**Notice of Proposed Construction of
Wireless Communications Facility
Site Name: Fairway**

Cellco Partnership, d/b/a Verizon Wireless and The Towers, LLC (Vertical Bridge) propose to construct a wireless communications facility on a site located 601 Salem Church Road, Campbellsville, KY 42718 (North Latitude: (37° 22' 13.45", West Longitude 85° 23' 10.76"). The proposed facility will include a 180-foot tall monopole tower, plus a 10-foot lightning arrestor and related ground facilities. This facility is needed to provide improved coverage for wireless communications in the area.

This facility was previously granted approval for construction by the Public Service Commission on January 24, 2025; however, KAR 278.020(1)(e) requires construction to commence within one (1) year from the date of grant. Due to several factors, the construction of the tower did not commence and now requires a re-submission of the request. This re-submission is identical to the tower granted in 2025 and will not result in duplicate towers at the location.

This notice is being sent to you because the County Property Valuation Administrator's records indicate that you may own property that is within a 500' radius of the proposed tower site or contiguous to the property on which the tower is to be constructed. You have a right to submit testimony to the Kentucky Public Service Commission ("PSC"), either in writing or to request intervention in the PSC's proceedings on the application. You may contact the PSC for additional information concerning this matter at: Kentucky Public Service Commission, Executive Director, 211 Sower Boulevard, P.O. Box 615, Frankfort, Kentucky 40602. Please refer to docket number 2026-00133 in any correspondence sent in connection with this matter.

We have attached a map showing the site location for the proposed tower. Applicant's radio frequency engineers assisted in selecting the proposed site for the facility, and they have determined it is the proper location and elevation needed to provide quality service to wireless customers in the area. Please feel free to contact us at 317-637-1321 if you have any comments or questions about this proposal.

Sincerely,
Russell L. Brown
