Dear Governor,

I'm writing to you once again,
concerned about the revised power contract.
The economic situation has worsened since I
last wrote and layoffs & shutdowns are
happening all across the country.

I work at Alcan and I'm concerned
at our chances of surviving through all of this.
I'm asking you to please step in to get
this power contract completed or it looks
like we won't survive. I've enclosed the
article that was in the Henderson paper
about two smelters that are closing, one
because of not being able to get affordable
power.

Please help in getting this very
important issue solved before it is too
late.

Thank you,
Gary Bowler
