Re: Case No. 2026-00106
Fountain Run Water District #1
Deficiency Response

Dear Ms. Bridwell:

Enclosed for filing in the referenced case is Fountain Run Water District #1's response to the Commission's April 30, 2026 deficiency letter. The Commission found that the Fountain Run Water District #1's public notice provided did not include average usage. A revised public notice is submitted that includes average usage.

The Commission also found that completed ARF Form-3's for each member of directors/commissioners was omitted from the submission. These completed ARF Form3's are now submitted.

The Commission also found that the application filed is using 2024 for the test year. It is our understanding that Fountain Run Water District #1's attorney is working with the Commission to have an exception granted in this case to allow 2024 to be used. We are waiting on that approval.
