)
Net other comprehensive income (loss)	—	—	1	(4)	(3)	(6)
Ending balance as of December 31, 2025	$ (95)	$ 1	$ 75	$ 26	$ (1)	$ 6

The Company does not reclassify the amortization of defined benefit pension cost components from accumulated other comprehensive loss directly to net income in its entirety, as a portion of these costs have been deferred as a regulatory asset. These accumulated other comprehensive loss components are included in the computation of net periodic pension cost. See Note 15—Employee Benefits for additional information.

The amortization of the gain (loss) on cash flow hedges is reclassified to net income during the period incurred and is included in Interest expense in the accompanying Consolidated Statements of Operations.

An unrealized gain (loss) on available-for-sale fixed-income securities is reclassified to net income upon sale of the securities as a realized gain or loss and is included in Other, net in the accompanying Consolidated Statements of Operations.

Dividends and Distributions

The Company's Board of Directors authorizes the payment of dividends. The Company's ability to pay dividends on its common stock is subject to having access to sufficient sources of liquidity, net income and cash flows of the Company's subsidiaries, the receipt of dividends and direct and indirect distributions from, and repayments of indebtedness of, the Company's subsidiaries, compliance with Delaware corporate and other laws, compliance with the contractual provisions of debt and other agreements and other factors.

The Company's dividend rate on its common stock is determined by the Board of Directors on a quarterly basis and takes into consideration, among other factors, current and possible future developments that may affect the Company's income and cash flows. When dividends on common stock are declared, they are typically paid in March, June, September and December. Historically, dividends have been paid quarterly to holders of record as of a date less than 30 days prior to the distribution date. Since the dividends on the Company's common stock are not cumulative, only declared dividends are paid.

During 2025, 2024 and 2023, the Company paid $633 million, $585 million and $532 million in cash dividends, respectively. Presented in the table below is the per share cash dividends paid for the years ended December 31:

	2025	2024	2023
December	$ 0.8275	$ 0.7650	$ 0.7075
September	$ 0.8275	$ 0.7650	$ 0.7075
June	$ 0.8275	$ 0.7650	$ 0.7075
March	$ 0.7650	$ 0.7075	$ 0.6550

On December 5, 2025, the Company's Board of Directors declared a quarterly cash dividend payment of $0.8275 per share payable on March 3, 2026, to shareholders of record as of February 10, 2026.

Under applicable law, the Company's subsidiaries may pay dividends on their capital stock or other equity only from retained, undistributed or current earnings. A significant loss recorded at a subsidiary may limit the amount of the dividend that the subsidiary can pay. The ability of the Company's subsidiaries to pay upstream dividends, make other upstream distributions or repay indebtedness to parent company or AWCC, as applicable, is subject to compliance with applicable corporate, tax and other laws, regulatory restrictions and financial and other contractual obligations, including, for example, (i) regulatory capital, surplus or net worth requirements, (ii) outstanding debt service obligations, (iii) requirements to make preferred and preference stock dividend payments, and (iv) other contractual agreements, covenants or obligations made or entered into by the Company and its subsidiaries.

Regulatory Restrictions on Indebtedness

The issuance of long-term debt or equity securities by the Company or long-term debt by AWCC does not require authorization of any state PUC if no guarantee or pledge of the regulated subsidiaries is utilized. Based on the needs of the Regulated Businesses and parent company, AWCC may borrow funds or issue its debt in the capital markets and then, through intercompany loans, provide these borrowings to the Regulated Businesses or parent company. PUC authorization is generally required for the regulated subsidiaries to incur long-term debt. The Company's regulated subsidiaries normally obtain these required PUC authorizations on a periodic basis to cover their anticipated financing needs for a period of time, or, as necessary, in connection with a specific financing or refinancing of debt.

Note 10: Stock Based Compensation

The Company has granted stock units, stock awards and dividend equivalents to non-employee directors, officers and employees pursuant to the terms of the 2017 Omnibus Equity Compensation Plan (the "2017 Omnibus Plan"), approved by the Company's shareholders in May 2017. Stock units under the 2017 Omnibus Plan generally vest based on (i) continued employment with the Company ("RSUs"), or (ii) continued employment with the Company where distribution of the shares is subject to the satisfaction in whole or in part of stated performance-based goals ("PSUs"). A total of 7.2 million shares of common stock may be issued under the 2017 Omnibus Plan. As of December 31, 2025, 5.7 million shares were available for grant under the 2017 Omnibus Plan. The 2017 Omnibus Plan provides that grants of awards may be in any of the following forms: incentive stock options, nonqualified stock options, stock appreciation rights, stock units, stock awards, other stock-based awards and dividend equivalents. Dividend equivalents may be granted only on stock units or other stock-based awards. The 2017 Omnibus Plan expires in 2027.

The Company had granted stock options, stock units, including RSUs and PSUs, and dividend equivalents to non-employee directors, officers and other key employees of the Company under its 2007 Omnibus Equity Compensation Plan (the "2007 Plan"). The 2007 Plan has been replaced by the 2017 Omnibus Plan, as defined above, and no additional awards may be granted under the 2007 Plan. However, shares may still be issued under the 2007 Plan pursuant to the terms of awards previously issued under that plan prior to May 12, 2017.

The cost of services received from employees in exchange for the issuance of restricted stock awards is measured based on the grant date fair value of the awards issued. The value of stock unit awards at the date of the grant is amortized through expense over the requisite service period. All awards granted in 2025, 2024 and 2023 are classified as equity. The Company recognizes compensation expense for stock awards over the vesting period of the award. The Company stratified its grant populations and used historic employee turnover rates to estimate employee forfeitures. The estimated rate is compared to the actual forfeitures at the end of the reporting period and adjusted as necessary. There have been no significant adjustments to the forfeiture rates during 2025, 2024 and 2023. There were no grants of stock options to employees after 2016, and there were no stock options outstanding as of December 31, 2022. Presented in the table below is the stock-based compensation expense recorded in O&M expense in the accompanying Consolidated Statements of Operations for the years ended December 31:

	2025	2024	2023
RSUs and PSUs	$ 30	$ 34	$ 23
Nonqualified employee stock purchase plan	2	2	2
Stock-based compensation	32	36	25
Income tax benefit	(7)	(8)	(6)
Stock-based compensation expense, net of tax	$ 25	$ 28	$ 19

There were no significant stock-based compensation costs capitalized during the years ended December 31, 2025, 2024 and 2023.

Subject to limitations on deductibility imposed by the Internal Revenue Code of 1986, as amended, the Company receives a tax deduction based on the intrinsic value of the award at the exercise date for stock options and the distribution date for stock units. For each award, throughout the requisite service period, the Company records the tax impacts related to compensation costs as deferred income tax assets. The tax deductions in excess of the deferred benefits recorded throughout the requisite service period are recorded to the Consolidated Statements of Operations and are presented in the financing section of the Consolidated Statements of Cash Flows.

Stock Units

During 2025, 2024 and 2023, the Company granted RSUs to certain employees under the 2017 Omnibus Plan. RSUs generally vest based on continued employment with the Company over periods ranging from one to three years. The RSUs are valued at the closing price of the Company's common stock on the date of the grant and the majority vest ratably over a three-year service period. These RSUs are amortized through expense over the requisite service period using the straight-line method.

During 2025, 2024 and 2023, the Company granted stock units to non-employee directors under the 2017 Omnibus Plan. The stock units were vested in full on the date of grant. Prior to 2024, distribution of the shares was made within 30 days of the earlier of (i) 15 months after the date of the last annual meeting of shareholders, subject to any deferral election by the director, or (ii) the participant's separation from service. Shares of common stock are currently distributed within 30 days after the date of grant. Because these stock units vested on the grant date, the total grant date fair value was recorded in operation and maintenance expense on the grant date.

The grant date fair value of RSUs granted to certain employees and stock units granted to non-employee directors totaled $12 million, $10 million and $9 million for the years ended December 31, 2025, 2024 and 2023, respectively.

Presented in the table below is RSU and director stock unit activity for the year ended December 31, 2025:

	Shares (in thousands)	Weighted Average Grant Date Fair Value (per share)
Non-vested total as of December 31, 2024	75	$ 131.20
Granted	95	129.42
Vested	(60)	133.39
Forfeited	(11)	127.01
Non-vested total as of December 31, 2025	99	$ 128.63

As of December 31, 2025, $6 million of total unrecognized compensation cost related to the non-vested RSUs is expected to be recognized over the weighted average remaining life of 1.62 years. The total fair value of stock units and RSUs vested was $8 million, $9 million and $6 million for the years ended December 31, 2025, 2024 and 2023, respectively.

During 2025, 2024 and 2023, the Company granted PSUs to certain employees under the 2017 Omnibus Plan with grant date fair values totaling $27 million, $23 million and $28 million, respectively. The majority of PSUs vest ratably based on continued employment with the Company over the three-year performance period (the "Performance Period"). Distribution of the performance shares is contingent upon the achievement of one or more internal performance measures and, separately, a relative total shareholder return performance measure, over the Performance Period.

Presented in the table below is PSU activity for the year ended December 31, 2025:

	Shares (in thousands)	Weighted Average Grant Date Fair Value (per share)
Non-vested total as of December 31, 2024	322	$ 130.04
Granted	211	128.59
Vested	(74)	147.45
Forfeited	(81)	106.41
Non-vested total as of December 31, 2025	378	$ 130.93

As of December 31, 2025, $8 million of total unrecognized compensation cost related to the non-vested PSUs is expected to be recognized over the weighted average remaining life of 0.85 years. The total fair value of PSUs vested was $26 million, $23 million and $31 million for the years ended December 31, 2025, 2024 and 2023, respectively.

PSUs granted with one or more internal performance measures are valued at the market value of the closing price of the Company's common stock on the date of grant. PSUs granted with a relative total shareholder return condition are valued, for accounting purposes, using a Monte Carlo simulation model. Expected volatility is based on historical volatilities of traded common stock of the Company and comparative companies using daily stock prices over the past three years. The expected term is three years and the risk-free interest rate is based on the three-year U.S. Treasury rate in effect as of the measurement date. Presented in the table below are the weighted average assumptions used in the Monte Carlo simulation and the weighted average grant date fair values of PSUs granted for the years ended December 31:

	2025	2024	2023
Expected volatility	23.25%	22.98%	25.45%
Risk-free interest rate	4.27%	4.39%	4.31%
Expected life (years)	3.0	3.0	3.0
Grant date fair value per share	$118.29	$118.95	$168.00

The grant date fair value of PSUs that vest ratably and have market and/or performance conditions are amortized through expense over the requisite service period using the graded-vesting method.

Employee Stock Purchase Plan

The Company maintains a nonqualified employee stock purchase plan (the "ESPP") that expires in 2027 through which employee participants (which excludes certain of the Company's executives) may use payroll deductions to acquire Company common stock at a purchase price of 85% of the fair market value of the common stock at the end of a three-month purchase period. A total of 2.0 million shares may be issued under the ESPP, and as of December 31, 2025, there were 1.3 million shares of common stock reserved for issuance under the ESPP. The ESPP is considered compensatory. During the years ended December 31, 2025, 2024 and 2023, the Company issued approximately 84,000, 90,000 and 87,000 shares, respectively, under the ESPP.

Note 11: Long-Term Debt

The Company obtains long-term debt through AWCC primarily to fund capital expenditures of the Regulated Businesses, to repay or refinance existing long-term and short-term debt, and to lend funds to parent company to refinance debt and for other purposes. Presented in the table below are the components of long-term debt as of December 31:

	Rate	Weighted Average Rate	Maturity	2025	2024
Long-term debt of AWCC: (a)					
Senior notes—fixed rate	2.30%-8.27%	4.24%	2026-2055	$ 12,961	$ 11,786
Private activity bonds and government funded debt—fixed rate	0.00%-3.88%	3.07%	2028-2045	187	187
Long-term debt of other American Water subsidiaries:					
Private activity bonds and government funded debt—fixed rate	0.00%-5.00%	2.41%	2026-2061	717	761
Mortgage bonds—fixed rate	6.35%-9.19%	7.37%	2026-2039	435	456
Mandatorily redeemable preferred stock	8.47%-9.75%	8.64%	2036	3	3
Long-term debt		4.23%		14,303	13,193
Unamortized debt discount, net (b)				(27)	(20)
Unamortized debt issuance costs				(17)	(15)
Less current portion of long-term debt				(1,479)	(637)
Total long-term debt				$ 12,780	$ 12,521

(a) This indebtedness is considered "debt" for purposes of a support agreement between parent company and AWCC, which serves as a functional equivalent of a full and unconditional guarantee by parent company of AWCC's payment obligations under such indebtedness.

(b) Includes debt discount, net of fair value adjustments previously recognized in acquisition purchase accounting.

All mortgage bonds and $709 million of the private activity bonds and government funded debt held by the Company's subsidiaries were collateralized as of December 31, 2025.

Long-term debt agreements contain a number of covenants that, among other things, limit, subject to certain exceptions, AWCC from issuing debt secured by the Company's consolidated assets. Certain long-term note covenants require the Company to maintain a ratio of consolidated total indebtedness to consolidated total capitalization (each as defined in the relevant documents) of not more than 0.70 to 1.00. The ratio as of December 31, 2025, was 0.59 to 1.00. In addition, the Company has $773 million of notes which include the right to redeem the notes at par value, in whole or in part, from time to time, subject to certain restrictions, with a weighted average interest rate of 2.61%.

Presented in the table below are future sinking fund payments and debt maturities:

	Amount
2026	$ 1,479
2027	646
2028	869
2029	938
2030	517
Thereafter	9,854

Presented in the table below are the issuances of long-term debt in 2025:

Company	Type	Rate	Weighted Average Rate	Maturity	Amount
AWCC	Senior notes—fixed rate	5.25%	5.25%	2035	$ 800
AWCC	Senior notes—fixed rate	5.70%	5.70%	2055	900
Other American Water subsidiaries	Private activity bonds and government funded debt—fixed rate	0.00%-3.71%	2.30%	2028-2057	89
Total issuances					$ 1,789

The Company incurred debt issuance costs of $17 million related to the above issuances.

Presented in the table below are the retirements and redemptions of long-term debt in 2025 through sinking fund provisions, optional redemption, payment at maturity or settlement:

Company	Type	Rate	Weighted Average Rate	Maturity	Amount
AWCC	Senior notes—fixed rate	3.40%	3.40%	2025	$ 525
Other American Water subsidiaries	Private activity bonds and government funded debt—fixed rate	0.00%-5.00%	0.37%	2025-2061	145
Other American Water subsidiaries	Mortgage bonds—fixed rate	8.15%-8.58%	8.23%	2025	21
Total retirements and redemptions					$ 691

On August 8, 2025, AWCC completed the sale of $900 million aggregate principal amount of its 5.700% Senior Notes due 2055. At the closing of this offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $887 million. AWCC used the net proceeds of the offering (i) to lend funds to American Water and the Regulated Businesses; (ii) to repay commercial paper obligations of AWCC; and (iii) for general corporate purposes.

On February 27, 2025, AWCC completed the sale of $800 million aggregate principal amount of its 5.250% Senior Notes due 2035. At the closing of this offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $792 million. AWCC used the net proceeds of the offering (i) to lend funds to American Water and the Regulated Businesses; (ii) to repay at maturity AWCC's 3.400% Senior Notes due 2025; (iii) to repay commercial paper obligations of AWCC; and (iv) for general corporate purposes.

On June 29, 2023, AWCC issued $1,035 million aggregate principal amount of 3.625% Exchangeable Senior Notes due 2026 (the "Notes"). AWCC received net proceeds of approximately $1,022 million, after deduction of underwriting discounts and commissions but before deduction of offering expenses payable by AWCC. The Notes will mature on June 15, 2026 (the "Maturity Date"), unless earlier exchanged or repurchased and are included in Current portion of long-term debt on the Consolidated Balance Sheets.

The Notes are exchangeable at an initial exchange rate of 5.8213 shares of parent company's common stock per $1,000 principal amount of Notes (equivalent to an initial exchange price of approximately $171.78 per share of common stock). The initial exchange rate of the Notes is subject to adjustment as provided in the indenture pursuant to which the Notes were issued (the "Note Indenture"). Prior to the close of business on the business day immediately preceding March 15, 2026, the Notes are exchangeable at the option of the noteholders only upon the satisfaction of specified conditions and during certain periods described in the Note Indenture. On or after March 15, 2026, until the close of business on the business day immediately preceding the Maturity Date, the Notes will be exchangeable at the option of the noteholders at any time regardless of these conditions or periods. Upon any exchange of the Notes, AWCC will (i) pay cash up to the aggregate principal amount of the Notes and (ii) pay or deliver (or cause to be delivered), as the case may be, cash, shares of parent company's common stock, or a combination of cash and shares of such common stock, at AWCC's election, in respect of the remainder, if any, of AWCC's exchange obligation in excess of the aggregate principal amount of the Notes being exchanged.

AWCC may not redeem the Notes prior to the Maturity Date, and no sinking fund is provided for the Notes. Subject to certain conditions, holders of the Notes will have the right to require AWCC to repurchase all or a portion of their Notes upon the occurrence of a fundamental change, as defined in the Note Indenture, at a repurchase price of 100% of their principal amount plus any accrued and unpaid interest.

One of the principal market risks to which the Company is exposed is changes in interest rates. In order to manage the exposure, the Company follows risk management policies and procedures, including the use of derivative contracts such as treasury lock agreements. The Company also reduces exposure to interest rates by managing commercial paper and debt maturities. The Company (through AWCC) does not enter into derivative contracts for speculative purposes and does not use leveraged instruments. The derivative contracts entered into are for periods consistent with the related underlying exposures. The Company is exposed to the risk that counterparties to derivative contracts will fail to meet their contractual obligations. The Company minimizes the counterparty credit risk on these transactions by dealing only with leading, creditworthy financial institutions, having long-term credit ratings of "A-" or better.

As of December 31, 2025, the Company had entered into six treasury lock agreements, with a term of 10 years or 30 years and an aggregate notional amount totaling $200 million, to reduce interest rate exposure on expected future debt issuances. These treasury lock agreements terminate in June 2026 and September 2026 and have an average fixed interest rate of 4.47%. In February 2026, the Company entered into four treasury lock agreements, with a term of 10 years or 30 years and an aggregate notional amount totaling $150 million, to reduce interest rate exposure on expected future debt issuances. These treasury lock agreements terminate in June 2026 and September 2026 and have an average fixed interest rate of 4.62%. The Company designated these treasury lock agreements as cash flow hedges, with their fair value recorded in accumulated other comprehensive gain or loss.

In May 2025 and August 2025, the Company terminated a total of 11 treasury lock agreements, designated as cash flow hedges, with a term of 30 years and an aggregate notional amount totaling $450 million, realizing a pre-tax net gain of $13 million, recorded in accumulated other comprehensive income. The gain will be amortized through Interest expense over a 30-year period, in accordance with the tenor of the notes issued on August 8, 2025.

In February 2025, the Company terminated 10 treasury lock agreements designated as cash flow hedges, with a term of 10 years and an aggregate notional amount totaling $500 million, realizing a pre-tax net gain of $3 million recorded in accumulated other comprehensive income. The gain will be amortized through Interest expense over a 10-year period, in accordance with the tenor of the notes issued on February 27, 2025.

No ineffectiveness was recognized on hedging instruments for the years ended December 31, 2025, 2024 or 2023.

Note 12: Short-Term Debt

Liquidity needs for capital investment, working capital and other financial commitments are generally funded through cash flows from operations, public and private debt offerings, issuances of commercial paper and equity, and, if and to the extent necessary, borrowings under the AWCC revolving credit facility. AWCC maintains an unsecured revolving credit facility which provides $2.75 billion in aggregate total commitments from a diversified group of financial institutions. The termination date of the credit agreement with respect to AWCC's revolving credit facility is October 26, 2029. The revolving credit facility is used principally to support AWCC's commercial paper program, to provide additional liquidity support and to provide a sub-limit for the issuance of up to $150 million in letters of credit. Letters of credit are non-debt instruments maintained to provide credit support for certain transactions as requested by third parties. Subject to satisfying certain conditions, the credit agreement permits AWCC to increase the maximum commitment under the facility by up to an aggregate of $500 million. The Company regularly evaluates the capital markets and closely monitors the financial condition of the financial institutions with contractual commitments in its revolving credit facility. Interest rates on advances under the facility are based on a credit spread to the Secured Overnight Financing Rate (or applicable market replacement rate) or base rate, each determined in accordance with Moody's Ratings and S&P Global Ratings' then applicable credit rating on AWCC's senior unsecured, non-credit enhanced debt.

Short-term debt consists of commercial paper borrowings totaling $1,590 million and $880 million as of December 31, 2025 and 2024, respectively, or net of discount $1,588 million and $879 million as of December 31, 2025 and 2024, respectively. As of December 31, 2025 and 2024, AWCC had no outstanding borrowings under the revolving credit facility and there were no commercial paper borrowings outstanding with maturities greater than three months.

Presented in the tables below are the aggregate credit facility commitment, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each, as of December 31:

	2025		
	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(1,590)	(84)	(1,674)
Remaining availability as of December 31, 2025	$ 1,010	$ 66	$ 1,076

(a) Total remaining availability of $1.1 billion as of December 31, 2025, was accessible through revolver draws.

	2024		
	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(880)	(82)	(962)
Remaining availability as of December 31, 2024	$ 1,720	$ 68	$ 1,788

(a) Total remaining availability of $1.8 billion as of December 31, 2024, was accessible through revolver draws.

Presented in the table below is the Company's total available liquidity as of December 31, 2025 and 2024, respectively:

	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of December 31, 2025	$ 98	$ 1,076	$ 1,174
Available liquidity as of December 31, 2024	$ 96	$ 1,788	$ 1,884

Presented in the table below is the short-term borrowing activity for AWCC for the years ended December 31:

	2025	2024
Average borrowings	$ 1,170	$ 161
Maximum borrowings outstanding	$ 1,595	$ 880
Weighted average interest rates, as of December 31	3.89 %	4.65 %

The credit facility requires the Company to maintain a ratio of consolidated debt to consolidated capitalization of not more than 0.70 to 1.00. The ratio as of December 31, 2025, was 0.59 to 1.00.

The Company does not have any material borrowings that are subject to default or prepayment as a result of a downgrading of securities, although such a downgrading could increase fees and interest charges under AWCC's revolving credit facility.

Note 13: General Taxes

Presented in the table below are the components of general tax expense for the years ended December 31:

	2025	2024	2023
Gross receipts and franchise	$ 151	$ 140	$ 134
Property and capital stock	134	125	119
Payroll	43	41	38
Other general	20	14	16
Total general taxes	$ 348	$ 320	$ 307

Note 14: Income Taxes

Presented in the table below are the components of income tax expense for the years ended December 31:

	2025	2024	2023
Current income taxes:			
State	$ 25	$ 16	$ 16
Federal	151	136	28
Total current income taxes	$ 176	$ 152	$ 44
Deferred income taxes:			
State	$ 36	$ 53	$ 44
Federal	100	104	165
Amortization of deferred investment tax credits	(1)	(1)	(1)
Total deferred income taxes	135	156	208
Provision for income taxes	$ 311	$ 308	$ 252

Presented in the table below is a reconciliation between the statutory federal tax rate and the Company's effective tax rate for the years ended December 31:

	2025		2024		2023	
	Amount	Percent	Amount	Percent	Amount	Percent
U.S. federal statutory tax rate	$ 299	21.0 %	$ 285	21.0 %	$ 251	21.0 %
State and local income taxes, net of federal income tax effect (a)	48	3.4 %	54	4.0 %	48	4.0 %
Nontaxable or nondeductible items	5	0.4 %	5	0.3 %	4	0.3 %
Change in unrecognized tax benefits	(8)	(0.6)%	2	0.2 %	3	0.2 %
Other adjustments:						
Excess accumulated deferred income taxes	(39)	(2.8)%	(37)	(2.7)%	(51)	(4.2)%
Other	6	0.5 %	(1)	(0.1)%	(3)	(0.2)%
Effective tax rate	$ 311	21.9 %	$ 308	22.7 %	$ 252	21.1 %

(a) The states that made up the majority (greater than 50 percent) of the tax effect in this category were: (i) for 2025, Pennsylvania and Illinois, (ii) for 2024, Pennsylvania and California, and (iii) for 2023, Pennsylvania and Illinois.

Presented in the table below is the disaggregation of income taxes paid (refunds received), net of refunds received of $29 million, $5 million and $30 million in 2025, 2024 and 2023, respectively, for the years ended December 31:

	2025	2024	2023
Federal	$ 185	$ —	$ 12
State	5	(5)	(12)
Total	$ 190	$ (5)	$ —

Income taxes paid (net of refunds received) exceeded 5% of total income taxes paid (net of refunds received) in the following states for the years ended December 31:

	2025	2024	2023
State:			
Iowa	*	$ (1)	*
Kentucky	*	$ (2)	*
Massachusetts	*	*	$ (2)
New Jersey	*	*	$ (23)
Pennsylvania	*	$ (1)	$ 13
Tennessee	*	*	$ 1

(*) Jurisdiction below the threshold for the period presented.

Presented in the table below are the components of the net deferred tax liability as of December 31:

	2025	2024
Deferred tax assets:		
Advances and contributions	$ 519	$ 493
Tax losses and credits	215	128
Regulatory income tax assets	161	181
Pension and other postretirement benefits	31	64
Other	166	163
Total deferred tax assets	1,092	1,029
Valuation allowance	(9)	(8)
Total deferred tax assets, net of allowance	$ 1,083	$ 1,021
Deferred tax liabilities:		
Property, plant and equipment	$ 4,021	$ 3,553
Deferred pension and other postretirement benefits	75	86
Other	157	244
Total deferred tax liabilities	4,253	3,883
Total deferred tax liabilities, net of deferred tax assets	$ (3,170)	$ (2,862)

As of December 31, 2025 and 2024, the Company had state net operating loss (“NOL”) carryforwards of $246 million and $251 million, respectively, a portion of which are offset by a valuation allowance as the Company does not believe these NOLs are more likely than not to be realized. The state NOL carryforwards generally expire in 2026 through 2045, however, certain states have adopted the federal provisions allowing for an unlimited carryforward period.

On July 4, 2025, the One Big Beautiful Bill Act (the “OBBB”) was signed into law. The OBBB includes several corporate tax-related provisions. Key changes include the permanent extension of certain provisions from the Tax Cuts and Jobs Act of 2017, such as 100% bonus depreciation and Section 163(j) interest limitation exception for regulated utilities, as well as the immediate expensing of domestic research and development costs, and the introduction of a new charitable contribution floor for corporations. The OBBB has not had a material impact on the Company’s Consolidated Financial Statements. The Company will continue to monitor the implementation and any related guidance.

The Inflation Reduction Act of 2022 (the “IRA”) contains a 15% Corporate Alternative Minimum Tax (“CAMT”) provision on applicable corporations. To determine if a company is considered an applicable corporation subject to CAMT, the company’s average adjusted financial statement income (“AFSI”) for the three consecutive years preceding the tax year must exceed $1.0 billion. An applicable corporation must make several adjustments to net income when determining AFSI. A corporation paying CAMT is eligible for a future tax credit, which can be carried forward indefinitely and utilized when regular tax exceeds CAMT. Based on current guidance, the Company is an applicable corporation subject to CAMT beginning in 2024. The Company included the CAMT liability in its 2024 extension payment on April 15, 2025. As of December 31, 2025 and 2024, the Company had CAMT credit carryforwards of $200 million and $111 million, respectively. The deferred tax asset related to the CAMT credit carryforward will be realized to the extent the Company's deferred tax liabilities exceed the CAMT credit carryforward. The Company's deferred tax liabilities are expected to exceed the minimum tax credit carryforward for the foreseeable future, and therefore, no valuation allowance is required.

On June 2, 2025, the Internal Revenue Service ("IRS") and the U.S. Treasury issued Notice 2025-27, allowing corporate taxpayers to exclude amounts attributable to the CAMT liability, without penalty, from estimated tax payments with respect to a taxable year that begins after December 31, 2024, and before January 1, 2026. The Company plans to include the CAMT liability in its 2025 extension payment on April 15, 2026. The Company will continue to assess the impacts of the IRA as the U.S. Treasury and the IRS provide further guidance.

The Company files income tax returns in the United States federal jurisdiction and various state jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state or local or non-U.S. income tax examinations by tax authorities for taxable years ended December 31, 2020 and prior.

Presented in the table below are the changes in gross liability, excluding interest and penalties, for unrecognized tax benefits:

	Amount
Balance as of January 1, 2023	$ 158
Increases in current period tax positions	27
Decreases in prior period measurement of tax positions	(37)
Balance as of December 31, 2023	$ 148
Increases in current period tax positions	34
Increases in prior period measurement of tax positions	21
Balance as of December 31, 2024	$ 203
Increases in current period tax positions	31
Decreases in prior period measurement of tax positions	(118)
Balance as of December 31, 2025	$ 116

If the Company sustains all of its positions as of December 31, 2025, excluding interest and penalties, there would be no impact on the Company's effective tax rate. The Company had an immaterial amount of interest and penalties related to its tax positions as of December 31, 2025 and 2024.

Presented in the table below are the changes in the valuation allowance:

	Amount
Balance as of January 1, 2023	$ 11
Increases in valuation allowance	—
Balance as of December 31, 2023	$ 11
Decreases in valuation allowance	(3)
Balance as of December 31, 2024	$ 8
Increases in valuation allowance	1
Balance as of December 31, 2025	$ 9

Note 15: Employee Benefits

Overview of Pension and Other Postretirement Benefits Plans

The Company maintains noncontributory defined benefit pension plans covering eligible employees of its regulated utility and shared services operations. Benefits under the plans are based on the employee's years of service and compensation. The pension plans have been closed for all new employees. The pension plans were closed for most employees hired on or after January 1, 2006. Union employees hired on or after January 1, 2001, except for specific eligible groups specified in the plan, had their accrued benefit frozen and will be able to receive this benefit as a lump sum upon termination or retirement. Union employees hired on or after January 1, 2001, and non-union employees hired on or after January 1, 2006, are provided with a defined contribution plan that includes a 5.25% of base pay Company-funded defined contribution account. The Company does not participate in a multi-employer plan. The Company also has unfunded noncontributory supplemental nonqualified pension plans that provide additional retirement benefits to certain employees.

The Company's pension funding practice is to contribute at least the greater of the minimum amount required by the Employee Retirement Income Security Act of 1974 or the normal cost. Further, the Company will consider additional cash contributions and/or available prefunding balances if needed to avoid "at risk" status and benefit restrictions under the Pension Protection Act of 2006 ("PPA"). The Company may also consider increased contributions, based on other financial requirements and the plans' funded position. Pension expense in excess of the amount contributed to the pension plans is deferred by certain regulated subsidiaries pending future recovery in rates charged for utility services as contributions are made to the plans. See Note 3—Regulatory Matters for additional information. Pension plan assets are invested in a number of actively managed, commingled funds, and limited partnerships including equities, fixed income securities, guaranteed annuity contracts with insurance companies, real estate funds and real estate investment trusts ("REITs").

The Company maintains other postretirement benefit plans providing varying levels of medical and life insurance to eligible retirees. The retiree welfare plans are closed for union employees hired on or after January 1, 2006. The plans had previously closed for non-union employees hired on or after January 1, 2002. The Company's policy is to fund other postretirement benefit costs up to the amount recoverable through rates. Assets of the plans are invested in a number of actively managed funds in the form of separate accounts, commingled funds and limited partnerships, including equities and fixed income securities.

The Company engages third-party investment managers for all invested assets. Managers are not permitted to invest outside of the asset class (e.g., fixed income, equity, alternatives) or strategy for which they have been appointed. Investment management agreements and recurring performance and attribution analysis are used as tools to ensure investment managers invest solely within the investment strategy they have been provided. Futures and options may be used to adjust portfolio duration to align with a plan's targeted investment policy.

In order to minimize asset volatility relative to the liabilities, a portion of plan assets is allocated to long duration fixed income investments that are exposed to interest rate risk. Increases in interest rates generally will result in a decline in the value of fixed income assets while reducing the present value of the liabilities. Conversely, rate decreases will increase fixed income assets, partially offsetting the related increase in the liabilities. Within equities, risk is mitigated by constructing a portfolio that is broadly diversified by geography, market capitalization, manager mandate size, investment style and process. For the Bargained Retiree Voluntary Employees' Beneficiary Association ("Bargained VEBA") trust, its asset structure is designed to meet the cash flows of the liabilities. This design reduces the plan's exposure to changes in interest rates.

Actual allocations to each asset class vary from target allocations due to periodic investment strategy updates, market value fluctuations, the length of time it takes to fully implement investment allocations, and the timing of benefit payments and contributions. The asset allocation is rebalanced on a quarterly basis, if necessary.

Pension Plan Assets

The investment policy guideline of the pension plan is focused on diversification, improving returns and reducing the volatility of the funded status over a long-term horizon. None of the Company's securities are included in pension plan assets.

The Company uses fair value for all classes of assets in the calculation of market-related value of plan assets. As of December 31, 2025, the fair values and asset allocations of the pension plan assets include the American Water Pension Plan and the American Water Pension Plan for Certain Inactive Participants.

Presented in the tables below are the fair values and asset allocations of the pension plan assets as of December 31, 2025 and 2024, respectively, by asset category:

Asset Category	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3) (a)	Net Asset Value as a Practical Expedient	Percentage of Plan Assets as of December 31, 2025
Cash	$ 23	$ 23	$ —	$ —	$ —	2 %
Equity securities:						
U.S. large cap	158	40	—	—	118	11 %
U.S. small cap	32	32	—	—	—	2 %
International	299	—	—	—	299	21 %
Real estate fund	122	—	—	—	122	9 %
REITs	7	—	—	—	7	— %
Fixed income securities:

Total	$ 1,392	$ 272	$ 516	$ 32	$ 572	100 %

(a) There were no material changes during the period for the fair value measurements using significant unobservable inputs (Level 3) for the years ended December 31, 2025 and 2024, respectively.

The Company’s 2026 target pension plan asset allocation is 38% equity securities and 62% fixed income securities. The Company’s 2025 target pension plan asset allocation was 37% equity securities and 63% fixed income securities.

Other Postretirement Benefit Plan Assets

The investment policy guidelines of the postretirement plans focus on the appropriate strategy given the funded status of the plans. None of the Company's securities are included in other postretirement benefit plan assets. The Company's postretirement benefit plans have different levels of funded status and the assets are held under various trusts. The investments and risk mitigation strategies for the plans are tailored specifically for each trust. In setting new strategic asset mixes, consideration is given to the likelihood that the selected asset allocation will effectively fund the projected plan liabilities and meet the risk tolerance criteria of the Company. The Company periodically updates the long-term, strategic asset allocations for these plans through asset liability studies and uses various analytics to determine the optimal asset allocation. Considerations include plan liability characteristics, liquidity needs, funding requirements, expected rates of return and the distribution of returns. The American Water Retiree Welfare Plan ("Retiree Welfare Plan") is funded by the Bargained VEBA trust, the Non-Bargained Retiree Voluntary Employees' Beneficiary Association ("Non-Bargained VEBA") trust, the Voluntary Employees' Beneficiary Association ("Active VEBA") trust, and the American Water Life Insurance Voluntary Employees' Beneficiary Association Trust.

Presented in the tables below are the fair values and asset allocations of the postretirement benefit plan assets as of December 31, 2025 and 2024, respectively, by asset category:

Asset Category	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Net Asset Value as a Practical Expedient	Percentage of Plan Assets as of December 31, 2025
Bargained VEBA:						
Cash	$ 5	$ 5	$ —	$ —	$ —	5 %
Fixed income securities:						
U.S. Treasury securities and government bonds	7	7	—	—	—	7 %
Corporate bonds	85	—	85	—	—	85 %
Municipal bonds	3	—	3	—	—	3 %
Total bargained VEBA	$ 100	$ 12	$ 88	$ —	$ —	100 %
Active VEBA:						
Cash	$ 3	$ 3	$ —	$ —	$ —	12 %
Fixed income securities:						
U.S. Treasury securities and government bonds	2	2	—	—	—	8 %
Corporate bonds	19	—	19	—	—	76 %
Municipal bonds	1	—	1	—	—	4 %
Total Active VEBA	$ 25	$ 5	$ 20	$ —	$ —	100 %
Non-bargained VEBA:						
Cash	$ 3	$ 3	$ —	$ —	$ —	2 %
Equity securities:						
U.S. large cap	46	46	—	—	—	35 %
International	31	31	—	—	—	24 %
Fixed income securities:						
U.S. Treasury securities and government bonds	1	1	—	—	—	1 %
Municipal bonds	50	—	50	—	—	38 %
Total non-bargained VEBA	$ 131	$ 81	$ 50	$ —	$ —	100 %
Total	$ 256	$ 98	$ 158	$ —	$ —	100 %

Asset Category	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Net Asset Value as a Practical Expedient	Percentage of Plan Assets as of December 31, 2024
Bargained VEBA:						
Cash	$ 4	$ 4	$ —	$ —	$ —	4 %
Fixed income securities:						
U.S. Treasury securities and government bonds	7	7	—	—	—	7 %
Corporate bonds	83	—	83	—	—	86 %
Municipal bonds	3	—	3	—	—	3 %
Total bargained VEBA	$ 97	$ 11	$ 86	$ —	$ —	100 %
Active VEBA:						
Cash	$ 2	$ 2	$ —	$ —	$ —	7 %
Fixed income securities:						
U.S. Treasury securities and government bonds	2	2	—	—	—	7 %
Corporate bonds	23	—	23	—	—	82 %
Municipal bonds	1	—	1	—	—	4 %
Total Active VEBA	$ 28	$ 4	$ 24	$ —	$ —	100 %
Non-bargained VEBA:						
Cash	$ 3	$ 3	$ —	$ —	$ —	2 %
Equity securities:						
U.S. large cap	46	46	—	—	—	36 %
International	30	30	—	—	—	23 %
Fixed income securities:						
U.S. Treasury securities and government bonds	1	1	—	—	—	1 %
Municipal bonds	48	—	48	—	—	38 %
Total non-bargained VEBA	$ 128	$ 80	$ 48	$ —	$ —	100 %
Total	$ 253	$ 95	$ 158	$ —	$ —	100 %

The Company's 2026 target postretirement benefit plan asset allocation for the Bargained VEBA and Active VEBA is 100% fixed income securities and for the Non-bargained VEBA is 60% equity securities and 40% fixed income securities. The Company's 2025 target postretirement benefit plan asset allocation for the Bargained VEBA and Active VEBA was 100% fixed income securities and for the Non-bargained VEBA was 60% equity securities and 40% fixed income securities.

Valuation Techniques Used to Determine Fair Value

Cash—Cash and investments with maturities of three months or less when purchased, including certain short-term fixed-income securities, are considered cash and are included in the recurring fair value measurements hierarchy as Level 1.

Equity securities —For equity securities, the trustees obtain prices from pricing services, whose prices are obtained from direct feeds from market exchanges, that the Company is able to independently corroborate. Certain equity securities are valued based on quoted prices in active markets and categorized as Level 1. Other equities, such as certain U.S. large cap and international securities held in the pension plan, are invested in commingled funds and/or limited partnerships. These funds are valued to reflect the plan fund's interest in the fund based on the reported year-end NAV. Since NAV is not directly observable or not available on a nationally recognized securities exchange for the commingled funds and/or limited partnerships, they are not included in the fair value hierarchy as they are measured at fair value using the NAV per share (or its equivalent) practical expedient. These investments can typically be redeemed monthly or more frequently, with 30 or less days of notice and without further restrictions.

Fixed-income securities—Certain U.S. Treasury securities and government bonds have been categorized as Level 1 because they trade in highly-liquid and transparent markets and their prices can be corroborated. The fair values of corporate bonds, mortgage backed securities, and certain government bonds are based on prices that reflect observable market information, such as actual trade information of similar securities. These securities are categorized as Level 2 because the valuations are calculated using models which utilize actively traded market data that the Company can corroborate. Exchange-traded future and option positions are reported in accordance with changes in variation margins that are settled daily. Exchange-traded futures and options, for which market quotations are readily available, are valued at the last reported sale price or official closing price on the primary market or exchange on which they are traded and are classified as Level 1. Other U.S. Treasury securities are invested in commingled funds that may implement their investment strategies in a variety of ways which may include direct and/or indirect investment in securities and other instruments or assets (e.g., futures and swaps) or investment in units of other commingled funds. These funds are valued to reflect the plan fund's interest in the fund based on the reported year-end NAV. Since NAV is not directly observable or not available on a nationally recognized securities exchange for the commingled funds, they are not included in the fair value hierarchy as they are measured at fair value using the NAV per share (or its equivalent) practical expedient. These investments can typically be redeemed daily, with no prior notice and without further restrictions.

Real estate fund—Real estate funds are an investment vehicle in the form of a limited partnership primarily focused in real estate investments and are not included in the fair value hierarchy as they are measured at fair value using the NAV per share (or its equivalent) practical expedient. These investments can typically be redeemed quarterly, with 90 or less days of notice, subject to available cash.

REITs—REITs are invested in commingled funds primarily focused in publicly traded shares of real estate investment trusts. Commingled funds are valued to reflect the plan fund's interest in the fund based on the reported year-end NAV. REITs are not included in the fair value hierarchy as they are measured at fair value using the NAV per share (or its equivalent) practical expedient. These investments can typically be redeemed daily, with no prior notice and without further restrictions.

Guaranteed annuity contracts—Guaranteed annuity contracts are categorized as Level 3 because the investments are not publicly quoted. Since these market values are determined by the provider, they are not highly observable and have been categorized as Level 3.

Benefit Obligations, Plan Assets and Funded Status

Presented in the table below is a rollforward of the changes in the benefit obligation and plan assets for the two most recent years, for all plans combined:

	Pension Benefits		Other Benefits	
	2025	2024	2025	2024
Change in benefit obligation:				
Benefit obligation as of January 1,	$ 1,560	$ 1,622	$ 225	$ 247
Service cost	15	17	2	2
Interest cost	87	83	12	12
Plan participants' contributions	—	—	3	3
Actuarial loss (gain)	35	(55)	3	(18)
Settlements	—	(2)	—	—
Gross benefits paid	(179)	(105)	(22)	(22)
Federal subsidy	—	—	1	1
Benefit obligation as of December 31,	$ 1,518	$ 1,560	$ 224	$ 225
Change in plan assets:				
Fair value of plan assets as of January 1,	$ 1,392	$ 1,431	$ 253	$ 258
Actual return on plan assets	152	19	19	11
Employer contributions	46	49	3	3
Plan participants' contributions	—	—	3	3
Settlements	—	(2)	—	—
Benefits paid	(179)	(105)	(22)	(22)
Fair value of plan assets as of December 31,	$ 1,411	$ 1,392	$ 256	$ 253
Funded value as of December 31,	$ (107)	$ (168)	$ 32	$ 28
Amounts recognized on the balance sheet:				
Noncurrent asset	$ 62	$ 51	$ 33	$ 29
Current liability	(2)	(2)	—	—
Noncurrent liability	(167)	(217)	(1)	(1)
Net amount recognized	$ (107)	$ (168)	$ 32	$ 28

Presented in the table below are the components of accumulated other comprehensive income and regulatory assets that have not been recognized as components of periodic benefit costs as of December 31:

	Pension Benefits		Other Benefits	
	2025	2024	2025	2024
Net actuarial loss	$ 289	$ 337	$ 9	$ 13
Prior service credit	(2)	(5)	(52)	(84)
Net amount recognized	$ 287	$ 332	$ (43)	$ (71)
Regulatory assets (liabilities)	$ 261	$ 304	$ (43)	$ (71)
Accumulated other comprehensive income	26	28	—	—
Total	$ 287	$ 332	$ (43)	$ (71)

Presented in the tables below are the aggregate projected benefit obligation, accumulated benefit obligation and aggregate fair value of plan assets for pension plans with a projected obligation in excess of plan assets as of December 31:

	Projected Benefit Obligation Exceeds the Fair Value of Plans' Assets	
	2025	2024
Projected benefit obligation	$ 912	$ 916
Fair value of plan assets	743	697

	Accumulated Benefit Obligation Exceeds the Fair Value of Plans' Assets	
	2025	2024
Accumulated benefit obligation	$ 849	$ 852
Fair value of plan assets	743	697

The accumulated postretirement plan assets exceed benefit obligations for the Company's other postretirement benefit plans, except for the Northern Illinois Retiree Welfare Plan, of which the accumulated postretirement benefit obligation is inconsequential for all periods presented.

Contributions

The PPA requires that defined benefit plans contribute to 100% of the current liability funding target over seven years. Defined benefit plans with a funding status of less than 80% of the current liability are defined as being "at risk" and additional funding requirements and benefit restrictions may apply. The Company's qualified defined benefit plan is currently funded above the at-risk threshold, and therefore the Company expects that the plans will not be subject to the "at risk" funding requirements of the PPA. The Company is proactively monitoring the plan's funded status and projected contributions under the law to appropriately manage the potential impact on cash requirements.

Minimum funding requirements for the qualified defined benefit pension plan are determined by government regulations and not by accounting pronouncements. The Company plans to contribute amounts at least equal to or greater than the minimum required contributions or the normal cost in 2026 to the qualified pension plans. Contributions may be in the form of cash contributions as well as available prefunding balances.

Presented in the table below is information about the expected cash flows for the pension and postretirement benefit plans:

	Pension Benefits	Other Benefits
2026 expected employer contributions:		
To plan trusts	$ 44	$ —
To plan participants	2	—

Estimated Future Benefit Payments

Presented in the table below are the net benefits expected to be paid from the plan assets or the Company's assets:

	Pension Benefits	Other Benefits	
	Expected Benefit Payments	Expected Benefit Payments	Expected Federal Subsidy Payments
2026	$ 119	$ 22	$ 1
2027	121	22	1
2028	121	21	1
2029	122	21	1
2030	122	20	—
2031-2035	590	88	2

Because the above amounts are net benefits, plan participants' contributions have been excluded from the expected benefits.

Assumptions

Accounting for pensions and other postretirement benefits requires an extensive use of assumptions about the discount rate, expected return on plan assets, the rate of future compensation increases received by the Company's employees, mortality, turnover and medical costs. Each assumption is reviewed annually. The assumptions are selected to represent the average expected experience over time and may differ in any one year from actual experience due to changes in capital markets and the overall economy. These differences will impact the amount of pension and other postretirement benefit expense that the Company recognizes.

Presented in the table below are the significant assumptions related to the pension and other postretirement benefit plans:

	Pension Benefits			Other Benefits		
	2025	2024	2023	2025	2024	2023
Weighted average assumptions used to determine December 31 benefit obligations:						
Discount rate	5.54%	5.70%	5.18%	5.46%	5.69%	5.22%
Rate of compensation increase	3.45%	3.51%	3.51%	N/A	N/A	N/A
Medical trend	N/A	N/A	N/A	graded from	graded from	graded from
				7.00% in 2026	6.50% in 2025	6.75% in 2024
				to 5.00% in 2032+	to 5.00% in 2031+	to 5.00% in 2031+
Weighted average assumptions used to determine net periodic cost:						
Discount rate	5.70%	5.18%	5.58%	5.69%	5.22%	5.60%
Expected return on plan assets	6.63%	6.73%	6.79%	5.00%	5.00%	5.00%
Rate of compensation increase	3.45%	3.51%	3.51%	N/A	N/A	N/A
Medical trend	N/A	N/A	N/A	graded from	graded from	graded from
				6.50% in 2025	6.75% in 2024	7.00% in 2023
				to 5.00% in 2031+	to 5.00% in 2031+	to 5.00% in 2031+

NOTE: "N/A" in the table above means assumption is not applicable.

The discount rate assumption was determined for the pension and postretirement benefit plans independently. The Company uses an approach that approximates the process of settlement of obligations tailored to the plans' expected cash flows by matching the plans' cash flows to the coupons and expected maturity values of individually selected bonds. Historically, for each plan, the discount rate was developed at the level equivalent rate that would produce the same present value as that using spot rates aligned with the projected benefit payments.

The expected long-term rate of return on plan assets is based on historical and projected rates of return, prior to administrative and investment management fees, for current and planned asset classes in the plans' investment portfolios. Assumed projected rates of return for each of the plans' projected asset classes were selected after analyzing historical experience and future expectations of the returns and volatility of the various asset classes. Based on the target asset allocation for each asset class, the overall expected rate of return for the portfolio was developed, adjusted for historical and expected experience of active portfolio management results compared to the benchmark returns. The Company's pension expense increases as the expected return on assets decreases. The Company used a weighted average expected return on plan assets of 6.63% to estimate its 2025 pension benefit costs, and an expected blended return based on weighted assets of 5.00% to estimate its 2025 other postretirement benefit costs.

For the years ended December 31, 2025, 2024 and 2023, the Company's mortality assumption utilized the Pri-2012 base mortality table with the MP-2021 mortality improvement scale.

Components of Net Periodic Benefit Cost

Presented in the table below are the components of net periodic benefit costs for the years ended December 31:

	2025	2024	2023
Components of net periodic pension benefit cost (credit):			
Service cost	$ 15	$ 17	$ 17
Interest cost	87	83	85
Expected return on plan assets	(90)	(94)	(94)
Amortization of prior service (credit) cost	(3)	(3)	(3)
Amortization of actuarial loss	21	22	13
Settlements	—	1	1
Net periodic pension benefit cost (credit)	$ 30	$ 26	$ 19
Other changes in plan assets and benefit obligations recognized in other comprehensive income:			
Current year actuarial (gain) loss	$ —	$ (1)	$ 3
Amortization of actuarial loss	(1)	—	(4)
Total recognized in other comprehensive income	(1)	(1)	(1)
Total recognized in net periodic benefit cost (credit) and other comprehensive income	$ 29	$ 25	$ 18
Components of net periodic other postretirement benefit (credit) cost:			
Service cost	$ 2	$ 2	$ 2
Interest cost	12	12	14
Expected return on plan assets	(12)	(12)	(12)
Amortization of prior service credit	(31)	(31)	(31)
Amortization of actuarial loss	—	—	2
Net periodic other postretirement benefit (credit) cost	$ (29)	$ (29)	$ (25)

Savings Plans for Employees

The Company maintains 401(k) savings plans that allow employees to save for retirement on a tax-deferred basis. Employees can make contributions that are invested at their direction in one or more funds. The Company makes matching contributions based on a percentage of an employee's contribution, subject to certain limitations. Due to the Company's discontinuing new entrants into the defined benefit pension plan, on January 1, 2006, the Company began providing an additional 5.25% of base pay defined contribution benefit for union employees hired on or after January 1, 2001 and non-union employees hired on or after January 1, 2006. The Company's 401(k) savings plan expenses totaled $15 million, $15 million and $14 million for 2025, 2024 and 2023, respectively. Additionally, the Company's 5.25% of base pay defined contribution benefit expenses totaled $19 million, $18 million and $17 million for 2025, 2024 and 2023, respectively. All of the Company's contributions are invested in one or more funds at the direction of the employees.

Note 16: Commitments and Contingencies

Commitments have been made in connection with certain construction programs. The estimated capital expenditures required under legal and binding contractual obligations amounted to $1.5 billion as of December 31, 2025.

The Company's regulated subsidiaries maintain agreements with other water purveyors for the purchase of water to supplement their water supply. The Company purchased $138 million, $129 million and $125 million of water under these agreements during 2025, 2024 and 2023, respectively. Presented in the table below are the future annual commitments related to minimum quantities of purchased water having non-cancelable contracts:

	Amount
2026	$ 83
2027	77
2028	78
2029	79
2030	55
Thereafter	968

The Company enters into agreements for the provision of services to water and wastewater facilities for the U.S. military, municipalities and other customers. See Note 4—Revenue Recognition for additional information regarding the Company's performance obligations.

Contingencies

The Company is routinely involved in legal actions incident to the normal conduct of its business. As of December 31, 2025, the Company has accrued approximately $8 million of probable loss contingencies and has estimated that the maximum amount of loss associated with reasonably possible loss contingencies arising out of such legal actions, which can be reasonably estimated, is $4 million. For certain legal actions, the Company is unable to estimate possible losses. The Company believes that damages or settlements, if any, recovered by plaintiffs in such legal actions, other than as described in this Note 16—Commitments and Contingencies, will not have a material adverse effect on the Company.

Dunbar, West Virginia Class Action Litigation Settlement

On the evening of June 23, 2015, a 36-inch pre-stressed concrete transmission water main, installed in the early 1970s, failed. The water main is part of the West Relay pumping station located in the City of Dunbar, West Virginia and owned by the Company's West Virginia subsidiary ("WVAWC"). Water service was fully restored by July 1, 2015, to all customers affected by this event.

On June 2, 2017, a complaint captioned *Jeffries, et al. v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of residents and business owners who lost water service or pressure as a result of the Dunbar main break. The complaint alleged breach of contract by WVAWC for failure to supply water, violation of West Virginia law regarding the sufficiency of WVAWC's facilities and negligence by WVAWC in the design, maintenance and operation of the water system. In July 2020, the Circuit Court entered an order granting the *Jeffries* plaintiffs' motion for certification of a class regarding certain liability issues but denying certification of a class to determine a punitive damages multiplier.

Trial in this matter had been scheduled, but before trial commenced, the parties notified the Circuit Court that an agreement in principle to settle this litigation was reached among the parties. On May 2, 2025, the parties jointly filed with the Circuit Court a proposed class action settlement agreement (the "Dunbar Settlement") with respect to the certified liability claims. On September 12, 2025, the Circuit Court issued an order granting final approval of the Dunbar Settlement. Under the terms of the approved Dunbar Settlement, WVAWC has not admitted, and will not admit, any fault or liability for any of the allegations made by the *Jeffries* plaintiffs. The maximum pre-tax amount of the Dunbar Settlement is approximately $18 million, of which the final amount of the Company's and WVAWC's contributions to the Dunbar Settlement is approximately $5 million (which have been funded through existing sources of liquidity), and the remainder has been contributed by certain of the Company's general liability insurance carriers. The Company previously recorded in the fourth quarter of 2024 a charge to earnings, net of expected insurance receivables, of $5 million ($4 million after-tax), with respect to the Dunbar Settlement. The actual total amount to be paid to claimants through the Dunbar Settlement will depend upon the claims approved through the claims process, but the Company does not currently anticipate that its maximum liability will materially exceed $5 million. The deadline for claims submissions was August 25, 2025, and the settlement administrator is evaluating claim submissions to identify compensable claims.

Chattanooga, Tennessee Class Action Litigation

On September 12, 2019, the Company's Tennessee subsidiary ("TAWC"), experienced a leak in a 36-inch water transmission main, which caused service fluctuations or interruptions to TAWC customers and the issuance of a boil water notice. TAWC repaired the main by early morning on September 14, 2019, and restored full water service by the afternoon of September 15, 2019, with the boil water notice lifted for all customers on September 16, 2019.

On September 17, 2019, a complaint captioned *Bruce, et al. v. American Water Works Company, Inc., et al.* was filed in the Circuit Court of Hamilton County, Tennessee against TAWC, the Company and American Water Works Service Company, Inc. ("Service Company" and, together with TAWC and the Company, collectively, the "Tennessee-American Water Defendants"), on behalf of a proposed class of individuals or entities who lost water service or suffered monetary losses as a result of the Chattanooga incident (the "Tennessee Plaintiffs"). The complaint alleged breach of contract and negligence against the Tennessee-American Water Defendants, as well as an equitable remedy of piercing the corporate veil. In the complaint as originally filed, the Tennessee Plaintiffs were seeking an award of unspecified alleged damages for wage losses, business and economic losses, out-of-pocket expenses, loss of use and enjoyment of property and annoyance and inconvenience, as well as punitive damages, attorneys' fees and pre- and post-judgment interest. In September 2020, the court dismissed all of the Tennessee Plaintiffs' claims in their complaint, except for the breach of contract claims against TAWC.

In January 2023, after hearing oral argument, the court issued an oral ruling denying the Tennessee Plaintiffs' motion for class certification. In February 2023, the Tennessee Plaintiffs sought reconsideration of the ruling by the court, and any final ruling is appealable to the Tennessee Court of Appeals, as allowed under Tennessee law. In September 2023, the court upheld its prior ruling but gave the Tennessee Plaintiffs the option to file an amended class definition. In October 2023, the Tennessee Plaintiffs filed an amended class definition seeking certification of a business customer-only class. On June 14, 2024, the court issued its written order denying the Tennessee Plaintiffs' amended class and incorporating its denial of certification of the original residential class. On June 21, 2024, the Tennessee Plaintiffs appealed both of the court's orders denying class certification. On December 4, 2025, the Court of Appeals of Tennessee denied the Tennessee Plaintiffs' appeal, and on January 30, 2026, the Tennessee Plaintiffs filed an appeal with the Supreme Court of Tennessee. This matter remains pending.

The Company and TAWC believe that TAWC has valid, meritorious defenses to the claims raised in this class action complaint. TAWC will continue to vigorously defend itself against these allegations. Given the current stage of this proceeding, the Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of loss related to this proceeding.

Mountaineer Gas Company Main Break

During the afternoon of November 10, 2023, WVAWC was informed that an 8-inch ductile iron water main owned by WVAWC, located on the West Side of Charleston, West Virginia and originally installed in approximately 1989, experienced a leak. In the early morning hours of November 11, 2023, WVAWC crews successfully completed a repair to the water main. A precautionary boil water advisory was issued the same day to approximately 300 WVAWC customers and ultimately lifted on November 12, 2023.

On November 10, 2023, a break was reported in a low-pressure natural gas main located near the affected WVAWC water main, and an inflow of water into the natural gas main and associated delivery pipelines occurred. The natural gas main and pipelines are owned by Mountaineer Gas Company, a regulated natural gas distribution company serving over 220,000 customers in West Virginia ("Mountaineer Gas"). The resulting inflow of water into the natural gas main and related pipelines resulted in a loss of natural gas service to approximately 1,500 Mountaineer Gas customers, as well as water entering customer service lines and certain natural gas appliances owned or used by some of the affected Mountaineer Gas customers. Mountaineer Gas reported that restoration of natural gas service to all affected gas mains occurred on November 24, 2023. The timing, order and causation of both the WVAWC water main break and Mountaineer Gas's main break are currently unknown and under investigation.

To date, a total of four pending lawsuits have been filed against Mountaineer Gas and WVAWC purportedly on behalf of customers in Charleston, West Virginia related to these incidents. On November 14, 2023, a complaint captioned *Ruffin et al. v. Mountaineer Gas Company and West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of Mountaineer Gas residential and business customers and other households and businesses supplied with natural gas in Kanawha County, which lost natural gas service on November 10, 2023, as a result of these events. The complaint alleges, among other things, breach of contract by Mountaineer Gas, trespass by WVAWC, nuisance by WVAWC, violation of statutory obligations by Mountaineer Gas and WVAWC, and negligence by Mountaineer Gas and WVAWC. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for loss of use of natural gas, annoyance, inconvenience and lost profits, as well as punitive damages.

On November 15, 2023, a complaint captioned *Toliver et al. v. West Virginia-American Water Company and Mountaineer Gas Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of all natural persons or entities who are citizens of the State of West Virginia and who are customers of WVAWC and/or Mountaineer Gas in the affected areas. The complaint alleges against Mountaineer Gas and WVAWC, among other things, negligence, nuisance, trespass and strict liability, as well as breach of contract against Mountaineer Gas. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for property damage, loss of use and enjoyment of property, annoyance and inconvenience and business losses, as well as punitive damages.

On November 16, 2023, a complaint captioned *Dodson et al. v. West Virginia American Water and Mountaineer Gas Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of all West Virginia citizens living between Pennsylvania Avenue south of Washington Street, and Iowa Street, who are customers of Mountaineer Gas. The complaint alleges against Mountaineer Gas and WVAWC, among other things, negligence, nuisance, trespass, statutory code violations and unfair or deceptive business practices. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for property loss and damage, loss of use and enjoyment of property, mental and emotional distress, and aggravation and inconvenience, as well as punitive damages.

On January 4, 2024, a fourth complaint, captioned *Thomas v. West Virginia-American Water Company and Mountaineer Gas Company*, was filed in West Virginia Circuit Court in Kanawha County asserting similar allegations as those included in the *Ruffin*, *Toliver* and *Dodson* lawsuits, with the addition of counts alleging unjust enrichment and violations of the West Virginia Human Rights Act and the West Virginia Consumer Credit and Protection Act.

On November 17, 2023, the *Ruffin* plaintiff filed a motion to consolidate the class action lawsuits before a single judge in Kanawha County Circuit Court. On June 14, 2024, the judge in the *Ruffin* case partially granted the motion by transferring all of the four class action lawsuits to her court but deferring as premature consolidation of the cases.

On December 5, 2023, a complaint captioned *Mountaineer Gas Company v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County seeking damages under theories of trespass, negligence and implied indemnity. The damages being sought related to the incident include, among other things, repair and response costs incurred by Mountaineer Gas and attorneys' fees and expenses incurred by Mountaineer Gas. On March 6, 2024, the motion to transfer this complaint to the West Virginia Business Court was granted and trial and resolution judges were assigned. The Business Court has set a trial date of August 10, 2026, for this matter.

On December 20, 2023, Mountaineer Gas filed answers to each of the first three class action lawsuits, which included cross-claims against WVAWC alleging that Mountaineer Gas is without fault for the claims and damages alleged in the lawsuits and WVAWC should be required to indemnify Mountaineer Gas for any damages and for attorneys' fees and expenses incurred by Mountaineer Gas in the lawsuits. WVAWC has filed a partial motion to dismiss certain claims in the *Ruffin, Toliver, Dodson* and *Thomas* lawsuits and a motion to dismiss the cross-claims asserted against WVAWC therein by Mountaineer Gas. Mountaineer Gas subsequently voluntarily dismissed its cross-claims. On December 22, 2025, the Kanawha County Circuit Court entered a joint order setting a schedule for class certification with a hearing on the motion to be held on March 17, 2026. The Court also ordered mediation and continued the previously set February 2, 2026 trial date.

On December 6, 2023, WVAWC initiated a process whereby Mountaineer Gas customers could file claims with WVAWC and seek payment from WVAWC of up to $2,000 in damages per affected household for the inconvenience arising from a loss of use of their appliances and documented out-of-pocket expenses as a result of the natural gas outage. In light of the diminishing number of new claims that had been filed, the claims process was concluded on March 8, 2024. As of December 31, 2024, a total of 594 Mountaineer Gas customers completed this claims process, and each of those customers has been paid by WVAWC an average of approximately $1,500. In return, these customers were required to execute a partial release of liability in favor of WVAWC.

On November 16, 2023, the Public Service Commission of West Virginia (the "WVPSC") issued an order initiating a general investigation into both the water main break and natural gas outages occurring in this incident to determine the cause or causes thereof, as well as breaks and outages generally throughout the systems of WVAWC and Mountaineer Gas and the utility practices of both utilities. Following a series of disagreements among the parties regarding the scope of discovery, the WVPSC closed the general investigation into both utilities and ordered a separate general investigation for each utility. The WVPSC focused the two general investigations away from the cause of the events and instead on the maintenance practices of each utility during and after the main breaks. On January 29, 2024, the Consumer Advocate Division of the WVPSC filed a motion to intervene in the WVAWC general investigation.

On April 24, 2024, the staff issued a final joint memorandum in the Mountaineer Gas general investigation stating its view that Mountaineer Gas responded appropriately, reasonably and according to Mountaineer Gas's written procedures. The staff is making no recommendations for improvements to Mountaineer Gas and is recommending that the Mountaineer Gas general investigation be closed. On July 24, 2024, the staff issued a final joint memorandum in the WVAWC general investigation finding no indication of systematic failure by WVAWC and concluding WVAWC's maintenance and operating procedures were adequate to ensure safe and reliable service, subject to the implementation by WVAWC of three recommended operational improvements. Both general investigations remain pending.

The Company and WVAWC believe that the causes of action and other claims asserted against WVAWC in the class action complaints and the lawsuit filed by Mountaineer Gas are without merit and that WVAWC has valid, meritorious defenses to such claims. WVAWC continues to defend itself vigorously in these litigation proceedings.

Given the current stage of these proceedings and the general investigation, the Company and WVAWC are currently unable to predict the outcome of any of the proceedings described above, and the Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of loss related to this proceeding.

Alternative Water Supply in Lieu of Carmel River Diversions

Compliance with Orders to Reduce Carmel River Diversions—Monterey Peninsula Water Supply Project

Under a 2009 order (the "2009 Order") of the State Water Resources Control Board (the "SWRCB"), the Company's California subsidiary ("Cal Am") is required to decrease significantly its yearly diversions of water from the Carmel River according to a set reduction schedule. In 2016, the SWRCB issued an order (the "2016 Order," and, together with the 2009 Order, the "Orders") approving a deadline of December 31, 2021, for Cal Am's compliance with these prior orders.

Cal Am is currently involved in developing the Monterey Peninsula Water Supply Project (the "Water Supply Project"), which includes the construction of a desalination plant, to be owned by Cal Am, and the construction of wells that would supply water to the desalination plant. In addition, the Water Supply Project also includes Cal Am's purchase of water from a groundwater replenishment project (the "GWR Project") between Monterey One Water and the Monterey Peninsula Water Management District (the "MPWMD"), as well as an expanded aquifer storage and recovery program. The Water Supply Project is intended, among other things, to fulfill Cal Am's obligations under the Orders.

Cal Am's ability to move forward on the Water Supply Project is and has been subject to administrative review by the CPUC and other government agencies, obtaining necessary permits, and intervention from other parties. In 2016, the CPUC unanimously approved a final decision to authorize Cal Am to enter into a water purchase agreement for the GWR Project and to construct a pipeline and pump station facilities and recover up to $50 million in associated incurred costs, plus AFUDC, subject to meeting certain criteria.

In 2018, the CPUC unanimously approved another final decision finding that the Water Supply Project meets the CPUC's requirements for a certificate of public convenience and necessity and an additional procedural phase was not necessary to consider alternative projects. The CPUC's 2018 decision concludes that the Water Supply Project is the best project to address estimated future water demands in Monterey, and, in addition to the cost recovery approved in its 2016 decision, adopts Cal Am's cost estimates for the Water Supply Project, which amounted to an aggregate of $279 million plus AFUDC at a rate representative of Cal Am's actual financing costs. The 2018 final decision specifies the procedures for recovery of all of Cal Am's prudently incurred costs associated with the Water Supply Project upon its completion, subject to the frameworks included in the final decision related to cost caps, operation and maintenance costs, financing, ratemaking and contingency matters. The reasonableness of the Water Supply Project costs will be reviewed by the CPUC when Cal Am seeks cost recovery for the Water Supply Project. Cal Am is also required to implement mitigation measures to avoid, minimize or offset significant environmental impacts from the construction and operation of the Water Supply Project and comply with a mitigation monitoring and reporting program, a reimbursement agreement for CPUC costs associated with that program, and reporting requirements on plant operations following placement of the Water Supply Project in service. Cal Am has incurred $324 million in aggregate costs as of December 31, 2025, related to the Water Supply Project, which includes $107 million in AFUDC.

In September 2021, Cal Am, Monterey One Water and the MPWMD reached an agreement on Cal Am's purchase of additional water from an expansion to the GWR Project. On December 5, 2022, the CPUC issued a final decision that authorized Cal Am to enter into the amended water purchase agreement, and specifically to increase pumping capacity and reliability of groundwater extraction from the Seaside Groundwater Basin. The final decision sets the cost cap for the proposed facilities at approximately $62 million. Cal Am may seek recovery of amounts above the cost cap in a subsequent rate filing or general rate case. Additionally, the final decision authorizes AFUDC at Cal Am's actual weighted average cost of debt for most of the facilities. On December 30, 2022, Cal Am filed with the CPUC an application for rehearing of the CPUC's December 5, 2022, final decision, and on March 30, 2023, the CPUC issued a decision denying Cal Am's application for rehearing, but adopting its proposed AFUDC for already incurred and future costs. The decision also provided Cal Am the opportunity to serve supplemental testimony to increase its cost cap for certain of the Water Supply Project's extraction wells. On May 21, 2025, the CPUC issued a decision authorizing an increase to the cost cap of $11 million for the specified extraction wells.

The amended water purchase agreement and a memorandum of understanding to negotiate certain milestones related to the expansion of the GWR Project have been signed by the relevant parties. Further hearings were scheduled in a Phase 2 to this CPUC proceeding to focus on updated supply and demand estimates for the Water Supply Project, and Phase 2 testimony was completed in September 2022. On October 23, 2023, a status conference was held to determine procedural steps to conclude the proceeding. Further evidentiary hearings were held in March 2024. On May 9, 2025, the CPUC issued a proposed decision in Phase 2, finding that without the Water Supply Project, projected demand will outstrip supply by approximately 2,500 acre-feet per year for 2050. On August 14, 2025, the CPUC approved a final decision updating the supply and demand estimates for the Water Supply Project, finding that the projected demand will outstrip supply by approximately 2,600 acre-feet per year for 2050. On September 17, 2025, the City of Marina (the "City"), the Marina Coast Water District ("MCWD") and the MPWMD filed applications for rehearing of the final decision. On September 22, 2025, these parties also filed a motion to stay the final decision. On October 9, 2025, the CPUC issued a factual correction to the final decision to find that the projected demand will outstrip supply by approximately 2,500 acre-feet per year for 2050 and did not rule on the other motions.

While Cal Am believes that its expenditures to date have been prudent and necessary to comply with the Orders, as well as relevant final decisions of the CPUC related thereto, Cal Am cannot currently predict its ability to recover all of its costs and expenses associated with the Water Supply Project and there can be no assurance that Cal Am will be able to recover all of such costs and expenses in excess of the $123 million in previously approved aggregate construction costs, plus applicable AFUDC, previously approved by the CPUC in its September 2016 decision, its December 2022 decision (as amended by its March 2023 rehearing decision), and its May 2025 decision.

Coastal Development Permit Application

In 2018, Cal Am submitted a coastal development permit application (the "Marina Application") to the City for those project components of the Water Supply Project located within the City's coastal zone. Members of the City's Planning Commission, as well as City councilpersons, publicly expressed opposition to the Water Supply Project. In May 2019, the City issued a notice of final local action based upon the denial by the Planning Commission of the Marina Application. Thereafter, Cal Am appealed this decision to the Coastal Commission, as permitted under the City's code and the California Coastal Act. At the same time, Cal Am submitted an application (the "Original Jurisdiction Application") to the Coastal Commission for a coastal development permit for those project components located within the Coastal Commission's original jurisdiction. After Coastal Commission staff issued reports recommending denial of the Original Jurisdiction Application, noting potential impacts on environmentally sensitive habitat areas and wetlands and possible disproportionate impacts to communities of concern, in September 2020, Cal Am withdrew the Original Jurisdiction Application in order to address the staff's environmental justice concerns. In November 2020, Cal Am refiled the Original Jurisdiction Application.

In October 2022, Cal Am announced a phasing plan for the proposed desalination plant component of the Water Supply Project. The desalination plant and slant wells originally approved by the CPUC would produce up to 6.4 million gallons of desalinated water per day. Under the phased approach, the facilities would initially be constructed to produce up to 4.8 million gallons per day of desalinated water, enough to meet anticipated demand through about 2030, and would limit the number of slant wells initially constructed. As demand increases in the future, desalination facilities would be expanded to meet the additional demand. The phased approach seeks to meet near-term demand by allowing for additional supply as it becomes needed, while also providing an opportunity for regional future public participation and was developed by Cal Am based on feedback received from the community.

In November 2022, the Coastal Commission approved the Marina Application and the Original Jurisdiction Application with respect to the phased development of the proposed desalination plant, subject to compliance with a number of conditions, all of which Cal Am expects to satisfy. In December 2022, the City, MCWD, MCWD's groundwater sustainability agency, and the MPWMD jointly filed a petition for writ of mandate in Monterey County Superior Court against the Coastal Commission, alleging that the Coastal Commission violated the California Coastal Act and the California Environmental Quality Act in issuing a coastal development permit to Cal Am for construction of slant wells for the Water Supply Project. Cal Am is named as a real party in interest. On April 24, 2024, the court granted defendants' motion for judgment on the pleadings and dismissed one of MCWD's causes of action in the petition. A trial commenced on December 9, 2024, and further proceedings continued in January 2025. On May 12, 2025, the court entered its final decision denying the petition in full. On July 24, 2025, a notice of appeal was filed in this matter.

Following the issuance of the coastal development permit, Cal Am continues to work constructively with all appropriate agencies to provide necessary information in connection with obtaining the remaining required permits for the Water Supply Project. However, there can be no assurance that the Water Supply Project in its current configuration will be completed on a timely basis, if ever. For the year ended December 31, 2025, Cal Am has complied with the diversion limitations contained in the 2016 Order. Continued compliance with the diversion limitations in 2026 and future years may be impacted by a number of factors, including without limitation potential recurrence of drought conditions in California and the exhaustion of water supply reserves, and will require successful development of alternate water supply sources sufficient to meet customer demand. The Orders remain in effect until Cal Am certifies to the SWRCB, and the SWRCB concurs, that Cal Am has obtained a permanent supply of water to substitute for past unauthorized Carmel River diversions. While the Company cannot currently predict the likelihood or result of any adverse outcome associated with these matters, further attempts to comply with the Orders may result in material additional costs and obligations to Cal Am, including fines and penalties against Cal Am in the event of noncompliance with the Orders.

Cal Am's Action for Damages Following Termination of Regional Desalination Project ("RDP")

In 2010, the CPUC had approved the RDP, which was a precursor to the current Water Supply Project and called for the construction of a desalination facility in the City. The RDP was to be implemented through a Water Purchase Agreement and ancillary agreements (collectively, the "Agreements") among MCWD, Cal Am and the Monterey County Water Resources Agency ("MCWRA"). In 2011, due to a conflict of interest concerning a former member of MCWRA's Board of Directors, MCWRA stated that the Agreements were void, and, as a result, Cal Am terminated the Agreements. In ensuing litigation filed by Cal Am in 2012 to resolve the termination of the RDP, the court in 2015 entered a final judgment agreeing with Cal Am's position that four of the five Agreements are void, and one, the credit line agreement, is not void. As a result of this litigation, Cal Am was permitted to institute further proceedings, discussed below, to determine the amount of damages that may be awarded to Cal Am as a result of the failure of the RDP.

In 2015, Cal Am and MCWRA filed a complaint in San Francisco County Superior Court against MCWD and RMC Water and Environment, a private engineering consulting firm ("RMC"), seeking to recover compensatory, consequential and incidental damages associated with the failure of the RDP, as well as punitive and treble damages, statutory penalties and attorneys' fees. In 2019, MCWD was granted a motion for summary judgment related to the tort claims in the complaint. A settlement as to the non-tort claims was finalized and entered into in March 2020. As part of this settlement, Cal Am's and MCWRA's right to appeal the dismissal of their tort claims against MCWD were expressly reserved, and, in July 2020, Cal Am filed its appeal. In December 2022, the trial court's decision was reversed on appeal with instructions to vacate its prior orders granting MCWD's motions for summary judgment and to enter new orders denying the motions. In February 2023, MCWD filed a petition for review of the appellate decision with the California Supreme Court, which was denied in March 2023. On June 27, 2024, MCWD filed a motion for judgment on the pleadings. Following a hearing, on December 5, 2024, the court granted MCWD's motion without leave to amend, dismissing all of Cal Am's remaining tort claims. Final judgment was entered on January 7, 2025. On February 27, 2025, Cal Am and MCWRA each filed a Notice of Appeal of the trial court's decision. This matter remains pending.

Proposed Acquisition of Monterey System Assets — Potential Condemnation

Local Agency Formation Commission Litigation

The water system assets of Cal Am located in Monterey, California (the "Monterey system assets") are the subject of a condemnation action by the MPWMD stemming from a November 2018 public ballot initiative. In 2019, the MPWMD issued a preliminary valuation and cost of service analysis report, finding in part that (i) an estimate of the Monterey system assets' total value plus adjustments would be approximately $513 million, (ii) the cost of service modeling results indicate significant annual reductions in revenue requirements and projected monthly water bills, and (iii) the acquisition of the Monterey system assets by the MPWMD would be economically feasible. In 2020, the MPWMD certified a final environmental impact report, analyzing the environmental impacts of the MPWMD's project to (i) acquire the Monterey system assets through the power of eminent domain, if necessary, and (ii) expand its geographic boundaries to include all parts of this system.

In February 2021, the MPWMD filed an application with the Local Agency Formation Commission of Monterey County ("LAFCO") seeking approval to become a retail water provider and annex approximately 58 parcels of land into the MPWMD's boundaries. In June 2021, LAFCO's commissioners voted to require a third-party independent financial study as to the feasibility of an acquisition by the MPWMD of the Monterey system assets. In December 2021, LAFCO's commissioners denied the MPWMD's application to become a retail water provider, determining that the MPWMD does not have the authority to proceed with a condemnation of the Monterey system assets. In April 2022, the MPWMD filed a lawsuit against LAFCO challenging its decision to deny the MPWMD's application seeking approval to become a retail water provider. In June 2022, the court granted, with conditions, a motion by Cal Am to intervene in the MPWMD's lawsuit against LAFCO. In December 2022, the court sustained in part, and denied in part, demurrers that had been filed by LAFCO seeking to dismiss the MPWMD's lawsuit.

In December 2023, the Monterey County Superior Court issued a writ of mandate directing LAFCO to vacate and set aside its original denial of the MPWMD's application to serve as a retail water provider (in conjunction with its effort to acquire the Monterey system assets) and, if requested, to re-hear the application in compliance with all applicable law. The court held that LAFCO incorrectly applied two statutory standards and noted a lack of sufficient evidence to support certain of LAFCO's factual findings. As a result, the LAFCO denial has been nullified and LAFCO will be required to hold another hearing on the MPWMD's application upon request. On February 8, 2024, and February 9, 2024, respectively, Cal Am and LAFCO each filed a notice of appeal with the California Court of Appeal regarding the Monterey County Superior Court's decision to issue the writ of mandate. The MPWMD filed a notice of cross-appeal on February 15, 2024. This matter remains pending.

MPWMD Condemnation Action

Separate from the proceedings related to the MPWMD's application with LAFCO, by letter dated October 3, 2022, the MPWMD notified Cal Am of a decision to appraise the Monterey system assets and requested access to a number of Cal Am's properties and documents to assist the MPWMD with such an appraisal. Cal Am responded by letter on October 24, 2022, denying the request for access, stating that the MPWMD does not have the right to appraise Cal Am's system without LAFCO approval to become a retail water provider. In April 2023, Cal Am rejected an offer by the MPWMD to purchase the Monterey system assets for $448.8 million. Over the written and oral objections of Cal Am, at a hearing held in October 2023, the MPWMD adopted a resolution of necessity to authorize it to file an eminent domain lawsuit with respect to the Monterey system assets.

In December 2023, the MPWMD filed a lawsuit against Cal Am in Monterey County Superior Court seeking to condemn the Monterey system assets. On February 26, 2024, Cal Am filed a motion requesting the Monterey County Superior Court dismiss the MPWMD's lawsuit. Cal Am's motion asserted that the MPWMD lacks legal authorization from both the California legislature and LAFCO to become a retail water provider and the lawsuit improperly seeks to effect a taking of property outside the boundaries of the MPWMD's territory. Hearings on the motion were held on May 3, 2024, and August 23, 2024. On November 14, 2024, the court issued a final ruling denying Cal Am's motion to dismiss. Cal Am filed its answer to the complaint on December 13, 2024. On August 20, 2025, Cal Am filed a motion for summary judgment, alleging that without LAFCO approval, the MPWMD does not have legal authority to pursue eminent domain. On the same date, the MPWMD filed a motion for summary adjudication of the same issue, arguing that LAFCO approval is not required to proceed with this action. By orders dated December 29, 2025, the court denied both motions. This lawsuit remains pending.

While the Company cannot currently predict the outcome of the MPWMD's eminent domain lawsuit, the Company believes that, given existing legal authorities and its other defenses, Cal Am should be able to defend itself successfully against this lawsuit.

PFAS Multi-District Litigation

Several of the Company's utility subsidiaries are parties to a multi-district litigation (the "MDL") lawsuit, which commenced on December 7, 2018, in U.S. District Court for the District of South Carolina, against manufacturers of certain PFAS for damages, contribution and reimbursement of costs incurred and continuing to be incurred to address the presence of such PFAS in public water supply systems owned and operated by these utility subsidiaries and throughout their service areas. Settlements with several defendants in the MDL proceeding have received final approval by the MDL court.

As of December 31, 2025, the Company has received settlement payments from defendants 3M Company and DuPont de Nemours, Inc. totaling $159 million, net of legal fees and administrative costs and exclusive of interest. The Company intends to seek regulatory approval from its respective PUCs to apply the net proceeds for the benefit of customers, where permissible. Regulatory approvals have been obtained with respect to seven of the Company's utility subsidiaries that are parties to the MDL, and two regulatory applications have been denied. Most of the funds received by the Company are being held in a law firm escrow account and are awaiting distribution to the Company's utility subsidiaries that are parties to the MDL after approval or denial is received from the applicable PUCs. As of December 31, 2025, the funds held in a law firm escrow account totaled $114 million and have been recorded on the Company's Consolidated Balance Sheet within other current assets. A corresponding amount has been recorded as a regulatory liability. As of December 31, 2025, approximately $47 million of the escrowed funds, including escrow interest, has been transferred from the law firm escrow account for distribution to utility subsidiaries that have received approval. The Company anticipates that, during 2026, it may receive one or more additional settlement payments from the defendants in the MDL.

The Company has also become aware of a number of substantially similar personal injury short-form complaints that had been filed in the MDL naming, in addition to various other water providers and manufacturers, certain Company utility subsidiaries as defendants. The Company believes that the claims asserted are without merit and the relevant utility subsidiaries have valid, meritorious defenses to the claims. In October 2025, all MDL personal injury complaints that the Company had been made aware of were dismissed by the plaintiffs without prejudice.

Note 17: Earnings per Common Share

Presented in the table below is a reconciliation of the numerator and denominator for the basic and diluted earnings per share ("EPS") calculations for the years ended December 31:

	2025	2024	2023
Numerator:			
Net income attributable to common shareholders	$ 1,111	$ 1,051	$ 944
Denominator:			
Weighted average common shares outstanding—Basic	195	195	193
Effect of dilutive common stock equivalents	—	—	—
Effect of dilutive forward sale agreements	—	—	—
Weighted average common shares outstanding—Diluted	195	195	193

The effect of dilutive common stock equivalents is related to outstanding RSUs and PSUs granted under the Company's 2007 Plan and outstanding RSUs and PSUs granted under the Company's 2017 Omnibus Plan, as well as estimated shares to be purchased under the ESPP. Less than one million share-based awards were excluded from the computation of diluted EPS for the years ended December 31, 2025, 2024 and 2023, because their effect would have been anti-dilutive under the treasury stock method.

Dilutive earnings per common share reflects the dilutive impact of potential issuances of shares of common stock associated with the outstanding equity Forward Sale Agreements entered in August 2025. The dilutive effect of equity forwards is determined under the treasury stock method. Share dilution occurs when the average market price of the Company's common stock for the reporting period is higher than the adjusted forward sales price at the end of the reporting period. There were less than one million shares related to the Forward Sale Agreements included in the computation of diluted EPS for the year ended December 31, 2025.

The if-converted method is applied to the Notes issued in June 2023 for computing diluted EPS. For all periods presented, there was no dilution resulting from the Notes. See Note 11—Long-Term Debt for additional information relating to the Notes.

Note 18: Fair Value of Financial Information

Fair Value of Financial Instruments

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Current assets and current liabilities—The carrying amounts reported on the Consolidated Balance Sheets for current assets and current liabilities, including revolving credit debt, due to the short-term maturities and variable interest rates, approximate their fair values.

Secured seller promissory note from the sale of the Homeowner Services Group—The carrying amount reported on the Consolidated Balance Sheets for the secured seller promissory note, included as part of the consideration from the sale of HOS was $795 million as of December 31, 2025 and 2024. On February 13, 2026, the Company received payment of all amounts payable under the secured seller promissory note, see Note 5—Mergers, Acquisitions and Divestitures for additional information. The accounting fair value measurement of the secured seller promissory note approximated $798 million and $793 million as of December 31, 2025 and 2024, respectively. The accounting fair value measurement is an estimate that is reflective of changes in benchmark interest rates. The secured seller promissory note was classified as Level 3 within the fair value hierarchy.

Preferred stock with mandatory redemption requirements and long-term debt—The fair values of preferred stock with mandatory redemption requirements and long-term debt are categorized within the fair value hierarchy based on the inputs that are used to value each instrument. The fair value of long-term debt classified as Level 1 is calculated using quoted prices in active markets. Level 2 instruments are valued using observable inputs and Level 3 instruments are valued using observable and unobservable inputs.

Presented in the tables below are the carrying amounts, including fair value adjustments previously recognized in acquisition purchase accounting, and the fair values of the Company's financial instruments:

	As of December 31, 2025				
		At Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Preferred stock with mandatory redemption requirements	$ 3	$ —	$ —	$ 3	$ 3
Long-term debt	14,256	11,653	1,065	616	13,334

	As of December 31, 2024				
		At Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Preferred stock with mandatory redemption requirements	$ 3	$ —	$ —	$ 3	$ 3
Long-term debt	13,155	10,165	1,050	658	11,873

Fair Value Measurements

To increase consistency and comparability in fair value measurements, GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels as follows:

Level 1—Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access as of the reporting date. Financial assets and liabilities utilizing Level 1 inputs include active exchange-traded equity securities, exchange-based derivatives, mutual funds and money market funds.

Level 2—Inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data. Financial assets and liabilities utilizing Level 2 inputs include fixed income securities, non-exchange-based derivatives, commingled investment funds not subject to purchase and sale restrictions and fair-value hedges.

Level 3—Unobservable inputs, such as internally-developed pricing models for the asset or liability due to little or no market activity for the asset or liability. Financial assets and liabilities utilizing Level 3 inputs include infrequently-traded non-exchange-based derivatives and commingled investment funds subject to purchase and sale restrictions.

Recurring Fair Value Measurements

Presented in the tables below are assets and liabilities measured and recorded at fair value on a recurring basis and their level within the fair value hierarchy:

	As of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	$ 41	$ —	$ —	$ 41
Rabbi trust investments	32	—	—	32
Deposits	124	—	—	124
Other investments:				
Money market and other	20	—	—	20
Fixed-income securities	28	7	—	35
Mark-to-market derivative asset	—	2	—	2
Total assets	245	9	—	254
Liabilities:				
Deferred compensation obligations	38	—	—	38
Total liabilities	38	—	—	38
Total assets	$ 207	$ 9	$ —	$ 216

	As of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	$ 44	$ —	$ —	$ 44
Rabbi trust investments	29	—	—	29
Deposits	6	—	—	6
Other investments:				
Money market and other	21	—	—	21
Fixed-income securities	88	6	—	94
Mark-to-market derivative asset	—	24	—	24
Total assets	188	30	—	218
Liabilities:				
Deferred compensation obligations	34	—	—	34
Total liabilities	34	—	—	34
Total assets	$ 154	$ 30	$ —	$ 184

Restricted funds—The Company's restricted funds primarily represent proceeds received from financings for the construction and capital improvement of facilities and from customers for future services under operation, maintenance and repair projects. Long-term restricted funds of $20 million and $15 million were included in other long-term assets on the Consolidated Balance Sheets as of December 31, 2025 and 2024, respectively.

Rabbi trust investments—The Company's rabbi trust investments consist of equity and index funds from which supplemental executive retirement plan benefits and deferred compensation obligations can be paid. The Company includes these assets in other long-term assets on the Consolidated Balance Sheets.

Deposits—Deposits include escrow funds and certain other deposits held in trust. The Company includes cash deposits in other current assets on the Consolidated Balance Sheets.

Deferred compensation obligations—The Company's deferred compensation plans allow participants to defer certain cash compensation into notional investment accounts. The Company includes such plans in other long-term liabilities on the Consolidated Balance Sheets. The value of the Company's deferred compensation obligations is based on the market value of the participants' notional investment accounts. The notional investments are comprised primarily of mutual funds, which are based on quoted prices for identical assets in active markets.

Mark-to-market derivative assets and liabilities—The Company employs derivative financial instruments in the form of treasury lock agreements, classified as cash flow hedges, in order to fix the interest cost on existing or forecasted debt. The Company uses a calculation of future cash inflows and estimated future outflows, which are discounted, to determine the current fair value. Additional inputs to the present value calculation include the contract terms, counterparty credit risk, interest rates and market volatility. The Company includes mark-to-market derivative assets in other current assets and mark-to-market derivative liabilities in other current liabilities on the Consolidated Balance Sheets.

Other investments—The Company maintains the Active VEBA trust for purposes of paying active union employee medical benefits. The investments in the Active VEBA trust primarily consist of money market funds and available-for-sale fixed-income securities.

The money market and other investments have original maturities of three months or less when purchased. The fair value measurement of the money market and other investments is based on quoted prices for identical assets in active markets and therefore included in the recurring fair value measurements hierarchy as Level 1.

The available-for-sale fixed income securities are primarily investments in U.S. Treasury securities and government bonds. The majority of U.S. Treasury securities and government bonds have been categorized as Level 1 because they trade in highly-liquid and transparent markets. Certain U.S. Treasury securities are based on prices that reflect observable market information, such as actual trade information of similar securities, and are therefore categorized as Level 2, because the valuations are calculated using models which utilize actively traded market data that the Company can corroborate.

As of December 31, 2025, the Company had current assets of $55 million included in Other and had no long-term assets on the Consolidated Balance Sheets for other investments measured and recorded at fair value. As of December 31, 2024, the Company had current assets of $71 million included in Other and $44 million of other long-term assets included in Other on the Consolidated Balance Sheets for other investments measured and recorded at fair value. Unrealized holding gains and losses on available-for-sale securities are excluded from earnings and reported in other comprehensive income until realized.

The following tables summarize the unrealized positions for available-for-sale fixed income securities:

	As of December 31, 2025			
	Amortized Cost Basis	Gross unrealized gains	Gross unrealized losses	Fair Value
Available-for-sale fixed-income securities	$ 36	$ —	$ 1	$ 35

	As of December 31, 2024			
	Amortized Cost Basis	Gross unrealized gains	Gross unrealized losses	Fair Value
Available-for-sale fixed-income securities	$ 94	$ 2	$ 2	$ 94

The fair value of the Company's available-for-sale fixed income securities, summarized by contractual maturities, as of December 31, 2025, is as follows:

	Amount
Other investments - Available-for-sale fixed-income securities	
Less than one year	$ 6
1 year - 5 years	18
5 years - 10 years	4
Greater than 10 years	7
Total	$ 35

Note 19: Leases

The Company has operating and finance leases involving real property, including facilities, utility assets, vehicles, and equipment. Certain operating leases have renewal options ranging from one year to 60 years. The exercise of lease renewal options is at the Company's sole discretion. Renewal options that the Company was reasonably certain to exercise are included in the Company's ROU assets. Certain operating leases contain the option to purchase the leased property. The operating leases for real property, vehicles and equipment will expire over the next 39 years, four years, and five years, respectively.

The Company participates in a number of arrangements with various public entities ("Partners") in West Virginia. Under these arrangements, the Company transferred a portion of its utility plant to the Partners in exchange for an equal principal amount of Industrial Development Bonds ("IDBs") issued by the Partners under the Industrial Development and Commercial Development Bond Act. The Company leased back the utility plant under agreements for a period of 30 to 40 years. The Company has recorded these agreements as finance leases in property, plant and equipment, as ownership of the assets will revert back to the Company at the end of the lease term. The carrying value of the finance lease assets was $142 million and $143 million as of December 31, 2025 and 2024, respectively. The Company determined that the finance lease obligations and the investments in IDBs meet the conditions for offsetting, and as such, are reported net on the Consolidated Balance Sheets and excluded from the lease disclosure presented below.

The Company also enters into O&M agreements with the Partners. The Company pays an annual fee for use of the Partners' assets in performing under the O&M agreements. The O&M agreements are recorded as operating leases, and future annual use fees of $4 million in 2026 through 2030, and $33 million thereafter, are included in operating lease ROU assets and operating lease liabilities on the Consolidated Balance Sheets.

Rental expenses under operating leases were $13 million, $12 million and $11 million for the years ended December 31, 2025, 2024 and 2023, respectively.

For the years ended December 31, 2025, 2024 and 2023, cash paid for amounts in lease liabilities, which includes operating cash flows from operating leases, were $12 million, $11 million, $11 million. For the years ended December 31, 2025, 2024 and 2023, ROU assets obtained in exchange for new operating lease liabilities were $8 million, $11 million, $11 million.

As of December 31, 2025, 2024 and 2023, the weighted-average remaining lease term of the operating leases were 18 years, 18 years, 17 years and the weighted-average discount rate of the operating leases was 5%, 5%, 4%.

The future maturities of lease liabilities at December 31, 2025, were $11 million in 2026, $11 million in 2027, $9 million in 2028, $8 million in 2029, $6 million in 2030 and $83 million thereafter. At December 31, 2025, imputed interest was $46 million.

Note 20: Segment Information

The Company's operating segments are comprised of its businesses which generate revenue, incur expense and have separate financial information which is regularly used by the chief operating decision maker to make operating decisions, assess performance and allocate resources. The Company operates its businesses primarily through one reportable segment, the Regulated Businesses segment. The Regulated Businesses segment is the largest component of the Company's business and includes subsidiaries that provide water and wastewater services to customers in 14 states.

The Company also operates other businesses, primarily MSG, which provide water and wastewater services to the U.S. government on military installations, as well as municipalities. These other businesses do not meet the criteria of a reportable segment in accordance with GAAP, and are collectively presented throughout this Annual Report on Form 10-K within "Other," which is consistent with how management assesses the results of these businesses.

The accounting policies of the segments are the same as those described in Note 2—Significant Accounting Policies. The Regulated Businesses segment includes intercompany costs that are allocated by Service Company and intercompany interest that is charged by AWCC, both of which are eliminated to reconcile to the Consolidated Statements of Operations. Inter-segment revenues include the sale of water from a regulated subsidiary to subsidiaries within Other, leased office space, and furniture and equipment provided by subsidiaries within Other to regulated subsidiaries. Other also includes corporate costs that are not allocated to the Company's Regulated Businesses, interest income related to the secured seller promissory note from the sale of HOS, income from assets not associated with the Regulated Businesses, eliminations of inter-segment transactions and fair value adjustments related to acquisitions that have not been allocated to the Regulated Businesses segment. The adjustments related to the acquisitions are reported in Other as they are excluded from segment performance measures evaluated by management.

The Company's chief operating decision maker is the Chief Executive Officer. The chief operating decision maker uses segment net income or loss to evaluate profit generated from segment assets when making decisions about allocating resources. The chief operating decision maker also uses segment net income to monitor budget versus actual results to assess the performance of the segment.

Presented in the tables below is summarized segment information as of and for the years ended December 31:

	2025		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 4,723	$ 417	$ 5,140
Less:			
Operation and maintenance (a)	1,642	377	2,019
Other segment items (b)	271	9	280
Depreciation and amortization	883	11	894
Interest expense	474	141	615
Interest income	(5)	(85)	(90)
Provision for (benefit from) income taxes	321	(10)	311
Net income (loss) attributable to common shareholders	$ 1,137	$ (26)	$ 1,111
Total assets	$ 32,649	$ 2,793	$ 35,442
Capital expenditures	$ 3,112	$ 14	$ 3,126

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

	2024		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 4,296	$ 388	$ 4,684
Less:			
Operation and maintenance (a)	1,517	341	1,858
Other segment items (b)	241	9	250
Depreciation and amortization	772	16	788
Interest expense	416	107	523
Interest income	(17)	(77)	(94)
Provision for income taxes	302	6	308
Net income (loss) attributable to common shareholders	$ 1,065	$ (14)	$ 1,051
Total assets	$ 29,941	$ 2,889	$ 32,830
Capital expenditures	$ 2,838	$ 18	$ 2,856

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

	2023		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 3,920	$ 314	$ 4,234
Less:			
Operation and maintenance (a)	1,441	279	1,720
Other segment items (b)	220	7	227
Depreciation and amortization	693	11	704
Interest expense	364	96	460
Interest income	(28)	(45)	(73)
Provision for (benefit from) income taxes	259	(7)	252
Net income (loss) attributable to common shareholders	$ 971	$ (27)	$ 944
Total assets	$ 27,480	$ 2,818	$ 30,298
Capital expenditures	$ 2,551	$ 24	$ 2,575

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Other operating expenses, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company, under the supervision and with the participation of its management, including its Chief Executive Officer and its Chief Financial Officer, conducted an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as such term is defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act as of the end of the period covered by this report.

Based on that evaluation, the Company's Chief Executive Officer and its Chief Financial Officer have concluded that, as of December 31, 2025, the Company's disclosure controls and procedures were effective at a reasonable level of assurance. The Company's disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objective.

Management's Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) of the Exchange Act. The Company's internal control over financial reporting is a process designed by or under the supervision of the Company's Chief Executive Officer and its Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect its transactions and dispositions of its assets, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with GAAP, and that the Company's receipts and expenditures are being made only in accordance with authorizations of its management and its directors, and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of its assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company's management, including the Company's Chief Executive Officer and its Chief Financial Officer, assessed the effectiveness of its internal control over financial reporting, as of December 31, 2025, using the criteria described in *Internal Control—Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Based on the Company's evaluation under the framework in *Internal Control—Integrated Framework (2013)*, its management concluded that its internal control over financial reporting was effective as of December 31, 2025.

The effectiveness of the Company's internal control over financial reporting as of December 31, 2025, has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report appearing in Item 8—Financial Statements and Supplementary Data of this Annual Report on Form 10-K.

Changes in Internal Control over Financial Reporting

The Company concluded that there have been no changes in internal control over financial reporting that occurred during its last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

Adoption or Termination of Rule 10b5-1 Plans and Non-Rule 10b5-1 Trading Arrangements

During the three months ended December 31, 2025, none of the Company's directors or "officers" (as such term is defined in Rule 16a-1(f) promulgated under the Exchange Act) adopted or terminated (i) any contract, instruction or written plan for the purchase or sale of the Company's securities, intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) promulgated under the Exchange Act or (ii) any "non-Rule 10b5-1 trading arrangement" (as defined in Item 408(c) of Regulation S-K).

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by this item and not set forth below or in Item 1—Business—Information About Our Executive Officers of this Annual Report on Form 10-K, is incorporated by reference from the Company's Proxy Statement for the 2026 Annual Meeting of Shareholders, to be filed with the SEC within 120 days following the end of the fiscal year covered by this report, under the captions entitled "Board of Directors and Corporate Governance" and "Proposal 1—Election of Directors."

The Company has adopted a Code of Ethics, which applies to directors, officers and employees. The full text of the Code of Ethics is publicly available on the Company's website at *https://amwater.com*. The Company intends to post on its website any amendments to the Code of Ethics and any waivers of such provisions granted to certain principal officers.

The Company maintains its Insider Trading Policy and a Personal Securities Trading and Preclearance Practice thereunder, which govern the purchase, sale and other disposition of the Company's securities by the Company's directors, officers and employees, and their immediate family members, among other covered persons (which does not include the Company). The Company believes the Insider Trading Policy and the related practice are reasonably designed to promote and enforce compliance by such covered persons with applicable insider trading laws, rules and regulations, and the listing standards of the NYSE related thereto. A copy of each has been filed as Exhibit 19.1 and Exhibit 19.2, respectively, to this Annual Report on Form 10-K, and the full text of the Insider Trading Policy is publicly available on the Company's website at *https://amwater.com*.

ITEM 11. EXECUTIVE COMPENSATION

Information required by this item is incorporated by reference in the Company's Proxy Statement for the 2026 Annual Meeting of Shareholders, under the captions entitled "Board of Directors and Corporate Governance—Board Role in Risk Oversight—Executive Development and Compensation Committee Role," "Proposal 1—Election of Directors—Director Compensation Table," "Compensation Discussion and Analysis," "Executive Compensation" (excluding the subsection "Pay Versus Performance"), "Compensation Committee Interlocks and Insider Participation" and "Compensation Committee Report" (with the latter report being furnished, and not filed, in this Annual Report on Form 10-K).

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Information required by this item setting forth the security ownership of certain beneficial owners and management is incorporated by reference in the Company's Proxy Statement for the 2026 Annual Meeting of Shareholders, under the captions entitled "Certain Beneficial Ownership Matters—Security Ownership of Management," "Certain Beneficial Ownership Matters—Security Ownership of Certain Beneficial Owners" and "Equity Compensation Plan Information."

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Information required by this item is incorporated by reference in the Company's Proxy Statement for the 2026 Annual Meeting of Shareholders, under the caption entitled "Board of Directors and Corporate Governance—Board Review of Related Person Transactions" and "Proposal 1—Election of Directors—Director Independence."

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Information required by this item is incorporated by reference in the Company's Proxy Statement for the 2026 Annual Meeting of Shareholders, under the caption entitled "Proposal 3—Ratification of Appointment of Independent Registered Public Accounting Firm—Fees Paid to Independent Registered Public Accounting Firm" and "Proposal 3—Ratification of Appointment of Independent Registered Public Accounting Firm—Pre-Approval of Services Provided by Independent Registered Public Accounting Firm."

PART IV

ITEM 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a) The following documents have been filed as a part of this Annual Report on Form 10-K:

1. The financial statements listed in the "Index to Consolidated Financial Statements" contained in Item 8—Financial Statements and Supplementary Data of this Annual Report on Form 10-K are hereby incorporated by reference in response to this Item 15(a).

2. Financial statement schedules have been omitted since they are either not required or are not applicable as the information is otherwise included in the financial statements or notes thereto.

3. Exhibits. The list of documents contained in "Exhibit Index" is provided in response to this Item 15(a). The warranties, representations and covenants contained in any of the agreements included or incorporated by reference herein or which appear as exhibits hereto should not be relied upon by buyers, sellers or holders of the Company's or its subsidiaries' securities and are not intended as warranties, representations or covenants to any individual or entity except as specifically set forth in such agreement.

The responses to Items 15(b) and (c) of Form 10-K are included above in response to Item 15(a).

ITEM 16. FORM 10-K SUMMARY

None.

EXHIBIT INDEX

Exhibit Number	Exhibit Description
2.1#	Membership Interest Purchase Agreement, dated as of October 28, 2021, by and among American Water Enterprises, LLC, American Water (USA), LLC, American Water Resources, LLC, Pivotal Home Solutions, LLC, American Water Resources Holdings, LLC, American Water Works Company, Inc. and Lakehouse Buyer Inc. (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed October 29, 2021).
2.2#	Agreement and Plan of Merger, dated as of October 26, 2025, by and among American Water Works Company, Inc., Alpha Merger Sub, Inc., and Essential Utilities, Inc. (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed October 27, 2025).
2.3#	Purchase and Sale Agreement, dated as of May 19, 2025, between American Water Works Company, Inc. and Nexus Regulated Utilities, LLC (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed May 19, 2025).
3.1	Restated Certificate of Incorporation of American Water Works Company, Inc. (incorporated by reference to Exhibit 3.1 to American Water Works Company, Inc.'s Quarterly Report on Form 10-Q, File No. 001-34028, filed November 6, 2008).
3.2	Amended and Restated Bylaws of American Water Works Company, Inc. (incorporated by reference to Exhibit 3.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed December 8, 2022).
4.1	Indenture, dated as of October 22, 2007, between American Water Capital Corp. and Computershare Trust Company, N.A., as successor to Wells Fargo Bank, National Association (incorporated by reference to Exhibit 4.4 to American Water Capital Corp.'s Registration Statement on Form S-4, File No. 333-148284, and American Water Works Company, Inc.'s Registration Statement on Form S-4, File No. 333-148284-01, filed December 21, 2007).
4.2	Indenture, dated as of December 4, 2009, between American Water Capital Corp. and Computershare Trust Company, N.A., as successor to Wells Fargo Bank, National Association (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed December 3, 2010).
4.3	Indenture, dated as of June 29, 2023, among American Water Capital Corp., American Water Works Company, Inc. and U.S. Bank Trust Company, National Association. (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed June 29, 2023).
4.4	Form of 3.625% Exchangeable Senior Note due 2026 (included in Exhibit 4.3) (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed June 29, 2023).
4.5	Officers' Certificate, dated December 17, 2012, establishing the 4.300% Senior Notes due 2042 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed December 17, 2012).
4.6	Officers' Certificate, dated August 14, 2014, providing for a further issuance of the 4.300% Senior Notes due 2042 (incorporated by reference to Exhibit 4.3 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 14, 2014).
4.7	Officers' Certificate, dated August 13, 2015, establishing the 4.300% Senior Notes due 2045 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 13, 2015).
4.8	Officers' Certificate, dated November 17, 2016, establishing the 3.000% Senior Notes due 2026 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed November 17, 2016).
4.9	Officers' Certificate, dated November 17, 2016, establishing the 4.000% Senior Notes due 2046 (incorporated by reference to Exhibit 4.2 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed November 17, 2016).
4.10	Officers' Certificate, dated August 10, 2017, establishing the 2.950% Senior Notes due 2027 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 10, 2017).
4.11	Officers' Certificate, dated August 10, 2017, establishing the 3.750% Senior Notes due 2047 (incorporated by reference to Exhibit 4.2 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 10, 2017).

Exhibit Number	Exhibit Description
4.12	Officer's Certificate, dated August 9, 2018, establishing the 3.750% Senior Notes due 2028 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 9, 2018).
4.13	Officer's Certificate, dated August 9, 2018, establishing the 4.200% Senior Notes due 2048 (incorporated by reference to Exhibit 4.2 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed August 9, 2018).
4.14	Officers' Certificate, dated May 13, 2019, establishing the 3.450% Senior Notes due 2029 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed on May 13, 2019).
4.15	Officers' Certificate, dated May 13, 2019, establishing the 4.150% Senior Notes due 2049 (incorporated by reference to Exhibit 4.2 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed on May 13, 2019).
4.16	Officers' Certificate, dated April 14, 2020, establishing the 2.800% Senior Notes due 2030 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed April 14, 2020).
4.17	Officers' Certificate, dated April 14, 2020, establishing the 3.450% Senior Notes due 2050 (incorporated by reference to Exhibit 4.2 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed April 14, 2020).
4.18	Officers' Certificate, dated May 14, 2021, establishing the 2.300% Senior Notes due 2031 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed on May 14, 2021).
4.19	Officers' Certificate, dated May 14, 2021, establishing the 3.250% Senior Notes due 2051 (incorporated by reference to Exhibit 4.2 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed on May 14, 2021).
4.20	Officers' Certificate, dated May 5, 2022, establishing the 4.450% Senior Notes due 2032 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed on May 5, 2022).
4.21	Officers' Certificate, dated February 23, 2024, establishing the 5.150% Senior Notes due 2034 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed February 23, 2024).

Certain schedules and exhibits to this agreement have been omitted as permitted by rules or regulations of the SEC. The Company will furnish the omitted schedules and exhibits to the SEC upon request.

* Denotes a management contract or compensatory plan or arrangement.

Instruments defining the rights of holders of certain issues of long-term debt of the Company and certain of its consolidated subsidiaries have not been filed as exhibits to this report because the authorized principal amount of any one of such issues does not exceed 10% of the Company's consolidated total assets. The Company agrees to furnish a copy of each such instrument to the SEC upon request.

The Membership Interest Purchase Agreement filed as Exhibit 2.1, the Agreement and Plan of Merger filed as Exhibit 2.2, the Purchase and Sale Agreement filed as Exhibit 2.3, and the Secured Seller Note Agreement and related amendments thereto filed as Exhibit 10.26.1, Exhibit 10.26.2 and Exhibit 10.26.3 to this Annual Report on Form 10-K, have been included to provide investors and security holders with information regarding the terms of the respective agreements. The filing of these agreements is not intended to provide any other factual information about the parties thereto, or any of their respective subsidiaries or affiliates. The representations, warranties and covenants contained in the respective agreements (i) were made by the parties thereto only for purposes of that respective agreement and as of specific dates; (ii) were made solely for the benefit of the parties to the respective agreement; (iii) may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures exchanged between the parties in connection with the execution of the respective agreement (such disclosures include information that has been included in public disclosures, as well as additional non-public information); (iv) may have been made for the purposes of allocating contractual risk between the parties to the respective agreements instead of establishing these matters as facts; and (v) may be subject to standards of materiality applicable to the contracting parties to the respective agreements that differ from those applicable to investors.

Investors should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of the parties to the respective agreements thereto, or any of their respective subsidiaries or affiliates. Additionally, the representations, warranties, covenants, conditions and other terms of the respective agreements may be subject to subsequent waiver or modification. Moreover, information concerning the subject matter of the representations, warranties and covenants may change after the date of the respective agreement, which subsequent information may or may not be fully reflected in the Company's public disclosures. The respective agreements should not be read alone, but should instead be read in conjunction with the other information regarding the Company that is or will be contained in, or incorporated by reference into, the reports and other documents that are filed by the Company with the SEC.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized, on the 18th day of February, 2026.

AMERICAN WATER WORKS COMPANY, INC.

BY: /s/ JOHN C. GRIFFITH

John C. Griffith
President and Chief Executive Officer

Pursuant to the requirements of the Securities Exchange Act of 1934, this Annual Report on Form 10-K has been signed on the 18th day of February, 2026, by the following persons in the capacities indicated.

/s/ JOHN C. GRIFFITH	/s/ JEFFREY N. EDWARDS
John C. Griffith **President and Chief Executive Officer** **(Principal Executive Officer and Director)**	**Jeffrey N. Edwards** **(Director)**

AMENDMENT 2025-1
TO THE
PENSION PLAN FOR EMPLOYEES OF
AMERICAN WATER WORKS COMPANY, INC.
AND ITS DESIGNATED SUBSIDIARIES

WHEREAS, American Water Works Company, Inc. (the "Company") sponsors the Pension Plan For Employees of American Water Works Company, Inc. And Its Designated Subsidiaries (the "Plan") and its corresponding trust for the benefit of its eligible employees; and

WHEREAS, Section 16.1 of the Plan authorizes the Benefits Administration Committee of American Water Works Company, Inc. and Its Designated Beneficiaries (the "Committee") to amend the Plan for amendments that do not have a material cost; and

WHEREAS, the Committee desires to amend the Plan to permit a terminated participant who has applied for Social Security disability benefits and elected an early retirement benefit to prospectively convert the early retirement benefit to a disability retirement benefit, regardless of the annuity starting date; and

WHEREAS, this "Amendment" shall supersede the provisions of the Plan to the extent those provisions are inconsistent with the provisions of this Amendment.

NOW THEREFORE, BE IT RESOLVED, that by virtue of the authority reserved to the Committee under Section 16.1 of the Plan, the Plan is hereby amended as follows:

1. Effective as of January 1, 2023, Section 4.2(c) of the Plan (Early Retirement) is amended to read as follows:

   "(c) In the event a Participant (1) applies for Social Security disability benefits while they are employed (including employment during leave of absence), (2) subsequently commences payment of their Early Retirement benefit under Section 4.2, and (3) receives an award of total and permanent disability from the Social Security Administration, such Participant shall be eligible to receive an adjusted pension benefit as a Disability Retirement under Section 4.3 (provided that the Participant qualifies for such Disability Retirement under Section 4.3) retroactive to their Annuity Starting Date under clause (2) above. For purposes of clarity, a Participant for whom payment of their Early Retirement benefit has not yet commenced as of their elected Annuity Starting Date due to administrative delay shall be treated as having commenced payment of their Early Retirement benefit as of their elected Annuity Starting Date."

2. Effective as of January 1, 2023, Section 4.3(d) of the Plan (Disability Retirement) is amended to read as follows:

   "(d) A terminated Participant shall be eligible to convert an Early Retirement benefit that has commenced pursuant to Section 4.2 to a Disability

Retirement benefit under this Section 4.3 to the extent the provisions of Section 4.2(c) apply."

IN WITNESS WHEREOF, this Amendment has been executed this 4th day of June, 2025.

Exhibit 10.25.5

AMENDMENT 2025-2
TO THE
PENSION PLAN FOR EMPLOYEES OF
AMERICAN WATER WORKS COMPANY, INC.
AND ITS DESIGNATED SUBSIDIARIES

WHEREAS, American Water Works Company, Inc. (the "Company") sponsors the Pension Plan for Employees of American Water Works Company, Inc. and Its Designated Subsidiaries (the "Plan") and its corresponding trust for the benefit of its eligible employees;

WHEREAS, the Company has approved the purchase of one or more group annuity contracts ("GACs") to settle portions of the Plan's liabilities for certain in-pay status retirees and beneficiaries ("Retiree Lift-Out");

WHEREAS, Section 16.1 of the Plan authorizes the Benefits Administration Committee of American Water Works Company, Inc. and Its Designated Beneficiaries (the "Benefits Administration Committee") to amend the Plan in whole or in part at any time and from time to time, provided that any such amendment is administrative in nature, required by law, or does not materially increase the cost of the Plan to the Company, as determined by the Company's Treasurer in consultation with the Company's Chief Financial Officer;

WHEREAS, the Benefits Administration Committee desires to amend the Plan to reflect the Retiree Lift-Out; and

WHEREAS, this "Amendment" shall supersede the provisions of the Plan to the extent those provisions are inconsistent with the provisions of this Amendment.

NOW THEREFORE, BE IT RESOLVED, that by virtue of the authority reserved to the Benefits Administration Committee under Section 16.1 of the Plan, Article VII of the Plan is hereby amended, effective as of December 10, 2025, to add a new Section 7.3 to read, in its entirety, as follows:

"Section 7.3 2025 Group Annuity Contract Purchase. Notwithstanding any other provision in the Plan, on December 10, 2025 (or as soon as practicable thereafter), the Plan shall purchase one or more annuity contracts (such term to include group annuity contract(s) ('GACs')) in accordance with, and to effect, the following:

(a) The entire benefit rights of the Annuitized Individuals (as defined in subsection (e) of this Section 7.3) shall be:

(i) fully guaranteed by an insurance company licensed to do business in one of the United States of America;

(ii) legally enforceable by the Annuitized Individual solely against the insurance company and against no other person, including the Plan; and

(iii) guaranteed by such insurance company by way of an irrevocable commitment to pay the benefit liabilities with respect to the Annuitized Individual.

(b) A certificate that describes the benefits to which the Annuitized Individual is entitled shall be issued to the Annuitized Individual by the insurance company.

(c) After the group annuity contract purchase described in this Section, the Annuitized Individual shall no longer be a Participant under the Plan, shall no longer have any rights under the Plan, and the Plan shall have no further obligation to make any payment with respect to any benefit of an Annuitized Individual, including with respect to any survivor, beneficiary, or other person claiming by or through the Annuitized Individual. The Plan shall not be the contract-holder of the group annuity contract nor shall such group annuity contract be held as an asset of the Plan.

(d) The group annuity contract shall provide for the continued payment of the Annuitized Individual's benefit in the same form that was in effect under the Plan immediately before the group annuity contract purchase, giving effect to any applicable beneficiary, joint pensioner, contingent annuitant, joint annuitant or similar designation, survivor benefit election, and/or qualified domestic relations order.

(e) For purposes of this Section, an 'Annuitized Individual' is a Participant or any other person who is entitled under the Plan to receive a benefit payable hereunder and who, in each case, satisfies the following conditions:

(i) if the person is a Participant, spouse or in pay status designated beneficiary, the Plan issued the first payment (or first payments) for such Participant's, Spouse's or designated beneficiary's benefit under the Plan, as applicable, on or before September 1, 2025;

(ii) if the person is not a Participant, spouse or in pay status designated beneficiary, such person's benefit under the Plan derives from the benefit of a Participant described in subsection (e)(i) of this Section 7.3;

(iii) as of the date of the annuity purchase, each of such person's benefit under the Plan is being paid in the form of an annuity in the amount of $1,725 per month or less; and

(iv) such person does not belong to any of the excluded categories described in subsection (f) of this Section 7.3.

(f) Members of the following specified categories and classes of Participants, spouses, designated beneficiaries, and alternate payees in the Plan shall be excluded from designation as an Annuitized Individual under subsection (e) of this Section 7.3:

(i) Participants, spouses, designated beneficiaries or alternate payees whose accrued benefits under the Plan are determined with reference to a domestic relations order, or other process issued by a court or administrative agency;

(ii) Participants, spouses or designated beneficiaries who reside in New York state;

(iii) A Participant who is still within two years of the date payments to the Participants began under Section 6.1(a) of the Plan;

(iv) Participants, spouses, designated beneficiaries or alternate payees whose accrued benefits under the Plan are payable pursuant to the terms of the legacy GACs with Principal Life Insurance Company and John Hancock Life Insurance Company (U.S.A.)

(v) Participants, spouses or designated beneficiaries whose accrued benefits under the Plan are offset or reduced by the amount of payments or entitlements due under another employee benefit plan or insurance contract or by deduction other than state or federal tax; and

(vi) Any individual otherwise excluded on the basis of criteria determined by the Administration Committee (or its delegate) and applied on a uniform and non-discriminatory basis."

IN WITNESS WHEREOF, this Amendment has been executed this 10th day of December 2025.

POLICY DOCUMENT

AMERICAN WATER

nsider Trading and Prohibited Transactions Policy

pplicability:	American Water Works Company, Inc., and its controlled subsidiaries (individually or collectively, "American Water" or the "Company")	**Last Updated:** December 1, 2024 **Executive Sponsor:** Executive Vice President and General Counsel **Policy Owner:** Vice President, Chief SEC Counsel and Secretary

I. PURPOSE

This Policy governs securities trading and transactions and the confidentiality of material, non-public information related to the Company. This Policy has been adopted by the Company's Board of Directors to promote compliance with Securities Laws that prohibit trading in securities on the basis of material non-public information.

This Policy applies to transactions in Company Securities and Derivative Securities. The Policy also applies to transactions in Other Securities of an entity other than the Company, when (i) a Covered Person is aware of material, non-public information regarding that entity and (ii) the information is obtained through the Company or by virtue of a person's employment or other relationship with the Company.

It is important that all Covered Persons review the Policy carefully and periodically. Noncompliance with the Policy is grounds for immediate sanctions, including but not limited to termination of employment or service. Trading on the basis of material non-public information is also a serious violation of Securities Laws, leading potentially to both civil and criminal penalties.

Section X contains a list of definitions for capitalized terms used in this Policy.

II. POLICY STATEMENT

All persons or entities subject to this Policy have ethical and legal obligations to (i) maintain the confidentiality of information about the Company and (ii) not engage in Covered Transactions while aware of material non-public information at the time of the transaction. In all cases, the responsibility for determining whether a person or entity is aware of material non-public information rests with that person or entity.

Furthermore, the Policy prohibits certain other transactions, called "Prohibited Transactions", that tend to focus on short-term profit or loss, rather than the long-term success of the Company. By eliminating Prohibited Transactions, the Company seeks to align the interests of Covered Persons with the Company's business strategy and the Company's long-term shareholders. These transactions are prohibited even in circumstances where a Covered Person may not be aware of any material non-public information.

Except as specifically noted herein, there are no exceptions to this Policy.

III. THE INSIDER TRADING POLICY

A. Who is Covered by the Policy?

This policy applies to all Covered Persons, and to Family Members and Controlled Entities of Covered Persons, as further described below. Each Covered Person is individually responsible for complying with this Policy. A Covered Person is also responsible for transactions of the Covered Person's Family Members and Controlled Entities. For the purposes of this Policy and the Securities Laws, each Covered

Person should treat all transactions by Family Members or Controlled Entities as if the transactions were for the Covered Person's own account. Therefore, a Covered Person must make their Family Members aware of the need to communicate with the Covered Person before a Family Member or any related Controlled Entity engages in a transaction covered by this Policy.

A Covered Person may continue to be subject to the Policy after the end of employment or service with the Company. If a Covered Person is aware of material non-public information when employment or service with the Company ends for any reason, the Covered Person (including Family Members and Controlled Entities) may not engage in Covered Transactions (as described in Section III.D of this Policy) until that information has become public or is no longer material. A determination as to whether, and for how long, a Covered Person may remain as such following such person's resignation, retirement, or termination of service from the Company, may be made by the Chief SEC Counsel, after consultation with the General Counsel and/or the Chief Financial Officer in appropriate circumstances.

B. What is Material Information?

Information is considered "material" if a reasonable investor would consider that information important in the context of the total mix of information in making a decision to buy, hold or sell Company Securities, Derivative Securities, or Other Securities. Any information that could reasonably be expected to affect the price of these securities, whether positive or negative, should be considered material. There is no bright-line standard or numerical test for assessing materiality, even with respect to financial information or similar data. Materiality is based on an assessment of all of the facts and circumstances and is often evaluated by enforcement authorities with the benefit of hindsight. The broadest interpretation should be given as to whether information is material, and it is important to review the information in context of other existing information and other surrounding facts and circumstances. The following is an illustrative list of information that could be regarded as material:

- Quarterly and annual earnings or losses and other similar financial information
- Earnings guidance or projections about earnings or other financial information, including amendments to or confirmations of any previously announced guidance, or the decision to suspend the use of such guidance;
- Dividend changes;
- A current, proposed or contemplated offering of securities;
- Establishing, modifying or terminating a repurchase program for securities;
- Pending or proposed acquisitions, mergers, joint ventures, divestitures or tender offers;
- Pending or proposed new or expanding businesses, products or services, including establishing new service territories;
- Significant events associated with regulatory proceedings involving the Company's utility subsidiaries, including, without limitation, the initiation, termination and resolution of such proceedings;
- The acquisition or loss of a significant contract or customer;
- A restructuring of assets, personnel or operations;
- Significant changes to the Board of Directors or senior management;
- Significant related person transactions;
- Bank borrowings or other financing transactions, other than in the ordinary course of the Company's business;
- Regulatory developments of significant impact;
- Pending or threatened significant litigation or investigations, including the resolution of or other significant developments with respect to any litigation or investigation;
- Severe liquidity problems or impending bankruptcy;
- A significant disruption of or to the Company's operations;

- A loss or potential loss, or breach or unauthorized access, to its properties or assets, including infrastructure, facilities or technology;
- A change in auditors or notification that the auditor's reports may no longer be relied upon; or
- An imposition of a ban on trading in securities.

When in doubt as to the materiality of any non-public information, a Covered Person should refrain from entering into any transaction and consult with their manager or supervisor, or the Chief SEC Counsel.
If a manager discloses material non-public information to other persons, the manager must let them know that they are prohibited from engaging in transactions, except as permitted by this Policy or the Personal Securities Trading and Preclearance Practice, until such time as the information is no longer material or has been publicly disclosed by the Company, as explained in Section III.C below.

C. When is Information Considered Public?

Information that has not been broadly disclosed to investors and the trading markets is generally considered to be non-public information. For information to be publicly disclosed, information must have been broadly disseminated to investors and sufficient time given for the trading markets to process and absorb that information.

Information generally would be considered broadly disseminated if it has been disclosed through a:

- filing with the SEC, such as a Form 8-K or other report;
- press release issued via a national newswire service;
- broadcast on a broadly-available radio or television program; or
- publication in a newspaper or magazine with significant circulation (such as *The Wall Street Journal*).

By contrast, information would likely not be considered broadly disseminated if it is available only to the Company's employees or if it is only available to a select group of third parties. For example, disclosures made in regulatory proceedings, such as testimony given or briefs filed in rate cases, or in litigation proceedings, may be considered non-public for purposes of this Policy even though the information may no longer be viewed as confidential. Depending on the specific facts and circumstances, information on the Company's or another web site may or may not be broadly disseminated; thus, such information should not be viewed as publicly disclosed for purposes of this Policy unless determined otherwise by the Chief SEC Counsel after consultation with the General Counsel and/or Chief Financial Officer.

Once information is broadly disseminated, it is necessary to allow sufficient time for the investing public to absorb the information. As a general rule, and while specific facts may require or permit reaching a different conclusion, information should be considered absorbed by the marketplace when two full trading days have elapsed after the information is broadly disseminated.

Questions as to whether information may be considered public should be discussed with the Chief SEC Counsel.

D. What is a Covered Transaction?

The Policy applies to any acquisition, disposition or other transfer involving Company Securities, Derivative Securities or Other Securities, other than transactions specifically excepted by this Policy (these are collectively referred to in this Policy as "Covered Transactions"). Issuers of Other Securities may be other

companies or entities with which the Company does business, such as a customer, vendor, contractor or supplier of the Company.

For purposes of this Policy, a Covered Transaction includes transactions even when nothing is received in exchange for the security, and regardless of whether the transaction is effected in the open market or in a privately-negotiated transaction.

The following are illustrative examples of Covered Transactions:

- ordinary open-market purchase and sales;
- gifts of securities;
- transfers or contributions of securities to a trust or other entity;
- private sales or transfers of securities, effected other than through a broker or a securities market;
- transfers among family members or other related parties;
- reorganizations of entities that own securities;
- transfers following death or incident to the divorce of the owner;
- transfers that may be required by a legal process, or a court or administrative order.

E. What Trading and Disclosure Activities are Prohibited by the Policy?

No Covered Person, Family Member or Controlled Entity who is aware of material non-public information may, directly or indirectly (including indirectly through Family Members, Controlled Entities or other persons who may not be aware of such information):

- engage in any Covered Transaction in Company Securities or Derivative Securities, except through a Rule 10b5-1 plan approved as provided in this Policy;
- engage in any Covered Transaction in Other Securities when aware of material non-public information about the other company;
- advise others, generally or specifically, concerning a Covered Transaction;
- disclose material non-public information (also called “tipping”) to persons within or outside the Company to any person who does not have a “need to know” that information, except for disclosures made in accordance with the Company’s policies regarding the protection or authorized external disclosure of information regarding the Company; or
- assist anyone in taking any of the foregoing actions.

These prohibitions remain in effect until the material non-public information is fully disclosed and broadly disseminated to the public, or until the information, although not disclosed, ceases to be material. For example, knowledge about an impending potential acquisition would no longer be material if the parties ultimately determine not to enter into an acquisition agreement.

F. Special Situations: Transactions under Company Plans

Transactions involving Company Securities and Derivative Securities under certain of the Company’s benefit and other plans are subject to the following rules:

Plan or Transaction	This Policy DOES NOT apply to	This Policy DOES apply to
Stock option exercises	▪ the exercise of a Derivative Security, such as a stock option, acquired pursuant to a Company equity compensation plan; or ▪ any transaction effected as part of the withholding of Company Securities to satisfy tax withholding requirements.	Any sale of Company Securities as part of a broker-assisted cashless exercise of an option, or any other market sale for the purpose of generating cash needed to pay the exercise price of an option.
Equity compensation plan awards	▪ the granting or vesting of Derivative Securities or Company Securities that are awards (including options, restricted stock units, performance stock units or shares of common stock) under any Company equity compensation plan that has been approved by the Company's stockholders; or ▪ any transaction effected as part of the withholding of Company Securities to satisfy tax withholding requirements, if effected in compliance with the terms of a Company equity compensation plan or award.	Any simultaneous or subsequent sale of Company Securities.
ESPP	▪ any decision to enroll in the ESPP during an ESPP open enrollment period; ▪ any purchases of Company Securities through the ESPP resulting from a periodic contribution of money to the ESPP during a purchase period pursuant to a payroll contribution election; ▪ any changes in a payroll contribution election made in accordance with the terms of the ESPP; or ▪ any decision to terminate or suspend participation in the ESPP If the ESPP obtains Company Securities in open-market transactions rather than from the Company, enrollments in and changes in payroll contribution elections would become subject to the Policy. In this case, the Company would communicate this change to persons subject to the Policy.	Any sales of Company Securities purchased pursuant to the ESPP.

Plan or Transaction	This Policy DOES NOT apply to	This Policy DOES apply to
Dividend reinvestment plans and programs	▪ An election to participate or terminate participation in American Water Stock Direct, the Company's direct stock purchase and dividend reinvestment plan (or any successor plan); ▪ purchases of Company Securities through American Water Stock Direct resulting solely from the automatic reinvestment of dividends paid on the Company's Securities; or ▪ purchases of Company Securities resulting solely from the automatic reinvestment of dividends paid on the Company's Securities pursuant to any dividend reinvestment program, plan or feature offered by a third-party broker or dealer (a "Broker DRP") that operates in a manner substantially similar to American Water Stock Direct. If Company Securities are provided to American Water Stock Direct in open-market transactions rather than directly from the Company, elections to participate in this plan would become subject to the Policy. In this case, the Company will communicate this change to persons subject to the Policy.	• An election to participate or terminate participation in a Broker DRP; • voluntary purchases of Company Securities resulting from additional contributions in American Water Stock Direct; or • any sale of any Company Securities received through any reinvestment of dividends on Company Securities, whether through American Water Stock Direct, a Broker DRP or otherwise.
Other transactions with the Company	Any other purchase of Company Securities from the Company or sales of Company Securities to the Company	N/A

G. <u>Rule 10b5-1 Plans</u>

Under SEC Rule 10b5-1, a purchase or sale of a security will not be deemed to have been made on the basis of material non-public information if the person making the trade demonstrates that the trade was made pursuant to a binding agreement or written plan entered into or adopted at a time that the person was not aware of any material nonpublic information, and otherwise complies with all of the other requirements of such rule. As used in this Policy, a Rule 10b5-1 plan refers to a written plan (a) regarding the method for effecting future transactions in securities entered into or adopted at a time when the person is not aware of material non-public information and (b) that complies with all of the requirements of such rule. A person that effects a transaction pursuant to a valid and compliant Rule 10b5-1 plan may have a defense against a claim that the transaction violated the U.S. federal insider trading rules.

Transactions under a Rule 10b5-1 plan as defined above will not be subject to this Policy if all of the following conditions below are met:

- The Rule 10b5-1 plan must comply and be operated in accordance with all applicable legal requirements, including under the Federal securities laws.
- The Rule 10b5-1 plan must be entered into during an open trading window and when a person is not aware of material non-public information, and should not involve complex trading mechanisms.

- The Rule 10b5-1 plan may be amended or terminated only (a) when a person is not aware of material non-public information and (b) in accordance with all of the requirements of Rule 10b5-1.
- The transaction must comply with all of the terms and conditions of the Rule 10b5-1 plan.
- All applicable requirements in the Personal Securities and Trading Preclearance Practice with respect to Rule 10b5-1 plans and SEC reporting requirements must be met.
- The Rule 10b5-1 plan must be reviewed and approved by the Chief SEC Counsel prior to any effecting any transactions, except that with respect to the review of a Rule 10b5-1 plan for any director or executive officer, the Chief SEC Counsel will consult with the Chief Executive Officer, the Chief Financial Officer and the General Counsel, who will collectively confer and determine whether to approve the Rule 10b5-1 plan.

H. Mutual Funds

Transactions in securities issued by mutual funds, exchange-traded funds, index funds or other "broad basket" funds that own or hold Company Securities as one of many investments are not subject to this Policy.

IV. PROHIBITED TRANSACTIONS

Even in circumstances where a director, officer or employee is not aware of material non-public information, they (including Family Members and Controlled Entities) may not engage in Prohibited Transactions, each of which is described in more detail below. These include:

- Short sales and "short sales against the box";
- Hedging transactions and other transactions in Derivative Securities; and
- Pledging and margin transactions

The ban on Prohibited Transactions seeks to focus directors, officers and employees on the long-term goals and prospects of the Company and to prevent them from being distracted by speculative trading in Company Securities or Derivative Securities. Also, the Company seeks to prevent such persons from limiting their investment risk in Company Securities.

The following is a brief description of each type of Prohibited Transaction:

- Short sales and "short sales against the box": A short sale is generally a sale of a security that the seller does not own, with the plan to repurchase the security at a later time when the price is lower. A short-seller generally must borrow the security from its owner to deliver it to the purchaser. A "short sale against the box" is generally a short sale involving a security that the seller owns but does not deliver to the purchaser.

  A short seller of Company Securities or Derivative Securities can profit from the transaction only to the extent the price of the security decreases. Short sales may reduce a seller's incentive to improve the Company's performance. In addition, under the Securities Laws, it is unlawful for any of the Company's directors or Section 16 officers to engage in short sales and certain "short sales against the box" of Company Securities or Derivative Securities.

  For these reasons, short sales and "short sales against the box" involving Company Securities and Derivative Securities by Company directors, officers and employees (and their Family Members and Controlled Entities) are prohibited.

- Hedging transactions: A hedging transaction with respect to a security is a transaction entered into for the purpose of reducing or eliminating the market price risk associated with the ownership of that security. A hedging transaction allows an investor to focus on short-term performance at the expense of long-term objectives.
  For example, if a person owns a Company Security, a hedging transaction can involve the purchase of a put option or the sale of a call option with respect to that security. Call options and put options allow the purchaser and the seller, in effect, to speculate in the price of the Company Security and minimize the risk incurred if the price were to change. In this example, a call option is a Derivative Security that entitles the holder to purchase a Company Security at a specified price at any time before a future date. A put option is a Derivative Security that entitles the holder to sell a Company Security at a specified price at any time before a future date. Hedging transactions may include transactions involving combinations of call options and put options, sometimes described as “spreads” or “collars.”

  Some additional examples of hedging transactions are:
  - a current sale of the security for delivery in the future, either at a fixed price or at a price that can fluctuate;
  - an agreement by the holder to exchange future investment results, such as dividends or market price changes, with respect to the security owned by such person for another fixed or variable investment return; or
  - the deposit of securities owned in a so-called “exchange fund,” which also owns the securities deposited by a number of other participants, in exchange for an ownership interest in the fund, thereby diversifying the risk of the ownership of the securities

Because hedging transactions can result in the misalignment between the ownership interest of the Company’s directors, officers and employees and those of the Company’s stockholders, no director, officer or employee (including Family Members or Controlled Entities) may engage in any of the transactions described above, in any purchase or sale of a Derivative Security, or in any other transaction of a similar nature (as determined by the Chief SEC Counsel, the General Counsel or the Chief Financial Officer) that has the effect of reducing or eliminating the investment risk associated with any Company Securities owned by such person.

To the extent they may be Derivative Securities, the granting, exercise, vesting and earning of awards issued under any of the Company’s equity compensation plans are not considered hedging transactions under this Policy; however, buying or selling any Derivative Security with respect to such securities is prohibited.

- Pledging and margin transactions: A pledge of Company Securities involves the offering of such securities to a lender as collateral for a loan. A margin of Company Securities involves the use of Company Securities in a margin account as collateral for an investment in securities.

  Any pledging or margining of Company Securities puts the shares of Company Securities at risk of sale if the loan is not repaid or if the value of securities subject to a pledge or held on margin decreases in value. For this reason, no director, officer or employee (including Family Members or Controlled Entities) may:

- pledge Company Securities as collateral for a loan or other obligation (such as to cover overdrafts or shortfalls in another account);
- use Company Securities as collateral in a margin account for a loan or for any other obligation in connection with the purchase of a security; or
- engage in any other similar transaction that has the effect of using Company Securities as collateral or security for a loan or any other obligation.

This prohibition applies whether the Company Securities have been acquired from the Company, in the open market or otherwise. However, this prohibition does not apply to any "cashless exercise" of a stock option issued under a Company equity compensation plan.

Because the default terms of many brokerage agreements may permit shares held in brokerage accounts to be marginable or used to secure another obligation, brokers should be instructed that Company Securities held in any such account must not be subject to any pledge, security interest or margin. Further, Company Securities or Derivative Securities should not be held in an account that allows pledging of the securities in the account or the purchase of any securities on margin.

V. RELATED PRACTICES AND REQUIREMENTS

Personal Securities Trading and Preclearance Practice

The Personal Securities Trading and Preclearance Practice issued under this Policy contains provisions that govern the preclearance and trading of Company Securities. A violation of the Practice is considered a violation of the Policy. You should consult the Practice before engaging in any transaction involving Company Securities.

Stock Ownership Guidelines and Stock Retention Requirements

The Board of Directors has adopted the Executive Stock Ownership Guidelines and Executive Stock Retention Requirements for employees at specified levels and has adopted stock ownership requirements for members of the Board of Directors. Any preclearance request will consider compliance with these guidelines and requirements before approval. If you are covered by these guidelines or requirements, please consult with the Chief SEC Counsel or the relevant documentation for more information.

VI. NON-COMPLIANCE

The violation of any insider trading prohibition, including the purchase and sale of securities while aware of material non-public information or the disclosure of material non-public information to others who then trade in the Company's Securities, Derivative Securities or Other Securities, is prohibited by the Securities Laws. Insider trading violations are pursued vigorously by the SEC, U.S. Attorneys and state enforcement authorities as well as foreign authorities. Securities Laws may also impose liability on companies and other persons in positions of control if they fail to take reasonable steps to prevent insider trading by Company personnel. There are no minimum requirements on the size of the transaction that can trigger insider trading liability. Relatively small trades have in the past led to civil and criminal investigations, and lawsuits.

There are strict criminal and civil penalties under the U.S. securities laws for committing illegal insider trading:

- A criminal prosecution can result in a fine of up to $5 million and imprisonment for up to 20 years for each act.

- In a civil action brought by the SEC, a person who has been found to have engaged in insider trading, or of having communicated material non-public information to another person who engages in insider trading, can be held liable for a penalty up to three times the profit gained, or the loss avoided.
- The SEC has the authority to obtain a court order barring a director or officer who has engaged in insider trading from serving, either permanently or for a period of time, as a director or officer of any public company.

In addition, an individual's failure to comply with this Policy may subject the individual to Company- imposed sanctions, including but not limited to termination of employment or service for cause, whether or not the person's failure to comply results in a violation of law. A violation of law, or even an SEC investigation that does not result in a prosecution, can tarnish a company's or person's reputation and irreparably damage a career.

VII. STRATEGIC OBJECTIVES

This Policy addresses strategic objectives for compliance with applicable Securities Laws related to insider trading, and to protect the Company's reputation for integrity and ethical conduct.

VIII. MONITORING

The Chief SEC Counsel, together with the General Counsel and Chief Compliance Officer, should periodically review the efficacy of this Policy in addressing the strategic objectives described above.

IX. WAIVERS; MODIFICATIONS

Waivers or exceptions to this Policy may be made only be the written approval of the General Counsel, after consultation with the Chief SEC Counsel. The General Counsel shall maintain all documentation related to waivers or exceptions to this Policy in accordance with applicable document retention policies. The Company reserves the right to amend or rescind this Policy or any portion of it at any time and to adopt different or additional policies and practices at any time.

X. DEFINITIONS

The following definitions apply to this Policy:

- *The Company*: American Water Works Company, Inc. and each of its subsidiaries, either individually or collectively, as the context may require
- *Chief SEC Counsel*: The person having the title or serving in the role of the Chief SEC Counsel, or their designee, or, in the absence of the Chief SEC Counsel and designee, the General Counsel
- *Company Securities*: Equity securities (common stock) and debt securities (debentures, bonds and notes) of the Company
- *Controlled Entity*: any corporation, partnership, limited liability company, trust or other entity (whether for-profit or not-for-profit) that is influenced or controlled by any Covered Person, or any Family Member or another Controlled Entity of a Covered Person
- *Covered Persons*: all directors, officers, employees, consultants and independent contractors of the Company
- *Covered Transactions:* any acquisition, disposition or other transfer involving Company Securities, Derivative Securities or Other Securities, other than transactions specifically excepted by this Policy
- *Derivative Securities*: Contracts or instruments that derive value from the price of a Company Security

- *ESPP:* The Company and its Designated Subsidiaries 2017 Nonqualified Employee Stock Purchase Plan, as it may be amended from time to time, including any predecessor or successor plan.
- *Family Members* with respect to a Covered Person include any of the following:
  - A spouse, child (including a child away at college), stepchild, parent, stepparent, mother-in-law or father in-law, of such Covered Person
  - Any other relative or person who lives in the household of such Covered Person, other than a domestic employee or tenant
  - Any other person who does not live the household of such Covered Person but whose transactions in Company Securities, Derivative Securities or Other Securities may be directed by the Covered Person or over which the Covered Person has the power to influence or control (regardless of whether the Covered Person actually directs, influences or controls a transaction)
- *Other Securities*: Securities of an entity other than the Company
- *Prohibited Transactions*: transactions described in Section IV of this Policy
- *SEC*: the U.S. Securities and Exchange Commission
- *Securities Laws*: applicable U.S. Federal, state and foreign securities laws

XI. CONTACT INFORMATION

The Chief SEC Counsel acts as a resource with respect to questions regarding this Policy, and to interpret any of the provisions of this Policy with respect to specific facts and circumstances. Questions about this Policy or its application should be directed to the Chief SEC Counsel, or, in their absence, the Company's General Counsel or Chief Financial Officer.

AMERICAN WATER

Exhibit 19.2

Personal Securities Trading and Preclearance Practice

Functional Owner: VP, Chief SEC Counsel & Secretary **Last Updated: December 9, 2025**

I. PURPOSE

This Practice has been adopted in connection with the Insider Trading and Prohibited Transactions Policy and sets forth requirements with respect to limitations on and the preclearance of transactions governed by that Policy.

Section VIII contains a list of definitions covering capitalized terms used in this Practice. Other capitalized terms not otherwise defined in this Practice have the meanings given to them in the Policy.

II. SCOPE

This Practice:

- establishes the use of trading windows and preclearance procedures with respect to transactions in Company Securities by members of the Preclearance Group;
- establishes certain practices with respect to Rule 10b5-1 plans; and
- describes SEC reporting requirements for Affiliates in connection with transactions in Company Securities.

III. TRADING WINDOWS

A member of the Preclearance Group may engage in transactions in Company Securities only during an open trading window. Covered transactions under the Policy are subject to this Practice. The Company maintains trading and other restrictions on accounts containing Company Securities related to the Company's equity plans, and may take additional actions deemed necessary or desirable to enforce the Policy and this Practice.

Opening of a Trading Window

A trading window generally opens at 9:30 a.m. ET on the trading day immediately following the expiration of two full trading days after the public release of the Company's earnings with respect to a completed fiscal period. The Chief SEC Counsel or their designee issues an email to Affiliates and Restricted Individuals informing them of the expected date of the opening of the trading window and, as noted below, in any changes to that opening date. Below are examples of the operation of this general rule with respect to the opening of the trading window:

Example 1: The Company releases for the first time its fiscal year-end earnings at 4:45 p.m. ET on Tuesday, February 21, 2017 (after the close of that day's trading). The trading window will open on Friday, February 24, 2017, at 9:30 a.m. ET.

Example 2: The Company releases for the first time its fiscal quarter earnings at 6:30 a.m. ET on Wednesday, May 3, 2017 (before the open of that day's trading). The trading window will open on Friday, May 5, 2017, at 9:30 a.m. ET.

Closing of a Trading Window

Once opened, a trading window generally closes at 4:00 p.m. ET on the later of (1) the second trading day of the last month of the fiscal quarter in which the trading window is opened, or (2) the fourth trading day after the trading window's opening day, unless it is closed earlier or as otherwise determined by the Company's General Counsel or the Company's Chief Financial Officer. Stated another way, unless closed earlier, the trading window will generally remain open for a minimum of five trading days. The Chief SEC Counsel or their designee issues an email to Affiliates and Restricted Individuals informing them of the expected date of the closing of the trading window and, as noted below, in any changes to the closing date. Below are examples of the operation of this general rule with respect to the closing of the trading window:

Example 1: If a trading window opens on Friday, February 24, 2017, at 9:30 a.m. ET, and assuming the window is not closed earlier, the trading window will close on Thursday, March 2, 2017, at 4:00 p.m. ET. This is an example of a trading window that closes as described in clause (2) above.

Example 2: If a trading window opens on Friday, May 5, 2017, at 9:30 a.m. ET., and assuming the window is not closed earlier, the trading window will close on Friday, June 2, 2017, at 4:00 p.m. ET. This is an example of a trading window that closes as described in clause (1) above.

Changes to Window Period Opening and Closing Dates

The Company may delay the opening of a trading window, determine not to open a trading window, or shorten or extend the length of any open trading window, at any time, and from time to time, if the Company believes that effecting transactions in Company Securities by any or all of the members of the Preclearance Group would be inappropriate or impermissible due to material developments at the Company or other developments that could become material. Any such decision will be made by the General Counsel or the Chief Financial Officer, in consultation with the Chief SEC Counsel.

If the opening of a trading window is delayed, the trading window would still close as described under "Closing of a Trading Window" above, unless it is extended.

The Chief SEC Counsel or their designee notifies Affiliates and Restricted Individuals regarding changes in the trading window opening and closing dates. However, the reason for the change may not be disclosed and, if the reason is known by an Affiliate or Restricted Individual, that person must not disclose the reason to any other person, except for disclosures permitted under the Company's Code of Ethics with respect to confidential information for persons who have a legitimate business reason to know the information. A trading window may not be opened, may close early, or may be extended, as to any or all of the members of the Preclearance Group.

IV. PRECLEARANCE PROCEDURES

All members of the Preclearance Group must preclear their transactions in Company Securities at any time, even during an open trading window. Preclearance means that, before the transaction may be effected, the transaction must be reviewed and approved by the Chief SEC Counsel, or in the absence of the Chief SEC Counsel, the General Counsel or Chief Financial Officer.

A request for preclearance should be submitted in writing by the Affiliate or Restricted Individual to the Chief SEC Counsel or their designee, or in the absence of the Chief SEC Counsel, to the General Counsel or Chief Financial Officer. Affiliates and Restricted Individuals will receive a notice that preclearance forms may be submitted, along with the proper preclearance form. A member of the Preclearance Group may not proceed with a transaction until notice of approved is received in writing

(including by an email from the Company's stock plan administrator). Any such approval will be valid only until the closing of the trading window, unless notice is given otherwise.

A transaction may be disapproved for many reasons. If the transaction has been disapproved, the circumstances of that decision may be disclosed to the person requesting preclearance. Unless the requester has been permitted to do so, the requester may not discuss the reasons for disapproval with anyone else.

V. DESIGNATED RESTRICTED INDIVIDUALS

From time to time, the Company may determine to limit the ability of persons who are not Restricted Individuals, or to further limit the ability of Restricted Individuals, to engage in transactions in American Water securities. In each case, such persons will be referred to hereunder as "Designated Restricted Individuals," and such persons will be prohibited or restricted, in whole or in part, and on a temporary or permanent basis, from engaging in transactions in Company Securities, depending on the specific circumstances.

Example 1: Individuals who are not Restricted Individuals may receive non-public information about the Company's financial results on a conference call and are told that they cannot engage in transactions in Company Securities until two full trading days have elapsed after the information is disclosed publicly. Such persons shall be considered Designated Restricted Individuals for purposes of this Practice.

Example 2: Individuals, some of whom are Restricted Individuals, working on a significant pending acquisition may be instructed that they cannot engage in any transactions in Company Securities, including during any open window period, until further notice. Such Persons shall be considered Designated Restricted Individuals for purpose of this Practice.

To the extent that instructions are given to a person who is already a Restricted Individual, and the Restricted Person is told to restrict transactions in Company Securities beyond the restrictions contained in this Practice, the Designated Restricted Individual must comply with those stricter restrictions until further notice, even if they would have otherwise been permitted to effect a transaction under this Practice.

VI. REPORTING OF TRANSACTIONS BY AFFILIATES

Affiliates must file certain reports with the SEC and New York Stock Exchange disclosing their beneficial holdings of Company Securities and any changes in those holdings. The Chief SEC Counsel and their designee will provide reasonable assistance to Affiliates who are employees of the Company or members of the Board of Directors to help them complete those filings. **However, in any event, the responsibility for complying with the Securities Laws with respect to transactions in Company Securities rests solely with the Affiliate**.

Rule 144

An Affiliate engaging in open-market sales of Company Securities must comply with Rule 144 of the Securities Act of 1933, including any obligation to file a Form 144. A Form 144 is required when a sale exceeds a specified number of shares or dollar amount of securities. The Affiliate should inform the broker handling the sale of Company Securities that a Rule 144 sale is being made and that a Form 144 should be filed with the SEC and New York Stock Exchange when the order to sell is placed. If necessary, the Chief SEC Counsel or their designee can provide reasonable assistance to Affiliates who are employees of the Company or members of the Board of Directors and their brokers with respect to this filing.

Section 16

If you are an Affiliate and you effect any transaction in Company Securities, including pursuant to a Rule 10b5-1 Plan, you (or, in the case of the Rule 10b5-1 plan transaction, the broker administering the plan) must immediately report the transaction to the Chief SEC Counsel or their designee, or in the absence of the Chief SEC Counsel, the General Counsel or Chief Financial Officer. You will be required to complete and file forms with the SEC and the New York Stock Exchange under Section 16 of the Securities Exchange Act of 1934 to report these transactions, generally within two business days after the date of the transaction. The Chief SEC Counsel and their designee will provide reasonable assistance to any Affiliate who is an employee of the Company or a member of the Board of Directors with respect to the obligation to file these forms.

VII. RULE 10B5-1 TRADING PLANS

The Policy describes Rule 10b5-1 trading plans and the requirements for implementing such a plan, or amending or terminating an existing Rule 10b5-1 plan. With respect to persons who are not Affiliates, a copy of the Rule 10b5-1 plan or any amendment thereof must be provided to the Chief SEC Counsel for review and approval at least ten business days prior to entry into such plan or amendment. Affiliates must generally provide greater advance notice to permit review of the Affiliate's Rule 10b5-1 plan and approval as required under the Policy. You may enter into, amend or terminate a Rule 10b5-1 plan only at a time when you are not aware of material non-public information, and if you are a Preclearance Group member, only during an open trading window. Transactions effected pursuant to an approved Rule 10b5-1 plan will not require further preclearance at the time of the transaction.

The Rule 10b5-1 plan must either specify the amount, pricing and timing of transactions in advance or delegate discretion on these matters to an independent third party. Once a Rule 10b5-1 plan is adopted, the person must not exercise any influence over the amount of securities to be traded, the price at which they are to be traded, or the date of the trade.

VIII. DEFINITIONS

The following capitalized terms used in this Practice have the meanings set forth below:

- Affiliates – (1) Any director of American Water, and (2) any person who has been designated by the Board of Directors of American Water as an executive officer of American Water for purposes of the U.S. Securities Laws.
- American Water or the Company – American Water Works Company, Inc., not including its subsidiaries.
- Designated Restricted Individuals – Any person who the Chief Executive Officer, the Chief Financial Officer, the General Counsel, or the Chief SEC Counsel may determine to be a Restricted Individual, either on a temporary or permanent basis, and under such conditions or restrictions from engaging in transactions in Company Securities that are to be determined by such person to be warranted based on the circumstances.
- Preclearance Group – The Preclearance Group is comprised of:
  - Affiliates;
  - Restricted Individuals; and
  - Family Members and Controlled Entities of any of the foregoing persons.

- Restricted Individuals – Employees of the Company or any of its subsidiaries, other than Affiliates, who, in the normal course of their duties, have regular access to material non-public information about the Company, and each of whom has been notified by the Chief SEC Counsel or their designee that the employee is a "Restricted Individual." A determination as to whether, and for how long, a former Affiliate or employee may continue to remain subject to the Policy and this Practice is to be made by the Chief SEC Counsel, after consultation with the General Counsel and/or the Chief Financial Officer.

IX. WAIVERS; MODIFICATIONS

Exceptions to this Practice may be made only by the written approval of the General Counsel, after consultation with the Chief SEC Counsel. The Company reserves the right to amend or rescind this Practice or any portion of it at any time and to adopt additional or different practices, policies and procedures at any time.

X. NON-COMPLIANCE

Any Covered Person who violates or circumvents this Practice may be subject to disciplinary action, up to and including termination of employment or service. Additionally, any Covered Person or member of the Preclearance Group who purchases or sells Company Securities based on material non-public information regarding the Company may be criminally liable under provisions of Securities Laws prohibiting insider trading. Civil and other penalties are also recoverable in private lawsuits or by the SEC against Covered Persons or Preclearance Group members who engage in and profit from short swing trades.

XI. QUESTIONS

If you have any questions about this Practice, contact the Chief SEC Counsel or their designee.

Exhibit 31.1

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER

I, John C. Griffith, certify that:

1. I have reviewed this annual report on Form 10-K of American Water Works Company, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

I, David M. Bowler, Executive Vice President and Chief Financial Officer of American Water Works Company, Inc. (the "Company"), hereby certify that, based on my knowledge:

(1) The Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2025 (the "Report") fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended; and

(2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

By: /s/ DAVID M. BOWLER

David M. Bowler
Executive Vice President and Chief Financial Officer

Throughout this Quarterly Report on Form 10-Q ("Form 10-Q"), unless the context otherwise requires, references to the "Company" and "American Water" mean American Water Works Company, Inc. and all of its subsidiaries, taken together as a whole. References to the "parent company" mean American Water Works Company, Inc., without its subsidiaries.

The Company maintains a website at *https://amwater.com* and an Investor Relations website at *https://ir.amwater.com*. Information contained on the Company's websites shall not be deemed incorporated into, or to be a part of, this report, and any website references included herein are not intended to be made through active hyperlinks.

FORWARD-LOOKING STATEMENTS

Statements included in Part I, Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations and in other sections of this Form 10-Q are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as "intend," "plan," "estimate," "believe," "anticipate," "expect," "predict," "project," "propose," "assume," "forecast," "likely," "uncertain," "outlook," "future," "pending," "goal," "objective," "potential," "continue," "seek to," "may," "can," "should," "will" and "could" or the negative of such terms or other variations or similar expressions. Forward-looking statements may relate to, among other things: the Company's future financial performance, liquidity and cash flows; the timing and amount of rate and revenue adjustments, including through general rate case filings, filings for infrastructure surcharges and other governmental agency authorizations and proceedings, and filings to address regulatory lag; the Company's ability to execute its current and long-term business, operational, capital expenditures and growth plans and strategies; the timing and outcome of pending or future acquisition activity, and the ability to achieve organic customer growth; the ability of the Company's California subsidiary to obtain adequate alternative water supplies in lieu of diversions from the Carmel River; the amount, allocation and timing of projected capital expenditures and related funding requirements; the Company's ability to repay or refinance debt; the future impacts of increased or increasing financing costs, inflation and interest rates; the Company's ability to finance current and projected operations, capital expenditure needs and growth initiatives by accessing the debt and equity capital markets and sources of short-term liquidity; the outcome and impact on the Company of governmental and regulatory investigations, class action lawsuits, and other litigation and legal proceedings, and related potential fines, penalties and other sanctions; the ability to meet or exceed the Company's stated environmental and sustainability goals, including its greenhouse gas ("GHG") emission reduction, water delivery efficiency and water system resiliency goals; the ability to complete, and the timing and efficacy of, the design, development, implementation and improvement of technology and other strategic initiatives; the Company's ability to comply with new and changing environmental regulations; the ability to capitalize on existing or future utility privatization opportunities; trends in the water and wastewater industries in which the Company operates, including macro trends with respect to the Company's efforts and projects related to customer, technology and work efficiency and execution; regulatory, legislative, tax policy or legal developments; and impacts that future significant tax legislation may have on the Company and on its business, results of operations, cash flows and liquidity.

Forward-looking statements are predictions based on the Company's current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results, levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. These forward-looking statements are subject to a number of estimates, assumptions, known and unknown risks, uncertainties and other factors. The Company's actual results may vary materially from those discussed in the forward-looking statements included herein as a result of the following important factors:

- the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates;
- the timeliness and outcome of regulatory commissions' and other authorities' actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions;
- changes in customer demand for, and patterns of use of, water and energy, such as may result from conservation efforts, or otherwise;
- limitations on the availability of the Company's water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors;
- a loss of one or more large industrial or commercial customers due to adverse economic conditions or other factors;
- present and future proposed changes in laws, governmental regulations and policies, including with respect to the environment (such as, for example, potential improvements or changes to existing Federal regulations with respect to lead and copper service lines and galvanized steel pipe), health and safety, data and consumer privacy, security and protection, water quality and water quality accountability, contaminants of emerging concern (including without limitation per- and polyfluoroalkyl substances (collectively, "PFAS")), public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations;
- the Company's ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulations and policies with respect to data and consumer privacy, security and protection;
- weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares;
- the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions;

- the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of or maintain, update, redesign and/or replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses;
- exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means, and impacts from required or voluntary public and other disclosures, as well as civil class action and other litigation or legal, regulatory or administrative proceedings, related thereto;
- the Company's ability to obtain permits and other approvals for projects and construction, update, redesign and/or replacement of various water and wastewater facilities;
- changes in the Company's capital requirements;
- the Company's ability to control operating expenses and to achieve operating efficiencies, and the Company's ability to create, maintain and promote initiatives and programs that support the affordability of the Company's regulated utility services;
- the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers;
- the Company's ability to obtain and have delivered adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, power and other fuel, water and other raw materials, and to address or mitigate supply chain constraints that may result in delays or shortages in, as well as increased costs of, supplies, products and materials that are critical to or used in the Company's business operations;
- the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to:
    - acquiring, closing and successfully integrating regulated operations, including without limitation the Company's ability to (i) obtain required regulatory approvals for such acquisitions, (ii) prevail in litigation or other challenges related to such acquisitions, and (iii) recover in rates the fair value of assets of the acquired regulated operations;
    - the Company's Military Services Group ("MSG") entering into new military installation contracts, price redeterminations, and other agreements and contracts, with the U.S. government; and
    - realizing anticipated benefits and synergies from new acquisitions;
- risks and uncertainties following the completion of the sale of the Company's Homeowner Services Group ("HOS"), including:
    - the Company's ability to receive amounts due, payable and owing to the Company under the amended secured seller note when due; and
    - the ability of the Company to redeploy successfully and timely the net proceeds of this transaction into the Company's Regulated Businesses;
- risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement, security and cybersecurity regulations;
- cost overruns relating to improvements in or the expansion of the Company's operations;
- the Company's ability to successfully develop and implement new technologies and to protect related intellectual property;
- the Company's ability to maintain safe work sites;
- the Company's exposure to liabilities related to environmental laws and regulations, including those enacted or adopted and under consideration, and the substances related thereto, including without limitation copper, lead and galvanized steel, PFAS and other contaminants of emerging concern, and similar matters resulting from, among other things, water and wastewater service provided to customers;
- the ability of energy providers, state governments and other third parties to achieve or fulfill their GHG emission reduction goals, including without limitation through stated renewable portfolio standards and carbon transition plans;
- changes in general economic, political, business and financial market conditions;
- access to sufficient debt and/or equity capital on satisfactory terms and as needed to support operations and capital expenditures;
- fluctuations in inflation or interest rates, and the Company's ability to address or mitigate the impacts thereof;
- the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions;

- fluctuations in the value of, or assumptions and estimates related to, its benefit plan assets and liabilities, including with respect to its pension and other post-retirement benefit plans, that could increase expenses and plan funding requirements;
- changes in federal or state general, income and other tax laws, including (i) future significant tax legislation or regulations (including without limitation impacts related to the Corporate Alternative Minimum Tax), and (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs;
- migration of customers into or out of the Company's service territories and changes in water and energy consumption resulting therefrom;
- the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, including without limitation litigation and other proceedings with respect to the water system assets of the Company's California subsidiary ("Cal Am") located in Monterey, California (the "Monterey system assets"), or the assertion by private landowners of similar rights against such utility subsidiaries;
- any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained;
- the incurrence of impairment charges, changes in fair value and other adjustments related to the Company's goodwill or the value of its other assets;
- labor actions, including work stoppages and strikes;
- the Company's ability to retain and attract highly qualified and skilled employees and talent;
- civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and
- the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above, and the risk factors and other statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2024 (the "Form 10-K") and in this Form 10-Q, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements the Company makes shall speak only as of the date this Form 10-Q was filed with the U.S. Securities and Exchange Commission ("SEC"). Except as required by the federal securities laws, the Company does not have any obligation, and it specifically disclaims any undertaking or intention, to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances or otherwise. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

American Water Works Company, Inc. and Subsidiary Companies
Notes to Consolidated Financial Statements (Unaudited)
(Unless otherwise noted, in millions, except per share data)

Note 1: Basis of Presentation

The unaudited Consolidated Financial Statements included in this report include the accounts of American Water Works Company, Inc. and all of its subsidiaries (the "Company" or "American Water"), in which a controlling interest is maintained after the elimination of intercompany balances and transactions. The financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") for interim financial reporting, and the rules and regulations for reporting on Quarterly Reports on Form 10-Q ("Form 10-Q"). Accordingly, they do not contain certain information and disclosures required by GAAP for comprehensive financial statements. In the opinion of management, all adjustments necessary for a fair statement of the financial position as of March 31, 2025, and the results of operations and cash flows for all periods presented, have been made. All adjustments are of a normal, recurring nature, except as otherwise disclosed.

The unaudited Consolidated Financial Statements and Notes included in this report should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2024 ("Form 10-K"), which provides a more complete discussion of the Company's accounting policies, financial position, operating results and other matters. The results of operations for interim periods are not necessarily indicative of the results that may be expected for the year, primarily due to the seasonality of the Company's operations.

Note 2: Significant Accounting Policies

New Accounting Standards

Presented in the table below are recently issued accounting standards that have not yet been adopted by the Company as of March 31, 2025:

Standard	Description	Date of Adoption	Application	Effect on the Consolidated Financial Statements
Income Taxes	The guidance in this standard requires disclosure of a tax rate reconciliation table, in both percentages and reporting currency amounts, which includes additional categories of information about federal, state, and foreign income taxes and provides further details about reconciling items in certain categories that meet a quantitative threshold. The guidance also requires an annual disclosure of income taxes paid, net of refunds, disaggregated by federal, state, and foreign taxes paid, and further disaggregated by jurisdiction based on a quantitative threshold. The standard includes other disclosure requirements and eliminates certain existing disclosure requirements.	Annual periods beginning after December 15, 2024	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements.
Income Statement Disaggregation	The guidance in this standard enhances disclosures related to income statement expenses to further disaggregate expenses in the footnotes to the financial statements. The standard requires disaggregation of any relevant expense caption presented on the face of the income statement that contains the following expense categories: purchases of inventory, employee compensation, depreciation, intangible asset amortization, and depletion. Further, the standard requires disclosure of the total amount and the entity's definition of selling expenses.	Annual periods beginning after December 15, 2026 and interim periods within fiscal years beginning after December 15, 2027	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.
Induced Conversions of Convertible Debt Instruments	The guidance in this standard clarifies the requirements for determining whether to account for certain settlements of convertible debt instruments as induced conversions or extinguishments. The guidance requires an entity to account for a settlement as an induced conversion if the inducement offer includes the issuance of all of the consideration issuable under the conversion privileges provided in the terms of the existing convertible debt instrument.	Annual periods beginning after December 15, 2025 and interim reporting period within those annual reporting periods	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.

Property, Plant and Equipment

The New Jersey Economic Development Authority ("NJEDA") determined that the Company was qualified to receive $161 million in tax credits in connection with its capital investment in its corporate headquarters in Camden, New Jersey. The Company was qualified to receive the tax credits over a 10-year period commencing in 2019.

In the first quarter of 2024, the NJEDA issued the utilization certificate for the 2021 tax credits to the Company in the amount of $16 million. The Company sold the tax credits to an external party for $15 million. As of March 31, 2025, the Company had current assets of $15 million included in Other and $75 million of long-term assets included in Other on the Consolidated Balance Sheets for the 2023 through 2028 tax credits. As of December 31, 2024, the Company had no current assets and $90 million of long-term assets included in Other on the Consolidated Balance Sheets for the 2023 through 2028 tax credits. The Company has made the necessary annual filings for the years ended December 31, 2024 and 2023. The submitted filings are under review by the NJEDA and it is expected that the Company will receive final NJEDA approval and monetize the 2023 tax credits in 2025 and the 2024 tax credits in 2026.

Cash, Cash Equivalents and Restricted Funds

Presented in the table below is a reconciliation of the cash and cash equivalents and restricted funds amounts as presented on the Consolidated Balance Sheets to the sum of such amounts presented on the Consolidated Statements of Cash Flows for the periods ended March 31:

	2025	2024
Cash and cash equivalents	$ 114	$ 584
Restricted funds	18	42
Restricted funds included in other long-term assets	25	—
Cash, cash equivalents and restricted funds as presented on the Consolidated Statements of Cash Flows	$ 157	$ 626

Allowance for Uncollectible Accounts

Allowances for uncollectible accounts are maintained for estimated probable losses resulting from the Company's inability to collect receivables from customers. Accounts that are outstanding longer than the payment terms are considered past due. A number of factors are considered in determining the allowance for uncollectible accounts, including the length of time receivables are past due, previous loss history, current economic and societal conditions and reasonable and supportable forecasts that affect the collectability of receivables from customers. The Company generally writes off accounts when they become uncollectible or are over a certain number of days outstanding.

Presented in the table below are the changes in the allowance for uncollectible accounts for the three months ended March 31:

	2025	2024
Balance as of January 1	$ (53)	$ (51)
Amounts charged to expense	(10)	(5)
Amounts written off	6	7
Balance as of March 31	$ (57)	$ (49)

Reclassifications

Certain reclassifications have been made to prior periods in the Consolidated Financial Statements and Notes to conform to the current presentation.

Note 3: Regulatory Matters

General Rate Cases

The table below summarizes the annualized incremental revenues, assuming a constant sales volume and customer count, resulting from general rate case authorizations that became effective during 2025. The amounts include reductions for the amortization of the excess accumulated deferred income taxes ("EADIT") that are generally offset in income tax expense.

	Effective Date	Amount
General rate cases by state:		
Virginia	February 24, 2025 (a)	$ 15
Tennessee	January 21, 2025	1
California, Step Increase	January 1, 2025	17
Illinois	January 1, 2025	105
Total general rate case authorizations		$ 138

(a) Interim rates were effective May 1, 2024, and the difference between interim and final approved rates were subject to refund. The Virginia State Corporation Commission issued its final order on February 24, 2025.

On February 24, 2025, the Virginia State Corporation Commission issued an order approving the September 19, 2024, joint "black box" settlement of the general rate case filed by the Company's Virginia subsidiary. The general rate case order approves the stipulated $15 million annualized increase in water and wastewater revenues. Interim water and wastewater rates became effective May 1, 2024, with the difference between interim and final approved rates subject to refund. The requested annualized revenue increase was driven primarily by more than $110 million of incremental capital investments made and to be made between May 2023 and April 2025. For purposes of the general rate case, the Virginia subsidiary's view of its rate base is $369 million. The general rate case order also approved, solely for purposes of the Virginia subsidiary's future filings requiring a stated cost of capital and/or capital structure (including its annual information and water and wastewater infrastructure surcharge filings), a return on equity of 9.70% and a capital structure consisting of an equity component of 45.67% and a debt and other component of 54.33%, which also represents the Virginia subsidiary's view of its return on equity and capital structure in this general rate case.

On January 21, 2025, the Tennessee Public Utility Commission (the "TPUC") approved a motion authorizing an adjustment of water base rates requested in a rate case filed on May 1, 2024, by the Company's Tennessee subsidiary. The TPUC approved an increase of $1 million in annualized revenues, excluding previously recovered infrastructure surcharges of $18 million, based on an authorized return on equity of 9.70%, authorized rate base of approximately $300 million, a common equity ratio of 44.19% and a debt ratio of 55.81%. This adjustment took effect on January 21, 2025, and is driven primarily by approximately $173 million in capital investments made and to be made by the Tennessee subsidiary through December 2025.

On January 14, 2025, the California Public Utilities Commission ("CPUC") granted the Company's California subsidiary's request for a one-year extension of its cost of capital filing to May 1, 2026, to set its authorized cost of capital beginning January 1, 2027, and maintain its current authorized cost of capital through 2026.

On December 5, 2024, the Illinois Commerce Commission issued a final order approving the adjustment of base rates requested in a rate case originally filed on January 25, 2024, by the Company's Illinois subsidiary. The general rate case order approved an increase of $105 million in annualized water and wastewater system revenues, excluding previously recovered infrastructure surcharges of $5 million, based on an authorized return on equity of 9.84%, authorized rate base of $2.2 billion, and a capital structure with an equity component of 49.00% and a debt component of 51.00%. The general rate case order denied the second step increase of $16 million. The increase was effective January 1, 2025, and is driven primarily by approximately $557 million in capital investments made and to be made by the Illinois subsidiary from January 2024 through December 2025.

On December 5, 2024, the CPUC approved a final decision adopting the terms of a partial settlement agreement filed on November 17, 2023, in the Company's California subsidiary's general rate case originally filed on July 1, 2022. Incorporating the then currently effective return on equity of 10.20%, the decision provides incremental annualized water and wastewater revenues of $21 million in the 2024 test year, and an estimated $16 million in the 2025 escalation year and $16 million in the 2026 attrition year. The 2024 rates were implemented retroactively to January 1, 2024. In addition, the CPUC denied the California subsidiary's proposed Water Resources Sustainability Plan decoupling mechanism but approved continuation of its currently effective Annual Consumption Adjustment Mechanism. On December 12, 2024, the California subsidiary filed an application for rehearing of the CPUC's denial of the proposed Water Resources Sustainability Plan decoupling mechanism.

Pending General Rate Case Filings

On August 2, 2024, the Company's Hawaii subsidiary filed a general rate case requesting approximately $2 million in annualized incremental revenues, which is based on a proposed return on equity of 10.67% and a capital structure with an equity component of 52.11% and debt component of 47.89%. The requested annualized incremental revenue is driven primarily by approximately $41 million in capital investments made and to be made by the Hawaii subsidiary through 2025. On April 25, 2025, the Hawaii subsidiary filed with the Hawaii Public Utilities Commission (the "HPUC") a partial settlement, reached with the Division of Consumer Advocacy, in its general rate case. The partial settlement agrees to an annualized increase of approximately $1 million in wastewater revenue, which is based on a return on equity of 9.75% and a capital structure with an equity component of 52.11% and a debt component of 47.89%. The settlement remains subject to HPUC review and approval and the Hawaii subsidiary expects a decision mid-year in 2025.

On July 1, 2024, the Company's Missouri subsidiary filed a general rate case requesting approximately $148 million in annualized incremental revenues. The original request was based on a return on equity of 10.75% and a capital structure with an equity component of 50.54% and a long-term debt component of 49.46%, and was driven primarily by $1.5 billion of incremental capital investments completed and planned by the Missouri subsidiary from January 2023 through May 2026. On July 31, 2024, the Missouri Public Service Commission (the "MoPSC") issued an order establishing the test year in this case, which modified the Missouri subsidiary's original proposal for a future test year through May 2026, and instead reverted to a true-up period through December 31, 2024, with an allowance for proposed discrete adjustments subsequent to that date. On September 6, 2024, the Missouri subsidiary filed supplemental testimony to revise the request to approximately $123 million in annualized incremental revenues (excluding infrastructure surcharges) and to define the specific discrete adjustments proposed through the rate effective period, which lowered the incremental capital investments completed and planned to $1.1 billion through May 2025. In February 2025, the Missouri subsidiary filed an additional request for recovery of defined infrastructure investments, which adjusted the infrastructure surcharges to $63 million, and, in turn, decreased the amount of incremental annualized revenue (excluding such infrastructure surcharges) to approximately $107 million. On March 17, 2025, the Missouri subsidiary entered into a stipulation and agreement (the "Stipulation") with, among other parties, the staff of the MoPSC and the Office of the Public Counsel, as to an annualized increase of approximately $63 million in water and wastewater revenues, excluding $63 million in infrastructure surcharges. The Stipulation is subject to review and approval by the MoPSC, which is anticipated in the second quarter of 2025, and, if approved, new rates are expected to be effective by May 31, 2025.

On May 1, 2024, the Company's Iowa subsidiary filed a general rate case requesting approximately $21 million in additional annualized revenues, which is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 52.57% and debt component of 47.43%. The requested annualized revenue increase is driven primarily by approximately $157 million in capital investments made and to be made by the Iowa subsidiary through March 2026. Interim rates became effective May 11, 2024, with the difference between interim and final approved rates subject to refund. On August 29, 2024, the Iowa subsidiary submitted supplemental testimony consistent with the procedural schedule, which was subsequently challenged by the parties in the proceeding. On October 4, 2024, the Iowa Utilities Commission issued an order that granted the inclusion of the supplemental filing and extended the procedural schedule in the case beyond the statutory ten-month period. The Iowa subsidiary expects resolution of this proceeding by the end of May 2025.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective during 2025:

	Effective Date	Amount
Infrastructure surcharges by state:		
Missouri	February 7, 2025	$ 17
Kentucky	January 1, 2025	2
West Virginia	January 1, 2025	4
Total infrastructure surcharge authorizations		$ 23

Pending Infrastructure Surcharge Filings

On April 15, 2025, the Company's New Jersey subsidiary filed an infrastructure surcharge proceeding requesting $15 million in additional annualized revenues.

Note 4: Revenue Recognition

Disaggregated Revenues

The Company's primary business involves the ownership of utilities that provide water and wastewater services to residential, commercial, industrial, public authority, fire service and sale for resale customers, collectively presented as the "Regulated Businesses." The Company also operates other businesses that provide water and wastewater services to the U.S. government on military installations, as well as municipalities, collectively presented throughout this Form 10-Q within "Other."

Presented in the table below are operating revenues disaggregated for the three months ended March 31, 2025:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	$ 560	$ —	$ 560
Commercial	212	—	212
Fire service	45	—	45
Industrial	45	—	45
Public and other	67	—	67
Total water services	929	—	929
Wastewater services:			
Residential	68	—	68
Commercial	18	—	18
Industrial	5	—	5
Public and other	10	—	10
Total wastewater services	101	—	101
Miscellaneous utility charges	11	—	11
Alternative revenue programs	—	6	6
Lease contract revenue	—	2	2
Total Regulated Businesses	1,041	8	1,049
Other	93	—	93
Total operating revenues	$ 1,134	$ 8	$ 1,142

(a) Includes revenues associated with alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of ASC 606, and accounted for under other existing GAAP.

Presented in the table below are operating revenues disaggregated for the three months ended March 31, 2024:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	$ 502	$ 2	$ 504
Commercial	186	1	187
Fire service	41	—	41
Industrial	42	—	42
Public and other	55	1	56
Total water services	826	4	830
Wastewater services:			
Residential	59	—	59
Commercial	16	—	16
Industrial	2	—	2
Public and other	8	—	8
Total wastewater services	85	—	85
Miscellaneous utility charges	9	—	9
Alternative revenue programs	—	2	2
Lease contract revenue	—	2	2
Total Regulated Businesses	920	8	928
Other	83	—	83
Total operating revenues	$ 1,003	$ 8	$ 1,011

(a) Includes revenues associated with provisional rates, alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of ASC 606, and accounted for under other existing GAAP.

Contract Balances

Contract assets and contract liabilities are the result of timing differences between revenue recognition, billings, and cash collections. In the Company's Military Services Group ("MSG"), certain contracts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals or upon achievement of contractual milestones. Contract assets are recorded when billing occurs subsequent to revenue recognition and are reclassified to accounts receivable when billed and the right to consideration becomes unconditional. Contract liabilities are recorded when the Company receives advances from customers prior to satisfying contractual performance obligations, particularly for construction contracts, and are recognized as revenue when the associated performance obligations are satisfied.

Contract assets of $103 million and $84 million are included in unbilled revenues on the Consolidated Balance Sheets as of March 31, 2025, and December 31, 2024, respectively. Also, contract assets of $36 million and $39 million are included in other long-term assets on the Consolidated Balance Sheets as of March 31, 2025, and December 31, 2024, respectively. Contract liabilities of $29 million and $40 million are included in other current liabilities on the Consolidated Balance Sheets as of March 31, 2025, and December 31, 2024, respectively. Also, contract liabilities of $25 million and $14 million are included in other long-term liabilities on the Consolidated Balance Sheets as of March 31, 2025, and December 31, 2024, respectively. Revenues recognized for the three months ended March 31, 2025 and 2024, from amounts included in contract liabilities were $22 million and $21 million, respectively.

Remaining Performance Obligations

Remaining performance obligations ("RPOs") represent revenues the Company expects to recognize in the future from contracts that are in progress. The Company enters into agreements for the provision of services to water and wastewater facilities for the U.S. military, municipalities and other customers. As of March 31, 2025, the Company's operation and maintenance ("O&M") and capital improvement contracts have RPOs. Contracts with the U.S. government for work on various military installations expire between 2051 and 2073 and have RPOs of $7.4 billion as of March 31, 2025, as measured by estimated remaining contract revenue. Such contracts are subject to customary termination provisions held by the U.S. government, prior to the agreed-upon contract expiration. Contracts with municipalities and commercial customers expire between 2026 and 2038 and have RPOs of $585 million as of March 31, 2025, as measured by estimated remaining contract revenue.

Note 5: Acquisitions and Divestitures

Regulated Businesses

Closed Acquisitions

During the three months ended March 31, 2025, the Company closed one asset acquisition of a regulated water system for a purchase price of $2 million, which added approximately 300 water customers. Assets acquired from this acquisition, utility plant, totaled $2 million.

The pro forma impact of the Company's acquisitions was not material to the Consolidated Statements of Operations for the periods ended March 31, 2025 and 2024.

Secured Seller Promissory Note from the Sale of Homeowner Services Group

On December 9, 2021 (the "Closing Date"), the Company sold all of the equity interests in subsidiaries that comprised the Homeowner Services Group ("HOS") to a wholly owned subsidiary (the "Buyer") of funds advised by Apax Partners LLP, a global private equity advisory firm, for total consideration of approximately $1.275 billion. The outstanding consideration as of March 31, 2025, is a secured seller note payable in cash and issued by the Buyer in the principal amount of $795 million, with an interest rate of 10.00% per year. The Company recognized $20 million and $17 million of interest income during the three months ended March 31, 2025 and 2024, respectively, from the secured seller note. The final maturity date of the secured seller note is December 9, 2026.

The secured seller note may not be repaid at the Buyer's election (except in certain limited circumstances) before the fourth anniversary of the Closing Date. If the Buyer seeks to repay the secured seller note in breach of this non-call provision, an event of default will occur under the secured seller note and the Company may, among other actions, demand repayment in full together with a premium of 105.5% of the outstanding principal amount of the loan and a customary "make-whole" payment.

Note 6: Shareholders' Equity

Accumulated Other Comprehensive Loss

Presented in the table below are the changes in accumulated other comprehensive loss by component, net of tax, for the three months ended March 31, 2025 and 2024, respectively:

	Defined Benefit Pension Plans					
	Employee Benefit Plan Funded Status	Amortization of Prior Service Cost	Amortization of Actuarial Loss	Gain (Loss) on Cash Flow Hedges	Gain (Loss) on Fixed-Income Securities	Accumulated Other Comprehensive Income (Loss)
Balance as of December 31, 2024	$ (95)	$ 1	$ 74	$ 30	$ 2	$ 12
Other comprehensive income (loss) before reclassifications	—	—	—	(8)	2	(6)
Amounts reclassified from accumulated other comprehensive income (loss)	—	—	—	—	(4)	(4)
Net other comprehensive loss	—	—	—	(8)	(2)	(10)
Balance as of March 31, 2025	$ (95)	$ 1	$ 74	$ 22	$ —	$ 2
Balance as of December 31, 2023	$ (96)	$ 1	$ 74	$ (9)	$ 4	$ (26)
Other comprehensive income (loss) before reclassifications	—	—	—	19	(1)	18
Net other comprehensive income (loss)	—	—	—	19	(1)	18
Balance as of March 31, 2024	$ (96)	$ 1	$ 74	$ 10	$ 3	$ (8)

The Company does not reclassify the amortization of defined benefit pension cost components from accumulated other comprehensive income (loss) directly to net income in its entirety, as a portion of these costs have been deferred as a regulatory asset. These accumulated other comprehensive income (loss) components are included in the computation of net periodic pension cost.

The amortization of the gain (loss) on cash flow hedges is reclassified to net income during the period incurred and is included in Interest expense in the accompanying Consolidated Statements of Operations.

An unrealized gain (loss) on available-for-sale fixed-income securities is reclassified to net income upon sale of the securities as a realized gain or loss and is included in Other, net in the accompanying Consolidated Statements of Operations.

Dividends

On March 4, 2025, the Company paid a quarterly cash dividend of $0.7650 per share to shareholders of record as of February 7, 2025.

On April 30, 2025, the Company's Board of Directors declared a quarterly cash dividend payment of $0.8275 per share, payable on June 3, 2025, to shareholders of record as of May 13, 2025. Future dividends, when and as declared at the discretion of the Board of Directors, will be dependent upon future earnings and cash flows, compliance with various regulatory, financial and legal requirements, and other factors. See Note 9—Shareholders' Equity in the Notes to Consolidated Financial Statements in the Company's Form 10-K for additional information regarding the payment of dividends on the Company's common stock.

Note 7: Long-Term Debt

On February 27, 2025, American Water Capital Corp. ("AWCC") completed the sale of $800 million aggregate principal amount of its 5.250% Senior Notes due 2035. At the closing of this offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $792 million. AWCC used the net proceeds of the offering (i) to lend funds to American Water and the Regulated Businesses; (ii) to repay at maturity AWCC's 3.400% Senior Notes due 2025; (iii) to repay commercial paper obligations of AWCC; and (iv) for general corporate purposes.

In addition to the notes issued by AWCC as described above, during the three months ended March 31, 2025, the Company's regulated subsidiaries issued in the aggregate $13 million of private activity bonds and government funded debt in multiple transactions with no annual interest and maturity dates ranging from 2025 through 2028. The private activity bonds and government funded debt issued by the Company's regulated subsidiaries during the three months ended March 31, 2025, were collateralized. During the three months ended March 31, 2025, AWCC and the Company's regulated subsidiaries made sinking fund payments for, or repaid at maturity, $531 million in aggregate principal amount of outstanding long-term debt, with annual interest rates ranging from 0.00% to 8.58%, a weighted average interest rate of 3.41%, and maturity dates ranging from 2025 to 2061.

As of March 31, 2025, the Company had three treasury lock agreements, with a term of 30 years and an aggregate notional amount totaling $130 million, to reduce interest rate exposure on any future debt issuances in 2025. These treasury lock agreements terminate in June 2025 and December 2025 and have an average fixed interest rate of 4.12%. The Company designated these treasury lock agreements as cash flow hedges, measured at fair value with the gain or loss recorded in accumulated other comprehensive income.

In February 2025, the Company terminated 10 treasury lock agreements designated as cash flow hedges, with a term of 10 years and an aggregate notional amount totaling $500 million, realizing a pre-tax net gain of $3 million recorded in accumulated other comprehensive income. The gain will be amortized through Interest expense over a 10-year period, in accordance with the tenor of the notes issued on February 27, 2025.

No ineffectiveness was recognized on hedging instruments for the three months ended March 31, 2025 or 2024.

On June 29, 2023, AWCC issued $1,035 million aggregate principal amount of 3.625% Exchangeable Senior Notes due 2026 (the "Notes"). AWCC received net proceeds of approximately $1,022 million, after deduction of underwriting discounts and commissions but before deduction of offering expenses payable by AWCC. A portion of the net proceeds was used to repay AWCC's commercial paper obligations and the remainder was used for general corporate purposes. The Notes will mature on June 15, 2026 (the "Maturity Date"), unless earlier exchanged or repurchased.

The Notes are exchangeable at an initial exchange rate of 5.8213 shares of parent company's common stock per $1,000 principal amount of Notes (equivalent to an initial exchange price of approximately $171.78 per share of common stock). The initial exchange rate of the Notes is subject to adjustment as provided in the indenture pursuant to which the Notes were issued (the "Note Indenture"). Prior to the close of business on the business day immediately preceding March 15, 2026, the Notes are exchangeable at the option of the noteholders only upon the satisfaction of specified conditions and during certain periods described in the Note Indenture. On or after March 15, 2026, until the close of business on the business day immediately preceding the Maturity Date, the Notes will be exchangeable at the option of the noteholders at any time regardless of these conditions or periods. Upon any exchange of the Notes, AWCC will (i) pay cash up to the aggregate principal amount of the Notes and (ii) pay or deliver (or cause to be delivered), as the case may be, cash, shares of parent company's common stock, or a combination of cash and shares of such common stock, at AWCC's election, in respect of the remainder, if any, of AWCC's exchange obligation in excess of the aggregate principal amount of the Notes being exchanged.

AWCC may not redeem the Notes prior to the Maturity Date, and no sinking fund is provided for the Notes. Subject to certain conditions, holders of the Notes will have the right to require AWCC to repurchase all or a portion of their Notes upon the occurrence of a fundamental change, as defined in the Note Indenture, at a repurchase price of 100% of their principal amount plus any accrued and unpaid interest.

Note 8: Short-Term Debt

Liquidity needs for capital investment, working capital and other financial commitments are generally funded through cash flows from operations, public and private debt offerings, issuances of commercial paper and equity and, if and to the extent necessary, borrowings under the AWCC revolving credit facility. AWCC maintains an unsecured revolving credit facility which provides $2.75 billion in aggregate total commitments from a diversified group of financial institutions. The termination date of the credit agreement with respect to AWCC's revolving credit facility is October 26, 2029. The revolving credit facility is used principally to support AWCC's commercial paper program, to provide additional liquidity support and to provide a sub-limit for the issuance of up to $150 million in letters of credit. Subject to satisfying certain conditions, the credit agreement permits AWCC to increase the maximum commitment under the facility by up to an aggregate of $500 million.

Short-term debt consists of commercial paper borrowings totaling $1.0 billion and $880 million as of March 31, 2025, and December 31, 2024, respectively, or net of discount $999 million and $879 million as of March 31, 2025, and December 31, 2024, respectively. The weighted-average interest rate on AWCC's outstanding short-term borrowings was approximately 4.63% and 4.65% at March 31, 2025, and December 31, 2024, respectively. At March 31, 2025, and December 31, 2024, AWCC had no outstanding borrowings under the revolving credit facility and there were no commercial paper borrowings outstanding with maturities greater than three months.

Presented in the tables below are the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each:

	As of March 31, 2025		
	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(1,000)	(84)	(1,084)
Remaining availability as of March 31, 2025	$ 1,600	$ 66	$ 1,666

(a) Total remaining availability of $1.7 billion as of March 31, 2025, was accessible through revolver draws.

	As of December 31, 2024		
	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(880)	(82)	(962)
Remaining availability as of December 31, 2024	$ 1,720	$ 68	$ 1,788

(a) Total remaining availability of $1.8 billion as of December 31, 2024, was accessible through revolver draws.

Presented in the table below is the Company's total available liquidity as of March 31, 2025, and December 31, 2024, respectively:

	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of March 31, 2025	$ 114	$ 1,666	$ 1,780
Available liquidity as of December 31, 2024	$ 96	$ 1,788	$ 1,884

Note 9: Income Taxes

The Company's effective income tax rate was 24.1% and 23.6% for the three months ended March 31, 2025 and 2024. The increase in the Company's effective income tax rate for the three months ended March 31, 2025, was primarily due to the decrease in the amortization of EADIT pursuant to regulatory orders.

On August 16, 2022, the Inflation Reduction Act of 2022 (the "IRA") was signed into law. The IRA contains a 15% Corporate Alternative Minimum Tax ("CAMT") provision on applicable corporations effective January 1, 2023. To determine if a company is considered an applicable corporation subject to CAMT, the company's average adjusted financial statement income ("AFSI") for the three consecutive years preceding the tax year must exceed $1.0 billion. An applicable corporation must make several adjustments to net income when determining AFSI. A corporation paying CAMT is eligible for a future tax credit, which can be carried forward indefinitely and utilized when regular tax exceeds CAMT. Based on current guidance, the Company is an applicable corporation subject to CAMT beginning in 2024. As of March 31, 2025, the Company has a CAMT credit carryforward of $132 million.

On September 12, 2024, the Internal Revenue Service ("IRS") and the U.S. Treasury issued Notice 2024-66, allowing corporate taxpayers to exclude amounts attributable to the CAMT liability, without penalty, from estimated tax payments with respect to a taxable year that begins during 2024. The Company included the CAMT liability in its 2024 extension payment on April 15, 2025. The Company will continue to assess the impacts of the IRA as the U.S. Treasury and the IRS provide further guidance.

Note 10: Pension and Other Postretirement Benefits

Presented in the table below are the components of net periodic benefit costs:

	For the Three Months Ended March 31,	
	2025	2024
Components of net periodic pension benefit cost:		
Service cost	$ 3	$ 5
Interest cost	21	21
Expected return on plan assets	(22)	(24)
Amortization of prior service credit	(1)	(1)
Amortization of actuarial loss	5	6
Net periodic pension benefit cost	$ 6	$ 7
Components of net periodic other postretirement benefit credit:		
Service cost	$ —	$ 1
Interest cost	3	3
Expected return on plan assets	(3)	(3)
Amortization of prior service credit	(8)	(8)
Net periodic other postretirement benefit credit	$ (8)	$ (7)

The Company contributed $11 million for the funding of its defined benefit pension plans for the three months ended March 31, 2025 and 2024. The Company expects to make additional pension contributions to the plan trusts of $33 million during the remainder of 2025.

Note 11: Commitments and Contingencies

Contingencies

The Company is routinely involved in legal actions incident to the normal conduct of its business. As of March 31, 2025, the Company has accrued approximately $17 million of probable loss contingencies and has estimated that the maximum amount of loss associated with reasonably possible loss contingencies arising out of such legal actions, which can be reasonably estimated, is $4 million. For certain legal actions, the Company is unable to estimate possible losses. The Company believes that damages or settlements, if any, recovered by plaintiffs in such legal actions, other than as described in this Note 11 —Commitments and Contingencies, will not have a material adverse effect on the Company.

Dunbar, West Virginia Class Action Litigation

On the evening of June 23, 2015, a 36-inch pre-stressed concrete transmission water main, installed in the early 1970s, failed. The water main is part of the West Relay pumping station located in the City of Dunbar, West Virginia and owned by the Company's West Virginia subsidiary ("WVAWC"). The failure of the main caused water outages and low pressure for up to approximately 25,000 WVAWC customers. In the early morning hours of June 25, 2015, crews completed a repair, but that same day, the repair developed a leak. On June 26, 2015, a second repair was completed, and service was restored that day to approximately 80% of the impacted customers, and to the remaining approximately 20% by the next morning. The second repair showed signs of leaking, but the water main was usable until June 29, 2015, to allow tanks to refill. The system was reconfigured to maintain service to all but approximately 3,000 customers while a final repair was being completed safely on June 30, 2015. Water service was fully restored by July 1, 2015, to all customers affected by this event.

On June 2, 2017, a complaint captioned *Jeffries, et al. v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of residents and business owners who lost water service or pressure as a result of the Dunbar main break. The complaint alleges breach of contract by WVAWC for failure to supply water, violation of West Virginia law regarding the sufficiency of WVAWC's facilities and negligence by WVAWC in the design, maintenance and operation of the water system. The *Jeffries* plaintiffs seek unspecified alleged damages on behalf of the class for lost profits, annoyance and inconvenience, and loss of use, as well as punitive damages for willful, reckless and wanton behavior in not addressing the risk of pipe failure and a large outage.

In February 2020, the *Jeffries* plaintiffs filed a motion seeking class certification on the issues of breach of contract and negligence, and to determine the applicability of punitive damages and a multiplier for those damages if imposed. In July 2020, the Circuit Court entered an order granting the *Jeffries* plaintiffs' motion for certification of a class regarding certain liability issues but denying certification of a class to determine a punitive damages multiplier. Trial in this matter had been scheduled for January 2025.

On January 17, 2025, before trial commenced, the parties notified the Circuit Court that an agreement in principle to settle this litigation was reached among the parties. Under the terms of the agreement in principle and any subsequent proposed settlement agreement, WVAWC has not admitted, and will not admit, any fault or liability for any of the allegations made by the *Jeffries* plaintiffs. The proposed maximum pre-tax amount of the settlement is approximately $18 million, of which the Company currently estimates that approximately $5 million would be contributed by the Company and WVAWC, and the remainder would be contributed by certain of the Company's general liability insurance carriers. The actual total amount to be paid to claimants through this settlement will depend upon the claims submitted and approved through a claims process to be negotiated by the parties and approved by the Circuit Court. The parties will next negotiate and enter into a proposed settlement agreement based on the terms of the agreement in principle, and the proposed settlement agreement will be subject to preliminary and final approvals by the Circuit Court.

The final amount of the Company's and WVAWC's contributions to the settlement remains subject to uncertainty and will depend in part on the amount of claims ultimately submitted and approved through the above-referenced claims process; however, the Company does not currently anticipate that its maximum liability will exceed $5 million. As a result, the Company recorded a charge to earnings, net of expected insurance receivables, of $5.0 million ($3.9 million after-tax) in the fourth quarter of 2024. The Company intends to fund its and WVAWC's contributions to the settlement through existing sources of liquidity, although no contribution by the Company or WVAWC to the settlement will be funded unless and until, and to the extent required by, a proposed settlement agreement that has been entered into by the parties and finally approved by the Circuit Court.

Chattanooga, Tennessee Class Action Litigation

On September 12, 2019, the Company's Tennessee subsidiary ("TAWC"), experienced a leak in a 36-inch water transmission main, which caused service fluctuations or interruptions to TAWC customers and the issuance of a boil water notice. TAWC repaired the main by early morning on September 14, 2019, and restored full water service by the afternoon of September 15, 2019, with the boil water notice lifted for all customers on September 16, 2019.

On September 17, 2019, a complaint captioned *Bruce, et al. v. American Water Works Company, Inc., et al.* was filed in the Circuit Court of Hamilton County, Tennessee against TAWC, the Company and American Water Works Service Company, Inc. ("Service Company" and, together with TAWC and the Company, collectively, the "Tennessee-American Water Defendants"), on behalf of a proposed class of individuals or entities who lost water service or suffered monetary losses as a result of the Chattanooga incident (the "Tennessee Plaintiffs"). The complaint alleged breach of contract and negligence against the Tennessee-American Water Defendants, as well as an equitable remedy of piercing the corporate veil. In the complaint as originally filed, the Tennessee Plaintiffs were seeking an award of unspecified alleged damages for wage losses, business and economic losses, out-of-pocket expenses, loss of use and enjoyment of property and annoyance and inconvenience, as well as punitive damages, attorneys' fees and pre- and post-judgment interest.

In September 2020, the court dismissed all of the Tennessee Plaintiffs' claims in their complaint, except for the breach of contract claims against TAWC, which remain pending. In October 2020, TAWC answered the complaint, and the parties have been engaging in discovery. In January 2023, after hearing oral argument, the court issued an oral ruling denying the Tennessee Plaintiffs' motion for class certification. In February 2023, the Tennessee Plaintiffs sought reconsideration of the ruling by the court, and any final ruling is appealable to the Tennessee Court of Appeals, as allowed under Tennessee law. In September 2023, the court upheld its prior ruling but gave the Tennessee Plaintiffs the option to file an amended class definition. In October 2023, the Tennessee Plaintiffs filed an amended class definition seeking certification of a business customer-only class. On June 14, 2024, the court issued its written order denying the Tennessee Plaintiffs' amended class and incorporating its denial of certification of the original residential class. On June 21, 2024, the Tennessee Plaintiffs appealed both of the court's orders denying class certification. This appeal remains pending.

The Company and TAWC believe that TAWC has valid, meritorious defenses to the claims raised in this class action complaint. TAWC will continue to vigorously defend itself against these allegations. Given the current stage of this proceeding, the Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of loss related to this proceeding.

Mountaineer Gas Company Main Break

During the afternoon of November 10, 2023, WVAWC was informed that an 8-inch ductile iron water main owned by WVAWC, located on the West Side of Charleston, West Virginia and originally installed in approximately 1989, experienced a leak. In the early morning hours of November 11, 2023, WVAWC crews successfully completed a repair to the water main. A precautionary boil water advisory was issued the same day to approximately 300 WVAWC customers and ultimately lifted on November 12, 2023.

On November 10, 2023, a break was reported in a low-pressure natural gas main located near the affected WVAWC water main, and an inflow of water into the natural gas main and associated delivery pipelines occurred. The natural gas main and pipelines are owned by Mountaineer Gas Company, a regulated natural gas distribution company serving over 220,000 customers in West Virginia ("Mountaineer Gas"). The resulting inflow of water into the natural gas main and related pipelines resulted in a loss of natural gas service to approximately 1,500 Mountaineer Gas customers, as well as water entering customer service lines and certain natural gas appliances owned or used by some of the affected Mountaineer Gas customers. Mountaineer Gas reported that restoration of natural gas service to all affected gas mains occurred on November 24, 2023. The timing, order and causation of both the WVAWC water main break and Mountaineer Gas's main break are currently unknown and under investigation.

To date, a total of four pending lawsuits have been filed against Mountaineer Gas and WVAWC purportedly on behalf of customers in Charleston, West Virginia related to these incidents. On November 14, 2023, a complaint captioned *Ruffin et al. v. Mountaineer Gas Company and West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of Mountaineer Gas residential and business customers and other households and businesses supplied with natural gas in Kanawha County, which lost natural gas service on November 10, 2023, as a result of these events. The complaint alleges, among other things, breach of contract by Mountaineer Gas, trespass by WVAWC, nuisance by WVAWC, violation of statutory obligations by Mountaineer Gas and WVAWC, and negligence by Mountaineer Gas and WVAWC. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for loss of use of natural gas, annoyance, inconvenience and lost profits, as well as punitive damages.

On November 15, 2023, a complaint captioned *Toliver et al. v. West Virginia-American Water Company and Mountaineer Gas Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of all natural persons or entities who are citizens of the State of West Virginia and who are customers of WVAWC and/or Mountaineer Gas in the affected areas. The complaint alleges against Mountaineer Gas and WVAWC, among other things, negligence, nuisance, trespass and strict liability, as well as breach of contract against Mountaineer Gas. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for property damage, loss of use and enjoyment of property, annoyance and inconvenience and business losses, as well as punitive damages.

On November 16, 2023, a complaint captioned *Dodson et al. v. West Virginia American Water and Mountaineer Gas Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of all West Virginia citizens living between Pennsylvania Avenue south of Washington Street, and Iowa Street, who are customers of Mountaineer Gas. The complaint alleges against Mountaineer Gas and WVAWC, among other things, negligence, nuisance, trespass, statutory code violations and unfair or deceptive business practices. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for property loss and damage, loss of use and enjoyment of property, mental and emotional distress, and aggravation and inconvenience, as well as punitive damages.

On January 4, 2024, a fourth complaint, captioned *Thomas v. West Virginia-American Water Company and Mountaineer Gas Company*, was filed in West Virginia Circuit Court in Kanawha County asserting similar allegations as those included in the *Ruffin*, *Toliver* and *Dodson* lawsuits, with the addition of counts alleging unjust enrichment and violations of the West Virginia Human Rights Act and the West Virginia Consumer Credit and Protection Act.

On November 17, 2023, the *Ruffin* plaintiff filed a motion to consolidate the class action lawsuits before a single judge in Kanawha County Circuit Court. On June 14, 2024, the judge in the *Ruffin* case partially granted the motion by transferring all of the four class action lawsuits to her court but deferring as premature consolidation of the cases.

On December 5, 2023, a complaint captioned *Mountaineer Gas Company v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County seeking damages under theories of trespass, negligence and implied indemnity. The damages being sought related to the incident include, among other things, repair and response costs incurred by Mountaineer Gas and attorneys' fees and expenses incurred by Mountaineer Gas. On December 14, 2023, Mountaineer Gas filed a motion with the Supreme Court of West Virginia to transfer this case to the West Virginia Business Court. On December 29, 2023, WVAWC filed a joinder in the motion to transfer the case. WVAWC has also filed a partial motion to dismiss this lawsuit. On March 6, 2024, the motion to transfer this complaint to the West Virginia Business Court was granted and trial and resolution judges were assigned. Mountaineer Gas voluntarily dismissed its implied indemnity count against WVAWC, rendering moot WVAWC's partial motion to dismiss, and on May 31, 2024, WVAWC answered the complaint. The West Virginia Business Court has set a trial date for this matter, which, upon motion of the parties, has been reset to March 16, 2026, to allow for the completion of discovery.

On December 20, 2023, Mountaineer Gas filed answers to each of the first three class action lawsuits, which included cross-claims against WVAWC alleging that Mountaineer Gas is without fault for the claims and damages alleged in the lawsuits and WVAWC should be required to indemnify Mountaineer Gas for any damages and for attorneys' fees and expenses incurred by Mountaineer Gas in the lawsuits. WVAWC has filed a partial motion to dismiss certain claims in the *Ruffin, Toliver, Dodson* and *Thomas* lawsuits and a motion to dismiss the cross-claims asserted against WVAWC therein by Mountaineer Gas. Mountaineer Gas subsequently voluntarily dismissed its cross-claims. On January 30, 2024, a motion was filed with the West Virginia Supreme Court on behalf of the *Toliver* plaintiff to refer the four class action complaints and the *Mountaineer Gas* complaint to the West Virginia Mass Litigation Panel. On February 7, 2024, WVAWC filed a motion joining in that referral request. On February 19, 2024, Mountaineer Gas filed a motion opposing the referral of the four class action complaints and the *Mountaineer Gas* complaint to the West Virginia Mass Litigation Panel. On May 31, 2024, the West Virginia Supreme Court denied the motion seeking referral. The Kanawha County Circuit Court has set a trial date of February 2, 2026, for the class action complaints.

On December 6, 2023, WVAWC initiated a process whereby Mountaineer Gas customers could file claims with WVAWC and seek payment from WVAWC of up to $2,000 in damages per affected household for the inconvenience arising from a loss of use of their appliances and documented out-of-pocket expenses as a result of the natural gas outage. In light of the diminishing number of new claims that had been filed, the claims process was concluded on March 8, 2024. As of December 31, 2024, a total of 594 Mountaineer Gas customers completed this claims process, and each of those customers has been paid by WVAWC an average of approximately $1,500. In return, these customers were required to execute a partial release of liability in favor of WVAWC.

On November 16, 2023, the Public Service Commission of West Virginia (the "WVPSC") issued an order initiating a general investigation into both the water main break and natural gas outages occurring in this incident to determine the cause or causes thereof, as well as breaks and outages generally throughout the systems of WVAWC and Mountaineer Gas and the utility practices of both utilities. Following a series of disagreements among the parties regarding the scope of discovery, the WVPSC closed the general investigation into both utilities and ordered a separate general investigation for each utility. The WVPSC focused the two general investigations away from the cause of the events and instead on the maintenance practices of each utility during and after the main breaks. On January 29, 2024, the Consumer Advocate Division of the WVPSC filed a motion to intervene in the WVAWC general investigation.

On April 24, 2024, the staff issued a final joint memorandum in the Mountaineer Gas general investigation stating its view that Mountaineer Gas responded appropriately, reasonably and according to Mountaineer Gas's written procedures. The staff is making no recommendations for improvements to Mountaineer Gas and is recommending that the Mountaineer Gas general investigation be closed. On July 24, 2024, the staff issued a final joint memorandum in the WVAWC general investigation finding no indication of systematic failure by WVAWC and concluding WVAWC's maintenance and operating procedures were adequate to ensure safe and reliable service, subject to the implementation by WVAWC of three recommended operational improvements. Both general investigations remain pending.

The Company and WVAWC believe that the causes of action and other claims asserted against WVAWC in the class action complaints and the lawsuit filed by Mountaineer Gas are without merit and that WVAWC has valid, meritorious defenses to such claims. WVAWC continues to defend itself vigorously in these litigation proceedings. Given the current stage of these proceedings and the general investigation, the Company and WVAWC are currently unable to predict the outcome of any of the proceedings described above, and the Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of loss related to this proceeding.

Alternative Water Supply in Lieu of Carmel River Diversions

Compliance with Orders to Reduce Carmel River Diversions—Monterey Peninsula Water Supply Project

Under a 2009 order (the "2009 Order") of the State Water Resources Control Board (the "SWRCB"), the Company's California subsidiary ("Cal Am") is required to decrease significantly its yearly diversions of water from the Carmel River according to a set reduction schedule. In 2016, the SWRCB issued an order (the "2016 Order," and, together with the 2009 Order, the "Orders") approving a deadline of December 31, 2021, for Cal Am's compliance with these prior orders.

Cal Am is currently involved in developing the Monterey Peninsula Water Supply Project (the "Water Supply Project"), which includes the construction of a desalination plant, to be owned by Cal Am, and the construction of wells that would supply water to the desalination plant. In addition, the Water Supply Project also includes Cal Am's purchase of water from a groundwater replenishment project (the "GWR Project") between Monterey One Water and the Monterey Peninsula Water Management District (the "MPWMD"), as well as an expanded aquifer storage and recovery program. The Water Supply Project is intended, among other things, to fulfill Cal Am's obligations under the Orders.

Cal Am's ability to move forward on the Water Supply Project is and has been subject to administrative review by the CPUC and other government agencies, obtaining necessary permits, and intervention from other parties. In 2016, the CPUC unanimously approved a final decision to authorize Cal Am to enter into a water purchase agreement for the GWR Project and to construct a pipeline and pump station facilities and recover up to $50 million in associated incurred costs, plus an allowance for funds used during construction ("AFUDC"), subject to meeting certain criteria.

In 2018, the CPUC unanimously approved another final decision finding that the Water Supply Project meets the CPUC's requirements for a certificate of public convenience and necessity and an additional procedural phase was not necessary to consider alternative projects. The CPUC's 2018 decision concludes that the Water Supply Project is the best project to address estimated future water demands in Monterey, and, in addition to the cost recovery approved in its 2016 decision, adopts Cal Am's cost estimates for the Water Supply Project, which amounted to an aggregate of $279 million plus AFUDC at a rate representative of Cal Am's actual financing costs. The 2018 final decision specifies the procedures for recovery of all of Cal Am's prudently incurred costs associated with the Water Supply Project upon its completion, subject to the frameworks included in the final decision related to cost caps, operation and maintenance costs, financing, ratemaking and contingency matters. The reasonableness of the Water Supply Project costs will be reviewed by the CPUC when Cal Am seeks cost recovery for the Water Supply Project. Cal Am is also required to implement mitigation measures to avoid, minimize or offset significant environmental impacts from the construction and operation of the Water Supply Project and comply with a mitigation monitoring and reporting program, a reimbursement agreement for CPUC costs associated with that program, and reporting requirements on plant operations following placement of the Water Supply Project in service. Cal Am has incurred $290 million in aggregate costs as of March 31, 2025, related to the Water Supply Project, which includes $92 million in AFUDC.

In September 2021, Cal Am, Monterey One Water and the MPWMD reached an agreement on Cal Am's purchase of additional water from an expansion to the GWR Project. On December 5, 2022, the CPUC issued a final decision that authorized Cal Am to enter into the amended water purchase agreement, and specifically to increase pumping capacity and reliability of groundwater extraction from the Seaside Groundwater Basin. The final decision sets the cost cap for the proposed facilities at approximately $62 million. Cal Am may seek recovery of amounts above the cost cap in a subsequent rate filing or general rate case. Additionally, the final decision authorizes AFUDC at Cal Am's actual weighted average cost of debt for most of the facilities. On December 30, 2022, Cal Am filed with the CPUC an application for rehearing of the CPUC's December 5, 2022, final decision, and on March 30, 2023, the CPUC issued a decision denying Cal Am's application for rehearing, but adopting its proposed AFUDC for already incurred and future costs. The decision also provided Cal Am the opportunity to serve supplemental testimony to increase its cost cap for certain of the Water Supply Project's extraction wells. On April 10, 2025, the CPUC issued a proposed decision, which remains subject to comment and the issuance by the CPUC of a final decision, that would authorize an increase to the cost cap of $11 million for the specified extraction wells.

The amended water purchase agreement and a memorandum of understanding to negotiate certain milestones related to the expansion of the GWR Project have been signed by the relevant parties. Further hearings were scheduled in a Phase 2 to this CPUC proceeding to focus on updated supply and demand estimates for the Water Supply Project, and Phase 2 testimony was completed in September 2022. On October 23, 2023, a status conference was held to determine procedural steps to conclude the proceeding. Further evidentiary hearings were held in March 2024. This Phase 2 matter remains pending.

While Cal Am believes that its expenditures to date have been prudent and necessary to comply with the Orders, as well as relevant final decisions of the CPUC related thereto, Cal Am cannot currently predict its ability to recover all of its costs and expenses associated with the Water Supply Project and there can be no assurance that Cal Am will be able to recover all of such costs and expenses in excess of the $112 million in previously approved aggregate construction costs, plus applicable AFUDC, previously approved by the CPUC in its 2016 and December 2022 final decisions, as amended by its March 30, 2023 rehearing decision.

Coastal Development Permit Application

In 2018, Cal Am submitted a coastal development permit application (the "Marina Application") to the City of Marina (the "City") for those project components of the Water Supply Project located within the City's coastal zone. Members of the City's Planning Commission, as well as City councilpersons, publicly expressed opposition to the Water Supply Project. In May 2019, the City issued a notice of final local action based upon the denial by the Planning Commission of the Marina Application. Thereafter, Cal Am appealed this decision to the Coastal Commission, as permitted under the City's code and the California Coastal Act. At the same time, Cal Am submitted an application (the "Original Jurisdiction Application") to the Coastal Commission for a coastal development permit for those project components located within the Coastal Commission's original jurisdiction. After Coastal Commission staff issued reports recommending denial of the Original Jurisdiction Application, noting potential impacts on environmentally sensitive habitat areas and wetlands and possible disproportionate impacts to communities of concern, in September 2020, Cal Am withdrew the Original Jurisdiction Application in order to address the staff's environmental justice concerns. In November 2020, Cal Am refiled the Original Jurisdiction Application.

In October 2022, Cal Am announced a phasing plan for the proposed desalination plant component of the Water Supply Project. The desalination plant and slant wells originally approved by the CPUC would produce up to 6.4 million gallons of desalinated water per day. Under the phased approach, the facilities would initially be constructed to produce up to 4.8 million gallons per day of desalinated water, enough to meet anticipated demand through about 2030, and would limit the number of slant wells initially constructed. As demand increases in the future, desalination facilities would be expanded to meet the additional demand. The phased approach seeks to meet near-term demand by allowing for additional supply as it becomes needed, while also providing an opportunity for regional future public participation and was developed by Cal Am based on feedback received from the community.

In November 2022, the Coastal Commission approved the Marina Application and the Original Jurisdiction Application with respect to the phased development of the proposed desalination plant, subject to compliance with a number of conditions, all of which Cal Am expects to satisfy. In December 2022, the City, Marina Coast Water District ("MCWD"), MCWD's groundwater sustainability agency, and the MPWMD jointly filed a petition for writ of mandate in Monterey County Superior Court against the Coastal Commission, alleging that the Coastal Commission violated the California Coastal Act and the California Environmental Quality Act in issuing a coastal development permit to Cal Am for construction of slant wells for the Water Supply Project. Cal Am is named as a real party in interest. On April 24, 2024, the court granted defendants' motion for judgment on the pleadings and dismissed one of MCWD's causes of action in the petition. A trial commenced on December 9, 2024, and further proceedings continued in January 2025. On March 28, 2025, the court issued an intended decision to deny the joint petition in full. As permitted by the court, written statements have been filed identifying issues believed to have not been addressed in the intended decision. Cal Am has been given until April 29, 2025, to respond to these statements.

Following the issuance of the coastal development permit, Cal Am continues to work constructively with all appropriate agencies to provide necessary information in connection with obtaining the remaining required permits for the Water Supply Project. However, there can be no assurance that the Water Supply Project in its current configuration will be completed on a timely basis, if ever. For the year ended December 31, 2024, Cal Am has complied with the diversion limitations contained in the 2016 Order. Continued compliance with the diversion limitations in 2025 and future years may be impacted by a number of factors, including without limitation potential recurrence of drought conditions in California and the exhaustion of water supply reserves, and will require successful development of alternate water supply sources sufficient to meet customer demand. The Orders remain in effect until Cal Am certifies to the SWRCB, and the SWRCB concurs, that Cal Am has obtained a permanent supply of water to substitute for past unauthorized Carmel River diversions. While the Company cannot currently predict the likelihood or result of any adverse outcome associated with these matters, further attempts to comply with the Orders may result in material additional costs and obligations to Cal Am, including fines and penalties against Cal Am in the event of noncompliance with the Orders.

Cal Am's Action for Damages Following Termination of Regional Desalination Project ("RDP")

In 2010, the CPUC had approved the RDP, which was a precursor to the current Water Supply Project and called for the construction of a desalination facility in the City of Marina. The RDP was to be implemented through a Water Purchase Agreement and ancillary agreements (collectively, the "Agreements") among MCWD, Cal Am and the Monterey County Water Resources Agency ("MCWRA"). In 2011, due to a conflict of interest concerning a former member of MCWRA's Board of Directors, MCWRA stated that the Agreements were void, and, as a result, Cal Am terminated the Agreements. In ensuing litigation filed by Cal Am in 2012 to resolve the termination of the RDP, the court in 2015 entered a final judgment agreeing with Cal Am's position that four of the five Agreements are void, and one, the credit line agreement, is not void. As a result of this litigation, Cal Am was permitted to institute further proceedings, discussed below, to determine the amount of damages that may be awarded to Cal Am as a result of the failure of the RDP.

In 2015, Cal Am and MCWRA filed a complaint in San Francisco County Superior Court against MCWD and RMC Water and Environment, a private engineering consulting firm ("RMC"), seeking to recover compensatory, consequential and incidental damages associated with the failure of the RDP, as well as punitive and treble damages, statutory penalties and attorneys' fees. In 2019, MCWD was granted a motion for summary judgment related to the tort claims in the complaint. A settlement as to the non-tort claims was finalized and entered into in March 2020. As part of this settlement, Cal Am's and MCWRA's right to appeal the dismissal of their tort claims against MCWD were expressly reserved, and, in July 2020, Cal Am filed its appeal. In December 2022, the trial court's decision was reversed on appeal with instructions to vacate its prior orders granting MCWD's motions for summary judgment and to enter new orders denying the motions. In February 2023, MCWD filed a petition for review of the appellate decision with the California Supreme Court, which was denied in March 2023. On June 27, 2024, MCWD filed a motion for judgment on the pleadings. Following a hearing, on December 5, 2024, the court granted MCWD's motion without leave to amend, dismissing all of Cal Am's remaining tort claims. Final judgment was entered on January 7, 2025. On February 27, 2025, Cal Am and MCWRA each filed a Notice of Appeal of the trial court's decision.

Proposed Acquisition of Monterey System Assets — Potential Condemnation

Local Agency Formation Commission Litigation

The water system assets of Cal Am located in Monterey, California (the "Monterey system assets") are the subject of a condemnation action by the MPWMD stemming from a November 2018 public ballot initiative. In 2019, the MPWMD issued a preliminary valuation and cost of service analysis report, finding in part that (i) an estimate of the Monterey system assets' total value plus adjustments would be approximately $513 million, (ii) the cost of service modeling results indicate significant annual reductions in revenue requirements and projected monthly water bills, and (iii) the acquisition of the Monterey system assets by the MPWMD would be economically feasible. In 2020, the MPWMD certified a final environmental impact report, analyzing the environmental impacts of the MPWMD's project to (i) acquire the Monterey system assets through the power of eminent domain, if necessary, and (ii) expand its geographic boundaries to include all parts of this system.

In February 2021, the MPWMD filed an application with the Local Agency Formation Commission of Monterey County ("LAFCO") seeking approval to become a retail water provider and annex approximately 58 parcels of land into the MPWMD's boundaries. In June 2021, LAFCO's commissioners voted to require a third-party independent financial study as to the feasibility of an acquisition by the MPWMD of the Monterey system assets. In December 2021, LAFCO's commissioners denied the MPWMD's application to become a retail water provider, determining that the MPWMD does not have the authority to proceed with a condemnation of the Monterey system assets. In April 2022, the MPWMD filed a lawsuit against LAFCO challenging its decision to deny the MPWMD's application seeking approval to become a retail water provider. In June 2022, the court granted, with conditions, a motion by Cal Am to intervene in the MPWMD's lawsuit against LAFCO. In December 2022, the court sustained in part, and denied in part, demurrers that had been filed by LAFCO seeking to dismiss the MPWMD's lawsuit.

In December 2023, the Monterey County Superior Court issued a writ of mandate directing LAFCO to vacate and set aside its original denial of the MPWMD's application to serve as a retail water provider (in conjunction with its effort to acquire the Monterey system assets) and, if requested, to re-hear the application in compliance with all applicable law. The court held that LAFCO incorrectly applied two statutory standards and noted a lack of sufficient evidence to support certain of LAFCO's factual findings. As a result, the LAFCO denial has been nullified and LAFCO will be required to hold another hearing on the MPWMD's application upon request. On February 8, 2024, and February 9, 2024, respectively, Cal Am and LAFCO each filed a notice of appeal with the California Court of Appeal regarding the Monterey County Superior Court's decision to issue the writ of mandate. The MPWMD filed a notice of cross-appeal on February 15, 2024. Cal Am is evaluating potential additional actions to seek to uphold LAFCO's denial of the MPWMD's application, including filing other challenges and/or making suitable presentations at a subsequent LAFCO rehearing.

MPWMD Condemnation Action

Separate from the proceedings related to the MPWMD's application with LAFCO, by letter dated October 3, 2022, the MPWMD notified Cal Am of a decision to appraise the Monterey system assets and requested access to a number of Cal Am's properties and documents to assist the MPWMD with such an appraisal. Cal Am responded by letter on October 24, 2022, denying the request for access, stating that the MPWMD does not have the right to appraise Cal Am's system without LAFCO approval to become a retail water provider. In April 2023, Cal Am rejected an offer by the MPWMD to purchase the Monterey system assets for $448.8 million. Over the written and oral objections of Cal Am, at a hearing held in October 2023, the MPWMD adopted a resolution of necessity to authorize it to file an eminent domain lawsuit with respect to the Monterey system assets.

In December 2023, the MPWMD filed a lawsuit against Cal Am in Monterey County Superior Court seeking to condemn the Monterey system assets. On February 26, 2024, Cal Am filed a motion requesting the Monterey County Superior Court dismiss the MPWMD's lawsuit. Cal Am's motion asserted that the MPWMD lacks legal authorization from both the California legislature and LAFCO to become a retail water provider and the lawsuit improperly seeks to effect a taking of property outside the boundaries of the MPWMD's territory. Hearings on the motion were held on May 3, 2024, and August 23, 2024. On November 14, 2024, the court issued a final ruling denying Cal Am's motion to dismiss. Cal Am filed its answer to the complaint on December 13, 2024. This matter remains pending.

While the Company cannot currently predict the outcome of the MPWMD's eminent domain lawsuit, the Company believes that, given existing legal authorities and its other defenses, Cal Am should be able to defend itself successfully against this lawsuit.

Note 12: Earnings per Common Share

Presented in the table below is a reconciliation of the numerator and denominator for the basic and diluted earnings per share ("EPS") calculations:

	For the Three Months Ended March 31,	
	2025	2024
Numerator:		
Net income attributable to common shareholders	$ 205	$ 185
Denominator:		
Weighted-average common shares outstanding—Basic	195	195
Effect of dilutive common stock equivalents	—	—
Weighted-average common shares outstanding—Diluted	195	195

The effect of dilutive common stock equivalents is related to outstanding restricted stock units ("RSUs") and performance stock units ("PSUs") granted under the Company's 2007 Omnibus Equity Compensation Plan and outstanding RSUs and PSUs granted under the Company's 2017 Omnibus Equity Compensation Plan, as well as estimated shares to be purchased under the Company's 2017 Nonqualified Employee Stock Purchase Plan. Less than one million share-based awards were excluded from the computation of diluted EPS for the three months ended March 31, 2025 and 2024, because their effect would have been anti-dilutive under the treasury stock method.

The if-converted method is applied to the Notes issued in June 2023 for computing diluted EPS. For both periods presented, there was no dilution resulting from the Notes. See Note 7—Long-Term Debt for additional information relating to the Notes.

Note 13: Fair Value of Financial Information

Fair Value of Financial Instruments

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Current assets and current liabilities—The carrying amounts reported on the Consolidated Balance Sheets for current assets and current liabilities, including revolving credit debt, due to the short-term maturities and variable interest rates, approximate their fair values.

Secured seller promissory note from the sale of the Homeowner Services Group—The carrying amount reported on the Consolidated Balance Sheets for the secured seller promissory note, included as part of the consideration from the sale of HOS, is $795 million as of March 31, 2025, and December 31, 2024. This amount represents the principal amount owed under the secured seller promissory note, for which the Company expects to receive full payment. The accounting fair value measurement of the secured seller promissory note approximated $797 million and $793 million as of March 31, 2025, and December 31, 2024, respectively. The accounting fair value measurement is an estimate that is reflective of changes in benchmark interest rates. The secured seller promissory note is classified as Level 3 within the fair value hierarchy.

Preferred stock with mandatory redemption requirements and long-term debt—The fair values of preferred stock with mandatory redemption requirements and long-term debt are categorized within the fair value hierarchy based on the inputs that are used to value each instrument. The fair value of long-term debt classified as Level 1 is calculated using quoted prices in active markets. Level 2 instruments are valued using observable inputs and Level 3 instruments are valued using observable and unobservable inputs.

Presented in the tables below are the carrying amounts, including fair value adjustments previously recognized in acquisition purchase accounting, and the fair values of the Company's financial instruments:

	As of March 31, 2025				
		At Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Preferred stock with mandatory redemption requirements	$ 3	$ —	$ —	$ 3	$ 3
Long-term debt	13,432	10,570	1,053	664	12,287

	As of December 31, 2024				
		At Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Preferred stock with mandatory redemption requirements	$ 3	$ —	$ —	$ 3	$ 3
Long-term debt	13,155	10,165	1,050	658	11,873

Recurring Fair Value Measurements

Presented in the tables below are assets and liabilities measured and recorded at fair value on a recurring basis and their level within the fair value hierarchy:

	As of March 31, 2025			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	$ 43	$ —	$ —	$ 43
Rabbi trust investments	28	—	—	28
Deposits	7	—	—	7
Other investments:				
Money market and other	21	—	—	21
Fixed-income securities	77	7	—	84
Mark-to-market derivative asset	—	10	—	10
Total assets	176	17	—	193
Liabilities:				
Deferred compensation obligations	33	—	—	33
Total liabilities	33	—	—	33
Total assets	$ 143	$ 17	$ —	$ 160

	As of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	$ 44	$ —	$ —	$ 44
Rabbi trust investments	29	—	—	29
Deposits	6	—	—	6
Other investments:				
Money market and other	21	—	—	21
Fixed-income securities	88	6	—	94
Mark-to-market derivative asset	—	24	—	24
Total assets	188	30	—	218
Liabilities:				
Deferred compensation obligations	34	—	—	34
Total liabilities	34	—	—	34
Total assets	$ 154	$ 30	$ —	$ 184

Restricted funds—The Company's restricted funds primarily represent proceeds received from financings for the construction and capital improvement of facilities and from customers for future services under operation, maintenance and repair projects. Long-term restricted funds of $25 million and $15 million were included in other long-term assets on the Consolidated Balance Sheets as of March 31, 2025, and December 31, 2024, respectively.

Rabbi trust investments—The Company's rabbi trust investments consist of equity and index funds from which supplemental executive retirement plan benefits and deferred compensation obligations can be paid. The Company includes these assets in other long-term assets on the Consolidated Balance Sheets.

Deposits—Deposits include escrow funds and certain other deposits held in trust. The Company includes cash deposits in other current assets on the Consolidated Balance Sheets.

Deferred compensation obligations—The Company's deferred compensation plans allow participants to defer certain cash compensation into notional investment accounts. The Company includes such plans in other long-term liabilities on the Consolidated Balance Sheets. The value of the Company's deferred compensation obligations is based on the market value of the participants' notional investment accounts. The notional investments are comprised primarily of mutual funds, which are based on quoted prices for identical assets in active markets.

Mark-to-market derivative assets and liabilities—The Company employs derivative financial instruments in the form of treasury lock agreements, classified as cash flow hedges, in order to fix the interest cost on existing or forecasted debt. The Company uses a calculation of future cash inflows and estimated future outflows, which are discounted, to determine the current fair value. Additional inputs to the present value calculation include the contract terms, counterparty credit risk, interest rates and market volatility. The Company includes mark-to-market derivative assets in other current assets on the Consolidated Balance Sheets.

Other investments—The Company maintains a Voluntary Employees' Beneficiary Association trust for purposes of paying active union employee medical benefits ("Active VEBA"). The investments in the Active VEBA trust primarily consist of money market funds and available-for-sale fixed-income securities.

The money market and other investments have original maturities of three months or less when purchased. The fair value measurement of the money market and other investments is based on quoted prices for identical assets in active markets and therefore included in the recurring fair value measurements hierarchy as Level 1.

The available-for-sale fixed-income securities are primarily investments in U.S. Treasury securities and government bonds. The majority of U.S. Treasury securities and government bonds have been categorized as Level 1 because they trade in highly-liquid and transparent markets. Certain U.S. Treasury securities are based on prices that reflect observable market information, such as actual trade information of similar securities, and are therefore categorized as Level 2, because the valuations are calculated using models which utilize actively traded market data that the Company can corroborate.

The Company includes other investments measured and recorded at fair value on the Consolidated Balance Sheets of $75 million and $71 million in other current assets, as of March 31, 2025, and December 31, 2024, respectively, and $30 million and $44 million in other long-term assets, as of March 31, 2025, and December 31, 2024, respectively. Unrealized holding gains and losses on available-for-sale securities are excluded from earnings and reported in other comprehensive income until realized.

The following tables summarize the unrealized positions for available-for-sale fixed-income securities:

	As of March 31, 2025			
	Amortized Cost Basis	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale fixed-income securities	$ 84	$ 1	$ 1	$ 84

	As of December 31, 2024			
	Amortized Cost Basis	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale fixed-income securities	$ 94	$ 2	$ 2	$ 94

The fair value of the Company's available-for-sale fixed-income securities, summarized by contractual maturities, as of March 31, 2025, is as follows:

	Amount
Other investments - Available-for-sale fixed-income securities	
Less than one year	$ 47
1 year - 5 years	25
5 years - 10 years	5
Greater than 10 years	7
Total	$ 84

Note 14: Leases

The Company has operating and finance leases involving real property, including facilities, utility assets, vehicles, and equipment. Certain operating leases have renewal options ranging from one year to 60 years. The exercise of lease renewal options is at the Company's sole discretion. Renewal options that the Company was reasonably certain to exercise are included in the Company's right-of-use ("ROU") assets. Certain operating leases contain the option to purchase the leased property. The operating leases for real property, vehicles and equipment will expire over the next 40 years, five years, and five years, respectively.

The Company participates in a number of arrangements with various public entities ("Partners") in West Virginia. Under these arrangements, the Company transferred a portion of its utility plant to the Partners in exchange for an equal principal amount of Industrial Development Bonds ("IDBs") issued by the Partners under the Industrial Development and Commercial Development Bond Act. The Company leased back the utility plant under agreements for a period of 30 to 40 years. The Company has recorded these agreements as finance leases in property, plant and equipment, as ownership of the assets will revert back to the Company at the end of the lease term. The carrying value of the finance lease assets was $143 million as of March 31, 2025, and December 31, 2024. The Company determined that the finance lease obligations and the investments in IDBs meet the conditions for offsetting, and as such, are reported net on the Consolidated Balance Sheets and are excluded from the lease disclosure presented below.

The Company also enters into O&M agreements with the Partners. The Company pays an annual fee for use of the Partners' assets in performing under the O&M agreements. The O&M agreements are recorded as operating leases, and future annual use fees of $3 million in 2025, $4 million in 2026 through 2029, and $37 million thereafter, are included in operating lease ROU assets and operating lease liabilities on the Consolidated Balance Sheets.

Rental expenses under operating leases were $3 million for the three months ended March 31, 2025 and 2024, respectively.

For the three months ended March 31, 2025, cash paid for amounts in lease liabilities, which includes operating cash flows from operating leases, was $3 million. For the three months ended March 31, 2025, there were ROU assets obtained in exchange for new operating lease liabilities of $3 million.

As of March 31, 2025, the weighted-average remaining lease term of the operating leases was 17 years, and the weighted-average discount rate of the operating leases was 5%.

The future maturities of lease liabilities as of March 31, 2025, were $9 million in 2025, $11 million in 2026, $10 million in 2027, $8 million in 2028, $7 million in 2029, and $85 million thereafter. As of March 31, 2025, imputed interest was $47 million.

Note 15: Segment Information

The Company's operating segments are comprised of its businesses which generate revenue, incur expense and have separate financial information which is regularly used by the chief operating decision maker to make operating decisions, assess performance and allocate resources. The Company operates its businesses primarily through one reportable segment, the Regulated Businesses segment. The Regulated Businesses segment also includes inter-segment revenues, costs and interest which are eliminated to reconcile to the Consolidated Statements of Operations.

The Company also operates other businesses, primarily MSG, that do not meet the criteria of a reportable segment in accordance with GAAP and are collectively presented throughout this Form 10-Q within "Other," which is consistent with how management assesses the results of these businesses. Other also includes corporate costs that are not allocated to the Company's Regulated Businesses, interest income related to the secured seller promissory note from the sale of HOS, income from assets not associated with the Regulated Businesses, eliminations of inter-segment transactions and fair value adjustments related to acquisitions that have not been allocated to the Regulated Businesses segment. The adjustments related to the acquisitions are reported in Other as they are excluded from segment performance measures evaluated by management.

The Company's chief operating decision maker is the Chief Executive Officer. The chief operating decision maker uses segment net income or loss to evaluate profit generated from segment assets when making decisions about allocating resources. The chief operating decision maker also uses segment net income to monitor budget versus actual results to assess the performance of the segment.

Presented in the tables below is summarized segment information:

	As of or for the Three Months Ended March 31, 2025		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 1,049	$ 93	$ 1,142
Less:			
Operation and maintenance (a)	395	73	468
Other segment items (b)	67	(1)	66
Depreciation and amortization	213	3	216
Interest expense	114	30	144
Interest income	(1)	(21)	(22)
Provision for income taxes	60	5	65
Net income attributable to common shareholders	$ 201	$ 4	$ 205
Total assets	$ 30,288	$ 2,868	$ 33,156
Cash paid for capital expenditures	$ 545	$ 3	$ 548

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

	As of or for the Three Months Ended March 31, 2024		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 928	$ 83	$ 1,011
Less:			
Operation and maintenance (a)	351	65	416
Other segment items (b)	61	4	65
Depreciation and amortization	184	4	188
Interest expense	97	27	124
Interest income	(3)	(21)	(24)
Provision for income taxes	53	4	57
Net income attributable to common shareholders	$ 185	$ —	$ 185
Total assets	$ 27,807	$ 3,279	$ 31,086
Cash paid for capital expenditures	$ 603	$ 6	$ 609

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read together with the unaudited Consolidated Financial Statements and the Notes thereto included elsewhere in this Form 10-Q, and in the Company's Form 10-K for the year ended December 31, 2024. This discussion contains forward-looking statements that are based on management's current expectations, estimates and projections about the Company's business, operations and financial performance. The cautionary statements made in this Form 10-Q should be read as applying to all related forward-looking statements whenever they appear in this Form 10-Q. The Company's actual results may differ materially from those currently anticipated and expressed in such forward-looking statements as a result of a number of factors, including those that are discussed under "Forward-Looking Statements" and elsewhere in this Form 10-Q. The Company has a disclosure committee consisting of members of senior management and other key employees involved in the preparation of the Company's SEC reports. The disclosure committee is actively involved in the review and discussion of the Company's SEC filings.

Overview

American Water is the largest and most geographically diverse, publicly traded water and wastewater utility company in the United States, as measured by both operating revenues and population served. The Company's primary business involves the ownership of utilities that provide water and wastewater services to residential, commercial, industrial, public authority, fire service and sale for resale customers, collectively presented as the "Regulated Businesses." Services provided by the Company's utilities are subject to regulation by multiple state utility commissions or other entities engaged in utility regulation, collectively referred to as public utility commissions ("PUCs"). The Company also operates other businesses not subject to economic regulation by state PUCs that provide water and wastewater services to the U.S. government on military installations, as well as municipalities, collectively presented throughout this Form 10-Q within "Other." See Part I, Item 1—Business in the Company's Form 10-K for additional information.

Financial Results

For the three months ended March 31, 2025, diluted earnings per share, prepared in accordance with accounting principles generally accepted in the United States ("GAAP"), were $1.05, an increase of $0.10, as compared to the same period in the prior year. The increase was primarily driven by the implementation of new rates in the Regulated Businesses from the recovery of capital and acquisition investments. Results also reflect increased operating costs and higher depreciation and financing costs to support the current capital investment plan. Results for the three months ended March 31, 2025 and 2024, include incremental interest income of $0.03 and $0.02 per share, respectively, resulting from the early 2024 amendment to the secured seller note from the sale of the former HOS business.

Growth Through Capital Investment in Infrastructure and Regulated Acquisitions

The Company continues to grow its businesses, with the substantial majority of its growth to be achieved in the Regulated Businesses through (i) continued capital investment in the Company's infrastructure to provide safe, clean, reliable and affordable water and wastewater services to its customers, (ii) regulated acquisitions to expand the Company's services to new customers and (iii) organic growth in existing systems. The Company plans to invest approximately $3.3 billion in these growth strategies in 2025. During the first three months of 2025, the Company invested $518 million, in the Regulated Businesses, as discussed below.

- $515 million capital investment in the Regulated Businesses for infrastructure improvements and replacements; and
- $3 million to fund an acquisition in the Regulated Businesses, which added approximately 300 customers.
- Approximately 4,000 new customers were added through organic growth in existing systems.

As of March 31, 2025, the Company had entered into 18 agreements with a total aggregate purchase price of $123 million for pending acquisitions in the Regulated Businesses, to add approximately 29,000 additional customers. In April 2025, the Company completed two acquisitions of regulated water systems for a total aggregate purchase price of $6 million, which added approximately 1,850 water customers and entered into two agreements with a total aggregate purchase price of $45 million for pending acquisitions in the Regulated Businesses, to add approximately 10,200 additional customers.

Other Matters

Cybersecurity Incident Update

Prior to filing a consolidated complaint, the plaintiffs in the putative consolidated class action lawsuit against parent company related to the Company's October 2024 cybersecurity incident, captioned *Johnsen et al. v. American Water Works Company, Inc.*, agreed to voluntarily dismiss the consolidated lawsuit without prejudice. On March 21, 2025, the parties filed a stipulation to that effect. An order of voluntary dismissal was entered by the U.S. District Court for the District of New Jersey on March 24, 2025, which concludes this lawsuit against parent company. See Part II, Item 1—Legal Proceedings—Cybersecurity Incident Consolidated Class Action Lawsuit.

Regulatory Matters

General Rate Cases

The table below summarizes the annualized incremental revenues, assuming a constant sales volume and customer count, resulting from general rate case authorizations that became effective during 2025. The amounts include reductions for the amortization of the excess accumulated deferred income taxes ("EADIT") that are generally offset in income tax expense.

(In millions)	Effective Date	Amount
General rate cases by state:		
Virginia	February 24, 2025 (a)	$ 15
Tennessee	January 21, 2025	1
California, Step Increase	January 1, 2025	17
Illinois	January 1, 2025	105
Total general rate case authorizations		$ 138

(a) Interim rates were effective May 1, 2024, and the difference between interim and final approved rates were subject to refund. The Virginia State Corporation Commission issued its final order on February 24, 2025.

On February 24, 2025, the Virginia State Corporation Commission (the "VSCC") issued an order approving the September 19, 2024, joint "black box" settlement of the general rate case filed by the Company's Virginia subsidiary. The general rate case order approves the stipulated $15 million annualized increase in water and wastewater revenues. Interim water and wastewater rates became effective May 1, 2024, with the difference between interim and final approved rates subject to refund. The requested annualized revenue increase was driven primarily by more than $110 million of incremental capital investments made and to be made between May 2023 and April 2025. For purposes of the general rate case, the Virginia subsidiary's view of its rate base is $369 million. The general rate case order also approved, solely for purposes of the Virginia subsidiary's future filings requiring a stated cost of capital and/or capital structure (including its annual information and water and wastewater infrastructure surcharge filings), a return on equity of 9.70% and a capital structure consisting of an equity component of 45.67% and a debt and other component of 54.33%, which also represents the Virginia subsidiary's view of its return on equity and capital structure in this general rate case.

On January 21, 2025, the Tennessee Public Utility Commission (the "TPUC") approved a motion authorizing an adjustment of water base rates requested in a rate case filed on May 1, 2024, by the Company's Tennessee subsidiary. The TPUC approved an increase of $1 million in annualized revenues, excluding previously recovered infrastructure surcharges of $18 million, based on an authorized return on equity of 9.70%, authorized rate base of approximately $300 million, a common equity ratio of 44.19% and a debt ratio of 55.81%. This adjustment took effect on January 21, 2025, and is driven primarily by approximately $173 million in capital investments made and to be made by the Tennessee subsidiary through December 2025.

On January 14, 2025, the California Public Utilities Commission ("CPUC") granted the Company's California subsidiary's request for a one-year extension of its cost of capital filing to May 1, 2026, to set its authorized cost of capital beginning January 1, 2027, and maintain its current authorized cost of capital through 2026.

On December 5, 2024, the Illinois Commerce Commission issued a final order approving the adjustment of base rates requested in a rate case originally filed on January 25, 2024, by the Company's Illinois subsidiary. The general rate case order approved an increase of $105 million in annualized water and wastewater system revenues, excluding previously recovered infrastructure surcharges of $5 million, based on an authorized return on equity of 9.84%, authorized rate base of $2.2 billion, and a capital structure with an equity component of 49.00% and a debt component of 51.00%. The general rate case order denied the second step increase of $16 million. The increase was effective January 1, 2025, and is driven primarily by approximately $557 million in capital investments made and to be made by the Illinois subsidiary from January 2024 through December 2025.

On December 5, 2024, the CPUC approved a final decision adopting the terms of a partial settlement agreement filed on November 17, 2023, in the Company's California subsidiary's general rate case originally filed on July 1, 2022. Incorporating the then currently effective return on equity of 10.20%, the decision provides incremental annualized water and wastewater revenues of $21 million in the 2024 test year, and an estimated $16 million in the 2025 escalation year and $16 million in the 2026 attrition year. The 2024 rates were implemented retroactively to January 1, 2024. In addition, the CPUC denied the California subsidiary's proposed Water Resources Sustainability Plan decoupling mechanism but approved continuation of its currently effective Annual Consumption Adjustment Mechanism. On December 12, 2024, the California subsidiary filed an application for rehearing of the CPUC's denial of the proposed Water Resources Sustainability Plan decoupling mechanism.

Pending General Rate Case Filings

On August 2, 2024, the Company's Hawaii subsidiary filed a general rate case requesting approximately $2 million in annualized incremental revenues, which is based on a proposed return on equity of 10.67% and a capital structure with an equity component of 52.11% and debt component of 47.89%. The requested annualized incremental revenue is driven primarily by approximately $41 million in capital investments made and to be made by the Hawaii subsidiary through 2025. On April 25, 2025, the Hawaii subsidiary filed with the Hawaii Public Utilities Commission (the "HPUC") a partial settlement, reached with the Division of Consumer Advocacy, in its general rate case. The partial settlement agrees to an annualized increase of approximately $1 million in wastewater revenue, which is based on a return on equity of 9.75% and a capital structure with an equity component of 52.11% and a debt component of 47.89%. The settlement remains subject to HPUC review and approval and the Hawaii subsidiary expects a decision mid-year in 2025.

On July 1, 2024, the Company's Missouri subsidiary filed a general rate case requesting approximately $148 million in annualized incremental revenues. The original request was based on a return on equity of 10.75% and a capital structure with an equity component of 50.54% and a long-term debt component of 49.46%, and was driven primarily by $1.5 billion of incremental capital investments completed and planned by the Missouri subsidiary from January 2023 through May 2026. On July 31, 2024, the Missouri Public Service Commission (the "MoPSC") issued an order establishing the test year in this case, which modified the Missouri subsidiary's original proposal for a future test year through May 2026, and instead reverted to a true-up period through December 31, 2024, with an allowance for proposed discrete adjustments subsequent to that date. On September 6, 2024, the Missouri subsidiary filed supplemental testimony to revise the request to approximately $123 million in annualized incremental revenues (excluding infrastructure surcharges) and to define the specific discrete adjustments proposed through the rate effective period, which lowered the incremental capital investments completed and planned to $1.1 billion through May 2025. In February 2025, the Missouri subsidiary filed an additional request for recovery of defined infrastructure investments, which adjusted the infrastructure surcharges to $63 million, and, in turn, decreased the amount of incremental annualized revenue (excluding such infrastructure surcharges) to approximately $107 million. On March 17, 2025, the Missouri subsidiary entered into a stipulation and agreement (the "Stipulation") with, among other parties, the staff of the MoPSC and the Office of the Public Counsel, as to an annualized increase of approximately $63 million in water and wastewater revenues, excluding $63 million in infrastructure surcharges. The Stipulation is subject to review and approval by the MoPSC, which is anticipated in the second quarter of 2025, and, if approved, new rates are expected to be effective by May 31, 2025.

On May 1, 2024, the Company's Iowa subsidiary filed a general rate case requesting approximately $21 million in additional annualized revenues, which is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 52.57% and debt component of 47.43%. The requested annualized revenue increase is driven primarily by approximately $157 million in capital investments made and to be made by the Iowa subsidiary through March 2026. Interim rates became effective May 11, 2024, with the difference between interim and final approved rates subject to refund. On August 29, 2024, the Iowa subsidiary submitted supplemental testimony consistent with the procedural schedule, which was subsequently challenged by the parties in the proceeding. On October 4, 2024, the Iowa Utilities Commission issued an order that granted the inclusion of the supplemental filing and extended the procedural schedule in the case beyond the statutory ten-month period. The Iowa subsidiary expects resolution of this proceeding by the end of May 2025.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective during 2025:

(In millions)	Effective Date	Amount
Infrastructure surcharges by state:		
Missouri	February 7, 2025	$ 17
Kentucky	January 1, 2025	2
West Virginia	January 1, 2025	4
Total infrastructure surcharge authorizations		$ 23

Pending Infrastructure Surcharge Filings

On April 15, 2025, the Company's New Jersey subsidiary filed an infrastructure surcharge proceeding requesting $15 million in additional annualized revenues.

Consolidated Results of Operations

Presented in the table below are the Company's consolidated results of operations:

	For the Three Months Ended March 31,	
(In millions)	2025	2024
Operating revenues	$ 1,142	$ 1,011
Operating expenses:		
Operation and maintenance	468	416
Depreciation and amortization	216	188
General taxes	87	81
Total operating expenses, net	771	685
Operating income	371	326
Other (expense) income:		
Interest expense	(144)	(124)
Interest income	22	24
Non-operating benefit costs, net	4	9
Other, net	17	7
Total other (expense) income	(101)	(84)
Income before income taxes	270	242
Provision for income taxes	65	57
Net income attributable to common shareholders	$ 205	$ 185

Segment Results of Operations

The Company's operating segments are comprised of its businesses which generate revenue, incur expense and have separate financial information which is regularly used by the chief operating decision maker to make operating decisions, assess performance and allocate resources. The Company operates its business primarily through one reportable segment, the Regulated Businesses segment. Other, primarily includes MSG, which does not meet the criteria of a reportable segment in accordance with GAAP. Other also includes corporate costs that are not allocated to the Company's Regulated Businesses, interest income related to the secured seller promissory note from the sale of HOS, income from assets not associated with the Regulated Businesses, eliminations of inter-segment transactions and fair value adjustments related to acquisitions that have not been allocated to the Regulated Businesses segment. This presentation is consistent with how management assesses the results of these businesses.

Regulated Businesses Segment

Presented in the table below is financial information for the Regulated Businesses:

(In millions)	For the Three Months Ended March 31, 2025	2024
Operating revenues	$ 1,049	$ 928
Operation and maintenance	395	351
Depreciation and amortization	213	184
General taxes	81	76
Other income (expense)	(99)	(79)
Provision for income taxes	60	53
Net income attributable to common shareholders	$ 201	$ 185

Operating Revenues

Presented in the tables below is information regarding the main components of the Regulated Businesses' operating revenues:

(In millions)	For the Three Months Ended March 31, 2025	2024
Water services:		
Residential	$ 560	$ 504
Commercial	212	187
Fire service	45	41
Industrial	45	42
Public and other	73	58
Total water services	935	832
Wastewater services:		
Residential	68	59
Commercial	18	16
Industrial	5	2
Public and other	10	8
Total wastewater services	101	85
Other (a)	13	11
Total operating revenues	$ 1,049	$ 928

(a) Includes other operating revenues consisting primarily of miscellaneous utility charges, fees and rents.

(Gallons in millions)	For the Three Months Ended March 31, 2025	2024
Billed water services volumes:		
Residential	34,691	34,414
Commercial	17,197	17,291
Industrial	8,654	8,337
Fire service, public and other	12,392	11,116
Total billed water services volumes	72,934	71,158

For the three months ended March 31, 2025, operating revenues increased $121 million, primarily due to a $97 million increase from authorized rate increases, including infrastructure surcharges, principally to recover infrastructure investment in various states and a $14 million increase from water and wastewater acquisitions, as well as organic growth in existing systems. In addition, operating revenues were higher for the three months ended March 31, 2025, in the Company's California subsidiary, primarily due to an increase in customer demand and change to its revenue stability mechanism from full to partial revenue recovery, resulting from the general rate case decision approved by the CPUC in December 2024.

Operation and Maintenance

Presented in the table below is information regarding the main components of the Regulated Businesses' operation and maintenance expense:

	For the Three Months Ended March 31,	
(In millions)	**2025**	**2024**
Employee-related costs	$ 149	$ 135
Production costs	106	102
Operating supplies and services	72	63
Maintenance materials and supplies	29	22
Customer billing and accounting	20	14
Other	19	15
Total operation and maintenance expense	$ 395	$ 351

For the three months ended March 31, 2025, operation and maintenance expense increased $44 million, due to increases from employee-related costs to support growth and acquisitions completed in 2024. In addition, operation and maintenance expense was higher due to increased production costs primarily from higher power and fuel costs, customer billing and accounting from an increase in customer uncollectible expense and increases in other operating expenses.

Depreciation and Amortization

For the three months ended March 31, 2025, depreciation and amortization increased $29 million, primarily due to additional utility plant placed in service from capital infrastructure investments and higher depreciation rates from recent rate case orders.

General Taxes

For the three months ended March 31, 2025, general taxes increased $5 million, primarily due to incremental property and capital stock taxes.

Other Expenses

For the three months ended March 31, 2025, other expenses increased $20 million, primarily due to higher interest expense from the issuance of incremental long-term debt.

Provision for Income Taxes

For the three months ended March 31, 2025, the Regulated Businesses' provision for income taxes increased $7 million. The Regulated Businesses' effective income tax rate was 23.0% and 22.3% for the three months ended March 31, 2025 and 2024, respectively. The increase was primarily due to the decrease in the amortization of EADIT pursuant to regulatory orders.

Other

Presented in the table below is information for Other:

(In millions)	For the Three Months Ended March 31, 2025	2024
Operating revenues	$ 93	$ 83
Operation and maintenance	73	65
Depreciation and amortization	3	4
General taxes	6	5
Interest expense	(30)	(27)
Interest income	21	21
Other income	7	1
Provision for income taxes	5	4
Net income attributable to common shareholders	$ 4	$ —

Operating Revenues

For the three months ended March 31, 2025, operating revenues increased $10 million, from an increase in capital projects in MSG and the Contract Services Group ("CSG").

Operation and Maintenance

For the three months ended March 31, 2025, operation and maintenance expense increased $8 million, primarily due to costs associated with MSG and CSG projects.

Legislative Updates

During 2025, the Company's regulatory jurisdictions enacted the following legislation that has been approved and is effective as of April 30, 2025:

- California passed Senate Bill 219, which amends the Climate Corporate Data Accountability Act and the Climate-Related Financial Risk Act, to allow the California Air Resources Board until July 1, 2025, to issue implementing regulations, including reporting requirements for Scope 3 emissions. Legislation was signed by the Governor on September 27, 2024, and became effective January 1, 2025.

During 2025, the Company's regulatory jurisdictions enacted the following legislation that has been approved but is not yet effective as of April 30, 2025:

- Virginia passed Senate Bill 850, which would permit a water or wastewater utility to petition the VSCC for the approval of an eligible infrastructure replacement and enhancement plan and accompanying recovery mechanism that allows for recovery of eligible infrastructure costs outside of a base rate case. Legislation was signed by the Governor on March 24, 2025, and will become effective on July 1, 2025.
- Indiana passed Senate Bill 426, which changes the timing of recovery to allow for deferred depreciation from in-service date and post in-service carrying costs and authorizes the Indiana Utility Regulatory Commission to approve mechanisms to allow utilities to invest in and earn on acquired utility assets. The language also provides critical protections from lawsuits when utilities are meeting applicable water quality standards. Legislation was signed by the Governor on April 3, 2025, and will become effective on July 1, 2025.
- Missouri passed Senate Bill 4, which provides that beginning July 1, 2026, water, sewer, and gas utilities may request the use of a future test year in a general rate case. This statute provides that at the end of the future test year, utilities must reconcile rate base and certain expenses, including annualized depreciation expense, income tax expense, payroll expense, employee benefits except for pensions and other post-retirement benefits, and rate case expenses, within 45 days to the MoPSC. Legislation was signed by the Governor on April 9, 2025, and will become effective on August 28, 2025.

Condemnation and Eminent Domain

All or portions of the Regulated Businesses' utility assets could be acquired by state, municipal or other government entities through one or more of the following methods: (i) eminent domain (also known as condemnation); (ii) the right of purchase given or reserved by a municipality or political subdivision when the original certificate of public convenience and necessity ("CPCN") was granted; and (iii) the right of purchase given or reserved under the law of the state in which the utility subsidiary was incorporated or from which it received its CPCN. The acquisition consideration related to such a proceeding initiated by a local government may be determined consistent with applicable eminent domain law or may be negotiated or fixed by appraisers as prescribed by the law of the state or the jurisdiction of the particular CPCN.

As such, the Regulated Businesses are periodically subject to condemnation proceedings in the ordinary course of business. For example, the Monterey system assets of Cal Am are the subject of a condemnation lawsuit filed by the Monterey Peninsula Water Management District (the "MPWMD") stemming from a November 2018 public ballot initiative. For more information on this matter, see Note 11—Commitments and Contingencies in the Notes to Consolidated Financial Statements.

Furthermore, the law in certain jurisdictions in which the Regulated Businesses operate provides for eminent domain rights allowing private property owners to file a lawsuit to seek just compensation against a public utility, if a public utility's infrastructure has been determined to be a substantial cause of damage to that property. In these actions, the plaintiff would not have to prove that the public utility acted negligently. In California, for example, lawsuits have been filed in connection with large-scale natural events such as wildfires. Some of these lawsuits have included allegations that infrastructure of certain utilities triggered the natural event that resulted in damage to the property. In some cases, the PUC has allowed certain costs or losses incurred by the utility to be recovered from customers in rates, but in other cases such recovery in rates has been disallowed. Also, the utility may have obtained insurance that could respond to some or all of such losses, although the utility would be at risk for any losses not ultimately subject to rate or insurance recovery or losses that exceed the limits of such insurance.

Liquidity and Capital Resources

For a general overview of the sources and uses of capital resources, see the introductory discussion in Part II, Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources in the Company's Form 10-K.

Liquidity needs for capital investment, working capital and other financial commitments are generally funded through cash flows from operations, public and private debt offerings, issuances of commercial paper and equity and, if and to the extent necessary, borrowings under American Water Capital Corp.'s ("AWCC") revolving credit facility.

The Company expects to fund future maturities of long-term debt through a combination of external debt and, to the extent available, cash flows from operations. Since the Company expects its capital investments over the next few years to be greater than its cash flows from operating activities, the Company currently plans to fund the excess of its capital investments over its cash flows from operating activities for the next five years through a combination of long-term debt and equity issuances, in addition to the remaining proceeds from the sale of HOS. The remaining proceeds from the sale of HOS include receipt of payments under a secured seller promissory note, plus interest, see Note 5—Acquisitions and Divestitures—Secured Seller Promissory Note from the Sale of Homeowner Services Group, in the Notes to Consolidated Financial Statements for additional information. If necessary, the Company may delay certain capital investments or other funding requirements or pursue financing from other sources to preserve liquidity. In this event, the Company believes it can rely upon cash flows from operations to meet its obligations and fund its minimum required capital investments for an extended period of time.

On February 27, 2025, AWCC completed the sale of $800 million aggregate principal amount of its 5.250% Senior Notes due 2035. At the closing of this offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $792 million. AWCC used the net proceeds of the offering (i) to lend funds to American Water and the Regulated Businesses; (ii) to repay at maturity AWCC's 3.400% Senior Notes due 2025; (iii) to repay commercial paper obligations of AWCC; and (iv) for general corporate purposes.

AWCC's revolving credit facility provides $2.75 billion in aggregate total commitments from a diversified group of financial institutions. The revolving credit facility is used principally to support AWCC's commercial paper program, to provide additional liquidity support, and to provide a sub limit for the issuance of up to $150 million in letters of credit. The maximum aggregate principal amount of short-term borrowings authorized for issuance under AWCC's commercial paper program is $2.6 billion. Subject to satisfying certain conditions, the credit agreement permits AWCC to increase the maximum commitment by up to an aggregate of $500 million.

Presented in the tables below are the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each:

	As of March 31, 2025		
(In millions)	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(1,000)	(84)	(1,084)
Remaining availability as of March 31, 2025	$ 1,600	$ 66	$ 1,666

(a) Total remaining availability of $1.7 billion as of March 31, 2025, was accessible through revolver draws.

	As of December 31, 2024		
(In millions)	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(880)	(82)	(962)
Remaining availability as of December 31, 2024	$ 1,720	$ 68	$ 1,788

(a) Total remaining availability of $1.8 billion as of December 31, 2024, was accessible through revolver draws.

Presented in the table below is the Company's total available liquidity:

(In millions)	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of March 31, 2025	$ 114	$ 1,666	$ 1,780
Available liquidity as of December 31, 2024	$ 96	$ 1,788	$ 1,884

The weighted-average interest rate on AWCC's outstanding short-term borrowings was approximately 4.63% and 4.65% at March 31, 2025, and December 31, 2024, respectively.

The Company believes that its ability to access the debt and equity capital markets, the revolving credit facility and cash flows from operations will generate sufficient cash to fund the Company's short-term requirements. The Company believes it has sufficient liquidity and the ability to manage its expenditures, should there be a disruption of the capital and credit markets. However, there can be no assurance that the lenders will be able to meet existing commitments to AWCC under the revolving credit facility, or that AWCC will be able to access the commercial paper or loan markets in the future on acceptable terms or at all. See Note 8—Short-Term Debt in the Notes to Consolidated Financial Statements for additional information.

As of March 31, 2025, the Company had three treasury lock agreements, with a term of 30 years and an aggregate notional amount totaling $130 million, to reduce interest rate exposure on any future debt issuances in 2025. These treasury lock agreements terminate in June 2025 and December 2025 and have an average fixed interest rate of 4.12%. The Company designated these treasury lock agreements as cash flow hedges, measured at fair value with the gain or loss recorded in accumulated other comprehensive income.

In February 2025, the Company terminated 10 treasury lock agreements designated as cash flow hedges, with a term of 10 years and an aggregate notional amount totaling $500 million, realizing a pre-tax net gain of $3 million recorded in accumulated other comprehensive income. The gain will be amortized through Interest expense over a 10-year period, in accordance with the tenor of the notes issued on February 27, 2025.

No ineffectiveness was recognized on hedging instruments for the three months ended March 31, 2025 or 2024.

Cash Flows from Operating Activities

Cash flows from operating activities primarily result from the sale of water and wastewater services and, due to the seasonality of demand, are generally greater during the warmer months. Presented in the table below is a summary of the major items affecting the Company's cash flows from operating activities:

	For the Three Months Ended March 31,	
(In millions)	**2025**	**2024**
Net income	$ 205	$ 185
Add (less):		
Depreciation and amortization	216	188
Deferred income taxes and amortization of investment tax credits	16	8
Other non-cash activities (a)	(13)	9
Changes in assets and liabilities (b)	(82)	3
Pension contributions	(11)	(11)
Net cash provided by operating activities	$ 331	$ 382

(a) Includes provision for losses on accounts receivable, pension and non-pension postretirement benefits and other non-cash, net.

(b) Changes in assets and liabilities include changes to receivables and unbilled revenues, income tax receivable, accounts payable and accrued liabilities, accrued taxes and other assets and liabilities, net.

For the three months ended March 31, 2025, cash flows provided by operating activities decreased $51 million, due to normal business operations, primarily relating to decreases in accounts payable and accrued liabilities, partially offset by an increase in net income.

Cash Flows from Investing Activities

Presented in the table below is a summary of the major items affecting the Company's cash flows from investing activities:

	For the Three Months Ended March 31,	
(In millions)	**2025**	**2024**
Capital expenditures	$ (548)	$ (609)
Acquisitions, net of cash acquired	(3)	(86)
Removal costs from property, plant and equipment retirements, net	(29)	(38)
Purchases of available-for-sale fixed-income securities	(27)	—
Proceeds from sales and maturities of available-for-sale fixed-income securities	39	—
Net cash used in investing activities	$ (568)	$ (733)

For the three months ended March 31, 2025, cash flows used in investing activities decreased $165 million, primarily due to lower capital expenditures and fewer acquisitions in the current period. The Company plans to invest approximately $3.3 billion on growth through capital investment in infrastructure and acquisitions in the Regulated Businesses in 2025.

Cash Flows from Financing Activities

Presented in the table below is a summary of the major items affecting the Company's cash flows from financing activities:

(In millions)	For the Three Months Ended March 31, 2025	2024
Proceeds from long-term debt, net of discount	$ 810	$ 1,391
Repayments of long-term debt	(531)	(449)
Net short-term borrowings (repayments) with original maturities less than three months	120	(179)
Debt issuance costs	(5)	(14)
Dividends paid	(149)	(138)
Other financing activities, net (a)	9	2
Net cash provided by financing activities	$ 254	$ 613

(a) Includes proceeds from issuances of common stock under various employee stock plans and the Company's dividend reinvestment and direct stock purchase plan, net of taxes paid, and advances and contributions in aid of construction, net of refunds.

For the three months ended March 31, 2025, cash flows provided by financing activities decreased $359 million, primarily due to lower proceeds from the issuance of long-term debt and higher repayments of long-term debt. These decreases were partially offset by higher short-term commercial paper borrowings in the current period, compared to repayments of commercial paper in the prior period.

Debt Covenants

The Company's debt agreements contain financial and non-financial covenants. To the extent that the Company is not in compliance with these covenants, an event of default may occur under one or more debt agreements and the Company, or its subsidiaries, may be restricted in its ability to pay dividends, issue new debt or access the revolving credit facility. The long-term debt indentures contain a number of covenants that, among other things, prohibit or restrict the Company from issuing debt secured by the Company's assets, subject to certain exceptions. Failure to comply with any of these covenants could accelerate repayment obligations.

Covenants in certain long-term notes and the revolving credit facility require the Company to maintain a ratio of consolidated debt to consolidated capitalization (as defined in the relevant documents) of not more than 0.70 to 1.00. On March 31, 2025, the Company's ratio was 0.58 to 1.00 and therefore the Company was in compliance with the covenants.

Security Ratings

Presented in the table below are long-term and short-term credit ratings and rating outlooks as of April 30, 2025, as issued by Moody's Ratings on January 23, 2025, and S&P Global Ratings on April 4, 2025:

Securities	Moody's Ratings	S&P Global Ratings
Rating outlook	Stable	Stable
Senior unsecured debt	Baa1	A
Commercial paper	P-2	A-1

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency, and each rating should be evaluated independently of any other rating. Security ratings are highly dependent upon the ability to generate cash flows in an amount sufficient to service debt and meet investment plans. The Company can provide no assurances that its ability to generate cash flows is sufficient to maintain its existing ratings. The Company does not have any material borrowings that are subject to default or prepayment as a result of the downgrading of these security ratings, although such a downgrading could increase fees and interest charges under its credit facility.

As part of its normal course of business, the Company routinely enters into contracts for the purchase and sale of water, power and other fuel, chemicals and other services. These contracts either contain express provisions or otherwise permit the Company and its counterparties to demand adequate assurance of future performance when there are reasonable grounds for doing so. In accordance with the contracts and applicable contract law, if the Company is downgraded by a credit rating agency, especially if such downgrade is to a level below investment grade, it is possible that a counterparty would attempt to rely on such a downgrade as a basis for making a demand for adequate assurance of future performance, which could include a demand that the Company must provide collateral to secure its obligations. The Company does not expect to post any collateral which will have a material adverse impact on the Company's results of operations, financial position or cash flows.

Access to the capital markets, including the commercial paper market, and respective financing costs in those markets, may be directly affected by the Company's securities ratings. The Company primarily accesses the debt capital markets, including the commercial paper market, through AWCC. However, the Company has also issued debt through its regulated subsidiaries, primarily in the form of mortgage bonds and tax-exempt securities or borrowings under state revolving funds, to lower the overall cost of debt.

Dividends

For discussion of the Company's dividends, see Note 6—Shareholders' Equity in the Notes to Consolidated Financial Statements for additional information.

Application of Critical Accounting Policies and Estimates

The financial condition of the Company, results of operations and cash flows, as reflected in the Company's Consolidated Financial statements, are impacted by the methods, assumptions and estimates used in the application of critical accounting policies. See Part II, Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates in the Company's Form 10-K for a discussion of its critical accounting policies. Additionally, see Note 2—Significant Accounting Policies in the Notes to Consolidated Financial Statements for updates, if any, to the significant accounting policies previously disclosed in the Company's Form 10-K.

Recent Accounting Standards

See Note 2—Significant Accounting Policies in the Notes to Consolidated Financial Statements for a description of new accounting standards recently adopted or pending adoption.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk in the normal course of business, including changes in commodity prices, equity prices and interest rates. For further discussion of its exposure to market risk, see Part II, Item 7A—Quantitative and Qualitative Disclosures about Market Risk in the Company's Form 10-K. There have been no significant changes to the Company's exposure to market risk since December 31, 2024.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

American Water maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objective.

The Company's management, including the Chief Executive Officer and the Chief Financial Officer, conducted an evaluation of the effectiveness of its disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of March 31, 2025.

Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that, as of March 31, 2025, the Company's disclosure controls and procedures were effective at a reasonable level of assurance.

Changes in Internal Control over Financial Reporting

The Company concluded that there have been no changes in internal control over financial reporting that occurred during the three months ended March 31, 2025, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The following information updates and amends the information provided in the Company's Form 10-K in Item 3—Legal Proceedings. Capitalized terms used but not otherwise defined herein have the meanings set forth in the Company's Form 10-K. In accordance with the SEC's disclosure rules, the Company has elected to disclose environmental proceedings involving the Company and a governmental authority if the amount of potential monetary sanctions, exclusive of interest and costs, that the Company reasonably believes will result from such proceeding is $1 million or more.

Alternative Water Supply in Lieu of Carmel River Diversions

Monterey Peninsula Water Supply Project

CPUC Final Approval of Water Supply Project

The CPUC's March 2023 final decision provides Cal Am with an opportunity to increase its cost cap (currently set at a total of $112 million) for certain of the Water Supply Project's extraction wells. On April 10, 2025, the CPUC issued a proposed decision, which remains subject to the issuance of a final decision, that would authorize an increase of $11 million to this cost cap for the specified extraction wells.

Coastal Development Permit Application

On March 28, 2025, the Monterey County Superior Court issued an intended decision to deny in full the joint petition for writ of mandate by the City, MCWD and MPWMD. As permitted by the court, written statements have been filed identifying issues believed to have not been addressed in the intended decision. Cal Am has been given until April 29, 2025, to respond to these statements.

Cal Am's Action for Damages Following Termination of RDP

Following a hearing, on December 5, 2024, the court granted MCWD's motion without leave to amend, dismissing all of Cal Am's remaining claims. Final judgment was entered on January 7, 2025. On February 27, 2025, Cal Am and MCWRA each filed a Notice of Appeal of the trial court's decision.

Mountaineer Gas Company Main Break

The West Virginia Business Court had set a trial date of October 7, 2025, for the matter of *Mountaineer Gas Company v. West Virginia-American Water Company.* Upon motion of the parties, the trial date has been reset to March 16, 2026, to allow for the completion of discovery.

Cybersecurity Incident Consolidated Class Action Lawsuit

Prior to filing a consolidated complaint, the plaintiffs in the putative consolidated class action lawsuit against parent company related to the Company's previously reported October 2024 cybersecurity incident, captioned *Johnsen et al. v. American Water Works Company, Inc.*, agreed to voluntarily dismiss the consolidated lawsuit without prejudice. On March 21, 2025, the parties filed a stipulation to that effect. An order of voluntary dismissal was entered by the U.S. District Court for the District of New Jersey on March 24, 2025, which concludes this lawsuit against parent company.

PFAS Multi-District Litigation

The Company has timely submitted to the PFAS MDL its Phase One claim forms pursuant to the Tyco Fire Products LP and BASF Corporation class action settlements.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, readers should carefully consider the factors discussed in Item 1A—Risk Factors in the Form 10-K, and in the Company's other filings with the SEC, which could materially affect the Company's business, financial condition, cash flows or future results. There have been no material changes from the risk factors previously disclosed in Item 1A—Risk Factors in the Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In February 2015, the Board of Directors authorized an anti-dilutive stock repurchase program to mitigate the dilutive effect of shares issued through the Company's dividend reinvestment and direct stock purchase plan and employee stock purchase and executive compensation activities. The program allows the Company to purchase up to 10 million shares of its outstanding common stock over an unrestricted period of time in the open market or through privately negotiated transactions. The program is conducted in accordance with Rule 10b-18 of the Exchange Act, and, to facilitate these repurchases, the Company enters into Rule 10b5-1 stock repurchase plans with a third-party broker, which allow the Company to repurchase shares of its common stock at times when it otherwise might be prevented from doing so under insider trading laws or because of self-imposed trading blackout periods. Subject to applicable regulations, the Company may elect to amend or cancel the program or the stock repurchase parameters at its discretion to manage dilution.

The Company did not repurchase shares of common stock during the three months ended March 31, 2025. From April 1, 2015, the date repurchases under the anti-dilutive stock repurchase program commenced, through March 31, 2025, the Company repurchased an aggregate of 4,860,000 shares of common stock under the program, leaving an aggregate of 5,140,000 shares available for repurchase under this program.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

Approval of CEO Compensation for John C. Griffith

As previously disclosed, on February 19, 2025, the Board of Directors of the Company (the "Board") designated John C. Griffith, the Company's President, to serve as the Company's President and Chief Executive Officer and as its principal executive officer, effective as of the conclusion of the Annual Meeting of Shareholders scheduled to be held on May 14, 2025 (the "Effective Time"). To provide for Mr. Griffith's 2025 compensation in his new role, the independent members of the Board, upon the unanimous recommendation of the Executive Development and Compensation Committee (the "Compensation Committee"), approved all of the following, effective as of the Effective Time: (i) an annual base salary for 2025 of approximately $1,050,000, prorated as of the Effective Time; (ii) a 2025 target award under the Company's Annual Performance Plan, prorated as of the Effective Time, equal to 120% of his then annual base salary; and (iii) additional 2025 Long-Term Performance Plan ("LTPP") restricted stock unit and performance stock unit awards granted under the Company's 2017 Omnibus Equity Compensation Plan, which (a) shall serve to bring Mr. Griffith's total LTPP award opportunity for 2025 to 430% of his annual base salary (prorated as of the Effective Time), (b) will have an aggregate market value on the Effective Date approximately equal to $734,645, and (c) will have customary terms and continued vesting provisions associated with LTPP awards granted to persons in the position of CEO. All of the foregoing compensation was reviewed and recommended for approval by the Compensation Committee based on benchmarking data and other information provided by its independent compensation consultant and is to be received by Mr. Griffith in lieu of his previously approved compensation as President.

Furthermore, Mr. Griffith will continue to participate in the Company's Executive Severance Policy and Change of Control Severance Policy and will continue to be eligible to participate in the Company's employee nonqualified deferred compensation plan and its 401(k) savings plan, and in other of the Company's customary benefits and plans offered or to be offered to senior executives of the Company. Mr. Griffith will also continue to be subject to the Company's executive stock ownership guidelines and stock retention requirements and will remain subject to the requirement thereunder that he own, by August 1, 2029, covered shares of Company common stock with an aggregate market value of at least six times his annual base salary.

On April 30, 2025, the Company and Mr. Griffith executed an employment offer letter to be effective as of the Effective Time, approved unanimously by the independent members of the Board upon the unanimous recommendation of the Compensation Committee, providing for his 2025 compensation as summarized above.

Approval of Board Chair and Committees

On April 30, 2025, upon the recommendation of the Nominating/Corporate Governance Committee of the Board (the "Nominating Committee"), the Board appointed director Karl F. Kurz to continue to serve as Board Chair and the following directors to serve as members of the Board's four standing committees, each effective as of the Effective Time, to serve until the 2026 Annual Meeting of Shareholders or until the director's earlier death, resignation or removal:

Board Committee	Members
Audit, Finance and Risk	Jeffrey N. Edwards (Chair), Patricia L. Kampling and Michael L. Marberry
Compensation	Patricia L. Kampling (Chair), Julia L. Johnson, Laurie P. Havanec and Stuart M. McGuigan
Nominating	Julia L. Johnson (Chair), Jeffrey N. Edwards and Michael L. Marberry
Safety, Environmental, Technology and Operations	Michael L. Marberry (Chair), Laurie P. Havanec and Stuart M. McGuigan

Adoption or Termination of Rule 10b5-1 Plans and Non-Rule 10b5-1 Trading Arrangements

During the three months ended March 31, 2025, none of the Company's directors or "officers" (as such term is defined in Rule 16a-1(f) promulgated under the Exchange Act) adopted or terminated (i) any contract, instruction or written plan for the purchase or sale of the Company's securities, intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) promulgated under the Exchange Act or (ii) any "non-Rule 10b5-1 trading arrangement" (as defined in Item 408(c) of Regulation S-K).

ITEM 6. EXHIBITS

Exhibit Number	Exhibit Description
2.1#	Membership Interest Purchase Agreement, dated as of October 28, 2021, by and among American Water Enterprises, LLC, American Water (USA), LLC, American Water Resources, LLC, Pivotal Home Solutions, LLC, American Water Resources Holdings, LLC, American Water Works Company, Inc. and Lakehouse Buyer Inc. (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed October 29, 2021).

Certain schedules and exhibits to this agreement have been omitted as permitted by rules or regulations of the SEC. The Company will furnish the omitted schedules and exhibits to the SEC upon request.

* Filed herewith.

** Furnished herewith.

The Membership Interest Purchase Agreement filed as Exhibit 2.1 and Amendment No. 1 and Amendment No. 2 to the Secured Seller Note Agreement filed as Exhibit 10.1 and Exhibit 10.2, respectively, to this Quarterly Report on Form 10-Q, have been included to provide investors and security holders with information regarding the terms of the respective agreements. The filing of these agreements is not intended to provide any other factual information about the parties thereto, or any of their respective subsidiaries or affiliates. The representations, warranties and covenants contained in the respective agreements (i) were made by the parties thereto only for purposes of that respective agreement and as of specific dates; (ii) were made solely for the benefit of the parties to the respective agreement; (iii) may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures exchanged between the parties in connection with the execution of the respective agreement (such disclosures include information that has been included in public disclosures, as well as additional non-public information); (iv) may have been made for the purposes of allocating contractual risk between the parties to the respective agreements instead of establishing these matters as facts; and (v) may be subject to standards of materiality applicable to the contracting parties to the respective agreements that differ from those applicable to investors.

Investors should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of the parties to the respective agreements thereto, or any of their respective subsidiaries or affiliates. Additionally, the representations, warranties, covenants, conditions and other terms of the respective agreements may be subject to subsequent waiver or modification. Moreover, information concerning the subject matter of the representations, warranties and covenants may change after the date of the respective agreement, which subsequent information may or may not be fully reflected in the Company's public disclosures. The respective agreements should not be read alone, but should instead be read in conjunction with the other information regarding the Company that is or will be contained in, or incorporated by reference into, the reports and other documents that are filed by the Company with the SEC.

SIGNATURES

Exhibit 10.3

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
RESTRICTED STOCK UNIT GRANT

This RESTRICTED STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share, (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the restricted stock unit portion of the Equity Award granted pursuant to the 2025 LTPP to the Participant shall be issued under the Plan and the terms and conditions of such restricted stock unit shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Restricted Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ units (the "Restricted Stock Units"). Each unit (a "Unit") shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable Redemption Date (as defined below).

2. Restricted Stock Unit Account. The Company shall establish and maintain a Restricted Stock Unit account as a bookkeeping account on its records (the "Restricted Stock Unit Account") for the Participant and shall record in such Restricted Stock Unit Account the number of Restricted Stock Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Restricted Stock Unit Account established for the Participant.

3. Vesting.

(a) Except as provided in subparagraph (c) below, the Restricted Stock Units shall vest on the following dates (each a "Service Date"), provided the Participant continues to be

employed by, or providing service to, the Employer (as defined in the Plan) from the Date of Grant through the applicable Service Date:

Service Date	Units Vesting
January 31, 2026	1/3
January 31, 2027	1/3
January 31, 2028	1/3

The vesting of the Restricted Stock Units is cumulative, but shall not exceed 100% of the Units subject to the Restricted Stock Units. If the foregoing schedule would produce fractional Units, the number of Units for which the Restricted Stock Units becomes vested on a Service Date shall be rounded down to the nearest whole Unit. The Restricted Stock Units shall become vested with respect to 100% of the Units subject to the Restricted Stock Units on January 31, 2028, if the Participant is employed by, or providing service to, the Employer on such date.

(b) Subject to subparagraph (c) below, if at any time prior to January 31, 2028, the Participant's employment or service with the Employer terminates for any reason, including death or disability, then all of the unvested Restricted Stock Units shall be immediately forfeited and the Participant shall not have any rights with respect to the vesting or the redemption of any portion of the Restricted Stock Unit.

(c) If at any time prior to January 31, 2028, but while the Participant is employed by or providing service to the Employer, a Change of Control (as defined below) occurs, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Restricted Stock Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the portion of the Restricted Stock Units that have not yet vested as provided in subparagraph 3(a) above shall become fully vested on the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Restricted Stock Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent or subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined below), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the portion of the Restricted Stock Units that have not yet vested as provided in subparagraph 3(a) above shall become fully vested on the date of such termination of employment or service (the "Termination Date"). For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Agreement unless the event constituting the Change of Control constitutes a change in the ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations. For the avoidance of doubt, if the Change of Control does not constitute a permitted change in control event under section 409A of the Code, then the Restricted Stock Unit shall not vest on the occurrence of the Change

of Control. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or nonsolicitation agreement between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

4. Redemption. Unless an election is made pursuant to Paragraph 5 below, the Restricted Stock Units that have become vested pursuant to Paragraph 3 shall be redeemed by the Company on the earliest of the (i) applicable Service Date, (ii) the Change of Control Date or (iii) the Termination Date, (the date of redemption is hereinafter referred to as the "Redemption Date"). As soon as administratively practicable following the applicable Redemption Date, but not later than forty-five (45) days following the Redemption Date, (or, if applicable, the Deferred Date, as defined in Paragraph 5 below), all Restricted Stock Units that become vested pursuant to Paragraph 3 above shall be redeemed and converted to an equivalent number of shares of Company Stock, and the Participant shall receive a single distribution of such shares of Company Stock, which shall be issued under the Plan.

5. Deferrals. The Participant may make an irrevocable election to defer the Redemption Date (or further defer the Deferred Date (as defined below), if applicable) of any of the Restricted Stock Units that vest, plus dividend equivalents earned on such Restricted Stock Units as described in Paragraph 6 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the new Redemption Date cannot be earlier than five (5) years from the original Redemption Date under Paragraph 4 above (or five (5) years from the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Redemption Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Redemption Date, the Participant must complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the redemption of the Participant's Restricted Stock Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Redemption Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 5, the new Redemption Date shall be referred to as the "Deferred Date."

6. Dividend Equivalents. Until the Redemption Date (or the Deferred Date, if elected), if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Restricted Stock Units credited to the Participant's Restricted Stock Unit Account as of the date of payment of any such dividend were shares of Company Stock. On the Redemption Date (or the Deferred Date, if applicable), the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were

credited to the Participant's Dividend Equivalent Account that are attributable to Units that have been forfeited as provided in Paragraph 3 above shall be immediately forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

7. Change of Control. Except as set forth in Paragraph 3(c) of this Grant, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Restricted Stock Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

8. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that with respect to any right to redemption or distribution pursuant to this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

9. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the redemption of the Restricted Stock Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock on the Redemption Date (or the Deferred Date, if applicable), the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that the shares of Company Stock obtained by the Participant upon the redemption of the Restricted Stock Units shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or compensation

recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

10. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

11. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

12. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 6), or the right to vote, with respect to any Restricted Stock Units.

13. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

14. Assignment and Transfers. No Restricted Stock Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and a Restricted Stock Unit shall be redeemed and a dividend equivalent distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Restricted Stock Unit or dividend equivalent by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

15. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and redemption of the Restricted Stock Units and payment of dividend equivalents. Any tax withholding obligation of the Employer with respect to the redemption of the Restricted Stock

Units may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

16. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Restricted Stock Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

17. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

18. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

19. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Restricted Stock Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 5 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

20. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

IN WITNESS WHEREOF, the Company has caused its duly authorized officer to execute this Grant, effective as of the Date of Grant.

AMERICAN WATER WORKS COMPANY, INC.

By: M. Susan Hardwick

Its: Chief Executive Officer

Exhibit 10.4

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
RESTRICTED STOCK UNIT GRANT

This RESTRICTED STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share, (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the restricted stock unit portion of the Equity Award granted pursuant to the 2025 LTPP to the Participant shall be issued under the Plan and the terms and conditions of such restricted stock unit shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Restricted Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ units (the "Restricted Stock Units"). Each unit (a "Unit") shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable Redemption Date (as defined below).

2. Restricted Stock Unit Account. The Company shall establish and maintain a Restricted Stock Unit account as a bookkeeping account on its records (the "Restricted Stock Unit Account") for the Participant and shall record in such Restricted Stock Unit Account the number of Restricted Stock Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Restricted Stock Unit Account established for the Participant.

3. Vesting.

(a) Except as provided in subparagraphs (c), (d), and (e) below, the Restricted Stock Units shall vest on the following dates (each a "Service Date"), provided the Participant

continues to be employed by, or providing service to, the Employer (as defined in the Plan) from the Date of Grant through the applicable Service Date:

Service Date	Units Vesting
January 31, 2026	1/3
January 31, 2027	1/3
January 31, 2028	1/3

The vesting of the Restricted Stock Units is cumulative, but shall not exceed 100% of the Units subject to the Restricted Stock Units. If the foregoing schedule would produce fractional Units, the number of Units for which the Restricted Stock Units becomes vested on a Service Date shall be rounded down to the nearest whole Unit. The Restricted Stock Units shall become vested with respect to 100% of the Units subject to the Restricted Stock Units on January 31, 2028, if the Participant is employed by, or providing service to, the Employer on such date.

(b) Subject to subparagraphs (c), (d), and (e) below, if at any time prior to January 31, 2028, the Participant's employment or service with the Employer terminates for any reason, including death or disability, then all of the unvested Restricted Stock Units shall be immediately forfeited and the Participant shall not have any rights with respect to the vesting or the redemption of any portion of the Restricted Stock Unit.

(c) If prior to January 31, 2028, the Participant's employment or service with the Employer terminates on account of Normal Retirement (as defined below), then the portion of the Restricted Stock Units that have not yet vested as provided in subparagraph 3(a) above shall continue to become vested following the Participant's termination of employment or service on account of Normal Retirement in accordance with the schedule set forth in subparagraph 3(a). For purposes of this Grant, (i) "Normal Retirement" shall mean termination of employment or service with the Employer (other than for Cause (as defined below)) after the Participant has attained age sixty (60) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof and (ii) "Cause" shall mean a finding by the Committee that the Participant (A) has breached his or her employment or service contract with the Employer, if any; (B) has engaged in disloyalty to the Employer including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (C) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (D) has breached any written noncompetition or nonsolicitation agreement between the Participant and the Employer; or (E) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

(d) If prior to January 31, 2028, the Participant's employment or service with the Employer terminates on account of Early Retirement (as defined below), then 75% of the portion of the Restricted Stock Units that have not yet vested as provided in subparagraph 3(a) above shall continue to become vested following the Participant's termination of employment or service on account of Early Retirement in accordance with the schedule set forth in subparagraph 3(a) and the remaining 25% of the portion of the Restricted Stock Units that have not vested as of the Participant's Early Retirement shall be immediately forfeited. For purposes of this Grant, "Early Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age fifty-five (55) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full

calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(e) If at any time prior to January 31, 2028, but while the Participant is employed by or providing service to the Employer, a Change of Control (as defined below) occurs, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Restricted Stock Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the portion of the Restricted Stock Units that have not yet vested as provided in subparagraph 3(a) above shall become fully vested on the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Restricted Stock Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent or subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in 3(c)), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the portion of the Restricted Stock Units that have not yet vested as provided in subparagraph 3(a) above shall become fully vested on the date of such termination of employment or service (the "Termination Date"). For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Agreement unless the event constituting the Change of Control constitutes a change in the ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations. For the avoidance of doubt, if the Change of Control does not constitute a permitted change in control event under section 409A of the Code, then the Restricted Stock Unit shall not vest on the occurrence of the Change of Control.

4. Redemption. Unless an election is made pursuant to Paragraph 5 below, the Restricted Stock Units that have become vested pursuant to Paragraph 3 shall be redeemed by the Company on the earliest of the (i) applicable Service Date, (ii) the Change of Control Date or (iii) the Termination Date, (the date of redemption is hereinafter referred to as the "Redemption Date"). As soon as administratively practicable following the applicable Redemption Date, but not later than forty-five (45) days following the Redemption Date, (or, if applicable, the Deferred Date, as defined in Paragraph 5 below), all Restricted Stock Units that become vested pursuant to Paragraph 3 above shall be redeemed and converted to an equivalent number of shares of Company Stock, and the Participant shall receive a single distribution of such shares of Company Stock, which shall be issued under the Plan. For purposes of clarity, if any Restricted Stock Units become vested pursuant to subparagraphs 3(c) or 3(d) above as a result of termination of employment or service with the Employer on account of Normal Retirement or Early Retirement, the Redemption Date for such vested Restricted Stock Units shall be the applicable Service Date or Change of Control Date to which such Restricted Stock Units would have been redeemed if the Participant had remained in the employment or service of the Employer (i.e., the Redemption Date continues to be the originally scheduled Service Date as provided in subparagraph 3(a) above or the Change of Control Date, if earlier, and is not accelerated to an earlier Service Date or to the date on which the termination of employment or service occurs).

5. Deferrals. The Participant may make an irrevocable election to defer the Redemption Date (or further defer the Deferred Date (as defined below), if applicable) of any of the Restricted Stock Units that vest, plus dividend equivalents earned on such Restricted Stock Units

as described in Paragraph 6 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the new Redemption Date cannot be earlier than five (5) years from the original Redemption Date under Paragraph 4 above (or five (5) years from the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Redemption Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Redemption Date, the Participant must complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the redemption of the Participant's Restricted Stock Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Redemption Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 5, the new Redemption Date shall be referred to as the "Deferred Date."

6. Dividend Equivalents. Until the Redemption Date (or the Deferred Date, if elected), if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Restricted Stock Units credited to the Participant's Restricted Stock Unit Account as of the date of payment of any such dividend were shares of Company Stock. On the Redemption Date (or the Deferred Date, if applicable), the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Units that have been forfeited as provided in Paragraph 3 above shall be immediately forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

7. Change of Control. Except as set forth in subparagraph 3(e) of this Grant, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Restricted Stock Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

8. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that with respect to any right to redemption or distribution pursuant to this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

9. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the redemption of the Restricted Stock Units shall be

subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock on the Redemption Date (or the Deferred Date, if applicable), the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that the shares of Company Stock obtained by the Participant upon the redemption of the Restricted Stock Units shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or compensation recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

10. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

11. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such

determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

12. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 6), or the right to vote, with respect to any Restricted Stock Units.

13. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

14. Assignment and Transfers. No Restricted Stock Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and a Restricted Stock Unit shall be redeemed and a dividend equivalent distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Restricted Stock Unit or dividend equivalent by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

15. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and redemption of the Restricted Stock Units and payment of dividend equivalents. Any tax withholding obligation of the Employer with respect to the redemption of the Restricted Stock Units may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

16. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Restricted Stock Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

17. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

18. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant,

delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

19. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Restricted Stock Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 5 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

20. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

IN WITNESS WHEREOF, the Company has caused this Grant to be executed, effective as of the Date of Grant.

AMERICAN WATER WORKS COMPANY, INC.

Exhibit 10.5

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2025 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on the Performance Goal (defined below) relating to the Company's Total Stockholder Return shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goal and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goal described in Paragraph 3 below (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goal.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock

attributable to the Performance Units is contingent upon achievement of the performance goal described in subparagraph (b) below for the Performance Period (the "Performance Goal") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) The Company's Total Stockholder Return ("TSR") (as described in subparagraph (c) below) will be compared to the TSR of the Peer Group companies set forth in Exhibit A attached hereto over the Performance Period (as defined below). The actual number of Performance Units the Participant earns may be greater or less than the Target Award, or even zero, based on the Company's TSR percentile ranking relative to the TSR performance of the companies in the Peer Group, as follows:

[INSERT RELATIVE TSR PERFORMANCE CURVE HERE]

If the Company's actual TSR performance is between measuring points, the number of Performance Units the Participant earns will be interpolated. If the Company's actual TSR performance is below the threshold, no Performance Units will be earned and all of Performance Units will be forfeited. If the Company's actual TSR performance is greater than the maximum, only the maximum number of Performance Units will be earned.

(c) TSR represents stock price performance and dividend accumulation over the Performance Period for the Company and Peer Group. For purposes of this calculation, the initial stock price and the ending stock price are determined using the twenty (20) day average stock price for December 31, 2024, and December 31, 2027, as applicable. The twenty (20) day average stock price is the average of the daily closing stock prices for the twenty (20) trading days that end on the applicable December 31. If December 31 is not a trading day, the closing stock price on the first trading day prior to December 31 shall be used. To determine stock price performance, each closing stock price shall be adjusted by a dividend adjustment factor. The dividend adjustment factor takes into account each per share dividend paid for the Performance Period as well as the effect of any appreciation in stock price by reason of deeming the dividend to be reinvested in the stock. The dividend adjusted price provides the closing price for the requested day, week, or month, adjusted for all applicable splits and dividend distributions. At the end of the Performance Period, the TSR for the Company, and for each company in the Peer Group, shall be determined pursuant to the following formula:

$$\text{TSR} = \frac{(\text{Dividend Adjusted Ending Stock Price} - \text{Dividend Adjusted Initial Stock Price})}{\text{Dividend Adjusted Initial Stock Price}}$$

The result shall be rounded to the nearest hundredth of one percent (.01%).

(d) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(f) below), the Committee will determine whether and to what extent the Performance Goal has been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(e) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change

of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent or subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in paragraph 4(c) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code"), and its corresponding regulations.

(f) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2025 and ending December 31, 2027, and the term "Peer Group" shall mean those companies included in Exhibit A. If at any time during the Performance Period a company in the Peer Group is no longer a publicly traded entity, such company shall be removed from the Peer Group as of January 1 of the year in which the company is no longer publicly traded.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraph 3(e), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goal and the requirements of this Grant are met as of the last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2026, but prior to January 31, 2027; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2027, but prior to January 31, 2028; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2028. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of Performance Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) If at any time prior to the earlier of January 31, 2026 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(c) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately

forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goal. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or nonsolicitation agreement between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2028 (the "Distribution Date"), (b) the Change of Control Date or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goal and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five (5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2025 LTPP, complete the deferral election form provided to the Participant and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the

Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

i. to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

ii. that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any

applicable clawback or compensation recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's

discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

Exhibit 10.6

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2025 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on the Performance Goal (defined below) relating to the Company's Total Stockholder Return shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goal and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goal described in Paragraph 3 below (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goal.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock

attributable to the Performance Units is contingent upon achievement of the performance goal described in subparagraph (b) below for the Performance Period (the "Performance Goal") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) The Company's Total Stockholder Return ("TSR") (as described in subparagraph (c) below) will be compared to the TSR of the Peer Group companies set forth in Exhibit A attached hereto over the Performance Period (as defined below). The actual number of Performance Units the Participant earns may be greater or less than the Target Award, or even zero, based on the Company's TSR percentile ranking relative to the TSR performance of the companies in the Peer Group, as follows:

[INSERT RELATIVE TSR PERFORMANCE CURVE HERE]

If the Company's actual TSR performance is between measuring points, the number of Performance Units the Participant earns will be interpolated. If the Company's actual TSR performance is below the threshold, no Performance Units will be earned and all of Performance Units will be forfeited. If the Company's actual TSR performance is greater than the maximum, only the maximum number of Performance Units will be earned.

(c) TSR represents stock price performance and dividend accumulation over the Performance Period for the Company and Peer Group. For purposes of this calculation, the initial stock price and the ending stock price are determined using the twenty (20) day average stock price for December 31, 2024, and December 31, 2027, as applicable. The twenty (20) day average stock price is the average of the daily closing stock prices for the twenty (20) trading days that end on the applicable December 31. If December 31 is not a trading day, the closing stock price on the first trading day prior to December 31 shall be used. To determine stock price performance, each closing stock price shall be adjusted by a dividend adjustment factor. The dividend adjustment factor takes into account each per share dividend paid for the Performance Period as well as the effect of any appreciation in stock price by reason of deeming the dividend to be reinvested in the stock. The dividend adjusted price provides the closing price for the requested day, week, or month, adjusted for all applicable splits and dividend distributions. At the end of the Performance Period, the TSR for the Company, and for each company in the Peer Group, shall be determined pursuant to the following formula:

$$\text{TSR} = \frac{(\text{Dividend Adjusted Ending Stock Price} - \text{Dividend Adjusted Initial Stock Price})}{\text{Dividend Adjusted Initial Stock Price}}$$

The result shall be rounded to the nearest hundredth of one percent (.01%).

(d) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(f) below), the Committee will determine whether and to what extent the Performance Goal has been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(e) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change

of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent or subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in paragraph 4(e) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code"), and its corresponding regulations.

(f) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2025 and ending December 31, 2027, and the term "Peer Group" shall mean those companies included in Exhibit A. If at any time during the Performance Period a company in the Peer Group is no longer a publicly traded entity, such company shall be removed from the Peer Group as of January 1 of the year in which the company is no longer publicly traded.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraphs 3(e), 4(b), or 4(c), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goal and the requirements of this Grant are met as of the last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2026, but prior to January 31, 2027; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2027, but prior to January 31, 2028; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2028. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of Performance Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement, then the Participant will earn the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goal and the requirements of this Grant are met as of the last day of the Performance Period. If the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement pursuant to this subparagraph (b), the number of Performance Units that are earned based on the Performance Goal and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Normal Retirement" shall mean termination of

employment or service with the Employer (other than for Cause) after the Participant has attained age sixty (60) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(c) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement, then the Participant will earn 75% of the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goal and the requirements of this Grant are met as of the last day of the Performance Period, and unearned Performance Units shall be immediately forfeited. If the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement pursuant to this subparagraph (c), then the number of Performance Units that are earned based on the Performance Goal and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Early Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age fifty-five (55) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(d) Except as set forth in Paragraphs 4(b) or 4(c), if at any time prior to the earlier of January 31, 2026 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(e) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goal. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or nonsolicitation agreement between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2028 (the "Distribution Date"), (b) the Change of Control Date or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goal and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five (5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2025 LTPP, complete the deferral election form provided to the Participant and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim

any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

i. to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

ii. that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or compensation recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to

withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any

notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

Exhibit 10.7

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2025 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on Performance Goals (defined below) relating to compounded earnings per share, as set forth in Exhibit A attached hereto, shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goals and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goals described in this Grant (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goals.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock

attributable to the Performance Units is contingent upon achievement of the performance goals set forth in Exhibit A attached hereto (the "Performance Goals") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(d) below), the Committee will determine whether and to what extent the Performance Goals have been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(c) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent of subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in paragraph 4(c) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations.

(d) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2025 and ending December 31, 2027.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraph 3(c), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2026, but prior to January 31, 2027; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2027, but prior to January 31, 2028; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2028. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of Performance

Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) If at any time prior to the earlier of January 31, 2026 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(c) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goals. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or non-solicitation agreement between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2028 (the "Distribution Date"), (b) the Change of Control Date, or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goals and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five (5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2025 LTPP, complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the

Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or compensation recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate

the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

"PSU GRANT B – EPS"

EXHIBIT A

PERFORMANCE GOALS

The number of Performance Units that may be earned shall be determined based on the achievement of Compounded Earnings Per Share Growth (as described below) over the Performance Period.

[INSERT COMPOUNDED EARNINGS PER SHARE GROWTH TARGET AND CALCULATION HERE]

Exhibit 10.8

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2025 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on Performance Goals (defined below) relating to compounded earnings per share, as set forth in Exhibit A attached hereto, shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goals and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goals described in this Grant (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goals.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock

attributable to the Performance Units is contingent upon achievement of the performance goals set forth in Exhibit A attached hereto (the "Performance Goals") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(d) below), the Committee will determine whether and to what extent the Performance Goals have been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(c) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent of subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in Paragraph 4(e) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations.

(d) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2025 and ending December 31, 2027.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraphs 3(c) 4(b) or 4(c), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2026, but prior to January 31, 2027; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2027, but prior to January 31, 2028; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2028. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of

Performance Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement, then the Participant will earn the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. If the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement pursuant to this subparagraph (b), the number of Performance Units that are earned based on the Performance Goals and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Normal Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age sixty (60) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(c) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement, then the Participant will earn 75% of the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period, and unearned Performance Units shall be immediately forfeited. If the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement pursuant to this subparagraph (c), then the number of Performance Units that are earned based on the Performance Goals and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Early Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age fifty-five (55) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(d) Except as set forth in Paragraphs 4(b) or 4(c), if at any time prior to the earlier of January 31, 2026 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(e) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goals. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or non-solicitation agreement

between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2028 (the "Distribution Date"), (b) the Change of Control Date, or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goals and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five (5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2025 LTPP, complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or compensation recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

Its: Board Chair

"PSU GRANT B – EPS"

EXHIBIT A

PERFORMANCE GOALS

The number of Performance Units that may be earned shall be determined based on the achievement of Compounded Earnings Per Share Growth (as described below) over the Performance Period.

[INSERT COMPOUNDED EARNINGS PER SHARE GROWTH TARGET AND CALCULATION HERE]

Exhibit 10.9

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2025 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on Performance Goals (defined below) relating to return on equity, as set forth in Exhibit A attached hereto, shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goals and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goals described in this Grant (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goals.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock

attributable to the Performance Units is contingent upon achievement of the performance goals set forth in Exhibit A attached hereto (the "Performance Goals") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(d) below), the Committee will determine whether and to what extent the Performance Goals have been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(c) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent of subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in paragraph 4(c) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations.

(d) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2025 and ending December 31, 2027.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraph 3(c), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2026, but prior to January 31, 2027; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2027, but prior to January 31, 2028; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2028. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of Performance

Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) If at any time prior to the earlier of January 31, 2026 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(c) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goals. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or non-solicitation agreement between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2028 (the "Distribution Date"), (b) the Change of Control Date, or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goals and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five (5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2025 LTPP, complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the

Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or compensation recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate

the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

"PSU GRANT C – ROE"

EXHIBIT A

PERFORMANCE GOALS

The number of Performance Units that may be earned shall be determined based on the achievement of the Return on Equity (as described below) over the Performance Period.

[INSERT RETURN ON EQUITY TARGET AND CALCULATION HERE]

Exhibit 10.10

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2025 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on Performance Goals (defined below) relating to return on equity, as set forth in Exhibit A attached hereto, shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goals and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goals described in this Grant (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goals.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock

attributable to the Performance Units is contingent upon achievement of the performance goals set forth in Exhibit A attached hereto (the "Performance Goals") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(d) below), the Committee will determine whether and to what extent the Performance Goals have been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(c) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent of subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in Paragraph 4(e) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations.

(d) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2025 and ending December 31, 2027.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraphs 3(c) 4(b) or 4(c), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2026, but prior to January 31, 2027; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2027, but prior to January 31, 2028; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2028. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of

Performance Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement, then the Participant will earn the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. If the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement pursuant to this subparagraph (b), the number of Performance Units that are earned based on the Performance Goals and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Normal Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age sixty (60) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(c) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement, then the Participant will earn 75% of the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period, and unearned Performance Units shall be immediately forfeited. If the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement pursuant to this subparagraph (c), then the number of Performance Units that are earned based on the Performance Goals and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Early Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age fifty-five (55) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(d) Except as set forth in Paragraphs 4(b) or 4(c), if at any time prior to the earlier of January 31, 2026 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(e) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goals. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or non-solicitation agreement

between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2028 (the "Distribution Date"), (b) the Change of Control Date, or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goals and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five (5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2025 LTPP, complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or compensation recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

PERFORMANCE GOALS

The number of Performance Units that may be earned shall be determined based on the achievement of the Return on Equity (as described below) over the Performance Period.

[INSERT RETURN ON EQUITY TARGET AND CALCULATION HERE]

Exhibit 10.11

April 30, 2025

Mr. John Griffith
[REDACTED]
[REDACTED]

Dear John:

On behalf of American Water Works Company, Inc. (the "Company") and its Board of Directors, we are pleased to offer you the position of President and Chief Executive Officer, effective on May 14, 2025 at the conclusion of the Company's annual shareholder meeting. As President and Chief Executive Officer of the Company, you shall have the authority to control the day-to-day operations of the Company and its corporate strategy subject to the Company's Bylaws and Delegation of Authority and any direction and instructions provided by the Company's Board of Directors. The following are the terms and conditions of your employment as the Company's President and Chief Executive Officer.

Base Salary: Your new annual salary will be approximately $1,050,000.00, which will be paid on a bi-weekly basis in accordance with American Water's standard payroll practices and will be effective May 14, 2025. Your job performance and compensation will be reviewed annually by the Executive Development and Compensation Committee and the independent members of the Board of Directors.

APP: You will remain eligible to participate in the American Water Annual Performance Plan. Your target award eligibility will increase from 100% to 120% of your annual base salary for the 2025 cycle and will be prorated based on your new base salary and target percentage level. For reference purposes, the 2025 cycle covers the period beginning on 01/01/2025 through 12/31/2025 and awards are based on several company performance objectives that were agreed upon and approved by the Executive Development and Compensation Committee and the independent members of the Board of Directors.

LTPP: You remain eligible to participate in the 2025 American Water Long Term Performance Plan (LTPP), and your target opportunity under this plan will increase from 340% to 430% of your base salary. Effective May 14, 2025, you will receive a second set of grants that reflect the prorated difference between your February 2025 grants and your new LTPP target value based on your new base salary and new LTPP target percentage. For reference purposes, awards are currently granted under the terms and conditions of the Company's 2017 Omnibus Equity Compensation Plan (the Plan), in the form of restricted stock units and performance stock units as approved by the Executive Development and Compensation Committee and the independent members of the Board of Directors. In the event of any conflict between your offer letter and the terms of the award grant documents and the Plan, the terms of the award documents and the Plan will govern.

Benefits: Your current benefits will remain unchanged and in effect, including your vacation accrual. This change in your position is not an IRS Qualified Life Event allowing you to change your American Water benefit elections, however, it is a notable event in your life. Please take this opportunity to review your health and welfare benefits and 401(k) elections to see how this transition impacts your coverage (e.g., company paid life insurance amount, HSA election, 401(k) deferral election, beneficiary designations, etc.). In addition, American Water believes your health is of critical importance for your family, our customers, shareholders, and the employees you lead. To help you take the best possible care of your health, we also have a company-sponsored Executive Health Program for our key leaders. The program focuses on your physical well-being and long-term health and consists of a thorough risk-factor analysis, advanced diagnostic screenings, extensive laboratory testing, and ongoing coaching and support. Additional services are available throughout the year, including voluntary primary care services.

Non-Qualified Deferred Compensation Plan: You will continue to be eligible to participate in our Non-Qualified Deferred Compensation Plan subject to plan rules and annual enrollment.

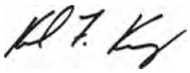
Executive Severance Policy and Change of Control Severance Policy: You will remain an eligible participant under the Executive Severance Policy and under the Change of Control Severance Policy.

Executive Stock Ownership Guidelines and Executive Stock Retention Requirements: You will continue to be subject to the stock ownership guidelines and stock retention requirements.

As a Section 16 officer of the Company, American Water may be required to disclose your compensation and/or this offer letter in SEC filings. Your signature below indicates your acceptance of our offer and your acknowledgment of this requirement of your position.

We look forward to working with you as President and Chief Executive Officer as you continue to execute on our strategy and grow the Company.

Sincerely,



Karl F. Kurz
Board Chair
American Water

I, John Griffith, understand that my employment with American Water is "at will," which means that I am not guaranteed employment or any particular job for any specified period of time. The Company or I may terminate my employment at any time, for any or no reason, with or without cause.

/s/ JOHN GRIFFITH April 30, 2025

Exhibit 10.12

March 24, 2025

Ms. Lori Sutton
[REDACTED]
[REDACTED]

Dear Lori:

On behalf of American Water Works Service Company, Inc., I am pleased to confirm your new position of Senior Vice President, Chief Human Resources Officer reporting to John Griffith, President, at our Evansville, Indiana office. The effective date of your new position is April 1, 2025. We are confident that you will find your new position to be personally rewarding and one in which you can make significant contributions to the company. ***The compensation described in this offer letter is subject to the approval of the Executive Development & Compensation Committee (ED&CC) and will not be effective until the ED&CC approves such compensation.***

Base Salary: Your new annual salary will be approximately $420,000.00, which will be paid on a bi-weekly basis in accordance with American Water's standard payroll practices and will be effective April 1, 2025. Your job performance will be reviewed annually as part of our performance management process, and you may be eligible for a merit increase in 2026.

APP: You will remain eligible to participate in the American Water Annual Performance Plan. Your target award eligibility will increase from 45% to 50% of your annual base salary for the 2025 cycle. For reference purposes, the 2025 cycle covers the period beginning on 01/01/2025 through 12/31/2025 and target awards are prorated based on your effective date. Awards from the Annual Performance Plan are based on several company performance objectives, and payments may be higher or lower than target.

LTPP: You remain eligible to participate in the 2025 American Water Long Term Performance Plan (LTPP), and your target opportunity under this plan will increase from 65% to 90% of your base salary. Effective April 1, 2025, you will receive a second set of grants that reflect the prorated difference between your February 2025 grants and your new LTPP target value based on your new base salary and new LTPP target percentage. For reference purposes, awards are currently granted under the terms and conditions of the Company's 2017 Omnibus Equity Compensation Plan (the Plan), in the form of restricted stock units and performance stock units. In the event of any conflict between your offer letter and the terms of the award grant documents and the Plan, the terms of the award documents and the Plan will govern.

Benefits: Your current benefits will remain unchanged and in effect, including your vacation accrual. This change in your position is not an IRS Qualified Life Event allowing you to change your American Water benefit elections, however, it is a notable event in your life. Please take this opportunity to review your health and welfare benefits and 401(k) elections to see how this transition impacts your coverage (e.g., company paid life insurance amount, HSA election, 401(k) paycheck election, beneficiary designations, etc.). In addition, American Water believes your health is of critical importance for your family, our customers, shareholders, and the employees you lead. To help you take the best possible care of your health, we also have a company-sponsored Executive Health Program for our key leaders. The program focuses on your physical well-being and long-term health and consists of a thorough risk-factor analysis, advanced diagnostic screenings, extensive laboratory testing, and ongoing coaching and support. Additional services are available throughout the year, including voluntary primary care services.

Non-Qualified Plan: You will continue to be eligible to participate in our Non-Qualified Deferred Compensation Plan subject to plan rules and annual enrollment.

Executive Severance Policy and Change of Control Severance Policy: You will remain an eligible participant under the Executive Severance Policy and will be an eligible participant under the Change of Control Severance Policy.

Executive Stock Ownership Guidelines and Executive Stock Retention Requirements: You will continue to be subject to the stock ownership guidelines and stock retention requirements.

As you will be a Section 16 officer of the Company, American Water may be required to disclose your compensation and/or this offer letter in future SEC filings. Your signature below indicates your acceptance of our offer and your acknowledgment of this requirement of your position. Please review all attachments and sign the Confidentiality and Intellectual Property Agreements along with this letter.

We wish you the best of luck in your new role and future opportunities with American Water!

Sincerely,

/s/ JOHN GRIFFITH

John Griffith
President
American Water

I, Lori Sutton, understand that my employment with American Water is "at will," which means that I am not guaranteed employment or any particular job for any specified period of time. The Company or I may terminate my employment at any time, for any or no reason, with or without cause.

AMERICAN WATER

CONFIDENTIALITY POLICY AND AGREEMENT

This Confidentiality Policy and Agreement ("Confidentiality Agreement") set forth your understanding and agreement with the provisions below which discuss the Company's confidential and propriety information and trade secrets. You acknowledge and agree that you are signing this Confidentiality Agreement for good and adequate consideration including your employment by or continuing employment by American Water or one of its subsidiaries (collectively, the "Company"); the access that the Company is providing you to certain confidential and proprietary information and trade secrets described below; and the Company's willingness to provide you with valuable opportunities, consideration and/or benefits. You further acknowledge that this Confidentially Agreement is in addition to existing American Water policies addressing the handling of sensitive information, cyber and information security.

The Company's Confidentiality Policy

The protection of confidential business information and trade secrets is vital to the interests and the success of the Company. In the course of employment with the Company, employees may create, discover or receive proprietary and/or confidential information including, without limitation: all information about markets, key personnel, operational methods, proprietary intellectual property, real property, plans for future developments, projects in the pipeline, bid information, manuals, books, training materials, forms and procedures, policies, customer or prospective customer lists, customer-related data, marketing plans and strategies, financial information, technical information, technical processes and methods, algorithms, documents relating to any of the foregoing, and other written and oral materials (whether electronic or on hard copy) which are related to the business of the Company (collectively, "Confidential Information"). Confidential Information includes all forms and types of financial, business, scientific, technical, economic, or engineering information, including patterns, plans, compilations, program devices, formulas, designs, prototypes, methods, techniques, processes, procedures, programs, or codes, whether tangible or intangible, and whether or how stored, compiled, or memorialized physically, electronically, graphically, photographically, or in writing if -- (A) the Company has taken reasonable measures to keep such information secret; and (B) the information derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable through proper means by, another person who can obtain economic value from the disclosure or use of the information. Confidential Information may also be "material, non-public information" as defined by federal securities laws and Company policy, both of which prohibit insider trading. Confidential Information may be contained in Company documents, computer programs, databases, investor documents, trading strategies and analytic models. Confidential Information is related to a product or service used, or intended for use, in interstate or foreign commerce.

Confidential Information must be protected as confidential and not copied, disclosed or used, directly or indirectly, at any time, other than for the Company's benefit (to the extent permitted by law), unless and until such knowledge or information is in the public domain through no wrongful act by the employee(s). Employees must not, directly or indirectly, divulge or disclose to anyone (other than the Company or any of its affiliates or any person employed or designated by such entities who need to know), publish or make use of any Confidential Information without the Company's express prior written consent; provided, however, that nothing shall prohibit or restrict an employee from participating, cooperating, or testifying in any action, investigation, or proceeding with, or providing information to, any governmental agency or legislative body, or any self-regulatory organization (collectively, the "Regulators"). Employees may engage in such activities with the Regulators without notifying or obtaining prior authorization from the Company.

Nothing in this document is intended to interfere with or discourage a good faith disclosure to any governmental entity related to a suspected violation of the law. The employee cannot and will not be held criminally or civilly liable under any federal or state trade secret law for disclosing otherwise protected trade secrets or confidential or proprietary information as long as the disclosure is made in (i) confidence to a federal, state, or local government official, directly or indirectly, or to an attorney and solely for the purpose of reporting or investigating a suspected violation of law; or (ii) a complaint or other document filed in a lawsuit or other proceeding, as long as such filing is made under seal. The Company will not retaliate against any employee in any way for a disclosure made in accordance with the law. In the event that the employee makes a disclosure, and the employee files a lawsuit against the Company alleging that the Company retaliated against the employee because of his or her disclosure, the employee may disclose the relevant trade secret or Confidential Information to his or her attorney and may use the trade secret or Confidential Information in the court proceeding only if (i) the employee ensures that any court filing that includes the trade secret or Confidential Information at issue is made under seal; and (ii) the employee does not otherwise disclose the trade secret or Confidential Information except as required by court order.

Following the cessation of employment, employees shall deliver to the Company all documents or other materials in their possession, including all copies thereof, which contain or are derived from Confidential Information, and they shall not misappropriate, utilize, disclose or infringe upon the Confidential Information of the Company or any of its affiliates (including the recreation or reconstruction of Confidential Information from memory). At the Company's request, employees must delete or destroy any and all files and/or backup files on any personal computer, telephone or storage device used for Company purposes, and, at the Company's request, deliver and/or provide access to the Company to any such devices, cloud systems, disk, thumb and/or flash drives for the Company's review and permit the Company to delete all Confidential or other Company proprietary material contained on such devices. Employees shall not analyze, reverse engineer, or otherwise seek to determine the composition or structure of any sample or device provided by the Company or the method by which such sample or device was created, except as specifically authorized by the Company in writing. All samples and devices, whether in whole or in pieces, shall be returned to the Company at its request.

A breach of this Agreement would cause irreparable harm and significant injury to the Company, the quantification of which is difficult to ascertain. Because such harm and injury could not be compensable by damages alone, the employee agrees that the Company shall have the right to enforce this Agreement by injunction (without the necessity of a bond or other security and without proving actual damages), specific performance, or other equitable relief without prejudice to any other rights and remedies available to the Company in the event of a breach of this Agreement. The employee acknowledges that: (i) an immediate and irreparable injury would occur without a seizure order; (ii) seizure of the Confidential Information would not interrupt the legitimate business operations of the employee; and (iii) an injunction would not prevent the employee from entering into an employment relationship. You further agree that the Company shall be entitled to its reasonable fees and costs if a court of competent jurisdiction issues a preliminary or permanent injunction against you or a court of competent jurisdiction finds that you breached the terms of the Agreement.

The Defend Trade Secrets Act of 2016 ("DTSA") governs the trade secret aspects of this Agreement. Otherwise, the validity, interpretation, and enforceability of this Agreement shall be governed by the laws of the State of New Jersey and the United States of America without regard to the conflict of laws principles thereof. Employees with questions regarding this Confidentiality Agreement or the Company's Confidentiality Policy including questions regarding whether any particular information constitutes "Confidential Information," the public disclosure of which is prohibited hereunder, should contact their supervisor or the Chief Compliance Officer. Employees who improperly use or disclose trade secrets or Confidential Information may be subject to disciplinary action, up to and including termination of employment, as well as legal action, even if the employee does not actually benefit from the disclosed information.

You acknowledge that you (a) have carefully read and considered the provisions of this Confidentiality Agreement and the Company's Confidentiality Policy (b) have had a reasonable opportunity to consult with an independent legal counsel of your choosing, and (c) accept this Confidentiality Agreement on the terms set forth herein, intending to be legally bound. You understand that it is your responsibility to read and comply with its contents and any revisions made to it.

AMERICAN WATER

INTELLECTUAL PROPERTY AGREEMENT

This Agreement sets forth the agreements between you and AWIP Holdings LLC ("AWIP") concerning any inventions you may make or works you may create in connection with your employment by American Water Works Company, Inc. or one of its affiliates or subsidiaries (collectively, the "Company") and your treatment of the Company's confidential and proprietary information. You acknowledge and agree that you are signing this Agreement for good and adequate consideration including (a) your employment by or continuing employment by the Company; (b) the access that the Company is providing you to certain confidential and proprietary information and trade secrets described below; and (c) the Company's willingness to provide you with valuable opportunities, consideration and/or benefits.

1.0 INVENTIONS. As used in this Agreement, the term "Inventions" means any and all inventions, ideas, and discoveries, including improvements, original works of authorship, designs, formulas, processes, methods, algorithms, computer programs or portions thereof, databases, trade secrets and proprietary information, documentation, and materials made, created, conceived or reduced to practice by you, whether alone or jointly with others.

a. Your Rights in Inventions

(i) Prior Inventions. In the space provided below, or on a separate sheet attached to this Agreement, you may list all Inventions (a) that you made prior to your employment by the Company; (b) that you claim belong to you, or that you claim an ownership interest in, or that you claim any other legal right or title in; and (c) in which you wish to retain any claimed ownership or other legal rights ("Prior Inventions"). If you do list such Prior Inventions, you hereby grant to AWIP a royalty-free, irrevocable, perpetual, worldwide license to any Prior Invention that is now or hereafter infringed by a Company product, process, or method of doing business (hereinafter "AWIP Product") if: (i) you were involved in the development or implementation of that portion of the AWIP Product which infringes your Prior Invention, or (ii) you acquiesced or permitted other Company employees to utilize your Prior Invention in the course of their development or implementation of the AWIP Product, or (iii) upon first learning of the Company's use of your Prior Invention you do not immediately notify in writing the Company's Legal Department of the Company's infringing use of your Prior Invention and the need for a license thereto. If you do not list a Prior Invention, you acknowledge and agree that no such Prior Inventions exist and, to the extent such Prior Inventions do exist, you waive any and all rights or claims of ownership to such Prior Inventions. You understand that your listing of any Prior Invention(s) here does not constitute an acknowledgment by the Company of the existence or extent of such Prior Invention, nor of your ownership of such Prior Inventions. Please do not use this space to disclose an on-going business or project, or a product that you are developing and/or distributing.

Prior Inventions (description and identifying number of patent, copyright, or patent or copyright application, if applicable):

Lori Sutton	03/24/2025
Title	Date
N/A	

Brief Description of Invention

ð A separate sheet listing Prior Inventions is attached.

(ii) Future Employee inventions. The Company acknowledges and agrees, in accordance with applicable state law, that any Inventions (a) that you develop entirely on your own time; and (b) that you develop without using the Company's equipment, supplies, facilities, or trade secret information; and (c) that do not result from any work performed by you for the Company; and (d) that do not relate, at the time of conception or reduction to practice, to the Company's business or products, or to the Company's actual or demonstrably anticipated research or development, will be owned entirely by you, even if developed by you during the time period in which you are employed by the Company.

b. AWIP's Rights In Inventions

(i) Assignment of Inventions to AWIP. You agree that all Inventions that (a) are developed using the equipment, supplies, facilities, or Proprietary Information of the Company; or (b) result from or are suggested by work performed by you for the Company; or (c) are conceived or reduced to practice during your employment by the Company and relate to the business and products, or to the actual or demonstrably anticipated research or development of the Company ("AWIP Inventions"), are the sole and exclusive property of AWIP, and you hereby assign all your right, title and interest in such AWIP Inventions to AWIP. You agree to perform any and all acts requested by AWIP, if any, to perfect this assignment.

(ii) Disclosure. You agree to make full written disclosure promptly to your direct supervisor at AWIP of any and all AWIP Inventions, and provide access to all notes, materials, source code, or other items related to AWIP Inventions.

(iii) Assignment of Moral Rights to AWIP. In addition, to the extent permitted by law, you hereby transfer and assign any "moral" rights that you may have in any AWIP Invention(s) under any copyright or other law, whether U.S. or foreign. "Moral" rights are defined as (1) the right of attribution (give credit to the author); and (2) the right of integrity in the AWIP Invention (not do something with an AWIP Invention, such as change or add to it, that would have a negative impact on the author's reputation). You agree to waive and never to assert any such "moral" rights in AWIP Inventions during or after the cessation of your employment with by the Company. You agree that AWIP, its subsidiaries, and its licensees are not required to designate you as the author of any AWIP Inventions when distributed. You also agree that the Company retains sole discretion with regard to how and for what purposes, if any, such AWIP Invention(s) are used.

c. Work for Hire

You acknowledge that all original works of authorship that are made by you (solely or jointly with others) within the scope of your employment by the Company, and that are protectable by copyright, are works made for hire, as that term is defined in the United States Copyright Act (17 U.S.C. § 101). To the extent any works created by you within the scope of your employment cannot be characterized as a work made for hire, you hereby grant, assign and transfer to AWIP all right, title and interest, including all intellectual property in and to works.

d. Protection of AWIP Inventions

You agree (at AWIP's expense) to assist AWIP in every proper way to obtain and to help AWIP enforce patents, copyrights, and other legal protections for AWIP Inventions in any and all countries. You agree to promptly execute any documents that American Water may reasonably request, or perform such legal acts that may be required, for use in obtaining or enforcing such patents, copyrights, and other legal protections.

2.0 CONFIDENTIAL AND PROPRIETARY INFORMATION. You understand that your employment by the Company creates a relationship of confidence and trust with respect to any information of a confidential, proprietary, and secret nature that may be disclosed to you or otherwise learned by you in the course of your employment at the Company, including but not limited to any confidential information of third parties disclosed to the Company. Such confidential, proprietary, and secret information includes, but is not limited to, information and material relating to past, present, or future Inventions, marketing plans, manufacturing and product plans, technical specifications, hardware designs and prototypes, business strategies, financial information, forecasts, personnel information, processes, methods, algorithms, and customer lists, and is referred to collectively in this Agreement as "Proprietary Information."

a. Confidentiality of Proprietary Information. You acknowledge and agree that your employment by the Company requires you to keep all Proprietary Information in confidence and trust for the tenure of your employment and thereafter, and that you will not use or disclose Proprietary Information without the written consent of the Company, except as necessary to perform your duties as an employee of the Company. Upon the cessation of your employment with the Company, you will promptly deliver to the Company all documents, electronically-stored information, materials and property of any kind pertaining to your work at the Company, and you agree that you will not take with you any documents, electronically-stored information, materials or copies thereof, or maintain access to such documents, information or materials, through online digital storage services, whether on paper, electronic media or storage devices, magnetic or optical media, or any other medium, containing any Proprietary Information.

3.0 PROTECTION OF INFORMATION OF OTHERS

a. Information of Others. You agree that during your employment by the Company and thereafter, you will not improperly use or disclose to the Company any confidential, or proprietary, or secret information of your former employer(s) or any other person(s). You further agree that you have not, and during your employment with the Company will not, bring any confidential, proprietary or secret information of your former employer(s) or any other person(s) onto the Company's property or place any such information on any of the Company's computer systems or servers.

4.0 NO CONFLICTING OBLIGATIONS

a. No Conflicting Outside Interests. You agree that during your employment by the Company you will not plan or engage in any other employment, occupations, consulting or other business activities or commitments competitive with or directly related to the Company's business or products, or to its actual or demonstrably anticipated research or development, nor will you engage in any other activities that conflict with your employment obligations to the Company. Activities and commitments as used herein do not include passive investments in stocks or other financial instruments.

b. No Conflicting Agreements. You represent to the Company that you have no other commitments that would hinder or prevent the full performance of your duties as a Company employee or your obligations under this Agreement, and you agree not to enter into any such conflicting agreement during your employment by the company.

c. Disclosure of Agreement. You hereby authorize the Company to notify others, including customers of the Company, and any future employers you may have, of the terms of this Agreement and your responsibilities under this Agreement.

5.0 PROTECTION OF COMPANY RELATIONSHIPS

If you are in a supervisory position, except for employees in a supervisory position in California, Illinois, and Oklahoma, during the period of your employment and for a period of one (1) year following the cessation of your employment, you will not, directly or indirectly, solicit, encourage, recruit, or take any action intended to induce Company employees or contractors to terminate their relationship with the Company.

6.0 NO IMPLIED EMPLOYMENT RIGHTS. You understand and agree that no term or provision of this Agreement confers upon you any rights to continued employment by the Company and that no term or provision of this Agreement obligates the Company to employ you for any specific period of time or interferes with or restricts your right or the Company's right to terminate your employment at any time for any reason and with or without notice, or the Company's right to terminate your employment for just cause in accordance with the applicable collective bargaining agreement if you are a union employee.

7.0 EQUITABLE RELIEF. A breach of the provisions of sections 1, 2 or 4 of this Agreement would cause irreparable harm and significant injury to the Company, the quantification of which is difficult to ascertain. Because such harm and injury could not be compensable by damages alone, you agree that the Company will have the right to enforce sections 1, 2 or 4 of this Agreement by injunction (without the necessity of a bond or other security and without proving actual damages), specific performance or other equitable relief in addition to any other rights and remedies available to the Company in the event of a breach of this Agreement. You further agree that the Company shall be entitled to its reasonable fees and costs if a court of competent jurisdiction issues a preliminary or permanent injunction against you or a court of competent jurisdiction finds that you breached the terms of the Agreement.

8.0 GENERAL PROVISIONS

a. Severability. If one or more of the provisions of this Agreement is or are deemed void or unenforceable by law, then the remaining provisions shall continue in full force and effect.

b. Governing Law. This Agreement shall be governed by the laws of the state of New Jersey, without regard to its conflicts of law principles. Any arbitration or judicial action between the parties relating to this Agreement will take place in Camden County, New Jersey, and you and the Company each consent to the personal jurisdiction of and venue in the state and federal courts within Camden County, New Jersey.

c. Successors and Assigns. This Agreement will be binding upon your heirs, executors, administrators and other legal representatives, and will be for the benefit of the Company, its successors and assigns. You specifically acknowledge and agree that the Company may assign its rights and obligations hereunder to any successor entity to the Company by operation of law or otherwise.

d. Entire Agreement. This Agreement, along with Company's CONFIDENTIALITY POLICY AND AGREEMENT of which you are also required to acknowledge receipt and understanding, sets forth the entire agreement between you and the Company relating to the subject matter of this Agreement. No modification to or amendment of this Agreement, nor any waiver of any rights under this Agreement, will be effective unless in writing signed by both you and a Company officer. Any subsequent changes in your duties, salary or compensation will not affect the validity or scope of this Agreement.

e. Compliance with Laws. You agree that you will comply, and do all things necessary for the Company to comply, with the laws and regulations of all governments where the Company does business, and with provisions of contracts between any such government or its contractors and the Company.

9.0 EMPLOYEE ACKNOWLEDGEMENT. You acknowledge that you have carefully read and considered the provisions of this Agreement, have had a reasonable opportunity to consult with an independent legal counsel of your choosing, and accept this Agreement on the terms set forth herein, intending to be legally bound.

Exhibit 10.13

SEVERANCE AGREEMENT AND GENERAL RELEASE

This Severance Agreement and General Release ("Agreement") is between American Water Works Service Company, Inc. ("American Water" or the "Company") and Melanie Kennedy ("Executive").

WHEREAS, Executive is a full-time executive employee of American Water;

WHEREAS, American Water Works Company, Inc. agreed to a separation from service with Executive effective March 1, 2025 (the "Separation Date");

WHEREAS, the Company maintains the American Water Works Company, Inc. Executive Severance Policy (the "Severance Policy") for certain key executives, Executive is an Eligible Executive, as defined and used in the Severance Policy, and Executive is eligible to receive certain severance payments and benefits under the Severance Policy as set forth herein if Executive signs, does not revoke, and fully complies with this Agreement;

WHEREAS, Executive and American Water have agreed to resolve all claims and potential claims which have been, or could have been, brought by Executive against American Water arising out of Executive's employment with American Water to date;

WHEREAS, Executive and American Water desire to enter into this Agreement to document the terms of the separation of Executive's employment with American Water, with the parties agreeing that neither party admits wrongdoing, fault, or liability whatsoever, and that nothing herein shall be construed or interpreted as an admission of any wrongdoing, fault or liability of either party.

NOW THEREFORE, in consideration of the mutual promises and releases contained herein and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the parties agree as follows:

1. **Termination of Employment.** Effective as of the Separation Date, (i) Executive's employment with the Company and its subsidiaries and affiliates (collectively, the "Company Group") will terminate in all respects, and (ii) Executive will be deemed to have resigned from any officer position with any member of the Company Group.

2. **Consideration.** Provided that Executive timely signs, does not revoke, and remains fully compliant with the terms of this Agreement, the Company will provide Executive with the following payments and benefits (the "Severance Benefits").

    a. Severance. American Water shall pay to Executive:

        i. In accordance with and as calculated pursuant to the Severance Policy, American Water will pay Executive's current base salary in the amount of $487,953 from the Separation Date through the first anniversary of the

Separation Date (the "Severance Period"), which will be paid according to American Water's regular pay schedule beginning with the first regular pay day following the Effective Date, provided that Executive (i) is not in breach of her obligations under this Agreement, and (ii) this Agreement has become effective pursuant to Section 11(g). This payment will be subject to all applicable and lawful withholdings and deductions. The first installment shall include a catch-up for any amounts that would have otherwise been paid from the Separation Date through the Effective Date of the Agreement.

ii. In addition, the Company shall make an additional supplemental cash payment to Executive of $300,000. This additional supplemental cash payment will be subject to all regular lawful withholdings and deductions and shall be paid in a lump sum within sixty (60) days after the Separation Date, provided that this Agreement has become effective pursuant to Section 11(g).

b. Annual Performance Plan Award. In accordance with and as calculated pursuant to the Severance Policy, Executive will receive a pro rata award under the Company's Annual Performance Plan (the "APP"), to the extent such payments are made under the terms of the applicable APP, to be pro-rated based on the period of time between the start of such performance year and the Separation Date (the "Pro Rata Bonus"). The Company will pay Executive the Pro Rata Bonus, less applicable and lawful withholdings and deductions, at the same time other 2025 awards are paid under the APP, but no later than March 15, 2026.

c. Group Health Insurance. If Executive participates in American Water's group health care plan on Executive's Separation Date and Executive timely elects continuing coverage through COBRA, American Water shall pay both employee and employer portions of the costs associated with maintaining this coverage through COBRA for 12 months, retroactive to April 1, 2025, subject to all regular lawful withholdings and deductions to the extent applicable. This coverage will be the same level of health, dental, and vision care that the Executive and Executive's family received immediately prior to the Separation Date. Thereafter, Executive and any eligible dependents will be entitled to continue health care coverage at Executive's sole expense for the remaining balance of the COBRA coverage period. Executive's right to COBRA health care continuation will be set forth in a separate letter.

d. Employee Assistance Program. In accordance with and as calculated pursuant to the Severance Policy, American Water will provide Executive six (6) months of continued access beginning on April 1, 2025 to the American Water Employee Assistance Program for Executive.

3. **Valid Consideration.** Executive acknowledges and agrees that the Severance Benefits: (i) would not be required by the Company's policies or procedures or by any pre-existing contractual obligation of American Water if the Executive did not enter into this

Agreement and provide the Company the release of claims and other commitments set forth herein, (ii) constitute valid consideration for the Executive's promises and obligations under this Agreement, and (iii) represent complete satisfaction of any and all compensation and benefits due to Executive from the Company, including but not limited to, under the Severance Policy (other than any of Executive's accrued benefits that vested prior to the Separation Date or as otherwise provided in Section 9).

4. **Confidentiality; Non-Disclosure; Return of Property; Disparaging Statements; References.**

a. Confidentiality. Executive understands and agrees that the circumstances of Executive's separation and the fact, terms, and contents of this Agreement shall remain confidential and shall not be disclosed by Executive or Executive's agents and representatives, with the exception of: (1) disclosure to members of Executive's immediate family, Executive's attorneys, accountants, tax or financial advisors, each of who shall be informed of this confidentiality obligation and shall agree to be bound by its terms; (2) disclosure to the Internal Revenue Service or state or local taxing authority; (3) disclosure as is expressly required or protected by law; (4) disclosure by American Water or its parent company, American Water Works Company, Inc., through a press release or in a filing with the Securities and Exchange Commission, or to a national stock exchange; (5) any disclosures made by the Executive pursuant to the whistleblower provisions in the Exchange Act (15 U.S.C. § 78u-6) and the Sarbanes Oxley Act of 2002 (18 U.S.C. § 1514A); or (6) in any action to challenge or enforce the terms of this Agreement provided that such disclosure is covered by an appropriate confidentiality order to the maximum extent permitted by the applicable authority. Nothing contained in this Agreement shall preclude Executive from initiating and/or cooperating fully with any governmental investigation. Executive's confidentiality obligation in this Section 4(a) as to the fact, terms, and contents of the Agreement does not apply if the Agreement becomes publicly available without breach of this Agreement.

b. Non-Disclosure of Confidential Information and Trade Secrets. Executive acknowledges that as an employee of American Water, Executive had access to and was entrusted with the Company's confidential and proprietary business information and trade secrets defined in this Section 4(b)(i). At all times prior to, during, and following Executive's separation from employment with American Water, except as provided in Section 10, Executive represents that she has maintained and agrees that Executive will continue to maintain such information in strict confidence and has not disclosed, used, transferred or sold and will not disclose, use, transfer or sell (directly or indirectly) such information to any third party (except as may be required by law or legal process) so long as such information or proprietary data remains confidential and has not been properly and lawfully disclosed or is not otherwise lawfully in the public domain. Executive further agrees that, at the Company's request, Executive will deliver

and/or provide access to any personal computing device, telephone, hard disk, backup tapes, cloud systems, disks or thumb or flash drives for the Company's review and permit the Company to delete all confidential and proprietary business information and trade secrets contained on such devices.

i. Definition of "Confidential and Proprietary Business Information and Trade Secrets". For purposes of this Agreement, "confidential and proprietary business information and trade secrets" includes, but is not limited to, all information about markets, key personnel, operational methods, proprietary intellectual property, real property, plans for future developments, projects in the pipeline, bid information, manuals, books, training materials, forms and procedures, policies, customer or prospective customer lists, customer related data, marketing plans and strategies, financial information, documents relating to any of the foregoing, and other written and oral materials (whether computerized or on hard copy) which are related to the business of the Company and the confidentiality of which the Company attempts to maintain with reasonable efforts and which the Company has not released to the general public.

c. Notice of Immunity for Confidential Disclosure of a Trade Secret to an Attorney, the Government or in a Court Filing. Federal law provides certain protections to individuals who disclose a trade secret to their attorney, a court, or a government official in certain, confidential circumstances. Specifically, federal law provides that an individual shall not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret under either of the following conditions:

- Where the disclosure is made (i) in confidence to a Federal, State, or local government official, either directly or indirectly, or to an attorney; and (ii) solely for the purpose of reporting or investigating a suspected violation of law; or
- Where the disclosure is made in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal. 18 U.S.C. § 1833(b)(1).

Federal law also provides that an individual who files a lawsuit for retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to the attorney of the individual and use the trade secret information in the court proceeding, if the individual (A) files any document containing the trade secret under seal; and (B) does not disclose the trade secret, except pursuant to court order. 18 U.S.C. § 1833(b)(2).

d. Return of Property. Executive returned to American Water Executive's Company-issued cell phone, access badge, laptop and other computer equipment, and company credit card. Executive represents that Executive has not retained

any copies of any and all property of the Company or Releasees in Executive's possession or control, including (without limitation) all papers, documents, business plans, project or pipeline information, correspondence, and electronic or digitally stored information containing "confidential and proprietary business information and trade secrets" as defined in Section 4(b)(i).

e. Disparaging Statements. Except as provided in Section 10, Executive agrees not to make written (to include online or other written statements) or oral statements about American Water, its affiliates, or any of the other Releasees (as defined in Section 6(a) below) that are negative or disparaging. The Company agrees to instruct the Executive Leadership Team, defined as of the Agreement's Effective Date, not to make written (to include online or written statements) or oral statements about Executive that are negative or disparaging.

f. References. Executive agrees that all requests for references will be directed solely to the attention of Marty Falkenberg, [REDACTED], and if he is no longer employed by the Company, to the Human Resources Department. Upon any request for a reference, per Company policy, the Company will solely confirm Executive's dates of employment with American Water and positions Executive held with American Water.

g. Taxes. As required by law, the Company will issue the appropriate IRS Form(s) at the appropriate time. Any payments provided for herein shall be reduced by any amounts required to be withheld by the Company from time to time under applicable federal, state or local income or employment tax laws or similar statutes or other provisions of law then in effect. Notwithstanding the foregoing, Executive agrees that (i) Executive shall be solely responsible for all taxes, including, but not limited to, income and excise taxes, imposed on Executive in respect of amounts paid to Executive by the Company under this Agreement; (ii) Executive shall not seek reimbursement from the Company for such taxes; and (iii) Executive agrees to and does hereby indemnify and hold the Company harmless against any and all tax liability, interest, and/or penalties.

5. **Non-Solicitation.**

a. Non-Solicitation.

i. Executive agrees that, during the Severance Period, Executive will not, either alone or in association with others, call on, solicit, or permit any organization directly or indirectly controlled by Executive or which may employ or engage with Executive to call on or solicit, in any manner, any Client of the Company. "Client" shall mean any corporation, partnership, association, United States military base, or United States (to include federal, state, county or local government) or foreign governmental entity that has or had an account or contract with the Company or any of its

subsidiaries, affiliates or parents during Executive's employment or on the Separation Date regardless of whether Executive has directly worked with such Client.

ii. Executive further agrees that, during the Severance Period, Executive will not directly or indirectly, either alone or in association with others, solicit, or permit any organization directly or indirectly controlled by Executive or which may employ or engage with Executive to solicit, any employee, contractor or executive of the Company to leave the employ of the Company, or solicit for employment, hire or engage as an independent contractor, or permit any organization directly or indirectly controlled by Executive or which may employ or engage with Executive to solicit for employment, hire or engage as an independent contractor, any person who was employed by or contracting with the Company at the time of the termination of Executive's employment with the Company; provided that this clause shall not apply to the solicitation, hiring or engagement of any individual whose employment with the Company has been terminated for a period of six (6) months or longer at the time of such solicitation, hiring or employment. Notwithstanding Section 5, Executive is not subject to any non-compete agreement or restriction.

b. Extension of Restrictions. If Executive violates any of the provisions of this Section 5, the duration of the provisions shall automatically be extended, and Executive shall continue to be bound by the restrictions set forth in Section 5 until a period of twelve (12) months has expired without any violation of such provisions.

c. Interpretation. If any restriction set forth in Section 5 is found by any court of competent jurisdiction to be overbroad, such restriction shall be enforceable to the maximum extend permissible by law.

d. Equitable Remedies. The restrictions contained in this Section 5 are necessary for the protection of the business and goodwill of the Company and are considered by Executive to be reasonable for such purpose. Executive agrees that any breach of this Section 5 is likely to cause the Company substantial and irrevocable damage which is difficult to measure. Therefore, in the event of any such breach or threatened breach, Executive agrees that the Company shall be entitled to preliminary and permanent injunctive relief, without the necessity of a bond or other security and without proving actual damages, as well as to an equitable accounting of all earnings, profits and other benefits arising from any violations of this Agreement, which rights shall be cumulative and in addition to any other rights or remedies to which the Company may be entitled, including but not limited to liquidated and punitive damages. Executive further agrees that the Company shall be entitled to its reasonable fees and costs if a court of competent jurisdiction issues a temporary restraining order or preliminary or permanent

injunction against the Executive or a court of competent jurisdiction finds that Executive breached the terms of the Agreement, in whole or in part, even if not all requested temporary restraining order or injunctive relief is granted.

6. **General Release of Legal Claims.**

a. Executive, on behalf of Executive and her heirs, executors, administrators, and/or assigns, does hereby release and forever discharge American Water, together with its parents, subsidiaries, affiliates, predecessors, and successor corporations and business entities, past, present and future, and its and their agents, directors, officers, partners, employees, shareholders, insurers and reinsurers, and employee benefit plans (and the trustees, administrators, fiduciaries, insurers, and reinsurers of such plans), past, present and future, and their heirs, executors, administrators, predecessors, successors, and assigns (collectively, "Releasees"), of and from any and all legally waivable claims, causes of actions, suits, lawsuits, debts, and demands whatsoever in law or in equity, known or unknown, suspected or unsuspected, which Executive ever had, now has or which Executive's executors, administrators, or assigns may have from the beginning of time to the date Executive executes this Agreement, and including, without limitation, any claims arising from or relating to Executive's employment relationship with and compensation by American Water, and the termination of such relationship, including, without limitation, any claims arising under Title VII of the Civil Rights Act of 1964 ("Title VII"), the Americans with Disabilities Act ("ADA"), ADEA, the Employee Retirement Income Security Act ("ERISA"), the Family and Medical Leave Act ("FMLA"), the ADEA, the OWBPA, New Jersey Law Against Discrimination, the New Jersey Civil Rights Act, the New Jersey Conscientious Employee Protection Act, the New Jersey Discrimination in Wages Law, the New Jersey Security and Financial Empowerment Act, the New Jersey Family Leave Insurance provisions of the New Jersey Temporary Disability Benefits Law, the New Jersey Earned Sick Leave Law, the New Jersey Domestic Partnership Act, the New Jersey Family Leave Act, the New Jersey Wage Payment Law, the New Jersey Wage and Hour Law, the New Jersey Wage Theft Act, the New Jersey Equal Pay Act, the New Jersey False Claims Act, the New Jersey Smokers' Rights Law, the New Jersey Genetic Privacy Act, the New Jersey Fair Credit Reporting Act, the New Jersey Emergency Responders Employment Protection Act, the New Jersey Millville Dallas Airmotive Plant Job Loss Notification Act (the New Jersey WARN Act), the New Jersey Compassionate Use Medical Cannabis Act, the New Jersey Secure Choice Act, the retaliation provisions of the New Jersey Workers' Compensation Law, and any and all other federal, state, or local constitutional, statutory, regulatory, or common law causes of action now or hereafter recognized, and any claims for attorneys' fees and costs. Nothing in this Agreement shall waive rights or claims that arise after the date that Executive executes this Agreement.

b. Notwithstanding the broad scope of Section 6(a), this Agreement is not intended to bar any claims that, as a matter of applicable law, whether by statute or otherwise, cannot be waived, such as claims for workers' compensation benefits, unemployment insurance benefits, and any claims that arise after the date that the Executive executes this Agreement. Nothing in this Agreement is intended to interfere with, prevent or prohibit Executive from making or asserting: (i) any claim or right Executive may have under COBRA; (ii) any claim or right Executive may have for unemployment insurance or workers' compensation benefits; (iii) any claim to vested benefits under the written terms of a qualified employee pension benefit plan; (iv) any medical claim incurred during Executive's employment that is payable under applicable medical plans or an employer-insured liability plan; (v) any claim or right that may arise after the execution of this Agreement; (vi) any claim or right Executive may have under this Agreement; (vii) any claim that is not otherwise waivable under applicable law; or (viii) any claim or right Employee may have as set forth in Section 10, including the right to file a charge with the Equal Employment Opportunity Commission ("EEOC"), National Labor Relations Board ("NLRB"), and similar state or local agencies.

c. Nothing in this Agreement prevents Executive from discussing or disclosing information about unlawful acts in the workplace, such as harassment or discrimination or any other conduct that Executive has reason to believe is unlawful.

7. **Cooperation.** Executive agrees that Executive shall cooperate with the Company or Releasees in the prosecution or defense of any claim currently pending or hereinafter pursued by or against the Company or Releasees without the payment of any additional compensation other than as set forth in this Agreement. Upon receipt of appropriate supporting documentation, American Water shall reimburse Executive for all of Executive's approved and reasonable costs and expenses incurred in connection with such cooperation. In the case of legal proceedings involving the Company or Releasees, to the extent permissible by law and except as set forth in Section 10, Executive will notify, in writing, the individual then holding the office of General Counsel, American Water Works Service Company, Inc., 1 Water Street, Camden, NJ 08102-1658, of any subpoena or other similar notice to give testimony or provide documentation within two (2) business days of receipt of the same and prior to providing any response thereto. Nothing in this Agreement shall preclude Executive from participating in and fully cooperating with any governmental investigation.

8. **Business Expenses and Compensation.** Executive acknowledges and agrees that (i) should Executive execute and not revoke this Agreement, the consideration set forth in this Agreement is in complete satisfaction of any and all compensation and benefits due to Executive from the Company, and that no further payments, compensation, benefits or other amounts are owed or will be paid to Executive by the Company, unless specifically described in this Agreement; (ii) Executive has been reimbursed by American Water for

all business expenses incurred by Executive and that no other reimbursements are owed to Executive; and (iii) Executive has not suffered any on-the-job injury for which Executive has not already filed a claim.

9. **Accrued Benefits.** In addition to the consideration provided under this Agreement, following the Separation Date, Executive will be entitled to receive (i) any accrued, but unused, vacation as of the Separation Date, which will be paid to Executive on the first Company payroll date that follows the Separation Date; and (ii) any accrued or owing, but not yet paid, vested benefits under the Company's 401(k) plan, pension plan, nonqualified deferred compensation plan, and post-employment retirement plan and any other plan in which Executive may have participated, will be paid to Executive at the times provided under such plans. Any restricted stock units and performance stock unit grants that were granted to Executive under the Company's Long Term Performance Plan ("LTPP") that are outstanding as of the Separation Date will be subject to the terms and conditions of the respective grant agreements covering such grants, and accordingly any unvested awards granted under the LTPP will be forfeited without consideration or further action on the part of the Company or Executive.

10. **Permitted Conduct.** Nothing in this Agreement shall prohibit or restrict Executive from lawfully (a) initiating communications directly with, cooperating with, providing information to, causing information to be provided to, filing a charge or complaint with, or otherwise participating, testifying, or assisting in any investigation or proceeding by any governmental or regulatory agency, entity, or official(s) including the EEOC, the NLRB, and the Securities and Exchange Commission (collectively, "Governmental Authorities") regarding a possible violation of any law; (b) responding to any inquiry or legal process directed to Executive individually (and not directed to the Company and/or its subsidiaries) from any such Governmental Authorities; or (c) making any other disclosures that are protected under the whistleblower provisions of any applicable law. Executive is not required to advise or seek permission from the Company before engaging in any such activity. Notwithstanding the foregoing, Executive understands and agrees that, pursuant to this Agreement (i) Executive is waiving any right to recover monetary damages or any other form of personal relief from the Company and Releasees in connection with any such charge, complaint, investigation, or proceeding; and (ii) to the extent Executive receives any personal or monetary relief in connection with any such charge, complaint, investigation, or proceeding, the Company and Releasees will be entitled to an offset for the payments, benefits, and other items of value provided for in Section 2 of this Agreement to the fullest extent permitted by law; ***provided, however,*** that this Agreement does not impact Executive's ability to receive and retain an award from a government-administered whistleblower award program for providing information directly to a government agency. Please take notice that federal law provides criminal and civil immunity to federal and state claims for trade secret misappropriation to individuals who disclose a trade secret to their attorney, a court, or a government official in certain, confidential circumstances that are set forth at 18 U.S.C. §§ 1833(b)(1) and 1833(b)(2), related to the reporting or investigation of a suspected violation of the law, or in connection with a lawsuit for retaliation for reporting a suspected violation of the law.

11. **Acknowledgements.** Executive hereby certifies and acknowledges that:

a. Executive has read the terms of this Agreement and that Executive understands its terms and effects, including the fact that Executive has agreed to **REMISE, RELEASE, AND FOREVER DISCHARGE** Releasees from all claims set forth in Section 6(a);

b. Executive is receiving consideration which is in addition to anything of value to which Executive otherwise would have been entitled had Executive not executed this Agreement;

c. Executive enters into this Agreement knowingly and voluntarily without any coercion on the part of any person or entity;

d. Executive was given adequate time to consider all implications and to freely and fully consult with and seek the advice of whomever Executive deemed appropriate;

e. Executive was advised in writing, by way of this Agreement, to consult an attorney before signing this Agreement;

f. Executive has been given twenty-one (21) calendar days within which to consider this Agreement (the "Consideration Period") and, in the event that Executive signs this Agreement and returns it back to the Company during this Consideration Period, said signing constitutes a knowing and voluntary waiver of this Consideration Period. Executive further understands that any changes to this Agreement, whether material or immaterial, do not restart the Consideration Period;

g. After Executive executes this Agreement, Executive has a period of seven (7) calendar days within which Executive may revoke this Agreement (the "Revocation Period"). If the seventh day is a weekend or national holiday, Executive has until the next business day to revoke. If Executive elects to revoke, Executive shall notify Stacy Mitchell, General Counsel, American Water Works Service Company, Inc., 1 Water Street, Camden, NJ 08102-1658, [REDACTED], in writing of Executive's revocation. Unless revoked within this period, this Agreement becomes effective on the eighth (8^{th}) day after Executive signs the Agreement (the "Effective Date");

h. Executive understands that she will not be entitled to receive the Severance Benefits unless and until (i) Executive executes this Agreement within the Consideration Period, but no earlier than the Separation Date; (ii) the seven (7) day Revocation Period expires without Executive having exercised Executive's

right of revocation; and (iii) Executive has complied with her obligations under the Agreement; and

i. Executive does not waive rights or claims that may arise after the date this Agreement is executed.

12. **Indemnification and Similar Rights.** Nothing contained in this Agreement shall be construed to alter, limit, or release any right to indemnification, advanced payment of expenses, or similar rights that the Executive may have pursuant to the Company's bylaws, other governance instruments, insurance coverage, or applicable law relating to actions by the Executive on behalf of the Company within the scope of and during the course of her employment with the Company.

13. **Section 409A.** To the extent applicable, this Agreement is intended to comply with, or be exempt from, the applicable provisions of section 409(A) of the Internal Revenue Code (the "Code"). Accordingly, all provisions herein are intended to be construed and interpreted to comply with section 409A of the Code or an exemption therefrom. Further, for purposes of section 409A of the Code, it is intended that each payment provided for hereunder, including each payment under a right to receive installment payments, be treated as a separate payment. Executive agrees and understands that neither the Company nor any of the other Releasees (i) have any obligation to indemnify or otherwise protect Executive from the obligation to pay any taxes pursuant to section 409A of the Code and (ii) makes or has made any representation, warranty or guarantee to Executive of compliance under section 409A of the Code.

14. **General Terms.**

a. Notices. All notices, demands or other communications to be given or delivered under or by reason of the provisions of this Agreement shall be in writing and shall be deemed to have been given when delivered personally to the recipient, two (2) business days after the date when sent to the recipient by reputable express courier service (charges prepaid) or four (4) business days after the date when mailed to the recipient by certified or registered mail, return receipt requested and postage prepaid. Such notices, demands and other communications shall be sent to Executive and to the Company at the addresses set forth below:

If to Executive:

Melanie Kennedy, at the address on file in the Company's payroll records

If to Company:

Stacy Mitchell
Executive Vice President, General Counsel
American Water Works Service Company, Inc.

1 Water Street
Camden, NJ 08102

or to such other address or to the attention of such other person as the recipient party has specified by prior written notice to the sending party.

b. Entire Agreement. This Agreement constitutes and contains the entire agreement and understanding concerning Executive's employment and termination thereof, and the other subject matters addressed herein between the parties and supersedes and replaces all prior negotiations and all prior agreements proposed or otherwise, whether written or oral, concerning the subject matter hereof.

c. Modification. This Agreement can be modified only by a writing signed by both Executive and a named officer of the Company.

d. Assignment. All of the terms and provisions of this Agreement shall be binding upon and inure to the benefit of and be enforceable by the respective heirs, executors, administrators, legal representatives, successors and assigns of the Company and Executive. Executive has not purported to assign any rights or obligations under this Agreement at the time of its execution.

e. Interpretation of Agreement. If any provision of this Agreement or application thereof to anyone under any circumstances is adjudicated to be invalid or unenforceable in any jurisdiction, such invalidity or unenforceability shall not affect any other provision or application of this Agreement which can be given effect without the invalid or unenforceable provision or application and shall not invalidate or render unenforceable such provision or application in any other jurisdiction. Notwithstanding, the foregoing, if the release is deemed unenforceable then Executive shall not be entitled to the consideration provided by this Agreement, which shall be repaid to the Company.

f. Choice of Law and Forum. This Agreement shall be governed by the substantive law of the state of New Jersey without regard to its conflict of law rules.

g. Arbitration. The parties acknowledge and agree that the Company is engaged in interstate commerce. The Federal Arbitration Act applies to this Agreement and shall govern the interpretation, enforcement, and arbitrability of claims under this Agreement. The parties agree that any and all disputes arising out of the terms of this Agreement, their interpretation, and any of the matters herein released, shall be subject to arbitration in Camden County, New Jersey, to the extent permitted by applicable law ("Covered Claims"). The parties understand and agree that the arbitration shall be conducted by JAMS in accordance with the JAMS Employment Arbitration Rules and Procedures and the JAMS Policy on Employment Arbitration Minimum Standards of Procedural Fairness in effect at the time the dispute arises to the extent not inconsistent with the terms of this

Agreement ("JAMS Rules"), provided, however, that the arbitrator shall allow the discovery authorized under the governing law as set forth below for a state court proceeding. The arbitrator shall render a written award and opinion. The JAMS Rules may be found on the Internet at www.jamsadr.com. The demand for arbitration must be filed within the statute of limitations applicable to the claim on which arbitration is sought. To the extent permitted by law, all claims covered by this Section 14(g) must be brought and pursued in arbitration on an individual basis, meaning for injuries or violations directly experienced by the parties themselves. The parties waive any right to class or collective procedures, which means that they waive any right to litigate in court or in arbitration on a class or collective basis. The parties agree that they will not submit, initiate, or participate in any litigation on a class or collective basis. The parties also agree that the arbitrator will have no power to adjudicate or award remedies for violations and/or injuries that a party to the arbitration did not directly experience itself. Claims may not be joined or consolidated in arbitration with disputes brought by other individual(s) or for violations suffered by other individual(s), unless agreed to in writing by all parties. Similarly, no arbitration award or decision will have any preclusive effect as to issues or claims in any dispute with anyone who is not a named party to the arbitration. If, for any reason, any portion of the above waivers of claim joinder and to not proceed on a class/collective basis are held unenforceable or invalid, then a court of competent jurisdiction, not an arbitrator, will decide the claim or portion of the claim which was held unenforceable, provided that if any portion of the waiver remains valid, the claim will be heard and enforced in arbitration. Further, all individual Covered Claims will remain subject to arbitration. Any claim that must be decided in court pursuant to this provision shall be stayed until the arbitration is concluded unless such stay is contrary to applicable law. The decision of the arbitrator shall be final, conclusive, and binding on the parties to the arbitration. The parties agree that the prevailing party in any arbitration shall be entitled to injunctive relief in any court of competent jurisdiction to enforce the arbitration award. The parties agree that the Company will pay reasonable arbitration fees, except that if Executive initiates a claim (other than for non-payment under the Agreement), Executive will pay any required filing fee up to a maximum of either $400 or the amount required to initiate a claim in court (whichever is lower). Each party shall separately pay for its respective counsel fees and expenses. The arbitrator will not have authority to award attorneys' fees unless a statute or contract at issue in the dispute authorizes the award of attorneys' fees to the prevailing party, in which case the arbitrator shall have the authority to make an award of attorneys' fees as required or permitted by applicable law. The parties agree that the Company will have 30 days after the date an invoice is received for amounts owed to the arbitrator to pay arbitration fees that the Company does not contest. As to arbitration fees the Company does contest, the parties agree that the Company must submit a dispute within 30 days after receiving the invoice or it must pay the invoice. Arbitration fees for hearing the dispute will not be due from the arbitration service more than 45 days before commencement of the hearing. The

parties hereby agree to waive their right to have any dispute between them resolved in a court of law by a judge or jury. Notwithstanding the foregoing, this section will not prevent either party from seeking injunctive relief (or any other provisional remedy) from any court having jurisdiction over the parties and the subject matter of their dispute relating to this Agreement and any agreements incorporated herein by reference. Should any part of the arbitration agreement contained in this section conflict with any other arbitration agreement between the parties, the parties agree that this arbitration agreement shall govern.

Remainder of Page Left Blank Intentionally

The Company and Executive have carefully read and understand all of the provisions of this Agreement. They enter into this Agreement freely, knowingly, and voluntarily. In entering into this Agreement, neither the Company nor Executive is relying upon any representations or promises not expressly set forth in this Agreement. Intending to be legally bound to this Agreement, the Company's representative and Executive sign their names below.

Executive is not permitted to sign this Agreement until March 1, 2025. If Executive signs this Agreement on or before March 1, 2025, it will be disregarded and will need to be re-signed. None of the consideration described in this Agreement will be provided to the Executive unless the Agreement is properly executed.

Exhibit 31.1

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER

(Pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934, as amended,
as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002)

I, M. Susan Hardwick, certify that:

1. I have reviewed this quarterly report on Form 10-Q of American Water Works Company, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 31.2

CERTIFICATION OF PRINCIPAL FINANCIAL OFFICER

(Pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934, as amended,
as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002)

I, David M. Bowler, certify that:

1. I have reviewed this quarterly report on Form 10-Q of American Water Works Company, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Throughout this Quarterly Report on Form 10-Q ("Form 10-Q"), unless the context otherwise requires, references to the "Company" and "American Water" mean American Water Works Company, Inc. and all of its subsidiaries, taken together as a whole. References to the "parent company" mean American Water Works Company, Inc., without its subsidiaries.

The Company maintains a website at *https://amwater.com* and an Investor Relations website at *https://ir.amwater.com*. Information contained on the Company's websites shall not be deemed incorporated into, or to be a part of, this report, and any website references included herein are not intended to be made through active hyperlinks.

FORWARD-LOOKING STATEMENTS

Statements included in Part I, Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations and in other sections of this Form 10-Q are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as "intend," "plan," "estimate," "believe," "anticipate," "expect," "predict," "project," "propose," "assume," "forecast," "likely," "uncertain," "outlook," "future," "pending," "goal," "objective," "potential," "continue," "seek to," "may," "can," "should," "will" and "could" or the negative of such terms or other variations or similar expressions. Forward-looking statements may relate to, among other things: the Company's future financial performance, liquidity and cash flows; the timing and amount of rate and revenue adjustments, including through general rate case filings, filings for infrastructure surcharges and other governmental agency authorizations and proceedings, and filings to address regulatory lag; the Company's ability to execute its current and long-term business, operational, capital expenditures and growth plans and strategies; the timing and outcome of pending or future acquisition activity, and the ability to achieve organic customer growth; the ability of the Company's California subsidiary to obtain adequate alternative water supplies in lieu of diversions from the Carmel River; the amount, allocation and timing of projected capital expenditures and related funding requirements; the Company's ability to repay or refinance debt; the future impacts of increased or increasing financing costs, inflation and interest rates; the Company's ability to finance current and projected operations, capital expenditure needs and growth initiatives by accessing the debt and equity capital markets and sources of short-term liquidity; the outcome and impact on the Company of governmental and regulatory investigations, class action lawsuits, and other litigation and legal proceedings, and related potential fines, penalties and other sanctions; the ability to meet or exceed the Company's stated environmental and sustainability goals, including its greenhouse gas ("GHG") emission reduction, water delivery efficiency and water system resiliency goals; the ability to complete, and the timing and efficacy of, the design, development, implementation and improvement of technology and other strategic initiatives; the Company's ability to comply with new and changing environmental regulations; the ability to capitalize on existing or future utility privatization opportunities; trends in the water and wastewater industries in which the Company operates, including macro trends with respect to the Company's efforts and projects related to customer, technology and work efficiency and execution; regulatory, legislative, tax policy or legal developments; and impacts that future significant tax legislation may have on the Company and on its business, results of operations, cash flows and liquidity.

Forward-looking statements are predictions based on the Company's current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results, levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. These forward-looking statements are subject to a number of estimates, assumptions, known and unknown risks, uncertainties and other factors. The Company's actual results may vary materially from those discussed in the forward-looking statements included herein as a result of the following important factors:

- the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates;
- the timeliness and outcome of regulatory commissions' and other authorities' actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions;
- changes in customer demand for, and patterns of use of, water and energy, such as may result from conservation efforts, or otherwise;
- limitations on the availability of the Company's water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors;
- a loss of one or more large industrial or commercial customers due to adverse economic conditions or other factors;
- present and future proposed changes in laws, governmental regulations and policies, including with respect to the environment (such as, for example, potential improvements or changes to existing Federal regulations with respect to lead and copper service lines and galvanized steel pipe), health and safety, data and consumer privacy, security and protection, water quality and water quality accountability, contaminants of emerging concern (including without limitation per- and polyfluoroalkyl substances (collectively, "PFAS")), public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations;
- the Company's ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulations and policies with respect to data and consumer privacy, security and protection;
- weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares;
- the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions;

- the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of or maintain, update, redesign and/or replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses;
- exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means, and impacts from required or voluntary public and other disclosures, as well as civil class action and other litigation or legal, regulatory or administrative proceedings, related thereto;
- the Company's ability to obtain permits and other approvals for projects and construction, update, redesign and/or replacement of various water and wastewater facilities;
- changes in the Company's capital requirements;
- the Company's ability to control operating expenses and to achieve operating efficiencies, and the Company's ability to create, maintain and promote initiatives and programs that support the affordability of the Company's regulated utility services;
- the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers;
- the Company's ability to obtain and have delivered adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, power and other fuel, water and other raw materials, and to address or mitigate supply chain constraints that may result in delays or shortages in, as well as increased costs of, supplies, products and materials that are critical to or used in the Company's business operations;
- the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to:
    - acquiring, closing and successfully integrating regulated operations, including without limitation the Company's ability to (i) obtain required regulatory approvals for such acquisitions, (ii) prevail in litigation or other challenges related to such acquisitions, and (iii) recover in rates the fair value of assets of the acquired regulated operations;
    - the Company's Military Services Group ("MSG") entering into new military installation contracts, price redeterminations, and other agreements and contracts, with the U.S. government; and
    - realizing anticipated benefits and synergies from new acquisitions;
- risks and uncertainties following the completion of the sale of the Company's Homeowner Services Group ("HOS"), including:
    - the Company's ability to receive amounts due, payable and owing to the Company under the amended secured seller note when due; and
    - the ability of the Company to redeploy successfully and timely the net proceeds of this transaction into the Company's Regulated Businesses;
- risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement, security and cybersecurity regulations;
- cost overruns relating to improvements in or the expansion of the Company's operations;
- the Company's ability to successfully develop and implement new technologies and to protect related intellectual property;
- the Company's ability to maintain safe work sites;
- the Company's exposure to liabilities related to environmental laws and regulations, including those enacted or adopted and under consideration, and the substances related thereto, including without limitation copper, lead and galvanized steel, PFAS and other contaminants of emerging concern, and similar matters resulting from, among other things, water and wastewater service provided to customers;
- the ability of energy providers, state governments and other third parties to achieve or fulfill their GHG emission reduction goals, including without limitation through stated renewable portfolio standards and carbon transition plans;
- changes in general economic, political, business and financial market conditions;
- access to sufficient debt and/or equity capital on satisfactory terms and as needed to support operations and capital expenditures;
- fluctuations in inflation or interest rates, and the Company's ability to address or mitigate the impacts thereof;
- the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions;

- fluctuations in the value of, or assumptions and estimates related to, its benefit plan assets and liabilities, including with respect to its pension and other post-retirement benefit plans, that could increase expenses and plan funding requirements;
- changes in federal or state general, income and other tax laws, including (i) future significant tax legislation or regulations (including without limitation impacts related to the Corporate Alternative Minimum Tax), and (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs;
- migration of customers into or out of the Company's service territories and changes in water and energy consumption resulting therefrom;
- the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, including without limitation litigation and other proceedings with respect to the water system assets of the Company's California subsidiary ("Cal Am") located in Monterey, California (the "Monterey system assets"), or the assertion by private landowners of similar rights against such utility subsidiaries;
- any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained;
- the incurrence of impairment charges, changes in fair value and other adjustments related to the Company's goodwill or the value of its other assets;
- labor actions, including work stoppages and strikes;
- the Company's ability to retain and attract highly qualified and skilled employees and talent;
- civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and
- the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above, and the risk factors and other statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2024 (the "Form 10-K") and in this Form 10-Q, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements the Company makes shall speak only as of the date this Form 10-Q was filed with the U.S. Securities and Exchange Commission ("SEC"). Except as required by the federal securities laws, the Company does not have any obligation, and it specifically disclaims any undertaking or intention, to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances or otherwise. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

American Water Works Company, Inc. and Subsidiary Companies
Notes to Consolidated Financial Statements (Unaudited)
(Unless otherwise noted, in millions, except per share data)

Note 1: Basis of Presentation

The unaudited Consolidated Financial Statements included in this report include the accounts of American Water Works Company, Inc. and all of its subsidiaries (the "Company" or "American Water"), in which a controlling interest is maintained after the elimination of intercompany balances and transactions. The financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") for interim financial reporting, and the rules and regulations for reporting on Quarterly Reports on Form 10-Q ("Form 10-Q"). Accordingly, they do not contain certain information and disclosures required by GAAP for comprehensive financial statements. In the opinion of management, all adjustments necessary for a fair statement of the financial position as of March 31, 2025, and the results of operations and cash flows for all periods presented, have been made. All adjustments are of a normal, recurring nature, except as otherwise disclosed.

The unaudited Consolidated Financial Statements and Notes included in this report should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2024 ("Form 10-K"), which provides a more complete discussion of the Company's accounting policies, financial position, operating results and other matters. The results of operations for interim periods are not necessarily indicative of the results that may be expected for the year, primarily due to the seasonality of the Company's operations.

Note 2: Significant Accounting Policies

New Accounting Standards

Presented in the table below are recently issued accounting standards that have not yet been adopted by the Company as of March 31, 2025:

Standard	Description	Date of Adoption	Application	Effect on the Consolidated Financial Statements
Income Taxes	The guidance in this standard requires disclosure of a tax rate reconciliation table, in both percentages and reporting currency amounts, which includes additional categories of information about federal, state, and foreign income taxes and provides further details about reconciling items in certain categories that meet a quantitative threshold. The guidance also requires an annual disclosure of income taxes paid, net of refunds, disaggregated by federal, state, and foreign taxes paid, and further disaggregated by jurisdiction based on a quantitative threshold. The standard includes other disclosure requirements and eliminates certain existing disclosure requirements.	Annual periods beginning after December 15, 2024	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements.
Income Statement Disaggregation	The guidance in this standard enhances disclosures related to income statement expenses to further disaggregate expenses in the footnotes to the financial statements. The standard requires disaggregation of any relevant expense caption presented on the face of the income statement that contains the following expense categories: purchases of inventory, employee compensation, depreciation, intangible asset amortization, and depletion. Further, the standard requires disclosure of the total amount and the entity's definition of selling expenses.	Annual periods beginning after December 15, 2026 and interim periods within fiscal years beginning after December 15, 2027	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.
Induced Conversions of Convertible Debt Instruments	The guidance in this standard clarifies the requirements for determining whether to account for certain settlements of convertible debt instruments as induced conversions or extinguishments. The guidance requires an entity to account for a settlement as an induced conversion if the inducement offer includes the issuance of all of the consideration issuable under the conversion privileges provided in the terms of the existing convertible debt instrument.	Annual periods beginning after December 15, 2025 and interim reporting period within those annual reporting periods	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.

Property, Plant and Equipment

The New Jersey Economic Development Authority ("NJEDA") determined that the Company was qualified to receive $161 million in tax credits in connection with its capital investment in its corporate headquarters in Camden, New Jersey. The Company was qualified to receive the tax credits over a 10-year period commencing in 2019.

In the first quarter of 2024, the NJEDA issued the utilization certificate for the 2021 tax credits to the Company in the amount of $16 million. The Company sold the tax credits to an external party for $15 million. As of March 31, 2025, the Company had current assets of $15 million included in Other and $75 million of long-term assets included in Other on the Consolidated Balance Sheets for the 2023 through 2028 tax credits. As of December 31, 2024, the Company had no current assets and $90 million of long-term assets included in Other on the Consolidated Balance Sheets for the 2023 through 2028 tax credits. The Company has made the necessary annual filings for the years ended December 31, 2024 and 2023. The submitted filings are under review by the NJEDA and it is expected that the Company will receive final NJEDA approval and monetize the 2023 tax credits in 2025 and the 2024 tax credits in 2026.

Cash, Cash Equivalents and Restricted Funds

Presented in the table below is a reconciliation of the cash and cash equivalents and restricted funds amounts as presented on the Consolidated Balance Sheets to the sum of such amounts presented on the Consolidated Statements of Cash Flows for the periods ended March 31:

	2025	2024
Cash and cash equivalents	$ 114	$ 584
Restricted funds	18	42
Restricted funds included in other long-term assets	25	—
Cash, cash equivalents and restricted funds as presented on the Consolidated Statements of Cash Flows	$ 157	$ 626

Allowance for Uncollectible Accounts

Allowances for uncollectible accounts are maintained for estimated probable losses resulting from the Company's inability to collect receivables from customers. Accounts that are outstanding longer than the payment terms are considered past due. A number of factors are considered in determining the allowance for uncollectible accounts, including the length of time receivables are past due, previous loss history, current economic and societal conditions and reasonable and supportable forecasts that affect the collectability of receivables from customers. The Company generally writes off accounts when they become uncollectible or are over a certain number of days outstanding.

Presented in the table below are the changes in the allowance for uncollectible accounts for the three months ended March 31:

	2025	2024
Balance as of January 1	$ (53)	$ (51)
Amounts charged to expense	(10)	(5)
Amounts written off	6	7
Balance as of March 31	$ (57)	$ (49)

Reclassifications

Certain reclassifications have been made to prior periods in the Consolidated Financial Statements and Notes to conform to the current presentation.

Note 3: Regulatory Matters

General Rate Cases

The table below summarizes the annualized incremental revenues, assuming a constant sales volume and customer count, resulting from general rate case authorizations that became effective during 2025. The amounts include reductions for the amortization of the excess accumulated deferred income taxes ("EADIT") that are generally offset in income tax expense.

	Effective Date	Amount
General rate cases by state:		
Virginia	February 24, 2025 (a)	$ 15
Tennessee	January 21, 2025	1
California, Step Increase	January 1, 2025	17
Illinois	January 1, 2025	105
Total general rate case authorizations		$ 138

(a) Interim rates were effective May 1, 2024, and the difference between interim and final approved rates were subject to refund. The Virginia State Corporation Commission issued its final order on February 24, 2025.

On February 24, 2025, the Virginia State Corporation Commission issued an order approving the September 19, 2024, joint "black box" settlement of the general rate case filed by the Company's Virginia subsidiary. The general rate case order approves the stipulated $15 million annualized increase in water and wastewater revenues. Interim water and wastewater rates became effective May 1, 2024, with the difference between interim and final approved rates subject to refund. The requested annualized revenue increase was driven primarily by more than $110 million of incremental capital investments made and to be made between May 2023 and April 2025. For purposes of the general rate case, the Virginia subsidiary's view of its rate base is $369 million. The general rate case order also approved, solely for purposes of the Virginia subsidiary's future filings requiring a stated cost of capital and/or capital structure (including its annual information and water and wastewater infrastructure surcharge filings), a return on equity of 9.70% and a capital structure consisting of an equity component of 45.67% and a debt and other component of 54.33%, which also represents the Virginia subsidiary's view of its return on equity and capital structure in this general rate case.

On January 21, 2025, the Tennessee Public Utility Commission (the "TPUC") approved a motion authorizing an adjustment of water base rates requested in a rate case filed on May 1, 2024, by the Company's Tennessee subsidiary. The TPUC approved an increase of $1 million in annualized revenues, excluding previously recovered infrastructure surcharges of $18 million, based on an authorized return on equity of 9.70%, authorized rate base of approximately $300 million, a common equity ratio of 44.19% and a debt ratio of 55.81%. This adjustment took effect on January 21, 2025, and is driven primarily by approximately $173 million in capital investments made and to be made by the Tennessee subsidiary through December 2025.

On January 14, 2025, the California Public Utilities Commission ("CPUC") granted the Company's California subsidiary's request for a one-year extension of its cost of capital filing to May 1, 2026, to set its authorized cost of capital beginning January 1, 2027, and maintain its current authorized cost of capital through 2026.

On December 5, 2024, the Illinois Commerce Commission issued a final order approving the adjustment of base rates requested in a rate case originally filed on January 25, 2024, by the Company's Illinois subsidiary. The general rate case order approved an increase of $105 million in annualized water and wastewater system revenues, excluding previously recovered infrastructure surcharges of $5 million, based on an authorized return on equity of 9.84%, authorized rate base of $2.2 billion, and a capital structure with an equity component of 49.00% and a debt component of 51.00%. The general rate case order denied the second step increase of $16 million. The increase was effective January 1, 2025, and is driven primarily by approximately $557 million in capital investments made and to be made by the Illinois subsidiary from January 2024 through December 2025.

On December 5, 2024, the CPUC approved a final decision adopting the terms of a partial settlement agreement filed on November 17, 2023, in the Company's California subsidiary's general rate case originally filed on July 1, 2022. Incorporating the then currently effective return on equity of 10.20%, the decision provides incremental annualized water and wastewater revenues of $21 million in the 2024 test year, and an estimated $16 million in the 2025 escalation year and $16 million in the 2026 attrition year. The 2024 rates were implemented retroactively to January 1, 2024. In addition, the CPUC denied the California subsidiary's proposed Water Resources Sustainability Plan decoupling mechanism but approved continuation of its currently effective Annual Consumption Adjustment Mechanism. On December 12, 2024, the California subsidiary filed an application for rehearing of the CPUC's denial of the proposed Water Resources Sustainability Plan decoupling mechanism.

Pending General Rate Case Filings

On August 2, 2024, the Company's Hawaii subsidiary filed a general rate case requesting approximately $2 million in annualized incremental revenues, which is based on a proposed return on equity of 10.67% and a capital structure with an equity component of 52.11% and debt component of 47.89%. The requested annualized incremental revenue is driven primarily by approximately $41 million in capital investments made and to be made by the Hawaii subsidiary through 2025. On April 25, 2025, the Hawaii subsidiary filed with the Hawaii Public Utilities Commission (the "HPUC") a partial settlement, reached with the Division of Consumer Advocacy, in its general rate case. The partial settlement agrees to an annualized increase of approximately $1 million in wastewater revenue, which is based on a return on equity of 9.75% and a capital structure with an equity component of 52.11% and a debt component of 47.89%. The settlement remains subject to HPUC review and approval and the Hawaii subsidiary expects a decision mid-year in 2025.

On July 1, 2024, the Company's Missouri subsidiary filed a general rate case requesting approximately $148 million in annualized incremental revenues. The original request was based on a return on equity of 10.75% and a capital structure with an equity component of 50.54% and a long-term debt component of 49.46%, and was driven primarily by $1.5 billion of incremental capital investments completed and planned by the Missouri subsidiary from January 2023 through May 2026. On July 31, 2024, the Missouri Public Service Commission (the "MoPSC") issued an order establishing the test year in this case, which modified the Missouri subsidiary's original proposal for a future test year through May 2026, and instead reverted to a true-up period through December 31, 2024, with an allowance for proposed discrete adjustments subsequent to that date. On September 6, 2024, the Missouri subsidiary filed supplemental testimony to revise the request to approximately $123 million in annualized incremental revenues (excluding infrastructure surcharges) and to define the specific discrete adjustments proposed through the rate effective period, which lowered the incremental capital investments completed and planned to $1.1 billion through May 2025. In February 2025, the Missouri subsidiary filed an additional request for recovery of defined infrastructure investments, which adjusted the infrastructure surcharges to $63 million, and, in turn, decreased the amount of incremental annualized revenue (excluding such infrastructure surcharges) to approximately $107 million. On March 17, 2025, the Missouri subsidiary entered into a stipulation and agreement (the "Stipulation") with, among other parties, the staff of the MoPSC and the Office of the Public Counsel, as to an annualized increase of approximately $63 million in water and wastewater revenues, excluding $63 million in infrastructure surcharges. The Stipulation is subject to review and approval by the MoPSC, which is anticipated in the second quarter of 2025, and, if approved, new rates are expected to be effective by May 31, 2025.

On May 1, 2024, the Company's Iowa subsidiary filed a general rate case requesting approximately $21 million in additional annualized revenues, which is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 52.57% and debt component of 47.43%. The requested annualized revenue increase is driven primarily by approximately $157 million in capital investments made and to be made by the Iowa subsidiary through March 2026. Interim rates became effective May 11, 2024, with the difference between interim and final approved rates subject to refund. On August 29, 2024, the Iowa subsidiary submitted supplemental testimony consistent with the procedural schedule, which was subsequently challenged by the parties in the proceeding. On October 4, 2024, the Iowa Utilities Commission issued an order that granted the inclusion of the supplemental filing and extended the procedural schedule in the case beyond the statutory ten-month period. The Iowa subsidiary expects resolution of this proceeding by the end of May 2025.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective during 2025:

	Effective Date	Amount
Infrastructure surcharges by state:		
Missouri	February 7, 2025	$ 17
Kentucky	January 1, 2025	2
West Virginia	January 1, 2025	4
Total infrastructure surcharge authorizations		$ 23

Pending Infrastructure Surcharge Filings

On April 15, 2025, the Company's New Jersey subsidiary filed an infrastructure surcharge proceeding requesting $15 million in additional annualized revenues.

Note 4: Revenue Recognition

Disaggregated Revenues

The Company's primary business involves the ownership of utilities that provide water and wastewater services to residential, commercial, industrial, public authority, fire service and sale for resale customers, collectively presented as the "Regulated Businesses." The Company also operates other businesses that provide water and wastewater services to the U.S. government on military installations, as well as municipalities, collectively presented throughout this Form 10-Q within "Other."

Presented in the table below are operating revenues disaggregated for the three months ended March 31, 2025:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	$ 560	$ —	$ 560
Commercial	212	—	212
Fire service	45	—	45
Industrial	45	—	45
Public and other	67	—	67
Total water services	929	—	929
Wastewater services:			
Residential	68	—	68
Commercial	18	—	18
Industrial	5	—	5
Public and other	10	—	10
Total wastewater services	101	—	101
Miscellaneous utility charges	11	—	11
Alternative revenue programs	—	6	6
Lease contract revenue	—	2	2
Total Regulated Businesses	1,041	8	1,049
Other	93	—	93
Total operating revenues	$ 1,134	$ 8	$ 1,142

(a) Includes revenues associated with alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of ASC 606, and accounted for under other existing GAAP.

Presented in the table below are operating revenues disaggregated for the three months ended March 31, 2024:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	$ 502	$ 2	$ 504
Commercial	186	1	187
Fire service	41	—	41
Industrial	42	—	42
Public and other	55	1	56
Total water services	826	4	830
Wastewater services:			
Residential	59	—	59
Commercial	16	—	16
Industrial	2	—	2
Public and other	8	—	8
Total wastewater services	85	—	85
Miscellaneous utility charges	9	—	9
Alternative revenue programs	—	2	2
Lease contract revenue	—	2	2
Total Regulated Businesses	920	8	928
Other	83	—	83
Total operating revenues	$ 1,003	$ 8	$ 1,011

(a) Includes revenues associated with provisional rates, alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of ASC 606, and accounted for under other existing GAAP.

Contract Balances

Contract assets and contract liabilities are the result of timing differences between revenue recognition, billings, and cash collections. In the Company's Military Services Group ("MSG"), certain contracts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals or upon achievement of contractual milestones. Contract assets are recorded when billing occurs subsequent to revenue recognition and are reclassified to accounts receivable when billed and the right to consideration becomes unconditional. Contract liabilities are recorded when the Company receives advances from customers prior to satisfying contractual performance obligations, particularly for construction contracts, and are recognized as revenue when the associated performance obligations are satisfied.

Contract assets of $103 million and $84 million are included in unbilled revenues on the Consolidated Balance Sheets as of March 31, 2025, and December 31, 2024, respectively. Also, contract assets of $36 million and $39 million are included in other long-term assets on the Consolidated Balance Sheets as of March 31, 2025, and December 31, 2024, respectively. Contract liabilities of $29 million and $40 million are included in other current liabilities on the Consolidated Balance Sheets as of March 31, 2025, and December 31, 2024, respectively. Also, contract liabilities of $25 million and $14 million are included in other long-term liabilities on the Consolidated Balance Sheets as of March 31, 2025, and December 31, 2024, respectively. Revenues recognized for the three months ended March 31, 2025 and 2024, from amounts included in contract liabilities were $22 million and $21 million, respectively.

Remaining Performance Obligations

Remaining performance obligations ("RPOs") represent revenues the Company expects to recognize in the future from contracts that are in progress. The Company enters into agreements for the provision of services to water and wastewater facilities for the U.S. military, municipalities and other customers. As of March 31, 2025, the Company's operation and maintenance ("O&M") and capital improvement contracts have RPOs. Contracts with the U.S. government for work on various military installations expire between 2051 and 2073 and have RPOs of $7.4 billion as of March 31, 2025, as measured by estimated remaining contract revenue. Such contracts are subject to customary termination provisions held by the U.S. government, prior to the agreed-upon contract expiration. Contracts with municipalities and commercial customers expire between 2026 and 2038 and have RPOs of $585 million as of March 31, 2025, as measured by estimated remaining contract revenue.

Note 5: Acquisitions and Divestitures

Regulated Businesses

Closed Acquisitions

During the three months ended March 31, 2025, the Company closed one asset acquisition of a regulated water system for a purchase price of $2 million, which added approximately 300 water customers. Assets acquired from this acquisition, utility plant, totaled $2 million.

The pro forma impact of the Company's acquisitions was not material to the Consolidated Statements of Operations for the periods ended March 31, 2025 and 2024.

Secured Seller Promissory Note from the Sale of Homeowner Services Group

On December 9, 2021 (the "Closing Date"), the Company sold all of the equity interests in subsidiaries that comprised the Homeowner Services Group ("HOS") to a wholly owned subsidiary (the "Buyer") of funds advised by Apax Partners LLP, a global private equity advisory firm, for total consideration of approximately $1.275 billion. The outstanding consideration as of March 31, 2025, is a secured seller note payable in cash and issued by the Buyer in the principal amount of $795 million, with an interest rate of 10.00% per year. The Company recognized $20 million and $17 million of interest income during the three months ended March 31, 2025 and 2024, respectively, from the secured seller note. The final maturity date of the secured seller note is December 9, 2026.

The secured seller note may not be repaid at the Buyer's election (except in certain limited circumstances) before the fourth anniversary of the Closing Date. If the Buyer seeks to repay the secured seller note in breach of this non-call provision, an event of default will occur under the secured seller note and the Company may, among other actions, demand repayment in full together with a premium of 105.5% of the outstanding principal amount of the loan and a customary "make-whole" payment.

Note 6: Shareholders' Equity

Accumulated Other Comprehensive Loss

Presented in the table below are the changes in accumulated other comprehensive loss by component, net of tax, for the three months ended March 31, 2025 and 2024, respectively:

	Defined Benefit Pension Plans					
	Employee Benefit Plan Funded Status	Amortization of Prior Service Cost	Amortization of Actuarial Loss	Gain (Loss) on Cash Flow Hedges	Gain (Loss) on Fixed-Income Securities	Accumulated Other Comprehensive Income (Loss)
Balance as of December 31, 2024	$ (95)	$ 1	$ 74	$ 30	$ 2	$ 12
Other comprehensive income (loss) before reclassifications	—	—	—	(8)	2	(6)
Amounts reclassified from accumulated other comprehensive income (loss)	—	—	—	—	(4)	(4)
Net other comprehensive loss	—	—	—	(8)	(2)	(10)
Balance as of March 31, 2025	$ (95)	$ 1	$ 74	$ 22	$ —	$ 2
Balance as of December 31, 2023	$ (96)	$ 1	$ 74	$ (9)	$ 4	$ (26)
Other comprehensive income (loss) before reclassifications	—	—	—	19	(1)	18
Net other comprehensive income (loss)	—	—	—	19	(1)	18
Balance as of March 31, 2024	$ (96)	$ 1	$ 74	$ 10	$ 3	$ (8)

The Company does not reclassify the amortization of defined benefit pension cost components from accumulated other comprehensive income (loss) directly to net income in its entirety, as a portion of these costs have been deferred as a regulatory asset. These accumulated other comprehensive income (loss) components are included in the computation of net periodic pension cost.

The amortization of the gain (loss) on cash flow hedges is reclassified to net income during the period incurred and is included in Interest expense in the accompanying Consolidated Statements of Operations.

An unrealized gain (loss) on available-for-sale fixed-income securities is reclassified to net income upon sale of the securities as a realized gain or loss and is included in Other, net in the accompanying Consolidated Statements of Operations.

Dividends

On March 4, 2025, the Company paid a quarterly cash dividend of $0.7650 per share to shareholders of record as of February 7, 2025.

On April 30, 2025, the Company's Board of Directors declared a quarterly cash dividend payment of $0.8275 per share, payable on June 3, 2025, to shareholders of record as of May 13, 2025. Future dividends, when and as declared at the discretion of the Board of Directors, will be dependent upon future earnings and cash flows, compliance with various regulatory, financial and legal requirements, and other factors. See Note 9—Shareholders' Equity in the Notes to Consolidated Financial Statements in the Company's Form 10-K for additional information regarding the payment of dividends on the Company's common stock.

Note 7: Long-Term Debt

On February 27, 2025, American Water Capital Corp. ("AWCC") completed the sale of $800 million aggregate principal amount of its 5.250% Senior Notes due 2035. At the closing of this offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $792 million. AWCC used the net proceeds of the offering (i) to lend funds to American Water and the Regulated Businesses; (ii) to repay at maturity AWCC's 3.400% Senior Notes due 2025; (iii) to repay commercial paper obligations of AWCC; and (iv) for general corporate purposes.

In addition to the notes issued by AWCC as described above, during the three months ended March 31, 2025, the Company's regulated subsidiaries issued in the aggregate $13 million of private activity bonds and government funded debt in multiple transactions with no annual interest and maturity dates ranging from 2025 through 2028. The private activity bonds and government funded debt issued by the Company's regulated subsidiaries during the three months ended March 31, 2025, were collateralized. During the three months ended March 31, 2025, AWCC and the Company's regulated subsidiaries made sinking fund payments for, or repaid at maturity, $531 million in aggregate principal amount of outstanding long-term debt, with annual interest rates ranging from 0.00% to 8.58%, a weighted average interest rate of 3.41%, and maturity dates ranging from 2025 to 2061.

As of March 31, 2025, the Company had three treasury lock agreements, with a term of 30 years and an aggregate notional amount totaling $130 million, to reduce interest rate exposure on any future debt issuances in 2025. These treasury lock agreements terminate in June 2025 and December 2025 and have an average fixed interest rate of 4.12%. The Company designated these treasury lock agreements as cash flow hedges, measured at fair value with the gain or loss recorded in accumulated other comprehensive income.

In February 2025, the Company terminated 10 treasury lock agreements designated as cash flow hedges, with a term of 10 years and an aggregate notional amount totaling $500 million, realizing a pre-tax net gain of $3 million recorded in accumulated other comprehensive income. The gain will be amortized through Interest expense over a 10-year period, in accordance with the tenor of the notes issued on February 27, 2025.

No ineffectiveness was recognized on hedging instruments for the three months ended March 31, 2025 or 2024.

On June 29, 2023, AWCC issued $1,035 million aggregate principal amount of 3.625% Exchangeable Senior Notes due 2026 (the "Notes"). AWCC received net proceeds of approximately $1,022 million, after deduction of underwriting discounts and commissions but before deduction of offering expenses payable by AWCC. A portion of the net proceeds was used to repay AWCC's commercial paper obligations and the remainder was used for general corporate purposes. The Notes will mature on June 15, 2026 (the "Maturity Date"), unless earlier exchanged or repurchased.

The Notes are exchangeable at an initial exchange rate of 5.8213 shares of parent company's common stock per $1,000 principal amount of Notes (equivalent to an initial exchange price of approximately $171.78 per share of common stock). The initial exchange rate of the Notes is subject to adjustment as provided in the indenture pursuant to which the Notes were issued (the "Note Indenture"). Prior to the close of business on the business day immediately preceding March 15, 2026, the Notes are exchangeable at the option of the noteholders only upon the satisfaction of specified conditions and during certain periods described in the Note Indenture. On or after March 15, 2026, until the close of business on the business day immediately preceding the Maturity Date, the Notes will be exchangeable at the option of the noteholders at any time regardless of these conditions or periods. Upon any exchange of the Notes, AWCC will (i) pay cash up to the aggregate principal amount of the Notes and (ii) pay or deliver (or cause to be delivered), as the case may be, cash, shares of parent company's common stock, or a combination of cash and shares of such common stock, at AWCC's election, in respect of the remainder, if any, of AWCC's exchange obligation in excess of the aggregate principal amount of the Notes being exchanged.

AWCC may not redeem the Notes prior to the Maturity Date, and no sinking fund is provided for the Notes. Subject to certain conditions, holders of the Notes will have the right to require AWCC to repurchase all or a portion of their Notes upon the occurrence of a fundamental change, as defined in the Note Indenture, at a repurchase price of 100% of their principal amount plus any accrued and unpaid interest.

Note 8: Short-Term Debt

Liquidity needs for capital investment, working capital and other financial commitments are generally funded through cash flows from operations, public and private debt offerings, issuances of commercial paper and equity and, if and to the extent necessary, borrowings under the AWCC revolving credit facility. AWCC maintains an unsecured revolving credit facility which provides $2.75 billion in aggregate total commitments from a diversified group of financial institutions. The termination date of the credit agreement with respect to AWCC's revolving credit facility is October 26, 2029. The revolving credit facility is used principally to support AWCC's commercial paper program, to provide additional liquidity support and to provide a sub-limit for the issuance of up to $150 million in letters of credit. Subject to satisfying certain conditions, the credit agreement permits AWCC to increase the maximum commitment under the facility by up to an aggregate of $500 million.

Short-term debt consists of commercial paper borrowings totaling $1.0 billion and $880 million as of March 31, 2025, and December 31, 2024, respectively, or net of discount $999 million and $879 million as of March 31, 2025, and December 31, 2024, respectively. The weighted-average interest rate on AWCC's outstanding short-term borrowings was approximately 4.63% and 4.65% at March 31, 2025, and December 31, 2024, respectively. At March 31, 2025, and December 31, 2024, AWCC had no outstanding borrowings under the revolving credit facility and there were no commercial paper borrowings outstanding with maturities greater than three months.

Presented in the tables below are the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each:

	As of March 31, 2025		
	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(1,000)	(84)	(1,084)
Remaining availability as of March 31, 2025	$ 1,600	$ 66	$ 1,666

(a) Total remaining availability of $1.7 billion as of March 31, 2025, was accessible through revolver draws.

	As of December 31, 2024		
	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(880)	(82)	(962)
Remaining availability as of December 31, 2024	$ 1,720	$ 68	$ 1,788

(a) Total remaining availability of $1.8 billion as of December 31, 2024, was accessible through revolver draws.

Presented in the table below is the Company's total available liquidity as of March 31, 2025, and December 31, 2024, respectively:

	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of March 31, 2025	$ 114	$ 1,666	$ 1,780
Available liquidity as of December 31, 2024	$ 96	$ 1,788	$ 1,884

Note 9: Income Taxes

The Company's effective income tax rate was 24.1% and 23.6% for the three months ended March 31, 2025 and 2024. The increase in the Company's effective income tax rate for the three months ended March 31, 2025, was primarily due to the decrease in the amortization of EADIT pursuant to regulatory orders.

On August 16, 2022, the Inflation Reduction Act of 2022 (the "IRA") was signed into law. The IRA contains a 15% Corporate Alternative Minimum Tax ("CAMT") provision on applicable corporations effective January 1, 2023. To determine if a company is considered an applicable corporation subject to CAMT, the company's average adjusted financial statement income ("AFSI") for the three consecutive years preceding the tax year must exceed $1.0 billion. An applicable corporation must make several adjustments to net income when determining AFSI. A corporation paying CAMT is eligible for a future tax credit, which can be carried forward indefinitely and utilized when regular tax exceeds CAMT. Based on current guidance, the Company is an applicable corporation subject to CAMT beginning in 2024. As of March 31, 2025, the Company has a CAMT credit carryforward of $132 million.

On September 12, 2024, the Internal Revenue Service ("IRS") and the U.S. Treasury issued Notice 2024-66, allowing corporate taxpayers to exclude amounts attributable to the CAMT liability, without penalty, from estimated tax payments with respect to a taxable year that begins during 2024. The Company included the CAMT liability in its 2024 extension payment on April 15, 2025. The Company will continue to assess the impacts of the IRA as the U.S. Treasury and the IRS provide further guidance.

Note 10: Pension and Other Postretirement Benefits

Presented in the table below are the components of net periodic benefit costs:

	For the Three Months Ended March 31,	
	2025	2024
Components of net periodic pension benefit cost:		
Service cost	$ 3	$ 5
Interest cost	21	21
Expected return on plan assets	(22)	(24)
Amortization of prior service credit	(1)	(1)
Amortization of actuarial loss	5	6
Net periodic pension benefit cost	$ 6	$ 7
Components of net periodic other postretirement benefit credit:		
Service cost	$ —	$ 1
Interest cost	3	3
Expected return on plan assets	(3)	(3)
Amortization of prior service credit	(8)	(8)
Net periodic other postretirement benefit credit	$ (8)	$ (7)

The Company contributed $11 million for the funding of its defined benefit pension plans for the three months ended March 31, 2025 and 2024. The Company expects to make additional pension contributions to the plan trusts of $33 million during the remainder of 2025.

Note 11: Commitments and Contingencies

Contingencies

The Company is routinely involved in legal actions incident to the normal conduct of its business. As of March 31, 2025, the Company has accrued approximately $17 million of probable loss contingencies and has estimated that the maximum amount of loss associated with reasonably possible loss contingencies arising out of such legal actions, which can be reasonably estimated, is $4 million. For certain legal actions, the Company is unable to estimate possible losses. The Company believes that damages or settlements, if any, recovered by plaintiffs in such legal actions, other than as described in this Note 11 —Commitments and Contingencies, will not have a material adverse effect on the Company.

Dunbar, West Virginia Class Action Litigation

On the evening of June 23, 2015, a 36-inch pre-stressed concrete transmission water main, installed in the early 1970s, failed. The water main is part of the West Relay pumping station located in the City of Dunbar, West Virginia and owned by the Company's West Virginia subsidiary ("WVAWC"). The failure of the main caused water outages and low pressure for up to approximately 25,000 WVAWC customers. In the early morning hours of June 25, 2015, crews completed a repair, but that same day, the repair developed a leak. On June 26, 2015, a second repair was completed, and service was restored that day to approximately 80% of the impacted customers, and to the remaining approximately 20% by the next morning. The second repair showed signs of leaking, but the water main was usable until June 29, 2015, to allow tanks to refill. The system was reconfigured to maintain service to all but approximately 3,000 customers while a final repair was being completed safely on June 30, 2015. Water service was fully restored by July 1, 2015, to all customers affected by this event.

On June 2, 2017, a complaint captioned *Jeffries, et al. v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of residents and business owners who lost water service or pressure as a result of the Dunbar main break. The complaint alleges breach of contract by WVAWC for failure to supply water, violation of West Virginia law regarding the sufficiency of WVAWC's facilities and negligence by WVAWC in the design, maintenance and operation of the water system. The *Jeffries* plaintiffs seek unspecified alleged damages on behalf of the class for lost profits, annoyance and inconvenience, and loss of use, as well as punitive damages for willful, reckless and wanton behavior in not addressing the risk of pipe failure and a large outage.

In February 2020, the *Jeffries* plaintiffs filed a motion seeking class certification on the issues of breach of contract and negligence, and to determine the applicability of punitive damages and a multiplier for those damages if imposed. In July 2020, the Circuit Court entered an order granting the *Jeffries* plaintiffs' motion for certification of a class regarding certain liability issues but denying certification of a class to determine a punitive damages multiplier. Trial in this matter had been scheduled for January 2025.

On January 17, 2025, before trial commenced, the parties notified the Circuit Court that an agreement in principle to settle this litigation was reached among the parties. Under the terms of the agreement in principle and any subsequent proposed settlement agreement, WVAWC has not admitted, and will not admit, any fault or liability for any of the allegations made by the *Jeffries* plaintiffs. The proposed maximum pre-tax amount of the settlement is approximately $18 million, of which the Company currently estimates that approximately $5 million would be contributed by the Company and WVAWC, and the remainder would be contributed by certain of the Company's general liability insurance carriers. The actual total amount to be paid to claimants through this settlement will depend upon the claims submitted and approved through a claims process to be negotiated by the parties and approved by the Circuit Court. The parties will next negotiate and enter into a proposed settlement agreement based on the terms of the agreement in principle, and the proposed settlement agreement will be subject to preliminary and final approvals by the Circuit Court.

The final amount of the Company's and WVAWC's contributions to the settlement remains subject to uncertainty and will depend in part on the amount of claims ultimately submitted and approved through the above-referenced claims process; however, the Company does not currently anticipate that its maximum liability will exceed $5 million. As a result, the Company recorded a charge to earnings, net of expected insurance receivables, of $5.0 million ($3.9 million after-tax) in the fourth quarter of 2024. The Company intends to fund its and WVAWC's contributions to the settlement through existing sources of liquidity, although no contribution by the Company or WVAWC to the settlement will be funded unless and until, and to the extent required by, a proposed settlement agreement that has been entered into by the parties and finally approved by the Circuit Court.

Chattanooga, Tennessee Class Action Litigation

On September 12, 2019, the Company's Tennessee subsidiary ("TAWC"), experienced a leak in a 36-inch water transmission main, which caused service fluctuations or interruptions to TAWC customers and the issuance of a boil water notice. TAWC repaired the main by early morning on September 14, 2019, and restored full water service by the afternoon of September 15, 2019, with the boil water notice lifted for all customers on September 16, 2019.

On September 17, 2019, a complaint captioned *Bruce, et al. v. American Water Works Company, Inc., et al.* was filed in the Circuit Court of Hamilton County, Tennessee against TAWC, the Company and American Water Works Service Company, Inc. ("Service Company" and, together with TAWC and the Company, collectively, the "Tennessee-American Water Defendants"), on behalf of a proposed class of individuals or entities who lost water service or suffered monetary losses as a result of the Chattanooga incident (the "Tennessee Plaintiffs"). The complaint alleged breach of contract and negligence against the Tennessee-American Water Defendants, as well as an equitable remedy of piercing the corporate veil. In the complaint as originally filed, the Tennessee Plaintiffs were seeking an award of unspecified alleged damages for wage losses, business and economic losses, out-of-pocket expenses, loss of use and enjoyment of property and annoyance and inconvenience, as well as punitive damages, attorneys' fees and pre- and post-judgment interest.

In September 2020, the court dismissed all of the Tennessee Plaintiffs' claims in their complaint, except for the breach of contract claims against TAWC, which remain pending. In October 2020, TAWC answered the complaint, and the parties have been engaging in discovery. In January 2023, after hearing oral argument, the court issued an oral ruling denying the Tennessee Plaintiffs' motion for class certification. In February 2023, the Tennessee Plaintiffs sought reconsideration of the ruling by the court, and any final ruling is appealable to the Tennessee Court of Appeals, as allowed under Tennessee law. In September 2023, the court upheld its prior ruling but gave the Tennessee Plaintiffs the option to file an amended class definition. In October 2023, the Tennessee Plaintiffs filed an amended class definition seeking certification of a business customer-only class. On June 14, 2024, the court issued its written order denying the Tennessee Plaintiffs' amended class and incorporating its denial of certification of the original residential class. On June 21, 2024, the Tennessee Plaintiffs appealed both of the court's orders denying class certification. This appeal remains pending.

The Company and TAWC believe that TAWC has valid, meritorious defenses to the claims raised in this class action complaint. TAWC will continue to vigorously defend itself against these allegations. Given the current stage of this proceeding, the Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of loss related to this proceeding.

Mountaineer Gas Company Main Break

During the afternoon of November 10, 2023, WVAWC was informed that an 8-inch ductile iron water main owned by WVAWC, located on the West Side of Charleston, West Virginia and originally installed in approximately 1989, experienced a leak. In the early morning hours of November 11, 2023, WVAWC crews successfully completed a repair to the water main. A precautionary boil water advisory was issued the same day to approximately 300 WVAWC customers and ultimately lifted on November 12, 2023.

On November 10, 2023, a break was reported in a low-pressure natural gas main located near the affected WVAWC water main, and an inflow of water into the natural gas main and associated delivery pipelines occurred. The natural gas main and pipelines are owned by Mountaineer Gas Company, a regulated natural gas distribution company serving over 220,000 customers in West Virginia ("Mountaineer Gas"). The resulting inflow of water into the natural gas main and related pipelines resulted in a loss of natural gas service to approximately 1,500 Mountaineer Gas customers, as well as water entering customer service lines and certain natural gas appliances owned or used by some of the affected Mountaineer Gas customers. Mountaineer Gas reported that restoration of natural gas service to all affected gas mains occurred on November 24, 2023. The timing, order and causation of both the WVAWC water main break and Mountaineer Gas's main break are currently unknown and under investigation.

To date, a total of four pending lawsuits have been filed against Mountaineer Gas and WVAWC purportedly on behalf of customers in Charleston, West Virginia related to these incidents. On November 14, 2023, a complaint captioned *Ruffin et al. v. Mountaineer Gas Company and West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of Mountaineer Gas residential and business customers and other households and businesses supplied with natural gas in Kanawha County, which lost natural gas service on November 10, 2023, as a result of these events. The complaint alleges, among other things, breach of contract by Mountaineer Gas, trespass by WVAWC, nuisance by WVAWC, violation of statutory obligations by Mountaineer Gas and WVAWC, and negligence by Mountaineer Gas and WVAWC. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for loss of use of natural gas, annoyance, inconvenience and lost profits, as well as punitive damages.

On November 15, 2023, a complaint captioned *Toliver et al. v. West Virginia-American Water Company and Mountaineer Gas Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of all natural persons or entities who are citizens of the State of West Virginia and who are customers of WVAWC and/or Mountaineer Gas in the affected areas. The complaint alleges against Mountaineer Gas and WVAWC, among other things, negligence, nuisance, trespass and strict liability, as well as breach of contract against Mountaineer Gas. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for property damage, loss of use and enjoyment of property, annoyance and inconvenience and business losses, as well as punitive damages.

On November 16, 2023, a complaint captioned *Dodson et al. v. West Virginia American Water and Mountaineer Gas Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of all West Virginia citizens living between Pennsylvania Avenue south of Washington Street, and Iowa Street, who are customers of Mountaineer Gas. The complaint alleges against Mountaineer Gas and WVAWC, among other things, negligence, nuisance, trespass, statutory code violations and unfair or deceptive business practices. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for property loss and damage, loss of use and enjoyment of property, mental and emotional distress, and aggravation and inconvenience, as well as punitive damages.

On January 4, 2024, a fourth complaint, captioned *Thomas v. West Virginia-American Water Company and Mountaineer Gas Company*, was filed in West Virginia Circuit Court in Kanawha County asserting similar allegations as those included in the *Ruffin*, *Toliver* and *Dodson* lawsuits, with the addition of counts alleging unjust enrichment and violations of the West Virginia Human Rights Act and the West Virginia Consumer Credit and Protection Act.

On November 17, 2023, the *Ruffin* plaintiff filed a motion to consolidate the class action lawsuits before a single judge in Kanawha County Circuit Court. On June 14, 2024, the judge in the *Ruffin* case partially granted the motion by transferring all of the four class action lawsuits to her court but deferring as premature consolidation of the cases.

On December 5, 2023, a complaint captioned *Mountaineer Gas Company v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County seeking damages under theories of trespass, negligence and implied indemnity. The damages being sought related to the incident include, among other things, repair and response costs incurred by Mountaineer Gas and attorneys' fees and expenses incurred by Mountaineer Gas. On December 14, 2023, Mountaineer Gas filed a motion with the Supreme Court of West Virginia to transfer this case to the West Virginia Business Court. On December 29, 2023, WVAWC filed a joinder in the motion to transfer the case. WVAWC has also filed a partial motion to dismiss this lawsuit. On March 6, 2024, the motion to transfer this complaint to the West Virginia Business Court was granted and trial and resolution judges were assigned. Mountaineer Gas voluntarily dismissed its implied indemnity count against WVAWC, rendering moot WVAWC's partial motion to dismiss, and on May 31, 2024, WVAWC answered the complaint. The West Virginia Business Court has set a trial date for this matter, which, upon motion of the parties, has been reset to March 16, 2026, to allow for the completion of discovery.

On December 20, 2023, Mountaineer Gas filed answers to each of the first three class action lawsuits, which included cross-claims against WVAWC alleging that Mountaineer Gas is without fault for the claims and damages alleged in the lawsuits and WVAWC should be required to indemnify Mountaineer Gas for any damages and for attorneys' fees and expenses incurred by Mountaineer Gas in the lawsuits. WVAWC has filed a partial motion to dismiss certain claims in the *Ruffin, Toliver, Dodson* and *Thomas* lawsuits and a motion to dismiss the cross-claims asserted against WVAWC therein by Mountaineer Gas. Mountaineer Gas subsequently voluntarily dismissed its cross-claims. On January 30, 2024, a motion was filed with the West Virginia Supreme Court on behalf of the *Toliver* plaintiff to refer the four class action complaints and the *Mountaineer Gas* complaint to the West Virginia Mass Litigation Panel. On February 7, 2024, WVAWC filed a motion joining in that referral request. On February 19, 2024, Mountaineer Gas filed a motion opposing the referral of the four class action complaints and the *Mountaineer Gas* complaint to the West Virginia Mass Litigation Panel. On May 31, 2024, the West Virginia Supreme Court denied the motion seeking referral. The Kanawha County Circuit Court has set a trial date of February 2, 2026, for the class action complaints.

On December 6, 2023, WVAWC initiated a process whereby Mountaineer Gas customers could file claims with WVAWC and seek payment from WVAWC of up to $2,000 in damages per affected household for the inconvenience arising from a loss of use of their appliances and documented out-of-pocket expenses as a result of the natural gas outage. In light of the diminishing number of new claims that had been filed, the claims process was concluded on March 8, 2024. As of December 31, 2024, a total of 594 Mountaineer Gas customers completed this claims process, and each of those customers has been paid by WVAWC an average of approximately $1,500. In return, these customers were required to execute a partial release of liability in favor of WVAWC.

On November 16, 2023, the Public Service Commission of West Virginia (the "WVPSC") issued an order initiating a general investigation into both the water main break and natural gas outages occurring in this incident to determine the cause or causes thereof, as well as breaks and outages generally throughout the systems of WVAWC and Mountaineer Gas and the utility practices of both utilities. Following a series of disagreements among the parties regarding the scope of discovery, the WVPSC closed the general investigation into both utilities and ordered a separate general investigation for each utility. The WVPSC focused the two general investigations away from the cause of the events and instead on the maintenance practices of each utility during and after the main breaks. On January 29, 2024, the Consumer Advocate Division of the WVPSC filed a motion to intervene in the WVAWC general investigation.

On April 24, 2024, the staff issued a final joint memorandum in the Mountaineer Gas general investigation stating its view that Mountaineer Gas responded appropriately, reasonably and according to Mountaineer Gas's written procedures. The staff is making no recommendations for improvements to Mountaineer Gas and is recommending that the Mountaineer Gas general investigation be closed. On July 24, 2024, the staff issued a final joint memorandum in the WVAWC general investigation finding no indication of systematic failure by WVAWC and concluding WVAWC's maintenance and operating procedures were adequate to ensure safe and reliable service, subject to the implementation by WVAWC of three recommended operational improvements. Both general investigations remain pending.

The Company and WVAWC believe that the causes of action and other claims asserted against WVAWC in the class action complaints and the lawsuit filed by Mountaineer Gas are without merit and that WVAWC has valid, meritorious defenses to such claims. WVAWC continues to defend itself vigorously in these litigation proceedings. Given the current stage of these proceedings and the general investigation, the Company and WVAWC are currently unable to predict the outcome of any of the proceedings described above, and the Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of loss related to this proceeding.

Alternative Water Supply in Lieu of Carmel River Diversions

Compliance with Orders to Reduce Carmel River Diversions—Monterey Peninsula Water Supply Project

Under a 2009 order (the "2009 Order") of the State Water Resources Control Board (the "SWRCB"), the Company's California subsidiary ("Cal Am") is required to decrease significantly its yearly diversions of water from the Carmel River according to a set reduction schedule. In 2016, the SWRCB issued an order (the "2016 Order," and, together with the 2009 Order, the "Orders") approving a deadline of December 31, 2021, for Cal Am's compliance with these prior orders.

Cal Am is currently involved in developing the Monterey Peninsula Water Supply Project (the "Water Supply Project"), which includes the construction of a desalination plant, to be owned by Cal Am, and the construction of wells that would supply water to the desalination plant. In addition, the Water Supply Project also includes Cal Am's purchase of water from a groundwater replenishment project (the "GWR Project") between Monterey One Water and the Monterey Peninsula Water Management District (the "MPWMD"), as well as an expanded aquifer storage and recovery program. The Water Supply Project is intended, among other things, to fulfill Cal Am's obligations under the Orders.

Cal Am's ability to move forward on the Water Supply Project is and has been subject to administrative review by the CPUC and other government agencies, obtaining necessary permits, and intervention from other parties. In 2016, the CPUC unanimously approved a final decision to authorize Cal Am to enter into a water purchase agreement for the GWR Project and to construct a pipeline and pump station facilities and recover up to $50 million in associated incurred costs, plus an allowance for funds used during construction ("AFUDC"), subject to meeting certain criteria.

In 2018, the CPUC unanimously approved another final decision finding that the Water Supply Project meets the CPUC's requirements for a certificate of public convenience and necessity and an additional procedural phase was not necessary to consider alternative projects. The CPUC's 2018 decision concludes that the Water Supply Project is the best project to address estimated future water demands in Monterey, and, in addition to the cost recovery approved in its 2016 decision, adopts Cal Am's cost estimates for the Water Supply Project, which amounted to an aggregate of $279 million plus AFUDC at a rate representative of Cal Am's actual financing costs. The 2018 final decision specifies the procedures for recovery of all of Cal Am's prudently incurred costs associated with the Water Supply Project upon its completion, subject to the frameworks included in the final decision related to cost caps, operation and maintenance costs, financing, ratemaking and contingency matters. The reasonableness of the Water Supply Project costs will be reviewed by the CPUC when Cal Am seeks cost recovery for the Water Supply Project. Cal Am is also required to implement mitigation measures to avoid, minimize or offset significant environmental impacts from the construction and operation of the Water Supply Project and comply with a mitigation monitoring and reporting program, a reimbursement agreement for CPUC costs associated with that program, and reporting requirements on plant operations following placement of the Water Supply Project in service. Cal Am has incurred $290 million in aggregate costs as of March 31, 2025, related to the Water Supply Project, which includes $92 million in AFUDC.

In September 2021, Cal Am, Monterey One Water and the MPWMD reached an agreement on Cal Am's purchase of additional water from an expansion to the GWR Project. On December 5, 2022, the CPUC issued a final decision that authorized Cal Am to enter into the amended water purchase agreement, and specifically to increase pumping capacity and reliability of groundwater extraction from the Seaside Groundwater Basin. The final decision sets the cost cap for the proposed facilities at approximately $62 million. Cal Am may seek recovery of amounts above the cost cap in a subsequent rate filing or general rate case. Additionally, the final decision authorizes AFUDC at Cal Am's actual weighted average cost of debt for most of the facilities. On December 30, 2022, Cal Am filed with the CPUC an application for rehearing of the CPUC's December 5, 2022, final decision, and on March 30, 2023, the CPUC issued a decision denying Cal Am's application for rehearing, but adopting its proposed AFUDC for already incurred and future costs. The decision also provided Cal Am the opportunity to serve supplemental testimony to increase its cost cap for certain of the Water Supply Project's extraction wells. On April 10, 2025, the CPUC issued a proposed decision, which remains subject to comment and the issuance by the CPUC of a final decision, that would authorize an increase to the cost cap of $11 million for the specified extraction wells.

The amended water purchase agreement and a memorandum of understanding to negotiate certain milestones related to the expansion of the GWR Project have been signed by the relevant parties. Further hearings were scheduled in a Phase 2 to this CPUC proceeding to focus on updated supply and demand estimates for the Water Supply Project, and Phase 2 testimony was completed in September 2022. On October 23, 2023, a status conference was held to determine procedural steps to conclude the proceeding. Further evidentiary hearings were held in March 2024. This Phase 2 matter remains pending.

While Cal Am believes that its expenditures to date have been prudent and necessary to comply with the Orders, as well as relevant final decisions of the CPUC related thereto, Cal Am cannot currently predict its ability to recover all of its costs and expenses associated with the Water Supply Project and there can be no assurance that Cal Am will be able to recover all of such costs and expenses in excess of the $112 million in previously approved aggregate construction costs, plus applicable AFUDC, previously approved by the CPUC in its 2016 and December 2022 final decisions, as amended by its March 30, 2023 rehearing decision.

Coastal Development Permit Application

In 2018, Cal Am submitted a coastal development permit application (the "Marina Application") to the City of Marina (the "City") for those project components of the Water Supply Project located within the City's coastal zone. Members of the City's Planning Commission, as well as City councilpersons, publicly expressed opposition to the Water Supply Project. In May 2019, the City issued a notice of final local action based upon the denial by the Planning Commission of the Marina Application. Thereafter, Cal Am appealed this decision to the Coastal Commission, as permitted under the City's code and the California Coastal Act. At the same time, Cal Am submitted an application (the "Original Jurisdiction Application") to the Coastal Commission for a coastal development permit for those project components located within the Coastal Commission's original jurisdiction. After Coastal Commission staff issued reports recommending denial of the Original Jurisdiction Application, noting potential impacts on environmentally sensitive habitat areas and wetlands and possible disproportionate impacts to communities of concern, in September 2020, Cal Am withdrew the Original Jurisdiction Application in order to address the staff's environmental justice concerns. In November 2020, Cal Am refiled the Original Jurisdiction Application.

In October 2022, Cal Am announced a phasing plan for the proposed desalination plant component of the Water Supply Project. The desalination plant and slant wells originally approved by the CPUC would produce up to 6.4 million gallons of desalinated water per day. Under the phased approach, the facilities would initially be constructed to produce up to 4.8 million gallons per day of desalinated water, enough to meet anticipated demand through about 2030, and would limit the number of slant wells initially constructed. As demand increases in the future, desalination facilities would be expanded to meet the additional demand. The phased approach seeks to meet near-term demand by allowing for additional supply as it becomes needed, while also providing an opportunity for regional future public participation and was developed by Cal Am based on feedback received from the community.

In November 2022, the Coastal Commission approved the Marina Application and the Original Jurisdiction Application with respect to the phased development of the proposed desalination plant, subject to compliance with a number of conditions, all of which Cal Am expects to satisfy. In December 2022, the City, Marina Coast Water District ("MCWD"), MCWD's groundwater sustainability agency, and the MPWMD jointly filed a petition for writ of mandate in Monterey County Superior Court against the Coastal Commission, alleging that the Coastal Commission violated the California Coastal Act and the California Environmental Quality Act in issuing a coastal development permit to Cal Am for construction of slant wells for the Water Supply Project. Cal Am is named as a real party in interest. On April 24, 2024, the court granted defendants' motion for judgment on the pleadings and dismissed one of MCWD's causes of action in the petition. A trial commenced on December 9, 2024, and further proceedings continued in January 2025. On March 28, 2025, the court issued an intended decision to deny the joint petition in full. As permitted by the court, written statements have been filed identifying issues believed to have not been addressed in the intended decision. Cal Am has been given until April 29, 2025, to respond to these statements.

Following the issuance of the coastal development permit, Cal Am continues to work constructively with all appropriate agencies to provide necessary information in connection with obtaining the remaining required permits for the Water Supply Project. However, there can be no assurance that the Water Supply Project in its current configuration will be completed on a timely basis, if ever. For the year ended December 31, 2024, Cal Am has complied with the diversion limitations contained in the 2016 Order. Continued compliance with the diversion limitations in 2025 and future years may be impacted by a number of factors, including without limitation potential recurrence of drought conditions in California and the exhaustion of water supply reserves, and will require successful development of alternate water supply sources sufficient to meet customer demand. The Orders remain in effect until Cal Am certifies to the SWRCB, and the SWRCB concurs, that Cal Am has obtained a permanent supply of water to substitute for past unauthorized Carmel River diversions. While the Company cannot currently predict the likelihood or result of any adverse outcome associated with these matters, further attempts to comply with the Orders may result in material additional costs and obligations to Cal Am, including fines and penalties against Cal Am in the event of noncompliance with the Orders.

Cal Am's Action for Damages Following Termination of Regional Desalination Project ("RDP")

In 2010, the CPUC had approved the RDP, which was a precursor to the current Water Supply Project and called for the construction of a desalination facility in the City of Marina. The RDP was to be implemented through a Water Purchase Agreement and ancillary agreements (collectively, the "Agreements") among MCWD, Cal Am and the Monterey County Water Resources Agency ("MCWRA"). In 2011, due to a conflict of interest concerning a former member of MCWRA's Board of Directors, MCWRA stated that the Agreements were void, and, as a result, Cal Am terminated the Agreements. In ensuing litigation filed by Cal Am in 2012 to resolve the termination of the RDP, the court in 2015 entered a final judgment agreeing with Cal Am's position that four of the five Agreements are void, and one, the credit line agreement, is not void. As a result of this litigation, Cal Am was permitted to institute further proceedings, discussed below, to determine the amount of damages that may be awarded to Cal Am as a result of the failure of the RDP.

In 2015, Cal Am and MCWRA filed a complaint in San Francisco County Superior Court against MCWD and RMC Water and Environment, a private engineering consulting firm ("RMC"), seeking to recover compensatory, consequential and incidental damages associated with the failure of the RDP, as well as punitive and treble damages, statutory penalties and attorneys' fees. In 2019, MCWD was granted a motion for summary judgment related to the tort claims in the complaint. A settlement as to the non-tort claims was finalized and entered into in March 2020. As part of this settlement, Cal Am's and MCWRA's right to appeal the dismissal of their tort claims against MCWD were expressly reserved, and, in July 2020, Cal Am filed its appeal. In December 2022, the trial court's decision was reversed on appeal with instructions to vacate its prior orders granting MCWD's motions for summary judgment and to enter new orders denying the motions. In February 2023, MCWD filed a petition for review of the appellate decision with the California Supreme Court, which was denied in March 2023. On June 27, 2024, MCWD filed a motion for judgment on the pleadings. Following a hearing, on December 5, 2024, the court granted MCWD's motion without leave to amend, dismissing all of Cal Am's remaining tort claims. Final judgment was entered on January 7, 2025. On February 27, 2025, Cal Am and MCWRA each filed a Notice of Appeal of the trial court's decision.

Proposed Acquisition of Monterey System Assets — Potential Condemnation

Local Agency Formation Commission Litigation

The water system assets of Cal Am located in Monterey, California (the "Monterey system assets") are the subject of a condemnation action by the MPWMD stemming from a November 2018 public ballot initiative. In 2019, the MPWMD issued a preliminary valuation and cost of service analysis report, finding in part that (i) an estimate of the Monterey system assets' total value plus adjustments would be approximately $513 million, (ii) the cost of service modeling results indicate significant annual reductions in revenue requirements and projected monthly water bills, and (iii) the acquisition of the Monterey system assets by the MPWMD would be economically feasible. In 2020, the MPWMD certified a final environmental impact report, analyzing the environmental impacts of the MPWMD's project to (i) acquire the Monterey system assets through the power of eminent domain, if necessary, and (ii) expand its geographic boundaries to include all parts of this system.

In February 2021, the MPWMD filed an application with the Local Agency Formation Commission of Monterey County ("LAFCO") seeking approval to become a retail water provider and annex approximately 58 parcels of land into the MPWMD's boundaries. In June 2021, LAFCO's commissioners voted to require a third-party independent financial study as to the feasibility of an acquisition by the MPWMD of the Monterey system assets. In December 2021, LAFCO's commissioners denied the MPWMD's application to become a retail water provider, determining that the MPWMD does not have the authority to proceed with a condemnation of the Monterey system assets. In April 2022, the MPWMD filed a lawsuit against LAFCO challenging its decision to deny the MPWMD's application seeking approval to become a retail water provider. In June 2022, the court granted, with conditions, a motion by Cal Am to intervene in the MPWMD's lawsuit against LAFCO. In December 2022, the court sustained in part, and denied in part, demurrers that had been filed by LAFCO seeking to dismiss the MPWMD's lawsuit.

In December 2023, the Monterey County Superior Court issued a writ of mandate directing LAFCO to vacate and set aside its original denial of the MPWMD's application to serve as a retail water provider (in conjunction with its effort to acquire the Monterey system assets) and, if requested, to re-hear the application in compliance with all applicable law. The court held that LAFCO incorrectly applied two statutory standards and noted a lack of sufficient evidence to support certain of LAFCO's factual findings. As a result, the LAFCO denial has been nullified and LAFCO will be required to hold another hearing on the MPWMD's application upon request. On February 8, 2024, and February 9, 2024, respectively, Cal Am and LAFCO each filed a notice of appeal with the California Court of Appeal regarding the Monterey County Superior Court's decision to issue the writ of mandate. The MPWMD filed a notice of cross-appeal on February 15, 2024. Cal Am is evaluating potential additional actions to seek to uphold LAFCO's denial of the MPWMD's application, including filing other challenges and/or making suitable presentations at a subsequent LAFCO rehearing.

MPWMD Condemnation Action

Separate from the proceedings related to the MPWMD's application with LAFCO, by letter dated October 3, 2022, the MPWMD notified Cal Am of a decision to appraise the Monterey system assets and requested access to a number of Cal Am's properties and documents to assist the MPWMD with such an appraisal. Cal Am responded by letter on October 24, 2022, denying the request for access, stating that the MPWMD does not have the right to appraise Cal Am's system without LAFCO approval to become a retail water provider. In April 2023, Cal Am rejected an offer by the MPWMD to purchase the Monterey system assets for $448.8 million. Over the written and oral objections of Cal Am, at a hearing held in October 2023, the MPWMD adopted a resolution of necessity to authorize it to file an eminent domain lawsuit with respect to the Monterey system assets.

In December 2023, the MPWMD filed a lawsuit against Cal Am in Monterey County Superior Court seeking to condemn the Monterey system assets. On February 26, 2024, Cal Am filed a motion requesting the Monterey County Superior Court dismiss the MPWMD's lawsuit. Cal Am's motion asserted that the MPWMD lacks legal authorization from both the California legislature and LAFCO to become a retail water provider and the lawsuit improperly seeks to effect a taking of property outside the boundaries of the MPWMD's territory. Hearings on the motion were held on May 3, 2024, and August 23, 2024. On November 14, 2024, the court issued a final ruling denying Cal Am's motion to dismiss. Cal Am filed its answer to the complaint on December 13, 2024. This matter remains pending.

While the Company cannot currently predict the outcome of the MPWMD's eminent domain lawsuit, the Company believes that, given existing legal authorities and its other defenses, Cal Am should be able to defend itself successfully against this lawsuit.

Note 12: Earnings per Common Share

Presented in the table below is a reconciliation of the numerator and denominator for the basic and diluted earnings per share ("EPS") calculations:

	For the Three Months Ended March 31,	
	2025	2024
Numerator:		
Net income attributable to common shareholders	$ 205	$ 185
Denominator:		
Weighted-average common shares outstanding—Basic	195	195
Effect of dilutive common stock equivalents	—	—
Weighted-average common shares outstanding—Diluted	195	195

The effect of dilutive common stock equivalents is related to outstanding restricted stock units ("RSUs") and performance stock units ("PSUs") granted under the Company's 2007 Omnibus Equity Compensation Plan and outstanding RSUs and PSUs granted under the Company's 2017 Omnibus Equity Compensation Plan, as well as estimated shares to be purchased under the Company's 2017 Nonqualified Employee Stock Purchase Plan. Less than one million share-based awards were excluded from the computation of diluted EPS for the three months ended March 31, 2025 and 2024, because their effect would have been anti-dilutive under the treasury stock method.

The if-converted method is applied to the Notes issued in June 2023 for computing diluted EPS. For both periods presented, there was no dilution resulting from the Notes. See Note 7—Long-Term Debt for additional information relating to the Notes.

Note 13: Fair Value of Financial Information

Fair Value of Financial Instruments

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Current assets and current liabilities—The carrying amounts reported on the Consolidated Balance Sheets for current assets and current liabilities, including revolving credit debt, due to the short-term maturities and variable interest rates, approximate their fair values.

Secured seller promissory note from the sale of the Homeowner Services Group—The carrying amount reported on the Consolidated Balance Sheets for the secured seller promissory note, included as part of the consideration from the sale of HOS, is $795 million as of March 31, 2025, and December 31, 2024. This amount represents the principal amount owed under the secured seller promissory note, for which the Company expects to receive full payment. The accounting fair value measurement of the secured seller promissory note approximated $797 million and $793 million as of March 31, 2025, and December 31, 2024, respectively. The accounting fair value measurement is an estimate that is reflective of changes in benchmark interest rates. The secured seller promissory note is classified as Level 3 within the fair value hierarchy.

Preferred stock with mandatory redemption requirements and long-term debt—The fair values of preferred stock with mandatory redemption requirements and long-term debt are categorized within the fair value hierarchy based on the inputs that are used to value each instrument. The fair value of long-term debt classified as Level 1 is calculated using quoted prices in active markets. Level 2 instruments are valued using observable inputs and Level 3 instruments are valued using observable and unobservable inputs.

Presented in the tables below are the carrying amounts, including fair value adjustments previously recognized in acquisition purchase accounting, and the fair values of the Company's financial instruments:

	As of March 31, 2025				
		At Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Preferred stock with mandatory redemption requirements	$ 3	$ —	$ —	$ 3	$ 3
Long-term debt	13,432	10,570	1,053	664	12,287

	As of December 31, 2024				
		At Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Preferred stock with mandatory redemption requirements	$ 3	$ —	$ —	$ 3	$ 3
Long-term debt	13,155	10,165	1,050	658	11,873

Recurring Fair Value Measurements

Presented in the tables below are assets and liabilities measured and recorded at fair value on a recurring basis and their level within the fair value hierarchy:

	As of March 31, 2025			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	$ 43	$ —	$ —	$ 43
Rabbi trust investments	28	—	—	28
Deposits	7	—	—	7
Other investments:				
Money market and other	21	—	—	21
Fixed-income securities	77	7	—	84
Mark-to-market derivative asset	—	10	—	10
Total assets	176	17	—	193
Liabilities:				
Deferred compensation obligations	33	—	—	33
Total liabilities	33	—	—	33
Total assets	$ 143	$ 17	$ —	$ 160

	As of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	$ 44	$ —	$ —	$ 44
Rabbi trust investments	29	—	—	29
Deposits	6	—	—	6
Other investments:				
Money market and other	21	—	—	21
Fixed-income securities	88	6	—	94
Mark-to-market derivative asset	—	24	—	24
Total assets	188	30	—	218
Liabilities:				
Deferred compensation obligations	34	—	—	34
Total liabilities	34	—	—	34
Total assets	$ 154	$ 30	$ —	$ 184

Restricted funds—The Company's restricted funds primarily represent proceeds received from financings for the construction and capital improvement of facilities and from customers for future services under operation, maintenance and repair projects. Long-term restricted funds of $25 million and $15 million were included in other long-term assets on the Consolidated Balance Sheets as of March 31, 2025, and December 31, 2024, respectively.

Rabbi trust investments—The Company's rabbi trust investments consist of equity and index funds from which supplemental executive retirement plan benefits and deferred compensation obligations can be paid. The Company includes these assets in other long-term assets on the Consolidated Balance Sheets.

Deposits—Deposits include escrow funds and certain other deposits held in trust. The Company includes cash deposits in other current assets on the Consolidated Balance Sheets.

Deferred compensation obligations—The Company's deferred compensation plans allow participants to defer certain cash compensation into notional investment accounts. The Company includes such plans in other long-term liabilities on the Consolidated Balance Sheets. The value of the Company's deferred compensation obligations is based on the market value of the participants' notional investment accounts. The notional investments are comprised primarily of mutual funds, which are based on quoted prices for identical assets in active markets.

Mark-to-market derivative assets and liabilities—The Company employs derivative financial instruments in the form of treasury lock agreements, classified as cash flow hedges, in order to fix the interest cost on existing or forecasted debt. The Company uses a calculation of future cash inflows and estimated future outflows, which are discounted, to determine the current fair value. Additional inputs to the present value calculation include the contract terms, counterparty credit risk, interest rates and market volatility. The Company includes mark-to-market derivative assets in other current assets on the Consolidated Balance Sheets.

Other investments—The Company maintains a Voluntary Employees' Beneficiary Association trust for purposes of paying active union employee medical benefits ("Active VEBA"). The investments in the Active VEBA trust primarily consist of money market funds and available-for-sale fixed-income securities.

The money market and other investments have original maturities of three months or less when purchased. The fair value measurement of the money market and other investments is based on quoted prices for identical assets in active markets and therefore included in the recurring fair value measurements hierarchy as Level 1.

The available-for-sale fixed-income securities are primarily investments in U.S. Treasury securities and government bonds. The majority of U.S. Treasury securities and government bonds have been categorized as Level 1 because they trade in highly-liquid and transparent markets. Certain U.S. Treasury securities are based on prices that reflect observable market information, such as actual trade information of similar securities, and are therefore categorized as Level 2, because the valuations are calculated using models which utilize actively traded market data that the Company can corroborate.

The Company includes other investments measured and recorded at fair value on the Consolidated Balance Sheets of $75 million and $71 million in other current assets, as of March 31, 2025, and December 31, 2024, respectively, and $30 million and $44 million in other long-term assets, as of March 31, 2025, and December 31, 2024, respectively. Unrealized holding gains and losses on available-for-sale securities are excluded from earnings and reported in other comprehensive income until realized.

The following tables summarize the unrealized positions for available-for-sale fixed-income securities:

	As of March 31, 2025			
	Amortized Cost Basis	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale fixed-income securities	$ 84	$ 1	$ 1	$ 84

	As of December 31, 2024			
	Amortized Cost Basis	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale fixed-income securities	$ 94	$ 2	$ 2	$ 94

The fair value of the Company's available-for-sale fixed-income securities, summarized by contractual maturities, as of March 31, 2025, is as follows:

	Amount
Other investments - Available-for-sale fixed-income securities	
Less than one year	$ 47
1 year - 5 years	25
5 years - 10 years	5
Greater than 10 years	7
Total	$ 84

Note 14: Leases

The Company has operating and finance leases involving real property, including facilities, utility assets, vehicles, and equipment. Certain operating leases have renewal options ranging from one year to 60 years. The exercise of lease renewal options is at the Company's sole discretion. Renewal options that the Company was reasonably certain to exercise are included in the Company's right-of-use ("ROU") assets. Certain operating leases contain the option to purchase the leased property. The operating leases for real property, vehicles and equipment will expire over the next 40 years, five years, and five years, respectively.

The Company participates in a number of arrangements with various public entities ("Partners") in West Virginia. Under these arrangements, the Company transferred a portion of its utility plant to the Partners in exchange for an equal principal amount of Industrial Development Bonds ("IDBs") issued by the Partners under the Industrial Development and Commercial Development Bond Act. The Company leased back the utility plant under agreements for a period of 30 to 40 years. The Company has recorded these agreements as finance leases in property, plant and equipment, as ownership of the assets will revert back to the Company at the end of the lease term. The carrying value of the finance lease assets was $143 million as of March 31, 2025, and December 31, 2024. The Company determined that the finance lease obligations and the investments in IDBs meet the conditions for offsetting, and as such, are reported net on the Consolidated Balance Sheets and are excluded from the lease disclosure presented below.

The Company also enters into O&M agreements with the Partners. The Company pays an annual fee for use of the Partners' assets in performing under the O&M agreements. The O&M agreements are recorded as operating leases, and future annual use fees of $3 million in 2025, $4 million in 2026 through 2029, and $37 million thereafter, are included in operating lease ROU assets and operating lease liabilities on the Consolidated Balance Sheets.

Rental expenses under operating leases were $3 million for the three months ended March 31, 2025 and 2024, respectively.

For the three months ended March 31, 2025, cash paid for amounts in lease liabilities, which includes operating cash flows from operating leases, was $3 million. For the three months ended March 31, 2025, there were ROU assets obtained in exchange for new operating lease liabilities of $3 million.

As of March 31, 2025, the weighted-average remaining lease term of the operating leases was 17 years, and the weighted-average discount rate of the operating leases was 5%.

The future maturities of lease liabilities as of March 31, 2025, were $9 million in 2025, $11 million in 2026, $10 million in 2027, $8 million in 2028, $7 million in 2029, and $85 million thereafter. As of March 31, 2025, imputed interest was $47 million.

Note 15: Segment Information

The Company's operating segments are comprised of its businesses which generate revenue, incur expense and have separate financial information which is regularly used by the chief operating decision maker to make operating decisions, assess performance and allocate resources. The Company operates its businesses primarily through one reportable segment, the Regulated Businesses segment. The Regulated Businesses segment also includes inter-segment revenues, costs and interest which are eliminated to reconcile to the Consolidated Statements of Operations.

The Company also operates other businesses, primarily MSG, that do not meet the criteria of a reportable segment in accordance with GAAP and are collectively presented throughout this Form 10-Q within "Other," which is consistent with how management assesses the results of these businesses. Other also includes corporate costs that are not allocated to the Company's Regulated Businesses, interest income related to the secured seller promissory note from the sale of HOS, income from assets not associated with the Regulated Businesses, eliminations of inter-segment transactions and fair value adjustments related to acquisitions that have not been allocated to the Regulated Businesses segment. The adjustments related to the acquisitions are reported in Other as they are excluded from segment performance measures evaluated by management.

The Company's chief operating decision maker is the Chief Executive Officer. The chief operating decision maker uses segment net income or loss to evaluate profit generated from segment assets when making decisions about allocating resources. The chief operating decision maker also uses segment net income to monitor budget versus actual results to assess the performance of the segment.

Presented in the tables below is summarized segment information:

	As of or for the Three Months Ended March 31, 2025		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 1,049	$ 93	$ 1,142
Less:			
Operation and maintenance (a)	395	73	468
Other segment items (b)	67	(1)	66
Depreciation and amortization	213	3	216
Interest expense	114	30	144
Interest income	(1)	(21)	(22)
Provision for income taxes	60	5	65
Net income attributable to common shareholders	$ 201	$ 4	$ 205
Total assets	$ 30,288	$ 2,868	$ 33,156
Cash paid for capital expenditures	$ 545	$ 3	$ 548

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

	As of or for the Three Months Ended March 31, 2024		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 928	$ 83	$ 1,011
Less:			
Operation and maintenance (a)	351	65	416
Other segment items (b)	61	4	65
Depreciation and amortization	184	4	188
Interest expense	97	27	124
Interest income	(3)	(21)	(24)
Provision for income taxes	53	4	57
Net income attributable to common shareholders	$ 185	$ —	$ 185
Total assets	$ 27,807	$ 3,279	$ 31,086
Cash paid for capital expenditures	$ 603	$ 6	$ 609

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read together with the unaudited Consolidated Financial Statements and the Notes thereto included elsewhere in this Form 10-Q, and in the Company's Form 10-K for the year ended December 31, 2024. This discussion contains forward-looking statements that are based on management's current expectations, estimates and projections about the Company's business, operations and financial performance. The cautionary statements made in this Form 10-Q should be read as applying to all related forward-looking statements whenever they appear in this Form 10-Q. The Company's actual results may differ materially from those currently anticipated and expressed in such forward-looking statements as a result of a number of factors, including those that are discussed under "Forward-Looking Statements" and elsewhere in this Form 10-Q. The Company has a disclosure committee consisting of members of senior management and other key employees involved in the preparation of the Company's SEC reports. The disclosure committee is actively involved in the review and discussion of the Company's SEC filings.

Overview

American Water is the largest and most geographically diverse, publicly traded water and wastewater utility company in the United States, as measured by both operating revenues and population served. The Company's primary business involves the ownership of utilities that provide water and wastewater services to residential, commercial, industrial, public authority, fire service and sale for resale customers, collectively presented as the "Regulated Businesses." Services provided by the Company's utilities are subject to regulation by multiple state utility commissions or other entities engaged in utility regulation, collectively referred to as public utility commissions ("PUCs"). The Company also operates other businesses not subject to economic regulation by state PUCs that provide water and wastewater services to the U.S. government on military installations, as well as municipalities, collectively presented throughout this Form 10-Q within "Other." See Part I, Item 1—Business in the Company's Form 10-K for additional information.

Financial Results

For the three months ended March 31, 2025, diluted earnings per share, prepared in accordance with accounting principles generally accepted in the United States ("GAAP"), were $1.05, an increase of $0.10, as compared to the same period in the prior year. The increase was primarily driven by the implementation of new rates in the Regulated Businesses from the recovery of capital and acquisition investments. Results also reflect increased operating costs and higher depreciation and financing costs to support the current capital investment plan. Results for the three months ended March 31, 2025 and 2024, include incremental interest income of $0.03 and $0.02 per share, respectively, resulting from the early 2024 amendment to the secured seller note from the sale of the former HOS business.

Growth Through Capital Investment in Infrastructure and Regulated Acquisitions

The Company continues to grow its businesses, with the substantial majority of its growth to be achieved in the Regulated Businesses through (i) continued capital investment in the Company's infrastructure to provide safe, clean, reliable and affordable water and wastewater services to its customers, (ii) regulated acquisitions to expand the Company's services to new customers and (iii) organic growth in existing systems. The Company plans to invest approximately $3.3 billion in these growth strategies in 2025. During the first three months of 2025, the Company invested $518 million, in the Regulated Businesses, as discussed below.

- $515 million capital investment in the Regulated Businesses for infrastructure improvements and replacements; and
- $3 million to fund an acquisition in the Regulated Businesses, which added approximately 300 customers.
- Approximately 4,000 new customers were added through organic growth in existing systems.

As of March 31, 2025, the Company had entered into 18 agreements with a total aggregate purchase price of $123 million for pending acquisitions in the Regulated Businesses, to add approximately 29,000 additional customers. In April 2025, the Company completed two acquisitions of regulated water systems for a total aggregate purchase price of $6 million, which added approximately 1,850 water customers and entered into two agreements with a total aggregate purchase price of $45 million for pending acquisitions in the Regulated Businesses, to add approximately 10,200 additional customers.

Other Matters

Cybersecurity Incident Update

Prior to filing a consolidated complaint, the plaintiffs in the putative consolidated class action lawsuit against parent company related to the Company's October 2024 cybersecurity incident, captioned *Johnsen et al. v. American Water Works Company, Inc.*, agreed to voluntarily dismiss the consolidated lawsuit without prejudice. On March 21, 2025, the parties filed a stipulation to that effect. An order of voluntary dismissal was entered by the U.S. District Court for the District of New Jersey on March 24, 2025, which concludes this lawsuit against parent company. See Part II, Item 1—Legal Proceedings—Cybersecurity Incident Consolidated Class Action Lawsuit.

Regulatory Matters

General Rate Cases

The table below summarizes the annualized incremental revenues, assuming a constant sales volume and customer count, resulting from general rate case authorizations that became effective during 2025. The amounts include reductions for the amortization of the excess accumulated deferred income taxes ("EADIT") that are generally offset in income tax expense.

(In millions)	Effective Date	Amount
General rate cases by state:		
Virginia	February 24, 2025 (a)	$ 15
Tennessee	January 21, 2025	1
California, Step Increase	January 1, 2025	17
Illinois	January 1, 2025	105
Total general rate case authorizations		$ 138

(a) Interim rates were effective May 1, 2024, and the difference between interim and final approved rates were subject to refund. The Virginia State Corporation Commission issued its final order on February 24, 2025.

On February 24, 2025, the Virginia State Corporation Commission (the "VSCC") issued an order approving the September 19, 2024, joint "black box" settlement of the general rate case filed by the Company's Virginia subsidiary. The general rate case order approves the stipulated $15 million annualized increase in water and wastewater revenues. Interim water and wastewater rates became effective May 1, 2024, with the difference between interim and final approved rates subject to refund. The requested annualized revenue increase was driven primarily by more than $110 million of incremental capital investments made and to be made between May 2023 and April 2025. For purposes of the general rate case, the Virginia subsidiary's view of its rate base is $369 million. The general rate case order also approved, solely for purposes of the Virginia subsidiary's future filings requiring a stated cost of capital and/or capital structure (including its annual information and water and wastewater infrastructure surcharge filings), a return on equity of 9.70% and a capital structure consisting of an equity component of 45.67% and a debt and other component of 54.33%, which also represents the Virginia subsidiary's view of its return on equity and capital structure in this general rate case.

On January 21, 2025, the Tennessee Public Utility Commission (the "TPUC") approved a motion authorizing an adjustment of water base rates requested in a rate case filed on May 1, 2024, by the Company's Tennessee subsidiary. The TPUC approved an increase of $1 million in annualized revenues, excluding previously recovered infrastructure surcharges of $18 million, based on an authorized return on equity of 9.70%, authorized rate base of approximately $300 million, a common equity ratio of 44.19% and a debt ratio of 55.81%. This adjustment took effect on January 21, 2025, and is driven primarily by approximately $173 million in capital investments made and to be made by the Tennessee subsidiary through December 2025.

On January 14, 2025, the California Public Utilities Commission ("CPUC") granted the Company's California subsidiary's request for a one-year extension of its cost of capital filing to May 1, 2026, to set its authorized cost of capital beginning January 1, 2027, and maintain its current authorized cost of capital through 2026.

On December 5, 2024, the Illinois Commerce Commission issued a final order approving the adjustment of base rates requested in a rate case originally filed on January 25, 2024, by the Company's Illinois subsidiary. The general rate case order approved an increase of $105 million in annualized water and wastewater system revenues, excluding previously recovered infrastructure surcharges of $5 million, based on an authorized return on equity of 9.84%, authorized rate base of $2.2 billion, and a capital structure with an equity component of 49.00% and a debt component of 51.00%. The general rate case order denied the second step increase of $16 million. The increase was effective January 1, 2025, and is driven primarily by approximately $557 million in capital investments made and to be made by the Illinois subsidiary from January 2024 through December 2025.

On December 5, 2024, the CPUC approved a final decision adopting the terms of a partial settlement agreement filed on November 17, 2023, in the Company's California subsidiary's general rate case originally filed on July 1, 2022. Incorporating the then currently effective return on equity of 10.20%, the decision provides incremental annualized water and wastewater revenues of $21 million in the 2024 test year, and an estimated $16 million in the 2025 escalation year and $16 million in the 2026 attrition year. The 2024 rates were implemented retroactively to January 1, 2024. In addition, the CPUC denied the California subsidiary's proposed Water Resources Sustainability Plan decoupling mechanism but approved continuation of its currently effective Annual Consumption Adjustment Mechanism. On December 12, 2024, the California subsidiary filed an application for rehearing of the CPUC's denial of the proposed Water Resources Sustainability Plan decoupling mechanism.

Pending General Rate Case Filings

On August 2, 2024, the Company's Hawaii subsidiary filed a general rate case requesting approximately $2 million in annualized incremental revenues, which is based on a proposed return on equity of 10.67% and a capital structure with an equity component of 52.11% and debt component of 47.89%. The requested annualized incremental revenue is driven primarily by approximately $41 million in capital investments made and to be made by the Hawaii subsidiary through 2025. On April 25, 2025, the Hawaii subsidiary filed with the Hawaii Public Utilities Commission (the "HPUC") a partial settlement, reached with the Division of Consumer Advocacy, in its general rate case. The partial settlement agrees to an annualized increase of approximately $1 million in wastewater revenue, which is based on a return on equity of 9.75% and a capital structure with an equity component of 52.11% and a debt component of 47.89%. The settlement remains subject to HPUC review and approval and the Hawaii subsidiary expects a decision mid-year in 2025.

On July 1, 2024, the Company's Missouri subsidiary filed a general rate case requesting approximately $148 million in annualized incremental revenues. The original request was based on a return on equity of 10.75% and a capital structure with an equity component of 50.54% and a long-term debt component of 49.46%, and was driven primarily by $1.5 billion of incremental capital investments completed and planned by the Missouri subsidiary from January 2023 through May 2026. On July 31, 2024, the Missouri Public Service Commission (the "MoPSC") issued an order establishing the test year in this case, which modified the Missouri subsidiary's original proposal for a future test year through May 2026, and instead reverted to a true-up period through December 31, 2024, with an allowance for proposed discrete adjustments subsequent to that date. On September 6, 2024, the Missouri subsidiary filed supplemental testimony to revise the request to approximately $123 million in annualized incremental revenues (excluding infrastructure surcharges) and to define the specific discrete adjustments proposed through the rate effective period, which lowered the incremental capital investments completed and planned to $1.1 billion through May 2025. In February 2025, the Missouri subsidiary filed an additional request for recovery of defined infrastructure investments, which adjusted the infrastructure surcharges to $63 million, and, in turn, decreased the amount of incremental annualized revenue (excluding such infrastructure surcharges) to approximately $107 million. On March 17, 2025, the Missouri subsidiary entered into a stipulation and agreement (the "Stipulation") with, among other parties, the staff of the MoPSC and the Office of the Public Counsel, as to an annualized increase of approximately $63 million in water and wastewater revenues, excluding $63 million in infrastructure surcharges. The Stipulation is subject to review and approval by the MoPSC, which is anticipated in the second quarter of 2025, and, if approved, new rates are expected to be effective by May 31, 2025.

On May 1, 2024, the Company's Iowa subsidiary filed a general rate case requesting approximately $21 million in additional annualized revenues, which is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 52.57% and debt component of 47.43%. The requested annualized revenue increase is driven primarily by approximately $157 million in capital investments made and to be made by the Iowa subsidiary through March 2026. Interim rates became effective May 11, 2024, with the difference between interim and final approved rates subject to refund. On August 29, 2024, the Iowa subsidiary submitted supplemental testimony consistent with the procedural schedule, which was subsequently challenged by the parties in the proceeding. On October 4, 2024, the Iowa Utilities Commission issued an order that granted the inclusion of the supplemental filing and extended the procedural schedule in the case beyond the statutory ten-month period. The Iowa subsidiary expects resolution of this proceeding by the end of May 2025.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective during 2025:

(In millions)	Effective Date	Amount
Infrastructure surcharges by state:		
Missouri	February 7, 2025	$ 17
Kentucky	January 1, 2025	2
West Virginia	January 1, 2025	4
Total infrastructure surcharge authorizations		$ 23

Pending Infrastructure Surcharge Filings

On April 15, 2025, the Company's New Jersey subsidiary filed an infrastructure surcharge proceeding requesting $15 million in additional annualized revenues.

Consolidated Results of Operations

Presented in the table below are the Company's consolidated results of operations:

	For the Three Months Ended March 31,	
(In millions)	2025	2024
Operating revenues	$ 1,142	$ 1,011
Operating expenses:		
Operation and maintenance	468	416
Depreciation and amortization	216	188
General taxes	87	81
Total operating expenses, net	771	685
Operating income	371	326
Other (expense) income:		
Interest expense	(144)	(124)
Interest income	22	24
Non-operating benefit costs, net	4	9
Other, net	17	7
Total other (expense) income	(101)	(84)
Income before income taxes	270	242
Provision for income taxes	65	57
Net income attributable to common shareholders	$ 205	$ 185

Segment Results of Operations

The Company's operating segments are comprised of its businesses which generate revenue, incur expense and have separate financial information which is regularly used by the chief operating decision maker to make operating decisions, assess performance and allocate resources. The Company operates its business primarily through one reportable segment, the Regulated Businesses segment. Other, primarily includes MSG, which does not meet the criteria of a reportable segment in accordance with GAAP. Other also includes corporate costs that are not allocated to the Company's Regulated Businesses, interest income related to the secured seller promissory note from the sale of HOS, income from assets not associated with the Regulated Businesses, eliminations of inter-segment transactions and fair value adjustments related to acquisitions that have not been allocated to the Regulated Businesses segment. This presentation is consistent with how management assesses the results of these businesses.

Regulated Businesses Segment

Presented in the table below is financial information for the Regulated Businesses:

(In millions)	For the Three Months Ended March 31, 2025	2024
Operating revenues	$ 1,049	$ 928
Operation and maintenance	395	351
Depreciation and amortization	213	184
General taxes	81	76
Other income (expense)	(99)	(79)
Provision for income taxes	60	53
Net income attributable to common shareholders	$ 201	$ 185

Operating Revenues

Presented in the tables below is information regarding the main components of the Regulated Businesses' operating revenues:

(In millions)	For the Three Months Ended March 31, 2025	2024
Water services:		
Residential	$ 560	$ 504
Commercial	212	187
Fire service	45	41
Industrial	45	42
Public and other	73	58
Total water services	935	832
Wastewater services:		
Residential	68	59
Commercial	18	16
Industrial	5	2
Public and other	10	8
Total wastewater services	101	85
Other (a)	13	11
Total operating revenues	$ 1,049	$ 928

(a) Includes other operating revenues consisting primarily of miscellaneous utility charges, fees and rents.

(Gallons in millions)	For the Three Months Ended March 31, 2025	2024
Billed water services volumes:		
Residential	34,691	34,414
Commercial	17,197	17,291
Industrial	8,654	8,337
Fire service, public and other	12,392	11,116
Total billed water services volumes	72,934	71,158

For the three months ended March 31, 2025, operating revenues increased $121 million, primarily due to a $97 million increase from authorized rate increases, including infrastructure surcharges, principally to recover infrastructure investment in various states and a $14 million increase from water and wastewater acquisitions, as well as organic growth in existing systems. In addition, operating revenues were higher for the three months ended March 31, 2025, in the Company's California subsidiary, primarily due to an increase in customer demand and change to its revenue stability mechanism from full to partial revenue recovery, resulting from the general rate case decision approved by the CPUC in December 2024.

Operation and Maintenance

Presented in the table below is information regarding the main components of the Regulated Businesses' operation and maintenance expense:

	For the Three Months Ended March 31,	
(In millions)	**2025**	**2024**
Employee-related costs	$ 149	$ 135
Production costs	106	102
Operating supplies and services	72	63
Maintenance materials and supplies	29	22
Customer billing and accounting	20	14
Other	19	15
Total operation and maintenance expense	$ 395	$ 351

For the three months ended March 31, 2025, operation and maintenance expense increased $44 million, due to increases from employee-related costs to support growth and acquisitions completed in 2024. In addition, operation and maintenance expense was higher due to increased production costs primarily from higher power and fuel costs, customer billing and accounting from an increase in customer uncollectible expense and increases in other operating expenses.

Depreciation and Amortization

For the three months ended March 31, 2025, depreciation and amortization increased $29 million, primarily due to additional utility plant placed in service from capital infrastructure investments and higher depreciation rates from recent rate case orders.

General Taxes

For the three months ended March 31, 2025, general taxes increased $5 million, primarily due to incremental property and capital stock taxes.

Other Expenses

For the three months ended March 31, 2025, other expenses increased $20 million, primarily due to higher interest expense from the issuance of incremental long-term debt.

Provision for Income Taxes

For the three months ended March 31, 2025, the Regulated Businesses' provision for income taxes increased $7 million. The Regulated Businesses' effective income tax rate was 23.0% and 22.3% for the three months ended March 31, 2025 and 2024, respectively. The increase was primarily due to the decrease in the amortization of EADIT pursuant to regulatory orders.

Other

Presented in the table below is information for Other:

(In millions)	For the Three Months Ended March 31, 2025	2024
Operating revenues	$ 93	$ 83
Operation and maintenance	73	65
Depreciation and amortization	3	4
General taxes	6	5
Interest expense	(30)	(27)
Interest income	21	21
Other income	7	1
Provision for income taxes	5	4
Net income attributable to common shareholders	$ 4	$ —

Operating Revenues

For the three months ended March 31, 2025, operating revenues increased $10 million, from an increase in capital projects in MSG and the Contract Services Group ("CSG").

Operation and Maintenance

For the three months ended March 31, 2025, operation and maintenance expense increased $8 million, primarily due to costs associated with MSG and CSG projects.

Legislative Updates

During 2025, the Company's regulatory jurisdictions enacted the following legislation that has been approved and is effective as of April 30, 2025:

- California passed Senate Bill 219, which amends the Climate Corporate Data Accountability Act and the Climate-Related Financial Risk Act, to allow the California Air Resources Board until July 1, 2025, to issue implementing regulations, including reporting requirements for Scope 3 emissions. Legislation was signed by the Governor on September 27, 2024, and became effective January 1, 2025.

During 2025, the Company's regulatory jurisdictions enacted the following legislation that has been approved but is not yet effective as of April 30, 2025:

- Virginia passed Senate Bill 850, which would permit a water or wastewater utility to petition the VSCC for the approval of an eligible infrastructure replacement and enhancement plan and accompanying recovery mechanism that allows for recovery of eligible infrastructure costs outside of a base rate case. Legislation was signed by the Governor on March 24, 2025, and will become effective on July 1, 2025.
- Indiana passed Senate Bill 426, which changes the timing of recovery to allow for deferred depreciation from in-service date and post in-service carrying costs and authorizes the Indiana Utility Regulatory Commission to approve mechanisms to allow utilities to invest in and earn on acquired utility assets. The language also provides critical protections from lawsuits when utilities are meeting applicable water quality standards. Legislation was signed by the Governor on April 3, 2025, and will become effective on July 1, 2025.
- Missouri passed Senate Bill 4, which provides that beginning July 1, 2026, water, sewer, and gas utilities may request the use of a future test year in a general rate case. This statute provides that at the end of the future test year, utilities must reconcile rate base and certain expenses, including annualized depreciation expense, income tax expense, payroll expense, employee benefits except for pensions and other post-retirement benefits, and rate case expenses, within 45 days to the MoPSC. Legislation was signed by the Governor on April 9, 2025, and will become effective on August 28, 2025.

Condemnation and Eminent Domain

All or portions of the Regulated Businesses' utility assets could be acquired by state, municipal or other government entities through one or more of the following methods: (i) eminent domain (also known as condemnation); (ii) the right of purchase given or reserved by a municipality or political subdivision when the original certificate of public convenience and necessity ("CPCN") was granted; and (iii) the right of purchase given or reserved under the law of the state in which the utility subsidiary was incorporated or from which it received its CPCN. The acquisition consideration related to such a proceeding initiated by a local government may be determined consistent with applicable eminent domain law or may be negotiated or fixed by appraisers as prescribed by the law of the state or the jurisdiction of the particular CPCN.

As such, the Regulated Businesses are periodically subject to condemnation proceedings in the ordinary course of business. For example, the Monterey system assets of Cal Am are the subject of a condemnation lawsuit filed by the Monterey Peninsula Water Management District (the "MPWMD") stemming from a November 2018 public ballot initiative. For more information on this matter, see Note 11—Commitments and Contingencies in the Notes to Consolidated Financial Statements.

Furthermore, the law in certain jurisdictions in which the Regulated Businesses operate provides for eminent domain rights allowing private property owners to file a lawsuit to seek just compensation against a public utility, if a public utility's infrastructure has been determined to be a substantial cause of damage to that property. In these actions, the plaintiff would not have to prove that the public utility acted negligently. In California, for example, lawsuits have been filed in connection with large-scale natural events such as wildfires. Some of these lawsuits have included allegations that infrastructure of certain utilities triggered the natural event that resulted in damage to the property. In some cases, the PUC has allowed certain costs or losses incurred by the utility to be recovered from customers in rates, but in other cases such recovery in rates has been disallowed. Also, the utility may have obtained insurance that could respond to some or all of such losses, although the utility would be at risk for any losses not ultimately subject to rate or insurance recovery or losses that exceed the limits of such insurance.

Liquidity and Capital Resources

For a general overview of the sources and uses of capital resources, see the introductory discussion in Part II, Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources in the Company's Form 10-K.

Liquidity needs for capital investment, working capital and other financial commitments are generally funded through cash flows from operations, public and private debt offerings, issuances of commercial paper and equity and, if and to the extent necessary, borrowings under American Water Capital Corp.'s ("AWCC") revolving credit facility.

The Company expects to fund future maturities of long-term debt through a combination of external debt and, to the extent available, cash flows from operations. Since the Company expects its capital investments over the next few years to be greater than its cash flows from operating activities, the Company currently plans to fund the excess of its capital investments over its cash flows from operating activities for the next five years through a combination of long-term debt and equity issuances, in addition to the remaining proceeds from the sale of HOS. The remaining proceeds from the sale of HOS include receipt of payments under a secured seller promissory note, plus interest, see Note 5—Acquisitions and Divestitures—Secured Seller Promissory Note from the Sale of Homeowner Services Group, in the Notes to Consolidated Financial Statements for additional information. If necessary, the Company may delay certain capital investments or other funding requirements or pursue financing from other sources to preserve liquidity. In this event, the Company believes it can rely upon cash flows from operations to meet its obligations and fund its minimum required capital investments for an extended period of time.

On February 27, 2025, AWCC completed the sale of $800 million aggregate principal amount of its 5.250% Senior Notes due 2035. At the closing of this offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $792 million. AWCC used the net proceeds of the offering (i) to lend funds to American Water and the Regulated Businesses; (ii) to repay at maturity AWCC's 3.400% Senior Notes due 2025; (iii) to repay commercial paper obligations of AWCC; and (iv) for general corporate purposes.

AWCC's revolving credit facility provides $2.75 billion in aggregate total commitments from a diversified group of financial institutions. The revolving credit facility is used principally to support AWCC's commercial paper program, to provide additional liquidity support, and to provide a sub limit for the issuance of up to $150 million in letters of credit. The maximum aggregate principal amount of short-term borrowings authorized for issuance under AWCC's commercial paper program is $2.6 billion. Subject to satisfying certain conditions, the credit agreement permits AWCC to increase the maximum commitment by up to an aggregate of $500 million.

Presented in the tables below are the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each:

	As of March 31, 2025		
(In millions)	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(1,000)	(84)	(1,084)
Remaining availability as of March 31, 2025	$ 1,600	$ 66	$ 1,666

(a) Total remaining availability of $1.7 billion as of March 31, 2025, was accessible through revolver draws.

	As of December 31, 2024		
(In millions)	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(880)	(82)	(962)
Remaining availability as of December 31, 2024	$ 1,720	$ 68	$ 1,788

(a) Total remaining availability of $1.8 billion as of December 31, 2024, was accessible through revolver draws.

Presented in the table below is the Company's total available liquidity:

(In millions)	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of March 31, 2025	$ 114	$ 1,666	$ 1,780
Available liquidity as of December 31, 2024	$ 96	$ 1,788	$ 1,884

The weighted-average interest rate on AWCC's outstanding short-term borrowings was approximately 4.63% and 4.65% at March 31, 2025, and December 31, 2024, respectively.

The Company believes that its ability to access the debt and equity capital markets, the revolving credit facility and cash flows from operations will generate sufficient cash to fund the Company's short-term requirements. The Company believes it has sufficient liquidity and the ability to manage its expenditures, should there be a disruption of the capital and credit markets. However, there can be no assurance that the lenders will be able to meet existing commitments to AWCC under the revolving credit facility, or that AWCC will be able to access the commercial paper or loan markets in the future on acceptable terms or at all. See Note 8—Short-Term Debt in the Notes to Consolidated Financial Statements for additional information.

As of March 31, 2025, the Company had three treasury lock agreements, with a term of 30 years and an aggregate notional amount totaling $130 million, to reduce interest rate exposure on any future debt issuances in 2025. These treasury lock agreements terminate in June 2025 and December 2025 and have an average fixed interest rate of 4.12%. The Company designated these treasury lock agreements as cash flow hedges, measured at fair value with the gain or loss recorded in accumulated other comprehensive income.

In February 2025, the Company terminated 10 treasury lock agreements designated as cash flow hedges, with a term of 10 years and an aggregate notional amount totaling $500 million, realizing a pre-tax net gain of $3 million recorded in accumulated other comprehensive income. The gain will be amortized through Interest expense over a 10-year period, in accordance with the tenor of the notes issued on February 27, 2025.

No ineffectiveness was recognized on hedging instruments for the three months ended March 31, 2025 or 2024.

Cash Flows from Operating Activities

Cash flows from operating activities primarily result from the sale of water and wastewater services and, due to the seasonality of demand, are generally greater during the warmer months. Presented in the table below is a summary of the major items affecting the Company's cash flows from operating activities:

	For the Three Months Ended March 31,	
(In millions)	**2025**	**2024**
Net income	$ 205	$ 185
Add (less):		
Depreciation and amortization	216	188
Deferred income taxes and amortization of investment tax credits	16	8
Other non-cash activities (a)	(13)	9
Changes in assets and liabilities (b)	(82)	3
Pension contributions	(11)	(11)
Net cash provided by operating activities	$ 331	$ 382

(a) Includes provision for losses on accounts receivable, pension and non-pension postretirement benefits and other non-cash, net.

(b) Changes in assets and liabilities include changes to receivables and unbilled revenues, income tax receivable, accounts payable and accrued liabilities, accrued taxes and other assets and liabilities, net.

For the three months ended March 31, 2025, cash flows provided by operating activities decreased $51 million, due to normal business operations, primarily relating to decreases in accounts payable and accrued liabilities, partially offset by an increase in net income.

Cash Flows from Investing Activities

Presented in the table below is a summary of the major items affecting the Company's cash flows from investing activities:

	For the Three Months Ended March 31,	
(In millions)	**2025**	**2024**
Capital expenditures	$ (548)	$ (609)
Acquisitions, net of cash acquired	(3)	(86)
Removal costs from property, plant and equipment retirements, net	(29)	(38)
Purchases of available-for-sale fixed-income securities	(27)	—
Proceeds from sales and maturities of available-for-sale fixed-income securities	39	—
Net cash used in investing activities	$ (568)	$ (733)

For the three months ended March 31, 2025, cash flows used in investing activities decreased $165 million, primarily due to lower capital expenditures and fewer acquisitions in the current period. The Company plans to invest approximately $3.3 billion on growth through capital investment in infrastructure and acquisitions in the Regulated Businesses in 2025.

Cash Flows from Financing Activities

Presented in the table below is a summary of the major items affecting the Company's cash flows from financing activities:

(In millions)	For the Three Months Ended March 31, 2025	2024
Proceeds from long-term debt, net of discount	$ 810	$ 1,391
Repayments of long-term debt	(531)	(449)
Net short-term borrowings (repayments) with original maturities less than three months	120	(179)
Debt issuance costs	(5)	(14)
Dividends paid	(149)	(138)
Other financing activities, net (a)	9	2
Net cash provided by financing activities	$ 254	$ 613

(a) Includes proceeds from issuances of common stock under various employee stock plans and the Company's dividend reinvestment and direct stock purchase plan, net of taxes paid, and advances and contributions in aid of construction, net of refunds.

For the three months ended March 31, 2025, cash flows provided by financing activities decreased $359 million, primarily due to lower proceeds from the issuance of long-term debt and higher repayments of long-term debt. These decreases were partially offset by higher short-term commercial paper borrowings in the current period, compared to repayments of commercial paper in the prior period.

Debt Covenants

The Company's debt agreements contain financial and non-financial covenants. To the extent that the Company is not in compliance with these covenants, an event of default may occur under one or more debt agreements and the Company, or its subsidiaries, may be restricted in its ability to pay dividends, issue new debt or access the revolving credit facility. The long-term debt indentures contain a number of covenants that, among other things, prohibit or restrict the Company from issuing debt secured by the Company's assets, subject to certain exceptions. Failure to comply with any of these covenants could accelerate repayment obligations.

Covenants in certain long-term notes and the revolving credit facility require the Company to maintain a ratio of consolidated debt to consolidated capitalization (as defined in the relevant documents) of not more than 0.70 to 1.00. On March 31, 2025, the Company's ratio was 0.58 to 1.00 and therefore the Company was in compliance with the covenants.

Security Ratings

Presented in the table below are long-term and short-term credit ratings and rating outlooks as of April 30, 2025, as issued by Moody's Ratings on January 23, 2025, and S&P Global Ratings on April 4, 2025:

Securities	Moody's Ratings	S&P Global Ratings
Rating outlook	Stable	Stable
Senior unsecured debt	Baa1	A
Commercial paper	P-2	A-1

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency, and each rating should be evaluated independently of any other rating. Security ratings are highly dependent upon the ability to generate cash flows in an amount sufficient to service debt and meet investment plans. The Company can provide no assurances that its ability to generate cash flows is sufficient to maintain its existing ratings. The Company does not have any material borrowings that are subject to default or prepayment as a result of the downgrading of these security ratings, although such a downgrading could increase fees and interest charges under its credit facility.

As part of its normal course of business, the Company routinely enters into contracts for the purchase and sale of water, power and other fuel, chemicals and other services. These contracts either contain express provisions or otherwise permit the Company and its counterparties to demand adequate assurance of future performance when there are reasonable grounds for doing so. In accordance with the contracts and applicable contract law, if the Company is downgraded by a credit rating agency, especially if such downgrade is to a level below investment grade, it is possible that a counterparty would attempt to rely on such a downgrade as a basis for making a demand for adequate assurance of future performance, which could include a demand that the Company must provide collateral to secure its obligations. The Company does not expect to post any collateral which will have a material adverse impact on the Company's results of operations, financial position or cash flows.

Access to the capital markets, including the commercial paper market, and respective financing costs in those markets, may be directly affected by the Company's securities ratings. The Company primarily accesses the debt capital markets, including the commercial paper market, through AWCC. However, the Company has also issued debt through its regulated subsidiaries, primarily in the form of mortgage bonds and tax-exempt securities or borrowings under state revolving funds, to lower the overall cost of debt.

Dividends

For discussion of the Company's dividends, see Note 6—Shareholders' Equity in the Notes to Consolidated Financial Statements for additional information.

Application of Critical Accounting Policies and Estimates

The financial condition of the Company, results of operations and cash flows, as reflected in the Company's Consolidated Financial statements, are impacted by the methods, assumptions and estimates used in the application of critical accounting policies. See Part II, Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates in the Company's Form 10-K for a discussion of its critical accounting policies. Additionally, see Note 2—Significant Accounting Policies in the Notes to Consolidated Financial Statements for updates, if any, to the significant accounting policies previously disclosed in the Company's Form 10-K.

Recent Accounting Standards

See Note 2—Significant Accounting Policies in the Notes to Consolidated Financial Statements for a description of new accounting standards recently adopted or pending adoption.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk in the normal course of business, including changes in commodity prices, equity prices and interest rates. For further discussion of its exposure to market risk, see Part II, Item 7A—Quantitative and Qualitative Disclosures about Market Risk in the Company's Form 10-K. There have been no significant changes to the Company's exposure to market risk since December 31, 2024.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

American Water maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objective.

The Company's management, including the Chief Executive Officer and the Chief Financial Officer, conducted an evaluation of the effectiveness of its disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of March 31, 2025.

Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that, as of March 31, 2025, the Company's disclosure controls and procedures were effective at a reasonable level of assurance.

Changes in Internal Control over Financial Reporting

The Company concluded that there have been no changes in internal control over financial reporting that occurred during the three months ended March 31, 2025, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The following information updates and amends the information provided in the Company's Form 10-K in Item 3—Legal Proceedings. Capitalized terms used but not otherwise defined herein have the meanings set forth in the Company's Form 10-K. In accordance with the SEC's disclosure rules, the Company has elected to disclose environmental proceedings involving the Company and a governmental authority if the amount of potential monetary sanctions, exclusive of interest and costs, that the Company reasonably believes will result from such proceeding is $1 million or more.

Alternative Water Supply in Lieu of Carmel River Diversions

Monterey Peninsula Water Supply Project

CPUC Final Approval of Water Supply Project

The CPUC's March 2023 final decision provides Cal Am with an opportunity to increase its cost cap (currently set at a total of $112 million) for certain of the Water Supply Project's extraction wells. On April 10, 2025, the CPUC issued a proposed decision, which remains subject to the issuance of a final decision, that would authorize an increase of $11 million to this cost cap for the specified extraction wells.

Coastal Development Permit Application

On March 28, 2025, the Monterey County Superior Court issued an intended decision to deny in full the joint petition for writ of mandate by the City, MCWD and MPWMD. As permitted by the court, written statements have been filed identifying issues believed to have not been addressed in the intended decision. Cal Am has been given until April 29, 2025, to respond to these statements.

Cal Am's Action for Damages Following Termination of RDP

Following a hearing, on December 5, 2024, the court granted MCWD's motion without leave to amend, dismissing all of Cal Am's remaining claims. Final judgment was entered on January 7, 2025. On February 27, 2025, Cal Am and MCWRA each filed a Notice of Appeal of the trial court's decision.

Mountaineer Gas Company Main Break

The West Virginia Business Court had set a trial date of October 7, 2025, for the matter of *Mountaineer Gas Company v. West Virginia-American Water Company.* Upon motion of the parties, the trial date has been reset to March 16, 2026, to allow for the completion of discovery.

Cybersecurity Incident Consolidated Class Action Lawsuit

Prior to filing a consolidated complaint, the plaintiffs in the putative consolidated class action lawsuit against parent company related to the Company's previously reported October 2024 cybersecurity incident, captioned *Johnsen et al. v. American Water Works Company, Inc.*, agreed to voluntarily dismiss the consolidated lawsuit without prejudice. On March 21, 2025, the parties filed a stipulation to that effect. An order of voluntary dismissal was entered by the U.S. District Court for the District of New Jersey on March 24, 2025, which concludes this lawsuit against parent company.

PFAS Multi-District Litigation

The Company has timely submitted to the PFAS MDL its Phase One claim forms pursuant to the Tyco Fire Products LP and BASF Corporation class action settlements.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, readers should carefully consider the factors discussed in Item 1A—Risk Factors in the Form 10-K, and in the Company's other filings with the SEC, which could materially affect the Company's business, financial condition, cash flows or future results. There have been no material changes from the risk factors previously disclosed in Item 1A—Risk Factors in the Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In February 2015, the Board of Directors authorized an anti-dilutive stock repurchase program to mitigate the dilutive effect of shares issued through the Company's dividend reinvestment and direct stock purchase plan and employee stock purchase and executive compensation activities. The program allows the Company to purchase up to 10 million shares of its outstanding common stock over an unrestricted period of time in the open market or through privately negotiated transactions. The program is conducted in accordance with Rule 10b-18 of the Exchange Act, and, to facilitate these repurchases, the Company enters into Rule 10b5-1 stock repurchase plans with a third-party broker, which allow the Company to repurchase shares of its common stock at times when it otherwise might be prevented from doing so under insider trading laws or because of self-imposed trading blackout periods. Subject to applicable regulations, the Company may elect to amend or cancel the program or the stock repurchase parameters at its discretion to manage dilution.

The Company did not repurchase shares of common stock during the three months ended March 31, 2025. From April 1, 2015, the date repurchases under the anti-dilutive stock repurchase program commenced, through March 31, 2025, the Company repurchased an aggregate of 4,860,000 shares of common stock under the program, leaving an aggregate of 5,140,000 shares available for repurchase under this program.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

Approval of CEO Compensation for John C. Griffith

As previously disclosed, on February 19, 2025, the Board of Directors of the Company (the "Board") designated John C. Griffith, the Company's President, to serve as the Company's President and Chief Executive Officer and as its principal executive officer, effective as of the conclusion of the Annual Meeting of Shareholders scheduled to be held on May 14, 2025 (the "Effective Time"). To provide for Mr. Griffith's 2025 compensation in his new role, the independent members of the Board, upon the unanimous recommendation of the Executive Development and Compensation Committee (the "Compensation Committee"), approved all of the following, effective as of the Effective Time: (i) an annual base salary for 2025 of approximately $1,050,000, prorated as of the Effective Time; (ii) a 2025 target award under the Company's Annual Performance Plan, prorated as of the Effective Time, equal to 120% of his then annual base salary; and (iii) additional 2025 Long-Term Performance Plan ("LTPP") restricted stock unit and performance stock unit awards granted under the Company's 2017 Omnibus Equity Compensation Plan, which (a) shall serve to bring Mr. Griffith's total LTPP award opportunity for 2025 to 430% of his annual base salary (prorated as of the Effective Time), (b) will have an aggregate market value on the Effective Date approximately equal to $734,645, and (c) will have customary terms and continued vesting provisions associated with LTPP awards granted to persons in the position of CEO. All of the foregoing compensation was reviewed and recommended for approval by the Compensation Committee based on benchmarking data and other information provided by its independent compensation consultant and is to be received by Mr. Griffith in lieu of his previously approved compensation as President.

Furthermore, Mr. Griffith will continue to participate in the Company's Executive Severance Policy and Change of Control Severance Policy and will continue to be eligible to participate in the Company's employee nonqualified deferred compensation plan and its 401(k) savings plan, and in other of the Company's customary benefits and plans offered or to be offered to senior executives of the Company. Mr. Griffith will also continue to be subject to the Company's executive stock ownership guidelines and stock retention requirements and will remain subject to the requirement thereunder that he own, by August 1, 2029, covered shares of Company common stock with an aggregate market value of at least six times his annual base salary.

On April 30, 2025, the Company and Mr. Griffith executed an employment offer letter to be effective as of the Effective Time, approved unanimously by the independent members of the Board upon the unanimous recommendation of the Compensation Committee, providing for his 2025 compensation as summarized above.

Approval of Board Chair and Committees

On April 30, 2025, upon the recommendation of the Nominating/Corporate Governance Committee of the Board (the "Nominating Committee"), the Board appointed director Karl F. Kurz to continue to serve as Board Chair and the following directors to serve as members of the Board's four standing committees, each effective as of the Effective Time, to serve until the 2026 Annual Meeting of Shareholders or until the director's earlier death, resignation or removal:

Board Committee	Members
Audit, Finance and Risk	Jeffrey N. Edwards (Chair), Patricia L. Kampling and Michael L. Marberry
Compensation	Patricia L. Kampling (Chair), Julia L. Johnson, Laurie P. Havanec and Stuart M. McGuigan
Nominating	Julia L. Johnson (Chair), Jeffrey N. Edwards and Michael L. Marberry
Safety, Environmental, Technology and Operations	Michael L. Marberry (Chair), Laurie P. Havanec and Stuart M. McGuigan

Adoption or Termination of Rule 10b5-1 Plans and Non-Rule 10b5-1 Trading Arrangements

During the three months ended March 31, 2025, none of the Company's directors or "officers" (as such term is defined in Rule 16a-1(f) promulgated under the Exchange Act) adopted or terminated (i) any contract, instruction or written plan for the purchase or sale of the Company's securities, intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) promulgated under the Exchange Act or (ii) any "non-Rule 10b5-1 trading arrangement" (as defined in Item 408(c) of Regulation S-K).

ITEM 6. EXHIBITS

Exhibit Number	Exhibit Description
2.1#	Membership Interest Purchase Agreement, dated as of October 28, 2021, by and among American Water Enterprises, LLC, American Water (USA), LLC, American Water Resources, LLC, Pivotal Home Solutions, LLC, American Water Resources Holdings, LLC, American Water Works Company, Inc. and Lakehouse Buyer Inc. (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed October 29, 2021).
3.1	Restated Certificate of Incorporation of American Water Works Company, Inc. (incorporated by reference to Exhibit 3.1 to American Water Works Company, Inc.'s Quarterly Report on Form 10-Q, File No. 001-34028, filed November 6, 2008).

* Filed herewith.

** Furnished herewith.

The Membership Interest Purchase Agreement filed as Exhibit 2.1 and Amendment No. 1 and Amendment No. 2 to the Secured Seller Note Agreement filed as Exhibit 10.1 and Exhibit 10.2, respectively, to this Quarterly Report on Form 10-Q, have been included to provide investors and security holders with information regarding the terms of the respective agreements. The filing of these agreements is not intended to provide any other factual information about the parties thereto, or any of their respective subsidiaries or affiliates. The representations, warranties and covenants contained in the respective agreements (i) were made by the parties thereto only for purposes of that respective agreement and as of specific dates; (ii) were made solely for the benefit of the parties to the respective agreement; (iii) may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures exchanged between the parties in connection with the execution of the respective agreement (such disclosures include information that has been included in public disclosures, as well as additional non-public information); (iv) may have been made for the purposes of allocating contractual risk between the parties to the respective agreements instead of establishing these matters as facts; and (v) may be subject to standards of materiality applicable to the contracting parties to the respective agreements that differ from those applicable to investors.

Investors should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of the parties to the respective agreements thereto, or any of their respective subsidiaries or affiliates. Additionally, the representations, warranties, covenants, conditions and other terms of the respective agreements may be subject to subsequent waiver or modification. Moreover, information concerning the subject matter of the representations, warranties and covenants may change after the date of the respective agreement, which subsequent information may or may not be fully reflected in the Company's public disclosures. The respective agreements should not be read alone, but should instead be read in conjunction with the other information regarding the Company that is or will be contained in, or incorporated by reference into, the reports and other documents that are filed by the Company with the SEC.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized, on the 30th day of April, 2025.

Exhibit 10.3

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
RESTRICTED STOCK UNIT GRANT

This RESTRICTED STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share, (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the restricted stock unit portion of the Equity Award granted pursuant to the 2025 LTPP to the Participant shall be issued under the Plan and the terms and conditions of such restricted stock unit shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Restricted Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ units (the "Restricted Stock Units"). Each unit (a "Unit") shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable Redemption Date (as defined below).

2. Restricted Stock Unit Account. The Company shall establish and maintain a Restricted Stock Unit account as a bookkeeping account on its records (the "Restricted Stock Unit Account") for the Participant and shall record in such Restricted Stock Unit Account the number of Restricted Stock Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Restricted Stock Unit Account established for the Participant.

3. Vesting.

(a) Except as provided in subparagraph (c) below, the Restricted Stock Units shall vest on the following dates (each a "Service Date"), provided the Participant continues to be

employed by, or providing service to, the Employer (as defined in the Plan) from the Date of Grant through the applicable Service Date:

Service Date	Units Vesting
January 31, 2026	1/3
January 31, 2027	1/3
January 31, 2028	1/3

The vesting of the Restricted Stock Units is cumulative, but shall not exceed 100% of the Units subject to the Restricted Stock Units. If the foregoing schedule would produce fractional Units, the number of Units for which the Restricted Stock Units becomes vested on a Service Date shall be rounded down to the nearest whole Unit. The Restricted Stock Units shall become vested with respect to 100% of the Units subject to the Restricted Stock Units on January 31, 2028, if the Participant is employed by, or providing service to, the Employer on such date.

(b) Subject to subparagraph (c) below, if at any time prior to January 31, 2028, the Participant's employment or service with the Employer terminates for any reason, including death or disability, then all of the unvested Restricted Stock Units shall be immediately forfeited and the Participant shall not have any rights with respect to the vesting or the redemption of any portion of the Restricted Stock Unit.

(c) If at any time prior to January 31, 2028, but while the Participant is employed by or providing service to the Employer, a Change of Control (as defined below) occurs, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Restricted Stock Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the portion of the Restricted Stock Units that have not yet vested as provided in subparagraph 3(a) above shall become fully vested on the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Restricted Stock Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent or subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined below), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the portion of the Restricted Stock Units that have not yet vested as provided in subparagraph 3(a) above shall become fully vested on the date of such termination of employment or service (the "Termination Date"). For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Agreement unless the event constituting the Change of Control constitutes a change in the ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations. For the avoidance of doubt, if the Change of Control does not constitute a permitted change in control event under section 409A of the Code, then the Restricted Stock Unit shall not vest on the occurrence of the Change

of Control. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or nonsolicitation agreement between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

4. Redemption. Unless an election is made pursuant to Paragraph 5 below, the Restricted Stock Units that have become vested pursuant to Paragraph 3 shall be redeemed by the Company on the earliest of the (i) applicable Service Date, (ii) the Change of Control Date or (iii) the Termination Date, (the date of redemption is hereinafter referred to as the "Redemption Date"). As soon as administratively practicable following the applicable Redemption Date, but not later than forty-five (45) days following the Redemption Date, (or, if applicable, the Deferred Date, as defined in Paragraph 5 below), all Restricted Stock Units that become vested pursuant to Paragraph 3 above shall be redeemed and converted to an equivalent number of shares of Company Stock, and the Participant shall receive a single distribution of such shares of Company Stock, which shall be issued under the Plan.

5. Deferrals. The Participant may make an irrevocable election to defer the Redemption Date (or further defer the Deferred Date (as defined below), if applicable) of any of the Restricted Stock Units that vest, plus dividend equivalents earned on such Restricted Stock Units as described in Paragraph 6 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the new Redemption Date cannot be earlier than five (5) years from the original Redemption Date under Paragraph 4 above (or five (5) years from the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Redemption Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Redemption Date, the Participant must complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the redemption of the Participant's Restricted Stock Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Redemption Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 5, the new Redemption Date shall be referred to as the "Deferred Date."

6. Dividend Equivalents. Until the Redemption Date (or the Deferred Date, if elected), if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Restricted Stock Units credited to the Participant's Restricted Stock Unit Account as of the date of payment of any such dividend were shares of Company Stock. On the Redemption Date (or the Deferred Date, if applicable), the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were

credited to the Participant's Dividend Equivalent Account that are attributable to Units that have been forfeited as provided in Paragraph 3 above shall be immediately forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

7. Change of Control. Except as set forth in Paragraph 3(c) of this Grant, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Restricted Stock Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

8. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that with respect to any right to redemption or distribution pursuant to this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

9. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the redemption of the Restricted Stock Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock on the Redemption Date (or the Deferred Date, if applicable), the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that the shares of Company Stock obtained by the Participant upon the redemption of the Restricted Stock Units shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or compensation

recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

10. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

11. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

12. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 6), or the right to vote, with respect to any Restricted Stock Units.

13. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

14. Assignment and Transfers. No Restricted Stock Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and a Restricted Stock Unit shall be redeemed and a dividend equivalent distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Restricted Stock Unit or dividend equivalent by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

15. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and redemption of the Restricted Stock Units and payment of dividend equivalents. Any tax withholding obligation of the Employer with respect to the redemption of the Restricted Stock

Units may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

16. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Restricted Stock Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

17. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

18. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

19. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Restricted Stock Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 5 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

20. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

IN WITNESS WHEREOF, the Company has caused its duly authorized officer to execute this Grant, effective as of the Date of Grant.

AMERICAN WATER WORKS COMPANY, INC.

By: M. Susan Hardwick

Its: Chief Executive Officer

Exhibit 10.4

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
RESTRICTED STOCK UNIT GRANT

This RESTRICTED STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share, (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the restricted stock unit portion of the Equity Award granted pursuant to the 2025 LTPP to the Participant shall be issued under the Plan and the terms and conditions of such restricted stock unit shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Restricted Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ units (the "Restricted Stock Units"). Each unit (a "Unit") shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable Redemption Date (as defined below).

2. Restricted Stock Unit Account. The Company shall establish and maintain a Restricted Stock Unit account as a bookkeeping account on its records (the "Restricted Stock Unit Account") for the Participant and shall record in such Restricted Stock Unit Account the number of Restricted Stock Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Restricted Stock Unit Account established for the Participant.

3. Vesting.

(a) Except as provided in subparagraphs (c), (d), and (e) below, the Restricted Stock Units shall vest on the following dates (each a "Service Date"), provided the Participant

continues to be employed by, or providing service to, the Employer (as defined in the Plan) from the Date of Grant through the applicable Service Date:

Service Date	Units Vesting
January 31, 2026	1/3
January 31, 2027	1/3
January 31, 2028	1/3

The vesting of the Restricted Stock Units is cumulative, but shall not exceed 100% of the Units subject to the Restricted Stock Units. If the foregoing schedule would produce fractional Units, the number of Units for which the Restricted Stock Units becomes vested on a Service Date shall be rounded down to the nearest whole Unit. The Restricted Stock Units shall become vested with respect to 100% of the Units subject to the Restricted Stock Units on January 31, 2028, if the Participant is employed by, or providing service to, the Employer on such date.

(b) Subject to subparagraphs (c), (d), and (e) below, if at any time prior to January 31, 2028, the Participant's employment or service with the Employer terminates for any reason, including death or disability, then all of the unvested Restricted Stock Units shall be immediately forfeited and the Participant shall not have any rights with respect to the vesting or the redemption of any portion of the Restricted Stock Unit.

(c) If prior to January 31, 2028, the Participant's employment or service with the Employer terminates on account of Normal Retirement (as defined below), then the portion of the Restricted Stock Units that have not yet vested as provided in subparagraph 3(a) above shall continue to become vested following the Participant's termination of employment or service on account of Normal Retirement in accordance with the schedule set forth in subparagraph 3(a). For purposes of this Grant, (i) "Normal Retirement" shall mean termination of employment or service with the Employer (other than for Cause (as defined below)) after the Participant has attained age sixty (60) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof and (ii) "Cause" shall mean a finding by the Committee that the Participant (A) has breached his or her employment or service contract with the Employer, if any; (B) has engaged in disloyalty to the Employer including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (C) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (D) has breached any written noncompetition or nonsolicitation agreement between the Participant and the Employer; or (E) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

(d) If prior to January 31, 2028, the Participant's employment or service with the Employer terminates on account of Early Retirement (as defined below), then 75% of the portion of the Restricted Stock Units that have not yet vested as provided in subparagraph 3(a) above shall continue to become vested following the Participant's termination of employment or service on account of Early Retirement in accordance with the schedule set forth in subparagraph 3(a) and the remaining 25% of the portion of the Restricted Stock Units that have not vested as of the Participant's Early Retirement shall be immediately forfeited. For purposes of this Grant, "Early Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age fifty-five (55) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full

calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(e) If at any time prior to January 31, 2028, but while the Participant is employed by or providing service to the Employer, a Change of Control (as defined below) occurs, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Restricted Stock Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the portion of the Restricted Stock Units that have not yet vested as provided in subparagraph 3(a) above shall become fully vested on the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Restricted Stock Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent or subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in 3(c)), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the portion of the Restricted Stock Units that have not yet vested as provided in subparagraph 3(a) above shall become fully vested on the date of such termination of employment or service (the "Termination Date"). For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Agreement unless the event constituting the Change of Control constitutes a change in the ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations. For the avoidance of doubt, if the Change of Control does not constitute a permitted change in control event under section 409A of the Code, then the Restricted Stock Unit shall not vest on the occurrence of the Change of Control.

4. Redemption. Unless an election is made pursuant to Paragraph 5 below, the Restricted Stock Units that have become vested pursuant to Paragraph 3 shall be redeemed by the Company on the earliest of the (i) applicable Service Date, (ii) the Change of Control Date or (iii) the Termination Date, (the date of redemption is hereinafter referred to as the "Redemption Date"). As soon as administratively practicable following the applicable Redemption Date, but not later than forty-five (45) days following the Redemption Date, (or, if applicable, the Deferred Date, as defined in Paragraph 5 below), all Restricted Stock Units that become vested pursuant to Paragraph 3 above shall be redeemed and converted to an equivalent number of shares of Company Stock, and the Participant shall receive a single distribution of such shares of Company Stock, which shall be issued under the Plan. For purposes of clarity, if any Restricted Stock Units become vested pursuant to subparagraphs 3(c) or 3(d) above as a result of termination of employment or service with the Employer on account of Normal Retirement or Early Retirement, the Redemption Date for such vested Restricted Stock Units shall be the applicable Service Date or Change of Control Date to which such Restricted Stock Units would have been redeemed if the Participant had remained in the employment or service of the Employer (i.e., the Redemption Date continues to be the originally scheduled Service Date as provided in subparagraph 3(a) above or the Change of Control Date, if earlier, and is not accelerated to an earlier Service Date or to the date on which the termination of employment or service occurs).

5. Deferrals. The Participant may make an irrevocable election to defer the Redemption Date (or further defer the Deferred Date (as defined below), if applicable) of any of the Restricted Stock Units that vest, plus dividend equivalents earned on such Restricted Stock Units

as described in Paragraph 6 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the new Redemption Date cannot be earlier than five (5) years from the original Redemption Date under Paragraph 4 above (or five (5) years from the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Redemption Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Redemption Date, the Participant must complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the redemption of the Participant's Restricted Stock Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Redemption Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 5, the new Redemption Date shall be referred to as the "Deferred Date."

6. Dividend Equivalents. Until the Redemption Date (or the Deferred Date, if elected), if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Restricted Stock Units credited to the Participant's Restricted Stock Unit Account as of the date of payment of any such dividend were shares of Company Stock. On the Redemption Date (or the Deferred Date, if applicable), the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Units that have been forfeited as provided in Paragraph 3 above shall be immediately forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

7. Change of Control. Except as set forth in subparagraph 3(e) of this Grant, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Restricted Stock Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

8. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that with respect to any right to redemption or distribution pursuant to this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

9. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the redemption of the Restricted Stock Units shall be

subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock on the Redemption Date (or the Deferred Date, if applicable), the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that the shares of Company Stock obtained by the Participant upon the redemption of the Restricted Stock Units shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or compensation recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

10. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

11. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such

determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

12. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 6), or the right to vote, with respect to any Restricted Stock Units.

13. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

14. Assignment and Transfers. No Restricted Stock Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and a Restricted Stock Unit shall be redeemed and a dividend equivalent distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Restricted Stock Unit or dividend equivalent by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

15. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and redemption of the Restricted Stock Units and payment of dividend equivalents. Any tax withholding obligation of the Employer with respect to the redemption of the Restricted Stock Units may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

16. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Restricted Stock Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

17. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

18. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant,

delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

19. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Restricted Stock Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 5 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

20. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

IN WITNESS WHEREOF, the Company has caused this Grant to be executed, effective as of the Date of Grant.

AMERICAN WATER WORKS COMPANY, INC.

By: Karl F. Kurz

Exhibit 10.5

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2025 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on the Performance Goal (defined below) relating to the Company's Total Stockholder Return shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goal and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goal described in Paragraph 3 below (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goal.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock

attributable to the Performance Units is contingent upon achievement of the performance goal described in subparagraph (b) below for the Performance Period (the "Performance Goal") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) The Company's Total Stockholder Return ("TSR") (as described in subparagraph (c) below) will be compared to the TSR of the Peer Group companies set forth in Exhibit A attached hereto over the Performance Period (as defined below). The actual number of Performance Units the Participant earns may be greater or less than the Target Award, or even zero, based on the Company's TSR percentile ranking relative to the TSR performance of the companies in the Peer Group, as follows:

[INSERT RELATIVE TSR PERFORMANCE CURVE HERE]

If the Company's actual TSR performance is between measuring points, the number of Performance Units the Participant earns will be interpolated. If the Company's actual TSR performance is below the threshold, no Performance Units will be earned and all of Performance Units will be forfeited. If the Company's actual TSR performance is greater than the maximum, only the maximum number of Performance Units will be earned.

(c) TSR represents stock price performance and dividend accumulation over the Performance Period for the Company and Peer Group. For purposes of this calculation, the initial stock price and the ending stock price are determined using the twenty (20) day average stock price for December 31, 2024, and December 31, 2027, as applicable. The twenty (20) day average stock price is the average of the daily closing stock prices for the twenty (20) trading days that end on the applicable December 31. If December 31 is not a trading day, the closing stock price on the first trading day prior to December 31 shall be used. To determine stock price performance, each closing stock price shall be adjusted by a dividend adjustment factor. The dividend adjustment factor takes into account each per share dividend paid for the Performance Period as well as the effect of any appreciation in stock price by reason of deeming the dividend to be reinvested in the stock. The dividend adjusted price provides the closing price for the requested day, week, or month, adjusted for all applicable splits and dividend distributions. At the end of the Performance Period, the TSR for the Company, and for each company in the Peer Group, shall be determined pursuant to the following formula:

$$\text{TSR} = \frac{(\text{Dividend Adjusted Ending Stock Price} - \text{Dividend Adjusted Initial Stock Price})}{\text{Dividend Adjusted Initial Stock Price}}$$

The result shall be rounded to the nearest hundredth of one percent (.01%).

(d) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(f) below), the Committee will determine whether and to what extent the Performance Goal has been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(e) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change

of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent or subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in paragraph 4(c) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code"), and its corresponding regulations.

(f) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2025 and ending December 31, 2027, and the term "Peer Group" shall mean those companies included in Exhibit A. If at any time during the Performance Period a company in the Peer Group is no longer a publicly traded entity, such company shall be removed from the Peer Group as of January 1 of the year in which the company is no longer publicly traded.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraph 3(e), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goal and the requirements of this Grant are met as of the last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2026, but prior to January 31, 2027; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2027, but prior to January 31, 2028; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2028. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of Performance Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) If at any time prior to the earlier of January 31, 2026 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(c) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately

forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goal. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or nonsolicitation agreement between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2028 (the "Distribution Date"), (b) the Change of Control Date or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goal and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five (5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2025 LTPP, complete the deferral election form provided to the Participant and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the

Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

i. to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

ii. that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any

applicable clawback or compensation recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's

discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

Exhibit 10.6

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2025 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on the Performance Goal (defined below) relating to the Company's Total Stockholder Return shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goal and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goal described in Paragraph 3 below (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goal.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock

attributable to the Performance Units is contingent upon achievement of the performance goal described in subparagraph (b) below for the Performance Period (the "Performance Goal") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) The Company's Total Stockholder Return ("TSR") (as described in subparagraph (c) below) will be compared to the TSR of the Peer Group companies set forth in Exhibit A attached hereto over the Performance Period (as defined below). The actual number of Performance Units the Participant earns may be greater or less than the Target Award, or even zero, based on the Company's TSR percentile ranking relative to the TSR performance of the companies in the Peer Group, as follows:

[INSERT RELATIVE TSR PERFORMANCE CURVE HERE]

If the Company's actual TSR performance is between measuring points, the number of Performance Units the Participant earns will be interpolated. If the Company's actual TSR performance is below the threshold, no Performance Units will be earned and all of Performance Units will be forfeited. If the Company's actual TSR performance is greater than the maximum, only the maximum number of Performance Units will be earned.

(c) TSR represents stock price performance and dividend accumulation over the Performance Period for the Company and Peer Group. For purposes of this calculation, the initial stock price and the ending stock price are determined using the twenty (20) day average stock price for December 31, 2024, and December 31, 2027, as applicable. The twenty (20) day average stock price is the average of the daily closing stock prices for the twenty (20) trading days that end on the applicable December 31. If December 31 is not a trading day, the closing stock price on the first trading day prior to December 31 shall be used. To determine stock price performance, each closing stock price shall be adjusted by a dividend adjustment factor. The dividend adjustment factor takes into account each per share dividend paid for the Performance Period as well as the effect of any appreciation in stock price by reason of deeming the dividend to be reinvested in the stock. The dividend adjusted price provides the closing price for the requested day, week, or month, adjusted for all applicable splits and dividend distributions. At the end of the Performance Period, the TSR for the Company, and for each company in the Peer Group, shall be determined pursuant to the following formula:

$$\text{TSR} = \frac{(\text{Dividend Adjusted Ending Stock Price} - \text{Dividend Adjusted Initial Stock Price})}{\text{Dividend Adjusted Initial Stock Price}}$$

The result shall be rounded to the nearest hundredth of one percent (.01%).

(d) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(f) below), the Committee will determine whether and to what extent the Performance Goal has been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(e) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change

of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent or subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in paragraph 4(e) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code"), and its corresponding regulations.

(f) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2025 and ending December 31, 2027, and the term "Peer Group" shall mean those companies included in Exhibit A. If at any time during the Performance Period a company in the Peer Group is no longer a publicly traded entity, such company shall be removed from the Peer Group as of January 1 of the year in which the company is no longer publicly traded.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraphs 3(e), 4(b), or 4(c), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goal and the requirements of this Grant are met as of the last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2026, but prior to January 31, 2027; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2027, but prior to January 31, 2028; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2028. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of Performance Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement, then the Participant will earn the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goal and the requirements of this Grant are met as of the last day of the Performance Period. If the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement pursuant to this subparagraph (b), the number of Performance Units that are earned based on the Performance Goal and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Normal Retirement" shall mean termination of

employment or service with the Employer (other than for Cause) after the Participant has attained age sixty (60) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(c) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement, then the Participant will earn 75% of the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goal and the requirements of this Grant are met as of the last day of the Performance Period, and unearned Performance Units shall be immediately forfeited. If the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement pursuant to this subparagraph (c), then the number of Performance Units that are earned based on the Performance Goal and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Early Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age fifty-five (55) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(d) Except as set forth in Paragraphs 4(b) or 4(c), if at any time prior to the earlier of January 31, 2026 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(e) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goal. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or nonsolicitation agreement between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2028 (the "Distribution Date"), (b) the Change of Control Date or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goal and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five (5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2025 LTPP, complete the deferral election form provided to the Participant and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim

any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

i. to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

ii. that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or compensation recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to

withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any

notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

Exhibit 10.7

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2025 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on Performance Goals (defined below) relating to compounded earnings per share, as set forth in Exhibit A attached hereto, shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goals and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goals described in this Grant (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goals.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock

attributable to the Performance Units is contingent upon achievement of the performance goals set forth in Exhibit A attached hereto (the "Performance Goals") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(d) below), the Committee will determine whether and to what extent the Performance Goals have been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(c) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent of subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in paragraph 4(c) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations.

(d) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2025 and ending December 31, 2027.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraph 3(c), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2026, but prior to January 31, 2027; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2027, but prior to January 31, 2028; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2028. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of Performance

Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) If at any time prior to the earlier of January 31, 2026 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(c) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goals. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or non-solicitation agreement between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2028 (the "Distribution Date"), (b) the Change of Control Date, or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goals and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five (5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2025 LTPP, complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the

Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or compensation recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate

the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

"PSU GRANT B – EPS"

EXHIBIT A

PERFORMANCE GOALS

The number of Performance Units that may be earned shall be determined based on the achievement of Compounded Earnings Per Share Growth (as described below) over the Performance Period.

[INSERT COMPOUNDED EARNINGS PER SHARE GROWTH TARGET AND CALCULATION HERE]

Exhibit 10.8

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2025 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on Performance Goals (defined below) relating to compounded earnings per share, as set forth in Exhibit A attached hereto, shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goals and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goals described in this Grant (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goals.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock

attributable to the Performance Units is contingent upon achievement of the performance goals set forth in Exhibit A attached hereto (the "Performance Goals") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(d) below), the Committee will determine whether and to what extent the Performance Goals have been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(c) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent of subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in Paragraph 4(e) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations.

(d) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2025 and ending December 31, 2027.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraphs 3(c) 4(b) or 4(c), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2026, but prior to January 31, 2027; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2027, but prior to January 31, 2028; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2028. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of

Performance Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement, then the Participant will earn the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. If the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement pursuant to this subparagraph (b), the number of Performance Units that are earned based on the Performance Goals and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Normal Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age sixty (60) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(c) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement, then the Participant will earn 75% of the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period, and unearned Performance Units shall be immediately forfeited. If the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement pursuant to this subparagraph (c), then the number of Performance Units that are earned based on the Performance Goals and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Early Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age fifty-five (55) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(d) Except as set forth in Paragraphs 4(b) or 4(c), if at any time prior to the earlier of January 31, 2026 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(e) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goals. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or non-solicitation agreement

between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2028 (the "Distribution Date"), (b) the Change of Control Date, or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goals and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five (5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2025 LTPP, complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or compensation recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

"PSU GRANT B – EPS"

EXHIBIT A

PERFORMANCE GOALS

The number of Performance Units that may be earned shall be determined based on the achievement of Compounded Earnings Per Share Growth (as described below) over the Performance Period.

[INSERT COMPOUNDED EARNINGS PER SHARE GROWTH TARGET AND CALCULATION HERE]

Exhibit 10.9

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2025 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on Performance Goals (defined below) relating to return on equity, as set forth in Exhibit A attached hereto, shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goals and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goals described in this Grant (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goals.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock

attributable to the Performance Units is contingent upon achievement of the performance goals set forth in Exhibit A attached hereto (the "Performance Goals") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(d) below), the Committee will determine whether and to what extent the Performance Goals have been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(c) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent of subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in paragraph 4(c) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations.

(d) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2025 and ending December 31, 2027.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraph 3(c), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2026, but prior to January 31, 2027; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2027, but prior to January 31, 2028; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2028. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of Performance

Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) If at any time prior to the earlier of January 31, 2026 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(c) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goals. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or non-solicitation agreement between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2028 (the "Distribution Date"), (b) the Change of Control Date, or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goals and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five (5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2025 LTPP, complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the

Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or compensation recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate

the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

IN WITNESS WHEREOF, the Company has caused its duly authorized officer to execute this Grant, effective as of the Date of Grant.

AMERICAN WATER WORKS COMPANY, INC.

By: M. Susan Hardwick

Its: Chief Executive Officer

"PSU GRANT C – ROE"

EXHIBIT A

PERFORMANCE GOALS

The number of Performance Units that may be earned shall be determined based on the achievement of the Return on Equity (as described below) over the Performance Period.

[INSERT RETURN ON EQUITY TARGET AND CALCULATION HERE]

Exhibit 10.10

AMERICAN WATER WORKS COMPANY, INC.
2017 OMNIBUS EQUITY COMPENSATION PLAN
PERFORMANCE STOCK UNIT GRANT

This PERFORMANCE STOCK UNIT GRANT, dated as of February 18, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Committee (as defined in the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan")) has adopted a 2025 Long Term Performance Plan ("2025 LTPP") pursuant to which designated employees will be granted equity awards (collectively, the "Equity Award") for shares of Common Stock of the Company, par value $0.01 per share (the "Company Stock");

WHEREAS, the Equity Award is comprised of four separate grants: a restricted stock unit and three performance stock unit grants;

WHEREAS, the Committee has determined that the Participant is eligible to participate in the 2025 LTPP and to grant the Participant an Equity Award under the 2025 LTPP; and

WHEREAS, the Committee has determined that the performance stock unit portion of the Equity Award granted to the Participant pursuant to the 2025 LTPP shall be issued under the Plan, and the terms and conditions of the performance stock unit grant that may be earned based on Performance Goals (defined below) relating to return on equity, as set forth in Exhibit A attached hereto, shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Performance Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ performance stock units (the "Performance Units"). The Performance Units are contingently awarded and will be earned and distributable if and only to the extent that the Performance Goals and other conditions set forth in this Grant are met. Each Performance Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable payment date, as described in Paragraph 5 below. The number of Performance Units set forth above is equal to the target number of shares of Company Stock that the Participant will earn for 100% achievement of the Performance Goals described in this Grant (the "Target Award").

2. Performance Unit Account. The Company shall establish and maintain a Performance Unit account as a bookkeeping account on its records (the "Performance Unit Account") for the Participant and shall record in such Performance Unit Account the number of Performance Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Performance Unit Account established for the Participant.

3. Performance Goals.

(a) Unless a Change of Control (as defined below) occurs prior to the end of the Performance Period (as defined below), the distribution of the shares of Company Stock

attributable to the Performance Units is contingent upon achievement of the performance goals set forth in Exhibit A attached hereto (the "Performance Goals") and the Participant satisfying the continuation of employment and service with the Employer (as defined in the Plan) requirement described in Paragraph 4 below.

(b) As soon as administratively practicable following the end of the Performance Period (as defined in Paragraph 3(d) below), the Committee will determine whether and to what extent the Performance Goals have been met and the number of Performance Units the Participant has earned, if any. Except as described in Paragraph 4 below, the Participant must be employed by, or providing service to, the Employer on the last day of the Performance Period in order to earn the Performance Units.

(c) If a Change of Control occurs prior to the end of the Performance Period, the Company is not the surviving corporation (or survives only as a subsidiary of another corporation or entity (the "surviving corporation")) and the Performance Units are not converted to similar grants of the surviving corporation (or a parent or subsidiary of the surviving corporation), then the Performance Period will end on the date of the Change of Control and the Performance Units will be deemed earned at the Target Award level as of the date of the Change of Control (the "Change of Control Date"). In the event the Participant's Performance Units are assumed by the surviving corporation but the Participant ceases to be employed by, or providing service to, the surviving corporation (or a parent or subsidiary of the surviving corporation) within twelve (12) months after the date of the Change of Control on account of (i) a termination of such Participant's employment by the surviving corporation (or a parent of subsidiary of the surviving corporation) for any reason other than on account of Cause (as defined in Paragraph 4(e) hereof), or on account of death or Disability (each as defined in the Plan), or (ii) a termination of employment or service by the Participant for Good Reason (as defined in the Plan), then the Performance Period will end on the date of such termination of employment or service (the "Termination Date") and the Performance Units will be deemed earned at the Target Award level as of the Termination Date. For purposes of this Grant, "Change of Control" shall mean as such term is defined in the Plan, except that a Change of Control shall not be deemed to have occurred for purposes of this Grant unless the event constituting the Change of Control constitutes a change in ownership or effective control of the Company, or in the ownership of a substantial portion of the assets of the Company, within the meaning of section 409A of the Internal Revenue Code of 1986, as amended (the "Code") and its corresponding regulations.

(d) For purposes of this Grant, the term "Performance Period" shall mean the three (3)-year period beginning on January 1, 2025 and ending December 31, 2027.

4. Termination of Employment or Service.

(a) Except as set forth in Paragraphs 3(c) 4(b) or 4(c), if, at least one year after the beginning of the Performance Period, but prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of any reason other than a termination for Cause (as defined below), the Participant will earn a pro-rata portion of the Performance Units, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. The pro-rata portion earned will be equal to the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, multiplied by a fraction, which fraction shall be equal to (i) 1/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2026, but prior to January 31, 2027; (ii) 2/3, if the Participant's employment or service with the Employer terminates on or after January 31, 2027, but prior to January 31, 2028; and (iii) 3/3, if the Participant's employment or service terminates with the Employer on or after January 31, 2028. If the Participant ceases to be employed by, or provide service to, the Employer for any reason other than on account of Cause, the prorated number of

Performance Units earned by the Participant pursuant to this Paragraph 4(a) will be distributed in accordance with Paragraph 5.

(b) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement, then the Participant will earn the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period. If the Participant ceases to be employed by, or provide service to, the Employer on account of Normal Retirement pursuant to this subparagraph (b), the number of Performance Units that are earned based on the Performance Goals and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Normal Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age sixty (60) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(c) Notwithstanding any provision of this Agreement to the contrary, if prior to the end of the Performance Period, the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement, then the Participant will earn 75% of the number of Performance Units that would have been earned if the Participant had remained employed through the last day of the Performance Period, if the Performance Goals and the requirements of this Grant are met as of the last day of the Performance Period, and unearned Performance Units shall be immediately forfeited. If the Participant ceases to be employed by, or provide service to, the Employer on account of Early Retirement pursuant to this subparagraph (c), then the number of Performance Units that are earned based on the Performance Goals and other requirements of this Grant will be distributed in accordance with Paragraph 5. For purposes of this Grant, "Early Retirement" shall mean termination of employment or service with the Employer (other than for Cause) after the Participant has attained age fifty-five (55) and has five (5) total years of employment or service with the Employer which includes at least three (3) consecutive full calendar years of service in the position of Chief Executive Officer, President, Chief Operating Officer or Chief Financial Officer, or any combination thereof.

(d) Except as set forth in Paragraphs 4(b) or 4(c), if at any time prior to the earlier of January 31, 2026 or a Change of Control, the Participant's employment or service with the Employer is terminated by the Employer on account of any reason or no reason or by the Participant for any reason or no reason, all of the Performance Units subject to this Grant shall be immediately forfeited as of the date of the Participant's termination of employment or service with the Employer and the Participant shall not have any rights with respect to the distribution of any portion of the Performance Units.

(e) If at any time prior to the date the Performance Units are distributed in accordance with Paragraph 5 the Participant's employment or service with the Employer is terminated on account of Cause, all of the Performance Units subject to this Grant shall be immediately forfeited and the Participant will not have any rights with respect to the distribution of any portion of the Performance Units, irrespective of the level of achievement of the Performance Goals. For purposes of this Grant, "Cause" shall mean a finding by the Committee that the Participant (i) has breached his or her employment or service contract with the Employer, if any; (ii) has engaged in disloyalty to the Employer, including, without limitation, fraud, embezzlement, theft, commission of a felony or proven dishonesty; (iii) has disclosed trade secrets or confidential information of the Employer to persons not entitled to receive such information; (iv) has breached any written noncompetition or non-solicitation agreement

between the Participant and the Employer; or (v) has engaged in such other behavior detrimental to the interests of the Employer as the Committee determines.

5. Time and Form of Payment with Respect to Performance Units. Unless an election is made pursuant to Paragraph 6 below, the Participant will receive a distribution with respect to the Performance Units earned as described in Paragraphs 3 and 4 above within seventy (70) days following the earliest of (a) January 31, 2028 (the "Distribution Date"), (b) the Change of Control Date, or (c) the Termination Date. The Performance Units will be distributed in shares of Company Stock, with each Performance Unit earned equivalent to one share of Company Stock. Any Performance Units not earned because of the failure to attain the Performance Goals and service condition will be immediately forfeited.

6. Deferrals. The Participant may make an irrevocable election to defer the Distribution Date (or further defer the Deferred Date (as defined below), if applicable) of all of the Performance Units that are earned, plus dividend equivalents earned on such Performance Units as described in Paragraph 7 below, to a later date, provided that, except as to any election made by the Participant to accelerate the Deferred Date in the event of his or her death prior to the Deferred Date, (a) the election shall not take effect until at least twelve (12) months after the date on which the election is made, (b) the deferred Distribution Date cannot be earlier than five (5) years from the original Distribution Date under Paragraph 5 above (or five (5) years from the applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made), and (c) the election must be made no less than twelve (12) months prior to the date of the Distribution Date (twelve (12) months prior to the previously applicable Deferred Date, if a subsequent deferral of a Deferred Date is being made). To defer the Distribution Date, the Participant must elect to defer 100% of the Performance Units, including corresponding dividend equivalents, earned by the Participant under this Grant, as well as 100% of the other performance stock units, including corresponding dividend equivalents, earned by the Participant under the 2025 LTPP, complete the deferral election form provided to the Participant, and return such form to the Company in the manner and by the deadline provided therein. If the Participant desires to make a further deferral, the Participant must make such election on a separate form provided for such purpose. Any such election shall be made in accordance with section 409A of the Code and any corresponding guidance and regulations issued under section 409A of the Code. Notwithstanding a Participant's election pursuant to this Paragraph, if the Change of Control Date or the Termination Date occurs prior to the Deferred Date, the distribution of the Participant's earned Performance Units, plus corresponding dividend equivalents, will be the Change of Control Date or the Termination Date, as applicable. If a Distribution Date is delayed one or more times pursuant to any election made by the Participant pursuant to this Paragraph 6, the new Distribution Date shall be referred to as the "Deferred Date."

7. Dividend Equivalents. Until the earlier of the Distribution Date (or the Deferred Date, if elected), the Change of Control Date or the Termination Date, if any dividends are paid with respect to the shares of Company Stock, the Company shall credit to a dividend equivalent account (the "Dividend Equivalent Account") the value of the dividends that would have been distributed if the Performance Units credited to the Participant's Performance Unit Account as of the date of payment of any such dividend were shares of Company Stock. At the same time that the Performance Units are converted to shares of Company Stock and distributed to the Participant, the Company shall pay to the Participant in a lump sum cash equal to the value of the dividends credited to the Participant's Dividend Equivalent Account; provided, however, that any dividends that were credited to the Participant's Dividend Equivalent Account that are attributable to Performance Units that have been forfeited as provided in Paragraph 3 and 4 above shall be forfeited and not payable to the Participant. No interest shall accrue on any dividend equivalents credited to the Participant's Dividend Equivalent Account.

8. Change of Control. Except as set forth above, the provisions set forth in the Plan applicable to a Change of Control (as defined in the Plan) shall apply to the Performance Units, and, in the event of a Change of Control, the Committee may take such actions as it deems appropriate pursuant to the Plan and is consistent with the requirements of section 409A of the Code.

9. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that, with respect to any right to distribution pursuant to the Plan or this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any time be at issue, to the fullest extent permitted by applicable law.

10. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) To the extent permitted by Code section 409A, the obligation of the Company to deliver shares of Company Stock upon the Participant earning the Performance Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Committee.

(b) The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(c) As a condition to receive any shares of Company Stock upon conversion of the earned Performance Units, the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and/or from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and the Personal Securities Trading and Preclearance Practice; and

(ii) that any shares of Company Stock received by the Participant upon the distribution of the earned Performance Units pursuant to this Grant shall be subject to the guidelines and restrictions set forth in the Company's Executive Stock Ownership Guidelines and Executive Stock Retention Requirements, effective as of July 26, 2022 (and as they may be amended, restated, supplemented and interpreted), and any applicable clawback or compensation recovery or recoupment policies and other policies that may be approved by the Company's Board of Directors or a duly authorized committee thereof, from time to time.

11. Participant Undertaking. The Participant agrees to take whatever additional actions and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on the Participant pursuant to the provisions of this Grant.

12. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Committee in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (a) rights and obligations with respect to withholding taxes, (b) the registration, qualification or listing of the shares of Company Stock, (c) changes in capitalization of the Company, and (d) other requirements of applicable law. The Committee shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder. By accepting this Grant, the Participant agrees (i) to be bound by the terms of the Plan and this Grant, (ii) to be bound by the determinations and decisions of the Committee with respect to this Grant, the Plan and the Participant's rights to benefits under this Grant and the Plan, and (iii) that all such determinations and decisions of the Committee shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

13. No Rights as Stockholder. The Participant shall not have any rights as a stockholder of the Company, including the right to any cash dividends (except with respect to the dividend equivalent rights provided in Paragraph 7), or the right to vote, with respect to any Performance Units.

14. No Rights to Continued Employment or Service. This Grant shall not confer upon the Participant any right to be retained in the employment or service of the Employer and shall not interfere in any way with the right of the Employer to terminate the Participant's employment or service at any time. The right of the Employer to terminate at will the Participant's employment or service at any time for any reason is specifically reserved.

15. Assignment and Transfers. No Performance Units or dividend equivalents awarded to the Participant under this Grant may be transferred, assigned, pledged, or encumbered by the Participant and the Performance Units and dividend equivalents shall be distributed during the lifetime of the Participant only for the benefit of the Participant. Any attempt to transfer, assign, pledge, or encumber the Performance Units or dividend equivalents under this Grant by the Participant shall be null, void and without effect. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

16. Withholding. The Participant shall be required to pay to the Employer, or make other arrangements satisfactory to the Employer to provide for the payment of, any federal, state, local or other taxes that the Employer is required to withhold with respect to the grant, vesting and distribution of the Performance Units and dividend equivalents. Any tax withholding obligation of the Employer with respect to the distribution of shares of Company Stock pursuant to the Performance Units that are earned by the Participant under this Grant may, at the Committee's discretion, be satisfied by having shares of Company Stock withheld for federal (including FICA), state, local and other tax liabilities, up to an amount that does not exceed the maximum rate permitted by U.S. generally accepted accounting principles.

17. Effect on Other Benefits. The value of shares of Company Stock and dividend equivalents distributed with respect to the Performance Units shall not be considered eligible earnings for purposes of any other plans maintained by the Company or the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

18. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflict of laws provisions thereof.

19. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the payroll records of the Employer, or to such other address as the Participant may designate to the Employer in writing. Any notice shall be (i) delivered by hand, (ii) delivered by a national overnight courier or delivery service, (iii) enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service, or (iv) in the case of notices by the Company to the Participant, delivered by e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means).

20. Taxation; Code Section 409A. As applicable, this Grant is intended to comply with the requirements of section 409A of the Code and shall be interpreted and administered in accordance with Code section 409A. Notwithstanding any provision to the contrary herein, if the Performance Units constitute "deferred compensation" under section 409A of the Code, distributions made with respect to this Grant may only be made in a manner and upon an event permitted by Code section 409A. To the extent that any provision of the Grant would cause a conflict with the requirements of Code section 409A, or would cause the administration of the Grant to fail to satisfy the requirements of Code section 409A, such provision shall, to the extent practicable if permitted by applicable law, be deemed null and void. In the event that it is determined not feasible to void a provision of this Grant, such provision shall be construed in a manner as to comply with the Code section 409A requirements. This Grant may be amended without the consent of the Participant in any respect deemed by the Committee or its delegate to be necessary in order to comply with Code section 409A. Unless a valid election is made pursuant to Paragraph 6 above, in no event may the Participant, directly or indirectly, designate the calendar year of distribution. Notwithstanding anything in the Plan or the Grant to the contrary, the Participant shall be solely responsible for the tax consequences of this Grant, and in no event shall the Company have any responsibility or liability if this Grant does not meet any applicable requirements of Code section 409A.

21. Severability. In the event one or more of the provisions of this Grant should, for any reason, be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability will not affect any other provisions of this Grant, and this Grant will be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

[*SIGNATURE PAGE FOLLOWS*]

IN WITNESS WHEREOF, the Company has caused this Grant to be executed, effective as of the Date of Grant.

AMERICAN WATER WORKS COMPANY, INC.

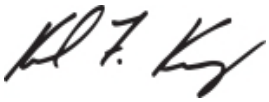
By: Karl F. Kurz



Its: Board Chair

"PSU GRANT C – ROE"

EXHIBIT A

PERFORMANCE GOALS

The number of Performance Units that may be earned shall be determined based on the achievement of the Return on Equity (as described below) over the Performance Period.

[INSERT RETURN ON EQUITY TARGET AND CALCULATION HERE]

Exhibit 10.11

April 30, 2025

Mr. John Griffith
[REDACTED]
[REDACTED]

Dear John:

On behalf of American Water Works Company, Inc. (the "Company") and its Board of Directors, we are pleased to offer you the position of President and Chief Executive Officer, effective on May 14, 2025 at the conclusion of the Company's annual shareholder meeting. As President and Chief Executive Officer of the Company, you shall have the authority to control the day-to-day operations of the Company and its corporate strategy subject to the Company's Bylaws and Delegation of Authority and any direction and instructions provided by the Company's Board of Directors. The following are the terms and conditions of your employment as the Company's President and Chief Executive Officer.

Base Salary: Your new annual salary will be approximately $1,050,000.00, which will be paid on a bi-weekly basis in accordance with American Water's standard payroll practices and will be effective May 14, 2025. Your job performance and compensation will be reviewed annually by the Executive Development and Compensation Committee and the independent members of the Board of Directors.

APP: You will remain eligible to participate in the American Water Annual Performance Plan. Your target award eligibility will increase from 100% to 120% of your annual base salary for the 2025 cycle and will be prorated based on your new base salary and target percentage level. For reference purposes, the 2025 cycle covers the period beginning on 01/01/2025 through 12/31/2025 and awards are based on several company performance objectives that were agreed upon and approved by the Executive Development and Compensation Committee and the independent members of the Board of Directors.

LTPP: You remain eligible to participate in the 2025 American Water Long Term Performance Plan (LTPP), and your target opportunity under this plan will increase from 340% to 430% of your base salary. Effective May 14, 2025, you will receive a second set of grants that reflect the prorated difference between your February 2025 grants and your new LTPP target value based on your new base salary and new LTPP target percentage. For reference purposes, awards are currently granted under the terms and conditions of the Company's 2017 Omnibus Equity Compensation Plan (the Plan), in the form of restricted stock units and performance stock units as approved by the Executive Development and Compensation Committee and the independent members of the Board of Directors. In the event of any conflict between your offer letter and the terms of the award grant documents and the Plan, the terms of the award documents and the Plan will govern.

Benefits: Your current benefits will remain unchanged and in effect, including your vacation accrual. This change in your position is not an IRS Qualified Life Event allowing you to change your American Water benefit elections, however, it is a notable event in your life. Please take this opportunity to review your health and welfare benefits and 401(k) elections to see how this transition impacts your coverage (e.g., company paid life insurance amount, HSA election, 401(k) deferral election, beneficiary designations, etc.). In addition, American Water believes your health is of critical importance for your family, our customers, shareholders, and the employees you lead. To help you take the best possible care of your health, we also have a company-sponsored Executive Health Program for our key leaders. The program focuses on your physical well-being and long-term health and consists of a thorough risk-factor analysis, advanced diagnostic screenings, extensive laboratory testing, and ongoing coaching and support. Additional services are available throughout the year, including voluntary primary care services.

Non-Qualified Deferred Compensation Plan: You will continue to be eligible to participate in our Non-Qualified Deferred Compensation Plan subject to plan rules and annual enrollment.

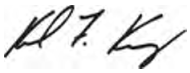
Executive Severance Policy and Change of Control Severance Policy: You will remain an eligible participant under the Executive Severance Policy and under the Change of Control Severance Policy.

Executive Stock Ownership Guidelines and Executive Stock Retention Requirements: You will continue to be subject to the stock ownership guidelines and stock retention requirements.

As a Section 16 officer of the Company, American Water may be required to disclose your compensation and/or this offer letter in SEC filings. Your signature below indicates your acceptance of our offer and your acknowledgment of this requirement of your position.

We look forward to working with you as President and Chief Executive Officer as you continue to execute on our strategy and grow the Company.

Sincerely,



Karl F. Kurz
Board Chair
American Water

I, John Griffith, understand that my employment with American Water is "at will," which means that I am not guaranteed employment or any particular job for any specified period of time. The Company or I may terminate my employment at any time, for any or no reason, with or without cause.

Ms. Lori Sutton
[REDACTED]
[REDACTED]

Dear Lori:

On behalf of American Water Works Service Company, Inc., I am pleased to confirm your new position of Senior Vice President, Chief Human Resources Officer reporting to John Griffith, President, at our Evansville, Indiana office. The effective date of your new position is April 1, 2025. We are confident that you will find your new position to be personally rewarding and one in which you can make significant contributions to the company. ***The compensation described in this offer letter is subject to the approval of the Executive Development & Compensation Committee (ED&CC) and will not be effective until the ED&CC approves such compensation.***

Base Salary: Your new annual salary will be approximately $420,000.00, which will be paid on a bi-weekly basis in accordance with American Water's standard payroll practices and will be effective April 1, 2025. Your job performance will be reviewed annually as part of our performance management process, and you may be eligible for a merit increase in 2026.

APP: You will remain eligible to participate in the American Water Annual Performance Plan. Your target award eligibility will increase from 45% to 50% of your annual base salary for the 2025 cycle. For reference purposes, the 2025 cycle covers the period beginning on 01/01/2025 through 12/31/2025 and target awards are prorated based on your effective date. Awards from the Annual Performance Plan are based on several company performance objectives, and payments may be higher or lower than target.

LTPP: You remain eligible to participate in the 2025 American Water Long Term Performance Plan (LTPP), and your target opportunity under this plan will increase from 65% to 90% of your base salary. Effective April 1, 2025, you will receive a second set of grants that reflect the prorated difference between your February 2025 grants and your new LTPP target value based on your new base salary and new LTPP target percentage. For reference purposes, awards are currently granted under the terms and conditions of the Company's 2017 Omnibus Equity Compensation Plan (the Plan), in the form of restricted stock units and performance stock units. In the event of any conflict between your offer letter and the terms of the award grant documents and the Plan, the terms of the award documents and the Plan will govern.

Benefits: Your current benefits will remain unchanged and in effect, including your vacation accrual. This change in your position is not an IRS Qualified Life Event allowing you to change your American Water benefit elections, however, it is a notable event in your life. Please take this opportunity to review your health and welfare benefits and 401(k) elections to see how this transition impacts your coverage (e.g., company paid life insurance amount, HSA election, 401(k) paycheck election, beneficiary designations, etc.). In addition, American Water believes your health is of critical importance for your family, our customers, shareholders, and the employees you lead. To help you take the best possible care of your health, we also have a company-sponsored Executive Health Program for our key leaders. The program focuses on your physical well-being and long-term health and consists of a thorough risk-factor analysis, advanced diagnostic screenings, extensive laboratory testing, and ongoing coaching and support. Additional services are available throughout the year, including voluntary primary care services.

Non-Qualified Plan: You will continue to be eligible to participate in our Non-Qualified Deferred Compensation Plan subject to plan rules and annual enrollment.

Executive Severance Policy and Change of Control Severance Policy: You will remain an eligible participant under the Executive Severance Policy and will be an eligible participant under the Change of Control Severance Policy.

Executive Stock Ownership Guidelines and Executive Stock Retention Requirements: You will continue to be subject to the stock ownership guidelines and stock retention requirements.

As you will be a Section 16 officer of the Company, American Water may be required to disclose your compensation and/or this offer letter in future SEC filings. Your signature below indicates your acceptance of our offer and your acknowledgment of this requirement of your position. Please review all attachments and sign the Confidentiality and Intellectual Property Agreements along with this letter.

We wish you the best of luck in your new role and future opportunities with American Water!

Sincerely,

/s/ JOHN GRIFFITH

John Griffith
President
American Water

I, Lori Sutton, understand that my employment with American Water is "at will," which means that I am not guaranteed employment or any particular job for any specified period of time. The Company or I may terminate my employment at any time, for any or no reason, with or without cause.

AMERICAN WATER

CONFIDENTIALITY POLICY AND AGREEMENT

This Confidentiality Policy and Agreement ("Confidentiality Agreement") set forth your understanding and agreement with the provisions below which discuss the Company's confidential and propriety information and trade secrets. You acknowledge and agree that you are signing this Confidentiality Agreement for good and adequate consideration including your employment by or continuing employment by American Water or one of its subsidiaries (collectively, the "Company"); the access that the Company is providing you to certain confidential and proprietary information and trade secrets described below; and the Company's willingness to provide you with valuable opportunities, consideration and/or benefits. You further acknowledge that this Confidentially Agreement is in addition to existing American Water policies addressing the handling of sensitive information, cyber and information security.

The Company's Confidentiality Policy

The protection of confidential business information and trade secrets is vital to the interests and the success of the Company. In the course of employment with the Company, employees may create, discover or receive proprietary and/or confidential information including, without limitation: all information about markets, key personnel, operational methods, proprietary intellectual property, real property, plans for future developments, projects in the pipeline, bid information, manuals, books, training materials, forms and procedures, policies, customer or prospective customer lists, customer-related data, marketing plans and strategies, financial information, technical information, technical processes and methods, algorithms, documents relating to any of the foregoing, and other written and oral materials (whether electronic or on hard copy) which are related to the business of the Company (collectively, "Confidential Information"). Confidential Information includes all forms and types of financial, business, scientific, technical, economic, or engineering information, including patterns, plans, compilations, program devices, formulas, designs, prototypes, methods, techniques, processes, procedures, programs, or codes, whether tangible or intangible, and whether or how stored, compiled, or memorialized physically, electronically, graphically, photographically, or in writing if -- (A) the Company has taken reasonable measures to keep such information secret; and (B) the information derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable through proper means by, another person who can obtain economic value from the disclosure or use of the information. Confidential Information may also be "material, non-public information" as defined by federal securities laws and Company policy, both of which prohibit insider trading. Confidential Information may be contained in Company documents, computer programs, databases, investor documents, trading strategies and analytic models. Confidential Information is related to a product or service used, or intended for use, in interstate or foreign commerce.

Confidential Information must be protected as confidential and not copied, disclosed or used, directly or indirectly, at any time, other than for the Company's benefit (to the extent permitted by law), unless and until such knowledge or information is in the public domain through no wrongful act by the employee(s). Employees must not, directly or indirectly, divulge or disclose to anyone (other than the Company or any of its affiliates or any person employed or designated by such entities who need to know), publish or make use of any Confidential Information without the Company's express prior written consent; provided, however, that nothing shall prohibit or restrict an employee from participating, cooperating, or testifying in any action, investigation, or proceeding with, or providing information to, any governmental agency or legislative body, or any self-regulatory organization (collectively, the "Regulators"). Employees may engage in such activities with the Regulators without notifying or obtaining prior authorization from the Company.

Nothing in this document is intended to interfere with or discourage a good faith disclosure to any governmental entity related to a suspected violation of the law. The employee cannot and will not be held criminally or civilly liable under any federal or state trade secret law for disclosing otherwise protected trade secrets or confidential or proprietary information as long as the disclosure is made in (i) confidence to a federal, state, or local government official, directly or indirectly, or to an attorney and solely for the purpose of reporting or investigating a suspected violation of law; or (ii) a complaint or other document filed in a lawsuit or other proceeding, as long as such filing is made under seal. The Company will not retaliate against any employee in any way for a disclosure made in accordance with the law. In the event that the employee makes a disclosure, and the employee files a lawsuit against the Company alleging that the Company retaliated against the employee because of his or her disclosure, the employee may disclose the relevant trade secret or Confidential Information to his or her attorney and may use the trade secret or Confidential Information in the court proceeding only if (i) the employee ensures that any court filing that includes the trade secret or Confidential Information at issue is made under seal; and (ii) the employee does not otherwise disclose the trade secret or Confidential Information except as required by court order.

Following the cessation of employment, employees shall deliver to the Company all documents or other materials in their possession, including all copies thereof, which contain or are derived from Confidential Information, and they shall not misappropriate, utilize, disclose or infringe upon the Confidential Information of the Company or any of its affiliates (including the recreation or reconstruction of Confidential Information from memory). At the Company's request, employees must delete or destroy any and all files and/or backup files on any personal computer, telephone or storage device used for Company purposes, and, at the Company's request, deliver and/or provide access to the Company to any such devices, cloud systems, disk, thumb and/or flash drives for the Company's review and permit the Company to delete all Confidential or other Company proprietary material contained on such devices. Employees shall not analyze, reverse engineer, or otherwise seek to determine the composition or structure of any sample or device provided by the Company or the method by which such sample or device was created, except as specifically authorized by the Company in writing. All samples and devices, whether in whole or in pieces, shall be returned to the Company at its request.

A breach of this Agreement would cause irreparable harm and significant injury to the Company, the quantification of which is difficult to ascertain. Because such harm and injury could not be compensable by damages alone, the employee agrees that the Company shall have the right to enforce this Agreement by injunction (without the necessity of a bond or other security and without proving actual damages), specific performance, or other equitable relief without prejudice to any other rights and remedies available to the Company in the event of a breach of this Agreement. The employee acknowledges that: (i) an immediate and irreparable injury would occur without a seizure order; (ii) seizure of the Confidential Information would not interrupt the legitimate business operations of the employee; and (iii) an injunction would not prevent the employee from entering into an employment relationship. You further agree that the Company shall be entitled to its reasonable fees and costs if a court of competent jurisdiction issues a preliminary or permanent injunction against you or a court of competent jurisdiction finds that you breached the terms of the Agreement.

The Defend Trade Secrets Act of 2016 ("DTSA") governs the trade secret aspects of this Agreement. Otherwise, the validity, interpretation, and enforceability of this Agreement shall be governed by the laws of the State of New Jersey and the United States of America without regard to the conflict of laws principles thereof. Employees with questions regarding this Confidentiality Agreement or the Company's Confidentiality Policy including questions regarding whether any particular information constitutes "Confidential Information," the public disclosure of which is prohibited hereunder, should contact their supervisor or the Chief Compliance Officer. Employees who improperly use or disclose trade secrets or Confidential Information may be subject to disciplinary action, up to and including termination of employment, as well as legal action, even if the employee does not actually benefit from the disclosed information.

You acknowledge that you (a) have carefully read and considered the provisions of this Confidentiality Agreement and the Company's Confidentiality Policy (b) have had a reasonable opportunity to consult with an independent legal counsel of your choosing, and (c) accept this Confidentiality Agreement on the terms set forth herein, intending to be legally bound. You understand that it is your responsibility to read and comply with its contents and any revisions made to it.

AMERICAN WATER

INTELLECTUAL PROPERTY AGREEMENT

This Agreement sets forth the agreements between you and AWIP Holdings LLC ("AWIP") concerning any inventions you may make or works you may create in connection with your employment by American Water Works Company, Inc. or one of its affiliates or subsidiaries (collectively, the "Company") and your treatment of the Company's confidential and proprietary information. You acknowledge and agree that you are signing this Agreement for good and adequate consideration including (a) your employment by or continuing employment by the Company; (b) the access that the Company is providing you to certain confidential and proprietary information and trade secrets described below; and (c) the Company's willingness to provide you with valuable opportunities, consideration and/or benefits.

1.0 INVENTIONS. As used in this Agreement, the term "Inventions" means any and all inventions, ideas, and discoveries, including improvements, original works of authorship, designs, formulas, processes, methods, algorithms, computer programs or portions thereof, databases, trade secrets and proprietary information, documentation, and materials made, created, conceived or reduced to practice by you, whether alone or jointly with others.

a. Your Rights in Inventions

(i) Prior Inventions. In the space provided below, or on a separate sheet attached to this Agreement, you may list all Inventions (a) that you made prior to your employment by the Company; (b) that you claim belong to you, or that you claim an ownership interest in, or that you claim any other legal right or title in; and (c) in which you wish to retain any claimed ownership or other legal rights ("Prior Inventions"). If you do list such Prior Inventions, you hereby grant to AWIP a royalty-free, irrevocable, perpetual, worldwide license to any Prior Invention that is now or hereafter infringed by a Company product, process, or method of doing business (hereinafter "AWIP Product") if: (i) you were involved in the development or implementation of that portion of the AWIP Product which infringes your Prior Invention, or (ii) you acquiesced or permitted other Company employees to utilize your Prior Invention in the course of their development or implementation of the AWIP Product, or (iii) upon first learning of the Company's use of your Prior Invention you do not immediately notify in writing the Company's Legal Department of the Company's infringing use of your Prior Invention and the need for a license thereto. If you do not list a Prior Invention, you acknowledge and agree that no such Prior Inventions exist and, to the extent such Prior Inventions do exist, you waive any and all rights or claims of ownership to such Prior Inventions. You understand that your listing of any Prior Invention(s) here does not constitute an acknowledgment by the Company of the existence or extent of such Prior Invention, nor of your ownership of such Prior Inventions. Please do not use this space to disclose an on-going business or project, or a product that you are developing and/or distributing.

Prior Inventions (description and identifying number of patent, copyright, or patent or copyright application, if applicable):

Lori Sutton	03/24/2025
Title	Date
N/A	

Brief Description of Invention

ð A separate sheet listing Prior Inventions is attached.

(ii) Future Employee inventions. The Company acknowledges and agrees, in accordance with applicable state law, that any Inventions (a) that you develop entirely on your own time; and (b) that you develop without using the Company's equipment, supplies, facilities, or trade secret information; and (c) that do not result from any work performed by you for the Company; and (d) that do not relate, at the time of conception or reduction to practice, to the Company's business or products, or to the Company's actual or demonstrably anticipated research or development, will be owned entirely by you, even if developed by you during the time period in which you are employed by the Company.

b. AWIP's Rights In Inventions

(i) Assignment of Inventions to AWIP. You agree that all Inventions that (a) are developed using the equipment, supplies, facilities, or Proprietary Information of the Company; or (b) result from or are suggested by work performed by you for the Company; or (c) are conceived or reduced to practice during your employment by the Company and relate to the business and products, or to the actual or demonstrably anticipated research or development of the Company ("AWIP Inventions"), are the sole and exclusive property of AWIP, and you hereby assign all your right, title and interest in such AWIP Inventions to AWIP. You agree to perform any and all acts requested by AWIP, if any, to perfect this assignment.

(ii) Disclosure. You agree to make full written disclosure promptly to your direct supervisor at AWIP of any and all AWIP Inventions, and provide access to all notes, materials, source code, or other items related to AWIP Inventions.

(iii) Assignment of Moral Rights to AWIP. In addition, to the extent permitted by law, you hereby transfer and assign any "moral" rights that you may have in any AWIP Invention(s) under any copyright or other law, whether U.S. or foreign. "Moral" rights are defined as (1) the right of attribution (give credit to the author); and (2) the right of integrity in the AWIP Invention (not do something with an AWIP Invention, such as change or add to it, that would have a negative impact on the author's reputation). You agree to waive and never to assert any such "moral" rights in AWIP Inventions during or after the cessation of your employment with by the Company. You agree that AWIP, its subsidiaries, and its licensees are not required to designate you as the author of any AWIP Inventions when distributed. You also agree that the Company retains sole discretion with regard to how and for what purposes, if any, such AWIP Invention(s) are used.

c. Work for Hire

You acknowledge that all original works of authorship that are made by you (solely or jointly with others) within the scope of your employment by the Company, and that are protectable by copyright, are works made for hire, as that term is defined in the United States Copyright Act (17 U.S.C. § 101). To the extent any works created by you within the scope of your employment cannot be characterized as a work made for hire, you hereby grant, assign and transfer to AWIP all right, title and interest, including all intellectual property in and to works.

d. Protection of AWIP Inventions

You agree (at AWIP's expense) to assist AWIP in every proper way to obtain and to help AWIP enforce patents, copyrights, and other legal protections for AWIP Inventions in any and all countries. You agree to promptly execute any documents that American Water may reasonably request, or perform such legal acts that may be required, for use in obtaining or enforcing such patents, copyrights, and other legal protections.

2.0 CONFIDENTIAL AND PROPRIETARY INFORMATION. You understand that your employment by the Company creates a relationship of confidence and trust with respect to any information of a confidential, proprietary, and secret nature that may be disclosed to you or otherwise learned by you in the course of your employment at the Company, including but not limited to any confidential information of third parties disclosed to the Company. Such confidential, proprietary, and secret information includes, but is not limited to, information and material relating to past, present, or future Inventions, marketing plans, manufacturing and product plans, technical specifications, hardware designs and prototypes, business strategies, financial information, forecasts, personnel information, processes, methods, algorithms, and customer lists, and is referred to collectively in this Agreement as "Proprietary Information."

a. Confidentiality of Proprietary Information. You acknowledge and agree that your employment by the Company requires you to keep all Proprietary Information in confidence and trust for the tenure of your employment and thereafter, and that you will not use or disclose Proprietary Information without the written consent of the Company, except as necessary to perform your duties as an employee of the Company. Upon the cessation of your employment with the Company, you will promptly deliver to the Company all documents, electronically-stored information, materials and property of any kind pertaining to your work at the Company, and you agree that you will not take with you any documents, electronically-stored information, materials or copies thereof, or maintain access to such documents, information or materials, through online digital storage services, whether on paper, electronic media or storage devices, magnetic or optical media, or any other medium, containing any Proprietary Information.

3.0 PROTECTION OF INFORMATION OF OTHERS

a. Information of Others. You agree that during your employment by the Company and thereafter, you will not improperly use or disclose to the Company any confidential, or proprietary, or secret information of your former employer(s) or any other person(s). You further agree that you have not, and during your employment with the Company will not, bring any confidential, proprietary or secret information of your former employer(s) or any other person(s) onto the Company's property or place any such information on any of the Company's computer systems or servers.

4.0 NO CONFLICTING OBLIGATIONS

a. No Conflicting Outside Interests. You agree that during your employment by the Company you will not plan or engage in any other employment, occupations, consulting or other business activities or commitments competitive with or directly related to the Company's business or products, or to its actual or demonstrably anticipated research or development, nor will you engage in any other activities that conflict with your employment obligations to the Company. Activities and commitments as used herein do not include passive investments in stocks or other financial instruments.

b. No Conflicting Agreements. You represent to the Company that you have no other commitments that would hinder or prevent the full performance of your duties as a Company employee or your obligations under this Agreement, and you agree not to enter into any such conflicting agreement during your employment by the company.

c. Disclosure of Agreement. You hereby authorize the Company to notify others, including customers of the Company, and any future employers you may have, of the terms of this Agreement and your responsibilities under this Agreement.

5.0 PROTECTION OF COMPANY RELATIONSHIPS

If you are in a supervisory position, except for employees in a supervisory position in California, Illinois, and Oklahoma, during the period of your employment and for a period of one (1) year following the cessation of your employment, you will not, directly or indirectly, solicit, encourage, recruit, or take any action intended to induce Company employees or contractors to terminate their relationship with the Company.

6.0 NO IMPLIED EMPLOYMENT RIGHTS. You understand and agree that no term or provision of this Agreement confers upon you any rights to continued employment by the Company and that no term or provision of this Agreement obligates the Company to employ you for any specific period of time or interferes with or restricts your right or the Company's right to terminate your employment at any time for any reason and with or without notice, or the Company's right to terminate your employment for just cause in accordance with the applicable collective bargaining agreement if you are a union employee.

7.0 EQUITABLE RELIEF. A breach of the provisions of sections 1, 2 or 4 of this Agreement would cause irreparable harm and significant injury to the Company, the quantification of which is difficult to ascertain. Because such harm and injury could not be compensable by damages alone, you agree that the Company will have the right to enforce sections 1, 2 or 4 of this Agreement by injunction (without the necessity of a bond or other security and without proving actual damages), specific performance or other equitable relief in addition to any other rights and remedies available to the Company in the event of a breach of this Agreement. You further agree that the Company shall be entitled to its reasonable fees and costs if a court of competent jurisdiction issues a preliminary or permanent injunction against you or a court of competent jurisdiction finds that you breached the terms of the Agreement.

8.0 GENERAL PROVISIONS

a. Severability. If one or more of the provisions of this Agreement is or are deemed void or unenforceable by law, then the remaining provisions shall continue in full force and effect.

b. Governing Law. This Agreement shall be governed by the laws of the state of New Jersey, without regard to its conflicts of law principles. Any arbitration or judicial action between the parties relating to this Agreement will take place in Camden County, New Jersey, and you and the Company each consent to the personal jurisdiction of and venue in the state and federal courts within Camden County, New Jersey.

c. Successors and Assigns. This Agreement will be binding upon your heirs, executors, administrators and other legal representatives, and will be for the benefit of the Company, its successors and assigns. You specifically acknowledge and agree that the Company may assign its rights and obligations hereunder to any successor entity to the Company by operation of law or otherwise.

d. Entire Agreement. This Agreement, along with Company's CONFIDENTIALITY POLICY AND AGREEMENT of which you are also required to acknowledge receipt and understanding, sets forth the entire agreement between you and the Company relating to the subject matter of this Agreement. No modification to or amendment of this Agreement, nor any waiver of any rights under this Agreement, will be effective unless in writing signed by both you and a Company officer. Any subsequent changes in your duties, salary or compensation will not affect the validity or scope of this Agreement.

e. Compliance with Laws. You agree that you will comply, and do all things necessary for the Company to comply, with the laws and regulations of all governments where the Company does business, and with provisions of contracts between any such government or its contractors and the Company.

9.0 EMPLOYEE ACKNOWLEDGEMENT. You acknowledge that you have carefully read and considered the provisions of this Agreement, have had a reasonable opportunity to consult with an independent legal counsel of your choosing, and accept this Agreement on the terms set forth herein, intending to be legally bound.

Exhibit 10.13

SEVERANCE AGREEMENT AND GENERAL RELEASE

This Severance Agreement and General Release ("Agreement") is between American Water Works Service Company, Inc. ("American Water" or the "Company") and Melanie Kennedy ("Executive").

WHEREAS, Executive is a full-time executive employee of American Water;

WHEREAS, American Water Works Company, Inc. agreed to a separation from service with Executive effective March 1, 2025 (the "Separation Date");

WHEREAS, the Company maintains the American Water Works Company, Inc. Executive Severance Policy (the "Severance Policy") for certain key executives, Executive is an Eligible Executive, as defined and used in the Severance Policy, and Executive is eligible to receive certain severance payments and benefits under the Severance Policy as set forth herein if Executive signs, does not revoke, and fully complies with this Agreement;

WHEREAS, Executive and American Water have agreed to resolve all claims and potential claims which have been, or could have been, brought by Executive against American Water arising out of Executive's employment with American Water to date;

WHEREAS, Executive and American Water desire to enter into this Agreement to document the terms of the separation of Executive's employment with American Water, with the parties agreeing that neither party admits wrongdoing, fault, or liability whatsoever, and that nothing herein shall be construed or interpreted as an admission of any wrongdoing, fault or liability of either party.

NOW THEREFORE, in consideration of the mutual promises and releases contained herein and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the parties agree as follows:

1. **Termination of Employment.** Effective as of the Separation Date, (i) Executive's employment with the Company and its subsidiaries and affiliates (collectively, the "Company Group") will terminate in all respects, and (ii) Executive will be deemed to have resigned from any officer position with any member of the Company Group.

2. **Consideration.** Provided that Executive timely signs, does not revoke, and remains fully compliant with the terms of this Agreement, the Company will provide Executive with the following payments and benefits (the "Severance Benefits").

    a. Severance. American Water shall pay to Executive:

        i. In accordance with and as calculated pursuant to the Severance Policy, American Water will pay Executive's current base salary in the amount of $487,953 from the Separation Date through the first anniversary of the

Separation Date (the "Severance Period"), which will be paid according to American Water's regular pay schedule beginning with the first regular pay day following the Effective Date, provided that Executive (i) is not in breach of her obligations under this Agreement, and (ii) this Agreement has become effective pursuant to Section 11(g). This payment will be subject to all applicable and lawful withholdings and deductions. The first installment shall include a catch-up for any amounts that would have otherwise been paid from the Separation Date through the Effective Date of the Agreement.

ii. In addition, the Company shall make an additional supplemental cash payment to Executive of $300,000. This additional supplemental cash payment will be subject to all regular lawful withholdings and deductions and shall be paid in a lump sum within sixty (60) days after the Separation Date, provided that this Agreement has become effective pursuant to Section 11(g).

b. Annual Performance Plan Award. In accordance with and as calculated pursuant to the Severance Policy, Executive will receive a pro rata award under the Company's Annual Performance Plan (the "APP"), to the extent such payments are made under the terms of the applicable APP, to be pro-rated based on the period of time between the start of such performance year and the Separation Date (the "Pro Rata Bonus"). The Company will pay Executive the Pro Rata Bonus, less applicable and lawful withholdings and deductions, at the same time other 2025 awards are paid under the APP, but no later than March 15, 2026.

c. Group Health Insurance. If Executive participates in American Water's group health care plan on Executive's Separation Date and Executive timely elects continuing coverage through COBRA, American Water shall pay both employee and employer portions of the costs associated with maintaining this coverage through COBRA for 12 months, retroactive to April 1, 2025, subject to all regular lawful withholdings and deductions to the extent applicable. This coverage will be the same level of health, dental, and vision care that the Executive and Executive's family received immediately prior to the Separation Date. Thereafter, Executive and any eligible dependents will be entitled to continue health care coverage at Executive's sole expense for the remaining balance of the COBRA coverage period. Executive's right to COBRA health care continuation will be set forth in a separate letter.

d. Employee Assistance Program. In accordance with and as calculated pursuant to the Severance Policy, American Water will provide Executive six (6) months of continued access beginning on April 1, 2025 to the American Water Employee Assistance Program for Executive.

3. **Valid Consideration.** Executive acknowledges and agrees that the Severance Benefits: (i) would not be required by the Company's policies or procedures or by any pre-existing contractual obligation of American Water if the Executive did not enter into this

Agreement and provide the Company the release of claims and other commitments set forth herein, (ii) constitute valid consideration for the Executive's promises and obligations under this Agreement, and (iii) represent complete satisfaction of any and all compensation and benefits due to Executive from the Company, including but not limited to, under the Severance Policy (other than any of Executive's accrued benefits that vested prior to the Separation Date or as otherwise provided in Section 9).

4. **Confidentiality; Non-Disclosure; Return of Property; Disparaging Statements; References.**

a. Confidentiality. Executive understands and agrees that the circumstances of Executive's separation and the fact, terms, and contents of this Agreement shall remain confidential and shall not be disclosed by Executive or Executive's agents and representatives, with the exception of: (1) disclosure to members of Executive's immediate family, Executive's attorneys, accountants, tax or financial advisors, each of who shall be informed of this confidentiality obligation and shall agree to be bound by its terms; (2) disclosure to the Internal Revenue Service or state or local taxing authority; (3) disclosure as is expressly required or protected by law; (4) disclosure by American Water or its parent company, American Water Works Company, Inc., through a press release or in a filing with the Securities and Exchange Commission, or to a national stock exchange; (5) any disclosures made by the Executive pursuant to the whistleblower provisions in the Exchange Act (15 U.S.C. § 78u-6) and the Sarbanes Oxley Act of 2002 (18 U.S.C. § 1514A); or (6) in any action to challenge or enforce the terms of this Agreement provided that such disclosure is covered by an appropriate confidentiality order to the maximum extent permitted by the applicable authority. Nothing contained in this Agreement shall preclude Executive from initiating and/or cooperating fully with any governmental investigation. Executive's confidentiality obligation in this Section 4(a) as to the fact, terms, and contents of the Agreement does not apply if the Agreement becomes publicly available without breach of this Agreement.

b. Non-Disclosure of Confidential Information and Trade Secrets. Executive acknowledges that as an employee of American Water, Executive had access to and was entrusted with the Company's confidential and proprietary business information and trade secrets defined in this Section 4(b)(i). At all times prior to, during, and following Executive's separation from employment with American Water, except as provided in Section 10, Executive represents that she has maintained and agrees that Executive will continue to maintain such information in strict confidence and has not disclosed, used, transferred or sold and will not disclose, use, transfer or sell (directly or indirectly) such information to any third party (except as may be required by law or legal process) so long as such information or proprietary data remains confidential and has not been properly and lawfully disclosed or is not otherwise lawfully in the public domain. Executive further agrees that, at the Company's request, Executive will deliver

and/or provide access to any personal computing device, telephone, hard disk, backup tapes, cloud systems, disks or thumb or flash drives for the Company's review and permit the Company to delete all confidential and proprietary business information and trade secrets contained on such devices.

i. Definition of "Confidential and Proprietary Business Information and Trade Secrets". For purposes of this Agreement, "confidential and proprietary business information and trade secrets" includes, but is not limited to, all information about markets, key personnel, operational methods, proprietary intellectual property, real property, plans for future developments, projects in the pipeline, bid information, manuals, books, training materials, forms and procedures, policies, customer or prospective customer lists, customer related data, marketing plans and strategies, financial information, documents relating to any of the foregoing, and other written and oral materials (whether computerized or on hard copy) which are related to the business of the Company and the confidentiality of which the Company attempts to maintain with reasonable efforts and which the Company has not released to the general public.

c. Notice of Immunity for Confidential Disclosure of a Trade Secret to an Attorney, the Government or in a Court Filing. Federal law provides certain protections to individuals who disclose a trade secret to their attorney, a court, or a government official in certain, confidential circumstances. Specifically, federal law provides that an individual shall not be held criminally or civilly liable under any federal or state trade secret law for the disclosure of a trade secret under either of the following conditions:

- Where the disclosure is made (i) in confidence to a Federal, State, or local government official, either directly or indirectly, or to an attorney; and (ii) solely for the purpose of reporting or investigating a suspected violation of law; or
- Where the disclosure is made in a complaint or other document filed in a lawsuit or other proceeding, if such filing is made under seal. 18 U.S.C. § 1833(b)(1).

Federal law also provides that an individual who files a lawsuit for retaliation by an employer for reporting a suspected violation of law may disclose the trade secret to the attorney of the individual and use the trade secret information in the court proceeding, if the individual (A) files any document containing the trade secret under seal; and (B) does not disclose the trade secret, except pursuant to court order. 18 U.S.C. § 1833(b)(2).

d. Return of Property. Executive returned to American Water Executive's Company-issued cell phone, access badge, laptop and other computer equipment, and company credit card. Executive represents that Executive has not retained

any copies of any and all property of the Company or Releasees in Executive's possession or control, including (without limitation) all papers, documents, business plans, project or pipeline information, correspondence, and electronic or digitally stored information containing "confidential and proprietary business information and trade secrets" as defined in Section 4(b)(i).

e. Disparaging Statements. Except as provided in Section 10, Executive agrees not to make written (to include online or other written statements) or oral statements about American Water, its affiliates, or any of the other Releasees (as defined in Section 6(a) below) that are negative or disparaging. The Company agrees to instruct the Executive Leadership Team, defined as of the Agreement's Effective Date, not to make written (to include online or written statements) or oral statements about Executive that are negative or disparaging.

f. References. Executive agrees that all requests for references will be directed solely to the attention of Marty Falkenberg, [REDACTED], and if he is no longer employed by the Company, to the Human Resources Department. Upon any request for a reference, per Company policy, the Company will solely confirm Executive's dates of employment with American Water and positions Executive held with American Water.

g. Taxes. As required by law, the Company will issue the appropriate IRS Form(s) at the appropriate time. Any payments provided for herein shall be reduced by any amounts required to be withheld by the Company from time to time under applicable federal, state or local income or employment tax laws or similar statutes or other provisions of law then in effect. Notwithstanding the foregoing, Executive agrees that (i) Executive shall be solely responsible for all taxes, including, but not limited to, income and excise taxes, imposed on Executive in respect of amounts paid to Executive by the Company under this Agreement; (ii) Executive shall not seek reimbursement from the Company for such taxes; and (iii) Executive agrees to and does hereby indemnify and hold the Company harmless against any and all tax liability, interest, and/or penalties.

5. **Non-Solicitation.**

a. Non-Solicitation.

i. Executive agrees that, during the Severance Period, Executive will not, either alone or in association with others, call on, solicit, or permit any organization directly or indirectly controlled by Executive or which may employ or engage with Executive to call on or solicit, in any manner, any Client of the Company. "Client" shall mean any corporation, partnership, association, United States military base, or United States (to include federal, state, county or local government) or foreign governmental entity that has or had an account or contract with the Company or any of its

subsidiaries, affiliates or parents during Executive's employment or on the Separation Date regardless of whether Executive has directly worked with such Client.

ii. Executive further agrees that, during the Severance Period, Executive will not directly or indirectly, either alone or in association with others, solicit, or permit any organization directly or indirectly controlled by Executive or which may employ or engage with Executive to solicit, any employee, contractor or executive of the Company to leave the employ of the Company, or solicit for employment, hire or engage as an independent contractor, or permit any organization directly or indirectly controlled by Executive or which may employ or engage with Executive to solicit for employment, hire or engage as an independent contractor, any person who was employed by or contracting with the Company at the time of the termination of Executive's employment with the Company; provided that this clause shall not apply to the solicitation, hiring or engagement of any individual whose employment with the Company has been terminated for a period of six (6) months or longer at the time of such solicitation, hiring or employment. Notwithstanding Section 5, Executive is not subject to any non-compete agreement or restriction.

b. Extension of Restrictions. If Executive violates any of the provisions of this Section 5, the duration of the provisions shall automatically be extended, and Executive shall continue to be bound by the restrictions set forth in Section 5 until a period of twelve (12) months has expired without any violation of such provisions.

c. Interpretation. If any restriction set forth in Section 5 is found by any court of competent jurisdiction to be overbroad, such restriction shall be enforceable to the maximum extend permissible by law.

d. Equitable Remedies. The restrictions contained in this Section 5 are necessary for the protection of the business and goodwill of the Company and are considered by Executive to be reasonable for such purpose. Executive agrees that any breach of this Section 5 is likely to cause the Company substantial and irrevocable damage which is difficult to measure. Therefore, in the event of any such breach or threatened breach, Executive agrees that the Company shall be entitled to preliminary and permanent injunctive relief, without the necessity of a bond or other security and without proving actual damages, as well as to an equitable accounting of all earnings, profits and other benefits arising from any violations of this Agreement, which rights shall be cumulative and in addition to any other rights or remedies to which the Company may be entitled, including but not limited to liquidated and punitive damages. Executive further agrees that the Company shall be entitled to its reasonable fees and costs if a court of competent jurisdiction issues a temporary restraining order or preliminary or permanent

injunction against the Executive or a court of competent jurisdiction finds that Executive breached the terms of the Agreement, in whole or in part, even if not all requested temporary restraining order or injunctive relief is granted.

6. **General Release of Legal Claims.**

a. Executive, on behalf of Executive and her heirs, executors, administrators, and/or assigns, does hereby release and forever discharge American Water, together with its parents, subsidiaries, affiliates, predecessors, and successor corporations and business entities, past, present and future, and its and their agents, directors, officers, partners, employees, shareholders, insurers and reinsurers, and employee benefit plans (and the trustees, administrators, fiduciaries, insurers, and reinsurers of such plans), past, present and future, and their heirs, executors, administrators, predecessors, successors, and assigns (collectively, "Releasees"), of and from any and all legally waivable claims, causes of actions, suits, lawsuits, debts, and demands whatsoever in law or in equity, known or unknown, suspected or unsuspected, which Executive ever had, now has or which Executive's executors, administrators, or assigns may have from the beginning of time to the date Executive executes this Agreement, and including, without limitation, any claims arising from or relating to Executive's employment relationship with and compensation by American Water, and the termination of such relationship, including, without limitation, any claims arising under Title VII of the Civil Rights Act of 1964 ("Title VII"), the Americans with Disabilities Act ("ADA"), ADEA, the Employee Retirement Income Security Act ("ERISA"), the Family and Medical Leave Act ("FMLA"), the ADEA, the OWBPA, New Jersey Law Against Discrimination, the New Jersey Civil Rights Act, the New Jersey Conscientious Employee Protection Act, the New Jersey Discrimination in Wages Law, the New Jersey Security and Financial Empowerment Act, the New Jersey Family Leave Insurance provisions of the New Jersey Temporary Disability Benefits Law, the New Jersey Earned Sick Leave Law, the New Jersey Domestic Partnership Act, the New Jersey Family Leave Act, the New Jersey Wage Payment Law, the New Jersey Wage and Hour Law, the New Jersey Wage Theft Act, the New Jersey Equal Pay Act, the New Jersey False Claims Act, the New Jersey Smokers' Rights Law, the New Jersey Genetic Privacy Act, the New Jersey Fair Credit Reporting Act, the New Jersey Emergency Responders Employment Protection Act, the New Jersey Millville Dallas Airmotive Plant Job Loss Notification Act (the New Jersey WARN Act), the New Jersey Compassionate Use Medical Cannabis Act, the New Jersey Secure Choice Act, the retaliation provisions of the New Jersey Workers' Compensation Law, and any and all other federal, state, or local constitutional, statutory, regulatory, or common law causes of action now or hereafter recognized, and any claims for attorneys' fees and costs. Nothing in this Agreement shall waive rights or claims that arise after the date that Executive executes this Agreement.

b. Notwithstanding the broad scope of Section 6(a), this Agreement is not intended to bar any claims that, as a matter of applicable law, whether by statute or otherwise, cannot be waived, such as claims for workers' compensation benefits, unemployment insurance benefits, and any claims that arise after the date that the Executive executes this Agreement. Nothing in this Agreement is intended to interfere with, prevent or prohibit Executive from making or asserting: (i) any claim or right Executive may have under COBRA; (ii) any claim or right Executive may have for unemployment insurance or workers' compensation benefits; (iii) any claim to vested benefits under the written terms of a qualified employee pension benefit plan; (iv) any medical claim incurred during Executive's employment that is payable under applicable medical plans or an employer-insured liability plan; (v) any claim or right that may arise after the execution of this Agreement; (vi) any claim or right Executive may have under this Agreement; (vii) any claim that is not otherwise waivable under applicable law; or (viii) any claim or right Employee may have as set forth in Section 10, including the right to file a charge with the Equal Employment Opportunity Commission ("EEOC"), National Labor Relations Board ("NLRB"), and similar state or local agencies.

c. Nothing in this Agreement prevents Executive from discussing or disclosing information about unlawful acts in the workplace, such as harassment or discrimination or any other conduct that Executive has reason to believe is unlawful.

7. **Cooperation.** Executive agrees that Executive shall cooperate with the Company or Releasees in the prosecution or defense of any claim currently pending or hereinafter pursued by or against the Company or Releasees without the payment of any additional compensation other than as set forth in this Agreement. Upon receipt of appropriate supporting documentation, American Water shall reimburse Executive for all of Executive's approved and reasonable costs and expenses incurred in connection with such cooperation. In the case of legal proceedings involving the Company or Releasees, to the extent permissible by law and except as set forth in Section 10, Executive will notify, in writing, the individual then holding the office of General Counsel, American Water Works Service Company, Inc., 1 Water Street, Camden, NJ 08102-1658, of any subpoena or other similar notice to give testimony or provide documentation within two (2) business days of receipt of the same and prior to providing any response thereto. Nothing in this Agreement shall preclude Executive from participating in and fully cooperating with any governmental investigation.

8. **Business Expenses and Compensation.** Executive acknowledges and agrees that (i) should Executive execute and not revoke this Agreement, the consideration set forth in this Agreement is in complete satisfaction of any and all compensation and benefits due to Executive from the Company, and that no further payments, compensation, benefits or other amounts are owed or will be paid to Executive by the Company, unless specifically described in this Agreement; (ii) Executive has been reimbursed by American Water for

all business expenses incurred by Executive and that no other reimbursements are owed to Executive; and (iii) Executive has not suffered any on-the-job injury for which Executive has not already filed a claim.

9. **Accrued Benefits.** In addition to the consideration provided under this Agreement, following the Separation Date, Executive will be entitled to receive (i) any accrued, but unused, vacation as of the Separation Date, which will be paid to Executive on the first Company payroll date that follows the Separation Date; and (ii) any accrued or owing, but not yet paid, vested benefits under the Company's 401(k) plan, pension plan, nonqualified deferred compensation plan, and post-employment retirement plan and any other plan in which Executive may have participated, will be paid to Executive at the times provided under such plans. Any restricted stock units and performance stock unit grants that were granted to Executive under the Company's Long Term Performance Plan ("LTPP") that are outstanding as of the Separation Date will be subject to the terms and conditions of the respective grant agreements covering such grants, and accordingly any unvested awards granted under the LTPP will be forfeited without consideration or further action on the part of the Company or Executive.

10. **Permitted Conduct.** Nothing in this Agreement shall prohibit or restrict Executive from lawfully (a) initiating communications directly with, cooperating with, providing information to, causing information to be provided to, filing a charge or complaint with, or otherwise participating, testifying, or assisting in any investigation or proceeding by any governmental or regulatory agency, entity, or official(s) including the EEOC, the NLRB, and the Securities and Exchange Commission (collectively, "Governmental Authorities") regarding a possible violation of any law; (b) responding to any inquiry or legal process directed to Executive individually (and not directed to the Company and/or its subsidiaries) from any such Governmental Authorities; or (c) making any other disclosures that are protected under the whistleblower provisions of any applicable law. Executive is not required to advise or seek permission from the Company before engaging in any such activity. Notwithstanding the foregoing, Executive understands and agrees that, pursuant to this Agreement (i) Executive is waiving any right to recover monetary damages or any other form of personal relief from the Company and Releasees in connection with any such charge, complaint, investigation, or proceeding; and (ii) to the extent Executive receives any personal or monetary relief in connection with any such charge, complaint, investigation, or proceeding, the Company and Releasees will be entitled to an offset for the payments, benefits, and other items of value provided for in Section 2 of this Agreement to the fullest extent permitted by law; ***provided, however,*** that this Agreement does not impact Executive's ability to receive and retain an award from a government-administered whistleblower award program for providing information directly to a government agency. Please take notice that federal law provides criminal and civil immunity to federal and state claims for trade secret misappropriation to individuals who disclose a trade secret to their attorney, a court, or a government official in certain, confidential circumstances that are set forth at 18 U.S.C. §§ 1833(b)(1) and 1833(b)(2), related to the reporting or investigation of a suspected violation of the law, or in connection with a lawsuit for retaliation for reporting a suspected violation of the law.

11. **Acknowledgements.** Executive hereby certifies and acknowledges that:

a. Executive has read the terms of this Agreement and that Executive understands its terms and effects, including the fact that Executive has agreed to **REMISE, RELEASE, AND FOREVER DISCHARGE** Releasees from all claims set forth in Section 6(a);

b. Executive is receiving consideration which is in addition to anything of value to which Executive otherwise would have been entitled had Executive not executed this Agreement;

c. Executive enters into this Agreement knowingly and voluntarily without any coercion on the part of any person or entity;

d. Executive was given adequate time to consider all implications and to freely and fully consult with and seek the advice of whomever Executive deemed appropriate;

e. Executive was advised in writing, by way of this Agreement, to consult an attorney before signing this Agreement;

f. Executive has been given twenty-one (21) calendar days within which to consider this Agreement (the "Consideration Period") and, in the event that Executive signs this Agreement and returns it back to the Company during this Consideration Period, said signing constitutes a knowing and voluntary waiver of this Consideration Period. Executive further understands that any changes to this Agreement, whether material or immaterial, do not restart the Consideration Period;

g. After Executive executes this Agreement, Executive has a period of seven (7) calendar days within which Executive may revoke this Agreement (the "Revocation Period"). If the seventh day is a weekend or national holiday, Executive has until the next business day to revoke. If Executive elects to revoke, Executive shall notify Stacy Mitchell, General Counsel, American Water Works Service Company, Inc., 1 Water Street, Camden, NJ 08102-1658, [REDACTED], in writing of Executive's revocation. Unless revoked within this period, this Agreement becomes effective on the eighth (8^{th}) day after Executive signs the Agreement (the "Effective Date");

h. Executive understands that she will not be entitled to receive the Severance Benefits unless and until (i) Executive executes this Agreement within the Consideration Period, but no earlier than the Separation Date; (ii) the seven (7) day Revocation Period expires without Executive having exercised Executive's

right of revocation; and (iii) Executive has complied with her obligations under the Agreement; and

i. Executive does not waive rights or claims that may arise after the date this Agreement is executed.

12. **Indemnification and Similar Rights.** Nothing contained in this Agreement shall be construed to alter, limit, or release any right to indemnification, advanced payment of expenses, or similar rights that the Executive may have pursuant to the Company's bylaws, other governance instruments, insurance coverage, or applicable law relating to actions by the Executive on behalf of the Company within the scope of and during the course of her employment with the Company.

13. **Section 409A.** To the extent applicable, this Agreement is intended to comply with, or be exempt from, the applicable provisions of section 409(A) of the Internal Revenue Code (the "Code"). Accordingly, all provisions herein are intended to be construed and interpreted to comply with section 409A of the Code or an exemption therefrom. Further, for purposes of section 409A of the Code, it is intended that each payment provided for hereunder, including each payment under a right to receive installment payments, be treated as a separate payment. Executive agrees and understands that neither the Company nor any of the other Releasees (i) have any obligation to indemnify or otherwise protect Executive from the obligation to pay any taxes pursuant to section 409A of the Code and (ii) makes or has made any representation, warranty or guarantee to Executive of compliance under section 409A of the Code.

14. **General Terms.**

a. Notices. All notices, demands or other communications to be given or delivered under or by reason of the provisions of this Agreement shall be in writing and shall be deemed to have been given when delivered personally to the recipient, two (2) business days after the date when sent to the recipient by reputable express courier service (charges prepaid) or four (4) business days after the date when mailed to the recipient by certified or registered mail, return receipt requested and postage prepaid. Such notices, demands and other communications shall be sent to Executive and to the Company at the addresses set forth below:

If to Executive:

Melanie Kennedy, at the address on file in the Company's payroll records

If to Company:

Stacy Mitchell
Executive Vice President, General Counsel
American Water Works Service Company, Inc.

1 Water Street
Camden, NJ 08102

or to such other address or to the attention of such other person as the recipient party has specified by prior written notice to the sending party.

b. Entire Agreement. This Agreement constitutes and contains the entire agreement and understanding concerning Executive's employment and termination thereof, and the other subject matters addressed herein between the parties and supersedes and replaces all prior negotiations and all prior agreements proposed or otherwise, whether written or oral, concerning the subject matter hereof.

c. Modification. This Agreement can be modified only by a writing signed by both Executive and a named officer of the Company.

d. Assignment. All of the terms and provisions of this Agreement shall be binding upon and inure to the benefit of and be enforceable by the respective heirs, executors, administrators, legal representatives, successors and assigns of the Company and Executive. Executive has not purported to assign any rights or obligations under this Agreement at the time of its execution.

e. Interpretation of Agreement. If any provision of this Agreement or application thereof to anyone under any circumstances is adjudicated to be invalid or unenforceable in any jurisdiction, such invalidity or unenforceability shall not affect any other provision or application of this Agreement which can be given effect without the invalid or unenforceable provision or application and shall not invalidate or render unenforceable such provision or application in any other jurisdiction. Notwithstanding, the foregoing, if the release is deemed unenforceable then Executive shall not be entitled to the consideration provided by this Agreement, which shall be repaid to the Company.

f. Choice of Law and Forum. This Agreement shall be governed by the substantive law of the state of New Jersey without regard to its conflict of law rules.

g. Arbitration. The parties acknowledge and agree that the Company is engaged in interstate commerce. The Federal Arbitration Act applies to this Agreement and shall govern the interpretation, enforcement, and arbitrability of claims under this Agreement. The parties agree that any and all disputes arising out of the terms of this Agreement, their interpretation, and any of the matters herein released, shall be subject to arbitration in Camden County, New Jersey, to the extent permitted by applicable law ("Covered Claims"). The parties understand and agree that the arbitration shall be conducted by JAMS in accordance with the JAMS Employment Arbitration Rules and Procedures and the JAMS Policy on Employment Arbitration Minimum Standards of Procedural Fairness in effect at the time the dispute arises to the extent not inconsistent with the terms of this

Agreement ("JAMS Rules"), provided, however, that the arbitrator shall allow the discovery authorized under the governing law as set forth below for a state court proceeding. The arbitrator shall render a written award and opinion. The JAMS Rules may be found on the Internet at www.jamsadr.com. The demand for arbitration must be filed within the statute of limitations applicable to the claim on which arbitration is sought. To the extent permitted by law, all claims covered by this Section 14(g) must be brought and pursued in arbitration on an individual basis, meaning for injuries or violations directly experienced by the parties themselves. The parties waive any right to class or collective procedures, which means that they waive any right to litigate in court or in arbitration on a class or collective basis. The parties agree that they will not submit, initiate, or participate in any litigation on a class or collective basis. The parties also agree that the arbitrator will have no power to adjudicate or award remedies for violations and/or injuries that a party to the arbitration did not directly experience itself. Claims may not be joined or consolidated in arbitration with disputes brought by other individual(s) or for violations suffered by other individual(s), unless agreed to in writing by all parties. Similarly, no arbitration award or decision will have any preclusive effect as to issues or claims in any dispute with anyone who is not a named party to the arbitration. If, for any reason, any portion of the above waivers of claim joinder and to not proceed on a class/collective basis are held unenforceable or invalid, then a court of competent jurisdiction, not an arbitrator, will decide the claim or portion of the claim which was held unenforceable, provided that if any portion of the waiver remains valid, the claim will be heard and enforced in arbitration. Further, all individual Covered Claims will remain subject to arbitration. Any claim that must be decided in court pursuant to this provision shall be stayed until the arbitration is concluded unless such stay is contrary to applicable law. The decision of the arbitrator shall be final, conclusive, and binding on the parties to the arbitration. The parties agree that the prevailing party in any arbitration shall be entitled to injunctive relief in any court of competent jurisdiction to enforce the arbitration award. The parties agree that the Company will pay reasonable arbitration fees, except that if Executive initiates a claim (other than for non-payment under the Agreement), Executive will pay any required filing fee up to a maximum of either $400 or the amount required to initiate a claim in court (whichever is lower). Each party shall separately pay for its respective counsel fees and expenses. The arbitrator will not have authority to award attorneys' fees unless a statute or contract at issue in the dispute authorizes the award of attorneys' fees to the prevailing party, in which case the arbitrator shall have the authority to make an award of attorneys' fees as required or permitted by applicable law. The parties agree that the Company will have 30 days after the date an invoice is received for amounts owed to the arbitrator to pay arbitration fees that the Company does not contest. As to arbitration fees the Company does contest, the parties agree that the Company must submit a dispute within 30 days after receiving the invoice or it must pay the invoice. Arbitration fees for hearing the dispute will not be due from the arbitration service more than 45 days before commencement of the hearing. The

parties hereby agree to waive their right to have any dispute between them resolved in a court of law by a judge or jury. Notwithstanding the foregoing, this section will not prevent either party from seeking injunctive relief (or any other provisional remedy) from any court having jurisdiction over the parties and the subject matter of their dispute relating to this Agreement and any agreements incorporated herein by reference. Should any part of the arbitration agreement contained in this section conflict with any other arbitration agreement between the parties, the parties agree that this arbitration agreement shall govern.

Remainder of Page Left Blank Intentionally

The Company and Executive have carefully read and understand all of the provisions of this Agreement. They enter into this Agreement freely, knowingly, and voluntarily. In entering into this Agreement, neither the Company nor Executive is relying upon any representations or promises not expressly set forth in this Agreement. Intending to be legally bound to this Agreement, the Company's representative and Executive sign their names below.

Executive is not permitted to sign this Agreement until March 1, 2025. If Executive signs this Agreement on or before March 1, 2025, it will be disregarded and will need to be re-signed. None of the consideration described in this Agreement will be provided to the Executive unless the Agreement is properly executed.

Exhibit 31.1

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER

(Pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934, as amended,
as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002)

I, M. Susan Hardwick, certify that:

1. I have reviewed this quarterly report on Form 10-Q of American Water Works Company, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Throughout this Quarterly Report on Form 10-Q ("Form 10-Q"), unless the context otherwise requires, references to the "Company" and "American Water" mean American Water Works Company, Inc. and all of its subsidiaries, taken together as a whole. References to the "parent company" mean American Water Works Company, Inc., without its subsidiaries.

The Company maintains a website at *https://amwater.com* and an Investor Relations website at *https://ir.amwater.com*. Information contained on the Company's websites shall not be deemed incorporated into, or to be a part of, this report, and any website references included herein are not intended to be made through active hyperlinks.

FORWARD-LOOKING STATEMENTS

Statements included in Part I, Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations and in other sections of this Form 10-Q are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as "intend," "plan," "estimate," "believe," "anticipate," "expect," "predict," "project," "propose," "assume," "forecast," "likely," "uncertain," "outlook," "future," "pending," "goal," "objective," "potential," "continue," "seek to," "may," "can," "should," "will" and "could" or the negative of such terms or other variations or similar expressions. Forward-looking statements may relate to, among other things: the Company's future financial performance, liquidity and cash flows; the timing and amount of rate and revenue adjustments, including through general rate case filings, filings for infrastructure surcharges and other governmental agency authorizations and proceedings, and filings to address regulatory lag; the Company's ability to execute its current and long-term business, operational, capital expenditures and growth plans and strategies; the timing and outcome of pending or future acquisition activity, and the ability to achieve organic customer growth; the ability of the Company's California subsidiary to obtain adequate alternative water supplies in lieu of diversions from the Carmel River; the amount, allocation and timing of projected capital expenditures and related funding requirements; the Company's ability to repay or refinance debt; the future impacts of increased or increasing financing costs, inflation and interest rates; the Company's ability to finance current and projected operations, capital expenditure needs and growth initiatives by accessing the debt and equity capital markets and sources of short-term liquidity; the outcome and impact on the Company of governmental and regulatory investigations, class action lawsuits, and other litigation and legal proceedings, and related potential fines, penalties and other sanctions; the ability to meet or exceed the Company's stated environmental and sustainability goals, including its greenhouse gas ("GHG") emission reduction, water delivery efficiency and water system resiliency goals; the ability to complete, and the timing and efficacy of, the design, development, implementation and improvement of technology and other strategic initiatives; the Company's ability to comply with new and changing environmental regulations; the ability to capitalize on existing or future utility privatization opportunities; trends in the water and wastewater industries in which the Company operates, including macro trends with respect to the Company's efforts and projects related to customer, technology and work efficiency and execution; regulatory, legislative, tax policy or legal developments; and impacts that future significant tax legislation may have on the Company and on its business, results of operations, cash flows and liquidity.

Forward-looking statements are predictions based on the Company's current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results, levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. These forward-looking statements are subject to a number of estimates, assumptions, known and unknown risks, uncertainties and other factors. The Company's actual results may vary materially from those discussed in the forward-looking statements included herein as a result of the following important factors:

- the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates;
- the timeliness and outcome of regulatory commissions' and other authorities' actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions;
- changes in customer demand for, and patterns of use of, water and energy, such as may result from conservation efforts, or otherwise;
- limitations on the availability of the Company's water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors;
- a loss of one or more large industrial or commercial customers due to adverse economic conditions or other factors;
- present and future proposed changes in laws, governmental regulations and policies, including with respect to the environment (such as, for example, potential improvements or changes to existing Federal regulations with respect to lead and copper service lines and galvanized steel pipe), health and safety, data and consumer privacy, security and protection, water quality and water quality accountability, contaminants of emerging concern (including without limitation per- and polyfluoroalkyl substances (collectively, "PFAS")), public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations;
- the Company's ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulations and policies with respect to data and consumer privacy, security and protection;
- weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares;
- the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions;

- the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of or maintain, update, redesign and/or replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses;
- exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means, and impacts from required or voluntary public and other disclosures, as well as civil class action and other litigation or legal, regulatory or administrative proceedings, related thereto;
- the Company's ability to obtain permits and other approvals for projects and construction, update, redesign and/or replacement of various water and wastewater facilities;
- changes in the Company's capital requirements;
- the Company's ability to control operating expenses and to achieve operating efficiencies, and the Company's ability to create, maintain and promote initiatives and programs that support the affordability of the Company's regulated utility services;
- the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers;
- the Company's ability to obtain and have delivered adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, power and other fuel, water and other raw materials, and to address or mitigate supply chain constraints that may result in delays or shortages in, as well as increased costs of, supplies, products and materials that are critical to or used in the Company's business operations;
- the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to:
    - acquiring, closing and successfully integrating regulated operations, including without limitation the Company's ability to (i) obtain required regulatory approvals for such acquisitions, (ii) prevail in litigation or other challenges related to such acquisitions, and (iii) recover in rates the fair value of assets of the acquired regulated operations;
    - the Company's Military Services Group ("MSG") entering into new military installation contracts, price redeterminations, and other agreements and contracts, with the U.S. government; and
    - realizing anticipated benefits and synergies from new acquisitions;
- in addition to the foregoing, various risks and uncertainties associated with the agreement to acquire certain water and wastewater systems from a subsidiary of Nexus Water Group, Inc., including:
    - the final amount of the rate base to be acquired, and the amount of post-closing adjustments to the purchase price, if any, as contemplated by the acquisition agreement;
    - the various impacts and effects of (i) compliance, or attempted compliance, with the terms and conditions of the acquisition agreement, and/or (ii) the completion of or, or actions taken by the Company to complete, the acquisition, on the Company's operations, strategy, guidance, expectations and plans with respect to its Regulated Businesses (considered individually or together as a whole), its current or future capital expenditures, its current and future debt and equity capital needs, dividends, earnings (including earnings per share), growth, future regulatory outcomes, expectations with respect to rate base growth, and other financial and operational goals, plans, estimates and projections; and
    - any requirement by the Company to pay a termination fee in the event the closing does not occur;
- risks and uncertainties following the completion of the sale of the Company's Homeowner Services Group ("HOS"), including:
    - the Company's ability to receive amounts due, payable and owing to the Company under the amended secured seller note when due; and
    - the ability of the Company to redeploy successfully and timely the net proceeds of this transaction into the Company's Regulated Businesses;
- risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement, security and cybersecurity regulations;
- cost overruns relating to improvements in or the expansion of the Company's operations;
- the Company's ability to successfully develop and implement new technologies and to protect related intellectual property;
- the Company's ability to maintain safe work sites;

- the Company's exposure to liabilities related to environmental laws and regulations, including those enacted or adopted and under consideration, and the substances related thereto, including without limitation copper, lead and galvanized steel, PFAS and other contaminants of emerging concern, and similar matters resulting from, among other things, water and wastewater service provided to customers;
- the ability of energy providers, state governments and other third parties to achieve or fulfill their GHG emission reduction goals, including without limitation through stated renewable portfolio standards and carbon transition plans;
- changes in general economic, political, business and financial market conditions;
- access to sufficient debt and/or equity capital on satisfactory terms and as needed to support operations and capital expenditures;
- fluctuations in inflation or interest rates, and the Company's ability to address or mitigate the impacts thereof;
- the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions;
- fluctuations in the value of, or assumptions and estimates related to, its benefit plan assets and liabilities, including with respect to its pension and other post-retirement benefit plans, that could increase expenses and plan funding requirements;
- changes in federal or state general, income and other tax laws, including (i) future significant tax legislation or regulations (including without limitation impacts related to the Corporate Alternative Minimum Tax), and (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs;
- migration of customers into or out of the Company's service territories and changes in water and energy consumption resulting therefrom;
- the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, including without limitation litigation and other proceedings with respect to the water system assets of the Company's California subsidiary ("Cal Am") located in Monterey, California (the "Monterey system assets"), or the assertion by private landowners of similar rights against such utility subsidiaries;
- any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained;
- the incurrence of impairment charges, changes in fair value and other adjustments related to the Company's goodwill or the value of its other assets;
- labor actions, including work stoppages and strikes;
- the Company's ability to retain and attract highly qualified and skilled employees and talent;
- civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and
- the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above, and the risk factors and other statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2024 (the "Form 10-K") and in this Form 10-Q, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements the Company makes shall speak only as of the date this Form 10-Q was filed with the U.S. Securities and Exchange Commission ("SEC"). Except as required by the federal securities laws, the Company does not have any obligation, and it specifically disclaims any undertaking or intention, to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances or otherwise. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

American Water Works Company, Inc. and Subsidiary Companies
Notes to Consolidated Financial Statements (Unaudited)
(Unless otherwise noted, in millions, except per share data)

Note 1: Basis of Presentation

The unaudited Consolidated Financial Statements included in this report include the accounts of American Water Works Company, Inc. and all of its subsidiaries (the "Company" or "American Water"), in which a controlling interest is maintained after the elimination of intercompany balances and transactions. References to "parent company" mean American Water Works Company, Inc., without its subsidiaries. The financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") for interim financial reporting, and the rules and regulations for reporting on Quarterly Reports on Form 10-Q ("Form 10-Q"). Accordingly, they do not contain certain information and disclosures required by GAAP for comprehensive financial statements. In the opinion of management, all adjustments necessary for a fair statement of the financial position as of June 30, 2025, and the results of operations and cash flows for all periods presented, have been made. All adjustments are of a normal, recurring nature, except as otherwise disclosed.

The unaudited Consolidated Financial Statements and Notes included in this report should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2024 ("Form 10-K"), which provides a more complete discussion of the Company's accounting policies, financial position, operating results and other matters. The results of operations for interim periods are not necessarily indicative of the results that may be expected for the year, primarily due to the seasonality of the Company's operations.

Note 2: Significant Accounting Policies

New Accounting Standards

Presented in the table below are recently issued accounting standards that have not yet been adopted by the Company as of June 30, 2025:

Standard	Description	Date of Adoption	Application	Effect on the Consolidated Financial Statements
Income Taxes	The guidance in this standard requires disclosure of a tax rate reconciliation table, in both percentages and reporting currency amounts, which includes additional categories of information about federal, state, and foreign income taxes and provides further details about reconciling items in certain categories that meet a quantitative threshold. The guidance also requires an annual disclosure of income taxes paid, net of refunds, disaggregated by federal, state, and foreign taxes paid, and further disaggregated by jurisdiction based on a quantitative threshold. The standard includes other disclosure requirements and eliminates certain existing disclosure requirements.	Annual periods beginning after December 15, 2024	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements.
Income Statement Disaggregation	The guidance in this standard enhances disclosures related to income statement expenses to further disaggregate expenses in the footnotes to the financial statements. The standard requires disaggregation of any relevant expense caption presented on the face of the income statement that contains the following expense categories: purchases of inventory, employee compensation, depreciation, intangible asset amortization, and depletion. Further, the standard requires disclosure of the total amount and the entity's definition of selling expenses.	Annual periods beginning after December 15, 2026 and interim periods within fiscal years beginning after December 15, 2027	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.
Induced Conversions of Convertible Debt Instruments	The guidance in this standard clarifies the requirements for determining whether to account for certain settlements of convertible debt instruments as induced conversions or extinguishments. The guidance requires an entity to account for a settlement as an induced conversion if the inducement offer includes the issuance of all of the consideration issuable under the conversion privileges provided in the terms of the existing convertible debt instrument.	Annual periods beginning after December 15, 2025 and interim reporting period within those annual reporting periods	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.

Property, Plant and Equipment

The New Jersey Economic Development Authority ("NJEDA") determined that the Company was qualified to receive $161 million in tax credits in connection with its capital investment in its corporate headquarters in Camden, New Jersey. The Company was qualified to receive the tax credits over a 10-year period commencing in 2019.

In the first quarter of 2024, the NJEDA issued the utilization certificate for the 2021 tax credits to the Company in the amount of $16 million. The Company sold the tax credits to an external party for $15 million. As of June 30, 2025, the Company had current assets of $15 million included in Other and $75 million of long-term assets included in Other on the Consolidated Balance Sheets for the 2023 through 2028 tax credits. As of December 31, 2024, the Company had no current assets and $90 million of long-term assets included in Other on the Consolidated Balance Sheets for the 2023 through 2028 tax credits. The Company has made the necessary annual filings for the years ended December 31, 2024 and 2023. The submitted filings are under review by the NJEDA and it is expected that the Company will receive final NJEDA approval and monetize the 2023 tax credits in 2025 and the 2024 tax credits in 2026.

Cash, Cash Equivalents and Restricted Funds

Presented in the table below is a reconciliation of the cash and cash equivalents and restricted funds amounts as presented on the Consolidated Balance Sheets to the sum of such amounts presented on the Consolidated Statements of Cash Flows for the periods ended June 30:

	2025	2024
Cash and cash equivalents	$ 94	$ 48
Restricted funds	17	50
Restricted funds included in other long-term assets	24	—
Cash, cash equivalents and restricted funds as presented on the Consolidated Statements of Cash Flows	$ 135	$ 98

Allowance for Uncollectible Accounts

Allowances for uncollectible accounts are maintained for estimated probable losses resulting from the Company's inability to collect receivables from customers. Accounts that are outstanding longer than the payment terms are considered past due. A number of factors are considered in determining the allowance for uncollectible accounts, including the length of time receivables are past due, previous loss history, current economic and societal conditions and reasonable and supportable forecasts that affect the collectability of receivables from customers. The Company generally writes off accounts when they become uncollectible or are over a certain number of days outstanding.

Presented in the table below are the changes in the allowance for uncollectible accounts for the six months ended June 30:

	2025	2024
Balance as of January 1	$ (53)	$ (51)
Amounts charged to expense	(19)	(8)
Amounts written off	16	11
Balance as of June 30	$ (56)	$ (48)

Reclassifications

Certain reclassifications have been made to prior periods in the Consolidated Financial Statements and Notes to conform to the current presentation.

Note 3: Regulatory Matters

General Rate Cases

The table below summarizes the annualized incremental revenues, assuming a constant sales volume and customer count, resulting from general rate case authorizations that are effective during 2025. The amounts include reductions for the amortization of the excess accumulated deferred income taxes ("EADIT") that are generally offset in income tax expense.

	Effective Date	Amount
General rate cases by state:		
Hawaii	August 2025 (a)	$ 1
Iowa	August 1, 2025 (b)	13
Missouri	May 28, 2025	63
Indiana, Step Increase	May 14, 2025	17
Virginia	February 24, 2025 (c)	15
Tennessee	January 21, 2025	1
Illinois	January 1, 2025	105
California, Step Increase	January 1, 2025	17
Total general rate case authorizations		$ 232

(a) New rates are expected to be effective in early August 2025, upon filing the revised tariff sheets and rate schedules.

(b) Interim rates of $5 million were effective May 11, 2024. The Iowa Utilities Commission issued its final order on May 21, 2025.

(c) Interim rates were effective May 1, 2024, and the difference between interim and final approved rates were subject to refund. The Virginia State Corporation Commission issued its final order on February 24, 2025.

On July 24, 2025, the Hawaii Public Utilities Commission issued a final order adopting the settlement agreement filed by the Company's Hawaii subsidiary on April 25, 2025, with respect to its general rate case filed on August 2, 2024. The final order approves an annualized increase of approximately $1 million in wastewater revenue, which is based on a return on equity of 9.75% and a capital structure with an equity component of 52.11% and a debt component of 47.89%. New rates are expected to be effective in early August 2025, upon filing the revised tariff sheets and rate schedules.

On May 21, 2025, the Iowa Utilities Commission issued a final order approving the adjustment of base rates requested in a general rate case originally filed on May 1, 2024, by the Company's Iowa subsidiary. The general rate case order approved a $13 million annualized increase in water and wastewater system revenues, excluding infrastructure surcharges of $1 million, based on an authorized return on equity of 9.60%, authorized rate base of $262 million, and a capital structure with a common equity component of 52.57% and a long-term debt component of 47.43%. The requested annualized revenue increase was driven primarily by over $157 million of capital investments made and expected to be made by the Iowa subsidiary through March 2026. Interim rates of $5 million were effective May 11, 2024, with the remaining increase in annualized water and wastewater system revenues of $8 million effective on August 1, 2025.

On May 14, 2025, the Company's Indiana subsidiary's third step increase of $17 million in annualized water and wastewater system revenues became effective. The Indiana subsidiary filed the general rate case on March 31, 2023, and on February 14, 2024, the Indiana Utility Regulatory Commission issued an order that approved a $65 million annualized increase in water and wastewater system revenues, excluding previously recovered infrastructure surcharges. The annualized revenue increase included three step increases, with $25 million of the increase included in rates in February 2024, $23 million in May 2024, and $17 million in May 2025.

On May 7, 2025, the Missouri Public Service Commission (the "MoPSC") issued an order approving without modification the stipulation and agreement (the "Stipulation") with respect to a general rate case filed on July 1, 2024, by the Company's Missouri subsidiary. The Stipulation was entered into on March 17, 2025, with parties including the staff of the MoPSC and the Office of the Public Counsel. The general rate case order approves a $63 million annualized increase in water and wastewater revenues, excluding $63 million in infrastructure surcharges. The requested annualized revenue increase was driven primarily by $1.1 billion of capital investments completed by the Missouri subsidiary from January 2023 through May 2025. For purposes of the general rate case, the Missouri subsidiary's view of its rate base is $3.2 billion, and its view as to its return on equity and common equity ratio (each of which has been determined based on the order but was not disclosed therein) is 9.75% and 50.00%, respectively.

On February 24, 2025, the Virginia State Corporation Commission issued an order approving the September 19, 2024 joint "black box" settlement of the general rate case filed by the Company's Virginia subsidiary. The general rate case order approves the stipulated $15 million annualized increase in water and wastewater revenues. Interim water and wastewater rates became effective May 1, 2024, with the difference between interim and final approved rates subject to refund. The requested annualized revenue increase was driven primarily by more than $110 million of incremental capital investments made between May 2023 and April 2025. For purposes of the general rate case, the Virginia subsidiary's view of its rate base is $369 million. The general rate case order also approved, solely for purposes of the Virginia subsidiary's future filings requiring a stated cost of capital and/or capital structure (including its annual information and water and wastewater infrastructure surcharge filings), a return on equity of 9.70% and a capital structure consisting of an equity component of 45.67% and a debt and other component of 54.33%, which also represents the Virginia subsidiary's view of its return on equity and capital structure in this general rate case.

On January 21, 2025, the Tennessee Public Utility Commission (the "TPUC") approved a motion authorizing an adjustment of water base rates requested in a rate case filed on May 1, 2024 by the Company's Tennessee subsidiary. The TPUC approved an increase of $1 million in annualized revenues, excluding previously recovered infrastructure surcharges of $18 million, based on an authorized return on equity of 9.70%, authorized rate base of approximately $300 million, a common equity ratio of 44.19% and a debt ratio of 55.81%. This adjustment took effect on January 21, 2025, and is driven primarily by approximately $173 million in capital investments completed and planned by the Tennessee subsidiary through December 2025.

On January 14, 2025, the California Public Utilities Commission (the "CPUC") granted the Company's California subsidiary's request for a one-year extension of its cost of capital filing to May 1, 2026, to set its authorized cost of capital beginning January 1, 2027, and maintain its current authorized cost of capital through 2026.

On December 5, 2024, the Illinois Commerce Commission issued a final order approving the adjustment of base rates requested in a rate case originally filed on January 25, 2024, by the Company's Illinois subsidiary. The general rate case order approved an increase of $105 million in annualized water and wastewater system revenues, excluding previously recovered infrastructure surcharges of $5 million, based on an authorized return on equity of 9.84%, authorized rate base of $2.2 billion, and a capital structure with an equity component of 49.00% and a debt component of 51.00%. The increase was effective January 1, 2025, and is driven primarily by approximately $557 million in capital investments completed and planned by the Illinois subsidiary from January 2024 through December 2025.

On December 5, 2024, the CPUC approved a final decision adopting the terms of a partial settlement agreement filed on November 17, 2023, in the Company's California subsidiary's general rate case originally filed on July 1, 2022. Incorporating the then currently effective return on equity of 10.20%, the decision provides incremental annualized water and wastewater revenues of $21 million in the 2024 test year, and an estimated $16 million in the 2025 escalation year and $16 million in the 2026 attrition year. The 2024 rates were implemented retroactively to January 1, 2024. In addition, the CPUC denied the California subsidiary's proposed Water Resources Sustainability Plan decoupling mechanism but approved continuation of its currently effective Annual Consumption Adjustment Mechanism. On December 12, 2024, the California subsidiary filed an application for rehearing of the CPUC's denial of the proposed Water Resources Sustainability Plan decoupling mechanism, and on May 23, 2025, the CPUC issued its decision denying the application for rehearing.

Pending General Rate Case Filings

On July 1, 2025, the Company's California subsidiary filed an application with the CPUC to set new water and wastewater rates in each of its service areas for 2027 through 2029. The application is seeking an increase of $63 million compared to authorized 2025 revenue, and a total increase in revenue over the 2027 to 2029 period of $111 million. The requested annualized incremental revenue is driven primarily by approximately $750 million of capital investments completed and planned by the California subsidiary through 2025 to 2028. If approved by the CPUC, the new rates would take effect on January 1, 2027. The application also requests approval of a Fixed Cost Recovery Account, which is intended to be a full decoupling mechanism that would allow the Company's California subsidiary to recover authorized fixed costs, regardless of sales volume, while also providing incentives, via progressive conservation-oriented rate design, for customers to use water more efficiently. Independent of the pending rate case, California Senate Bill 473, which requires the CPUC to ensure variances between forecasted and actual sales do not result in material overcollections or undercollections by water corporations, has passed out of the California Senate and is currently awaiting action in the California Assembly Appropriations Committee.

On May 16, 2025, the Company's Kentucky subsidiary filed a general rate case requesting approximately $27 million in annualized incremental revenues, excluding infrastructure surcharges of $10 million, which is based on a proposed return on equity of 10.75% and a proposed capital structure with a common equity component of 52.26% and a debt component of 47.74%. The requested annualized incremental revenue is being driven primarily by approximately $212 million of capital investments completed and planned by the Kentucky subsidiary from February 2025 through December 2026. As provided by statutory authority, the Kentucky subsidiary anticipates that it will put into effect proposed rates on an interim basis seven months after the filing of this case, or December 16, 2025, and the difference between the interim and final approved rates will be subject to refund. The request is subject to approval by the Kentucky Public Service Commission, and the general rate case is expected to be completed by the end of the first quarter of 2026.

On May 5, 2025, the Company's West Virginia subsidiary filed a general rate case requesting approximately $48 million in aggregate annualized incremental revenues, excluding infrastructure surcharges of $13 million, which would include two step increases, with $33 million to be included in rates in March 2026, and $15 million to be included in rates in March 2027. The request is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 50.80% and 50.97%, respectively, for each of the two steps. The requested annualized incremental revenue is driven primarily by more than $300 million of capital investments completed and planned by the West Virginia subsidiary from March 2024 through February 2027. The request is subject to approval by the Public Service Commission of West Virginia, and the general rate case is expected to be completed by the end of February 2026.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective during 2025:

	Effective Date	Amount
Infrastructure surcharges by state:		
New Jersey	May 30, 2025	$ 15
Missouri	February 7, 2025	17
Kentucky	January 1, 2025	2
West Virginia	January 1, 2025	4
Total infrastructure surcharge authorizations		$ 38

Pending Infrastructure Surcharge Filings

On June 30, 2025, the Company's West Virginia subsidiary filed an infrastructure surcharge proceeding requesting $3 million in additional annualized revenues.

Other Regulatory Matters

The Pennsylvania Public Utility Commission (the "PaPUC"), as part of its July 22, 2024, approval of the general rate case filed by the Company's Pennsylvania subsidiary on November 8, 2023, initiated an investigation into certain reported water service and water quality issues in the Pennsylvania subsidiary's Northeastern service territory, which reports had been provided during public input hearings convened in the general rate case. The PaPUC is expected to conclude the investigation in the third quarter of 2025.

Note 4: Revenue Recognition

Disaggregated Revenues

The Company's primary business involves the ownership of utilities that provide water and wastewater services to residential, commercial, industrial, public authority, fire service and sale for resale customers, collectively presented as the "Regulated Businesses." The Company also operates other businesses that provide water and wastewater services to the U.S. government on military installations, as well as municipalities, collectively presented throughout this Form 10-Q within "Other."

Presented in the table below are operating revenues disaggregated for the three months ended June 30, 2025:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	$ 637	$ —	$ 637
Commercial	243	—	243
Fire service	48	—	48
Industrial	46	—	46
Public and other	78	—	78
Total water services	1,052	—	1,052
Wastewater services:			
Residential	71	—	71
Commercial	21	—	21
Industrial	5	—	5
Public and other	10	—	10
Total wastewater services	107	—	107
Miscellaneous utility charges	14	—	14
Alternative revenue programs	—	4	4
Lease contract revenue	—	1	1
Total Regulated Businesses	1,173	5	1,178
Other	99	(1)	98
Total operating revenues	$ 1,272	$ 4	$ 1,276

(a) Includes revenues associated with alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of Accounting Standards Codification Topic 606, *Revenue From Contracts With Customers* (“ASC 606”), and accounted for under other existing GAAP.

Presented in the table below are operating revenues disaggregated for the three months ended June 30, 2024:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	$ 579	$ 1	$ 580
Commercial	216	1	217

Total operating revenues	$ 2,147	$ 13	$ 2,160

(a) Includes revenues associated with provisional rates, alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of ASC 606, and accounted for under other existing GAAP.

Contract Balances

Contract assets and contract liabilities are the result of timing differences between revenue recognition, billings, and cash collections. In the Company's Military Services Group ("MSG"), certain contracts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals or upon achievement of contractual milestones. Contract assets are recorded when billing occurs subsequent to revenue recognition and are reclassified to accounts receivable when billed and the right to consideration becomes unconditional. Contract liabilities are recorded when the Company receives advances from customers prior to satisfying contractual performance obligations, particularly for construction contracts, and are recognized as revenue when the associated performance obligations are satisfied.

Contract assets of $149 million and $84 million are included in unbilled revenues on the Consolidated Balance Sheets as of June 30, 2025, and December 31, 2024, respectively. Also, contract assets of $5 million and $39 million are included in other long-term assets on the Consolidated Balance Sheets as of June 30, 2025, and December 31, 2024, respectively. Contract liabilities of $25 million and $40 million are included in other current liabilities on the Consolidated Balance Sheets as of June 30, 2025, and December 31, 2024, respectively. Also, contract liabilities of $24 million and $14 million are included in other long-term liabilities on the Consolidated Balance Sheets as of June 30, 2025, and December 31, 2024, respectively. Revenues recognized for the six months ended June 30, 2025 and 2024, from amounts included in contract liabilities were $46 million and $49 million, respectively.

Remaining Performance Obligations

Remaining performance obligations ("RPOs") represent revenues the Company expects to recognize in the future from contracts that are in progress. The Company enters into agreements for the provision of services to water and wastewater facilities for the U.S. military, municipalities and other customers. As of June 30, 2025, the Company's operation and maintenance ("O&M") and capital improvement contracts have RPOs. Contracts with the U.S. government for work on various military installations expire between 2051 and 2073 and have RPOs of $7.4 billion as of June 30, 2025, as measured by estimated remaining contract revenue. Such contracts are subject to customary termination provisions held by the U.S. government, prior to the agreed-upon contract expiration. Contracts with municipalities and commercial customers expire between 2026 and 2038 and have RPOs of $560 million as of June 30, 2025, as measured by estimated remaining contract revenue.

Note 5: Acquisitions and Divestitures

Regulated Businesses

Closed Acquisitions

During the six months ended June 30, 2025, the Company closed on seven acquisitions of various regulated water and wastewater systems for a total aggregate purchase price of $18 million, which added approximately 7,600 water and wastewater customers. This includes the Company's acquisition of the Audubon Water Company effective May 28, 2025, for a total consideration of $7 million, in the form of 48,702 shares of parent company common stock. Assets acquired from the seven acquisitions, principally utility plant, totaled $17 million and liabilities assumed totaled $6 million. The Company recorded goodwill of $7 million associated with three of its acquisitions, which is reported in the Company's Regulated Businesses segment. Four of these acquisitions were accounted for as a business combination and the purchase price allocation will be finalized once the valuation of assets acquired has been completed, no later than one year after the acquisition date.

The pro forma impact of the Company's business combinations was not material to the Consolidated Statements of Operations for the periods ended June 30, 2025 and 2024.

Secured Seller Promissory Note from the Sale of Homeowner Services Group

On December 9, 2021 (the "Closing Date"), the Company sold all of the equity interests in subsidiaries that comprised the Homeowner Services Group ("HOS") to a wholly owned subsidiary (the "Buyer") of funds advised by Apax Partners LLP, a global private equity advisory firm, for total consideration of approximately $1.275 billion. The outstanding consideration as of June 30, 2025, is a secured seller note payable in cash and issued by the Buyer in the principal amount of $795 million, with an interest rate of 10.00% per year. The Company recognized $20 million of interest income during each of the three months ended June 30, 2025 and 2024, and $40 million and $37 million of interest income during the six months ended June 30, 2025 and 2024, respectively, from the secured seller note. The final maturity date of the secured seller note is December 9, 2026.

The secured seller note may not be repaid at the Buyer's election (except in certain limited circumstances) before the fourth anniversary of the Closing Date. If the Buyer seeks to repay the secured seller note in breach of this non-call provision, an event of default will occur under the secured seller note and the Company may, among other actions, demand repayment in full together with a premium of 105.5% of the outstanding principal amount of the loan and a customary "make-whole" payment.

Note 6: Shareholders' Equity

Accumulated Other Comprehensive Loss

Presented in the table below are the changes in accumulated other comprehensive income (loss) by component, net of tax, for the three months ended June 30, 2025 and 2024, respectively:

	Defined Benefit Pension Plans					
	Employee Benefit Plan Funded Status	Amortization of Prior Service Cost	Amortization of Actuarial Loss	Gain (Loss) on Cash Flow Hedges	Gain (Loss) on Fixed-Income Securities	Accumulated Other Comprehensive Income (Loss)
Balance as of March 31, 2025	$ (95)	$ 1	$ 74	$ 22	$ —	$ 2
Other comprehensive (loss) income before reclassifications	—	—	—	3	(1)	2
Amounts reclassified from accumulated other comprehensive income (loss)	—	—	1	—	—	1
Net other comprehensive income (loss)	—	—	1	3	(1)	3
Balance as of June 30, 2025	$ (95)	$ 1	$ 75	$ 25	$ (1)	$ 5
Balance as of March 31, 2024	$ (96)	$ 1	$ 74	$ 10	$ 3	$ (8)
Amounts reclassified from accumulated other comprehensive income	—	—	1	—	—	1
Net other comprehensive income (loss)	—	—	1	—	—	1
Balance as of June 30, 2024	$ (96)	$ 1	$ 75	$ 10	$ 3	$ (7)

Presented in the table below are the changes in accumulated other comprehensive income (loss) by component, net of tax, for the six months ended June 30, 2025 and 2024, respectively:

	Defined Benefit Pension Plans					
	Employee Benefit Plan Funded Status	Amortization of Prior Service Cost	Amortization of Actuarial Loss	Gain (Loss) on Cash Flow Hedges	Gain (Loss) on Fixed-Income Securities	Accumulated Other Comprehensive Income (Loss)
Balance as of December 31, 2024	$ (95)	$ 1	$ 74	$ 30	$ 2	$ 12
Other comprehensive (loss) income before reclassifications	—	—	—	(5)	1	(4)
Amounts reclassified from accumulated other comprehensive income (loss)	—	—	1	—	(4)	(3)
Net other comprehensive income (loss)	—	—	1	(5)	(3)	(7)
Balance as of June 30, 2025	$ (95)	$ 1	$ 75	$ 25	$ (1)	$ 5
Balance as of December 31, 2023	$ (96)	$ 1	$ 74	$ (9)	$ 4	$ (26)
Other comprehensive income (loss) before reclassifications	—	—	—	19	(1)	18
Amounts reclassified from accumulated other comprehensive income	—	—	1	—	—	1
Net other comprehensive income (loss)	—	—	1	19	(1)	19
Balance as of June 30, 2024	$ (96)	$ 1	$ 75	$ 10	$ 3	$ (7)

The Company does not reclassify the amortization of defined benefit pension cost components from accumulated other comprehensive income (loss) directly to net income in its entirety, as a portion of these costs have been deferred as a regulatory asset. These accumulated other comprehensive income (loss) components are included in the computation of net periodic pension cost.

The amortization of the gain (loss) on cash flow hedges is reclassified to net income during the period incurred and is included in Interest expense in the accompanying Consolidated Statements of Operations.

An unrealized gain (loss) on available-for-sale fixed-income securities is reclassified to net income upon sale of the securities as a realized gain or loss and is included in Other, net in the accompanying Consolidated Statements of Operations.

Dividends

On June 3, 2025, the Company paid a quarterly cash dividend of $0.8275 per share to shareholders of record as of May 13, 2025.

On July 30, 2025, the Company's Board of Directors declared a quarterly cash dividend payment of $0.8275 per share, payable on September 3, 2025, to shareholders of record as of August 12, 2025. Future dividends, when and as declared at the discretion of the Board of Directors, will be dependent upon future earnings and cash flows, compliance with various regulatory, financial and legal requirements, and other factors. See Note 9—Shareholders' Equity in the Notes to Consolidated Financial Statements in the Company's Form 10-K for additional information regarding the payment of dividends on the Company's common stock.

Note 7: Long-Term Debt

On February 27, 2025, American Water Capital Corp. ("AWCC") completed the sale of $800 million aggregate principal amount of its 5.250% Senior Notes due 2035. At the closing of this offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $792 million. AWCC used the net proceeds of the offering (i) to lend funds to American Water and the Regulated Businesses; (ii) to repay at maturity AWCC's 3.400% Senior Notes due 2025; (iii) to repay commercial paper obligations of AWCC; and (iv) for general corporate purposes.

In addition to the notes issued by AWCC as described above, during the six months ended June 30, 2025, the Company's regulated subsidiaries issued in the aggregate $79 million of private activity bonds and government funded debt in multiple transactions with annual interest rates ranging from 0.00% to 3.71%, a weighted average interest rate of 2.47%, and maturity dates ranging from 2025 through 2054. The private activity bonds and government funded debt issued by the Company's regulated subsidiaries during the six months ended June 30, 2025, were collateralized. During the six months ended June 30, 2025, AWCC and the Company's regulated subsidiaries made sinking fund payments for, repaid at maturity, or settled $633 million in aggregate principal amount of outstanding long-term debt, with annual interest rates ranging from 0.00% to 8.58%, a weighted average interest rate of 2.97%, and maturity dates ranging from 2025 to 2061.

As of June 30, 2025, the Company had five treasury lock agreements, with a term of 30 years and an aggregate notional amount of $180 million, to reduce interest rate exposure on expected future debt issuances. These treasury lock agreements terminate in December 2025 and March 2026 and have an average fixed interest rate of 4.73%. In July 2025, the Company entered into four treasury lock agreements, with a term of 30 years and an aggregate notional amount of $170 million, to reduce interest rate exposure on expected future debt issuances. These treasury lock agreements terminate in September 2025 and have an average fixed interest rate of 4.93%. The Company designated these treasury lock agreements as cash flow hedges, measured at fair value with the gain or loss recorded in accumulated other comprehensive income.

In May 2025, the Company terminated two treasury lock agreements designated as cash flow hedges, with a term of 30 years and an aggregate notional amount totaling $100 million, realizing a pre-tax net gain of $12 million recorded in accumulated other comprehensive income. The gain will reduce interest rate exposure on any future debt issuance in 2025 and will be amortized through Interest expense over a 30-year period, in accordance with the tenor of the notes.

In February 2025, the Company terminated 10 treasury lock agreements designated as cash flow hedges, with a term of 10 years and an aggregate notional amount totaling $500 million, realizing a pre-tax net gain of $3 million recorded in accumulated other comprehensive income. The gain will be amortized through Interest expense over a 10-year period, in accordance with the tenor of the notes issued on February 27, 2025.

No ineffectiveness was recognized on hedging instruments for the three and six months ended June 30, 2025 or 2024.

On June 29, 2023, AWCC issued $1,035 million aggregate principal amount of 3.625% Exchangeable Senior Notes due 2026 (the "Notes"). AWCC received net proceeds of approximately $1,022 million, after deduction of underwriting discounts and commissions but before deduction of offering expenses payable by AWCC. The Notes will mature on June 15, 2026 (the "Maturity Date"), unless earlier exchanged or repurchased. As of June 30, 2025, the Notes were included in Current portion of long-term debt on the Consolidated Balance Sheets.

The Notes are exchangeable at an initial exchange rate of 5.8213 shares of parent company's common stock per $1,000 principal amount of Notes (equivalent to an initial exchange price of approximately $171.78 per share of common stock). The initial exchange rate of the Notes is subject to adjustment as provided in the indenture pursuant to which the Notes were issued (the "Note Indenture"). Prior to the close of business on the business day immediately preceding March 15, 2026, the Notes are exchangeable at the option of the noteholders only upon the satisfaction of specified conditions and during certain periods described in the Note Indenture. On or after March 15, 2026, until the close of business on the business day immediately preceding the Maturity Date, the Notes will be exchangeable at the option of the noteholders at any time regardless of these conditions or periods. Upon any exchange of the Notes, AWCC will (i) pay cash up to the aggregate principal amount of the Notes and (ii) pay or deliver (or cause to be delivered), as the case may be, cash, shares of parent company's common stock, or a combination of cash and shares of such common stock, at AWCC's election, in respect of the remainder, if any, of AWCC's exchange obligation in excess of the aggregate principal amount of the Notes being exchanged.

AWCC may not redeem the Notes prior to the Maturity Date, and no sinking fund is provided for the Notes. Subject to certain conditions, holders of the Notes will have the right to require AWCC to repurchase all or a portion of their Notes upon the occurrence of a fundamental change, as defined in the Note Indenture, at a repurchase price of 100% of their principal amount plus any accrued and unpaid interest.

Note 8: Short-Term Debt

Liquidity needs for capital investment, working capital and other financial commitments are generally funded through cash flows from operations, public and private debt offerings, issuances of commercial paper and equity and, if and to the extent necessary, borrowings under the AWCC revolving credit facility. AWCC maintains an unsecured revolving credit facility which provides $2.75 billion in aggregate total commitments from a diversified group of financial institutions. The termination date of the credit agreement with respect to AWCC's revolving credit facility is October 26, 2029. The revolving credit facility is used principally to support AWCC's commercial paper program, to provide additional liquidity support and to provide a sub-limit for the issuance of up to $150 million in letters of credit. Subject to satisfying certain conditions, the credit agreement permits AWCC to increase the maximum commitment under the facility by up to an aggregate of $500 million.

Short-term debt consists of commercial paper borrowings totaling $1,591 million and $880 million as of June 30, 2025, and December 31, 2024, respectively, or net of discount $1,589 million and $879 million as of June 30, 2025, and December 31, 2024, respectively. The weighted-average interest rate on AWCC's outstanding short-term borrowings was approximately 4.59% and 4.65% at June 30, 2025, and December 31, 2024, respectively. At June 30, 2025, and December 31, 2024, AWCC had no outstanding borrowings under the revolving credit facility and there were no commercial paper borrowings outstanding with maturities greater than three months.

Presented in the tables below are the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each:

	As of June 30, 2025		
	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(1,591)	(84)	(1,675)
Remaining availability as of June 30, 2025	$ 1,009	$ 66	$ 1,075

(a) Total remaining availability of $1.1 billion as of June 30, 2025, was accessible through revolver draws.

	As of December 31, 2024		
	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(880)	(82)	(962)
Remaining availability as of December 31, 2024	$ 1,720	$ 68	$ 1,788

(a) Total remaining availability of $1.8 billion as of December 31, 2024, was accessible through revolver draws.

Presented in the table below is the Company's total available liquidity as of June 30, 2025, and December 31, 2024, respectively:

	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of June 30, 2025	$ 94	$ 1,075	$ 1,169
Available liquidity as of December 31, 2024	$ 96	$ 1,788	$ 1,884

Note 9: Income Taxes

The Company's effective income tax rate was 23.1% and 23.3% for the three months ended June 30, 2025 and 2024, respectively, and 23.5% and 23.4% for the six months ended June 30, 2025 and 2024, respectively.

On July 4, 2025, the One Big Beautiful Bill Act (the "OBBB") was signed into law. The OBBB includes several corporate tax-related provisions. Key changes include the permanent extension of certain provisions from the Tax Cuts and Jobs Act of 2017, such as 100% bonus depreciation and Section 163(j) interest limitation exception for regulated utilities, as well as the immediate expensing of domestic research and development costs, and the introduction of a new charitable contribution floor for corporations. The Company does not expect the OBBB will materially impact the Company's Consolidated Financial Statements. The Company will continue to monitor the implementation and any related guidance.

On August 16, 2022, the Inflation Reduction Act of 2022 (the "IRA") was signed into law. The IRA contains a 15% Corporate Alternative Minimum Tax ("CAMT") provision on applicable corporations effective January 1, 2023. To determine if a company is considered an applicable corporation subject to CAMT, the company's average adjusted financial statement income ("AFSI") for the three consecutive years preceding the tax year must exceed $1.0 billion. An applicable corporation must make several adjustments to net income when determining AFSI. A corporation paying CAMT is eligible for a future tax credit, which can be carried forward indefinitely and utilized when regular tax exceeds CAMT. Based on current guidance, the Company is an applicable corporation subject to CAMT beginning in 2024. The Company included the CAMT liability in its 2024 extension payment on April 15, 2025. As of June 30, 2025, the Company has a CAMT credit carryforward of $151 million.

On June 2, 2025, the Internal Revenue Service ("IRS") and the U.S. Treasury issued Notice 2025-27, allowing corporate taxpayers to exclude amounts attributable to the CAMT liability, without penalty, from estimated tax payments with respect to a taxable year that begins after December 31, 2024, and before January 1, 2026. The Company plans to include the CAMT liability in its 2025 extension payment on April 15, 2026. The Company will continue to assess the impacts of the IRA as the U.S. Treasury and the IRS provide further guidance.

Note 10: Pension and Other Postretirement Benefits

Presented in the table below are the components of net periodic benefit costs:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2025	2024	2025	2024
Components of net periodic pension benefit cost:				
Service cost	$ 4	$ 4	$ 7	$ 9
Interest cost	22	21	43	42
Expected return on plan assets	(23)	(23)	(45)	(47)
Amortization of prior service credit	(1)	(1)	(2)	(2)
Amortization of actuarial loss	6	6	11	12
Net periodic pension benefit cost	$ 8	$ 7	$ 14	$ 14
Components of net periodic other postretirement benefit credit:				
Service cost	$ —	$ —	$ —	$ 1
Interest cost	3	3	6	6
Expected return on plan assets	(3)	(3)	(6)	(6)
Amortization of prior service credit	(8)	(8)	(16)	(16)
Net periodic other postretirement benefit credit	$ (8)	$ (8)	$ (16)	$ (15)

The Company contributed $11 million and $22 million for the funding of its defined benefit pension plans for the three and six months ended June 30, 2025, respectively, and contributed $11 million and $22 million for the funding of its defined benefit pension plans for the three and six months ended June 30, 2024, respectively. The Company expects to make additional pension contributions to the plan trusts of $22 million during the remainder of 2025.

Note 11: Commitments and Contingencies

Contingencies

The Company is routinely involved in legal actions incident to the normal conduct of its business. As of June 30, 2025, the Company has accrued approximately $19 million of probable loss contingencies and has estimated that the maximum amount of loss associated with reasonably possible loss contingencies arising out of such legal actions, which can be reasonably estimated, is $4 million. For certain legal actions, the Company is unable to estimate possible losses. The Company believes that damages or settlements, if any, recovered by plaintiffs in such legal actions, other than as described in this Note 11 —Commitments and Contingencies, will not have a material adverse effect on the Company.

Dunbar, West Virginia Class Action Litigation Proposed Settlement

On the evening of June 23, 2015, a 36-inch pre-stressed concrete transmission water main, installed in the early 1970s, failed. The water main is part of the West Relay pumping station located in the City of Dunbar, West Virginia and owned by the Company's West Virginia subsidiary ("WVAWC"). The failure of the main caused water outages and low pressure for up to approximately 25,000 WVAWC customers. In the early morning hours of June 25, 2015, crews completed a repair, but that same day, the repair developed a leak. On June 26, 2015, a second repair was completed, and service was restored that day to approximately 80% of the impacted customers, and to the remaining approximately 20% by the next morning. The second repair showed signs of leaking, but the water main was usable until June 29, 2015, to allow tanks to refill. The system was reconfigured to maintain service to all but approximately 3,000 customers while a final repair was being completed safely on June 30, 2015. Water service was fully restored by July 1, 2015, to all customers affected by this event.

On June 2, 2017, a complaint captioned *Jeffries, et al. v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of residents and business owners who lost water service or pressure as a result of the Dunbar main break. The complaint alleges breach of contract by WVAWC for failure to supply water, violation of West Virginia law regarding the sufficiency of WVAWC's facilities and negligence by WVAWC in the design, maintenance and operation of the water system. The *Jeffries* plaintiffs seek unspecified alleged damages on behalf of the class for lost profits, annoyance and inconvenience, and loss of use, as well as punitive damages for willful, reckless and wanton behavior in not addressing the risk of pipe failure and a large outage.

In February 2020, the *Jeffries* plaintiffs filed a motion seeking class certification on the issues of breach of contract and negligence, and to determine the applicability of punitive damages and a multiplier for those damages if imposed. In July 2020, the Circuit Court entered an order granting the *Jeffries* plaintiffs' motion for certification of a class regarding certain liability issues but denying certification of a class to determine a punitive damages multiplier. Trial in this matter had been scheduled for January 2025.

On January 17, 2025, before trial commenced, the parties notified the Circuit Court that an agreement in principle to settle this litigation was reached among the parties. On May 2, 2025, the parties jointly filed with the Circuit Court a proposed class action settlement agreement (the "Dunbar Settlement") with respect to claims by the *Jeffries* plaintiffs, and, on May 5, 2025, the Circuit Court issued an order granting preliminary approval of the Dunbar Settlement. Under the terms of the Dunbar Settlement, WVAWC has not admitted, and will not admit, any fault or liability for any of the allegations made by the *Jeffries* plaintiffs. The proposed maximum pre-tax amount of the Dunbar Settlement is approximately $18 million, of which the Company currently estimates that approximately $5 million would be contributed by the Company and WVAWC, and the remainder would be contributed by certain of the Company's general liability insurance carriers. The actual total amount to be paid to claimants through the Dunbar Settlement will depend upon the claims submitted and approved through the claims process that is now underway, which includes, among other things: notice that has been provided to the class; obtaining, reviewing and processing properly submitted claims from potential claimants; and handling any requests to opt out from or object to the Dunbar Settlement. Following the completion of the claims process, the Circuit Court will hold a hearing regarding its final approval of the Dunbar Settlement, which is currently scheduled for September 11, 2025.

No contribution by the Company or WVAWC for claims associated with the Dunbar Settlement will be funded unless and until, and to the extent required by, a settlement agreement that receives final approval from the Circuit Court. The final amount of the Company's and WVAWC's contributions to the Dunbar Settlement remains subject to uncertainty and will depend in part on the amount of claims ultimately submitted and approved through the above-referenced claims process; however, the Company does not currently anticipate that its maximum liability will exceed $5 million. As a result, the Company previously recorded a charge to earnings, net of expected insurance receivables, of $5.0 million ($3.9 million after-tax), which has been maintained as of June 30, 2025. The Company intends to fund its and WVAWC's contributions to the Dunbar Settlement through existing sources of liquidity.

Chattanooga, Tennessee Class Action Litigation

On September 12, 2019, the Company's Tennessee subsidiary ("TAWC"), experienced a leak in a 36-inch water transmission main, which caused service fluctuations or interruptions to TAWC customers and the issuance of a boil water notice. TAWC repaired the main by early morning on September 14, 2019, and restored full water service by the afternoon of September 15, 2019, with the boil water notice lifted for all customers on September 16, 2019.

On September 17, 2019, a complaint captioned *Bruce, et al. v. American Water Works Company, Inc., et al.* was filed in the Circuit Court of Hamilton County, Tennessee against TAWC, the Company and American Water Works Service Company, Inc. ("Service Company" and, together with TAWC and the Company, collectively, the "Tennessee-American Water Defendants"), on behalf of a proposed class of individuals or entities who lost water service or suffered monetary losses as a result of the Chattanooga incident (the "Tennessee Plaintiffs"). The complaint alleged breach of contract and negligence against the Tennessee-American Water Defendants, as well as an equitable remedy of piercing the corporate veil. In the complaint as originally filed, the Tennessee Plaintiffs were seeking an award of unspecified alleged damages for wage losses, business and economic losses, out-of-pocket expenses, loss of use and enjoyment of property and annoyance and inconvenience, as well as punitive damages, attorneys' fees and pre- and post-judgment interest.

In September 2020, the court dismissed all of the Tennessee Plaintiffs' claims in their complaint, except for the breach of contract claims against TAWC, which remain pending. In October 2020, TAWC answered the complaint, and the parties have been engaging in discovery. In January 2023, after hearing oral argument, the court issued an oral ruling denying the Tennessee Plaintiffs' motion for class certification. In February 2023, the Tennessee Plaintiffs sought reconsideration of the ruling by the court, and any final ruling is appealable to the Tennessee Court of Appeals, as allowed under Tennessee law. In September 2023, the court upheld its prior ruling but gave the Tennessee Plaintiffs the option to file an amended class definition. In October 2023, the Tennessee Plaintiffs filed an amended class definition seeking certification of a business customer-only class. On June 14, 2024, the court issued its written order denying the Tennessee Plaintiffs' amended class and incorporating its denial of certification of the original residential class. On June 21, 2024, the Tennessee Plaintiffs appealed both of the court's orders denying class certification. This appeal remains pending.

The Company and TAWC believe that TAWC has valid, meritorious defenses to the claims raised in this class action complaint. TAWC will continue to vigorously defend itself against these allegations. Given the current stage of this proceeding, the Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of loss related to this proceeding.

Mountaineer Gas Company Main Break

During the afternoon of November 10, 2023, WVAWC was informed that an 8-inch ductile iron water main owned by WVAWC, located on the West Side of Charleston, West Virginia and originally installed in approximately 1989, experienced a leak. In the early morning hours of November 11, 2023, WVAWC crews successfully completed a repair to the water main. A precautionary boil water advisory was issued the same day to approximately 300 WVAWC customers and ultimately lifted on November 12, 2023.

On November 10, 2023, a break was reported in a low-pressure natural gas main located near the affected WVAWC water main, and an inflow of water into the natural gas main and associated delivery pipelines occurred. The natural gas main and pipelines are owned by Mountaineer Gas Company, a regulated natural gas distribution company serving over 220,000 customers in West Virginia ("Mountaineer Gas"). The resulting inflow of water into the natural gas main and related pipelines resulted in a loss of natural gas service to approximately 1,500 Mountaineer Gas customers, as well as water entering customer service lines and certain natural gas appliances owned or used by some of the affected Mountaineer Gas customers. Mountaineer Gas reported that restoration of natural gas service to all affected gas mains occurred on November 24, 2023. The timing, order and causation of both the WVAWC water main break and Mountaineer Gas's main break are currently unknown and under investigation.

To date, a total of four pending lawsuits have been filed against Mountaineer Gas and WVAWC purportedly on behalf of customers in Charleston, West Virginia related to these incidents. On November 14, 2023, a complaint captioned *Ruffin et al. v. Mountaineer Gas Company and West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of Mountaineer Gas residential and business customers and other households and businesses supplied with natural gas in Kanawha County, which lost natural gas service on November 10, 2023, as a result of these events. The complaint alleges, among other things, breach of contract by Mountaineer Gas, trespass by WVAWC, nuisance by WVAWC, violation of statutory obligations by Mountaineer Gas and WVAWC, and negligence by Mountaineer Gas and WVAWC. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for loss of use of natural gas, annoyance, inconvenience and lost profits, as well as punitive damages.

On November 15, 2023, a complaint captioned *Toliver et al. v. West Virginia-American Water Company and Mountaineer Gas Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of all natural persons or entities who are citizens of the State of West Virginia and who are customers of WVAWC and/or Mountaineer Gas in the affected areas. The complaint alleges against Mountaineer Gas and WVAWC, among other things, negligence, nuisance, trespass and strict liability, as well as breach of contract against Mountaineer Gas. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for property damage, loss of use and enjoyment of property, annoyance and inconvenience and business losses, as well as punitive damages.

On November 16, 2023, a complaint captioned *Dodson et al. v. West Virginia American Water and Mountaineer Gas Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of all West Virginia citizens living between Pennsylvania Avenue south of Washington Street, and Iowa Street, who are customers of Mountaineer Gas. The complaint alleges against Mountaineer Gas and WVAWC, among other things, negligence, nuisance, trespass, statutory code violations and unfair or deceptive business practices. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for property loss and damage, loss of use and enjoyment of property, mental and emotional distress, and aggravation and inconvenience, as well as punitive damages.

On January 4, 2024, a fourth complaint, captioned *Thomas v. West Virginia-American Water Company and Mountaineer Gas Company*, was filed in West Virginia Circuit Court in Kanawha County asserting similar allegations as those included in the *Ruffin*, *Toliver* and *Dodson* lawsuits, with the addition of counts alleging unjust enrichment and violations of the West Virginia Human Rights Act and the West Virginia Consumer Credit and Protection Act.

On November 17, 2023, the *Ruffin* plaintiff filed a motion to consolidate the class action lawsuits before a single judge in Kanawha County Circuit Court. On June 14, 2024, the judge in the *Ruffin* case partially granted the motion by transferring all of the four class action lawsuits to her court but deferring as premature consolidation of the cases.

On December 5, 2023, a complaint captioned *Mountaineer Gas Company v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County seeking damages under theories of trespass, negligence and implied indemnity. The damages being sought related to the incident include, among other things, repair and response costs incurred by Mountaineer Gas and attorneys' fees and expenses incurred by Mountaineer Gas. On December 14, 2023, Mountaineer Gas filed a motion with the Supreme Court of West Virginia to transfer this case to the West Virginia Business Court. On December 29, 2023, WVAWC filed a joinder in the motion to transfer the case. WVAWC has also filed a partial motion to dismiss this lawsuit. On March 6, 2024, the motion to transfer this complaint to the West Virginia Business Court was granted and trial and resolution judges were assigned. Mountaineer Gas voluntarily dismissed its implied indemnity count against WVAWC, rendering moot WVAWC's partial motion to dismiss, and on May 31, 2024, WVAWC answered the complaint. The West Virginia Business Court has set a trial date for this matter, which, upon motion of the parties, has been reset to March 16, 2026, to allow for the completion of discovery.

On December 20, 2023, Mountaineer Gas filed answers to each of the first three class action lawsuits, which included cross-claims against WVAWC alleging that Mountaineer Gas is without fault for the claims and damages alleged in the lawsuits and WVAWC should be required to indemnify Mountaineer Gas for any damages and for attorneys' fees and expenses incurred by Mountaineer Gas in the lawsuits. WVAWC has filed a partial motion to dismiss certain claims in the *Ruffin, Toliver, Dodson* and *Thomas* lawsuits and a motion to dismiss the cross-claims asserted against WVAWC therein by Mountaineer Gas. Mountaineer Gas subsequently voluntarily dismissed its cross-claims. On January 30, 2024, a motion was filed with the West Virginia Supreme Court on behalf of the *Toliver* plaintiff to refer the four class action complaints and the *Mountaineer Gas* complaint to the West Virginia Mass Litigation Panel. On February 7, 2024, WVAWC filed a motion joining in that referral request. On February 19, 2024, Mountaineer Gas filed a motion opposing the referral of the four class action complaints and the *Mountaineer Gas* complaint to the West Virginia Mass Litigation Panel. On May 31, 2024, the West Virginia Supreme Court denied the motion seeking referral. The Kanawha County Circuit Court has set a trial date of February 2, 2026, for the class action complaints.

On December 6, 2023, WVAWC initiated a process whereby Mountaineer Gas customers could file claims with WVAWC and seek payment from WVAWC of up to $2,000 in damages per affected household for the inconvenience arising from a loss of use of their appliances and documented out-of-pocket expenses as a result of the natural gas outage. In light of the diminishing number of new claims that had been filed, the claims process was concluded on March 8, 2024. As of December 31, 2024, a total of 594 Mountaineer Gas customers completed this claims process, and each of those customers has been paid by WVAWC an average of approximately $1,500. In return, these customers were required to execute a partial release of liability in favor of WVAWC.

On November 16, 2023, the Public Service Commission of West Virginia (the "WVPSC") issued an order initiating a general investigation into both the water main break and natural gas outages occurring in this incident to determine the cause or causes thereof, as well as breaks and outages generally throughout the systems of WVAWC and Mountaineer Gas and the utility practices of both utilities. Following a series of disagreements among the parties regarding the scope of discovery, the WVPSC closed the general investigation into both utilities and ordered a separate general investigation for each utility. The WVPSC focused the two general investigations away from the cause of the events and instead on the maintenance practices of each utility during and after the main breaks. On January 29, 2024, the Consumer Advocate Division of the WVPSC filed a motion to intervene in the WVAWC general investigation.

On April 24, 2024, the staff issued a final joint memorandum in the Mountaineer Gas general investigation stating its view that Mountaineer Gas responded appropriately, reasonably and according to Mountaineer Gas's written procedures. The staff is making no recommendations for improvements to Mountaineer Gas and is recommending that the Mountaineer Gas general investigation be closed. On July 24, 2024, the staff issued a final joint memorandum in the WVAWC general investigation finding no indication of systematic failure by WVAWC and concluding WVAWC's maintenance and operating procedures were adequate to ensure safe and reliable service, subject to the implementation by WVAWC of three recommended operational improvements. Both general investigations remain pending.

The Company and WVAWC believe that the causes of action and other claims asserted against WVAWC in the class action complaints and the lawsuit filed by Mountaineer Gas are without merit and that WVAWC has valid, meritorious defenses to such claims. WVAWC continues to defend itself vigorously in these litigation proceedings. Given the current stage of these proceedings and the general investigation, the Company and WVAWC are currently unable to predict the outcome of any of the proceedings described above, and the Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of loss related to this proceeding.

Alternative Water Supply in Lieu of Carmel River Diversions

Compliance with Orders to Reduce Carmel River Diversions—Monterey Peninsula Water Supply Project

Under a 2009 order (the "2009 Order") of the State Water Resources Control Board (the "SWRCB"), the Company's California subsidiary ("Cal Am") is required to decrease significantly its yearly diversions of water from the Carmel River according to a set reduction schedule. In 2016, the SWRCB issued an order (the "2016 Order," and, together with the 2009 Order, the "Orders") approving a deadline of December 31, 2021, for Cal Am's compliance with these prior orders.

Cal Am is currently involved in developing the Monterey Peninsula Water Supply Project (the "Water Supply Project"), which includes the construction of a desalination plant, to be owned by Cal Am, and the construction of wells that would supply water to the desalination plant. In addition, the Water Supply Project also includes Cal Am's purchase of water from a groundwater replenishment project (the "GWR Project") between Monterey One Water and the Monterey Peninsula Water Management District (the "MPWMD"), as well as an expanded aquifer storage and recovery program. The Water Supply Project is intended, among other things, to fulfill Cal Am's obligations under the Orders.

Cal Am's ability to move forward on the Water Supply Project is and has been subject to administrative review by the CPUC and other government agencies, obtaining necessary permits, and intervention from other parties. In 2016, the CPUC unanimously approved a final decision to authorize Cal Am to enter into a water purchase agreement for the GWR Project and to construct a pipeline and pump station facilities and recover up to $50 million in associated incurred costs, plus an allowance for funds used during construction ("AFUDC"), subject to meeting certain criteria.

In 2018, the CPUC unanimously approved another final decision finding that the Water Supply Project meets the CPUC's requirements for a certificate of public convenience and necessity and an additional procedural phase was not necessary to consider alternative projects. The CPUC's 2018 decision concludes that the Water Supply Project is the best project to address estimated future water demands in Monterey, and, in addition to the cost recovery approved in its 2016 decision, adopts Cal Am's cost estimates for the Water Supply Project, which amounted to an aggregate of $279 million plus AFUDC at a rate representative of Cal Am's actual financing costs. The 2018 final decision specifies the procedures for recovery of all of Cal Am's prudently incurred costs associated with the Water Supply Project upon its completion, subject to the frameworks included in the final decision related to cost caps, operation and maintenance costs, financing, ratemaking and contingency matters. The reasonableness of the Water Supply Project costs will be reviewed by the CPUC when Cal Am seeks cost recovery for the Water Supply Project. Cal Am is also required to implement mitigation measures to avoid, minimize or offset significant environmental impacts from the construction and operation of the Water Supply Project and comply with a mitigation monitoring and reporting program, a reimbursement agreement for CPUC costs associated with that program, and reporting requirements on plant operations following placement of the Water Supply Project in service. Cal Am has incurred $300 million in aggregate costs as of June 30, 2025, related to the Water Supply Project, which includes $97 million in AFUDC.

In September 2021, Cal Am, Monterey One Water and the MPWMD reached an agreement on Cal Am's purchase of additional water from an expansion to the GWR Project. On December 5, 2022, the CPUC issued a final decision that authorized Cal Am to enter into the amended water purchase agreement, and specifically to increase pumping capacity and reliability of groundwater extraction from the Seaside Groundwater Basin. The final decision sets the cost cap for the proposed facilities at approximately $62 million. Cal Am may seek recovery of amounts above the cost cap in a subsequent rate filing or general rate case. Additionally, the final decision authorizes AFUDC at Cal Am's actual weighted average cost of debt for most of the facilities. On December 30, 2022, Cal Am filed with the CPUC an application for rehearing of the CPUC's December 5, 2022, final decision, and on March 30, 2023, the CPUC issued a decision denying Cal Am's application for rehearing, but adopting its proposed AFUDC for already incurred and future costs. The decision also provided Cal Am the opportunity to serve supplemental testimony to increase its cost cap for certain of the Water Supply Project's extraction wells. On May 21, 2025, the CPUC issued a decision authorizing an increase to the cost cap of $11 million for the specified extraction wells.

The amended water purchase agreement and a memorandum of understanding to negotiate certain milestones related to the expansion of the GWR Project have been signed by the relevant parties. Further hearings were scheduled in a Phase 2 to this CPUC proceeding to focus on updated supply and demand estimates for the Water Supply Project, and Phase 2 testimony was completed in September 2022. On October 23, 2023, a status conference was held to determine procedural steps to conclude the proceeding. Further evidentiary hearings were held in March 2024. On May 9, 2025, the CPUC issued a proposed decision in Phase 2, finding that without the Water Supply Project, projected demand will outstrip supply by approximately 2,500 acre-feet per year. On June 18, 2025, the CPUC issued a decision extending the Phase 2 statutory deadline to October 31, 2025. This Phase 2 matter remains pending.

While Cal Am believes that its expenditures to date have been prudent and necessary to comply with the Orders, as well as relevant final decisions of the CPUC related thereto, Cal Am cannot currently predict its ability to recover all of its costs and expenses associated with the Water Supply Project and there can be no assurance that Cal Am will be able to recover all of such costs and expenses in excess of the $123 million in previously approved aggregate construction costs, plus applicable AFUDC, previously approved by the CPUC in its September 2016 decision, its December 2022 decision (as amended by its March 2023 rehearing decision), and its May 2025 decision.

Coastal Development Permit Application

In 2018, Cal Am submitted a coastal development permit application (the "Marina Application") to the City of Marina (the "City") for those project components of the Water Supply Project located within the City's coastal zone. Members of the City's Planning Commission, as well as City councilpersons, publicly expressed opposition to the Water Supply Project. In May 2019, the City issued a notice of final local action based upon the denial by the Planning Commission of the Marina Application. Thereafter, Cal Am appealed this decision to the Coastal Commission, as permitted under the City's code and the California Coastal Act. At the same time, Cal Am submitted an application (the "Original Jurisdiction Application") to the Coastal Commission for a coastal development permit for those project components located within the Coastal Commission's original jurisdiction. After Coastal Commission staff issued reports recommending denial of the Original Jurisdiction Application, noting potential impacts on environmentally sensitive habitat areas and wetlands and possible disproportionate impacts to communities of concern, in September 2020, Cal Am withdrew the Original Jurisdiction Application in order to address the staff's environmental justice concerns. In November 2020, Cal Am refiled the Original Jurisdiction Application.

In October 2022, Cal Am announced a phasing plan for the proposed desalination plant component of the Water Supply Project. The desalination plant and slant wells originally approved by the CPUC would produce up to 6.4 million gallons of desalinated water per day. Under the phased approach, the facilities would initially be constructed to produce up to 4.8 million gallons per day of desalinated water, enough to meet anticipated demand through about 2030, and would limit the number of slant wells initially constructed. As demand increases in the future, desalination facilities would be expanded to meet the additional demand. The phased approach seeks to meet near-term demand by allowing for additional supply as it becomes needed, while also providing an opportunity for regional future public participation and was developed by Cal Am based on feedback received from the community.

In November 2022, the Coastal Commission approved the Marina Application and the Original Jurisdiction Application with respect to the phased development of the proposed desalination plant, subject to compliance with a number of conditions, all of which Cal Am expects to satisfy. In December 2022, the City, Marina Coast Water District ("MCWD"), MCWD's groundwater sustainability agency, and the MPWMD jointly filed a petition for writ of mandate in Monterey County Superior Court against the Coastal Commission, alleging that the Coastal Commission violated the California Coastal Act and the California Environmental Quality Act in issuing a coastal development permit to Cal Am for construction of slant wells for the Water Supply Project. Cal Am is named as a real party in interest. On April 24, 2024, the court granted defendants' motion for judgment on the pleadings and dismissed one of MCWD's causes of action in the petition. A trial commenced on December 9, 2024, and further proceedings continued in January 2025. On May 12, 2025, the court entered its final decision denying the petition in full.

Following the issuance of the coastal development permit, Cal Am continues to work constructively with all appropriate agencies to provide necessary information in connection with obtaining the remaining required permits for the Water Supply Project. However, there can be no assurance that the Water Supply Project in its current configuration will be completed on a timely basis, if ever. For the year ended December 31, 2024, Cal Am has complied with the diversion limitations contained in the 2016 Order. Continued compliance with the diversion limitations in 2025 and future years may be impacted by a number of factors, including without limitation potential recurrence of drought conditions in California and the exhaustion of water supply reserves, and will require successful development of alternate water supply sources sufficient to meet customer demand. The Orders remain in effect until Cal Am certifies to the SWRCB, and the SWRCB concurs, that Cal Am has obtained a permanent supply of water to substitute for past unauthorized Carmel River diversions. While the Company cannot currently predict the likelihood or result of any adverse outcome associated with these matters, further attempts to comply with the Orders may result in material additional costs and obligations to Cal Am, including fines and penalties against Cal Am in the event of noncompliance with the Orders.

Cal Am's Action for Damages Following Termination of Regional Desalination Project ("RDP")

In 2010, the CPUC had approved the RDP, which was a precursor to the current Water Supply Project and called for the construction of a desalination facility in the City of Marina. The RDP was to be implemented through a Water Purchase Agreement and ancillary agreements (collectively, the "Agreements") among MCWD, Cal Am and the Monterey County Water Resources Agency ("MCWRA"). In 2011, due to a conflict of interest concerning a former member of MCWRA's Board of Directors, MCWRA stated that the Agreements were void, and, as a result, Cal Am terminated the Agreements. In ensuing litigation filed by Cal Am in 2012 to resolve the termination of the RDP, the court in 2015 entered a final judgment agreeing with Cal Am's position that four of the five Agreements are void, and one, the credit line agreement, is not void. As a result of this litigation, Cal Am was permitted to institute further proceedings, discussed below, to determine the amount of damages that may be awarded to Cal Am as a result of the failure of the RDP.

In 2015, Cal Am and MCWRA filed a complaint in San Francisco County Superior Court against MCWD and RMC Water and Environment, a private engineering consulting firm ("RMC"), seeking to recover compensatory, consequential and incidental damages associated with the failure of the RDP, as well as punitive and treble damages, statutory penalties and attorneys' fees. In 2019, MCWD was granted a motion for summary judgment related to the tort claims in the complaint. A settlement as to the non-tort claims was finalized and entered into in March 2020. As part of this settlement, Cal Am's and MCWRA's right to appeal the dismissal of their tort claims against MCWD were expressly reserved, and, in July 2020, Cal Am filed its appeal. In December 2022, the trial court's decision was reversed on appeal with instructions to vacate its prior orders granting MCWD's motions for summary judgment and to enter new orders denying the motions. In February 2023, MCWD filed a petition for review of the appellate decision with the California Supreme Court, which was denied in March 2023. On June 27, 2024, MCWD filed a motion for judgment on the pleadings. Following a hearing, on December 5, 2024, the court granted MCWD's motion without leave to amend, dismissing all of Cal Am's remaining tort claims. Final judgment was entered on January 7, 2025. On February 27, 2025, Cal Am and MCWRA each filed a Notice of Appeal of the trial court's decision. This matter remains pending.

Proposed Acquisition of Monterey System Assets — Potential Condemnation

Local Agency Formation Commission Litigation

The water system assets of Cal Am located in Monterey, California (the "Monterey system assets") are the subject of a condemnation action by the MPWMD stemming from a November 2018 public ballot initiative. In 2019, the MPWMD issued a preliminary valuation and cost of service analysis report, finding in part that (i) an estimate of the Monterey system assets' total value plus adjustments would be approximately $513 million, (ii) the cost of service modeling results indicate significant annual reductions in revenue requirements and projected monthly water bills, and (iii) the acquisition of the Monterey system assets by the MPWMD would be economically feasible. In 2020, the MPWMD certified a final environmental impact report, analyzing the environmental impacts of the MPWMD's project to (i) acquire the Monterey system assets through the power of eminent domain, if necessary, and (ii) expand its geographic boundaries to include all parts of this system.

In February 2021, the MPWMD filed an application with the Local Agency Formation Commission of Monterey County ("LAFCO") seeking approval to become a retail water provider and annex approximately 58 parcels of land into the MPWMD's boundaries. In June 2021, LAFCO's commissioners voted to require a third-party independent financial study as to the feasibility of an acquisition by the MPWMD of the Monterey system assets. In December 2021, LAFCO's commissioners denied the MPWMD's application to become a retail water provider, determining that the MPWMD does not have the authority to proceed with a condemnation of the Monterey system assets. In April 2022, the MPWMD filed a lawsuit against LAFCO challenging its decision to deny the MPWMD's application seeking approval to become a retail water provider. In June 2022, the court granted, with conditions, a motion by Cal Am to intervene in the MPWMD's lawsuit against LAFCO. In December 2022, the court sustained in part, and denied in part, demurrers that had been filed by LAFCO seeking to dismiss the MPWMD's lawsuit.

In December 2023, the Monterey County Superior Court issued a writ of mandate directing LAFCO to vacate and set aside its original denial of the MPWMD's application to serve as a retail water provider (in conjunction with its effort to acquire the Monterey system assets) and, if requested, to re-hear the application in compliance with all applicable law. The court held that LAFCO incorrectly applied two statutory standards and noted a lack of sufficient evidence to support certain of LAFCO's factual findings. As a result, the LAFCO denial has been nullified and LAFCO will be required to hold another hearing on the MPWMD's application upon request. On February 8, 2024, and February 9, 2024, respectively, Cal Am and LAFCO each filed a notice of appeal with the California Court of Appeal regarding the Monterey County Superior Court's decision to issue the writ of mandate. The MPWMD filed a notice of cross-appeal on February 15, 2024. Cal Am is evaluating potential additional actions to seek to uphold LAFCO's denial of the MPWMD's application, including filing other challenges and/or making suitable presentations at a subsequent LAFCO rehearing.

MPWMD Condemnation Action

Separate from the proceedings related to the MPWMD's application with LAFCO, by letter dated October 3, 2022, the MPWMD notified Cal Am of a decision to appraise the Monterey system assets and requested access to a number of Cal Am's properties and documents to assist the MPWMD with such an appraisal. Cal Am responded by letter on October 24, 2022, denying the request for access, stating that the MPWMD does not have the right to appraise Cal Am's system without LAFCO approval to become a retail water provider. In April 2023, Cal Am rejected an offer by the MPWMD to purchase the Monterey system assets for $448.8 million. Over the written and oral objections of Cal Am, at a hearing held in October 2023, the MPWMD adopted a resolution of necessity to authorize it to file an eminent domain lawsuit with respect to the Monterey system assets.

In December 2023, the MPWMD filed a lawsuit against Cal Am in Monterey County Superior Court seeking to condemn the Monterey system assets. On February 26, 2024, Cal Am filed a motion requesting the Monterey County Superior Court dismiss the MPWMD's lawsuit. Cal Am's motion asserted that the MPWMD lacks legal authorization from both the California legislature and LAFCO to become a retail water provider and the lawsuit improperly seeks to effect a taking of property outside the boundaries of the MPWMD's territory. Hearings on the motion were held on May 3, 2024, and August 23, 2024. On November 14, 2024, the court issued a final ruling denying Cal Am's motion to dismiss. Cal Am filed its answer to the complaint on December 13, 2024. This matter remains pending.

While the Company cannot currently predict the outcome of the MPWMD's eminent domain lawsuit, the Company believes that, given existing legal authorities and its other defenses, Cal Am should be able to defend itself successfully against this lawsuit.

PFAS Multi-District Litigation

Several of the Company's utility subsidiaries are parties to a multi-district litigation (the "MDL") lawsuit, which commenced on December 7, 2018, in the U.S. District Court for the District of South Carolina, against manufacturers of certain per- and polyfluoroalkyl substances (collectively, "PFAS") for damages, contribution and reimbursement of costs incurred and continuing to be incurred to address the presence of such PFAS in public water supply systems owned and operated by these utility subsidiaries and throughout their service areas. Settlements with several defendants in the MDL have received final approval by the MDL court. During the third quarter of 2024 and the first quarter of 2025, the Company timely submitted to the MDL court its Phase One claim forms under settlement agreements with defendants 3M Company, The Chemours Company, Corteva, Inc., DuPont de Nemours, Inc., Tyco Fire Products LP and BASF Corporation.

As of June 30, 2025, the Company received an initial settlement payment from defendant 3M Company of $34 million, net of legal fees and administrative costs. As of June 30, 2025, these funds were held in a law firm escrow account and are awaiting distribution to the Company's utility subsidiaries that are parties to the MDL. The funds have been recorded on the Company's Consolidated Balance Sheet within other current assets, as of June 30, 2025. A corresponding amount was recorded as a regulatory liability as the Company intends to seek regulatory approval from its respective public utility commissions to apply the net proceeds for the benefit of customers. The Company anticipates receiving, during the remainder of 2025, additional settlement payments from the defendants named above.

Note 12: Earnings per Common Share

Presented in the table below is a reconciliation of the numerator and denominator for the basic and diluted earnings per share ("EPS") calculations:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2025	2024	2025	2024
Numerator:				
Net income attributable to common shareholders	$ 289	$ 277	$ 494	$ 462
Denominator:				
Weighted-average common shares outstanding—Basic	195	195	195	195
Effect of dilutive common stock equivalents	—	—	—	—
Weighted-average common shares outstanding—Diluted	195	195	195	195

The effect of dilutive common stock equivalents is related to outstanding restricted stock units ("RSUs") and performance stock units ("PSUs") granted under the Company's 2007 Omnibus Equity Compensation Plan and outstanding RSUs and PSUs granted under the Company's 2017 Omnibus Equity Compensation Plan, as well as estimated shares to be purchased under the Company's 2017 Nonqualified Employee Stock Purchase Plan. Less than one million share-based awards were excluded from the computation of diluted EPS for the three and six months ended June 30, 2025 and 2024, because their effect would have been anti-dilutive under the treasury stock method.

The if-converted method is applied to the Notes issued in June 2023 for computing diluted EPS. For both periods presented, there was no dilution resulting from the Notes. See Note 7—Long-Term Debt for additional information relating to the Notes.

Note 13: Fair Value of Financial Information

Fair Value of Financial Instruments

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Current assets and current liabilities—The carrying amounts reported on the Consolidated Balance Sheets for current assets and current liabilities, including revolving credit debt, due to the short-term maturities and variable interest rates, approximate their fair values.

Secured seller promissory note from the sale of the Homeowner Services Group—The carrying amount reported on the Consolidated Balance Sheets for the secured seller promissory note, included as part of the consideration from the sale of HOS, is $795 million as of June 30, 2025, and December 31, 2024. This amount represents the principal amount owed under the secured seller promissory note, for which the Company expects to receive full payment. The accounting fair value measurement of the secured seller promissory note approximated $797 million and $793 million as of June 30, 2025, and December 31, 2024, respectively. The accounting fair value measurement is an estimate that is reflective of changes in benchmark interest rates. The secured seller promissory note is classified as Level 3 within the fair value hierarchy.

Preferred stock with mandatory redemption requirements and long-term debt—The fair values of preferred stock with mandatory redemption requirements and long-term debt are categorized within the fair value hierarchy based on the inputs that are used to value each instrument. The fair value of long-term debt classified as Level 1 is calculated using quoted prices in active markets. Level 2 instruments are valued using observable inputs and Level 3 instruments are valued using observable and unobservable inputs.

Presented in the tables below are the carrying amounts, including fair value adjustments previously recognized in acquisition purchase accounting, and the fair values of the Company's financial instruments:

	As of June 30, 2025				
		At Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Preferred stock with mandatory redemption requirements	$ 3	$ —	$ —	$ 3	$ 3
Long-term debt	13,397	10,686	1,057	609	12,352

	As of December 31, 2024				
		At Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Preferred stock with mandatory redemption requirements	$ 3	$ —	$ —	$ 3	$ 3
Long-term debt	13,155	10,165	1,050	658	11,873

Recurring Fair Value Measurements

Presented in the tables below are assets and liabilities measured and recorded at fair value on a recurring basis and their level within the fair value hierarchy:

	As of June 30, 2025			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	$ 41	$ —	$ —	$ 41
Rabbi trust investments	28	—	—	28
Deposits	52	—	—	52
Other investments:				
Money market and other	25	—	—	25
Fixed-income securities	65	6	—	71
Mark-to-market derivative asset	—	4	—	4
Total assets	211	10	—	221
Liabilities:				
Deferred compensation obligations	34	—	—	34
Mark-to-market derivative liability	—	1	—	1
Total liabilities	34	1	—	35
Total assets	$ 177	$ 9	$ —	$ 186

	As of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	$ 44	$ —	$ —	$ 44
Rabbi trust investments	29	—	—	29
Deposits	6	—	—	6
Other investments:				
Money market and other	21	—	—	21
Fixed-income securities	88	6	—	94
Mark-to-market derivative asset	—	24	—	24
Total assets	188	30	—	218
Liabilities:				
Deferred compensation obligations	34	—	—	34
Total liabilities	34	—	—	34
Total assets	$ 154	$ 30	$ —	$ 184

Restricted funds—The Company's restricted funds primarily represent proceeds received from financings for the construction and capital improvement of facilities and from customers for future services under operation, maintenance and repair projects. Long-term restricted funds of $24 million and $15 million were included in other long-term assets on the Consolidated Balance Sheets as of June 30, 2025, and December 31, 2024, respectively.

Rabbi trust investments—The Company's rabbi trust investments consist of equity and index funds from which supplemental executive retirement plan benefits and deferred compensation obligations can be paid. The Company includes these assets in other long-term assets on the Consolidated Balance Sheets.

Deposits—Deposits include escrow funds, including the initial settlement payment from the MDL, and certain other deposits held in trust. The Company includes cash deposits in other current assets on the Consolidated Balance Sheets.

Deferred compensation obligations—The Company's deferred compensation plans allow participants to defer certain cash compensation into notional investment accounts. The Company includes such plans in other long-term liabilities on the Consolidated Balance Sheets. The value of the Company's deferred compensation obligations is based on the market value of the participants' notional investment accounts. The notional investments are comprised primarily of mutual funds, which are based on quoted prices for identical assets in active markets.

Mark-to-market derivative assets and liabilities—The Company employs derivative financial instruments in the form of treasury lock agreements, classified as cash flow hedges, in order to fix the interest cost on existing or forecasted debt. The Company uses a calculation of future cash inflows and estimated future outflows, which are discounted, to determine the current fair value. Additional inputs to the present value calculation include the contract terms, counterparty credit risk, interest rates and market volatility. The Company includes mark-to-market derivative assets in other current assets and mark-to-market derivative liabilities in other current liabilities on the Consolidated Balance Sheets.

Other investments—The Company maintains a Voluntary Employees' Beneficiary Association trust for purposes of paying active union employee medical benefits ("Active VEBA"). The investments in the Active VEBA trust primarily consist of money market funds and available-for-sale fixed-income securities.

The money market and other investments have original maturities of three months or less when purchased. The fair value measurement of the money market and other investments is based on quoted prices for identical assets in active markets and therefore included in the recurring fair value measurements hierarchy as Level 1.

The available-for-sale fixed-income securities are primarily investments in U.S. Treasury securities and government bonds. The majority of U.S. Treasury securities and government bonds have been categorized as Level 1 because they trade in highly-liquid and transparent markets. Certain U.S. Treasury securities are based on prices that reflect observable market information, such as actual trade information of similar securities, and are therefore categorized as Level 2, because the valuations are calculated using models which utilize actively traded market data that the Company can corroborate.

The Company includes other investments measured and recorded at fair value on the Consolidated Balance Sheets of $81 million and $71 million in other current assets, as of June 30, 2025, and December 31, 2024, respectively, and $15 million and $44 million in other long-term assets, as of June 30, 2025, and December 31, 2024, respectively. Unrealized holding gains and losses on available-for-sale securities are excluded from earnings and reported in other comprehensive income until realized.

The following tables summarize the unrealized positions for available-for-sale fixed-income securities:

	As of June 30, 2025			
	Amortized Cost Basis	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale fixed-income securities	$ 72	$ —	$ 1	$ 71

	As of December 31, 2024			
	Amortized Cost Basis	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale fixed-income securities	$ 94	$ 2	$ 2	$ 94

The fair value of the Company's available-for-sale fixed-income securities, summarized by contractual maturities, as of June 30, 2025, is as follows:

	Amount
Other investments - Available-for-sale fixed-income securities	
Less than one year	$ 34
1 year - 5 years	25
5 years - 10 years	5
Greater than 10 years	7
Total	$ 71

Note 14: Leases

The Company has operating and finance leases involving real property, including facilities, utility assets, vehicles, and equipment. Certain operating leases have renewal options ranging from one year to 60 years. The exercise of lease renewal options is at the Company's sole discretion. Renewal options that the Company was reasonably certain to exercise are included in the Company's right-of-use ("ROU") assets. Certain operating leases contain the option to purchase the leased property. The operating leases for real property, vehicles and equipment will expire over the next 40 years, five years, and five years, respectively.

The Company participates in a number of arrangements with various public entities ("Partners") in West Virginia. Under these arrangements, the Company transferred a portion of its utility plant to the Partners in exchange for an equal principal amount of Industrial Development Bonds ("IDBs") issued by the Partners under the Industrial Development and Commercial Development Bond Act. The Company leased back the utility plant under agreements for a period of 30 to 40 years. The Company has recorded these agreements as finance leases in property, plant and equipment, as ownership of the assets will revert back to the Company at the end of the lease term. The carrying value of the finance lease assets was $143 million as of June 30, 2025, and December 31, 2024, respectively. The Company determined that the finance lease obligations and the investments in IDBs meet the conditions for offsetting, and as such, are reported net on the Consolidated Balance Sheets and are excluded from the lease disclosure presented below.

The Company also enters into O&M agreements with the Partners. The Company pays an annual fee for use of the Partners' assets in performing under the O&M agreements. The O&M agreements are recorded as operating leases, and future annual use fees of $2 million in 2025, $4 million each year in 2026 through 2029, and $37 million thereafter, are included in operating lease ROU assets and operating lease liabilities on the Consolidated Balance Sheets.

Rental expenses under operating leases were $3 million for each of the three months ended June 30, 2025 and 2024, and $6 million for each of the six months ended June 30, 2025 and 2024.

For the three and six months ended June 30, 2025, cash paid for amounts in lease liabilities, which includes operating cash flows from operating leases, was $3 million and $6 million, respectively. For the six months ended June 30, 2025, there were ROU assets obtained in exchange for new operating lease liabilities of $7 million.

As of June 30, 2025, the weighted-average remaining lease term of the operating leases was 18 years, and the weighted-average discount rate of the operating leases was 5%.

The future maturities of lease liabilities as of June 30, 2025, were $6 million in 2025, $11 million in 2026, $11 million in 2027, $9 million in 2028, $7 million in 2029, and $89 million thereafter. As of June 30, 2025, imputed interest was $48 million.

Note 15: Segment Information

The Company's operating segments are comprised of its businesses which generate revenue, incur expense and have separate financial information which is regularly used by the chief operating decision maker to make operating decisions, assess performance and allocate resources. The Company operates its businesses primarily through one reportable segment, the Regulated Businesses segment. The Regulated Businesses segment also includes inter-segment revenues, costs and interest which are eliminated to reconcile to the Consolidated Statements of Operations.

The Company also operates other businesses, primarily MSG, that do not meet the criteria of a reportable segment in accordance with GAAP and are collectively presented throughout this Form 10-Q within "Other," which is consistent with how management assesses the results of these businesses. Other also includes corporate costs that are not allocated to the Company's Regulated Businesses, interest income related to the secured seller promissory note from the sale of HOS, income from assets not associated with the Regulated Businesses, eliminations of inter-segment transactions and fair value adjustments related to acquisitions that have not been allocated to the Regulated Businesses segment. The adjustments related to the acquisitions are reported in Other as they are excluded from segment performance measures evaluated by management.

The Company's chief operating decision maker is the President and Chief Executive Officer. The chief operating decision maker uses segment net income or loss to evaluate profit generated from segment assets when making decisions about allocating resources. The chief operating decision maker also uses segment net income to monitor budget versus actual results to assess the performance of the segment.

Presented in the tables below is summarized segment information:

	As of or for the Three Months Ended June 30, 2025		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 1,178	$ 98	$ 1,276
Less:			
Operation and maintenance (a)	406	74	480
Other segment items (b)	68	2	70
Depreciation and amortization	217	4	221
Interest expense	116	35	151
Interest income	(1)	(21)	(22)
Provision for income taxes	84	3	87
Net income attributable to common shareholders	$ 288	$ 1	$ 289
Total assets	$ 31,005	$ 2,908	$ 33,913
Cash paid for capital expenditures	$ 733	$ —	$ 733

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Other operating expenses, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

	As of or for the Three Months Ended June 30, 2024		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 1,057	$ 92	$ 1,149
Less:			
Operation and maintenance (a)	356	71	427
Other segment items (b)	63	(1)	62
Depreciation and amortization	189	4	193
Interest expense	102	29	131
Interest income	(5)	(20)	(25)
Provision for income taxes	78	6	84
Net income attributable to common shareholders	$ 274	$ 3	$ 277
Total assets	$ 28,843	$ 2,372	$ 31,215
Cash paid for capital expenditures	$ 668	$ 2	$ 670

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Other operating expenses, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

	As of or for the Six Months Ended June 30, 2025		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 2,227	$ 191	$ 2,418
Less:			
Operation and maintenance (a)	801	147	948
Other segment items (b)	135	1	136
Depreciation and amortization	430	7	437
Interest expense	230	65	295
Interest income	(2)	(42)	(44)
Provision for income taxes	144	8	152
Net income attributable to common shareholders	$ 489	$ 5	$ 494
Total assets	$ 31,005	$ 2,908	$ 33,913
Cash paid for capital expenditures	$ 1,278	$ 3	$ 1,281

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Other operating expenses, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

	As of or for the Six Months Ended June 30, 2024		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 1,985	$ 175	$ 2,160
Less:			
Operation and maintenance (a)	707	136	843
Other segment items (b)	124	3	127
Depreciation and amortization	373	8	381
Interest expense	199	56	255
Interest income	(8)	(41)	(49)
Provision for income taxes	131	10	141
Net income attributable to common shareholders	$ 459	$ 3	$ 462
Total assets	$ 28,843	$ 2,372	$ 31,215
Cash paid for capital expenditures	$ 1,271	$ 8	$ 1,279

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Other operating expenses, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read together with the unaudited Consolidated Financial Statements and the Notes thereto included elsewhere in this Form 10-Q, and in the Company's Form 10-K for the year ended December 31, 2024. This discussion contains forward-looking statements that are based on management's current expectations, estimates and projections about the Company's business, operations and financial performance. The cautionary statements made in this Form 10-Q should be read as applying to all related forward-looking statements whenever they appear in this Form 10-Q. The Company's actual results may differ materially from those currently anticipated and expressed in such forward-looking statements as a result of a number of factors, including those that are discussed under "Forward-Looking Statements" and elsewhere in this Form 10-Q. The Company has a disclosure committee consisting of members of senior management and other key employees involved in the preparation of the Company's SEC reports. The disclosure committee is actively involved in the review and discussion of the Company's SEC filings.

Overview

American Water is the largest and most geographically diverse, publicly traded water and wastewater utility company in the United States, as measured by both operating revenues and population served. The Company's primary business involves the ownership of utilities that provide water and wastewater services to residential, commercial, industrial, public authority, fire service and sale for resale customers, collectively presented as the "Regulated Businesses." Services provided by the Company's utilities are subject to regulation by multiple state utility commissions or other entities engaged in utility regulation, collectively referred to as public utility commissions ("PUCs"). The Company also operates other businesses not subject to economic regulation by state PUCs that provide water and wastewater services to the U.S. government on military installations, as well as municipalities, collectively presented throughout this Form 10-Q within "Other." See Part I, Item 1—Business in the Company's Form 10-K for additional information.

Financial Results

For the three and six months ended June 30, 2025, diluted earnings per share, prepared in accordance with accounting principles generally accepted in the United States ("GAAP"), were $1.48 and $2.53, respectively, compared to $1.42 and $2.37 per share in the same periods in 2024. The increase was primarily driven by the implementation of new rates in the Regulated Businesses from the recovery of capital and acquisition investments. Results also reflect increased operating costs and higher depreciation and financing costs to support the current capital investment plan. Results for the three and six months ended June 30, 2025 compared to the same periods in 2024, reflect an estimated net unfavorable impact of weather of $0.06 per share, including an estimated $0.03 per share of unfavorable impact due to wet weather in the second quarter of 2025, across many states, and an estimated $0.03 per share of favorable impact due to warm, dry weather in the second quarter of 2024, primarily in New Jersey.

Growth Through Capital Investment in Infrastructure and Regulated Acquisitions

The Company continues to grow its businesses, with the substantial majority of its growth to be achieved in the Regulated Businesses through (i) continued capital investment in the Company's infrastructure to provide safe, clean, reliable and affordable water and wastewater services to its customers, (ii) regulated acquisitions to expand the Company's services to new customers and (iii) organic growth in existing systems. The Company plans to invest approximately $3.3 billion in these growth strategies in 2025. During the first six months of 2025, the Company invested $1.3 billion, in the Regulated Businesses, as discussed below.

- $1.3 billion capital investment in the Regulated Businesses for infrastructure improvements and replacements; and
- $21 million to fund acquisitions in the Regulated Businesses, which added approximately 7,600 customers. This includes the Company's acquisition effective May 28, 2025, of all the outstanding capital stock of Audubon Water Company ("Audubon"), for total consideration of $7 million in the form of shares of parent company common stock.
- Approximately 9,000 new customers were added through organic growth in existing systems.

Execution of Purchase and Sale Agreement with Nexus Regulated Utilities, LLC

On May 19, 2025, the Company entered into a Purchase and Sale Agreement (the "Purchase Agreement") with Nexus Regulated Utilities, LLC ("Seller"), a subsidiary of Nexus Water Group, Inc., a privately-held water and wastewater utility. Seller directly owns all of the issued and outstanding equity interests in specified entities (collectively, the "Acquired Entities") that own regulated water and wastewater system assets located in Illinois, Indiana, Kentucky, Maryland, New Jersey, Pennsylvania, Tennessee and Virginia.

Under the terms of the Purchase Agreement, the Company has agreed to acquire from Seller all of Seller's equity interests in each of the Acquired Entities on a cash-free and debt-free basis. The aggregate purchase price to be paid by the Company will be approximately $315 million in cash, subject to adjustment at closing based on the calculations and criteria provided in the Purchase Agreement. Aggregate rate base that would be acquired at closing is estimated to be approximately $200 million, subject to final determination by the respective public utility commissions. Based on current connection counts, the Company would add nearly 47,000 customer connections in total to its Regulated Businesses in the eight states above. The Company intends to fund the payment of the final purchase price through its cash flow from operations and its existing sources of liquidity. Closing is subject to certain customary and other conditions, including, among others, the receipt of required regulatory approvals by PUCs, the absence of certain legal restraints prohibiting or making illegal the consummation of the transactions contemplated by the Purchase Agreement, and the expiration or termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976. The Purchase Agreement also provides that Seller's and the Company's obligations to complete the closing are subject to the absence of any required regulatory approval that has become final and imposes terms or conditions on a party that would reasonably be expected to, in the case of Seller, be adverse to Seller or its affiliates (other than the Acquired Entities) after giving effect to these transactions and, in the case of the Company, result in a material adverse effect on the business, assets, liabilities, properties, financial condition or results of operations of the Company and its Regulated Businesses within the eight applicable states, taken together as a whole, without giving effect to these transactions (a "Burdensome Effect"). The Company currently anticipates that the closing will occur by or before August 2026.

The Purchase Agreement may be terminated by the Company or the Seller under certain circumstances, including if the closing has not occurred on or before August 19, 2026, subject to up to two three-month extensions in order to obtain required regulatory approvals, by the Company if any final required regulatory approval imposes terms or conditions that would have a Burdensome Effect, and by either party if any legal restraint permanently prohibiting the closing becomes final and non-appealable or in the event of certain breaches or failures to perform obligations under the Purchase Agreement by the other party. If the Purchase Agreement is terminated, such termination will be without liability of a party to the other party to the Purchase Agreement, except in the case of termination due to fraud or willful breach of the Purchase Agreement by a party thereto, and the Company will be required to pay to Seller a cash termination fee of approximately $16 million in the event of a termination of the Purchase Agreement under conditions set forth therein for (i) failure to obtain a required regulatory approval, (ii) the existence of an applicable legal restraint prohibiting the consummation of the closing or (iii) the existence of a final required regulatory approval that imposes terms or conditions that would have a Burdensome Effect.

Including the Purchase Agreement, as of June 30, 2025, the Company had entered into 17 agreements with a total aggregate purchase price of $499 million for pending acquisitions in the Regulated Businesses to add approximately 84,000 additional customers.

Other Matters

Cybersecurity Incident Update

Prior to filing a consolidated complaint, the plaintiffs in the putative consolidated class action lawsuit against parent company related to the Company's October 2024 cybersecurity incident agreed to voluntarily dismiss their consolidated Federal court lawsuit without prejudice. An order of voluntary dismissal was entered on March 24, 2025, which concludes this lawsuit against parent company.

PFAS Multi-District Litigation

Several of the Company's utility subsidiaries are parties to a multi-district litigation (the "MDL") lawsuit, which commenced on December 7, 2018, in the U.S. District Court for the District of South Carolina, against manufacturers of certain PFAS for damages, contribution and reimbursement of costs incurred and continuing to be incurred to address the presence of such PFAS in public water supply systems owned and operated by these utility subsidiaries and throughout their service areas. Settlements with several defendants in the MDL have received final approval by the MDL court. During the third quarter of 2024 and the first quarter of 2025, the Company timely submitted to the MDL court its Phase One claim forms under settlement agreements with defendants 3M Company, The Chemours Company, Corteva, Inc., DuPont de Nemours, Inc., Tyco Fire Products LP and BASF Corporation.

As of June 30, 2025, the Company received an initial settlement payment from defendant 3M Company of $34 million, net of legal fees and administrative costs. As of June 30, 2025, these funds were held in a law firm escrow account and are awaiting distribution to the Company's utility subsidiaries that are parties to the MDL. The funds have been recorded on the Company's Consolidated Balance Sheet within other current assets, as of June 30, 2025. A corresponding amount was recorded as a regulatory liability as the Company intends to seek regulatory approval from its respective PUCs to apply the net proceeds for the benefit of customers. The Company anticipates receiving, during the remainder of 2025, additional settlement payments from the defendants named above.

Regulatory Matters

General Rate Cases

The table below summarizes the annualized incremental revenues, assuming a constant sales volume and customer count, resulting from general rate case authorizations that are effective during 2025. The amounts include reductions for the amortization of the excess accumulated deferred income taxes ("EADIT") that are generally offset in income tax expense.

(In millions)	Effective Date	Amount
General rate cases by state:		
Hawaii	August 2025 (a)	$ 1
Iowa	August 1, 2025 (b)	13
Missouri	May 28, 2025	63
Indiana, Step Increase	May 14, 2025	17
Virginia	February 24, 2025 (c)	15
Tennessee	January 21, 2025	1
Illinois	January 1, 2025	105
California, Step Increase	January 1, 2025	17
Total general rate case authorizations		$ 232

(a) New rates are expected to be effective in early August 2025, upon filing the revised tariff sheets and rate schedules.

(b) Interim rates of $5 million were effective May 11, 2024. The Iowa Utilities Commission issued its final order on May 21, 2025.

(c) Interim rates were effective May 1, 2024, and the difference between interim and final approved rates were subject to refund. The Virginia State Corporation Commission issued its final order on February 24, 2025.

On July 24, 2025, the Hawaii Public Utilities Commission issued a final order adopting the settlement agreement filed by the Company's Hawaii subsidiary on April 25, 2025, with respect to its general rate case filed on August 2, 2024. The final order approves an annualized increase of approximately $1 million in wastewater revenue, which is based on a return on equity of 9.75% and a capital structure with an equity component of 52.11% and a debt component of 47.89%. New rates are expected to be effective in early August 2025, upon filing the revised tariff sheets and rate schedules.

On May 21, 2025, the Iowa Utilities Commission issued a final order approving the adjustment of base rates requested in a general rate case originally filed on May 1, 2024, by the Company's Iowa subsidiary. The general rate case order approved a $13 million annualized increase in water and wastewater system revenues, excluding infrastructure surcharges of $1 million, based on an authorized return on equity of 9.60%, authorized rate base of $262 million, and a capital structure with a common equity component of 52.57% and a long-term debt component of 47.43%. The requested annualized revenue increase was driven primarily by over $157 million of capital investments made and expected to be made by the Iowa subsidiary through March 2026. Interim rates of $5 million were effective May 11, 2024, with the remaining increase in annualized water and wastewater system revenues of $8 million effective on August 1, 2025.

On May 14, 2025, the Company's Indiana subsidiary's third step increase of $17 million in annualized water and wastewater system revenues became effective. The Indiana subsidiary filed the general rate case on March 31, 2023, and on February 14, 2024, the Indiana Utility Regulatory Commission (the "IURC") issued an order that approved a $65 million annualized increase in water and wastewater system revenues, excluding previously recovered infrastructure surcharges. The annualized revenue increase included three step increases, with $25 million of the increase included in rates in February 2024, $23 million in May 2024, and $17 million in May 2025.

On May 7, 2025, the Missouri Public Service Commission (the "MoPSC") issued an order approving without modification the stipulation and agreement (the "Stipulation") with respect to a general rate case filed on July 1, 2024, by the Company's Missouri subsidiary. The Stipulation was entered into on March 17, 2025, with parties including the staff of the MoPSC and the Office of the Public Counsel. The general rate case order approves a $63 million annualized increase in water and wastewater revenues, excluding $63 million in infrastructure surcharges. The requested annualized revenue increase was driven primarily by $1.1 billion of capital investments completed by the Missouri subsidiary from January 2023 through May 2025. For purposes of the general rate case, the Missouri subsidiary's view of its rate base is $3.2 billion, and its view as to its return on equity and common equity ratio (each of which has been determined based on the order but was not disclosed therein) is 9.75% and 50.00%, respectively.

On February 24, 2025, the Virginia State Corporation Commission (the "VSCC") issued an order approving the September 19, 2024 joint "black box" settlement of the general rate case filed by the Company's Virginia subsidiary. The general rate case order approves the stipulated $15 million annualized increase in water and wastewater revenues. Interim water and wastewater rates became effective May 1, 2024, with the difference between interim and final approved rates subject to refund. The requested annualized revenue increase was driven primarily by more than $110 million of incremental capital investments made between May 2023 and April 2025. For purposes of the general rate case, the Virginia subsidiary's view of its rate base is $369 million. The general rate case order also approved, solely for purposes of the Virginia subsidiary's future filings requiring a stated cost of capital and/or capital structure (including its annual information and water and wastewater infrastructure surcharge filings), a return on equity of 9.70% and a capital structure consisting of an equity component of 45.67% and a debt and other component of 54.33%, which also represents the Virginia subsidiary's view of its return on equity and capital structure in this general rate case.

On January 21, 2025, the Tennessee Public Utility Commission (the "TPUC") approved a motion authorizing an adjustment of water base rates requested in a rate case filed on May 1, 2024 by the Company's Tennessee subsidiary. The TPUC approved an increase of $1 million in annualized revenues, excluding previously recovered infrastructure surcharges of $18 million, based on an authorized return on equity of 9.70%, authorized rate base of approximately $300 million, a common equity ratio of 44.19% and a debt ratio of 55.81%. This adjustment took effect on January 21, 2025, and is driven primarily by approximately $173 million in capital investments completed and planned by the Tennessee subsidiary through December 2025.

On January 14, 2025, the California Public Utilities Commission (the "CPUC") granted the Company's California subsidiary's request for a one-year extension of its cost of capital filing to May 1, 2026, to set its authorized cost of capital beginning January 1, 2027, and maintain its current authorized cost of capital through 2026.

On December 5, 2024, the Illinois Commerce Commission issued a final order approving the adjustment of base rates requested in a rate case originally filed on January 25, 2024, by the Company's Illinois subsidiary. The general rate case order approved an increase of $105 million in annualized water and wastewater system revenues, excluding previously recovered infrastructure surcharges of $5 million, based on an authorized return on equity of 9.84%, authorized rate base of $2.2 billion, and a capital structure with an equity component of 49.00% and a debt component of 51.00%. The increase was effective January 1, 2025, and is driven primarily by approximately $557 million in capital investments completed and planned by the Illinois subsidiary from January 2024 through December 2025.

On December 5, 2024, the CPUC approved a final decision adopting the terms of a partial settlement agreement filed on November 17, 2023, in the Company's California subsidiary's general rate case originally filed on July 1, 2022. Incorporating the then currently effective return on equity of 10.20%, the decision provides incremental annualized water and wastewater revenues of $21 million in the 2024 test year, and an estimated $16 million in the 2025 escalation year and $16 million in the 2026 attrition year. The 2024 rates were implemented retroactively to January 1, 2024. In addition, the CPUC denied the California subsidiary's proposed Water Resources Sustainability Plan decoupling mechanism but approved continuation of its currently effective Annual Consumption Adjustment Mechanism. On December 12, 2024, the California subsidiary filed an application for rehearing of the CPUC's denial of the proposed Water Resources Sustainability Plan decoupling mechanism, and on May 23, 2025, the CPUC issued its decision denying the application for rehearing.

Pending General Rate Case Filings

On July 1, 2025, the Company's California subsidiary filed an application with the CPUC to set new water and wastewater rates in each of its service areas for 2027 through 2029. The application is seeking an increase of $63 million compared to authorized 2025 revenue, and a total increase in revenue over the 2027 to 2029 period of $111 million. The requested annualized incremental revenue is driven primarily by approximately $750 million of capital investments completed and planned by the California subsidiary through 2025 to 2028. If approved by the CPUC, the new rates would take effect on January 1, 2027. The application also requests approval of a Fixed Cost Recovery Account, which is intended to be a full decoupling mechanism that would allow the Company's California subsidiary to recover authorized fixed costs, regardless of sales volume, while also providing incentives, via progressive conservation-oriented rate design, for customers to use water more efficiently. Independent of the pending rate case, California Senate Bill 473, which requires the CPUC to ensure variances between forecasted and actual sales do not result in material overcollections or undercollections by water corporations, has passed out of the California Senate and is currently awaiting action in the California Assembly Appropriations Committee.

On May 16, 2025, the Company's Kentucky subsidiary filed a general rate case requesting approximately $27 million in annualized incremental revenues, excluding infrastructure surcharges of $10 million, which is based on a proposed return on equity of 10.75% and a proposed capital structure with a common equity component of 52.26% and a debt component of 47.74%. The requested annualized incremental revenue is being driven primarily by approximately $212 million of capital investments completed and planned by the Kentucky subsidiary from February 2025 through December 2026. As provided by statutory authority, the Kentucky subsidiary anticipates that it will put into effect proposed rates on an interim basis seven months after the filing of this case, or December 16, 2025, and the difference between the interim and final approved rates will be subject to refund. The request is subject to approval by the Kentucky Public Service Commission, and the general rate case is expected to be completed by the end of the first quarter of 2026.

On May 5, 2025, the Company's West Virginia subsidiary filed a general rate case requesting approximately $48 million in aggregate annualized incremental revenues, excluding infrastructure surcharges of $13 million, which would include two step increases, with $33 million to be included in rates in March 2026, and $15 million to be included in rates in March 2027. The request is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 50.80% and 50.97%, respectively, for each of the two steps. The requested annualized incremental revenue is driven primarily by more than $300 million of capital investments completed and planned by the West Virginia subsidiary from March 2024 through February 2027. The request is subject to approval by the Public Service Commission of West Virginia, and the general rate case is expected to be completed by the end of February 2026.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective during 2025:

(In millions)	Effective Date	Amount
Infrastructure surcharges by state:		
New Jersey	May 30, 2025	$ 15
Missouri	February 7, 2025	17
Kentucky	January 1, 2025	2
West Virginia	January 1, 2025	4
Total infrastructure surcharge authorizations		$ 38

Pending Infrastructure Surcharge Filings

On June 30, 2025, the Company's West Virginia subsidiary filed an infrastructure surcharge proceeding requesting $3 million in additional annualized revenues.

Other Regulatory Matters

The Pennsylvania Public Utility Commission (the "PaPUC"), as part of its July 22, 2024, approval of the general rate case filed by the Company's Pennsylvania subsidiary on November 8, 2023, initiated an investigation into certain reported water service and water quality issues in the Pennsylvania subsidiary's Northeastern service territory, which reports had been provided during public input hearings convened in the general rate case. The PaPUC is expected to conclude the investigation in the third quarter of 2025.

Consolidated Results of Operations

Presented in the table below are the Company's consolidated results of operations:

(In millions)	For the Three Months Ended June 30, 2025	2024	For the Six Months Ended June 30, 2025	2024
Operating revenues	$ 1,276	$ 1,149	$ 2,418	$ 2,160
Operating expenses:				
Operation and maintenance	480	427	948	843
Depreciation and amortization	221	193	437	381
General taxes	86	81	173	162
Other	—	(1)	—	(1)
Total operating expenses, net	787	700	1,558	1,385
Operating income	489	449	860	775
Other (expense) income:

Interest income	22	25	44	49
Non-operating benefit costs, net	4	7	8	16
Other, net	12	11	29	18
Total other (expense) income	(113)	(88)	(214)	(172)
Income before income taxes	376	361	646	603
Provision for income taxes	87	84	152	141
Net income attributable to common shareholders	$ 289	$ 277	$ 494	$ 462

Segment Results of Operations

The Company's operating segments are comprised of its businesses which generate revenue, incur expense and have separate financial information which is regularly used by the chief operating decision maker to make operating decisions, assess performance and allocate resources. The Company operates its business primarily through one reportable segment, the Regulated Businesses segment. Other, primarily includes MSG, which does not meet the criteria of a reportable segment in accordance with GAAP. Other also includes corporate costs that are not allocated to the Company's Regulated Businesses, interest income related to the secured seller promissory note from the sale of HOS, income from assets not associated with the Regulated Businesses, eliminations of inter-segment transactions and fair value adjustments related to acquisitions that have not been allocated to the Regulated Businesses segment. This presentation is consistent with how management assesses the results of these businesses.

Regulated Businesses Segment

Presented in the table below is financial information for the Regulated Businesses:

(In millions)	For the Three Months Ended June 30, 2025	2024	For the Six Months Ended June 30, 2025	2024
Operating revenues	$ 1,178	$ 1,057	$ 2,227	$ 1,985
Operation and maintenance	406	356	801	707
Depreciation and amortization	217	189	430	373
General taxes	81	77	162	153
Other	—	(1)	—	(1)
Other (expense) income	(102)	(84)	(201)	(163)
Provision for income taxes	84	78	144	131
Net income attributable to common shareholders	$ 288	$ 274	$ 489	$ 459

Operating Revenues

Presented in the tables below is information regarding the main components of the Regulated Businesses' operating revenues:

(In millions)	For the Three Months Ended June 30, 2025	For the Three Months Ended June 30, 2024	For the Six Months Ended June 30, 2025	For the Six Months Ended June 30, 2024
Water services:				
Residential	$ 637	$ 580	$ 1,197	$ 1,084
Commercial	243	217	455	404
Fire service	48	41	93	82
Industrial	46	46	91	88
Public and other	82	73	155	131
Total water services	1,056	957	1,991	1,789
Wastewater services:				
Residential	71	60	139	119
Commercial	21	16	39	32
Industrial	5	3	10	5
Public and other	10	9	20	17
Total wastewater services	107	88	208	173
Other (a)	15	12	28	23
Total operating revenues	$ 1,178	$ 1,057	$ 2,227	$ 1,985

(a) Includes other operating revenues consisting primarily of miscellaneous utility charges, fees and rents.

(Gallons in millions)	For the Three Months Ended June 30, 2025	For the Three Months Ended June 30, 2024	For the Six Months Ended June 30, 2025	For the Six Months Ended June 30, 2024
Billed water services volumes:				
Residential	37,423	38,201	72,114	72,615
Commercial	19,066	19,291	36,263	36,582
Industrial	8,660	9,710	17,314	18,047
Fire service, public and other	12,643	13,698	25,035	24,814
Total billed water services volumes	77,792	80,900	150,726	152,058

For the three and six months ended June 30, 2025, operating revenues increased $121 million and $242 million, respectively, primarily due to increases of $119 million and $213 million, respectively, from authorized rate increases, including infrastructure surcharges, principally to recover infrastructure investment in various states. In addition, operating revenues increased $11 million and $25 million for the three and six months ended June 30, 2025, respectively, from water and wastewater acquisitions, as well as organic growth in existing systems. Operating revenues were also higher for the three and six months ended June 30, 2025, in the Company's California subsidiary, due to a change to its revenue stability mechanism from full to partial revenue recovery, resulting from the general rate case decision approved by the CPUC in December 2024. These increases were partially offset by a $17 million estimated net decrease for both the three and six months ended June 30, 2025, due to unfavorable weather impacts in the second quarter of 2025 and warm, dry weather in the second quarter of 2024.

Operation and Maintenance

Presented in the table below is information regarding the main components of the Regulated Businesses' operation and maintenance expense:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
(In millions)	**2025**	**2024**	**2025**	**2024**
Employee-related costs	$ 140	$ 136	$ 289	$ 271
Production costs	117	109	223	211
Operating supplies and services	84	61	156	124
Maintenance materials and supplies	26	19	55	41
Customer billing and accounting	22	14	42	28
Other	17	17	36	32
Total operation and maintenance expense	$ 406	$ 356	$ 801	$ 707

For the three and six months ended June 30, 2025, operation and maintenance expense increased $50 million and $94 million, respectively, due to increases from employee-related costs, increased operating supplies and services costs primarily from higher technology related costs, increased production costs primarily from higher purchased water cost and power and fuel costs, customer billing and accounting from an increase in customer uncollectible expense and increases in other maintenance costs.

Depreciation and Amortization

For the three and six months ended June 30, 2025, depreciation and amortization increased $28 million and $57 million, respectively, primarily due to additional utility plant placed in service from capital infrastructure investments and higher depreciation rates from recent rate case orders.

General Taxes

For the three and six months ended June 30, 2025, general taxes increased $4 million and $9 million, respectively, primarily due to incremental property taxes, higher capital stock taxes and New Jersey Gross Receipts Tax.

Other Expenses

For the three and six months ended June 30, 2025, other expenses increased $18 million and $38 million, respectively, primarily due to higher interest expense from the issuance of incremental long-term debt.

Provision for Income Taxes

For the three and six months ended June 30, 2025, the Regulated Businesses' provision for income taxes increased $6 million and $13 million, respectively. The Regulated Businesses' effective income tax rate was 22.6% and 22.2% for the three months ended June 30, 2025 and 2024, respectively, and 22.7% and 22.2% for the six months ended June 30, 2025 and 2024, respectively. The increase was primarily due to the decrease in the amortization of EADIT pursuant to regulatory orders.

Other

Presented in the table below is information for Other:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
(In millions)	**2025**	**2024**	**2025**	**2024**
Operating revenues	$ 98	$ 92	$ 191	$ 175
Operation and maintenance	74	71	147	136
Depreciation and amortization	4	4	7	8
General taxes	5	4	11	9
Interest expense	(35)	(29)	(65)	(56)
Interest income	21	20	42	41
Other income	3	5	10	6
Provision for income taxes	3	6	8	10
Net income attributable to common shareholders	$ 1	$ 3	$ 5	$ 3

Operating Revenues

For the three and six months ended June 30, 2025, operating revenues increased $6 million and $16 million, respectively, primarily from an increase in capital projects in the Contract Services Group ("CSG").

Operation and Maintenance

For the three and six months ended June 30, 2025, operation and maintenance expense increased $3 million and $11 million, respectively, primarily due to costs associated with CSG projects.

Interest expense

For the three and six months ended June 30, 2025, interest expense increased $6 million and $9 million, respectively, due to higher average commercial paper borrowings.

Legislative Updates

During 2025, the Company's regulatory jurisdictions enacted the following legislation that has been approved and is effective as of July 30, 2025:

- California passed Senate Bill 219, which amends the Climate Corporate Data Accountability Act and the Climate-Related Financial Risk Act, to allow the California Air Resources Board until July 1, 2025, to issue implementing regulations, including reporting requirements for Scope 3 emissions. Legislation was signed by the Governor on September 27, 2024, and became effective January 1, 2025.
- Virginia passed Senate Bill 850, which would permit a water or wastewater utility to petition the VSCC for the approval of an eligible infrastructure replacement and enhancement plan and accompanying recovery mechanism that allows for recovery of eligible infrastructure costs outside of a base rate case. Legislation was signed by the Governor on March 24, 2025, and became effective on July 1, 2025.
- Indiana passed Senate Bill 426, which changes the timing of recovery to allow for deferred depreciation from in-service date and post in-service carrying costs and authorizes the IURC to approve mechanisms to allow utilities to invest in and earn on acquired utility assets. The language also provides critical protections from lawsuits when utilities are meeting applicable water quality standards. Legislation was signed by the Governor on April 3, 2025, and became effective on July 1, 2025.

During 2025, the Company's regulatory jurisdictions enacted the following legislation that has been approved but is not yet effective as of July 30, 2025:

- Missouri passed Senate Bill 4, which provides that beginning July 1, 2026, water, sewer, and gas utilities may request the use of a future test year in a general rate case. This statute provides that at the end of the future test year, utilities must reconcile rate base and certain expenses, including annualized depreciation expense, income tax expense, payroll expense, employee benefits except for pensions and other post-retirement benefits, and rate case expenses, within 45 days to the MoPSC. Legislation was signed by the Governor on April 9, 2025, and will become effective on August 28, 2025.

Condemnation and Eminent Domain

All or portions of the Regulated Businesses' utility assets could be acquired by state, municipal or other government entities through one or more of the following methods: (i) eminent domain (also known as condemnation); (ii) the right of purchase given or reserved by a municipality or political subdivision when the original certificate of public convenience and necessity ("CPCN") was granted; and (iii) the right of purchase given or reserved under the law of the state in which the utility subsidiary was incorporated or from which it received its CPCN. The acquisition consideration related to such a proceeding initiated by a local government may be determined consistent with applicable eminent domain law or may be negotiated or fixed by appraisers as prescribed by the law of the state or the jurisdiction of the particular CPCN.

As such, the Regulated Businesses are periodically subject to condemnation proceedings in the ordinary course of business. For example, the Monterey system assets of Cal Am are the subject of a condemnation lawsuit filed by the Monterey Peninsula Water Management District (the "MPWMD") stemming from a November 2018 public ballot initiative. For more information on this matter, see Note 11—Commitments and Contingencies in the Notes to Consolidated Financial Statements.

Furthermore, the law in certain jurisdictions in which the Regulated Businesses operate provides for eminent domain rights allowing private property owners to file a lawsuit to seek just compensation against a public utility, if a public utility's infrastructure has been determined to be a substantial cause of damage to that property. In these actions, the plaintiff would not have to prove that the public utility acted negligently. In California, for example, lawsuits have been filed in connection with large-scale natural events such as wildfires. Some of these lawsuits have included allegations that infrastructure of certain utilities triggered the natural event that resulted in damage to the property. In some cases, the PUC has allowed certain costs or losses incurred by the utility to be recovered from customers in rates, but in other cases such recovery in rates has been disallowed. Also, the utility may have obtained insurance that could respond to some or all of such losses, although the utility would be at risk for any losses not ultimately subject to rate or insurance recovery or losses that exceed the limits of such insurance.

Tax Matters

On July 4, 2025, the One Big Beautiful Bill Act (the "OBBB") was signed into law. The OBBB includes several corporate tax-related provisions. Key changes include the permanent extension of certain provisions from the Tax Cuts and Jobs Act of 2017, such as 100% bonus depreciation and Section 163(j) interest limitation exception for regulated utilities, as well as the immediate expensing of domestic research and development costs, and the introduction of a new charitable contribution floor for corporations. The Company does not expect the OBBB will materially impact the Company's Consolidated Financial Statements. The Company will continue to monitor the implementation and any related guidance.

Liquidity and Capital Resources

For a general overview of the sources and uses of capital resources, see the introductory discussion in Part II, Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources in the Company's Form 10-K.

Liquidity needs for capital investment, working capital and other financial commitments are generally funded through cash flows from operations, public and private debt offerings, issuances of commercial paper and equity and, if and to the extent necessary, borrowings under American Water Capital Corp.'s ("AWCC") revolving credit facility.

The Company expects to fund future maturities of long-term debt through a combination of external debt and, to the extent available, cash flows from operations. Since the Company expects its capital investments over the next few years to be greater than its cash flows from operating activities, the Company currently plans to fund the excess of its capital investments over its cash flows from operating activities for the next five years through a combination of long-term debt and equity issuances, in addition to the remaining proceeds from the sale of HOS. The remaining proceeds from the sale of HOS include receipt of payments under a secured seller promissory note, plus interest, see Note 5—Acquisitions and Divestitures—Secured Seller Promissory Note from the Sale of Homeowner Services Group, in the Notes to Consolidated Financial Statements for additional information. If necessary, the Company may delay certain capital investments or other funding requirements or pursue financing from other sources to preserve liquidity. In this event, the Company believes it can rely upon cash flows from operations to meet its obligations and fund its minimum required capital investments for an extended period of time.

On February 27, 2025, AWCC completed the sale of $800 million aggregate principal amount of its 5.250% Senior Notes due 2035. At the closing of this offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $792 million. AWCC used the net proceeds of the offering (i) to lend funds to American Water and the Regulated Businesses; (ii) to repay at maturity AWCC's 3.400% Senior Notes due 2025; (iii) to repay commercial paper obligations of AWCC; and (iv) for general corporate purposes.

On June 29, 2023, AWCC issued $1,035 million aggregate principal amount of 3.625% Exchangeable Senior Notes due 2026 (the "Notes"). The Notes will mature on June 15, 2026, unless earlier exchanged or repurchased. As of June 30, 2025, the Notes were included in Current portion of long-term debt on the Consolidated Balance Sheets.

AWCC's revolving credit facility provides $2.75 billion in aggregate total commitments from a diversified group of financial institutions. The revolving credit facility is used principally to support AWCC's commercial paper program, to provide additional liquidity support, and to provide a sub limit for the issuance of up to $150 million in letters of credit. The maximum aggregate principal amount of short-term borrowings authorized for issuance under AWCC's commercial paper program is $2.6 billion. Subject to satisfying certain conditions, the credit agreement permits AWCC to increase the maximum commitment by up to an aggregate of $500 million.

Presented in the tables below are the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each:

	As of June 30, 2025		
(In millions)	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(1,591)	(84)	(1,675)
Remaining availability as of June 30, 2025	$ 1,009	$ 66	$ 1,075

(a) Total remaining availability of $1.1 billion as of June 30, 2025, was accessible through revolver draws.

	As of December 31, 2024		
(In millions)	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(880)	(82)	(962)
Remaining availability as of December 31, 2024	$ 1,720	$ 68	$ 1,788

(a) Total remaining availability of $1.8 billion as of December 31, 2024, was accessible through revolver draws.

Presented in the table below is the Company's total available liquidity:

(In millions)	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of June 30, 2025	$ 94	$ 1,075	$ 1,169
Available liquidity as of December 31, 2024	$ 96	$ 1,788	$ 1,884

The weighted-average interest rate on AWCC's outstanding short-term borrowings was approximately 4.59% and 4.65% at June 30, 2025, and December 31, 2024, respectively.

The Company believes that its ability to access the debt and equity capital markets, the revolving credit facility and cash flows from operations will generate sufficient cash to fund the Company's short-term requirements. The Company believes it has sufficient liquidity and the ability to manage its expenditures, should there be a disruption of the capital and credit markets. However, there can be no assurance that the lenders will be able to meet existing commitments to AWCC under the revolving credit facility, or that AWCC will be able to access the commercial paper or loan markets in the future on acceptable terms or at all. See Note 8—Short-Term Debt in the Notes to Consolidated Financial Statements for additional information.

As of June 30, 2025, the Company had five treasury lock agreements, with a term of 30 years and an aggregate notional amount of $180 million, to reduce interest rate exposure on expected future debt issuances. These treasury lock agreements terminate in December 2025 and March 2026 and have an average fixed interest rate of 4.73%. In July 2025, the Company entered into four treasury lock agreements, with a term of 30 years and an aggregate notional amount of $170 million, to reduce interest rate exposure on expected future debt issuances. These treasury lock agreements terminate in September 2025 and have an average fixed interest rate of 4.93%. The Company designated these treasury lock agreements as cash flow hedges, measured at fair value with the gain or loss recorded in accumulated other comprehensive income.

In May 2025, the Company terminated two treasury lock agreements designated as cash flow hedges, with a term of 30 years and an aggregate notional amount totaling $100 million, realizing a pre-tax net gain of $12 million recorded in accumulated other comprehensive income. The gain will reduce interest rate exposure on any future debt issuance in 2025 and will be amortized through Interest expense over a 30-year period, in accordance with the tenor of the notes.

In February 2025, the Company terminated 10 treasury lock agreements designated as cash flow hedges, with a term of 10 years and an aggregate notional amount totaling $500 million, realizing a pre-tax net gain of $3 million recorded in accumulated other comprehensive income. The gain will be amortized through Interest expense over a 10-year period, in accordance with the tenor of the notes issued on February 27, 2025.

No ineffectiveness was recognized on hedging instruments for the three and six months ended June 30, 2025 or 2024.

Cash Flows from Operating Activities

Cash flows from operating activities primarily result from the sale of water and wastewater services and, due to the seasonality of demand, are generally greater during the warmer months. Presented in the table below is a summary of the major items affecting the Company's cash flows from operating activities:

	For the Six Months Ended June 30,	
(In millions)	**2025**	**2024**
Net income	$ 494	$ 462
Add (less):		
Depreciation and amortization	437	381
Deferred income taxes and amortization of investment tax credits	51	37
Other non-cash activities (a)	(19)	(20)
Changes in assets and liabilities (b)	(309)	(111)
Pension contributions	(22)	(22)
Net cash provided by operating activities	$ 632	$ 727

(a) Includes provision for losses on accounts receivable, pension and non-pension postretirement benefits and other non-cash, net.

(b) Changes in assets and liabilities include changes to receivables and unbilled revenues, income tax receivable, accounts payable and accrued liabilities, accrued taxes and other assets and liabilities, net.

For the six months ended June 30, 2025, cash flows provided by operating activities decreased $95 million, primarily due to the CAMT liability included in the Company's 2024 extension payment in the second quarter of 2025, utilization of income tax receivables in the prior year, and higher customer receivables and unbilled revenues in the current period. The decrease was partially offset by an increase in net income and depreciation.

Cash Flows from Investing Activities

Presented in the table below is a summary of the major items affecting the Company's cash flows from investing activities:

	For the Six Months Ended June 30,	
(In millions)	**2025**	**2024**
Capital expenditures	$ (1,281)	$ (1,279)
Acquisitions, net of cash acquired	(13)	(119)
Removal costs from property, plant and equipment retirements, net	(71)	(73)
Purchases of available-for-sale fixed-income securities	(35)	—
Proceeds from sales and maturities of available-for-sale fixed-income securities	60	—
Net cash used in investing activities	$ (1,340)	$ (1,471)

For the six months ended June 30, 2025, cash flows used in investing activities decreased $131 million, primarily due to decreased payments for acquisitions in the current period. The Company plans to invest approximately $3.3 billion on growth through capital investment in infrastructure and acquisitions in the Regulated Businesses in 2025.

Cash Flows from Financing Activities

Presented in the table below is a summary of the major items affecting the Company's cash flows from financing activities:

	For the Six Months Ended June 30,	
(In millions)	**2025**	**2024**
Proceeds from long-term debt, net of discount	$ 876	$ 1,403
Repayments of long-term debt	(606)	(466)
Net short-term borrowings (repayments) with original maturities less than three months	710	(179)
Debt issuance costs	(7)	(13)
Dividends paid	(311)	(287)
Other financing activities, net (a)	41	20
Net cash provided by financing activities	$ 703	$ 478

(a) Includes proceeds from issuances of common stock under various employee stock plans and the Company's dividend reinvestment and direct stock purchase plan, net of taxes paid, and advances and contributions in aid of construction, net of refunds.

For the six months ended June 30, 2025, cash flows provided by financing activities increased $225 million, primarily due to higher short-term commercial paper borrowings in the current period compared to repayments of commercial paper in the prior period, partially offset by lower proceeds from the issuance of long-term debt and higher repayments of long-term debt.

Debt Covenants

The Company's debt agreements contain financial and non-financial covenants. To the extent that the Company is not in compliance with these covenants, an event of default may occur under one or more debt agreements and the Company, or its subsidiaries, may be restricted in its ability to pay dividends, issue new debt or access the revolving credit facility. The long-term debt indentures contain a number of covenants that, among other things, prohibit or restrict the Company from issuing debt secured by the Company's assets, subject to certain exceptions. Failure to comply with any of these covenants could accelerate repayment obligations.

Covenants in certain long-term notes and the revolving credit facility require the Company to maintain a ratio of consolidated debt to consolidated capitalization (as defined in the relevant documents) of not more than 0.70 to 1.00. On June 30, 2025, the Company's ratio was 0.58 to 1.00 and therefore the Company was in compliance with the covenants.

Security Ratings

Presented in the table below are long-term and short-term credit ratings and rating outlooks as of July 30, 2025, as issued by Moody's Ratings on January 23, 2025, and S&P Global Ratings on June 6, 2025:

Securities	Moody's Ratings	S&P Global Ratings
Rating outlook	Stable	Stable
Senior unsecured debt	Baa1	A
Commercial paper	P-2	A-1

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency, and each rating should be evaluated independently of any other rating. Security ratings are highly dependent upon the ability to generate cash flows in an amount sufficient to service debt and meet investment plans. The Company can provide no assurances that its ability to generate cash flows is sufficient to maintain its existing ratings. The Company does not have any material borrowings that are subject to default or prepayment as a result of the downgrading of these security ratings, although such a downgrading could increase fees and interest charges under its credit facility.

As part of its normal course of business, the Company routinely enters into contracts for the purchase and sale of water, power and other fuel, chemicals and other services. These contracts either contain express provisions or otherwise permit the Company and its counterparties to demand adequate assurance of future performance when there are reasonable grounds for doing so. In accordance with the contracts and applicable contract law, if the Company is downgraded by a credit rating agency, especially if such downgrade is to a level below investment grade, it is possible that a counterparty would attempt to rely on such a downgrade as a basis for making a demand for adequate assurance of future performance, which could include a demand that the Company must provide collateral to secure its obligations. The Company does not expect to post any collateral which will have a material adverse impact on the Company's results of operations, financial position or cash flows.

Access to the capital markets, including the commercial paper market, and respective financing costs in those markets, may be directly affected by the Company's securities ratings. The Company primarily accesses the debt capital markets, including the commercial paper market, through AWCC. However, the Company has also issued debt through its regulated subsidiaries, primarily in the form of mortgage bonds and tax-exempt securities or borrowings under state revolving funds, to lower the overall cost of debt.

Dividends

For discussion of the Company's dividends, see Note 6—Shareholders' Equity in the Notes to Consolidated Financial Statements for additional information.

Application of Critical Accounting Policies and Estimates

The financial condition of the Company, results of operations and cash flows, as reflected in the Company's Consolidated Financial statements, are impacted by the methods, assumptions and estimates used in the application of critical accounting policies. See Part II, Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates in the Company's Form 10-K for a discussion of its critical accounting policies. Additionally, see Note 2—Significant Accounting Policies in the Notes to Consolidated Financial Statements for updates, if any, to the significant accounting policies previously disclosed in the Company's Form 10-K.

Recent Accounting Standards

See Note 2—Significant Accounting Policies in the Notes to Consolidated Financial Statements for a description of new accounting standards recently adopted or pending adoption.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk in the normal course of business, including changes in commodity prices, equity prices and interest rates. For further discussion of its exposure to market risk, see Part II, Item 7A—Quantitative and Qualitative Disclosures about Market Risk in the Company's Form 10-K. There have been no significant changes to the Company's exposure to market risk since December 31, 2024.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

American Water maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objective.

The Company's management, including the Chief Executive Officer and the Chief Financial Officer, conducted an evaluation of the effectiveness of its disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of June 30, 2025.

Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that, as of June 30, 2025, the Company's disclosure controls and procedures were effective at a reasonable level of assurance.

Changes in Internal Control over Financial Reporting

The Company concluded that there have been no changes in internal control over financial reporting that occurred during the three months ended June 30, 2025, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The following information updates and amends the information provided in the Company's Form 10-K in Item 3—Legal Proceedings, and in the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2025 in Part II, Item 1—Legal Proceedings. Capitalized terms used but not otherwise defined herein have the meanings set forth in the Company's Form 10-K, and in the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2025. In accordance with the SEC's disclosure rules, the Company has elected to disclose environmental proceedings involving the Company and a governmental authority if the amount of potential monetary sanctions, exclusive of interest and costs, that the Company reasonably believes will result from such proceeding is $1 million or more.

Alternative Water Supply in Lieu of Carmel River Diversions

Monterey Peninsula Water Supply Project

CPUC Final Approval of Water Supply Project

On May 21, 2025, the CPUC issued a decision authorizing an increase to the cost cap of $11 million for certain of the Water Supply Project's extraction wells.

On May 9, 2025, the CPUC issued a proposed decision in the Phase 2 that is focusing on updated supply and demand estimates for the Water Supply Project, finding that without the Water Supply Project, projected demand will outstrip supply by approximately 2,500 acre-feet per year. On June 18, 2025, the CPUC issued a decision extending the Phase 2 statutory deadline to October 31, 2025. This Phase 2 matter remains pending.

Coastal Development Permit Application

On March 28, 2025, the Monterey County Superior Court issued an intended decision to deny in full the joint petition for writ of mandate by the City, MCWD and MPWMD. As permitted by the court, written statements were filed identifying issues that were believed to have not been addressed in the intended decision. On May 12, 2025, the court entered its final decision denying the petition in full.

Water Supply Project Land Acquisition and Slant Well Site Use

On June 25, 2025, the SWRCB administrative hearing officer transmitted a final report of an advisory opinion to the SWRCB's board for approval, as well as to the parties and the Monterey County Superior Court. The final report analyzes potential impacts to the groundwater basin and groundwater users based on predictive modeling presented by the parties' experts, and concludes, among other things, that the slant well pumping is not expected to materially impact MCWD's water rights, or its ability to draw water from its wells. The report also finds that although some harm to the groundwater basin may occur in the form of increased seawater intrusion and lowering of groundwater levels, any such harm should be balanced against the benefits of the project, and could be avoided or remedied by a physical solution. A trial in the City's May 2020 lawsuit against Cal Am and CEMEX is set to begin in November 2025.

Regional Water Quality Control Board Approval of NPDES Permit Amendment

Following submission of the application to amend the relevant NPDES permit to the RWQCB, Cal Am's and Monterey One Water's consultants developed a less environmentally impactful alternative that reduces the number of outfall modifications required to accommodate brine discharge. The alternatives analysis was approved by Monterey One Water's board on June 30, 2025, and was submitted to the RWQCB on July 1, 2025.

Dunbar, West Virginia Class Action Litigation Proposed Settlement

On May 2, 2025, the parties jointly filed for approval by the Circuit Court a proposed class action settlement agreement (the "Dunbar Settlement") with respect to claims by the *Jeffries* plaintiffs, and, on May 5, 2025, the Circuit Court issued an order granting preliminary approval of the Dunbar Settlement. The actual total amount to be paid to claimants through the Dunbar Settlement will depend upon the claims submitted and approved through the claims process that is now underway, which includes, among other things: notice that has been provided to the class; obtaining, reviewing and processing properly-submitted claims from potential claimants; and handling any requests to opt out from or object to the Dunbar Settlement. Following the completion of the claims process, the Circuit Court will hold a hearing regarding its final approval of the Dunbar Settlement, which is currently scheduled for September 11, 2025. No contribution by the Company or WVAWC for claims associated with the Dunbar Settlement will be funded unless and until, and to the extent required by, a settlement agreement that receives final approval from the Circuit Court.

PFAS Multi-District Litigation

As of June 30, 2025, the Company received an initial settlement payment from defendant 3M Company of $34 million, net of legal fees and administrative costs. As of June 30, 2025, these funds were held in a law firm escrow account and are awaiting distribution to the Company's utility subsidiaries that are parties to the MDL. The Company intends to seek regulatory approval from its respective PUCs to apply the net proceeds for the benefit of customers. The Company anticipates receiving, during the remainder of 2025, additional settlement payments from the defendants named above.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, readers should carefully consider the factors discussed in Item 1A—Risk Factors in the Form 10-K, and in the Company's other filings with the SEC, which could materially affect the Company's business, financial condition, cash flows or future results. There have been no material changes from the risk factors previously disclosed in Item 1A—Risk Factors in the Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuance of Shares in Connection with Acquisition of Audubon Water Company

Effective May 28, 2025, the Company issued 48,381 shares of its common stock (the "Shares"), net of an indemnity escrow claim, as consideration for the merger (the "Audubon Merger") of a wholly owned subsidiary of the Company with and into Audubon, with Audubon being the surviving entity immediately following such merger, in a transaction not involving a public offering of securities in reliance upon Section 4(a)(2) of the Securities Act. Promptly following the closing of the Audubon Merger, Audubon was merged with and into the Company's Pennsylvania subsidiary. The Shares were issued out of the Company's existing treasury stock, with restrictive legends thereupon, to or for the benefit of an irrevocable trust that was, immediately prior to the closing of the Audubon Merger, the sole shareholder of Audubon.

Anti-dilutive Stock Repurchase Program

In February 2015, the Board of Directors authorized an anti-dilutive stock repurchase program to mitigate the dilutive effect of shares issued through the Company's dividend reinvestment and direct stock purchase plan and employee stock purchase and executive compensation activities. The program allows the Company to purchase up to 10 million shares of its outstanding common stock over an unrestricted period of time in the open market or through privately negotiated transactions. The program is conducted in accordance with Rule 10b-18 of the Exchange Act, and, to facilitate these repurchases, the Company enters into Rule 10b5-1 stock repurchase plans with a third-party broker, which allow the Company to repurchase shares of its common stock at times when it otherwise might be prevented from doing so under insider trading laws or because of self-imposed trading blackout periods. Subject to applicable regulations, the Company may elect to amend or cancel the program or the stock repurchase parameters at its discretion to manage dilution.

The Company did not repurchase shares of common stock during the three months ended June 30, 2025. From April 1, 2015, the date repurchases under the anti-dilutive stock repurchase program commenced, through June 30, 2025, the Company repurchased an aggregate of 4,860,000 shares of common stock under the program, leaving an aggregate of 5,140,000 shares available for repurchase under this program.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

During the three months ended June 30, 2025, none of the Company's directors or "officers" (as such term is defined in Rule 16a-1(f) promulgated under the Exchange Act) adopted or terminated (i) any contract, instruction or written plan for the purchase or sale of the Company's securities, intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) promulgated under the Exchange Act or (ii) any "non-Rule 10b5-1 trading arrangement" (as defined in Item 408(c) of Regulation S-K).

ITEM 6. EXHIBITS

Exhibit Number	Exhibit Description
2.1#	Membership Interest Purchase Agreement, dated as of October 28, 2021, by and among American Water Enterprises, LLC, American Water (USA), LLC, American Water Resources, LLC, Pivotal Home Solutions, LLC, American Water Resources Holdings, LLC, American Water Works Company, Inc. and Lakehouse Buyer Inc. (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed October 29, 2021).
2.2#	Purchase and Sale Agreement, dated as of May 19, 2025, between Nexus Regulated Utilities, LLC and American Water Works Company, Inc. (incorporated by reference to Exhibit 2.1 to American Water Works Company's Inc. Current Report on Form 8-K, File No. 001-34028, filed May 19, 2025).
3.1	Restated Certificate of Incorporation of American Water Works Company, Inc. (incorporated by reference to Exhibit 3.1 to American Water Works Company, Inc.'s Quarterly Report on Form 10-Q, File No. 001-34028, filed November 6, 2008).
3.2	Amended and Restated Bylaws of American Water Works Company, Inc. (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K, File No. 001-34028, filed December 8, 2022).
4.1	Indenture, dated as of December 4, 2009, between American Water Capital Corp. and Computershare Trust Company, N.A., as successor to Wells Fargo Bank, National Association (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed December 3, 2010).
4.2	Officers' Certificate of American Water Capital Corp., dated February 27, 2025, establishing the 5.250% Senior Notes due 2035 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed February 27, 2025).
10.1#	Amendment No. 1 to Secured Seller Note Agreement, dated as of February 2, 2024, by and among Lakehouse Bidco Inc., Lakehouse Buyer Inc., American Water Resources, LLC, Pivotal Home Solutions, LLC, American Water Resources Holdings, LLC, American Water Resources of Texas, LLC, American Water Resources of Florida, LLC, and American Water Enterprises, LLC (incorporated by reference to Exhibit 10.1.2 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed February 5, 2024).
10.2	Amendment No. 2 to Secured Seller Note Agreement, dated as of December 3, 2024, by and among Lakehouse Bidco Inc., Lakehouse Buyer Inc., American Water Resources, LLC, Pivotal Home Solutions, LLC, American Water Resources Holdings, LLC, American Water Resources of Texas, LLC, American Water Resources of Florida, LLC, and American Water Enterprises, LLC (incorporated by reference to Exhibit 10.20.3 to American Water Works Company, Inc.'s Current Report on Form 10-K, File No. 001-34028, filed February 19, 2025).
*10.3	American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan 2025 Stock Unit Grant Form for Non-Employee Directors.
10.4	Offer Letter for Employment, effective May 14, 2025, between American Water Works Company, Inc. and John C. Griffith (incorporated by reference to Exhibit 10.11 to American Water Works Company Inc.'s Quarterly Report on Form 10-Q, File No. 001-34028, filed April 30, 2025).
10.5	Offer Letter for Employment, effective April 1, 2025, between American Water Works Company, Inc. and Lori Sutton (incorporated by reference to Exhibit 10.12 to American Water Works Company Inc.'s Quarterly Report on Form 10-Q, File No. 001-34028, filed April 30, 2025).
*31.1	Certification of John C. Griffith, President and Chief Executive Officer, pursuant to Section 302 of the Sarbanes-Oxley Act.
*31.2	Certification of David M. Bowler, Executive Vice President and Chief Financial Officer, pursuant to Section 302 of the Sarbanes-Oxley Act.
**32.1	Certification of John C. Griffith, President and Chief Executive Officer, pursuant to Section 906 of the Sarbanes-Oxley Act.
**32.2	Certification of David M. Bowler, Executive Vice President and Chief Financial Officer, pursuant to Section 906 of the Sarbanes-Oxley Act.

Certain schedules and exhibits to this agreement have been omitted as permitted by rules or regulations of the SEC. The Company will furnish the omitted schedules and exhibits to the SEC upon request.

* Filed herewith.

** Furnished herewith.

The Membership Interest Purchase Agreement filed as Exhibit 2.1, the Purchase and Sale Agreement filed as Exhibit 2.2, and Amendment No. 1 and Amendment No. 2 to the Secured Seller Note Agreement filed as Exhibit 10.1 and Exhibit 10.2, respectively, to this Quarterly Report on Form 10-Q, have been included to provide investors and security holders with information regarding the terms of the respective agreements. The filing of these agreements is not intended to provide any other factual information about the parties thereto, or any of their respective subsidiaries or affiliates. The representations, warranties and covenants contained in the respective agreements (i) were made by the parties thereto only for purposes of that respective agreement and as of specific dates; (ii) were made solely for the benefit of the parties to the respective agreement; (iii) may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures exchanged between the parties in connection with the execution of the respective agreement (such disclosures include information that has been included in public disclosures, as well as additional non-public information); (iv) may have been made for the purposes of allocating contractual risk between the parties to the respective agreements instead of establishing these matters as facts; and (v) may be subject to standards of materiality applicable to the contracting parties to the respective agreements that differ from those applicable to investors.

Investors should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of the parties to the respective agreements thereto, or any of their respective subsidiaries or affiliates. Additionally, the representations, warranties, covenants, conditions and other terms of the respective agreements may be subject to subsequent waiver or modification. Moreover, information concerning the subject matter of the representations, warranties and covenants may change after the date of the respective agreement, which subsequent information may or may not be fully reflected in the Company's public disclosures. The respective agreements should not be read alone, but should instead be read in conjunction with the other information regarding the Company that is or will be contained in, or incorporated by reference into, the reports and other documents that are filed by the Company with the SEC.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized, on the 30th day of July, 2025.

Exhibit 10.3

AMERICAN WATER WORKS COMPANY, INC.

2017 OMNIBUS EQUITY COMPENSATION PLAN

STOCK UNIT GRANT

This STOCK UNIT GRANT, dated as of May 14, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Board of Directors of the Company (the "Board") has determined to grant each non-employee director of the Company on the date of the Company's 2025 Annual Meeting of Shareholders a stock unit grant that will be immediately converted to shares of common stock of the Company, par value $0.01 per share, (the "Company Stock");

WHEREAS, the Participant is a non-employee director on the Board; and

WHEREAS, the Board has determined that the stock unit grant granted to the Participant shall be issued under the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan") and the terms and conditions thereof shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ units (the "Stock Units"). Each Stock Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable distribution date, as described in Paragraph 4 below.

2. Stock Unit Account. The Company shall establish and maintain a Stock Unit account as a bookkeeping account on its records (the "Stock Unit Account") for the Participant and shall record in such Stock Unit Account the number of Stock Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Stock Unit Account established for the Participant.

3. Vesting. The Participant shall be fully vested in the Stock Units credited to the Participant's Stock Unit Account pursuant to this Grant on the Date of Grant.

4. Distribution. The Stock Units shall be converted to shares of Company Stock on the Date of Grant and such shares of stock shall be distributed by the Company within thirty (30) days after the Date of Grant.

5. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that with respect to any right to distribution pursuant to this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any

time be at issue, to the fullest extent permitted by applicable law. The Participant also hereby agrees to be bound by the terms and conditions of the Plan and this Grant. The Participant further agrees to be bound by the determinations and decisions of the Board with respect to this Grant and the Plan and the Participant's rights to benefits under this Grant and the Plan, and agrees that all such determinations and decisions of the Board shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

6. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) The obligation of the Company to deliver shares of Company Stock upon the distribution of the Stock Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Board. The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(b) As a condition to receive any shares of Company Stock upon conversion of the Stock Units, the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and its Personal Securities Trading and Preclearance Practice; and

(ii) that the shares of Company Stock obtained by the Participant upon the distribution of the Stock Units shall not be transferred or disposed of by any means until the Participant owns enough shares of Company Stock, or shares underlying stock units convertible into shares of Company Stock, or time-based restricted Company Stock, to meet or exceed five (5) times the Participant's annual cash retainer, which ownership requirement must be satisfied by the fifth (5th) anniversary of the Participant's commencement of service as a director on the Board.

7. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Board in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (i) rights and obligations with respect to withholding taxes, (ii) the registration, qualification or listing of the shares of Company Stock, (iii) changes in capitalization of the Company, and (iv) other requirements of applicable law. The Board shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder and the

Participant's acceptance of this Grant is the Participant's agreement to be bound by the interpretations and decisions of the Board with respect to this Grant and the Plan.

8. No Rights to Continued Service. This Grant shall not confer upon the Participant any right to be retained in the service of the Employer (as defined in the Plan) and shall not interfere in any way with the right to terminate the Participant's service at any time.

9. Assignment and Transfers. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

10. Withholding. To the extent required by applicable law, the Participant shall be required to pay to the Company, or make other arrangements satisfactory to the Company to provide for the payment of, any federal, state, local or other taxes that the Company is required to withhold with respect to the Grant, vesting or distribution of the Stock Units.

11. Effect on Other Benefits. The value of shares of Company Stock distributed with respect to the Stock Units shall not be considered eligible earnings for purposes of any other plans maintained by the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

12. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflicts of laws provisions thereof.

13. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the records of the Company, or to such other address as the Participant may designate to the Company in writing. Any notice shall be delivered by hand, sent by facsimile, e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means), or enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

IN WITNESS WHEREOF, the Company has caused its duly authorized officer to execute this Grant, effective as of the Date of Grant.

AMERICAN WATER WORKS COMPANY, INC.

By: John C. Griffith

Its: President and CEO

Exhibit 31.1

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER

(Pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934, as amended,
as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002)

I, John C. Griffith, certify that:

1. I have reviewed this quarterly report on Form 10-Q of American Water Works Company, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Throughout this Quarterly Report on Form 10-Q ("Form 10-Q"), unless the context otherwise requires, references to the "Company" and "American Water" mean American Water Works Company, Inc. and all of its subsidiaries, taken together as a whole. References to the "parent company" mean American Water Works Company, Inc., without its subsidiaries.

The Company maintains a website at *https://amwater.com* and an Investor Relations website at *https://ir.amwater.com*. Information contained on the Company's websites shall not be deemed incorporated into, or to be a part of, this report, and any website references included herein are not intended to be made through active hyperlinks.

FORWARD-LOOKING STATEMENTS

Statements included in Part I, Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations and in other sections of this Form 10-Q are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as "intend," "plan," "estimate," "believe," "anticipate," "expect," "predict," "project," "propose," "assume," "forecast," "likely," "uncertain," "outlook," "future," "pending," "goal," "objective," "potential," "continue," "seek to," "may," "can," "should," "will" and "could" or the negative of such terms or other variations or similar expressions. Forward-looking statements may relate to, among other things: the Company's future financial performance, liquidity and cash flows; the timing and amount of rate and revenue adjustments, including through general rate case filings, filings for infrastructure surcharges and other governmental agency authorizations and proceedings, and filings to address regulatory lag; the Company's ability to execute its current and long-term business, operational, capital expenditures and growth plans and strategies; the timing and outcome of pending or future acquisition activity, and the ability to achieve organic customer growth; the ability of the Company's California subsidiary to obtain adequate alternative water supplies in lieu of diversions from the Carmel River; the amount, allocation and timing of projected capital expenditures and related funding requirements; the Company's ability to repay or refinance debt; the future impacts of increased or increasing financing costs, inflation and interest rates; the Company's ability to finance current and projected operations, capital expenditure needs and growth initiatives by accessing the debt and equity capital markets and sources of short-term liquidity; the outcome and impact on the Company of governmental and regulatory investigations, class action lawsuits, and other litigation and legal proceedings, and related potential fines, penalties and other sanctions; the ability to meet or exceed the Company's stated environmental and sustainability goals, including its greenhouse gas ("GHG") emission reduction, water delivery efficiency and water system resiliency goals; the ability to complete, and the timing and efficacy of, the design, development, implementation and improvement of technology and other strategic initiatives; the Company's ability to comply with new and changing environmental regulations; the ability to capitalize on existing or future utility privatization opportunities; trends in the water and wastewater industries in which the Company operates, including macro trends with respect to the Company's efforts and projects related to customer, technology and work efficiency and execution; regulatory, legislative, tax policy or legal developments; and impacts that future significant tax legislation may have on the Company and on its business, results of operations, cash flows and liquidity.

Forward-looking statements are predictions based on the Company's current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results, levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. These forward-looking statements are subject to a number of estimates, assumptions, known and unknown risks, uncertainties and other factors. The Company's actual results may vary materially from those discussed in the forward-looking statements included herein as a result of the following important factors:

- the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates;
- the timeliness and outcome of regulatory commissions' and other authorities' actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions;
- changes in customer demand for, and patterns of use of, water and energy, such as may result from conservation efforts, or otherwise;
- limitations on the availability of the Company's water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors;
- a loss of one or more large industrial or commercial customers due to adverse economic conditions or other factors;
- present and future proposed changes in laws, governmental regulations and policies, including with respect to the environment (such as, for example, potential improvements or changes to existing Federal regulations with respect to lead and copper service lines and galvanized steel pipe), health and safety, data and consumer privacy, security and protection, water quality and water quality accountability, contaminants of emerging concern (including without limitation per- and polyfluoroalkyl substances (collectively, "PFAS")), public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations;
- the Company's ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulations and policies with respect to data and consumer privacy, security and protection;
- weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares;
- the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions;

- the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of or maintain, update, redesign and/or replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses;
- exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means, and impacts from required or voluntary public and other disclosures, as well as civil class action and other litigation or legal, regulatory or administrative proceedings, related thereto;
- the Company's ability to obtain permits and other approvals for projects and construction, update, redesign and/or replacement of various water and wastewater facilities;
- changes in the Company's capital requirements;
- the Company's ability to control operating expenses and to achieve operating efficiencies, and the Company's ability to create, maintain and promote initiatives and programs that support the affordability of the Company's regulated utility services;
- the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers;
- the Company's ability to obtain and have delivered adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, power and other fuel, water and other raw materials, and to address or mitigate supply chain constraints that may result in delays or shortages in, as well as increased costs of, supplies, products and materials that are critical to or used in the Company's business operations;
- the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to:
    - acquiring, closing and successfully integrating regulated operations, including without limitation the Company's ability to (i) obtain required regulatory approvals for such acquisitions, (ii) prevail in litigation or other challenges related to such acquisitions, and (iii) recover in rates the fair value of assets of the acquired regulated operations;
    - the Company's Military Services Group ("MSG") entering into new military installation contracts, price redeterminations, and other agreements and contracts, with the U.S. government; and
    - realizing anticipated benefits and synergies from new acquisitions;
- in addition to the foregoing, various risks and uncertainties associated with the agreement to acquire certain water and wastewater systems from a subsidiary of Nexus Water Group, Inc., including:
    - the final amount of the rate base to be acquired, and the amount of post-closing adjustments to the purchase price, if any, as contemplated by the acquisition agreement;
    - the various impacts and effects of (i) compliance, or attempted compliance, with the terms and conditions of the acquisition agreement, and/or (ii) the completion of or, or actions taken by the Company to complete, the acquisition, on the Company's operations, strategy, guidance, expectations and plans with respect to its Regulated Businesses (considered individually or together as a whole), its current or future capital expenditures, its current and future debt and equity capital needs, dividends, earnings (including earnings per share), growth, future regulatory outcomes, expectations with respect to rate base growth, and other financial and operational goals, plans, estimates and projections; and
    - any requirement by the Company to pay a termination fee in the event the closing does not occur;
- risks and uncertainties following the completion of the sale of the Company's Homeowner Services Group ("HOS"), including:
    - the Company's ability to receive amounts due, payable and owing to the Company under the amended secured seller note when due; and
    - the ability of the Company to redeploy successfully and timely the net proceeds of this transaction into the Company's Regulated Businesses;
- risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement, security and cybersecurity regulations;
- cost overruns relating to improvements in or the expansion of the Company's operations;
- the Company's ability to successfully develop and implement new technologies and to protect related intellectual property;
- the Company's ability to maintain safe work sites;

- the Company's exposure to liabilities related to environmental laws and regulations, including those enacted or adopted and under consideration, and the substances related thereto, including without limitation copper, lead and galvanized steel, PFAS and other contaminants of emerging concern, and similar matters resulting from, among other things, water and wastewater service provided to customers;
- the ability of energy providers, state governments and other third parties to achieve or fulfill their GHG emission reduction goals, including without limitation through stated renewable portfolio standards and carbon transition plans;
- changes in general economic, political, business and financial market conditions;
- access to sufficient debt and/or equity capital on satisfactory terms and as needed to support operations and capital expenditures;
- fluctuations in inflation or interest rates, and the Company's ability to address or mitigate the impacts thereof;
- the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions;
- fluctuations in the value of, or assumptions and estimates related to, its benefit plan assets and liabilities, including with respect to its pension and other post-retirement benefit plans, that could increase expenses and plan funding requirements;
- changes in federal or state general, income and other tax laws, including (i) future significant tax legislation or regulations (including without limitation impacts related to the Corporate Alternative Minimum Tax), and (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs;
- migration of customers into or out of the Company's service territories and changes in water and energy consumption resulting therefrom;
- the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, including without limitation litigation and other proceedings with respect to the water system assets of the Company's California subsidiary ("Cal Am") located in Monterey, California (the "Monterey system assets"), or the assertion by private landowners of similar rights against such utility subsidiaries;
- any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained;
- the incurrence of impairment charges, changes in fair value and other adjustments related to the Company's goodwill or the value of its other assets;
- labor actions, including work stoppages and strikes;
- the Company's ability to retain and attract highly qualified and skilled employees and talent;
- civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and
- the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above, and the risk factors and other statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2024 (the "Form 10-K") and in this Form 10-Q, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements the Company makes shall speak only as of the date this Form 10-Q was filed with the U.S. Securities and Exchange Commission ("SEC"). Except as required by the federal securities laws, the Company does not have any obligation, and it specifically disclaims any undertaking or intention, to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances or otherwise. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

American Water Works Company, Inc. and Subsidiary Companies
Notes to Consolidated Financial Statements (Unaudited)
(Unless otherwise noted, in millions, except per share data)

Note 1: Basis of Presentation

The unaudited Consolidated Financial Statements included in this report include the accounts of American Water Works Company, Inc. and all of its subsidiaries (the "Company" or "American Water"), in which a controlling interest is maintained after the elimination of intercompany balances and transactions. References to "parent company" mean American Water Works Company, Inc., without its subsidiaries. The financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") for interim financial reporting, and the rules and regulations for reporting on Quarterly Reports on Form 10-Q ("Form 10-Q"). Accordingly, they do not contain certain information and disclosures required by GAAP for comprehensive financial statements. In the opinion of management, all adjustments necessary for a fair statement of the financial position as of June 30, 2025, and the results of operations and cash flows for all periods presented, have been made. All adjustments are of a normal, recurring nature, except as otherwise disclosed.

The unaudited Consolidated Financial Statements and Notes included in this report should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2024 ("Form 10-K"), which provides a more complete discussion of the Company's accounting policies, financial position, operating results and other matters. The results of operations for interim periods are not necessarily indicative of the results that may be expected for the year, primarily due to the seasonality of the Company's operations.

Note 2: Significant Accounting Policies

New Accounting Standards

Presented in the table below are recently issued accounting standards that have not yet been adopted by the Company as of June 30, 2025:

Standard	Description	Date of Adoption	Application	Effect on the Consolidated Financial Statements
Income Taxes	The guidance in this standard requires disclosure of a tax rate reconciliation table, in both percentages and reporting currency amounts, which includes additional categories of information about federal, state, and foreign income taxes and provides further details about reconciling items in certain categories that meet a quantitative threshold. The guidance also requires an annual disclosure of income taxes paid, net of refunds, disaggregated by federal, state, and foreign taxes paid, and further disaggregated by jurisdiction based on a quantitative threshold. The standard includes other disclosure requirements and eliminates certain existing disclosure requirements.	Annual periods beginning after December 15, 2024	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements.
Income Statement Disaggregation	The guidance in this standard enhances disclosures related to income statement expenses to further disaggregate expenses in the footnotes to the financial statements. The standard requires disaggregation of any relevant expense caption presented on the face of the income statement that contains the following expense categories: purchases of inventory, employee compensation, depreciation, intangible asset amortization, and depletion. Further, the standard requires disclosure of the total amount and the entity's definition of selling expenses.	Annual periods beginning after December 15, 2026 and interim periods within fiscal years beginning after December 15, 2027	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.
Induced Conversions of Convertible Debt Instruments	The guidance in this standard clarifies the requirements for determining whether to account for certain settlements of convertible debt instruments as induced conversions or extinguishments. The guidance requires an entity to account for a settlement as an induced conversion if the inducement offer includes the issuance of all of the consideration issuable under the conversion privileges provided in the terms of the existing convertible debt instrument.	Annual periods beginning after December 15, 2025 and interim reporting period within those annual reporting periods	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.

Property, Plant and Equipment

The New Jersey Economic Development Authority ("NJEDA") determined that the Company was qualified to receive $161 million in tax credits in connection with its capital investment in its corporate headquarters in Camden, New Jersey. The Company was qualified to receive the tax credits over a 10-year period commencing in 2019.

In the first quarter of 2024, the NJEDA issued the utilization certificate for the 2021 tax credits to the Company in the amount of $16 million. The Company sold the tax credits to an external party for $15 million. As of June 30, 2025, the Company had current assets of $15 million included in Other and $75 million of long-term assets included in Other on the Consolidated Balance Sheets for the 2023 through 2028 tax credits. As of December 31, 2024, the Company had no current assets and $90 million of long-term assets included in Other on the Consolidated Balance Sheets for the 2023 through 2028 tax credits. The Company has made the necessary annual filings for the years ended December 31, 2024 and 2023. The submitted filings are under review by the NJEDA and it is expected that the Company will receive final NJEDA approval and monetize the 2023 tax credits in 2025 and the 2024 tax credits in 2026.

Cash, Cash Equivalents and Restricted Funds

Presented in the table below is a reconciliation of the cash and cash equivalents and restricted funds amounts as presented on the Consolidated Balance Sheets to the sum of such amounts presented on the Consolidated Statements of Cash Flows for the periods ended June 30:

	2025	2024
Cash and cash equivalents	$ 94	$ 48
Restricted funds	17	50
Restricted funds included in other long-term assets	24	—
Cash, cash equivalents and restricted funds as presented on the Consolidated Statements of Cash Flows	$ 135	$ 98

Allowance for Uncollectible Accounts

Allowances for uncollectible accounts are maintained for estimated probable losses resulting from the Company's inability to collect receivables from customers. Accounts that are outstanding longer than the payment terms are considered past due. A number of factors are considered in determining the allowance for uncollectible accounts, including the length of time receivables are past due, previous loss history, current economic and societal conditions and reasonable and supportable forecasts that affect the collectability of receivables from customers. The Company generally writes off accounts when they become uncollectible or are over a certain number of days outstanding.

Presented in the table below are the changes in the allowance for uncollectible accounts for the six months ended June 30:

	2025	2024
Balance as of January 1	$ (53)	$ (51)
Amounts charged to expense	(19)	(8)
Amounts written off	16	11
Balance as of June 30	$ (56)	$ (48)

Reclassifications

Certain reclassifications have been made to prior periods in the Consolidated Financial Statements and Notes to conform to the current presentation.

Note 3: Regulatory Matters

General Rate Cases

The table below summarizes the annualized incremental revenues, assuming a constant sales volume and customer count, resulting from general rate case authorizations that are effective during 2025. The amounts include reductions for the amortization of the excess accumulated deferred income taxes ("EADIT") that are generally offset in income tax expense.

	Effective Date	Amount
General rate cases by state:		
Hawaii	August 2025 (a)	$ 1
Iowa	August 1, 2025 (b)	13
Missouri	May 28, 2025	63
Indiana, Step Increase	May 14, 2025	17
Virginia	February 24, 2025 (c)	15
Tennessee	January 21, 2025	1
Illinois	January 1, 2025	105
California, Step Increase	January 1, 2025	17
Total general rate case authorizations		$ 232

(a) New rates are expected to be effective in early August 2025, upon filing the revised tariff sheets and rate schedules.

(b) Interim rates of $5 million were effective May 11, 2024. The Iowa Utilities Commission issued its final order on May 21, 2025.

(c) Interim rates were effective May 1, 2024, and the difference between interim and final approved rates were subject to refund. The Virginia State Corporation Commission issued its final order on February 24, 2025.

On July 24, 2025, the Hawaii Public Utilities Commission issued a final order adopting the settlement agreement filed by the Company's Hawaii subsidiary on April 25, 2025, with respect to its general rate case filed on August 2, 2024. The final order approves an annualized increase of approximately $1 million in wastewater revenue, which is based on a return on equity of 9.75% and a capital structure with an equity component of 52.11% and a debt component of 47.89%. New rates are expected to be effective in early August 2025, upon filing the revised tariff sheets and rate schedules.

On May 21, 2025, the Iowa Utilities Commission issued a final order approving the adjustment of base rates requested in a general rate case originally filed on May 1, 2024, by the Company's Iowa subsidiary. The general rate case order approved a $13 million annualized increase in water and wastewater system revenues, excluding infrastructure surcharges of $1 million, based on an authorized return on equity of 9.60%, authorized rate base of $262 million, and a capital structure with a common equity component of 52.57% and a long-term debt component of 47.43%. The requested annualized revenue increase was driven primarily by over $157 million of capital investments made and expected to be made by the Iowa subsidiary through March 2026. Interim rates of $5 million were effective May 11, 2024, with the remaining increase in annualized water and wastewater system revenues of $8 million effective on August 1, 2025.

On May 14, 2025, the Company's Indiana subsidiary's third step increase of $17 million in annualized water and wastewater system revenues became effective. The Indiana subsidiary filed the general rate case on March 31, 2023, and on February 14, 2024, the Indiana Utility Regulatory Commission issued an order that approved a $65 million annualized increase in water and wastewater system revenues, excluding previously recovered infrastructure surcharges. The annualized revenue increase included three step increases, with $25 million of the increase included in rates in February 2024, $23 million in May 2024, and $17 million in May 2025.

On May 7, 2025, the Missouri Public Service Commission (the "MoPSC") issued an order approving without modification the stipulation and agreement (the "Stipulation") with respect to a general rate case filed on July 1, 2024, by the Company's Missouri subsidiary. The Stipulation was entered into on March 17, 2025, with parties including the staff of the MoPSC and the Office of the Public Counsel. The general rate case order approves a $63 million annualized increase in water and wastewater revenues, excluding $63 million in infrastructure surcharges. The requested annualized revenue increase was driven primarily by $1.1 billion of capital investments completed by the Missouri subsidiary from January 2023 through May 2025. For purposes of the general rate case, the Missouri subsidiary's view of its rate base is $3.2 billion, and its view as to its return on equity and common equity ratio (each of which has been determined based on the order but was not disclosed therein) is 9.75% and 50.00%, respectively.

On February 24, 2025, the Virginia State Corporation Commission issued an order approving the September 19, 2024 joint "black box" settlement of the general rate case filed by the Company's Virginia subsidiary. The general rate case order approves the stipulated $15 million annualized increase in water and wastewater revenues. Interim water and wastewater rates became effective May 1, 2024, with the difference between interim and final approved rates subject to refund. The requested annualized revenue increase was driven primarily by more than $110 million of incremental capital investments made between May 2023 and April 2025. For purposes of the general rate case, the Virginia subsidiary's view of its rate base is $369 million. The general rate case order also approved, solely for purposes of the Virginia subsidiary's future filings requiring a stated cost of capital and/or capital structure (including its annual information and water and wastewater infrastructure surcharge filings), a return on equity of 9.70% and a capital structure consisting of an equity component of 45.67% and a debt and other component of 54.33%, which also represents the Virginia subsidiary's view of its return on equity and capital structure in this general rate case.

On January 21, 2025, the Tennessee Public Utility Commission (the "TPUC") approved a motion authorizing an adjustment of water base rates requested in a rate case filed on May 1, 2024 by the Company's Tennessee subsidiary. The TPUC approved an increase of $1 million in annualized revenues, excluding previously recovered infrastructure surcharges of $18 million, based on an authorized return on equity of 9.70%, authorized rate base of approximately $300 million, a common equity ratio of 44.19% and a debt ratio of 55.81%. This adjustment took effect on January 21, 2025, and is driven primarily by approximately $173 million in capital investments completed and planned by the Tennessee subsidiary through December 2025.

On January 14, 2025, the California Public Utilities Commission (the "CPUC") granted the Company's California subsidiary's request for a one-year extension of its cost of capital filing to May 1, 2026, to set its authorized cost of capital beginning January 1, 2027, and maintain its current authorized cost of capital through 2026.

On December 5, 2024, the Illinois Commerce Commission issued a final order approving the adjustment of base rates requested in a rate case originally filed on January 25, 2024, by the Company's Illinois subsidiary. The general rate case order approved an increase of $105 million in annualized water and wastewater system revenues, excluding previously recovered infrastructure surcharges of $5 million, based on an authorized return on equity of 9.84%, authorized rate base of $2.2 billion, and a capital structure with an equity component of 49.00% and a debt component of 51.00%. The increase was effective January 1, 2025, and is driven primarily by approximately $557 million in capital investments completed and planned by the Illinois subsidiary from January 2024 through December 2025.

On December 5, 2024, the CPUC approved a final decision adopting the terms of a partial settlement agreement filed on November 17, 2023, in the Company's California subsidiary's general rate case originally filed on July 1, 2022. Incorporating the then currently effective return on equity of 10.20%, the decision provides incremental annualized water and wastewater revenues of $21 million in the 2024 test year, and an estimated $16 million in the 2025 escalation year and $16 million in the 2026 attrition year. The 2024 rates were implemented retroactively to January 1, 2024. In addition, the CPUC denied the California subsidiary's proposed Water Resources Sustainability Plan decoupling mechanism but approved continuation of its currently effective Annual Consumption Adjustment Mechanism. On December 12, 2024, the California subsidiary filed an application for rehearing of the CPUC's denial of the proposed Water Resources Sustainability Plan decoupling mechanism, and on May 23, 2025, the CPUC issued its decision denying the application for rehearing.

Pending General Rate Case Filings

On July 1, 2025, the Company's California subsidiary filed an application with the CPUC to set new water and wastewater rates in each of its service areas for 2027 through 2029. The application is seeking an increase of $63 million compared to authorized 2025 revenue, and a total increase in revenue over the 2027 to 2029 period of $111 million. The requested annualized incremental revenue is driven primarily by approximately $750 million of capital investments completed and planned by the California subsidiary through 2025 to 2028. If approved by the CPUC, the new rates would take effect on January 1, 2027. The application also requests approval of a Fixed Cost Recovery Account, which is intended to be a full decoupling mechanism that would allow the Company's California subsidiary to recover authorized fixed costs, regardless of sales volume, while also providing incentives, via progressive conservation-oriented rate design, for customers to use water more efficiently. Independent of the pending rate case, California Senate Bill 473, which requires the CPUC to ensure variances between forecasted and actual sales do not result in material overcollections or undercollections by water corporations, has passed out of the California Senate and is currently awaiting action in the California Assembly Appropriations Committee.

On May 16, 2025, the Company's Kentucky subsidiary filed a general rate case requesting approximately $27 million in annualized incremental revenues, excluding infrastructure surcharges of $10 million, which is based on a proposed return on equity of 10.75% and a proposed capital structure with a common equity component of 52.26% and a debt component of 47.74%. The requested annualized incremental revenue is being driven primarily by approximately $212 million of capital investments completed and planned by the Kentucky subsidiary from February 2025 through December 2026. As provided by statutory authority, the Kentucky subsidiary anticipates that it will put into effect proposed rates on an interim basis seven months after the filing of this case, or December 16, 2025, and the difference between the interim and final approved rates will be subject to refund. The request is subject to approval by the Kentucky Public Service Commission, and the general rate case is expected to be completed by the end of the first quarter of 2026.

On May 5, 2025, the Company's West Virginia subsidiary filed a general rate case requesting approximately $48 million in aggregate annualized incremental revenues, excluding infrastructure surcharges of $13 million, which would include two step increases, with $33 million to be included in rates in March 2026, and $15 million to be included in rates in March 2027. The request is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 50.80% and 50.97%, respectively, for each of the two steps. The requested annualized incremental revenue is driven primarily by more than $300 million of capital investments completed and planned by the West Virginia subsidiary from March 2024 through February 2027. The request is subject to approval by the Public Service Commission of West Virginia, and the general rate case is expected to be completed by the end of February 2026.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective during 2025:

	Effective Date	Amount
Infrastructure surcharges by state:		
New Jersey	May 30, 2025	$ 15
Missouri	February 7, 2025	17
Kentucky	January 1, 2025	2
West Virginia	January 1, 2025	4
Total infrastructure surcharge authorizations		$ 38

Pending Infrastructure Surcharge Filings

On June 30, 2025, the Company's West Virginia subsidiary filed an infrastructure surcharge proceeding requesting $3 million in additional annualized revenues.

Other Regulatory Matters

The Pennsylvania Public Utility Commission (the "PaPUC"), as part of its July 22, 2024, approval of the general rate case filed by the Company's Pennsylvania subsidiary on November 8, 2023, initiated an investigation into certain reported water service and water quality issues in the Pennsylvania subsidiary's Northeastern service territory, which reports had been provided during public input hearings convened in the general rate case. The PaPUC is expected to conclude the investigation in the third quarter of 2025.

Note 4: Revenue Recognition

Disaggregated Revenues

The Company's primary business involves the ownership of utilities that provide water and wastewater services to residential, commercial, industrial, public authority, fire service and sale for resale customers, collectively presented as the "Regulated Businesses." The Company also operates other businesses that provide water and wastewater services to the U.S. government on military installations, as well as municipalities, collectively presented throughout this Form 10-Q within "Other."

Presented in the table below are operating revenues disaggregated for the three months ended June 30, 2025:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	$ 637	$ —	$ 637
Commercial	243	—	243
Fire service	48	—	48
Industrial	46	—	46
Public and other	78	—	78
Total water services	1,052	—	1,052
Wastewater services:			
Residential	71	—	71
Commercial	21	—	21
Industrial	5	—	5
Public and other	10	—	10
Total wastewater services	107	—	107
Miscellaneous utility charges	14	—	14
Alternative revenue programs	—	4	4
Lease contract revenue	—	1	1
Total Regulated Businesses	1,173	5	1,178
Other	99	(1)	98
Total operating revenues	$ 1,272	$ 4	$ 1,276

(a) Includes revenues associated with alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of Accounting Standards Codification Topic 606, *Revenue From Contracts With Customers* (“ASC 606”), and accounted for under other existing GAAP.

Presented in the table below are operating revenues disaggregated for the three months ended June 30, 2024:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	$ 579	$ 1	$ 580
Commercial	216	1	217

Total operating revenues	$ 2,147	$ 13	$ 2,160

(a) Includes revenues associated with provisional rates, alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of ASC 606, and accounted for under other existing GAAP.

Contract Balances

Contract assets and contract liabilities are the result of timing differences between revenue recognition, billings, and cash collections. In the Company's Military Services Group ("MSG"), certain contracts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals or upon achievement of contractual milestones. Contract assets are recorded when billing occurs subsequent to revenue recognition and are reclassified to accounts receivable when billed and the right to consideration becomes unconditional. Contract liabilities are recorded when the Company receives advances from customers prior to satisfying contractual performance obligations, particularly for construction contracts, and are recognized as revenue when the associated performance obligations are satisfied.

Contract assets of $149 million and $84 million are included in unbilled revenues on the Consolidated Balance Sheets as of June 30, 2025, and December 31, 2024, respectively. Also, contract assets of $5 million and $39 million are included in other long-term assets on the Consolidated Balance Sheets as of June 30, 2025, and December 31, 2024, respectively. Contract liabilities of $25 million and $40 million are included in other current liabilities on the Consolidated Balance Sheets as of June 30, 2025, and December 31, 2024, respectively. Also, contract liabilities of $24 million and $14 million are included in other long-term liabilities on the Consolidated Balance Sheets as of June 30, 2025, and December 31, 2024, respectively. Revenues recognized for the six months ended June 30, 2025 and 2024, from amounts included in contract liabilities were $46 million and $49 million, respectively.

Remaining Performance Obligations

Remaining performance obligations ("RPOs") represent revenues the Company expects to recognize in the future from contracts that are in progress. The Company enters into agreements for the provision of services to water and wastewater facilities for the U.S. military, municipalities and other customers. As of June 30, 2025, the Company's operation and maintenance ("O&M") and capital improvement contracts have RPOs. Contracts with the U.S. government for work on various military installations expire between 2051 and 2073 and have RPOs of $7.4 billion as of June 30, 2025, as measured by estimated remaining contract revenue. Such contracts are subject to customary termination provisions held by the U.S. government, prior to the agreed-upon contract expiration. Contracts with municipalities and commercial customers expire between 2026 and 2038 and have RPOs of $560 million as of June 30, 2025, as measured by estimated remaining contract revenue.

Note 5: Acquisitions and Divestitures

Regulated Businesses

Closed Acquisitions

During the six months ended June 30, 2025, the Company closed on seven acquisitions of various regulated water and wastewater systems for a total aggregate purchase price of $18 million, which added approximately 7,600 water and wastewater customers. This includes the Company's acquisition of the Audubon Water Company effective May 28, 2025, for a total consideration of $7 million, in the form of 48,702 shares of parent company common stock. Assets acquired from the seven acquisitions, principally utility plant, totaled $17 million and liabilities assumed totaled $6 million. The Company recorded goodwill of $7 million associated with three of its acquisitions, which is reported in the Company's Regulated Businesses segment. Four of these acquisitions were accounted for as a business combination and the purchase price allocation will be finalized once the valuation of assets acquired has been completed, no later than one year after the acquisition date.

The pro forma impact of the Company's business combinations was not material to the Consolidated Statements of Operations for the periods ended June 30, 2025 and 2024.

Secured Seller Promissory Note from the Sale of Homeowner Services Group

On December 9, 2021 (the "Closing Date"), the Company sold all of the equity interests in subsidiaries that comprised the Homeowner Services Group ("HOS") to a wholly owned subsidiary (the "Buyer") of funds advised by Apax Partners LLP, a global private equity advisory firm, for total consideration of approximately $1.275 billion. The outstanding consideration as of June 30, 2025, is a secured seller note payable in cash and issued by the Buyer in the principal amount of $795 million, with an interest rate of 10.00% per year. The Company recognized $20 million of interest income during each of the three months ended June 30, 2025 and 2024, and $40 million and $37 million of interest income during the six months ended June 30, 2025 and 2024, respectively, from the secured seller note. The final maturity date of the secured seller note is December 9, 2026.

The secured seller note may not be repaid at the Buyer's election (except in certain limited circumstances) before the fourth anniversary of the Closing Date. If the Buyer seeks to repay the secured seller note in breach of this non-call provision, an event of default will occur under the secured seller note and the Company may, among other actions, demand repayment in full together with a premium of 105.5% of the outstanding principal amount of the loan and a customary "make-whole" payment.

Note 6: Shareholders' Equity

Accumulated Other Comprehensive Loss

Presented in the table below are the changes in accumulated other comprehensive income (loss) by component, net of tax, for the three months ended June 30, 2025 and 2024, respectively:

	Defined Benefit Pension Plans					
	Employee Benefit Plan Funded Status	Amortization of Prior Service Cost	Amortization of Actuarial Loss	Gain (Loss) on Cash Flow Hedges	Gain (Loss) on Fixed-Income Securities	Accumulated Other Comprehensive Income (Loss)
Balance as of March 31, 2025	$ (95)	$ 1	$ 74	$ 22	$ —	$ 2
Other comprehensive (loss) income before reclassifications	—	—	—	3	(1)	2
Amounts reclassified from accumulated other comprehensive income (loss)	—	—	1	—	—	1
Net other comprehensive income (loss)	—	—	1	3	(1)	3
Balance as of June 30, 2025	$ (95)	$ 1	$ 75	$ 25	$ (1)	$ 5
Balance as of March 31, 2024	$ (96)	$ 1	$ 74	$ 10	$ 3	$ (8)
Amounts reclassified from accumulated other comprehensive income	—	—	1	—	—	1
Net other comprehensive income (loss)	—	—	1	—	—	1
Balance as of June 30, 2024	$ (96)	$ 1	$ 75	$ 10	$ 3	$ (7)

Presented in the table below are the changes in accumulated other comprehensive income (loss) by component, net of tax, for the six months ended June 30, 2025 and 2024, respectively:

	Defined Benefit Pension Plans					
	Employee Benefit Plan Funded Status	Amortization of Prior Service Cost	Amortization of Actuarial Loss	Gain (Loss) on Cash Flow Hedges	Gain (Loss) on Fixed-Income Securities	Accumulated Other Comprehensive Income (Loss)
Balance as of December 31, 2024	$ (95)	$ 1	$ 74	$ 30	$ 2	$ 12
Other comprehensive (loss) income before reclassifications	—	—	—	(5)	1	(4)
Amounts reclassified from accumulated other comprehensive income (loss)	—	—	1	—	(4)	(3)
Net other comprehensive income (loss)	—	—	1	(5)	(3)	(7)
Balance as of June 30, 2025	$ (95)	$ 1	$ 75	$ 25	$ (1)	$ 5
Balance as of December 31, 2023	$ (96)	$ 1	$ 74	$ (9)	$ 4	$ (26)
Other comprehensive income (loss) before reclassifications	—	—	—	19	(1)	18
Amounts reclassified from accumulated other comprehensive income	—	—	1	—	—	1
Net other comprehensive income (loss)	—	—	1	19	(1)	19
Balance as of June 30, 2024	$ (96)	$ 1	$ 75	$ 10	$ 3	$ (7)

The Company does not reclassify the amortization of defined benefit pension cost components from accumulated other comprehensive income (loss) directly to net income in its entirety, as a portion of these costs have been deferred as a regulatory asset. These accumulated other comprehensive income (loss) components are included in the computation of net periodic pension cost.

The amortization of the gain (loss) on cash flow hedges is reclassified to net income during the period incurred and is included in Interest expense in the accompanying Consolidated Statements of Operations.

An unrealized gain (loss) on available-for-sale fixed-income securities is reclassified to net income upon sale of the securities as a realized gain or loss and is included in Other, net in the accompanying Consolidated Statements of Operations.

Dividends

On June 3, 2025, the Company paid a quarterly cash dividend of $0.8275 per share to shareholders of record as of May 13, 2025.

On July 30, 2025, the Company's Board of Directors declared a quarterly cash dividend payment of $0.8275 per share, payable on September 3, 2025, to shareholders of record as of August 12, 2025. Future dividends, when and as declared at the discretion of the Board of Directors, will be dependent upon future earnings and cash flows, compliance with various regulatory, financial and legal requirements, and other factors. See Note 9—Shareholders' Equity in the Notes to Consolidated Financial Statements in the Company's Form 10-K for additional information regarding the payment of dividends on the Company's common stock.

Note 7: Long-Term Debt

On February 27, 2025, American Water Capital Corp. ("AWCC") completed the sale of $800 million aggregate principal amount of its 5.250% Senior Notes due 2035. At the closing of this offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $792 million. AWCC used the net proceeds of the offering (i) to lend funds to American Water and the Regulated Businesses; (ii) to repay at maturity AWCC's 3.400% Senior Notes due 2025; (iii) to repay commercial paper obligations of AWCC; and (iv) for general corporate purposes.

In addition to the notes issued by AWCC as described above, during the six months ended June 30, 2025, the Company's regulated subsidiaries issued in the aggregate $79 million of private activity bonds and government funded debt in multiple transactions with annual interest rates ranging from 0.00% to 3.71%, a weighted average interest rate of 2.47%, and maturity dates ranging from 2025 through 2054. The private activity bonds and government funded debt issued by the Company's regulated subsidiaries during the six months ended June 30, 2025, were collateralized. During the six months ended June 30, 2025, AWCC and the Company's regulated subsidiaries made sinking fund payments for, repaid at maturity, or settled $633 million in aggregate principal amount of outstanding long-term debt, with annual interest rates ranging from 0.00% to 8.58%, a weighted average interest rate of 2.97%, and maturity dates ranging from 2025 to 2061.

As of June 30, 2025, the Company had five treasury lock agreements, with a term of 30 years and an aggregate notional amount of $180 million, to reduce interest rate exposure on expected future debt issuances. These treasury lock agreements terminate in December 2025 and March 2026 and have an average fixed interest rate of 4.73%. In July 2025, the Company entered into four treasury lock agreements, with a term of 30 years and an aggregate notional amount of $170 million, to reduce interest rate exposure on expected future debt issuances. These treasury lock agreements terminate in September 2025 and have an average fixed interest rate of 4.93%. The Company designated these treasury lock agreements as cash flow hedges, measured at fair value with the gain or loss recorded in accumulated other comprehensive income.

In May 2025, the Company terminated two treasury lock agreements designated as cash flow hedges, with a term of 30 years and an aggregate notional amount totaling $100 million, realizing a pre-tax net gain of $12 million recorded in accumulated other comprehensive income. The gain will reduce interest rate exposure on any future debt issuance in 2025 and will be amortized through Interest expense over a 30-year period, in accordance with the tenor of the notes.

In February 2025, the Company terminated 10 treasury lock agreements designated as cash flow hedges, with a term of 10 years and an aggregate notional amount totaling $500 million, realizing a pre-tax net gain of $3 million recorded in accumulated other comprehensive income. The gain will be amortized through Interest expense over a 10-year period, in accordance with the tenor of the notes issued on February 27, 2025.

No ineffectiveness was recognized on hedging instruments for the three and six months ended June 30, 2025 or 2024.

On June 29, 2023, AWCC issued $1,035 million aggregate principal amount of 3.625% Exchangeable Senior Notes due 2026 (the "Notes"). AWCC received net proceeds of approximately $1,022 million, after deduction of underwriting discounts and commissions but before deduction of offering expenses payable by AWCC. The Notes will mature on June 15, 2026 (the "Maturity Date"), unless earlier exchanged or repurchased. As of June 30, 2025, the Notes were included in Current portion of long-term debt on the Consolidated Balance Sheets.

The Notes are exchangeable at an initial exchange rate of 5.8213 shares of parent company's common stock per $1,000 principal amount of Notes (equivalent to an initial exchange price of approximately $171.78 per share of common stock). The initial exchange rate of the Notes is subject to adjustment as provided in the indenture pursuant to which the Notes were issued (the "Note Indenture"). Prior to the close of business on the business day immediately preceding March 15, 2026, the Notes are exchangeable at the option of the noteholders only upon the satisfaction of specified conditions and during certain periods described in the Note Indenture. On or after March 15, 2026, until the close of business on the business day immediately preceding the Maturity Date, the Notes will be exchangeable at the option of the noteholders at any time regardless of these conditions or periods. Upon any exchange of the Notes, AWCC will (i) pay cash up to the aggregate principal amount of the Notes and (ii) pay or deliver (or cause to be delivered), as the case may be, cash, shares of parent company's common stock, or a combination of cash and shares of such common stock, at AWCC's election, in respect of the remainder, if any, of AWCC's exchange obligation in excess of the aggregate principal amount of the Notes being exchanged.

AWCC may not redeem the Notes prior to the Maturity Date, and no sinking fund is provided for the Notes. Subject to certain conditions, holders of the Notes will have the right to require AWCC to repurchase all or a portion of their Notes upon the occurrence of a fundamental change, as defined in the Note Indenture, at a repurchase price of 100% of their principal amount plus any accrued and unpaid interest.

Note 8: Short-Term Debt

Liquidity needs for capital investment, working capital and other financial commitments are generally funded through cash flows from operations, public and private debt offerings, issuances of commercial paper and equity and, if and to the extent necessary, borrowings under the AWCC revolving credit facility. AWCC maintains an unsecured revolving credit facility which provides $2.75 billion in aggregate total commitments from a diversified group of financial institutions. The termination date of the credit agreement with respect to AWCC's revolving credit facility is October 26, 2029. The revolving credit facility is used principally to support AWCC's commercial paper program, to provide additional liquidity support and to provide a sub-limit for the issuance of up to $150 million in letters of credit. Subject to satisfying certain conditions, the credit agreement permits AWCC to increase the maximum commitment under the facility by up to an aggregate of $500 million.

Short-term debt consists of commercial paper borrowings totaling $1,591 million and $880 million as of June 30, 2025, and December 31, 2024, respectively, or net of discount $1,589 million and $879 million as of June 30, 2025, and December 31, 2024, respectively. The weighted-average interest rate on AWCC's outstanding short-term borrowings was approximately 4.59% and 4.65% at June 30, 2025, and December 31, 2024, respectively. At June 30, 2025, and December 31, 2024, AWCC had no outstanding borrowings under the revolving credit facility and there were no commercial paper borrowings outstanding with maturities greater than three months.

Presented in the tables below are the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each:

	As of June 30, 2025		
	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(1,591)	(84)	(1,675)
Remaining availability as of June 30, 2025	$ 1,009	$ 66	$ 1,075

(a) Total remaining availability of $1.1 billion as of June 30, 2025, was accessible through revolver draws.

	As of December 31, 2024		
	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(880)	(82)	(962)
Remaining availability as of December 31, 2024	$ 1,720	$ 68	$ 1,788

(a) Total remaining availability of $1.8 billion as of December 31, 2024, was accessible through revolver draws.

Presented in the table below is the Company's total available liquidity as of June 30, 2025, and December 31, 2024, respectively:

	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of June 30, 2025	$ 94	$ 1,075	$ 1,169
Available liquidity as of December 31, 2024	$ 96	$ 1,788	$ 1,884

Note 9: Income Taxes

The Company's effective income tax rate was 23.1% and 23.3% for the three months ended June 30, 2025 and 2024, respectively, and 23.5% and 23.4% for the six months ended June 30, 2025 and 2024, respectively.

On July 4, 2025, the One Big Beautiful Bill Act (the "OBBB") was signed into law. The OBBB includes several corporate tax-related provisions. Key changes include the permanent extension of certain provisions from the Tax Cuts and Jobs Act of 2017, such as 100% bonus depreciation and Section 163(j) interest limitation exception for regulated utilities, as well as the immediate expensing of domestic research and development costs, and the introduction of a new charitable contribution floor for corporations. The Company does not expect the OBBB will materially impact the Company's Consolidated Financial Statements. The Company will continue to monitor the implementation and any related guidance.

On August 16, 2022, the Inflation Reduction Act of 2022 (the "IRA") was signed into law. The IRA contains a 15% Corporate Alternative Minimum Tax ("CAMT") provision on applicable corporations effective January 1, 2023. To determine if a company is considered an applicable corporation subject to CAMT, the company's average adjusted financial statement income ("AFSI") for the three consecutive years preceding the tax year must exceed $1.0 billion. An applicable corporation must make several adjustments to net income when determining AFSI. A corporation paying CAMT is eligible for a future tax credit, which can be carried forward indefinitely and utilized when regular tax exceeds CAMT. Based on current guidance, the Company is an applicable corporation subject to CAMT beginning in 2024. The Company included the CAMT liability in its 2024 extension payment on April 15, 2025. As of June 30, 2025, the Company has a CAMT credit carryforward of $151 million.

On June 2, 2025, the Internal Revenue Service ("IRS") and the U.S. Treasury issued Notice 2025-27, allowing corporate taxpayers to exclude amounts attributable to the CAMT liability, without penalty, from estimated tax payments with respect to a taxable year that begins after December 31, 2024, and before January 1, 2026. The Company plans to include the CAMT liability in its 2025 extension payment on April 15, 2026. The Company will continue to assess the impacts of the IRA as the U.S. Treasury and the IRS provide further guidance.

Note 10: Pension and Other Postretirement Benefits

Presented in the table below are the components of net periodic benefit costs:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2025	2024	2025	2024
Components of net periodic pension benefit cost:				
Service cost	$ 4	$ 4	$ 7	$ 9
Interest cost	22	21	43	42
Expected return on plan assets	(23)	(23)	(45)	(47)
Amortization of prior service credit	(1)	(1)	(2)	(2)
Amortization of actuarial loss	6	6	11	12
Net periodic pension benefit cost	$ 8	$ 7	$ 14	$ 14
Components of net periodic other postretirement benefit credit:				
Service cost	$ —	$ —	$ —	$ 1
Interest cost	3	3	6	6
Expected return on plan assets	(3)	(3)	(6)	(6)
Amortization of prior service credit	(8)	(8)	(16)	(16)
Net periodic other postretirement benefit credit	$ (8)	$ (8)	$ (16)	$ (15)

The Company contributed $11 million and $22 million for the funding of its defined benefit pension plans for the three and six months ended June 30, 2025, respectively, and contributed $11 million and $22 million for the funding of its defined benefit pension plans for the three and six months ended June 30, 2024, respectively. The Company expects to make additional pension contributions to the plan trusts of $22 million during the remainder of 2025.

Note 11: Commitments and Contingencies

Contingencies

The Company is routinely involved in legal actions incident to the normal conduct of its business. As of June 30, 2025, the Company has accrued approximately $19 million of probable loss contingencies and has estimated that the maximum amount of loss associated with reasonably possible loss contingencies arising out of such legal actions, which can be reasonably estimated, is $4 million. For certain legal actions, the Company is unable to estimate possible losses. The Company believes that damages or settlements, if any, recovered by plaintiffs in such legal actions, other than as described in this Note 11 —Commitments and Contingencies, will not have a material adverse effect on the Company.

Dunbar, West Virginia Class Action Litigation Proposed Settlement

On the evening of June 23, 2015, a 36-inch pre-stressed concrete transmission water main, installed in the early 1970s, failed. The water main is part of the West Relay pumping station located in the City of Dunbar, West Virginia and owned by the Company's West Virginia subsidiary ("WVAWC"). The failure of the main caused water outages and low pressure for up to approximately 25,000 WVAWC customers. In the early morning hours of June 25, 2015, crews completed a repair, but that same day, the repair developed a leak. On June 26, 2015, a second repair was completed, and service was restored that day to approximately 80% of the impacted customers, and to the remaining approximately 20% by the next morning. The second repair showed signs of leaking, but the water main was usable until June 29, 2015, to allow tanks to refill. The system was reconfigured to maintain service to all but approximately 3,000 customers while a final repair was being completed safely on June 30, 2015. Water service was fully restored by July 1, 2015, to all customers affected by this event.

On June 2, 2017, a complaint captioned *Jeffries, et al. v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of residents and business owners who lost water service or pressure as a result of the Dunbar main break. The complaint alleges breach of contract by WVAWC for failure to supply water, violation of West Virginia law regarding the sufficiency of WVAWC's facilities and negligence by WVAWC in the design, maintenance and operation of the water system. The *Jeffries* plaintiffs seek unspecified alleged damages on behalf of the class for lost profits, annoyance and inconvenience, and loss of use, as well as punitive damages for willful, reckless and wanton behavior in not addressing the risk of pipe failure and a large outage.

In February 2020, the *Jeffries* plaintiffs filed a motion seeking class certification on the issues of breach of contract and negligence, and to determine the applicability of punitive damages and a multiplier for those damages if imposed. In July 2020, the Circuit Court entered an order granting the *Jeffries* plaintiffs' motion for certification of a class regarding certain liability issues but denying certification of a class to determine a punitive damages multiplier. Trial in this matter had been scheduled for January 2025.

On January 17, 2025, before trial commenced, the parties notified the Circuit Court that an agreement in principle to settle this litigation was reached among the parties. On May 2, 2025, the parties jointly filed with the Circuit Court a proposed class action settlement agreement (the "Dunbar Settlement") with respect to claims by the *Jeffries* plaintiffs, and, on May 5, 2025, the Circuit Court issued an order granting preliminary approval of the Dunbar Settlement. Under the terms of the Dunbar Settlement, WVAWC has not admitted, and will not admit, any fault or liability for any of the allegations made by the *Jeffries* plaintiffs. The proposed maximum pre-tax amount of the Dunbar Settlement is approximately $18 million, of which the Company currently estimates that approximately $5 million would be contributed by the Company and WVAWC, and the remainder would be contributed by certain of the Company's general liability insurance carriers. The actual total amount to be paid to claimants through the Dunbar Settlement will depend upon the claims submitted and approved through the claims process that is now underway, which includes, among other things: notice that has been provided to the class; obtaining, reviewing and processing properly submitted claims from potential claimants; and handling any requests to opt out from or object to the Dunbar Settlement. Following the completion of the claims process, the Circuit Court will hold a hearing regarding its final approval of the Dunbar Settlement, which is currently scheduled for September 11, 2025.

No contribution by the Company or WVAWC for claims associated with the Dunbar Settlement will be funded unless and until, and to the extent required by, a settlement agreement that receives final approval from the Circuit Court. The final amount of the Company's and WVAWC's contributions to the Dunbar Settlement remains subject to uncertainty and will depend in part on the amount of claims ultimately submitted and approved through the above-referenced claims process; however, the Company does not currently anticipate that its maximum liability will exceed $5 million. As a result, the Company previously recorded a charge to earnings, net of expected insurance receivables, of $5.0 million ($3.9 million after-tax), which has been maintained as of June 30, 2025. The Company intends to fund its and WVAWC's contributions to the Dunbar Settlement through existing sources of liquidity.

Chattanooga, Tennessee Class Action Litigation

On September 12, 2019, the Company's Tennessee subsidiary ("TAWC"), experienced a leak in a 36-inch water transmission main, which caused service fluctuations or interruptions to TAWC customers and the issuance of a boil water notice. TAWC repaired the main by early morning on September 14, 2019, and restored full water service by the afternoon of September 15, 2019, with the boil water notice lifted for all customers on September 16, 2019.

On September 17, 2019, a complaint captioned *Bruce, et al. v. American Water Works Company, Inc., et al.* was filed in the Circuit Court of Hamilton County, Tennessee against TAWC, the Company and American Water Works Service Company, Inc. ("Service Company" and, together with TAWC and the Company, collectively, the "Tennessee-American Water Defendants"), on behalf of a proposed class of individuals or entities who lost water service or suffered monetary losses as a result of the Chattanooga incident (the "Tennessee Plaintiffs"). The complaint alleged breach of contract and negligence against the Tennessee-American Water Defendants, as well as an equitable remedy of piercing the corporate veil. In the complaint as originally filed, the Tennessee Plaintiffs were seeking an award of unspecified alleged damages for wage losses, business and economic losses, out-of-pocket expenses, loss of use and enjoyment of property and annoyance and inconvenience, as well as punitive damages, attorneys' fees and pre- and post-judgment interest.

In September 2020, the court dismissed all of the Tennessee Plaintiffs' claims in their complaint, except for the breach of contract claims against TAWC, which remain pending. In October 2020, TAWC answered the complaint, and the parties have been engaging in discovery. In January 2023, after hearing oral argument, the court issued an oral ruling denying the Tennessee Plaintiffs' motion for class certification. In February 2023, the Tennessee Plaintiffs sought reconsideration of the ruling by the court, and any final ruling is appealable to the Tennessee Court of Appeals, as allowed under Tennessee law. In September 2023, the court upheld its prior ruling but gave the Tennessee Plaintiffs the option to file an amended class definition. In October 2023, the Tennessee Plaintiffs filed an amended class definition seeking certification of a business customer-only class. On June 14, 2024, the court issued its written order denying the Tennessee Plaintiffs' amended class and incorporating its denial of certification of the original residential class. On June 21, 2024, the Tennessee Plaintiffs appealed both of the court's orders denying class certification. This appeal remains pending.

The Company and TAWC believe that TAWC has valid, meritorious defenses to the claims raised in this class action complaint. TAWC will continue to vigorously defend itself against these allegations. Given the current stage of this proceeding, the Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of loss related to this proceeding.

Mountaineer Gas Company Main Break

During the afternoon of November 10, 2023, WVAWC was informed that an 8-inch ductile iron water main owned by WVAWC, located on the West Side of Charleston, West Virginia and originally installed in approximately 1989, experienced a leak. In the early morning hours of November 11, 2023, WVAWC crews successfully completed a repair to the water main. A precautionary boil water advisory was issued the same day to approximately 300 WVAWC customers and ultimately lifted on November 12, 2023.

On November 10, 2023, a break was reported in a low-pressure natural gas main located near the affected WVAWC water main, and an inflow of water into the natural gas main and associated delivery pipelines occurred. The natural gas main and pipelines are owned by Mountaineer Gas Company, a regulated natural gas distribution company serving over 220,000 customers in West Virginia ("Mountaineer Gas"). The resulting inflow of water into the natural gas main and related pipelines resulted in a loss of natural gas service to approximately 1,500 Mountaineer Gas customers, as well as water entering customer service lines and certain natural gas appliances owned or used by some of the affected Mountaineer Gas customers. Mountaineer Gas reported that restoration of natural gas service to all affected gas mains occurred on November 24, 2023. The timing, order and causation of both the WVAWC water main break and Mountaineer Gas's main break are currently unknown and under investigation.

To date, a total of four pending lawsuits have been filed against Mountaineer Gas and WVAWC purportedly on behalf of customers in Charleston, West Virginia related to these incidents. On November 14, 2023, a complaint captioned *Ruffin et al. v. Mountaineer Gas Company and West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of Mountaineer Gas residential and business customers and other households and businesses supplied with natural gas in Kanawha County, which lost natural gas service on November 10, 2023, as a result of these events. The complaint alleges, among other things, breach of contract by Mountaineer Gas, trespass by WVAWC, nuisance by WVAWC, violation of statutory obligations by Mountaineer Gas and WVAWC, and negligence by Mountaineer Gas and WVAWC. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for loss of use of natural gas, annoyance, inconvenience and lost profits, as well as punitive damages.

On November 15, 2023, a complaint captioned *Toliver et al. v. West Virginia-American Water Company and Mountaineer Gas Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of all natural persons or entities who are citizens of the State of West Virginia and who are customers of WVAWC and/or Mountaineer Gas in the affected areas. The complaint alleges against Mountaineer Gas and WVAWC, among other things, negligence, nuisance, trespass and strict liability, as well as breach of contract against Mountaineer Gas. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for property damage, loss of use and enjoyment of property, annoyance and inconvenience and business losses, as well as punitive damages.

On November 16, 2023, a complaint captioned *Dodson et al. v. West Virginia American Water and Mountaineer Gas Company* was filed in West Virginia Circuit Court in Kanawha County on behalf of an alleged class of all West Virginia citizens living between Pennsylvania Avenue south of Washington Street, and Iowa Street, who are customers of Mountaineer Gas. The complaint alleges against Mountaineer Gas and WVAWC, among other things, negligence, nuisance, trespass, statutory code violations and unfair or deceptive business practices. The complaint seeks class-wide damages against Mountaineer Gas and WVAWC for property loss and damage, loss of use and enjoyment of property, mental and emotional distress, and aggravation and inconvenience, as well as punitive damages.

On January 4, 2024, a fourth complaint, captioned *Thomas v. West Virginia-American Water Company and Mountaineer Gas Company*, was filed in West Virginia Circuit Court in Kanawha County asserting similar allegations as those included in the *Ruffin*, *Toliver* and *Dodson* lawsuits, with the addition of counts alleging unjust enrichment and violations of the West Virginia Human Rights Act and the West Virginia Consumer Credit and Protection Act.

On November 17, 2023, the *Ruffin* plaintiff filed a motion to consolidate the class action lawsuits before a single judge in Kanawha County Circuit Court. On June 14, 2024, the judge in the *Ruffin* case partially granted the motion by transferring all of the four class action lawsuits to her court but deferring as premature consolidation of the cases.

On December 5, 2023, a complaint captioned *Mountaineer Gas Company v. West Virginia-American Water Company* was filed in West Virginia Circuit Court in Kanawha County seeking damages under theories of trespass, negligence and implied indemnity. The damages being sought related to the incident include, among other things, repair and response costs incurred by Mountaineer Gas and attorneys' fees and expenses incurred by Mountaineer Gas. On December 14, 2023, Mountaineer Gas filed a motion with the Supreme Court of West Virginia to transfer this case to the West Virginia Business Court. On December 29, 2023, WVAWC filed a joinder in the motion to transfer the case. WVAWC has also filed a partial motion to dismiss this lawsuit. On March 6, 2024, the motion to transfer this complaint to the West Virginia Business Court was granted and trial and resolution judges were assigned. Mountaineer Gas voluntarily dismissed its implied indemnity count against WVAWC, rendering moot WVAWC's partial motion to dismiss, and on May 31, 2024, WVAWC answered the complaint. The West Virginia Business Court has set a trial date for this matter, which, upon motion of the parties, has been reset to March 16, 2026, to allow for the completion of discovery.

On December 20, 2023, Mountaineer Gas filed answers to each of the first three class action lawsuits, which included cross-claims against WVAWC alleging that Mountaineer Gas is without fault for the claims and damages alleged in the lawsuits and WVAWC should be required to indemnify Mountaineer Gas for any damages and for attorneys' fees and expenses incurred by Mountaineer Gas in the lawsuits. WVAWC has filed a partial motion to dismiss certain claims in the *Ruffin, Toliver, Dodson* and *Thomas* lawsuits and a motion to dismiss the cross-claims asserted against WVAWC therein by Mountaineer Gas. Mountaineer Gas subsequently voluntarily dismissed its cross-claims. On January 30, 2024, a motion was filed with the West Virginia Supreme Court on behalf of the *Toliver* plaintiff to refer the four class action complaints and the *Mountaineer Gas* complaint to the West Virginia Mass Litigation Panel. On February 7, 2024, WVAWC filed a motion joining in that referral request. On February 19, 2024, Mountaineer Gas filed a motion opposing the referral of the four class action complaints and the *Mountaineer Gas* complaint to the West Virginia Mass Litigation Panel. On May 31, 2024, the West Virginia Supreme Court denied the motion seeking referral. The Kanawha County Circuit Court has set a trial date of February 2, 2026, for the class action complaints.

On December 6, 2023, WVAWC initiated a process whereby Mountaineer Gas customers could file claims with WVAWC and seek payment from WVAWC of up to $2,000 in damages per affected household for the inconvenience arising from a loss of use of their appliances and documented out-of-pocket expenses as a result of the natural gas outage. In light of the diminishing number of new claims that had been filed, the claims process was concluded on March 8, 2024. As of December 31, 2024, a total of 594 Mountaineer Gas customers completed this claims process, and each of those customers has been paid by WVAWC an average of approximately $1,500. In return, these customers were required to execute a partial release of liability in favor of WVAWC.

On November 16, 2023, the Public Service Commission of West Virginia (the "WVPSC") issued an order initiating a general investigation into both the water main break and natural gas outages occurring in this incident to determine the cause or causes thereof, as well as breaks and outages generally throughout the systems of WVAWC and Mountaineer Gas and the utility practices of both utilities. Following a series of disagreements among the parties regarding the scope of discovery, the WVPSC closed the general investigation into both utilities and ordered a separate general investigation for each utility. The WVPSC focused the two general investigations away from the cause of the events and instead on the maintenance practices of each utility during and after the main breaks. On January 29, 2024, the Consumer Advocate Division of the WVPSC filed a motion to intervene in the WVAWC general investigation.

On April 24, 2024, the staff issued a final joint memorandum in the Mountaineer Gas general investigation stating its view that Mountaineer Gas responded appropriately, reasonably and according to Mountaineer Gas's written procedures. The staff is making no recommendations for improvements to Mountaineer Gas and is recommending that the Mountaineer Gas general investigation be closed. On July 24, 2024, the staff issued a final joint memorandum in the WVAWC general investigation finding no indication of systematic failure by WVAWC and concluding WVAWC's maintenance and operating procedures were adequate to ensure safe and reliable service, subject to the implementation by WVAWC of three recommended operational improvements. Both general investigations remain pending.

The Company and WVAWC believe that the causes of action and other claims asserted against WVAWC in the class action complaints and the lawsuit filed by Mountaineer Gas are without merit and that WVAWC has valid, meritorious defenses to such claims. WVAWC continues to defend itself vigorously in these litigation proceedings. Given the current stage of these proceedings and the general investigation, the Company and WVAWC are currently unable to predict the outcome of any of the proceedings described above, and the Company cannot currently determine the likelihood of a loss, if any, or estimate the amount of any loss or a range of loss related to this proceeding.

Alternative Water Supply in Lieu of Carmel River Diversions

Compliance with Orders to Reduce Carmel River Diversions—Monterey Peninsula Water Supply Project

Under a 2009 order (the "2009 Order") of the State Water Resources Control Board (the "SWRCB"), the Company's California subsidiary ("Cal Am") is required to decrease significantly its yearly diversions of water from the Carmel River according to a set reduction schedule. In 2016, the SWRCB issued an order (the "2016 Order," and, together with the 2009 Order, the "Orders") approving a deadline of December 31, 2021, for Cal Am's compliance with these prior orders.

Cal Am is currently involved in developing the Monterey Peninsula Water Supply Project (the "Water Supply Project"), which includes the construction of a desalination plant, to be owned by Cal Am, and the construction of wells that would supply water to the desalination plant. In addition, the Water Supply Project also includes Cal Am's purchase of water from a groundwater replenishment project (the "GWR Project") between Monterey One Water and the Monterey Peninsula Water Management District (the "MPWMD"), as well as an expanded aquifer storage and recovery program. The Water Supply Project is intended, among other things, to fulfill Cal Am's obligations under the Orders.

Cal Am's ability to move forward on the Water Supply Project is and has been subject to administrative review by the CPUC and other government agencies, obtaining necessary permits, and intervention from other parties. In 2016, the CPUC unanimously approved a final decision to authorize Cal Am to enter into a water purchase agreement for the GWR Project and to construct a pipeline and pump station facilities and recover up to $50 million in associated incurred costs, plus an allowance for funds used during construction ("AFUDC"), subject to meeting certain criteria.

In 2018, the CPUC unanimously approved another final decision finding that the Water Supply Project meets the CPUC's requirements for a certificate of public convenience and necessity and an additional procedural phase was not necessary to consider alternative projects. The CPUC's 2018 decision concludes that the Water Supply Project is the best project to address estimated future water demands in Monterey, and, in addition to the cost recovery approved in its 2016 decision, adopts Cal Am's cost estimates for the Water Supply Project, which amounted to an aggregate of $279 million plus AFUDC at a rate representative of Cal Am's actual financing costs. The 2018 final decision specifies the procedures for recovery of all of Cal Am's prudently incurred costs associated with the Water Supply Project upon its completion, subject to the frameworks included in the final decision related to cost caps, operation and maintenance costs, financing, ratemaking and contingency matters. The reasonableness of the Water Supply Project costs will be reviewed by the CPUC when Cal Am seeks cost recovery for the Water Supply Project. Cal Am is also required to implement mitigation measures to avoid, minimize or offset significant environmental impacts from the construction and operation of the Water Supply Project and comply with a mitigation monitoring and reporting program, a reimbursement agreement for CPUC costs associated with that program, and reporting requirements on plant operations following placement of the Water Supply Project in service. Cal Am has incurred $300 million in aggregate costs as of June 30, 2025, related to the Water Supply Project, which includes $97 million in AFUDC.

In September 2021, Cal Am, Monterey One Water and the MPWMD reached an agreement on Cal Am's purchase of additional water from an expansion to the GWR Project. On December 5, 2022, the CPUC issued a final decision that authorized Cal Am to enter into the amended water purchase agreement, and specifically to increase pumping capacity and reliability of groundwater extraction from the Seaside Groundwater Basin. The final decision sets the cost cap for the proposed facilities at approximately $62 million. Cal Am may seek recovery of amounts above the cost cap in a subsequent rate filing or general rate case. Additionally, the final decision authorizes AFUDC at Cal Am's actual weighted average cost of debt for most of the facilities. On December 30, 2022, Cal Am filed with the CPUC an application for rehearing of the CPUC's December 5, 2022, final decision, and on March 30, 2023, the CPUC issued a decision denying Cal Am's application for rehearing, but adopting its proposed AFUDC for already incurred and future costs. The decision also provided Cal Am the opportunity to serve supplemental testimony to increase its cost cap for certain of the Water Supply Project's extraction wells. On May 21, 2025, the CPUC issued a decision authorizing an increase to the cost cap of $11 million for the specified extraction wells.

The amended water purchase agreement and a memorandum of understanding to negotiate certain milestones related to the expansion of the GWR Project have been signed by the relevant parties. Further hearings were scheduled in a Phase 2 to this CPUC proceeding to focus on updated supply and demand estimates for the Water Supply Project, and Phase 2 testimony was completed in September 2022. On October 23, 2023, a status conference was held to determine procedural steps to conclude the proceeding. Further evidentiary hearings were held in March 2024. On May 9, 2025, the CPUC issued a proposed decision in Phase 2, finding that without the Water Supply Project, projected demand will outstrip supply by approximately 2,500 acre-feet per year. On June 18, 2025, the CPUC issued a decision extending the Phase 2 statutory deadline to October 31, 2025. This Phase 2 matter remains pending.

While Cal Am believes that its expenditures to date have been prudent and necessary to comply with the Orders, as well as relevant final decisions of the CPUC related thereto, Cal Am cannot currently predict its ability to recover all of its costs and expenses associated with the Water Supply Project and there can be no assurance that Cal Am will be able to recover all of such costs and expenses in excess of the $123 million in previously approved aggregate construction costs, plus applicable AFUDC, previously approved by the CPUC in its September 2016 decision, its December 2022 decision (as amended by its March 2023 rehearing decision), and its May 2025 decision.

Coastal Development Permit Application

In 2018, Cal Am submitted a coastal development permit application (the "Marina Application") to the City of Marina (the "City") for those project components of the Water Supply Project located within the City's coastal zone. Members of the City's Planning Commission, as well as City councilpersons, publicly expressed opposition to the Water Supply Project. In May 2019, the City issued a notice of final local action based upon the denial by the Planning Commission of the Marina Application. Thereafter, Cal Am appealed this decision to the Coastal Commission, as permitted under the City's code and the California Coastal Act. At the same time, Cal Am submitted an application (the "Original Jurisdiction Application") to the Coastal Commission for a coastal development permit for those project components located within the Coastal Commission's original jurisdiction. After Coastal Commission staff issued reports recommending denial of the Original Jurisdiction Application, noting potential impacts on environmentally sensitive habitat areas and wetlands and possible disproportionate impacts to communities of concern, in September 2020, Cal Am withdrew the Original Jurisdiction Application in order to address the staff's environmental justice concerns. In November 2020, Cal Am refiled the Original Jurisdiction Application.

In October 2022, Cal Am announced a phasing plan for the proposed desalination plant component of the Water Supply Project. The desalination plant and slant wells originally approved by the CPUC would produce up to 6.4 million gallons of desalinated water per day. Under the phased approach, the facilities would initially be constructed to produce up to 4.8 million gallons per day of desalinated water, enough to meet anticipated demand through about 2030, and would limit the number of slant wells initially constructed. As demand increases in the future, desalination facilities would be expanded to meet the additional demand. The phased approach seeks to meet near-term demand by allowing for additional supply as it becomes needed, while also providing an opportunity for regional future public participation and was developed by Cal Am based on feedback received from the community.

In November 2022, the Coastal Commission approved the Marina Application and the Original Jurisdiction Application with respect to the phased development of the proposed desalination plant, subject to compliance with a number of conditions, all of which Cal Am expects to satisfy. In December 2022, the City, Marina Coast Water District ("MCWD"), MCWD's groundwater sustainability agency, and the MPWMD jointly filed a petition for writ of mandate in Monterey County Superior Court against the Coastal Commission, alleging that the Coastal Commission violated the California Coastal Act and the California Environmental Quality Act in issuing a coastal development permit to Cal Am for construction of slant wells for the Water Supply Project. Cal Am is named as a real party in interest. On April 24, 2024, the court granted defendants' motion for judgment on the pleadings and dismissed one of MCWD's causes of action in the petition. A trial commenced on December 9, 2024, and further proceedings continued in January 2025. On May 12, 2025, the court entered its final decision denying the petition in full.

Following the issuance of the coastal development permit, Cal Am continues to work constructively with all appropriate agencies to provide necessary information in connection with obtaining the remaining required permits for the Water Supply Project. However, there can be no assurance that the Water Supply Project in its current configuration will be completed on a timely basis, if ever. For the year ended December 31, 2024, Cal Am has complied with the diversion limitations contained in the 2016 Order. Continued compliance with the diversion limitations in 2025 and future years may be impacted by a number of factors, including without limitation potential recurrence of drought conditions in California and the exhaustion of water supply reserves, and will require successful development of alternate water supply sources sufficient to meet customer demand. The Orders remain in effect until Cal Am certifies to the SWRCB, and the SWRCB concurs, that Cal Am has obtained a permanent supply of water to substitute for past unauthorized Carmel River diversions. While the Company cannot currently predict the likelihood or result of any adverse outcome associated with these matters, further attempts to comply with the Orders may result in material additional costs and obligations to Cal Am, including fines and penalties against Cal Am in the event of noncompliance with the Orders.

Cal Am's Action for Damages Following Termination of Regional Desalination Project ("RDP")

In 2010, the CPUC had approved the RDP, which was a precursor to the current Water Supply Project and called for the construction of a desalination facility in the City of Marina. The RDP was to be implemented through a Water Purchase Agreement and ancillary agreements (collectively, the "Agreements") among MCWD, Cal Am and the Monterey County Water Resources Agency ("MCWRA"). In 2011, due to a conflict of interest concerning a former member of MCWRA's Board of Directors, MCWRA stated that the Agreements were void, and, as a result, Cal Am terminated the Agreements. In ensuing litigation filed by Cal Am in 2012 to resolve the termination of the RDP, the court in 2015 entered a final judgment agreeing with Cal Am's position that four of the five Agreements are void, and one, the credit line agreement, is not void. As a result of this litigation, Cal Am was permitted to institute further proceedings, discussed below, to determine the amount of damages that may be awarded to Cal Am as a result of the failure of the RDP.

In 2015, Cal Am and MCWRA filed a complaint in San Francisco County Superior Court against MCWD and RMC Water and Environment, a private engineering consulting firm ("RMC"), seeking to recover compensatory, consequential and incidental damages associated with the failure of the RDP, as well as punitive and treble damages, statutory penalties and attorneys' fees. In 2019, MCWD was granted a motion for summary judgment related to the tort claims in the complaint. A settlement as to the non-tort claims was finalized and entered into in March 2020. As part of this settlement, Cal Am's and MCWRA's right to appeal the dismissal of their tort claims against MCWD were expressly reserved, and, in July 2020, Cal Am filed its appeal. In December 2022, the trial court's decision was reversed on appeal with instructions to vacate its prior orders granting MCWD's motions for summary judgment and to enter new orders denying the motions. In February 2023, MCWD filed a petition for review of the appellate decision with the California Supreme Court, which was denied in March 2023. On June 27, 2024, MCWD filed a motion for judgment on the pleadings. Following a hearing, on December 5, 2024, the court granted MCWD's motion without leave to amend, dismissing all of Cal Am's remaining tort claims. Final judgment was entered on January 7, 2025. On February 27, 2025, Cal Am and MCWRA each filed a Notice of Appeal of the trial court's decision. This matter remains pending.

Proposed Acquisition of Monterey System Assets — Potential Condemnation

Local Agency Formation Commission Litigation

The water system assets of Cal Am located in Monterey, California (the "Monterey system assets") are the subject of a condemnation action by the MPWMD stemming from a November 2018 public ballot initiative. In 2019, the MPWMD issued a preliminary valuation and cost of service analysis report, finding in part that (i) an estimate of the Monterey system assets' total value plus adjustments would be approximately $513 million, (ii) the cost of service modeling results indicate significant annual reductions in revenue requirements and projected monthly water bills, and (iii) the acquisition of the Monterey system assets by the MPWMD would be economically feasible. In 2020, the MPWMD certified a final environmental impact report, analyzing the environmental impacts of the MPWMD's project to (i) acquire the Monterey system assets through the power of eminent domain, if necessary, and (ii) expand its geographic boundaries to include all parts of this system.

In February 2021, the MPWMD filed an application with the Local Agency Formation Commission of Monterey County ("LAFCO") seeking approval to become a retail water provider and annex approximately 58 parcels of land into the MPWMD's boundaries. In June 2021, LAFCO's commissioners voted to require a third-party independent financial study as to the feasibility of an acquisition by the MPWMD of the Monterey system assets. In December 2021, LAFCO's commissioners denied the MPWMD's application to become a retail water provider, determining that the MPWMD does not have the authority to proceed with a condemnation of the Monterey system assets. In April 2022, the MPWMD filed a lawsuit against LAFCO challenging its decision to deny the MPWMD's application seeking approval to become a retail water provider. In June 2022, the court granted, with conditions, a motion by Cal Am to intervene in the MPWMD's lawsuit against LAFCO. In December 2022, the court sustained in part, and denied in part, demurrers that had been filed by LAFCO seeking to dismiss the MPWMD's lawsuit.

In December 2023, the Monterey County Superior Court issued a writ of mandate directing LAFCO to vacate and set aside its original denial of the MPWMD's application to serve as a retail water provider (in conjunction with its effort to acquire the Monterey system assets) and, if requested, to re-hear the application in compliance with all applicable law. The court held that LAFCO incorrectly applied two statutory standards and noted a lack of sufficient evidence to support certain of LAFCO's factual findings. As a result, the LAFCO denial has been nullified and LAFCO will be required to hold another hearing on the MPWMD's application upon request. On February 8, 2024, and February 9, 2024, respectively, Cal Am and LAFCO each filed a notice of appeal with the California Court of Appeal regarding the Monterey County Superior Court's decision to issue the writ of mandate. The MPWMD filed a notice of cross-appeal on February 15, 2024. Cal Am is evaluating potential additional actions to seek to uphold LAFCO's denial of the MPWMD's application, including filing other challenges and/or making suitable presentations at a subsequent LAFCO rehearing.

MPWMD Condemnation Action

Separate from the proceedings related to the MPWMD's application with LAFCO, by letter dated October 3, 2022, the MPWMD notified Cal Am of a decision to appraise the Monterey system assets and requested access to a number of Cal Am's properties and documents to assist the MPWMD with such an appraisal. Cal Am responded by letter on October 24, 2022, denying the request for access, stating that the MPWMD does not have the right to appraise Cal Am's system without LAFCO approval to become a retail water provider. In April 2023, Cal Am rejected an offer by the MPWMD to purchase the Monterey system assets for $448.8 million. Over the written and oral objections of Cal Am, at a hearing held in October 2023, the MPWMD adopted a resolution of necessity to authorize it to file an eminent domain lawsuit with respect to the Monterey system assets.

In December 2023, the MPWMD filed a lawsuit against Cal Am in Monterey County Superior Court seeking to condemn the Monterey system assets. On February 26, 2024, Cal Am filed a motion requesting the Monterey County Superior Court dismiss the MPWMD's lawsuit. Cal Am's motion asserted that the MPWMD lacks legal authorization from both the California legislature and LAFCO to become a retail water provider and the lawsuit improperly seeks to effect a taking of property outside the boundaries of the MPWMD's territory. Hearings on the motion were held on May 3, 2024, and August 23, 2024. On November 14, 2024, the court issued a final ruling denying Cal Am's motion to dismiss. Cal Am filed its answer to the complaint on December 13, 2024. This matter remains pending.

While the Company cannot currently predict the outcome of the MPWMD's eminent domain lawsuit, the Company believes that, given existing legal authorities and its other defenses, Cal Am should be able to defend itself successfully against this lawsuit.

PFAS Multi-District Litigation

Several of the Company's utility subsidiaries are parties to a multi-district litigation (the "MDL") lawsuit, which commenced on December 7, 2018, in the U.S. District Court for the District of South Carolina, against manufacturers of certain per- and polyfluoroalkyl substances (collectively, "PFAS") for damages, contribution and reimbursement of costs incurred and continuing to be incurred to address the presence of such PFAS in public water supply systems owned and operated by these utility subsidiaries and throughout their service areas. Settlements with several defendants in the MDL have received final approval by the MDL court. During the third quarter of 2024 and the first quarter of 2025, the Company timely submitted to the MDL court its Phase One claim forms under settlement agreements with defendants 3M Company, The Chemours Company, Corteva, Inc., DuPont de Nemours, Inc., Tyco Fire Products LP and BASF Corporation.

As of June 30, 2025, the Company received an initial settlement payment from defendant 3M Company of $34 million, net of legal fees and administrative costs. As of June 30, 2025, these funds were held in a law firm escrow account and are awaiting distribution to the Company's utility subsidiaries that are parties to the MDL. The funds have been recorded on the Company's Consolidated Balance Sheet within other current assets, as of June 30, 2025. A corresponding amount was recorded as a regulatory liability as the Company intends to seek regulatory approval from its respective public utility commissions to apply the net proceeds for the benefit of customers. The Company anticipates receiving, during the remainder of 2025, additional settlement payments from the defendants named above.

Note 12: Earnings per Common Share

Presented in the table below is a reconciliation of the numerator and denominator for the basic and diluted earnings per share ("EPS") calculations:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2025	2024	2025	2024
Numerator:				
Net income attributable to common shareholders	$ 289	$ 277	$ 494	$ 462
Denominator:				
Weighted-average common shares outstanding—Basic	195	195	195	195
Effect of dilutive common stock equivalents	—	—	—	—
Weighted-average common shares outstanding—Diluted	195	195	195	195

The effect of dilutive common stock equivalents is related to outstanding restricted stock units ("RSUs") and performance stock units ("PSUs") granted under the Company's 2007 Omnibus Equity Compensation Plan and outstanding RSUs and PSUs granted under the Company's 2017 Omnibus Equity Compensation Plan, as well as estimated shares to be purchased under the Company's 2017 Nonqualified Employee Stock Purchase Plan. Less than one million share-based awards were excluded from the computation of diluted EPS for the three and six months ended June 30, 2025 and 2024, because their effect would have been anti-dilutive under the treasury stock method.

The if-converted method is applied to the Notes issued in June 2023 for computing diluted EPS. For both periods presented, there was no dilution resulting from the Notes. See Note 7—Long-Term Debt for additional information relating to the Notes.

Note 13: Fair Value of Financial Information

Fair Value of Financial Instruments

The following methods and assumptions were used by the Company in estimating its fair value disclosures for financial instruments:

Current assets and current liabilities—The carrying amounts reported on the Consolidated Balance Sheets for current assets and current liabilities, including revolving credit debt, due to the short-term maturities and variable interest rates, approximate their fair values.

Secured seller promissory note from the sale of the Homeowner Services Group—The carrying amount reported on the Consolidated Balance Sheets for the secured seller promissory note, included as part of the consideration from the sale of HOS, is $795 million as of June 30, 2025, and December 31, 2024. This amount represents the principal amount owed under the secured seller promissory note, for which the Company expects to receive full payment. The accounting fair value measurement of the secured seller promissory note approximated $797 million and $793 million as of June 30, 2025, and December 31, 2024, respectively. The accounting fair value measurement is an estimate that is reflective of changes in benchmark interest rates. The secured seller promissory note is classified as Level 3 within the fair value hierarchy.

Preferred stock with mandatory redemption requirements and long-term debt—The fair values of preferred stock with mandatory redemption requirements and long-term debt are categorized within the fair value hierarchy based on the inputs that are used to value each instrument. The fair value of long-term debt classified as Level 1 is calculated using quoted prices in active markets. Level 2 instruments are valued using observable inputs and Level 3 instruments are valued using observable and unobservable inputs.

Presented in the tables below are the carrying amounts, including fair value adjustments previously recognized in acquisition purchase accounting, and the fair values of the Company's financial instruments:

	As of June 30, 2025				
		At Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Preferred stock with mandatory redemption requirements	$ 3	$ —	$ —	$ 3	$ 3
Long-term debt	13,397	10,686	1,057	609	12,352

	As of December 31, 2024				
		At Fair Value			
	Carrying Amount	Level 1	Level 2	Level 3	Total
Preferred stock with mandatory redemption requirements	$ 3	$ —	$ —	$ 3	$ 3
Long-term debt	13,155	10,165	1,050	658	11,873

Recurring Fair Value Measurements

Presented in the tables below are assets and liabilities measured and recorded at fair value on a recurring basis and their level within the fair value hierarchy:

	As of June 30, 2025			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	$ 41	$ —	$ —	$ 41
Rabbi trust investments	28	—	—	28
Deposits	52	—	—	52
Other investments:				
Money market and other	25	—	—	25
Fixed-income securities	65	6	—	71
Mark-to-market derivative asset	—	4	—	4
Total assets	211	10	—	221
Liabilities:				
Deferred compensation obligations	34	—	—	34
Mark-to-market derivative liability	—	1	—	1
Total liabilities	34	1	—	35
Total assets	$ 177	$ 9	$ —	$ 186

	As of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Assets:				
Restricted funds	$ 44	$ —	$ —	$ 44
Rabbi trust investments	29	—	—	29
Deposits	6	—	—	6
Other investments:				
Money market and other	21	—	—	21
Fixed-income securities	88	6	—	94
Mark-to-market derivative asset	—	24	—	24
Total assets	188	30	—	218
Liabilities:				
Deferred compensation obligations	34	—	—	34
Total liabilities	34	—	—	34
Total assets	$ 154	$ 30	$ —	$ 184

Restricted funds—The Company's restricted funds primarily represent proceeds received from financings for the construction and capital improvement of facilities and from customers for future services under operation, maintenance and repair projects. Long-term restricted funds of $24 million and $15 million were included in other long-term assets on the Consolidated Balance Sheets as of June 30, 2025, and December 31, 2024, respectively.

Rabbi trust investments—The Company's rabbi trust investments consist of equity and index funds from which supplemental executive retirement plan benefits and deferred compensation obligations can be paid. The Company includes these assets in other long-term assets on the Consolidated Balance Sheets.

Deposits—Deposits include escrow funds, including the initial settlement payment from the MDL, and certain other deposits held in trust. The Company includes cash deposits in other current assets on the Consolidated Balance Sheets.

Deferred compensation obligations—The Company's deferred compensation plans allow participants to defer certain cash compensation into notional investment accounts. The Company includes such plans in other long-term liabilities on the Consolidated Balance Sheets. The value of the Company's deferred compensation obligations is based on the market value of the participants' notional investment accounts. The notional investments are comprised primarily of mutual funds, which are based on quoted prices for identical assets in active markets.

Mark-to-market derivative assets and liabilities—The Company employs derivative financial instruments in the form of treasury lock agreements, classified as cash flow hedges, in order to fix the interest cost on existing or forecasted debt. The Company uses a calculation of future cash inflows and estimated future outflows, which are discounted, to determine the current fair value. Additional inputs to the present value calculation include the contract terms, counterparty credit risk, interest rates and market volatility. The Company includes mark-to-market derivative assets in other current assets and mark-to-market derivative liabilities in other current liabilities on the Consolidated Balance Sheets.

Other investments—The Company maintains a Voluntary Employees' Beneficiary Association trust for purposes of paying active union employee medical benefits ("Active VEBA"). The investments in the Active VEBA trust primarily consist of money market funds and available-for-sale fixed-income securities.

The money market and other investments have original maturities of three months or less when purchased. The fair value measurement of the money market and other investments is based on quoted prices for identical assets in active markets and therefore included in the recurring fair value measurements hierarchy as Level 1.

The available-for-sale fixed-income securities are primarily investments in U.S. Treasury securities and government bonds. The majority of U.S. Treasury securities and government bonds have been categorized as Level 1 because they trade in highly-liquid and transparent markets. Certain U.S. Treasury securities are based on prices that reflect observable market information, such as actual trade information of similar securities, and are therefore categorized as Level 2, because the valuations are calculated using models which utilize actively traded market data that the Company can corroborate.

The Company includes other investments measured and recorded at fair value on the Consolidated Balance Sheets of $81 million and $71 million in other current assets, as of June 30, 2025, and December 31, 2024, respectively, and $15 million and $44 million in other long-term assets, as of June 30, 2025, and December 31, 2024, respectively. Unrealized holding gains and losses on available-for-sale securities are excluded from earnings and reported in other comprehensive income until realized.

The following tables summarize the unrealized positions for available-for-sale fixed-income securities:

	As of June 30, 2025			
	Amortized Cost Basis	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale fixed-income securities	$ 72	$ —	$ 1	$ 71

	As of December 31, 2024			
	Amortized Cost Basis	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale fixed-income securities	$ 94	$ 2	$ 2	$ 94

The fair value of the Company's available-for-sale fixed-income securities, summarized by contractual maturities, as of June 30, 2025, is as follows:

	Amount
Other investments - Available-for-sale fixed-income securities	
Less than one year	$ 34
1 year - 5 years	25
5 years - 10 years	5
Greater than 10 years	7
Total	$ 71

Note 14: Leases

The Company has operating and finance leases involving real property, including facilities, utility assets, vehicles, and equipment. Certain operating leases have renewal options ranging from one year to 60 years. The exercise of lease renewal options is at the Company's sole discretion. Renewal options that the Company was reasonably certain to exercise are included in the Company's right-of-use ("ROU") assets. Certain operating leases contain the option to purchase the leased property. The operating leases for real property, vehicles and equipment will expire over the next 40 years, five years, and five years, respectively.

The Company participates in a number of arrangements with various public entities ("Partners") in West Virginia. Under these arrangements, the Company transferred a portion of its utility plant to the Partners in exchange for an equal principal amount of Industrial Development Bonds ("IDBs") issued by the Partners under the Industrial Development and Commercial Development Bond Act. The Company leased back the utility plant under agreements for a period of 30 to 40 years. The Company has recorded these agreements as finance leases in property, plant and equipment, as ownership of the assets will revert back to the Company at the end of the lease term. The carrying value of the finance lease assets was $143 million as of June 30, 2025, and December 31, 2024, respectively. The Company determined that the finance lease obligations and the investments in IDBs meet the conditions for offsetting, and as such, are reported net on the Consolidated Balance Sheets and are excluded from the lease disclosure presented below.

The Company also enters into O&M agreements with the Partners. The Company pays an annual fee for use of the Partners' assets in performing under the O&M agreements. The O&M agreements are recorded as operating leases, and future annual use fees of $2 million in 2025, $4 million each year in 2026 through 2029, and $37 million thereafter, are included in operating lease ROU assets and operating lease liabilities on the Consolidated Balance Sheets.

Rental expenses under operating leases were $3 million for each of the three months ended June 30, 2025 and 2024, and $6 million for each of the six months ended June 30, 2025 and 2024.

For the three and six months ended June 30, 2025, cash paid for amounts in lease liabilities, which includes operating cash flows from operating leases, was $3 million and $6 million, respectively. For the six months ended June 30, 2025, there were ROU assets obtained in exchange for new operating lease liabilities of $7 million.

As of June 30, 2025, the weighted-average remaining lease term of the operating leases was 18 years, and the weighted-average discount rate of the operating leases was 5%.

The future maturities of lease liabilities as of June 30, 2025, were $6 million in 2025, $11 million in 2026, $11 million in 2027, $9 million in 2028, $7 million in 2029, and $89 million thereafter. As of June 30, 2025, imputed interest was $48 million.

Note 15: Segment Information

The Company's operating segments are comprised of its businesses which generate revenue, incur expense and have separate financial information which is regularly used by the chief operating decision maker to make operating decisions, assess performance and allocate resources. The Company operates its businesses primarily through one reportable segment, the Regulated Businesses segment. The Regulated Businesses segment also includes inter-segment revenues, costs and interest which are eliminated to reconcile to the Consolidated Statements of Operations.

The Company also operates other businesses, primarily MSG, that do not meet the criteria of a reportable segment in accordance with GAAP and are collectively presented throughout this Form 10-Q within "Other," which is consistent with how management assesses the results of these businesses. Other also includes corporate costs that are not allocated to the Company's Regulated Businesses, interest income related to the secured seller promissory note from the sale of HOS, income from assets not associated with the Regulated Businesses, eliminations of inter-segment transactions and fair value adjustments related to acquisitions that have not been allocated to the Regulated Businesses segment. The adjustments related to the acquisitions are reported in Other as they are excluded from segment performance measures evaluated by management.

The Company's chief operating decision maker is the President and Chief Executive Officer. The chief operating decision maker uses segment net income or loss to evaluate profit generated from segment assets when making decisions about allocating resources. The chief operating decision maker also uses segment net income to monitor budget versus actual results to assess the performance of the segment.

Presented in the tables below is summarized segment information:

	As of or for the Three Months Ended June 30, 2025		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 1,178	$ 98	$ 1,276
Less:			
Operation and maintenance (a)	406	74	480
Other segment items (b)	68	2	70
Depreciation and amortization	217	4	221
Interest expense	116	35	151
Interest income	(1)	(21)	(22)
Provision for income taxes	84	3	87
Net income attributable to common shareholders	$ 288	$ 1	$ 289
Total assets	$ 31,005	$ 2,908	$ 33,913
Cash paid for capital expenditures	$ 733	$ —	$ 733

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Other operating expenses, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

	As of or for the Three Months Ended June 30, 2024		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 1,057	$ 92	$ 1,149
Less:			
Operation and maintenance (a)	356	71	427
Other segment items (b)	63	(1)	62
Depreciation and amortization	189	4	193
Interest expense	102	29	131
Interest income	(5)	(20)	(25)
Provision for income taxes	78	6	84
Net income attributable to common shareholders	$ 274	$ 3	$ 277
Total assets	$ 28,843	$ 2,372	$ 31,215
Cash paid for capital expenditures	$ 668	$ 2	$ 670

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Other operating expenses, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

	As of or for the Six Months Ended June 30, 2025		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 2,227	$ 191	$ 2,418
Less:			
Operation and maintenance (a)	801	147	948
Other segment items (b)	135	1	136
Depreciation and amortization	430	7	437
Interest expense	230	65	295
Interest income	(2)	(42)	(44)
Provision for income taxes	144	8	152
Net income attributable to common shareholders	$ 489	$ 5	$ 494
Total assets	$ 31,005	$ 2,908	$ 33,913
Cash paid for capital expenditures	$ 1,278	$ 3	$ 1,281

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Other operating expenses, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

	As of or for the Six Months Ended June 30, 2024		
	Regulated Businesses	Other	Consolidated
Operating revenues	$ 1,985	$ 175	$ 2,160
Less:			
Operation and maintenance (a)	707	136	843
Other segment items (b)	124	3	127
Depreciation and amortization	373	8	381
Interest expense	199	56	255
Interest income	(8)	(41)	(49)
Provision for income taxes	131	10	141
Net income attributable to common shareholders	$ 459	$ 3	$ 462
Total assets	$ 28,843	$ 2,372	$ 31,215
Cash paid for capital expenditures	$ 1,271	$ 8	$ 1,279

(a) Significant segment expense.

(b) Other segment items included in segment net income includes General taxes, Other operating expenses, Non-operating benefit costs, net, and Other income (expense), net, primarily Allowance for other funds used during construction.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read together with the unaudited Consolidated Financial Statements and the Notes thereto included elsewhere in this Form 10-Q, and in the Company's Form 10-K for the year ended December 31, 2024. This discussion contains forward-looking statements that are based on management's current expectations, estimates and projections about the Company's business, operations and financial performance. The cautionary statements made in this Form 10-Q should be read as applying to all related forward-looking statements whenever they appear in this Form 10-Q. The Company's actual results may differ materially from those currently anticipated and expressed in such forward-looking statements as a result of a number of factors, including those that are discussed under "Forward-Looking Statements" and elsewhere in this Form 10-Q. The Company has a disclosure committee consisting of members of senior management and other key employees involved in the preparation of the Company's SEC reports. The disclosure committee is actively involved in the review and discussion of the Company's SEC filings.

Overview

American Water is the largest and most geographically diverse, publicly traded water and wastewater utility company in the United States, as measured by both operating revenues and population served. The Company's primary business involves the ownership of utilities that provide water and wastewater services to residential, commercial, industrial, public authority, fire service and sale for resale customers, collectively presented as the "Regulated Businesses." Services provided by the Company's utilities are subject to regulation by multiple state utility commissions or other entities engaged in utility regulation, collectively referred to as public utility commissions ("PUCs"). The Company also operates other businesses not subject to economic regulation by state PUCs that provide water and wastewater services to the U.S. government on military installations, as well as municipalities, collectively presented throughout this Form 10-Q within "Other." See Part I, Item 1—Business in the Company's Form 10-K for additional information.

Financial Results

For the three and six months ended June 30, 2025, diluted earnings per share, prepared in accordance with accounting principles generally accepted in the United States ("GAAP"), were $1.48 and $2.53, respectively, compared to $1.42 and $2.37 per share in the same periods in 2024. The increase was primarily driven by the implementation of new rates in the Regulated Businesses from the recovery of capital and acquisition investments. Results also reflect increased operating costs and higher depreciation and financing costs to support the current capital investment plan. Results for the three and six months ended June 30, 2025 compared to the same periods in 2024, reflect an estimated net unfavorable impact of weather of $0.06 per share, including an estimated $0.03 per share of unfavorable impact due to wet weather in the second quarter of 2025, across many states, and an estimated $0.03 per share of favorable impact due to warm, dry weather in the second quarter of 2024, primarily in New Jersey.

Growth Through Capital Investment in Infrastructure and Regulated Acquisitions

The Company continues to grow its businesses, with the substantial majority of its growth to be achieved in the Regulated Businesses through (i) continued capital investment in the Company's infrastructure to provide safe, clean, reliable and affordable water and wastewater services to its customers, (ii) regulated acquisitions to expand the Company's services to new customers and (iii) organic growth in existing systems. The Company plans to invest approximately $3.3 billion in these growth strategies in 2025. During the first six months of 2025, the Company invested $1.3 billion, in the Regulated Businesses, as discussed below.

- $1.3 billion capital investment in the Regulated Businesses for infrastructure improvements and replacements; and
- $21 million to fund acquisitions in the Regulated Businesses, which added approximately 7,600 customers. This includes the Company's acquisition effective May 28, 2025, of all the outstanding capital stock of Audubon Water Company ("Audubon"), for total consideration of $7 million in the form of shares of parent company common stock.
- Approximately 9,000 new customers were added through organic growth in existing systems.

Execution of Purchase and Sale Agreement with Nexus Regulated Utilities, LLC

On May 19, 2025, the Company entered into a Purchase and Sale Agreement (the "Purchase Agreement") with Nexus Regulated Utilities, LLC ("Seller"), a subsidiary of Nexus Water Group, Inc., a privately-held water and wastewater utility. Seller directly owns all of the issued and outstanding equity interests in specified entities (collectively, the "Acquired Entities") that own regulated water and wastewater system assets located in Illinois, Indiana, Kentucky, Maryland, New Jersey, Pennsylvania, Tennessee and Virginia.

Under the terms of the Purchase Agreement, the Company has agreed to acquire from Seller all of Seller's equity interests in each of the Acquired Entities on a cash-free and debt-free basis. The aggregate purchase price to be paid by the Company will be approximately $315 million in cash, subject to adjustment at closing based on the calculations and criteria provided in the Purchase Agreement. Aggregate rate base that would be acquired at closing is estimated to be approximately $200 million, subject to final determination by the respective public utility commissions. Based on current connection counts, the Company would add nearly 47,000 customer connections in total to its Regulated Businesses in the eight states above. The Company intends to fund the payment of the final purchase price through its cash flow from operations and its existing sources of liquidity. Closing is subject to certain customary and other conditions, including, among others, the receipt of required regulatory approvals by PUCs, the absence of certain legal restraints prohibiting or making illegal the consummation of the transactions contemplated by the Purchase Agreement, and the expiration or termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976. The Purchase Agreement also provides that Seller's and the Company's obligations to complete the closing are subject to the absence of any required regulatory approval that has become final and imposes terms or conditions on a party that would reasonably be expected to, in the case of Seller, be adverse to Seller or its affiliates (other than the Acquired Entities) after giving effect to these transactions and, in the case of the Company, result in a material adverse effect on the business, assets, liabilities, properties, financial condition or results of operations of the Company and its Regulated Businesses within the eight applicable states, taken together as a whole, without giving effect to these transactions (a "Burdensome Effect"). The Company currently anticipates that the closing will occur by or before August 2026.

The Purchase Agreement may be terminated by the Company or the Seller under certain circumstances, including if the closing has not occurred on or before August 19, 2026, subject to up to two three-month extensions in order to obtain required regulatory approvals, by the Company if any final required regulatory approval imposes terms or conditions that would have a Burdensome Effect, and by either party if any legal restraint permanently prohibiting the closing becomes final and non-appealable or in the event of certain breaches or failures to perform obligations under the Purchase Agreement by the other party. If the Purchase Agreement is terminated, such termination will be without liability of a party to the other party to the Purchase Agreement, except in the case of termination due to fraud or willful breach of the Purchase Agreement by a party thereto, and the Company will be required to pay to Seller a cash termination fee of approximately $16 million in the event of a termination of the Purchase Agreement under conditions set forth therein for (i) failure to obtain a required regulatory approval, (ii) the existence of an applicable legal restraint prohibiting the consummation of the closing or (iii) the existence of a final required regulatory approval that imposes terms or conditions that would have a Burdensome Effect.

Including the Purchase Agreement, as of June 30, 2025, the Company had entered into 17 agreements with a total aggregate purchase price of $499 million for pending acquisitions in the Regulated Businesses to add approximately 84,000 additional customers.

Other Matters

Cybersecurity Incident Update

Prior to filing a consolidated complaint, the plaintiffs in the putative consolidated class action lawsuit against parent company related to the Company's October 2024 cybersecurity incident agreed to voluntarily dismiss their consolidated Federal court lawsuit without prejudice. An order of voluntary dismissal was entered on March 24, 2025, which concludes this lawsuit against parent company.

PFAS Multi-District Litigation

Several of the Company's utility subsidiaries are parties to a multi-district litigation (the "MDL") lawsuit, which commenced on December 7, 2018, in the U.S. District Court for the District of South Carolina, against manufacturers of certain PFAS for damages, contribution and reimbursement of costs incurred and continuing to be incurred to address the presence of such PFAS in public water supply systems owned and operated by these utility subsidiaries and throughout their service areas. Settlements with several defendants in the MDL have received final approval by the MDL court. During the third quarter of 2024 and the first quarter of 2025, the Company timely submitted to the MDL court its Phase One claim forms under settlement agreements with defendants 3M Company, The Chemours Company, Corteva, Inc., DuPont de Nemours, Inc., Tyco Fire Products LP and BASF Corporation.

As of June 30, 2025, the Company received an initial settlement payment from defendant 3M Company of $34 million, net of legal fees and administrative costs. As of June 30, 2025, these funds were held in a law firm escrow account and are awaiting distribution to the Company's utility subsidiaries that are parties to the MDL. The funds have been recorded on the Company's Consolidated Balance Sheet within other current assets, as of June 30, 2025. A corresponding amount was recorded as a regulatory liability as the Company intends to seek regulatory approval from its respective PUCs to apply the net proceeds for the benefit of customers. The Company anticipates receiving, during the remainder of 2025, additional settlement payments from the defendants named above.

Regulatory Matters

General Rate Cases

The table below summarizes the annualized incremental revenues, assuming a constant sales volume and customer count, resulting from general rate case authorizations that are effective during 2025. The amounts include reductions for the amortization of the excess accumulated deferred income taxes ("EADIT") that are generally offset in income tax expense.

(In millions)	Effective Date	Amount
General rate cases by state:		
Hawaii	August 2025 (a)	$ 1
Iowa	August 1, 2025 (b)	13
Missouri	May 28, 2025	63
Indiana, Step Increase	May 14, 2025	17
Virginia	February 24, 2025 (c)	15
Tennessee	January 21, 2025	1
Illinois	January 1, 2025	105
California, Step Increase	January 1, 2025	17
Total general rate case authorizations		$ 232

(a) New rates are expected to be effective in early August 2025, upon filing the revised tariff sheets and rate schedules.

(b) Interim rates of $5 million were effective May 11, 2024. The Iowa Utilities Commission issued its final order on May 21, 2025.

(c) Interim rates were effective May 1, 2024, and the difference between interim and final approved rates were subject to refund. The Virginia State Corporation Commission issued its final order on February 24, 2025.

On July 24, 2025, the Hawaii Public Utilities Commission issued a final order adopting the settlement agreement filed by the Company's Hawaii subsidiary on April 25, 2025, with respect to its general rate case filed on August 2, 2024. The final order approves an annualized increase of approximately $1 million in wastewater revenue, which is based on a return on equity of 9.75% and a capital structure with an equity component of 52.11% and a debt component of 47.89%. New rates are expected to be effective in early August 2025, upon filing the revised tariff sheets and rate schedules.

On May 21, 2025, the Iowa Utilities Commission issued a final order approving the adjustment of base rates requested in a general rate case originally filed on May 1, 2024, by the Company's Iowa subsidiary. The general rate case order approved a $13 million annualized increase in water and wastewater system revenues, excluding infrastructure surcharges of $1 million, based on an authorized return on equity of 9.60%, authorized rate base of $262 million, and a capital structure with a common equity component of 52.57% and a long-term debt component of 47.43%. The requested annualized revenue increase was driven primarily by over $157 million of capital investments made and expected to be made by the Iowa subsidiary through March 2026. Interim rates of $5 million were effective May 11, 2024, with the remaining increase in annualized water and wastewater system revenues of $8 million effective on August 1, 2025.

On May 14, 2025, the Company's Indiana subsidiary's third step increase of $17 million in annualized water and wastewater system revenues became effective. The Indiana subsidiary filed the general rate case on March 31, 2023, and on February 14, 2024, the Indiana Utility Regulatory Commission (the "IURC") issued an order that approved a $65 million annualized increase in water and wastewater system revenues, excluding previously recovered infrastructure surcharges. The annualized revenue increase included three step increases, with $25 million of the increase included in rates in February 2024, $23 million in May 2024, and $17 million in May 2025.

On May 7, 2025, the Missouri Public Service Commission (the "MoPSC") issued an order approving without modification the stipulation and agreement (the "Stipulation") with respect to a general rate case filed on July 1, 2024, by the Company's Missouri subsidiary. The Stipulation was entered into on March 17, 2025, with parties including the staff of the MoPSC and the Office of the Public Counsel. The general rate case order approves a $63 million annualized increase in water and wastewater revenues, excluding $63 million in infrastructure surcharges. The requested annualized revenue increase was driven primarily by $1.1 billion of capital investments completed by the Missouri subsidiary from January 2023 through May 2025. For purposes of the general rate case, the Missouri subsidiary's view of its rate base is $3.2 billion, and its view as to its return on equity and common equity ratio (each of which has been determined based on the order but was not disclosed therein) is 9.75% and 50.00%, respectively.

On February 24, 2025, the Virginia State Corporation Commission (the "VSCC") issued an order approving the September 19, 2024 joint "black box" settlement of the general rate case filed by the Company's Virginia subsidiary. The general rate case order approves the stipulated $15 million annualized increase in water and wastewater revenues. Interim water and wastewater rates became effective May 1, 2024, with the difference between interim and final approved rates subject to refund. The requested annualized revenue increase was driven primarily by more than $110 million of incremental capital investments made between May 2023 and April 2025. For purposes of the general rate case, the Virginia subsidiary's view of its rate base is $369 million. The general rate case order also approved, solely for purposes of the Virginia subsidiary's future filings requiring a stated cost of capital and/or capital structure (including its annual information and water and wastewater infrastructure surcharge filings), a return on equity of 9.70% and a capital structure consisting of an equity component of 45.67% and a debt and other component of 54.33%, which also represents the Virginia subsidiary's view of its return on equity and capital structure in this general rate case.

On January 21, 2025, the Tennessee Public Utility Commission (the "TPUC") approved a motion authorizing an adjustment of water base rates requested in a rate case filed on May 1, 2024 by the Company's Tennessee subsidiary. The TPUC approved an increase of $1 million in annualized revenues, excluding previously recovered infrastructure surcharges of $18 million, based on an authorized return on equity of 9.70%, authorized rate base of approximately $300 million, a common equity ratio of 44.19% and a debt ratio of 55.81%. This adjustment took effect on January 21, 2025, and is driven primarily by approximately $173 million in capital investments completed and planned by the Tennessee subsidiary through December 2025.

On January 14, 2025, the California Public Utilities Commission (the "CPUC") granted the Company's California subsidiary's request for a one-year extension of its cost of capital filing to May 1, 2026, to set its authorized cost of capital beginning January 1, 2027, and maintain its current authorized cost of capital through 2026.

On December 5, 2024, the Illinois Commerce Commission issued a final order approving the adjustment of base rates requested in a rate case originally filed on January 25, 2024, by the Company's Illinois subsidiary. The general rate case order approved an increase of $105 million in annualized water and wastewater system revenues, excluding previously recovered infrastructure surcharges of $5 million, based on an authorized return on equity of 9.84%, authorized rate base of $2.2 billion, and a capital structure with an equity component of 49.00% and a debt component of 51.00%. The increase was effective January 1, 2025, and is driven primarily by approximately $557 million in capital investments completed and planned by the Illinois subsidiary from January 2024 through December 2025.

On December 5, 2024, the CPUC approved a final decision adopting the terms of a partial settlement agreement filed on November 17, 2023, in the Company's California subsidiary's general rate case originally filed on July 1, 2022. Incorporating the then currently effective return on equity of 10.20%, the decision provides incremental annualized water and wastewater revenues of $21 million in the 2024 test year, and an estimated $16 million in the 2025 escalation year and $16 million in the 2026 attrition year. The 2024 rates were implemented retroactively to January 1, 2024. In addition, the CPUC denied the California subsidiary's proposed Water Resources Sustainability Plan decoupling mechanism but approved continuation of its currently effective Annual Consumption Adjustment Mechanism. On December 12, 2024, the California subsidiary filed an application for rehearing of the CPUC's denial of the proposed Water Resources Sustainability Plan decoupling mechanism, and on May 23, 2025, the CPUC issued its decision denying the application for rehearing.

Pending General Rate Case Filings

On July 1, 2025, the Company's California subsidiary filed an application with the CPUC to set new water and wastewater rates in each of its service areas for 2027 through 2029. The application is seeking an increase of $63 million compared to authorized 2025 revenue, and a total increase in revenue over the 2027 to 2029 period of $111 million. The requested annualized incremental revenue is driven primarily by approximately $750 million of capital investments completed and planned by the California subsidiary through 2025 to 2028. If approved by the CPUC, the new rates would take effect on January 1, 2027. The application also requests approval of a Fixed Cost Recovery Account, which is intended to be a full decoupling mechanism that would allow the Company's California subsidiary to recover authorized fixed costs, regardless of sales volume, while also providing incentives, via progressive conservation-oriented rate design, for customers to use water more efficiently. Independent of the pending rate case, California Senate Bill 473, which requires the CPUC to ensure variances between forecasted and actual sales do not result in material overcollections or undercollections by water corporations, has passed out of the California Senate and is currently awaiting action in the California Assembly Appropriations Committee.

On May 16, 2025, the Company's Kentucky subsidiary filed a general rate case requesting approximately $27 million in annualized incremental revenues, excluding infrastructure surcharges of $10 million, which is based on a proposed return on equity of 10.75% and a proposed capital structure with a common equity component of 52.26% and a debt component of 47.74%. The requested annualized incremental revenue is being driven primarily by approximately $212 million of capital investments completed and planned by the Kentucky subsidiary from February 2025 through December 2026. As provided by statutory authority, the Kentucky subsidiary anticipates that it will put into effect proposed rates on an interim basis seven months after the filing of this case, or December 16, 2025, and the difference between the interim and final approved rates will be subject to refund. The request is subject to approval by the Kentucky Public Service Commission, and the general rate case is expected to be completed by the end of the first quarter of 2026.

On May 5, 2025, the Company's West Virginia subsidiary filed a general rate case requesting approximately $48 million in aggregate annualized incremental revenues, excluding infrastructure surcharges of $13 million, which would include two step increases, with $33 million to be included in rates in March 2026, and $15 million to be included in rates in March 2027. The request is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 50.80% and 50.97%, respectively, for each of the two steps. The requested annualized incremental revenue is driven primarily by more than $300 million of capital investments completed and planned by the West Virginia subsidiary from March 2024 through February 2027. The request is subject to approval by the Public Service Commission of West Virginia, and the general rate case is expected to be completed by the end of February 2026.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective during 2025:

(In millions)	Effective Date	Amount
Infrastructure surcharges by state:		
New Jersey	May 30, 2025	$ 15
Missouri	February 7, 2025	17
Kentucky	January 1, 2025	2
West Virginia	January 1, 2025	4
Total infrastructure surcharge authorizations		$ 38

Pending Infrastructure Surcharge Filings

On June 30, 2025, the Company's West Virginia subsidiary filed an infrastructure surcharge proceeding requesting $3 million in additional annualized revenues.

Other Regulatory Matters

The Pennsylvania Public Utility Commission (the "PaPUC"), as part of its July 22, 2024, approval of the general rate case filed by the Company's Pennsylvania subsidiary on November 8, 2023, initiated an investigation into certain reported water service and water quality issues in the Pennsylvania subsidiary's Northeastern service territory, which reports had been provided during public input hearings convened in the general rate case. The PaPUC is expected to conclude the investigation in the third quarter of 2025.

Consolidated Results of Operations

Presented in the table below are the Company's consolidated results of operations:

(In millions)	For the Three Months Ended June 30, 2025	For the Three Months Ended June 30, 2024	For the Six Months Ended June 30, 2025	For the Six Months Ended June 30, 2024

Net income attributable to common shareholders	$ 289	$ 277	$ 494	$ 462

Segment Results of Operations

The Company's operating segments are comprised of its businesses which generate revenue, incur expense and have separate financial information which is regularly used by the chief operating decision maker to make operating decisions, assess performance and allocate resources. The Company operates its business primarily through one reportable segment, the Regulated Businesses segment. Other, primarily includes MSG, which does not meet the criteria of a reportable segment in accordance with GAAP. Other also includes corporate costs that are not allocated to the Company's Regulated Businesses, interest income related to the secured seller promissory note from the sale of HOS, income from assets not associated with the Regulated Businesses, eliminations of inter-segment transactions and fair value adjustments related to acquisitions that have not been allocated to the Regulated Businesses segment. This presentation is consistent with how management assesses the results of these businesses.

Regulated Businesses Segment

Presented in the table below is financial information for the Regulated Businesses:

(In millions)	For the Three Months Ended June 30, 2025	For the Three Months Ended June 30, 2024	For the Six Months Ended June 30, 2025	For the Six Months Ended June 30, 2024
Operating revenues	$ 1,178	$ 1,057	$ 2,227	$ 1,985
Operation and maintenance	406	356	801	707
Depreciation and amortization	217	189	430	373
General taxes	81	77	162	153
Other	—	(1)	—	(1)
Other (expense) income	(102)	(84)	(201)	(163)
Provision for income taxes	84	78	144	131
Net income attributable to common shareholders	$ 288	$ 274	$ 489	$ 459

Operating Revenues

Presented in the tables below is information regarding the main components of the Regulated Businesses' operating revenues:

(In millions)	For the Three Months Ended June 30, 2025	For the Three Months Ended June 30, 2024	For the Six Months Ended June 30, 2025	For the Six Months Ended June 30, 2024
Water services:				
Residential	$ 637	$ 580	$ 1,197	$ 1,084
Commercial	243	217	455	404
Fire service	48	41	93	82
Industrial	46	46	91	88
Public and other	82	73	155	131
Total water services	1,056	957	1,991	1,789
Wastewater services:				
Residential	71	60	139	119
Commercial	21	16	39	32
Industrial	5	3	10	5
Public and other	10	9	20	17
Total wastewater services	107	88	208	173
Other (a)	15	12	28	23
Total operating revenues	$ 1,178	$ 1,057	$ 2,227	$ 1,985

(a) Includes other operating revenues consisting primarily of miscellaneous utility charges, fees and rents.

(Gallons in millions)	For the Three Months Ended June 30, 2025	For the Three Months Ended June 30, 2024	For the Six Months Ended June 30, 2025	For the Six Months Ended June 30, 2024
Billed water services volumes:				
Residential	37,423	38,201	72,114	72,615
Commercial	19,066	19,291	36,263	36,582
Industrial	8,660	9,710	17,314	18,047
Fire service, public and other	12,643	13,698	25,035	24,814
Total billed water services volumes	77,792	80,900	150,726	152,058

For the three and six months ended June 30, 2025, operating revenues increased $121 million and $242 million, respectively, primarily due to increases of $119 million and $213 million, respectively, from authorized rate increases, including infrastructure surcharges, principally to recover infrastructure investment in various states. In addition, operating revenues increased $11 million and $25 million for the three and six months ended June 30, 2025, respectively, from water and wastewater acquisitions, as well as organic growth in existing systems. Operating revenues were also higher for the three and six months ended June 30, 2025, in the Company's California subsidiary, due to a change to its revenue stability mechanism from full to partial revenue recovery, resulting from the general rate case decision approved by the CPUC in December 2024. These increases were partially offset by a $17 million estimated net decrease for both the three and six months ended June 30, 2025, due to unfavorable weather impacts in the second quarter of 2025 and warm, dry weather in the second quarter of 2024.

Operation and Maintenance

Presented in the table below is information regarding the main components of the Regulated Businesses' operation and maintenance expense:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
(In millions)	**2025**	**2024**	**2025**	**2024**
Employee-related costs	$ 140	$ 136	$ 289	$ 271
Production costs	117	109	223	211
Operating supplies and services	84	61	156	124
Maintenance materials and supplies	26	19	55	41
Customer billing and accounting	22	14	42	28
Other	17	17	36	32
Total operation and maintenance expense	$ 406	$ 356	$ 801	$ 707

For the three and six months ended June 30, 2025, operation and maintenance expense increased $50 million and $94 million, respectively, due to increases from employee-related costs, increased operating supplies and services costs primarily from higher technology related costs, increased production costs primarily from higher purchased water cost and power and fuel costs, customer billing and accounting from an increase in customer uncollectible expense and increases in other maintenance costs.

Depreciation and Amortization

For the three and six months ended June 30, 2025, depreciation and amortization increased $28 million and $57 million, respectively, primarily due to additional utility plant placed in service from capital infrastructure investments and higher depreciation rates from recent rate case orders.

General Taxes

For the three and six months ended June 30, 2025, general taxes increased $4 million and $9 million, respectively, primarily due to incremental property taxes, higher capital stock taxes and New Jersey Gross Receipts Tax.

Other Expenses

For the three and six months ended June 30, 2025, other expenses increased $18 million and $38 million, respectively, primarily due to higher interest expense from the issuance of incremental long-term debt.

Provision for Income Taxes

For the three and six months ended June 30, 2025, the Regulated Businesses' provision for income taxes increased $6 million and $13 million, respectively. The Regulated Businesses' effective income tax rate was 22.6% and 22.2% for the three months ended June 30, 2025 and 2024, respectively, and 22.7% and 22.2% for the six months ended June 30, 2025 and 2024, respectively. The increase was primarily due to the decrease in the amortization of EADIT pursuant to regulatory orders.

Other

Presented in the table below is information for Other:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
(In millions)	**2025**	**2024**	**2025**	**2024**
Operating revenues	$ 98	$ 92	$ 191	$ 175
Operation and maintenance	74	71	147	136
Depreciation and amortization	4	4	7	8
General taxes	5	4	11	9
Interest expense	(35)	(29)	(65)	(56)
Interest income	21	20	42	41
Other income	3	5	10	6
Provision for income taxes	3	6	8	10
Net income attributable to common shareholders	$ 1	$ 3	$ 5	$ 3

Operating Revenues

For the three and six months ended June 30, 2025, operating revenues increased $6 million and $16 million, respectively, primarily from an increase in capital projects in the Contract Services Group ("CSG").

Operation and Maintenance

For the three and six months ended June 30, 2025, operation and maintenance expense increased $3 million and $11 million, respectively, primarily due to costs associated with CSG projects.

Interest expense

For the three and six months ended June 30, 2025, interest expense increased $6 million and $9 million, respectively, due to higher average commercial paper borrowings.

Legislative Updates

During 2025, the Company's regulatory jurisdictions enacted the following legislation that has been approved and is effective as of July 30, 2025:

- California passed Senate Bill 219, which amends the Climate Corporate Data Accountability Act and the Climate-Related Financial Risk Act, to allow the California Air Resources Board until July 1, 2025, to issue implementing regulations, including reporting requirements for Scope 3 emissions. Legislation was signed by the Governor on September 27, 2024, and became effective January 1, 2025.
- Virginia passed Senate Bill 850, which would permit a water or wastewater utility to petition the VSCC for the approval of an eligible infrastructure replacement and enhancement plan and accompanying recovery mechanism that allows for recovery of eligible infrastructure costs outside of a base rate case. Legislation was signed by the Governor on March 24, 2025, and became effective on July 1, 2025.
- Indiana passed Senate Bill 426, which changes the timing of recovery to allow for deferred depreciation from in-service date and post in-service carrying costs and authorizes the IURC to approve mechanisms to allow utilities to invest in and earn on acquired utility assets. The language also provides critical protections from lawsuits when utilities are meeting applicable water quality standards. Legislation was signed by the Governor on April 3, 2025, and became effective on July 1, 2025.

During 2025, the Company's regulatory jurisdictions enacted the following legislation that has been approved but is not yet effective as of July 30, 2025:

- Missouri passed Senate Bill 4, which provides that beginning July 1, 2026, water, sewer, and gas utilities may request the use of a future test year in a general rate case. This statute provides that at the end of the future test year, utilities must reconcile rate base and certain expenses, including annualized depreciation expense, income tax expense, payroll expense, employee benefits except for pensions and other post-retirement benefits, and rate case expenses, within 45 days to the MoPSC. Legislation was signed by the Governor on April 9, 2025, and will become effective on August 28, 2025.

Condemnation and Eminent Domain

All or portions of the Regulated Businesses' utility assets could be acquired by state, municipal or other government entities through one or more of the following methods: (i) eminent domain (also known as condemnation); (ii) the right of purchase given or reserved by a municipality or political subdivision when the original certificate of public convenience and necessity ("CPCN") was granted; and (iii) the right of purchase given or reserved under the law of the state in which the utility subsidiary was incorporated or from which it received its CPCN. The acquisition consideration related to such a proceeding initiated by a local government may be determined consistent with applicable eminent domain law or may be negotiated or fixed by appraisers as prescribed by the law of the state or the jurisdiction of the particular CPCN.

As such, the Regulated Businesses are periodically subject to condemnation proceedings in the ordinary course of business. For example, the Monterey system assets of Cal Am are the subject of a condemnation lawsuit filed by the Monterey Peninsula Water Management District (the "MPWMD") stemming from a November 2018 public ballot initiative. For more information on this matter, see Note 11—Commitments and Contingencies in the Notes to Consolidated Financial Statements.

Furthermore, the law in certain jurisdictions in which the Regulated Businesses operate provides for eminent domain rights allowing private property owners to file a lawsuit to seek just compensation against a public utility, if a public utility's infrastructure has been determined to be a substantial cause of damage to that property. In these actions, the plaintiff would not have to prove that the public utility acted negligently. In California, for example, lawsuits have been filed in connection with large-scale natural events such as wildfires. Some of these lawsuits have included allegations that infrastructure of certain utilities triggered the natural event that resulted in damage to the property. In some cases, the PUC has allowed certain costs or losses incurred by the utility to be recovered from customers in rates, but in other cases such recovery in rates has been disallowed. Also, the utility may have obtained insurance that could respond to some or all of such losses, although the utility would be at risk for any losses not ultimately subject to rate or insurance recovery or losses that exceed the limits of such insurance.

Tax Matters

On July 4, 2025, the One Big Beautiful Bill Act (the "OBBB") was signed into law. The OBBB includes several corporate tax-related provisions. Key changes include the permanent extension of certain provisions from the Tax Cuts and Jobs Act of 2017, such as 100% bonus depreciation and Section 163(j) interest limitation exception for regulated utilities, as well as the immediate expensing of domestic research and development costs, and the introduction of a new charitable contribution floor for corporations. The Company does not expect the OBBB will materially impact the Company's Consolidated Financial Statements. The Company will continue to monitor the implementation and any related guidance.

Liquidity and Capital Resources

For a general overview of the sources and uses of capital resources, see the introductory discussion in Part II, Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources in the Company's Form 10-K.

Liquidity needs for capital investment, working capital and other financial commitments are generally funded through cash flows from operations, public and private debt offerings, issuances of commercial paper and equity and, if and to the extent necessary, borrowings under American Water Capital Corp.'s ("AWCC") revolving credit facility.

The Company expects to fund future maturities of long-term debt through a combination of external debt and, to the extent available, cash flows from operations. Since the Company expects its capital investments over the next few years to be greater than its cash flows from operating activities, the Company currently plans to fund the excess of its capital investments over its cash flows from operating activities for the next five years through a combination of long-term debt and equity issuances, in addition to the remaining proceeds from the sale of HOS. The remaining proceeds from the sale of HOS include receipt of payments under a secured seller promissory note, plus interest, see Note 5—Acquisitions and Divestitures—Secured Seller Promissory Note from the Sale of Homeowner Services Group, in the Notes to Consolidated Financial Statements for additional information. If necessary, the Company may delay certain capital investments or other funding requirements or pursue financing from other sources to preserve liquidity. In this event, the Company believes it can rely upon cash flows from operations to meet its obligations and fund its minimum required capital investments for an extended period of time.

On February 27, 2025, AWCC completed the sale of $800 million aggregate principal amount of its 5.250% Senior Notes due 2035. At the closing of this offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $792 million. AWCC used the net proceeds of the offering (i) to lend funds to American Water and the Regulated Businesses; (ii) to repay at maturity AWCC's 3.400% Senior Notes due 2025; (iii) to repay commercial paper obligations of AWCC; and (iv) for general corporate purposes.

On June 29, 2023, AWCC issued $1,035 million aggregate principal amount of 3.625% Exchangeable Senior Notes due 2026 (the "Notes"). The Notes will mature on June 15, 2026, unless earlier exchanged or repurchased. As of June 30, 2025, the Notes were included in Current portion of long-term debt on the Consolidated Balance Sheets.

AWCC's revolving credit facility provides $2.75 billion in aggregate total commitments from a diversified group of financial institutions. The revolving credit facility is used principally to support AWCC's commercial paper program, to provide additional liquidity support, and to provide a sub limit for the issuance of up to $150 million in letters of credit. The maximum aggregate principal amount of short-term borrowings authorized for issuance under AWCC's commercial paper program is $2.6 billion. Subject to satisfying certain conditions, the credit agreement permits AWCC to increase the maximum commitment by up to an aggregate of $500 million.

Presented in the tables below are the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each:

	As of June 30, 2025		
(In millions)	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(1,591)	(84)	(1,675)
Remaining availability as of June 30, 2025	$ 1,009	$ 66	$ 1,075

(a) Total remaining availability of $1.1 billion as of June 30, 2025, was accessible through revolver draws.

	As of December 31, 2024		
(In millions)	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(880)	(82)	(962)
Remaining availability as of December 31, 2024	$ 1,720	$ 68	$ 1,788

(a) Total remaining availability of $1.8 billion as of December 31, 2024, was accessible through revolver draws.

Presented in the table below is the Company's total available liquidity:

(In millions)	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of June 30, 2025	$ 94	$ 1,075	$ 1,169
Available liquidity as of December 31, 2024	$ 96	$ 1,788	$ 1,884

The weighted-average interest rate on AWCC's outstanding short-term borrowings was approximately 4.59% and 4.65% at June 30, 2025, and December 31, 2024, respectively.

The Company believes that its ability to access the debt and equity capital markets, the revolving credit facility and cash flows from operations will generate sufficient cash to fund the Company's short-term requirements. The Company believes it has sufficient liquidity and the ability to manage its expenditures, should there be a disruption of the capital and credit markets. However, there can be no assurance that the lenders will be able to meet existing commitments to AWCC under the revolving credit facility, or that AWCC will be able to access the commercial paper or loan markets in the future on acceptable terms or at all. See Note 8—Short-Term Debt in the Notes to Consolidated Financial Statements for additional information.

As of June 30, 2025, the Company had five treasury lock agreements, with a term of 30 years and an aggregate notional amount of $180 million, to reduce interest rate exposure on expected future debt issuances. These treasury lock agreements terminate in December 2025 and March 2026 and have an average fixed interest rate of 4.73%. In July 2025, the Company entered into four treasury lock agreements, with a term of 30 years and an aggregate notional amount of $170 million, to reduce interest rate exposure on expected future debt issuances. These treasury lock agreements terminate in September 2025 and have an average fixed interest rate of 4.93%. The Company designated these treasury lock agreements as cash flow hedges, measured at fair value with the gain or loss recorded in accumulated other comprehensive income.

In May 2025, the Company terminated two treasury lock agreements designated as cash flow hedges, with a term of 30 years and an aggregate notional amount totaling $100 million, realizing a pre-tax net gain of $12 million recorded in accumulated other comprehensive income. The gain will reduce interest rate exposure on any future debt issuance in 2025 and will be amortized through Interest expense over a 30-year period, in accordance with the tenor of the notes.

In February 2025, the Company terminated 10 treasury lock agreements designated as cash flow hedges, with a term of 10 years and an aggregate notional amount totaling $500 million, realizing a pre-tax net gain of $3 million recorded in accumulated other comprehensive income. The gain will be amortized through Interest expense over a 10-year period, in accordance with the tenor of the notes issued on February 27, 2025.

No ineffectiveness was recognized on hedging instruments for the three and six months ended June 30, 2025 or 2024.

Cash Flows from Operating Activities

Cash flows from operating activities primarily result from the sale of water and wastewater services and, due to the seasonality of demand, are generally greater during the warmer months. Presented in the table below is a summary of the major items affecting the Company's cash flows from operating activities:

	For the Six Months Ended June 30,	
(In millions)	**2025**	**2024**
Net income	$ 494	$ 462
Add (less):		
Depreciation and amortization	437	381
Deferred income taxes and amortization of investment tax credits	51	37
Other non-cash activities (a)	(19)	(20)
Changes in assets and liabilities (b)	(309)	(111)
Pension contributions	(22)	(22)
Net cash provided by operating activities	$ 632	$ 727

(a) Includes provision for losses on accounts receivable, pension and non-pension postretirement benefits and other non-cash, net.

(b) Changes in assets and liabilities include changes to receivables and unbilled revenues, income tax receivable, accounts payable and accrued liabilities, accrued taxes and other assets and liabilities, net.

For the six months ended June 30, 2025, cash flows provided by operating activities decreased $95 million, primarily due to the CAMT liability included in the Company's 2024 extension payment in the second quarter of 2025, utilization of income tax receivables in the prior year, and higher customer receivables and unbilled revenues in the current period. The decrease was partially offset by an increase in net income and depreciation.

Cash Flows from Investing Activities

Presented in the table below is a summary of the major items affecting the Company's cash flows from investing activities:

	For the Six Months Ended June 30,	
(In millions)	**2025**	**2024**
Capital expenditures	$ (1,281)	$ (1,279)
Acquisitions, net of cash acquired	(13)	(119)
Removal costs from property, plant and equipment retirements, net	(71)	(73)
Purchases of available-for-sale fixed-income securities	(35)	—
Proceeds from sales and maturities of available-for-sale fixed-income securities	60	—
Net cash used in investing activities	$ (1,340)	$ (1,471)

For the six months ended June 30, 2025, cash flows used in investing activities decreased $131 million, primarily due to decreased payments for acquisitions in the current period. The Company plans to invest approximately $3.3 billion on growth through capital investment in infrastructure and acquisitions in the Regulated Businesses in 2025.

Cash Flows from Financing Activities

Presented in the table below is a summary of the major items affecting the Company's cash flows from financing activities:

(In millions)	For the Six Months Ended June 30, 2025	2024
Proceeds from long-term debt, net of discount	$ 876	$ 1,403
Repayments of long-term debt	(606)	(466)
Net short-term borrowings (repayments) with original maturities less than three months	710	(179)
Debt issuance costs	(7)	(13)
Dividends paid	(311)	(287)
Other financing activities, net (a)	41	20
Net cash provided by financing activities	$ 703	$ 478

(a) Includes proceeds from issuances of common stock under various employee stock plans and the Company's dividend reinvestment and direct stock purchase plan, net of taxes paid, and advances and contributions in aid of construction, net of refunds.

For the six months ended June 30, 2025, cash flows provided by financing activities increased $225 million, primarily due to higher short-term commercial paper borrowings in the current period compared to repayments of commercial paper in the prior period, partially offset by lower proceeds from the issuance of long-term debt and higher repayments of long-term debt.

Debt Covenants

The Company's debt agreements contain financial and non-financial covenants. To the extent that the Company is not in compliance with these covenants, an event of default may occur under one or more debt agreements and the Company, or its subsidiaries, may be restricted in its ability to pay dividends, issue new debt or access the revolving credit facility. The long-term debt indentures contain a number of covenants that, among other things, prohibit or restrict the Company from issuing debt secured by the Company's assets, subject to certain exceptions. Failure to comply with any of these covenants could accelerate repayment obligations.

Covenants in certain long-term notes and the revolving credit facility require the Company to maintain a ratio of consolidated debt to consolidated capitalization (as defined in the relevant documents) of not more than 0.70 to 1.00. On June 30, 2025, the Company's ratio was 0.58 to 1.00 and therefore the Company was in compliance with the covenants.

Security Ratings

Presented in the table below are long-term and short-term credit ratings and rating outlooks as of July 30, 2025, as issued by Moody's Ratings on January 23, 2025, and S&P Global Ratings on June 6, 2025:

Securities	Moody's Ratings	S&P Global Ratings
Rating outlook	Stable	Stable
Senior unsecured debt	Baa1	A
Commercial paper	P-2	A-1

A security rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency, and each rating should be evaluated independently of any other rating. Security ratings are highly dependent upon the ability to generate cash flows in an amount sufficient to service debt and meet investment plans. The Company can provide no assurances that its ability to generate cash flows is sufficient to maintain its existing ratings. The Company does not have any material borrowings that are subject to default or prepayment as a result of the downgrading of these security ratings, although such a downgrading could increase fees and interest charges under its credit facility.

As part of its normal course of business, the Company routinely enters into contracts for the purchase and sale of water, power and other fuel, chemicals and other services. These contracts either contain express provisions or otherwise permit the Company and its counterparties to demand adequate assurance of future performance when there are reasonable grounds for doing so. In accordance with the contracts and applicable contract law, if the Company is downgraded by a credit rating agency, especially if such downgrade is to a level below investment grade, it is possible that a counterparty would attempt to rely on such a downgrade as a basis for making a demand for adequate assurance of future performance, which could include a demand that the Company must provide collateral to secure its obligations. The Company does not expect to post any collateral which will have a material adverse impact on the Company's results of operations, financial position or cash flows.

Access to the capital markets, including the commercial paper market, and respective financing costs in those markets, may be directly affected by the Company's securities ratings. The Company primarily accesses the debt capital markets, including the commercial paper market, through AWCC. However, the Company has also issued debt through its regulated subsidiaries, primarily in the form of mortgage bonds and tax-exempt securities or borrowings under state revolving funds, to lower the overall cost of debt.

Dividends

For discussion of the Company's dividends, see Note 6—Shareholders' Equity in the Notes to Consolidated Financial Statements for additional information.

Application of Critical Accounting Policies and Estimates

The financial condition of the Company, results of operations and cash flows, as reflected in the Company's Consolidated Financial statements, are impacted by the methods, assumptions and estimates used in the application of critical accounting policies. See Part II, Item 7—Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates in the Company's Form 10-K for a discussion of its critical accounting policies. Additionally, see Note 2—Significant Accounting Policies in the Notes to Consolidated Financial Statements for updates, if any, to the significant accounting policies previously disclosed in the Company's Form 10-K.

Recent Accounting Standards

See Note 2—Significant Accounting Policies in the Notes to Consolidated Financial Statements for a description of new accounting standards recently adopted or pending adoption.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk in the normal course of business, including changes in commodity prices, equity prices and interest rates. For further discussion of its exposure to market risk, see Part II, Item 7A—Quantitative and Qualitative Disclosures about Market Risk in the Company's Form 10-K. There have been no significant changes to the Company's exposure to market risk since December 31, 2024.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

American Water maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objective.

The Company's management, including the Chief Executive Officer and the Chief Financial Officer, conducted an evaluation of the effectiveness of its disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of June 30, 2025.

Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that, as of June 30, 2025, the Company's disclosure controls and procedures were effective at a reasonable level of assurance.

Changes in Internal Control over Financial Reporting

The Company concluded that there have been no changes in internal control over financial reporting that occurred during the three months ended June 30, 2025, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The following information updates and amends the information provided in the Company's Form 10-K in Item 3—Legal Proceedings, and in the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2025 in Part II, Item 1—Legal Proceedings. Capitalized terms used but not otherwise defined herein have the meanings set forth in the Company's Form 10-K, and in the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2025. In accordance with the SEC's disclosure rules, the Company has elected to disclose environmental proceedings involving the Company and a governmental authority if the amount of potential monetary sanctions, exclusive of interest and costs, that the Company reasonably believes will result from such proceeding is $1 million or more.

Alternative Water Supply in Lieu of Carmel River Diversions

Monterey Peninsula Water Supply Project

CPUC Final Approval of Water Supply Project

On May 21, 2025, the CPUC issued a decision authorizing an increase to the cost cap of $11 million for certain of the Water Supply Project's extraction wells.

On May 9, 2025, the CPUC issued a proposed decision in the Phase 2 that is focusing on updated supply and demand estimates for the Water Supply Project, finding that without the Water Supply Project, projected demand will outstrip supply by approximately 2,500 acre-feet per year. On June 18, 2025, the CPUC issued a decision extending the Phase 2 statutory deadline to October 31, 2025. This Phase 2 matter remains pending.

Coastal Development Permit Application

On March 28, 2025, the Monterey County Superior Court issued an intended decision to deny in full the joint petition for writ of mandate by the City, MCWD and MPWMD. As permitted by the court, written statements were filed identifying issues that were believed to have not been addressed in the intended decision. On May 12, 2025, the court entered its final decision denying the petition in full.

Water Supply Project Land Acquisition and Slant Well Site Use

On June 25, 2025, the SWRCB administrative hearing officer transmitted a final report of an advisory opinion to the SWRCB's board for approval, as well as to the parties and the Monterey County Superior Court. The final report analyzes potential impacts to the groundwater basin and groundwater users based on predictive modeling presented by the parties' experts, and concludes, among other things, that the slant well pumping is not expected to materially impact MCWD's water rights, or its ability to draw water from its wells. The report also finds that although some harm to the groundwater basin may occur in the form of increased seawater intrusion and lowering of groundwater levels, any such harm should be balanced against the benefits of the project, and could be avoided or remedied by a physical solution. A trial in the City's May 2020 lawsuit against Cal Am and CEMEX is set to begin in November 2025.

Regional Water Quality Control Board Approval of NPDES Permit Amendment

Following submission of the application to amend the relevant NPDES permit to the RWQCB, Cal Am's and Monterey One Water's consultants developed a less environmentally impactful alternative that reduces the number of outfall modifications required to accommodate brine discharge. The alternatives analysis was approved by Monterey One Water's board on June 30, 2025, and was submitted to the RWQCB on July 1, 2025.

Dunbar, West Virginia Class Action Litigation Proposed Settlement

On May 2, 2025, the parties jointly filed for approval by the Circuit Court a proposed class action settlement agreement (the "Dunbar Settlement") with respect to claims by the *Jeffries* plaintiffs, and, on May 5, 2025, the Circuit Court issued an order granting preliminary approval of the Dunbar Settlement. The actual total amount to be paid to claimants through the Dunbar Settlement will depend upon the claims submitted and approved through the claims process that is now underway, which includes, among other things: notice that has been provided to the class; obtaining, reviewing and processing properly-submitted claims from potential claimants; and handling any requests to opt out from or object to the Dunbar Settlement. Following the completion of the claims process, the Circuit Court will hold a hearing regarding its final approval of the Dunbar Settlement, which is currently scheduled for September 11, 2025. No contribution by the Company or WVAWC for claims associated with the Dunbar Settlement will be funded unless and until, and to the extent required by, a settlement agreement that receives final approval from the Circuit Court.

PFAS Multi-District Litigation

As of June 30, 2025, the Company received an initial settlement payment from defendant 3M Company of $34 million, net of legal fees and administrative costs. As of June 30, 2025, these funds were held in a law firm escrow account and are awaiting distribution to the Company's utility subsidiaries that are parties to the MDL. The Company intends to seek regulatory approval from its respective PUCs to apply the net proceeds for the benefit of customers. The Company anticipates receiving, during the remainder of 2025, additional settlement payments from the defendants named above.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, readers should carefully consider the factors discussed in Item 1A—Risk Factors in the Form 10-K, and in the Company's other filings with the SEC, which could materially affect the Company's business, financial condition, cash flows or future results. There have been no material changes from the risk factors previously disclosed in Item 1A—Risk Factors in the Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuance of Shares in Connection with Acquisition of Audubon Water Company

Effective May 28, 2025, the Company issued 48,381 shares of its common stock (the "Shares"), net of an indemnity escrow claim, as consideration for the merger (the "Audubon Merger") of a wholly owned subsidiary of the Company with and into Audubon, with Audubon being the surviving entity immediately following such merger, in a transaction not involving a public offering of securities in reliance upon Section 4(a)(2) of the Securities Act. Promptly following the closing of the Audubon Merger, Audubon was merged with and into the Company's Pennsylvania subsidiary. The Shares were issued out of the Company's existing treasury stock, with restrictive legends thereupon, to or for the benefit of an irrevocable trust that was, immediately prior to the closing of the Audubon Merger, the sole shareholder of Audubon.

Anti-dilutive Stock Repurchase Program

In February 2015, the Board of Directors authorized an anti-dilutive stock repurchase program to mitigate the dilutive effect of shares issued through the Company's dividend reinvestment and direct stock purchase plan and employee stock purchase and executive compensation activities. The program allows the Company to purchase up to 10 million shares of its outstanding common stock over an unrestricted period of time in the open market or through privately negotiated transactions. The program is conducted in accordance with Rule 10b-18 of the Exchange Act, and, to facilitate these repurchases, the Company enters into Rule 10b5-1 stock repurchase plans with a third-party broker, which allow the Company to repurchase shares of its common stock at times when it otherwise might be prevented from doing so under insider trading laws or because of self-imposed trading blackout periods. Subject to applicable regulations, the Company may elect to amend or cancel the program or the stock repurchase parameters at its discretion to manage dilution.

The Company did not repurchase shares of common stock during the three months ended June 30, 2025. From April 1, 2015, the date repurchases under the anti-dilutive stock repurchase program commenced, through June 30, 2025, the Company repurchased an aggregate of 4,860,000 shares of common stock under the program, leaving an aggregate of 5,140,000 shares available for repurchase under this program.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

During the three months ended June 30, 2025, none of the Company's directors or "officers" (as such term is defined in Rule 16a-1(f) promulgated under the Exchange Act) adopted or terminated (i) any contract, instruction or written plan for the purchase or sale of the Company's securities, intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) promulgated under the Exchange Act or (ii) any "non-Rule 10b5-1 trading arrangement" (as defined in Item 408(c) of Regulation S-K).

ITEM 6. EXHIBITS

Exhibit Number	Exhibit Description
2.1#	Membership Interest Purchase Agreement, dated as of October 28, 2021, by and among American Water Enterprises, LLC, American Water (USA), LLC, American Water Resources, LLC, Pivotal Home Solutions, LLC, American Water Resources Holdings, LLC, American Water Works Company, Inc. and Lakehouse Buyer Inc. (incorporated by reference to Exhibit 2.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed October 29, 2021).
2.2#	Purchase and Sale Agreement, dated as of May 19, 2025, between Nexus Regulated Utilities, LLC and American Water Works Company, Inc. (incorporated by reference to Exhibit 2.1 to American Water Works Company's Inc. Current Report on Form 8-K, File No. 001-34028, filed May 19, 2025).
3.1	Restated Certificate of Incorporation of American Water Works Company, Inc. (incorporated by reference to Exhibit 3.1 to American Water Works Company, Inc.'s Quarterly Report on Form 10-Q, File No. 001-34028, filed November 6, 2008).
3.2	Amended and Restated Bylaws of American Water Works Company, Inc. (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K, File No. 001-34028, filed December 8, 2022).
4.1	Indenture, dated as of December 4, 2009, between American Water Capital Corp. and Computershare Trust Company, N.A., as successor to Wells Fargo Bank, National Association (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed December 3, 2010).
4.2	Officers' Certificate of American Water Capital Corp., dated February 27, 2025, establishing the 5.250% Senior Notes due 2035 (incorporated by reference to Exhibit 4.1 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed February 27, 2025).
10.1#	Amendment No. 1 to Secured Seller Note Agreement, dated as of February 2, 2024, by and among Lakehouse Bidco Inc., Lakehouse Buyer Inc., American Water Resources, LLC, Pivotal Home Solutions, LLC, American Water Resources Holdings, LLC, American Water Resources of Texas, LLC, American Water Resources of Florida, LLC, and American Water Enterprises, LLC (incorporated by reference to Exhibit 10.1.2 to American Water Works Company, Inc.'s Current Report on Form 8-K, File No. 001-34028, filed February 5, 2024).
10.2	Amendment No. 2 to Secured Seller Note Agreement, dated as of December 3, 2024, by and among Lakehouse Bidco Inc., Lakehouse Buyer Inc., American Water Resources, LLC, Pivotal Home Solutions, LLC, American Water Resources Holdings, LLC, American Water Resources of Texas, LLC, American Water Resources of Florida, LLC, and American Water Enterprises, LLC (incorporated by reference to Exhibit 10.20.3 to American Water Works Company, Inc.'s Current Report on Form 10-K, File No. 001-34028, filed February 19, 2025).
*10.3	American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan 2025 Stock Unit Grant Form for Non-Employee Directors.
10.4	Offer Letter for Employment, effective May 14, 2025, between American Water Works Company, Inc. and John C. Griffith (incorporated by reference to Exhibit 10.11 to American Water Works Company Inc.'s Quarterly Report on Form 10-Q, File No. 001-34028, filed April 30, 2025).
10.5	Offer Letter for Employment, effective April 1, 2025, between American Water Works Company, Inc. and Lori Sutton (incorporated by reference to Exhibit 10.12 to American Water Works Company Inc.'s Quarterly Report on Form 10-Q, File No. 001-34028, filed April 30, 2025).
*31.1	Certification of John C. Griffith, President and Chief Executive Officer, pursuant to Section 302 of the Sarbanes-Oxley Act.
*31.2	Certification of David M. Bowler, Executive Vice President and Chief Financial Officer, pursuant to Section 302 of the Sarbanes-Oxley Act.
**32.1	Certification of John C. Griffith, President and Chief Executive Officer, pursuant to Section 906 of the Sarbanes-Oxley Act.
**32.2	Certification of David M. Bowler, Executive Vice President and Chief Financial Officer, pursuant to Section 906 of the Sarbanes-Oxley Act.

Certain schedules and exhibits to this agreement have been omitted as permitted by rules or regulations of the SEC. The Company will furnish the omitted schedules and exhibits to the SEC upon request.

* Filed herewith.

** Furnished herewith.

The Membership Interest Purchase Agreement filed as Exhibit 2.1, the Purchase and Sale Agreement filed as Exhibit 2.2, and Amendment No. 1 and Amendment No. 2 to the Secured Seller Note Agreement filed as Exhibit 10.1 and Exhibit 10.2, respectively, to this Quarterly Report on Form 10-Q, have been included to provide investors and security holders with information regarding the terms of the respective agreements. The filing of these agreements is not intended to provide any other factual information about the parties thereto, or any of their respective subsidiaries or affiliates. The representations, warranties and covenants contained in the respective agreements (i) were made by the parties thereto only for purposes of that respective agreement and as of specific dates; (ii) were made solely for the benefit of the parties to the respective agreement; (iii) may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures exchanged between the parties in connection with the execution of the respective agreement (such disclosures include information that has been included in public disclosures, as well as additional non-public information); (iv) may have been made for the purposes of allocating contractual risk between the parties to the respective agreements instead of establishing these matters as facts; and (v) may be subject to standards of materiality applicable to the contracting parties to the respective agreements that differ from those applicable to investors.

Investors should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of the parties to the respective agreements thereto, or any of their respective subsidiaries or affiliates. Additionally, the representations, warranties, covenants, conditions and other terms of the respective agreements may be subject to subsequent waiver or modification. Moreover, information concerning the subject matter of the representations, warranties and covenants may change after the date of the respective agreement, which subsequent information may or may not be fully reflected in the Company's public disclosures. The respective agreements should not be read alone, but should instead be read in conjunction with the other information regarding the Company that is or will be contained in, or incorporated by reference into, the reports and other documents that are filed by the Company with the SEC.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized, on the 30th day of July, 2025.

Exhibit 10.3

AMERICAN WATER WORKS COMPANY, INC.

2017 OMNIBUS EQUITY COMPENSATION PLAN

STOCK UNIT GRANT

This STOCK UNIT GRANT, dated as of May 14, 2025 (the "Date of Grant"), is delivered by American Water Works Company, Inc. (the "Company") to _____ (the "Participant").

RECITALS

WHEREAS, the Board of Directors of the Company (the "Board") has determined to grant each non-employee director of the Company on the date of the Company's 2025 Annual Meeting of Shareholders a stock unit grant that will be immediately converted to shares of common stock of the Company, par value $0.01 per share, (the "Company Stock");

WHEREAS, the Participant is a non-employee director on the Board; and

WHEREAS, the Board has determined that the stock unit grant granted to the Participant shall be issued under the American Water Works Company, Inc. 2017 Omnibus Equity Compensation Plan (the "Plan") and the terms and conditions thereof shall be memorialized in this grant (the "Grant").

NOW, THEREFORE, the parties to this Grant, intending to be legally bound hereby, agree as follows:

1. Grant of Stock Units. Subject to the terms and conditions set forth in this Grant and the Plan, the Company hereby grants to the Participant _____ units (the "Stock Units"). Each Stock Unit shall be a phantom right and shall be equivalent to one share of Company Stock on the applicable distribution date, as described in Paragraph 4 below.

2. Stock Unit Account. The Company shall establish and maintain a Stock Unit account as a bookkeeping account on its records (the "Stock Unit Account") for the Participant and shall record in such Stock Unit Account the number of Stock Units granted to the Participant. The Participant shall not have any interest in any fund or specific assets of the Company by reason of this grant or the Stock Unit Account established for the Participant.

3. Vesting. The Participant shall be fully vested in the Stock Units credited to the Participant's Stock Unit Account pursuant to this Grant on the Date of Grant.

4. Distribution. The Stock Units shall be converted to shares of Company Stock on the Date of Grant and such shares of stock shall be distributed by the Company within thirty (30) days after the Date of Grant.

5. Acknowledgment by Participant. By accepting this Grant, the Participant acknowledges that with respect to any right to distribution pursuant to this Grant, the Participant is and shall be an unsecured general creditor of the Company without any preference as against other unsecured general creditors of the Company, and the Participant hereby covenants for himself or herself, and anyone at any time claiming through or under the Participant, not to claim any such preference, and hereby disclaims and waives any such preference which may at any

time be at issue, to the fullest extent permitted by applicable law. The Participant also hereby agrees to be bound by the terms and conditions of the Plan and this Grant. The Participant further agrees to be bound by the determinations and decisions of the Board with respect to this Grant and the Plan and the Participant's rights to benefits under this Grant and the Plan, and agrees that all such determinations and decisions of the Board shall be binding on the Participant, his or her beneficiaries and any other person having or claiming an interest under this Grant and the Plan on behalf of the Participant.

6. Restrictions on Issuance or Transfer of Shares of Company Stock.

(a) The obligation of the Company to deliver shares of Company Stock upon the distribution of the Stock Units shall be subject to the condition that shares of Company Stock be qualified for listing on the New York Stock Exchange or another securities exchange and be registered under the Securities Act of 1933, as amended, and that any consent or approval of any governmental regulatory body that is necessary to issue shares of Company Stock has been so obtained, and that shares of Company Stock may not be issued in whole or in part unless such listing, registration, qualification, consent or approval shall have been effected or obtained free of any conditions not acceptable to the Board. The issuance of shares of Company Stock and the payment of cash to the Participant pursuant to this Grant is subject to any applicable taxes and other laws or regulations of the United States or of any state having jurisdiction thereof.

(b) As a condition to receive any shares of Company Stock upon conversion of the Stock Units, the Participant agrees:

(i) to be bound by, and to comply with, the Company's policies and practices (as they may be in effect from time to time) regarding the restrictions or limitations on the transfer of such shares, and understands that the Participant may be restricted or prohibited at any time and from time to time from selling, transferring, pledging, donating, assigning, margining, mortgaging, hypothecating or otherwise encumbering the shares in accordance with such policies and practices, including without limitation the Company's Insider Trading and Prohibited Transactions Policy and its Personal Securities Trading and Preclearance Practice; and

(ii) that the shares of Company Stock obtained by the Participant upon the distribution of the Stock Units shall not be transferred or disposed of by any means until the Participant owns enough shares of Company Stock, or shares underlying stock units convertible into shares of Company Stock, or time-based restricted Company Stock, to meet or exceed five (5) times the Participant's annual cash retainer, which ownership requirement must be satisfied by the fifth (5th) anniversary of the Participant's commencement of service as a director on the Board.

7. Grant Subject to Plan Provisions. This Grant is made pursuant to the Plan, the terms of which are incorporated herein by reference, and in all respects shall be interpreted in accordance with the Plan. In the event of any contradiction, distinction or difference between this Grant and the terms of the Plan, the terms of the Plan will control. Except as otherwise defined in this Grant, capitalized terms used in this Grant shall have the meanings set forth in the Plan. This Grant is subject to the interpretations, regulations and determinations concerning the Plan established from time to time by the Board in accordance with the provisions of the Plan, including, but not limited to, provisions pertaining to (i) rights and obligations with respect to withholding taxes, (ii) the registration, qualification or listing of the shares of Company Stock, (iii) changes in capitalization of the Company, and (iv) other requirements of applicable law. The Board shall have the authority to interpret and construe this Grant pursuant to the terms of the Plan, its decisions shall be conclusive as to any questions arising hereunder and the

Participant's acceptance of this Grant is the Participant's agreement to be bound by the interpretations and decisions of the Board with respect to this Grant and the Plan.

8. No Rights to Continued Service. This Grant shall not confer upon the Participant any right to be retained in the service of the Employer (as defined in the Plan) and shall not interfere in any way with the right to terminate the Participant's service at any time.

9. Assignment and Transfers. The rights and protections of the Company hereunder shall extend to any successors or assigns of the Company. This Grant may be assigned by the Company without the Participant's consent.

10. Withholding. To the extent required by applicable law, the Participant shall be required to pay to the Company, or make other arrangements satisfactory to the Company to provide for the payment of, any federal, state, local or other taxes that the Company is required to withhold with respect to the Grant, vesting or distribution of the Stock Units.

11. Effect on Other Benefits. The value of shares of Company Stock distributed with respect to the Stock Units shall not be considered eligible earnings for purposes of any other plans maintained by the Employer. Neither shall such value be considered part of the Participant's compensation for purposes of determining or calculating other benefits that are based on compensation, such as life insurance.

12. Applicable Law. The validity, construction, interpretation and effect of this Grant shall be governed by and construed in accordance with the laws of the State of Delaware, without giving effect to the conflicts of laws provisions thereof.

13. Notice. Any notice to the Company provided for in this instrument shall be addressed to the Company in care of the General Counsel at the Company's corporate headquarters, and any notice to the Participant shall be addressed to such Participant at the current address shown on the records of the Company, or to such other address as the Participant may designate to the Company in writing. Any notice shall be delivered by hand, sent by facsimile, e-mail or other electronic means (with confirmation of receipt to be made by any oral, electronic or written means), or enclosed in a properly sealed envelope addressed as stated above, registered and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

IN WITNESS WHEREOF, the Company has caused its duly authorized officer to execute this Grant, effective as of the Date of Grant.

AMERICAN WATER WORKS COMPANY, INC.

By: John C. Griffith

Its: President and CEO

Exhibit 31.1

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER

(Pursuant to Rule 13a-14(a) of the Securities Exchange Act of 1934, as amended,
as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002)

I, John C. Griffith, certify that:

1. I have reviewed this quarterly report on Form 10-Q of American Water Works Company, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Throughout this Quarterly Report on Form 10-Q ("Form 10-Q"), unless the context otherwise requires, references to the "Company" and "American Water" mean American Water Works Company, Inc. and all of its subsidiaries, taken together as a whole. References to the "parent company" mean American Water Works Company, Inc., without its subsidiaries.

The Company maintains a website at *https://amwater.com* and an Investor Relations website at *https://ir.amwater.com*. Information contained on the Company's websites shall not be deemed incorporated into, or to be a part of, this report, and any website references included herein are not intended to be made through active hyperlinks.

FORWARD-LOOKING STATEMENTS

Statements included in Part I, Item 2—Management's Discussion and Analysis of Financial Condition and Results of Operations and in other sections of this Form 10-Q are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and the Private Securities Litigation Reform Act of 1995. In some cases, these forward-looking statements can be identified by words with prospective meanings such as "intend," "plan," "estimate," "believe," "anticipate," "expect," "predict," "project," "propose," "assume," "forecast," "likely," "uncertain," "outlook," "future," "pending," "goal," "objective," "potential," "continue," "seek to," "may," "can," "should," "will" and "could" or the negative of such terms or other variations or similar expressions. Forward-looking statements may relate to, among other things: the Company's future financial performance, liquidity and cash flows; the timing and amount of rate and revenue adjustments, including through general rate case filings, filings for infrastructure surcharges and other governmental agency authorizations and proceedings, and filings to address regulatory lag; the Company's ability to execute its current and long-term business, operational, capital expenditures and growth plans and strategies; the timing and outcome of pending or future acquisition activity (including, without limitation, the merger agreement with Essential Utilities, Inc. ("Essential") and the proposed acquisition of systems owned indirectly by Nexus Water Group, Inc.), and the ability to achieve organic customer growth; the ability of the Company's California subsidiary to obtain adequate alternative water supplies in lieu of diversions from the Carmel River; the amount, allocation and timing of projected capital expenditures and related funding requirements; the Company's ability to repay or refinance debt; the future impacts of increased or increasing financing costs, inflation and interest rates; the Company's ability to finance current and projected operations, capital expenditure needs and growth initiatives by accessing the debt and equity capital markets and sources of short-term liquidity; the future settlement or settlements of the Forward Sale Agreements described herein, adjustments to the forward sale price thereunder, and the amount of and the intended use of net proceeds from any such future settlement or settlements; the outcome and impact on the Company of governmental and regulatory investigations, class action lawsuits, and other litigation and legal proceedings, and related potential fines, penalties and other sanctions; the ability to meet or exceed the Company's stated environmental and sustainability goals, including its greenhouse gas ("GHG") emission reduction, water delivery efficiency and water system resiliency goals; the ability to complete, and the timing and efficacy of, the design, development, implementation and improvement of technology and other strategic initiatives; the Company's ability to comply with new and changing environmental regulations; the ability to capitalize on existing or future utility privatization opportunities; trends in the water and wastewater industries in which the Company operates, including macro trends with respect to the Company's efforts and projects related to customer, technology and work efficiency and execution; regulatory, legislative, tax policy or legal developments; and impacts that future significant tax legislation may have on the Company and on its business, results of operations, cash flows and liquidity.

Forward-looking statements are predictions based on the Company's current expectations and assumptions regarding future events. They are not guarantees or assurances of any outcomes, financial results, levels of activity, performance or achievements, and readers are cautioned not to place undue reliance upon them. These forward-looking statements are subject to a number of estimates, assumptions, known and unknown risks, uncertainties and other factors. The Company's actual results may vary materially from those discussed in the forward-looking statements included herein as a result of the following important factors:

- the decisions of governmental and regulatory bodies, including decisions to raise or lower customer rates;
- the timeliness and outcome of regulatory commissions' and other authorities' actions concerning rates, capital structure, authorized return on equity, capital investment, system acquisitions and dispositions, taxes, permitting, water supply and management, and other decisions;
- changes in customer demand for, and patterns of use of, water and energy, such as may result from conservation efforts, or otherwise;
- limitations on the availability of the Company's water supplies or sources of water, or restrictions on its use thereof, resulting from allocation rights, governmental or regulatory requirements and restrictions, drought, overuse or other factors;
- a loss of one or more large industrial or commercial customers due to adverse economic conditions or other factors;
- present and future proposed changes in laws, governmental regulations and policies, including with respect to the environment (such as, for example, potential improvements or changes to existing Federal regulations with respect to lead and copper service lines and galvanized steel pipe), health and safety, data and consumer privacy, security and protection, water quality and water quality accountability, contaminants of emerging concern (including without limitation per- and polyfluoroalkyl substances (collectively, "PFAS")), public utility and tax regulations and policies, and impacts resulting from U.S., state and local elections and changes in federal, state and local executive administrations;
- the Company's ability to collect, distribute, use, secure and store consumer data in compliance with current or future governmental laws, regulations and policies with respect to data and consumer privacy, security and protection;

- weather conditions and events, climate variability patterns, and natural disasters, including drought or abnormally high rainfall, prolonged and abnormal ice or freezing conditions, strong winds, coastal and intercoastal flooding, pandemics and epidemics, earthquakes, landslides, hurricanes, tornadoes, wildfires, electrical storms, sinkholes and solar flares;
- the outcome of litigation and similar governmental and regulatory proceedings, investigations or actions;
- the risks associated with the Company's aging infrastructure, and its ability to appropriately improve the resiliency of or maintain, update, redesign and/or replace, current or future infrastructure and systems, including its technology and other assets, and manage the expansion of its businesses;
- exposure or infiltration of the Company's technology and critical infrastructure systems, including the disclosure of sensitive, personal or confidential information contained therein, through physical or cyber attacks or other means, and impacts from required or voluntary public and other disclosures, as well as civil class action and other litigation or legal, regulatory or administrative proceedings, related thereto;
- the Company's ability to obtain permits and other approvals for projects and construction, update, redesign and/or replacement of various water and wastewater facilities;
- changes in the Company's capital requirements;
- the Company's ability to control operating expenses and to achieve operating efficiencies, and the Company's ability to create, maintain and promote initiatives and programs that support the affordability of the Company's regulated utility services;
- the intentional or unintentional actions of a third party, including contamination of the Company's water supplies or the water provided to its customers;
- the Company's ability to obtain and have delivered adequate and cost-effective supplies of pipe, equipment (including personal protective equipment), chemicals, power and other fuel, water and other raw materials, and to address or mitigate supply chain constraints that may result in delays or shortages in, as well as increased costs of, supplies, products and materials that are critical to or used in the Company's business operations;
- the Company's ability to successfully meet its operational growth projections, either individually or in the aggregate, and capitalize on growth opportunities, including, among other things, with respect to:
  - acquiring, closing and successfully integrating regulated operations, including without limitation the Company's ability to (i) obtain all required regulatory and other consents and approvals for such acquisitions, (ii) prevail in litigation or other challenges related to such acquisitions, and (iii) recover in rates the fair value of assets of the acquired regulated operations;
  - the Company's Military Services Group ("MSG") entering into new military installation contracts, price redeterminations, and other agreements and contracts, with the U.S. government; and
  - realizing anticipated benefits and synergies from new acquisitions;
- in addition to the foregoing, various risks and other uncertainties associated with the Company's merger agreement with Essential and the related proposed merger, including:
  - a fixed exchange ratio that will not adjust or account for fluctuations in the Company's or Essential's stock price;
  - limitations on the parties' ability to pursue alternatives to the proposed merger;
  - financial impacts of the proposed merger on the Company and the combined company's earnings, earnings per share, financial condition, results of operations, cash flows and share price, and any related accounting impacts;
  - any impact of the proposed merger on the Company's ability to declare and pay quarterly dividends on its common stock;
  - the amount and nature of incurred transaction costs associated with the proposed merger; and
  - reduced ownership and voting interests for the Company's and Essential's shareholders upon completion of the proposed merger; and
- in addition to the foregoing, various risks and other uncertainties associated with the agreement to acquire certain water and wastewater systems from a subsidiary of Nexus Water Group, Inc., including:
  - the final amount of the rate base to be acquired, and the amount of post-closing adjustments to the purchase price, if any, as contemplated by the acquisition agreement;
  - the various impacts and effects of (i) compliance, or attempted compliance, with the terms and conditions of the acquisition agreement, and/or (ii) the completion of or, or actions taken by the Company to complete, the acquisition, on the Company's operations, strategy, guidance, expectations and plans with respect to its Regulated Businesses (considered individually or together as a whole), its current or future capital expenditures, its current and future debt and equity capital needs, dividends, earnings (including earnings per share), growth, future regulatory outcomes, expectations with respect to rate base growth, and other financial and operational goals, plans, estimates and projections; and

- any requirement by the Company to pay a termination fee in the event the closing does not occur;
- risks and uncertainties following the completion of the sale of the Company's Homeowner Services Group ("HOS"), including:
  - the Company's ability to receive amounts due, payable and owing to the Company under the amended secured seller note when due; and
  - the ability of the Company to redeploy successfully and timely the net proceeds of this transaction into the Company's Regulated Businesses;
- risks and uncertainties associated with contracting with the U.S. government, including ongoing compliance with applicable government procurement, security and cybersecurity regulations;
- cost overruns relating to improvements in or the expansion of the Company's operations;
- the Company's ability to successfully develop and implement new technologies and to protect related intellectual property;
- the Company's ability to maintain safe work sites;
- the Company's exposure to liabilities related to environmental laws and regulations, including those enacted or adopted and under consideration, and the substances related thereto, including without limitation copper, lead and galvanized steel, PFAS and other contaminants of emerging concern, and similar matters resulting from, among other things, water and wastewater service provided to customers;
- the ability of energy providers, state governments and other third parties to achieve or fulfill their GHG emission reduction goals, including without limitation through stated renewable portfolio standards and carbon transition plans;
- with respect to any of the Forward Sale Agreements, as described herein: (i) the inability of the forward purchasers (or their affiliates) to perform their obligations thereunder, (ii) the timing and method of any settlement thereof, (iii) the amount and intended use of proceeds that may be received by the Company from any such settlement, and (iv) the timing and amount of any common stock dilution resulting therefrom;
- changes in general economic, political, business and financial market conditions;
- access to sufficient debt and/or equity capital on satisfactory terms and as needed to support operations and capital expenditures;
- fluctuations in inflation or interest rates, and the Company's ability to address or mitigate the impacts thereof;
- the ability to comply with affirmative or negative covenants in the current or future indebtedness of the Company or any of its subsidiaries, or the issuance of new or modified credit ratings or outlooks by credit rating agencies with respect to the Company or any of its subsidiaries (or any current or future indebtedness thereof), which could increase financing costs or funding requirements and affect the Company's or its subsidiaries' ability to issue, repay or redeem debt, pay dividends or make distributions;
- fluctuations in the value of, or assumptions and estimates related to, its benefit plan assets and liabilities, including with respect to its pension and other post-retirement benefit plans, that could increase expenses and plan funding requirements;
- changes in federal or state general, income and other tax laws, including (i) future significant tax legislation or regulations (including without limitation impacts related to the Corporate Alternative Minimum Tax), and (ii) the availability of, or the Company's compliance with, the terms of applicable tax credits and tax abatement programs;
- migration of customers into or out of the Company's service territories and changes in water and energy consumption resulting therefrom;
- the use by municipalities of the power of eminent domain or other authority to condemn the systems of one or more of the Company's utility subsidiaries, including without limitation litigation and other proceedings with respect to the water system assets of the Company's California subsidiary ("Cal Am") located in Monterey, California (the "Monterey system assets"), or the assertion by private landowners of similar rights against such utility subsidiaries;
- any difficulty or inability to obtain insurance for the Company, its inability to obtain insurance at acceptable rates and on acceptable terms and conditions, or its inability to obtain reimbursement under existing or future insurance programs and coverages for any losses sustained;
- the incurrence of impairment charges, changes in fair value and other adjustments related to the Company's goodwill or the value of its other assets;
- labor actions, including work stoppages and strikes;
- the Company's ability to retain and attract highly qualified and skilled employees and talent;
- civil disturbances or unrest, or terrorist threats or acts, or public apprehension about future disturbances, unrest, or terrorist threats or acts; and
- the impact of new, and changes to existing, accounting standards.

These forward-looking statements are qualified by, and should be read together with, the risks and uncertainties set forth above, and the risk factors and other statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2024 (the "Form 10-K") and in this Form 10-Q, and readers should refer to such risks, uncertainties and risk factors in evaluating such forward-looking statements. Any forward-looking statements the Company makes shall speak only as of the date this Form 10-Q was filed with the U.S. Securities and Exchange Commission ("SEC"). Except as required by the federal securities laws, the Company does not have any obligation, and it specifically disclaims any undertaking or intention, to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances or otherwise. New factors emerge from time to time, and it is not possible for the Company to predict all such factors. Furthermore, it may not be possible to assess the impact of any such factor on the Company's businesses, either viewed independently or together, or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. The foregoing factors should not be construed as exhaustive.

American Water Works Company, Inc. and Subsidiary Companies
Notes to Consolidated Financial Statements (Unaudited)
(Unless otherwise noted, in millions, except per share data)

Note 1: Basis of Presentation

The unaudited Consolidated Financial Statements included in this report include the accounts of American Water Works Company, Inc. and all of its subsidiaries (the "Company" or "American Water"), in which a controlling interest is maintained after the elimination of intercompany balances and transactions. References to "parent company" mean American Water Works Company, Inc., without its subsidiaries. The financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") for interim financial reporting, and the rules and regulations for reporting on Quarterly Reports on Form 10-Q ("Form 10-Q"). Accordingly, they do not contain certain information and disclosures required by GAAP for comprehensive financial statements. In the opinion of management, all adjustments necessary for a fair statement of the financial position as of September 30, 2025, and the results of operations and cash flows for all periods presented, have been made. All adjustments are of a normal, recurring nature, except as otherwise disclosed.

The unaudited Consolidated Financial Statements and Notes included in this report should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2024 ("Form 10-K"), which provides a more complete discussion of the Company's accounting policies, financial position, operating results and other matters. The results of operations for interim periods are not necessarily indicative of the results that may be expected for the year, primarily due to the seasonality of the Company's operations.

Note 2: Significant Accounting Policies

New Accounting Standards

Presented in the table below are recently issued accounting standards that have not yet been adopted by the Company as of September 30, 2025:

Standard	Description	Date of Adoption	Application	Effect on the Consolidated Financial Statements
Income Taxes	The guidance in this standard requires disclosure of a tax rate reconciliation table, in both percentages and reporting currency amounts, which includes additional categories of information about federal, state, and foreign income taxes and provides further details about reconciling items in certain categories that meet a quantitative threshold. The guidance also requires an annual disclosure of income taxes paid, net of refunds, disaggregated by federal, state, and foreign taxes paid, and further disaggregated by jurisdiction based on a quantitative threshold. The standard includes other disclosure requirements and eliminates certain existing disclosure requirements.	Annual periods beginning after December 15, 2024	Prospective, with retrospective application also permitted.	The Company will adopt this standard for the 2025 annual period, by including the updated required disclosures in the Notes to the Consolidated Financial Statements.
Income Statement Disaggregation	The guidance in this standard enhances disclosures related to income statement expenses to further disaggregate expenses in the footnotes to the financial statements. The standard requires disaggregation of any relevant expense caption presented on the face of the income statement that contains the following expense categories: purchases of inventory, employee compensation, depreciation, intangible asset amortization, and depletion. Further, the standard requires disclosure of the total amount and the entity's definition of selling expenses.	Annual periods beginning after December 15, 2026 and interim periods within fiscal years beginning after December 15, 2027	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.
Induced Conversions of Convertible Debt Instruments	The guidance in this standard clarifies the requirements for determining whether to account for certain settlements of convertible debt instruments as induced conversions or extinguishments. The guidance requires an entity to account for a settlement as an induced conversion if the inducement offer includes the issuance of all of the consideration issuable under the conversion privileges provided in the terms of the existing convertible debt instrument.	Annual periods beginning after December 15, 2025 and interim reporting period within those annual reporting periods	Prospective, with retrospective application also permitted.	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.
Accounting for Internal-Use Software	The guidance in this standard removes all reference to prescriptive and sequential software development stages, requiring an entity to start capitalizing software costs when the following criteria are both met: (i) management has authorized and committed to funding the software project and (ii) it is probable that the project will be completed and the software will be used to perform the function intended. Further, the standard requires disclosure for all capitalized internal-use software costs and removes the requirement for intangibles disclosures for capitalized internal-use software.	Annual periods beginning after December 15, 2027 and interim reporting periods within those annual reporting periods	Prospective, with a modified transition or retrospective application also permitted	The Company is evaluating the impact on its Consolidated Financial Statements and the timing of adoption.

Property, Plant and Equipment

The New Jersey Economic Development Authority ("NJEDA") determined that the Company was qualified to receive $161 million in tax credits in connection with its capital investment in its corporate headquarters in Camden, New Jersey. The Company was qualified to receive the tax credits over a 10-year period commencing in 2019.

In December and January of 2024, the NJEDA issued the utilization certificates for the 2022 and 2021 tax credits to the Company in the amount of $15 million and $16 million, respectively. The Company sold the 2022 and 2021 tax credits to an external party for $14 million and $15 million, respectively. As of September 30, 2025, the Company had current assets of $15 million included in Other and $75 million of long-term assets included in Other on the Consolidated Balance Sheets for the 2023 through 2028 tax credits. In October of 2025, the NJEDA issued the utilization certificates for the 2023 tax credits to the Company in the amount of $15 million and the Company expects to monetize these credits in 2025. As of December 31, 2024, the Company had no current assets and $90 million of long-term assets included in Other on the Consolidated Balance Sheets for the 2023 through 2028 tax credits. The Company has made the necessary annual filing for the year ended December 31, 2024. The submitted filing is under review by the NJEDA and it is expected that the Company will receive final NJEDA approval and monetize the 2024 tax credits in 2026.

Cash, Cash Equivalents and Restricted Funds

Presented in the table below is a reconciliation of the cash and cash equivalents and restricted funds amounts as presented on the Consolidated Balance Sheets to the sum of such amounts presented on the Consolidated Statements of Cash Flows for the periods ended September 30:

	2025	2024
Cash and cash equivalents	$ 166	$ 127
Restricted funds	11	40
Restricted funds included in other long-term assets	32	10
Cash, cash equivalents and restricted funds as presented on the Consolidated Statements of Cash Flows	$ 209	$ 177

Allowance for Uncollectible Accounts

Allowances for uncollectible accounts are maintained for estimated probable losses resulting from the Company's inability to collect receivables from customers. Accounts that are outstanding longer than the payment terms are considered past due. A number of factors are considered in determining the allowance for uncollectible accounts, including the length of time receivables are past due, previous loss history, current economic and societal conditions and reasonable and supportable forecasts that affect the collectability of receivables from customers. The Company generally writes off accounts when they become uncollectible or are over a certain number of days outstanding.

Presented in the table below are the changes in the allowance for uncollectible accounts for the nine months ended September 30:

	2025	2024
Balance as of January 1	$ (53)	$ (51)
Amounts charged to expense	(36)	(19)
Amounts written off	31	20
Balance as of September 30	$ (58)	$ (50)

Reclassifications

Certain reclassifications have been made to prior periods in the Consolidated Financial Statements and Notes to conform to the current presentation.

Note 3: Regulatory Matters

General Rate Cases

The table below summarizes the annualized incremental revenues, assuming a constant sales volume and customer count, resulting from general rate case authorizations that are effective during 2025. The amounts include reductions for the amortization of the excess accumulated deferred income taxes ("EADIT") that are generally offset in income tax expense.

	Effective Date	Amount
General rate cases by state:		
Hawaii	August 1, 2025	$ 1
Iowa	August 1, 2025 (a)	13
Missouri	May 28, 2025	63
Indiana, Step Increase	May 14, 2025	17
Virginia	February 24, 2025 (b)	15
Tennessee	January 21, 2025	1
Illinois	January 1, 2025	105
California, Step Increase	January 1, 2025	17
Total general rate case authorizations		$ 232

(a) Interim rates of $5 million were effective May 11, 2024. The Iowa Utilities Commission issued its final order on May 21, 2025.

(b) Interim rates were effective May 1, 2024, and the difference between interim and final approved rates were subject to refund. The Virginia State Corporation Commission issued its final order on February 24, 2025.

On July 24, 2025, the Hawaii Public Utilities Commission issued a final order adopting the settlement agreement filed by the Company's Hawaii subsidiary on April 25, 2025, with respect to its general rate case filed on August 2, 2024. The final order approves an annualized increase of approximately $1 million in wastewater revenue, which is based on a return on equity of 9.75% and a capital structure with an equity component of 52.11% and a debt component of 47.89%. New rates were effective August 1, 2025.

On May 21, 2025, the Iowa Utilities Commission issued a final order approving the adjustment of base rates requested in a general rate case originally filed on May 1, 2024, by the Company's Iowa subsidiary. The general rate case order approved a $13 million annualized increase in water and wastewater system revenues, excluding infrastructure surcharges of $1 million, based on an authorized return on equity of 9.60%, authorized rate base of $262 million, and a capital structure with a common equity component of 52.57% and a long-term debt component of 47.43%. The requested annualized revenue increase was driven primarily by over $157 million of capital investments made and expected to be made by the Iowa subsidiary through March 2026. Interim rates of $5 million were effective May 11, 2024, with the remaining increase in annualized water and wastewater system revenues of $8 million effective on August 1, 2025.

On May 14, 2025, the Company's Indiana subsidiary's third step increase of $17 million in annualized water and wastewater system revenues became effective. The Indiana subsidiary filed the general rate case on March 31, 2023, and on February 14, 2024, the Indiana Utility Regulatory Commission issued an order that approved a $65 million annualized increase in water and wastewater system revenues, excluding previously recovered infrastructure surcharges. The annualized revenue increase included three step increases, with $25 million of the increase included in rates in February 2024, $23 million in May 2024, and $17 million in May 2025.

On May 7, 2025, the Missouri Public Service Commission (the "MoPSC") issued an order approving without modification the stipulation and agreement (the "Stipulation") with respect to a general rate case filed on July 1, 2024, by the Company's Missouri subsidiary. The Stipulation was entered into on March 17, 2025, with parties including the staff of the MoPSC and the Office of the Public Counsel. The general rate case order approves a $63 million annualized increase in water and wastewater revenues, excluding $63 million in infrastructure surcharges. The requested annualized revenue increase was driven primarily by $1.1 billion of capital investments completed by the Missouri subsidiary from January 2023 through May 2025. For purposes of the general rate case, the Missouri subsidiary's view of its rate base is $3.2 billion, and its view as to its return on equity and common equity ratio (each of which has been determined based on the order but was not disclosed therein) is 9.75% and 50.00%, respectively.

On February 24, 2025, the Virginia State Corporation Commission issued an order approving the September 19, 2024 joint "black box" settlement of the general rate case filed by the Company's Virginia subsidiary. The general rate case order approves the stipulated $15 million annualized increase in water and wastewater revenues. Interim water and wastewater rates became effective May 1, 2024, with the difference between interim and final approved rates subject to refund. The requested annualized revenue increase was driven primarily by more than $110 million of incremental capital investments made between May 2023 and April 2025. For purposes of the general rate case, the Virginia subsidiary's view of its rate base is $369 million. The general rate case order also approved, solely for purposes of the Virginia subsidiary's future filings requiring a stated cost of capital and/or capital structure (including its annual information and water and wastewater infrastructure surcharge filings), a return on equity of 9.70% and a capital structure consisting of an equity component of 45.67% and a debt and other component of 54.33%, which also represents the Virginia subsidiary's view of its return on equity and capital structure in this general rate case.

On January 21, 2025, the Tennessee Public Utility Commission (the "TPUC") approved a motion authorizing an adjustment of water base rates requested in a rate case filed on May 1, 2024, by the Company's Tennessee subsidiary. The TPUC approved an increase of $1 million in annualized revenues, excluding previously recovered infrastructure surcharges of $18 million, based on an authorized return on equity of 9.70%, authorized rate base of approximately $300 million, a common equity ratio of 44.19% and a debt ratio of 55.81%. This adjustment took effect on January 21, 2025, and is driven primarily by approximately $173 million in capital investments completed and planned by the Tennessee subsidiary through December 2025.

On January 14, 2025, the California Public Utilities Commission (the "CPUC") granted the Company's California subsidiary's request for a one-year extension of its cost of capital filing to May 1, 2026, to set its authorized cost of capital beginning January 1, 2027, and maintain its current authorized cost of capital through 2026.

On December 5, 2024, the Illinois Commerce Commission issued a final order approving the adjustment of base rates requested in a rate case originally filed on January 25, 2024, by the Company's Illinois subsidiary. The general rate case order approved an increase of $105 million in annualized water and wastewater system revenues, excluding previously recovered infrastructure surcharges of $5 million, based on an authorized return on equity of 9.84%, authorized rate base of $2.2 billion, and a capital structure with an equity component of 49.00% and a debt component of 51.00%. The increase was effective January 1, 2025, and is driven primarily by approximately $557 million in capital investments completed and planned by the Illinois subsidiary from January 2024 through December 2025.

On December 5, 2024, the CPUC approved a final decision adopting the terms of a partial settlement agreement filed on November 17, 2023, in the Company's California subsidiary's general rate case originally filed on July 1, 2022. Incorporating the then currently effective return on equity of 10.20%, the decision provides incremental annualized water and wastewater revenues of $21 million in the 2024 test year, and an estimated $16 million in the 2025 escalation year and $16 million in the 2026 attrition year. The 2024 rates were implemented retroactively to January 1, 2024. In addition, the CPUC denied the California subsidiary's proposed Water Resources Sustainability Plan decoupling mechanism but approved continuation of its currently effective Annual Consumption Adjustment Mechanism. On December 12, 2024, the California subsidiary filed an application for rehearing of the CPUC's denial of the proposed Water Resources Sustainability Plan decoupling mechanism, and on May 23, 2025, the CPUC issued its decision denying the application for rehearing. On September 19, 2025, the California subsidiary filed a petition to modify the CPUC order received on December 5, 2024, for its general rate case originally filed on July 1, 2022. The request seeks clarification from the CPUC on the method used to calculate the Conservation Adjustment for Rate Tier Designs ("CART"), specifically for the California subsidiary's Monterey service area. The CART is a ratemaking mechanism that allows the Company to recover, in subsequent periods, a portion of the impact on operating revenues as a result of implementing customer rates structured to promote conservation usage. On October 20, 2025, the California Public Advocate submitted a response opposing the California subsidiary's request and stating the request should instead be addressed in the California subsidiary's pending base rate case. The California subsidiary has requested an opportunity to formally reply. The CPUC will consider both positions, and the California subsidiary expects resolution of the petition to modify later in 2026.

Pending General Rate Case Filings

On August 1, 2025, the Company's Maryland subsidiary filed a general rate case requesting approximately $3 million in annualized incremental revenues, which is based on a proposed return on equity of 10.64% and a capital structure with an equity component of 52.32%. The requested annualized incremental revenue is driven primarily by approximately $22 million of capital investments completed by the Maryland subsidiary from February 2019 through April 2025. The filing must be approved by the Public Service Commission of Maryland, and if approved, it is anticipated that new rates would take effect in March 2026.

On July 1, 2025, the Company's California subsidiary filed an application with the CPUC to set new water and wastewater rates in each of its service areas for 2027 through 2029. The application requested an increase of $63 million compared to authorized 2025 revenue, and a total increase in revenue over the 2027 to 2029 period of $111 million. On October 13, 2025, the California subsidiary filed its 100 day update for the same proceeding and updated the request to $62 million compared to authorized 2025 revenue, and a total increase in revenue over the 2027 to 2029 period of $110 million. The requested annualized incremental revenue is driven primarily by approximately $750 million of capital investments completed and planned by the California subsidiary through 2025 to 2028. If approved by the CPUC, the new rates would take effect on January 1, 2027. The application also requests approval of a Fixed Cost Recovery Account, which is intended to be a full decoupling mechanism that would allow the California subsidiary to recover authorized fixed costs, regardless of sales volume, while also providing incentives, via progressive conservation-oriented rate design, for customers to use water more efficiently. Independent of the pending rate case, California Senate Bill 473, which would have required the CPUC to ensure variances between forecasted and actual sales do not result in material overcollections or undercollections by water corporations, passed out of the California Senate but did not advance in the California Assembly Appropriations Committee.

On May 16, 2025, the Company's Kentucky subsidiary filed a general rate case requesting approximately $27 million in annualized incremental revenues, excluding infrastructure surcharges of $10 million, which is based on a proposed return on equity of 10.75% and a proposed capital structure with a common equity component of 52.26% and a debt component of 47.74%. The requested annualized incremental revenue is being driven primarily by approximately $212 million of capital investments completed and planned by the Kentucky subsidiary from February 2025 through December 2026. As provided by statutory authority, the Kentucky subsidiary may put into effect proposed rates on an interim basis seven months after the filing of this case, or December 16, 2025, and the difference between the interim and final approved rates will be subject to refund. The request is subject to approval by the Kentucky Public Service Commission, and the general rate case is expected to be completed by the end of the first quarter of 2026.

On May 5, 2025, the Company's West Virginia subsidiary filed a general rate case requesting approximately $48 million in aggregate annualized incremental revenues, excluding infrastructure surcharges of $13 million, which would include two step increases, with $33 million to be included in rates in March 2026, and $15 million to be included in rates in March 2027. The request is based on a proposed return on equity of 10.75% and a capital structure with an equity component of 50.80% and 50.97%, respectively, for each of the two steps. The requested annualized incremental revenue is driven primarily by more than $300 million of capital investments completed and planned by the West Virginia subsidiary from March 2024 through February 2027. The request is subject to approval by the Public Service Commission of West Virginia, and the general rate case is expected to be completed by the end of February 2026.

Infrastructure Surcharges

A number of states have authorized the use of regulatory mechanisms that permit rates to be adjusted outside of a general rate case for certain costs and investments, such as infrastructure surcharge mechanisms that permit recovery of capital investments to replace aging infrastructure. Presented in the table below are annualized incremental revenues, assuming a constant sales volume and customer count, resulting from infrastructure surcharge authorizations that became effective during 2025:

	Effective Date	Amount
Infrastructure surcharges by state:		
Pennsylvania	October 1, 2025	$ 5
New Jersey	May 30, 2025	15
Missouri	February 7, 2025	17
Kentucky	January 1, 2025	2
West Virginia	January 1, 2025	4
Total infrastructure surcharge authorizations		$ 43

Pending Infrastructure Surcharge Filings

On September 3, 2025, the Company's Missouri subsidiary filed an infrastructure surcharge proceeding requesting $13 million in additional annualized revenues.

On June 30, 2025, the Company's West Virginia subsidiary filed an infrastructure surcharge proceeding requesting $3 million in additional annualized revenues.

Other Regulatory Matters

The Pennsylvania Public Utility Commission (the "PaPUC"), as part of its July 22, 2024, approval of the general rate case filed by the Company's Pennsylvania subsidiary on November 8, 2023, initiated an investigation into certain reported water service and water quality issues in the Pennsylvania subsidiary's Northeastern service territory, which reports had been provided during public input hearings convened in the general rate case. The PaPUC concluded the investigation and issued a Root Cause Analysis Report on August 5, 2025, which found no systemic issues affecting the Pennsylvania subsidiary's water service in the Northeastern service territory and expressed satisfaction with the Pennsylvania subsidiary's efforts to manage water service matters. The PaPUC committed to continued monitoring of the Pennsylvania subsidiary's service over the next three years.

Note 4: Revenue Recognition

Disaggregated Revenues

The Company's primary business involves the ownership of utilities that provide water and wastewater services to residential, commercial, industrial, public authority, fire service and sale for resale customers, collectively presented as the "Regulated Businesses." The Company also operates other businesses that provide water and wastewater services to the U.S. government on military installations, as well as municipalities, collectively presented throughout this Form 10-Q within "Other."

Presented in the table below are operating revenues disaggregated for the three months ended September 30, 2025:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	$ 739	$ —	$ 739
Commercial	287	—	287
Fire service	46	—	46
Industrial	55	—	55
Public and other	93	—	93
Total water services	1,220	—	1,220
Wastewater services:			
Residential	75	—	75
Commercial	25	—	25
Industrial	7	—	7
Public and other	6	—	6
Total wastewater services	113	—	113
Miscellaneous utility charges	13	—	13
Alternative revenue programs	—	(4)	(4)
Lease contract revenue	—	1	1
Total Regulated Businesses	1,346	(3)	1,343
Other	108	—	108
Total operating revenues	$ 1,454	$ (3)	$ 1,451

(a) Includes revenues associated with alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of Accounting Standards Codification Topic 606, *Revenue From Contracts With Customers* ("ASC 606"), and accounted for under other existing GAAP.

Presented in the table below are operating revenues disaggregated for the three months ended September 30, 2024:

	Revenues from Contracts with Customers	Other Revenues Not from Contracts with Customers (a)	Total Operating Revenues
Regulated Businesses:			
Water services:			
Residential	$ 677	$ 2	$ 679
Commercial	253	2	255
Fire service	41	—	41
Industrial	49	1	50
Public and other	93	—	93
Total water services	1,113	5	1,118
Wastewater services:

Total Regulated Businesses	3,195	9	3,204
Other	280	(1)	279
Total operating revenues	$ 3,475	$ 8	$ 3,483

(a) Includes revenues associated with provisional rates, alternative revenue programs, lease contracts and intercompany rent, which are outside the scope of ASC 606, and accounted for under other existing GAAP.

Contract Balances

Contract assets and contract liabilities are the result of timing differences between revenue recognition, billings, and cash collections. In the Company's Military Services Group ("MSG"), certain contracts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals or upon achievement of contractual milestones. Contract assets are recorded when billing occurs subsequent to revenue recognition and are reclassified to accounts receivable when billed and the right to consideration becomes unconditional. Contract liabilities are recorded when the Company receives advances from customers prior to satisfying contractual performance obligations, particularly for construction contracts, and are recognized as revenue when the associated performance obligations are satisfied.

Contract assets of $153 million and $84 million are included in Unbilled revenues on the Consolidated Balance Sheets as of September 30, 2025, and December 31, 2024, respectively. Also, contract assets of $2 million and $39 million are included in other long-term assets on the Consolidated Balance Sheets as of September 30, 2025, and December 31, 2024, respectively. Contract liabilities of $16 million and $40 million are included in other current liabilities on the Consolidated Balance Sheets as of September 30, 2025, and December 31, 2024, respectively. Also, contract liabilities of $31 million and $14 million are included in other long-term liabilities on the Consolidated Balance Sheets as of September 30, 2025, and December 31, 2024, respectively. Revenues recognized for the nine months ended September 30, 2025 and 2024, from amounts included in contract liabilities were $72 million and $82 million, respectively.

Remaining Performance Obligations

Remaining performance obligations ("RPOs") represent revenues the Company expects to recognize in the future from contracts that are in progress. The Company enters into agreements for the provision of services to water and wastewater facilities for the U.S. military, municipalities and other customers. As of September 30, 2025, the Company's operation and maintenance ("O&M") and capital improvement contracts have RPOs. Contracts with the U.S. government for work on various military installations expire between 2051 and 2073 and have RPOs of $7.4 billion as of September 30, 2025, as measured by estimated remaining contract revenue. Such contracts are subject to customary termination provisions held by the U.S. government, prior to the agreed-upon contract expiration. Contracts with municipalities and commercial customers expire between 2026 and 2038 and have RPOs of $533 million as of September 30, 2025, as measured by estimated remaining contract revenue.

Note 5: Acquisitions and Divestitures

Regulated Businesses

During the nine months ended September 30, 2025, the Company closed on ten acquisitions of various regulated water and wastewater systems for a total aggregate purchase price of $29 million, which added approximately 11,000 water and wastewater customers. This includes the Company's acquisition of the Audubon Water Company effective May 28, 2025, for a total consideration of $7 million, in the form of 48,381 shares of parent company common stock, net of an indemnity escrow claim. Assets acquired from the ten acquisitions, principally utility plant, totaled $44 million and liabilities assumed totaled $22 million, including assumed debt of $12 million. The Company recorded goodwill of $7 million associated with three of its acquisitions, which is reported in the Company's Regulated Businesses segment. Five of these acquisitions were accounted for as a business combination and the purchase price allocation will be finalized once the valuation of assets acquired has been completed, no later than one year after the acquisition date.

The pro forma impact of the Company's business combinations was not material to the Consolidated Statements of Operations for the periods ended September 30, 2025 and 2024.

Secured Seller Promissory Note from the Sale of Homeowner Services Group

On December 9, 2021 (the "Closing Date"), the Company sold all of the equity interests in subsidiaries that comprised the Homeowner Services Group ("HOS") to a wholly owned subsidiary (the "Buyer") of funds advised by Apax Partners LLP, a global private equity advisory firm, for total consideration of approximately $1.275 billion. The outstanding consideration as of September 30, 2025, is a secured seller note payable in cash and issued by the Buyer in the principal amount of $795 million, with an interest rate of 10.00% per year. The Company recognized $20 million of interest income during each of the three months ended September 30, 2025 and 2024, and $60 million and $57 million of interest income during the nine months ended September 30, 2025 and 2024, respectively, from the secured seller note. The final maturity date of the secured seller note is December 9, 2026.

The secured seller note may not be repaid at the Buyer's election (except in certain limited circumstances) before the fourth anniversary of the Closing Date. If the Buyer seeks to repay the secured seller note in breach of this non-call provision, an event of default will occur under the secured seller note and the Company may, among other actions, demand repayment in full together with a premium of 105.5% of the outstanding principal amount of the loan and a customary "make-whole" payment.

Note 6: Shareholders' Equity

Equity Forward Sale Agreements

In August 2025, the Company entered into separate forward sale agreements (the "Forward Sale Agreements") with several forward purchasers relating to an aggregate of 8,098,592 shares of the Company's common stock at an initial forward price of $139.657 per share, which is equal to the price to public per share less an underwriting discount. Each Forward Sale Agreement will be physically settled unless the Company elects to settle such Forward Sale Agreement in cash or to net share settle such Forward Sale Agreement (which the Company has the right to do, subject to certain conditions, other than in the limited circumstances set forth in the Forward Sale Agreements). The Forward Sale Agreements provide for settlement on a settlement date or dates to be specified at the Company's discretion on or prior to December 31, 2026. To the extent the Forward Sale Agreements are physically settled, the Company will issue common stock to the forward purchasers and receive cash proceeds based on the applicable forward sale price on the settlement date as defined in the Forward Sale Agreements.

As of September 30, 2025, the Company did not receive any proceeds from the sale of its common stock connected to the Forward Sale Agreements. The Company estimates that it will receive total net proceeds of approximately $1,131 million, before deducting estimated offering expenses, subject to the price adjustment and other provisions of the Forward Sale Agreements, in the event of full physical settlement of all of the Forward Sale Agreements. The Company intends to use any net cash proceeds that it may receive upon a settlement of the Forward Sale Agreements for general corporate purposes. The Forward Sale Agreements will be classified as equity transactions because they are indexed to the Company's common stock and physical settlement is within the Company's control.

Accumulated Other Comprehensive Loss

Presented in the table below are the changes in accumulated other comprehensive income (loss) by component, net of tax, for the three months ended September 30, 2025 and 2024, respectively:

	Defined Benefit Pension Plans					
	Employee Benefit Plan Funded Status	Amortization of Prior Service Cost	Amortization of Actuarial Loss	Gain (Loss) on Cash Flow Hedges	Gain (Loss) on Fixed-Income Securities	Accumulated Other Comprehensive Income (Loss)
Balance as of June 30, 2025	$ (95)	$ 1	$ 75	$ 25	$ (1)	$ 5
Other comprehensive loss before reclassifications	—	—	—	(1)	—	(1)
Net other comprehensive loss	—	—	—	(1)	—	(1)
Balance as of September 30, 2025	$ (95)	$ 1	$ 75	$ 24	$ (1)	$ 4
Balance as of June 30, 2024	$ (96)	$ 1	$ 75	$ 10	$ 3	$ (7)
Other comprehensive (loss) income before reclassifications	—	—	—	(2)	1	(1)
Net other comprehensive (loss) income	—	—	—	(2)	1	(1)
Balance as of September 30, 2024	$ (96)	$ 1	$ 75	$ 8	$ 4	$ (8)

Presented in the table below are the changes in accumulated other comprehensive income (loss) by component, net of tax, for the nine months ended September 30, 2025 and 2024, respectively:

	Defined Benefit Pension Plans					
	Employee Benefit Plan Funded Status	Amortization of Prior Service Cost	Amortization of Actuarial Loss	Gain (Loss) on Cash Flow Hedges	Gain (Loss) on Fixed-Income Securities	Accumulated Other Comprehensive Income (Loss)
Balance as of December 31, 2024	$ (95)	$ 1	$ 74	$ 30	$ 2	$ 12
Other comprehensive (loss) income before reclassifications	—	—	—	(6)	1	(5)
Amounts reclassified from accumulated other comprehensive income (loss)	—	—	1	—	(4)	(3)
Net other comprehensive income (loss)	—	—	1	(6)	(3)	(8)
Balance as of September 30, 2025	$ (95)	$ 1	$ 75	$ 24	$ (1)	$ 4
Balance as of December 31, 2023	$ (96)	$ 1	$ 74	$ (9)	$ 4	$ (26)
Other comprehensive income before reclassifications	—	—	—	17	—	17
Amounts reclassified from accumulated other comprehensive income	—	—	1	—	—	1
Net other comprehensive income	—	—	1	17	—	18
Balance as of September 30, 2024	$ (96)	$ 1	$ 75	$ 8	$ 4	$ (8)

The Company does not reclassify the amortization of defined benefit pension cost components from accumulated other comprehensive income (loss) directly to net income in its entirety, as a portion of these costs have been deferred as a regulatory asset. These accumulated other comprehensive income (loss) components are included in the computation of net periodic pension cost.

The amortization of the gain (loss) on cash flow hedges is reclassified to net income during the period incurred and is included in Interest expense in the accompanying Consolidated Statements of Operations.

An unrealized gain (loss) on available-for-sale fixed-income securities is reclassified to net income upon sale of the securities as a realized gain or loss and is included in Other, net in the accompanying Consolidated Statements of Operations.

Dividends

On September 3, 2025, the Company paid a quarterly cash dividend of $0.8275 per share to shareholders of record as of August 12, 2025.

On October 28, 2025, the Company's Board of Directors declared a quarterly cash dividend payment of $0.8275 per share, payable on December 2, 2025, to shareholders of record as of November 13, 2025. Future dividends, when and as declared at the discretion of the Board of Directors, will be dependent upon future earnings and cash flows, compliance with various regulatory, financial and legal requirements, and other factors. See Note 9—Shareholders' Equity in the Notes to Consolidated Financial Statements in the Company's Form 10-K for additional information regarding the payment of dividends on the Company's common stock.

Note 7: Long-Term Debt

On August 8, 2025, American Water Capital Corp. ("AWCC") completed the sale of $900 million aggregate principal amount of its 5.700% Senior Notes due 2055. At the closing of this offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $887 million. AWCC used the net proceeds of the offering (i) to lend funds to American Water and the Regulated Businesses; (ii) to repay commercial paper obligations of AWCC; and (iii) for general corporate purposes.

On February 27, 2025, AWCC completed the sale of $800 million aggregate principal amount of its 5.250% Senior Notes due 2035. At the closing of this offering, AWCC received, after deduction of underwriting discounts and before deduction of offering expenses, net proceeds of approximately $792 million. AWCC used the net proceeds of the offering (i) to lend funds to American Water and the Regulated Businesses; (ii) to repay at maturity AWCC's 3.400% Senior Notes due 2025; (iii) to repay commercial paper obligations of AWCC; and (iv) for general corporate purposes.

In addition to the notes issued by AWCC as described above, during the nine months ended September 30, 2025, the Company's regulated subsidiaries issued in the aggregate $84 million of private activity bonds and government funded debt in multiple transactions with annual interest rates ranging from 0.00% to 3.71%, a weighted average interest rate of 2.39%, and maturity dates ranging from 2025 through 2054. The private activity bonds and government funded debt issued by the Company's regulated subsidiaries during the nine months ended September 30, 2025, were collateralized. During the nine months ended September 30, 2025, AWCC and the Company's regulated subsidiaries made sinking fund payments for, repaid at maturity, or settled $650 million in aggregate principal amount of outstanding long-term debt, with annual interest rates ranging from 0.00% to 8.58%, a weighted average interest rate of 3.03%, and maturity dates ranging from 2025 to 2061.

As of September 30, 2025, the Company had two treasury lock agreements, with a term of 10 years and 30 years and an aggregate notional amount totaling $100 million, to reduce interest rate exposure on expected future debt issuances. These treasury lock agreements terminate in June 2026 and September 2026 and have an average fixed interest rate of 4.55%. The Company designated these treasury lock agreements as cash flow hedges, measured at fair value with the gain or loss recorded in accumulated other comprehensive income.

In May 2025 and August 2025, the Company terminated two and nine treasury lock agreements, respectively, designated as cash flow hedges, with a term of 30 years and an aggregate notional amount totaling $100 million and $350 million, respectively, realizing a pre-tax net gain of $12 million and $1 million, respectively, recorded in accumulated other comprehensive income. The gain will be amortized through Interest expense over a 30-year period, in accordance with the tenor of the notes issued on August 8, 2025.

In February 2025, the Company terminated 10 treasury lock agreements designated as cash flow hedges, with a term of 10 years and an aggregate notional amount totaling $500 million, realizing a pre-tax net gain of $3 million recorded in accumulated other comprehensive income. The gain will be amortized through Interest expense over a 10-year period, in accordance with the tenor of the notes issued on February 27, 2025.

No ineffectiveness was recognized on hedging instruments for the three and nine months ended September 30, 2025 or 2024.

On June 29, 2023, AWCC issued $1,035 million aggregate principal amount of 3.625% Exchangeable Senior Notes due 2026 (the "Notes"). AWCC received net proceeds of approximately $1,022 million, after deduction of underwriting discounts and commissions but before deduction of offering expenses payable by AWCC. The Notes will mature on June 15, 2026 (the "Maturity Date"), unless earlier exchanged or repurchased, and are included in Current portion of long-term debt on the Consolidated Balance Sheets.

The Notes are exchangeable at an initial exchange rate of 5.8213 shares of parent company's common stock per $1,000 principal amount of Notes (equivalent to an initial exchange price of approximately $171.78 per share of common stock). The initial exchange rate of the Notes is subject to adjustment as provided in the indenture pursuant to which the Notes were issued (the "Note Indenture"). Prior to the close of business on the business day immediately preceding March 15, 2026, the Notes are exchangeable at the option of the noteholders only upon the satisfaction of specified conditions and during certain periods described in the Note Indenture. On or after March 15, 2026, until the close of business on the business day immediately preceding the Maturity Date, the Notes will be exchangeable at the option of the noteholders at any time regardless of these conditions or periods. Upon any exchange of the Notes, AWCC will (i) pay cash up to the aggregate principal amount of the Notes and (ii) pay or deliver (or cause to be delivered), as the case may be, cash, shares of parent company's common stock, or a combination of cash and shares of such common stock, at AWCC's election, in respect of the remainder, if any, of AWCC's exchange obligation in excess of the aggregate principal amount of the Notes being exchanged.

AWCC may not redeem the Notes prior to the Maturity Date, and no sinking fund is provided for the Notes. Subject to certain conditions, holders of the Notes will have the right to require AWCC to repurchase all or a portion of their Notes upon the occurrence of a fundamental change, as defined in the Note Indenture, at a repurchase price of 100% of their principal amount plus any accrued and unpaid interest.

Note 8: Short-Term Debt

Liquidity needs for capital investment, working capital and other financial commitments are generally funded through cash flows from operations, public and private debt offerings, issuances of commercial paper and equity and, if and to the extent necessary, borrowings under the AWCC revolving credit facility. AWCC maintains an unsecured revolving credit facility which provides $2.75 billion in aggregate total commitments from a diversified group of financial institutions. The termination date of the credit agreement with respect to AWCC's revolving credit facility is October 26, 2029. The revolving credit facility is used principally to support AWCC's commercial paper program, to provide additional liquidity support and to provide a sub-limit for the issuance of up to $150 million in letters of credit. Subject to satisfying certain conditions, the credit agreement permits AWCC to increase the maximum commitment under the facility by up to an aggregate of $500 million.

Short-term debt consists of commercial paper borrowings totaling $1,005 million and $880 million as of September 30, 2025, and December 31, 2024, respectively, or net of discount $1,005 million and $879 million as of September 30, 2025, and December 31, 2024, respectively. The weighted-average interest rate on AWCC's outstanding short-term borrowings was approximately 4.26% and 4.65% at September 30, 2025, and December 31, 2024, respectively. At September 30, 2025, and December 31, 2024, AWCC had no outstanding borrowings under the revolving credit facility and there were no commercial paper borrowings outstanding with maturities greater than three months.

Presented in the tables below are the aggregate credit facility commitments, commercial paper limit and letter of credit availability under the revolving credit facility, as well as the available capacity for each:

	As of September 30, 2025		
	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(1,005)	(84)	(1,089)
Remaining availability as of September 30, 2025	$ 1,595	$ 66	$ 1,661

(a) Total remaining availability of $1.7 billion as of September 30, 2025, was accessible through revolver draws.

	As of December 31, 2024		
	Commercial Paper Limit	Letters of Credit	Total (a)
Total availability	$ 2,600	$ 150	$ 2,750
Outstanding debt	(880)	(82)	(962)
Remaining availability as of December 31, 2024	$ 1,720	$ 68	$ 1,788

(a) Total remaining availability of $1.8 billion as of December 31, 2024, was accessible through revolver draws.

Presented in the table below is the Company's total available liquidity as of September 30, 2025, and December 31, 2024, respectively:

	Cash and Cash Equivalents	Availability on Revolving Credit Facility	Total Available Liquidity
Available liquidity as of September 30, 2025	$ 166	$ 1,661	$ 1,827
Available liquidity as of December 31, 2024	$ 96	$ 1,788	$ 1,884

Note 9: Income Taxes

The Company's effective income tax rate was 23.3% and 22.7% for the three months ended September 30, 2025 and 2024, respectively, and 23.4% and 23.1% for the nine months ended September 30, 2025 and 2024, respectively. The increase in the Company's effective income tax rate for the three and nine months ended September 30, 2025, was primarily due to the decrease in the amortization of EADIT pursuant to regulatory orders.

On July 4, 2025, the One Big Beautiful Bill Act (the "OBBB") was signed into law. The OBBB includes several corporate tax-related provisions. Key changes include the permanent extension of certain provisions from the Tax Cuts and Jobs Act of 2017, such as 100% bonus depreciation and Section 163(j) interest limitation exception for regulated utilities, as well as the immediate expensing of domestic research and development costs, and the introduction of a new charitable contribution floor for corporations. The OBBB has not had a material impact on the Company's Consolidated Financial Statements. The Company will continue to monitor the implementation and any related guidance.

On August 16, 2022, the Inflation Reduction Act of 2022 (the "IRA") was signed into law. The IRA contains a 15% Corporate Alternative Minimum Tax ("CAMT") provision on applicable corporations effective January 1, 2023. To determine if a company is considered an applicable corporation subject to CAMT, the company's average adjusted financial statement income ("AFSI") for the three consecutive years preceding the tax year must exceed $1.0 billion. An applicable corporation must make several adjustments to net income when determining AFSI. A corporation paying CAMT is eligible for a future tax credit, which can be carried forward indefinitely and utilized when regular tax exceeds CAMT. Based on current guidance, the Company is an applicable corporation subject to CAMT beginning in 2024. The Company included the CAMT liability in its 2024 extension payment on April 15, 2025. As of September 30, 2025, the Company has a CAMT credit carryforward of $177 million.

On June 2, 2025, the Internal Revenue Service ("IRS") and the U.S. Treasury issued Notice 2025-27, allowing corporate taxpayers to exclude amounts attributable to the CAMT liability, without penalty, from estimated tax payments with respect to a taxable year that begins after December 31, 2024, and before January 1, 2026. The Company plans to include the CAMT liability in its 2025 extension payment on April 15, 2026. The Company will continue to assess the impacts of the IRA as the U.S. Treasury and the IRS provide further guidance.

Note 10: Pension and Other Postretirement Benefits

Presented in the table below are the components of net periodic benefit costs:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2025	2024	2025	2024
Components of net periodic pension benefit cost:				
Service cost	$ 4	$ 4	$ 11	$ 13
Interest cost	22	21	65	63
Expected return on plan assets	(22)	(24)	(67)	(71)
Amortization of prior service credit	—	(1)	(2)	(3)
Amortization of actuarial loss	6	6	17	18
Net periodic pension benefit cost	$ 10	$ 6	$ 24	$ 20
Components of net periodic other postretirement benefit credit:				
Service cost	$ 1	$ 1	$ 1	$ 2
Interest cost	3	3	9	9
Expected return on plan assets	(3)	(3)	(9)	(9)
Amortization of prior service credit	(8)	(8)	(24)	(24)
Net periodic other postretirement benefit credit	$ (7)	$ (7)	$ (23)	$ (22)

The Company contributed $11 million and $33 million for the funding of its defined benefit pension plans for the three and nine months ended September 30, 2025, respectively, and contributed $11 million and $33 million for the funding of its defined benefit pension plans for the three and nine months ended September 30, 2024, respectively. The Company expects to make additional pension contributions to the plan trusts of $11 million during the remainder of 2025.

Note 11: Commitments and Contingencies

Contingencies

The Company is routinely involved in legal actions incident to the normal conduct of its business. As of September 30, 2025, the Company has accrued approximately $16 million of probable loss contingencies and has estimated that the maximum amount of loss associated with reasonably possible loss contingencies arising out of such legal actions, which can be reasonably estimated, is $4 million. For certain legal actions, the Company is unable to estimate possible losses. The Company believes that damages or settlements, if any, recovered by plaintiffs in such legal actions, other than as described in this Note 11 —Commitments and Contingencies, will not have a material adverse effect on the Company.
