Aero Communications, LLC

AGREEMENT

This Agreement, which shall become effective thirty (30) days following the date of the last signature of both Parties (Effective Date), is entered into by and between Aero Communications, LLC (Aero), a Delaware corporation on behalf of itself, and BellSouth Telecommunications, Inc., (BellSouth), a Georgia corporation, having an office at 675 W. Peachtree Street, Atlanta, Georgia, 30375, on behalf of itself and its successors and assigns.

WHEREAS, the Telecommunications Act of 1996 (the "Act") was signed into law on February 8, 1996; and

WHEREAS, section 252(i) of the Act requires BellSouth to make available any interconnection, service, or network element provided under an agreement approved by the appropriate state regulatory body to any other requesting telecommunications carrier upon the same terms and conditions as those provided in the agreement in its entirety; and

WHEREAS, Aero has requested that BellSouth make available the interconnection agreement in its entirety executed between BellSouth and Network Telephone Corporation dated June 20, 2003 for the state of Kentucky.

WHEREAS, the Parties desire to amend the Agreement in order to modify provisions pursuant to the Federal Communications Commission's (FCC) Order on Remand and Further Notice of proposed Rulemaking (Triennial Order) effective on October 2, 2003;

WHEREAS, the Parties desire to amend the Agreement to reflect other changes as agreed upon by the Parties;

NOW, THEREFORE, in consideration of the promises and mutual covenants of this Agreement, Aero and BellSouth hereby agree as follows:

1. Aero and BellSouth shall adopt in its entirety the Network Telephone Corporation_Interconnection Agreement dated June 20, 2003 and any and all amendments to said agreement executed and approved by the appropriate state regulatory commission as of the date of the execution of this Agreement. The Network Telephone Corporation Interconnection Agreement and all amendments are attached hereto as Exhibit 1 and incorporated herein by this reference. The adoption of this agreement with amendment(s) consists of the following:

2. The Parties agree to delete Attachment 2, Network Elements and Other Services, and the associated rates in their entirety and replace with Attachment 2 and rates reflected as Amendment Exhibit 2, attached hereto and by reference incorporated into this Amendment

3. The Parties agree to delete Attachment 6, Pre-Ordering, Ordering, Provisioning, Maintenance and Repair in its entirety and replace with Attachment 6 reflected as Amendment Exhibit 3, attached hereto and by reference incorporated into this Amendment.

4. Aero and BellSouth shall adopt Section 2.10.1 in Attachment 2 of the Cinergy Communications Company's Interconnection agreement (Cinergy) dated March 20, 2003. The Parties agree that the adopted provision will be added to Attachment 2, Section 2, as set forth below and incorporated herein by this reference. This Adoption shall expire on March 19, 2006, in accordance with Section 2 of the General Terms and Conditions of the Interconnection Agreement between BellSouth and Cinergy.

2.10.1 DSL TRANSPORT SERVICE ON UNE-P

2.10.1.1 For purposes of this Section 2.10.1.1, the term "DSL," "DSL transport," or "DSL Transport Services" shall mean that DSL transport service in the BellSouth F.C.C. Number 1 tariff in

effect as of, July 12, 2002, the date of the Kentucky Public Service Commission's Order in Case No. 2001-00432. In order to comply with the Order, BellSouth shall not refuse to provide any DSL transport service to a network service provider pursuant to a request from such network service provider who serves, or desires to serve, an end-user that receives UNE-P based voice services from Cinergy Communications. However, BellSouth shall have no obligation to provide DSL transport on any loop that is not qualified for DSL, provided that BellSouth shall not make a change to any loop so as to make it not qualify for DSL on the basis of that such loop is being converted to UNE-P, rather than on the basis of architectural, mechanical, or physical limitations.

- 2.10.1.2 The Order is predicated upon the ability of customers of Cinergy Communications to receive wholesale ADSL transport at the same price it was available pursuant to Bellsouth Tariff F.C.C. Number 1 on the date of that Order. In the event this offering is no longer available for any reason, BellSouth agrees to provide to Cinergy Communications a wholesale ADSL transport product for the duration of this interconnection agreement on the same pricing, terms and conditions as those in the BellSouth Tariff F.C.C. Number 1 as of the date of the Order subject to section 2.10.1.1 above. The terms and prices of BellSouth Tariff F.C.C. Number 1 as it existed on the date of the Order are incorporated herein by reference as necessary to comply with this section.
- 2.10.1.3 Notwithstanding the foregoing, BellSouth shall have no obligation to provide its retail, DSL-based high speed Internet access service, currently known as BellSouth® FastAccess® DSL service, to an end-user that receives UNE-P based voice services from Cinergy. To the extent BellSouth chooses to deny FastAccess to an end user, BellSouth shall not seek any termination penalties against, or in any other fashion seek to penalize, any such end-user that Cinergy identifies to BellSouth pursuant to a process to be agreed upon and reduced to writing. BellSouth shall also notify the aforementioned end-user at least ten (10) days prior to discontinuing its FastAccess service.
- 2.10.1.4 Cinergy shall make available to BellSouth at no charge the high frequency spectrum on UNE-P for purposes of enabling BellSouth to provision DSL transport on the same loop as the UNE-P based voice service.

- 2.10.1.5 When BellSouth provides tariffed DSL transport over Cinergy UNE-P, BellSouth shall have the right, at no charge, to access the entire loop for purposes of troubleshooting DSL-related troubles.
- 2.10.1.6 BellSouth shall not be obligated to provide tariffed DSL transport in accordance with this Section 2.10.1 until completion of the modification of systems and processes that will enable BellSouth to qualify Cinergy UNE-P lines for DSL as well as maintain and repair such DSL on Cinergy UNE-P lines. Until such time as BellSouth completes the aforementioned modification of systems and processes, BellSouth agrees to provide to Cinergy Communications wholesale DSL transport service over resale lines on the following conditions: (1) the underlying resale line and its features shall be provided by BellSouth to Cinergy Communications at the rate that Cinergy Communications normally pays for a UNE-P loop/port combination in the pertinent UNE Zone, specifically excluding subscriber line charges, and other charges normally associated with resale; (2) BellSouth shall bill and collect the access or other third party charges applicable to such lines, and shall remit to Cinergy monthly, as a surrogate for such access charges, an amount determined in accordance with the formula set forth in Section 2.10.1.6.1 below; (3) because BellSouth cannot provide hunting between resale and UNE-P lines, any other lines of the end-user served by Cinergy Communications shall also be converted to resale at no charge upon submission of an LSR for such conversion and provided pursuant to (1) and (2) above unless and until BellSouth agrees to provide hunting between resale and UNE-P platforms; and (4) once the aforementioned modification of systems and process is completed, BellSouth agrees to convert all end-user lines affected by this section to UNE-P at no charge upon Cinergy Communications' submission of an executable LSR for such conversion.
- 2.10.1.6.1 The parties agree that the amount payable to Cinergy as a surrogate for access charges in accordance with Section 2.10.1.6 above shall be determined by multiplying the average number of Cinergy resale lines with DSL service, and those lines included in a hunt group with such DSL resale lines in accordance with subsection 3 of Section 2.10.1.6 above, for the most recent three (3) billing cycles preceding the date of this agreement by \$12.00 per line. Such rate is based upon Cinergy's estimate of its access charges, including subscriber line charges, presubscribed interexchange carrier charges, and usage charges, on a per line basis. Within sixty (60) days

following the date of this Agreement and upon BellSouth's request, the parties agree to true up this amount to conform with the average per line access charges Cinergy collects on its UNE-P lines. Cinergy shall provide supporting documentation to justify the true up amount.

- 2.10.1.6.2 The Parties agree that subject to Section 2.10.1.6.1, the rates charged pursuant to Section 2.10.1.6 above are not subject to true-up regardless of appeal or change in law. Any change to these rates or to the provisions of Section 2.10.1 <u>et seq.</u> shall be prospective only in the event of a change in law as described in the General Terms and Conditions of this Agreement.
- 2.10.1.7 Cinergy Communications shall provide BellSouth with all current pertinent customer information necessary for BellSouth to comply with this section. Cinergy Communications authorizes BellSouth to access customer information on BellSouth systems as necessary for BellSouth to comply with this section. BellSouth shall provide Cinergy Communications with all current pertinent loop information necessary for Cinergy Communications to provide DSL over UNE-P, including but not limited to, loop qualification information for UNE-P lines.
- 2.10.1.8 If a request is made for DSL on an existing Cinergy Communications UNE-P line, Cinergy shall cooperate with BellSouth in an effort to determine loop make-up and qualification status. The parties shall mutually agree on a procedure and shall reduce same in writing.

5. In the event that Aero consists of two (2) or more separate entities as set forth in the preamble to this Agreement, all such entities shall be jointly and severally liable for the obligations of Aero under this Agreement.

6. The term of this Agreement shall be from the Effective Date as set forth above and shall expire as set forth in section 2 of the Network Telephone Corporation Interconnection Agreement. For the purposes of determining the expiration date of this Agreement pursuant to section 2.4 of the Network Telephone Corporation Interconnection Agreement, the effective date shall be June 20, 2003.

6. Aero shall accept and incorporate any amendments to the Network Telephone Corporation Interconnection Agreement executed as a result of any final judicial, regulatory, or legislative action. 7. every notice, consent, approval, or other communications required or contemplated by this Agreement shall be in writing and shall be delivered in person or given by postage prepaid mail, address to:

1.	QUALITY OF PRE-ORDERING, ORDERING, PROVISIONING, MAINTENANCE AND REPAIR	3

PRE-ORDERING, ORDERING, PROVISIONING, MAINTENANCE AND REPAIR

1. QUALITY OF PRE-ORDERING, ORDERING, PROVISIONING, MAINTENANCE AND REPAIR

- 1.1 BellSouth shall provide to Aero nondiscriminatory access to its Operations Support Systems (OSS) and the necessary information contained therein in order that Aero can perform the functions of pre-ordering, ordering, provisioning, maintenance and repair, and billing.. BellSouth shall provide Aero with all relevant documentation (manuals, user guides, specifications, etc.) regarding business rules and other formatting information as well as practices and procedures necessary to ensure requests are efficiently processed. All documentation will be readily accessible at BellSouth's interconnection website and are incorporated herein by reference. BellSouth shall ensure that its OSS are designed to accommodate access requests for both current and projected demand of Aero and other CLECs in the aggregate.
- 1.2 BellSouth shall provision services during its regular working hours. To the extent Aero requests provisioning of service to be performed outside BellSouth's regular working hours, or the work so requested requires BellSouth's technicians or project manager to work outside of regular working hours, overtime charges shall apply. Notwithstanding the foregoing, if such work is performed outside of regular working hours by a BellSouth technician or project manager during his or her scheduled shift and BellSouth does not incur any overtime charges in performing the work on behalf of Aero, BellSouth will not assess Aero additional charges beyond the rates and charges specified in this Agreement.

2. ACCESS TO OPERATIONS SUPPORT SYSTEMS

- 2.1 BellSouth shall provide Aero nondiscriminatory access to its OSS and the necessary information contained therein in order that Aero can perform the functions of pre-ordering, ordering, provisioning, maintenance and repair, and billing. BellSouth shall provide nondiscriminatory access to the OSS through manual and/or electronic interfaces as described in this Attachment. It is the sole responsibility of Aero to obtain the technical capability to access and utilize BellSouth's OSS interfaces. Specifications for Aero's access and use of BellSouth's electronic interfaces are set forth at BellSouth's interconnection website and are incorporated herein by reference.
- 2.1.1 <u>Pre-Ordering</u>. BellSouth will provide electronic access to its OSS and the information contained therein in order that Aero can perform the following preordering functions: service address validation, telephone number selection, service and feature availability, due date information, customer record information and loop makeup information. Mechanized access is provided by electronic interfaces

whose specifications for access and use are set forth at BellSouth's interconnection website and are incorporated herein by reference. The process by which BellSouth and Aero will manage these electronic interfaces to include the development and introduction of new interfaces will be governed by the change management process as described below. Aero shall provide to BellSouth access to customer record information, including circuit numbers associated with each telephone number where applicable. Aero shall provide such information within four (4) hours after request via electronic access where available. If electronic access is not available, Aero shall provide to BellSouth paper copies of customer record information, including circuit numbers associated with each telephone number where applicable. If BellSouth requests the information before noon, the customer record information shall be provided the same day. If BellSouth requests the information after noon, the customer record information shall be provided by noon the following day.

- 2.1.2 The Parties agree not to view, copy, or otherwise obtain access to the customer record information of any customer without that customer's permission. Aero will obtain access to customer record information only in strict compliance with applicable laws, rules, or regulations of the state in which the service is provided. BellSouth reserves the right to audit Aero's access to customer record information reveals that Aero is accessing customer record information without having obtained the proper End User authorization, BellSouth upon reasonable notice to Aero may take corrective action, including but not limited to suspending or terminating Aero's electronic access to BellSouth's OSS functionality. All such information obtained through an audit shall be deemed Information covered by the Proprietary and Confidential Information section in the General Terms and Conditions of this Agreement.
- 2.1.3 <u>Ordering</u>. BellSouth will make available to Aero electronic interfaces for the purpose of exchanging order information, including order status and completion notification, for non-complex and certain complex resale requests and certain network elements. Specifications for access and use of BellSouth's electronic interfaces are set forth at BellSouth's interconnection website and are incorporated herein by reference. The process by which BellSouth and Aero will manage these electronic interfaces to include the development and introduction of new interfaces will be governed by the change management process as described below.
- 2.1.4 <u>Maintenance and Repair</u>. BellSouth will make available to Aero electronic interfaces for the purpose of reporting and monitoring service troubles. Specifications for access and use of BellSouth's maintenance and repair electronic interfaces are set forth at BellSouth's interconnection website and are incorporated herein by reference. The process by which BellSouth and Aero will manage these electronic interfaces to include the development and introduction of new interfaces will be governed by the change management process as described below. Requests for trouble repair are billed in accordance with the provisions of this Agreement. BellSouth and Aero agree to adhere to BellSouth's Operational Understanding, as

amended from time to time during this Agreement and as incorporated herein by reference. The Operational Understanding may be accessed via BellSouth's interconnection website.

- 2.1.5 <u>Billing</u>. BellSouth will provide Aero nondiscriminatory access to billing information as specified in Attachment 7 to this Agreement.
- 2.2 Change Management. BellSouth and Aero agree that the collaborative change management process known as the Change Control Process (CCP) will be used to manage changes to existing interfaces, introduction of new interfaces and retirement of interfaces. BellSouth and Aero agree to comply with the provisions of the documented Change Control Process as may be amended from time to time and incorporated herein by reference. The change management process will cover changes to BellSouth's electronic interfaces, BellSouth's testing environment, associated manual process improvements, and relevant documentation. The process will define a procedure for resolution of change management disputes. Documentation of the CCP as well as related information and processes will be clearly organized and readily accessible to Aero at BellSouth's interconnection website.
- 2.3 <u>Rates</u>. Charges for use of OSS shall be as set forth in this Agreement.

3. MISCELLANEOUS

- 3.1 <u>Pending Orders</u>. Orders placed in the hold or pending status by Aero will be held for a maximum of thirty (30) calendar days from the date the order is placed on hold. After such time, Aero shall be required to submit a new service request. Incorrect or invalid requests returned to Aero for correction or clarification will be held for thirty (30) calendar days. If Aero does not return a corrected request within thirty (30) calendar days, BellSouth will cancel the request.
- 3.2 Single Point of Contact. Aero will be the single point of contact with BellSouth for ordering activity for network elements and other services used by Aero to provide services to its End Users, except that BellSouth may accept a request directly from another CLEC, or BellSouth, acting with authorization of the affected End User. Aero and BellSouth shall each execute a blanket letter of authorization with respect to customer requests so that prior proof of End User authorization will not be necessary with every request (except in the case of a local service freeze). The Parties shall each be entitled to adopt their own internal processes for verification of customer authorization for requests, provided, however, that such processes shall comply with applicable state and federal law and industry and regulatory guidelines. Pursuant to a request from another carrier, BellSouth may disconnect any network element being used by Aero to provide service to that End User and may reuse such network elements or facilities to enable such other carrier to provide service to the End User. BellSouth will notify Aero that such a request has been processed but will not be required to notify Aero in advance of such processing.

- 3.2.1 Neither BellSouth nor Aero shall prevent or delay an End User from migrating to another carrier because of unpaid bills, denied service, or contract terms.
- 3.2.2 BellSouth shall return a Firm Order Confirmation (FOC) and Local Service Request (LSR) rejection/clarification within the intervals in accordance with the Service Quality Measurement (SQM) set forth in Attachment 9 of this Agreement.
- 3.2.3 Aero shall return a FOC to BellSouth within thirty-six (36) hours after Aero's receipt from BellSouth of a valid LSR.
- 3.2.4 Aero shall provide a Reject Response to BellSouth within twenty-four (24) hours after BellSouth's submission of an LSR which is incomplete or incorrectly formatted.
- 3.3 <u>Use of Facilities</u>. When a customer of Aero elects to discontinue service and to transfer service to another local exchange carrier, including BellSouth, BellSouth shall have the right to reuse the facilities provided to Aero by BellSouth. In addition, where BellSouth provides local switching, BellSouth may disconnect and reuse facilities when the facility is in a denied state and BellSouth has received a request to establish new service or transfer of service from a customer or a customer's CLEC at the same address served by the denied facility. BellSouth will notify Aero that such a request has been processed after the disconnect order has been completed.
- 3.4 <u>Contact Numbers</u>. The Parties agree to provide one another with toll-free nationwide (50 states) contact numbers for the purpose of ordering, provisioning and maintenance of services.
- 3.5 <u>Subscription Functions</u>. In cases where BellSouth performs subscription functions for an interexchange carrier (IXC) (i.e. PIC and LPIC changes via Customer Account Record Exchange (CARE)), BellSouth will in all possible instances provide the affected IXCs with the Operating Company Number (OCN) of the local provider for the purpose of obtaining End User billing account and other End User information required under subscription requirements.
- 3.5.1 When Aero's End User, served by resale or loop and port combinations, changes its PIC or LPIC, and per BellSouth's FCC or state tariff the interexchange carrier elects to charge the End User the PIC or LPIC change charge, BellSouth will bill the PIC or LPIC change charge to Aero, which has the billing relationship with that End User, and Aero may pass such charge to the End User.
- 3.6 <u>Cancellation Charges</u>. If Aero cancels a request for network elements or resold services, any costs incurred by BellSouth in conjunction with the provisioning of that request will be recovered in accordance with BellSouth's Private Line Tariff or BellSouth's FCC No. 1 Tariff, Section 5.4, as applicable. Notwithstanding the foregoing, if Aero places an LSR based upon BellSouth's loop makeup information, and such information is inaccurate resulting in the inability of

BellSouth to provision the network elements requested and another spare compatible facility cannot be found with the transmission characteristics of the network elements originally requested, cancellation charges described in this Section shall not apply. Where Aero places a single LSR for multiple network elements or services based upon loop makeup information, and information as to some, but not all, of the network elements or services is inaccurate, if BellSouth cannot provision the network elements or services that were the subject of the inaccurate loop makeup information, Aero may cancel its request for those network elements or services without incurring cancellation charges as described in this Section. In such instance, should Aero elect to cancel the entire LSR, cancellation charges as described in this Section shall apply to those elements and services that were not the subject of inaccurate loop makeup.

3.7 <u>Service Date Advancement Charges (a.k.a. Expedites)</u>. For Service Date Advancement requests by Aero, Service Date Advancement charges will apply for intervals less than the standard interval as outlined in the BellSouth Product and Services Interval Guide. The charges as outlined in BellSouth's FCC No. 1 Tariff, Section 5, will apply as applicable.
