Frankfort, KY 40602

RECEIVED

SEP 30 2009

PUBLIC SERVICE  
COMMISSION

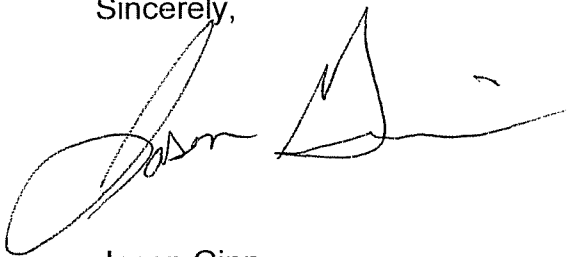

Re: Case No. 2008-0069

Dear Mr Bertelson :

Enclosed is a copy of the all certificates and additional information concerning the training classes completed by Jason Ginn between March 2009 and September 2009. This is done in accordance with Item 7 of the settlement agreement dated September 29, 2008.

If you have any questions or need further information please feel free to contact me at (502)643-2778 or by e-mail at [jason@shelbyenergy.com](mailto:jason@shelbyenergy.com).

Sincerely,

Jason Ginn

Safety & Loss Control  
Coordinator

From: Mike Gibson - President STG

To: March 10, OSHA Ten hour T&D Tran the Trainer Participants

Thank you for participating in what I think is one of the most important programs ever developed for our industry! We encourage you to use this valuable program to help improve the knowledge and skill of all your employees. You can use the OSHA guidelines to issue the Construction 10 hour card, or just use the program as a valuable training and documentation resource.

Your participation, input, and feedback will be a valuable resource as we continue to look for ways to improve the program.

(Please find enclosed a list of classes and presentations we can offer to you and your team).

Thanks again for your participation!

## Joint-Use Week Seminars

### Part 1: Joint-Use Line Clearances (1.32 CEUs)

June 22-23, 2009

- ◆ Introduction
- ◆ Organization of the NESC
- ◆ Utility Responsibilities: How to use the Grandfather Clause
- ◆ Definitions and references
- ◆ Development of overhead clearances
- ◆ Vertical clearances of lowest wires or cables above ground rails and water
- ◆ Vertical & horizontal clearances between wires, conductors & cables
  - at the pole
  - in the span
- ◆ Using sag & tension calculations
- ◆ Effects of differences in sags & tensions on clearances & roads
- ◆ Calculations of required clearances at poles for various spans, types & sizes of power conductors & cables and telephone & CATV cables
  - supply space
  - communication space
  - communication worker safety zone
- ◆ Special considerations for fiber-optic cables
- ◆ Selection of pole heights for various spans & configurations
- ◆ Adding cables or conductors to existing lines
  - Effects of overlashed cables
- ◆ Determining appropriate clearance specifications & loading limits in joint-use contracts
- ◆ Practical consideration of: effects of difficulties in obtaining desired sag/tensions & guying tensions, long spans next to short spans, etc.
- ◆

### Part 2: Loading Strengths & Calculations (1.32 CEUs)

June 24-25, 2009

- ◆ Practical consideration of: effects of difficulties in obtaining desired sag/tensions & guying tensions, long spans next to short spans, etc.
- ◆ Using sag & tension calculations
- ◆ Required grades of construction
- ◆ Calculating the strength of poles & crossarms
  - at groundline
  - at supply space
  - at bolt holes
  - at intermediate points
- ◆ Required strength factors
- ◆ Calculating required pole strength class for various configurations
- ◆ Guying deadends and angles, including required guy strength & effects on poles
- ◆ Buckling strength for deadend, angle & transformer poles
- ◆ Calculating maximum spans for various configurations
- ◆ Adding cables or conductors to existing lines & effects of overlashed cables
- ◆ Determining appropriate clearance specifications & loading limits in joint-use contracts
- ◆ Calculating bending stresses caused by guys on poles
- ◆ Calculating the limitations on use of sidewalk street guys & pole push braces

The Continuing Education Unit is a nationally recognized unit of measure for continuing education programs. One CEU = 10 class contact hours (excluding breaks) = 10 PDH/CLE units.

# Certificate of Continuing Education

The Continuing Education Program at  
Power & Communication Utility Training Center  
hereby awards

**Jason Ginn**

2.64 Continuing Education Units  
for successfully completing the workshops

**1) Joint-Use Line Clearances and  
2) Loading Strengths & Calculations  
from Joint-Use Week 2009**

on June 22-25, 2009

This, the 30th day of June, 2009
