Costa Mesa, CA 92626

RE: Proposal to supply natural gas to Navitas – January 2026

Dear Mr. Hartline:

Sparta Energy, LLC hereby presents the following proposal to supply natural gas delivered to the B&W gas pipeline:

For the period from January the 1st till the 31st, 2026:

a.- [REDACTED]

b.- The delivery points are located after Spectra Hwy 62 meter and before Sawmill Scada Master Meter

It is our dearest interest that Navitas' customers get the best pricing for their gas. As you might know, Sparta Energy, LLC produces its natural gas in Fentress, Morgan and Scott Co (TN). Selling this locally produced gas generates jobs, wealth and stability close to the home of your clients. Please also take into account that by purchasing directly from the producer Navitas will not incur the transportation costs charged by Spectra. For further ratification, just as in all past transactions, this price is exclusive of any B&W Pipeline transportation costs and it will be sold to Navitas at the B&W entry point.

[REDACTED]

As every month, if we do not receive any reply from Navitas declining our offer at least one day prior to the end of the current month, we will keep the current status and continue to supply Navitas with our gas.

Sincerely,

Juan J. Duran
Controller, for Sparta Energy, LLC
