Dear Terri:

In accordance with the timeframe stated within Terms and Conditions of the contract, in July 2002, BellSouth Telecommunications, Inc. expressed its interest to Teligent Services, Inc. in commencing the renegotiations of the Interconnection Agreement between the two Parties. The basis for the renegotiations has been the current BellSouth Standard Interconnection Agreement. This Standard Agreement is utilized so that the new agreement might reflect the various changes established by court orders, along with recent developments in industry standards, subsequent to signing the original agreement.

Due to Teligent's bankruptcy proceeding being finalized, and Teligent rejecting all of BellSouth's contracts, the existing Interconnection Agreement between the Parties will be terminated upon its expiration date, December 31, 2002. Pursuant to Section 4.4 of the Parties agreement, if no subsequent agreement has been entered into as of the date of expiration of the existing agreement, and the Parties have not agreed to an extension or no arbitration has been filed, then either Party can terminate the agreement upon 60 days notice. Please accept this as such notification and that any remaining service to your customers via BellSouth's network architecture will be terminated upon the expiration date.

If you have any questions or concerns, please give me a call at (404) 927-7596.

Regards,

Nicole Bracy
