

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF DUKE ENERGY	)	
KENTUCKY, INC., FOR A CERTIFICATE OF PUBLIC	)	CASE NO.
CONVENIENCE AND NECESSITY AUTHORIZING	)	2026-00112
THE CONSTRUCTION OF A GAS PIPELINE	)	
EXTENSION IN INDEPENDENCE, KENTUCKY	)	

PETITION OF DUKE ENERGY KENTUCKY, INC.
FOR CONFIDENTIAL TREATMENT OF INFORMATION

Duke Energy Kentucky, Inc. (Duke Energy Kentucky or Company), pursuant to 807 KAR 5:001, Section 13, respectfully requests the Commission to classify and protect certain information provided by Duke Energy Kentucky in this proceeding requesting a Certificate of Public Convenience and Necessity (CPCN) for approval of the construction of an extension of its existing UL45 pipeline of 1.45 miles in length, eight-inch diameter, 0.3 miles in length, six inch diameter, and 40' feet in length of four inch diameter natural gas pipeline in Independence, Kentucky (Project). The information for which Duke Energy Kentucky now seeks confidential treatment is contained in Supplemental Confidential Exhibit 3(g), which includes critical utility infrastructure by way of detailed engineering drawings showing the exact route, location, depths, pressures, and nature of the proposed construction. The public release of this information would create a safety and security risk for both the Company and its customers and/or would be detrimental to the Company's future ability to negotiate similar contracts.

In support of this Petition, Duke Energy Kentucky states:

1. The Kentucky Open Records Act exempts from disclosure certain records in KRS 61.878(1)(m)(1)(f) and (1)(g). To qualify for this exemption and, therefore, maintain the confidentiality of the information, a party must establish that disclosure of the records would “have a reasonable likelihood of threatening the public safety by exposing a vulnerability in preventing, protecting against, mitigating, or responding to a terrorist act and limited to:...

- f. Infrastructure records that expose a vulnerability referred to in this subparagraph through the disclosure of the location, configuration, or security of critical systems, including public utility critical systems. These critical systems shall include but not be limited to information technology, communication, electrical, fire suppression, ventilation, water, wastewater, sewage, and gas systems;
- g. The following records when their disclosure will expose a vulnerability referred to in this subparagraph: detailed drawings, schematics, maps, or specifications of structural elements, floor plans, and operating, utility, or security systems of any building or facility owned, occupied, leased, or maintained by a public agency...”

2. On the basis of KRS 61.878(1)(m)(1)(f) and (1)(g), Duke Energy Kentucky requests confidential treatment of the material filed under seal in Supplemental Confidential Exhibit 3(g) insofar as it includes engineering drawings showing the precise location of gas systems considered to be critical infrastructure information. This information needs to be kept confidential in order to continue to provide delivery of safe and reliable gas service to Duke Energy Kentucky customers. The release of this information would threaten the public safety by providing precise locations of critical utility natural gas infrastructure that could be used and exploited to the detriment of the safety of the general public.

3. The information for which Duke Energy Kentucky is seeking confidential treatment was developed internally by Duke Energy Corporation and Duke Energy Kentucky personnel, is not on file publicly with any agency, and is not available from any commercial or other source outside Duke Energy Kentucky. The aforementioned information is distributed within Duke Energy Kentucky only to those employees who must have access for business reasons and is generally recognized as confidential and proprietary in the gas industry.

4. Duke Energy Kentucky does not object to limited disclosure of the confidential information described herein, pursuant to an acceptable protective agreement, the Attorney General, or other intervenors with a legitimate interest in reviewing the same for the purpose of participating in this case.

5. This information was, and remains, integral to Duke Energy Kentucky's effective execution of business decisions. And such information is generally regarded as confidential or proprietary. Indeed, as the Kentucky Supreme Court has found, "information concerning the inner workings of a corporation is 'generally accepted as confidential or proprietary.'" *Hoy v. Kentucky Industrial Revitalization Authority*, Ky., 904 S.W.2d 766, 768 (Ky. 1995).

6. In accordance with the provisions of 807 KAR 5:001, Section 13(3), the Company is filing one copy of the Confidential Information separately under seal, and one copy without the confidential information included.

7. Duke Energy Kentucky respectfully requests that the Confidential Information contained in Supplemental Confidential Exhibit 3(g) be withheld from public disclosure until such time as the facilities depicted therein are no longer in service. This

will assure that the Confidential Information – if disclosed after that time – will no longer be commercially sensitive so as to likely impair the interests of the Company or its customers if publicly disclosed.

8. To the extent the Confidential Information becomes generally available to the public, whether through filings required by other agencies or otherwise, Duke Energy Kentucky will notify the Commission and have its confidential status removed, pursuant to 807 KAR 5:001, Section 13(10)(a).

WHEREFORE, Duke Energy Kentucky, Inc. respectfully requests that the Commission classify and protect as confidential the specific information described herein.

Respectfully submitted,

DUKE ENERGY KENTUCKY, INC.
