By and Between

BellSouth Telecommunications, Inc.

And

DSLnet Communications, LLC

AGREEMENT

This Agreement, which shall become effective as of the 1st day of June 2002, is entered into by and between DSLnet Communications, LLC, ("DSLnet") a Delaware corporation on behalf of itself, and BellSouth Telecommunications, Inc., ("BellSouth"), a Georgia corporation, having an office at 675 W. Peachtree Street, Atlanta, Georgia, 30375, on behalf of itself and its successors and assigns.

WHEREAS, the Telecommunications Act of 1996 (the "Act") was signed into law on February 8, 1996; and

WHEREAS, section 252(i) of the Act requires BellSouth to make available any interconnection, service, or network element provided under an agreement approved by the appropriate state regulatory body to any other requesting telecommunications carrier upon the same terms and conditions as those provided in the agreement in its entirety; and

WHEREAS, DSLnet has requested that BellSouth make available the interconnection agreement in its entirety executed between BellSouth and U.S. South Communications, Inc. dated April 5, 2001 for the state of Kentucky.

NOW, THEREFORE, in consideration of the promises and mutual covenants of this Agreement, DSLnet and BellSouth hereby agree as follows:

1. DSLnet and BellSouth shall adopt in its entirety, except for those items identified in Paragraphs 2. – 4., the U.S. South Communications, Inc. Interconnection Agreement dated April 5, 2001 and any and all amendments to said agreement executed and approved by the appropriate state regulatory commission as of the date of the execution of this Agreement. The U.S. South Communications, Inc. Interconnection Agreement and all amendments are attached hereto as Exhibit 1 and incorporated herein by this reference. The adoption of this agreement with amendment(s) consists of the following:

- 2. The Parties hereby agree to incorporate the following Section 2.1.6.1 and subsections in Attachment 2 as follows:
 - 2.1.6.1 CLEC to CLEC Conversions for Unbundled Loops
 - 2.1.6.1.1 The CLEC to CLEC conversion process for unbundled Loops may be used by DSLnet when converting an existing unbundled Loop from another CLEC for the same end user. The Loop type being converted must be included in DSLnet's Interconnection Agreement before requesting a conversion.
 - 2.1.6.2 To utilize the CLEC to CLEC conversion process, the Loop being converted must be the same Loop type with no requested changes to the Loop, must serve the same end user location from the same serving wire center, and must not require an outside dispatch to provision.
 - 2.1.6.3 The Loops converted to DSLnet pursuant to the CLEC to CLEC conversion process shall be provisioned in the same manner and with the same functionality and options as described in this Attachment for the specific Loop type.
- 3. The Parties hereby agree to incorporate the following Section 2.1.23 and subsections in Attachment 2 as follows:
 - 2.1.23 Unbundled Copper Loop Non-Designed (UCL-ND)

- 2.1.23.1 The UCL-ND is provisioned as a dedicated 2-wire metallic transmission facility from BellSouth's Main Distribution Frame to a customer's premises (including the NID). The UCL-ND will be a "dry copper" facility in that it will not have any intervening equipment such as load coils, repeaters, or digital access main lines ("DAMLs"), and may have up to 6,000 feet of bridged tap between the end user's premises and the serving wire center. The UCL-ND typically will be 1300 Ohms resistance and in most cases will not exceed 18,000 feet in length, although the UCL-ND will not have a specific length limitation. For loops less than 18,000 feet and with less than 1300 Ohms resistance, the loop will provide a voice grade transmission channel suitable for loop start signaling and the transport of analog voice grade signals. The UCL-ND will not be designed and will not be provisioned with either a DLR or a test point.
- 2.1.23.2 The UCL-ND facilities may be mechanically assigned using BellSouth's assignment systems. Therefore, the Loop Make Up process is not required to order and provision the UCL-ND. However, DSLnet can request Loop Make Up for which additional charges would apply.
- 2.1.23.3 At an additional charge, BellSouth also will make available Loop Testing so that DSLnet may request further testing on the UCL-ND. Rates for Loop Testing are as set forth in Exhibit B of this Attachment.
- 2.1.23.4 UCL-ND loops are not intended to support any particular service and may be utilized by DSLnet to provide a widerange of telecommunications services so long as those services do not adversely affect BellSouth's network. The UCL-ND will include a Network Interface Device (NID) at the customer's location for the purpose of connecting the loop to the customer's inside wire.
- 2.1.23.5 Order Coordination (OC) will be provided as a chargeable option and may be utilized when the UCL-ND provisioning is associated with the reuse of BellSouth facilities. Order Coordination -Time Specific (OC-TS) does not apply to this product.
- 2.1.23.6 DSLnet may use BellSouth's Unbundled Loop Modification (ULM) offering to remove bridge tap and/or load coils from any loop within the BellSouth network.

Therefore, some loops that would not qualify as UCL-ND could be transformed into loops that do qualify, using the ULM process.

- 4. The Parties hereby agree to delete in entirety and replace the Kentucky rates contained in Exhibits A and F of Attachment 1, Exhibit C of Attachment 2, Exhibit A of Attachment 3, Exhibit A of Attachment 5 and Exhibit A of Attachment 7 with the rates in Exhibit 2 of this Agreement, as ordered in Kentucky Administrative Case No. 382, issued December 18, 2001.
- 5. In the event that DSLnet consists of two (2) or more separate entities as set forth in the preamble to this Agreement, all such entities shall be jointly and severally liable for the obligations of DSLnet under this Agreement.
- 6. The term of this Agreement shall be from the effective date as set forth above and shall expire as set forth in section 2.1 of the U.S. South Communications, Inc. Interconnection Agreement. For the purposes of determining the expiration date of this Agreement pursuant to section 2.1 of the U.S. South Communications, Inc. Interconnection Agreement, the effective date shall be April 5, 2003.
- 7. DSLnet shall accept and incorporate any amendments to the U.S. South Communications, Inc. Interconnection Agreement executed as a result of any final judicial, regulatory, or legislative action.
- 8. Every notice, consent, approval, or other communications required or contemplated by this Agreement shall be in writing and shall be delivered in person or given by postage prepaid mail, address to:

BellSouth Telecommunications, Inc.

CLEC Account Team 9th Floor 600 North 19th Street Birmingham, Alabama 35203 and

General Attorney - COU Suite 4300 675 W. Peachtree St. Atlanta, GA 30375 DSLnet Communications, LLC

Wendy Bluemling Assistant Vice President 5th Floor 545 Long Wharf Drive New Haven, Connecticut 06511

or at such other address as the intended recipient previously shall have designated by written notice to the other Party. Where specifically required, notices shall be by certified or registered mail. Unless otherwise provided in this Agreement, notice by mail shall be effective on the date it is officially recorded as delivered by return receipt or equivalent, and in the absence of such record of delivery, it shall be presumed to have been delivered the fifth day, or next business day after the fifth day, after it was deposited in the mails.

IN WITNESS WHEREOF, the Parties have executed this Agreement through their authorized representatives.
