Telecommunications Relay Service  
For Individuals with Hearing and Speech  
Disabilities in Kentucky

1.1 Regulation

On 04/15/91, the Kentucky Public Service Commission approved a program for Telecommunications Relay Service ("TRS") pursuant to KRS 278.548. This service provides telephone communications between deaf and hearing/speech impaired customers who use telecommunications devices for the deaf ("TDD") and all customers who use standard voice telephones. The service will begin operation on October 1, 1991.

On January 19, 1995 the KY PSC directed all telephone companies in Kentucky to establish a 1 cent per month per access line surcharge in addition to the original TRS surcharge, for the funding of Telecommunications Access (TAP) Program.

The Kentucky Telecommunications Relay Service will operate 24 hours a day, seven days a week. Customers can access the center using toll-free numbers.

To launch the service, the Kentucky Public Service Commission ordered all telephone companies in Kentucky to collect a monthly surcharge from their customers beginning July, 1991.

1.2 Rate

The amount of the TRS surcharge is .02 cents per month per "access line". In addition to the TRS surcharge there will be a surcharge of .02 cent per month per access line for the funding of the Telecommunications Access (TAP) Program. Local rates, if any, will apply. Long distance calls will be charged as normal. Long distances calls will be rated from the originating point to the terminating point of the call and will receive a discount in addition to other applicable discounts.
