American fiber is out

I would say that it is fine to inactivate based on the email.

Jim:

We were trying to obtain the 2010 GORs for American Fiber Network (CLEC & LD) and CloseCall America (CLEC) and finally received emails on 6/1 and 6/2 advising us that the companies no longer have assets/employees and therefore do not exist. Can we consider the emails from the company enough to go ahead and inactivate their records? Each company has Interconnection Agreements on file and American Fiber Network also appears to have tariffs.

America Fiber Network, Inc

To whom it may concern:

In December 2010, the Company was forced to sell its assets by its senior secured creditor who held a lien on all of the Company's assets. The proceeds from the asset sale were received by the Company's senior secured creditor in partial satisfaction of the outstanding debt. The Company was subsequently liquidated in March 2011 and no longer has any assets or employees. As a result, the Company no longer exists and cannot honor any requests for information or any additional claims for payment.
