

**AMENDMENT
TO THE
AGREEMENT BETWEEN
NETWORK TELEPHONE CORPORATION
AND
BELLSOUTH TELECOMMUNICATIONS, INC.
DATED JUNE 20, 2003**

Pursuant to this Amendment, (the "Amendment"), Network Telephone Corporation ("Network Telephone"), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated June 20, 2003 ("Agreement").

WHEREAS, BellSouth and Network Telephone entered into the Agreement on June 20, 2003, and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties desire to add provisions to meet the requirements of the Louisiana Public Service Commission Order in Docket #R-26173.
2. The Parties agree to add a new Section 2.10 to Attachment 2 of the Agreement, titled Provisioning of DSL over UNE-P and UNE Loops as set forth below:

2.10 Provisioning of DSL over UNE-P and UNE Loops in Louisiana

- 2.10.1 In Louisiana, in order to comply with the Louisiana Public Service Commission's Order in Docket No. R-26713, and notwithstanding any contrary provisions in this Agreement, BellSouth Tariff F.C.C. Number 1, or any other agreements or tariffs of BellSouth, BellSouth shall continue to provide BellSouth® FastAccess® Internet service ("FastAccess"), or wholesale Low Speed DSL ("wholesale ADSL") to the end-user who obtains voice service from Network Telephone over UNE-P and UNE loops.
- 2.10.2 If Network Telephone acquires the retail voice service on a UNE-P basis for an end-user served by BellSouth where the end-user subscribes to FastAccess, or wholesale ADSL at the time of such acquisition and Network Telephone's voice end-user desires BellSouth to continue to provide FastAccess to the end-user or wholesale ADSL to the end-user's ISP and has granted permission to Network Telephone to request on the end-user's behalf that FastAccess or wholesale ADSL continue to be provided, Network Telephone will follow the Local Ordering Handbook guidelines when ordering the UNE-P service. By allowing the ADL++ to remain on the line, Network Telephone grants BellSouth the right to use the high frequency portion of its loop without charge, for the provision of FastAccess or wholesale ADSL.

- 2.10.3 If Network Telephone wishes BellSouth to provide FastAccess or wholesale ADSL on the high frequency portion of a loop to a Network Telephone end-user served by UNE-P, and the end-user has granted permission to Network Telephone to request on the end-user's behalf that FastAccess or wholesale ADSL be provided, Network Telephone will include the UNE-P telephone number and ADL++ on the FastAccess or wholesale Low Speed DSL order for the UNE-P account. By including this ADL++ on the FastAccess or wholesale Low Speed DSL order, Network Telephone grants BellSouth the right to use the high frequency portion of its loop without charge, for the provision of FastAccess or wholesale ADSL. This assumes that the existing loop will qualify for FastAccess or wholesale ADSL. If the loop does not qualify for FastAccess or wholesale ADSL, FastAccess or wholesale ADSL will not be available for that end-user.
- 2.10.4 If Network Telephone acquires the voice and data services on a UNE loop basis for an end-user currently served by BellSouth, where the end-user subscribes to BellSouth FastAccess or has DSL service from an ISP that uses wholesale ADSL, and Network Telephone desires a seamless transition of the BellSouth voice and data services to the voice and data services of the CLEC, then Network Telephone shall order a UNE loop with the Order Coordination (OC) feature. The OC feature allows for a "hot cut" from the end user's existing service to the CLEC's UNE loop in a coordinated manner so that the required interruption of the end user's voice and data services are limited to a 15 minute window. Some UNE loops include the OC feature as a standard function that is included in the non-recurring charge of the loop itself, and other loops offer OC as separate feature with an additional charge. Furthermore, the CLEC may also order the Order Coordination – Time Specific (OC-TS) feature. The OC-TS feature allows the CLEC to specify the time in which the "hot-cut" takes place. OC-TS is a chargeable option on all loop types. In all cases where the CLEC desires a seamless transition for the end-user, the CLEC is responsible for ensuring that its dial tone and data service is available on its specified collocation cross-connect prior to the conversion time.
3. The Parties agree to add new ADL++ USOCs to Exhibit B rates to Attachment 2-UNEs with the ADL++ USOCs as set forth in Exhibit 1 of this Amendment, attached hereto and incorporated herein by this reference.
 4. The Parties agree to add Virtual Collocation rates for Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, South Carolina and Tennessee to Exhibit B of Attachment 4 as set forth in Exhibit 2 of this Amendment, attached hereto and incorporated herein by this reference.
 5. The Parties agree to add Operator Service, Directory Assistance and Inward Operator Services rates for North Carolina to Exhibit B of Attachment 2, as set forth in Exhibit 3 of this Amendment, attached hereto and incorporated herein by this reference.
 6. This Agreement shall be deemed effective June 20, 2003.

- 7 All of the other provisions of the Agreement, dated June 20, 2003, shall remain in full force and effect.
8. Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Agreement the day and year written below.
