RE: Proposed Purchased Water Adjustment

To Whom It May Concern:

Our suppliers, The Louisville Water Company (LWC) and Shelbyville Municipal Water (SMW) have informed West Shelby Water (WSW) of upcoming increases in their wholesale water rates. The rate increase from LWC will take effect on July 1, 2026 and the SMW increase will become effective June 19, 2026.

The West Shelby Water District respectfully requests that the Public Service Commission approves an adjustment to our rates in accordance with 807 KAR 5:068, Purchased Water Adjustments for Water Districts. WSW's Commission has approved this rate adjustment by order of an approved Resolution at the regularly scheduled monthly meeting held on Thursday May, 21, 2026. The signed Resolution can be found in this filing as Exhibit 7. WSW would like this rate increase to become effective July 15, 2026.

All electronic documents regarding this filing are a true representation of its original version.
