AGREEMENT

This Agreement, which shall become effective thirty calendar days following the date of the last signature of both Parties ("Effective Date"), is entered into by and between Metro-Teleconnect Companies, Inc., ("Metro-Teleconnect") a Pennsylvania corporation on behalf of itself, and BellSouth Telecommunications, Inc., ("BellSouth"), a Georgia corporation, having an office at 675 W. Peachtree Street, Atlanta, Georgia, 30375, on behalf of itself and its successors and assigns.

WHEREAS, the Telecommunications Act of 1996 (the "Act") was signed into law on February 8, 1996; and

WHEREAS, section 252(i) of the Act requires BellSouth to make available any interconnection, service, or network element provided under an agreement approved by the appropriate state regulatory body to any other requesting telecommunications carrier upon the same terms and conditions as those provided in the agreement in its entirety; and

WHEREAS, Metro-Teleconnect has requested that BellSouth make available, in its entirety, the interconnection agreement executed between BellSouth and AT&T Communications of the Southern States, Inc. dated July 20, 2001, for the state of Kentucky ("AT&T Kentucky Agreement").

NOW, THEREFORE, in consideration of the promises and mutual covenants of this Agreement, Metro-Teleconnect and BellSouth hereby agree as follows:

- 1. With the exceptions noted in paragraphs 2 7 below, Metro-Teleconnect and BellSouth shall adopt in its entirety the AT&T Kentucky Agreement and any and all amendments to said agreement executed and approved by the appropriate state regulatory commission as of the date of the execution of this Agreement between BellSouth and Metro-Teleconnect.
- 2. The Parties hereby agree to delete, in their entirety, Attachment 8, Rights of Way, Conduits and Pole Attachments, and Attachment 13, BAPCO Agreement. The Parties further agree to replace Attachment 8 with a new Attachment 8, provided and incorporated herein as Exhibit 1 to this Agreement between BellSouth and Metro-Teleconnect.
- 3. The Parties agree to delete Attachment 3, Sections 5.3.1.1, 5.3.2, 5.3.3 5.3.3.4, 5.3.4, 5.3.5, 5.3.10 and 5.3.11, as amended on April 18, 2002, and replace them with Sections 5.3.1.1, 5.3.1.1.1, 5.3.2, 5.3.3, 5.3.4, 5.3.5,

- 5.3.10, 5.3.11, and 5.3.11.1 as provided and incorporated herein in Exhibit 2 of this Agreement between BellSouth and Metro-Teleconnect.
- 4. The Parties agree to delete Sections 1.1.7 –1.1.7.7 of Attachment 6 in their entirety and replace them with Section 1.1.7 as set forth below:
 - 1.1.7 Deposit Policy. Metro-Teleconnect shall complete the BellSouth Credit Profile and provide information to BellSouth regarding credit worthiness. Based on the results of the credit analysis, BellSouth reserves the right to secure the account with a suitable form of security deposit. Such security deposit shall take the form of cash. an Irrevocable Letter of Credit (BellSouth form), Surety Bond (BellSouth form) or, in BellSouth's sole discretion, some other form of security. Any such security deposit shall in no way release Metro-Teleconnect from its obligation to make complete and timely payments of its bill. Metro-Teleconnect shall pay any applicable deposits prior to the inauguration of service. If, in the sole opinion of BellSouth, circumstances so warrant and/or gross monthly billing has increased beyond the level initially used to determine the level of security deposit, BellSouth reserves the right to request additional security and/or file a Uniform Commercial Code (UCC-1) security interest in Metro-Teleconnect's "accounts receivables and proceeds." Interest on a security deposit, if provided in cash, shall accrue and be paid in accordance with the terms in the appropriate BellSouth tariff. Security deposits collected under this Section shall not exceed two months' estimated billing. In the event Metro-Teleconnect fails to remit to BellSouth any deposit requested pursuant to this Section, service to Metro-Teleconnect may be terminated in accordance with the terms of Section 1.17 of this Attachment, and any security deposits will be applied to Metro-Teleconnect's account(s). In the event Metro-Teleconnect defaults on its account, service to Metro-Teleconnect will be terminated and any security deposits will be applied to Metro-Teleconnect's account.
- 5. The parties wish to incorporate provisions for CLEC to CLEC Conversions for Unbundled Loops into the Agreement. The parties therefore agree to add the following Section 3.5.5 to Attachment 2.

3.5.5 CLEC to CLEC Conversions for Unbundled Loops

3.5.5.1 The CLEC to CLEC conversion process for unbundled Loops may be used by Metro-Teleconnect, Inc. when converting an existing unbundled Loop from another CLEC for the same end user. The

- Loop type being converted must be included in Metro-Teleconnect, Inc.'s Interconnection Agreement before requesting a conversion.
- 3.5.5.2 To utilize the CLEC to CLEC conversion process, the Loop being converted must be the same Loop type with no requested changes to the Loop, must serve the same end user location from the same serving wire center, and must not require an outside dispatch to provision.
- 3.5.5.3 The Loops converted to Metro-Teleconnect, Inc. pursuant to the CLEC to CLEC conversion process shall be provisioned in the same manner and with the same functionality and options as described in this Attachment for the specific Loop type
 - 6. The Parties wish to incorporate the rates ordered by the Kentucky Public Service Commission in Administrative Case No. 382. The Parties therefore agree to delete the rate sheets for Attachments 1, 2, 3, 4 and 7 of the AT&T Kentucky Agreement and to replace them in their entirety with new rate sheets for these attachments. Such rate sheets are attached hereto as Exhibit 3.
- 7. The Parties agree to delete section 3.23 of Attachment 1 in its entirety and replace it with the language below:
 - 3.23 Notwithstanding the foregoing, BellSouth may provide Metro-Teleconnect notice via Internet posting of price changes and changes to the terms and conditions of services available for resale per Commission Orders. BellSouth will also post changes to business processes and policies, notices of new service offerings, and changes to service offerings not requiring an amendment to this Agreement, notices required to be posted to BellSouth's website, and any other information of general applicability to CLECs.
- 8. The AT&T Kentucky Agreement and all amendments are attached hereto as Exhibit 4 and incorporated herein by this reference. The adoption of this agreement with amendment(s) consists of the following:

- 9. In the event that Metro-Teleconnect consists of two (2) or more separate entities as set forth in the preamble to this Agreement, all such entities shall be jointly and severally liable for the obligations of Metro-Teleconnect under this Agreement.
- 10. The term of this Agreement shall be from the effective date as set forth above and shall expire as set forth in section 2.1 of the AT&T Kentucky Agreement. For the purpose of determining the expiration date of this Agreement, pursuant to section 2.1 of the AT&T Agreement, the effective date shall be July 20, 2001.
- 11. Metro-Teleconnect shall accept and incorporate any amendments to the AT&T Communications of the Southern States, Inc. Interconnection Agreement executed as a result of any final judicial, regulatory, or legislative action.
- 12. Every notice, consent, approval, or other communications required or contemplated by this Agreement shall be in writing and shall be delivered in person or given by postage prepaid mail, address to:

Attachment 8

Rights-of-Way, Conduits and Pole Attachments

Rights-of-Way, Conduits and Pole Attachments

BellSouth will provide nondiscriminatory access to any pole, duct, conduit, or right-of-way owned or controlled by BellSouth pursuant to 47 U.S.C. § 224, as amended by the Act, pursuant to terms and conditions of a license agreement subsequently negotiated with BellSouth's Competitive Structure Provisioning Center.

EXHIBIT 2

5.3 INTERCONNECTION COMPENSATION

- 5.3.1.1 For reciprocal compensation between the Parties pursuant to this Attachment, Local Traffic is defined as any circuit switched call that is originated by an end user of one Party and terminated to an end user of the other Party within a given LATA on that other Party's network, except for those calls that are originated or terminated through switched access arrangements (i.e., traffic that is exchanged over switched access trunk groups). Additionally, Local Traffic includes any cross boundary, voice-to-voice intrastate, interLATA or interstate, interLATA calls established as a local call by the ruling regulatory body. ISP-bound Traffic is defined as calls to an information service provider or Internet service provider ("ISP") that are dialed by using a local dialing pattern (7 or 10 digits) by a calling party in one LATA to an ISP server or modem in the same LATA. ISP-bound Traffic is not Local Traffic subject to reciprocal compensation, but instead is information access traffic subject to the FCC's jurisdiction.
- 5.3.1.1.1 Notwithstanding the definitions of Local Traffic and ISP-bound traffic above, and pursuant to the FCC's Order on Remand and Report and Order in CC Docket 99-68 released April 27, 2001 ("ISP Order on Remand"), BellSouth and Metro-Teleconnect. agree to the rebuttable presumption that all combined circuit switched Local and ISP-bound Traffic delivered to BellSouth or Metro-Teleconnect. that exceeds a 3:1 ratio of terminating to originating traffic on a statewide basis shall be considered ISP-bound traffic for compensation purposes. BellSouth and Metro-Teleconnect. further agree to the rebuttable presumption that all combined circuit switched Local and ISP-bound Traffic delivered to BellSouth or Metro-Teleconnect. that does not exceed a 3:1 ratio of terminating to originating traffic on a statewide basis shall be considered Local Traffic for compensation purposes.
- The Parties shall provide for the mutual and reciprocal recovery of the costs for the network facilities utilized in transporting and terminating Local Traffic on each other's network.
- 5.3.3 The Parties agree that charges for transport and termination of Local Traffic on their respective networks are as set forth in Exhibit A to this Attachment
- 5.3.4 Neither Party shall pay compensation to the other Party for per minute of use rate elements associated with the Call Transport and Termination of ISP-bound Traffic
- 5.3.5 The appropriate elemental rates set forth in Exhibit A of this Attachment shall apply for Transit Traffic as described in Section 5.3.20 below.
- 5.3.10 Switched Access Traffic. Switched Access Traffic is described as telephone calls requiring local transmission or switching services for the purpose of the origination or termination of Telephone Toll Service. Switched Access Traffic includes, but is not limited to, the following types of traffic: Feature Group A, Feature Group B, Feature Group C, Feature Group D, toll free access (e.g., 8XX), 900 access and their successors. Additionally, any Public Switched Telephone Network interexchange telecommunications traffic, regardless of transport protocol method, where the originating and terminating points, end-to-end points, are in different LATAs, or are in the same LATA and the Parties' Switched Access services are used for the origination or termination of the call, shall be

BellSouth/Metro-Teleconnect Agreement Exhibit 2 considered Switched Access Traffic. Irrespective of transport protocol method used, a call which originates in one LATA and terminates in another LATA (i.e., the end-to-end points of the call) or in which the Parties' Switched Access Services are used for the origination or termination of the call, shall not be considered Local Traffic or ISP-bound Traffic. If the BellSouth end user chooses Metro-Teleconnect. as their presubscribed interexchange carrier, or if the BellSouth end user uses Metro-Teleconnect. as an interexchange carrier on a 101XXXX basis, BellSouth will charge Metro-Teleconnect. the appropriate BellSouth tariff charges for originating switched access services. Neither Party shall represent Switched Access Traffic as Local Traffic or ISP-bound Traffic for purposes of determining compensation for the call.

- 5.3.11 If Metro-Teleconnect. assigns NPA/NXXs to specific BellSouth rate centers within the LATA and assigns numbers from those NPA/NXXs to Metro-Teleconnect. end users physically located outside of that LATA, BellSouth traffic originating from within the LATA where the NPA/NXXs are assigned and delivered to a Metro-Teleconnect. customer physically located outside of such LATA, shall not be deemed Local Traffic. Further, Metro-Teleconnect. agrees to identify such interLATA traffic to BellSouth and to compensate BellSouth for originating and transporting such interLATA traffic to Metro-Teleconnect. at BellSouth's switched access tariff rates.
- 5.3.11.1 If Metro-Teleconnect. does not identify such interLATA traffic to BellSouth, to the best of BellSouth's ability BellSouth will determine which whole Metro-Teleconnect. NPA/NXXs on which to charge the applicable rates for originating network access service as reflected in BellSouth's Access Service Tariff. BellSouth shall make appropriate billing adjustments if Metro-Teleconnect. can provide sufficient information for BellSouth to determine whether or not said traffic is Local Traffic.
