

**Amendment to the Agreement  
Between  
KMC Data, LLC  
and  
BellSouth Telecommunications, Inc.  
Dated June 30, 2005**

Pursuant to this Amendment, (the "Amendment"), KMC Data, LLC ("KMC Data"), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated June 30, 2005 ("Agreement") to be effective 30 days after the date of the last signature executing the Amendment.

WHEREAS, BellSouth and KMC Data entered into the Agreement on June 30, 2005, and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

1. The Parties mutually agree to delete in its entirety Attachment 3 Network Interconnection Rates of the Interconnection Agreement and replace with Attachment 3, attached hereto into this Amendment to be effective June 30, 2005.
2. The Parties mutually agree to delete and replace Attachment 1 Resale, North Carolina Ordered rates.
3. The Parties mutually agree to delete and replace Attachment 2 Network Elements, Exhibit A, North Carolina Ordered rates.
4. The Parties agree to delete the Signaling (CCS7) Rates in Attachment 2 in their entirety and to replace with the rates in Exhibit A.
5. All of the other provisions of the Agreement, dated June 30, 2005, shall remain in full force and effect.
6. Either or both of the Parties are authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties have executed this Amendment the day and year written below.

The OSS charges currently contained in this rate exhibit are the BellSouth "regional" service ordering charges. CLEC may elect either the state specific Commission ordered rates for the service ordering charges, or CLEC may elect the regional service ordering charge, however, CLEC can not obtain a mixture of the two regardless if CLEC has a interconnection contract established in each of the 9 states.                                                     |                                                                  |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                      |       |           |              |        |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |

Please refer to BellSouth's Local Ordering Handbook (LOH) to determine if a product can be ordered electronically. For those elements that cannot be ordered electronically at present per the LOH, the listed SOMEc rate in this category reflects the charge that would be billed to a CLEC once electronic ordering capabilities come on-line for that element. Otherwise, the manual ordering charge, SOMAN, will be applied to a CLECs bill when it submits an LSR to BellSouth. |                                                                  |         |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                      |       |           |              |        |                         |                                  |                                      |                                                          |                                                            |                                                               |                                                                 |
