#### NETWORK INTERCONNECTION

#### 1. GENERAL

- 1.1 The Parties shall provide interconnection with each other's networks for the transmission and routing of telephone exchange service (Local Traffic), ISP-bound Traffic, and exchange access (Switched Access Traffic) on the following terms:
- 2. DEFINITIONS: (FOR THE PURPOSE OF THIS ATTACHMENT)
- 2.1 For purposes of this attachment only, the following terms shall have the definitions set forth below:
- 2.1.1 **Call Termination** has the meaning set forth for "termination" in 47CFR § 51.701(d).
- 2.1.2 **Call Transport** has the meaning set forth for "transport" in 47 CFR § 51.701(c).
- 2.1.3 **Call Transport and Termination** is used collectively to mean the switching and transport functions from the Interconnection Point to the last point of switching.
- 2.1.4 **Common (Shared) Transport** is defined as the transport of the originating Party's traffic by the terminating Party over the terminating Party's common (shared) facilities between (1) the terminating Party's tandem switch and end office switch, (2) between the terminating Party's tandem switches, and/or (3) between the terminating Party's host and remote end office switches. All switches referred herein must be entered into the Local Exchange Routing Guide ("LERG").
- 2.1.5 **Dedicated Interoffice Facility** is defined as a switch transport facility between a Party's Serving Wire Center and the first point of switching within the LATA on the other Party's network.
- 2.1.6 **End Office Switching** is defined as the function that establishes a communications path between the trunk side and line side of the End Office switch.
- 2.1.7 **Fiber Meet** is an interconnection arrangement whereby the Parties physically interconnect their networks via an optical fiber interface at which one Party's facilities, provisioning, and maintenance responsibility begins and the other Party's responsibility ends.
- 2.1.8 **Interconnection Point ("IP")** is the physical telecommunications equipment interface that interconnects the networks of BellSouth and PanAmerican Telecommunications, Inc..
- 2.1.9 **ISP-bound Traffic** is as defined in Section 7 of this Attachment.

- 2.1.10 **Local Channel** is defined as a switched transport facility between a Party's Interconnection Point and the IP's Serving Wire Center.
- 2.1.11 **Local Traffic** is as defined in Section 7 of this Attachment.
- 2.1.12 **Serving Wire Center** is defined as the wire center owned by one Party from which the other Party would normally obtain dial tone for its IP.
- 2.1.13 **Tandem Switching** is defined as the function that establishes a communications path between two switching offices through a third switching office through the provision of trunk side to trunk side switching.
- 2.1.14 **Transit Traffic** is traffic originating on PanAmerican Telecommunications, Inc.'s network that is switched and/or transported by BellSouth and delivered to a third party's network, or traffic originating on a third party's network that is switched and/or transported by BellSouth and delivered to PanAmerican Telecommunications, Inc.'s network.

#### 3. NETWORK INTERCONNECTION

- 3.1 This Attachment pertains only to the provision of network interconnection where PanAmerican Telecommunications, Inc. owns and provides its switch(es).
- 3.2 Network interconnection may be provided by the Parties at any technically feasible point within BellSouth's network. Requests to BellSouth for interconnection at points other than as set forth in this Attachment may be made through the Bona Fide Request/New Business Request process set out in this Agreement.
- 3.2.1 Each Party is responsible for providing, engineering and maintaining the network on its side of the IP. The IP must be located within BellSouth's serving territory in the LATA in which traffic is originating. The IP determines the point at which the originating Party shall pay the terminating Party for the Call Transport and Termination of Local Traffic and ISP-bound Traffic.
- 3.2.2 Pursuant to the provisions of this Attachment, the location of the initial IP in a given LATA shall be established by mutual agreement of the Parties. Subject to the requirements for installing additional IPs, as set forth below, any IPs existing prior to the Effective Date of the Agreement will be accepted as initial IPs and will not require re-grooming. When the Parties mutually agree to utilize two-way interconnection trunk groups for the exchange of Local Traffic and ISP-bound Traffic between each other, the Parties shall mutually agree to the location of IP(s). If the Parties are unable to agree to a mutual initial IP, each Party, as originating Party, shall establish a single IP in the LATA for the delivery of its originated Local Traffic and ISP-bound Traffic to the other Party for Call Transport and Termination by the terminating Party.

When first establishing the interconnection arrangement in each LATA, the location of the IP shall be established by mutual agreement of the Parties. In selecting the IP, both Parties will act in good faith and select the point that is most efficient for both Parties. If the Parties are unable to agree on the location of the IP, each Party will designate IPs for its originated traffic. Additional IP(s) in a LATA may be established by mutual agreement of the Parties. Notwithstanding the foregoing, additional IP(s) in a particular LATA shall be established, at the request of either Party, when the Local Traffic and ISP-bound Traffic exceeds 8.9 million minutes per month for three consecutive months at the proposed location of the additional IP. BellSouth will not request the establishment of an IP where physical or virtual collocation space is not available or where BellSouth fiber connectivity is not available. When the Parties agree to utilize two-way interconnection trunk groups for the exchange of Local Traffic, the Parties must agree to the location of the IP(s).

#### 3.3 Interconnection via Dedicated Facilities

- 3.3.1 Local Channel Facilities. As part of Call Transport and Termination, the originating Party may obtain Local Channel facilities from the terminating Party. The percentage of Local Channel facilities utilized for Local Traffic shall be determined based upon the application of the Percent Local Facility (PLF) Factor on a statewide basis. The charges applied to the percentage of Local Channel facilities used for Local Traffic as determined by the PLF are as set forth in Exhibit A to this Attachment. The remaining percentage of Local Channel facilities shall be billed at BellSouth's applicable access tariff rates.
- 3.3.2 <u>Dedicated Interoffice Facilities.</u> As a part of Call Transport and Termination, the originating Party may obtain Dedicated Interoffice Facilities from the terminating Party. The percentage of Dedicated Interoffice Facilities utilized for Local Traffic shall be determined based upon the application of the Percent Local Facility (PLF) Factor on a statewide basis. The charges applied to the percentage of the Dedicated Interoffice Facilities used for Local Traffic as determined by the PLF are as set forth in Exhibit A to this Attachment. The remaining percentage of the Dedicated Interoffice Facilities shall be billed at BellSouth's applicable access tariff rates.
- 3.3.3 The facilities purchased pursuant to this Section 3 shall be ordered via the Access Service Request ("ASR") process.

#### 3.4 Fiber Meet

3.4.1 If PanAmerican Telecommunications, Inc. elects to interconnect with BellSouth pursuant to a Fiber Meet, PanAmerican Telecommunications, Inc. and BellSouth shall jointly engineer, operate and maintain a Synchronous Optical Network ("SONET") transmission system by which they shall interconnect their transmission and routing of Local Traffic via a Local Channel at either the DS1 or

DS3 level. The Parties shall work jointly to determine the specific transmission system. However, PanAmerican Telecommunications, Inc.'s SONET transmission system must be compatible with BellSouth's equipment, and the Data Communications Channel (DCC) must be turned off.

- 3.4.2 Each Party, at its own expense, shall procure, install and maintain the agreed upon SONET transmission system in its network.
- 3.4.3 The Parties shall agree to a Fiber Meet point between the BellSouth Serving Wire Center and the PanAmerican Telecommunications, Inc. Serving Wire Center. The Parties shall deliver their fiber optic facilities to the Fiber Meet point with sufficient spare length to reach the fusion splice point for the Fiber Meet Point. BellSouth shall, at its own expense, provide and maintain the fusion splice point for the Fiber Meet. A building type Common Language Location Identification ("CLLI") code will be established for each Fiber Meet point. All orders for interconnection facilities from the Fiber Meet point shall indicate the Fiber Meet point as the originating point for the facility.
- 3.4.4 Upon verbal request by PanAmerican Telecommunications, Inc., BellSouth shall allow PanAmerican Telecommunications, Inc. access to the fusion splice point for the Fiber Meet point for maintenance purposes on PanAmerican Telecommunications, Inc.'s side of the Fiber Meet point.
- 3.4.5 Neither Party shall charge the other for its Local Channel portion of the Fiber Meet facility used exclusively for Local Traffic. All other appropriate charges will apply. PanAmerican Telecommunications, Inc. shall be billed for a mixed use of the Local Channel as set forth in the appropriate tariff(s) using the PIU/PLF factors supplied by PanAmerican Telecommunications, Inc.. Charges for switched and special access services shall be billed in accordance with the applicable access service tariff.

#### 4. INTERCONNECTION TRUNK GROUP ARCHITECTURES

- 4.1 BellSouth and PanAmerican Telecommunications, Inc. shall establish interconnecting trunk groups and trunk group configurations between networks, including the use of one-way or two-way trunks in accordance with the following provisions set forth in this Agreement. For trunking purposes, traffic will be routed based on the digits dialed by the originating end user and in accordance with the LERG.
- 4.2 PanAmerican Telecommunications, Inc. shall establish an interconnection trunk group(s) to at least one BellSouth access tandem within the LATA for the delivery of PanAmerican Telecommunications, Inc.'s originated Local Traffic and for the receipt and delivery of Transit Traffic. To the extent PanAmerican Telecommunications, Inc. desires to deliver Local Traffic and/or Transit Traffic to BellSouth access tandems within the LATA, other than the tandems(s) to which

PanAmerican Telecommunications, Inc. has established interconnection trunk groups, PanAmerican Telecommunications, Inc. shall order Multiple Tandem Access, as described in this Attachment, to such other BellSouth access tandems.

- 4.2.1 Notwithstanding the forgoing, PanAmerican Telecommunications, Inc. shall establish an interconnection trunk group(s) to all BellSouth access and local tandems in the LATA where PanAmerican Telecommunications, Inc. has homed (i.e. assigned) its NPA/NXXs. PanAmerican Telecommunications, Inc. shall home its NPA/NXXs on the BellSouth tandems that serve the exchange rate center areas to which the NPA/NXXs are assigned. The specified exchange rate center assigned to each BellSouth tandem is defined in the LERG. PanAmerican Telecommunications, Inc. shall enter its NPA/NXX access and/or local tandem homing arrangements into the LERG.
- 4.3 Switched access traffic will be delivered to and from Interexchange Carriers (IXCs) based on PanAmerican Telecommunications, Inc.'s NXX access tandem homing arrangement as specified by PanAmerican Telecommunications, Inc. in the LERG.
- Any PanAmerican Telecommunications, Inc. interconnection request that (1) deviates from the interconnection trunk group architectures as described in this Agreement, (2) affects traffic delivered to PanAmerican Telecommunications, Inc. from a BellSouth switch, and (3) requires special BellSouth switch translations and other network modifications will require PanAmerican Telecommunications, Inc. to submit a Bona Fide Request/New Business Request (BFR/NBR) via the BFR/NBR Process as set forth in this Agreement.
- 4.5 Recurring and non-recurring rates associated with interconnecting trunk groups between BellSouth and PanAmerican Telecommunications, Inc. are set forth in Exhibit A. To the extent a rate associated with the interconnecting trunk group is not set forth in Exhibit A, the rate shall be as set forth in the appropriate BellSouth tariff for switched access services.
- 4.6 For two-way trunk groups that carry only both Parties' Local Traffic, the Parties shall be compensated at 50% of the nonrecurring and recurring rates for dedicated trunks and facilities. PanAmerican Telecommunications, Inc. shall be responsible for ordering and paying for any two-way trunks carrying Transit Traffic.
- 4.7 All trunk groups will be provisioned as Signaling System 7 (SS7) capable where technically feasible. If SS7 is not technically feasible multi-frequency (MF) protocol signaling shall be used.
- In cases where PanAmerican Telecommunications, Inc. is also an IXC, the IXC's Feature Group D (FG D) trunk group(s) must remain separate from the local interconnection trunk group(s).

Each Party shall order interconnection trunks and trunk group including trunk and trunk group augmentations via the ASR process. A Firm Order Confirmation (FOC) shall be returned to the ordering Party, after receipt of a valid, error free ASR, within the timeframes set forth in each state's applicable Performance Measures. Notwithstanding the foregoing, blocking situations and projects shall be managed through BellSouth's Local Interconnection Switching Center (LISC) Project Management Group and PanAmerican Telecommunications, Inc.'s equivalent trunking group, and FOCs for such orders shall be returned in the timeframes applicable to the project. A project is defined as (1) a new trunk group or (2) a request for more than 96 trunks on a single or multiple group(s) in a given BellSouth local calling area.

## 4.10 Interconnection Trunk Groups for Exchange of Local Traffic and Transit Traffic

Upon mutual agreement of the Parties in a joint planning meeting, the Parties' shall exchange Local Traffic on two-way interconnection trunk group(s) with the quantity of trunks being mutually determined and the provisioning being jointly coordinated. Furthermore, the Parties shall agree upon the IP(s) for two-way interconnection trunk groups transporting both Parties' Local Traffic. PanAmerican Telecommunications, Inc. shall order such two-way trunks via the Access Service Request (ASR) process. BellSouth will use the Trunk Group Service Request (TGSR) to request changes in trunking. Furthermore, the Parties shall jointly review trunk performance and forecasts on a periodic basis. The Parties' use of two-way interconnection trunk groups for the transport of Local Traffic between the Parties does not preclude either Party from establishing additional one-way interconnection trunks for the delivery of its originated Local Traffic to the other Party.

#### 4.10.1 **BellSouth Access Tandem Interconnection**

BellSouth access tandem interconnection at a single access tandem provides access to those end offices subtending that access tandem ("Intratandem Access"). Access tandem interconnection is available for any of the following access tandem architectures

#### 4.10.1.1 **Basic Architecture**

In the basic architecture, PanAmerican Telecommunications, Inc.'s originating Local Traffic and originating and terminating Transit Traffic is transported on a single two-way trunk group between PanAmerican Telecommunications, Inc. and BellSouth access tandem(s) within a LATA to provide Intratandem Access. This trunk group carries Transit Traffic between PanAmerican Telecommunications, Inc. and Independent Companies, Interexchange Carriers, other CLECs, CMRS providers that have a Meet Point Billing arrangement with BellSouth, and other network providers with which PanAmerican Telecommunications, Inc. desires to exchange traffic. This trunk group also carries PanAmerican Telecommunications, Inc. originated Transit Traffic transiting a single BellSouth access tandem destined

to third party tandems such as an Independent Company tandem or other CLEC tandem. BellSouth originated Local Traffic is transported on a separate single one-way trunk group terminating to PanAmerican Telecommunications, Inc.. Other trunk groups for operator services, directory assistance, emergency services and intercept must be established pursuant to the applicable BellSouth tariff if service is requested. The LERG contains current routing and tandem serving arrangements. The basic Architecture is illustrated in Exhibit B.

#### 4.10.1.2 **One-Way Trunk Group Architecture**

In one-way trunk group architecture, the Parties interconnect using three separate trunk groups. A one-way trunk group provides Intratandem Access for PanAmerican Telecommunications, Inc.-originated Local Traffic destined for BellSouth end-users. A second one-way trunk group carries BellSouth-originated Local Traffic destined for PanAmerican Telecommunications, Inc. end-users. A two-way trunk group provides Intratandem Access for PanAmerican Telecommunications, Inc.'s originating and terminating Transit Traffic. This trunk group carries Transit Traffic between PanAmerican Telecommunications, Inc. and Independent Companies, Interexchange Carriers, other CLECs, CMRS providers that have a Meet Point Billing arrangement with BellSouth, and other network providers with which PanAmerican Telecommunications, Inc. desires to exchange traffic. This trunk group also carries PanAmerican Telecommunications, Inc. originated Transit Traffic transiting a single BellSouth access tandem destined to third party tandems such as an Independent Company tandem or other CLEC tandem. BellSouth originated Local Traffic is transported on a separate single one-way trunk group terminating to PanAmerican Telecommunications, Inc.. Other trunk groups for operator services, directory assistance, emergency services and intercept must be established pursuant to the applicable BellSouth tariff if service is requested. The LERG contains current routing and tandem serving arrangements. The one-way trunk group architecture is illustrated in Exhibit C.

#### 4.10.1.3 **Two-Way Trunk Group Architecture**

Upon agreement of the Parties as set forth in Section 0 above, the two-way trunk group Architecture establishes one two-way trunk group to provide Intratandem Access for the exchange of Local Traffic between PanAmerican Telecommunications, Inc. and BellSouth. In addition, a separate two-way transit trunk group must be established for PanAmerican Telecommunications, Inc.'s originating and terminating Transit Traffic. This trunk group carries Transit Traffic between PanAmerican Telecommunications, Inc. and Independent Companies, Interexchange Carriers, other CLECs, CMRS providers that have a Meet Point Billing arrangement with BellSouth, and other network providers with which PanAmerican Telecommunications, Inc. desires to exchange traffic. This trunk group also carries PanAmerican Telecommunications, Inc. originated Transit Traffic transiting a single BellSouth access tandem destined to third party tandems such as an Independent Company tandem or other CLEC tandem. BellSouth originated traffic may, in order to prevent or remedy traffic blocking situations, be

transported on a separate single one-way trunk group terminating to PanAmerican Telecommunications, Inc.. However, where PanAmerican Telecommunications, Inc. is responsive in a timely manner to BellSouth's transport needs for its originated traffic, BellSouth originating traffic will be placed on the two-way Local Traffic trunk group. Other trunk groups for operator services, directory assistance, emergency services and intercept must be established pursuant to the applicable BellSouth tariff if service is requested. The LERG contains current routing and tandem serving arrangements. The two-way trunk group architecture is illustrated in Exhibit D.

### 4.10.1.4 **Supergroup Architecture**

Upon agreement of the Parties as set forth in Section 0 above, the Parties may establish a supergroup architecture. In the supergroup architecture, the Parties' Local Traffic and PanAmerican Telecommunications, Inc.'s Transit Traffic are exchanged on a single two-way trunk group between PanAmerican Telecommunications, Inc. and BellSouth to provide Intratandem Access to PanAmerican Telecommunications, Inc.. This trunk group carries Transit Traffic between PanAmerican Telecommunications, Inc. and Independent Companies, Interexchange Carriers, other CLECs, CMRS providers that have a Meet Point Billing arrangement with BellSouth, and other network providers with which PanAmerican Telecommunications, Inc. desires to exchange traffic. This trunk group also carries PanAmerican Telecommunications, Inc. originated Transit Traffic transiting a single BellSouth access tandem destined to third party tandems such as an Independent Company tandem or other CLEC tandem. BellSouth originated traffic may, in order to prevent or remedy traffic blocking situations, be transported on a separate single one-way trunk group terminating to PanAmerican Telecommunications, Inc.. However, where PanAmerican Telecommunications, Inc. is responsive in a timely manner to BellSouth's transport needs for its originated traffic, BellSouth originating traffic will be placed on the Supergroup. Other trunk groups for operator services, directory assistance, emergency services and intercept must be established pursuant to the applicable BellSouth tariff if service is requested. The LERG contains current routing and tandem serving arrangements. The supergroup architecture is illustrated in Exhibit E.

## 4.10.1.5 Multiple Tandem Access Interconnection

4.10.1.5.1 Where PanAmerican Telecommunications, Inc. does not choose access tandem interconnection at every BellSouth access tandem within a LATA, PanAmerican Telecommunications, Inc. may utilize BellSouth's multiple tandem access interconnection (MTA). To utilize MTA PanAmerican Telecommunications, Inc. must establish an interconnection trunk group(s) at a BellSouth access tandem through multiple BellSouth access tandems within the LATA as required. BellSouth will route PanAmerican Telecommunications, Inc.'s originated Local Traffic for LATA wide transport and termination. PanAmerican Telecommunications, Inc. must also establish an interconnection trunk group(s) at all BellSouth access tandems where PanAmerican Telecommunications, Inc. NXXs

are homed as described in Section 4.2.1 above. If PanAmerican Telecommunications, Inc. does not have NXXs homed at any particular BellSouth access tandem within a LATA and elects not to establish an interconnection trunk group(s) at such BellSouth access tandem, PanAmerican Telecommunications, Inc. can order MTA in each BellSouth access tandem within the LATA where it does have an interconnection trunk group(s) and BellSouth will terminate PanAmerican Telecommunications, Inc.'s Local Traffic to end-users served through those BellSouth access tandems where PanAmerican Telecommunications, Inc. does not have an interconnection trunk group(s). MTA shall be provisioned in accordance with BellSouth's Ordering Guidelines.

- 4.10.1.5.2 PanAmerican Telecommunications, Inc. may also utilize MTA to route its originated Transit Traffic; provided, however, that MTA may not be utilized to route switched access traffic that transits the BellSouth network to an Interexchange Carrier (IXC). Switched access traffic originated by or terminated to PanAmerican Telecommunications, Inc. will be delivered to and from IXCs based on PanAmerican Telecommunications, Inc.'s NXX access tandem homing arrangement as specified by PanAmerican Telecommunications, Inc. in the LERG.
- 4.10.1.5.3 Compensation for MTA shall be at the applicable tandem switching and transport charges specified in Exhibit A to this Attachment and shall be billed in addition to any Call Transport and Termination charges.
- 4.10.1.5.4 To the extent PanAmerican Telecommunications, Inc. does not purchase MTA in a LATA served by multiple access tandems, PanAmerican Telecommunications, Inc. must establish an interconnection trunk group(s) to every access tandem in the LATA to serve the entire LATA. To the extent PanAmerican Telecommunications, Inc. routes its traffic in such a way that utilizes BellSouth's MTA service without properly ordering MTA, PanAmerican Telecommunications, Inc. shall pay BellSouth the associated MTA charges.

#### 4.10.2 **Local Tandem Interconnection**

- 4.10.2.1 Local Tandem Interconnection arrangement allows PanAmerican Telecommunications, Inc. to establish an interconnection trunk group(s) at BellSouth local tandems for: (1) the delivery of PanAmerican Telecommunications, Inc.-originated Local Traffic transported and terminated by BellSouth to BellSouth end offices served by those BellSouth local tandems, and (2) for local Transit Traffic transported by BellSouth for third party network providers who have also established an interconnection trunk group(s) at those BellSouth local tandems.
- 4.10.2.2 When a specified local calling area is served by more than one BellSouth local tandem, PanAmerican Telecommunications, Inc. must designate a "home" local tandem for each of its assigned NPA/NXXs and establish trunk connections to such local tandems. Additionally, PanAmerican Telecommunications, Inc. may choose to establish an interconnection trunk group(s) at the BellSouth local

tandems where it has no codes homing but is not required to do so. PanAmerican Telecommunications, Inc. may deliver Local Traffic to a "home" BellSouth local tandem that is destined for other BellSouth or third party network provider end offices subtending other BellSouth local tandems in the same local calling area where PanAmerican Telecommunications, Inc. does not choose to establish an interconnection trunk group(s). It is PanAmerican Telecommunications, Inc.'s responsibility to enter its own NPA/NXX local tandem homing arrangements into the LERG either directly or via a vendor in order for other third party network providers to determine appropriate traffic routing to PanAmerican Telecommunications, Inc.'s codes. Likewise, PanAmerican Telecommunications, Inc. shall obtain its routing information from the LERG.

- 4.10.2.3 Notwithstanding establishing an interconnection trunk group(s) to BellSouth's local tandems, PanAmerican Telecommunications, Inc. must also establish an interconnection trunk group(s) to BellSouth access tandems within the LATA on which PanAmerican Telecommunications, Inc. has NPA/NXXs homed for the delivery of Interexchange Carrier Switched Access (SWA) and toll traffic, and traffic to Type 2A CMRS connections located at the access tandems. BellSouth shall not switch SWA traffic through more than one BellSouth access tandem. SWA, Type 2A CMRS or toll traffic routed to the local tandem in error will not be backhauled to the BellSouth access tandem for completion. (Type 2A CMRS interconnection is defined in BellSouth's A35 General Subscriber Services Tariff).
- 4.10.2.4 BellSouth's provisioning of Local Tandem Interconnection assumes that PanAmerican Telecommunications, Inc. has executed the necessary local interconnection agreements with the other third party network providers subtending those local tandems as required by the Act.

## 4.10.3 **Direct End Office-to-End Office Interconnection**

- 4.10.3.1 Direct End Office-to-End Office one-way or two-way interconnection trunk groups allow for the delivery of a Party's originating Local Traffic and ISP-bound Traffic to the terminating Party on a direct end office-to-end office basis.
- 4.10.3.2 The Parties shall utilize direct end office-to-end office trunk groups under any one of the following conditions:
- 4.10.3.2.1 Tandem Exhaust If a tandem through which the Parties are interconnected is unable to, or is forecasted to be unable to support additional traffic loads for any period of time, the Parties will mutually agree on an end office trunking plan that will alleviate the tandem capacity shortage and ensure completion of traffic between PanAmerican Telecommunications, Inc. and BellSouth.
- 4.10.3.2.2 Traffic Volume –To the extent either Party has the capability to measure the amount of traffic between PanAmerican Telecommunications, Inc.'s switch and a BellSouth end office and where such traffic exceeds or is forecasted to exceed a

single DS1 of traffic per month, then the Parties shall install and retain direct end office trunking sufficient to handle such traffic volumes. Either Party will install additional capacity between such points when overflow traffic exceeds or is forecasted to exceed a single DS1 of traffic per month. In the case of one-way trunking, additional trunking shall only be required by the Party whose trunking has achieved the preceding usage threshold.

4.10.3.2.3 Mutual Agreement - The Parties may install direct end office trunking upon mutual agreement in the absence of conditions (1) or (2) above.

## 4.10.4 Transit Traffic Trunk Group

Transit Traffic trunks can either be two-way trunks or two one-way trunks ordered by PanAmerican Telecommunications, Inc. to deliver and receive Transit Traffic. Establishing Transit Traffic trunks at BellSouth access and local tandems provides intratandem access to the third parties also interconnected at those tandems.

#### 4.10.4.1 **Toll Free Traffic**

- 4.10.4.1.1 If PanAmerican Telecommunications, Inc. chooses BellSouth to perform the Service Switching Point ("SSP") Function (i.e., handle Toll Free database queries) from BellSouth's switches, all PanAmerican Telecommunications, Inc. originating Toll Free traffic will be routed over the Transit Traffic Trunk Group and shall be delivered using GR-394 format. Carrier Code "0110" and Circuit Code (to be determined for each LATA) shall be used for all such calls.
- 4.10.4.1.2 PanAmerican Telecommunications, Inc. may choose to perform its own Toll Free database queries from its switch. In such cases, PanAmerican Telecommunications, Inc. will determine the nature (local/intraLATA/interLATA) of the Toll Free call (local/IntraLATA/InterLATA) based on the response from the database. If the call is a BellSouth local or intraLATA Toll Free call, PanAmerican Telecommunications, Inc. will route the post-query local or IntraLATA converted ten-digit local number to BellSouth over the local or intraLATA trunk group. If the call is a third party (ICO, IXC, CMRS or other CLEC) local or intraLATA Toll Free call, PanAmerican Telecommunications, Inc. will route the post-query local or intraLATA converted ten-digit local number to BellSouth over the Transit Traffic Trunk Group and PanAmerican Telecommunications, Inc. shall provide to BellSouth a Toll Free billing record when appropriate. If the query reveals the call is an interLATA Toll Free call, PanAmerican Telecommunications, Inc. will route the post-query interLATA Toll Free call (1) directly from its switch for carriers interconnected with its network or (2) over the Transit Traffic Trunk Group to carriers that are not directly connected to PanAmerican Telecommunications. Inc.'s network but that are connected to BellSouth's access tandem.
- 4.10.5 All post-query Toll Free calls for which PanAmerican Telecommunications, Inc. performs the SSP function, if delivered to BellSouth, shall be delivered using GR-

394 format for calls destined to IXCs, and GR-317 format for calls destined to end offices that directly subtend a BellSouth access tandem within the LATA.

#### 5. NETWORK DESIGN AND MANAGEMENT FOR INTERCONNECTION

- 5.1 <u>Network Management and Changes</u>. The Parties will exchange toll-free maintenance contact numbers and escalation procedures. The Parties will provide public notice of network changes in accordance with applicable federal and state rules and regulations.
- Interconnection Technical Standards. The interconnection of all networks will be based upon accepted industry/national guidelines for transmission standards and traffic blocking criteria. Interconnecting facilities shall conform, at a minimum, to the telecommunications industry standard of DS-1 pursuant to Telcordia Standard No. TR-NWT-00499. Where PanAmerican Telecommunications, Inc. chooses to utilize Signaling System 7 signaling, also known as Common Channel Signaling ("SS7"), SS7 connectivity is required between the PanAmerican Telecommunications, Inc. switch and the BellSouth Signaling Transfer Point ("STP"). BellSouth will provide SS7 signaling using Common Channel Signaling Access Capability in accordance with the technical specifications set forth in the BellSouth Guidelines to Technical Publication, TR-TSV-000905. Facilities of each Party shall provide the necessary on-hook, off-hook answer and disconnect supervision and shall provide calling number ID (Calling Party Number) when technically feasible.
- Ouality of Interconnection. The local interconnection for the transmission and routing of telephone exchange service and exchange access that each Party provides to each other will be at least equal in quality to what it provides to itself and any subsidiary or affiliate, where technically feasible, or to any other Party to which each Party provides local interconnection.
- Network Management Controls. Both Parties will work cooperatively to apply sound network management principles by invoking appropriate network management controls (e.g., call gapping) to alleviate or prevent network congestion.
- SS7 Signaling. Both Parties will utilize LEC-to-LEC SS7 Signaling, where available, in conjunction with all traffic in order to enable full interoperability of CLASS features and functions except for call return. All SS7 signaling parameters will be provided, including but not limited to automatic number identification ("ANI"), originating line information ("OLI") calling company category and charge number. All privacy indicators will be honored, and the Parties will exchange Transactional Capabilities Application Part ("TCAP") messages to facilitate full interoperability of SS7-based features between the respective networks. Neither Party shall alter the SS7 parameters, or be a party to altering

such parameters, or knowingly pass SS7 parameters that have been altered in order to circumvent appropriate interconnection charges.

Signaling Call Information. BellSouth and PanAmerican Telecommunications, Inc. will send and receive 10 digits for Local Traffic. Additionally, BellSouth and PanAmerican Telecommunications, Inc. will exchange the proper call information, i.e. originated call company number and destination call company number, CIC, and OZZ, including all proper translations for routing between networks and any information necessary for billing.

# 5.7 Forecasting for Trunk Provisioning

- 5.7.1 Within six (6) months after execution of this Agreement, PanAmerican Telecommunications, Inc. shall provide an initial interconnection trunk group forecast for each LATA in which it plans to provide service within BellSouth's region. Upon receipt of PanAmerican Telecommunications, Inc.'s forecast, the Parties shall conduct a joint planning meeting to develop a joint interconnection trunk group forecast. Each forecast provided under this Section shall be deemed "Confidential Information" under the General Terms and Conditions of this Agreement.
- 5.7.1.1 At a minimum, the forecast shall include the projected quantity of Transit Trunks, PanAmerican Telecommunications, Inc.-to-BellSouth one-way trunks ("PanAmerican Telecommunications, Inc. Trunks"), BellSouth-to-PanAmerican Telecommunications, Inc. one-way trunks ("Reciprocal Trunks") and/or two-way interconnection trunks, if the Parties have agreed to interconnect using two-way trunking to transport the Parties' Local Traffic and IntraLATA Toll Traffic. The quantities shall be projected for a minimum of six months and shall include an estimate of the current year plus the next two years total forecasted quantities. The Parties shall mutually develop Reciprocal Trunk and/or two-way interconnection trunk forecast quantities.
- 5.7.1.2 All forecasts shall include, at a minimum, Access Carrier Terminal Location ("ACTL"), trunk group type (local/intraLATA toll, Transit, Operator Services, 911, etc.), A location/Z location (CLLI codes for PanAmerican Telecommunications, Inc. location and BellSouth location where the trunks shall terminate), interface type (e.g., DS1), Direction of Signaling, Trunk Group Number, if known, (commonly referred to as the 2-6 code) and forecasted trunks in service each year (cumulative).
- 5.7.2 Once initial interconnection trunk forecasts have been developed, PanAmerican Telecommunications, Inc. shall continue to provide interconnection trunk forecasts on a semiannual basis or at otherwise mutually agreeable intervals. PanAmerican Telecommunications, Inc. shall use its best efforts to make the forecasts as accurate as possible based on reasonable engineering criteria. The Parties shall

continue to develop Reciprocal Trunk and/or two-way interconnection trunk forecasts as described in Section 5.7.1.1.

5.7.3 The submitting and development of interconnection trunk forecasts shall not replace the ordering process for local interconnection trunks. Each Party shall exercise its best efforts to provide the quantity of interconnection trunks mutually forecasted. However, the provision of the forecasted quantity of interconnection trunks is subject to trunk terminations and facility capacity existing at the time the trunk order is submitted. Furthermore, the receipt and development of trunk forecasts does not imply any liability for failure to perform if capacity (trunk terminations or facilities) is not available for use at the forecasted time.

#### 5.8 Trunk Utilization

- BellSouth and PanAmerican Telecommunications, Inc. shall monitor traffic on each interconnection trunk group that is ordered and installed. The Parties agree that within 180 days of the installation of a trunk or trunks, the trunks will be utilized at 60 percent (60%) of the time consistent busy hour utilization level. The Parties agree that within 365 days of the installation of a trunk or trunks, the trunks will be utilized at eighty percent (80%) of the time consistent busy hour utilization level. Any trunk or trunks not meeting the minimum thresholds set forth in this Section are defined as "Under-utilized" trunks. BellSouth may disconnect any Under-utilized reciprocal trunk(s) and the Party whose trunks are disconnected shall refund to the other Party associated trunk and facility charges paid by such other Party, if any.
- 5.8.1.1 BellSouth's Local Interconnection Switching Center (LISC) will notify PanAmerican Telecommunications, Inc. of any under-utilized reciprocal trunk groups and the number of trunks that BellSouth wishes to disconnect. BellSouth will provide supporting information either by email or facsimile to the designated PanAmerican Telecommunications, Inc. interface. PanAmerican Telecommunications, Inc. will provide concurrence with the disconnection in seven (7) business days or will provide specific information supporting why the trunks should not be disconnected. Such supporting information should include expected traffic volumes (including traffic volumes generated due to Local Number Portability) and the timeframes within which PanAmerican Telecommunications, Inc. expects to need such trunks. BellSouth's LISC Project Manager and Circuit Capacity Manager will discuss the information with PanAmerican Telecommunications, Inc. to determine if agreement can be reached on the number of trunks to be removed. If no agreement can be reached, BellSouth will issue disconnect orders to PanAmerican Telecommunications, Inc.. The due date of these orders will be four weeks after PanAmerican Telecommunications. Inc. was first notified in writing of the underutilization of the trunk groups.

5.8.2 To the extent that any interconnection trunk group is utilized at a time-consistent busy hour of eighty percent (80%) or greater, the Parties shall negotiate in good faith for the installation of augmented facilities.

#### 6. LOCAL DIALING PARITY

BellSouth and PanAmerican Telecommunications, Inc. shall provide local and toll dialing parity, as defined in FCC rules and regulations, with no unreasonable dialing delays. Dialing parity shall be provided for all originating telecommunications services that require dialing to route a call.

#### 7. INTERCONNECTION COMPENSATION

- 7.1 Compensation for Call Transportation and Termination for Local Traffic and ISP-bound Traffic
- 7.1.1 For reciprocal compensation between the Parties pursuant to this Attachment, Local Traffic is defined as any circuit switched call that is originated by an end user of one Party and terminated to an end user of the other Party within a given LATA on that other Party's network, except for those calls that are originated or terminated through switched access arrangements as established by the ruling regulatory body.
- 7.1.1.1 Additionally, Local Traffic includes any cross boundary, voice-to-voice intrastate, interLATA or interstate, interLATA calls established as a local call by the ruling regulatory body.
- 7.1.2 ISP-bound Traffic is defined as calls to an information service provider or Internet service provider ("ISP") that are dialed by using a local dialing pattern (7 or 10 digits) by a calling party in one LATA to an ISP server or modem in the same LATA. ISP-bound Traffic is not Local Traffic subject to reciprocal compensation, but instead is information access traffic subject to the FCC's jurisdiction..
- 7.1.3 Notwithstanding the definitions of Local Traffic and ISP-bound traffic above, and pursuant to the FCC's Order on Remand and Report and Order in CC Docket 99-68 released April 27, 2001 ("ISP Order on Remand"), BellSouth and PanAmerican Telecommunications, Inc. agree to the rebuttable presumption that all combined circuit switched Local and ISP-bound Traffic delivered to BellSouth or PanAmerican Telecommunications, Inc. that exceeds a 3:1 ratio of terminating to originating traffic on a statewide basis shall be considered ISP-bound traffic for compensation purposes. BellSouth and PanAmerican Telecommunications, Inc. further agree to the rebuttable presumption that all combined circuit switched Local and ISP-bound Traffic delivered to BellSouth or PanAmerican Telecommunications, Inc. that does not exceed a 3:1 ratio of terminating to originating traffic on a statewide basis shall be considered Local Traffic for compensation purposes.

- 7.1.4 Neither Party shall pay compensation to the other Party for per minute of use rate elements associated with the Call Transport and Termination of Local Traffic or ISP-bound Traffic.
- 7.1.5 The appropriate elemental rates set forth in Exhibit A of this Attachment shall apply for Transit Traffic as described in Sections 7.6 and 7.6.1 below and to Multiple Tandem Access as described in Section 4.10.1.5 above.
- 7.1.6 Neither Party shall represent Switched Access Traffic as Local Traffic or ISP-bound Traffic for purposes of determining compensation for the call.
- 7.1.7 If PanAmerican Telecommunications, Inc. assigns NPA/NXXs to specific BellSouth rate centers within the LATA and assigns numbers from those NPA/NXXs to PanAmerican Telecommunications, Inc. end users physically located outside of that LATA, BellSouth traffic originating from within the LATA where the NPA/NXXs are assigned and delivered to a PanAmerican Telecommunications, Inc. customer physically located outside of such LATA, shall not be deemed Local Traffic. Further, PanAmerican Telecommunications, Inc. agrees to identify such interLATA traffic to BellSouth and to compensate BellSouth for originating and transporting such interLATA traffic to PanAmerican Telecommunications, Inc. at BellSouth's switched access tariff rates.
- 7.2 If PanAmerican Telecommunications, Inc. does not identify such interLATA traffic to BellSouth, to the best of BellSouth's ability BellSouth will determine which whole PanAmerican Telecommunications, Inc. NPA/NXXs on which to charge the applicable rates for originating network access service as reflected in BellSouth's Access Service Tariff. BellSouth shall make appropriate billing adjustments if PanAmerican Telecommunications, Inc. can provide sufficient information for BellSouth to determine whether or not said traffic is Local Traffic.

## 7.3 **Jurisdictional Reporting**

7.3.1 Percent Local Use. Each Party shall report to the other a Percent Local Usage ("PLU") factor. The application of the PLU will determine the amount of local minutes to be billed to the other Party. For purposes of developing the PLU, each Party shall consider every local call and every long distance call, excluding Transit Traffic. Each Party shall update its PLU on the first of January, April, July and October of the year and shall send it to the other Party to be received no later than 30 days after the first of each such month based on local usage for the past three months ending the last day of December, March, June and September, respectively. Requirements associated with PLU calculation and reporting shall be as set forth in BellSouth's Jurisdictional Factors Reporting Guide, as it is amended from time to time. Notwithstanding the foregoing, where the terminating Party has message recording technology that identifies the jurisdiction of traffic terminated as defined in this Agreement, such information, in lieu of the PLU factor, shall at

the terminating Party's option be utilized to determine the appropriate local usage compensation to be paid.

- 7.3.2 Percent Local Facility. Each Party shall report to the other a Percent Local Facility ("PLF") factor. The application of the PLF will determine the portion of switched dedicated transport to be billed per the local jurisdiction rates. The PLF shall be applied to Multiplexing, Local Channel and Interoffice Channel Switched Dedicated Transport utilized in the provision of local interconnection trunks. Each Party shall update its PLF on the first of January, April, July and October of the year and shall send it to the other Party to be received no later than 30 days after the first of each such month to be effective the first bill period the following month, respectively. Requirements associated with PLU and PLF calculation and reporting shall be as set forth in BellSouth's Jurisdictional Factors Reporting Guide, as it is amended from time to time.
- 7.3.3 **Percent Interstate Usage**. Each Party shall report to the other the projected Percent Interstate Usage ("PIU") factor. All jurisdictional report requirements, rules and regulations for Interexchange Carriers specified in BellSouth's Intrastate Access Services Tariff will apply to PanAmerican Telecommunications, Inc.. After interstate and intrastate traffic percentages have been determined by use of PIU procedures, the PLU and PLF factors will be used for application and billing of local interconnection. Each Party shall update its PIUs on the first of January, April, July and October of the year and shall send it to the other Party to be received no later than 30 days after the first of each such month, for all services showing the percentages of use (PIUs, PLU, and PLF) for the past three months ending the last day of December, March, June and September. Notwithstanding the foregoing, where the terminating Party has message recording technology that identifies the jurisdiction of traffic terminated as defined in this Agreement, such information, in lieu of the PIU and PLU factors, shall at the terminating Party's option be utilized to determine the appropriate local usage compensation to be paid.
- Notwithstanding the provisions in Section 7.3.1, 7.3.2, and 7.3.3 above, where the terminating Party has message recording technology that identifies the jurisdiction of traffic terminated as defined in this Agreement, such information shall, at the terminating Party's option, be utilized to determine the appropriate jurisdictional reporting factors (PLU, PIU, and/or PLF), in lieu of those provided by the originating Party. In the event that the terminating Party opts to utilize its own data to determine jurisdictional reporting factors, such terminating Party shall notify the originating Party at least 15 days prior to the beginning of the calendar quarter in which the terminating Party will begin to utilize its own data. Such factors shall subject to the Dispute Resolution provisions in this Agreement, as well as the Audit provisions set forth in 7.3.5 below.

Audits. On thirty (30) days written notice, each Party must provide the other the ability and opportunity to conduct an annual audit to ensure the proper billing of traffic. BellSouth and PanAmerican Telecommunications, Inc. shall retain records of call detail for a minimum of nine months from which the PLU, PLF and/or PIU can be ascertained. The audit shall be conducted during normal business hours at an office designated by the Party being audited. Audit requests shall not be submitted more frequently than one (1) time per calendar year. Audits shall be performed by a mutually acceptable independent auditor paid for by the Party requesting the audit. The PLF, PLU and/or PIU shall be adjusted based upon the audit results and shall apply for the quarter the audit was completed, for the quarter prior to the completion of the audit, and for the two quarters following the completion of the audit. If, as a result of an audit, either Party is found to have overstated the PLF, PLU and/or PIU by twenty percentage points (20%) or more, that Party shall reimburse the auditing Party for the cost of the audit.

## 7.4 Compensation for 8XX Traffic

- 7.4.1 Compensation for 8XX Traffic. Each Party shall pay the other the appropriate switched access charges set forth in the BellSouth intrastate or interstate switched access tariffs. PanAmerican Telecommunications, Inc. will pay BellSouth the database query charge as set forth in the BellSouth intrastate or interstate switched access tariffs as applicable.
- 7.4.2 Records for 8XX Billing. Each Party will provide to the other the appropriate records necessary for billing intraLATA 8XX customers. The records provided will be in a standard EMI format.
- 7.4.3 8XX Access Screening. BellSouth's provision of 8XX Toll Free Dialing ("TFD") to PanAmerican Telecommunications, Inc. requires interconnection from PanAmerican Telecommunications, Inc. to BellSouth's 8XX Signal Channel Point ("SCP"). Such interconnections shall be established pursuant to BellSouth's Common Channel Signaling Interconnection Guidelines and Telcordia's CCS Network Interface Specification document, TR-TSV-000905. PanAmerican Telecommunications, Inc. shall establish SSS7 interconnection at the BellSouth Local Signal Transfer Points serving the BellSouth 8XX SCPs that PanAmerican Telecommunications, Inc. desires to query. The terms and conditions for 8XX TFD are set out in BellSouth's Intrastate Access Services Tariff.

#### 7.5 Mutual Provision of Switched Access Service

7.5.1 Switched Access Traffic. Switched Access Traffic is described as telephone calls requiring local transmission or switching services for the purpose of the origination or termination of Telephone Toll Service. Switched Access Traffic includes, but is not limited to, the following types of traffic: Feature Group A, Feature Group B, Feature Group C, Feature Group D, toll free access (e.g., 8XX), 900 access and their successors. Additionally, any Public Switched Telephone Network

interexchange telecommunications traffic, regardless of transport protocol method, where the originating and terminating points, end-to-end points, are in different LATAs, or are in the same LATA and the Parties' Switched Access services are used for the origination or termination of the call, shall be considered Switched Access Traffic. Irrespective of transport protocol method used, a call which originates in one LATA and terminates in another LATA (i.e., the end-to-end points of the call) or in which the Parties' Switched Access Services are used for the origination or termination of the call, shall not be considered Local Traffic or ISP-bound Traffic.

- 7.5.2 If the BellSouth end user chooses PanAmerican Telecommunications, Inc. as their presubscribed interexchange carrier, or if the BellSouth end user uses PanAmerican Telecommunications, Inc. as an interexchange carrier on a 101XXXX basis, BellSouth will charge PanAmerican Telecommunications, Inc. the appropriate BellSouth tariff charges for originating switched access services.
- 7.5.3 Where the originating Party delivers a call to the terminating Party over switched access facilities, the originating Party will pay the terminating Party terminating, switched access charges as set forth in BellSouth's Intrastate or Interstate Access Services Tariff, as appropriate.
- When PanAmerican Telecommunications, Inc.'s end office switch provides an access service connection to or from an interexchange carrier ("IXC") by a direct trunk group to the IXC utilizing BellSouth facilities, each Party will provide its own access services to the IXC and bill on a multi-bill, multi-tariff meet-point basis. Each Party will bill its own access services rates to the IXC with the exception of the interconnection charge. The interconnection charge will be billed by <customer name> as the Party providing the end office function. Each party will use the Multiple Exchange Carrier Access Billing (MECAB) guidelines to establish meet point billing for all applicable traffic. The parties shall utilize a thirty (30) day billing period.
- 7.5.4.1 When <customer name>'s end office subtends the BellSouth Access Tandem switch for receipt or delivery of switched access traffic and provides an access service connection to or from an IXC via BellSouth's Access Tandem switch, BellSouth, as the tandem company agrees to provide to <customer name>, as the End Office Company, as defined in MECAB, at no charge, all the switched access detail usage data, recorded at the access tandem, within no more than sixty (60) days after the recording date. Each Party will notify the other when it is not feasible to meet these requirements. As business requirements change, data reporting requirements may be modified as necessary.
- 7.5.5 BellSouth, as the tandem provider company, will retain for a minimum period of sixty (60) days, access message detail sufficient to recreate any data that is lost or damaged by the tandem provider company or any third party involved in processing or transporting data.

- 7.5.6 BellSouth, as the tandem provider company, agrees to recreate the lost or damaged data within forty-eight (48) hours of notification by the other or by an authorized third party handling the data.
- 7.5.7 Any claims against BellSouth, as the tandem provider company, for unbillable or uncollectible revenue should be filed with the tandem provider company within 120 days of the usage date.
- 7.5.8 BellSouth, as the tandem provider company shall keep records of its billing activities relating to jointly-provided Intrastate and Interstate access services in sufficient detail to permit the Subsequent Billing Party to, by formal or informal review or audit, to verify the accuracy and reasonableness of the jointly-provided access billing data provided by the Initial Billing Party. Each Party agrees to cooperate in such formal or informal reviews or audits and further agrees to jointly review the findings of such reviews or audits in order to resolve any differences concerning the findings thereof.
- 7.5.9 PanAmerican Telecommunications, Inc. agrees not to deliver switched access traffic to BellSouth for termination except over PanAmerican Telecommunications, Inc. ordered switched access trunks and facilities.

#### 7.6 **Transit Traffic**

- Telecommunications, Inc.'s Transit Traffic. Rates for local Transit Traffic and ISP-bound Transit Traffic shall be the applicable Call Transport and Termination charges as set forth in Exhibit A to this Attachment. Rates for Switched Access Transit Traffic shall be the applicable charges as set forth in BellSouth Interstate or Intrastate Switched Access tariffs. Billing associated with all Transit Traffic shall be pursuant to MECAB guidelines. Traffic between PanAmerican Telecommunications, Inc. and Wireless Type 1 third parties shall not be treated as Transit Traffic from a routing or billing perspective. Traffic between PanAmerican Telecommunications, Inc. and Wireless Type 2A or a third party CLEC utilizing BellSouth switching shall not be treated as Transit Traffic from a routing or billing perspective until BellSouth and the Wireless carrier or a third party CLEC utilizing BellSouth switching have the capability to properly meet-point-bill in accordance with MECAB guidelines.
- 7.6.2 The delivery of traffic that transits the BellSouth network and is transported to another carrier's network is excluded from any BellSouth billing guarantees. BellSouth agrees to deliver Transit Traffic to the terminating carrier; provided, however, that PanAmerican Telecommunications, Inc. is solely responsible for negotiating and executing any appropriate contractual agreements with the terminating carrier for the exchange of Transit Traffic through the BellSouth network. BellSouth will not be liable for any compensation to the terminating carrier or to PanAmerican Telecommunications, Inc.. In the event that the

terminating third party carrier imposes on BellSouth any charges or costs for the delivery of Transit Traffic,PanAmerican Telecommunications, Inc. shall reimburse BellSouth for such costs. Additionally, the Parties agree that any billing to a third party or other telecommunications carrier under this section shall be pursuant to MECAB procedures.

#### 8. FRAME RELAY SERVICE INTERCONNECTION

- 8.1 In addition to the Local Interconnection services set forth above, BellSouth will offer a network to network Interconnection arrangement between BellSouth's and PanAmerican Telecommunications, Inc.'s frame relay switches as set forth below. The following provisions will apply only to Frame Relay Service and Exchange Access Frame Relay Service and Managed Shared Frame Relay Service in those states in which PanAmerican Telecommunications, Inc. is certified and providing Frame Relay Service as a Local Exchange Carrier and where traffic is being exchanged between PanAmerican Telecommunications, Inc. and BellSouth Frame Relay Switches in the same LATA.
- 8.2 The Parties agree to establish two-way Frame Relay facilities between their respective Frame Relay Switches to the mutually agreed upon Frame Relay Service point(s) of interconnection ("IP(s)") within the LATA. All IPs shall be within the same Frame Relay Network Serving Areas as defined in Section A40 of BellSouth's General Subscriber Service Tariff except as set forth in this Attachment.
- 8.3 Upon the request of either Party, such interconnection will be established where BellSouth and PanAmerican Telecommunications, Inc. have Frame Relay Switches in the same LATA. Where there are multiple Frame Relay switches in one central office, an interconnection with any one of the switches will be considered an interconnection with all of the switches at that central office for purposes of routing packet traffic.
- 8.4 The Parties agree to provision local and intraLATA Frame Relay Service and Exchange Access Frame Relay Service and Managed Shared Frame Relay Service (both intrastate and interstate) over Frame Relay interconnection facilities between the respective Frame Relay switches and the IPs.
- 8.5 The Parties agree to assess each other reciprocal charges for the facilities that each provides to the other according to the Percent Local Circuit Use Factor (PLCU), determined as follows:
- 8.5.1 If the data packets originate and terminate in locations in the same LATA, and are consistent with the local definitions of the Agreement, the traffic is considered local. Frame Relay framed packet data is transported within Virtual Circuits (VC). For the purposes of this Agreement, if all the data packets transported within a VC

- remain within the LATA, then consistent with the local definitions in this Agreement, the traffic on that VC is local ("Local VC").
- 8.5.2 If the originating and terminating locations of the two-way packet data traffic are not in the same LATA, the traffic on that VC is interLATA ("InterLATA VC").
- 8.5.3 The PLCU is determined by dividing the total number of Local VCs, by the total number of VCs on each Frame Relay facility. To facilitate implementation, PanAmerican Telecommunications, Inc. may determine its PLCU in aggregate, by dividing the total number of Local VCs in a given LATA by the total number VCs in that LATA. The Parties agree to renegotiate the method for determining PLCU, at BellSouth's request, and within 90 days, if BellSouth notifies PanAmerican Telecommunications, Inc. that it has found that this method does not adequately represent the PLCU.
- 8.5.4 If there are no VCs on a facility when it is billed, the PLCU will be zero.
- 8.5.5 BellSouth will provide the circuit between the Parties' respective Frame Relay Switches. The Parties will be compensated as follows: BellSouth will invoice, and PanAmerican Telecommunications, Inc. will pay, the total non-recurring and recurring charges for the circuit based upon the rates set forth in BellSouth's Interstate Access Tariff, FCC No. 1. PanAmerican Telecommunications, Inc. will then invoice, and BellSouth will pay, an amount calculated by multiplying the BellSouth billed charges for the circuit by one-half of PanAmerican Telecommunications, Inc.'s PLCU.
- The Parties agree to compensate each other for Frame Relay network-to-network interface (NNI) ports based upon the NNI rates set forth in BellSouth's Interstate Access Tariff, FCC No. 1 Compensation for each pair of NNI ports will be calculated as follows: BellSouth will invoice, and PanAmerican Telecommunications, Inc. will pay, the total non-recurring and recurring charges for the NNI port. PanAmerican Telecommunications, Inc. will then invoice, and BellSouth will pay, an amount calculated by multiplying the BellSouth billed non-recurring and recurring charges for the NNI port by PanAmerican Telecommunications, Inc.'s PLCU.
- 8.7 Each Party agrees that there will be no charges to the other Party for its own subscriber's Permanent Virtual Circuit (PVC) rate elements for the local PVC segment from its Frame Relay switch to its own subscriber's premises. PVC rate elements include the Data Link Connection Identifier (DLCI) and Committed Information Rate (CIR).
- 8.8 For the PVC segment between the PanAmerican Telecommunications, Inc. and BellSouth Frame Relay switches, compensation for the PVC charges is based upon the rates in BellSouth's Interstate Access Tariff, FCC No. 1.

- 8.9 Compensation for PVC rate elements will be calculated as follows:
- 8.9.1 If PanAmerican Telecommunications, Inc. orders a VC connection between a BellSouth subscriber's PVC segment and a PVC segment from the BellSouth Frame Relay switch to the PanAmerican Telecommunications, Inc. Frame Relay switch, BellSouth will invoice, and PanAmerican Telecommunications, Inc. will pay, the total non-recurring and recurring PVC charges for the PVC segment between the BellSouth and PanAmerican Telecommunications, Inc. Frame Relay switches. If the VC is a Local VC, PanAmerican Telecommunications, Inc. will then invoice and BellSouth will pay, the total nonrecurring and recurring PVC charges billed for that segment. If the VC is not local, no compensation will be paid to PanAmerican Telecommunications, Inc. for the PVC segment.
- 8.9.2 If BellSouth orders a Local VC connection between a PanAmerican Telecommunications, Inc. subscriber's PVC segment and a PVC segment from the PanAmerican Telecommunications, Inc. Frame Relay switch to the BellSouth Frame Relay switch, BellSouth will invoice, and PanAmerican Telecommunications, Inc. will pay, the total non-recurring and recurring PVC and CIR charges for the PVC segment between the BellSouth and PanAmerican Telecommunications, Inc. Frame Relay switches. If the VC is a Local VC, PanAmerican Telecommunications, Inc. will then invoice and BellSouth will pay the total non-recurring and recurring PVC and CIR charges billed for that segment. If the VC is not local, no compensation will be paid to PanAmerican Telecommunications, Inc. for the PVC segment.
- 8.9.3 The Parties agree to compensate each other for requests to change a PVC segment or PVC service order record, according to the Feature Change charge as set forth in the BellSouth access tariff BellSouth Tariff FCC No. 1.
- 8.9.4 If PanAmerican Telecommunications, Inc. requests a change, BellSouth will invoice and PanAmerican Telecommunications, Inc. will pay a Feature Change charge for each affected PVC segment.
- 8.9.4.1 If BellSouth requests a change to a Local VC, PanAmerican Telecommunications, Inc. will invoice and BellSouth will pay a Feature Change charge for each affected PVC segment.
- 8.9.5 The Parties agree to limit the sum of the CIR for the VCs on a DS1 NNI port to not more than three times the port speed, or not more than six times the port speed on a DS3 NNI port.
- 8.9.6 Except as expressly provided herein, this Agreement does not address or alter in any way either Party's provision of Exchange Access Frame Relay Service, Managed Shared Frame Relay Service or interLATA Frame Relay Service. All charges by each Party to the other for carriage of Exchange Access Frame Relay

Service or interLATA Frame Relay Service are included in the BellSouth access tariff BellSouth Tariff FCC No. 1.

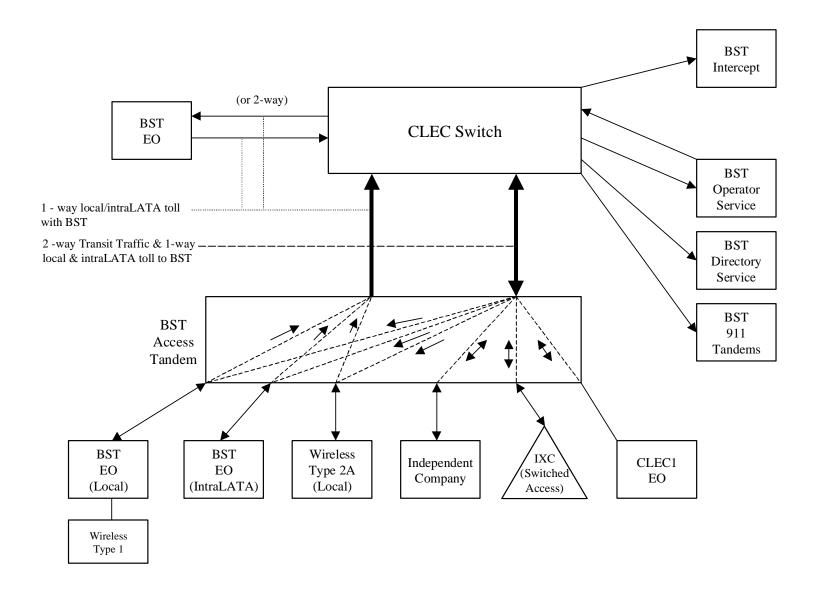

- 8.10 PanAmerican Telecommunications, Inc. will identify and report quarterly to BellSouth the PLCU of the Frame Relay facilities it uses, per Section 8.5.3 above.
- 8.11 Either Party may request a review or audit of the various service components, consistent with the provisions of section E2 of the BellSouth State Access Services tariffs or Section 2 of the BellSouth FCC No.1 Tariff.

# 9. OPERATIONAL SUPPORT SYSTEMS (OSS)

9.1 The terms, conditions and rates for OSS are as set forth in FCC Tariff for Access Service Records.

# **Attachment 4**

**Physical Collocation** 

#### **BELLSOUTH**

#### PHYSICAL COLLOCATION

### 1. Scope of Attachment

- 1.1 The rates, terms, and conditions contained within this Attachment shall only apply when PanAmerican Telecommunications, Inc. is physically collocated as a sole occupant or as a Host within a Premises location pursuant to this Attachment. BellSouth Premises include BellSouth Central Offices and Serving Wire Centers (hereinafter "Premises"). This Attachment is applicable to Premises owned or leased by BellSouth. However, if the Premises occupied by BellSouth is leased by BellSouth from a third party, special considerations and intervals may apply in addition to the terms and conditions of this Attachment.
- Right to Occupy. BellSouth shall offer to PanAmerican Telecommunications, Inc. collocation on rates, terms, and conditions that are just, reasonable, non-discriminatory and consistent with the rules of the Federal Communications Commission ("FCC"). Subject to the rates, terms and conditions of this Attachment where space is available and it is technically feasible, BellSouth will allow PanAmerican Telecommunications, Inc. to occupy that certain area designated by BellSouth within a BellSouth Premises, or on BellSouth property upon which the BellSouth Premises is located, of a size which is specified by PanAmerican Telecommunications, Inc. and agreed to by BellSouth (hereinafter "Collocation Space"). The necessary rates, terms and conditions for BellSouth locations other than BellSouth Premises shall be negotiated upon request for collocation at such location(s).
- 1.2.1 Neither BellSouth nor any of BellSouth's affiliates may reserve space for future use on more preferential terms than those set forth below.
- 1.2.1.1 In all states other than Florida, the size specified by PanAmerican Telecommunications, Inc. may contemplate a request for space sufficient to accommodate PanAmerican Telecommunications, Inc.'s growth within a two-year period.
- 1.2.1.2 In the state of Florida, the size specified by PanAmerican Telecommunications, Inc. may contemplate a request for space sufficient to accommodate PanAmerican Telecommunications, Inc.'s growth within an eighteen (18) month period.
- 1.3 Space Allocation. BellSouth shall attempt to accommodate <customer\_ name>'s requested preferences if any. In allocating Collocation Space, BellSouth shall not materially increase PanAmerican Telecommunications, Inc.'s cost or materially delay PanAmerican Telecommunications, Inc.'s occupation and use of the Collocation Space, shall not assign Collocation Space that will impair the quality of service or otherwise limit the service the PanAmerican Telecommunications, Inc. wishes to offer,

and shall not reduce unreasonably the total space available for physical collocation or preclude unreasonably physical collocation within the Premises. Space shall not be available for collocation if it is: (a) physically occupied by non-obsolete equipment; (b) assigned to another collocator; (c) used to provide physical access to occupied space; (d) used to enable technicians to work on equipment located within occupied space; (e) properly reserved for future use, either by BellSouth or by another carrier; or (f) essential for the administration and proper functioning of BellSouth's Premises. BellSouth may segregate collocation space and require separate entrances in accordance with FCC rules.

- 1.4 <u>Space Reclamation.</u> In the event of space exhaust within a Central Office Premises, BellSouth may include in its documentation for the Petition for Waiver filing any unutilized space in the Central Office Premises. PanAmerican Telecommunications, Inc. will be responsible for any justification of unutilized space within its space, if the appropriate state commission requires such justification.
- 1.5 <u>Use of Space</u>. PanAmerican Telecommunications, Inc. shall use the Collocation Space for the purposes of installing, maintaining and operating PanAmerican Telecommunications, Inc.'s equipment (to include testing and monitoring equipment) necessary for interconnection with BellSouth services and facilities or for accessing BellSouth unbundled network elements for the provision of telecommunications services, as specifically set forth in this Attachment. The Collocation Space may be used for no other purposes except as specifically described herein or in any amendment hereto.
- 1.6 <u>Rates and Charges</u>. PanAmerican Telecommunications, Inc. agrees to pay the rates and charges identified in Exhibit C attached hereto.
- 1.7 <u>Due Dates</u>. If any due date contained in this Attachment falls on a weekend or National holiday, then the due date will be the next business day thereafter.
- 1.8 The parties agree to comply with all applicable federal, state, county, local and administrative laws, rules, ordinances, regulations and codes in the performance of their obligations hereunder.

# 2. Space Availability Report

2.1 Space Availability Report. Upon request from PanAmerican Telecommunications, Inc., BellSouth will provide a written report ("Space Availability Report") describing in detail the space that is available for collocation and specifying the amount of Collocation Space available at the Premises requested, the number of collocators present at the Premises, any modifications in the use of the space since the last report on the Premises requested and the measures BellSouth is taking to make additional space available for collocation arrangements. A Space Availability Report does not reserve space at the Premises.

- 2.1.1 The request from PanAmerican Telecommunications, Inc. for a Space Availability Report must be written and must include the Premises street address, located in the Local Exchange Routing Guide and Common Language Location Identification ("CLLI") code of the Premises. CLLI code information is located in the National Exchange Carriers Association (NECA) Tariff FCC No. 4.
- 2.1.2 BellSouth will respond to a request for a Space Availability Report for a particular Premises within ten (10) calendar days of receipt of such request. BellSouth will make best efforts to respond in ten (10) calendar days to such a request when the request includes from two (2) to five (5) Premises within the same state. The response time for requests of more than five (5) Premises shall be negotiated between the Parties. If BellSouth cannot meet the ten calendar day response time, BellSouth shall notify PanAmerican Telecommunications, Inc. and inform PanAmerican Telecommunications, Inc. of the time frame under which it can respond.

## 3. Collocation Options

- 2.1 Cageless. BellSouth shall allow PanAmerican Telecommunications, Inc. to collocate PanAmerican Telecommunications, Inc.'s equipment and facilities without requiring the construction of a cage or similar structure. BellSouth shall allow PanAmerican Telecommunications, Inc. to have direct access to PanAmerican Telecommunications, Inc.'s equipment and facilities. BellSouth shall make cageless collocation available in single bay increments. Except where PanAmerican Telecommunications, Inc.'s equipment requires special technical considerations (e.g., special cable racking, isolated ground plane, etc.), BellSouth shall assign cageless Collocation Space in conventional equipment rack lineups where feasible. For equipment requiring special technical considerations, PanAmerican Telecommunications, Inc. must provide the equipment layout, including spatial dimensions for such equipment pursuant to generic requirements contained in Telcordia GR-63-Core, and shall be responsible for compliance with all special technical requirements associated with such equipment.
- 3.2 <u>Caged.</u> At PanAmerican Telecommunications, Inc.'s expense, PanAmerican Telecommunications, Inc. may arrange with a Supplier certified by BellSouth ("Certified Supplier") to construct a collocation arrangement enclosure in accordance with BellSouth's guidelines and specifications prior to starting equipment installation. BellSouth will provide guidelines and specifications upon request. Where local building codes require enclosure specifications more stringent than BellSouth's standard enclosure specification, PanAmerican Telecommunications, Inc. and PanAmerican Telecommunications, Inc.'s Certified Supplier must comply with the more stringent local building code requirements. PanAmerican Telecommunications, Inc.'s Certified Supplier shall be responsible for filing and receiving any and all necessary permits and/or licenses for such construction. BellSouth shall cooperate with PanAmerican Telecommunications, Inc. and provide, at PanAmerican Telecommunications, Inc.'s expense, the documentation, including existing building

architectural drawings, enclosure drawings, and specifications required and necessary for PanAmerican Telecommunications, Inc. to obtain the zoning, permits and/or other licenses. PanAmerican Telecommunications, Inc. 's Certified Supplier shall bill PanAmerican Telecommunications, Inc. directly for all work performed for PanAmerican Telecommunications, Inc. pursuant to this Attachment and BellSouth shall have no liability for nor responsibility to pay such charges imposed by the PanAmerican Telecommunications, Inc.'s Certified Supplier. PanAmerican Telecommunications, Inc. must provide the local BellSouth building contact with two Access Keys used to enter the locked enclosure. Except in case of emergency, BellSouth will not access PanAmerican Telecommunications, Inc.'s locked enclosure prior to notifying PanAmerican Telecommunications, Inc.. Upon request, BellSouth shall construct the enclosure for PanAmerican Telecommunications, Inc..

- 3.2.1 BellSouth may elect to review PanAmerican Telecommunications, Inc.'s plans and specifications prior to allowing construction to start to ensure compliance with BellSouth's guidelines and specifications. Notification to PanAmerican Telecommunications, Inc. indicating BellSouth's desire to execute this review will be provided in BellSouth's response to the Initial Application, if PanAmerican Telecommunications, Inc. has indicated their desire to construct their own enclosure. If PanAmerican Telecommunications, Inc.'s Initial Application does not indicate their desire to construct their own enclosure, but their subsequent firm order does indicate their desire to construct their own enclosure, then notification to review will be given within ten (10) calendar days after the Firm Order date. . BellSouth shall complete its review within fifteen (15) calendar days after the receipt of the plans and specifications. Regardless of whether or not BellSouth elects to review PanAmerican Telecommunications, Inc.'s plans and specifications, BellSouth reserves the right to inspect the enclosure after construction to make sure it is constructed according to the submitted plans and specifications and/or BellSouth's guidelines and specifications, as applicable. BellSouth shall require PanAmerican Telecommunications, Inc. to remove or correct within seven (7) calendar days at PanAmerican Telecommunications, Inc.'s expense any structure that does not meet these plans and specifications or, where applicable, BellSouth guidelines and specifications.
- 3.3 Shared (Subleased) Caged Collocation. PanAmerican Telecommunications, Inc. may allow other telecommunications carriers to share PanAmerican Telecommunications, Inc.'s caged collocation arrangement pursuant to terms and conditions agreed to by PanAmerican Telecommunications, Inc. ("Host") and other telecommunications carriers ("Guests") and pursuant to this section, except where the BellSouth Premises is located within a leased space and BellSouth is prohibited by said lease from offering such an option. PanAmerican Telecommunications, Inc. shall notify BellSouth in writing upon execution of any agreement between the Host and its Guest within ten (10) calendar days of its execution and prior to any Firm Order. Further, such notice shall include the name of the Guest(s) and the term of the agreement, and shall contain a certification by PanAmerican Telecommunications, Inc. that said agreement imposes

upon the Guest(s) the same terms and conditions for Collocation Space as set forth in this Attachment between BellSouth and PanAmerican Telecommunications, Inc..

- 3.3.1 PanAmerican Telecommunications, Inc., as the Host shall be the sole interface and responsible Party to BellSouth for the assessment and billing of rates and charges contained within this Attachment and for the purposes of ensuring that the safety and security requirements of this Attachment are fully complied with by the Guest, its employees and agents. BellSouth shall provide PanAmerican Telecommunications, Inc. with a proration of the costs of the collocation space based on the number of collocators and the space used by each. In all states other than Florida, and in addition to the foregoing, PanAmerican Telecommunications, Inc. shall be the responsible party to BellSouth for the purpose of submitting Applications for initial and additional equipment placement of Guest. In Florida the Guest may directly submit initial and additional equipment placement applications using the Host's access carrier name abbreviation (ACNA). A separate Guest application shall require the assessment of an Initial or Subsequent Application Fee, as set forth in Exhibit C. Notwithstanding the foregoing, Guest may arrange directly with BellSouth for the provision of the interconnecting facilities between BellSouth and Guest and for the provision of the services and access to unbundled network elements.
- 3.3.2 PanAmerican Telecommunications, Inc. shall indemnify and hold harmless BellSouth from any and all claims, actions, causes of action, of whatever kind or nature arising out of the presence of PanAmerican Telecommunications, Inc.'s Guests in the Collocation Space except to the extent caused by BellSouth's sole negligence, gross negligence, or willful misconduct.
- Adjacent Collocation. Subject to technical feasibility and space availability, BellSouth will permit adjacent collocation arrangements ("Adjacent Arrangement") on the Premises' property where physical collocation space within the Premises is legitimately exhausted, where the Adjacent Arrangement does not interfere with access to existing or planned structures or facilities on the Premises property. The Adjacent Arrangement shall be constructed or procured by PanAmerican Telecommunications, Inc. and in conformance with BellSouth's design and construction specifications. Further, PanAmerican Telecommunications, Inc. shall construct, procure, maintain and operate said Adjacent Arrangement(s) pursuant to all of the rates, terms and conditions set forth in this Attachment.
- 3.4.1 Should PanAmerican Telecommunications, Inc. elect such option, PanAmerican Telecommunications, Inc. must arrange with a Certified Supplier to construct an Adjacent Arrangement structure in accordance with BellSouth's guidelines and specifications. BellSouth will provide guidelines and specifications upon request. Where local building codes require enclosure specifications more stringent than BellSouth's standard specification, PanAmerican Telecommunications, Inc. and PanAmerican Telecommunications, Inc.'s Certified Supplier must comply with the more stringent local building code requirements. PanAmerican Telecommunications,

Inc.'s Certified Supplier shall be responsible for filing and receiving any and all necessary zoning, permits and/or licenses for such construction. PanAmerican Telecommunications, Inc.'s Certified Supplier shall bill PanAmerican Telecommunications, Inc. directly for all work performed for PanAmerican Telecommunications, Inc. pursuant to this Attachment and BellSouth shall have no liability for nor responsibility to pay such charges imposed by PanAmerican Telecommunications, Inc.'s Certified Supplier. PanAmerican Telecommunications, Inc. must provide the local BellSouth building contact with two cards, keys or other access device used to enter the locked enclosure. Except in cases of emergency, BellSouth shall not access PanAmerican Telecommunications, Inc.'s locked enclosure prior to notifying PanAmerican Telecommunications, Inc.

- 3.4.2 PanAmerican Telecommunications, Inc. must submit its plans and specifications to BellSouth with its Firm Order. BellSouth shall review PanAmerican Telecommunications, Inc.'s plans and specifications prior to construction of an Adjacent Arrangement(s) to ensure compliance with BellSouth's guidelines and specifications. BellSouth shall complete its review within fifteen (15) calendar days after receipt of plans and specifications. BellSouth will have the right to inspect the Adjacent Arrangement during and after construction to make sure it is constructed according to the submitted plans and specifications. BellSouth shall require PanAmerican Telecommunications, Inc. to remove or correct within seven (7) calendar days at PanAmerican Telecommunications, Inc.'s expense any structure that does not meet these plans and specifications or, where applicable, BellSouth's guidelines and specifications.
- 3.4.3 PanAmerican Telecommunications, Inc. shall provide a concrete pad, the structure housing the arrangement, heating/ventilation/air conditioning ("HVAC"), lighting, and all facilities that connect the structure (i.e. racking, conduits, etc.) to the BellSouth point of demarcation. At PanAmerican Telecommunications, Inc.'s option, and where the local authority having jurisdiction permits, BellSouth shall provide an AC power source and access to physical collocation services and facilities subject to the same nondiscriminatory requirements as applicable to any other physical collocation arrangement. In Louisiana, BellSouth will provide DC power to Adjacent Collocation sites where technically feasible, as that term has been defined by the FCC. PanAmerican Telecommunications, Inc.'s Certified Supplier shall be responsible, at PanAmerican Telecommunications, Inc.'s expense, for filing and receiving any and all necessary zoning, permits and/or licenses for such arrangement. BellSouth shall allow Shared (Subleased) Caged Collocation within an Adjacent Arrangement pursuant to the terms and conditions set forth herein.
- 3.5 <u>Co-carrier cross-connect (CCXC)</u>. The primary purpose of collocating CLEC equipment is to interconnect with BellSouth's network or access BellSouth's unbundled network elements for the provision of telecommunications services. BellSouth will permit PanAmerican Telecommunications, Inc. to interconnect between its virtual or physical collocation arrangements and those of another collocated CLEC whose Agreement contains co-carrier cross-connect language. At no point in time

- shall PanAmerican Telecommunications, Inc. use the Collocation Space for the sole or primary purpose of cross-connecting to other CLECs.
- 3.5.1 The CCXC, shall be provisioned through facilities owned by PanAmerican Telecommunications, Inc.. Such connections to other carriers may be made using either optical or electrical facilities. PanAmerican Telecommunications, Inc. may deploy such optical or electrical connections directly between its own facilities and the facilities of other CLEC(s) without being routed through BellSouth equipment. PanAmerican Telecommunications, Inc. may not self provision CCXC on any BellSouth distribution frame, Pot Bay, DSX or LGX. PanAmerican Telecommunications, Inc. is responsible for ensuring the integrity of the signal.
- 3.5.2 PanAmerican Telecommunications, Inc. shall be responsible for obtaining authorization from the other CLEC(s) involved. PanAmerican Telecommunications, Inc. must use a BellSouth Certified Supplier to place the CCXC. There will be a recurring charge per linear foot of common cable support structure used. PanAmerican Telecommunications, Inc.-provisioned CCXC shall utilize common cable support structure. In the case of two contiguous collocation arrangements, PanAmerican Telecommunications, Inc. may have the option of constructing its own dedicated support structure.

## 4. Occupancy

- 4.1 Occupancy. BellSouth will notify PanAmerican Telecommunications, Inc. in writing that the Collocation Space is ready for occupancy ("Space Ready Date"). PanAmerican Telecommunications, Inc. will schedule and complete an acceptance walkthrough of each Collocation Space with BellSouth within fifteen (15) days of BellSouth's notifying PanAmerican Telecommunications, Inc. that the collocation space is ready for occupancy. In the event that PanAmerican Telecommunications, Inc. fails to complete an acceptance walkthrough within this fifteen (15) day interval, the Collocation Space shall be deemed accepted by PanAmerican Telecommunications, Inc. and billing will commence on the sixteenth day after BellSouth releases the collocation space. PanAmerican Telecommunications, Inc. must notify BellSouth in writing that collocation equipment installation is complete and is operational with BellSouth's network. BellSouth may, at its option, not accept orders for cross connects until receipt of such notice. For purposes of this paragraph, PanAmerican Telecommunications, Inc.'s telecommunications equipment will be deemed operational when cross-connected to BellSouth's network for the purpose of service provision.
- 4.2 <u>Termination of Occupancy</u>. In addition to any other provisions addressing termination of occupancy in this Attachment, PanAmerican Telecommunications, Inc. may terminate occupancy in a particular Collocation Space by submitting a Subsequent Application requesting termination of occupancy. A Subsequent Application Fee will not apply for termination of occupancy. BellSouth may terminate PanAmerican Telecommunications, Inc.'s right to occupy the Collocation Space in the event

PanAmerican Telecommunications, Inc. fails to comply with any provision of this Agreement.

4.2.1 Upon termination of occupancy, PanAmerican Telecommunications, Inc. at its expense shall remove its equipment and other property from the Collocation Space. PanAmerican Telecommunications, Inc. shall have thirty (30) calendar days from the termination date to complete such removal, including the removal of all equipment and facilities of PanAmerican Telecommunications, Inc.'s Guests, unless PanAmerican Telecommunications, Inc.'s Guest has assumed responsibility for the collocation space housing the Guest's equipment and executed the documentation required by BellSouth prior to such removal date. PanAmerican Telecommunications, Inc. shall continue payment of monthly fees to BellSouth until such date as PanAmerican Telecommunications, Inc., and if applicable PanAmerican Telecommunications, Inc.'s Guest, has fully vacated the Collocation Space and the Space Relinquish Form has been accepted by BellSouth.. Should PanAmerican Telecommunications, Inc. or PanAmerican Telecommunications, Inc.'s Guest fail to vacate the Collocation Space within thirty (30) calendar days from the termination date, BellSouth shall have the right to remove the equipment and other property of PanAmerican Telecommunications, Inc. or PanAmerican Telecommunications, Inc.'s Guest at PanAmerican Telecommunications, Inc.'s expense and with no liability for damage or injury to PanAmerican Telecommunications, Inc. or PanAmerican Telecommunications, Inc.'s Guest's property unless caused by the gross negligence or intentional misconduct of BellSouth. Upon termination of PanAmerican Telecommunications, Inc.'s right to occupy Collocation Space, PanAmerican Telecommunications, Inc. shall surrender such Collocation Space to BellSouth in the same condition as when first occupied by PanAmerican Telecommunications, Inc. except for ordinary wear and tear, unless otherwise agreed to by the Parties. PanAmerican Telecommunications, Inc. or PanAmerican Telecommunications, Inc.'s BellSouth Certified Supplier shall be responsible for updating and making any necessary changes to BellSouth's records as required by BellSouth's guidelines and specifications including but not limited to Central Office Record Drawings and ERMA Records. PanAmerican Telecommunications, Inc. shall be responsible for the cost of removing any enclosure, together with all support structures (e.g., racking, conduits, power cables, etc.), at the termination of occupancy and restoring the grounds to their original condition.

#### 5. Use of Collocation Space

5.1 Equipment Type. BellSouth permits the collocation of any type of equipment necessary for interconnection to BellSouth's network or for access to BellSouth's unbundled network elements in the provision of telecommunications services, as the term "necessary" is defined by FCC 47 C.F.R. Section 51.323 (b). The primary purpose and function of any equipment collocated in a Premises must be for interconnection to BellSouth's network or for access to BellSouth's unbundled network elements in the provision of telecommunications services.

- 5.1.1 Examples of equipment that would not be considered necessary include but are not limited to: Traditional circuit switching equipment, equipment used exclusively for call-related databases, computer servers used exclusively for providing information services, operations support system (OSS) equipment used to support CLEC network operations, equipment that generates customer orders, manages trouble tickets or inventory, or stores customer records in centralized databases, etc. BellSouth will determine upon receipt of an application if the requested equipment is necessary based on the criteria established by the FCC. Multifunctional equipment placed on BellSouth's Premises must not place any greater relative burden on BellSouth's property than comparable single-function equipment. BellSouth reserves the right to permit collocation of any equipment on a nondiscriminatory basis.
- Such equipment must at a minimum meet the following BellCore (Telcordia) Network Equipment Building Systems (NEBS) General Equipment Requirements: Criteria Level 1 requirements as outlined in the BellCore (Telcordia) Special Report SR-3580, Issue 1; equipment design spatial requirements per GR-63-CORE, Section 2; thermal heat dissipation per GR-063-CORE, Section 4, Criteria 77-79; acoustic noise per GR-063-CORE, Section 4, Criterion 128, and National Electric Code standards. Except where otherwise required by a Commission, BellSouth shall comply with the applicable FCC rules relating to denial of collocation based on PanAmerican Telecommunications, Inc.'s failure to comply with this section.
- 5.1.3 PanAmerican Telecommunications, Inc. shall not request more DS0, DS1, DS3 and optical terminations for a collocation arrangement than the total port or termination capacity of the equipment physically installed in the arrangement. The total capacity of the equipment collocated in the arrangement will include equipment contained in the application in question as well as equipment already placed in the arrangement. If full network termination capacity of the equipment being installed is not requested in the application, additional network terminations for the installed equipment will require the submission of another application. In the event that PanAmerican Telecommunications, Inc. submits an application for terminations that exceed the total capacity of the collocated equipment, PanAmerican Telecommunications, Inc. will be informed of the discrepancy and will be required to submit a revision to the application.
- 5.2 PanAmerican Telecommunications, Inc. shall not use the Collocation Space for marketing purposes nor shall it place any identifying signs or markings outside the Collocation Space or on the grounds of the Premises.
- PanAmerican Telecommunications, Inc. shall place a plaque or other identification affixed to PanAmerican Telecommunications, Inc.'s equipment necessary to identify PanAmerican Telecommunications, Inc.'s equipment, including a list of emergency contacts with telephone numbers.

- 5.4 Entrance Facilities. PanAmerican Telecommunications, Inc. may elect to place PanAmerican Telecommunications, Inc.-owned or PanAmerican Telecommunications, Inc.-leased fiber entrance facilities into the Collocation Space. BellSouth will designate the point of interconnection in close proximity to the Premises building housing the Collocation Space, such as an entrance manhole or a cable vault, which are physically accessible by both Parties. PanAmerican Telecommunications, Inc. will provide and place fiber cable at the point of entrance of sufficient length to be pulled through conduit and into the splice location. PanAmerican Telecommunications, Inc. will provide and install a sufficient length of fire retardant riser cable, to which the entrance cable will be spliced by BellSouth, which will extend from the splice location to PanAmerican Telecommunications, Inc.'s equipment in the Collocation Space. In the event PanAmerican Telecommunications, Inc. utilizes a non-metallic, riser-type entrance facility, a splice will not be required. PanAmerican Telecommunications, Inc. must contact BellSouth for instructions prior to placing the entrance facility cable in the manhole. PanAmerican Telecommunications, Inc. is responsible for maintenance of the entrance facilities. At PanAmerican Telecommunications, Inc.'s option BellSouth will accommodate where technically feasible a microwave entrance facility pursuant to separately negotiated terms and conditions. In the case of adjacent collocation, unless BellSouth determines that limited space is available for the entrance facilities, copper facilities may be used between the adjacent collocation arrangement and the central office demarcation point.
- Dual Entrance. BellSouth will provide at least two interconnection points at each Premises where there are at least two such interconnection points available and where capacity exists. Upon receipt of a request for physical collocation under this Attachment, BellSouth shall provide PanAmerican Telecommunications, Inc. with information regarding BellSouth's capacity to accommodate dual entrance facilities. If conduit in the serving manhole(s) is available and is not reserved for another purpose for utilization within 12 months of the receipt of an application for collocation, BellSouth will make the requested conduit space available for installing a second entrance facility to PanAmerican Telecommunications, Inc.'s arrangement. The location of the serving manhole(s) will be determined at the sole discretion of BellSouth. Where dual entrance is not available due to lack of capacity, BellSouth will so state in the Application Response.
- Shared Use. PanAmerican Telecommunications, Inc. may utilize spare capacity on an existing interconnector entrance facility for the purpose of providing an entrance facility to PanAmerican Telecommunications, Inc.'s collocation arrangement within the same BellSouth Premises. BellSouth shall allow the splice, provided that the fiber is non-working fiber. PanAmerican Telecommunications, Inc. must arrange with BellSouth for BellSouth to splice the PanAmerican Telecommunications, Inc. provided riser cable to the spare capacity on the entrance facility. The rates set forth in Exhibit C will apply. If PanAmerican Telecommunications, Inc. PanAmerican Telecommunications, Inc. desires to allow another CLEC to use its entrance facilities,

additional rates, terms and conditions will apply and shall be negotiated between the parties.

- 5.5 Demarcation Point. BellSouth will designate the point(s) of demarcation between PanAmerican Telecommunications, Inc.'s equipment and/or network and BellSouth's network. Each Party will be responsible for maintenance and operation of all equipment/facilities on its side of the demarcation point. For 2-wire and 4-wire connections to BellSouth's network, the demarcation point shall be a common block on the BellSouth designated conventional distributing frame (CDF). PanAmerican Telecommunications, Inc. shall be responsible for providing, and a supplier certified by BellSouth ("Certified Supplier") shall be responsible for installing and properly labeling/stenciling, the common block, and necessary cabling pursuant to Section 6. For all other terminations BellSouth shall designate a demarcation point on a per arrangement basis. PanAmerican Telecommunications, Inc. or its agent must perform all required maintenance to equipment/facilities on its side of the demarcation point, pursuant to Section 5.6, following, and may self-provision cross-connects that may be required within the Collocation Space to activate service requests. At PanAmerican Telecommunications, Inc.'s option and expense, a Point of Termination ("POT") bay or frame may be placed in the Collocation Space, but will not serve as the demarcation point. PanAmerican Telecommunications, Inc. must make arrangements with a Certified Supplier for such placement.
- 5.5.1 In Tennessee, BellSouth will designate the point(s) of demarcation between PanAmerican Telecommunications, Inc.'s equipment and/or network and BellSouth's network. Each Party will be responsible for maintenance and operation of all equipment/facilities on its side of the demarcation point. For connections to BellSouth's network, the demarcation point shall be a PanAmerican Telecommunications, Inc. provided Point of Termination Bay (POT Bay) in a common area within the Premises. PanAmerican Telecommunications, Inc. shall be responsible for providing, and a supplier certified by BellSouth ("PanAmerican Telecommunications, Inc.'s Certified Supplier") shall be responsible for installing and properly labeling, the POT Bay as well as the necessary cabling between PanAmerican Telecommunications, Inc.'s collocation space and the demarcation point. PanAmerican Telecommunications, Inc. or its agent must perform all required maintenance to equipment/facilities on its side of the demarcation point, pursuant to Section 5.6, following, and may self-provision cross-connects that may be required within the Collocation Space to activate service requests. BellSouth will negotiate alternative rates, terms and conditions related to the demarcation point in Tennessee in the event that PanAmerican Telecommunications, Inc. desires to avoid the use of an intermediary device as contemplated by the Tennessee Regulatory Authority.
- 5.6 <u>PanAmerican Telecommunications, Inc.'s Equipment and Facilities.</u> PanAmerican Telecommunications, Inc., or if required by this Attachment, PanAmerican Telecommunications, Inc.'s Certified Supplier, is solely responsible for the design, engineering, installation, testing, provisioning, performance, monitoring, maintenance Version 4Q01: 12/01/01

and repair of the equipment and facilities used by PanAmerican Telecommunications, Inc. which must be performed in compliance with all applicable BellSouth policies and guidelines. Such equipment and facilities may include but are not limited to cable(s), equipment, and point of termination connections. PanAmerican Telecommunications, Inc. and its selected Certified Supplier must follow and comply with all BellSouth requirements outlined in BellSouth's TR 73503, TR 73519, TR 73572, and TR 73564.

- BellSouth's Access to Collocation Space. From time to time BellSouth may require access to the Collocation Space. BellSouth retains the right to access such space for the purpose of making BellSouth equipment and building modifications (e.g., running, altering or removing racking, ducts, electrical wiring, HVAC, and cables). BellSouth will give notice to PanAmerican Telecommunications, Inc. at least 48 hours before access to the Collocation Space is required. PanAmerican Telecommunications, Inc. may elect to be present whenever BellSouth performs work in the Collocation Space. The Parties agree that PanAmerican Telecommunications, Inc. will not bear any of the expense associated with this work.
- 5.8 Access. Pursuant to Section 11, PanAmerican Telecommunications, Inc. shall have access to the Collocation Space twenty-four (24) hours a day, seven (7) days a week. PanAmerican Telecommunications, Inc. agrees to provide the name and social security number or date of birth or driver's license number of each employee, contractor, or agents of PanAmerican Telecommunications, Inc. or PanAmerican Telecommunications, Inc.'s Guests provided with access keys or devices ("Access Keys") prior to the issuance of said Access Keys. Key acknowledgement forms must be signed by PanAmerican Telecommunications, Inc. and returned to BellSouth Access Management within 15 calendar days of PanAmerican Telecommunications, Inc.'s receipt. Failure to return properly acknowledged forms will result in the holding of subsequent requests until acknowledgements are current. Access Keys shall not be duplicated under any circumstances. PanAmerican Telecommunications, Inc. agrees to be responsible for all Access Keys and for the return of all said Access Keys in the possession of PanAmerican Telecommunications, Inc. employees, contractors, Guests, or agents after termination of the employment relationship, contractual obligation with PanAmerican Telecommunications, Inc. or upon the termination of this Attachment or the termination of occupancy of an individual collocation arrangement.
- 5.8.1 BellSouth will permit one accompanied site visit to PanAmerican Telecommunications, Inc.'s designated collocation arrangement location after receipt of the Bona Fide Firm Order without charge to PanAmerican Telecommunications, Inc.. PanAmerican Telecommunications, Inc. must submit to BellSouth the completed Access Control Request Form for all employees or agents requiring access to the BellSouth Premises a minimum of 30 calendar days prior to the date PanAmerican Telecommunications, Inc. desires access to the Collocation Space. In order to permit reasonable access during construction of the Collocation Space, PanAmerican Telecommunications, Inc. may submit such a request at any time subsequent to BellSouth's receipt of the Bona Fide Firm Order. In the event PanAmerican Telecommunications, Inc. desires access to the Collocation Space after submitting such a request but prior to access being approved,

in addition to the first accompanied free visit, BellSouth shall permit PanAmerican Telecommunications, Inc. to access the Collocation Space accompanied by a security escort at PanAmerican Telecommunications, Inc.'s expense. PanAmerican Telecommunications, Inc. must request escorted access at least three (3) business days prior to the date such access is desired.

- 5.9 <u>Lost or Stolen Access Keys</u>. PanAmerican Telecommunications, Inc. shall notify BellSouth in writing within 24 hours of becoming aware in the case of lost or stolen Access Keys. Should it become necessary for BellSouth to re-key buildings or deactivate a card as a result of a lost Access Key(s) or for failure to return an Access Key(s), PanAmerican Telecommunications, Inc. shall pay for all reasonable costs associated with the re-keying or deactivating the card.
- 5.10 Interference or Impairment. Notwithstanding any other provisions of this Attachment, PanAmerican Telecommunications, Inc. shall not use any product or service provided under this Agreement, any other service related thereto or used in combination therewith, or place or use any equipment or facilities in any manner that 1) significantly degrades, interferes with or impairs service provided by BellSouth or by any other entity or any person's use of its telecommunications service; 2) endangers or damages the equipment, facilities or other property of BellSouth or of any other entity or person; 3) compromises the privacy of any communications; or 4) creates an unreasonable risk of injury or death to any individual or to the public. If BellSouth reasonably determines that any equipment or facilities of PanAmerican Telecommunications, Inc. violates the provisions of this paragraph, BellSouth shall give written notice to PanAmerican Telecommunications, Inc., which notice shall direct PanAmerican Telecommunications, Inc. to cure the violation within forty-eight (48) hours of PanAmerican Telecommunications, Inc.'s actual receipt of written notice or, at a minimum, to commence curative measures within 24 hours and to exercise reasonable diligence to complete such measures as soon as possible thereafter. After receipt of the notice, the Parties agree to consult immediately and, if necessary, to inspect the arrangement.
- 5.10.1 Except in the case of the deployment of an advanced service which significantly degrades the performance of other advanced services or traditional voice band services, if PanAmerican Telecommunications, Inc. fails to take curative action within 48 hours or if the violation is of a character which poses an immediate and substantial threat of damage to property, injury or death to any person, or any other significant degradation, interference or impairment of BellSouth's or another entity's service, then and only in that event BellSouth may take such action as it deems appropriate to correct the violation, including without limitation the interruption of electrical power to PanAmerican Telecommunications, Inc.'s equipment. BellSouth will endeavor, but is not required, to provide notice to PanAmerican Telecommunications, Inc. prior to taking such action and shall have no liability to PanAmerican Telecommunications, Inc. for any damages arising from such action, except to the extent that such action by BellSouth constitutes willful misconduct.

- 5.10.2 For purposes of this Section, the term significantly degrade shall mean an action that noticeably impairs a service from a user's perspective. In the case of the deployment of an advanced service which significantly degrades the performance of other advanced services or traditional voice band services and PanAmerican Telecommunications, Inc. fails to take curative action within 48 hours then BellSouth will establish before the relevant Commission that the technology deployment is causing the significant degradation. Any claims of network harm presented to PanAmerican Telecommunications, Inc. or, if subsequently necessary, the relevant Commission must be supported with specific and verifiable information. Where BellSouth demonstrates that a deployed technology is significantly degrading the performance of other advanced services or traditional voice band services, PanAmerican Telecommunications, Inc. shall discontinue deployment of that technology and migrate its customers to technologies that will not significantly degrade the performance of other such services. Where the only degraded service itself is a known disturber, and the newly deployed technology satisfies at least one of the criteria for a presumption that is acceptable for deployment under section 47 C.F.R. 51.230, the degraded service shall not prevail against the newly-deployed technology.
- 5.11 Personalty and its Removal. Facilities and equipment placed by PanAmerican Telecommunications, Inc. in the Collocation Space shall not become a part of the Collocation Space, even if nailed, screwed or otherwise fastened to the Collocation Space, but shall retain their status as personal property and may be removed by PanAmerican Telecommunications, Inc. at any time. Any damage caused to the Collocation Space by PanAmerican Telecommunications, Inc.'s employees, agents or representatives during the removal of such property shall be promptly repaired by PanAmerican Telecommunications, Inc. at its expense.
- Alterations. In no case shall PanAmerican Telecommunications, Inc. or any person acting on behalf of PanAmerican Telecommunications, Inc. make any rearrangement, modification, improvement, addition, or other alteration which could affect in any way space, power, HVAC, and/or safety considerations to the Collocation Space or the BellSouth Premises without the written consent of BellSouth, which consent shall not be unreasonably withheld. The cost of any such specialized alterations shall be paid by PanAmerican Telecommunications, Inc.. Any such material rearrangement, modification, improvement, addition, or other alteration shall require a Subsequent Application and Subsequent Application Fee.
- Janitorial Service. PanAmerican Telecommunications, Inc. shall be responsible for the general upkeep of the Collocation Space. PanAmerican Telecommunications, Inc. shall arrange directly with a BellSouth Certified Supplier for janitorial services applicable to Caged Collocation Space. BellSouth shall provide a list of such suppliers on a site-specific basis upon request.

#### 6. Ordering and Preparation of Collocation Space

- Should any state or federal regulatory agency impose procedures or intervals applicable to PanAmerican Telecommunications, Inc. that are different from procedures or intervals set forth in this section, whether now in effect or that become effective after execution of this Agreement, those procedures or intervals shall supersede the requirements set forth herein for that jurisdiction for all applications submitted for the first time after the effective date thereof.
- 6.2 <u>Initial Application</u>. For PanAmerican Telecommunications, Inc. or PanAmerican Telecommunications, Inc.'s Guest(s) initial equipment placement, PanAmerican Telecommunications, Inc. shall submit to BellSouth a Physical Expanded Interconnection Application Document ("Application"). The Application is Bona Fide when it is complete and accurate, meaning that all required fields on the application are completed with the appropriate type of information. An application fee will apply.
- Subsequent Application. In the event PanAmerican Telecommunications, Inc. or PanAmerican Telecommunications, Inc.'s Guest(s) desires to modify the use of the Collocation Space after Bona Fide Firm Order, PanAmerican Telecommunications, Inc. shall complete an Application detailing all information regarding the modification to the Collocation Space ("Subsequent Application"). BellSouth shall determine what modifications, if any, to the Premises are required to accommodate the change requested by PanAmerican Telecommunications, Inc. in the Application. Such necessary modifications to the Premises may include, but are not limited to, floor loading changes, changes necessary to meet HVAC requirements, changes to power plant requirements, equipment additions, etc.
- 6.3.1 Subsequent Application Fee. The application fee paid by PanAmerican Telecommunications, Inc. for its request to modify the use of the Collocation Space shall be dependent upon the level of assessment needed for the modification requested. Where the Subsequent Application does not require assessment for provisioning or construction work by BellSouth, no Subsequent Application fee will be required. The fee for a Subsequent Application where the modification requested has limited effect (e.g., requires limited assessment and no capital expenditure by BellSouth) shall be the Subsequent Application Fee as set forth in Exhibit C. If the modification requires capital expenditure assessment, a full Application Fee shall apply. The Subsequent Application is Bona Fide when it is complete and accurate, meaning that all required fields on the Application are completed with the appropriate type of information.
- 6.4 <u>Space Preferences</u>. If PanAmerican Telecommunications, Inc. has previously requested and received a Space Availability Report for the Premises, PanAmerican Telecommunications, Inc. may submit up to three (3) space preferences on their application identifying specific space identification numbers as referenced on the Space Availability Report. In the event that BellSouth can not accommodate the PanAmerican Telecommunications, Inc.'s preference(s), PanAmerican Telecommunications, Inc. may elect to accept the space allocated by BellSouth or may

cancel its application and submit another application requesting additional preferences, which will be treated as a new application and an application fee will apply.

- 6.5 <u>Space Availability Notification.</u>
- Unless otherwise specified, BellSouth will respond to an application within ten (10) calendar days as to whether space is available or not available within a BellSouth Premises. BellSouth will also respond as to whether the Application is Bona Fide and if it is not Bona Fide the items necessary to cause the Application to become Bona Fide. If the amount of space requested is not available, BellSouth will notify PanAmerican Telecommunications, Inc. of the amount of space that is available and no Application Fee shall apply. When BellSouth's response includes an amount of space less than that requested by PanAmerican Telecommunications, Inc., or differently configured, PanAmerican Telecommunications, Inc. must resubmit its Application to reflect the actual space available.
- BellSouth will respond to a Florida Application within fifteen (15) calendar days as to whether space is available or not available within a BellSouth Premises. BellSouth will also respond as to whether the Application is Bona Fide and if it is not Bona Fide the items necessary to cause the Application to become Bona Fide. If a lesser amount of space than requested is available, BellSouth will provide an Application Response for the amount of space that is available and an Application Fee will be assessed. When BellSouth's Application Response includes an amount of space less than that requested by PanAmerican Telecommunications, Inc. or differently configured, PanAmerican Telecommunications, Inc. must amend its Application to reflect the actual space available prior to submitting Bona Fide Firm Order.
- 6.5.3 BellSouth will respond to a Louisiana Application within ten (10) calendar days for space availability for one (1) to ten (10) Applications; fifteen (15) calendar days for eleven (11) to twenty (20) Applications; and for more than twenty (20) Applications, it is increased by five (5) calendar days for every five additional Applications received within five (5) business days. If the amount of space requested is not available, BellSouth will notify PanAmerican Telecommunications, Inc. of the amount of space that is available and no Application Fee shall apply. When BellSouth's response includes an amount of space less than that requested by PanAmerican Telecommunications, Inc. or differently configured, PanAmerican Telecommunications, Inc. must resubmit its Application to reflect the actual space available. BellSouth will also respond as to whether the Application is Bona Fide and if it is not Bona Fide the items necessary to cause the Application to become Bona Fide.
- 6.6 <u>Denial of Application</u>. If BellSouth notifies PanAmerican Telecommunications, Inc. that no space is available ("Denial of Application"), BellSouth will not assess an Application Fee. After notifying PanAmerican Telecommunications, Inc. that BellSouth has no available space in the requested Premises, BellSouth will allow PanAmerican Telecommunications, Inc., upon request, to tour the entire Premises

within ten (10) calendar days of such Denial of Application. In order to schedule said tour within ten (10) calendar days, the request for a tour of the Premises must be received by BellSouth within five (5) calendar days of the Denial of Application.

- 6.7 <u>Filing of Petition for Waiver</u>. Upon Denial of Application BellSouth will timely file a petition with the Commission pursuant to 47 U.S.C. § 251(c)(6). BellSouth shall provide to the Commission any information requested by that Commission. Such information shall include which space, if any, BellSouth or any of BellSouth's affiliates have reserved for future use and a detailed description of the specific future uses for which the space has been reserved. Subject to an appropriate nondisclosure agreement or provision, BellSouth shall permit PanAmerican Telecommunications, Inc. to inspect any floor plans or diagrams that BellSouth provides to the Commission.
- Maiting List. On a first-come, first-served basis governed by the date of receipt of an Application or Letter of Intent, BellSouth will maintain a waiting list of requesting carriers who have either received a Denial of Application or, where it is publicly known that the Premises is out of space, have submitted a Letter of Intent to collocate. BellSouth will notify the telecommunications carriers on the waiting list that can be accommodated by the amount of space that becomes available according to the position of the telecommunications carriers on said waiting list.
- 6.8.1 In Florida, on a first-come, first-served basis governed by the date of receipt of an Application or Letter of Intent, BellSouth will maintain a waiting list of requesting carriers who have either received a Denial of Application or, where it is publicly known that the Premises is out of space, have submitted a Letter of Intent to collocate. Sixty (60) days prior to space becoming available, if known, BellSouth will notify the Florida PSC and the telecommunications carriers on the waiting list by mail when space becomes available according to the position of telecommunications carrier on said waiting list. If not known sixty (60) days in advance, BellSouth shall notify the Florida PSC and the telecommunications carriers on the waiting list within two days of the determination that space is available. A CLEC that, upon denial of physical collocation, requests virtual collocation shall be automatically placed on the waiting list.
- When space becomes available, PanAmerican Telecommunications, Inc. must submit an updated, complete, and correct Application to BellSouth within 30 calendar days of such notification. If PanAmerican Telecommunications, Inc. has originally requested caged collocation space and cageless collocation space becomes available, PanAmerican Telecommunications, Inc. may refuse such space and notify BellSouth in writing within that time that PanAmerican Telecommunications, Inc. wants to maintain its place on the waiting list without accepting such space. PanAmerican Telecommunications, Inc. may accept an amount of space less than its original request by submitting an Application as set forth above, and upon request, may maintain its position on the waiting list for the remaining space that was initially requested. If PanAmerican Telecommunications, Inc. does not submit such an Application or notify BellSouth in writing as described above, BellSouth will offer such space to the next

CLEC on the waiting list and remove PanAmerican Telecommunications, Inc. from the waiting list. Upon request, BellSouth will advise PanAmerican Telecommunications, Inc. as to its position on the list.

- 6.9 <u>Public Notification</u>. BellSouth will maintain on its Interconnection Services website a notification document that will indicate all Central Offices that are without available space. BellSouth shall update such document within ten (10) calendar days of the date BellSouth becomes aware that there is insufficient space to accommodate physical collocation. BellSouth will also post a document on its Interconnection Services website that contains a general notice where space has become available in a Central Office previously on the space exhaust list.
- 6.10 <u>Application Response.</u>
- 6.10.1 In Alabama, Kentucky and North Carolina, when space has been determined to be available, BellSouth will provide a written response ("Application Response") within twenty-three (23) business days of the receipt of a Bona Fide Application, which will include, at a minimum, the configuration of the space, the Cable Installation Fee, Cable Records Fee, and the space preparation fees, as described in Section 8.
- 6.10.2 In South Carolina and Mississippi, BellSouth will provide a written response ("Application Response") within thirty (30) calendar days of receipt of a Bona Fide Application. The Application Response will include, at a minimum, the configuration of the space, the Cable Installation Fee, Cable Records Fee, and the space preparation fees, as described in Section 8. When multiple applications are submitted in a state within a fifteen (15) calendar day window, BellSouth will respond to the Bona Fide Applications as soon as possible, but no later than the following: within thirty (30) calendar days for Bona Fide Applications one (1) to five (5); within thirty-six (36) calendar days for Bona Fide Applications six (6) to ten (10); within forty-two (42) calendar days for Bona Fide Applications eleven (11) to fifteen (15). Response intervals for multiple Bona Fide Applications submitted within the same timeframe for the same state in excess of fifteen (15) must be negotiated. All negotiations shall consider the total volume from all requests from telecommunications companies for collocation.
- 6.10.3 In Tennessee, BellSouth will provide a written response ("Application Response") within thirty (30) calendar days of receipt of a Bona Fide Application. The Application Response will include, at a minimum, the configuration of the space, the Cable Installation Fee, Cable Records Fee, and the space preparation fees, as described in Section 8.
- 6.10.4 In Florida, within fifteen (15) calendar days of receipt of a Bona Fide Application, when space has been determined to be available or when a lesser amount of space than that requested is available, then with respect to the space available, BellSouth will provide a written response ("Application Response") including sufficient information to enable PanAmerican Telecommunications, Inc. to place a Firm Order. The

Application Response will include, at a minimum, the configuration of the space, the Cable Installation Fee, Cable Records Fee, and the space preparation fees, as described in Section 8. When PanAmerican Telecommunications, Inc. submits ten (10) or more Applications within ten (10) calendar days, the initial fifteen (15) day response period will increase by ten (10) days for every additional ten (10) Applications or fraction thereof.

- 6.10.5 In Georgia, when space has been determined to be available for caged or cageless arrangements, BellSouth will provide a written response ("Application Response") within twenty (20) calendar days of receipt of a Bona Fide Application. The Application Response will include, at a minimum, the configuration of the space, the Cable Installation Fee, Cable Records Fee, and the space preparation fees, as described in Section 8.
- 6.10.6 In Louisiana, when space has been determined to be available, BellSouth will provide a written response ("Application Response") within thirty (30) calendar days for one (1) to ten (10) Applications; thirty-five (35) calendar days for eleven (11) to twenty (20) Applications; and for requests of more than twenty (20) Application it is increased by five (5) calendar days for every five (5) Applications received within five (5) business days. The Application Response will include, at a minimum, the configuration of the space, the Cable Installation Fee, Cable Records Fee, and the space preparation fees, as described in Section 8.

## 6.11 Application Modifications.

6.11.1 If a modification or revision is made to any information in the Bona Fide Application prior to Bona Fide Firm Order, with the exception of modifications to Customer Information, Contact Information or Billing Contact Information, either at the request of PanAmerican Telecommunications, Inc. or necessitated by technical considerations, said Application shall be considered a new Application and shall be handled as a new Application with respect to response and provisioning intervals and BellSouth may charge PanAmerican Telecommunications, Inc. an application fee. Where the Application Modification does not require assessment for provisioning or construction work by BellSouth, no application fee will be required. The fee for an Application Modification where the modification requested has limited effect (e.g., requires limited assessment and no capital expenditure by BellSouth) shall be the Subsequent Application Fee as set forth in Exhibit C. Major changes such as requesting additional space or adding equipment may require PanAmerican Telecommunications, Inc. to submit the Application with an Application Fee.

#### 6.12 Bona Fide Firm Order.

6.12.1 In Alabama, Kentucky, North Carolina, and Tennessee, PanAmerican Telecommunications, Inc. shall indicate its intent to proceed with equipment installation in a BellSouth Premises by submitting a Physical Expanded Interconnection Firm Order document ("Firm Order") to BellSouth. A Firm Order shall be considered Version 4Q01: 12/01/01 Bona Fide when PanAmerican Telecommunications, Inc. has completed the Application/Inquiry process described in Section 6, preceding, and has submitted the Firm Order document indicating acceptance of the Application Response provided by BellSouth. The Bona Fide Firm Order must be received by BellSouth no later than five (5) business days after BellSouth's Application Response to PanAmerican Telecommunications, Inc.'s Bona Fide Application.

- 6.12.2 Except as otherwise provided, in all States that have ordered provisioning intervals but not addressed Firm Order intervals, the following shall apply. PanAmerican Telecommunications, Inc. shall indicate its intent to proceed with equipment installation in a BellSouth Premises by submitting a Firm Order to BellSouth. The Bona Fide Firm Order must be received by BellSouth no later than thirty (30) calendar days after BellSouth's Application Response to PanAmerican Telecommunications, Inc.'s Bona Fide Application or the Application will expire.
- BellSouth will establish a firm order date based upon the date BellSouth is in receipt of a Bona Fide Firm Order. BellSouth will acknowledge the receipt of PanAmerican Telecommunications, Inc.'s Bona Fide Firm Order within seven (7) calendar days of receipt indicating that the Bona Fide Firm Order has been received. A BellSouth response to a Bona Fide Firm Order will include a Firm Order Confirmation containing the firm order date. No revisions will be made to a Bona Fide Firm Order.

# 7. <u>Construction and Provisioning</u>

## 7.1 <u>Construction and Provisioning Intervals</u>

In Alabama (Caged Only), Kentucky, and North Carolina, BellSouth will complete 7.1.1 construction for collocation arrangements within seventy-six (76) business days from receipt of an Application or as agreed to by the Parties. Under extraordinary conditions, BellSouth will complete construction for collocation arrangements within ninety-one (91) business days. Examples of extraordinary conditions include, but are not limited to, extended license or permitting intervals; major BellSouth equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. In the event PanAmerican Telecommunications, Inc. submits a forecast as described in the following section three (3) months or more prior to the application date, the above intervals shall apply. In the event PanAmerican Telecommunications, Inc. submits such a forecast between two (2) months and three (3) months prior to the application date, the above intervals may be extended by one (1) additional month. In the event PanAmerican Telecommunications, Inc. submits such a forecast less than two (2) months prior to the application date, the above intervals may be extended by sixty (60) calendar days. BellSouth will attempt to meet standard intervals for unforecasted requests and any interval adjustments will be discussed with PanAmerican Telecommunications, Inc. at the time the application is

received. Raw space, which is space lacking the necessary infrastructure to provide collocation space including but not limited to HVAC, Power, etc.), conversion time frames fall outside the normal intervals and are negotiated on an individual case basis. Additionally, installations to existing collocation arrangements for line sharing or line splitting, which include adding cable, adding cable and splitter, and adding a splitter, will be forty five (45) business days from receipt of an Application.

- 7.1.1.1 To be considered a timely and accurate forecast, PanAmerican Telecommunications, Inc. must submit to BellSouth the CLEC Forecast Form, as set forth in exhibit B attached hereto, containing the following information: Central Office/Serving Wire Center CLLI, number of Caged square feet and/or Cageless bays, number of DS0, DS1, DS3 frame terminations, number of fused amps and planned application date.
- In Alabama (Cageless), BellSouth will complete construction for cageless collocation arrangements under ordinary conditions as soon as possible and within a maximum of sixty (60) calendar days from receipt of a Bona Fide Firm Order and ninety (90) calendar days for extraordinary conditions or as agreed to by the Parties. Ordinary conditions are defined as space available with only minor changes to support systems required, such as but not limited to, HVAC, cabling and the power plant(s). Extraordinary conditions are defined to include but are not limited to major BellSouth equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission.
- 7.1.3 In Florida, BellSouth will complete construction for collocation arrangements as soon as possible and within a maximum of ninety (90) calendar days from receipt of a Bona Fide Firm Order or as agreed to by the Parties. For changes to collocation space after initial space completion ("Augmentation"), BellSouth will complete construction for collocation arrangements as soon as possible and within a maximum of forty-five (45) calendar days from receipt of a Bona Fide Firm Order or as agreed to by the Parties. If BellSouth does not believe that construction will be completed within the relevant time frame and BellSouth and PanAmerican Telecommunications, Inc. cannot agree upon a completion date, within forty-five (45) calendar days of receipt of the Bona Fide Firm Order for an initial request, and within thirty (30) calendar days for Augmentations, BellSouth may seek an extension from the Florida PSC.
- 7.1.4 In Georgia, BellSouth will complete construction for caged collocation arrangements under ordinary conditions as soon as possible and within a maximum of ninety (90) calendar days from receipt of a Bona Fide Firm Order or as agreed to by the Parties. BellSouth will complete construction for cageless collocation arrangements under ordinary conditions as soon as possible and within a maximum of sixty (60) calendar days from receipt of a Bona Fide Firm Order and ninety (90) calendar days for extraordinary conditions or as agreed to by the Parties. Ordinary conditions are

defined as space available with only minor changes to support systems required, such as but not limited to, HVAC, cabling and the power plant(s). Extraordinary conditions are defined to include but are not limited to major BellSouth equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission.

- 7.1.5 In Louisiana, BellSouth will complete construction for collocation arrangements under ordinary conditions as soon as possible and within a maximum of ninety (90) calendar days for caged and sixty (60) calendar days for cageless from receipt of a Bona Fide Firm Order for an initial request, and within sixty (60) calendar days for an Augmentation, or as agreed to by the Parties. Ordinary conditions are defined as space available with only minor changes to support systems required, such as but not limited to, HVAC, cabling and the power plant(s). BellSouth will complete construction of all other Collocation Space ("extraordinary conditions") within one hundred twenty (120) calendar days for caged and ninety (90) calendar days for cageless from the receipt of a Bona Fide Firm Order. Examples of extraordinary conditions include but are not limited to, extended license or permitting intervals; major BellSouth equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission.
- 7.1.6 In Mississippi, excluding the time interval required to secure the appropriate government licenses and permits, BellSouth will complete construction for collocation arrangements under ordinary conditions as soon as possible and within a maximum of ninety (90) calendar days from receipt of a Bona Fide Firm Order or as agreed to by the Parties. Ordinary conditions are defined as space available with only minor changes to support systems required, such as but not limited to, HVAC, cabling and the power plant(s). Excluding the time interval required to secure the appropriate government licenses and permits, BellSouth will complete construction of all other Collocation Space ("extraordinary conditions") within one hundred twenty (120) calendar days of the receipt of a Bona Fide Firm Order. Examples of extraordinary conditions include but are not limited to, extended license or permitting intervals; major BellSouth equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission.

- 7.1.7 In South Carolina, BellSouth will complete the construction and provisioning activities for cageless and caged collocation arrangements as soon as possible, but no later than ninety (90) calendar days from receipt of a bona fide firm order. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission.
- 7.1.8 In Tennessee, BellSouth will complete construction for collocation arrangements under Ordinary Conditions as follows: (i) for caged collocation arrangements, within a maximum of 90 calendar days from receipt of an Bona Fide Firm Order, or as agreed to by the Parties: (ii) for cageless collocation arrangements, within 30 calendar days from receipt of a Bona Fide Firm Order when there is conditioned space and PanAmerican Telecommunications, Inc. installs the bays/racks. In no event shall the provisioning interval for cageless collocation exceed 90 calendar days from the receipt of a Bona Fide Firm Order, or as agreed to by the parties. Under extraordinary conditions, BellSouth may elect to renegotiate an alternative provisioning interval with PanAmerican Telecommunications, Inc. or seek a waiver from this interval from the Commission. For the purpose of defining conditioned space as referenced in the TRA order setting intervals for cageless collocation in Tennessee, conditioned space is defined as follows: i) floor space must be available; ii) floor space must be equipped with adequate air conditioning to accommodate equipment listed on application; iii) Cable racking, any fiber duct, riser cable support structure and power cable support structure must be in place to support equipment listed on the application; and iv) power plant capacity at BDFB or main power board must be available. If LGX or DGX equipment is requested on the application and adequate existing capacity is not available then conditioned is considered unavailable. If BellSouth is required by the application to place power cabling, conditioned space is considered unavailable.
- 7.2 <u>Joint Planning</u>. Joint planning between BellSouth and PanAmerican Telecommunications, Inc. will commence within a maximum of twenty (20) calendar days from BellSouth's receipt of a Bona Fide Firm Order. BellSouth will provide the preliminary design of the Collocation Space and the equipment configuration requirements as reflected in the Bona Fide Application and affirmed in the Bona Fide Firm Order. The Collocation Space completion time period will be provided to PanAmerican Telecommunications, Inc. during joint planning.
- 7.3 Permits. Each Party or its agents will diligently pursue filing for the permits required for the scope of work to be performed by that Party or its agents within ten (10) calendar days of the completion of finalized construction designs and specifications.
- Acceptance Walk Through. PanAmerican Telecommunications, Inc. will schedule and complete an acceptance walkthrough of each Collocation Space with BellSouth within fifteen (15) days of BellSouth's notifying PanAmerican Telecommunications, Inc. that the collocation space is ready for occupancy. In the event that PanAmerican Telecommunications, Inc. fails to complete an acceptance walkthrough within this fifteen (15) day interval, the Collocation Space shall be deemed accepted by PanAmerican Telecommunications, Inc.. BellSouth will correct any deviations to

PanAmerican Telecommunications, Inc.'s original or jointly amended requirements within seven (7) calendar days after the walk through, unless the Parties jointly agree upon a different time frame.

- Use of BellSouth Certified Supplier. PanAmerican Telecommunications, Inc. shall 7.5 select a supplier which has been approved as a BellSouth Certified Supplier to perform all engineering and installation work. PanAmerican Telecommunications, Inc. and PanAmerican Telecommunications, Inc.'s BellSouth Certified Supplier must follow and comply with all BellSouth requirements outlined in BellSouth's TR 73503, TR 73519, TR 73572, and TR 73564. In some cases, PanAmerican Telecommunications, Inc. must select separate BellSouth Certified Suppliers for transmission equipment, switching equipment and power equipment. BellSouth shall provide PanAmerican Telecommunications, Inc. with a list of BellSouth Certified Suppliers upon request. The BellSouth Certified Supplier(s) shall be responsible for installing PanAmerican Telecommunications, Inc.'s equipment and components, extending power cabling to the BellSouth power distribution frame, performing operational tests after installation is complete, and notifying BellSouth's equipment engineers and PanAmerican Telecommunications, Inc. upon successful completion of installation, etc. The BellSouth Certified Supplier shall bill PanAmerican Telecommunications, Inc. directly for all work performed for PanAmerican Telecommunications, Inc. pursuant to this Attachment and BellSouth shall have no liability for nor responsibility to pay such charges imposed by the BellSouth Certified Supplier. BellSouth shall consider certifying PanAmerican Telecommunications, Inc. or any supplier proposed by PanAmerican Telecommunications, Inc.. All work performed by or for PanAmerican Telecommunications, Inc. shall conform to generally accepted industry guidelines and standards.
- Alarm and Monitoring. BellSouth shall place environmental alarms in the Premises for the protection of BellSouth equipment and facilities. PanAmerican Telecommunications, Inc. shall be responsible for placement, monitoring and removal of environmental and equipment alarms used to service PanAmerican Telecommunications, Inc.'s Collocation Space. Upon request, BellSouth will provide PanAmerican Telecommunications, Inc. with applicable tariffed service(s) to facilitate remote monitoring of collocated equipment by PanAmerican Telecommunications, Inc.. Both Parties shall use best efforts to notify the other of any verified environmental condition known to that Party.
- 7.7 <u>Virtual to Physical Collocation Relocation</u>. In the event physical collocation space was previously denied at a location due to technical reasons or space limitations, and physical collocation space has subsequently become available, PanAmerican Telecommunications, Inc. may relocate its virtual collocation arrangements to physical collocation arrangements and pay the appropriate fees for physical collocation and for the rearrangement or reconfiguration of services terminated in the virtual collocation arrangement, as outlined in the appropriate BellSouth tariffs. In the event that BellSouth knows when additional space for physical collocation may become available at the location requested by PanAmerican Telecommunications, Inc., such information

will be provided to PanAmerican Telecommunications, Inc. in BellSouth's written denial of physical collocation. To the extent that (i) physical Collocation Space becomes available to PanAmerican Telecommunications, Inc. within 180 calendar days of BellSouth's written denial of PanAmerican Telecommunications, Inc.'s request for physical collocation, (ii) BellSouth had knowledge that the space was going to become available, and (iii) PanAmerican Telecommunications, Inc. was not informed in the written denial that physical Collocation Space would become available within such 180 calendar days, then PanAmerican Telecommunications, Inc. may relocate its virtual collocation arrangement to a physical collocation arrangement and will receive a credit for any nonrecurring charges previously paid for such virtual collocation. PanAmerican Telecommunications, Inc. must arrange with a BellSouth Certified Supplier for the relocation of equipment from its virtual Collocation Space to its physical Collocation Space and will bear the cost of such relocation.

- Virtual to Physical Conversion (In Place). Virtual collocation arrangements may be converted to "in-place" physical arrangements if the potential conversion meets the following four criteria: 1) there is no change in the amount of equipment or the configuration of the equipment that was in the virtual collocation arrangement; 2) the conversion of the virtual collocation arrangement will not cause the equipment or the results of that conversion to be located in a space that BellSouth has reserved for its own future needs; 3) the converted arrangement does not limit BellSouth's ability to secure its own equipment and facilities due to the location of the virtual collocation arrangement; and 4) any changes to the arrangement can be accommodated by existing power, HVAC, and other requirements. The application fee for the conversion from virtual to in-place, physical collocation is as set forth in Exhibit C. Unless otherwise specified, BellSouth will complete virtual to in-place physical collocation conversions within sixty (60) calendar days.
- 7.8.1 In Florida, for Virtual to Physical conversions in place that require no physical changes, the only applicable charges shall cover the administrative billing and engineering records updates.
- 7.8.2 In Tennessee, BellSouth will complete Virtual to Physical conversions in place within thirty (30) calendar days.
- 7.9 <u>Cancellation</u>. If, at anytime prior to space acceptance, PanAmerican Telecommunications, Inc. cancels its order for the Collocation Space(s) ("Cancellation"), BellSouth will bill the applicable non-recurring rate for any and all work processes for which work has begun. In Georgia, if PanAmerican Telecommunications, Inc. cancels its order for Collocation Space at any time prior to space acceptance, BellSouth will bill PanAmerican Telecommunications, Inc. for all costs incurred prior to the date of Cancellation and for any costs incurred as a direct result of the Cancellation, not to exceed the total amount that would have been due had the order not been cancelled.

- 7.10 <u>Licenses.</u> PanAmerican Telecommunications, Inc., at its own expense, will be solely responsible for obtaining from governmental authorities, and any other appropriate agency, entity, or person, all rights, privileges, and licenses necessary or required to operate as a provider of telecommunications services to the public or to occupy the Collocation Space.
- 7.11 <u>Environmental Compliance.</u> The Parties agree to utilize and adhere to the Environmental Hazard Guidelines identified as Exhibit A attached hereto.

## 8. Rates and Charges

- 8.1 BellSouth shall assess an Application Fee via a service order, which shall be issued at the time BellSouth responds that space is available pursuant to Section 2. Payment of said Application Fee will be due as dictated by PanAmerican Telecommunications, Inc.'s current billing cycle and is non-refundable.
- 8.1.1 In Tennessee the applicable Application Fee is the Planning Fee for both Applications and Subsequent Applications placed by PanAmerican Telecommunications, Inc..
- 8.2 Space Preparation
- 8.2.1 Recurring Charges. The recurring charges for space preparation begin on the date PanAmerican Telecommunications, Inc. executes the written document accepting the collocation space pursuant to section 4 or on the date PanAmerican Telecommunications, Inc. first occupies collocation space, whichever is first. If PanAmerican Telecommunications, Inc. fails to schedule and complete an acceptance walk through within fifteen (15) days after BellSouth releases the space for occupancy, BellSouth shall begin billing PanAmerican Telecommunications, Inc. for recurring charges as of the sixteenth day after BellSouth releases the collocation space.
- Space preparation fees consist of a nonrecurring charge for Firm Order Processing and monthly recurring charges for Central Office Modifications, assessed per arrangement, per square foot, and Common Systems Modifications, assessed per arrangement, per square foot for cageless collocation and per cage for caged collocation. PanAmerican Telecommunications, Inc. shall remit payment of the nonrecurring Firm Order Processing Fee coincident with submission of a Bona Fide Firm Order. The charges recover the costs associated with preparing the Collocation Space, which includes survey, engineering of the Collocation Space, design and modification costs for network, building and support systems. In the event PanAmerican Telecommunications, Inc. opts for cageless space, the space preparation fees will be assessed based on the total floor space dedicated to PanAmerican Telecommunications, Inc. as prescribed in this Section 8.
- 8.2.3 <u>Space Preparation Fee (Florida).</u> Space preparation fees include a nonrecurring charge for Firm Order Processing and monthly recurring charges for Central Office Modifications, assessed per arrangement, per square foot, and Common Systems

Modifications, assessed per arrangement, per square foot for cageless and per cage for caged collocation. PanAmerican Telecommunications, Inc. shall remit payment of the nonrecurring Firm Order Processing Fee coincident with submission of a Bona Fide Firm Order. The charges recover the costs associated with preparing the Collocation Space, which includes survey, engineering of the Collocation Space, design and modification costs for network, building and support systems. In the event PanAmerican Telecommunications, Inc. opts for cageless space, space preparation fees will be assessed based on the total floor space dedicated to PanAmerican Telecommunications, Inc. as prescribed in this Section 8.

- 8.2.4 Space Preparation Fee (Georgia). In Georgia, the Space Preparation Fee is a one time fee, assessed per arrangement, per location. It recovers a portion of costs associated with preparing the Collocation Space, which includes survey, engineering of the Collocation Space, design and modification costs for network, power, building and support systems. This is a set fee of \$100 per square foot as established by the Georgia Public Service Commission Order in Docket No. 7016 U. In the event PanAmerican Telecommunications, Inc. opts for non enclosed space, the space preparation fee will be assessed based on the total floor space dedicated to PanAmerican Telecommunications, Inc. as prescribed in Section 8 and will be billed based upon PanAmerican Telecommunications, Inc.'s first billing cycle after Firm Order.
- 8.2.5 <u>Space Preparation Fee (North Carolina)</u>. In North Carolina, space preparation fees consist of monthly recurring charges for Central Office Modifications, assessed per arrangement, per square foot; Common Systems Modifications, assessed per arrangement, per square foot for cageless and per cage for caged collocation; and Power, assessed per the nominal –48V DC ampere requirements specified by PanAmerican Telecommunications, Inc. on the Bona Fide Application. The charges recover the costs associated with preparing the Collocation Space, which includes survey, engineering of the Collocation Space, design and modification costs for network, building and support systems. In the event PanAmerican Telecommunications, Inc. opts for cageless space, the space preparation fees will be assessed based on the total floor space dedicated to PanAmerican Telecommunications, Inc. as described in this Section 8.
- 8.3 Cable Installation. Cable Installation Fee(s) are assessed per entrance cable placed.
- Floor Space. The Floor Space Charge includes reasonable charges for lighting, HVAC, and other allocated expenses associated with maintenance of the Premises but does not recover any power-related costs incurred by BellSouth. When the Collocation Space is enclosed, PanAmerican Telecommunications, Inc. shall pay floor space charges based upon the number of square feet so enclosed. When the Collocation Space is not enclosed, PanAmerican Telecommunications, Inc. shall pay floor space charges based upon the following floor space calculation: [(depth of the equipment lineup in which the rack is placed) + (0.5 x maintenance aisle depth) + (0.5 x wiring aisle depth)] X (width of rack and spacers). For purposes of this calculation,

the depth of the equipment lineup shall consider the footprint of equipment racks plus any equipment overhang. BellSouth will assign unenclosed Collocation Space in conventional equipment rack lineups where feasible. In the event PanAmerican Telecommunications, Inc.'s collocated equipment requires special cable racking, isolated grounding or other treatment which prevents placement within conventional equipment rack lineups, PanAmerican Telecommunications, Inc. shall be required to request an amount of floor space sufficient to accommodate the total equipment arrangement.

- 8.4.1 The recurring charges for floor space begin on the date PanAmerican Telecommunications, Inc. executes the written document accepting the collocation space pursuant to section 4 or on the date PanAmerican Telecommunications, Inc. first occupies collocation space, whichever is first. If PanAmerican Telecommunications, Inc. fails to schedule and complete an acceptance walk through within fifteen (15) days after BellSouth releases the space for occupancy, BellSouth shall begin billing PanAmerican Telecommunications, Inc. for recurring charges as of the sixteenth day after BellSouth releases the collocation space.
- 8.5 <u>Power</u>. BellSouth shall make available –48 Volt (-48V) DC power for PanAmerican Telecommunications, Inc.'s Collocation Space at a BellSouth Power Board or BellSouth Battery Distribution Fuse Bay ("BDFB") at PanAmerican Telecommunications, Inc.'s option within the Premises.
- 8.5.1 Recurring charges for -48V DC power will be assessed per ampere per month based upon the BellSouth Certified Supplier engineered and installed power feed fused ampere capacity. Rates include redundant feeder fuse positions (A&B) and common cable rack to PanAmerican Telecommunications, Inc.'s equipment or space enclosure. Recurring power charges begin on the Space Ready Date, or on the date PanAmerican Telecommunications, Inc. first occupies the Collocation Space, whichever is sooner. When obtaining power from a BDFB, fuses and power cables (A&B) must be engineered (sized), and installed by PanAmerican Telecommunications, Inc.'s BellSouth Certified Supplier. When obtaining power from a BellSouth power board, power cables (A&B) must be engineered (sized), and installed by PanAmerican Telecommunications, Inc.'s BellSouth Certified power Supplier. PanAmerican Telecommunications, Inc. is responsible for contracting with a BellSouth Certified Supplier for power distribution feeder cable runs from a BellSouth BDFB or power board to PanAmerican Telecommunications, Inc.'s equipment. Determination of the BellSouth BDFB or BellSouth power board as the power source will be made at BellSouth's sole, but reasonable, discretion. The BellSouth Certified Supplier contracted by PanAmerican Telecommunications, Inc. must provide BellSouth a copy of the engineering power specification prior to the day on which PanAmerican Telecommunications, Inc.'s equipment becomes operational. BellSouth will provide the common power feeder cable support structure between the BellSouth BDFB or power board and PanAmerican Telecommunications. Inc.'s arrangement area. PanAmerican Telecommunications, Inc. shall contract with a BellSouth Certified Supplier who will be responsible for the following: dedicated power cable support

structure within PanAmerican Telecommunications, Inc.'s arrangement, power cable feeds, and terminations of cable. Any terminations at a BellSouth power board must be performed by a BellSouth Certified power Supplier. PanAmerican Telecommunications, Inc. shall comply with all applicable National Electric Code (NEC), BellSouth TR73503, Telcordia (BellCore) and ANSI Standards regarding power cabling.

- 8.5.2 If BellSouth has not previously invested in power plant capacity for collocation at a specific site, PanAmerican Telecommunications, Inc. has the option to add its own dedicated power plant; provided, however, that such work shall be performed by a BellSouth Certified Supplier who shall comply with BellSouth's guidelines and specifications. Where the addition of PanAmerican Telecommunications, Inc.'s dedicated power plant results in construction of a new power plant room, upon termination of PanAmerican Telecommunications, Inc.'s right to occupy collocation space at such site, PanAmerican Telecommunications, Inc. shall have the right to remove its equipment from the power plant room, but shall otherwise leave the room intact.
- 8.5.3 If PanAmerican Telecommunications, Inc. elects to install its own DC Power Plant, BellSouth shall provide AC power to feed PanAmerican Telecommunications, Inc.'s DC Power Plant. Charges for AC power will be assessed per breaker ampere per month. Rates include the provision of commercial and standby AC power. When obtaining power from a BellSouth service panel, protection devices and power cables must be engineered (sized), and installed by PanAmerican Telecommunications, Inc.'s BellSouth Certified Supplier except that BellSouth shall engineer and install protection devices and power cables for Adjacent Collocation. PanAmerican Telecommunications, Inc.'s BellSouth Certified Supplier must also provide a copy of the engineering power specification prior to the equipment becoming operational. Charges for AC power shall be assessed pursuant to the rates specified in Exhibit C. AC power voltage and phase ratings shall be determined on a per location basis. At PanAmerican Telecommunications, Inc.'s option, PanAmerican Telecommunications, Inc. may arrange for AC power in an Adjacent Collocation arrangement from a retail provider of electrical power.
- In Tennessee, Recurring charges for -48V DC power consumption will be assessed per ampere per month based upon the engineered and installed power feed fused ampere capacity. Rates include redundant feeder fuse positions (A&B) and common cable rack to PanAmerican Telecommunications, Inc.'s equipment or space enclosure. PanAmerican Telecommunications, Inc. shall contract with a Certified Supplier who will be responsible for the following: dedicated power cable support structure within PanAmerican Telecommunications, Inc.'s arrangement and terminations of cable within the collocation space.
- 8.5.5 In Tennessee, Non recurring charges for –48V DC power distribution will be based on the common power feeder cable support structure between the BellSouth BDFB and PanAmerican Telecommunications, Inc.'s arrangement area.

- 8.5.6 In Louisiana, PanAmerican Telecommunications, Inc. has the option to purchase power directly from an electric utility company. Under such an option, PanAmerican Telecommunications, Inc. is responsible for contracting with the electric utility company for their own power feed and meter, and is financially responsible for purchasing all equipment necessary to accomplish the arrangement, including inverters, batteries, power boards, bus bars, BDFBs, backup power supplies and cabling. The actual work to install this arrangement must be performed by a certified vendor hired by PanAmerican Telecommunications, Inc. PanAmerican Telecommunications, Inc. must comply with all applicable safety codes, including the National Electric Safety Codes, in installing this power arrangement. Any floor space, cable racking, etc utilized by PanAmerican Telecommunications, Inc. in provisioning said power will be billed on an ICB basis.
- 8.6 <u>Security Escort.</u> A security escort will be required whenever PanAmerican Telecommunications, Inc. or its approved agent desires access to the entrance manhole or must have access to the Premises after the one accompanied site visit allowed pursuant to Section 5 prior to completing BellSouth's Security Training requirements. Rates for a security escort are assessed according to the schedule appended hereto as Exhibit C beginning with the scheduled escort time. BellSouth will wait for one-half (1/2) hour after the scheduled time for such an escort and PanAmerican Telecommunications, Inc. shall pay for such half-hour charges in the event PanAmerican Telecommunications, Inc. fails to show up.
- 8.7 <u>Cable Record charges.</u> These charges apply for work required to build cable records in BellSouth systems. The VG/DS0 per cable record charge is for a maximum of 3600 records. The Fiber cable record charge is for a maximum of 99 records.
- 8.8 Other. If no rate is identified in the contract, the rate for the specific service or function will be negotiated by the Parties upon request by either Party. Payment of all other charges under this Attachment shall be due thirty (30) calendar days after receipt of the bill (payment due date). PanAmerican Telecommunications, Inc. will pay a late payment charge of the lessor of one and one half percent or the legal interest rate assessed monthly on any balance which remains unpaid after the payment due date.

## 9. <u>Insurance</u>

- 9.1 PanAmerican Telecommunications, Inc. shall, at its sole cost and expense, procure, maintain, and keep in force insurance as specified in this Section 9 and underwritten by insurance companies licensed to do business in the states applicable under this Attachment and having a Best's Insurance Rating of A-.
- 9.2 PanAmerican Telecommunications, Inc. shall maintain the following specific coverage:
- 9.2.1 Commercial General Liability coverage in the amount of ten million dollars (\$10,000,000.00) or a combination of Commercial General Liability and Excess/Umbrella coverage totaling not less than ten million dollars (\$10,000,000.00).

- BellSouth shall be named as an Additional Insured on the Commercial General Liability policy as specified herein.
- 9.2.2 Statutory Workers Compensation coverage and Employers Liability coverage in the amount of one hundred thousand dollars (\$100,000.00) each accident, one hundred thousand dollars (\$100,000.00) each employee by disease, and five hundred thousand dollars (\$500,000.00) policy limit by disease.
- 9.2.3 All Risk Property coverage on a full replacement cost basis insuring all of PanAmerican Telecommunications, Inc.'s real and personal property situated on or within BellSouth's Central Office location(s).
- 9.2.4 PanAmerican Telecommunications, Inc. may elect to purchase business interruption and contingent business interruption insurance, having been advised that BellSouth assumes no liability for loss of profit or revenues should an interruption of service occur.
- 9.3 The limits set forth in Section 9.2 above may be increased by BellSouth from time to time during the term of this Attachment upon thirty (30) days notice to PanAmerican Telecommunications, Inc. to at least such minimum limits as shall then be customary with respect to comparable occupancy of BellSouth structures.
- 9.4 All policies purchased by PanAmerican Telecommunications, Inc. shall be deemed to be primary and not contributing to or in excess of any similar coverage purchased by BellSouth. All insurance must be in effect on or before the date equipment is delivered to BellSouth's Premises and shall remain in effect for the term of this Attachment or until all PanAmerican Telecommunications, Inc.'s property has been removed from BellSouth's Premises, whichever period is longer. If PanAmerican Telecommunications, Inc. fails to maintain required coverage, BellSouth may pay the premiums thereon and seek reimbursement of same from PanAmerican Telecommunications, Inc..
- 9.5 PanAmerican Telecommunications, Inc. shall submit certificates of insurance reflecting the coverage required pursuant to this Section a minimum of ten (10) business days prior to the commencement of any work in the Collocation Space. Failure to meet this interval may result in construction and equipment installation delays. PanAmerican Telecommunications, Inc. shall arrange for BellSouth to receive thirty (30) business days' advance notice of cancellation from PanAmerican Telecommunications, Inc.'s insurance company. PanAmerican Telecommunications, Inc. shall forward a certificate of insurance and notice of cancellation/non-renewal to BellSouth at the following address:

BellSouth Telecommunications, Inc. Attn.: Risk Management Coordinator 17H53 BellSouth Center 675 W. Peachtree Street

Atlanta, Georgia 30375

- 9.6 PanAmerican Telecommunications, Inc. must conform to recommendations made by BellSouth's fire insurance company to the extent BellSouth has agreed to, or shall hereafter agree to, such recommendations.
- 9.7 Self-Insurance. If PanAmerican Telecommunications, Inc.'s net worth exceeds five hundred million dollars (\$500,000,000), PanAmerican Telecommunications, Inc. may elect to request self-insurance status in lieu of obtaining any of the insurance required in Sections 9.2.1 and 9.2.2. PanAmerican Telecommunications, Inc. shall provide audited financial statements to BellSouth thirty (30) days prior to the commencement of any work in the Collocation Space. BellSouth shall then review such audited financial statements and respond in writing to PanAmerican Telecommunications, Inc. in the event that self-insurance status is not granted to PanAmerican Telecommunications, Inc.. If BellSouth approves PanAmerican Telecommunications, Inc. for self-insurance, PanAmerican Telecommunications, Inc. shall annually furnish to BellSouth, and keep current, evidence of such net worth that is attested to by one of PanAmerican Telecommunications, Inc.'s corporate officers. The ability to self-insure shall continue so long as the PanAmerican Telecommunications, Inc. meets all of the requirements of this Section. If the PanAmerican Telecommunications, Inc. subsequently no longer satisfies this Section, PanAmerican Telecommunications, Inc. is required to purchase insurance as indicated by Sections 9.2.1 and 9.2.2.
- 9.8 The net worth requirements set forth in Section 9.7 may be increased by BellSouth from time to time during the term of this Attachment upon thirty (30) days' notice to PanAmerican Telecommunications, Inc. to at least such minimum limits as shall then be customary with respect to comparable occupancy of BellSouth structures.
- 9.9 Failure to comply with the provisions of this Section will be deemed a material breach of this Attachment.

#### 10. Mechanics Liens

10.1 If any mechanics lien or other liens shall be filed against property of either Party (BellSouth or PanAmerican Telecommunications, Inc.), or any improvement thereon by reason of or arising out of any labor or materials furnished or alleged to have been furnished or to be furnished to or for the other Party or by reason of any changes, or additions to said property made at the request or under the direction of the other Party, the other Party directing or requesting those changes shall, within thirty (30) business days after receipt of written notice from the Party against whose property said lien has been filed, either pay such lien or cause the same to be bonded off the affected property in the manner provided by law. The Party causing said lien to be placed against the property of the other shall also defend, at its sole cost and expense, on behalf of the other, any action, suit or proceeding which may be brought for the

enforcement of such liens and shall pay any damage and discharge any judgment entered thereon.

## 11. Inspections

BellSouth may conduct an inspection of PanAmerican Telecommunications, Inc.'s equipment and facilities in the Collocation Space(s) prior to the activation of facilities between PanAmerican Telecommunications, Inc.'s equipment and equipment of BellSouth. BellSouth may conduct an inspection if PanAmerican Telecommunications, Inc. adds equipment and may otherwise conduct routine inspections at reasonable intervals mutually agreed upon by the Parties. BellSouth shall provide PanAmerican Telecommunications, Inc. with a minimum of forty-eight (48) hours or two (2) business days, whichever is greater, advance notice of all such inspections. All costs of such inspection shall be borne by BellSouth.

#### 12. Security and Safety Requirements

- 12.1 Unless otherwise specified, PanAmerican Telecommunications, Inc. will be required, at its own expense, to conduct a statewide investigation of criminal history records for each PanAmerican Telecommunications, Inc. employee hired in the past five years being considered for work on the BellSouth Premises, for the states/counties where the PanAmerican Telecommunications, Inc. employee has worked and lived for the past five years. Where state law does not permit statewide collection or reporting, an investigation of the applicable counties is acceptable. PanAmerican Telecommunications, Inc. shall not be required to perform this investigation if an affiliated company of PanAmerican Telecommunications, Inc. has performed an investigation of the PanAmerican Telecommunications, Inc. employee seeking access, if such investigation meets the criteria set forth above. This requirement will not apply if PanAmerican Telecommunications, Inc. has performed a pre-employment statewide investigation of criminal history records of the PanAmerican Telecommunications, Inc. employee for the states/counties where the PanAmerican Telecommunications, Inc. employee has worked and lived for the past five years or, where state law does not permit a statewide investigation, an investigation of the applicable counties.
- PanAmerican Telecommunications, Inc. will be required to administer to their personnel assigned to the BellSouth Premises security training either provided by BellSouth, or meeting criteria defined by BellSouth.
- PanAmerican Telecommunications, Inc. shall provide its employees and agents with picture identification, which must be worn, and visible at all times while in the Collocation Space or other areas in or around the Premises. The photo identification card shall bear, at a minimum, the employee's name and photo, and the PanAmerican Telecommunications, Inc.'s name. BellSouth reserves the right to remove from its premises any employee of PanAmerican Telecommunications, Inc. not possessing identification issued by PanAmerican Telecommunications, Inc. or who has violated

any of BellSouth's policies as outlined in the CLEC Security Training documents. PanAmerican Telecommunications, Inc. shall hold BellSouth harmless for any damages resulting from such removal of its personnel from BellSouth premises. PanAmerican Telecommunications, Inc. shall be solely responsible for ensuring that any Guest of PanAmerican Telecommunications, Inc. is in compliance with all subsections of this Section 12.

- PanAmerican Telecommunications, Inc. shall not assign to the BellSouth Premises any personnel with records of felony criminal convictions. PanAmerican Telecommunications, Inc. shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions, except for misdemeanor traffic violations, without advising BellSouth of the nature and gravity of the offense(s). BellSouth reserves the right to refuse building access to any PanAmerican Telecommunications, Inc. personnel who have been identified to have misdemeanor criminal convictions. Notwithstanding the foregoing, in the event that PanAmerican Telecommunications, Inc. chooses not to advise BellSouth of the nature and gravity of any misdemeanor conviction, PanAmerican Telecommunications, Inc. may, in the alternative, certify to BellSouth that it shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions (other than misdemeanor traffic violations).
- 12.4.1 PanAmerican Telecommunications, Inc. shall not knowingly assign to the BellSouth Premises any individual who was a former employee of BellSouth and whose employment with BellSouth was terminated for a criminal offense whether or not BellSouth sought prosecution of the individual for the criminal offense.
- PanAmerican Telecommunications, Inc. shall not knowingly assign to the BellSouth Premises any individual who was a former supplier of BellSouth and whose access to a BellSouth Premises was revoked due to commission of a criminal offense whether or not BellSouth sought prosecution of the individual for the criminal offense.
- 12.5 For each PanAmerican Telecommunications, Inc. employee or agent hired by PanAmerican Telecommunications, Inc. within five years of being considered for work on the BellSouth Premises, who requires access to a BellSouth Premises pursuant to this agreement, PanAmerican Telecommunications, Inc. shall furnish BellSouth, prior to an employee or agent gaining such access, a certification that the aforementioned background check and security training were completed. The certification will contain a statement that no felony convictions were found and certifying that the security training was completed by the employee. If the employee's criminal history includes misdemeanor convictions, PanAmerican Telecommunications, Inc. will disclose the nature of the convictions to BellSouth at that time. In the alternative, PanAmerican Telecommunications, Inc. may certify to BellSouth that it shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions other than misdemeanor traffic violations.
- 12.5.1 For all other PanAmerican Telecommunications, Inc.employees requiring access to a BellSouth Premises pursuant to this Attachment, PanAmerican Telecommunications,

Inc. shall furnish BellSouth, prior to an employee gaining such access, a certification that the employee is not subject to the requirements of Section 12.5 above and that security training was completed by the employee.

- At BellSouth's request, PanAmerican Telecommunications, Inc. shall promptly remove from BellSouth's Premises any employee of PanAmerican Telecommunications, Inc. BellSouth does not wish to grant access to its premises 1) pursuant to any investigation conducted by BellSouth or 2) prior to the initiation of an investigation if an employee of PanAmerican Telecommunications, Inc. is found interfering with the property or personnel of BellSouth or another CLEC, provided that an investigation shall promptly be commenced by BellSouth.
- 12.7 Notification to BellSouth. BellSouth reserves the right to interview PanAmerican Telecommunications, Inc.'s employees, agents, or contractors in the event of wrongdoing in or around BellSouth's property or involving BellSouth's or another CLEC's property or personnel, provided that BellSouth shall provide reasonable notice to PanAmerican Telecommunications, Inc.'s Security contact of such interview. PanAmerican Telecommunications, Inc. and its contractors shall reasonably cooperate with BellSouth's investigation into allegations of wrongdoing or criminal conduct committed by, witnessed by, or involving PanAmerican Telecommunications, Inc.'s employees, agents, or contractors. Additionally, BellSouth reserves the right to bill PanAmerican Telecommunications, Inc. for all reasonable costs associated with investigations involving its employees, agents, or contractors if it is established and mutually agreed in good faith that PanAmerican Telecommunications, Inc.'s employees, agents, or contractors are responsible for the alleged act. BellSouth shall bill PanAmerican Telecommunications. Inc. for BellSouth property which is stolen or damaged where an investigation determines the culpability of PanAmerican Telecommunications, Inc.'s employees, agents, or contractors and where PanAmerican Telecommunications, Inc. agrees, in good faith, with the results of such investigation. PanAmerican Telecommunications, Inc. shall notify BellSouth in writing immediately in the event that PanAmerican Telecommunications, Inc. discovers one of its employees already working on the BellSouth premises is a possible security risk. Upon request of the other Party, the Party who is the employer shall discipline consistent with its employment practices, up to and including removal from BellSouth Premises, any employee found to have violated the security and safety requirements of this section. PanAmerican Telecommunications, Inc. shall hold BellSouth harmless for any damages resulting from such removal of its personnel from BellSouth premises.
- 12.8 <u>Use of Supplies</u>. Unauthorized use of telecommunications equipment or supplies by either Party, whether or not used routinely to provide telephone service (e.g. plug-in cards,) will be strictly prohibited and handled appropriately. Costs associated with such unauthorized use may be charged to the offending Party, as may be all associated investigative costs.
- 12.9 <u>Use of Official Lines</u>. Except for non-toll calls necessary in the performance of their work, neither Party shall use the telephones of the other Party on the BellSouth

Premises. Charges for unauthorized telephone calls may be charged to the offending Party, as may be all associated investigative costs.

12.10 <u>Accountability</u>. Full compliance with the Security requirements of this section shall in no way limit the accountability of either Party to the other for the improper actions of its employees.

## 13. Destruction of Collocation Space

13.1 In the event a Collocation Space is wholly or partially damaged by fire, windstorm, tornado, flood or by similar causes to such an extent as to be rendered wholly unsuitable for PanAmerican Telecommunications, Inc.'s permitted use hereunder, then either Party may elect within ten (10) business days after such damage, to terminate occupancy of the damaged Collocation Space, and if either Party shall so elect, by giving the other written notice of termination, both Parties shall stand released of and from further liability under the terms hereof. If the Collocation Space shall suffer only minor damage and shall not be rendered wholly unsuitable for PanAmerican Telecommunications, Inc.'s permitted use, or is damaged and the option to terminate is not exercised by either Party, BellSouth covenants and agrees to proceed promptly without expense to PanAmerican Telecommunications, Inc., except for improvements not the property of BellSouth, to repair the damage. BellSouth shall have a reasonable time within which to rebuild or make any repairs, and such rebuilding and repairing shall be subject to delays caused by storms, shortages of labor and materials, government regulations, strikes, walkouts, and causes beyond the control of BellSouth, which causes shall not be construed as limiting factors, but as exemplary only. PanAmerican Telecommunications, Inc. may, at its own expense, accelerate the rebuild of its collocated space and equipment provided however that a BellSouth Certified Supplier is used and the necessary space preparation has been completed. Rebuild of equipment must be performed by a BellSouth Certified Supplier. If PanAmerican Telecommunications, Inc.'s acceleration of the project increases the cost of the project, then those additional charges will be incurred by PanAmerican Telecommunications, Inc.. Where allowed and where practical, PanAmerican Telecommunications, Inc. may erect a temporary facility while BellSouth rebuilds or makes repairs. In all cases where the Collocation Space shall be rebuilt or repaired, PanAmerican Telecommunications, Inc. shall be entitled to an equitable abatement of rent and other charges, depending upon the unsuitability of the Collocation Space for PanAmerican Telecommunications, Inc.'s permitted use, until such Collocation Space is fully repaired and restored and PanAmerican Telecommunications, Inc.'s equipment installed therein (but in no event later than thirty (30) business days after the Collocation Space is fully repaired and restored). Where PanAmerican Telecommunications, Inc. has placed an Adjacent Arrangement pursuant to Section 3, PanAmerican Telecommunications, Inc. shall have the sole responsibility to repair or replace said Adjacent Arrangement provided herein. Pursuant to this section, BellSouth will restore the associated services to the Adjacent Arrangement.

## 14. Eminent Domain

14.1 If the whole of a Collocation Space or Adjacent Arrangement shall be taken by any public authority under the power of eminent domain, then this Attachment shall terminate with respect to such Collocation Space or Adjacent Arrangement as of the day possession shall be taken by such public authority and rent and other charges for the Collocation Space or Adjacent Arrangement shall be paid up to that day with proportionate refund by BellSouth of such rent and charges as may have been paid in advance for a period subsequent to the date of the taking. If any part of the Collocation Space or Adjacent Arrangement shall be taken under eminent domain, BellSouth and PanAmerican Telecommunications, Inc. shall each have the right to terminate this Attachment with respect to such Collocation Space or Adjacent Arrangement and declare the same null and void, by written notice of such intention to the other Party within ten (10) business days after such taking.

## 15. Nonexclusivity

PanAmerican Telecommunications, Inc. understands that this Attachment is not exclusive and that BellSouth may enter into similar agreements with other Parties. Assignment of space pursuant to all such agreements shall be determined by space availability and made on a first come, first served basis

# ENVIRONMENTAL AND SAFETY PRINCIPLES

The following principles provide basic guidance on environmental and safety issues when applying for and establishing Physical Collocation arrangements.

#### 1. GENERAL PRINCIPLES

- 1.1 Compliance with Applicable Law. BellSouth and PanAmerican Telecommunications, Inc. agree to comply with applicable federal, state, and local environmental and safety laws and regulations including U.S. Environmental Protection Agency (USEPA) regulations issued under the Clean Air Act (CAA), Clean Water Act (CWA), Resource Conservation and Recovery Act (RCRA), Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), Superfund Amendments and Reauthorization Act (SARA), the Toxic Substances Control Act (TSCA), and OSHA regulations issued under the Occupational Safety and Health Act of 1970, as amended and NFPA and National Electrical Codes (NEC) and the NESC ("Applicable Laws"). Each Party shall notify the other if compliance inspections are conducted by regulatory agencies and/or citations are issued that relate to any aspect of this Attachment.
- Notice. BellSouth and PanAmerican Telecommunications, Inc. shall provide notice to the other, including Material Safety Data Sheets (MSDSs), of known and recognized physical hazards or Hazardous Chemicals existing on site or brought on site. Each Party is required to provide specific notice for known potential Imminent Danger conditions. PanAmerican Telecommunications, Inc. should contact 1-800-743-6737 for BellSouth MSDS sheets.
- 1.3 Practices/Procedures. BellSouth may make available additional environmental control procedures for PanAmerican Telecommunications, Inc. to follow when working at a BellSouth Premises (See Section 2, below). These practices/procedures will represent the regular work practices required to be followed by the employees and contractors of BellSouth for environmental protection. PanAmerican Telecommunications, Inc. will require its contractors, agents and others accessing the BellSouth Premises to comply with these practices. Section 2 lists the Environmental categories where BST practices should be followed by PanAmerican Telecommunications, Inc. when operating in the BellSouth Premises.
- 1.4 <u>Environmental and Safety Inspections</u>. BellSouth reserves the right to inspect the PanAmerican Telecommunications, Inc. space with proper notification. BellSouth reserves the right to stop any PanAmerican Telecommunications, Inc. work operation that imposes Imminent Danger to the environment, employees or other persons in the area or Facility.
- 1.5 <u>Hazardous Materials Brought On Site</u>. Any hazardous materials brought into, used, Version 4Q01: 12/01/01

stored or abandoned at the BellSouth Premises by PanAmerican Telecommunications, Inc. are owned by PanAmerican Telecommunications, Inc.. PanAmerican Telecommunications, Inc. will indemnify BellSouth for claims, lawsuits or damages to persons or property caused by these materials. Without prior written BellSouth approval, no substantial new safety or environmental hazards can be created by PanAmerican Telecommunications, Inc. or different hazardous materials used by PanAmerican Telecommunications, Inc. at BellSouth Facility. PanAmerican Telecommunications, Inc. must demonstrate adequate emergency response capabilities for its materials used or remaining at the BellSouth Facility.

- 1.6 <u>Spills and Releases</u>. When contamination is discovered at a BellSouth Premises, the Party discovering the condition must notify BellSouth. All Spills or Releases of regulated materials will immediately be reported by PanAmerican Telecommunications, Inc. to BellSouth.
- 1.7 Coordinated Environmental Plans and Permits. BellSouth and PanAmerican Telecommunications, Inc. will coordinate plans, permits or information required to be submitted to government agencies, such as emergency response plans, spill prevention control and countermeasures (SPCC) plans and community reporting. If fees are associated with filing, BellSouth and PanAmerican Telecommunications, Inc. will develop a cost sharing procedure. If BellSouth's permit or EPA identification number must be used, PanAmerican Telecommunications, Inc. must comply with all of BellSouth's permit conditions and environmental processes, including environmental "best management practices (BMP)" (see Section 2, below) and/or selection of BST disposition vendors and disposal sites.
- 1.8 Environmental and Safety Indemnification. BellSouth and PanAmerican Telecommunications, Inc. shall indemnify, defend and hold harmless the other Party from and against any claims (including, without limitation, third-party claims for personal injury or death or real or personal property damage), judgments, damages, (including direct and indirect damages, and punitive damages), penalties, fines, forfeitures, costs, liabilities, interest and losses arising in connection with the violation or alleged violation of any Applicable Law or contractual obligation or the presence or alleged presence of contamination arising out of the acts or omissions of the indemnifying Party, its agents, contractors, or employees concerning its operations at the Facility.

#### 2. CATEGORIES FOR CONSIDERATION OF ENVIRONMENTAL ISSUES

When performing functions that fall under the following Environmental categories on BellSouth's Premises, PanAmerican Telecommunications, Inc. agrees to comply with the applicable sections of the current issue of BellSouth's Environmental and Safety Methods and Procedures (M&Ps), incorporated herein by this reference. PanAmerican Telecommunications, Inc. further agrees to cooperate with BellSouth to ensure that PanAmerican Telecommunications, Inc.'s employees, agents, and/or

subcontractors are knowledgeable of and satisfy those provisions of BellSouth's Environmental M&Ps which apply to the specific Environmental function being performed by PanAmerican Telecommunications, Inc., its employees, agents and/or subcontractors.

# 2.2 The most current version of reference documentation must be requested from BellSouth.

#### 3. **DEFINITIONS**

<u>Generator</u>. Under RCRA, the person whose act produces a Hazardous Waste, as defined in 40 CFR 261, or whose act first causes a Hazardous Waste to become subject to regulation. The Generator is legally responsible for the proper management and disposal of Hazardous Wastes in accordance with regulations.

<u>Hazardous Chemical</u>. As defined in the U.S. Occupational Safety and Health (OSHA) hazard communication standard (29 CFR 1910.1200), any chemical which is a health hazard or physical hazard.

Hazardous Waste. As defined in section 1004 of RCRA.

<u>Imminent Danger</u>. Any conditions or practices at a facility which are such that a danger exists which could reasonably be expected to cause immediate death or serious harm to people or immediate significant damage to the environment or natural resources.

Spill or Release. As defined in Section 101 of CERCLA.

|       |                        |                         |                    |                                |                           |  |      |                                 |           |                                  |       |
|       |                        |                         |                    |                                |                           |  |      |                                 |           |                                  |       |

<sup>\*</sup>Standard bays are defined as racks, bays or cabinets, including equipment and cable, with measurements equal to or less than the following: Width - 26", Depth - 25". The standard height for all collocated equipment bays in BellSouth is 7'0".

Notes: Forecast information will be used for no other purpose than collocation planning.

Forecast with application dates greater than 3 months from the date of submission will not guarantee the reservation of space in the office requested.

<sup>\*\*</sup> Any forecast for non-standard cageless bays must include an attachment describing the quantity and width and depth measurements.

**Remote Site Physical Collocation** 

#### **BELLSOUTH**

#### REMOTE SITE PHYSICAL COLLOCATION

#### 1. Scope of Attachment

- 1.1 <u>Scope of Attachment.</u> The rates, terms, and conditions contained within this Attachment shall only apply when PanAmerican Telecommunications, Inc. is occupying the Remote Collocation Space as a sole occupant or as a Host within a Remote Site Location.
- Right to occupy. BellSouth shall offer to PanAmerican Telecommunications, Inc.
  Remote Site Collocation on rates, terms, and conditions that are just, reasonable, non-discriminatory and consistent with the rules of the Federal Communications
  Commission ("FCC"). Subject to the rates, terms, and conditions of this Attachment,
  BellSouth hereby grants to PanAmerican Telecommunications, Inc. a right to occupy
  that certain area designated by BellSouth within a BellSouth Remote Site Location, of
  a size which is specified by PanAmerican Telecommunications, Inc. and agreed to by
  BellSouth (hereinafter "Remote Collocation Space"). BellSouth Remote Site
  Locations include cabinets, huts, and controlled environmental vaults owned or leased
  by BellSouth that house BellSouth Network Facilities. To the extent this Attachment
  does not include all the necessary rates, terms and conditions for BellSouth remote
  locations other than cabinets, huts and controlled environmental vaults, the Parties will
  negotiate said rates, terms, and conditions at the request for collocation at BellSouth
  remote locations other than those specified above.
- 1.2.1 In all states other than Florida, the number of racks/bays specified by PanAmerican Telecommunications, Inc. may contemplate a request for space sufficient to accommodate PanAmerican Telecommunications, Inc.'s growth within a two year period.
- 1.2.2 In the state of Florida, the number of racks/bays specified by PanAmerican Telecommunications, Inc. may contemplate a request for space sufficient to accommodate PanAmerican Telecommunications, Inc.'s growth within an eighteen (18) month period.
- 1.2.3 Neither BellSouth nor any of BellSouth's affiliates may reserve space for future use on more preferential terms than those set forth above.
- 1.3 <u>Third Party Property.</u> If the Premises, or the property on which it is located, is leased by BellSouth from a third party or otherwise controlled by a third party, special considerations and intervals may apply in addition to the terms and conditions of this

Agreement. Additionally, where BellSouth notifies PanAmerican Telecommunications, Inc. that BellSouth's agreement with a third party does not grant BellSouth the ability to provide access and use rights to others, upon PanAmerican Telecommunications, Inc.'s request, BellSouth will use its best efforts to obtain the owner's consent and to otherwise secure such rights for PanAmerican Telecommunications, Inc. agrees to reimburse BellSouth for the reasonable and demonstrable costs incurred by BellSouth in obtaining such rights for PanAmerican Telecommunications, Inc.. In cases where a third party agreement does not grant BellSouth the right to provide access and use rights to others as contemplated by this Agreement and BellSouth, despite its best efforts, is unable to secure such access and use rights for PanAmerican Telecommunications, Inc. as above, PanAmerican Telecommunications, Inc. shall be responsible for obtaining such permission to access and use such property. BellSouth shall cooperate with PanAmerican Telecommunications, Inc. in obtaining such permission.

- 1.4 <u>Space Reclamation</u>. In the event of space exhaust within a Remote Site Location, BellSouth may include in its documentation for the Petition for Waiver filing any vacant space in the Remote Site Location. PanAmerican Telecommunications, Inc. will be responsible for any justification of vacant space within its Remote Collocation Space, if such justification is required by the appropriate state commission.
- 1.5 <u>Use of Space.</u> PanAmerican Telecommunications, Inc. shall use the Remote Collocation Space for the purposes of installing, maintaining and operating PanAmerican Telecommunications, Inc.'s equipment (to include testing and monitoring equipment) necessary, for interconnection with BellSouth services and facilities, including access to unbundled network elements, for the provision of telecommunications services. The Remote Collocation Space may be used for no other purposes except as specifically described herein or as authorized in writing by BellSouth.
- 1.6 <u>Rates and charges</u>. PanAmerican Telecommunications, Inc. agrees to pay the rates and charges identified in Exhibit D attached hereto.
- 1.7 <u>Due Dates</u>. In all states except Georgia, if any due date contained in this Attachment falls on a weekend or holiday, then the due date will be the next business day thereafter.

## 2. Space Availability Report

2.1 <u>Reporting</u>. Upon request from PanAmerican Telecommunications, Inc., BellSouth will provide a written report ("Space Availability Report") specifying the amount of Remote Collocation Space available at the Remote Site Location requested, the

number of collocators present at the Remote Site Location, any modifications in the use of the space since the last report on the Remote Site Location requested and the measures BellSouth is taking to make additional space available for collocation arrangements.

- 2.1.1 The request from PanAmerican Telecommunications, Inc. for a Space Availability Report must be written and must include the Common Language Location Identification ("CLLI") code for both the Remote Site Location and the serving central office. Such information regarding the CLLI code for the serving central offices located in the National Exchange Carriers Association (NECA) Tariff FCC No.

  4. If PanAmerican Telecommunications, Inc. is unable to obtain the CLLI code, from for example a site visit to the remote site, PanAmerican Telecommunications, Inc. may request the CLLI code from BellSouth. To obtain a CLLI code for a remote site directly from BellSouth, PanAmerican Telecommunications, Inc. should submit to BellSouth a Remote Site Interconnection Request for Remote Site CLLI Code prior to submitting its request for a Space Availability Report. PanAmerican Telecommunications, Inc. should complete all the requested information and submit the Request with the applicable fee to BellSouth.
- 2.1.2 BellSouth will respond to a request for a Space Availability Report for a particular Remote Site Location within ten (10) calendar days of receipt of such request. This interval excludes national holidays. BellSouth will make best efforts to respond in ten (10) calendar days to such a request when the request includes from two (2) to five (5) Remote Site Locations within the same state. The response time for requests of more than five (5) Remote Site Locations shall be negotiated between the Parties. If BellSouth cannot meet the ten calendar day response time, BellSouth shall notify PanAmerican Telecommunications, Inc. and inform PanAmerican Telecommunications, Inc. of the time frame under which it can respond. In Mississippi, the above intervals shall be in business days.

## 3. Collocation Options

- 3.1 <u>Compliance</u>. The parties agree to comply with all applicable federal, state, county, local and administrative laws, orders, rules, ordinances, regulations, and codes in the performance of their obligations hereunder.
- 3.2 <u>Cageless.</u> BellSouth shall allow PanAmerican Telecommunications, Inc. to collocate PanAmerican Telecommunications, Inc.'s equipment and facilities without requiring the construction of a cage or similar structure. BellSouth shall allow PanAmerican Telecommunications, Inc. to have direct access to its equipment and facilities. BellSouth shall make cageless collocation available in single rack/bay increments. For equipment requiring special technical considerations, PanAmerican Telecommunications, Inc. must provide the equipment layout, including spatial dimensions for such equipment pursuant to generic requirements contained in BellCore

(Telcordia) GR-63-Core and shall be responsible for constructing all special technical requirements associated with such equipment pursuant to **Section 6**, following. Subject to space availability and technical feasibility, at PanAmerican Telecommunications, Inc.'s option, PanAmerican Telecommunications, Inc. may enclose its equipment.

- 3.3 Shared (Subleased) Collocation. PanAmerican Telecommunications, Inc. may allow other telecommunications carriers to share PanAmerican Telecommunications, Inc.'s Remote Collocation Space pursuant to terms and conditions agreed to by PanAmerican Telecommunications, Inc. ("Host") and other telecommunications carriers ("Guests") and pursuant to this section, except where the BellSouth Remote Site Location is located within a leased space and BellSouth is prohibited by said lease from offering such an option or is located on property for which BellSouth holds an easement and such easement does not permit such an option. PanAmerican Telecommunications, Inc. shall notify BellSouth in writing upon execution of any agreement between the Host and its Guest within ten (10) calendar days (in Mississippi, 10 business days) of its execution and prior to any Firm Order. Further, such notice shall include the name of the Guest(s) and the term of the agreement, and shall contain a certification by PanAmerican Telecommunications, Inc. that said agreement imposes upon the Guest(s) the same terms and conditions for Remote Collocation Space as set forth in this Attachment between BellSouth and PanAmerican Telecommunications, Inc..
- 3.3.1 PanAmerican Telecommunications, Inc. shall be the sole interface and responsible Party to BellSouth for assessment of rates and charges contained within this Attachment; and for the purposes of ensuring that the safety and security requirements of this Attachment are fully complied with by the Guest, its employees and agents. BellSouth shall provide PanAmerican Telecommunications, Inc. with a proration of the costs of the collocation space based on the number of collocators and the space used by each. In all states other than Florida, and in addition to the foregoing, PanAmerican Telecommunications, Inc. shall be the responsible party to BellSouth for the purpose of submitting Applications for initial and additional equipment placement of Guest. In the event the Host and Guest jointly submit an Application, only one Application Fee will be assessed. A separate Guest Application shall require the assessment of an Application Fee, as set forth in Exhibit D. Notwithstanding the foregoing, Guest may arrange directly with BellSouth for the provision of the interconnecting facilities between BellSouth and Guest and for the provision of the services and access to unbundled network elements.
- 3.3.2 PanAmerican Telecommunications, Inc. shall indemnify and hold harmless BellSouth from any and all claims, actions, causes of action, of whatever kind or nature arising out of the presence of PanAmerican Telecommunications, Inc.'s Guests in the Remote Collocation Space except to the extent caused by BellSouth's sole negligence, gross negligence, or willful misconduct.

- Adjacent Collocation. Subject to technical feasibility and space availability, BellSouth will provide approval for adjacent Remote Site collocation arrangements ("Remote Site Adjacent Arrangement") where space within the Remote Site Location is legitimately exhausted, where the Remote Site Adjacent Arrangement does not interfere with access to existing or planned structures or facilities on the Remote Site Location property. The Remote Site Adjacent Arrangement shall be constructed or procured by PanAmerican Telecommunications, Inc. and in conformance with BellSouth's design and construction specifications. Further, PanAmerican Telecommunications, Inc. shall construct, procure, maintain and operate said Remote Site Adjacent Arrangement(s) pursuant to all of the terms and conditions set forth in this Attachment. Rates shall be negotiated at the time of the request for the Remote Site Adjacent Arrangement.
- 3.4.1 Should PanAmerican Telecommunications, Inc. elect such an option, PanAmerican Telecommunications, Inc. must arrange with a BellSouth Certified Contractor to construct a Remote Site Adjacent Arrangement structure in accordance with BellSouth's guidelines and specifications. BellSouth will provide guidelines and specifications upon request. Where local building codes require enclosure specifications more stringent than BellSouth's standard specification, PanAmerican Telecommunications, Inc. and PanAmerican Telecommunications, Inc.'s BellSouth Certified Contractor must comply with local building code requirements. PanAmerican Telecommunications, Inc.'s BellSouth Certified Contractor shall be responsible for filing and receiving any and all necessary zoning, permits and/or licenses for such construction. PanAmerican Telecommunications, Inc.'s BellSouth Certified Contractor shall bill PanAmerican Telecommunications, Inc. directly for all work performed for PanAmerican Telecommunications, Inc. pursuant to this Attachment and BellSouth shall have no liability for nor responsibility to pay such charges imposed by the BellSouth Certified Contractor. PanAmerican Telecommunications, Inc. must provide the local BellSouth Remote Site Location contact with two cards, keys or other access device used to enter the locked enclosure. Except in cases of emergency, BellSouth shall not access PanAmerican Telecommunications, Inc.'s locked enclosure prior to notifying PanAmerican Telecommunications, Inc..
- 3.4.2 BellSouth maintains the right to review PanAmerican Telecommunications, Inc.'s plans and specifications prior to construction of a Remote Site Adjacent Arrangement(s). BellSouth shall complete its review within fifteen (15) calendar days. BellSouth may inspect the Remote Site Adjacent Arrangement(s) following construction and prior to the Commencement Date, as defined in Section 4 following, to ensure the design and construction comply with BellSouth's guidelines and specifications. BellSouth may require PanAmerican Telecommunications, Inc., at PanAmerican Telecommunications, Inc.'s sole cost, to correct any deviations from BellSouth's guidelines and specifications found during such inspection(s), up to and including removal of the Remote Site Adjacent Arrangement, within seven (7)

- calendar days of BellSouth's inspection, unless the Parties mutually agree to an alternative time frame.
- 3.4.3 PanAmerican Telecommunications, Inc. shall provide a concrete pad, the structure housing the arrangement, heating/ventilation/air conditioning ("HVAC"), lighting, and all facilities that connect the structure (i.e. racking, conduits, etc.) to the BellSouth point of demarcation. At PanAmerican Telecommunications, Inc.'s option, and where the local authority having jurisdiction permits, BellSouth shall provide an AC power source and access to physical collocation services and facilities subject to the same nondiscriminatory requirements as applicable to any other physical collocation arrangement. PanAmerican Telecommunications, Inc.'s BellSouth Certified Contractor shall be responsible, at PanAmerican Telecommunications, Inc.'s expense, for filing and receiving any and all necessary zoning, permits and/or licenses for such arrangement.
- 3.4.4 BellSouth shall allow Shared (Subleased) Collocation within a Remote Site Adjacent Arrangement pursuant to the terms and conditions set forth herein.

#### 4 Occupancy

- 4.1 Occupancy. BellSouth will notify PanAmerican Telecommunications, Inc. in writing that the Remote Collocation Space is ready for occupancy. PanAmerican Telecommunications, Inc. must notify BellSouth in writing that collocation equipment installation is complete. BellSouth may, at its option, not accept orders for interconnected service until receipt of such notice.
- 4.2 <u>Termination of Occupancy</u>. In addition to any other provisions addressing termination of occupancy in this Agreement, PanAmerican Telecommunications, Inc. may terminate occupancy in a particular Remote Site Location by submitting a Subsequent Application requesting termination of occupancy. A Subsequent Application Fee will not apply for termination of occupancy.
- 4.2.1 Upon termination of occupancy, PanAmerican Telecommunications, Inc. at its expense shall remove its equipment and other property from the Remote Collocation Space. PanAmerican Telecommunications, Inc. shall have thirty (30) calendar days from the termination date to complete such removal, including the removal of all equipment and facilities of PanAmerican Telecommunications, Inc.'s Guests, unless PanAmerican Telecommunications, Inc.'s Guest has assumed responsibility for the collocation space housing the Guest's equipment and executed the documentation required by BellSouth prior to such removal date; provided, however, that PanAmerican Telecommunications, Inc. shall continue payment of monthly fees to BellSouth until such date as PanAmerican Telecommunications, Inc., and if applicable PanAmerican Telecommunications, Inc.'s Guest, has fully vacated the Remote Collocation Space.

Should PanAmerican Telecommunications, Inc. or PanAmerican Telecommunications, Inc.'s Guest fail to vacate the Remote Collocation Space within thirty (30) calendar days from the termination date, BellSouth shall have the right to remove the equipment and other property of PanAmerican Telecommunications, Inc. or PanAmerican Telecommunications, Inc.'s Guest at PanAmerican Telecommunications, Inc.'s expense and with no liability for damage or injury to PanAmerican Telecommunications, Inc. or PanAmerican Telecommunications, Inc.'s Guest's property unless caused by the gross negligence or intentional misconduct of BellSouth. Upon termination of occupancy with respect to a Remote Collocation Space, PanAmerican Telecommunications, Inc. shall surrender such Remote Collocation Space to BellSouth in the same condition as when first occupied by the PanAmerican Telecommunications, Inc. except for ordinary wear and tear unless otherwise agreed to by the Parties. PanAmerican Telecommunications, Inc. shall be responsible for the cost of removing any enclosure, together with all support structures (e.g., racking, conduits), of a Remote Site Adjacent Arrangement at the termination of occupancy and restoring the grounds to their original condition.

## 5 <u>Use of Remote Collocation Space</u>

- 5.1 <u>Equipment Type</u>. BellSouth permits the collocation of any type of equipment necessary for interconnection to BellSouth's network or for access to unbundled network elements in the provision of telecommunications services.
- 5.1.1 Such equipment must at a minimum meet the following BellCore (Telcordia) Network Equipment Building Systems (NEBS) General Equipment Requirements: Criteria Level 3 requirements as outlined in the BellCore (Telcordia) Special Report SR-3580, Issue 1; equipment design spatial requirements per GR-63-CORE, Section 2; thermal heat dissipation per GR-063-CORE, Section 4, Criteria 77-79; acoustic noise per GR-063-CORE, Section 4, Criterion 128, and National Electric Code standards. Except where otherwise required by a Commission, BellSouth shall comply with the applicable FCC rules relating to denial of collocation based on PanAmerican Telecommunications, Inc.'s failure to comply with these requirements.
- PanAmerican Telecommunications, Inc. shall not use the Remote Collocation Space for marketing purposes nor shall it place any identifying signs or markings in the area surrounding the Remote Collocation Space or on the grounds of the Remote Site Location.
- PanAmerican Telecommunications, Inc. shall place a plaque or other identification affixed to PanAmerican Telecommunications, Inc.'s equipment to identify PanAmerican Telecommunications, Inc.'s equipment, including a list of emergency contacts with telephone numbers.

- All PanAmerican Telecommunications, Inc. equipment installation shall comply with BellSouth TR 73503-11, Section 8, "Grounding Engineering Procedures". Metallic cable sheaths and metallic strength members of optical fiber cables as well as the metallic cable sheaths of all copper conductor cables shall be bonded to the designated grounding bus for the Remote Site Location. All copper conductor pairs, working and non-working, shall be equipped with a solid state protector unit (over-voltage protection only) which has been listed by a nationally recognized testing laboratory.
- Entrance Facilities. PanAmerican Telecommunications, Inc. may elect to place PanAmerican Telecommunications, Inc.-owned or PanAmerican Telecommunications, Inc.-leased entrance facilities into the Remote Collocation Space from PanAmerican Telecommunications, Inc.'s point of presence. BellSouth will designate the point of interconnection at the Remote Site Location housing the Remote Collocation Space, which is physically accessible by both Parties. PanAmerican Telecommunications, Inc. will provide and place copper cable through conduit from the Remote Collocation Space to the Feeder Distribution Interface to the splice location of sufficient length for splicing by BellSouth. PanAmerican Telecommunications, Inc. must contact BellSouth for instructions prior to placing the entrance facility cable. PanAmerican Telecommunications, Inc. is responsible for maintenance of the entrance facilities.
- 5.2.1 <u>Shared Use</u>. PanAmerican Telecommunications, Inc. may utilize spare capacity on an existing interconnector entrance facility for the purpose of providing an entrance facility to PanAmerican Telecommunications, Inc.'s collocation arrangement within the same BellSouth Remote Site Location.
- Demarcation Point. BellSouth will designate the point(s) of demarcation between PanAmerican Telecommunications, Inc.'s equipment and/or network and BellSouth's network. Each Party will be responsible for maintenance and operation of all equipment/facilities on its side of the demarcation point. PanAmerican Telecommunications, Inc. or its agent must perform all required maintenance to PanAmerican Telecommunications, Inc. equipment/facilities on its side of the demarcation point, pursuant to Section 5.4, following.
- PanAmerican Telecommunications, Inc.'s Equipment and Facilities. PanAmerican Telecommunications, Inc., or if required by this Attachment, PanAmerican Telecommunications, Inc.'s Certified Supplier, is solely responsible for the design, engineering, installation, testing, provisioning, performance, monitoring, maintenance and repair of the equipment and facilities used by PanAmerican Telecommunications, Inc..
- 5.5 <u>BellSouth's Access to Remote Collocation Space</u>. BellSouth retains the right to access the Remote Collocation Space for the purpose of making BellSouth equipment and Remote Site Location modifications.

- 5.6 Access. Pursuant to Section 12, PanAmerican Telecommunications, Inc. shall have access to the Remote Collocation Space twenty-four (24) hours a day, seven (7) days a week. PanAmerican Telecommunications, Inc. agrees to provide the name and social security number or date of birth or driver's license number of each employee, contractor, or agents of PanAmerican Telecommunications, Inc. or PanAmerican Telecommunications, Inc.'s Guests provided with access keys or devices ("Access Keys") prior to the issuance of said Access Keys. Key acknowledgement forms must be signed by PanAmerican Telecommunications, Inc. and returned to BellSouth Access Management within fifteen (15) calendar days of PanAmerican Telecommunications, Inc.'s receipt. Failure to return properly acknowledged forms will result in the holding of subsequent requests until acknowledgements are current. Access Keys shall not be duplicated under any circumstances. PanAmerican Telecommunications, Inc. agrees to be responsible for all Access Keys and for the return of all said Access Keys in the possession of PanAmerican Telecommunications, Inc. employees, contractors, Guests, or agents after termination of the employment relationship, contractual obligation with PanAmerican Telecommunications, Inc. or upon the termination of this Attachment or the termination of occupancy of an individual Remote Site collocation arrangement.
- PanAmerican Telecommunications, Inc. must submit to BellSouth the completed Access Control Request Form for all employees or agents requiring access to the BellSouth Premises a minimum of thirty (30) calendar days prior to the date PanAmerican Telecommunications, Inc. desires access to the Collocation Space. In order to permit reasonable access during construction of the Collocation Space, PanAmerican Telecommunications, Inc. may submit such a request at any time subsequent to BellSouth's receipt of the Bona Fide Firm Order. In the event PanAmerican Telecommunications, Inc. desires access to the Collocation Space after submitting such a request but prior to access being approved, BellSouth shall permit PanAmerican Telecommunications, Inc. to access the Collocation Space accompanied by a security escort at PanAmerican Telecommunications, Inc.'s expense.

  PanAmerican Telecommunications, Inc. must request escorted access at least three (3) business days prior to the date such access is desired.
- 5.7 <u>Lost or Stolen Access Keys</u>. PanAmerican Telecommunications, Inc. shall notify BellSouth in writing immediately in the case of lost or stolen Access Keys. Should it become necessary for BellSouth to re-key Remote Site Locations as a result of a lost Access Key(s) or for failure to return an Access Key(s), PanAmerican Telecommunications, Inc. shall pay for all reasonable costs associated with the re-keying.
- 5.8 <u>Interference or Impairment</u>. Notwithstanding any other provisions of this Attachment, equipment and facilities placed in the Remote Collocation Space shall not significantly degrade, interfere with or impair service provided by BellSouth or by any other interconnector located in the Remote Site Location; shall not endanger or damage the facilities of BellSouth or of any other interconnector, the Remote Collocation Space,

or the Remote Site Location; shall not compromise the privacy of any communications carried in, from, or through the Remote Site Location; and shall not create an unreasonable risk of injury or death to any individual or to the public. If BellSouth reasonably determines that any equipment or facilities of PanAmerican Telecommunications, Inc. violates the provisions of this paragraph, BellSouth shall give written notice to PanAmerican Telecommunications, Inc., which notice shall direct PanAmerican Telecommunications, Inc. to cure the violation within forty-eight (48) hours of PanAmerican Telecommunications, Inc.'s actual receipt of written notice or, at a minimum, to commence curative measures within 24 hours and to exercise reasonable diligence to complete such measures as soon as possible thereafter. After receipt of the notice, the Parties agree to consult immediately and, if necessary, to inspect the arrangement.

- 5.8.1 Except in the case of the deployment of an advanced service which significantly degrades the performance of other advanced services or traditional voice band services, if PanAmerican Telecommunications, Inc. fails to take curative action within 48 hours or if the violation is of a character which poses an immediate and substantial threat of damage to property, injury or death to any person, or other interference/impairment of the services provided by BellSouth or any other interconnector, then and only in that event BellSouth may take such action as it deems appropriate to correct the violation, including without limitation the interruption of electrical power to PanAmerican Telecommunications, Inc.'s equipment. BellSouth will endeavor, but is not required, to provide notice to PanAmerican Telecommunications, Inc. prior to taking such action and shall have no liability to PanAmerican Telecommunications, Inc. for any damages arising from such action, except to the extent that such action by BellSouth constitutes willful misconduct.
- 5.8.2 For purposes of this section, the term significantly degrade shall mean an action that noticeably impairs a service from a user's perspective. In the case of the deployment of an advanced service which significantly degrades the performance of other advanced services or traditional voice band services and PanAmerican Telecommunications, Inc. fails to take curative action within 48 hours then BellSouth will establish before the relevant Commission that the technology deployment is causing the significant degradation. Any claims of network harm presented to PanAmerican Telecommunications, Inc. or, if subsequently necessary, the relevant Commission must be supported with specific and verifiable information. Where BellSouth demonstrates that a deployed technology is significantly degrading the performance of other advanced services or traditional voice band services, PanAmerican Telecommunications, Inc. shall discontinue deployment of that technology and migrate its customers to technologies that will not significantly degrade the performance of other such services. Where the only degraded service itself is a known disturber, and the newly deployed technology satisfies at least one of the criteria for a presumption that is acceptable for deployment under 47 C.F.R. 51.230, the degraded service shall not prevail against the newly-deployed technology.

- 5.9 Presence of Facilities. Facilities and equipment placed by PanAmerican Telecommunications, Inc. in the Remote Collocation Space shall not become a part of the Remote Site Location, even if nailed, screwed or otherwise fastened to the Remote Collocation Space but shall retain its status as personality and may be removed by PanAmerican Telecommunications, Inc. at any time. Any damage caused to the Remote Collocation Space by PanAmerican Telecommunications, Inc.'s employees, agents or representatives shall be promptly repaired by PanAmerican Telecommunications, Inc. at its expense.
- Alterations. In no case shall PanAmerican Telecommunications, Inc. or any person acting on behalf of PanAmerican Telecommunications, Inc. make any rearrangement, modification, improvement, addition, or other alteration which could affect in any way space, power, HVAC, and/or safety considerations to the Remote Collocation Space or the BellSouth Remote Site Location without the written consent of BellSouth, which consent shall not be unreasonably withheld. The cost of any specialized alterations shall be paid by PanAmerican Telecommunications, Inc.. Any material rearrangement, modification, improvement, addition, or other alteration shall require an Application Fee.
- 5.11 <u>Upkeep of Remote Collocation Space</u>. PanAmerican Telecommunications, Inc. shall be responsible for the general upkeep and cleaning of the Remote Collocation Space. PanAmerican Telecommunications, Inc. shall be responsible for removing any PanAmerican Telecommunications, Inc. debris from the Remote Collocation Space and from in and around the Remote Collocation Site on each visit.

#### 6. Space Notification

- Should any state or federal regulatory agency impose procedures or intervals applicable to PanAmerican Telecommunications, Inc. and BellSouth that are different from procedures or intervals set forth in this section, whether now in effect or that become effective after execution of this Agreement, those procedures or intervals shall supersede the requirements set forth herein for that jurisdiction for all applications submitted for the first time after the effective date thereof
- Application for Space. PanAmerican Telecommunications, Inc. shall submit a Remote Site Collocation Application when PanAmerican Telecommunications, Inc. or PanAmerican Telecommunications, Inc.'s Guest(s), as defined in **Section 3**, desires to request or modify the use of the Remote Collocation Space.
- 6.3 <u>Initial Application</u>. For PanAmerican Telecommunications, Inc. or PanAmerican Telecommunications, Inc.'s Guest(s) equipment placement, PanAmerican Telecommunications, Inc. shall submit to BellSouth an Application. The Application is Bona Fide when it is complete and accurate, meaning that all required fields on the

Application are completed with the appropriate type of information. Prior to submitting the application, CLLI information can be obtained in the manner set forth in Section 2. An Application Fee will apply.

- Subsequent Application In the event PanAmerican Telecommunications, Inc. or PanAmerican Telecommunications, Inc.'s Guest(s) desires to modify the use of the Collocation Space after Bona Fide Firm Order, PanAmerican Telecommunications, Inc. shall complete an Application detailing all information regarding the modification to the Collocation Space ("Subsequent Application"). BellSouth shall determine what modifications, if any, to the Premises are required to accommodate the change requested by PanAmerican Telecommunications, Inc. in the Application. Such necessary modifications to the Premises may include, but are not limited to, floor loading changes, changes necessary to meet HVAC requirements, changes to power plant requirements, equipment additions, etc.
- 6.4.1 Subsequent Application Fee. The application fee paid by PanAmerican Telecommunications, Inc. for its request to modify the use of the Collocation Space shall be dependent upon the level of assessment needed for the modification requested. Where the Subsequent Application does not require assessment for provisioning or construction work by BellSouth, no Subsequent Application fee will be required. The fee for a Subsequent Application where the modification requested has limited effect (e.g., requires limited assessment and no capital expenditure by BellSouth) shall be the Subsequent Application Fee as set forth in Exhibit D. If the modification requires capital expenditure assessment, a full Application Fee shall apply. The Subsequent Application is Bona Fide when it is complete and accurate, meaning that all required fields on the Application are completed with the appropriate type of information.
- Availability of Space. Upon submission of an Application, BellSouth will permit PanAmerican Telecommunications, Inc. to physically collocate, pursuant to the terms of this Attachment, at any BellSouth Remote Site Location, unless BellSouth has determined that there is no space available due to space limitations or that Remote Site Collocation is not practical for technical reasons. In the event space is not immediately available at a Remote Site Location, BellSouth reserves the right to make additional space available, in which case the conditions in Section 7 shall apply, or BellSouth may elect to deny space in accordance with this section in which case virtual or adjacent collocation options may be available. If the amount of space requested is not available, BellSouth will notify PanAmerican Telecommunications, Inc. of the amount that is available.
- 6.5.1 Availability Notification. Unless otherwise specified, BellSouth will respond to an application within ten (10) calendar days (In Mississippi, ten (10) business days) as to whether space is available or not available within a BellSouth Remote Site Location. With the exception of Georgia, this interval excludes National Holidays. If the amount of space requested is not available, BellSouth will notify PanAmerican Telecommunications, Inc. of the amount of space that is available and no Application

Fee shall apply. When BellSouth's response includes an amount of space less than that requested by PanAmerican Telecommunications, Inc., PanAmerican Telecommunications, Inc. must resubmit its Application to reflect the actual space available.

- BellSouth will respond to a Florida Application within fifteen (15) calendar days as to whether space is available or not available within a BellSouth Remote Site Location. BellSouth will also respond as to whether the Application is Bona Fide and if it is not Bona Fide the items necessary to cause the Application to become Bona Fide. If a lesser amount of space than requested is available, BellSouth will provide an Application Response for the amount of space that is available and an Application Fee will be assessed. When BellSouth's Application Response includes an amount of space less than that requested by PanAmerican Telecommunications, Inc., PanAmerican Telecommunications, Inc. must amend its Application to reflect the actual space available prior to submitting Bona Fide Firm Order.
- 6.5.3 BellSouth will respond to a Louisiana Application within ten (10) calendar days for space availability for one (1) to ten (10) Applications; fifteen (15) calendar days for eleven (11) to twenty (20) Applications; and for more than twenty (20) Applications, it is increased by five (5) calendar days for every five additional Applications received within five (5) business days. If the amount of space requested is not available, BellSouth will notify PanAmerican Telecommunications, Inc. of the amount of space that is available and no Application Fee will apply. When BellSouth's response includes an amount of space less than that requested by PanAmerican Telecommunications, Inc., PanAmerican Telecommunications, Inc. must resubmit its Application to reflect the actual space available. BellSouth will also respond as to whether the Application is Bona Fide and if it is not Bona Fide the items necessary to cause the Application to become Bona Fide.
- Denial of Application. If BellSouth notifies PanAmerican Telecommunications, Inc. that no space is available ("Denial of Application"), BellSouth will not assess an Application Fee. After notifying PanAmerican Telecommunications, Inc. that BellSouth has no available space in the requested Remote Site Location, BellSouth will allow PanAmerican Telecommunications, Inc., upon request, to tour the Remote Site Location within ten (10) calendar days of such Denial of Application. With the exception of Georgia, this interval excludes national holidays. In order to schedule said tour within ten (10) calendar days, the request for a tour of the Remote Site Location must be received by BellSouth within five (5) calendar days of the Denial of Application. In Mississippi the above intervals shall be in business days.
- 6.7 <u>Filing of Petition for Waiver</u>. Upon Denial of Application BellSouth will timely file a petition with the Commission pursuant to 47 U.S.C. § 251(c)(6). BellSouth shall provide to the Commission any information requested by that Commission. Such information shall include which space, if any, BellSouth or any of BellSouth's affiliates have reserved for future use and a detailed description of the specific future uses for

which the space has been reserved. Subject to an appropriate nondisclosure agreement or provision, BellSouth shall permit PanAmerican Telecommunications, Inc. to inspect any plans or diagrams that BellSouth provides to the Commission.

- Maiting List. On a first-come, first-served basis governed by the date of receipt of an Application or Letter of Intent, BellSouth will maintain a waiting list of requesting carriers who have either received a Denial of Application or, where it is publicly known that the Premises is out of space, have submitted a Letter of Intent to collocate. BellSouth will notify the telecommunications carriers on the waiting list that can be accommodated by the amount of space that becomes available according to the position of the telecommunications carriers on said waiting list
- 6.8.1 In Florida, on a first-come, first-served basis governed by the date of receipt of an Application or Letter of Intent, BellSouth will maintain a waiting list of requesting carriers who have either received a Denial of Application or, where it is publicly known that the Remote Site Location is out of space, have submitted a Letter of Intent to collocate. Sixty (60) days prior to space becoming available, if known, BellSouth will notify the Florida PSC and the telecommunications carriers on the waiting list by mail when space becomes available according to the position of telecommunications carrier on said waiting list. If not known sixty (60) days in advance, BellSouth shall notify the Florida PSC and the telecommunications carriers on the waiting list within two days of the determination that space is available. A CLEC that, upon denial of physical collocation, requests virtual collocation shall be automatically placed on the waiting list.
- When space becomes available, PanAmerican Telecommunications, Inc. must submit an updated, complete, and correct Application to BellSouth within 30 calendar days (in Mississippi, 30 business days) of such notification. PanAmerican Telecommunications, Inc. may accept an amount of space less than its original request by submitting an Application as set forth above, and upon request, may maintain its position on the waiting list for the remaining space that was initially requested. If PanAmerican Telecommunications, Inc. does not submit such an Application or notify BellSouth in writing as described above, BellSouth will offer such space to the next CLEC on the waiting list and remove PanAmerican Telecommunications, Inc. from the waiting list. Upon request, BellSouth will advise PanAmerican Telecommunications, Inc. as to its position on the list.
- 6.9 <u>Public Notification</u>. BellSouth will maintain on its Interconnection Services website a notification document that will indicate all Remote Site Locations that are without available space. BellSouth shall update such document within ten (10) calendar days (in Mississippi, 10 business days) of the Denial of Application date. This interval excludes national holidays. BellSouth will also post a document on its Interconnection Services website that contains a general notice where space has become available in a Remote Site Location previously on the space exhaust list.

- 6.10 <u>Application Response.</u>
- Application Response. In Alabama, Kentucky, North Carolina, and Tennessee, when space has been determined to be available, BellSouth will provide a written response ("Application Response") within twenty-three (23) business days of the receipt of a Bona Fide Application, which will include, at a minimum, the configuration of the space, the Cable Installation Fee, Cable Records Fee, and the space preparation fees, as described in Section 8.
- 6.10.2 Except as otherwise provided, for all States that have ordered provisioning intervals but not application response intervals, BellSouth will provide a written response ("Application Response") within thirty (30) calendar days of receipt of a Bona Fide Application. The Application Response will include, at a minimum, the estimated provisioning interval, any additional engineering charges, if applicable, and any other additional information that may extend the ordinary interval to extraordinary interval status, together with sufficient information to explain such extension.
- 6.10.2.1 When multiple applications are submitted in a state within a fifteen (15) calendar day window, BellSouth will respond to the Bona Fide Applications as soon as possible, but no later than the following: within thirty (30) calendar days for Bona Fide Applications 1-5; within thirty-six (36) calendar days for Bona Fide Applications 6-10; within forty-two (42) calendar days for Bona Fide Applications 11-15. Response intervals for multiple Bona Fide Applications submitted within the same timeframe for the same state in excess of 15 must be negotiated. All negotiations shall consider the total volume from all requests from telecommunications companies for collocation.
- 6.10.3 In Florida, when space has been determined to be available or when a lesser amount of space than that requested is available, then with respect to the space available, BellSouth will provide a written response ("Application Response") including sufficient information to enable PanAmerican Telecommunications, Inc. to place a Firm Order. When PanAmerican Telecommunications, Inc. submits ten (10) or more Applications within ten (10) calendar days, the initial fifteen (15) day response period will increase by ten (10) days for every additional ten (10) Applications or fraction thereof.
- 6.10.4 In Georgia, when space has been determined to be available, BellSouth will provide a written response ("Application Response") within thirty (30) calendar days of receipt of a Bona Fide Application. The Application Response will include, at a minimum, the estimated provisioning interval, any additional engineering charges, if applicable, and any other additional information that may extend the ordinary interval to extraordinary interval status, together with sufficient information to explain such extension.
- 6.10.5 In Louisiana, BellSouth will respond with a full Application Response within thirty (30) calendar days for one (1) to ten (10) Applications; thirty (35) calendar days for eleven (11) to twenty (20) Applications; and for requests of more than twenty (20)

Applications, it is increased by five (5) calendar days for every five Applications received within five (5) business days. The Application Response will include, at a minimum, the estimated provisioning interval, any additional engineering charges, if applicable, and any other additional information that may extend the ordinary interval to extraordinary interval status, together with sufficient information to explain such extension.

#### 6.11 Application Modifications.

6.11.1 If a modification or revision is made to any information in the Bona Fide Application prior to Bona Fide Firm Order, with the exception of modifications to Customer Information, Contact Information or Billing Contact Information, either at the request of PanAmerican Telecommunications, Inc. or necessitated by technical considerations, said Application shall be considered a new Application and shall be handled as a new Application with respect to response and provisioning intervals and BellSouth may charge PanAmerican Telecommunications, Inc. an application fee. Where the Application Modification does not require assessment for provisioning or construction work by BellSouth, no application fee will be required. The fee for an Application Modification where the modification requested has limited effect (e.g., requires limited assessment and no capital expenditure by BellSouth) shall be the Subsequent Application Fee as set forth in Exhibit D. Major changes such as requesting additional space or adding equipment may require PanAmerican Telecommunications, Inc. to submit the Application with an Application Fee.

#### 6.12 Bona Fide Firm Order.

- Bona Fide Firm Order. In Alabama, Kentucky, North Carolina, and Tennessee, PanAmerican Telecommunications, Inc. shall indicate its intent to proceed with equipment installation in a BellSouth Premises by submitting a Physical Expanded Interconnection Firm Order document ("Firm Order") to BellSouth. A Firm Order shall be considered Bona Fide when PanAmerican Telecommunications, Inc. has completed the Application/Inquiry process described in Section 6.2, preceding, and has submitted the Firm Order document indicating acceptance of the Application Response provided by BellSouth. The Bona Fide Firm Order must be received by BellSouth no later than five (5) business days after BellSouth's Application Response to PanAmerican Telecommunications, Inc.'s Bona Fide Application.
- 6.12.2 Except as otherwise provided, in all States that have ordered provisioning intervals but not addressed Firm Order intervals, the following shall apply. PanAmerican Telecommunications, Inc. shall indicate its intent to proceed with equipment installation in a BellSouth Remote Site Location by submitting a Physical Expanded Interconnection Firm Order document ("Firm Order") to BellSouth. A Firm Order shall be considered Bona Fide when PanAmerican Telecommunications, Inc. has completed the Application/Inquiry process described in this **Section 6**, preceding and has submitted the Firm Order document indicating acceptance of the Application

Response provided by BellSouth. The Bona Fide Firm Order must be received by BellSouth no later than thirty (30) calendar days (in Mississippi 30 business days) after BellSouth's Application Response to PanAmerican Telecommunications, Inc.'s Bona Fide Application or the Application will expire.

- In Mississippi, PanAmerican Telecommunications, Inc. shall indicate its intent to proceed with equipment installation in a BellSouth Remote Terminal Location by submitting a Physical Expanded Interconnection Firm Order document ("Firm Order") to BellSouth. A Firm Order shall be considered Bona Fide when PanAmerican Telecommunications, Inc. has completed the Application/Inquiry process described in Section 6, preceding and has submitted the Firm Order document indicating acceptance of the Application Response provided by BellSouth. The Bona Fide Firm Order must be received by BellSouth no later than thirty (30) business days after BellSouth's Application Response to PanAmerican Telecommunications, Inc.'s Bona Fide Application or the Application will expire.
- BellSouth will establish a firm order date based upon the date BellSouth is in receipt of a Bona Fide Firm Order. BellSouth will acknowledge the receipt of PanAmerican Telecommunications, Inc.'s Bona Fide Firm Order within seven (7) calendar days of receipt indicating that the Bona Fide Firm Order has been received. A BellSouth response to a Bona Fide Firm Order will include a Firm Order Confirmation containing the firm order date. No revisions will be made to a Bona Fide Firm Order.
- 6.13 BellSouth will permit one accompanied site visit to PanAmerican Telecommunications, Inc.'s designated Remote Collocation Space after receipt of the Bona Fide Firm Order without charge to PanAmerican Telecommunications, Inc..

## 7. <u>Construction and Provisioning</u>

- 7.1 <u>Construction and Provisioning Intervals.</u>
- 7.1.1 In Alabama (Caged Only), Kentucky, North Carolina and Tennessee, BellSouth will complete construction for collocation arrangements within seventy-six (76) business days from receipt of an Application or as agreed to by the Parties. Under extraordinary conditions, BellSouth will complete construction for collocation arrangements within ninety-one (91) business days. Examples of extraordinary conditions include, but are not limited to, extended license or permitting intervals; major BellSouth equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. In the event PanAmerican Telecommunications, Inc. submits a forecast as described in the following section three (3) months or more prior to the application date, the above intervals shall apply. In the event PanAmerican Telecommunications, Inc. submits such a forecast between

two (2) months and three (3) months prior to the application date, the above intervals may be extended by one (1) additional month. In the event PanAmerican Telecommunications, Inc. submits such a forecast less than two (2) months prior to the application date, the above intervals may be extended by sixty (60) calendar days. BellSouth will attempt to meet standard intervals for unforecasted requests and any interval adjustments will be discussed with PanAmerican Telecommunications, Inc. at the time the application is received. Raw space, which is space lacking the necessary infrastructure to provide collocation space including but not limited to HVAC, Power, etc.), conversion time frames fall outside the normal intervals and are negotiated on an individual case basis. Additionally, installations to existing collocation arrangements for line sharing or line splitting, which include adding cable, adding cable and splitter, and adding a splitter, will be forty five (45) business days from receipt of an Application.

- 7.1.1.1 To be considered a timely and accurate forecast, PanAmerican Telecommunications, Inc. must submit to BellSouth the CLEC Forecast Form, as set forth in exhibit C attached hereto, containing the following information: Central Office/Serving Wire Center CLLI, Remote Site CLLI, number of bays, number of DS0, DS1, DS3 terminations, equipment power requirements (power drain) and planned application date.
- 7.1.2 In Alabama, BellSouth will complete construction for cageless collocation arrangements under ordinary conditions as soon as possible and within a maximum of sixty (60) calendar days from receipt of a Bona Fide Firm Order and ninety (90) calendar days for extraordinary conditions or as agreed to by the Parties. Ordinary conditions are defined as space available with only minor changes to support systems required, such as but not limited to, HVAC, cabling and the power plant(s). Extraordinary conditions are defined to include but are not limited to major BellSouth equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission.
- 7.1.3 In Florida, BellSouth will complete construction for collocation arrangements as soon as possible and within a maximum of ninety (90) calendar days from receipt of a Bona Fide Firm Order or as agreed to by the Parties. For changes to collocation space after initial space completion ("Augmentation"), BellSouth will complete construction for collocation arrangements as soon as possible and within a maximum of forty-five (45) calendar days from receipt of a Bona Fide Firm Order or as agreed to by the Parties. If BellSouth does not believe that construction will be completed within the relevant time frame and BellSouth and PanAmerican Telecommunications, Inc. cannot agree upon a completion date, within 45 calendar days of receipt of the Bona Fide Firm

Order for an initial request, and within 30 calendar days for Augmentations, BellSouth may seek an extension from the Florida PSC.

- 7.1.4 In Georgia, BellSouth will complete construction for caged collocation arrangements under ordinary conditions as soon as possible and within a maximum of ninety (90) calendar days from receipt of a Bona Fide Firm Order or as agreed to by the Parties. BellSouth will complete construction for cageless collocation arrangements under ordinary conditions as soon as possible and within a maximum of 60 calendar days from receipt of a Bona Fide Firm Order and 90 calendar days for extraordinary conditions or as agreed to by the Parties. Ordinary conditions are defined as space available with only minor changes to support systems required, such as but not limited to, HVAC, cabling and the power plant(s). Extraordinary conditions are defined to include but are not limited to major BellSouth equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission.
- 7.1.5 In Louisiana, BellSouth will complete construction for collocation arrangements under ordinary conditions as soon as possible and within a maximum of 120 calendar days from receipt of a Bona Fide Firm Order for an initial request, and within 60 calendar days for an Augmentation, or as agreed to by the Parties. Ordinary conditions are defined as space available with only minor changes to support systems required, such as but not limited to, HVAC, cabling and the power plant(s). BellSouth will complete construction of all other Collocation Space ("extraordinary conditions") within 120 calendar days of the receipt of a Bona Fide Firm Order. Examples of extraordinary conditions include but are not limited to, extended license or permitting intervals; major BellSouth equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission.
- 7.1.6 In Mississippi, excluding the time interval required to secure the appropriate government licenses and permits, BellSouth will complete construction for collocation arrangements under ordinary conditions as soon as possible and within a maximum of 120 calendar days from receipt of a Bona Fide Firm Order or as agreed to by the Parties. Ordinary conditions are defined as space available with only minor changes to support systems required, such as but not limited to, HVAC, cabling and the power plant(s). Excluding the time interval required to secure the appropriate government licenses and permits, BellSouth will complete construction of all other Collocation Space ("extraordinary conditions") within 180 calendar days of the receipt of a Bona Fide Firm Order. Examples of extraordinary conditions include but are not limited to,

extended license or permitting intervals; major BellSouth equipment rearrangement or addition; power plant addition or upgrade; major mechanical addition or upgrade; major upgrade for ADA compliance; environmental hazard or hazardous materials abatement; and arrangements for which equipment shipping intervals are extraordinary in length. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission.

- 7.1.7 In South Carolina, BellSouth will complete the construction and provisioning activities for collocation arrangements as soon as possible, but no later than 90 calendar days from receipt of a bona fide firm order. The Parties may mutually agree to renegotiate an alternative provisioning interval or BellSouth may seek a waiver from this interval from the Commission.
- 7.2 In the event BellSouth does not have space immediately available at a Remote Site Location, BellSouth may elect to make additional space available by, for example but not limited to, rearranging BellSouth facilities or constructing additional capacity. In such cases, the above intervals shall not apply and BellSouth will provision the Remote Collocation Space in a nondiscriminatory manner and at parity with BellSouth and will provide PanAmerican Telecommunications, Inc. with the estimated completion date in its Response.
- 7.3 <u>Permits</u>. Each Party or its agents will diligently pursue filing for the permits required for the scope of work to be performed by that Party or its agents within ten (10) calendar days of the completion of finalized construction designs and specifications.
- Acceptance Walk Through. PanAmerican Telecommunications, Inc. will schedule and complete an acceptance walk through of each Collocation Space with BellSouth within fifteen (15) days of BellSouth's notifying PanAmerican Telecommunications, Inc. that the collocation space is ready for occupancy. BellSouth will correct any deviations to PanAmerican Telecommunications, Inc.'s original or jointly amended requirements within seven (7) calendar days after the walk through, unless the Parties jointly agree upon a different time frame.
- 7.5 <u>Use of BellSouth Certified Supplier</u>. PanAmerican Telecommunications, Inc. shall select a supplier that has been approved by BellSouth to perform all engineering and installation work required in the Remote Collocation Space per TR 73503 specifications ("Certified Supplier"). BellSouth shall provide PanAmerican Telecommunications, Inc. with a list of Certified Suppliers upon request. The Certified Supplier(s) shall be responsible for installing PanAmerican Telecommunications, Inc.'s equipment and components, extending power cabling to the BellSouth power distribution frame, performing operational tests after installation is complete, and notifying BellSouth's Outside Plant engineers and PanAmerican Telecommunications, Inc. upon successful completion of installation. The Certified Supplier shall bill PanAmerican Telecommunications, Inc. directly for all work performed for PanAmerican Telecommunications, Inc. pursuant to this Attachment

and BellSouth shall have no liability for nor responsibility to pay such charges imposed by the Certified Supplier. BellSouth shall consider certifying PanAmerican Telecommunications, Inc. or any supplier proposed by PanAmerican Telecommunications, Inc. All work performed by or for PanAmerican Telecommunications, Inc. shall conform to generally accepted industry guidelines and standards.

- Alarm and Monitoring. BellSouth may place alarms in the Remote Site Location for the protection of BellSouth equipment and facilities. PanAmerican Telecommunications, Inc. shall be responsible for placement, monitoring and removal of alarms used to service PanAmerican Telecommunications, Inc.'s Remote Collocation Space and for ordering the necessary services therefor. Both Parties shall use best efforts to notify the other of any verified hazardous conditions known to that Party.
- 7.7 Virtual Remote Site Collocation Relocation. BellSouth offers Virtual Collocation pursuant to the terms and conditions set forth in its F.C.C. Tariff No. 1 for Remote Site Collocation locations. The rates shall be the same as provided in this Exhibit D of this agreement. Pan American Telecommunications, Inc. may place within its Virtual Collocation arrangements the telecommunications equipment set forth in Section 5. In the event physical Remote Collocation Space was previously denied at a Remote Site Location due to technical reasons or space limitations, and that physical Remote Collocation Space has subsequently become available, PanAmerican Telecommunications, Inc. may relocate its virtual Remote Site collocation arrangements to physical Remote Site collocation arrangements and pay the appropriate non-recurring fees for physical Remote Site collocation and for the rearrangement or reconfiguration of services terminated in the virtual Remote Site collocation arrangement, as outlined in the appropriate BellSouth tariffs. In the event that BellSouth knows when additional space for physical Remote Site collocation may become available at the location requested by PanAmerican Telecommunications, Inc., such information will be provided to PanAmerican Telecommunications, Inc. in BellSouth's written denial of physical Remote Site collocation. To the extent that (i) physical Remote Collocation Space becomes available to PanAmerican Telecommunications, Inc. within 180 calendar days of BellSouth's written denial of PanAmerican Telecommunications, Inc.'s request for physical collocation, and (ii) PanAmerican Telecommunications, Inc. was not informed in the written denial that physical Remote Collocation Space would become available within such 180 calendar days, then PanAmerican Telecommunications, Inc. may relocate its virtual Remote Site collocation arrangement to a physical Remote Site collocation arrangement and will receive a credit for any nonrecurring charges previously paid for such virtual Remote Site collocation. PanAmerican Telecommunications, Inc. must arrange with a BellSouth Certified Supplier for the relocation of equipment from its virtual Remote Collocation Space to its physical Remote Collocation Space and will bear the cost of such relocation.

- 7.8 <u>Cancellation</u>. If, at anytime prior to space acceptance, PanAmerican Telecommunications, Inc. cancels its order for the Remote Collocation Space(s), PanAmerican Telecommunications, Inc. will reimburse BellSouth for the applicable non recurring rate for any and all work processes for which work has begun.
- 7.9 <u>Licenses</u>. PanAmerican Telecommunications, Inc., at its own expense, will be solely responsible for obtaining from governmental authorities, and any other appropriate agency, entity, or person, all rights, privileges, and licenses necessary or required to operate as a provider of telecommunications services to the public or to occupy the Remote Collocation Space.
- 7.10 <u>Environmental Hazard Guidelines</u>. The Parties agree to utilize and adhere to the Environmental Hazard Guidelines identified as Exhibit A attached hereto.

## 8. Rates and Charges

- 8.1 <u>Application Fee.</u> BellSouth will assess an Application Fee on a service order which shall be issued at the time BellSouth responds that space is available. Payment of the Application Fee will be due as dictated by PanAmerican Telecommunications, Inc.'s current billing cycle and is non-refundable.
- Recurring Charges. Recurring charges begin on the date that PanAmerican Telecommunications, Inc. executes the written document accepting the Remote Collocation Space pursuant to Section 7, or on the date PanAmerican Telecommunications, Inc. first occupies the Remote Collocation Space, whichever is sooner. If PanAmerican Telecommunications, Inc. fails to schedule and complete a walkthrough pursuant to Section 7 within fifteen (15) days after BellSouth releases the space for occupancy, then BellSouth shall begin billing PanAmerican Telecommunications, Inc. for recurring charges as of the sixteenth (16) day after BellSouth releases the Remote Collocation Space. Other charges shall be billed upon request for the services. All charges shall be due as dictated by PanAmerican Telecommunications, Inc.'s current billing cycle.
- 8.3 Rack/Bay Space. The rack/bay space charge includes reasonable charges for air conditioning, ventilation and other allocated expenses associated with maintenance of the Remote Site Location, and includes amperage necessary to power PanAmerican Telecommunications, Inc.'s equipment. PanAmerican Telecommunications, Inc. shall pay rack/bay space charges based upon the number of racks/bays requested. BellSouth will assign Remote Collocation Space in conventional remote site rack/bay lineups where feasible
- 8.4 <u>Power</u>. BellSouth shall make available –48 Volt (-48V) DC power for PanAmerican Telecommunications, Inc.'s Remote Collocation Space at a BellSouth Power Board

(Fuse and Alarm Panel) or BellSouth Battery Distribution Fuse Bay ("BDFB") at PanAmerican Telecommunications, Inc.'s option within the Remote Site Location. The charge for power shall be assessed as part of the recurring charge for rack/bay space. If the power requirements for PanAmerican Telecommunications, Inc.'s equipment exceeds the capacity for the rack/bay, then such power requirements shall be assessed on a recurring per amp basis for the individual case.

- 8.4.1 Charges for AC power will be assessed per breaker ampere per month. Rates include the provision of commercial and standby AC power, where available. When obtaining power from a BellSouth service panel, protection devices and power cables must be engineered (sized), and installed by PanAmerican Telecommunications, Inc.'s BellSouth Certified Supplier except that BellSouth shall engineer and install protection devices and power cables for Adjacent Collocation. PanAmerican Telecommunications, Inc.'s BellSouth Certified Supplier must also provide a copy of the engineering power specification prior to the Commencement Date. AC power voltage and phase ratings shall be determined on a per location basis. At PanAmerican Telecommunications, Inc.'s option, PanAmerican Telecommunications, Inc. may arrange for AC power in an Adjacent Collocation arrangement from a retail provider of electrical power.
- 8.5 <u>Security Escort</u>. A security escort will be required whenever PanAmerican Telecommunications, Inc. or its approved agent desires access to the Remote Site Location after the one accompanied site visit allowed prior to completing BellSouth's Security Training requirements The parties will negotiate appropriate security escort rates which will be assessed on a one half (1/2) hour increment basis.
- 8.6 Rate "True-Up". The Parties agree that the prices reflected as interim herein shall be "trued-up" (up or down) based on final prices either determined by further agreement or by an effective order, in a proceeding involving BellSouth before the regulatory authority for the state in which the services are being performed or any other body having jurisdiction over this Agreement (hereinafter "Commission"). Under the "trueup" process, the interim price for each service shall be multiplied by the volume of that service purchased to arrive at the total interim amount paid for that service ("Total Interim Price"). The final price for that service shall be multiplied by the volume purchased to arrive at the total final amount due ("Total Final Price"). The Total Interim Price shall be compared with the Total Final Price. If the Total Final Price is more than the Total Interim Price, PanAmerican Telecommunications, Inc. shall pay the difference to BellSouth. If the Total Final Price is less than the Total Interim Price, BellSouth shall pay the difference to PanAmerican Telecommunications, Inc.. Each Party shall keep its own records upon which a "true-up" can be based and any final payment from one Party to the other shall be in an amount agreed upon by the Parties based on such records. In the event of any disagreement as between the records or the Parties regarding the amount of such "true-up," the Parties agree that the Commission shall be called upon to resolve such differences.

8.7 Other. If no rate is identified in the contract, the rate for the specific service or function will be negotiated by the Parties upon request by either Party. Payment of all other charges under this Attachment shall be due as dictated by PanAmerican Telecommunications, Inc.'s current billing cycle. PanAmerican Telecommunications, Inc. will pay a late payment charge of the lessor of one and one half percent or the legal interest rate assessed monthly on any balance which remains unpaid after the payment due date..

#### 9. <u>Insurance</u>

- 9.1 <u>Maintain Insurance</u>. PanAmerican Telecommunications, Inc. shall, at its sole cost and expense, procure, maintain, and keep in force insurance as specified in this Section 9 and underwritten by insurance companies licensed to do business in the states applicable under this Attachment and having a Best's Insurance Rating of A-.
- 9.2 <u>Coverage</u>. PanAmerican Telecommunications, Inc. shall maintain the following specific coverage:
- 9.2.1 Commercial General Liability coverage in the amount of ten million dollars (\$10,000,000.00) or a combination of Commercial General Liability and Excess/Umbrella coverage totaling not less than ten million dollars (\$10,000,000.00). BellSouth shall be named as an Additional Insured on the Commercial General Liability policy as specified herein.
- 9.2.2 Statutory Workers Compensation coverage and Employers Liability coverage in the amount of one hundred thousand dollars (\$100,000.00) each accident, one hundred thousand dollars (\$100,000.00) each employee by disease, and five hundred thousand dollars (\$500,000.00) policy limit by disease.
- 9.2.3 All Risk Property coverage on a full replacement cost basis insuring all of PanAmerican Telecommunications, Inc.'s real and personal property situated on or within BellSouth's Remote Site Location.
- 9.2.4 PanAmerican Telecommunications, Inc. may elect to purchase business interruption and contingent business interruption insurance, having been advised that BellSouth assumes no liability for loss of profit or revenues should an interruption of service occur.
- 9.3 <u>Limits</u>. The limits set forth in Section 9.2 above may be increased by BellSouth from time to time during the term of this Attachment upon thirty (30) days notice to PanAmerican Telecommunications, Inc. to at least such minimum limits as shall then be customary with respect to comparable occupancy of BellSouth structures.
- 9.4 All policies purchased by PanAmerican Telecommunications, Inc. shall be deemed to be primary. All policies purchased by PanAmerican Telecommunications, Inc. shall be

deemed to be primary and not contributing to or in excess of any similar coverage purchased by BellSouth. All insurance must be in effect on or before the date equipment is delivered to BellSouth's Remote Site Location and shall remain in effect for the term of this Attachment or until all PanAmerican Telecommunications, Inc.'''s property has been removed from BellSouth's Remote Site Location, whichever period is longer. If PanAmerican Telecommunications, Inc. fails to maintain required coverage, BellSouth may pay the premiums thereon and seek reimbursement of same from PanAmerican Telecommunications, Inc..

9.5 <u>Submit certificates of insurance</u>. PanAmerican Telecommunications, Inc. shall submit certificates of insurance reflecting the coverage required pursuant to this Section a minimum of ten (10) business days prior to the commencement of any work in the Remote Collocation Space. Failure to meet this interval may result in construction and equipment installation delays. PanAmerican Telecommunications, Inc. shall arrange for BellSouth to receive thirty (30) business days' advance notice of cancellation from PanAmerican Telecommunications, Inc. "'s insurance company. PanAmerican Telecommunications, Inc. shall forward a certificate of insurance and notice of cancellation/non-renewal to BellSouth at the following address:

BellSouth Telecommunications, Inc. Attn.: Risk Management Coordinator 675 W. Peachtree Street Rm. 17H53 Atlanta, Georgia 30375

- 9.6 Conformance to recommendations made by BellSouth's fire insurance company.
  PanAmerican Telecommunications, Inc. must conform to recommendations made by BellSouth's fire insurance company to the extent BellSouth has agreed to, or shall hereafter agree to, such recommendations.
- 9.7 Self-Insurance. If PanAmerican Telecommunications, Inc.'s net worth exceeds five hundred million dollars (\$500,000,000), PanAmerican Telecommunications, Inc. may elect to request self-insurance status in lieu of obtaining any of the insurance required in Sections 9.2.1 and Section 9.2.3. PanAmerican Telecommunications, Inc. shall provide audited financial statements to BellSouth thirty (30) days prior to the commencement of any work in the Remote Collocation Space. BellSouth shall then review such audited financial statements and respond in writing to PanAmerican Telecommunications, Inc. in the event that self-insurance status is not granted to PanAmerican Telecommunications, Inc.. If BellSouth approves PanAmerican Telecommunications, Inc. for self-insurance, PanAmerican Telecommunications, Inc. shall annually furnish to BellSouth, and keep current, evidence of such net worth that is attested to by one of PanAmerican Telecommunications, Inc.'s corporate officers. The ability to self-insure shall continue so long as PanAmerican Telecommunications, Inc. meets all of the requirements of this Section. If PanAmerican Telecommunications, Inc. subsequently no longer satisfies this Section, PanAmerican

Telecommunications, Inc. is required to purchase insurance as indicated by Sections 9.2.1 and Section 9.2.3.

- 9.8 Net worth requirements. The net worth requirements set forth in Section 9.7 may be increased by BellSouth from time to time during the term of this Attachment upon thirty (30) days' notice to PanAmerican Telecommunications, Inc. to at least such minimum limits as shall then be customary with respect to comparable occupancy of BellSouth structures.
- 9.9 <u>Failure to comply</u>. Failure to comply with the provisions of this Section will be deemed a material breach of this Attachment.

#### 10. Mechanics Liens

Mechanics Lien or other Liens. If any mechanics lien or other liens shall be filed against property of either Party (BellSouth or PanAmerican Telecommunications, Inc.), or any improvement thereon by reason of or arising out of any labor or materials furnished or alleged to have been furnished or to be furnished to or for the other Party or by reason of any changes, or additions to said property made at the request or under the direction of the other Party, the other Party directing or requesting those changes shall, within thirty (30) business days after receipt of written notice from the Party against whose property said lien has been filed, either pay such lien or cause the same to be bonded off the affected property in the manner provided by law. The Party causing said lien to be placed against the property of the other shall also defend, at its sole cost and expense, on behalf of the other, any action, suit or proceeding which may be brought for the enforcement of such liens and shall pay any damage and discharge any judgment entered thereon.

## 11. <u>Inspections</u>

BellSouth may conduct inspection. BellSouth may conduct an inspection of PanAmerican Telecommunications, Inc.'s equipment and facilities in the Remote Collocation Space(s) prior to the activation of facilities between PanAmerican Telecommunications, Inc.'s equipment and equipment of BellSouth. BellSouth may conduct an inspection if PanAmerican Telecommunications, Inc. adds equipment and may otherwise conduct routine inspections at reasonable intervals mutually agreed upon by the Parties. BellSouth shall provide PanAmerican Telecommunications, Inc. with a minimum of forty-eight (48) hours or two (2) business days, whichever is greater, advance notice of all such inspections. All costs of such inspection shall be borne by BellSouth.

#### 12. Security and Safety Requirements

12.1 PanAmerican Telecommunications, Inc. will be required, at its own expense, to conduct a statewide investigation of criminal history records for each PanAmerican

Telecommunications, Inc. employee being considered for work on the BellSouth Premises, for the states/counties where the PanAmerican Telecommunications, Inc. employee has worked and lived for the past five years. Where state law does not permit statewide collection or reporting, an investigation of the applicable counties is acceptable. PanAmerican Telecommunications, Inc. shall not be required to perform this investigation if an affiliated company of PanAmerican Telecommunications, Inc. has performed an investigation of the PanAmerican Telecommunications, Inc. employee seeking access, if such investigation meets the criteria set forth above. This requirement will not apply if PanAmerican Telecommunications, Inc. has performed a pre-employment statewide investigation of criminal history records of the PanAmerican Telecommunications, Inc. employee for the states/counties where the PanAmerican Telecommunications, Inc. employee has worked and lived for the past five years or, where state law does not permit a statewide investigation, an investigation of the applicable counties.

- PanAmerican Telecommunications, Inc. shall provide its employees and agents with picture identification which must be worn and visible at all times while in the Collocation Space or other areas in or around the Premises. The photo Identification card shall bear, at a minimum, the employee's name and photo, and the PanAmerican Telecommunications, Inc. name. BellSouth reserves the right to remove from its premises any employee of PanAmerican Telecommunications, Inc. not possessing identification issued by PanAmerican Telecommunications, Inc. or who have violated any of BellSouth's policies as outlined in the CLEC Security Training documents. PanAmerican Telecommunications, Inc. shall hold BellSouth harmless for any damages resulting from such removal of its personnel from BellSouth premises. PanAmerican Telecommunications, Inc. shall be solely responsible for ensuring that any Guest of PanAmerican Telecommunications, Inc. is in compliance with all subsections of this Section 12.
- PanAmerican Telecommunications, Inc. will be required to administer to their personnel assigned to the BellSouth Premises security training either provided by BellSouth, or meeting criteria defined by BellSouth.
- PanAmerican Telecommunications, Inc. shall not assign to the BellSouth Premises any personnel with records of felony criminal convictions. PanAmerican Telecommunications, Inc. shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions, except for misdemeanor traffic violations, without advising BellSouth of the nature and gravity of the offense(s). BellSouth reserves the right to refuse access to any PanAmerican Telecommunications, Inc. personnel who have been identified to have misdemeanor criminal convictions. Notwithstanding the foregoing, in the event that PanAmerican Telecommunications, Inc. chooses not to advise BellSouth of the nature and gravity of any misdemeanor conviction, PanAmerican Telecommunications, Inc. may, in the alternative, certify to BellSouth that it shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions (other than misdemeanor traffic violations).

- PanAmerican Telecommunications, Inc. shall not knowingly assign to the BellSouth Premises any individual who was a former employee of BellSouth and whose employment with BellSouth was terminated for a criminal offense whether or not BellSouth sought prosecution of the individual for the criminal offense.
- PanAmerican Telecommunications, Inc. shall not knowingly assign to the BellSouth Premises any individual who was a former contractor of BellSouth and whose access to a BellSouth Premises was revoked due to commission of a criminal offense whether or not BellSouth sought prosecution of the individual for the criminal offense.
- 12.5 For each PanAmerican Telecommunications, Inc. employee requiring access to a BellSouth Premises pursuant to this Attachment, PanAmerican Telecommunications, Inc. shall furnish BellSouth, prior to an employee gaining such access, a certification that the aforementioned background check and security training were completed. The certification will contain a statement that no felony convictions were found and certifying that the security training was completed by the employee. If the employee's criminal history includes misdemeanor convictions, PanAmerican Telecommunications, Inc. will disclose the nature of the convictions to BellSouth at that time. In the alternative, PanAmerican Telecommunications, Inc. may certify to BellSouth that it shall not assign to the BellSouth Premises any personnel with records of misdemeanor convictions other than misdemeanor traffic violations.
- At BellSouth's request, PanAmerican Telecommunications, Inc. shall promptly remove from BellSouth's Premises any employee of PanAmerican Telecommunications, Inc. BellSouth does not wish to grant access to its premises 1) pursuant to any investigation conducted by BellSouth or 2) prior to the initiation of an investigation if an employee of PanAmerican Telecommunications, Inc. is found interfering with the property or personnel of BellSouth or another CLEC, provided that an investigation shall promptly be commenced by BellSouth.
- Notification to BellSouth. BellSouth reserves the right to interview PanAmerican Telecommunications, Inc.'s employees, agents, or contractors in the event of wrongdoing in or around BellSouth's property or involving BellSouth's or another CLEC's property or personnel, provided that BellSouth shall provide reasonable notice to PanAmerican Telecommunications, Inc.'s Security contact of such interview. PanAmerican Telecommunications, Inc. and its contractors shall reasonably cooperate with BellSouth's investigation into allegations of wrongdoing or criminal conduct committed by, witnessed by, or involving PanAmerican Telecommunications, Inc.'s employees, agents, or contractors. Additionally, BellSouth reserves the right to bill PanAmerican Telecommunications, Inc. for all reasonable costs associated with investigations involving its employees, agents, or contractors if it is established and mutually agreed in good faith that PanAmerican Telecommunications, Inc.'s employees, agents, or contractors are responsible for the alleged act. BellSouth shall bill PanAmerican Telecommunications, Inc. for BellSouth property which is stolen or

damaged where an investigation determines the culpability of PanAmerican Telecommunications, Inc.'s employees, agents, or contractors and where PanAmerican Telecommunications, Inc. agrees, in good faith, with the results of such investigation. PanAmerican Telecommunications, Inc. shall notify BellSouth in writing immediately in the event that the PanAmerican Telecommunications, Inc. discovers one of its employees already working on the BellSouth premises is a possible security risk. Upon request of the other Party, the Party who is the employer shall discipline consistent with its employment practices, up to and including removal from BellSouth Premises, any employee found to have violated the security and safety requirements of this section. PanAmerican Telecommunications, Inc. shall hold BellSouth harmless for any damages resulting from such removal of its personnel from BellSouth premises.

- 12.8 <u>Use of Supplies</u>. Unauthorized use of telecommunications equipment or supplies by either Party, whether or not used routinely to provide telephone service (e.g. plug-in cards,) will be strictly prohibited and handled appropriately. Costs associated with such unauthorized use may be charged to the offending Party, as may be all associated investigative costs.
- 12.9 <u>Use of Official Lines</u>. Except for non-toll calls necessary in the performance of their work, neither Party shall use the telephones of the other Party on the BellSouth Premises. Charges for unauthorized telephone calls may be charged to the offending Party, as may be all associated investigative costs. In no event shall PanAmerican Telecommunications, Inc., its agents, vendors or employees access BellSouth or any other CLEC's end user telephone lines.
- 12.10 <u>Accountability</u>. Full compliance with the Security requirements of this section shall in no way limit the accountability of either Party to the other for the improper actions of its employees.

#### 13. Destruction of Remote Collocation Space

Remote Collocation Space is damaged. In the event a Remote Collocation Space is wholly or partially damaged by fire, windstorm, tornado, flood or by similar causes to such an extent as to be rendered wholly unsuitable for PanAmerican Telecommunications, Inc.'s permitted use hereunder, then either Party may elect within ten (10) business days after such damage, to terminate this Attachment with respect to the affected Remote Collocation Space, and if either Party shall so elect, by giving the other written notice of termination, both Parties shall stand released of and from further liability under the terms hereof with respect to such Remote Collocation Space. If the Remote Collocation Space shall suffer only minor damage and shall not be rendered wholly unsuitable for PanAmerican Telecommunications, Inc.'"'s permitted use, or is damaged and the option to terminate is not exercised by either Party, BellSouth covenants and agrees to proceed promptly without expense to PanAmerican Telecommunications, Inc., except for improvements not the property of

BellSouth, to repair the damage. BellSouth shall have a reasonable time within which to rebuild or make any repairs, and such rebuilding and repairing shall be subject to delays caused by storms, shortages of labor and materials, government regulations, strikes, walkouts, and causes beyond the control of BellSouth, which causes shall not be construed as limiting factors, but as exemplary only. PanAmerican Telecommunications, Inc. may, at its own expense, accelerate the rebuild of its Remote Collocation Space and equipment provided however that a BellSouth Certified Contractor is used and the necessary space preparation has been completed. Rebuild of equipment must be performed by a BellSouth Certified Vendor. If PanAmerican Telecommunications, Inc."'s acceleration of the project increases the cost of the project, then those additional charges will be incurred by PanAmerican Telecommunications, Inc.. Where allowed and where practical, PanAmerican Telecommunications, Inc. may erect a temporary facility while BellSouth rebuilds or makes repairs. In all cases where the Remote Collocation Space shall be rebuilt or repaired, PanAmerican Telecommunications, Inc. shall be entitled to an equitable abatement of rent and other charges, depending upon the unsuitability of the Remote Collocation Space for PanAmerican Telecommunications, Inc."'s permitted use, until such Remote Collocation Space is fully repaired and restored and PanAmerican Telecommunications, Inc."'s equipment installed therein (but in no event later than thirty (30) business days after the Remote Collocation Space is fully repaired and restored). Where PanAmerican Telecommunications, Inc. has placed a Remote Site Adjacent Arrangement pursuant to section 3.4, PanAmerican Telecommunications, Inc. shall have the sole responsibility to repair or replace said Remote Site Adjacent Arrangement provided herein. Pursuant to this section, BellSouth will restore the associated services to the Remote Site Adjacent Arrangement.

#### 14. Eminent Domain

14.1 Power of Eminent Domain. If the whole of a Remote Collocation Space or Remote Site Adjacent Arrangement shall be taken by any public authority under the power of eminent domain, then this Attachment shall terminate with respect to such Remote Collocation Space or Remote Site Adjacent Arrangement as of the day possession shall be taken by such public authority and rent and other charges for the Remote Collocation Space or Remote Site Adjacent Arrangement shall be paid up to that day with proportionate refund by BellSouth of such rent and charges as may have been paid in advance for a period subsequent to the date of the taking. If any part of the Remote Collocation Space or Remote Site Adjacent Arrangement shall be taken under eminent domain, BellSouth and PanAmerican Telecommunications, Inc. shall each have the right to terminate this Attachment with respect to such Remote Collocation Space or Remote Site Adjacent Arrangement and declare the same null and void, by written notice of such intention to the other Party within ten (10) business days after such taking.

## 15. <u>Nonexclusivity</u>

Attachment is not exclusive. PanAmerican Telecommunications, Inc. understands that this Attachment is not exclusive and that BellSouth may enter into similar agreements with other Parties. Assignment of space pursuant to all such agreements shall be determined by space availability and made on a first come, first served basis.

## ENVIRONMENTAL AND SAFETY PRINCIPLES

The following principles provide basic guidance on environmental and safety issues when applying for and establishing Physical Collocation arrangements.

## 1. GENERAL PRINCIPLES

- 1.1 Compliance with Applicable Law. BellSouth and PanAmerican Telecommunications, Inc. agree to comply with applicable federal, state, and local environmental and safety laws and regulations including U.S. Environmental Protection Agency (USEPA) regulations issued under the Clean Air Act (CAA), Clean Water Act (CWA), Resource Conservation and Recovery Act (RCRA), Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), Superfund Amendments and Reauthorization Act (SARA), the Toxic Substances Control Act (TSCA), and OSHA regulations issued under the Occupational Safety and Health Act of 1970, as amended and NFPA and National Electrical Codes (NEC) and the NESC ("Applicable Laws"). Each Party shall notify the other if compliance inspections are conducted by regulatory agencies and/or citations are issued that relate to any aspect of this Attachment.
- Notice. BellSouth and PanAmerican Telecommunications, Inc. shall provide notice to the other, including Material Safety Data Sheets (MSDSs), of known and recognized physical hazards or Hazardous Chemicals existing on site or brought on site. Each Party is required to provide specific notice for known potential Imminent Danger conditions. PanAmerican Telecommunications, Inc. should contact 1-800-743-6737 for BellSouth MSDS sheets.
- 1.3 Practices/Procedures. BellSouth may make available additional environmental control procedures for PanAmerican Telecommunications, Inc. to follow when working at a BellSouth Premises (See Section 2, below). These practices/procedures will represent the regular work practices required to be followed by the employees and contractors of BellSouth for environmental protection. PanAmerican Telecommunications, Inc. will require its contractors, agents and others accessing the BellSouth Premises to comply with these practices. Section 2 lists the Environmental categories where BST practices should be followed by PanAmerican Telecommunications, Inc. when operating in the BellSouth Premises.
- 1.4 <u>Environmental and Safety Inspections</u>. BellSouth reserves the right to inspect the PanAmerican Telecommunications, Inc. space with proper notification. BellSouth reserves the right to stop any PanAmerican Telecommunications, Inc. work operation that imposes Imminent Danger to the environment, employees or other persons in the area or Facility.

- 1.5 <u>Hazardous Materials Brought On Site</u>. Any hazardous materials brought into, used, stored or abandoned at the BellSouth Premises by PanAmerican Telecommunications, Inc. are owned by PanAmerican Telecommunications, Inc.. PanAmerican Telecommunications, Inc. will indemnify BellSouth for claims, lawsuits or damages to persons or property caused by these materials. Without prior written BellSouth approval, no substantial new safety or environmental hazards can be created by PanAmerican Telecommunications, Inc. or different hazardous materials used by PanAmerican Telecommunications, Inc. at BellSouth Facility. PanAmerican Telecommunications, Inc. must demonstrate adequate emergency response capabilities for its materials used or remaining at the BellSouth Facility.
- 1.6 <u>Spills and Releases</u>. When contamination is discovered at a BellSouth Premises, the Party discovering the condition must notify BellSouth. All Spills or Releases of regulated materials will immediately be reported by PanAmerican Telecommunications, Inc. to BellSouth.
- 1.7 Coordinated Environmental Plans and Permits. BellSouth and PanAmerican Telecommunications, Inc. will coordinate plans, permits or information required to be submitted to government agencies, such as emergency response plans, spill prevention control and countermeasures (SPCC) plans and community reporting. If fees are associated with filing, BellSouth and PanAmerican Telecommunications, Inc. will develop a cost sharing procedure. If BellSouth's permit or EPA identification number must be used, PanAmerican Telecommunications, Inc. must comply with all of BellSouth's permit conditions and environmental processes, including environmental "best management practices (BMP)" (see Section 2, below) and/or selection of BST disposition vendors and disposal sites.
- 1.8 Environmental and Safety Indemnification. BellSouth and PanAmerican Telecommunications, Inc. shall indemnify, defend and hold harmless the other Party from and against any claims (including, without limitation, third-party claims for personal injury or death or real or personal property damage), judgments, damages, (including direct and indirect damages, and punitive damages), penalties, fines, forfeitures, costs, liabilities, interest and losses arising in connection with the violation or alleged violation of any Applicable Law or contractual obligation or the presence or alleged presence of contamination arising out of the acts or omissions of the indemnifying Party, its agents, contractors, or employees concerning its operations at the Facility.

## 2. CATEGORIES FOR CONSIDERATION OF ENVIRONMENTAL ISSUES

When performing functions that fall under the following Environmental categories on BellSouth's Premises, PanAmerican Telecommunications, Inc. agrees to comply with the applicable sections of the current issue of BellSouth's Environmental and Safety Methods and Procedures (M&Ps), incorporated herein by this reference. PanAmerican Telecommunications, Inc. further agrees to cooperate with BellSouth to

ensure that PanAmerican Telecommunications, Inc.'s employees, agents, and/or subcontractors are knowledgeable of and satisfy those provisions of BellSouth's Environmental M&Ps which apply to the specific Environmental function being performed by PanAmerican Telecommunications, Inc., its employees, agents and/or subcontractors.

The most current version of reference documentation must be requested from BellSouth.

## 3. **DEFINITIONS**

<u>Generator</u>. Under RCRA, the person whose act produces a Hazardous Waste, as defined in 40 CFR 261, or whose act first causes a Hazardous Waste to become subject to regulation. The Generator is legally responsible for the proper management and disposal of Hazardous Wastes in accordance with regulations.

<u>Hazardous Chemical</u>. As defined in the U.S. Occupational Safety and Health (OSHA) hazard communication standard (29 CFR 1910.1200), any chemical which is a health hazard or physical hazard.

Hazardous Waste. As defined in section 1004 of RCRA.

<u>Imminent Danger</u>. Any conditions or practices at a facility which are such that a danger exists which could reasonably be expected to cause immediate death or serious harm to people or immediate significant damage to the environment or natural resources.

Spill or Release. As defined in Section 101 of CERCLA.

## 4. ACRONYMS

<u>E/S</u> – Environmental/Safety

**EVET** - Environmental Vendor Evaluation Team

<u>DEC/LDEC</u> - Department Environmental Coordinator/Local Department Environmental Coordinator

GU-BTEN-001BT - BellSouth Environmental Methods and Procedures

**NESC** - National Electrical Safety Codes

P&SM - Property & Services Management

Std. T&C - Standard Terms & Conditions

<sup>\*</sup> Extended intervals shall apply when multiple applications are submitted.

Note 1: The intervals were set by the FCC's Order in Docket No. 98-147 released February 20, 2001.

The construction and provisioning intervals, as listed for these states, will apply if a forecast is submitted three (3) months prior to the application date. Extended intervals shall apply if the forecast is not received three (3) months in advance.

## ACCESS TO NUMBERS AND NUMBER PORTABILITY

## 1. NON-DISCRIMINATORY ACCESS TO TELEPHONE NUMBERS

- 1.1 During the term of this Agreement, where PanAmerican Telecommunications, Inc. is utilizing its own switch, PanAmerican Telecommunications, Inc. shall contact the North American Numbering Plan Administrator, NeuStar, for the assignment of numbering resources. In order to be assigned a Central Office Code, PanAmerican Telecommunications, Inc. will be required to complete the Central Office Code (NXX) Assignment Request and Confirmation Form (Code Request Form) in accordance with Industry Numbering Committee's Central Office Code (NXX) Assignment Guidelines (INC 95-0407-008).
- Telecommunications, Inc., BellSouth will provide PanAmerican
  Telecommunications, Inc. with on-line access to intermediate telephone numbers as defined by applicable FCC rules and regulations on a first come first served basis. PanAmerican Telecommunications, Inc. acknowledges that such access to numbers shall be in accordance with the appropriate FCC rules and regulations. PanAmerican Telecommunications, Inc. acknowledges that there may be instances where there is a shortage of telephone numbers in a particular rate center; and in such instances, BellSouth may request that PanAmerican Telecommunications, Inc. return unused intermediate numbers to BellSouth. PanAmerican Telecommunications, Inc. shall return unused intermediate numbers to BellSouth upon BellSouth's request. BellSouth shall make all such requests on a nondiscriminatory basis.
- 1.3 BellSouth will allow PanAmerican Telecommunications, Inc. to designate up to 100 intermediate telephone numbers per rate center for PanAmerican Telecommunications, Inc.'s sole use. Assignment, reservation and use of telephone numbers shall be governed by applicable FCC rules and regulations. PanAmerican Telecommunications, Inc. acknowledges that there may be instances where there is a shortage of telephone numbers in a particular rate center and BellSouth has the right to limit access to blocks of intermediate telephone numbers. These instances include: 1) where jeopardy status has been declared by the North American Numbering Plan (NANP) for a particular Numbering Plan Area (NPA); or 2) where a rate center has less than six months supply of numbering resources.

## 2. NUMBER PORTABILITY PERMANENT SOLUTION

2.1 The Parties will offer local number portability in accordance with rules, regulations and guidelines adopted by the Commission, the FCC and industry fora. Interim

Service Provider Number Portability (SPNP) will be available only in those end offices where no carrier has requested implementation of permanent local number portability (PNP). Once PNP is implemented in an end office pursuant to the request of a carrier, both Parties must withdraw their SPNP offerings. The transition from existing SPNP arrangements to PNP shall occur within ninety (90) days from the date PNP is implemented in the end office. Neither Party shall charge the other Party for conversion from SPNP to PNP.

- 2.2 <u>End User Line Charge</u>. Where PanAmerican Telecommunications, Inc. subscribes to BellSouth's local switching, BellSouth shall bill and PanAmerican Telecommunications, Inc. shall pay the end user line charge associated with implementing PNP as set forth in BellSouth's FCC Tariff No. 1. This charge is not subject to the resale discount set forth in Attachment 1 of this Agreement.
- 2.3 To limit service outage, BellSouth and PanAmerican Telecommunications, Inc. will adhere to the process flows and cutover guidelines for porting numbers as outlined in the LNP Reference Guide, as amended from time to time. The LNP Reference Guide, incorporated herein by reference, is accessible via the Internet at the following site: http://www.interconnection.bellsouth.com. All intervals referenced in the LNP Reference Guide shall apply to both BellSouth and PanAmerican Telecommunications, Inc..
- 2.4 The Parties will set Local Routing Number (LRN) unconditional or 10-digit triggers where applicable. Where triggers are set, the porting Party will remove the ported number at the same time the trigger is removed.
- A trigger order is a service order issued in advance of the porting of a number. A trigger order 1) initiates call queries to the AIN SS7 network in advance of the number being ported; and 2) provides for the new service provider to be in control of when a number ports.
- 2.6 Where triggers are not set, the Parties shall coordinate the porting of the number between service providers so as to minimize service interruptions to the end user.
- 2.7 BellSouth and PanAmerican Telecommunications, Inc. will work cooperatively to implement changes to PNP process flows ordered by the FCC or as recommended by standard industry forums addressing PNP.

## 3. SERVICE PROVIDER NUMBER PORTABILITY

3.1 Where PNP has not been implemented in an end office, the Parties shall provide SPNP. SPNP is a service arrangement whereby an end user who switches subscription of his local exchange service from BellSouth to a CLEC, or vice versa, is permitted to retain the use of his existing assigned telephone number, provided that the end user remains at the same location for his local exchange service or changes locations and service providers but stays within the same BellSouth local calling area of his existing number. Except as otherwise expressly

provided herein, SPNP is available only where the local exchange carrier is currently providing basic local exchange service to the end user. SPNP for a particular assigned telephone number will be disconnected when any end user, Commission, BellSouth, or CLEC initiated activity (e.g., a change in exchange boundaries) would normally result in a telephone number change had the end user retained his initial local exchange service.

- 3.2 <u>Methods of Providing SPNP</u>. SPNP is available through either remote call forwarding or direct inward dialing trunks. Remote call forwarding (SPNP-RCF) is an existing switch-based service that redirects calls within the telephone network. Direct inward dialing trunks (SPNP-DID) allow calls to be routed over a dedicated facility to the switch that serves the subscriber.
- 3.3 <u>Signaling Requirements</u>. SS7 Signaling is required for the provision of SPNP services.
- 3.4 Rates
- 3.4.1 Rates for SPNP are set out in Exhibit A to this Attachment. If no rate is identified in the Attachment, the rate for the specific service or function will be as set forth in the applicable BellSouth tariff or as negotiated by the Parties upon request by either Party.

## 4. SPNP IMPLEMENTATION

- A.1 SPNP-RCF is a telecommunications service whereby a call dialed to an SPNP-RCF equipped telephone number is automatically forwarded to an assigned seven-or ten- digit telephone number within the local calling area as defined in BellSouth's General Subscriber Services Tariff. The forwarded-to number shall be specified by PanAmerican Telecommunications, Inc. or BellSouth, as appropriate. The forwarding Party will provide identification of the originating telephone number, via SS7 signaling, to the receiving Party. Identification of the originating telephone number to the SPNP-RCF end user cannot be guaranteed, however. SPNP-RCF provides a single call path for the forwarding of no more than one call to the receiving Party's specified forwarded-to number. Additional call paths for the forwarding of multiple simultaneous calls are available on a per path basis at rates as outlined in this Attachment.
- 4.2 SPNP-DID service provides trunk side access to end office switches for direct inward dialing to the other Party's premises equipment from the telecommunications network to lines associated with the other Party's switching equipment and must be provided on all trunks in a group arranged for inward service. SPNP-DID is available from BellSouth on a per DS0, DS1 or DS3 basis. A SPNP-DID trunk termination charge, provided with SS7 Signaling only, applies for each trunk voice grade equivalent. In addition, direct facilities are required from the end office where a ported number resides to the end office serving the

ported end user customer. The rates for a switched local channel and switched dedicated transport apply as contained in BellSouth's Intrastate Access Services tariff, as amended from time to time. Transport mileage will be calculated as the airline distance between the end office where the number is ported and the Point of Interface ("POI") using the V&H coordinate method. SPNP-DID must be established with a minimum configuration of two channels and one unassigned telephone number per switch, per arrangement for control purposes. Transport facilities arranged for SPNP-DID may not be mixed with any other type of trunk group, with no outgoing calls placed over said facilities. SPNP-DID will be provided only where such facilities are available and where the switching equipment of the ordering Party is properly equipped. Where SPNP-DID service is required from more than one wire center or from separate trunk groups within the same wire center, such service provided from each wire center or each trunk group within the same wire center shall be considered a separate service. Only customer-dialed sent-paid calls will be completed to the first number of a SPNP-DID number group; however, there are no restrictions on calls completed to other numbers of a SPNP-DID number group. Sent-paid calls refer to those calls placed by an end user who physically deposits currency in a public telephone. Interface group arrangements provided for terminating the switched transport at the Party's terminal location are as set forth in BellSouth's Intrastate Access Services Tariff, § E6.1.3.A as amended from time to time.

- 4.3 SPNP-DID Service requires ordering consecutive telephone numbers in blocks of twenty. PanAmerican Telecommunications, Inc. may order non-consecutive telephone numbers or telephone numbers in less than blocks of twenty pursuant to BellSouth's tariffs.
- 4.4 The calling Party shall be responsible for payment of the applicable charges for sent-paid calls to the SPNP number. For collect, third-party, or other operatorassisted non-sent paid calls to the ported telephone number, BellSouth or PanAmerican Telecommunications, Inc. shall be responsible for the payment of charges under the same terms and conditions for which the end user would have been liable. Either Party may request that the other Party block collect and third party non-sent paid calls to the SPNP-assigned telephone number. If a Party does not request blocking, the other Party will provide itemized local usage detail for the billing of non-sent paid calls on the monthly bill of usage charges provided at the individual end user account level. The detail will include itemization of all billable usage. Each Party shall have the option of receiving this usage data on a daily basis via a data file transfer arrangement. This arrangement will utilize the existing industry uniform standard, known as EMI standards, for exchange of billing data. Files of usage data will be created daily for the optional service. Usage originated and recorded in the sending BellSouth RAO will be provided in unrated or rated format, depending on the processing system. PanAmerican Telecommunications, Inc. usage originated elsewhere and delivered via CMDS to the sending BellSouth RAO shall be provided in rated format.

- 4.5 The new service provider shall be responsible for obtaining authorization from the end user for the handling of the disconnection of the end user's service, the provision of new local service and the provision of SPNP services. Each Party shall be responsible for coordinating the provision of service with the other to assure that its switch is capable of accepting SPNP ported traffic. Each Party shall be solely responsible to ensure that its facilities, equipment and services do not interfere with or impair any facility, equipment, or service of the other Party or any of its end users. In the event that either Party determines in its reasonable judgment that the other Party will likely impair or is impairing or interfering with any equipment, facility or service of any of its end users, that Party may either refuse to provide SPNP service or may terminate SPNP service to the other Party after providing appropriate notice.
- 4.6 Each Party shall be responsible for providing an appropriate intercept announcement service for any telephone numbers subscribed to SPNP-DID services for which it is not presently providing local exchange service or terminating to an end user. Where either Party chooses to disconnect or terminate any SPNP service, that Party shall be responsible for designating the preferred standard type of announcement to be provided.
- 4.7 End-to-end transmission characteristics may vary depending on the distance and routing necessary to complete calls over SPNP facilities and the fact that another carrier is involved in the provisioning of service. Neither Party shall specify end-to-end transmission characteristics for SPNP calls.
- 4.8 Where SPNP-RCF is utilized for SPNP, for terminating IXC traffic ported to either Party which requires use of either Party's tandem switching, the tandem provider will bill the IXC tandem switching, the interconnection charge, and a portion of the transport, and the other Party will bill the IXC local switching, the carrier common line and a portion of the transport. If the tandem provider is unable to provide the necessary access records to permit the other Party to bill the IXC directly for terminating access to ported numbers, then the tandem provider will bill the IXC full terminating switched access charges at the tandem provider's rate and will compensate the other Party at the tandem Party's tariff rates via a process used by BellSouth to estimate the amount of ported switched access revenues due the other Party. If an intraLATA toll call is delivered, the delivering Party will pay terminating access rates to the other Party.

## 5. OPERATIONAL SUPPORT SYSTEM (OSS) RATES

5.1 The terms, conditions and rates for OSS are as set forth in Attachment 2.

| 1     | Note: If no rate is identified in the contract, the rate for the specific service or function will be as set forth in applicable BellSouth tariff or as negotiated by the Parties upon request by either Party. |   |             |      |     |       |       |  |       |                       |                        | her Party. |           |   |              | 1          |       |

NOTE: Any element that can be ordered electronically will be billed according to the SOMEC rate listed. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOMEC rate reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLEC's bill when it submits an LSR to BellSouth.

| Note: If no rate is identified in the contract, the rate for the specific service or function will be as set forth in applicable BellSouth tariff or as negotiated by the Parties upon request by either Party.   |  |

NOTE: Any element that can be ordered electronically will be billed according to the SOMEC rate listed. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOMEC rate reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLEC's bill when it submits an LSR to BellSouth.

NOTE: Any element that can be ordered electronically will be billed according to the SOMEC rate listed. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOMEC rate reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLEC's bill when it submits an LSR to BellSouth.

|       |         | f no rate is identified in the contract, the rate for the specific and the specific section is a specific section. |             |      |     |       |      |              |            |       |              |       |                       |          |              |             |  |

NOTE: Any element that can be ordered electronically will be billed according to the SOMEC rate listed. Please refer to BellSouth's Business Rules for Local Ordering (BBR-LO) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the BBR-LO, the listed SOMEC rate reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLEC's bill when it submits an LSR to BellSouth.

#### PRE-ORDERING, ORDERING AND PROVISIONING, MAINTENANCE AND REPAIR

# 1. QUALITY OF PRE-ORDERING, ORDERING AND PROVISIONING, MAINTENANCE AND REPAIR

- 1.1 BellSouth shall provide pre-ordering, ordering and provisioning and maintenance and repair services to PanAmericanTelecommunications, Inc. that are equivalent to the pre-ordering, ordering and provisioning and maintenance and repair services BellSouth provides to itself or any other CLEC, where technically feasible. The guidelines for pre-ordering, ordering and provisioning and maintenance and repair are set forth in the various guides and business rules, as appropriate, and as they are amended from time to time during this Agreement. The guides and business rules are found at http://www.interconnection.bellsouth.com and are incorporated herein by reference.
- 1.2 For purposes of this Agreement, BellSouth's regular working hours for provisioning are defined as follows:

Monday – Friday – 8:00 a.m. – 5:00 p.m. (Excluding Holidays)
(Resale/UNE non-coordinated,
coordinated orders and order
coordinated-time specific)
Saturday - 8:00 a.m. – 5:00 p.m. (Excluding Holidays)
(Resale/UNE non-coordinated orders)

- 1.2.1 The above hours represent the hours, either Eastern or Central Time, of where the physical work is being performed.
- 1.2.2 To the extent PanAmericanTelecommunications, Inc. requests provisioning of service to be performed outside BellSouth's regular working hours, or the work so requested requires BellSouth's technicians to work outside regular working hours, overtime billing charges shall apply. Notwithstanding the foregoing, if such work is performed outside of regular working hours by a BellSouth technician during his or her scheduled shift and BellSouth does not incur any overtime charges in performing the work on behalf of PanAmericanTelecommunications, Inc., BellSouth will not assess PanAmericanTelecommunications, Inc. additional charges beyond the rates and charges specified in this Agreement.

#### 2. ACCESS TO OPERATIONS SUPPORT SYSTEMS

2.1 BellSouth shall provide PanAmericanTelecommunications, Inc. access to operations support systems ("OSS") functions for pre-ordering, ordering and provisioning, maintenance and repair, and billing. BellSouth shall provide access to the OSS through manual and/or electronic interfaces as described in this

Attachment. It is the sole responsibility of PanAmericanTelecommunications, Inc. to obtain the technical capability to access and utilize BellSouth's OSS interfaces. Specifications for PanAmericanTelecommunications, Inc.'s access and use of BellSouth's electronic interfaces are set forth at <a href="https://www.interconnection.bellsouth.com">www.interconnection.bellsouth.com</a> and are incorporated herein by reference.

- 2.1.1 Pre-Ordering. In accordance with FCC and Commission rules and orders, BellSouth will provide electronic access to the following pre-ordering functions: service address validation, telephone number selection, service and feature availability, due date information, customer record information and loop makeup information. Access is provided through the Local Exchange Navigation System (LENS) interface and the Telecommunications Access Gateway (TAG) interface. Customer record information includes customer specific information in CRIS and RSAG. In addition, PanAmericanTelecommunications, Inc. shall provide to BellSouth access to customer record information including electronic access where available. If electronic access is not available, PanAmericanTelecommunications, Inc. shall provide paper copies of customer record information within the same intervals that BellSouth provides paper copies to PanAmericanTelecommunications, Inc.. The Parties agree not to view, copy, or otherwise obtain access to the customer record information of any customer without that customer's permission. PanAmericanTelecommunications, Inc. will obtain access to customer record information only in strict compliance with applicable laws, rules, or regulations of the State in which the service is provided. BellSouth reserves the right to audit PanAmericanTelecommunications, Inc.'s access to customer record information. If a BellSouth audit of PanAmericanTelecommunications, Inc.'s access to customer record information reveals that PanAmericanTelecommunications, Inc. is accessing customer record information without having obtained the proper End User authorization, BellSouth upon reasonable notice to PanAmericanTelecommunications, Inc. may take corrective action, including but not limited to suspending or terminating PanAmericanTelecommunications, Inc.'s electronic access to BellSouth's OSS functionality. All such information obtained through an audit shall be deemed Information covered by the Proprietary and Confidential Information section in the General Terms and Conditions of this Agreement.
- 2.1.2 <u>Service Ordering</u>. BellSouth will make available the Electronic Data Interchange (EDI) interface and the TAG ordering interface for the purpose of exchanging order information, including order status and completion notification, for non-complex and certain complex resale requests and certain network elements. PanAmericanTelecommunications, Inc. may integrate the EDI interface or the TAG ordering interface with the TAG pre-ordering interface. In addition, BellSouth will provide integrated pre-ordering and ordering capability through the LENS interface for non-complex and certain complex resale service requests and certain network element requests.
- 2.1.3 <u>Maintenance and Repair</u>. PanAmericanTelecommunications, Inc. may report and monitor service troubles and obtain repair services from BellSouth via electronic

interfaces. BellSouth provides several options for electronic trouble reporting. For exchange services, BellSouth will offer PanAmericanTelecommunications, Inc. non-discriminatory access to the Trouble Analysis Facilitation Interface (TAFI). In addition, BellSouth will offer an industry standard, machine-to-machine Electronic Communications Trouble Administration (ECTA) Gateway interface. For designed services, BellSouth will provide non-discriminatory trouble reporting via the ECTA Gateway. BellSouth will provide PanAmericanTelecommunications, Inc. an estimated time to repair, an appointment time or a commitment time, as appropriate, on trouble reports. Requests for trouble repair will be billed in accordance with the provisions of this Attachment. BellSouth and PanAmericanTelecommunications, Inc. agree to adhere to BellSouth's Operational Understanding, as amended from time to time during this Agreement and as incorporated herein by reference. The Operational Understanding may be accessed via the Internet at http://www.interconnection.bellsouth.com.

- 2.2 <u>Change Management</u>. BellSouth provides a collaborative process for change management of the electronic interfaces through the Change Control Process (CCP). Guidelines for this process are set forth in the CCP document as amended from time to time during this Agreement. The CCP document may be accessed via the Internet at http://www.interconnection.bellsouth.com.
- 2.3 <u>BellSouth's Versioning Policy for Electronic Interfaces.</u> BellSouth's Versioning Policy is part of the Change Control Process (CCP). Pursuant to the CCP, BellSouth will issue new software releases for new industry standards for its EDI and TAG electronic interfaces. The Versioning Policy, including the appropriate notification to PanAmericanTelecommunications, Inc., is set forth in the CCP document as amended from time to time during this Agreement. The CCP document may be accessed via the Internet at http://www.interconnection.bellsouth.com.
- 2.4 <u>Rates.</u> Charges for use of OSS shall be as set forth in Attachments 1 and 2 of this Agreement and are incorporated herein by reference.

#### 3. MISCELLANEOUS

- Pending Orders. Orders placed in the hold or pending status by PanAmericanTelecommunications, Inc. will be held for a maximum of thirty (30) days from the date the order is placed on hold. After such time, PanAmericanTelecommunications, Inc. shall be required to submit a new service order. Incorrect or invalid orders returned to PanAmericanTelecommunications, Inc. for correction or clarification will be held for ten (10) days. If PanAmericanTelecommunications, Inc. does not return a corrected order within ten (10) days, BellSouth will cancel the order.
- 3.2 <u>Single Point of Contact</u>. PanAmericanTelecommunications, Inc. will be the single point of contact with BellSouth for ordering activity for network elements and other services used by PanAmericanTelecommunications, Inc. to provide services

to its end users, except that BellSouth may accept an order directly from another CLEC, or BellSouth, acting with authorization of the affected end user. PanAmericanTelecommunications, Inc. and BellSouth shall each execute a blanket letter of authorization with respect to customer orders. The Parties shall each be entitled to adopt their own internal processes for verification of customer authorization for orders, provided, however, that such processes shall comply with applicable state and federal law including, until superseded, the FCC guidelines and orders applicable to Presubscribed Interexchange Carrier (PIC) changes, including Un-PIC. Pursuant to an order from another carrier, BellSouth may disconnect any network element being used by PanAmericanTelecommunications, Inc. to provide service to that end user and may reuse such network elements or facilities to enable such other carrier to provide service to the end user. BellSouth will notify PanAmericanTelecommunications, Inc. that such an order has been processed, but will not be required to notify PanAmericanTelecommunications, Inc. in advance of such processing.

- 3.3 <u>Use of Facilities</u>. When a customer of PanAmericanTelecommunications, Inc. elects to discontinue service and transfer service to another local exchange carrier, including BellSouth, BellSouth shall have the right to reuse the facilities provided to PanAmericanTelecommunications, Inc. by BellSouth. In addition, where BellSouth provides local switching, BellSouth may disconnect and reuse facilities when the facility is in a denied state and BellSouth has received an order to establish new service or transfer of service from a customer or a customer's CLEC at the same address served by the denied facility. BellSouth will notify PanAmericanTelecommunications, Inc. that such an order has been processed after the disconnect order has been completed.
- 3.4 <u>Contact Numbers</u>. The Parties agree to provide one another with toll-free nation-wide (50 states) contact numbers for the purpose of ordering, provisioning and maintenance of services.
- 3.5 <u>Subscription Functions</u>. In cases where BellSouth performs subscription functions for an interexchange carrier ("IXC") (i.e. PIC and LPIC changes via Customer Account Record Exchange (CARE)), BellSouth will provide the affected IXCs with the Operating Company Number (OCN) of the local provider for the purpose of obtaining end user billing account and other end user information required under subscription requirements.
- 3.6 <u>Cancellation Charges</u>. If PanAmericanTelecommunications, Inc. cancels an order for Network Elements or other services, any costs incurred by BellSouth in conjunction with the provisioning of that order will be recovered in accordance with BellSouth's Private Line Tariff or BellSouth's FCC No. 1 Tariff, Section 5, as applicable.
- 3.7 <u>Service Date Advancement Charges (a.k.a. Expedites)</u>. For Service Date Advancement requests by PanAmericanTelecommunications, Inc., Service Date Advancement charges will apply for intervals less than the standard interval as

outlined in the BellSouth Product and Services Interval Guide. The charges as outlined in BellSouth's Private Line Tariff or BellSouth's FCC No. 1 Tariff, Section 5, will apply as applicable.

#### BILLING

## 1. PAYMENT AND BILLING ARRANGEMENTS

The terms and conditions set forth in this Attachment shall apply to all services ordered and provisioned pursuant to this Agreement.

- 1.1 <u>Billing</u>. BellSouth will bill through the Carrier Access Billing System (CABS) and through the Customer Records Information System (CRIS) depending on the particular service(s) provided to PanAmerican Telecommunications, Inc. under this Agreement. BellSouth will format all bills in CBOS Standard or CLUB/EDI format, depending on the type of service provided. For those services where standards have not yet been developed, BellSouth's billing format will change as necessary when standards are finalized by the applicable industry forum.
- 1.1.1 For any service(s) BellSouth receives from PanAmerican Telecommunications, Inc., PanAmerican Telecommunications, Inc. shall bill BellSouth in CABS format.
- 1.1.2 If either Party requests multiple billing media or additional copies of bills, the Billing Party will provide these at a reasonable cost.
- 1.1.3 Any switched access charges associated with interexchange carrier access to the resold local exchange lines will be billed by, and due to BellSouth.
- 1.1.4 BellSouth will render bills each month for resold lines on established bill days for each of PanAmerican Telecommunications, Inc.'s accounts. If either Party requests multiple billing media or additional copies of the bills, the Billing Party will provide these at a reasonable cost.
- 1.1.5 BellSouth will bill PanAmerican Telecommunications, Inc. in advance for all resold services to be provided during the ensuing billing period except charges associated with service usage, which will be billed in arrears. Charges will be calculated on an individual End User account level, including, if applicable, any charge for usage or usage allowances. BellSouth will also bill PanAmerican Telecommunications, Inc., and PanAmerican Telecommunications, Inc. will be responsible for and remit to BellSouth, all charges applicable to resold services including but no limited to 911 and E911 charges, End Users common line charges, federal subscriber line charges, telecommunications relay charges (TRS), and franchise fees.
- 1.1.6 BellSouth will not perform billing and collection services for PanAmerican Telecommunications, Inc. as a result of the execution of this Agreement. All requests for billing services should be referred to the appropriate entity or operational group within BellSouth.
- 1.2 <u>Establishing Accounts</u>. After receiving certification as a local exchange carrier from the appropriate regulatory agency, PanAmerican Telecommunications, Inc. will provide the appropriate BellSouth account manager the necessary

documentation to enable BellSouth to establish accounts for Local Interconnection, Network Elements and Other Services, Collocation and/or resold services. Such documentation shall include the Application for Master Account, if applicable, proof of authority to provide telecommunications services, the appropriate Operating Company Number (OCN) assigned by the National Exchange Carriers Association (NECA), Carrier Identification Code (CIC), Group Access Code (GAC), Access Customer Name and Abbreviation (ACNA), as applicable, and a tax exemption certificate, if applicable.

- 1.2.1 Payment Responsibility. Payment of all charges will be the responsibility of PanAmerican Telecommunications, Inc.. PanAmerican Telecommunications, Inc. shall make payment to BellSouth for all services billed. Payments made by PanAmerican Telecommunications, Inc. to BellSouth as payment on account will be credited to PanAmerican Telecommunications, Inc.'s accounts receivable master account. BellSouth will not become involved in billing disputes that may arise between PanAmerican Telecommunications, Inc. and PanAmerican Telecommunications, Inc.'s customer.
- 1.3 Payment Due. Payment for services provided will be due on or before the next bill date (i.e., same date in the following month as the bill date) and is payable in immediately available funds. Payment is considered to have been made when received by BellSouth.
- 1.4 If the payment due date falls on a Sunday or on a Holiday that is observed on a Monday, the payment due date shall be the first non-Holiday day following such Sunday or Holiday. If the payment due date falls on a Saturday or on a Holiday which is observed on Tuesday, Wednesday, Thursday, or Friday, the payment due date shall be the last non-Holiday day preceding such Saturday or Holiday. If payment is not received by the payment due date, a late payment charge, as set forth in Section 1.6, below, shall apply.
- 1.5 <u>Tax Exemption</u>. Upon BellSouth's receipt of tax exemption certificate, the total amount billed to PanAmerican Telecommunications, Inc. will not include those taxes or fees from which PanAmerican Telecommunications, Inc. is exempt. PanAmerican Telecommunications, Inc. will be solely responsible for the computation, tracking, reporting and payment of all taxes and like fees associated with the services provided to the end user of PanAmerican Telecommunications, Inc..
- Late Payment. If any portion of the payment is received by BellSouth after the payment due date as set forth preceding, or if any portion of the payment is received by BellSouth in funds that are not immediately available to BellSouth, then a late payment charge shall be due to BellSouth. The late payment charge shall be the portion of the payment not received by the payment due date multiplied by a late factor and will be applied on a per bill basis. The late factor shall be as set forth in Section A2 of the General Subscriber Services Tariff,

Section B2 of the Private Line Service Tariff or Section E2 of the Intrastate Access Tariff, as appropriate. In addition to any applicable late payment charges, PanAmerican Telecommunications, Inc. may be charged a fee for all returned checks as set forth in Section A2 of the General Subscriber Services Tariff or pursuant to the applicable state law.

- 1.7 <u>Discontinuing Service to PanAmerican Telecommunications, Inc.</u>. The procedures for discontinuing service to PanAmerican Telecommunications, Inc. are as follows:
- 1.7.1 BellSouth reserves the right to suspend or terminate service in the event of prohibited, unlawful or improper use of BellSouth facilities or service, abuse of BellSouth facilities, or any other violation or noncompliance by PanAmerican Telecommunications, Inc. of the rules and regulations of BellSouth's tariffs.
- 1.7.2 BellSouth reserves the right to suspend or terminate service for nonpayment. If payment of amounts not subject to a billing dispute, as described in Section 2, is not received by the bill date in the month after the original bill date, BellSouth will provide written notice to PanAmerican Telecommunications, Inc. that additional applications for service may be refused, that any pending orders for service may not be completed, and/or that access to ordering systems may be suspended if payment is not received by the fifteenth day following the date of the notice. In addition, BellSouth may, at the same time, provide written notice to the person designated by PanAmerican Telecommunications, Inc. to receive notices of noncompliance that BellSouth may discontinue the provision of existing services to PanAmerican Telecommunications, Inc. if payment is not received by the thirtieth day following the date of the initial notice.
- 1.7.3 In the case of such discontinuance, all billed charges, as well as applicable termination charges, shall become due.
- 1.7.4 If BellSouth does not discontinue the provision of the services involved on the date specified in the thirty days notice and PanAmerican Telecommunications, Inc.'s noncompliance continues, nothing contained herein shall preclude BellSouth's right to discontinue the provision of the services to PanAmerican Telecommunications, Inc. without further notice.
- 1.7.5 Upon discontinuance of service on PanAmerican Telecommunications, Inc.'s account, service to PanAmerican Telecommunications, Inc.'s end users will be denied. BellSouth will reestablish service for PanAmerican Telecommunications, Inc. upon payment of all past due charges and the appropriate connection fee subject to BellSouth's normal application procedures. PanAmerican Telecommunications, Inc. is solely responsible for notifying the end user of the proposed service disconnection. If within fifteen (15) days after PanAmerican Telecommunications, Inc. has been denied and no arrangements to reestablish service have been made consistent with this subsection, PanAmerican Telecommunications, Inc.'s service will be disconnected.

- 1.8 Deposit Policy. PanAmerican Telecommunications, Inc. shall complete the BellSouth Credit Profile and provide information to BellSouth regarding credit worthiness. Based on the results of the credit analysis, BellSouth reserves the right to secure the account with a suitable form of security deposit. Such security deposit shall take the form of cash, an Irrevocable Letter of Credit (BellSouth form), Surety Bond (BellSouth form) or, in BellSouth's sole discretion, some other form of security. Any such security deposit shall in no way release PanAmerican Telecommunications, Inc. from its obligation to make complete and timely payments of its bill. PanAmerican Telecommunications, Inc. shall pay any applicable deposits prior to the inauguration of service. If, in the sole opinion of BellSouth, circumstances so warrant and/or gross monthly billing has increased beyond the level initially used to determine the level of security deposit, BellSouth reserves the right to request additional security and/or file a Uniform Commercial Code (UCC-1) security interest in PanAmerican Telecommunications, Inc.'s "accounts receivables and proceeds." Interest on a security deposit, if provided in cash, shall accrue and be paid in accordance with the terms in the appropriate BellSouth tariff. Security deposits collected under this Section shall not exceed two months' estimated billing. In the event PanAmerican Telecommunications, Inc. fails to remit to BellSouth any deposit requested pursuant to this Section, service to PanAmerican Telecommunications, Inc. may be terminated in accordance with the terms of Section 1.7 of this Attachment, and any security deposits will be applied to PanAmerican Telecommunications, Inc.'s account(s).
- 1.9 Notices. Notwithstanding anything to the contrary in this Agreement, all bills and notices regarding billing matters, including notices relating to security deposits, disconnection of services for nonpayment of charges, and rejection of additional orders from PanAmerican Telecommunications, Inc., shall be forwarded to the individual and/or address provided by PanAmerican Telecommunications, Inc. in establishment of its billing account(s) with BellSouth, or to the individual and/or address subsequently provided by PanAmerican Telecommunications, Inc. as the contact for billing information. All monthly bills and notices described in this Section shall be forwarded to the same individual and/or address; provided, however, upon written notice from PanAmerican Telecommunications, Inc. to BellSouth's billing organization, a final notice of disconnection of services purchased by PanAmerican Telecommunications, Inc. under this Agreement shall be sent via certified mail to the individual(s) listed in the Notices provision of the General Terms and Conditions of this Agreement at least 30 days before BellSouth takes any action to terminate such services.
- 1.10 Rates. Rates for Optional Daily Usage File (ODUF), Access Daily Usage File (ADUF), and Centralized Message Distribution Service (CMDS) are set out in Exhibit A to this Attachment. If no rate is identified in this Attachment, the rate for the specific service or function will be as set forth in applicable BellSouth tariff or as negotiated by the Parties upon request by either Party.

#### 2. BILLING DISPUTES

- 2.1 Each Party agrees to notify the other Party in writing upon the discovery of a billing dispute. PanAmerican Telecommunications, Inc. shall report all billing disputes to BellSouth using the Billing Adjustment Request Form (RF 1461) provided by BellSouth. In the event of a billing dispute, the Parties will endeavor to resolve the dispute within sixty (60) calendar days of the notification date. If the Parties are unable within the 60 day period to reach resolution, then the aggrieved Party may pursue dispute resolution in accordance with the General Terms and Conditions of this Agreement.
- 2.2 For purposes of this Section 2, a billing dispute means a reported dispute of a specific amount of money actually billed by either Party. The dispute must be clearly explained by the disputing Party and supported by written documentation, which clearly shows the basis for disputing charges. By way of example and not by limitation, a billing dispute will not include the refusal to pay all or part of a bill or bills when no written documentation is provided to support the dispute, nor shall a billing dispute include the refusal to pay other amounts owed by the billed Party until the dispute is resolved. Claims by the billed Party for damages of any kind will not be considered a billing dispute for purposes of this Section. If the billing dispute is resolved in favor of the billing Party, the disputing Party will make immediate payment of any of the disputed amount owed to the billing Party or the billing Party shall have the right to pursue normal treatment procedures. Any credits due to the disputing Party, pursuant to the billing dispute, will be applied to the disputing Party's account by the billing Party immediately upon resolution of the dispute.
- 2.3 If a Party disputes a charge and does not pay such charge by the payment due date, or if a payment or any portion of a payment is received by either Party after the payment due date, or if a payment or any portion of a payment is received in funds which are not immediately available to the other Party, then a late payment charge and interest, where applicable, shall be assessed. For bills rendered by either Party for payment, the late payment charge for both Parties shall be calculated based on the portion of the payment not received by the payment due date multiplied by the late factor as set forth in the following BellSouth tariffs: for services purchased from the General Subscribers Services Tariff for purposes of resale and for ports and non-designed loops, Section A2 of the General Subscriber Services Tariff; for services purchased from the Private Line Tariff for purposes of resale, Section B2 of the Private Line Service Tariff; and for designed network elements and other services and local interconnection charges, Section E2 of the Access Service Tariff. The Parties shall assess interest on previously assessed late payment charges only in a state where it has the authority pursuant to its tariffs.

# 3. RAO HOSTING

3.1 RAO Hosting, Calling Card and Third Number Settlement System (CATS) and Non-Intercompany Settlement System (NICS) services provided to PanAmerican Telecommunications, Inc. by BellSouth will be in accordance with the methods

and practices regularly applied by BellSouth to its own operations during the term of this Agreement, including such revisions as may be made from time to time by BellSouth.

- PanAmerican Telecommunications, Inc. shall furnish all relevant information required by BellSouth for the provision of RAO Hosting, CATS and NICS.
- 3.3 Charges or credits, as applicable, will be applied by BellSouth to PanAmerican Telecommunications, Inc. on a monthly basis in arrears. Amounts due (excluding adjustments) are payable within thirty (30) days of receipt of the billing statement.
- PanAmerican Telecommunications, Inc. must have its own unique hosted RAO code. Where BellSouth is the selected CMDS interfacing host, PanAmerican Telecommunications, Inc. must request that BellSouth establish a unique hosted RAO code for PanAmerican Telecommunications, Inc.. Such request shall be in writing to the BellSouth RAO Hosting coordinator and must be submitted at least eight (8) weeks prior to provision of services pursuant to this Section. Services shall commence on a date mutually agreed by the Parties.
- 3.5 BellSouth will receive messages from PanAmerican Telecommunications, Inc. that are to be processed by BellSouth, another LEC in the BellSouth region or a LEC outside the BellSouth region. PanAmerican Telecommunications, Inc. shall send all messages to BellSouth no later than sixty (60) days after the message date.
- 3.6 BellSouth will perform invoice sequence checking, standard EMI format editing, and balancing of message data with the EMI trailer record counts on all data received from PanAmerican Telecommunications, Inc..
- 3.7 All data received from PanAmerican Telecommunications, Inc. that is to be processed or billed by another LEC within the BellSouth region will be distributed to that LEC in accordance with the Agreement(s) in effect between BellSouth and the involved LEC.
- All data received from PanAmerican Telecommunications, Inc. that is to be placed on the CMDS network for distribution outside the BellSouth region will be handled in accordance with the agreement(s) in effect between BellSouth and its connecting contractor.
- 3.9 BellSouth will receive messages from the CMDS network that are destined to be processed by PanAmerican Telecommunications, Inc. and will forward them to PanAmerican Telecommunications, Inc. on a daily basis for processing.
- 3.10 Transmission of message data between BellSouth and PanAmerican Telecommunications, Inc. will be via CONNECT:Direct.
- 3.10.1 Data circuits (private line or dial-up) will be required between BellSouth and PanAmerican Telecommunications, Inc. for the purpose of data transmission.

Where a dedicated line is required, PanAmerican Telecommunications, Inc. will be responsible for ordering the circuit and coordinating the installation with BellSouth. PanAmerican Telecommunications, Inc. is responsible for any charges associated with this line. Equipment required on the BellSouth end to attach the line to the mainframe computer and to transmit data will be negotiated on a individual case basis. Where a dial-up facility is required, dial circuits will be installed in the BellSouth data center by BellSouth and the associated charges assessed to PanAmerican Telecommunications, Inc.. Additionally, all message toll charges associated with the use of the dial circuit by PanAmerican Telecommunications, Inc. will be the responsibility of PanAmerican Telecommunications, Inc.. Associated equipment on the BellSouth end, including a modem, will be negotiated on a individual case basis between the Parties. All equipment, including modems and software, that is required on the PanAmerican Telecommunications, Inc. end for the purpose of data transmission will be the responsibility of PanAmerican Telecommunications, Inc..

- 3.11 All messages and related data exchanged between BellSouth and PanAmerican Telecommunications, Inc. will be formatted for EMI formatted records and packed between appropriate EMI header and trailer records in accordance with accepted industry standards.
- PanAmerican Telecommunications, Inc. will maintain recorded message detail necessary to recreate files provided to BellSouth for a period of three (3) calendar months beyond the related message dates.
- 3.13 Should it become necessary for PanAmerican Telecommunications, Inc. to send data to BellSouth more than sixty (60) days past the message date(s), PanAmerican Telecommunications, Inc. will notify BellSouth in advance of the transmission of the data. BellSouth will work with its connecting contractor and/or PanAmerican Telecommunications, Inc., where necessary, to notify all affected LECs.
- In the event that data to be exchanged between the two Parties should become lost or destroyed, the Party responsible for creating the data will make every effort to restore and retransmit such data. If the data cannot be retrieved, the Party responsible for losing or destroying the data will be liable to the other Party for any resulting lost revenue. Lost revenue may be a combination of revenues that could not be billed to the end users and associated access revenues. Both Parties will work together to estimate the revenue amount based upon historical data through a method mutually agreed upon. The resulting estimated revenue loss will be paid by the responsible Party to the other Party within three (3) calendar months of the resolution of the amount owed, or as mutually agreed upon by the Parties.
- 3.15 Should an error be detected by the EMI format edits performed by BellSouth on data received from PanAmerican Telecommunications, Inc., the entire pack

containing the affected data will not be processed by BellSouth. BellSouth will notify PanAmerican Telecommunications, Inc. of the error. PanAmerican Telecommunications, Inc. will correct the error(s) and will resend the entire pack to BellSouth for processing. In the event that an out-of-sequence condition occurs on subsequent packs, PanAmerican Telecommunications, Inc. will resend these packs to BellSouth after the pack containing the error has been successfully reprocessed by BellSouth.

- 3.16 In association with message distribution service, BellSouth will provide PanAmerican Telecommunications, Inc. with associated intercompany settlements reports (CATS and NICS) as appropriate.
- 3.17 Notwithstanding anything in this Agreement to the contrary, in no case shall either Party be liable to the other for any direct or consequential damages incurred as a result of the obligations set out in this Section 3.
- 3.18 Intercompany Settlements Messages
- 3.18.1 Intercompany Settlements Messages facilitate the settlement of revenues associated with traffic originated from or billed by PanAmerican Telecommunications, Inc. as a facilities based provider of local exchange telecommunications services outside the BellSouth region. Only traffic that originates in one Bell operating territory and bills in another Bell operating territory is included. Traffic that originates and bills within the same Bell operating territory will be settled on a local basis between PanAmerican Telecommunications, Inc. and the involved company(ies), unless that company is participating in NICS.
- 3.18.2 Both traffic that originates outside the BellSouth region by PanAmerican Telecommunications, Inc. and is billed within the BellSouth region, and traffic that originates within the BellSouth region and is billed outside the BellSouth region by PanAmerican Telecommunications, Inc., is covered by CATS. Also covered is traffic that either is originated by or billed by PanAmerican Telecommunications, Inc., involves a company other than PanAmerican Telecommunications, Inc., qualifies for inclusion in the CATS settlement, and is not originated or billed within the BellSouth region (NICS).
- 3.18.3 Once PanAmerican Telecommunications, Inc. is operating within the BellSouth territory, revenues associated with calls originated and billed within the BellSouth region will be settled via NICS.
- 3.18.4 BellSouth will receive the monthly NICS reports from Telcordia on behalf of PanAmerican Telecommunications, Inc.. BellSouth will distribute copies of these reports to PanAmerican Telecommunications, Inc. on a monthly basis.

- 3.18.5 BellSouth will receive the monthly CATS reports from Telcordia on behalf of PanAmerican Telecommunications, Inc.. BellSouth will distribute copies of these reports to PanAmerican Telecommunications, Inc. on a monthly basis.
- 3.18.6 BellSouth will collect the revenue earned by PanAmerican Telecommunications, Inc. from the Bell operating company in whose territory the messages are billed via CATS, less a per message billing and collection fee of five cents (\$0.05), on behalf of PanAmerican Telecommunications, Inc.. BellSouth will remit the revenue billed by PanAmerican Telecommunications, Inc. to the Bell operating company in whose territory the messages originated, less a per message billing and collection fee of five cents (\$0.05), on behalf on PanAmerican Telecommunications, Inc.. These two amounts will be netted together by BellSouth and the resulting charge or credit issued to PanAmerican Telecommunications, Inc. via a monthly Carrier Access Billing System (CABS) miscellaneous bill.
- 3.18.7 BellSouth will collect the revenue earned by PanAmerican Telecommunications, Inc. within the BellSouth territory from another CLEC also within the BellSouth territory (NICS) where the messages are billed, less a per message billing and collection fee of five cents (\$0.05), on behalf of PanAmerican Telecommunications, Inc.. BellSouth will remit the revenue billed by PanAmerican Telecommunications, Inc. within the BellSouth region to the CLEC also within the BellSouth region, where the messages originated, less a per message billing and collection fee of five cents (\$0.05). These two amounts will be netted together by BellSouth and the resulting charge or credit issued to PanAmerican Telecommunications, Inc. via a monthly CABS miscellaneous bill.
- 3.18.8 BellSouth and PanAmerican Telecommunications, Inc. agree that monthly netted amounts of less than fifty dollars (\$50.00) will not be settled.

## 4. OPTIONAL DAILY USAGE FILE

- 4.1 Upon written request from PanAmerican Telecommunications, Inc., BellSouth will provide the Optional Daily Usage File (ODUF) service to PanAmerican Telecommunications, Inc. pursuant to the terms and conditions set forth in this section.
- 4.2 PanAmerican Telecommunications, Inc. shall furnish all relevant information required by BellSouth for the provision of the ODUF.
- 4.3 The ODUF feed will contain billable messages that were carried over the BellSouth Network and processed in the BellSouth Billing System, but billed to a PanAmerican Telecommunications, Inc. customer.
- 4.4 Charges for the ODUF will appear on PanAmerican Telecommunications, Inc.s' monthly bills. The charges are as set forth in Exhibit A to this Attachment.

4.5 The ODUF feed will contain both rated and unrated messages. All messages will be in the standard Alliance for Telecommunications Industry Solutions (ATIS) EMI record format. 4.6 Messages that error in the billing system of PanAmerican Telecommunications, Inc. will be the responsibility of PanAmerican Telecommunications, Inc.. If, however, PanAmerican Telecommunications, Inc. should encounter significant volumes of errored messages that prevent processing by PanAmerican Telecommunications, Inc. within its systems, BellSouth will work with PanAmerican Telecommunications, Inc. to determine the source of the errors and the appropriate resolution. 4.7 The following specifications shall apply to the ODUF feed. 4.7.1 ODUF Messages to be Transmitted 4.7.1.1 The following messages recorded by BellSouth will be transmitted to PanAmerican Telecommunications, Inc.: 4.7.1.1.1 Message recording for per use/per activation type services (examples: Three -Way Calling, Verify, Interrupt, Call Return, etc.) 4.7.1.1.2 Measured billable Local 4.7.1.1.3 Directory Assistance messages 4.7.1.1.4 IntraLATA Toll 4.7.1.1.5 WATS and 800 Service 4.7.1.1.6 N11 4.7.1.1.7 Information Service Provider Messages 4.7.1.1.8 **Operator Services Messages** 4.7.1.1.9 Operator Services Message Attempted Calls (Network Element only) 4.7.1.1.10 Credit/Cancel Records 4.7.1.1.11 Usage for Voice Mail Message Service 4.7.1.2 Rated Incollects (messages BellSouth receives from other revenue accounting offices) can also be on ODUF. Rated Incollects will be intermingled with BellSouth recorded rated and unrated usage. Rated Incollects will not be packed

separately.

- 4.7.1.3 BellSouth will perform duplicate record checks on records processed to ODUF. Any duplicate messages detected will be deleted and not sent to PanAmerican Telecommunications, Inc..
- 4.7.1.4 In the event that PanAmerican Telecommunications, Inc. detects a duplicate on ODUF they receive from BellSouth, PanAmerican Telecommunications, Inc. will drop the duplicate message and will not return the duplicate to BellSouth.
- 4.7.2 ODUF Physical File Characteristics
- 4.7.2.1 ODUF will be distributed to PanAmerican Telecommunications, Inc. via CONNECT:Direct or another mutually agreed medium. The ODUF feed will be a variable block format (2476) with a Logical Record Link (LRECL) of 2472. The data on the ODUF feed will be in a non-compacted EMI format (175 byte format plus modules). It will be created on a daily basis Monday through Friday except holidays. Details such as dataset name and delivery schedule will be addressed during negotiations of the distribution medium. There will be a maximum of one dataset per workday per OCN.
- 4.7.2.2 Data circuits (private line or dial-up) will be required between BellSouth and PanAmerican Telecommunications, Inc. for the purpose of data transmission as set forth in Section 3.10.1 above.
- 4.7.3 ODUF Packing Specifications
- 4.7.3.1 A pack will contain a minimum of one message record or a maximum of 99,999 message records plus a pack header record and a pack trailer record. One transmission can contain a maximum of 99 packs and a minimum of one pack.
- 4.7.3.2 The OCN, From RAO, and Invoice Number will control the invoice sequencing. The From RAO will be used to identify to PanAmerican Telecommunications, Inc. which BellSouth RAO that is sending the message. BellSouth and PanAmerican Telecommunications, Inc. will use the invoice sequencing to control data exchange. BellSouth will be notified of sequence failures identified by PanAmerican Telecommunications, Inc. and resend the data as appropriate.

The data will be packed using ATIS EMI records.

- 4.7.4 ODUF Pack Rejection
- 4.7.4.1 PanAmerican Telecommunications, Inc. will notify BellSouth within one business day of rejected packs (via the mutually agreed medium). Packs could be rejected because of pack sequencing discrepancies or a critical edit failure on the Pack Header or Pack Trailer records (i.e. out-of-balance condition on grand totals, invalid data populated). Standard ATIS EMI error codes will be used. PanAmerican Telecommunications, Inc. will not be required to return the actual rejected data to BellSouth. Rejected packs will be corrected and retransmitted to PanAmerican Telecommunications, Inc. by BellSouth.

#### 4.7.5 ODUF Control Data

4.7.5.1 PanAmerican Telecommunications, Inc. will send one confirmation record per pack that is received from BellSouth. This confirmation record will indicate PanAmerican Telecommunications, Inc.'s receipt of the pack and acceptance or rejection of the pack. Pack Status Code(s) will be populated using standard ATIS EMI error codes for packs that were rejected by PanAmerican Telecommunications, Inc. for reasons stated in the above section.

## 4.7.6 ODUF Testing

4.7.6.1 Upon request from PanAmerican Telecommunications, Inc., BellSouth shall send ODUF test files to PanAmerican Telecommunications, Inc.. The Parties agree to review and discuss the ODUF content and/or format. For testing of usage results, BellSouth shall request that PanAmerican Telecommunications, Inc. set up a production (live) file. The live test may consist of PanAmerican Telecommunications, Inc.'s employees making test calls for the types of services PanAmerican Telecommunications, Inc. requests on ODUF. These test calls are logged by PanAmerican Telecommunications, Inc., and the logs are provided to BellSouth. These logs will be used to verify the files. Testing will be completed within 30 calendar days from the date on which the initial test file was sent.

#### 5. ACCESS DAILY USAGE FILE

- Upon written request from PanAmerican Telecommunications, Inc., BellSouth will provide the Access Daily Usage File (ADUF) service to PanAmerican Telecommunications, Inc. pursuant to the terms and conditions set forth in this section.
- PanAmerican Telecommunications, Inc. shall furnish all relevant information required by BellSouth for the provision of ADUF.
- 5.3 ADUF will contain access messages associated with a port that PanAmerican Telecommunications, Inc. has purchased from BellSouth
- 5.4 Charges for ADUF will appear on PanAmerican Telecommunications, Inc.'s monthly bills. The charges are as set forth in Exhibit A to this Attachment. All messages will be in the standard ATIS EMI record format.
- 5.5 Messages that error in the billing system of PanAmerican Telecommunications, Inc. will be the responsibility of PanAmerican Telecommunications, Inc. If, however, PanAmerican Telecommunications, Inc. should encounter significant volumes of errored messages that prevent processing by PanAmerican Telecommunications, Inc. within its systems, BellSouth will work with PanAmerican Telecommunications, Inc. to determine the source of the errors and the appropriate resolution.

- 5.6 ADUF Messages To Be Transmitted
- 5.6.1 The following messages recorded by BellSouth will be transmitted to PanAmerican Telecommunications, Inc.:
- 5.6.1.1 Recorded originating and terminating interstate and intrastate access records associated with a port.
- 5.6.1.2 Recorded terminating access records for undetermined jurisdiction access records associated with a port.
- 5.6.2 BellSouth will perform duplicate record checks on records processed to ADUF. Any duplicate messages detected will be dropped and not sent to PanAmerican Telecommunications. Inc..
- 5.6.3 In the event that PanAmerican Telecommunications, Inc. detects a duplicate on ADUF they receive from BellSouth, PanAmerican Telecommunications, Inc. will drop the duplicate message and will not return the duplicate to BellSouth.
- 5.6.4 ADUF Physical File Characteristics
- ADUF will be distributed to PanAmerican Telecommunications, Inc. via CONNECT:Direct or another mutually agreed medium. The ADUF feed will be a fixed block format (2476) with an LRECL of 2472. The data on the ADUF feed will be in a non-compacted EMI format (210 byte). It will be created on a daily basis Monday through Friday except holidays. Details such as dataset name and delivery schedule will be addressed during negotiations of the distribution medium. There will be a maximum of one dataset per workday per OCN.
- 5.6.4.2 Data circuits (private line or dial-up) will be required between BellSouth and PanAmerican Telecommunications, Inc. for the purpose of data transmission as set forth in Section 3.10.1 above.
- 5.6.5 ADUF Packing Specifications
- 5.6.5.1 A pack will contain a minimum of one message record or a maximum of 99,999 message records plus a pack header record and a pack trailer record. One transmission can contain a maximum of 99 packs and a minimum of one pack.
- The OCN, From RAO, and Invoice Number will control the invoice sequencing. The From RAO will be used to identify to PanAmerican Telecommunications, Inc. which BellSouth RAO is sending the message. BellSouth and PanAmerican Telecommunications, Inc. will use the invoice sequencing to control data exchange. BellSouth will be notified of sequence failures identified by PanAmerican Telecommunications, Inc. and resend the data as appropriate.

The data will be packed using ATIS EMI records.

# 5.6.6 ADUF Pack Rejection

PanAmerican Telecommunications, Inc. will notify BellSouth within one business day of rejected packs (via the mutually agreed medium). Packs could be rejected because of pack sequencing discrepancies or a critical edit failure on the Pack Header or Pack Trailer records (i.e. out-of-balance condition on grand totals, invalid data populated). Standard ATIS EMI error codes will be used. PanAmerican Telecommunications, Inc. will not be required to return the actual rejected data to BellSouth. Rejected packs will be corrected and retransmitted to PanAmerican Telecommunications, Inc. by BellSouth.

## 5.6.7 ADUF Control Data

PanAmerican Telecommunications, Inc. will send one confirmation record per pack that is received from BellSouth. This confirmation record will indicate PanAmerican Telecommunications, Inc.'s receipt of the pack and acceptance or rejection of the pack. Pack Status Code(s) will be populated using standard ATIS EMI error codes for packs that were rejected by PanAmerican Telecommunications, Inc. for reasons stated in the above section.

## 5.6.8 ADUF Testing

5.6.8.1 Upon request from PanAmerican Telecommunications, Inc., BellSouth shall send a test file of generic data to PanAmerican Telecommunications, Inc. via Connect:Direct or Text File via E-Mail. The Parties agree to review and discuss the test file's content and/or format.

Rights-of-Way, Conduits and Pole Attachments

# Rights-of-Way, Conduits and Pole Attachments

BellSouth will provide nondiscriminatory access to any pole, duct, conduit, or right-of-way owned or controlled by BellSouth pursuant to 47 U.S.C. § 224, as amended by the Act, pursuant to terms and conditions of a license agreement subsequently negotiated with BellSouth's Competitive Structure Provisioning Center.

## **ATTACHMENT 9**

### PERFORMANCE MEASUREMENTS

### PERFORMANCE MEASUREMENTS

Upon a particular Commission's issuance of an Order pertaining to Performance Measurements in a proceeding expressly applicable to all CLECs generally, BellSouth shall implement in that state such Performance Measurements as of the date specified by the Commission.

#### 1.0 PURPOSE

In the unlikely event of a disaster occurring that affects BellSouth's long-term ability to deliver traffic to a Competitive Local Exchange Carrier (CLEC), general procedures have been developed to hasten the recovery process. Since each location is different and could be affected by an assortment of potential problems, a detailed recovery plan is impractical. However, in the process of reviewing recovery activities for specific locations, some basic procedures emerge that appear to be common in most cases.

These general procedures should apply to any disaster that affects the delivery of traffic for an extended time period. Each CLEC will be given the same consideration during an outage and service will be restored as quickly as possible.

This document will cover the basic recovery procedures that would apply to every CLEC.

#### 2.0 SINGLE POINT OF CONTACT

When a problem is experienced, regardless of the severity, the BellSouth Network Management Center (NMC) will observe traffic anomalies and begin monitoring the situation. Controls will be appropriately applied to insure the sanity of BellSouth's network; and, in the event that a switch or facility node is lost, the NMC will attempt to circumvent the failure using available reroutes.

BellSouth's NMC will remain in control of the restoration efforts until the problem has been identified as being a long-term outage. At that time, the NMC will contact BellSouth's Emergency Control Center (ECC) and relinquish control of the recovery efforts. Even though the ECC may take charge of the situation, the NMC will continue to monitor the circumstances and restore traffic as soon as damaged network elements are revitalized.

The telephone number for the BellSouth Network Management Center in Atlanta, as published in Telcordia's National Network Management Directory, is 404-321-2516.

#### 3.0 IDENTIFYING THE PROBLEM

During the early stages of problem detection, the NMC will be able to tell which CLECs are affected by the catastrophe. Further analysis and/or first hand observation will determine if the disaster has affected CLEC equipment only; BellSouth equipment only or a combination. The initial restoration activity will be largely determined by the equipment that is affected.

Once the nature of the disaster is determined and after verifying the cause of the problem, the NMC will initiate reroutes and/or transfers that are jointly agreed upon by the affected CLECs' Network Management Center and the BellSouth NMC. The type and percentage of controls used will depend upon available network capacity. Controls necessary to stabilize the situation will be invoked and the NMC will attempt to re-establish as much traffic as possible.

For long term outages, recovery efforts will be coordinated by the Emergency Control Center (ECC). Traffic controls will continue to be applied by the NMC until facilities are re-established. As equipment is made available for service, the ECC will instruct the NMC to begin removing the controls and allow traffic to resume.

#### 3.1 SITE CONTROL

In the total loss of building use scenario, what likely exists will be a smoking pile of rubble. This rubble will contain many components that could be dangerous. It could also contain any personnel on the premises at the time of the disaster. For these reasons, the local fire marshal with the assistance of the police will control the site until the building is no longer a threat to surrounding properties and the companies have secured the site from the general public.

During this time, the majority owner of the building should be arranging for a demolition contractor to mobilize to the site with the primary objective of reaching the cable entrance facility for a damage assessment. The results of this assessment would then dictate immediate plans for restoration, both short term and permanent.

In a less catastrophic event, i.e., the building is still standing and the cable entrance facility is usable, the situation is more complex. The site will initially be controlled by local authorities until the threat to adjacent property has diminished. Once the site is returned to the control of the companies, the following events should occur.

An initial assessment of the main building infrastructure systems (mechanical, electrical, fire and life safety, elevators, and others) will establish building needs. Once these needs are determined, the majority owner should lead the building restoration efforts. There may be situations where the site will not be totally restored within the confines of the building. The companies must individually determine their needs and jointly assess the cost of permanent restoration to determine the overall plan of action.

Multiple restoration trailers from each company will result in the need for designated space and installation order. This layout and control is required to maximize the amount of restoration equipment that can be placed at the site, and the priority of placements.

Care must be taken in this planning to insure other restoration efforts have logistical access to the building. Major components of telephone and building equipment will need to be removed and replaced. A priority for this equipment must also be jointly established to facilitate overall site restoration. (Example: If the AC switchgear has sustained damage, this would be of the highest priority in order to regain power, lighting, and HVAC throughout the building.)

If the site will not accommodate the required restoration equipment, the companies would then need to quickly arrange with local authorities for street closures, rights of way or other possible options available.

#### 3.2 ENVIRONMENTAL CONCERNS

In the worse case scenario, many environmental concerns must be addressed. Along with the police and fire marshal, the state environmental protection department will be on site to monitor the situation.

Items to be concerned with in a large central office building could include:

- 1. Emergency engine fuel supply. Damage to the standby equipment and the fuel handling equipment could have created "spill" conditions that have to be handled within state and federal regulations.
- 2. Asbestos containing materials that may be spread throughout the wreckage. Asbestos could be in many components of building, electrical, mechanical, outside plant distribution, and telephone systems.
- 3. Lead and acid. These materials could be present in potentially large quantities depending upon the extent of damage to the power room.
- 4. Mercury and other regulated compounds resident in telephone equipment.
- 5. Other compounds produced by the fire or heat.

Once a total loss event occurs at a large site, local authorities will control immediate clean up (water placed on the wreckage by the fire department) and site access.

At some point, the companies will become involved with local authorities in the overall planning associated with site clean up and restoration. Depending on the clean up approach taken, delays in the restoration of several hours to several days may occur.

In a less severe disaster, items listed above are more defined and can be addressed individually depending on the damage.

In each case, the majority owner should coordinate building and environmental restoration as well as maintain proper planning and site control.

#### 4.0 THE EMERGENCY CONTROL CENTER (ECC)

The ECC is located in the Colonnade Building in Birmingham, Alabama. During an emergency, the ECC staff will convene a group of pre-selected experts to inventory the damage and initiate corrective actions. These experts have regional access to BellSouth's personnel and equipment and will assume control of the restoration activity anywhere in the nine-state area.

In the past, the ECC has been involved with restoration activities resulting from hurricanes, ice storms and floods. They have demonstrated their capabilities during these calamities as well as

during outages caused by human error or equipment failures. This group has an excellent record of restoring service as quickly as possible.

During a major disaster, the ECC may move emergency equipment to the affected location, direct recovery efforts of local personnel and coordinate service restoration activities with the CLECs. The ECC will attempt to restore service as quickly as possible using whatever means is available; leaving permanent solutions, such as the replacement of damaged buildings or equipment, for local personnel to administer.

Part of the ECC's responsibility, after temporary equipment is in place, is to support the NMC efforts to return service to the CLECs. Once service has been restored, the ECC will return control of the network to normal operational organizations. Any long-term changes required after service is restored will be made in an orderly fashion and will be conducted as normal activity.

#### 5.0 RECOVERY PROCEDURES

The nature and severity of any disaster will influence the recovery procedures. One crucial factor in determining how BellSouth will proceed with restoration is whether or not BellSouth's equipment is incapacitated. Regardless of who's equipment is out of service, BellSouth will move as quickly as possible to aid with service recovery; however, the approach that will be taken may differ depending upon the location of the problem.

#### 5.1 CLEC OUTAGE

For a problem limited to one CLEC (or a building with multiple CLECs), BellSouth has several options available for restoring service quickly. For those CLECs that have agreements with other CLECs, BellSouth can immediately start directing traffic to a provisional CLEC for completion. This alternative is dependent upon BellSouth having concurrence from the affected CLECs.

Whether or not the affected CLECs have requested a traffic transfer to another CLEC will not impact BellSouth's resolve to re-establish traffic to the original destination as quickly as possible.

#### **5.2 BELLSOUTH OUTAGE**

Because BellSouth's equipment has varying degrees of impact on the service provided to the CLECs, restoring service from damaged BellSouth equipment is different. The outage will probably impact a number of Carriers simultaneously. However, the ECC will be able to initiate immediate actions to correct the problem.

A disaster involving any of BellSouth's equipment locations could impact the CLECs, some more than others. A disaster at a Central Office (CO) would only impact the delivery of traffic to and from that one location, but the incident could affect many Carriers. If the Central Office is a Serving Wire Center (SWC), then traffic from the entire area to those Carriers served from that switch would also be impacted. If the switch functions as an Access Tandem, or there is a tandem in the building, traffic from every CO to every CLEC could be interrupted. A disaster that destroys a facility hub could disrupt various traffic flows, even though the switching equipment may be unaffected.

The NMC would be the first group to observe a problem involving BellSouth's equipment. Shortly after a disaster, the NMC will begin applying controls and finding re-routes for the

completion of as much traffic as possible. These reroutes may involve delivering traffic to alternate Carriers upon receiving approval from the CLECs involved. In some cases, changes in translations will be required. If the outage is caused by the destruction of equipment, then the ECC will assume control of the restoration.

#### 5.2.1 Loss of a Central Office

When BellSouth loses a Central Office, the ECC will

- a) Place specialists and emergency equipment on notice;
- b) Inventory the damage to determine what equipment and/or functions are lost;
- c) Move containerized emergency equipment and facility equipment to the stricken area, if necessary;
- d) Begin reconnecting service for Hospitals, Police and other emergency agencies; and
- e) Begin restoring service to CLECs and other customers.

#### 5.2.2 Loss of a Central Office with Serving Wire Center Functions

The loss of a Central Office that also serves as a Serving Wire Center (SWC) will be restored as described in Section 5.2.1.

#### 5.2.3 Loss of a Central Office with Tandem Functions

When BellSouth loses a Central Office building that serves as an Access Tandem and as a SWC, the ECC will

- a) Place specialists and emergency equipment on notice;
- b) Inventory the damage to determine what equipment and/or functions are lost;
- c) Move containerized emergency equipment and facility equipment to the stricken area, if necessary;
- d) Begin reconnecting service for Hospitals, Police and other emergency agencies;
- e) Re-direct as much traffic as possible to the alternate access tandem (if available) for delivery to those CLECs utilizing a different location as a SWC;
- f) Begin aggregating traffic to a location near the damaged building. From this location, begin re-establishing trunk groups to the CLECs for the delivery of traffic normally found on the direct trunk groups. (This aggregation point may be the alternate access tandem location or another CO on a primary facility route.)
- g) Begin restoring service to CLECs and other customers.

#### 5.2.4 Loss of a Facility Hub

In the event that BellSouth loses a facility hub, the recovery process is much the same as above. Once the NMC has observed the problem and administered the appropriate controls, the ECC will assume authority for the repairs. The recovery effort will include

- a) Placing specialists and emergency equipment on notice;
- b) Inventorying the damage to determine what equipment and/or functions are lost;
- c) Moving containerized emergency equipment to the stricken area, if necessary;
- d) Reconnecting service for Hospitals, Police and other emergency agencies; and
- e) Restoring service to CLECs and other customers. If necessary, BellSouth will aggregate the traffic at another location and build temporary facilities. This alternative would be viable for a location that is destroyed and building repairs are required.

#### **5.3 COMBINED OUTAGE (CLEC AND BELLSOUTH EQUIPMENT)**

In some instances, a disaster may impact BellSouth's equipment as well as the CLECs'. This situation will be handled in much the same way as described in Section 5.2.3. Since BellSouth and the CLECs will be utilizing temporary equipment, close coordination will be required.

#### 6.0 T1 IDENTIFICATION PROCEDURES

During the restoration of service after a disaster, BellSouth may be forced to aggregate traffic for delivery to a CLEC. During this process, T1 traffic may be consolidated onto DS3s and may become unidentifiable to the Carrier. Because resources will be limited, BellSouth may be forced to "package" this traffic entirely differently then normally received by the CLECs. Therefore, a method for identifying the T1 traffic on the DS3s and providing the information to the Carriers is required.

#### **7.0 ACRONYMS**

CO - Central Office (BellSouth)

DS3 - Facility that carries 28 T1s (672 circuits)

ECC - Emergency Control Center (BellSouth)

CLEC - Competitive Local Exchange Carrier

NMC - Network Management Center

SWC - Serving Wire Center (BellSouth switch)

T1 - Facility that carries 24 circuits

#### **Hurricane Information**

During a hurricane, BellSouth will make every effort to keep CLECs updated on the status of our network. Information centers will be set up throughout BellSouth Telecommunications. These centers are not intended to be used for escalations, but rather to keep the CLEC informed of network related issues, area damages and dispatch conditions, etc.

Hurricane-related information can also be found on line at <a href="http://www.interconnection.bellsouth.com/network/disaster/dis\_resp.htm">http://www.interconnection.bellsouth.com/network/disaster/dis\_resp.htm</a>. Information concerning Mechanized Disaster Reports can also be found at this website by clicking on CURRENT MDR REPORTS or by going directly to <a href="http://www.interconnection.bellsouth.com/network/disaster/mdrs.htm">http://www.interconnection.bellsouth.com/network/disaster/mdrs.htm</a>.

#### **BST Disaster Management Plan**

BellSouth maintenance centers have geographical and redundant communication capabilities. In the event of a disaster removing any maintenance center from service another geographical center would assume maintenance responsibilities. The contact numbers will not change and the transfer will be transparent to the CLEC.

## **Attachment 11**

**Bona Fide Request and New Business Requests Process** 

#### **BONA FIDE REQUEST AND NEW BUSINESS REQUESTS PROCESS**

- The Parties agree that PanAmerican Telecommunications, Inc. is entitled to order any Network Element, Interconnection option, service option or Resale Service required to be made available by the Communications Act of 1934, as modified by the Telecommunications Act of 1996 (the "Act"), FCC requirements or State Commission requirements. PanAmerican Telecommunications, Inc. also shall be permitted to request the development of new or revised facilities or service options which are not required by the Act. Procedures applicable to requesting the addition of such facilities or service options are specified in this Attachment 12.
- Bona Fide Requests ("BFR") are to be used when PanAmerican Telecommunications, Inc. makes a request of BellSouth to provide a new or modified network element, interconnection option, or other service option pursuant to the Act that was not previously included in the Agreement. New Business Requests ("NBRs") are to be used when PanAmerican Telecommunications, Inc. makes a request of BellSouth to provide a new or custom capability or function to meet PanAmerican Telecommunications, Inc.'s business needs that was not previously included in the Agreement. The BFR/NBR process is intended to facilitate the two-way exchange of information between PanAmerican Telecommunications, Inc. and BellSouth, necessary for accurate processing of requests in a consistent and timely fashion.
- A BFR shall be submitted in writing by PanAmerican Telecommunications, Inc. and shall specifically identify the required service date, technical requirements, space requirements and/or such specifications that clearly define the request such that BellSouth has sufficient information to analyze and prepare a response. Such a request also shall include a PanAmerican Telecommunications, Inc.'s designation of the request as being (i) pursuant to the Telecommunications Act of 1996 (i.e. a "BFR") or (ii) pursuant to the needs of the business (i.e. a "NBR"). The request shall be sent to PanAmerican Telecommunications, Inc.'s Account Executive.
- 4.0 Within thirty (30) business days of its receipt of a BFR or NBR from PanAmerican Telecommunications, Inc., BellSouth shall respond to PanAmerican Telecommunications, Inc. by providing a preliminary analysis of such Interconnection, Network Element, or other facility or service option that is the subject of the BFR or NBR. The preliminary analysis shall confirm that BellSouth will either offer access to the Interconnection, Network Element, or other facility or service option, or provide an explanation of why it is not technically feasible and/or why the

# ATTACHMENT 11 Page 3

request does not qualify as an Interconnection, Network Element, or is otherwise not required to be provided under the Act.

- PanAmerican Telecommunications, Inc. may cancel a BFR or NBR at any time. If PanAmerican Telecommunications, Inc. cancels the request more than three (3) business days after submitting it, PanAmerican Telecommunications, Inc. shall pay BellSouth's reasonable and demonstrable costs of processing and/or implementing the BFR or NBR up to the date of cancellation. If PanAmerican Telecommunications, Inc. does not cancel a BFR or NBR, PanAmerican Telecommunications, Inc. shall pay BellSouth's reasonable and demonstrable costs of processing and implementing the request.
- BellSouth shall propose a firm price quote and a detailed implementation plan within twenty-five (25) business days of PanAmerican Telecommunications, Inc.'s acceptance of the preliminary analysis.
- 7.0 If PanAmerican Telecommunications, Inc. accepts the preliminary analysis, BellSouth shall proceed with PanAmerican Telecommunications, Inc.'s BFR/NBR, and PanAmerican Telecommunications, Inc. agrees to pay the non-refundable amount identified in the preliminary analysis for the initial work required to develop the project plan, create the design parameters, and establish all activities and resources required to complete the BFR/NBR. These costs will be referred to as "development" costs. The development costs identified in the preliminary analysis are fixed. If PanAmerican Telecommunications. Inc. cancels a BFR/NBR after BellSouth has receivedPanAmerican Telecommunications, Inc.'s acceptance of the preliminary analysis, PanAmerican Telecommunications, Inc. agrees to pay BellSouth the reasonable, demonstrable, and actual costs, if any, directly related to complying with PanAmerican Telecommunications, Inc.'s BFR/NBR up to the date of cancellation, to the extent such costs were not included in the nonrefundable amount set forth above.
- 8.0 IfPanAmerican Telecommunications, Inc. believes that BellSouth's firm price quote is not consistent with the requirements of the Act, PanAmerican Telecommunications, Inc. may seek FCC or state Commission arbitration of its request, as appropriate. Any such arbitration applicable to Network Elements and/or Interconnection shall be conducted in accordance with standards prescribed in Section 252 of the Act.
- 9.0 Unless PanAmerican Telecommunications, Inc. agrees otherwise, all prices shall be consistent with the pricing principles of the Act, FCC and/or the State Commission.
- 10.0 If either Party to a BFR or NBR believes that the other Party is not requesting, negotiating, or processing the Bona Fide Request in good faith,

# ATTACHMENT 11 Page 5

or disputes a determination, or price or cost quote, such Party may seek FCC or state Commission resolution of the dispute, as appropriate.

Upon agreement to the terms of a BFR or NBR, an amendment to the Agreement may be required.
